HIGHLIGHTS/SUMMARY OF THE SCHEME

INVESTMENT OBJECTIVE

The primary objective of the Scheme is to seek to generate income by investing in a portfolio of fixed income securities/debt instruments. The secondary objective of the Scheme is to generate long term capital appreciation by investing a portion of the Scheme's assets in equity and equity related instruments.

However, there can be no assurance that the investment objective of the Scheme will be realized.

LIQUIDITY

Repurchase facility

No redemption/repurchase of units shall be allowed prior to the maturity of this Close - ended Scheme. Investors wishing to exit may do so, only in demat mode, by selling through BSE or any of the stock exchange(s) where the Units of the Scheme will be listed as the Trustee may decide from time to time.

BENCHMARK

The performance of the Scheme will be benchmarked as

CRISIL Composite Bond Fund Index (80%) and Nifty 50 Index (20%).

The Trustees reserve the right to change the benchmark in future if a benchmark better suited to the investment objective of the Scheme is available.

TRANSPARENCY/NAV DISCLOSURE

The AMC will calculate and disclose the first NAV within 5 working days from the date of allotment. Subsequently, the NAV will be calculated and disclosed at the close of every Business Day. NAV shall be published in at least two daily newspapers having circulation all over India on daily basis. The AMC shall disclose portfolio of the Scheme on the website www.icicipruamc.com along with ISIN on a monthly basis as on last day of each month, on or before tenth day of the succeeding month. As required under SEBI (Mutual Funds) Regulations, 1996, portfolio of the Scheme would be published in one English daily Newspaper circulating in the whole of India and in a newspaper published on a half yearly basis in the language of the region where the Head office of the Mutual Fund is situated within one month from the close of each half year (March 31 and September 30). The Mutual Fund shall also disclose the full portfolio of the Scheme at least on a half-yearly basis on the website of AMC and AMFI. Since the Scheme is a new Scheme, Top 10 holdings and sector wise holdings are not available.

AMC shall update the NAVs on the website of Association of Mutual Funds in India - AMFI (www.amfiindia.com) and on the mutual fund website – www.icicipruamc.com by 9:00 p.m. on every Business Day. In case of any delay, the reasons for such delay would be explained to AMFI and SEBI by the next day. If the NAVs are not available before commencement of business hours on the following day due to any reason, the Fund shall issue a press release providing reasons and explaining when the Fund would be able to publish the NAVs.

LOAD STRUCTURE

Entry Load	Not Applicable. In terms of circular no. SEBI/IMD/CIR No. 4/168230/09 dated June 30, 2009, SEBI has notified that w.e.f. August 01, 2009 there will be no entry load charged to the Schemes of the Mutual Fund and the upfront commission to distributors will be paid by the investor directly to the distributor, based on his assessment of various factors including the service rendered by the distributor
Exit Load	Since the Scheme would be listed on the stock exchange, exit load will not be applicable. Investors shall note that the brokerage on sales of the units of the Scheme on the stock exchanges shall be borne by the investors.

MINIMUM APPLICATION AMOUNT

Rs 5,000 & in multiples of Rs.10 thereafter. The minimum application amount applies to switch in transactions during New Fund Offer also.

MATURITY

The tenure of the Scheme will be 1228 days from the date of allotment of units under the Scheme.

The Scheme will come to an end on the maturity date. If the maturity date falls on a non business day, the immediately following business day will be considered as the maturity date for the Scheme. On maturity of the Scheme, the outstanding units shall be redeemed and proceeds will be paid to the unitholder.

The trustees reserve the right to suspend/deactivate/freeze trading, ISIN of the Scheme. With respect to closure of the Scheme at the time of maturity, trading of units on stock exchange will automatically get suspended from the effective date mentioned in the notice. The proceeds on maturity will be payable to the persons whose names are appearing in beneficiary position details received from depositories after the suspension/deactivation /freezing of ISIN.

Maturity proceeds would be payable to investors as per the bank details provided in beneficiary position details received from depositories in case of units held in demat form.

The Scheme shall be fully redeemed at the end of the maturity period.

MATURITY PROCEEDS TO NRI INVESTORS

NRI investors shall submit Foreign Inward Remittance Certificate (FIRC) along with Broker contract note of the respective broker through whom the transaction was effected, for releasing redemption proceeds on maturity. Redemption proceeds shall not be remitted until the aforesaid documents are submitted and the AMC/Mutual Fund/Registrar shall not be liable for any delay in paying redemption proceeds.

In case of non-submission of the aforesaid documents the AMC reserves the right to deduct the tax at the highest applicable rate without any intimation by AMC/Mutual Fund/Registrar.

REPATRIATION FACILITY

Non-Resident Indians (NRIs)/Person of Indian Origins (PIOs)/Foreign Institutional Investors (FIIs) have been granted a general permission by RBI [Schedule 5 of the Foreign Exchange

Management (Transfer or Issue of Security by a Person Resident Outside India) Regulations, 2000] for investing in / redeeming units of the schemes subject to conditions set out in the aforesaid regulations.

ELIGIBILITY FOR TRUSTS

Religious and Charitable Trusts are eligible to invest in certain securities, under the provisions of Section 11(5) of the Income Tax Act, 1961 read with Rule 17C of the Income-tax Rules, 1962 subject to the provisions of the respective constitutions under which they are established permits to invest.

Further, the Trustee at its sole discretion may also declare interim dividend. However, it must be distinctly understood that the actual declaration of dividend and the frequency thereof will inter-alia, depend on the availability of distributable profits as computed in accordance with SEBI Regulations. The decision of the Trustee in this regard shall be final. On payment of

dividends, the NAV will stand reduced by the amount of dividend and dividend tax (if applicable) paid.

I. INTRODUCTION

A. RISK FACTORS

Standard Risk Factors:

- Investment in Mutual Fund Units involves investment risks such as trading volumes, settlement risk, liquidity risk, default risk including the possible loss of principal.
- As the price / value / interest rates of the securities in which the scheme invests fluctuates, the value of your investment in the Scheme may go up or down.
- Past performance of the Sponsor/AMC/Mutual Fund does not guarantee future performance of the Scheme.
- The name of the Scheme does not in any manner indicate either the quality of the Scheme or its future prospects and returns.
- The Sponsors are not responsible or liable for any loss resulting from the operation of the Scheme beyond the initial contribution of Rs. 22.2 lacs collectively made by them towards setting up the Scheme and such other accretions and additions to the corpus set up by the Sponsors.
- ICICI Prudential Multiple Yield Fund – Series 14 – Plan A 1228 Days is the name of the Scheme and does not in any manner indicate either the quality of the Scheme or its future prospects and returns.
- The NAVs of the Scheme may be affected by changes in the general market conditions, factors and forces affecting capital market in particular, level of interest rates, various market related factors and trading volumes, settlement periods and transfer procedures.
- The liquidity of the Schemes' investments is inherently restricted by trading volumes in the securities in which it invests.
- Changes in Government policy in general and changes in tax benefits applicable to mutual funds may impact the returns to Investors in the Scheme.
- From time to time and subject to the Regulations, the Sponsors, the Mutual Funds and investment companies managed by them, their affiliates, their associate companies, subsidiaries of the Sponsors, and the AMC may invest either directly or indirectly in the Scheme. The funds managed by these affiliates, associates, the Sponsors, subsidiaries of the Sponsors and /or the AMC may acquire a substantial portion of the Scheme's Units and collectively constitute a major investor in the Scheme.
- The Scheme may invest in other schemes managed by the AMC or in the schemes of any other Mutual Funds, provided it is in conformity to the investment objectives of the Scheme and in terms of the prevailing Regulations. As per the Regulations, no investment management fees will be charged for such investments.
- From time to time and subject to the regulations, the AMC may invest in this Scheme. Further, as per SEBI (Mutual Funds) Regulations, 1996, in case the AMC invests in this scheme or any of the schemes managed by it, it shall not be entitled to charge any fees on such investments.
- Mutual funds being vehicles of securities investments are subject to market and other risks and there can be no guarantee against loss resulting from investing in the Schemes. The various factors which impact the value of the Scheme's investments include, but are not limited to, fluctuations in the bond markets, fluctuations in interest rates, prevailing political and economic environment, changes in government policy, factors specific to the issuer of the securities, tax laws in various countries, liquidity of the underlying instruments, settlement periods, trading volumes overseas etc.
- Different types of securities in which the Scheme would invest as given in the Scheme Information Document carry different levels and types of risk. Accordingly the Scheme's risk may increase or decrease depending upon its investment pattern. E.g. corporate bonds carry a higher amount of risk than Government securities. Further even among

corporate bonds, bonds which are AAA rated are comparatively less risky than bonds which are AA rated.

- The Scheme may invest in ADRs/GDRs, equity of overseas companies listed on recognized stock exchanges overseas and other securities in accordance with the provisions of SEBI Circular No. SEBI/IMD/CIR No. 7/104753/07 dated September 26, 2007 and SEBI/IMD/CIR No. 122577/08 dated April 8, 2008, subject to a maximum of US\$ 300 million per mutual fund and as per the provisions of para 4 (h) of the said circular, the limit of 5% of Net Assets and the prohibition of charging of fees shall not be applicable to investments in mutual funds in foreign countries made in accordance with the guidelines as per the above circular. However, management fees and other expenses charged by the mutual fund (s) in foreign countries along with the management fee and recurring expenses charged to the domestic mutual fund shall not exceed the total limits on expenses as prescribed under Regulation 52 (6).

Scheme Specific Risk Factors

Risk associated with investment in unrated instruments:

The Scheme may invest in unrated instruments. Investments in unrated instruments may involve a risk of default or decline in market value higher than rated instruments due to adverse economic and issuer-specific developments. Such investments display increased price sensitivity to changing interest rates and to a deteriorating economic environment. The market values for unrated investments tends to be more volatile and such securities tend to be less liquid than rated debt securities.

