Change in Asset Allocation Pattern / Portfolio Rebalancing

Short Term Defensive Consideration

As an index linked scheme, the investment policy is primarily passive management. However, as the above mentioned investment pattern is indicative and subject to the SEBI (MF) Regulations and Circulars issued thereunder, the same may vary from time to time. As per clause 1.14.1.2.b of Master Circular, the Fund Manager, may deviate from the above investment pattern for short term period on defensive considerations. The same will be rebalanced within 7 Business Days.

Portfolio Replication/ Rebalancing norms

As per clause 3.6.7 of Master Circular:

- any transactions undertaken in the scheme portfolio in order to meet the redemption and subscription obligations shall be done while ensuring that post such transactions replication of the portfolio with the index is maintained at all points of time.
- in case of change in constituents of the index due to periodic review, the portfolio of the Scheme shall be rebalanced within 7 calendar days or such other timeline as may be prescribed by SEBI from time to time.

Tracking Error:

The Scheme, in general, will hold all the securities that constitute the Underlying Index in the same proportion as the index. Expectation is that, over a period of time, the tracking error of the Scheme relative to the performance of the Underlying Index will be relatively low.

The AMC would monitor the tracking error of the Scheme on an ongoing basis and would seek to minimize tracking error to the maximum extent possible. Under normal market circumstances, such tracking error is not expected to exceed by 2.00% p.a. (based on daily rolling returns for last 12 months). However, in case of events like, Dividend issuance by constituent members, rights issuance by constituent members, and market volatility during rebalancing of the portfolio following the rebalancing of the Underlying Basket, etc. or in abnormal market circumstances, the tracking error may exceed the above mentioned limits.

INTRODUCTION TO EXCHANGE TRADED FUNDS (ETF)

ETFs are innovative products that provide exposure to an index or a basket of securities or physical gold that trade on the exchange like a single stock. ETFs have a number of advantages over traditional open-ended index funds as they can be bought and sold on the exchange at prices that are usually close to the actual Intra-Day NAV of the Scheme. ETFs are an innovation to traditional mutual funds as ETFs provide Investors a fund that closely tracks the performance of an index/physical gold with the ability to buy/sell on an Intra-Day basis. Unlike listed close ended funds, which trade at substantial premiums or more frequently at discounts to NAV, ETFs are structured in a manner which allows to create new Units and Redeem outstanding Units directly with the fund, thereby ensuring that ETFs trade close to their actual NAVs.

ETFs are usually passively managed funds wherein subscription/redemption of units work on the concept of exchange with underlying securities. In other words, Large Investors/institutions can purchase Units by depositing the underlying securities with the Fund/AMC and can redeem by receiving the underlying shares in exchange of Units in Creation Unit Size. Units can also be bought and sold directly on the exchange.

ETFs have all the benefits of indexing such as diversification, low cost and transparency. As ETFs are listed on the exchange, costs of distribution are much lower and the reach is wider. These savings in cost are passed on to the Investors in the form of lower costs. Further more, exchange traded mechanism enables minimal collection, disbursement and other processing charges. The structure of ETFs is such that it protects long-term Investors from inflows and outflows of short-term Investor. This is because the Fund does not bear extra transaction cost when buying/selling due to frequent subscriptions and redemptions.

Tracking Error of ETFs is likely to be low as compared to a normal index fund. Due to the creation/redemption of units through the in-kind mechanism the fund can keep lesser funds in cash. Also, time lag between buying/selling units and the underlying shares is much lower.

ETFs are highly flexible and can be used as a tool for gaining instant exposure to the equity markets, equitising cash or for arbitraging between the cash and futures market.

Benefits of ETFs

1. Can be easily bought/sold like any other stock on the exchange through terminals spread across the country.
2. Can be bought/sold anytime during market hours at prices that are expected to be close to actual NAV of the Schemes. Thus, investor invests at real-time prices as opposed to end of day prices.
3. No separate form filling for buying/selling units. It is just a phone call to your broker or a click on the net.
4. Ability to put limit orders.
5. Minimum investment for an ETF is one unit.
6. Protects long-term investors from the inflows and outflows of short-term investors.
7. Flexible as it can be used as a tool for gaining instant exposure to the respective equity/gold markets, equitizing cash, hedging or for arbitraging between the cash and futures market.
8. Helps in increasing liquidity of underlying cash market.
9. Aids low cost arbitrage between futures and cash market.
10. An investor can get a consolidated view of his investments without adding too many different account statements as the Units issued would be in demat form

Uses of ETFs

1. Investors with a long-term horizon: Allows diversification of portfolio at one shot thereby reducing scrip specific risk at a low cost.
2. Institutions and Mutual Funds: Allows easy asset allocation, hedging and equitising cash at a low cost.
3. Arbitrageurs: Low impact cost to carry out arbitrage between the cash and the futures market.
4. Investors with a shorter term horizon: Allows liquidity due to ability to trade during the day and expected to have quotes near NAV during the course of trading day.

Risks of ETFs

1. Absence of Prior Active Market: Although the units of ETFs are listed on the Exchange for trading, there can be no assurance that an active secondary market will develop or be maintained.
2. Lack of Market Liquidity: Trading in units of ETFs on the Exchange on which it is listed may be halted because of market conditions or for reasons that, in the view of the concerned stock exchange or market regulator, trading in the ETF units is inadvisable. In addition, trading in the units of ETFs is subject to trading halts caused by extraordinary market volatility pursuant to 'circuit filter' rules. There can be no assurance that the requirements of the concerned stock exchange necessary to maintain the listing of the units of ETFs will continue to be met or will remain unchanged.
3. Units of Exchange Traded Funds may trade at prices other than NAV: Units of ETFs may trade above or below their NAV. The NAV of units of ETFs may fluctuate with changes in the market value of a

Scheme's holdings. The trading prices of units of ETF will fluctuate in accordance with changes in their NAVs as well as market supply and demand. However, given that ETFs can be created/redeemed in creation units, directly with the Fund, large discounts or premiums to the NAVs will not sustain due to arbitrage possibility available.

HOW HDFC NIFTY Bank ETF (the ETF) WORKS

- **Procedure for directly with the Mutual Fund creation of the ETF units in Creation Unit Size:**

The Fund/AMC allows cash/exchange of Portfolio Deposit for Purchase of Units of the Scheme in Creation Unit Size by Large Investors/Market Makers.

- **Creation of Units in exchange of Portfolio Deposit:** The requisite Securities constituting the Portfolio Deposit have to be transferred to the Scheme's Depository Participant account while the Cash Component has to be paid to the Custodian/AMC. On confirmation of the same by the Custodian/AMC, the AMC will create and transfer the equivalent number of Units of the Scheme into the Investor's Depository Participant account and pay/recover the Cash Component and transaction handling charges, if any.
- **Creation of Units in Cash:** Subscription of the ETF Units in Creation Unit Size will be made by payment of requisite Cash, as determined by the AMC equivalent to the cost incurred towards the purchase of predefined basket of securities that represent the Underlying Index (i.e. Portfolio Deposit), Cash Component and transaction handling charges, if any, only by means of payment instruction of Real Time Gross Settlement (RTGS)/National Electronic Funds Transfer (NEFT) or Funds Transfer Letter/Transfer Cheque of a bank where the Scheme has a collection account.
- The Creation Unit will be subject to transaction handling charges incurred by the Fund/AMC. Such transaction handling charges shall be recoverable from the transacting Market Maker or Large Investor.
- The Portfolio Deposit and/or Cash Component for units of the Scheme may change from time to time due to changes in the Underlying Index on account of corporate actions and changes to the index constituents.
- **The investors are requested to note that the Units of the Scheme will be credited into the Investor's Depository Participant account only on receipt of Cash Component and transaction handling charges, if any.**

'Creation Unit Size' is fixed number of units of the Scheme, which is exchanged for (a) a basket of securities (Portfolio Deposit) and a Cash Component; or (b) cash for purchasing basket of securities and a Cash Component, equal to the value of said predefined units of the Scheme.

Each Creation Unit Size consists of 125,000 units of the ETF. Each unit of the ETF will be approximately equal to the 1/1000th value of the NIFTY Bank Index (TRI).

'Portfolio Deposit' consists of pre-defined basket of securities that represent the Underlying Index as announced by AMC from time to time.

- **Procedure for Redemption directly with the Mutual Fund in Creation Unit Size for Market Makers/Large Investors**

- The requisite number of Units of the Scheme equivalent to the Creation Unit has to be transferred to the Fund's Depository Participant account and the Cash Component to be paid to the AMC/Custodian.

- On confirmation of the same by the AMC, the AMC will transfer the Portfolio Deposit to the Market Maker's Depository Participant account and pay/recover the Cash Component and transaction handling charges, if any.
- The Fund shall allow cash Redemption of the Units of the Scheme in Creation Unit Size by Large Investors/Market Makers.
- Such Investors shall make Redemption request to the Fund/AMC whereupon the Fund/AMC will arrange to sell underlying portfolio Securities on behalf of the Investor. Accordingly, the sale proceeds of portfolio Securities, after adjusting the Cash Component and transaction handling charges will be remitted to the Investor.
- Redemption proceeds will be sent to Market Makers/Large Investors within 3 working days of the date of redemption subject to confirmation with the depository records of the Scheme's DP account.

Note:

1. The Creation Unit Size may be changed by the AMC in order to equate it with marketable lots of the underlying securities or at their discretion and the notice of the same shall be published on AMC's website.
2. Transaction handling charges include brokerage, Securities transaction tax, regulatory charges if any, depository participant charges, uploading charges and such other charges that the mutual fund may have to incur in the course of Cash subscription/redemption or accepting the Portfolio Deposit or for giving a portfolio of securities as consideration for a redemption request. Such transaction handling charges shall be recoverable from the transacting Investor.
3. The Portfolio Deposit and/or Cash Component for the ETF may change from time to time due to change in NAV.

