Date: November 21, 2024

Note: The Due Diligence Certificate dated November 21, 2024, was submitted to SEBI.

PARTII. INFORMATION ABOUT THE SCHEME

A. HOW WILL THE SCHEME ALLOCATE ITS ASSETS?

Under normal circumstances, the asset allocation under the Scheme will be as follows:

Instruments	Indicative allocations (% of total assets)	
	Minimum	Maximum
Equity & Equity related instruments of companies identified based on the Environmental, Social and Governance (ESG) theme following Exclusion Strategy*	80	100
Other Equity and Equity related instruments*	0	20
Debt and Money market instruments, Units of Debt oriented mutual fund schemes and term deposits (margin money)	0	20
Units issued by REITs and INVITs	0	10
Preference shares	0	20

*The Scheme follows 'Exclusion Strategy'. Kindly refer to "What are the investment strategies?" section for further details.

The Margin may be placed in the form of such securities / instruments / deposits as may be permitted/eligible to be placed as margin from the assets of the Scheme. The securities / instruments / deposits so placed as margin shall be classified under the applicable category of assets for the purposes of asset allocation.

The Cumulative Gross Exposure across Equity, Debt, Derivatives, ADR/GDR/Foreign securities/Overseas ETFs, REITs and INVITs, Preference Shares and such other securities/assets as may be permitted by SEBI, if required, should not exceed 100% of the net assets of the scheme.

Exposure to various instruments will be as per the indicative table given below:
(Below percentages shall be subject to applicable SEBI circulars):

Sr. No.	Type of Instrument	Percentage of exposure	Circular references
1.	Stock Lending	Up to 20% of net assets and single intermediary (broker) limit upto 5% of net assets	Paragraph 12.11 of the Master Circular
2.	Derivatives	Upto 50% of net assets	Paragraph 12.25 of the Master Circular
2(a)	Equity Derivatives for hedging purpose	Upto 50% of net assets	
2(b)	Equity Derivatives for non-hedging purpose		
2(c)	Debt Derivatives for hedging/non hedging purpose		
3.	Securitized Debt	Up to 50 % debt portfolio	Paragraph 12.15 of the Master Circular
4.	ADR/GDR/Foreign securities/Overseas ETFs	Up to 30% of the net assets	Paragraph 12.19 of the Master Circular
5.	Structured Obligation	Upto 50% of debt portfolio	Paragraph 12.1 of the Master Circular

The Scheme can take covered-call positions for stock derivatives, as permitted by SEBI in accordance with paragraph 12.25.8 of the Master Circular.

The Scheme may invest up to 20% in companies which may not qualify as per ESG criteria.

The portfolio of the Scheme will be rebalanced within 30 days of deviation / review in case of following scenarios / events:

- Deviation from the asset allocation stated above
- Change in the ESG score of a particular company identified during periodic review

Rebalancing due to Short Term Defensive Consideration:

- Due to market conditions, the AMC may invest beyond the range set out in the asset allocation. Such deviations shall normally be for a short term and defensive considerations as per Paragraph 1.14.1.2.b of SEBI Master and the fund manager will rebalance the portfolio within 30 calendar days from the date of deviation.

Rebalancing due to Passive Breaches:

- Further, as per Paragraph 2.9 of SEBI Master Circular as may be amended from time to time, in the event of deviation from mandated asset allocation due to passive breaches (occurrence of instances not arising out of omission and commission of the AMC), the fund manager shall rebalance the portfolio of the Scheme within 30 Business Days. In case the portfolio of the Scheme is not

rebalanced within the period of 30 Business Days, justification in writing, including details of efforts taken to rebalance the portfolio shall be placed before the Investment Committee of the AMC. The Investment Committee, if it so desires, can extend the timeline for rebalancing up to sixty (60) Business Days from the date of completion of mandated rebalancing period. Further, in case the portfolio is not rebalanced within the aforementioned mandated plus extended timelines the AMC shall comply with the prescribed restrictions, the reporting and disclosure requirements as specified in Paragraph 2.9 of the Master Circular.

The AMC shall comply with the provisions of the applicable regulatory guidelines for all reporting and disclosure requirements, etc. as may be specified from time to time.

The Fund Manager may at his discretion carry out ad-hoc rebalancing in case of adverse news/information about the stock forming part of the Scheme's portfolio.