Risk associated with Investing in money market instruments:

- a. Interest Rate risk: This risk is associated with movements in interest rate, which depend on various factors such as government borrowing, inflation, economic performance etc. The values of investments will appreciate/depreciate if the interest rates fall/rise.
- b. Credit risk: This risk arises due to any uncertainty in counterparty's ability or willingness to meet its contractual obligations. This risk pertains to the risk of default of payment of principal and interest.
- c. Liquidity risk: The liquidity of a security may change depending on market conditions leading to changes in the liquidity premium linked to the price of the security. At the time of selling the security, the security can become illiquid leading to loss in the value of the portfolio.

Risks associated with investing in CBLOs/ Government Securities:

- a. CCIL maintains prefunded resources in all the clearing segments to cover potential losses arising from the default member. In the event of a clearing member failing to honour his settlement obligations, the default Fund is utilized to complete the settlement. The sequence in which the above resources are used is known as the "Default Waterfall".
- b. As per the waterfall mechanism, after the defaulter's margins and the defaulter's contribution to the default fund have been appropriated, CCIL's contribution is used to meet the losses. Post utilization of CCIL's contribution if there is a residual loss, it is appropriated from the default fund contributions of the non-defaulting members.
- c. Thus the scheme is subject to risk of the initial margin and default fund contribution being invoked in the event of failure of any settlement obligations. In addition, the fund

contribution is allowed to be used to meet the residual loss in case of default by the other clearing member (the defaulting member).

However, it may be noted that a member shall have the right to submit resignation from the membership of the CBLO/Security segment if it has taken a loss through replenishment of its contribution to the default fund for the segments and a loss threshold as notified have been reached. The maximum contribution of a member towards replenishment of its contribution to the default fund in the 7 days (30 days in case of securities segment) period immediately after the afore-mentioned loss threshold having been reached shall not exceed 5 times of its contribution to the Default Fund based on the last re-computation of the Default Fund or the specified amount, whichever is lower.

Risk associated with close ended Schemes:

A close ended Scheme endeavors to achieve the desired returns only at the scheduled maturity of the Scheme. Investors who wish to exit/redeem before the scheduled maturity date may do so through the stock exchange mode, if they have opted to hold Units in a demat form, by mentioning their demat details on the NFO application form. For the units listed on the exchange, it is possible that the market price at which the units are traded may be at a discount to the NAV of such Units. Hence, Unit Holders who sell their Units in a Scheme prior to maturity may not get the desired returns.

Although the securities in the portfolio will have high market liquidity, there is a possibility that market liquidity could get impacted on account of company/sector/general market related events and there could be a price impact at maturity while liquidating the portfolio.

Risk associated with Fixed Income Securities:

Interest Rate Risk or Market Risk: As with all debt securities, changes in interest rates may affect the Scheme's Net Asset Value as the prices of securities generally increase as interest rates decline and generally decrease as interest rates rise. Prices of long-term securities generally fluctuate more in response to interest rate changes than do short-term securities. Indian debt markets can be volatile leading to the possibility of price movements up or down in fixed income securities and thereby to possible movements in the NAV.

Liquidity or Marketability Risk: This refers to the ease with which a security can be sold at or near to its valuation yield-to-maturity (YTM). The primary measure of liquidity risk is the spread between the bid price and the offer price quoted by a dealer. Liquidity risk is today characteristic of the Indian fixed income market.

Credit Risk: Credit risk or default risk refers to the risk that an issuer of a fixed income security may default (i.e., will be unable to make timely principal and interest payments on the security). Because of this risk corporate debentures are sold at a higher yield above those offered on Government Securities which are sovereign obligations and free of credit risk. Normally, the value of a fixed income security will fluctuate depending upon the changes in the perceived level of credit risk as well as any actual event of default. The greater the credit risk, the greater the yield required for someone to be compensated for the increased risk.

Reinvestment Risk: This risk refers to the interest rate levels at which cash flows received from the securities in the Scheme are reinvested. The additional income from reinvestment is the "interest on interest" component. The risk is that the rate at which interim cash flows can be reinvested may be lower than that originally assumed.

Risk associated with investments in Securitized debt

The Scheme will not invest in Securitized Debt

Risks associated with Short Selling and Securities Lending

The Scheme will not do any 'Short Selling' and 'Securities Lending' activity.

Risks associated with investment in ADR/GDR and foreign securities

The investment in ADRs/GDRs/overseas securities offers new investment and portfolio diversification opportunities into multi-market and multi-currency products. However, such investments also entail additional risks. Such investment opportunities may be pursued by the AMC provided they are considered appropriate in terms of the overall investment objectives of the Scheme. Since the Scheme would invest only partially in ADRs/GDRs/overseas securities, there may not be readily available and widely accepted benchmarks to measure performance of the Scheme. To manage risks associated with foreign currency and interest rate exposure, the Fund may use derivatives for efficient portfolio management including hedging and in accordance with conditions as may be stipulated by SEBI/RBI from time to time.

To the extent that the assets of the Scheme will be invested in securities denominated in foreign currencies, the Indian Rupee equivalent of the net assets, distributions and income may be adversely affected by the changes in the value of certain foreign currencies relative to the Indian Rupee. The repatriation of capital also may be hampered by changes in regulations concerning exchange controls or political circumstances as well as the application to it of the other restrictions on investment.

Offshore investments will be made subject to any/all approvals, conditions thereof as may be stipulated by SEBI/RBI and provided such investments do not result in expenses to the Fund in excess of the ceiling on expenses prescribed by and consistent with costs and expenses attendant to international investing. The Fund may, where necessary, appoint other intermediaries of repute as advisors, custodian/sub-custodians etc. for managing and administering such investments. The appointment of such intermediaries shall be in accordance with the applicable requirements of SEBI and within the permissible ceilings of expenses. The fees and expenses would illustratively include, besides the investment management fees, custody fees and costs, fees of appointed advisors and sub-managers, transaction costs, and overseas regulatory costs.

Investors are requested to note that the costs associated with overseas investments like advisory fees (other than those expenses permissible under regulation 52 of SEBI Regulations) would not be borne by the Scheme.

Risks associated with investing in Equity and Derivatives:

Investors may note that AMC/Fund Manager's investment decisions may not be always profitable. The Scheme proposes to invest in equity and equity related securities. Trading volumes, settlement periods and transfer procedures may restrict the liquidity of these investments. Different segments of the Indian financial markets have different settlement periods and such periods may be extended significantly by unforeseen circumstances. The inability of the Scheme to make intended securities purchases due to settlement problems could cause the Scheme to miss certain investment opportunities. By the same rationale, the inability to sell securities held in the Scheme's portfolio due to the absence of a well-developed and liquid secondary market for securities would result, at times, in potential losses to the Scheme, in case of a subsequent decline in the value of securities held in the Scheme's portfolio.

The scheme is also vulnerable to movements in the prices of securities invested by the scheme, which again could have a material bearing on the overall returns from the scheme. These stocks, at times, may be relatively less liquid as compared to growth stocks.

The liquidity of the Scheme's investments is inherently restricted by trading volumes in the securities in which it invests.

The value of the Scheme's investments, may be affected generally by factors affecting securities markets, such as price and volume volatility in the capital markets, interest rates, currency exchange rates, changes in policies of the Government, taxation laws or any other appropriate authority policies and other political and economic developments which may have an adverse bearing on individual securities, a specific sector or all sectors including equity and debt markets. Consequently, the NAV of the Units of the Scheme may fluctuate and can go up or down.

Investment decisions made by the AMC may not always be profitable, as actual market movements may be at variance with anticipated trends.

The performance of the scheme will be affected in case of unforeseen circumstances like political crisis, natural calamities, and changes in currency exchange rates or interest rates.

In case of abnormal circumstances it might be difficult to square off the transaction due to poor liquidity in stock futures/spot market. However, fund will aim at taking exposure only to liquid stocks where there will be minimal risk to square off the transaction.

As and when the Scheme trades in the derivatives market there are risk factors and issues concerning the use of derivatives that Investors should understand. Derivative products are specialized instruments that require investment techniques and risk analyses different from those associated with stocks and bonds. The use of a derivative requires an understanding not only of the underlying instrument but also of the derivative itself. Derivatives require the maintenance of adequate controls to monitor the transactions entered into, the ability to assess the risk that a derivative adds to the portfolio and the ability to forecast price or interest rate movements correctly. There is the possibility that a loss may be sustained by the portfolio as a result of the failure of another party (usually referred to as the "counter party") to comply with the terms of the derivatives contract. Other risks in using derivatives include the risk of mis pricing or improper valuation of derivatives and the inability of derivatives to correlate perfectly with underlying assets, rates and indices.

Thus, derivatives are highly leveraged instruments. Even a small price movement in the underlying security could have a large impact on their value. Also, the market for derivative instruments is nascent in India.

Derivatives products are leveraged instruments and provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the fund manager to identify such opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and decision of the fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify and execute such strategies.

The risks associated with the use of derivatives are different from or possibly greater than, the risks associated with investing directly in securities and other traditional investments.

The specific risk factors arising out of a derivative strategy used by the Fund Manager may be as below:

- Lack of opportunity available in the market.
- The risk of mispricing or improper valuation and the inability of derivatives to correlate perfectly with underlying assets, rates and indices.

Risk attached with the use of Interest Rate Derivatives:

The Scheme will not have any exposure to Debt Derivatives.

Scheme Specific Risk Factors / Risk management strategies

The Fund by utilizing a holistic risk management strategy will endeavor to manage risks associated with investing in securities. The risk control process involves identifying & measuring the risk through various risk measurement tools.

The Fund has identified following risks of investing in securities and designed risk management strategies, which are embedded in the investment process to manage such risks.

