## I. INTRODUCTION

### A. RISK FACTORS

#### Standard Risk Factors:

- Investment in Mutual Fund Units involve investment risks such as trading volumes, settlement risks, liquidity risks, default risks, including the possible loss of principal.
- All Mutual Funds and securities investments are subject to market risks and there is no assurance or guarantee that the objectives of the Scheme will be achieved.
- As the price/value/interest rates of the securities in which the Scheme invests fluctuates, the value of your investments in the Scheme may go up or down.
- Past performance of the Sponsors and their affiliates/associates /AMC/Mutual Fund does not guarantee the future performance of the Scheme.
- The Sponsors are not responsible or liable for any loss resulting from the operation of the Scheme beyond the contribution of an amount of Rs. 22.2 lakhs collectively made by them towards setting up the Fund and such other accretions and additions to the corpus set up by the Sponsors.
- The name of the Scheme does not in any manner indicate either the quality of the Scheme or its future prospects and returns.
- The Scheme is an Exchange Traded Fund (ETF). There can be no assurance that an active secondary market will develop or be maintained.
- The NAV of the Scheme may be affected by changes in the general market conditions, factors and forces affecting capital market, in particular, level of interest rates, various markets related factors and trading volumes, settlement periods and transfer procedures.
- In the event of receipt of inordinately large number of redemption requests or of a restructuring of the Scheme's portfolios, there may be delays in the redemption of Units.
- Investors in the Scheme are not being offered any guaranteed returns.
- Mutual funds being vehicles of securities investments are subject to market and other risks and there can be no guarantee against loss resulting from investing in the Scheme. The various factors which impact the value of the Scheme's investments include, but are not limited to, fluctuations in interest rates, prevailing political and economic environment, changes in government policy, factors specific to the issuer of the securities, tax laws, liquidity of the underlying instruments, settlement periods, trading volumes etc.
- From time to time and subject to the Regulations, the Sponsors, the Mutual Funds and investment companies managed by them, their associate companies, subsidiaries of the Sponsors, and the AMC may invest either directly or indirectly in any or all the Schemes. The funds managed by, associates, the Sponsors, subsidiaries of the Sponsors and /or the AMC may acquire a substantial portion of the Scheme's Units and collectively constitute a major investor in the Scheme. Accordingly, redemption of Units held by such funds, associates and Sponsors might have an adverse impact on the Units of the Scheme because the timing of such redemption may impact the ability of other Unit holders to redeem their Units.
- Further, as per the Regulation, in case the AMC invests in any of the Schemes managed by it, it shall not be entitled to charge any fees on such investments.
- The Scheme may invest in other schemes managed by the AMC or in the schemes of any other Mutual Funds, provided it is in conformity with the investment objective of

the Scheme and in terms of the prevailing Regulations. As per the Regulations, no investment management fees will be charged for such investments and the aggregate inter-scheme investment made by all Schemes of the Fund or in Schemes under the management of other asset management companies shall not exceed 5% of the Net Asset Value of the Mutual Fund.

- Two-Factor Authentication and Third – Party Payments will be carried out in line with paragraph 16.5 of the Master Circular. In case of unsuccessful Two-Factor Authentication the redemption request might get rejected.
- Infectious Illness Risk: An outbreak of an infectious respiratory illness, COVID 19, caused by a novel coronavirus has resulted in travel restrictions, disruption of healthcare systems, prolonged quarantines, cancellations, supply chain disruptions, lower consumer demand, layoffs, ratings downgrades, defaults and other significant economic impacts. Certain markets have experienced temporary closures, extreme volatility, severe losses, reduced liquidity and increased trading costs. Such events can have an impact on the underlying Schemes and could impact their ability to purchase or sell securities or cause elevated tracking error and increased premiums or discounts to the NAV. Other infectious illness outbreaks in the future may result in similar impacts.

### **Scheme Specific Risk Factors:**

#### **Risks associated with investing in Equities**

The value of the Scheme's investments, may be affected generally by factors affecting securities markets, such as trading volumes, settlement periods and transfer procedures, price and volume volatility in the capital markets, interest rates, currency exchange rates, changes in policies of the Governments, taxation laws or any other appropriate authority policies and other political and economic developments which may have an adverse bearing on individual securities, a specific sector or all sectors including equity and debt markets. Consequently, the NAV of the Units of the Scheme may fluctuate and can go up or down.

The ability to sell the investments is limited by the overall trading volume on the stock exchanges. Trading volumes, settlement periods and transfer procedures may restrict the liquidity of the investments made by the Scheme. The NAV of the Scheme can go up and down because of various factors that affect the capital markets in general.

#### **Market Risk**

The Scheme's NAV will react to the stock market movements. The Investors could lose money over short periods due to fluctuation in the Scheme's NAV in response to factors such as economic and political developments, changes in interest rates and perceived trends in stock prices and market movements, and over longer periods during market downturns.

#### **Market Trading Risks**

- **Absence of Prior Active Market:** Although units of the Scheme are to be listed on the Exchanges, there can be no assurance that an active secondary market will develop or be maintained.

- **Lack of Market Liquidity:** Trading in units of the respective Scheme on the Exchange may be halted because of market conditions or for reasons that in the view of the Market Authorities or SEBI, trading in units of the Scheme are not advisable. In addition, trading in units of the Scheme is subject to trading halts caused by extraordinary market volatility and pursuant to BSE/NSE and SEBI “circuit filter” rules. There can be no assurance that the requirements of the Market necessary to maintain the listing of units of the Scheme will continue to be met or will remain unchanged.
- **Units of the Scheme may trade at Prices Other than NAV:** Units of the Scheme may trade above or below its NAV. The NAV of the Scheme will fluctuate with changes in the market value of Scheme’s holdings. The trading prices of units of the Scheme will fluctuate in accordance with changes in their NAVs as well as market supply and demand of units of the Scheme. However, given that units can be created and redeemed only in Creation Units directly with the Fund, it is expected that large discounts or premiums to the NAVs of the Scheme will not sustain due to arbitrage possibility available.
- **Regulatory Risk:** Any changes in trading regulations by the Stock Exchange/s or SEBI may affect the ability of market maker to arbitrage resulting into wider premium/discount to NAV. Although, the units are listed on BSE and NSE, the AMC and the Trustees will not be liable for delay in listing of Units of the Scheme on the stock exchanges / or due to connectivity problems with the depositories and/or due to the occurrence of any event beyond their control.
- **Settlement Risk:** In certain cases, settlement periods may be extended significantly by unforeseen circumstances. The inability of the Scheme to make intended securities purchases due to settlement problems could cause the Scheme to miss certain investment opportunities as in certain cases, settlement periods may be extended significantly by unforeseen circumstances. Similarly, the inability to sell securities held in the Scheme portfolio may result, at times, in potential losses to the Scheme, and there can be a subsequent decline in the value of the securities held in the Scheme’s portfolio.
- **Right to Limit Redemptions:** The Trustee, in the general interest of the Unit holders of the Scheme offered in this Document and keeping in view the unforeseen circumstances / unusual market conditions, may limit the total number of Units which can be redeemed on any Business Day. The same shall be in accordance with paragraph 1.12 of SEBI Master Circular for Mutual Funds. (Restriction on redemption in Mutual Funds).

### **Portfolio Concentration Risk**

To the extent that the Scheme may concentrate its investments in the Securities of certain companies/sectors, the Scheme will therefore be subject to the risks associated with such concentration. In addition, the Scheme may be exposed to higher levels of volatility and risk than would generally be the case in a more diverse fund portfolio of equity Securities. Such risks may impact the Scheme to the extent that it invests in particular companies/sectors even in cases where the investment objective is more generic.

## **Volatility Risk**

The equity markets and derivative markets are volatile and the value of securities, derivative contracts and other instruments correlated with the equity markets may fluctuate dramatically from day to day. This volatility may cause the value of investment in the Scheme to decrease.

## **Redemption Risk**

Investors should note that even though the Scheme is an open ended Scheme, subscription/redemptions directly with the Fund would be subject to minimum application amount. However, investors wishing to subscribe/redeem units can do so by buying/selling the same on the Stock Exchange.

## **Passive Investments**

The Scheme is a passively managed scheme and may be affected by a general decline in the Indian markets relating to its Underlying Index. The Scheme invests in the securities included in its Underlying Index regardless of their investment merit. The AMC does not attempt to individually select stocks or to take defensive positions in declining markets.

## **Tracking Error Risk**

Factors such as the fees and expenses of the Scheme, corporate actions, cash balance, changes to the Underlying Index and regulatory policies may affect the AMC's ability to achieve close correlation with the Underlying Index of the Scheme. The Scheme's returns may therefore deviate from those of their Underlying Index. "Tracking Error" is defined as the standard deviation of the difference between daily returns of the index and the NAV of the Scheme. Tracking Error may arise due to the following reasons: -

- Expenditure incurred by the Scheme.
- Any delay experienced in the purchase or sale of shares due to illiquidity of the market, settlement and realization of sale proceeds and the registration of any securities transferred and any delays in receiving cash and dividends and resulting delays in reinvesting them.
- Securities trading may halt temporarily due to circuit filters.
- The underlying index reflects the prices of securities at close of business hours. However, the Fund may buy or sell the securities at different points of time during the trading session at the then prevailing prices which may not correspond to the closing prices on the exchange.
- Index Service Provider undertakes the periodical review of the scrips that comprise the underlying index and may either drop or include new securities. In such an event, the Fund will endeavor to reallocate its portfolio but the available investment/disinvestment opportunities may not permit precise mirroring of the Index immediately.
- The potential for trades to fail which may result in the Scheme not having acquired shares at a price necessary to track the index.
- The holding of a cash position (0-5% of the Net Assets to meet the redemptions and other liquidity requirements) and accrued income prior to distribution and accrued expenses.

- Corporate actions such as rights, merger, change in constituents etc.
- Rounding off quantity of shares underlying the index
- Disinvestments to meet redemptions, recurring expenses, dividend payouts etc.

#### **Risk associated with investing in Fixed Income securities:**

- **Market Risk:** The Net Asset Value (NAV) of the underlying scheme(s), to the extent invested in fixed income securities, will be affected by changes in the general level of interest rates. The NAV of the underlying scheme(s) is expected to increase from a fall in interest rates while it would be adversely affected by an increase in the level of interest rates. The movements in interest rate depend on various factors such as government borrowing, inflation, economic performance etc.
- **Liquidity Risk:** The liquidity of a security may change depending on market conditions leading to changes in the liquidity premium linked to the price of the security. At the time of selling the security, the security can become illiquid leading to loss in the value of the portfolio.
- **Credit Risk:** Investments in fixed income securities are subject to the risk of an issuer's inability to meet interest and principal payments on its obligations and market perception of the creditworthiness of the issuer.
- **Price Risk:** Government securities where a fixed return is offered run price-risk like any other fixed income security. Generally, when interest rates rise, prices of fixed income securities fall and when interest rates drop, the prices increase. The extent of fall or rise in the prices is a function of the existing coupon, days to maturity and the increase or decrease in the level of interest rates. The new level of interest rate is determined by the rates at which government raises new money and/or the price levels at which the market is already dealing in existing securities. The price-risk is not unique to Government Securities. It exists for all fixed income securities. However, Government Securities are unique in the sense that their credit risk generally remains zero. Therefore, their prices are influenced only by movement in interest rates in the financial system.
- **Reinvestment Risk:** This risk refers to the interest rate levels at which cash flows received from the securities in the underlying scheme(s) are reinvested. The additional income from reinvestment is the "interest on interest" component. The risk is that the rate at which interim cash flows can be reinvested may be lower than that originally assumed.
- **Settlement risk:** The inability of the underlying scheme(s) to make intended securities purchases due to settlement problems could cause the underlying scheme(s) to miss certain investment opportunities. By the same rationale, the inability to sell securities held in the underlying scheme(s)' portfolio due to the extraneous factors that may impact liquidity would result, at times, in potential losses to the Plan, in case of a subsequent decline in the value of securities held in the underlying scheme(s)' portfolio.
- **Regulatory Risk:** Changes in government policy in general and changes in tax benefits applicable to Mutual Funds may impact the returns to investors in the underlying scheme(s).