The securities mentioned in the asset allocation pattern could be privately placed or unsecured. The securities may be acquired through secondary market purchases, Public Offering, other public offers, Private Placement, right offers (including renunciation) and negotiated deals.

Negative list: The Scheme will not invest/ have exposure in the following:

Sr. No	Particulars
1.	Credit default swaps
2.	Short Selling
3.	Equity Linked Debentures

B. WHERE WILL THE SCHEME INVEST?

Subject to the Regulations and the disclosures as made under the Section "How the Scheme will allocate its Assets", the corpus of the Scheme can be invested in any (but not exclusive) of the following securities/ instruments:

- a. Equity and equity related securities including Indian Depository Receipts (IDRs), and warrants carrying the right to obtain equity shares.
- b. Securities created and issued by the Central and State Governments and/or repos/reverse repos in such Government Securities as may be permitted by RBI (including but not limited to coupon bearing bonds, zero coupon bonds and treasury bills).
- c. Securities guaranteed by the Central, State and local Governments (including but not limited to coupon bearing bonds, zero coupon bonds and treasury bills)
- d. Debt securities issued by domestic Government agencies and statutory bodies, which may or may not carry a Central/State Government guarantee
- e. Listed and unlisted Corporate debt securities (of both public and private sector undertakings) including corporate bonds having structured obligations and credit enhancements

- f. Securities issued by banks (both public and private sector) including term deposit with the banks as permitted by SEBI/RBI from time to time and development financial institutions
- g. Money market instruments, as permitted by SEBI/ RBI.
- h. Securitized Debt.
- i. The non-convertible part of convertible securities
- j. Derivative instruments like Stock / Index Futures, Stock / Index Options and such other derivative instruments permitted by SEBI.
- k. ADRs / GDRs / Foreign Securities / Foreign ETFs as permitted by Reserve Bank of India and Securities and Exchange Board of India.
- l. Units of Real Estate Investment Trusts (REITs) & Infrastructure Investment Trust (InvITs)
- m. Preference Shares
- n. Units of Mutual Fund Schemes, cash & cash equivalents
- o. Any other domestic fixed income securities as permitted by SEBI/ RBI

Subject to the Regulations, the securities mentioned above could be listed, unlisted, privately placed, secured, unsecured and of varying maturity. The securities may be acquired through Public Offerings, secondary market operations, private placement, rights offers or negotiated deals. Further, the Scheme intend to participate in securities lending as permitted under the regulations. Investment in overseas securities shall be made in accordance with the requirements stipulated by SEBI and RBI from time to time. The Scheme may also enter into repurchase and reverse repurchase in various securities as per the guidelines and regulations applicable to such transactions.

The inter Scheme transfer of investments shall be in accordance with the provisions contained in paragraph Inter-Scheme transfer of investments, stated in paragraph 12.30 of the Master Circular.

C. WHAT ARE THE INVESTMENT STRATEGIES?

The Scheme is an open ended equity scheme predominantly investing in companies identified based on the Environmental, Social and Governance (ESG) theme by following Exclusion Strategy. Further the Scheme shall follow an active investment strategy. The remaining portion of the scheme could be invested in following instruments with an intent that such investments are not in contrast to the investment strategy:

- Other equity and equity related instruments
- Various derivatives and hedging products as would be available and permitted by SEBI
- Foreign securities, depository receipts including American Depository Receipts (ADRs) and Global Depository Receipts (GDRs)
- Units issued by REITs & InvITs, preference shares and other permissible asset classes

- Other schemes managed by the AMC or in the schemes of any other Mutual Funds in terms of the prevailing Regulations

Thus, investments may be done in the issuers which display or disclose positive steps towards integrating ESG in their operations and business strategies.

Our exclusion strategy process intends to avoid investment in issuers not following standards of responsible business practice.

Exclusions from the Scheme

- i. Characteristics / type of exclusion: As part of our Exclusion Strategy, the AMC shall exclude the following sectors or companies:
 - a. The companies involved in any major Environmental, Social or Governance controversies;
 - b. The companies involved in the development, manufacture, maintenance or has a dedicated research of controversial weapons (that can cause harm and have irreversible effects on the societal wellbeing);
 - c. The companies engaged in the business of gambling operations;
 - d. The companies which are involved in the production or distribution of tobacco or related products;
 - e. The companies which have a compromised governance framework and has other ESG related issues such as violation of regulatory frameworks etc.,
- ii. Conditions for exclusion: The Scheme shall not invest in the companies mentioned in point b, c and d above, if they earn 15% or more of their total revenues from such businesses.
- iii. Reference: ESG research is an integral part of research process and investment decision making. ESG research focuses on the critical environmental, social and governance factors which can have a material impact on the long-term sustainable performance of the company. Furthermore, the AMC has subscribed to ESG analysis reports which would provide guidance in doing ESG Analysis. In addition, any company-related or sector-related news updates, which would have a material impact on ESG would be taken into consideration for reassessing the respective companies on ESG parameters.