Risk & Description	Risk mitigants / management strategy
-------------------------------	---

Risks associated with Debt investment**Market Risk**

As with all debt securities, changes in interest rates may affect the Scheme's Net Asset Value as the prices of securities generally increase as interest rates decline and generally decrease as interest rates rise. Prices of long-term securities generally fluctuate more in response to interest rate changes than do short-term securities. Indian debt markets can be volatile leading to the possibility of price movements up or down in fixed income securities and thereby to possible movements in the NAV.

The Scheme will invest in a basket of debt and money market securities maturing on or before maturity of the Scheme with a view to hold them till the maturity of the Scheme. While the interim NAV will fluctuate in response to changes in interest rates, the final NAV will be more stable. To that extent the interest rate risk will be mitigated at the maturity of the scheme.

Liquidity or Marketability Risk

This refers to the ease with which a security can be sold at or near to its valuation yield-to-maturity (YTM).

The Scheme may invest in government securities, corporate bonds and money market instruments. While the liquidity risk for government securities, money market instruments and short maturity corporate bonds may be low, it may be high in case of medium to long maturity corporate bonds.

Liquidity risk is today characteristic of the Indian fixed income market. The Scheme will however, endeavor to minimise liquidity risk by investing in securities having a liquid market.

Credit Risk

Credit risk or default risk refers to the risk that an issuer of a fixed income security may default (i.e., will be unable to make timely principal and interest payments on the security).

Management analysis will be used for identifying company specific risks. In order to assess financial risk a detailed assessment of the issuer's financial statements will be undertaken to review its ability to undergo stress on cash flows and asset quality. A detailed evaluation of accounting policies, off-balance sheet exposures, notes, auditors' comments and disclosure standards will also be made to assess the overall financial risk of the potential borrower.

Reinvestment Risk

This risk refers to the interest rate levels at which cash flows received from the securities in the Scheme are reinvested. The additional income from reinvestment is the "interest on interest" component. The risk is that the rate at which interim cash flows can be reinvested may be lower than that originally assumed.

Reinvestment risks will be limited to the extent of coupons received on debt instruments, which will be a very small portion of the portfolio value.

Risks associated with Equity investment

<p><u>Market Risk</u> The scheme is vulnerable to movements in the prices of securities invested by the scheme, which could have a material bearing on the overall returns from the scheme.</p>	<p>Market risk is a risk which is inherent to an equity scheme. The scheme may use derivatives to limit this risk.</p>
<p><u>Liquidity risk</u> The liquidity of the Scheme's investments is inherently restricted by trading volumes in the securities in which it invests.</p>	<p>As such the liquidity of stocks that the Scheme invests into could be relatively low. The Scheme will try to maintain a proper asset-liability match to ensure redemption / Maturity payments are made on time and not affected by liquidity of the underlying stocks.</p>
<p><u>Derivatives Risk</u> As and when the Scheme trades in the derivatives market there are risk factors and issues concerning the use of derivatives since derivative products are specialized instruments that require investment techniques and risk analyses different from those associated with stocks and bonds.</p>	<p>Derivatives will be used for the purpose of hedging/ portfolio balancing purposes or to improve performance and manage risk efficiently. Derivatives will be used in the form of Index Options, Index Futures, Stock Options and Stock Futures and other instruments as may be permitted by SEBI. All derivatives trade will be done only on the exchange with guaranteed settlement. No OTC contracts will be entered into.</p>
<p><u>Currency Risk</u> The Scheme may invest in foreign securities as permitted by the concerned regulatory authorities in India. Since the assets may be invested in securities denominated in foreign currency, the INR equivalent of the net assets, distributions and income may be adversely affected by changes / fluctuations in the value of the foreign currencies relative to the INR.</p>	<p>The Scheme may employ various measures (as permitted by SEBI/RBI) including but not restricted to currency hedging (such as currency options and forward currency exchange contracts, currency futures, written call options and purchased put options on currencies and currency swaps), to manage foreign exchange movements arising out of investment in foreign securities.</p>
<p><u>Concentration Risk</u> Concentration risk represents the probability of loss arising from heavily lopsided exposure to a particular group of sectors or securities.</p>	<p>The Scheme will try and mitigate this risk by investing in large number of companies so as to maintain optimum diversification and keep stock-specific concentration risk relatively low.</p>

B. REQUIREMENT OF MINIMUM INVESTORS IN THE SCHEME

The Scheme shall have a minimum of 20 investors and no single investor shall account for more than 25% of the corpus of the Scheme. These conditions will be complied with immediately after the close of the NFO itself i.e. at the time of allotment. In case of non-fulfillment with the condition of minimum 20 investors, the Scheme shall be wound up in accordance with Regulation 39(2)(c) of SEBI(MF) Regulations automatically without any reference from SEBI. In case of non-fulfillment with the condition of 25% holding by a single investor on the date of allotment, the application to the extent of exposure in excess of the stipulated 25% limit would be liable to be rejected and the allotment would be effective only to the extent of 25% of the corpus collected. Consequently, such exposure over 25% limits will lead to refund within 5 working days of the date of closure of the New Fund Offer.

C. SPECIAL CONSIDERATIONS, if any

Investors are urged to study the terms of the SID carefully before investing in this Scheme, and to retain this SID for future reference. Any tax liability arising post redemption on account of change in the tax treatment with respect to dividend distribution tax, by the tax authorities, shall be solely borne by the investor and not by the AMC, the Trustees or the Mutual Fund.

- Investors in the Scheme are not being offered any guaranteed returns.
- Investors are advised to consult their Legal /Tax and other Professional Advisors in regard to tax/legal implications relating to their investments in the Scheme and before making decision to invest in the Scheme or redeem the Units in the Scheme.

II. INFORMATION ABOUT THE SCHEME

A. TYPE OF THE SCHEME

A close-ended hybrid scheme investing predominantly in debt instruments.

B. WHAT IS THE INVESTMENT OBJECTIVE OF THE SCHEME?

The primary objective of the Scheme is to seek to generate income by investing in a portfolio of fixed income securities/debt instruments. The secondary objective of the Scheme is to generate long term capital appreciation by investing a portion of the Scheme's assets in equity and equity related instruments.

However, there can be no assurance that the investment objective of the Scheme will be realized.

C. HOW WILL THE SCHEME ALLOCATE ITS ASSETS?

Under normal circumstances, the asset allocation and the credit rating of the instruments will be as follows:

Instruments	Indicative allocations (% of total assets)		Risk Profile
	Maximum	Minimum	
Debt securities (including government securities)	95	65	Low to medium
Money Market Securities, Cash and Cash Equivalent	30	0	Low to medium
Equity or equity related securities	35	5	Medium to High

Exposure in ADR/ GDR/ Foreign Securities can be up to 35% of Net Assets.

Exposure in Derivatives can be up to 50% of Net Assets.

The cumulative gross exposure through equity, debt and derivative positions shall not exceed 100% of the net assets of the scheme.

Note:

- If the Scheme decides to invest in securitised debt, it could be up to 50% of the net assets invested in debt securities (Single loan and / or Pool loan Securitised debt).
- The Scheme will not have any exposure to Debt Derivatives.
- If the Scheme decides to invest in equity derivatives it could be up to 100% of the allocation to equity. The margin money requirement for the purpose of derivative exposure may be held in the form of term deposits. The Scheme shall not take leverage positions and total investments, including investments in equity and other securities and gross exposure to derivatives, if any, shall not exceed net assets under management of the Scheme.
- If the Scheme decides to invest in ADR/GDR/foreign securities it could be up to 100% of the allocation to equity. Investments in ADR/GDR/foreign securities shall be subject to the limits and conditions specified in SEBI Circular dated. September 26, 2007.

The Scheme at all points in time will conform to the minimum equity allocation. However, on account of market conditions and considering the risk reward analysis of investing in equity and taking into consideration the interest of unit holders, the Scheme may invest the uninvested portion of equity allocation (over and above the minimum specified allocation

for equity) in highest rated CD, CBLOs, Repo and Reverse Repo in Government Securities/ and Cash/Cash equivalent.

As the scheme is close ended, the Scheme will invest in Debt securities maturing on or before the maturity of the Scheme.

The Scheme will have exposure in following securities / instruments:

Instruments \ Credit Rating	A	Sovereign (Not applicable)
NCDs	40% - 45%	-
Equity and equity related securities	-	10% - 15%
Government Securities	-	45% - 50%

The Scheme will not have any exposure to Securitized Debt.

The tenure of the Scheme will be 1228 days from the date of allotment of Units.

1. The Scheme shall invest in instruments having credit rating as indicated above or higher.
2. In case instruments/ securities as indicated above are not available, taking into account risk – reward analysis of instruments/ securities, the Scheme may invest in Certificate of Deposits (CDs) having highest ratings/ CBLOs/ T-bills/ Reverse Repo and Repo in Government securities. Such deviations may exist till the time suitable NCDs/CPs of desired credit quality are not available.
3. All investment shall be made based on the rating prevalent at the time of investment. In case of downgrades of a particular instrument, the Fund Manager shall rebalance the portfolio on a best effort basis within 30 days from the date of such deviation, provided such a rebalancing is possible on risk reward analysis. In case the security is rated by more than one rating agency, the most conservative rating would be considered.
4. Post New Fund Offer period and towards the maturity of the Scheme, there may be higher allocation to cash and cash equivalent.
5. In the event of any deviations from the floor and ceiling of credit ratings specified for any instrument, the same shall be rebalanced within 30 days from the date of such deviation, provided such rebalancing is possible on risk reward analysis.
6. Securities with rating A shall include A+ and A-.
7. Further, the allocation may vary during the tenure of the Scheme. Some of these instances are: (i) coupon inflow; (ii) the instrument is called or bought back by the issuer (iii) in anticipation of any adverse credit event. Such deviations may exist till the time suitable NCDs/CPs of desired credit quality are not available and in case of such deviations, the Scheme may invest in CDs having highest rating/ CBLOs/ T-Bills/ Reverse Repo and Repo in Government securities.