- **Risks associated with investment in unlisted securities:** Except for any security of an associate or group company, the underlying scheme(s) can invest in securities which are not listed on a stock exchange (“unlisted Securities”) which in general are subject to greater price fluctuations, less liquidity and greater risk than those which are traded in the open market. Unlisted securities may lack a liquid secondary market and there can be no assurance that the underlying scheme(s) will realise their investments in unlisted securities at a fair value.
- Different types of fixed income securities in which the underlying scheme(s) would invest as given in the Scheme Information Document carry different levels and types of risk. Accordingly, the underlying scheme(s) risk may increase or decrease depending upon its investment pattern. e.g. corporate bonds carry a higher level of risk than Government securities.
- The underlying scheme(s) may, considering the overall level of risk of the portfolio, invest in lower rated securities offering higher yields as well as zero coupon securities that offer attractive yields. This may increase the absolute level of risk of the underlying scheme(s).
- As zero coupon securities do not provide periodic interest payments to the holder of the security, these securities are more sensitive to changes in interest rates. Therefore, the interest rate risk of zero coupon securities is higher. The underlying scheme(s) may choose to invest in zero coupon securities that offer attractive yields. This may increase the risk of the portfolio.
- The underlying scheme(s) at times may receive large number of redemption requests, leading to an asset-liability mismatch and therefore, requiring the investment manager to make a distress sale of the securities leading to realignment of the portfolio and consequently resulting in investment in lower yield instruments.
- Scheme’s performance may differ from the benchmark index to the extent of the investments held in the debt segment, as per the investment pattern indicated under normal circumstances.
- The Scheme may also invest in units of debt schemes/ETFs including that of ICICI Prudential Mutual Fund which may have objective to invest in debt and money market instruments and are subject to risks as stated above

**Risks associated with investing in Tri Party Repo through CCIL (TREPS):**

- The mutual fund is a member of securities segment and Tri-party Repo trade settlement of the Clearing Corporation of India (CCIL). All transactions of the mutual fund in government securities and in Tri-party Repo trades are settled centrally through the infrastructure and settlement systems provided by CCIL; thus reducing the settlement and counterparty risks considerably for transactions in the said segments.
- CCIL maintains prefunded resources in all the clearing segments to cover potential losses arising from the default member. In the event of a clearing member failing to honour his settlement obligations, the default Fund is utilized to complete the settlement. The sequence in which the above resources are used

- is known as the “Default Waterfall”.
- As per the waterfall mechanism, after the defaulter’s margins and the defaulter’s contribution to the default fund have been appropriated, CCIL’s contribution is used to meet the losses. Post utilization of CCIL’s contribution if there is a residual loss, it is appropriated from the default fund contributions of the non-defaulting members.
  - Thus the scheme is subject to risk of the initial margin and default fund contribution being invoked in the event of failure of any settlement obligations. In addition, the fund contribution is allowed to be used to meet the residual loss in case of default by the other clearing member (the defaulting member).
  - However, it may be noted that a member shall have the right to submit resignation from the membership of the Security segment if it has taken a loss through replenishment of its contribution to the default fund for the segments and a loss threshold as notified have been reached. The maximum contribution of a member towards replenishment of its contribution to the default fund in the 7 days (30 days in case of securities segment) period immediately after the aforementioned loss threshold having been reached shall not exceed 5 times of its contribution to the Default Fund based on the last re-computation of the Default Fund or specified amount, whichever is lower.
  - Further, it may be noted that, CCIL periodically prescribes a list of securities eligible for contributions as collateral by members. Presently, all Central Government securities and Treasury bills are accepted as collateral by CCIL. The risk factors may undergo change in case the CCIL notifies securities other than Government of India securities as eligible for contribution as collateral.

#### **Risk factors associated with creation of segregated portfolios**

1. Liquidity risk – A segregated portfolio is created when a credit event occurs at an issuer level in the scheme. This may reduce the liquidity of the security issued by the said issuer, as demand for this security may reduce. This is also further accentuated by the lack of secondary market liquidity for corporate papers in India. As per SEBI norms, the scheme is to be closed for redemption and subscriptions until the segregated portfolio is created, running the risk of investors being unable to redeem their investments. However, it may be noted that, the proposed segregated portfolio is required to be formed within one day from the occurrence of the credit event.

Investors may note that no redemption and subscription shall be allowed in the segregated portfolio. However, in order to facilitate exit to unit holders in segregated portfolio, AMC shall list the units of the segregated portfolio on a recognized stock exchange within 10 working days of creation of segregated portfolio and also enable transfer of such units on receipt of transfer requests. For the units listed on the exchange, it is possible that the market price at which the units are traded may be at a discount to the NAV of such Units. There is no assurance that a deep secondary market will develop for units of segregated portfolio listed on the stock exchange. This could limit the ability of the investors to resell them.

2. Valuation risk - The valuation of the securities in the segregated portfolio is required to be carried out in line with the applicable SEBI guidelines. However, it may be difficult to ascertain the fair value of the securities due to absence of an active secondary market and difficulty to price in qualitative factors.

### **Risks associated with Securities Lending:**

Securities lending is lending of securities through an approved intermediary to a borrower under an agreement for a specified period with the condition that the borrower will return equivalent securities of the same type or class at the end of the specified period along with the corporate benefits accruing on the securities borrowed.

The risks in security lending consist of the failure of intermediary / counterparty, to comply with the terms of agreement entered into between the lender of securities i.e. the Scheme and the intermediary / counterparty. Such failure to comply can result in the possible loss of rights in the collateral put up by the borrower of the securities, the inability of the approved intermediary to return the securities deposited by the lender and the possible loss of any corporate benefits accruing to the lender from the securities deposited with the approved intermediary. The scheme may not be able to sell lent out securities, which can lead to temporary illiquidity & loss of opportunity.

Investors are requested to refer to section “**How will the Scheme allocate its assets?**” for maximum permissible exposure to Securities Lending.

### **Risks associated with investing in Derivatives:**

- The Schemes may use various derivative products as permitted by the Regulations. Use of derivatives requires an understanding of not only the underlying instrument but also of the derivative itself. Other risks include the risk of mis-pricing or improper valuation and the inability of derivatives to correlate perfectly with underlying assets, rates and indices.
- The Scheme may use derivatives instruments like Stock Index Futures or other derivative instruments for the purpose of hedging and portfolio balancing, as permitted under the Regulations and guidelines. Usage of derivatives will expose the Schemes to certain risks inherent to such derivatives.
- Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the fund manager to identify such opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and decision of fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies.
- Thus, derivatives are highly leveraged instruments. Even a small price movement in the underlying security could have a large impact on their value. Also, the market for derivative instruments is nascent in India.
- The risks associated with the use of derivatives are different from or possibly greater than the risks associated with investing directly in securities and other traditional investments.
- The specific risk factors arising out of a derivative strategy used by the Fund Manager may be as below:
  - Lack of opportunity available in the market.

- The risk of mispricing or improper valuation and the inability of derivatives to correlate perfectly with underlying assets, rates and indices.
- Execution Risk: The prices which are seen on the screen need not be the same at which execution will take place
- Basis Risk: This risk arises when the derivative instrument used to hedge the underlying asset does not match the movement of the underlying asset being hedged.
- Exchanges could raise the initial margin, variation margin or other forms of margin on derivative contracts, impose one sided margins or insist that margins be placed in cash. All of these might force positions to be unwound at a loss, and might materially impact returns.

The Scheme will not have any exposure to Debt Derivatives.

Please refer section on “**Derivatives**” for further details.

**Risk associated with investing in companies forming part of Nifty IT Index:**

The scheme tracks benchmark index which may comprise of companies engaged into activities such as IT infrastructure, IT education and software training, networking infrastructure, software development, hardware, IT support and maintenance etc. The scheme being passively managed invests in stocks of the underlying index and will therefore be subject to the risks associated with concentration of investments in a particular company/sector(s). The weightage of each stock in the index is capped at the time of re-balancing of the index, which may aid in limiting concentration risk. In addition, the scheme may be subject to following sector specific risks including but not limited to:

1. **Loss of Key Professionals:** In technology industries the ability to recruit and retain professionals with the necessary technical skills can be crucial to the ongoing success of the organisation. Qualified IT professionals are a limited resource and there is a worldwide demand for professionals from the Indian sub-continent. Failure to be able to retain key professionals can negatively impact the prospects of a company.
2. **Failure to adapt business to the rapid technological change:** Companies in the IT industry may be adversely affected by rapid technological changes, product innovations and obsolescence, changing standards and client preferences. All or one of these issues may impact the business prospects of a company.
3. **Volatility in foreign exchange rates:** A number of companies in the technology sector generate revenue in foreign currencies which could be significantly lower than the amount spent in foreign currencies. This could lead to adverse impact on performance of companies.
4. Change in macro-economic conditions of key markets addressed by companies could impact performance of the companies as well as that of a sector.
5. **Exchange Rates:** A number of companies in the technology sector generate revenue in foreign currencies and may even have investments or expenses denominated in foreign currencies. Changes in exchange rates may therefore have a positive or negative impact on a company’s earnings.

6. The volatility and/or performance of the said sector and/or of the companies belonging to this sector may have a material adverse bearing on the performance of the Scheme.

**Apart from the risk factors mentioned above, the scheme is exposed to certain specific risks, which are as mentioned below –**

(i) Performance of the underlying Index will have a direct bearing on the performance of the Scheme. In the event when the index is dissolved or is withdrawn, the Trustee reserves a right to modify the Scheme so as to track a different and suitable index and appropriate intimation will be sent to the unitholders of the Scheme.

(ii) Tracking errors are inherent in any ETF and such errors may cause the Scheme to generate returns which are not in line with the performance of the Index or one or more securities covered by / included in the Index.

(iii) In case of investments in derivative instruments, the risk/ reward would be the same as investments in portfolio of shares representing an index. However, there may be a cost attached to buying an index future. Further, there could be an element of settlement risk, which could be different from the risk in settling physical shares and there is a risk attached to the liquidity and the depth of the index futures market as it is relatively new market for Index and also it is relatively less popular as compared to the Index.

(iv) In the event of any of the indices mentioned above, is dissolved or is withdrawn by NSE Indices Limited (NSE Indices) or is not published due to any reason whatsoever, the Trustee reserves the right to modify the Scheme so as track a different and suitable index or to suspend tracking the Nifty till such time it is dissolved/ withdrawn or not published and appropriate intimation will be sent to the Unitholders of the Scheme. In such a case, the investment pattern will be modified suitably to match the composition of the securities that are included in the new index to be tracked and the Scheme will be subject to tracking errors during the intervening period.