The Scheme currently does not intend to enter into underwriting obligations. However, if the Scheme does enter into an underwriting agreement, it would do so after complying with the Regulations and with the prior approval of the Board of the AMC/Trustee.

The Fund Manager may at his discretion carry out ad-hoc rebalancing in case of adverse news/information about the stock forming part of the Scheme's portfolio.

D. HOW WILL THE SCHEME BENCHMARK ITS PERFORMANCE?

The Benchmark for the scheme would be Nifty100 ESG TRI.

Nifty100 ESG Index is designed to reflect the performance of companies within Nifty 100 index based on Environmental, Social and Governance (ESG) risk score. The weight

of each constituent in the index is tilted based on ESG risk score assigned to the company, i.e. the constituent weight is derived from its free float market capitalization and modified ESG risk score.

The Scheme will invest predominantly in the Environmental, Social and Governance (ESG) theme based on ESG scores. NIFTY100 ESG Index selects stocks forming part of NIFTY 100 based on the ESG parameters. As the index is based on ESG parameter, it is a suitable benchmark for the Scheme.

The composition of the benchmark is such that it is most suited for comparing performance of the Scheme. The Trustees reserves the right to change the benchmark in future if a benchmark better suited to the investment objective of the Scheme is available.

E. WHO MANAGES THE SCHEME?

Mr. Mittul Kalawadia is the fund manager of the scheme. As on September 30, 2024, Mr. Mittul Kalawadia has been managing this fund for 3 years 1 month i.e. since March 2022. The overseas investments of the Scheme are managed by Ms. Sharmila D'Mello.

A detailed comparison between the existing schemes of the mutual fund is available at the below link:

[SID related information \(icicpruamc.com\)](http://icicpruamc.com)

G. HOW HAS THE SCHEME PERFORMED?

Compounded Annualised Returns (in %) of the Scheme (Growth Option) and its benchmark as on September 30, 2024:

Scheme/Index Name	1 Years	3 Years	5 Years	Inception (9-Oct-20)
ICICI Prudential ESG Exclusionary Strategy Fund	48.59%	18.89%	--	23.56%
NIFTY 100 ESG TRI (Benchmark)	40.23%	14.30%	--	23.28%

Performance of the scheme is benchmarked to total return variant of the index.

Past performance may or may not be sustained in the future and the same may not necessarily provide the basis for comparison with other investment. The returns are calculated on the basis of Compounded Annualized Growth returns (CAGR). For

computation of since inception returns the allotment NAV has been taken as Rs. 10.00.

Absolute returns of each financial years of the Scheme for the last 5 years are as follows:

Performance of the Scheme is benchmarked to total return variant of the index.

Past performance may or may not be sustained in future. Absolute returns are provided for the above mentioned financial years. For computation of returns the allotment NAV has been taken as Rs. 10.00. NAV of growth option is considered for computation of returns without considering load. The benchmark of this scheme has been revised from S&P BSE Information Technology TRI to S&P BSE Teck TRI w.e.f. December 01, 2021.

H. ADDITIONAL SCHEME RELATED DISCLOSURES

i. SCHEME'S PORTFOLIO HOLDINGS

The top 10 holdings by the Scheme and allocation towards various sectors can be accessed at the below link:

[SID related information \(icicpruamc.com\)](http://www.icicpruamc.com)

ii. DISCLOSURE OF NAME AND EXPOSURE TO TOP 7 ISSUERS, STOCKS, GROUPS AND SECTORS AS A PERCENTAGE OF NAV OF THE SCHEME IN CASE OF DEBT AND EQUITY ETFS/INDEX FUNDS THROUGH A FUNCTIONAL WEBSITE LINK THAT CONTAINS DETAILED DESCRIPTION –

Not Applicable

iii. PORTFOLIO DISCLOSURE

Investors can obtain Scheme's latest fortnightly/monthly/half yearly portfolio holding from the website of AMC i.e.