The procedure relating to purchase and sale of units by different types of investors/Market Makers in the Scheme during continuous offer is tabulated for easy reference:

Type of investor and transaction Details	Sale of units by Mutual Fund	Redemption of units by Unit holders
Market Makers/Large Investor Other investors	Any Business Day in Creation Unit* Size and in multiple thereof. Only through stock exchange(s)	Any Business Day in Creation Unit* Size and in multiple thereof. Only through stock exchange(s)
Role of Market Maker	Gives two way quotes in the secondary market. Stands as a seller for a buy order.	Gives two-way quotes in the secondary market. Stands as a buyer against a sell order.
Role of Large Investor	Only an investor – no other role in the Scheme operations.	

Each Creation Unit Size consists of 125,000 units of the ETF and 1 unit of the ETF will be approximately equal to the 1/1000th value of the NIFTY Bank Index (TRI).

Procedure for Redemption directly with the Mutual Fund during Liquidity Window.

When the Scheme announces Liquidity Window on its website, (refer para “**Liquidity/Redemption of units directly with the Mutual Fund during in exceptional circumstances (Liquidity Window)**” under Section titled “**Highlights**”, Investors may tender their redemption request to their Depositories Participants for redemption at Applicable NAV, for transactions upto Rs 25 Crores. Redemptions up to 3.00 p.m. on any Business Day, shall be processed by the Fund at the closing NAV of the day and those received thereafter on that day will be processed at the closing NAV of the next Business Day. In such cases, redemption proceeds shall be credited to the bank account linked to unitholder’s demat account.

Market Makers:

AMC has appointed at least two Market Makers, who are members of the Stock Exchanges or such other persons as permitted by SEBI to act as Market Makers, to provide continuous liquidity on the stock exchange where the units of ETF are listed. The Market Makers offers two-way quotes (buy and sell quotes) in the secondary market for ensuring liquidity in the ETF Units.

Further, the AMC reserves the right to modify Market Makers on an ongoing basis. The list of Market Makers will be available on the website of the Fund www.hdfcfund.com.

As permitted under clause 3.6.1.5 of Master Circular, the AMC may enable net settlement between cash leg of transactions in units of the Scheme by Market Makers and consequent transaction in underlying basket by the Scheme in accordance with the guidelines issued by SEBI/AMFI in consultation with Clearing Corporations/stock exchanges in this regard.

B. WHERE WILL THE SCHEME INVEST?

The Scheme will invest in securities as mentioned below. The investments will be made as per the limits specified in the asset allocation table of the Scheme, subject to permissible limits laid under SEBI (MF) Regulations or any other applicable laws and guidelines.

- Equity and equity related instruments.
- Debt and Money Market Instruments
- Short Term Deposits
- Units of mutual funds
- Derivatives
- Any other instruments as may be permitted by RBI / SEBI from time to time, subject to necessary regulatory approvals.

For detailed disclosures, kindly refer Section II.

C. WHAT ARE THE INVESTMENT STRATEGIES?

HDFC NIFTY Bank ETF will invest in stocks comprising the Underlying Index and endeavour to track the benchmark index. The Scheme may also invest in debt & money market instruments, in compliance with regulations to meet liquidity and expense requirements. HDFC NIFTY Bank ETF endeavours to invest in stocks forming part of the Underlying Index in the same ratio as per the index to the extent possible and to that extent follows a passive investment strategy, except to the extent of meeting liquidity and expense requirements.

Since the Scheme is an exchange traded fund, it will only invest in securities constituting the Underlying Index. However, due to corporate action in companies comprising the index, the Scheme may be

allocated/allotted securities which are not part of the index. Such holdings would be rebalanced within 7 Business Days from the date of allotment/listing of such securities. As part of the Fund Management process, the Scheme may use derivative instruments such as index futures and options, or any other derivative instruments that are permissible or may be permissible in future under applicable regulations. However, trading in derivatives by the Scheme shall be for restricted purposes as permitted by the Regulations.

For detailed derivative strategies, please refer to SAI. For exposure limits to derivatives, refer section **'Where will the scheme invest' under Section II, Part II, Clause A**

Though every endeavour will be made to achieve the objective of the Scheme, the AMC/Sponsor/Trustee do not guarantee that the investment objective of the Scheme will be achieved. No guaranteed returns are being offered under the Scheme.

RISK CONTROL: The Scheme aims to track the NIFTY Bank Index (TRI) before expenses. The index will be tracked on a regular basis and changes to the constituents or their weights, if any, will be replicated in the underlying portfolio with the purpose of minimizing tracking errors.

The Scheme being a passive investment carries lesser risk as compared to active fund management. The portfolio would follow the index and therefore the level of stock concentration in the portfolio and its volatility would be the same as that of the index, subject to tracking errors. Thus, there would be no additional element of volatility or stock concentration on account of fund manager decisions. The fund manager would endeavor to keep cash levels at the minimal to control tracking errors.

The Risk Mitigation strategy revolves around reducing the tracking error to the least possible through regular rebalancing of the portfolio, taking into account the change in weights of stocks in the Underlying Index as well as the incremental inflows into/redemptions from the Scheme.

While these measures are expected to mitigate the above risks to a large extent, there can be no assurance that these risks would be completely eliminated.

PORTFOLIO TURNOVER

Portfolio Turnover measures the volume of trading that occurs in a Scheme's portfolio during a given time period. The Scheme is an open-ended Scheme. This Fund will follow a passive investment strategy, the endeavour will be to minimise portfolio turnover subject to the exigencies and needs of the Scheme. Generally, turnover will be confined to rebalancing of portfolio on account of new subscriptions, redemptions and change in the composition of the Underlying Index and corporate actions of securities included in the Underlying Index. A higher portfolio turnover results in higher brokerage and transaction cost.

D. HOW WILL THE SCHEME BENCHMARK ITS PERFORMANCE?

NIFTY Bank Index (TRI).

In accordance with the investment objective and tracking error definition, the Scheme performance will be compared with the total returns of NIFTY Bank Index (TRI).

The above Index has been chosen as the benchmark since the Scheme will invest in stocks which are constituents of NIFTY Bank Index (TRI). Thus, the aforesaid benchmark is most suited for comparing the performance of the Scheme.

The Trustee reserves right to change the benchmark for performance of the scheme in conformity with the investment objectives and appropriateness of the benchmark subject to SEBI (MF) Regulations, and other prevailing guidelines, if any by suitable notification to the investors to this effect.

Part III. OTHER DETAILS

A. COMPUTATION OF NAV

The Net Asset Value (NAV) per Unit of the Scheme will be computed by dividing the net assets of the Scheme by the number of Units outstanding under the Scheme on the valuation date. The AMC will value its investments according to the valuation norms, as specified in Schedule VIII of the SEBI (MF) Regulations, or such norms as may be specified by SEBI from time to time and as stipulated in the Valuation Policy and Procedures of the Fund, provided in SAI available on website.

In case of any conflict between the Principles of Fair Valuation and valuation guidelines specified by SEBI, the Principles of Fair Valuation shall prevail.

NAV of Units of under the Scheme shall be calculated as shown below:

$$\begin{array}{r}
 \text{NAV (Rs.)} \\
 = \\
 \text{per Unit}
 \end{array}
 = \frac{\begin{array}{r}
 \text{Market or Fair Value of the Scheme's Investments} \\
 + \text{Current Assets} \\
 - \text{Current Liabilities and Provisions}
 \end{array}}{\begin{array}{r}
 \text{No. of Units outstanding} \\
 \text{under each Scheme}
 \end{array}}$$

The NAV of the Scheme will be calculated and disclosed at the close of every Business Day.

The NAV of the Scheme will be calculated upto 4 decimals.

While determining the price of the units, the mutual fund shall ensure that the repurchase price of an open ended scheme is not lower than 95 per cent of the Net Asset Value.

Illustration for Computation of NAV:

NAV for the Scheme shall be calculated as shown below:

Particulars	Amount (In INR)
Assets	
Investments (at Market Value)	10,000
(Equity/Debt/Derivatives)	
Current Assets	
Interest receivable	1,000
Dividend Receivables	550
Trades Receivables	1,500
Total Assets (A)	13,050
Current Liabilities	
Trade Payables	1,500

Expense Payable	25
Dividend payable	25
Total Liabilities (B)	1,550
Net Assets (C) (A – B)	11,500
Units Outstanding (D)	1,000
NAV per unit (C/D)	₹ 11.50

METHODOLOGY FOR COMPUTATION OF SALE AND REPURCHASE PRICE

- **Ongoing Price for subscription (purchase)/ switch-in (from other schemes/ plans of the mutual fund) by investors. (This is the price you need to pay for purchase/ switch-in):**

The Sale Price for a valid purchase will be the Applicable NAV.

i.e. Sale Price = Applicable NAV

For a valid purchase request of Rs. 10,000 where the applicable NAV is Rs. 11.1234, the units allotted will be:

$$= \frac{10,000 \text{ (i.e. purchase amount)}}{11.1234 \text{ (i.e. applicable NAV)}}$$

= 899.006 units (rounded to three decimals)

Transaction charges and other charges/expenses, if any, borne by the investors have not been considered in the above illustration.

- **Ongoing Price for redemption (sale)/ switch-outs (to other schemes/plans of the mutual fund) by investors. (This is the price you will receive for redemptions/ switch-outs):**

The Repurchase Price for a valid repurchase will be the applicable NAV reduced by any exit load (say 1%).
i.e. applicable NAV - (applicable NAV X applicable exit load).

For a valid repurchase request where the applicable NAV is Rs. 12.1234, the repurchase price will be:

$$= 12.1234 - (12.1234 \times 1.00\%)$$

$$= 12.1234 - 0.1212$$

$$= \text{Rs. } 12.0022$$

Therefore, for a repurchase of 899.006 units, the proceeds received by the investor will be -

$$= 899.006 \text{ (units)} \times 12.0022 \text{ (Repurchase price)}$$

$$= \text{Rs. } 10,790.02 \text{ (rounded to two decimals)}$$

Transaction charges and other charges/expenses, if any, borne by the investors have not been considered in the above illustration.

While determining the price of the units, the mutual fund shall ensure that the repurchase price of an open ended scheme is not lower than 95 per cent of the Net Asset Value.