• **Risk management strategies**

The Scheme by utilizing a holistic risk management strategy will endeavor to manage risks associated with investing in equity markets. The risk control process involves identifying & measuring the risk through various risk measurement tools.

The Scheme has identified following risks of investing in equity and designed risk management strategies, which are embedded in the investment process to manage such risks.

<b>Risk and Description</b>	<b>Risk mitigants / management strategy</b>
<b><u>Risks associated with Equity investment</u></b>	
<p><b><u>Liquidity risk</u></b> The liquidity of the Scheme's investments is inherently restricted by trading volumes in the securities in which they invests.</p>	As such the liquidity of stocks that the scheme invests into could be relatively low. The Scheme will try to maintain a proper asset-liability match to ensure redemption payments are made on

Risk and Description	Risk mitigants / management strategy
<b>Risks associated with Equity investment</b>	
	time and not affected by illiquidity of the underlying stocks.
<p><b>Market Risk</b></p> <p>The Scheme is vulnerable to movements in the prices of securities invested by the Scheme, which could have a material bearing on the overall returns from the Scheme. The value of the underlying Scheme investments, may be affected generally by factors affecting securities markets, such as price and volume, volatility in the capital markets, interest rates, currency exchange rates, changes in policies of the Government, taxation laws or any other appropriate authority policies and other political and economic developments which may have an adverse bearing on individual securities, a specific sector or all sectors including equity and debt markets.</p>	<p>Market risk is inherent to an equity scheme. Being a passively managed scheme, it will invest in the securities included in its Underlying Index.</p>
<p><b>Tracking Error risk (Volatility/ Concentration risk):</b></p> <p>The performance of the Scheme may not commensurate with the performance of the underlying Index viz. NIFTY IT Index on any given day or over any given period.</p>	<p><b>Tracking Error risk (Volatility/ Concentration risk):</b></p> <p>Over a short to medium period, the Scheme may carry the risk of variance between portfolio composition and Benchmark. The objectives of the Scheme are to closely track the performance of the Underlying Index over the same period, subject to tracking error. The Scheme would endeavor to maintain a low tracking error by actively aligning the portfolio in line with the Index.</p>
<p><b>Derivatives Risk</b></p> <p>As and when the Scheme trades in the derivatives market there are risk factors and issues concerning the use of derivatives since derivative products are specialized instruments that require investment techniques and risk analyses different from those associated with stocks and bonds.</p>	<p>The Scheme may invest in derivative for the purpose of portfolio balancing and other purposes as may be permitted under the Regulations. All derivatives trade will be done only on the exchange with guaranteed settlement. Exposure with respect to derivatives shall be in line with regulatory limits and the limits specified in the SID. No OTC contracts will be entered into.</p>

**Risks associated with Debt investment**

<p><b><u>Market Risk/ Interest Rate Risk</u></b> As with all debt securities, changes in interest rates may affect the underlying scheme(s)' Net Asset Value as the prices of securities generally increase as interest rates decline and generally decrease as interest rates rise. Prices of long-term securities generally fluctuate more in response to interest rate changes than do short-term securities. Indian debt markets can be volatile leading to the possibility of price movements up or down in fixed income securities and thereby to possible movements in the NAV.</p>	<p>The underlying scheme may undertake active portfolio management as per the investment objective to reduce the market risk. In a rising interest rates scenario the underlying scheme may increase its investment in money market securities whereas if the interest rates are expected to fall the allocation to debt securities with longer maturity may be increased thereby mitigating risk to that extent.</p>
<p><b><u>Liquidity or Marketability Risk</u></b> This refers to the ease with which a security can be sold at or near to its valuation yield-to-maturity (YTM).</p>	<p>The underlying scheme may invest in government securities, corporate bonds and money market instruments. While the liquidity risk for government securities, money market instruments and short maturity corporate bonds may be low, it may be high in case of medium to long maturity corporate bonds.</p> <p>The underlying scheme may however, endeavor to minimize liquidity risk by investing in securities having a relatively liquid market.</p>
<p><b><u>Credit Risk</u></b> Credit risk or default risk refers to the risk that an issuer of a fixed income security may default (i.e., will be unable to make timely principal and interest payments on the security).</p>	<p>Management analysis may be used for identifying company specific risks. Management's past track record may also be studied. In order to assess financial risk an assessment of the issuer's financial statements may be undertaken.</p>

## II. INFORMATION ABOUT THE SCHEME

### A. TYPE OF THE SCHEME

An open-ended Index Exchange Traded Fund tracking Nifty IT Index.

### B. WHAT IS THE INVESTMENT OBJECTIVE OF THE SCHEME?

The investment objective of the scheme is to provide returns before expenses that closely correspond to the total return of the underlying index subject to tracking errors. However, there can be no assurance or guarantee that the investment objective of the Scheme would be achieved.

### C. HOW WILL THE SCHEME ALLOCATE ITS ASSETS?

Under normal circumstances, the asset allocation under the Scheme will be as follows:

Instruments	Indicative allocations (% of total assets)		Risk Profile
	Maximum	Minimum	High/Medium/Low
Equity and Equity related securities of companies constituting the underlying index (NIFTY IT Index)	100	95	Very High
Units of debt schemes, TREPs <sup>#</sup> , Repo and Reverse Repo, cash & cash equivalents.	5	0	Low to Medium
Units of debt ETFs	5	0	Low to Medium

<sup>#</sup>Or similar instruments as may be permitted by SEBI/RBI from time to time.

The Scheme may also take exposure to:

- Derivative instruments on underlying index (stock/ index futures) up to 5% of the Net Assets. Investment in derivatives shall be made in accordance with paragraph 7.5 of Master Circular and such other guidelines on derivatives as issued by SEBI from time to time.
- Stock lending up to 20% of its Net Assets. The same shall be in accordance with paragraph 12.11 of the Master Circular..

The Margin may be placed in the form of such securities / instruments / deposits as may be permitted/eligible to be placed as margin from the assets of the Scheme. The securities / instruments / deposits so placed as margin shall be classified under the applicable category of assets for the purposes of asset allocation.

Any transactions undertaken in the portfolio of the Scheme in order to meet the redemption and subscription obligations shall be done while ensuring that post such transactions replication of the portfolio with the index is maintained at all points of time.

The Cumulative Gross Exposure across Equity, Debt and Derivatives and such other securities/assets as may be permitted by the Board from time to time, subject to prior approval from SEBI, if required, should not exceed 100% of the net assets of the scheme.

### **Rebalancing Period:**

In case of change in constituents of the index due to periodic review, the portfolio of the Scheme shall be rebalanced within 7 calendar days or such timeline as may be prescribed by SEBI from time to time.

Subject to the Regulations, the asset allocation pattern indicated above for the Scheme may change from time to time, keeping in view market conditions, applicable regulations and political and economic factors or for short durations, part of the corpus may be pending for deployment in equities considering the market conditions, special events, corporate events (like declaration of dividend), etc.

In the event that the asset allocation of the Scheme should deviate from the ranges as noted in the asset allocation table, then the portfolio of the Scheme will be rebalanced by the Fund Manager to the position indicated in the asset allocation table above. Such changes in the asset allocation will be for short term and defensive considerations. In case of deviation, if any, from the asset allocation pattern, the AMC shall rebalance the portfolio within a period of 7 calendar days.

For more details on Tracking Error, kindly refer 'Tracking Error Risk' under 'Scheme Specific Risk Factors'.

The Scheme does not intend to undertake/ invest/ engage in:

- Repos in corporate debt securities;
- Short selling of securities;
- Unrated instruments;
- Foreign securities/ADR/GDR;
- Securitised debts; and
- Structured obligations.

### **Change in Investment Pattern**

As an index linked ETF, the scheme is passively managed. However, as elsewhere stated in this scheme information document, the investment pattern and the percentages stated are indicative, and may change for short duration and defensive considerations with the intention to protect the interests of the Unit holders. In the event the underlying index is dissolved or is withdrawn by index service provider or is not published due to any reason whatsoever, the Trustees reserve the right to modify the Scheme so as to track a different and suitable index or to suspend tracking the underlying index and appropriate intimation will be sent to the Unit holders of the Scheme. In such a case, the investment pattern will be modified suitably to match the composition of the securities that are included in the new index to be tracked and the Scheme will be subject to tracking errors during the intervening period.

Provided further and subject to the above, any change in the asset allocation affecting the investment profile of the Scheme shall be effected only in accordance with the provisions of sub regulation (15A) of Regulation 18 of the Regulations

### **Tracking Error**

In accordance with paragraph 3.6.3 of Master Circular , the tracking error i.e. the annualized standard deviation of the difference in daily returns between the underlying index or goods and the NAV of the ETF based on past one year rolling data shall not exceed 2%. In case of unavoidable circumstances in the nature of force majeure, which are beyond the control of the AMCs, the tracking error may exceed 2% and the same shall be brought to the notice of Trustees with corrective actions taken by the AMC, if any.

### **Tracking Difference**

The annualized difference of daily returns between the index or goods and the NAV of the ETF.

The same shall be disclosed on a monthly basis on the websites of AMC and AMFI.

### **D. WHERE WILL THE SCHEME INVEST?**

The Scheme invests in the securities included in the Underlying Index regardless of their investment merit.

Subject to the Regulations and the disclosures as made under the Section “How the Scheme will allocate its Assets”, the corpus of the Scheme can be invested in any (but not exclusive) of the following securities/ instruments:

- 1) Equity and equity related securities forming part of underlying index, including warrants carrying the right to obtain equity shares.
- 2) Derivative instruments like, Stock / Index Futures, Stock / Index Options and such other derivative instruments permitted by SEBI.
- 3) Units of debt schemes/ ETFs, subject to applicable regulations.
- 4) TREPs<sup>#</sup>, Repo and Reverse Repo, Cash & Cash equivalents.

<sup>#</sup>Or similar instruments as may be permitted by SEBI/RBI from time to time.

The Scheme may invest in other schemes managed by the AMC or in the schemes of any other Mutual Funds, provided it is in conformity with the investment objective of the Scheme and in terms of the prevailing Regulations. As per the Regulations, no investment management fees will be charged for such investments and the aggregate inter-scheme investment made by all Schemes of the Fund or in Schemes under the management of other asset management companies shall not exceed 5% of the Net Asset Value of the Mutual Fund.

### **DERIVATIVE**

The Scheme may use derivatives instruments like Stock/ Index Futures or such other derivative instruments as may be introduced from time to time, within the limit specified under ‘HOW WILL THE SCHEME ALLOCATE ITS ASSETS’ which may be increased as permitted under the Regulations from time to time.

The following information provides a basic idea as to the nature of the derivative instruments proposed to be used by the Scheme and the risks attached there with.

## **Equity Derivatives**

The Scheme intends to use derivatives for purposes that may be permitted by the Regulations from time to time. Derivatives instruments may take the form of Futures, Options, Swaps or any other instrument, as may be permitted from time to time.