There would not be any variation from the intended portfolio allocation as stated in the launch Scheme Information Document / Key Information Memorandum on the final allocation, except as specified in point nos. 1, 2, 3, 4, 5 and 7.

In the event of any deviation from the asset allocation stated above, the Fund Manager shall rebalance the portfolio within 30 days from the date of such deviation except in case where the deviation is on account of conditions stated in point 1, 2, 3 and 7 above.

If owing to adverse market conditions or with the view to protect the interest of the investors, the fund manager is not able to rebalance the asset allocation within the above mentioned period, the same shall be reported to the Internal Investment Committee. The internal investment committee shall then decide on the future course of action.

It may be noted that no prior intimation/indication would be given to investors when the composition/asset allocation pattern under the scheme undergoes changes within the permitted band as indicated above or for changes due to defensive positioning of the portfolio with a view to protect the interest of the unit-holders on a temporary basis. The investors/unit holders can ascertain details of portfolio of the Scheme as on the last date of each month on AMC's website at www.icicipruamc.com which is displayed as per SEBI Regulations.

Credit Evaluation Policy for investment in debt securities:

The AMC aims to identify securities, which offer superior levels of yield at lower levels of risks so the Investment process is firmly research oriented. It comprises qualitative as well as quantitative measures. Qualitative factors like management track record, group companies, resource-raising ability, extent of availability of banking lines, internal control systems, etc are evaluated in addition to the business model and industry within which the issuer operates as regards industry/model-specific risks working capital requirements, cash generation, seasonality, regulatory environment, competition, bargaining power, etc. Quantitative factors like debt to equity ratio, Profit and loss statement analysis, balance sheet analysis are taken into consideration.

Macroeconomic call is taken on interest rate direction by careful analysis of various influencing factors like Inflation, Money supply, Private sector borrowing, Government borrowing, Currency market movement, Central Bank policy, Local fiscal and monetary policy, Global interest rate scenario and Market sentiment. Interest rate direction call is supplemented by technical analysis of market and short term influencing factors like trader position, auction/issuance of securities, release of economic numbers, offshore market position, etc. Interest Rate direction call and anticipation of yield curve movement forms the basis of portfolio positioning in duration and spread terms.

Credit research is done on a regular basis for corporate having high investment grade rating. Credit research includes internal analysis of rating rationale, and financial statements (annual reports and quarterly earnings statements) of the issuer, for the last 1-3 years evaluating amongst other metrics, relevant ratios of profitability, capital adequacy, gearing, turnover and other inputs from external agencies. On an ongoing basis, the credit analyst keeps track of credit profile of the issuer, possible credit risks reflected in change in outlook of rating agencies, external developments affecting the issuer etc. Internal credit call is a pre-requisite for all investments since the investment universe is primarily high-grade credit instruments. Credit research is also used to minimize credit migration risk and for generating relative value trade ideas. Stable to higher rating on maturity vis-à-vis issuance is the guiding factor for investment decisions from credit point of view.

Equity Derivatives

The Scheme intends to use derivatives for purposes that may be permitted by the Regulations from time to time. Derivatives instruments may take the form of Futures, Options, Swaps or any other instrument, as may be permitted from time to time.

Position limits for investment in Derivative instruments:

SEBI has vide its Circular DNP/Cir-29/2005 dated September 14, 2005 and DNP/Cir-29/2005 dated January 20, 2006 and CIR/IMD/DF/11/2010 dated August 18, 2010 specified the guidelines pertaining to trading by Mutual Fund in Exchange traded derivatives. All Derivative positions taken in the portfolio would be guided by the following principles:

- *Position limit for the Fund in index options contracts*
 - The Fund position limit in all index options contracts on a particular underlying index shall be Rs. 500 crore or 15% of the total open interest of the market in index options, whichever is higher per Stock Exchange.
 - This limit would be applicable on open positions in all options contracts on a particular underlying index.

- *Position limit for the Fund in index futures contract*
 - The Fund position limit in all index futures contracts on a particular underlying index shall be Rs. 500 crore or 15% of the total open interest of the market in index futures, whichever is higher, per Stock Exchange.
 - This limit would be applicable on open positions in all futures contracts on a particular underlying index.

- *Additional position limit for hedging*

In addition to the position limits mentioned above, Fund may take exposure in equity index derivatives subject to the following limits:

 - Short positions in index derivatives (short futures, short calls and long puts) shall not exceed (in notional value) the Fund's holding of stocks.
 - Long positions in index derivatives (long futures, long calls and short puts) shall not exceed (in notional value) the Fund's holding of cash, government securities, T-Bills and similar instruments.

- *Position limit for the Fund for stock based derivative contracts*

The Fund position limit in a derivative contract on a particular underlying stock, i.e. stock option contracts and stock futures contracts, :-

 - a. The combined futures and options position limit shall be 20% of the applicable Market Wide Position Limit (MWPL).
 - b. The MWPL and client level position limits however would remain the same as prescribed

- *Position limit for the Scheme*
 - The position limits for the Scheme and disclosure requirements are as follow. For stock option and stock futures contracts, the gross open position across all derivative contracts on a particular underlying stock of a scheme of a Fund shall not exceed the higher of:

1% of the free float market capitalisation (in terms of number of shares).
Or
5% of the open interest in the derivative contracts on a particular underlying stock (in terms of number of contracts).
 - This position limit shall be applicable on the combined position in all derivative contracts on an underlying stock at a Stock Exchange.

- For index based contracts, the Fund shall disclose the total open interest held by its scheme or all schemes put together in a particular underlying index, if such open interest equals to or exceeds 15% of the open interest of all derivative contracts on that underlying index.”

Exposure limits for derivative transactions

The Scheme will comply with provisions specified in Circular dated August 18, 2010 related to overall exposure limits applicable for derivative transactions as stated below:

- 1) The cumulative gross exposure through equity, debt and derivative positions should not exceed 100% of the net assets of the scheme.
- 2) Mutual Funds shall not write options or purchase instruments with embedded written options.
- 3) The total exposure related to option premium paid must not exceed 20% of the net assets of the scheme.
- 4) Cash or cash equivalents with residual maturity of less than 91 days may be treated as not creating any exposure.
- 5) Exposure due to hedging positions may not be included in the above mentioned limits subject to the following:
 - a. Hedging positions are the derivative positions that reduce possible losses on an existing position in securities and till the existing position remains.
 - b. Hedging positions cannot be taken for existing derivative positions. Exposure due to such positions shall have to be added and treated under limits mentioned in Point 1.
 - c. Any derivative instrument used to hedge has the same underlying security as the existing position being hedged.
 - d. The quantity of underlying associated with the derivative position taken for hedging purposes does not exceed the quantity of the existing position against which hedge has been taken
- 6) Exposure due to derivative positions taken for hedging purposes in excess of the underlying position against which the hedging position has been taken, shall be treated under the limits mentioned in point 1.
- 7) Definition of Exposure in case of Derivative Positions - Each position taken in derivatives shall have an associated exposure as defined under. Exposure is the maximum possible loss that may occur on a position. However, certain derivative positions may theoretically have unlimited possible loss. Exposure in derivative positions shall be computed as follows:

Position	Exposure
Long Future	Futures Price * Lot Size * Number of Contracts
Short Future	Futures Price * Lot Size * Number of Contracts
Option bought	Option Premium Paid * Lot Size * Number of Contracts

Various Derivatives Strategies:

If and where Derivative strategies are used under the Scheme, the Fund Manager will employ a combination of the following strategies:

1. **Index Arbitrage:** As the Nifty Index derives its value from fifty underlying stocks, the underlying stocks can be used to create a synthetic index matching the Nifty Index levels. Also, theoretically, the fair value of a stock/ index futures is equal to the spot price plus the cost of carry i.e. the interest rate prevailing for an equivalent credit risk, in this case is the Clearing Corporation of the NSE.

Theoretically, therefore, the pricing of Nifty Index futures should be equal to the pricing of the synthetic index created by futures on the underlying stocks. However, due to market imperfections, the index futures may not exactly correspond to the synthetic index futures.

The Nifty Index futures normally trades at a discount to the synthetic Index due to large volumes of stock hedging being done using the Nifty Index futures giving rise to arbitrage opportunities.

The fund manager shall aim to capture such arbitrage opportunities by taking long positions in the Nifty Index futures and short positions in the synthetic index. The strategy is attractive if this price differential (post all costs) is higher than the investor's cost-of-capital.

Objective of the Strategy

The objective of the strategy is to lock-in the arbitrage gains.

Risks Associated with this Strategy

- Lack of opportunity available in the market
- The risk of mispricing or improper valuation and the inability of derivatives to correlate perfectly with underlying assets, rates and indices
- **Execution Risk:** The prices which are seen on the screen need not be the same at which execution will take place.

2. **Cash Futures Arbitrage:** (Only one way as the schemes are not allowed to short in the cash market).

The Scheme would look for market opportunities between the spot and the futures market. The cash futures arbitrage strategy can be employed when the price of the futures exceeds the price of the underlying stock.

The Scheme will first buy the stocks in cash market and then sell in the futures market to lock the spread known as arbitrage return.

Buying the stock in cash market and selling the futures results into a hedge where the Scheme has locked in a spread and is not affected by the price movement of cash market and futures market. The arbitrage position can be continued till expiry of the future contracts. The future contracts are settled based on the last half an hour's weighted average trade of the cash market. Thus, there is a convergence between the cash market and the futures market on expiry. This convergence helps the Scheme to generate the arbitrage return locked in earlier. However, the position could even be closed earlier in case the price differential is realized before expiry or better opportunities are available in other stocks. The strategy is attractive if this price differential (post all costs) is higher than the investor's cost-of-capital.

Objective of the Strategy

The objective of the strategy is to lock-in the arbitrage gains.