For other details such as policies with respect to computation of NAV, rounding off, investment in foreign securities, procedure in case of delay in disclosure of NAV etc. refer to SAI.

B. ANNUAL SCHEME RECURRING EXPENSES

These are the fees and expenses for operating the scheme. These expenses include Investment Management and Advisory Fee charged by the AMC, Registrar and Transfer Agents' fee, marketing and selling costs etc. as given in the table below:

The AMC has estimated that upto 1.00% of the daily net assets of the scheme will be charged to the scheme as expenses. For the actual current expenses being charged, the investor should refer to the website of the AMC www.hdfcfund.com.

Notes:

¹Trustee Fees and Expenses

In accordance with the Trust Deed constituting the Mutual Fund, the Trustee is entitled to receive, in addition to the reimbursement of all costs, charges and expenses, a quarterly fee computed at a rate not exceeding 0.10% per annum of the daily net assets of the Scheme(s) or a sum of Rs. 15,00,000 per annum, whichever is higher. However, the Trustee may charge any fee amount within the rate/amount as specified hereto. Such fee shall be paid to the Trustee within seven working days from the end of each quarter every year, namely, within 7 working days from June 30, September 30, December 31 and March 31 of each year. The Trustee may charge further expenses as permitted from time to time under the Trust Deed and SEBI (MF) Regulations.

²Marketing and Selling Expenses

The Scheme shall not incur any distribution expenses and no commission shall be paid by the Scheme.

³ Investor Education and Awareness initiatives

As per clause 10.1.16 of Master Circular, the AMC shall annually set apart **1** basis points p.a. (i.e. **0.01%** p.a.) on daily net assets of the Scheme within the limits of total expenses prescribed under Regulation 52 of SEBI (MF) Regulations for investor education and awareness initiatives undertaken.

⁴ GST

As per clause 10.3 of the Master Circular, GST shall be charged as follows:

1. GST on investment management and advisory fees shall be charged to the Scheme in addition to the maximum limit of TER as prescribed in Regulation 52 (6) of the SEBI (MF) Regulations.
2. GST on other than investment management and advisory fees, if any, shall be borne by the Scheme within the maximum limit of TER as prescribed in Regulation 52 (6) of the SEBI (MF) Regulations.
3. GST on exit load, if any, shall be paid out of the exit load proceeds and exit load net of GST, if any, shall be credited to the Scheme.
4. GST on brokerage and transaction cost paid for execution of trade, if any, shall be within the limit prescribed under Regulation 52 of the SEBI (MF) Regulations.

⁵Brokerage and transaction cost incurred for the purpose of execution of trade shall be charged to the schemes as provided under Regulation 52 (6A) (a) upto 12 bps and 5 bps for cash market transactions and derivatives transactions (if permitted under the scheme) respectively. Any payment towards brokerage and transaction costs, over and above the said 12 bps and 5 bps may be charged to the scheme within the maximum limit of Total Expense Ratio (TER) as prescribed under Regulation 52.

⁶There shall be no internal sub-limits within the expense ratio for expense heads mentioned under Regulation 52 (2) and (4) respectively.

The purpose of the above table is to assist the Investor in understanding the various costs and expenses that an Investor under the Scheme will bear directly or indirectly. The figures in the table above are estimates. The actual expenses that can be charged to the Scheme will be subject to limits prescribed from time to time under the SEBI (MF) Regulations.

The total expenses charged to the ETF Scheme shall not exceed one per cent (1.00%) of the daily net assets and such other limits as stated in Regulation 52(6).

All scheme related expenses including commission paid to distributors, if any, by whatever name it may be called and in whatever manner it may be paid, shall necessarily be paid from the scheme only within the regulatory limits and not from the books of AMC, its associate, sponsor, trustees or any other entity through any route in terms of SEBI circulars, subject to the clarifications provided by SEBI to AMFI vide letter dated February 21, 2019 as amended from time to time on implementation of clause 10.1.12 of Master Circular on Total Expense Ratio (TER) and performance disclosure for Mutual Fund.

The total expenses of the Scheme shall not exceed the limits stated in Regulation 52 of the SEBI (MF) Regulations and as permitted under SEBI Circulars issued from time to time. Any expenditure in excess of the SEBI regulatory limits shall be borne by the AMC or by the Trustee or the Sponsor.

The mutual fund would update the current expense ratios on the website (www.hdfcfund.com) at least three working days prior to the effective date of the change and update the TER under the Section titled "Statutory Disclosures" under sub-section titled "Total Expense Ratio of Mutual Fund Schemes".

Illustration: Impact of TER on Scheme's return:

Expense ratio, normally expressed as a percentage of Average Assets under Management, is calculated by dividing the permissible expenses under the Regulations by the average net assets.

To further illustrate the above, for the Scheme under reference, suppose an Investor invested Rs. 10,000/- (after deduction of stamp duty and transaction charges, if any), the impact of expenses charged will be as under:

Amount invested at the beginning of the year (Rs.)	10,000
Returns before expenses (Rs.)	1,500
Expenses	150
Returns after expenses at the end of the year (Rs.)	1350
Returns (in %)	13.5%

Note(s):

- The purpose of the above illustration is to purely explain the impact of expense ratio charged under the Scheme and should not be construed as providing any kind of investment advice or guarantee of returns on investments.
- It is assumed that the expenses charged are evenly distributed throughout the year.
- Any tax impact has not been considered in the above example, in view of the individual nature of the tax implications. Each investor is advised to seek appropriate advice.

C. LOAD STRUCTURE

Exit Load is an amount which is paid by the investor to redeem the units from the scheme. Load amounts are variable and are subject to change from time to time. For the current applicable structure, please refer to the website of the AMC (www.hdfcfund.com) or you may call at 1800 3010 6767/1800 419 7676 or your distributor.

Type of Load	Load chargeable (as % of NAV)
Exit Load	Not Applicable.

The AMC/ Trustee if it so deems fit in the interest of smooth and efficient functioning of the Mutual Fund reserves the right to introduce/modify the Load Structure depending upon the circumstances prevailing at that time subject to maximum limits as prescribed under the SEBI (MF) Regulations. While determining the price of the units, the mutual fund shall ensure that the repurchase price of an open ended scheme is not lower than 95 per cent of the Net Asset Value. Exit load (net of GST) charged, if any, shall be credited to the Scheme. The investor is requested to check the prevailing load structure of the Scheme before investing.

B. RISK FACTORS

■ Scheme Specific Risk Factors:

The Scheme is subject to the specific risks that may adversely affect the Scheme's NAV, return and/or ability to meet its investment objective.

The specific risk factors related to the Scheme include, but are not limited to the following:

(i) Risk Factors associated with Exchange Traded Schemes:

a) Passive Investments:

- As the Scheme proposes to invest not less than 95% of the net assets in the securities of the Underlying Index in the same proportion, the Scheme will not be actively managed. The Scheme may be affected by a general decline in the Indian markets relating to its Underlying Index. The Scheme invests in the securities included in its Underlying Index regardless of their investment merit. The AMC does not attempt to individually select stocks or to take defensive positions in declining markets.
- Performance of the Underlying Index will have a direct bearing on the performance of the Scheme. In the event the Underlying Index, is dissolved or is withdrawn or is not published due to any reason whatsoever, the Trustee reserves the right to modify the Scheme so as to track a different and suitable index or to suspend tracking the Underlying Index till such time it is not published and appropriate intimation will be sent to the Unit holders of the Scheme. In such a case, the investment pattern will be modified suitably to match the composition of the securities that are included in the new index to be tracked and the Scheme will be subject to tracking error during the intervening period.

Further, it is pertinent to note that there is no element of research recommendations involved before the execution of trades in the Scheme. The decision of the Fund Manager to execute trades including rebalancing required will be purely driven by the inflows and outflows in the Scheme and composition of the Underlying Index.

b) Tracking Error Risk/ Tracking Difference Risk:

The Fund Manager would not be able to invest the entire corpus exactly in the same proportion as in the Underlying Index due to certain factors such as the fees and expenses of the Scheme, corporate actions, cash balance, changes to the Underlying Index and regulatory policies which may affect AMC's ability to achieve close correlation with the Underlying Index of the Scheme. The Scheme's returns may therefore deviate from those of its Underlying Index. Tracking Error" is defined as the standard deviation of the difference in daily returns between the Scheme and the Underlying Index annualized over 1 year period. Tracking difference is the difference of returns between the

Scheme and the index annualized over 1 year, 3 year, 5 year, 10 year and since the scheme inception period. Tracking Error may arise including but not limited to the following reasons.

- a. Expenditure incurred by the Scheme.
- b. The holding of a cash position and accrued income prior to distribution of income and payment of accrued expenses. The Scheme may not be invested at all times as it may keep a portion of the funds in cash to meet redemptions or for corporate actions.
- c. Securities trading may halt temporarily due to circuit filters.
- d. Corporate actions such as debenture or warrant conversion, rights, merger, change in constituents etc.
- e. Rounding off of quantity of shares in Underlying Index.
- f. Dividend received from underlying securities.
- g. Disinvestments by Scheme to meet redemptions, recurring expenses, etc.
- h. Execution of large buy/sell orders.
- i. Transaction cost (including taxes and insurance premium), recurring expenses and other expenses, such as but not limited to brokerage, custody, trustee and investment management fees.
- j. Realisation of Unit holders' funds.
- k. The Scheme may not be able to acquire or sell the desired number of securities due to conditions prevailing in the securities market, such as, but not restricted to: circuit filters in the securities, liquidity and volatility in security prices.
- l. The Index reflects the prices of securities at a point in time, which is the price at close of business day on BSE/National Stock Exchange of India Limited (NSE). The Scheme, however, may at times trade these securities at different points in time during the trading session and therefore the prices at which the Plan trade may not be identical to the closing price of each scrip on that day on the BSE/NSE. In addition, the Scheme may opt to trade the same securities on different exchanges due to price or liquidity factors, which may also result in traded prices being at variance, from BSE/NSE closing prices.
- m. In case of investments in derivatives like index futures, the risk reward would be the same as investments in portfolio of shares representing an index. However, there may be a cost attached to buying an index future. Further, there could be an element of settlement risk, which could be different from the risk in settling physical shares and there is a risk attached to the liquidity and the depth of the index futures market as it is relatively new market.