<http://www.icicpruamc.com/Downloads/MonthlyPortfolioDisclosure.aspx>

iv. **SCHEME's PORTFOLIO TURNOVER RATIO:** 0.24 times

v. **Aggregate investment in the Scheme by:**

As on September 30, 2024

Sr. No.	Category of Persons	Net Value		Market Value (in Rs.)
		Units	NAV per unit	
A.	Scheme's Fund Manager(s)			
1	Mittul Kalawadia	14188.897	24.50	3,47,627.98

For any other disclosure with respect to investments by key personnel and AMC directors including regulatory provisions in this regard kindly refer SAI.

vi. **INVESTMENT OF THE AMC IN THE SCHEME**

From time to time and subject to the SEBI (Mutual Funds) Regulations, 1996, the sponsors, the mutual funds and investment Companies managed by them, their associate companies, subsidiaries of the sponsors and the AMC may invest in either directly or indirectly in the Scheme. The funds managed by these associates and/ or the AMC may acquire a substantial portion of the Scheme. Accordingly, redemption of units held by such funds, associates and sponsors may have an adverse impact on the units of the Scheme because the timing of such redemption may impact the ability of other unit holders to redeem their units. The details of such investments of the AMC can be accessed at the following link: [Statutory Disclosure \(icicipruamc.com\)](http://icicipruamc.com)

PART III. OTHER DETAILS

A. COMPUTATION OF NAV

The NAV of the Units of the Scheme will be computed by dividing the net assets of the Scheme by the number of Units outstanding on the valuation date. The Fund shall value its investments according to the valuation norms, as specified in Schedule VIII of the Regulations, or such norms as may be prescribed by SEBI from time to time and as stipulated in the valuation policy and procedures of the Fund, provided in Statement of Additional Information (SAI).

The NAV of the Scheme shall be rounded off upto two decimals

NAV of units under the Scheme shall be calculated as shown below:

NAV (Rs.) =

Market or Fair Value of Scheme's investments + Current Assets
- Current Liabilities and Provision

No. of Units outstanding under Schemes

The NAV will be calculated as of the close of every Business Day of the respective Scheme. The valuation of the Scheme's assets and calculation of the Scheme's NAV shall be subject to audit on an annual basis and such regulations as may be prescribed by SEBI from time to time.

Illustration of computation of NAV:

If the net assets of the Scheme are Rs.10,45,34345.34 and units outstanding are 10,000,000, then the NAV per unit will be computed as follows:

$$10,45,34,345.34 / 10,000,000 = \text{Rs. } 10.45 \text{ p.u. (rounded off to two decimals)}$$

Valuation of Listed Foreign Securities (including ADR / GDR, units of overseas mutual funds and Index Fund, Exchange Traded Funds (ETFs) listed on overseas stock exchange etc.)

For further details, such as policies with respect to computation of NAV, rounding off, valuation of investment in foreign securities, procedure in case of delay in disclosure of NAV etc, please refer to SAI.

B. NEW FUND OFFER (NFO) EXPENSES – Not Applicable

C. ANNUAL SCHEME RECURRING EXPENSE

These are the fees and expenses for operating the Scheme. These expenses include Investment Management and Advisory Fee charged by the AMC, Registrar and Transfer Agents' fee, marketing and selling costs etc. as provided below.

The AMC has estimated that upto 2.25% of the daily net assets of the Scheme will be charged to the Scheme as expenses. For the actual current expenses being charged, the investor should refer to the website of the mutual fund. In case of any change in the expense ratio, the AMC would update the same on the website at least three business days prior to the effective date of the change. The requirement for disclosing such change would be subject to paragraph 10.1.8 of the Master Circular. Investor can refer <https://www.icicipruamc.com/Downloads/total-expense-ratio.aspx> for Total Expense Ratio (TER) details.