Risk Associated with this Strategy

- Lack of opportunity available in the market.
- The risk of mispricing or improper valuation and the inability of derivatives to correlate perfectly with underlying assets, rates and indices.
- Execution Risk: The prices which are seen on the screen need not be the same at which execution will take place

3. **Hedging and alpha strategy:** The Scheme will use exchange-traded derivatives to hedge the equity portfolio. The hedging could be either partial or complete depending upon the fund managers' perception of the markets. The fund manager shall either use index futures and options or stock futures and options to hedge the stocks in the portfolio. The Scheme will seek to generate alpha by superior stock selection and removing market risks by selling appropriate index. For example, one can seek to generate positive alpha by buying an IT stock and selling Nifty IT Index future or a bank stock and selling Bank Index futures or buying a stock and selling the Nifty Index.

Objective of the Strategy

The objective of the strategy is to generate alpha by superior stock selection and removing market risks by hedging with appropriate index.

Risk Associated with this Strategy

1. The stock selection under this strategy may under-perform the market and generate a negative alpha.
2. The risk of mispricing or improper valuation and the inability of derivatives to correlate perfectly with underlying assets, rates and indices.
3. Execution Risk: The prices which are seen on the screen need not be the same at which execution will take place.

4. **Other Derivative Strategies:** As allowed under the Regulations on derivatives, the fund manager will employ various other stock and index derivative strategies by buying or selling stock/index futures and/or options.

Objective of the Strategy

The objective of the strategy is to earn low volatility consistent returns.

Risk Associated with this Strategy

- The risk of mispricing or improper valuation and the inability of derivatives to correlate perfectly with underlying assets, rates and indices
- Execution Risk: The prices which are seen on the screen need not be the same at which execution will take place.

Illustrations of some derivative transactions

i) Index Futures:

Benefits

a) Investment in Stock Index Futures can give exposure to the index without directly buying the individual stocks. Appreciation in Index stocks can be effectively captured through investment in Stock Index Futures.

b) The Fund can sell futures to hedge against market movements effectively without actually selling the stocks it holds.

The Stock Index futures are instruments designed to give exposure to the equity market indices. The Stock Exchange, Mumbai and The National Stock Exchange have started trading in index futures of 1, 2 and 3-month maturities. The pricing of an index future is the function of the underlying index and interest rates.

Illustration

Spot Index: 1070

1 month Nifty Future Price on day 1: 1075

Fund buys 100 lots

Each lot has a nominal value equivalent to 200 units of the underlying index

Let us say that on the date of settlement, the future price = Closing spot price = 1085

Profits for the Fund = $(1085-1075) * 100 \text{ lots} * 200 = \text{Rs } 200,000$

Please note that the above example is given for illustration purposes only.

The net impact for the Fund will be in terms of the difference between the closing price of the index and cost price (ignoring margins for the sake of simplicity). Thus, it is clear from the example that the profit or loss for the Fund will be the difference of the closing price (which can be higher or lower than the purchase price) and the purchase price. The risks associated with index futures are similar to the one with equity investments. Additional risks could be on account of illiquidity and hence mispricing of the future at the time of purchase.

ii) Buying Options:

Benefits of buying a call option:

Buying a call option on a stock or index gives the owner the right, but not the obligation, to buy the underlying stock / index at the designated strike price. Here the downside risks are limited to the premium paid to purchase the option.

Illustration

For example, if the fund buys a one month call option on ABC Ltd at a strike of Rs. 150, the current market price being say Rs.151. The fund will have to pay a premium of say Rs. 15 to buy this call. If the stock price goes below Rs. 150 during the tenure of the call, the fund avoids the loss it would have incurred had it straightaway bought the stock instead of the call option. The fund gives up the premium of Rs. 15 that has to be paid in order to protect the fund from this probable downside. If the stock goes above Rs. 150, it can exercise its right and own ABC Ltd at a cost price of Rs. 150, thereby participating in the upside of the stock.

Benefits of buying a put option

Buying a put option on a stock originally held by the buyer gives him/her the right, but not the obligation, to sell the underlying stock at the designated strike price. Here the downside risks are limited to the premium paid to purchase the option.

Illustration

For example, if the fund owns ABC Ltd and also buys a three month put option on ABC Ltd at a strike of Rs. 150, the current market price being say Rs.151. The fund will have to pay a premium of say Rs. 12 to buy this put. If the stock price goes below Rs. 150 during the tenure of the put, the fund can still exercise the put and sell the stock at Rs. 150, avoiding therefore any downside on the stock below Rs. 150. The fund gives up the fixed premium of

Rs. 12 that has to be paid in order to protect the fund from this probable downside. If the stock goes above Rs. 150, say to Rs. 170, it will not exercise its option. The fund will participate in the upside of the stock, since it can now sell the stock at the prevailing market price of Rs. 170.

The Scheme will not have any exposure to Debt Derivatives.

POSITION OF EQUITY MARKET IN INDIA

The Indian stock market is one of the world's largest stock markets on the basis of investor base and has a collective pool of about 27 million investor accounts.

There are two leading stock exchanges in India, i.e. BSE Limited (BSE) and National Stock Exchange of India Limited (NSE). BSE was established in 1875 and is the oldest stock exchange in Asia. NSE, a more recent establishment which came into existence in 1992, is the largest and most advanced stock market in India and is also one of the biggest stock exchanges in Asia in terms of transactions. NSE's flagship index, NIFTY 50, is used extensively by investors in India and around the world to take exposure to the Indian equities market.

BSE has a large number of scrips which are listed. The Indian stock market scene really picked up after the opening up of the economy in the early nineties. NSE changed the way the Indian markets function, in the early nineties, by replacing floor based trading with nationwide screen based electronic trading, which took trading to the doorstep of the investor. NSE was mainly set up to bring in transparency in the markets. Instead of trading membership being confined to a group of brokers, NSE ensured that anyone who was qualified, experienced and met minimum financial requirements was allowed to trade. The price information which could earlier be accessed only by a handful of people could now be seen by a client in a remote location with the same ease. The paper based settlement was replaced by electronic depository based accounts and settlement of trades was always done on time. One of the most critical changes was that a robust risk management system was set in place, so that settlement guarantees could protect investors against broker defaults. The corporate governance rules were gradually put in place which initiated the process of bringing the listed companies at a uniform level.

POSITION OF DEBT MARKET IN INDIA

Indian debt markets, in the early nineties, were characterised by controls on pricing of assets, segmentation of markets and barriers to entry, low levels of liquidity, limited number of players, near lack of transparency, and high transactions cost. Financial reforms have significantly changed the Indian debt markets for the better. Most debt instruments are now priced freely on the markets; trading mechanisms have been altered to provide for higher levels of transparency, higher liquidity, and lower transactions costs; new participants have entered the markets, broad basing the types of players in the markets; methods of security issuance, and innovation in the structure of instruments have taken place; and there has been a significant improvement in the dissemination of market information. There are three main segments in the debt markets in India, viz., Government Securities, Public Sector Units (PSU) bonds, and corporate securities. A bulk of the debt market consists of Government Securities. Other instruments available currently include Corporate Debentures, Bonds issued by Financial Institutions, Commercial Paper, Certificates of Deposits and Securitized Debt. Securities in the Debt market typically vary based on their tenure and rating. Government Securities have tenures from one year to thirty years whereas the maturity period of the Corporate Debt now goes upto sixty years and more (perpetual). Perpetual bonds are now issued by banks as well. Securities may be both listed and unlisted and there is increasing trend of securities of maturities of over one year being listed by issuers. While in the corporate bond market, deals are conducted over telephone and are entered on principal-to-principal basis, due to the introduction of the Reserve Bank of India's NDS-Order Matching system a significant proportion of the government securities market is trading on the new system.

The yields and liquidity on various securities as on December 29, 2017 are as under:

Issuer	Instrument	Maturity	Yields (%)	Liquidity
GOI	Treasury Bill	91 days	6.2%	High

GOI	Treasury Bill	364 days	6.40%	High
GOI	Short Dated	1-3 Yrs	6.28%-6.73%	High
GOI	Medium Dated	3-5 Yrs	6.73%-7.11%	High
GOI	Long Dated	5-10 Yrs	7.11%-7.33%	High
Corporates	Taxable Bonds (AAA)	1-3 Yrs	7.43%-7.69%	Medium
Corporates	Taxable Bonds (AAA)	3-5 Yrs	7.69%- 7.81%	Low to medium
Corporates	CDs (A1+)	3 months	6.38%	Medium to High
Corporates	CPs (A1+)	3 months	7.06%	Medium to High

- 1) Non-Convertible Debentures (including Bonds) and non-convertible portion of convertible securities;
- 2) Money Market Instruments permitted by SEBI/RBI;
- 3) Central and State Government Securities;
- 4) Any other domestic fixed income securities as permitted by SEBI / RBI from time to time.
- 5) Equity and equity related securities including convertible bonds and debentures and warrants carrying the right to obtain equity shares.
- 6) ADRs/GDRs issued by Indian Companies, subject to the guidelines issued by Reserve Bank of India and Securities and Exchange Board of India.
- 7) Derivative instruments like Stock and Index Futures & Options, Currency derivatives and such other derivative instruments permitted by SEBI/RBI.
- 8) Bank Fixed Deposits and any such instruments as permitted by SEBI and in accordance with the final allocation.
- 9) Units of Mutual Fund schemes are subject to applicable regulations.

The securities/debt instruments mentioned above could be rated or unrated, listed or unlisted, secured or unsecured of varying maturity. The Scheme will not undertake repos in corporate debt securities.

If the Scheme decides to invest in equity derivatives it could be up to 100% of the allocation to equity. The margin money requirement for the purpose of derivative exposure may be held in the form of term deposits. The Scheme shall not take leverage positions and total investments, including investments in equity and other securities and gross exposure to derivatives, if any, shall not exceed net assets under management of the Scheme. The Scheme will not have any exposure to Debt Derivatives.

Negative list of sectors: In case of Debt allocation under the Scheme, the Scheme will not invest in Companies falling within Gems and Jewellery and Leather and Leather Products Sectors.