### **Position limits for investment in Derivative instruments:**

SEBI has vide paragraph 3.6.3 of Master Circular specified the guidelines pertaining to trading by Mutual Fund in Exchange traded derivatives. All Derivative positions taken in the portfolio would be guided by the following principles:

- *Position limit for the Fund in index options contracts*
  - The Fund position limit in all index options contracts on a particular underlying index shall be Rs. 500 crore or 15% of the total open interest of the market in index options, whichever is higher per Stock Exchange.
  - This limit would be applicable on open positions in all options contracts on a particular underlying index.
- *Position limit for the Fund in index futures contract*
  - The Fund position limit in all index futures contracts on a particular underlying index shall be Rs. 500 crore or 15% of the total open interest of the market in index futures, whichever is higher, per Stock Exchange.
  - This limit would be applicable on open positions in all futures contracts on a particular underlying index.
- *Additional position limit for hedging*

In addition to the position limits mentioned above, Fund may take exposure in equity index derivatives subject to the following limits:

  - Short positions in index derivatives (short futures, short calls and long puts) shall not exceed (in notional value) the Fund's holding of stocks.
  - Long positions in index derivatives (long futures, long calls and short puts) shall not exceed (in notional value) the Fund's holding of cash, government securities, T-Bills and similar instruments.
- *Position limit for the Fund for stock based derivative contracts*

The Fund position limit in a derivative contract on a particular underlying stock, i.e. stock option contracts and stock futures contracts, :-

  - a. The combined futures and options position limit shall be 20% of the applicable Market Wide Position Limit (MWPL).
  - b. The MWPL and client level position limits however would remain the same as prescribed
- *Position limit for the Scheme*
  - The position limits for the Scheme and disclosure requirements are as follow. For stock option and stock futures contracts, the gross open position across all derivative contracts on a particular underlying stock of a scheme of a Fund shall not exceed the higher of:

1% of the free float market capitalisation (in terms of number of shares).

**Or**

5% of the open interest in the derivative contracts on a particular underlying stock (in terms of number of contracts).

- This position limit shall be applicable on the combined position in all derivative contracts on an underlying stock at a Stock Exchange.
- For index based contracts, the Fund shall disclose the total open interest held by its scheme or all schemes put together in a particular underlying index, if such open interest equals to or exceeds 15% of the open interest of all derivative contracts on that underlying index.”

### **Exposure limits for derivative transactions**

The Scheme will comply with the provisions specified in Circular dated August 18, 2010 related to overall exposure limits applicable for derivative transactions as stated below:

1. The Cumulative Gross Exposure across Equity, Debt and Derivatives and such other securities/assets as may be permitted by the Board from time to time should not exceed 100% of the net assets of the scheme.
2. Mutual Funds shall not write options or purchase instruments with embedded written options.
3. The total exposure related to option premium paid must not exceed 20% of the net assets of the scheme.
4. Cash or cash equivalents with residual maturity of less than 91 days may be treated as not creating any exposure.
5. Exposure due to hedging positions may not be included in the above mentioned limits subject to the following
  - a. Hedging positions are the derivative positions that reduce possible losses on an existing position in securities and till the existing position remains.
  - b. Hedging positions cannot be taken for existing derivative positions. Exposure due to such positions shall have to be added and treated under limits mentioned in Point 1.
  - c. Any derivative instrument used to hedge has the same underlying security as the existing position being hedged.
  - d. The quantity of underlying associated with the derivative position taken for hedging purposes does not exceed the quantity of the existing position against which hedge has been taken.
6. Exposure due to derivative positions taken for hedging purposes in excess of the underlying position against which the hedging position has been taken, shall be treated under the limits mentioned in point 1.
7. Definition of Exposure in case of Derivative Positions - Each position taken in

derivatives shall have an associated exposure as defined under. Exposure is the maximum possible loss that may occur on a position. However, certain derivative positions may theoretically have unlimited possible loss. Exposure in derivative positions shall be computed as follows:

<b>Position</b>	<b>Exposure</b>
Long Future	Futures Price * Lot Size * Number of Contracts
Short Future	Futures Price * Lot Size * Number of Contracts
Option Bought	Option Premium Paid * Lot Size * Number of Contracts

### **Various Derivatives Strategies:**

If and where Derivative strategies are used under the Scheme, the Fund Manager will employ a combination of the following strategies:

#### **1. Index Arbitrage:**

As the Index derives its value from the underlying stocks, the underlying stocks can be used to create a synthetic index matching the Index levels. Also, theoretically, the fair value of a stock/ index futures is equal to the spot price plus the cost of carry i.e. the interest rate prevailing for an equivalent credit risk, in this case is the Clearing Corporation of the NSE/BSE.

Theoretically, therefore, the pricing of Index futures should be equal to the pricing of the synthetic index created by futures on the underlying stocks. However, due to market imperfections, the index futures may not exactly correspond to the synthetic index futures.

The Index futures normally trades at a discount to the synthetic Index due to large volumes of stock hedging being done using the Index futures giving rise to arbitrage opportunities.

The fund manager shall aim to capture such arbitrage opportunities by taking long positions in the Index futures and short positions in the synthetic index. The strategy is attractive if this price differential (post all costs) is higher than the investor's cost-of-capital.

#### **Objective of the Strategy**

The objective of the strategy is to lock-in the arbitrage gains.

#### **Risks Associated with this Strategy**

- Lack of opportunity available in the market
- The risk of mispricing or improper valuation and the inability of derivatives to correlate perfectly with underlying assets, rates and indices
- **Execution Risk:** The prices which are seen on the screen need not be the same at which execution will take place.

**2. Cash Futures Arbitrage:** (Only one way as the schemes are not allowed to short in the cash market).

The Scheme would look for market opportunities between the spot and the futures market. The cash futures arbitrage strategy can be employed when the price of the futures exceeds the price of the underlying stock.

The Scheme will first buy the stocks in cash market and then sell in the futures market to lock the spread known as arbitrage return.

Buying the stock in cash market and selling the futures results into a hedge where the Scheme has locked in a spread and is not affected by the price movement of cash market and futures market. The arbitrage position can be continued till expiry of the future contracts. The future contracts are settled based on the last half an hour's weighted average trade of the cash market. Thus, there is a convergence between the cash market and the futures market on expiry. This convergence helps the Scheme to generate the arbitrage return locked in earlier. However, the position could even be closed earlier in case the price differential is realized before expiry or better opportunities are available in other stocks. The strategy is attractive if this price differential (post all costs) is higher than the investor's cost-of-capital.

#### **Objective of the Strategy**

The objective of the strategy is to lock-in the arbitrage gains.

#### **Risk Associated with this Strategy**

- Lack of opportunity available in the market.
- The risk of mispricing or improper valuation and the inability of derivatives to correlate perfectly with underlying assets, rates and indices.
- Execution Risk: The prices which are seen on the screen need not be the same at which execution will take place

3. **Hedging and alpha strategy:** The Scheme will use exchange-traded derivatives to hedge the equity portfolio. The hedging could be either partial or complete depending upon the fund managers' perception of the markets. The fund manager shall either use index futures and options or stock futures and options to hedge the stocks in the portfolio. The Scheme will seek to generate alpha by superior stock selection and removing market risks by selling appropriate index. For example, one can seek to generate positive alpha by buying an IT stock and selling NIFTY IT Index future or a bank stock and selling Bank Index futures or buying a stock and selling the NIFTY Index.

#### **Objective of the Strategy**

The objective of the strategy is to generate alpha by superior stock selection and removing market risks by hedging with appropriate index.

#### **Risk Associated with this Strategy**

1. The stock selection under this strategy may under-perform the market and generate a negative alpha.
2. The risk of mispricing or improper valuation and the inability of derivatives to correlate perfectly with underlying assets, rates and indices.
3. Execution Risk: The prices which are seen on the screen need not be the same at which execution will take place.

4. **Other Derivative Strategies:** As allowed under the Regulations on derivatives, the fund manager will employ various other stock and index derivative strategies by buying or selling stock/index futures and/or options.

#### **Objective of the Strategy**

The objective of the strategy is to earn low volatility consistent returns.

#### **Risk Associated with this Strategy**

- The risk of mispricing or improper valuation and the inability of derivatives to correlate perfectly with underlying assets, rates and indices
- Execution Risk: The prices which are seen on the screen need not be the same at which execution will take place.

#### **Illustrations of some derivative transactions**

##### **i) Index Futures:**

##### **Benefits**

a) Investment in Stock Index Futures can give exposure to the index without directly buying the individual stocks. Appreciation in Index stocks can be effectively captured through investment in Stock Index Futures.

b) The Scheme can sell futures to hedge against market movements effectively without actually selling the stocks it holds.

The Stock Index futures are instruments designed to give exposure to the equity market indices. BSE Limited and National Stock Exchange of India Limited have started trading in index futures of 1, 2 and 3-month maturities. The pricing of an index future is the function of the underlying index and interest rates.

##### **Illustration**

Spot Index: 1070

1 month Nifty Future Price on day 1: 1075

Fund buys 100 lots

Each lot has a nominal value equivalent to 200 units of the underlying index

Let us say that on the date of settlement, the future price = Closing spot price = 1085

Profits for the Scheme =  $(1085 - 1075) * 100 \text{ lots} * 200 = \text{Rs } 200,000$

Please note that the above example is given for illustration purposes only.

The net impact for the Scheme will be in terms of the difference between the closing price of the index and cost price (ignoring margins for the sake of simplicity). Thus, it is clear from the example that the profit or loss for the Fund will be the difference of the closing price (which can be higher or lower than the purchase price) and the purchase price. The risks associated with index futures are similar to the one with equity investments. Additional risks could be on account of illiquidity and hence mispricing of the future at the time of purchase.

## ii) Buying Options:

Benefits of buying a call option:

Buying a call option on a stock or index gives the owner the right, but not the obligation, to buy the underlying stock / index at the designated strike price. Here the downside risks are limited to the premium paid to purchase the option.

### Illustration

For example, if the scheme buys a one month call option on ABC Limited at a strike of Rs. 150, the current market price being say Rs.151. The scheme will have to pay a premium of say Rs. 15 to buy this call. If the stock price goes below Rs. 150 during the tenure of the call, the scheme avoids the loss it would have incurred had it straightaway bought the stock instead of the call option. The scheme gives up the premium of Rs. 15 that has to be paid in order to protect the scheme from this probable downside. If the stock goes above Rs. 150, it can exercise its right and own ABC Limited at a cost price of Rs. 150, thereby participating in the upside of the stock.

### Benefits of buying a put option

Buying a put option on a stock originally held by the buyer gives him/her the right, but not the obligation, to sell the underlying stock at the designated strike price. Here the downside risks are limited to the premium paid to purchase the option.

### Illustration

For example, if the scheme owns ABC Limited and also buys a three month put option on ABC Limited at a strike of Rs. 150, the current market price being say Rs.151. The scheme will have to pay a premium of say Rs. 12 to buy this put. If the stock price goes below Rs. 150 during the tenure of the put, the scheme can still exercise the put and sell the stock at Rs. 150, avoiding therefore any downside on the stock below Rs. 150. The scheme gives up the fixed premium of Rs. 12 that has to be paid in order to protect the scheme from this probable downside. If the stock goes above Rs. 150, say to Rs. 170, it will not exercise its option. The scheme will participate in the upside of the stock, since it can now sell the stock at the prevailing market price of Rs. 170.

The Scheme will not have any exposure to Debt Derivatives.

### Valuation of Derivative Products:

- i. The traded derivatives shall be valued at market price in conformity with the valuation policy of the Mutual Fund.
- ii The valuation of untraded derivatives shall be done in accordance with the valuation method for untraded investments prescribed in sub clauses (i) and (ii) of clause 2 of the Eighth Schedule to the Securities and Exchange Board of India (Mutual Funds) Regulations, 1996 as amended from time to time.

For details on applicable limits pertaining to derivatives, kindly refer section, 'What are the Investment Restrictions?'