It will be the endeavour of the fund manager to keep the tracking error as low as possible. Under normal circumstances, such tracking error is not expected to exceed 2% per annum for daily 12 month rolling return. However, in case of corporate action events like, Dividend received from underlying securities, rights issue from underlying securities or market events like circuit filters in the securities and market volatility during rebalancing of the portfolio following the rebalancing of the Underlying Index, etc. or in abnormal market circumstances, the tracking error may exceed the above limits. There can be no assurance or guarantee that the Scheme will achieve any particular level of tracking error relative to performance of the Index.

c) Stock Liquidity in the event of Circuit Filter

Liquidity of stocks which are available only in cash segment and not in F&O segment gets adversely impacted in the event of a circuit filter imposed by any of the stock exchanges. This would also impact the subscription and redemption of ETF units, directly done with the Fund and the same will be dealt with in the manner described below. Further, this may result in gain/loss to existing unit holders when finally the purchase/sale of that stock is executed. This would also create tracking error while comparing returns with benchmark.

Transaction type	Upper circuit	Lower circuit
Subscription	<p>The Scheme shall buy stocks <u>as per basket</u> wherever no circuit.</p> <p>In case of Circuit on any stock(s) in the basket, the Scheme shall:</p> <ol style="list-style-type: none"> 1. Hold cash for stock(s) on circuit at the latest available price on the stock exchange when the circuit was triggered 2. Buy the stock(s) immediately when circuit is open. <p>This may impact performance and result in tracking error.</p>	NA
Redemption	NA	<p>The Scheme shall sell stocks <u>as per basket</u> if no circuit.</p> <p>In case of circuit on Stock(s) in the basket, the Scheme shall:</p> <ol style="list-style-type: none"> 1. Pay from cash or cash equivalent or create cash to pay for stocks on circuit at the latest available price on the stock exchange when the circuit was triggered by selling other stocks which may impact performance and result in tracking error; 2. Sell stock immediately when circuit is open and re-balance portfolio which may impact performance and result in tracking error.

d) Market Trading Risks:

- Absence of Prior Active Market:** Although the Scheme is listed on NSE and/or BSE, there can be no assurance that an active secondary market will develop or be maintained. Hence there could be a time when trading in the Units of the Scheme would be infrequent.

- ii. Trading in Units may be halted:** Trading in the units of the Scheme on NSE/BSE may be halted because of market conditions such as extraordinary market volatility and pursuant to stock exchange(s) and SEBI 'circuit filter' rules, etc or for reasons that in view of NSE/BSE or SEBI, trading in the units of the Scheme is not advisable.

There can be no assurance that the requirements of NSE/BSE necessary to maintain the listing of the units of the Scheme will continue to be met or will remain unchanged.

- iii. Units of the Scheme may trade at prices other than NAV:** The units of the Scheme may trade above or below their NAV. The NAV of the Scheme will fluctuate with changes in the market value of the Scheme's holdings. The trading prices of the units of the Scheme will fluctuate in accordance with changes in their NAV as well as market supply and demand for the units of the Scheme. However, given that units of the Scheme can be created and redeemed in creation units directly with the Fund, it is expected that large discounts or premiums to the NAV of units of the Scheme will not sustain due to arbitrage opportunity available.

- iv. Regulatory Risk:** Any changes in trading regulations by the Stock Exchange(s)/SEBI may affect the ability of market maker to arbitrage resulting into wider premium/discount to NAV.

- e) Redemption Risk:** Investors should note that even though the Scheme is an open ended Scheme, subscription/redemptions directly with the Fund would be limited to such investors who have the ability to subscribe/redeem the units of the Scheme in Creation Unit Size (except in certain exceptional circumstances mentioned in this SID). Generally, these lot sizes are larger as compared to normal funds. Thus, even though this Scheme is open ended, due to large lot size, very few investors can directly subscribe and redeem the units of the Scheme. However, investors wishing to subscribe/redeem units in other than Creation Unit Size can do so by buying/selling the same on NSE/BSE.
- f)** The units will be issued only in demat form through depositories. The records of the depository are final with respect to the number of units available to the credit of unit holder. Settlement of trades, repurchase of units by the Mutual Fund depends up on the confirmations to be received from depository (ies) on which the Mutual Fund has no control.

(ii) Risk factors associated with investing in equities and equity related instruments

- Equity shares and equity related instruments are volatile and prone to price fluctuations on a daily basis. Investments in equity shares and equity related instruments involve a degree of risk and investors should not invest in the Scheme unless they can afford to take the risks.
- Securities, which are not quoted on the stock exchanges, are inherently illiquid in nature and carry a larger amount of liquidity risk, in comparison to securities that are listed on the exchanges. Investment in such securities may lead to increase in the scheme portfolio risk.
- While securities that are listed on the stock exchange carry lower liquidity risk, the ability to sell these investments is limited by the overall trading volume on the stock exchanges and may lead to the Scheme incurring losses till the security is finally sold.
- Scheme's performance may differ from the benchmark index to the extent of the investments held in the debt segment, as per the investment pattern indicated under normal circumstances.

(iii) Risk factors associated with investing in Fixed Income Securities

- The Net Asset Value (NAV) of the Scheme, to the extent invested in Debt and Money Market instruments, will be affected by changes in the general level of interest rates. The NAV of the

Scheme is expected to increase from a fall in interest rates while it would be adversely affected by an increase in the level of interest rates.

- Money market instruments, while fairly liquid, lack a well developed secondary market, which may restrict the selling ability of the Scheme and may lead to the Scheme incurring losses till the security is finally sold.
- Investments in money market instruments involve credit risk commensurate with short term rating of the issuers.
- Investment in Debt instruments are subject to varying degree of credit risk or default (i.e. the risk of an issuer's inability to meet interest or principal payments on its obligations) or any other issues, which may have their credit ratings downgraded. Changes in financial conditions of an issuer, changes in economic and political conditions in general, or changes in economic or and political conditions specific to an issuer, all of which are factors that may have an adverse impact on an issuer's credit quality and security values. This may increase the risk of the portfolio. The Investment Manager will endeavour to manage credit risk through in-house credit analysis.
- **Prepayment Risk:** Certain fixed income securities give an issuer the right to call back its securities before their maturity date, in periods of declining interest rates. The possibility of such prepayment may force the Scheme to reinvest the proceeds of such investments in securities offering lower yields, resulting in lower interest income for the Scheme.
- **Reinvestment Risk:** This risk refers to the interest rate levels at which cash flows received from the securities in the Scheme are reinvested. The additional income from reinvestment is the "interest on interest" component. The risk is that the rate at which interim cash flows can be reinvested may be lower than that originally assumed.
- **Settlement risk:** Different segments of Indian financial markets have different settlement periods and such periods may be extended significantly by unforeseen circumstances. Delays or other problems in settlement of transactions could result in temporary periods when the assets of the Scheme are uninvested and no return is earned thereon. The inability of the Scheme to make intended securities purchases, due to settlement problems, could cause the Scheme to miss certain investment opportunities. Similarly, the inability to sell securities held in the Scheme's portfolio, due to the absence of a well developed and liquid secondary market for debt securities, may result at times in potential losses to the Scheme in the event of a subsequent decline in the value of securities held in the Scheme's portfolio.
- Government securities where a fixed return is offered run price-risk like any other fixed income security. Generally, when interest rates rise, prices of fixed income securities fall and when interest rates drop, the prices increase. The extent of fall or rise in the prices is a function of the existing coupon, days to maturity and the increase or decrease in the level of interest rates. The new level of interest rate is determined by the rates at which government raises new money and/or the price levels at which the market is already dealing in existing securities. The price-risk is not unique to Government Securities. It exists for all fixed income securities. However, Government Securities are unique in the sense that their credit risk generally remains zero. Therefore, their prices are influenced only by movement in interest rates in the financial system.
- Different types of fixed income securities in which the Scheme would invest as given in the Scheme Information Document carry different levels and types of risk. Accordingly, the Scheme risk may increase or decrease depending upon its investment pattern. e.g. corporate bonds carry a higher level of risk than Government securities. Further even among corporate bonds, AAA rated bonds are comparatively less risky than AA rated bonds.
- The AMC may, considering the overall level of risk of the portfolio, invest in lower rated / unrated securities offering higher yields as well as zero coupon securities that offer attractive yields. This may increase the absolute level of risk of the portfolio.
- As zero coupon securities do not provide periodic interest payments to the holder of the security, these securities are more sensitive to changes in interest rates and are subject to issuer default risk. Therefore, the interest rate risk of zero coupon securities is higher. The AMC may choose to invest in zero coupon securities that offer attractive yields. This may increase the risk of the portfolio. Zero

coupon or deep discount bonds are debt obligations that do not entitle the holder to any periodic payment of interest prior to maturity or a specified date when the securities begin paying current interest and therefore, are generally issued and traded at a discount to their face values. The discount depends on the time remaining until maturity or the date when securities begin paying current interest. It also varies depending on the prevailing interest rates, liquidity of the security and the perceived credit risk of the Issuer. The market prices of zero coupon securities are generally more volatile than the market prices of securities that pay interest periodically.

(iv) Risks associated with investment in unlisted securities:

- Except for any security of an associate or group company, the scheme can invest in securities which are not listed on a stock exchange (“unlisted Securities”) which in general are subject to greater price fluctuations, less liquidity and greater risk than those which are traded in the open market. Unlisted debt securities may lack a liquid secondary market and there can be no assurance that the Scheme will realise their investments in unlisted securities at a fair value.
- Investment in unrated instruments may involve a risk of default or decline in market value higher than rated instruments due to adverse economic and issuer-specific developments. Such investments display increased price sensitivity to changing interest rates and to a deteriorating economic environment. The market values for unrated investments tends to be more volatile and such securities tend to be less liquid than rated debt securities.