Details of Annual Scheme Recurring Expenses under the Scheme is as follows:

Particulars	ICICI Prudential ESG Exclusionary Strategy Fund (% p.a. of net assets)
Investment Management and Advisory Fees	Upto 2.25
Audit Fees and expenses of trustees	
Custodian Fees	
Registrar & Transfer Agent Fees including cost of providing account statements/IDCW/redemption cheques/warrants	
Marketing & Selling Expenses including Agents Commission and statutory advertisement	
Cost related to investor communications	

Cost of fund transfer from location to location	
Cost towards investor education & awareness	
Brokerage and transaction cost pertaining to distribution of units	
Goods and Services Tax on expenses other than investment and advisory fees	
Goods and Services Tax on brokerage and transaction cost	
Other Expenses*	
Maximum total expense ratio (TER) permissible under Regulation 52 (6) (c)	Upto 2.25
Additional expenses under regulation 52 (6A) (c)* (more specifically elaborated below)	Upto 0.05
Additional expenses for gross new inflows from specified cities* (more specifically elaborated below)	Upto 0.30
The aforesaid does not include Goods and Services Tax on investment management and advisory fees. The same is more specifically elaborated below.	

The returns of the Direct Plan for the Scheme shall be exclusive of distribution commission

*As permitted under the Regulation 52 of SEBI (MF) Regulations, 1996 and pursuant to paragraph 15.10.1 of the Master Circular, SEBI (Mutual Funds) Second Amendment Regulations, 2012 and SEBI (Mutual Funds) (Fourth Amendment) Regulations 2018.

Direct Plan shall have a lower expense ratio excluding distribution expenses, commission, etc. as compared to other Plan and no commission for distribution of Units will be paid/ charged under Direct Plan.

All fees and expenses charged in a Direct Plan (in percentage terms) under various heads including the investment and advisory fee shall not exceed the fees and expenses charged under such heads in other than Direct Plan.

The Scheme can charge expenses within overall maximum limits prescribed under SEBI (MF) Regulations, without any internal cap allocated to any of the expense heads specified in the above table.

Types of expenses charged shall be as per the SEBI (Mutual Funds) Regulations, 1996.

- As per the Regulations, the maximum recurring expenses that can be charged to the Scheme shall be subject to a percentage limit of daily net assets as in the table below:

First Rs. 500 crore	Next Rs. 250 crore	Next Rs. 1,250 crore	Next Rs. 3,000 crore	Next Rs. 5,000 crore	Next Rs.40,000 crores	Balance
2.25%	2.00%	1.75%	1.60%	1.50%	TER reduction of 0.05% for every increase of Rs. 5,000 crore of daily net assets or	1.05%

					part thereof	
--	--	--	--	--	--------------	--

The above expense percentage excludes additional expenses that can be charged towards: i) 5 bps under the Regulation 52(6A)(c), ii) 30 bps for gross new inflows from retail investors from B30 cities and iii) Goods and Services tax on investment management and advisory fees. The same is more specifically elaborated below.

- (i) The AMC may charge Goods and Services tax on investment and advisory fees to the scheme of the Fund in addition to the maximum limit of total expenses ratio as prescribed in Regulation 52 of the Regulations, whereas Goods and Services tax on other than investment and advisory fees, if any, shall be borne by the scheme within the maximum limit as per regulation 52 of the Regulations.
- (ii) expenses not exceeding of 0.30 per cent of daily net assets, if the new inflows from retail investors from B30 cities as specified by the Securities and Exchange Board of India, from time to time are at least –
- 30 per cent of the gross new inflows from retail investors from B30 cities into the scheme, or;
 - 15 per cent of the average assets under management (year to date) of the scheme, whichever is higher;

Provided that if inflows from retail investors from B30 cities are less than the higher of the above, such expenses on daily net assets of the scheme shall be charged on proportionate basis;

Provided further that expenses charged under this clause shall be utilised for distribution expenses incurred for bringing inflows from retail investors from B30 cities;

Provided further that amount incurred as expense on account of inflows from retail investors from B30 cities shall be credited back to the scheme in case the said inflows are redeemed within a period of one year from the date of investment.

For above purposes, 'B30 cities' shall be beyond Top 30 cities as at the end of the previous financial year as communicated by AMFI. Retail investors would mean individual investors from whom inflows into the Scheme would amount upto Rs. 2,00,000/- per transaction.

Note - SEBI vide its letter no. SEBI/HO/IMD-SEC-3/P/OW/2023/5823/1 dated February 24, 2023 and AMFI letter dated No. 35P/ MEM-COR/ 85-α/ 2022-23 dated March 02, 2023 has directed AMCs to keep B-30 incentive structure *in abeyance with effect from March 01, 2023 till further notice.*

- (iii) Additional expenses, incurred towards different heads mentioned under sub-regulations (2) and (4) of Regulation 52 of the Regulations, not exceeding 0.05 per cent of daily net assets of the scheme. However, such additional expenses will not be charged if exit load is not levied or not applicable to the Scheme.