## E. WHAT ARE THE INVESTMENT STRATEGIES?

The corpus of the Scheme will be invested predominantly in stocks constituting the underlying index in the same proportion as in the Index and endeavor to track the

benchmark index. A very small portion (0-5% of the Net Assets) of the fund may be kept liquid to meet the liquidity and expense requirements. The fund may also use various derivatives and hedging instruments from time to time, as would be available and permitted by SEBI, in an attempt to protect the value of the portfolio and enhance Unitholders' interest.

The performance of the Scheme may not be commensurate with the performance of the underlying index on any given day or over any given period. Such variations are commonly referred to as the tracking error. The fund intends to maintain a low tracking error by closely aligning the portfolio in line with the index. The stocks comprising the underlying index are periodically reviewed by Index Service Provider. A particular stock may be dropped or new securities may be included as a constituent of the index. In such an event, the Fund will endeavor to reallocate its portfolio but the available investment/disinvestment opportunities may not permit precise mirroring of the underlying index immediately. Similarly, in the event of a constituent stock being demerged / merged / delisted from the exchange or due to a major corporate action in a constituent stock, the fund may have to reallocate the portfolio and seek to minimize the variation from the index. In such events, it may be more prudent for the fund to take exposure through derivatives of the index itself or its constituent stocks in order to minimize the long term tracking error.

#### **Equities and equity related instruments:**

The Scheme would invest in stocks comprising the underlying index and endeavor to track the benchmark index.

#### **Fixed Income Securities:**

The Scheme may also invest in units of debt schemes/ETFs, TREPs, Repo and Reverse Repo, cash & cash equivalents, in compliance with Regulations to meet liquidity requirements. The scheme may also invest in liquid schemes of ICICI Prudential Mutual Fund or other schemes which has objective to invest in debt and money market instruments. Money Market Instruments include commercial papers, commercial bills, treasury bills, and Government securities having an unexpired maturity up to one year, call or notice money, certificate of deposit, usance bills, TREPs and any other like instruments as specified by the Reserve Bank of India from time to time, subject to regulatory approvals.

#### **Investment in Derivatives:**

The Scheme may take an exposure to equity derivatives of constituents of the underlying Basket when securities of the Basket are unavailable, insufficient or for rebalancing at the time of change in Basket or in case of corporate actions, for a short period of time. The Scheme may use derivative instruments such as stock futures and options contracts, warrants, convertible securities, swap agreements or any other derivative instruments that are permissible or may be permissible in future under applicable regulations and such investments shall be in accordance with the investment objective of the Scheme.

#### **Implementation of Policies**

The Scheme, in general, will hold all of the securities that comprise the Underlying Index in the same proportion as the index. Expectation is that, over time, the tracking error of the Scheme relative to the performance of the Underlying Index will be relatively low.

The Investment Manager would monitor the tracking error of the Scheme on an ongoing basis and would seek to minimize tracking error to the maximum extent possible. There can be no assurance or guarantee that the Scheme will achieve any particular level of tracking error relative to performance of the Underlying Index.

### **Investment Process**

The Scheme will track the Underlying Index and is a passively managed scheme. The investment Decisions will be determined as per the Underlying Index. In case of any change in the index due to corporate actions or change in the constituents of the Underlying Index (as communicated by the Index Service Provider), relevant investment decisions will be determined considering the composition of the Underlying Index.

The Investment decision of the Scheme will be carried out by the designated Fund Manager.

### **INFORMATION ON NIFTY IT INDEX**

NSE Indices Limited, a subsidiary of NSE, has developed NIFTY IT Index which captures the performance of the Indian IT companies. The NIFTY IT Index comprises of 10 companies listed on the National Stock Exchange (NSE).

Companies in this index are those that have more than 50% of their turnover from IT related activities like IT Infrastructure, IT Education and Software Training, Telecommunication Services and Networking Infrastructure, Software Development, Hardware Manufacturer's, Vending, Support and Maintenance.

The selection of securities and weights are based on Periodic Capped Free Float methodology.

## PROCEDURE FOR CREATION OF UNITS

### Issue of Units

1. Each unit of the Scheme will be approximately equal to 1/100th of the Underlying Index closing on the date of allotment. The units being offered will be issued at a premium approximately equal to the difference between face value and allotment price.
2. As the Scheme will be listed on BSE/NSE, subsequent buying or selling by investors can be made from the secondary market on BSE/NSE. The minimum number of units that can be bought or sold is 1 (one) unit.
3. Eligible Investor(s) can directly buy / sell in blocks from the Fund in 'Creation Unit' Size.

### Creation of Units:

'Creation Unit' is a fixed number of Units of the Scheme, which is exchanged for a predefined basket of shares underlying the index called the "Portfolio Deposit" and a "Cash Component". The facility of creating / redeeming units in Creation Unit size is available to the eligible Investors.

The number of units, that investors can create / redeem in exchange of the Portfolio Deposit and Cash Component, is 10,000 Units and in multiples thereof. The Portfolio Deposit and Cash Component are defined as follows:-

- a. **Portfolio Deposit:** This is a pre-defined basket of securities that represent the Underlying Index. Portfolio Deposit can change from time to time. The Portfolio Deposit may vary on account of market movements and other related factors.
- b. **Cash Component for subscription/ redemption in Creation Unit:** The Cash Component represents the difference between the applicable net asset value of a Creation Unit and the market value of the Portfolio Deposit. This difference may include accrued IDCW, accrued annual charges including management fees and residual cash in the Scheme. In addition, the Cash Component may include transaction cost as charged by the Custodian/Depository Participant, equalization of IDCW, effect of rounding-off of number of shares in Portfolio Deposit and other incidental expenses for Creating Units. The Cash Component will vary from time to time and will be computed and announced by the AMC on its website every Business Day.

### Example of Creation and Redemption of Units of ICICI Prudential Nifty IT ETF.

The Creation Unit is made up of 2 components i.e. the Portfolio Deposit and the Cash Component. The Portfolio Deposit will be determined by the Fund as per the weightages of each security in the Underlying Index. The value of this portfolio deposit will change due to change in prices during the day. The number of shares of each security that constitute the portfolio deposit will remain constant unless there is any corporate action in the Underlying Index/ change in the constituents of the Underlying Index.

### Example of Creation of Units:

A	Applicable NAV	33.33

<b>TOTAL</b>		<b>100.00%</b>	<b>3,332,560</b>	

In addition, Investors shall also pay charges payable to depositories / exchanges for creation / redemption of units as part of Cash Component.

The above is just an example to illustrate the calculation of Cash Component. Cash Component will vary depending upon the actual charges incurred like Custodial Charges and other incidental charges for creating units.

The portfolio concentration norms in accordance with paragraph 3.4 of the master circular are given below:

1. The index shall have a minimum of 10 stocks as its constituents.
2. For a sectoral/ thematic Index, no single stock shall have more than 35% weight in the index. For other than sectoral/ thematic indices, no single stock shall have more than 25% weight in the index.
3. The weightage of the top three constituents of the index, cumulatively shall not be more than 65% of the Index.
4. The individual constituent of the index shall have a trading frequency greater than or equal to 80% and an average impact cost of 1% or less over previous six months.

## SEGREGATION OF PORTFOLIOS

As per paragraph 4.4 of the Master Circular, in order to ensure fair treatment to all investors in case of a Credit Event and to deal with liquidity risk, as amended from time to time has allowed creation of Segregated Portfolio of debt and money market instruments by mutual fund schemes.

The AMC may create a segregated portfolio of debt and money market instruments in a mutual fund scheme in case of a credit event and to deal with liquidity risk.

In this regard, the term 'segregated portfolio' shall mean a portfolio comprising of debt or money market instrument affected by a credit event, that has been segregated in a mutual fund scheme and the term 'main portfolio' shall mean the scheme portfolio excluding the segregated portfolio. The term 'total portfolio' shall mean the scheme portfolio including the securities affected by the credit event.

A segregated portfolio may be created in a mutual fund scheme in case of a credit event at issuer level i.e. downgrade in credit rating by a SEBI registered Credit Rating Agency (CRA), as under:

- a. Downgrade of a debt or money market instrument to 'below investment grade',  
or
- b. Subsequent downgrades of the said instruments from 'below investment grade',  
or
- c. Similar such downgrades of a loan rating.

In case of difference in rating by multiple CRAs, the most conservative rating shall be considered. Creation of segregated portfolio shall be based on issuer level credit events as detailed above and implemented at the ISIN level.

The AMC may also create a segregated portfolio of unrated debt and money market instruments of an issuer that does not have any outstanding rated debt or money market instruments in case of 'actual default' of either the interest or principal amount.' subject to guidelines prescribed by SEBI in this behalf from time to time.

### **Process for creation of segregated portfolio**

1. The AMC shall decide on creation of segregated portfolio on the day of credit event, as per the process laid down below:
  - i. The AMC shall seek approval of Trustees, prior to creation of the segregated portfolio.
  - ii. The AMC shall immediately issue a press release disclosing its intention to segregate such debt and money market instrument and its impact on the investors. It shall also be disclosed that the segregation shall be subject to trustee approval. Additionally, the said press release shall be prominently disclosed on the website of the AMC. (icicipruamc.com)
  - iii. The AMC shall ensure that till the time the Trustee approval is received, which in no case shall exceed 1 business day from the day of credit event, the subscription and redemption in the scheme shall be suspended for processing with respect to creation of units and payment on redemptions.

2. Upon receipt of approval from Trustees:

- i. The segregated portfolio shall be effective from the day of credit event
- ii. The AMC shall issue a press release immediately with all relevant information pertaining to the segregated portfolio. The said information shall also be submitted to SEBI.
- iii. An e-mail or SMS should be sent to all unit holders of the concerned scheme.
- iv. The NAV of both segregated and main portfolio shall be disclosed from the day of the credit event.
- v. All existing investors in the scheme as on the day of the credit event shall be allotted equal number of units in the segregated portfolio as held in the main portfolio.
- vi. No redemption and subscription shall be allowed in the segregated portfolio. However, in order to facilitate exit to unit holders in segregated portfolio, AMC shall enable listing of units of segregated portfolio on the recognized stock exchange within 10 working days of creation of segregated portfolio and also enable transfer of such units on receipt of transfer requests.

3. If the trustees do not approve the proposal to segregate portfolio, the AMC shall issue a press release immediately informing investors of the same.

**Valuation and processing of subscriptions and redemptions**

1. Notwithstanding the decision to segregate the debt and money market instrument, the valuation shall take into account the credit event and the portfolio shall be valued based on the principles of fair valuation (i.e. realizable value of the assets) in terms of the relevant provisions of SEBI (Mutual Funds) Regulations, 1996 and Circular(s) issued thereunder.
2. All subscription and redemption requests for which NAV of the day of credit event or subsequent day is applicable will be processed as per the existing circular on applicability of NAV as under:
  - a. Upon trustees' approval to create a segregated portfolio -
    - ii. Investors redeeming their units will get redemption proceeds based on the NAV of main portfolio and will continue to hold the units of segregated portfolio.
    - iii. Investors subscribing to the scheme will be allotted units only in the main portfolio based on its NAV.
  - b. In case trustees do not approve the proposal of segregated portfolio, subscription and redemption applications will be processed based on the NAV of total portfolio.

**Periodic Disclosures:**

In order to enable the existing as well as the prospective investors to take informed decision, the following shall be adhered to:

- a. A statement of holding indicating the units held by the investors in the segregated portfolio along with the NAV of both segregated portfolio and main portfolio as on the day of the credit event shall be communicated to the investors within 5 working days of creation of the segregated portfolio.