(v) Risk factors associated with investment in Tri-Party Repo

The mutual fund is a member of securities segment and Triparty Repo trade settlement of the Clearing Corporation of India (CCIL). All transactions of the mutual fund in government securities and in Tri-party Repo trades are settled centrally through the infrastructure and settlement systems provided by CCIL; thus reducing the settlement and counterparty risks considerably for transactions in the said segments. The members are required to contribute an amount as communicated by CCIL from time to time to the default fund maintained by CCIL as a part of the default waterfall (a loss mitigating measure of CCIL in case of default by any member in settling transactions routed through CCIL).

As per the waterfall mechanism, after the defaulter's margins and the defaulter's contribution to the default fund have been appropriated, CCIL's contribution is used to meet the losses. Post utilization of CCIL's contribution if there is a residual loss, it is appropriated from the default fund contributions of the non-defaulting members. Thus the scheme is subject to risk of the initial margin and default fund contribution being invoked in the event of failure of any settlement obligations. In addition, the fund contribution is allowed to be used to meet the residual loss in case of default by the other clearing member (the defaulting member).

CCIL shall maintain two separate Default Funds in respect of its Securities Segment, one with a view to meet losses arising out of any default by its members from outright and repo trades and the other for meeting losses arising out of any default by its members from Triparty Repo trades. The mutual fund is exposed to the extent of its contribution to the default fund of CCIL, in the event that the contribution of the mutual fund is called upon to absorb settlement/default losses of another member by CCIL, as a result the scheme may lose an amount equivalent to its contribution to the default fund.

(vi) Risk factors associated with investing in Derivatives

- The AMC, on behalf of the Scheme may use various derivative products, from time to time, in an attempt to protect the value of the portfolio and enhance Unit holders' interest. Derivative products are specialized instruments that require investment techniques and risk analysis different from those associated with stocks and bonds. The use of a derivative requires an understanding not only of the

underlying instrument but of the derivative itself. Other risks include, the risk of mispricing or improper valuation and the inability of derivatives to correlate perfectly with underlying assets, rates and indices.

- Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the fund manager to identify such opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and decision of fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies.
- The risks associated with the use of derivatives are different from or possibly greater than, the risks associated with investing directly in securities and other traditional investments.
- **Credit Risk:**
The credit risk in derivative transaction is the risk that the counter party will default on its obligations and is generally low, as there is no exchange of principal amounts in a derivative transaction.
- **Market Risk:**
Market movements may adversely affect the pricing and settlement of derivatives.
- **Illiquidity risk:**
This is the risk that a derivative cannot be sold or purchased quickly enough at a fair price, due to lack of liquidity in the market.

(vii) Risk factors associated with Securities Lending

As with other modes of extensions of credit, there are risks inherent to securities lending, including the risk of failure of the other party, in this case the approved intermediary, to comply with the terms of the agreement entered into between the lender of securities i.e. the Scheme and the approved intermediary. Such failure can result in the possible loss of rights to the collateral put up by the borrower of the securities, the inability of the approved intermediary to return the securities deposited by the lender and the possible loss of any corporate benefits accruing to the lender from the securities deposited with the approved intermediary. The scheme may not be able to sell lent out securities, which can lead to temporary illiquidity & loss of opportunity.

(viii) Risk factors associated with Repo in Corporate Debt Securities

In repo transactions, also known as a repo or sale repurchase agreement, securities are sold with the seller agreeing to buy them back at later date. The repurchase price should be greater than the original sale price, the difference effectively representing interest. A repo in corporate debt securities is economically similar to a secured loan, with the buyer receiving corporate debt securities as collateral to protect against default. Some of the risks associated with repo in corporate debt are given below:

Counterparty Risk: Counterparty risk refers to the inability of the seller to meet the obligation to buy back securities at the contracted price on the contracted date. In case of over the counter (OTC) repo trades, the investment manager will endeavour to manage counterparty risk by dealing only with counterparties having strong credit profiles. Also, the counter-party risk is to an extent mitigated by taking collateral equivalent in value to the transaction after knocking off a minimum haircut on the intrinsic value of the collateral. In the event of default by the repo counterparty, the scheme shall have recourse to the corporate debt securities. In case the repo transaction is executed on exchange platform approved by RBI/SEBI, the exchange may also provide settlement guarantee.

Collateral Risk: Collateral risk arises when the market value of the securities is inadequate to meet the repo obligations. This risk can be partly mitigated by restricting participation in repo transactions only in

corporate debt securities which are approved by credit risk team. Additionally, to address the risk related to reduction in market value of corporate debt security held as collateral due to credit rating downgrade, the repo contract can incorporate either an early termination of the repo agreement or call for fresh margin to meet the minimum haircut requirement or call for replacement of security with eligible security. Moreover, the investment manager may apply a higher haircut on the underlying security than required as per RBI/SEBI regulation to adjust for the illiquidity and interest rate risk on the underlying instrument. To mitigate the risk of price reduction due to interest rate changes, the adequacy of the collateral can be monitored on a daily basis by considering the daily market value & applying the prescribed haircut. The fund manager or the exchange can then arrange for additional collateral from the counterparty, within a prespecified period. If the counterparty is not able to top-up either in form of cash / collateral, it would tantamount to early termination of the repo agreement, and the outstanding amount can be recovered by sale of collateral.

(ix) Risk factors associated with Short Selling

Short-selling is the sale of shares which are not owned by the seller at the time of trade. Instead, he borrows it from someone who already owns it. Later, the short seller buys back the stock he shorted and returns the stock to close out the loan. If the price of the stock corrects, Short seller can buy the stock back for less than he received for selling it and earn profit (the difference between higher short sale price and the lower purchase price). If the price of stock appreciates, short selling results in loss. Thus, Short positions carry the risk of losing money and these losses may grow theoretically unlimited if the price increases without limit and shall result into major losses in the portfolio.

(x) General Risk factors

- Trading volumes, settlement periods and transfer procedures may restrict the liquidity of the investments made by the Scheme. Different segments of the Indian financial markets have different settlement periods and such periods may be extended significantly by unforeseen circumstances leading to delays in receipt of proceeds from sale of securities. The NAV of the Units of the Scheme can go up or down because of various factors that affect the capital markets in general.
- Performance of the Scheme may be affected by political, social, and economic developments, which may include changes in government policies, diplomatic conditions, and taxation policies.
- The Scheme at times may receive large number of redemption requests, leading to an asset-liability mismatch and therefore, requiring the investment manager to make a distress sale of the securities leading to realignment of the portfolio and consequently resulting in investment in lower yield instruments.

An investor, by subscribing or purchasing an interest in the Product, will be regarded as having acknowledged, understood and accepted the disclaimer referred to in Clauses above and will be bound by it.

C. RISK MITIGATION STRATEGIES

The Scheme aims to track the NIFTY Bank Index (TRI) before expenses. The index will be tracked on a regular basis and changes to the constituents or their weights, if any, will be replicated in the underlying portfolio with the purpose of minimizing tracking errors.

The Scheme being a passive investment carries lesser risk as compared to active fund management. The portfolio would follow the index and therefore the level of stock concentration in the portfolio and its volatility would be the same as that of the index, subject to tracking errors. Thus, there would be no additional element of volatility or stock concentration on account of fund manager decisions. The fund manager would endeavour to keep cash levels at the minimal to control tracking errors.

The Risk Mitigation strategy revolves around reducing the tracking error to the least possible through regular rebalancing of the portfolio, taking into account the change in weights of stocks in the Underlying Index as well as the incremental inflows into/redemptions from the Scheme.

While these measures are expected to mitigate the above risks to a large extent, there can be no assurance that these risks would be completely eliminated.

II. INFORMATION ABOUT THE SCHEME:

A. WHERE WILL THE SCHEME INVEST?

The Scheme will invest securities in as mentioned below. The investments will be made as per the limits specified in the asset allocation table of the Scheme, subject to permissible limits laid under SEBI (MF) Regulations or any other applicable laws and guidelines.

- **Investment in equity and equity related instruments:**

The Scheme would invest in stocks constituting the NIFTY Bank Index in the similar proportion (weightage) as in the Index and endeavor to track the underlying index.

- **Debt securities:**

Debt issuances by various types of issuers such as Government of India, State and local Governments, Government Agencies and statutory bodies, Corporate Entities, Public / Private sector undertakings, Public / Private sector banks and development financial institutions, etc. Debt issuances may include but are not limited to:

1. Non-convertible debentures;
2. Bonds;
3. Secured premium notes;
4. Zero interest bonds;
5. Deep discount bonds;
6. Floating rate bond / notes;
7. Non-Convertible Preference Shares;
8. Any other permissible domestic fixed income security.

- Money Market Instruments include:

1. Commercial papers
2. Commercial bills
3. Treasury bills
4. Government securities having an unexpired maturity upto one year
5. Tri-party Repos/ Reverse Repo on Government securities or treasury bills (TREPS)
6. Certificate of deposit
7. Usance bills
8. Permitted securities under a repo / reverse repo agreement (other than Corporate Debt Securities).

Any other instruments as may be permitted by RBI / SEBI from time to time, subject to necessary regulatory approvals.

Investment in debt securities will usually be in instruments, which have been assessed as “high investment grade” by at least one credit rating agency authorised to carry out such activity under the applicable regulations. Pursuant to clause 12.12 of the Master Circular, the AMC may constitute committee(s) to approve proposals for investments in unrated debt instruments. The AMC Board and the Trustee shall approve the detailed parameters for such investments. The details of such investments would be communicated by the AMC to the Trustee in their periodical reports. It would also be clearly mentioned in the reports, how the parameters have been complied with. However, in case any unrated debt security does not fall under the parameters, the prior approval of Board of AMC and Trustee shall be sought. Investment in debt instruments shall generally have a low risk profile and those in money market instruments shall have an even lower risk profile. The maturity profile of debt instruments will be selected in accordance with the AMC’s view regarding current market conditions, interest rate outlook and the stability of ratings.