The Scheme will not invest/ have exposure in the following:

1. Companies falling within Gems & Jewellery and Leather and Leather Products Sectors.
2. Repos in corporate debt securities.
3. Short Selling
4. Securities Lending
5. Securitized Debt

E. WHAT ARE THE INVESTMENT STRATEGIES?

Fixed Income Securities:

As the Scheme is close ended, the Scheme will invest in a basket of permissible securities maturing on or before maturity of the Scheme. The Scheme will invest in securities with a view to hold them till the maturity of the Scheme. To that effect the Scheme will follow a buy and hold strategy to investment. The AMC aims to identify securities, which offer superior levels of yield at lower levels of risks. With the aim of controlling risks, rigorous in-depth credit evaluation of the securities proposed to be invested in will be carried out by the investment team of the AMC. The credit evaluation includes a study of the operating environment of the company, the past track record as well as the future prospects of the issuer, the short as well as longer-term financial health of the issuer. The AMC will be guided by the ratings of such Rating Agencies as approved by SEBI to carry out the functioning of Rating Agencies.

In addition, the investment team of the AMC will study the macro economic conditions, including the political, economic environment and factors affecting liquidity and interest rates. The AMC would use this analysis to attempt to predict the likely direction of interest rates and position the portfolio appropriately to take advantage of the same.

Equities:

For the equity portion of the corpus, the AMC intends to invest in stocks, which will be bought, keeping in mind the time horizon of the Scheme. Stock specific risk will be minimized by investing only in those companies that have been thoroughly analyzed by the Fund Management team at the AMC. The AMC will also monitor and control maximum exposure to any one stock or one sector.

Depending on overall portfolio considerations and depending on market conditions, the fund manager may also have allocations to equity derivatives. The derivative portfolio will comprise of futures and options on the Nifty Index and will be actively managed by the fund manager within the overall asset allocation of the fund. The allocation to equity derivatives along with cash equity will be within the overall equity allocation as per the asset allocation of the scheme.

PORTFOLIO TURNOVER

Investors can purchase or sell units on a continuous basis on any Stock Exchange where the Scheme will be listed. In view of the Scheme being close ended, there will likely be no turnover in the portfolio except for change in composition of portfolio of securities made as per the prevailing market conditions.

Procedure followed for Investment decisions

- a. The Fund Manager of the Scheme is responsible for making buy/sell decisions in respect of the securities in the Scheme portfolios.
- b. The AMC has an Internal Investment Committee comprising the Managing Director, Chief Investment Officer (CIO) - Fixed Income, CIO Equity and Fixed Income (CIO) and Credit analysts, Head - Research who meet at periodic intervals. The Investment Committee, at its meetings, reviews the performance of the schemes and general market outlook and formulates broad investment strategy. The Managing Director attends the meeting at his discretion.

- c. The Chief Investment Officer who chairs the Investment Committee Meetings guides the deliberations at Investment Committee. He, on an ongoing basis, reviews the portfolios of the Scheme and gives directions to the respective fund managers, where considered necessary. It is the ultimate responsibility of the CIO to ensure that the investments are made as per the internal/Regulatory guidelines, Scheme investment objectives and in the best interest of the unitholders of the respective schemes.
- d. Periodic presentations will be made to the Board of AMC to review the performance of the schemes.
- e. The performance of the Scheme will be benchmarked against the combination of CRISIL Composite Bond Fund Index (80%) and Nifty 50 Index (20%) The benchmark may be changed in future if a benchmark better suited to the investment objective of the Scheme is available.
- f. The Managing Director brings to the notice of the Board specific factors, if any, which are impacting the performance of any individual Scheme. The Board on consideration of all relevant factors may, if necessary, give directions to AMC. Similarly, the performance of the Schemes is submitted to the Trustees. The Managing Director explains to the Trustees the details on Schemes' performance vis-à-vis the benchmark returns.
- g. Subsequent to the issue of Circular No.MFD/CIR/9/120/2000 dated November 24, 2000, the Board has constituted a Committee to approve the investment in un-rated debt securities. All such investments, as and when are made, will be placed before the Board of Directors of AMC for its review. All such investments are also approved by the Board of Directors of Trustee Company.
- h. The AMC has been recording investment decisions since the receipt of instructions from SEBI, in terms of SEBI's circular no. MFD/CIR/6/73/2000 dated July 27, 2000.
- i. The Chief Executive Officer of the AMC shall ensure that the mutual fund complies with all the provisions of SEBI (Mutual Funds) Regulations, 1996, as amended from time to time, including all guidelines, circulars issued in relation thereto from time to time and that the investments made by the fund managers are in the interest of the unit holders and shall also be responsible for the overall risk management function of the mutual fund.
- j. The Fund managers shall ensure that the funds of the Scheme are invested to achieve the investment objectives of the schemes and in the interest of the unit holders.

F: FUNDAMENTAL ATTRIBUTES

Following are the Fundamental Attributes of the scheme, in terms of Regulation 18 (15A) of the SEBI (MF) Regulations:

"Fundamental Attributes" in the context of the scheme will be:

(i) **Type of Scheme:** A close-ended hybrid scheme investing predominantly in debt instruments.

(ii) **A) Investment Objective:**

The primary objective of the Scheme is to seek to generate income by investing in a portfolio of fixed income securities/ debt instruments. The secondary objective of the Scheme is to generate long term capital appreciation by investing a portion of the Scheme's assets in equity and equity related instruments.

B) Investment Pattern: Please refer to section "How will the Scheme allocate its assets?" in this SID.

(iii) **Terms of Issue:**

A) Liquidity provisions such as listing, repurchase, redemption: The units of the Scheme are proposed to be listed on the BSE. However the Trustee reserves the right to list the units of the Scheme on any other Stock Exchange without any change in the Fundamental Attribute.

B) Aggregate fees and expenses charged to the Scheme: The provisions in respect of fees and expenses are as indicated in this SID. Please refer to section "Fees and Expenses" in this SID.

C) Any safety net or guarantee provided: The present scheme is not a guaranteed or assured return scheme

Changes in Fundamental Attribute:

In accordance with Regulation 18(15A) of the SEBI (Mutual Funds) Regulations, 1996, the Trustees shall ensure that no change in the fundamental attributes of the Scheme or the trust or fee and expenses payable or any other change which would modify the Scheme and the Plan(s)/Option(s) thereunder and affect the interests of Unitholders is carried out unless:

- A written communication about the proposed change is sent to each Unitholder and an advertisement is given in one English daily newspaper having nationwide circulation as well as in a newspaper published in the language of the region where the head office of the AMC is situated; and
- The Unitholders are given an option for a period of 30 days to exit at the prevailing Net Asset Value without any exit load.

G. HOW WILL THE SCHEME BENCHMARK ITS PERFORMANCE?

The performance of the Scheme will be benchmarked against the combination of CRISIL Composite Bond Fund Index (80%) and Nifty 50 Index (20%)

CRISIL Composite Bond Fund Index has been arrived by CRISIL in consultation with AMFI (Association of Mutual Funds of India) for benchmarking the performance of the debt funds in the Indian Financial Market place against an Index that is representative of the universe of Debt funds. CRISIL Composite Bond Fund Index is a composition of CRISIL Gilt Index, CRISIL AAA/AA Long Term Bond Index and CRISIL AAA/AA Short Term Bond Index. CRISIL Composite Bond Fund Index is marked-to-market on a daily basis using CRISIL Gilt and Bond valuations.

Further, Nifty 50 Index is the flagship index on NSE. The Index is a well-diversified index accounting for various sectors of the economy and accurately reflecting overall market conditions. Further, Nifty 50 is based upon solid economic research and is well respected internationally as a pioneering effort in better understanding how to make a stock market index. The Index represents free float market capitalization giving a fair picture of overall market situation.

Hence, the combination of aforesaid Indices in the weightages defined is most suited for benchmarking the performance of the Scheme. The Trustees reserve the right to change the benchmark in future if a benchmark better suited to the investment objective of the Scheme is available.

I. WHAT ARE THE INVESTMENT RESTRICTIONS?

Pursuant to the Regulations and amendments thereto and subject to the asset allocation pattern of the Scheme, the following investment restrictions are presently applicable to the Scheme:

1. Mutual Funds/AMCs shall ensure that total exposure of debt schemes of mutual funds in a particular sector (excluding investments in Bank CDs, CBLO, G-Secs, TBills, short term

deposits of scheduled commercial banks and AAA rated securities issued by Public Financial Institutions and Public Sector Banks) shall not exceed 25% of the net assets of the scheme;

Provided that an additional exposure to financial services sector (over and above the limit of 25%) not exceeding 15% of the net assets of the scheme shall be allowed only by way of increase in exposure to Housing Finance Companies (HFCs);

Provided further that the additional exposure to such securities issued by HFCs are rated AA and above and these HFCs are registered with National Housing Bank (NHB) and the total investment/ exposure in HFCs shall not exceed 25% of the net assets of the scheme.

2. A mutual fund scheme shall not invest more than 10% of its NAV in debt instruments comprising money market instruments and non-money market instruments issued by a single issuer which are rated not below investment grade by a credit rating agency authorised to carry out such activity under the Act. Such investment limit may be extended to 12% of the NAV of the scheme with the prior approval of the Board of Trustees and the Board of directors of the asset management company:

Provided that such limit shall not be applicable for investments in Government Securities, treasury bills and collateralized borrowing and lending obligations.

3. Debentures, irrespective of any residual maturity period (above or below one year), shall attract the investment restrictions as applicable for debt instruments.
4. Transfer of investments from one scheme to another scheme in the same Mutual Fund is permitted provided:
 - i. Such transfers are done at the prevailing market price for quoted instruments on spot basis (spot basis shall have the same meaning as specified by a Stock Exchange for spot transactions); and
 - ii. The securities so transferred shall be in conformity with the investment objective of the scheme to which such transfer has been made.