- b. Adequate disclosure of the segregated portfolio shall appear in all scheme related documents, in monthly and half-yearly portfolio disclosures and in the annual report of the mutual fund and the scheme.
- c. The Net Asset Value (NAV) of the segregated portfolio shall be declared on daily basis.
- d. The information regarding number of segregated portfolios created in a scheme shall appear prominently under the name of the scheme at all relevant places such as SID, KIM-cum-Application Form, advertisement, AMC and AMFI websites, etc.
- e. The scheme performance required to be disclosed at various places shall include the impact of creation of segregated portfolio. The scheme performance should clearly reflect the fall in NAV to the extent of the portfolio segregated due to the credit event and the said fall in NAV along with recovery(ies), if any, shall be disclosed as a footnote to the scheme performance.
- f. The disclosures at paragraph (d) and (e) above regarding the segregated portfolio shall be carried out for a period of at least 3 years after the investments in segregated portfolio are fully recovered/ written-off.
- g. The investors of the segregated portfolio shall be duly informed of the recovery proceedings of the investments of the segregated portfolio. Status update may be provided to the investors at the time of recovery and also at the time of writing-off of the segregated securities.

In order to ensure timely recovery of investments of the segregated portfolio, the Trustees to the fund would continuously monitor the progress and take suitable action as may be required.

#### **TER for the Segregated Portfolio**

- a. AMC shall not charge investment and advisory fees on the segregated portfolio. However, TER (excluding the investment and advisory fees) can be charged, on a pro-rata basis only upon recovery of the investments in segregated portfolio.
- b. The TER so levied shall not exceed the simple average of such expenses (excluding the investment and advisory fees) charged on daily basis on the main portfolio (in % terms) during the period for which the segregated portfolio was in existence.
- c. The legal charges related to recovery of the investments of the segregated portfolio may be charged to the segregated portfolio in proportion to the amount of recovery. However, the same shall be within the maximum TER limit as applicable to the main portfolio. The legal charges in excess of the TER limits, if any, shall be borne by the AMC.
- d. The costs related to segregated portfolio shall in no case be charged to the main portfolio.

Investors may also note that the process followed by the AMC/Trust regarding creation of segregated portfolios shall be in accordance with the provisions laid down by SEBI in this regard, from time to time.

#### **Benefits and Features of Creation of Segregated Portfolio:**

- 1. Creation of Segregated portfolio helps ensuring fair treatment to all investors in case of a credit event and helps in managing liquidity risk during such events;

2. Investors redeeming their units will get redemption proceeds based on the NAV of main portfolio and will continue to hold the units of segregated portfolio;
3. Investors subscribing to the scheme will be allotted units only in the main portfolio based on its NAV;
4. A statement of holding indicating the units held by the investors in the segregated portfolio along with the NAV of both segregated portfolio and main portfolio as on the day of the credit event shall be communicated to the investors within 5 working days of creation of the segregated portfolio;
5. Adequate disclosure of the segregated portfolio shall appear in all scheme related documents, in monthly and half-yearly portfolio disclosures and in the annual report of the mutual fund and the scheme; and
6. The investors of the segregated portfolio shall be duly informed of the recovery proceedings of the investments of the segregated portfolio. Status update may be provided to the investors at the time of recovery and also at the time of writing-off of the segregated securities.

**Notes:**

- Investors who invest / subscribe to the units of the Scheme post creation of segregated portfolio shall be allotted units in the Main Portfolio only.
- Investors redeeming their units post creation of segregated portfolio will get redemption proceeds based on NAV of main portfolio and will continue to hold units in Segregated portfolio.
- No redemption and / or subscription shall be allowed in the Segregated Portfolio.
- Units of Segregated portfolio shall be listed on a recognised stock exchange.

**Monitoring by Trustees**

In order to ensure timely recovery of investments of the segregated portfolio, trustees shall ensure that:

- a. The AMC puts in sincere efforts to recover the investments of the segregated portfolio.
- b. Upon recovery of money, whether partial or full, it shall be immediately distributed to the investors in proportion to their holding in the segregated portfolio. Any recovery of amount of the security in the segregated portfolio even after the write off shall be distributed to the investors of the segregated portfolio.
- c. An Action Taken Report (ATR) on the efforts made by the AMC to recover the investments of the segregated portfolio is placed in every trustee meeting till the investments are fully recovered/ written-off.
- d. The trustees shall monitor the compliance of this circular and disclose in the half-yearly trustee reports filed with SEBI, the compliance in respect of every segregated portfolio created.

In order to avoid mis-use of segregated portfolio, trustees shall ensure to have a mechanism in place to negatively impact the performance incentives of Fund Managers, Chief Investment Officers (CIOs), etc. involved in the investment process of securities under the segregated portfolio, mirroring the existing mechanism for performance incentives of the AMC, including claw back of such amount to the segregated portfolio of the scheme.

**POSITION OF EQUITY MARKET IN INDIA**

The Indian stock market is one of the world's largest stock market. There are two leading stock exchanges in India, i.e. BSE Limited (BSE) and National Stock Exchange of India Limited (NSE). BSE was established in 1875 and is the oldest stock exchange in Asia. NSE, a more recent establishment which came into existence in 1992, is the largest and most advanced stock market in India and is also one of the biggest stock exchanges in Asia in terms of transactions. NSE's flagship index, NIFTY 50, is used extensively by investors in India and around the world to take exposure to the Indian equities market.

BSE has a large number of scrips which are listed. The Indian stock market scene really picked up after the opening up of the economy in the early nineties. NSE changed the way the Indian markets function, in the early nineties, by replacing floor based trading with nationwide screen based electronic trading, which took trading to the doorstep of the investor. NSE was mainly set up to bring in transparency in the markets. Instead of trading membership being confined to a group of brokers, NSE ensured that anyone who was qualified, experienced and met minimum financial requirements was allowed to trade. The price information which could earlier be accessed only by a handful of people could now be seen by a client in a remote location with the same ease. The paper based settlement was replaced by electronic depository based accounts and settlement of trades was always done on time. One of the most critical changes was that a robust risk management system was set in place, so that settlement guarantees could protect investors against broker defaults. The corporate governance rules were gradually put in place which initiated the process of bringing the listed companies at a uniform level.

### POSITION OF DEBT MARKET IN INDIA

Indian debt markets, in the early nineties, were characterised by controls on pricing of assets, segmentation of markets and barriers to entry, low levels of liquidity, limited number of players, near lack of transparency, and high transactions cost. Financial reforms have significantly changed the Indian debt markets for the better. Most debt instruments are now priced freely on the markets; trading mechanisms have been altered to provide for higher levels of transparency, higher liquidity, and lower transactions costs; new participants have entered the markets, broad basing the types of players in the markets; methods of security issuance, and innovation in the structure of instruments have taken place; and there has been a significant improvement in the dissemination of market information. There are three main segments in the debt markets in India, viz., Government Securities, Public Sector Units (PSU) bonds, and corporate securities. A bulk of the debt market consists of Government Securities. Other instruments available currently include Corporate Debentures, Bonds issued by Financial

Institutions, Commercial Paper, Certificates of Deposits and Securitized Debt. Securities in the Debt market typically vary based on their tenure and rating. Government Securities have tenures from one year to thirty years whereas the maturity period of the Corporate Debt now goes upto sixty years and more (perpetual). Perpetual bonds are now issued by banks as well. Securities may be both listed and unlisted and there is increasing trend of securities of maturities of over one year being listed by issuers.

**The yields and liquidity on various securities as on September 29, 2023 are as under:**

<b>Settlement of Purchase / Sale on stock exchange(s)</b>	<p>Buying / Selling units of the Scheme on the stock exchange is similar to buying / selling of any other listed securities. If an investor has bought units, the</p>

	<p>investor has to pay the purchase amount to the broker / sub-broker such that the amount paid is realized before funds pay-in day of the settlement cycle on the exchange. If an investor has sold units, the investor has to deliver the units to the broker/ sub-broker before the securities pay-in day of the settlement cycle on the exchange. The units (in case of units bought) and the funds (in the case of units sold) are paid out to the broker on the payout day of the settlement cycle on the exchange. The trading member would pay the money or units to the investor in accordance with the time prescribed by the stock exchange regulation. If an investor has bought units, he/she should give standing instructions for 'Delivery-In' to his/her DP for accepting units in his/her beneficiary account. An investor should give the details of his/her beneficiary account and the DP-ID of his/her DP to his/her trading member. The trading member will transfer the units directly to his/her beneficiary account on receipt of the same from exchange's clearing corporation.</p> <p>An investor who has sold units should instruct his/her Depository Participant (DP) to give 'Delivery Out' instructions to transfer the units from his/her beneficiary account to the Pool Account of his/her trading member through whom he/she has sold the units. The details of the Pool Account of investor's trading member to which the units are to be transferred, unit quantity, etc. should be mentioned in the delivery out instructions given by him/her to the DP. The instructions should be given well before the prescribed securities pay-in day. The exchange regulations stipulate that the trading member should pay the money or units to the investor within 24 hours of the payout.</p> <p>All investors including Authorized Participants, may sell their units in the stock exchange(s) on which these units are listed on all the Trading Days of the stock exchange.</p> <p>The Fund will repurchase units from Authorised Participant(s)/Investor(s) on any Business Day provided the units offered for repurchase is not less than the Creation Unit Size and multiples thereafter.</p>
<p><b>Rolling Settlement</b></p>	<p>The Fund intends to follow the settlement pattern and practices of BSE and NSE as per the trade/s executed on the respective exchange.</p> <p>Rolling Settlement = T+ 1</p>

	<p>The Pay-in and Pay-out of funds and the units will take place within 1 working day after the trading date. The pay-in and pay-out days for funds and securities are prescribed as per the Settlement Cycle. A typical Settlement Cycle of Rolling Settlement is given below:</p> <p>While calculating the days from the Trading Day (Day T), weekend days (i.e. Saturday and Sundays) and Bank holidays are not taken into consideration. All investors including Authorized Participants, may sell their units, in the stock exchange(s) on which these units are listed on all the trading days of the stock exchange. Mutual fund will repurchase units from Authorized Participants on any business day provided the units offered for repurchase is not less than the creation unit size and multiples thereafter.</p>
<p><b>Creation/Redemption of Units directly from the Fund</b></p>	<p>The eligible investors can directly buy/sell with the Fund in Creation Unit Size in accordance with “Minimum application amount”:</p> <p>The Fund creates/ redeems units of the Scheme in large blocks known as “Creation Unit”. The value of the “Creation Unit” is the basket of the Underlying Index securities called as the “Portfolio Deposit” and a “Cash Component” which will be exchanged for a fixed number of units of the Scheme. The Portfolio Deposit and the Cash Component, which defines the Creation Unit are defined separately. The Portfolio Deposit and Cash Component may change from time to time and will be announced by AMC/Fund through its website and other data providers.</p> <p>Note: Units of the Scheme if less than Creation Unit cannot be purchased/ redeemed directly with the Fund except for certain circumstances as listed in this document. In case of redemptions by NRIs, requisite TDS will be deducted from the respective redemption proceeds.</p> <p>All direct transactions in units of the Scheme by MMs or other eligible investors with the AMC/the Fund shall be at intra-day NAV based on the actual execution price of the underlying portfolio.</p> <p>Any order placed for redemption or subscription directly with the AMC must be of greater than INR 25 Cr. The aforesaid threshold shall not be applicable for eligible investors, subject to exceptions as mentioned “minimum application amount” mentioned in “Highlights of the Scheme”.</p>