Investments in Debt and Money Market Instruments will be as per the limits specified in the asset allocation table as mentioned, subject to restrictions/limits laid under SEBI (MF) Regulations mentioned under section ‘**WHAT ARE THE INVESTMENT RESTRICTIONS?**’.

Investments in debt will be made through primary or secondary market purchases, other public offers, placements and right offers (including renunciation). The securities could be listed, unlisted (as permitted), privately placed, secured/unsecured, rated/unrated.

- Where the monies are parked in short term deposits of Scheduled Commercial Banks pending deployment, the Scheme shall abide by the following guidelines as per clause 12.16 of the Master Circular:

- 1) "Short Term" for parking of funds shall be treated as a period not exceeding 91 days.
- 2) Such short-term deposits shall be held in the name of the Scheme.
- 3) The Scheme shall not park more than 15% of the net assets in short term deposit(s) of all the scheduled commercial banks put together. However, such limit may be raised to 20% with prior approval of the Trustee.
- 4) Parking of funds in short term deposits of associate and sponsor scheduled commercial banks together shall not exceed 20% of total deployment by the Mutual Fund in short term deposits.
- 5) The Scheme shall not park more than 10% of the net assets in short term deposit(s), with any one scheduled commercial bank including its subsidiaries.
- 6) The Scheme shall not park funds in short- term deposit of a bank, which has invested in the Scheme. Trustees/AMC shall also take steps to ensure that a bank in which the Scheme has short term deposit does not invest in the Scheme until the Scheme has short term deposit with such bank.
- 7) No investment management and advisory fees will be charged for such investments in the Scheme. The aforesaid limits shall not be applicable to term deposits placed as margins for trading in cash and derivatives market.

- The Scheme may engage in short selling of securities/securities lending and borrowing in accordance with the framework relating to short selling and/or securities lending and borrowing specified by SEBI from time to time.
- The Scheme may invest in other schemes managed by the AMC or in the schemes of any other mutual funds, provided it is in conformity with the investment objectives of the Scheme and in terms of the prevailing SEBI (MF) Regulations. As per the SEBI (MF) Regulations, no investment management fees will be charged for such investments and the aggregate inter scheme investment made by all the schemes of HDFC Mutual Fund or in the schemes of other mutual funds shall not exceed 5% of the net asset value of the HDFC Mutual Fund.

- **Trading in Derivatives**

1. The Scheme may take derivatives position based on the opportunities available subject to the guidelines provided by SEBI from time to time and in line with the overall investment objective of the Scheme.
2. The Scheme intends to use derivatives mainly for the purpose of hedging and portfolio balancing. Losses may arise as a result of using derivatives, but these are likely to be compensated by the gains on the underlying cash instruments held by the Scheme. The Scheme will not assume any leveraged exposure to derivatives.

3. The Scheme may take position in derivative instruments like Futures, Options, and such other derivative instruments as may be permitted by SEBI from time to time.
4. Exposure to equity derivatives of the index constituent stocks may be undertaken when equity shares are unavailable, insufficient or for rebalancing in case of corporate actions and the same will be subject to rebalancing. However, there may be a cost attached to buying futures/options.

For detailed derivative strategies, please refer to SAI. For exposure limits to derivatives, refer section **‘Where will the scheme invest’ under Section II, Part II, Clause A.**

- **Exposure to Derivatives**

The Scheme may take exposure to derivatives. For details, refer section **‘What are the investment strategies’ under Section I, Part II, Clause C**

- The Scheme shall not invest in unlisted debt instruments including commercial papers, except Government Securities and other money market instruments.

The Scheme shall also not invest in unlisted non-convertible debentures.

Provided further that the Scheme shall comply with the norms under the above clauses within the time and in the manner as may be specified by SEBI.

Provided further that the norms for investments by the Scheme in unrated debt instruments shall be as specified by SEBI from time to time.

As per prevailing norms, investments in unrated debt and money market instruments, other than government securities, treasury bills, derivative products such as Interest Rate Swaps (IRS), Interest Rate Futures (IRF), etc. by mutual fund schemes shall not exceed 5% of net assets of the Scheme.

However, the Scheme shall comply with provisions of clauses 4.3.1 and 12.1 of the Master Circular regarding investment in Debt and Money Market Instruments, as amended from time to time, to the extent applicable to the Scheme.

- Transfer of investments from one Scheme to another Scheme in the same mutual fund, shall be allowed only if:-
 - a) such transfers are made at the prevailing market price for quoted Securities on spot basis.

Explanation: spot basis shall have the same meaning as specified by Stock exchange for spot transactions.

Provided that inter scheme transfer of money market or debt security (irrespective of maturity) shall take place based on prices made available by valuation agencies as prescribed by SEBI from time to time.

- b) the securities so transferred shall be in conformity with the investment objective of the Scheme to which such transfer has been made.
- c) Inter Scheme Transfers are effected in accordance with the guidelines specified by clause 12.30 of the Master Circular.
- The Scheme may invest in other scheme(s) under the same AMC or any other mutual fund without charging any fees, provided that aggregate inter-scheme investment made by all Schemes under the same AMC or in Schemes under the management of any other asset management shall not exceed 5% of the net asset value of the Mutual Fund. Further, the Scheme shall not invest in any fund of funds scheme.
- Pending deployment of funds of the Scheme in securities in terms of the investment objectives of the Scheme, the Fund may invest the funds of the Scheme in short term deposits of scheduled commercial banks subject to the following guidelines as specified by SEBI.
- “Short Term” for parking of funds shall be treated as a period not exceeding 91 days.
- Short Term deposits shall be held in the name of the Scheme.
- Total investment of the Scheme in short term deposit(s) of all the Scheduled Commercial Banks put together shall not exceed 15% of the net assets. However, this limit can be raised upto 20% of the net assets with prior approval of the Board of Trustees.
- Investments in short term deposits of associate and sponsor scheduled commercial banks together shall not exceed 20% of total deployment by the Mutual Fund in short term deposits.
- The Scheme shall not invest more than 10% of the net assets in short term deposit(s) of any one scheduled commercial bank including its subsidiaries.
- The Scheme shall not invest in short term deposit of a bank which has invested in the Scheme. Trustees/AMC shall also take steps to ensure that a bank in which the Scheme has short term deposit does not invest in the Scheme until the Scheme has short term deposit with such bank.
- No investment management and advisory fees will be charged for such investments in the Scheme.
- The aforesaid limits shall not be applicable to term deposits placed as margins for trading in cash market.
- However, period for ‘pending deployment’ as stated above for the Scheme shall not exceed 7 days.

The AMC/Trustee may alter these above stated restrictions from time to time to the extent the SEBI (MF) Regulations change, so as to permit the Scheme to make its investments in the full spectrum of permitted investments for mutual funds to achieve its respective investment objective. The AMC/Trustee may from time to time alter these restrictions in conformity with the SEBI (MF) Regulations. Further, apart from the investment restrictions prescribed under SEBI (MF)

Regulations, the Fund may follow any internal norms vis-à-vis restricting/limiting exposure to a particular scrip or sector, etc

All investment restrictions shall be applicable at the time of making investment.

D. INDEX METHODOLOGY

ABOUT THE UNDERLYING INDEX

The NIFTY Bank index is designed to reflect the behaviour and performance of the large and liquid banks. The index comprises of maximum of 12 stocks and base date of the index is January 1, 2000.

Stock Selection Criteria

To be considered for inclusion in Nifty sectoral indices, companies must form part of eligible universe. The eligible universe includes:

- Companies should form part of Nifty 500 at the time of review
- In case of reconstitution of child indices, latest index composition including most recent changes in respective parent index whether announced or yet to be announced shall be considered. Child indices are defined as those indices where constituents are selected from a list of any other index. Example: Nifty Auto would be considered as a child index as constituents of Nifty Auto are selected from a list of Nifty 500 index
- Minimum number of stocks within the index should be 10
- In case, the number of eligible stocks within Nifty 500 falls below 10, then deficit number of stocks shall be selected from the universe of stocks ranked within top 800 based on both average daily turnover and average daily full market capitalisation based on previous six months period data used for index rebalancing of Nifty 500, provided company meets the eligibility criteria of having minimum listing history of 1 calendar month and 90% trading frequency as the data cut-off date
- Further, in case the number of eligible stocks in the universe is still less than 10, then the deficit number of stocks shall be selected from the universe of stocks ranked within top 1000, top 1100, top 1200 and so on, based on both average daily turnover and average daily full market capitalization based on previous six months period data, until at least 10 eligible stocks are obtained, subject to fulfilment of other inclusion criteria. If the number of eligible stocks is still less than 10, then the index may have less than 10 constituents
- Companies should form part of respective sector universe
- In case of NIFTY Bank index, companies that are allowed to trade in F&O segment at NSE are only eligible to be a constituent of the index

Index Reconstitution

- The companies are sorted in the descending order of the average free-float market capitalization (FF market capitalization) and final selection of companies shall be made based on the FF market capitalization to form part of the index
- Companies will be included if free-float market capitalisation is at least 1.5 times the free-float market capitalization of the smallest index constituent in respective index

Index Review frequency

The review of sectoral indices is undertaken semi-annually based on data for six months ending January and July.

Constituent Capping

Weights of each stock in the index will be calculated based on its free-float market capitalization such that no single stock shall be more than 33% and weights of top 3 stocks cumulatively shall not be more than 62% at the time of rebalancing.

Further, on a quarterly basis index will be screened for compliance with the portfolio concentration norms for ETFs / Index Funds announced by SEBI on January 10, 2019.

Portfolio Concentration Norms for Equity ETFs and Index Funds as per SEBI guidelines

In accordance with clause 3.4 of Master Circular, the Index shall comply with the following portfolio concentration norms:

- (a) The Index shall have a minimum of 10 stocks as its constituents.
- (b) No single stock shall have more than 35% weight in the Index.
- (c) The weightage of the top three constituents of the Index, cumulatively shall not be more than 65% of the Index.
- (d) The individual constituent of the index shall have a trading frequency greater than or equal to 80% and an average impact cost of 1% or less over previous six months.