Further the inter scheme transfer of investments shall be in accordance with the provisions contained in clause Inter-Scheme transfer of investments, contained in Statement of Additional Information.

5. The Scheme may invest in other schemes under the same AMC or any other Mutual Fund without charging any fees, provided the aggregate inter-scheme investment made by all the schemes under the same management or in schemes under management of any other asset management company shall not exceed 5% of the Net Asset Value of the Fund. No investment management fees shall be charged for investing in other schemes of the Fund or in the schemes of any other mutual fund.
6. The Fund shall get the securities purchased or transferred in the name of the Fund on account of the concerned scheme, wherever investments are intended to be of a long-term nature.
7. The Fund shall buy and sell securities on the basis of deliveries and shall in all cases of purchases, take delivery of relative securities and in all cases of sale, deliver the securities. Provided further that a mutual fund may enter into derivatives transactions in a recognised stock exchange in accordance with the guidelines issued by SEBI. Provided further that sale of government security already contracted for purchase shall be permitted in accordance with the guidelines issued by the Reserve Bank of India in this regard.

8. No loans for any purpose can be advanced by the Scheme.

 - a. Such short-term deposits shall be held in the name of the concerned scheme.
 - b. No mutual fund scheme shall park more than 15% of the net assets in Short term deposit(s) of all the scheduled commercial banks put together. However, it may be raised to 20% with prior approval of the trustees. Also, parking of funds in short term deposits of associate and sponsor scheduled commercial banks together shall not exceed 20% of total deployment by the mutual fund in short term deposits.
 - c. No mutual fund scheme shall park more than 10% of the net assets in short term deposit(s), with any one scheduled commercial bank including its subsidiaries.
 - d. Trustees shall ensure that no funds of a scheme may be parked in short-term deposit of a bank, which has invested in that scheme.
 - e. Asset Management Company (AMC) shall not be permitted to charge any investment management and advisory fees for parking of funds in short term deposits of scheduled commercial banks in case of liquid and debt oriented schemes.
 - f. All funds parked in short-term deposit(s) shall be disclosed in half yearly portfolio statements under a separate heading. Details such as name of the bank, amount of funds parked, percentage of NAV may be disclosed.
 - g. Trustees shall certify in the half-yearly reports that the provision of the Regulation pertaining to parking of funds in short term deposits - pending deployment is being complied with at all points of time. Further the AMC shall also certify the same in its bi-monthly compliance test report.
11. The Mutual Fund having an aggregate of securities which are worth Rs.10 crores or more, as on the latest balance sheet date, shall subject to such instructions as may be issued from time to time by the Board, settle their transactions entered on or after January 15, 1998 only through dematerialised securities. Further all transactions in government securities shall be in dematerialised form.
12. The Mutual Fund/AMC shall make investment out of the NFO proceeds only on or after the closure of the NFO period. The Mutual Fund/ AMC can however deploy the NFO proceeds in CBLO before the closure of NFO period. However, AMCs shall not charge any investment management and advisory fees on funds deployed in CBLOs during the NFO period. The appreciation received from investment in CBLO shall be passed on to investors.

Further, in case the minimum subscription amount is not garnered by the scheme during the NFO period, the interest earned upon investment of NFO proceeds in CBLO shall be returned to investors, in proportion of their investments, along-with the refund of the subscription amount.
13. No mutual fund under all its schemes should own more than 10% of any company's paid up capital carrying voting rights.
14. No mutual fund scheme shall make any investments in;

Dividend Policy	<p>Dividends, if declared, will be paid (subject to deduction of tax at source, if any) to those Unit holders whose names appear in the Register of Unit holders on the record date. In case of Units held in dematerialized mode, the Depositories (NSDL/CDSL) will give the list of demat account holders and the number of Units held by them in electronic form on the Record date to the Registrars and Transfer Agent of the Mutual Fund. Further, the Trustee at its sole discretion may also declare interim dividend. However, it must be distinctly understood that the actual declaration of dividend and the frequency thereof will inter-alia, depend on the availability of distributable profits as computed in accordance with SEBI Regulations. The decision of the Trustee in this regard shall be final. On payment of dividends, the NAV will stand reduced by the amount of dividend and dividend tax (if applicable) paid.</p> <p>The treatment of unclaimed redemption and dividend amounts will be as per SEBI circular dated February 25, 2016.</p>		
Dividend	The dividend warrants shall be dispatched to the unitholders within 30 days of the date of declaration of the dividend.		
Dividend Transfer Plan (DTP)	<p>Investors may note that DTP will be available under the Scheme whereby if the investor opts for this facility, the dividend declared will be automatically invested into any open-ended scheme (Target Scheme) of the Fund. The amount to the extent of distribution will be automatically invested on the ex-dividend date into the Target Scheme selected by the investor, at the applicable NAV of that scheme.</p>		

	<p>The provision of "Minimum Application Amount" specified in the SID of the respective Target Scheme will not be applicable for DTP facility.</p>
<p>Allotment</p>	<p>All Applicants whose cheques towards purchase of Units have realised will receive a full and firm allotment of Units, provided also the applications are complete in all respects and are found to be in order.</p> <p>For applicants applying through 'APPLICATIONS SUPPORTED BY BLOCKED AMOUNT (ASBA)', on allotment, the amount will be unblocked in their respective bank accounts and account will be debited only to the extent required to pay for allotment of Units applied in the application form.</p> <p>The AMC shall allot units within 5 Business Days from the date of closure of the NFO period.</p> <p>Trustee retains the sole and absolute discretion to reject any application.</p> <p>Applicants under the Scheme will have an option to hold the Units either in physical form (i.e. account statement) or in dematerialized form.</p> <p>Dematerialization</p> <p>The Applicants intending to hold the Units in dematerialized mode will be required to have a beneficiary account with a Depository Participant of the NSDL/CDSL and will be required to mention in the application form DP's Name, DP ID No. and Beneficiary Account No. with the DP at the time of purchasing Units during the NFO of the Scheme. The Units allotted will be credited to the DP account of the Unit holder as per the details provided in the application form. The statement of holding of the beneficiary account holder for units held in demat will be sent by the respective DPs periodically.</p> <p>It may be noted that trading and settlement in the Units of the Scheme over the stock exchange(s) (where the Units are listed) will be permitted only in electronic form.</p> <p>If the Unit holder desires to hold the Units in a Dematerialized / Rematerialized form at a later date, the request for conversion of units held in Account Statement (non demat) form into Demat (electronic) form or vice versa should be submitted alongwith a Demat/Remat Request Form to their Depository Participants.</p> <p>However, the Trustee / AMC reserves the right to change the dematerialization / rematerialization process in accordance with the procedural requirements laid down by the Depositories, viz. NSDL/ CDSL and/or in accordance with the provisions laid under the Depositories Act, 1996.</p> <p>Normally no Unit certificates will be issued. However, if the</p>

	<p>applicant so desires, the AMC shall issue a non-transferable Unit certificate to the applicant within 5 Business Days of the receipt of request for the certificate. Unit certificate if issued must be duly discharged by the Unit holder(s) and surrendered alongwith the request for Redemption / Switch or any other transaction of Units covered therein.</p> <p>All Units will rank pari passu, among Units within the same Option in the Scheme concerned as to assets, earnings and the receipt of dividend distributions, if any, as may be declared by the Trustee.</p>

Consolidated Account Statement (CAS)	<ol style="list-style-type: none"> 1. The Consolidated Account Statement (CAS) for each calendar month will be issued on or before tenth day of succeeding month to the investors who have provided valid Permanent Account Number (PAN). Further, CAS will be sent via email where any of the folios consolidated has an email id or to the email id of the first unit holder as per KYC records. 2. For folios not included in the Consolidated Account Statement (CAS), the AMC shall henceforth issue account statement to the investors on a monthly basis, pursuant to any financial transaction in such folios on or before tenth day of succeeding month. In case of a New Fund Offer Period (NFO), the AMC shall send confirmation specifying the number of units allotted to the applicant by way of a physical account statement or an email and/or SMS's to the investor's registered address and/or mobile number not later than five business days from the date of closure of the NFO.

3. In case of a specific request received from the unit holder, the AMC shall provide the account statement to the investors within 5 business days from the receipt of such request.

4. In the case of joint holding in a folio, the first named Unit holder shall receive the CAS/account statement. The holding pattern has to be same in all folios across Mutual Funds for CAS.

Further, in case if no transaction has taken place in a folio during the period of six months ended September 30 and March 31, the CAS detailing the holdings across all Schemes of all mutual funds, shall be emailed at the registered email address of the unitholders on half yearly basis, on or before tenth day of succeeding month, unless a specific request is made to receive the same in physical form.

5. Each CAS issued to the investors shall also provide the total purchase value / cost of investment in each scheme.

Further, CAS issued for the half-year(September/ March) shall also provide:

- a. The amount of actual commission paid by AMCs/Mutual Funds (MFs) to distributors (in absolute terms) during the half-year period against the concerned investor's total investments in each MF scheme. The term 'commission' here refers to all direct monetary payments and other payments made in the form of gifts / rewards, trips, event sponsorships etc. by AMCs/MFs to distributors. Further, a mention may be made in such CAS indicating that the commission disclosed is gross commission and does not exclude costs incurred by distributors such as Goods and services tax (wherever applicable, as per existing rates), operating expenses, etc.
- b. The scheme's average Total Expense Ratio (in percentage terms) for the half-year period for each scheme's applicable plan, where the concerned investor has actually invested in.

Such half-yearly CAS shall be issued to all MF investors, excluding those investors who do not have any holdings in MF schemes and where no commission against their investment has been paid to distributors, during the concerned half-year period.

In case the units are held in dematerialized (demat) form, the statement of holding of the beneficiary account holder will be sent by the respective Depository Participant periodically.