<p><b>Procedure for Purchasing in Creation Unit Size</b></p>	<p><b><u>Creation of Units</u></b></p> <p>The requisite securities constituting the Portfolio Deposit have to be transferred to the DP account of the respective Scheme on the day of receipt of the application, while the Cash Component, as applicable on that business day; has to be paid to the Fund. On confirmation of the receipt of Portfolio Deposit/ equivalent amount of cash by the Custodian/ AMC, the AMC will credit the equivalent number of units of the Scheme into the investor's DP account.</p> <p>In case of cash subscription of units of the Schemes in 'Creation Unit' Size, the purchase request for creation of units shall be made by such investor to the Fund/AMC where upon the Fund/AMC will arrange to buy the underlying portfolio of securities on behalf of the investor. In case of shares bought by the AMC on behalf of the investor, entire proceeds of portfolio deposit and other cost and charges related to the purchase of basket of underlying securities for servicing the subscription transaction would be borne by the investor.</p> <p>The Portfolio Deposit and Cash Component for units of the Scheme may change from time to time due to changes in the Underlying Index on account of corporate actions and changes to the index constituents.</p> <p>The creation request can be made to the AMC/ Fund in a duly filled application form. Application Forms for Creation of units can be obtained from any of the Official Points of Acceptance as notified by the AMC. For details, refer back cover of the SID.</p> <p>The AMC will not extend credit facility to the Authorized Participants/market makers/ investors. Authorized participants or investors will get the NAV as and when they bring the Portfolio Deposit/ equivalent amount of cash and Cash Component as mentioned in the Regulation.</p>
<p><b>Procedure for Redeeming in Creation Unit Size</b></p>	<p><b><u>Redemption of Units:</u></b></p> <p>The requisite number of units of the Scheme equivalent to the Creation Unit lot size has to be transferred to the DP account of the respective Scheme, while the Cash Component, as applicable on that business day to be paid to the Scheme. On confirmation of the receipt of unit of the Schemes by the Custodian/ AMC, the AMC shall extinguish the units and credit the Portfolio</p>

	<p>Deposit to the investor's DP account and pay the Cash Component, as applicable.</p> <p>The Fund may allow cash redemption of the units of the Scheme in Creation Unit Size. Redemption request shall be made by such investor to the Fund before the stipulated cut-off time whereupon the Fund shall arrange to sell the underlying portfolio of securities on behalf of the investor. In case of shares sold by the AMC on behalf of the investor, entire proceeds of portfolio deposit and other cost and charges related to the sale of basket of underlying securities for servicing the redemption transaction would be borne by the investor. Payment will then be made to the Investor net of all the above mentioned charges.</p> <p>The Portfolio Deposit and Cash Component for the units of the Scheme may change from time to time due to changes in the Underlying Index on account of corporate actions and changes to the index constituents.</p> <p>Any order placed for redemption or subscription directly with the AMC must be of greater than INR 25 Cr. The aforesaid threshold shall not be applicable for eligible investors, subject to exceptions as mentioned "minimum application amount" mentioned in "Highlights of the Scheme". Investors can directly approach the AMC for redemption of units of the Scheme, for transaction upto INR 25 Cr. without any exit load, in case of the following scenarios:</p> <ul style="list-style-type: none"> <li>i. Traded price (closing price) of the Scheme units is at discount of more than 1% to the day end NAV for 7 continuous trading days, or</li> <li>ii. No quotes for the Scheme are available on stock exchange(s) for 3 consecutive trading days, or</li> <li>iii. Total bid size on the exchange is less than half of creation units size daily, averaged over a period of 7 consecutive trading days.</li> </ul> <p>In case of the above scenarios, applications received from investors for redemption up to 3.00 p.m. on any trading day, shall be processed by the AMC at the closing NAV of the day.</p>
<b>IDCW Policy</b>	<p>Unit holders to note that the Trustee may declare IDCW from time to time in accordance with the Policy for declaration of Income Distribution cum capital withdrawal (IDCW Policy) set out below.</p>

	<p>Policy for declaration of Income Distribution cum capital withdrawal (IDCW Policy) The Trustee may declare IDCW to the Unit holders under the Scheme subject to the availability of distributable surplus and the actual distribution of IDCW and the frequency of distribution will be entirely at the discretion of the Trustee. Such IDCW will be payable to the Unit holders whose names appear on the register of Unit holders on the record date as fixed for the respective Schemes. The IDCW declared will be paid net of tax deducted at source, wherever applicable, to the Unit holders within 7 working days from the record date. There is no assurance or guarantee to the Unit holders as to the rate of IDCW distribution nor that will the IDCW be paid regularly. If the Fund declares IDCW, the NAV of the respective Schemes will stand reduced by the amount of IDCW and IDCW distribution tax (if applicable) paid. All the IDCW payments shall be in accordance and compliance with SEBI Regulations, as applicable from time to time.</p>
<b>Equalization Reserve</b>	<p>When units are sold, and sale price (NAV) is higher than face value of the unit, a portion of sale price that represents realized gains is credited to an Equalization Reserve Account and which can be used to pay IDCW. IDCW can be distributed out of investors capital (Equalization Reserve), which is part of sale price that represents realized gains</p>
<b>Dematerialization</b>	<ol style="list-style-type: none"> <li>1. Units of the Scheme will be available only in the Dematerialized form.</li> <li>2. The applicant under the Scheme will be required to have a beneficiary account with a Depository Participant of NSDL/CDSL and will be required to indicate in the application the DP's name, DP ID Number and its beneficiary account number with DP.</li> <li>3. Accordingly, pursuant to levy of stamp duty, the</p>

	number of units allotted on purchase transactions (including IDCW reinvestment) to the unitholders would be reduced to that extent.
<b>Communication via Electronic Mail (e-mail)</b>	<p>It is hereby notified that wherever the investor(s) has/have provided his/their e-mail address in the application form or any subsequent communication in any of the folio belonging to the investor(s), the Fund/Asset Management Company reserves the right to use Electronic Mail (e-mail) as a default mode to send various communication which include account statements for transactions done by the investor(s).</p> <p>The investor(s) may request for a physical account statement by writing or calling the Fund's Investor Service Centre / Registrar &amp; Transfer Agent. In case of specific request received from investor(s), the Fund shall endeavour to provide the account statement to the investor(s) within 5 working days from the receipt of such request.</p>
<b>Transactions without Scheme Name</b>	<p>In case of fresh/additional purchases, if the name of a particular Scheme on the application form/transaction slip differs from the name on the Cheque/Demand Draft, then ICICI Prudential Asset Management Company Limited (the AMC) will process the application and allot units at the applicable Net Asset Value, under the Scheme which is mentioned on the application form/transaction slip duly signed by the investor(s). The AMC reserves the right to call for other additional documents as may be required, for processing such transactions. The AMC also reserves the right to reject such transactions.</p> <p>The AMC thereafter shall not be responsible for any loss suffered by the investor due to the discrepancy of a Scheme name mentioned in the application form/transaction slip and Cheque/Demand Draft.</p>
<b>Transaction Charges</b>	<p>Pursuant to paragraph 10.5 of Master Circular the transaction charge per subscription of Rs.10,000/- and above may be charged in the following manner:</p> <p>i. The existing investors may be charged Rs. 100/- as transaction charge per subscription of Rs.10,000/- and above;</p> <p>ii. A first time investor may be charged Rs.150/- as transaction charge per subscription of Rs.10,000/- and above.</p>

	<p>There shall be no transaction charge on subscription below Rs. 10,000/- and on transactions other than purchases/ subscriptions relating to new inflows.</p> <p>However, the option to charge “transaction charges” is at the discretion of the distributors. Investors may note that distributors can opt to receive transaction charges based on ‘type of the Scheme’. Accordingly, the transaction charges would be deducted from the subscription amounts, as applicable.</p> <p>The aforesaid transaction charge shall be deducted by the Asset Management Company from the subscription amount and paid to the distributor, as the case may be and the balance amount shall be invested subject to deduction of Goods and Services Tax.</p> <p><b>Transaction Charges shall not be deducted if:</b></p> <ul style="list-style-type: none"> <li>• Purchase/Subscription made directly with the fund through any mode (i.e. not through any distributor/agent).</li> <li>• Purchase/ subscription made in demat mode through stock Exchanges, irrespective of investment amount</li> </ul> <p>CAS/ Statement of account shall state the net investment (i.e. gross subscription less transaction charge) and the number of units allotted against the net investment.</p>

#### **D. COMPUTATION OF NAV:**

The NAV of the Units of the Scheme will be computed by dividing the net assets of the Scheme by the number of Units outstanding on the valuation date. The Fund shall value its investments according to the valuation norms, as specified in Schedule VIII of the Regulations, or such norms as may be prescribed by SEBI from time to time and as stipulated in the Valuation Policy and Procedures of the Fund, provided in SAI.

The NAV of the Scheme shall be rounded off upto four decimals.

NAV of units under the Scheme shall be calculated as shown below:

$$\text{NAV (Rs.)} = \frac{\text{Market or Fair Value of Scheme's investments} + \text{Current Assets} - \text{Current Liabilities and Provision}}{\text{No. of Units outstanding under Scheme}}$$

#### **Illustration on computation of NAV:**

If the net assets of the Scheme are Rs.10,45,34,345.34 and units outstanding are 100,00,000, then the NAV per unit will be computed as follows:

$$10,45,34,345.34 / 100,00,000 = \text{Rs. } 10.4534 \text{ p.u. (rounded off to four decimals)}$$

#### **iNAV:**

iNAV of an ETF i.e. the per unit NAV based on the current market value of its portfolio during the trading hours of the ETF, shall be disclosed on a continuous basis on the AMC Website and the Stock Exchange(s), where the units of these ETFs are listed and traded and shall be updated within a maximum time lag of 15 seconds from the market.

## C. LOAD STRUCTURE

Load is an amount, which is paid by the investor to redeem the units from the scheme. This amount is used by the AMC to pay trail commissions to the distributor and to take care of other marketing and selling expenses. Load amounts are variable and are subject to change from time to time. For the current applicable structure, please refer to the website of the AMC ([www.icicipruamc.com](http://www.icicipruamc.com)) or may call your distributor.

### **Entry Load:**

Not Applicable. In terms of Clause 10.4.1 (a) of SEBI Master Circular for Mutual Funds dated May 19, 2023 has notified that there will be no entry load charged to the schemes of the Fund..

### **Exit Load:**

There will be no exit load for units sold through the secondary market on the BSE/NSE. Investors shall note that the brokerage on sales of the units of the scheme on the stock exchanges shall be borne by the investors.

The Eligible Investors can redeem units directly with the Fund/the AMC in accordance with the “minimum application amount”. Currently there is no exit load applicable for the said transactions.

However, during the process of creation/redemption there may be transaction costs and/or other incidental expenses (forming part of the Cash Component), which are liable to be borne by the eligible investors.

- Investors can directly approach the AMC for redemption of units of the Scheme, for transaction upto INR 25 Cr. without any exit load, in case of the following scenarios:
- i. Traded price (closing price) of the ETF units is at discount of more than 1% to the day end NAV for 7 continuous trading days, or
- ii. No quotes for such ETFs are available on stock exchange(s) for 3 consecutive trading days, or
- iii. Total bid size on the exchange is less than half of creation unit size daily, averaged over a period of 7 consecutive trading days.