The Scheme shall monitor compliance with the aforesaid norms by the Index at the end of every calendar quarter.

E. PRINCIPLES OF INCENTIVE STRUCTURE FOR MARKET MAKERS

Incentives may be provided at the discretion of the AMC to Market Makers, subject to the applicable regulatory provisions.

Pursuant to Clause 3.6.1.4 of Master Circular, the principles of incentive structure pertaining to Market Makers shall be as mentioned below:

1. Incentives may be provided at the discretion of the AMC to Market Makers, subject to the applicable regulatory provisions.

2. Incentives, if any, to Market Makers shall be charged to the scheme within the maximum permissible limit of TER.
3. Incentive structure may be linked to performance of the Market Makers in terms of generating liquidity in units of ETFs and other relevant factors, based on the data obtained from stock exchanges.

Further, Stock Exchanges may also incentivize the Market Makers through Liquidity Enhancement Schemes (LES) as per the applicable provisions.

F. OTHER SCHEME SPECIFIC DISCLOSURES:

Listing and transfer of units	<p>The Mutual Fund has listed the Units of the Scheme on the Capital Market Segment of the National Stock Exchange of India Limited (NSE) and/or BSE Limited (BSE) within 5 Business Days of allotment.</p> <p>The Units can be purchased/sold during the trading hours like any other publicly traded stock, until the date of suspension of trading by stock exchange(s) where the Scheme is listed.</p> <p>The Mutual Fund may at its sole discretion list the Units of the Scheme on any other recognized Stock Exchange(s) at a later date.</p> <p>The AMC/Trustee reserves the right to delist the Units of the Scheme from a particular stock exchange provided the Units are listed on atleast one stock exchange.</p> <p>The price of the Units in the market will depend on demand and supply at that point of time.</p>
Dematerialization of units	<p>The Units of the Scheme are available only in dematerialized (electronic) form. Investors intending to invest in Units of the ETF will be required to have a beneficiary account with a Depository Participant (DP) of NSDL/CDSL and will be required to mention in the application form DP's Name, DP ID No. and Beneficiary Account No. with the DP at the time of purchasing Units directly from the fund in Creation Unit Size.</p> <p>The Units of the Scheme will be issued, traded and settled compulsorily in dematerialized (electronic) form.</p>
Dividend Policy (IDCW)	<p>The Trustee reserves the right to declare IDCW under the IDCW option of the Scheme depending on the availability of distributable surplus under the Scheme. IDCW, if declared, will be paid (subject to deduction of tax at source, if any) to those Unit holders whose names appear in the Register of Unit holders on the record date. In case of Units held in dematerialized mode, the Depositories (NSDL/CDSL) will give the list of demat account holders and the number of Units held by them in electronic form on the Record date to the Registrars and Transfer Agent of the Mutual Fund who shall be</p>

eligible to receive the IDCW. Further, the Trustee at its sole discretion may also declare interim IDCW. However, it must be distinctly understood that the actual declaration of IDCW and the frequency thereof will inter-alia, depend on the availability of distributable surplus as computed in accordance with SEBI (MF) Regulations and the decision of the Trustee /AMC in this regard shall be final. There is no assurance or guarantee to Unit holders as to the rate/quantum of IDCW distribution nor that the IDCW will be paid regularly. In order to be a Unit holder, an investor has to be allotted Units against receipt of clear funds by the Scheme. On payment of IDCW, the NAV will stand reduced by the amount of IDCW and Dividend distribution tax /statutory levy (if applicable) paid. The Trustee / AMC reserves the right to change the record date from time to time.

IDCW Distribution Procedure:

In accordance with clause 11.6.1 of Master Circular, the procedure for IDCW Distribution would be as under:

1. Quantum of Distribution and the record date will be fixed by the Trustee. Amounts so decided shall be paid, subject to availability of distributable surplus.
2. Within one calendar day of decision by the Trustee, the AMC shall issue notice to the public communicating the decision about the Distribution including the record date, in one English daily newspaper having nationwide circulation as well as in a newspaper published in the language of the region where the head office of the Mutual Fund is situated.
3. The Record Date will be 2 working days from the date of publication in at least one English newspaper or in a newspaper published in the language of the region where the Head Office of the mutual fund is situated, whichever is issued earlier. Record date shall be the date which will be considered for the purpose of determining the eligibility of investors whose names appear on the register of Unit holders maintained by the Mutual Fund/statement of beneficial ownership maintained by the Depositories, as applicable, for receiving IDCW.
4. The notice will, in font size 10, bold, categorically state that pursuant to payment of IDCW, the NAV of the Scheme would fall to the extent of payout and statutory levy (if applicable).

	<p>5. The NAV will be adjusted to the extent of IDCW Distribution and statutory levy, if any, at the close of business hours on record date.</p> <p>6. Before the issue of such notice, no communication indicating the probable date of IDCW declaration in any manner whatsoever, will be issued by Mutual Fund.</p> <p>The requirement of giving notice shall not be applicable for IDCW Options having frequency upto one month.</p>
<p>Allotment</p>	<p>All Applicants whose monies towards purchase of Units have been realised by the Fund will receive a full and firm allotment of Units in their demat account, provided also the applications are complete in all respects and are found to be in order.</p> <p>Any application for subscription of units may be rejected if found invalid, incomplete or due to unavailability of underlying securities, etc.</p> <p>Dematerialization</p> <p>The Units of the Scheme will be available in dematerialized (electronic) form. The investor intending to invest in Units of the Scheme will be required to have a beneficiary account with a Depository Participant (DP) of the NSDL/CDSL and will be required to mention in the application form DP's Name, DP ID No. and Beneficiary Account No. with the DP at the time of purchasing Units directly from the Fund.</p> <p>The Units allotted will be credited to the Demat account of the Unit holder as per the details provided in the application form. If an investor has bought Units, an investor has to pay the purchase amount to the broker/sub-broker such that the amount paid is realised before the funds pay-in day of the settlement cycle on the Stock Exchange(s). If an investor has sold Units, an investor has to deliver the Units to the broker/sub-broker before the securities pay-in day of the settlement cycle on the Stock Exchange(s). The Units (in the case of Units bought) and the funds (in the case of Units sold) are paid out to the broker on the pay-out day of the settlement cycle on the Stock Exchange(s). The Stock Exchange(s) regulations stipulate that the trading member should pay the money or Units to the investor within 24 hours of the pay-out.</p> <p>If an investor has bought Units, he should give standing instructions for 'Delivery-In' to his/her/its DP for accepting Units in his/her/its</p>

beneficiary account. An investor should give the details of his/her beneficiary account and the DP-ID of his/her/its DP to his/her/its trading member. The trading member will transfer the Units directly to his/her/its beneficiary account on receipt of the same from NSE's/BSE's Clearing Corporation.

An investor who has sold Units should instruct his/her/its Depository Participant (DP) to give 'Delivery Out' instructions to transfer the Units from his/her/its beneficiary account to the Pool Account of his/her/its trading member through whom he/she/it have sold the Units. The details of the Pool A/C (CM-BP-ID) of his/her trading member to which the Units are to be transferred, Unit quantity etc. should be mentioned in the Delivery Out instructions given by him/her to the DP. The instructions should be given well before the prescribed securities pay-in day. SEBI has advised that the Delivery Out instructions should be given at least 24 hours prior to the cut-off time for the prescribed securities pay-in to avoid any rejection of instructions due to data entry errors, network problems, etc.

Rolling Settlement

As per the SEBI's circular dated September 7, 2021, the rolling settlement on T+1 on optional basis shall come into force with effect from January 01, 2022. The same is applicable for all trades from January 27, 2023 onwards. The Pay-in and Pay-out of funds and the Units will take place within 1 working days after the trading date.

The pay-in and pay-out days for funds and securities are prescribed as per the Settlement Cycle. A typical Settlement Cycle of Rolling Settlement is given below:

Day Activity

T	The day on which the transaction is executed by a trading member
T + 1	Confirmation of all trades including custodial trades by 7.30 a.m.
T + 1	Processing and downloading of obligation files to brokers/custodians by 1.00 p.m.
T + 1	Pay-in of funds and securities by 10:50 am for Funds & 10:30 am for Securities
T + 1	Pay out of funds and securities by 3 pm / as and when received from exchange

While calculating the days from the Trading day (Day T), weekend days (i.e. Saturday and Sundays) and bank holidays are not taken into consideration.

	<p>The AMC has the right to amend cut off timings subject to SEBI (MF) Regulations for the smooth and efficient functioning of the Scheme.</p>
<p>Minimum amount for purchase/redemption/switches/subscription/redemption with AMC.</p>	<p>ON THE EXCHANGE</p> <p>Investors can subscribe (buy) and redeem (sell) Units on a continuous basis on the NSE/BSE on which the Units are listed. Subscriptions made through Stock Exchanges will be made by specifying the number of Units to be subscribed and not the amount to be invested. On the Stock Exchange(s), the Units of the ETF can be purchased/sold in minimum lot of 1 (one) Unit and in multiples thereof.</p> <p>DIRECTLY FROM THE FUND</p> <p>Market Makers/Large Investors: For details refer 'Highlights / Summary of the Scheme'.</p> <p>The Fund creates/redeems Units of the ETF in large size known as "Creation Unit Size". Each "Creation Unit" consists of 125,000 Units of the ETF. The value of the "Creation Unit" is the "Portfolio Deposit" and a "Cash Component" which will be exchanged for 125,000 Units of the ETF and/or subscribed in cash equal to the value of said predefined units of the Scheme.</p> <p>The Portfolio Deposit and Cash Component for the Scheme may change from time to time due to change in NAV.</p> <p>The subscription/redemption of Units of the ETF in Creation Unit Size will be allowed both by means of exchange of Portfolio Deposit and by Cash (i.e. payments shall be made only by means of payment instruction of Real Time Gross Settlement (RTGS)/National Electronic Funds Transfer (NEFT) or Funds Transfer Letter/Transfer Cheque of a bank where the Scheme has a collection account) (for Market Makers and Large Investors).</p> <p>The Fund may from time to time change the size of the Creation Unit in order to equate it with marketable lots of the underlying instruments.</p>
<p>Accounts Statements</p>	<p>The AMC will credit the units to the beneficiary account of the unitholder within five working days from date of receipt of valid application.</p> <p>Note: The term "working days" here shall include Business Days but shall not include Holidays.</p> <p>As the units of the Scheme will be issued, traded and settled compulsorily in dematerialized (electronic) form, the statement of holding of the Unitholder i.e. beneficiary account holder will be sent</p>