CAS for investors having Demat account:

- Investors having MF investments and holding securities in Demat account shall receive a single Consolidated Account

	<p>Statement (CAS) from the Depository.</p> <ul style="list-style-type: none"> • Consolidation of account statement shall be done on the basis of Permanent Account Number (PAN). In case of multiple holding, it shall be PAN of the first holder and pattern of holding. The CAS shall be generated on a monthly basis. • If there is any transaction in any of the Demat accounts of the investor or in any of his mutual fund folios, depositories shall send the CAS within ten days from the month end. In case, there is no transaction in any of the mutual fund folios and demat accounts then CAS with holding details shall be sent to the investor on half yearly basis. • In case an investor has multiple accounts across two depositories, the depository with whom the account has been opened earlier will be the default depository. <p>The dispatch of CAS by the depositories would constitute compliance by the AMC/ the Mutual Fund with the requirement under Regulation 36(4) of SEBI (Mutual Funds) Regulations.</p> <p>However, the AMC reserves the right to furnish the account statement in addition to the CAS, if deemed fit in the interest of investor(s).</p>
Bank Account Details	<p>As per the directives issued by SEBI, it is mandatory for applicants to mention their bank account numbers in their applications for purchase or redemption of Units. If the Unit-holder fails to provide the Bank mandate, the request for redemption would be considered as not valid and the Fund retains the right to withhold the redemption until a proper bank mandate is furnished by the Unit-holder and the provision with respect of penal interest in such cases will not be applicable/entertained.</p> <p><u>Bank Mandate Requirement</u></p> <p>For all fresh purchase transactions made by means of a cheque, if cheque provided alongwith fresh subscription/new folio creation does not belong to the bank mandate opted in the application form, any one of the following documents needs to be submitted.</p> <ol style="list-style-type: none"> 1. D. COMPUTATION OF NAV

The NAV of the Units of the Scheme will be computed by dividing the net assets of the Scheme by the number of Units outstanding on the valuation date. The Fund shall value its investments according to the valuation norms, as specified in Schedule VIII of the Regulations, or such norms as may be prescribed by SEBI from time to time and as stipulated in the Valuation Policy and Procedures of the Fund, provided in SAI. The NAVs of the Scheme shall be rounded off up to four decimals.

NAV of units under the Scheme shall be calculated as shown below:

$$\text{NAV (Rs.)} = \frac{\text{Market or Fair Value of Scheme's investments} + \text{Current Assets} - \text{Current Liabilities and Provision}}{\text{No. of Units outstanding under the Scheme}}$$

The NAV of the Scheme will be calculated as of the close of every Business Day. The valuation of the Scheme's assets and calculation of the Scheme's NAV shall be subject to audit on an annual basis and such regulations as may be prescribed by SEBI from time to time.

IV. FEES AND EXPENSES

This section outlines the expenses that will be charged to the schemes.

A. NEW FUND OFFER (NFO) EXPENSES

These expenses are incurred for the purpose of various activities related to the NFO like sales and distribution fees paid marketing and advertising, registrar expenses, printing and stationary, bank charges etc. Entire NFO expenses will be borne by the AMC. In terms of SEBI circular no. SEBI/IMD/CIR No. 11/115723 /08 dated January 31, 2008, close ended schemes are not permitted to charge initial issue expenses to the scheme. Hence, NFO Expenses will not be charged to the Scheme.

B. ANNUAL SCHEME RECURRING EXPENSES

These are the fees and expenses for operating the Scheme. These expenses include Investment Management and Advisory Fee charged by the AMC, Registrar and Transfer Agents' fee, marketing and selling costs etc. as given in the table below:

The AMC has estimated the following percentage of the daily net assets of the Scheme will be charged to the Scheme as expenses. For the actual current expenses being charged, the investor should refer to the website of the mutual fund. The mutual fund would update the current expense ratios on the website within two business days mentioning the effective date of the change.

The above table excludes additional expenses that can be charged towards: i) 30 bps for gross new inflows from specified cities and ii) Goods and services tax on investment management and advisory fees. The same is more specifically elaborated below.

At least 2 basis points on daily net assets within the maximum limit of overall expense ratio shall be annually set apart for investor education and awareness initiatives.

Pursuant to SEBI circular no. CIR/IMD/DF/21/2012 dated September 13, 2012 and SEBI (Mutual Funds) Second Amendment Regulations, 2012, following additional costs or expenses may be charged to the scheme, namely:

- (i) The AMC may charge Goods and services tax on investment and advisory fees to the scheme of the Fund in addition to the maximum limit of total expenses ratio as

prescribed in Regulation 52 of the Regulations, whereas Goods and services tax on other than investment and advisory fees, if any, shall be borne by the scheme within the maximum limit as per regulation 52 of the Regulations.

(ii) expenses not exceeding of 0.30 per cent of daily net assets, if the new inflows from such cities as specified by the Securities and Exchange Board of India, from time to time are at least –

- 30 per cent of the gross new inflows into the scheme, or;
- 15 per cent of the average assets under management (year to date) of the scheme,

whichever is higher;

Provided that if inflows from such cities are less than the higher of the above, such expenses on daily net assets of the scheme shall be charged on proportionate basis;

Provided further that expenses charged under this clause shall be utilised for distribution expenses incurred for bringing inflows from such cities;

Provided further that amount incurred as expense on account of inflows from such cities shall be credited back to the scheme in case the said inflows are redeemed within a period of one year from the date of investment.

Further, the brokerage and transaction cost incurred for the purpose of execution of trade may be capitalized to the extent of 12 bps and 5 bps for cash market transactions and derivatives transactions respectively. Any payment towards brokerage and transaction cost, over and above the said 12 bps and 5 bps for cash market transactions and derivatives transactions respectively may be charged to the scheme within the maximum limit of Total Expense Ratio as prescribed under regulation 52 of the SEBI (Mutual Funds) Regulations, 1996. Goods and Services tax on brokerage and transaction cost paid for execution of trade, if any, shall be within the limit prescribed under regulation 52 of the Regulations.

Subject to Regulations, expenses over and above the prescribed limit shall be borne by the Asset Management Company.

The following is an illustration of the impact of expense ratio on the scheme's returns:

	Particulars	Year 1	Year 2
(A)	Net Assets Before expenses	50,00,00,000.00	58,92,00,000.00
	NAV per Unit Before Expense	10.00	11.78

VI. PENALTIES, PENDING LITIGATION OR PROCEEDINGS, FINDINGS OF INSPECTIONS OR INVESTIGATIONS FOR WHICH ACTION MAY HAVE BEEN TAKEN OR IS IN THE PROCESS OF BEING TAKEN BY ANY REGULATORY AUTHORITY

1) All disclosures regarding penalties and action(s) taken against foreign Sponsor(s) may be limited to the jurisdiction of the country where the principal activities (in terms of income / revenue) of the Sponsor(s) are carried out or where the headquarters of the Sponsor(s) is situated. Further, only top 10 monetary penalties during the last three years shall be disclosed.

- In March 2013, Prudential plc and its wholly-owned subsidiary The Prudential Assurance Company Limited settled with the UK's former financial services regulator, the Financial Services Authority (FSA) over issues relating to Prudential's unsuccessful bid to acquire AIA, the Asian subsidiary of AIG, in early 2010.

These Prudential companies agreed to pay fines totalling £30 million, in respect of a decision by the FSA that it and the United Kingdom Listing Authority (UKLA) should have been informed earlier about Prudential's contemplation of the potential transaction. The Group Chief Executive, Tidjane Thiam, also agreed to be censured in respect of a decision by the FSA that it should have been informed earlier. The Final Notices published by the FSA on 27 March 2013 concerning these decisions accordingly represent the final resolution of the matter.

In a public statement accompanying the Final Notices dated 27 March 2013, the FSA stated that the investigation was into past events and did not concern the current

conduct of the management of the Prudential Group. The FSA accepted that Prudential did consider their obligations in forming their assessment in respect of informing the regulator. Therefore, although the FSA considered that the circumstances of the breaches were serious, the FSA did not consider the breaches were reckless or intentional.

In a public statement regarding the FSA's findings dated 27 March 2013, the Board of Prudential confirmed that the Group Chief Executive acted at all times in the interests of the Company and with the full knowledge and authority of the Board. Prudential works diligently to maintain close and positive relationships with its regulators, and the Group's relationship with its UK regulators continues to be good.

Note:

1. Prudential plc was found to have breached Listing Principle 6 of the UKLA, requiring that "A listed company must deal with the FSA in an open and co-operative manner";
 2. The Prudential Assurance Company Limited was found to have breached Principle 11 of the FSA's Principles for Businesses, requiring that "A firm must deal with its regulators in an open and cooperative way, and must disclose to the FSA appropriately anything relating to the firm of which the FSA would reasonably expect notice"; and
 3. Tidjane Thiam was found to have been "knowingly concerned" in The Prudential Assurance Company Limited's breach of Principle 11. The FSA accepted that the breach by Mr Thiam (and Prudential) was neither reckless nor intentional
- A Group holding by MAGIM in Storebrand ASA was not reported by the Disclosures team before the deadline as required under the Norwegian Securities Trading Act Rules. The disclosure, which related to an "above 5% holding", was made to the company and regulator on Friday 30th January 2015 at 17.31. As this was post close of business in Norway it was deemed to be received on Monday 2nd February, resulting in a breach of two days. The Norwegian regulator has now issued a "violation charge" of 100,000 Norwegian Kroner (approximately £8,400) against Prudential plc.
- 2) **In case of Indian Sponsor(s), details of all monetary penalties imposed and/ or action taken during the last three years or pending with any financial regulatory body or governmental authority, against Sponsor(s) and/ or the AMC and/ or the Board of Trustees /Trustee Company; for irregularities or for violations in the financial services sector, or for defaults with respect to share holders or debenture holders and depositors, or for economic offences, or for violation of securities law. Details of settlement, if any, arrived at with the aforesaid authorities during the last three years shall also be disclosed.**