Under these circumstances, investors, as specified above and can redeem units of the Scheme directly with the the Fund/the AMC without any exit load. The Fund/the AMC will track the aforesaid liquidity criteria and display it on its website viz., [www.icicipruamc.com](http://www.icicipruamc.com) if the same is triggered, no exit load would be applicable in such cases.

Direct transaction with AMCs shall be facilitated for investors only for transactions above INR 25 Cr. In this regard, any order placed for redemption or subscription directly with the AMC must be of greater than INR 25 Cr. The aforesaid threshold shall not be applicable for eligible investors, subject to exceptions as mentioned “minimum application amount” mentioned in “Highlights of the Scheme”.

Subject to the Regulations, the Trustee reserves the right to modify/alter the load structure on the Units subscribed/redeemed on any Business Day. At the time of changing the load structure, the AMC / Mutual Fund may adopt the following procedure:

- i. The addendum detailing the changes will be attached to Scheme Information Documents and key information memorandum. The addendum will be circulated to all the distributors/brokers so that the same can be attached to all Scheme Information Documents and key information memoranda already in stock.
- ii. Arrangements will be made to display the addendum in the Scheme Information Document in the form of a notice in all the investor service centres and distributors/brokers office.
- iii. The introduction of the exit load along with the details will be stamped in the acknowledgement slip issued to the investors on submission of the application form and will also be disclosed in the statement of accounts issued after the introduction of such load.
- iv. A public notice shall be provided on the website of the AMC in respect of such changes.

The Bank has received show cause notice dated February 17, 2023 from RBI under Sections 35, 35A, 46 and 47A of the Banking Regulation Act, 1949- Non-compliance with the statutory provisions and the Reserve Bank of India (RBI) directions observed during statutory inspections with reference to financial position at March 31, 2020 and March 31, 2021. The SCN highlights four specifically observed acts/omissions leading to stated contravention of directions issued by RBI. The Bank has submitted its response to RBI on March 10, 2023
11. Reserve Bank of India (RBI) in December 2020 issued a Show Cause Notice (SCN) for continued operations in InstaSave Salary accounts despite aggregate balances exceeding permissible limits. Subsequently, in May 2021 RBI has cautioned the Bank to be careful in future in the matter.
12. Financial Intelligence Unit – India (FIU-IND), in exercise of its powers u/s 13(2) of the Prevention of Money Laundering Act (PMLA) 2002, had imposed penalty of ₹ 1.4 million on the Bank in February 2015, for not detecting and reporting attempted suspicious transactions for the incidents concerning media sting. The Bank had filed an appeal against the said order with the Appellate Tribunal (Under the Prevention of Money Laundering Act, 2002). The Tribunal waived off the penalty and issued a warning in accordance with provisions of PMLA, 2002 in June 2017.

The Tribunal's judgement was upheld by Hon'ble High Court of Delhi in September 2019 and Hon'ble Supreme Court of India in April 2021.

13. The Financial Intelligence Unit (FIU-IND) vide its order dated July 30, 2021 issued a warning under Section 13 of PMLA, 2002 for non-compliance with provisions of Section 12. The said warning was issued for failing to have an effective internal mechanism to detect and report complete information in respect of Cross Border Wire Transfer Reports. The FIU-IND in its order has also mentioned that resubmission of the entire cross border wire transfer data by the Bank according to the guidelines is a mitigating factor in favour of the Bank.
14. The Directorate of Enforcement (DOE) in March 2019, issued six Show Cause Notices (SCN) against ICICI Bank and certain other entities and persons alleging certain violations under Foreign Exchange Management Act, 1999 mainly pertaining to the sale of foreign exchange travel cards to travellers.

For two SCNs, charges against ICICI Bank and its employee have been dropped. In rest of 4 SCNs, the Bank has filed an appeal against DOE order imposing penalty on them and their employee.

15. On October 03, 2022, ICICI Bank Limited's New York Federal Branch ("NY Branch") entered into a "Consent Order" with its federal banking supervisor, the Office of the Comptroller of the Currency ("OCC"), which requires the NY Branch to enhance certain processes in its Bank Secrecy Act/Anti-Money Laundering ("BSA/AML") program and establish and maintain an effective Sanctions Compliance program. The Consent Order did not involve any monetary penalty. The observations made by the OCC are restricted only to the NY Branch of ICICI Bank Limited ("ICICI Bank") which constitutes 0.61% of ICICI Bank's total assets as on June 30, 2022 and the Consent Order does not have a material adverse effect on its business, nor does the Consent Order restrict any of the NY Branch's existing activities, apart from requiring the corrective actions as specified under the Consent Order. The NY Branch is committed to taking all necessary and appropriate steps to address the aspects identified and implement the corrective actions as approved by the OCC.
16. The Bank had received a Show Cause Notice under section 40 of The Insurance Act, 1938 and clause 21 of The Guidelines on Licensing of Corporate agents issued vide circular no. 017/IRDAI / Circular / CA Guidelines/ 2005 Dated July 14, 2005 from Insurance Regulatory and Development Authority of India (IRDAI) on May 9, 2019 for receipt of payment in relation to administration support expenses from ICICI Prudential Life Company Ltd during FY2016 in violation of Insurance laws. The Bank submitted its response through letter dated May 17, 2019 stating that the payment was in line with applicable laws, properly disclosed in financial statements and was stopped w.e.f. April 1, 2017, i.e. post promulgation of new commission regulations. The Bank officials represented Bank's point of view during the personal hearing with IRDAI on January 29, 2020. The Bank has not received any further communication on the same.
17. The Bank has on May 22, 2020 received a Show Cause Notice under sub clause 1 of clause II of Schedule V under Regulation 28 of IRDAI (Registration of Corporate Agents) Regulations from Insurance Regulatory and Development Authority of India (IRDAI) subsequent to its onsite inspection between June 4 - 8, 2018 with

regard to CA activities performed by the Bank. The Bank has submitted its response vide e-mail dated June 29, 2020. The Bank has received final order dated July 27, 2022 based on the reply and submissions made during hearing held on May 13, 2022. The order comprised of advisories & direction and no penalty was imposed.

18. The Reserve Bank of India has, by an order dated May 03, 2021, imposed a monetary penalty of Rs. 30 million on the Bank. This penalty has been imposed under the provisions of section 47 A (1)(c) read with sections 46 (4) (I) of the Banking Regulation Act, 1949 for shifting certain investments from HTM category to AFS category in May 2017. The Bank had transferred two separate categories of securities on two different dates from HTM to AFS in April and May of 2017, which it believed was permissible as per Master Circular on Prudential Norms for Classification, Valuation and Operation of Investment Portfolio by Banks dated July 01, 2015. RBI has held that the shifting of securities the second time in May 2017 without explicit permission was in contravention of RBI directions. The Bank has paid the penalty on May 14, 2021.
19. The Reserve Bank of India (RBI) has by an order dated December 13, 2021 (received by the ICICI Bank on December 15, 2021) imposed a monetary penalty of Rs. 3 million on the ICICI Bank (Bank) under the provisions of Section 46(4) (i) read with Section 47A (1) of Banking Regulation Act 1949 for non-compliance with certain directions issued by RBI on 'Levy of Penal charges on non-maintenance of minimum balance in savings bank accounts' dated November 20, 2014. The Bank was levying charge of Rs. 100/- plus a percentage of shortfall between the minimum average balance (MAB) required to be maintained and actual balance maintained in the saving account as agreed upon at the time of account opening. RBI has held that levy of charges for non-maintenance of MAB were not directly proportionate to the extent of the shortfall observed in the required MAB and actual balance maintained. The Bank has taken steps to align the charge levied for non-maintenance of MAB with the above direction of RBI effective from November 2021. The Bank has paid the penalty on December 23, 2021.

- 3) **Details of all enforcement actions taken by SEBI in the last three years and/ or pending with SEBI for the violation of SEBI Act, 1992 and Rules and Regulations framed there under including debarment and/ or suspension and/ or cancellation and/ or imposition of monetary penalty/adjudication/enquiry proceedings, if any, to which the Sponsor(s) and/ or the AMC and/ or the Board of Trustees /Trustee Company and/ or any of the directors and/ or key personnel (especially the fund managers) of the AMC and Trustee Company were/ are a party. The details of the violation shall also be disclosed.**

Details as specified in para 2.1 and 2.2 above shall form part of disclosure under this para.

- 4) **Any pending material civil or criminal litigation incidental to the business of the Mutual Fund to which the Sponsor(s) and/ or the AMC and/ or the Board of Trustees /Trustee Company and/ or any of the directors and/ or key personnel are a party should also be disclosed separately.**

1. As per the SEBI (Mutual Funds) Regulations, 1996, mutual fund schemes are permitted to invest in securitised debt. Accordingly, few schemes of ICICI Prudential Mutual Fund (“the Fund”) had made investment in Pass Through Certificates (PTCs) of certain special purpose vehicles / securitisation trusts (“the Trusts”). The returns filed by few of these securitisation Trusts whose PTCs were held by the Fund were taken up for scrutiny by the Income Tax Authorities for Assessment Years 2007-08, 2008-09, 2009-10 and 2010-11. Arising out of this, the Income Tax Authorities had raised a demand on such Trusts. On failure to recover the same from the Trusts, Income Tax Authorities sent demand notices to the Fund along with other Mutual Funds as beneficiaries / contributors to such Trusts. The Fund in consultation with its tax & legal advisors has contested the applicability of such demand and got the attachment order vacated by Hon’ble High Court of Bombay. The Trusts on their part had contested the matter and the Income Tax Appellate Tribunal upheld their appeal and dismissed the contentions and all the cross-appeals filed by the Tax Authorities. The Tax Authorities have now filed an appeal with Hon’ble High Court on the matter.

5) **Any deficiency in the systems and operations of the Sponsor(s) and/ or the AMC and/ or the Board of Trustees/Trustee Company which SEBI has specifically advised to be disclosed in the SID, or which has been notified by any other regulatory agency, shall be disclosed. – Nil**

## **GENERAL INFORMATION**

### **1. Power to make Rules**

Subject to the Regulations, the Trustee may, from time to time, prescribe such terms and make such rules for the purpose of giving effect to the Scheme with power to the AMC to add to, alter or amend all or any of the terms and rules that may be framed from time to time.

### **2. Power to remove Difficulties**

If any difficulties arise in giving effect to the provisions of the Scheme, the Trustee may, subject to the Regulations, do anything not inconsistent with such provisions, which appears to it to be necessary, desirable or expedient, for the purpose of removing such difficulty.

### **3. Scheme to be binding on the Unitholders:**

Subject to the Regulations, the Trustee may, from time to time, add or otherwise vary or alter all or any of the features of investment plans and terms of the Scheme after obtaining the prior permission of SEBI and Unitholders (where necessary), and the same shall be binding on all the Unitholders of the Scheme and any person or persons claiming through or under them as if each Unitholder or such person expressly had agreed that such features and terms shall be so binding.

**Notwithstanding anything contained in this Scheme Information Document, the provisions of the SEBI (Mutual Funds) Regulations, 1996 and the guidelines there under shall be applicable.**

**Note:** The Scheme under this Scheme Information Document (SID) was approved by the Directors of ICICI Prudential Trust Limited at their meeting held on August 28, 2019. The Trustees have ensured that ICICI Prudential Nifty IT ETF approved by them is a new product offered by ICICI Prudential Mutual Fund and is not a minor modification of the exiting Scheme/fund/product.