	<p>by the respective DPs/Depositories periodically, as per applicable rules.</p> <p>For further details, refer SAI.</p>
Dividend/ IDCW	<p>The payment of dividend/IDCW to the unitholders shall be made within seven working days from the record date or such other timeline as may be specified by SEBI/ AMFI from time to time.</p>
Redemption	<p>The redemption or repurchase proceeds shall be dispatched to the unitholders within three working days from the date of redemption or repurchase or such other timelines as may be specified by SEBI / AMFI from time to time in case of exceptional circumstances or otherwise.</p> <p>For details refer para 14.1.3 of Master Circular.</p>
Bank Mandate	<p>BANK DETAILS FOR ETFs</p> <p>In order to protect the interest of Unit holders from fraudulent encashment of redemption/dividend cheques, SEBI has made it mandatory for investors to provide their bank details viz. name of bank, branch, address, account type and number, etc. to the Mutual Fund. If an investor has a folio generated by the AMC (even for units held in demat mode), the redemption proceeds shall be credited to the bank account registered in the folio of the investor. Otherwise, the redemption proceeds shall be credited to the bank account linked to his demat account. Hence, investors should ensure to furnish those Bank Account details in the application form. The bank account registered in the folio of a minor should be that of the minor or should be a joint account of the minor with the guardian. Applications without complete bank details shall be rejected. The AMC will not be responsible for any loss arising out of fraudulent encashment of cheques/warrants and/or any delay/loss in transit.</p> <p>Change in Bank Account for ETFs:</p> <p>a) For investors other than Market Makers and Large Investors transacting directly with the Fund: The procedure for change in bank details would be as determined by the depository participant.</p> <p>b) For Market Makers and Large Investors transacting directly with the Fund: These Unit holders may change their bank details registered with the Mutual Fund by submitting either a standalone separate 'Change of Bank Details Form' or a 'Multiple Bank Account Registration Form' at ISCs (AMC branches).</p>
Delay in payment of redemption /repurchase proceeds/dividend	<p>The AMC shall be liable to pay interest to the Unit holders at 15% or such other rate as may be prescribed by SEBI from time to time, in case the redemption/ repurchase/ IDCW proceeds are not transferred within the prescribed timeline. However, the AMC will not be liable to pay any interest or compensation or any amount</p>

	<p>otherwise, in case the AMC / Trustee is required to obtain from the investor / unit holders verification of identity or such other details relating to subscription for Units under any applicable law or as may be required by a regulatory body or any government authority, which results in delay in processing the application.</p>
<p>Unclaimed Redemption and Income Distribution cum Capital Withdrawal Amount</p>	<p>The unclaimed Redemption and IDCW amounts (the funds) are currently deployed by the Mutual Fund only in TREPS. However, the same may be deployed in other permissible instruments such as call money market or money market instruments or in a separate plan specifically launched under Overnight/Liquid/ Money Market Mutual Fund schemes to deploy unclaimed Redemption and IDCW amounts. Investors who claim the unclaimed amounts during a period of three years from the due date shall be paid initial unclaimed amount along-with the income earned on its deployment. Investors, who claim these amounts after 3 years, shall be paid initial unclaimed amount along-with the income earned on its deployment till the end of the third year. After the third year, the income earned on such unclaimed amounts shall be used for the purpose of investor education. The AMC will make a continuous effort to remind the investors through letters to take their unclaimed amounts. The details of such unclaimed redemption/IDCW amounts are made available to investors upon them providing proper credentials, on website of the Mutual Fund and AMFI along with the information on the process of claiming the unclaimed amount and the necessary forms/documents required for the same.</p> <p>Further, the information on unclaimed amount along-with its prevailing value (based on income earned on deployment of such unclaimed amount), will be separately disclosed to investors through the periodic statement of accounts/Consolidated Account Statement sent to the investors. Further, the investment management fee charged by the AMC for managing the said unclaimed amounts shall not exceed 50 basis points.</p>
<p>Disclosure with respect to investment by minors</p>	<p>Investments in the name of minors shall be permitted only from bank account of the minor, parent or legal guardian of the minor or from a joint account of the minor with the parent or legal guardian.</p> <p>However, the redemption/ Income Distribution cum Capital Withdrawal (IDCW) proceeds for investments held in the name of Minor shall continue to be transferred to the verified bank account of the minor (i.e. of the minor or joint account of minor with parent/ legal guardian) only. Therefore, investors must ensure to update the folios with minor's bank account details as the 'Pay-out Bank account' by providing necessary documents before tendering redemption requests / for receiving IDCW distributions.</p> <p>MINOR ATTAINING MAJOR STATUS</p>

	<p>The Mutual Fund/AMC will register SIP/STP/SWAP/or any other systematic enrollment in the folio held by a minor only till the date of the minor attaining majority, even though the instructions may be for a period beyond that date. Such enrollments will automatically stand terminated upon the Unit Holder attaining 18 years of age.</p> <p>For folios where the units are held on behalf of the minor, the account shall be frozen for operation by the guardian on the day the minor attains majority and no transactions shall be permitted till the requisite documents for changing the status of the account from 'minor' to 'major' are submitted.</p>

Notes:

A. The levy of tax on distributed income payable by Mutual Funds has been abolished w.e.f. April 1, 2020 and instead tax on income from mutual fund units in the hands of the unit holders at their applicable rates has been adopted.

¹Equity Oriented Funds will also attract Securities Transaction Tax at applicable rates.

² The withholding tax would be lower of 20% (plus applicable surcharge and cess) or the rate provided under the relevant tax treaty, whichever is lower, subject to eligibility and compliance with applicable conditions.

As per the provisions of section 196D of the Act which is specifically applicable in case of FPI/FII, the withholding tax rate of 20% (plus applicable surcharge and cess) on any income in respect of securities referred to in section 115AD(1)(a) credited / paid to FII shall apply. The proviso to section 196D(1) of the Act provides for claiming the tax treaty benefits at the time of withholding tax on income with respect to securities of FPIs, subject to furnishing of tax residency certificate and such other documents as may be required. As per section 196D(2) of the Act, no TDS shall be made in respect of income by way of capital gain arising from the transfer of securities referred to in section 115AD of the Act.

³Health and education Cess shall be applicable at 4% on aggregate of base tax and surcharge.

⁴The Finance Bill (No. 2), 2024 provides that in case of domestic company, the rate of income-tax shall be 25% if its total turnover or gross receipts in the financial year 2022-23 does not exceed Rs. 400 crores.

⁵The corporate tax rates for domestic companies (not claiming specified incentives and deductions) at the rate of 22% under section 115BAA and domestic manufacturing companies (not claiming specified incentives and deductions) set-up and registered on or after 1 October 2019 and manufacturing commenced on or before 31 March 2024 at the rate of 15% under section 115BAB. The tax computed

in case of domestic companies whose income is chargeable to tax under section 115BAA or section 115BAB shall be increased by a surcharge at the rate of 10%.

⁶ Short term/ long term capital gain tax will be deducted at the time of redemption of units in case of NRI investors only. However, as per section 196A of the Act, withholding tax would be lower of the rate of 20% (plus applicable surcharge and cess) or rates provided in the tax treaty on any income in respect of units of mutual fund in case of non-residents as per section 196A of the Act. The non-resident unitholders have to provide the required documents for claiming the benefit of tax treaty.

For the purpose of withholding tax obligations, taxes will be withheld as per the provisions of the Income-tax Act, 1961 (without applying tax treaty rates). The NRI's can claim the benefit of tax treaty while filing the return of income.

⁷ Section 112A provides that long term capital gains arising from transfer of a long term capital asset being a unit of an equity oriented fund shall be taxed at 10% (without indexation and foreign currency fluctuation benefit) for transfers taking place before 23 July 2024 whereas for transfers taking place on or after 23 July 2024, the same would be taxed at 12.5% without indexation and without foreign currency fluctuation benefit. The aggregate of the above capital gains would be taxable for an amount exceeding one lakh twenty five thousand rupees. The concessional rate of 10%/12.5% shall be available only if STT has been paid on transfer in case of units of equity-oriented mutual funds.

⁸ Under section 111A short term capital gains arising from transfer of a short term capital asset being a unit of an equity oriented fund shall be taxed at 15% (for transfers taking place before 23 July 2024) whereas for transfers taking place on or after 23 July 2024, the same would be taxed at 20%.

*Section 206AB would apply on any sum or income or amount paid, or payable or credited, by a person (herein referred to as deductee) to a specified person, as defined. This section shall not apply where the tax is required to be deducted under sections 192, 192A, 194B, 194BA, 194BB, 194-IA, 194-IB, 194LBC, 194M or 194N of the Act. The TDS rate in this section is higher of the followings rates:

- twice the rate specified in the relevant provision of the Act; or
- twice the rate or rates in force; or
- the rate of five per cent.

It is also provided that if the provision of section 206AA of the Act is applicable to a specified person, in addition to the provision of this section, the tax shall be deducted at higher of the two rates provided in this section and in section 206AA of the Act. Specified person' means a person (excluding non-residents who do not have a permanent establishment in India or person not required to file income-tax return and notified by Central Government) who has not filed income-tax return under section 139(1) for the preceding year and aggregate of TDS and TCS in his case is INR 50,000 or more in the said year.

⁹ **The tax rates mentioned above are those provided in the Income tax Act, 1961 and amended as per the Finance Bill (No.2), 2024 applicable for the financial year 2024-25 relevant to assessment year 2025-26. The information given as per the amendments as per the Finance Bill (No.2), 2024 are subject to enactment after approval of Rajya Sabha and assent of the President of India.**