At least 2 basis points on daily net assets shall be annually set apart for investor education and awareness initiatives. The same shall be within limits specified under Regulation 52 of the SEBI (Mutual Funds) Regulation.

Brokerage and transaction cost incurred for the purpose of execution of trade shall be charged to the schemes as provided under Regulation 52 (6A) (a) upto 12 bps and 5 bps for cash market transactions and derivatives transactions respectively. Any payment towards brokerage and transaction costs, over and above the said 12 bps and 5 bps for cash market transactions and derivatives transactions respectively may be charged to the scheme within the maximum limit of Total Expense Ratio (TER) as prescribed under regulation 52.

Expenses shall be charged / borne in accordance with the Regulations prevailing from time to time.

The following is an illustration of the impact of expense ratio on the scheme's returns:

Particulars	Regular Plan	Direct Plan
Amount Invested at the beginning of the year	10,000	10,000
Returns before Expenses	1,500	1,500
Expenses other than Distribution Expenses	150	150
Distribution Expenses	50	-
Returns after Expenses at the end of the Year	1300	1350

For calculating expense of ICICI Prudential ESG Exclusionary Strategy Fund – Direct Plan, distribution expenses will not be considered.

D. LOAD STRUCTURE

Exit Load is an amount which is paid by the investor to redeem the units from the scheme. Load amounts are variable and are subject to change from time to time. For the current applicable structure, please refer to the website of the AMC (www.icicipruamc.com) or your distributor.

Type of Load	Load chargeable (as % of NAV)
Exit Load	<p>Exit Load:</p> <p>(i) 1% of applicable Net Asset Value - If the amount sought to be redeemed or switch out within 12 months from allotment.</p> <p>(ii) NIL - If the amount sought to be redeemed or switched out more than 12 months.</p> <p>The Trustees shall have a right to prescribe or modify the exit load structure with prospective effect subject to a maximum prescribed under the Regulations.</p>

Any redemption/switch arising out of excess holding by an investor beyond 25% of the net assets of the Scheme in the manner envisaged paragraph 6.11.1.1 (b) of the Master Circular, such redemption / switch will not be subject to exit load.

The exit load charged, if any, shall be credited back to the respective scheme. Goods and Services Tax on exit load shall be paid out of the exit load proceeds and exit load net of Goods and Services Tax shall be credited to the Scheme.

Exit Load, if any, prevailing on the date of enrolment of SIP/ STP shall be levied in the Scheme. Units issued on reinvestment of IDCW shall not be subject to exit load.

The investor is requested to check the prevailing load structure of the Scheme before investing. For any change in load structure AMC will issue an addendum and display it on the website/Investor Service Centers. Any imposition or enhancement in the load shall be applicable on prospective investments only.

Subject to the Regulations, the Trustee reserves the right to modify/alter the load structure on the Units subscribed/redeemed on any Business Day. At the time of changing the load structure, the AMC / Mutual Fund may adopt the following procedure:

- i. The addendum detailing the changes will be attached to Scheme Information Documents and key information memorandum. The addendum will be circulated to all the distributors/brokers so that the same can be attached to all Scheme Information Documents and key information memoranda already in stock.
- ii. Arrangements will be made to display the addendum in the Scheme Information Document in the form of a notice in all the investor service centres and distributors/brokers office.
- iii. The introduction of the exit load along with the details will be stamped in the acknowledgement slip issued to the investors on submission of the application form and will also be disclosed in the statement of accounts issued after the introduction of such load.
- iv. A public notice shall be provided on the website of the AMC in respect of such changes.

Any imposition or enhancement in the load shall be applicable on prospective investments only.

SECTION II

I. Introduction

A. Definitions

Definition for the words and expressions used in the SID are available at the following link: [SID related information \(icicipruamc.com\)](http://icicipruamc.com)

The words and expressions shall have the meaning as specified at the above link, unless the context otherwise requires.

B. Risk Factors

I. **Standard Risk Factors:** Please refer to SAI.

II. Scheme specific risk factors

➤ **Risk associated with investing in equities and equity related instruments:**

- i. Investors may note that AMC/Fund Manager's investment decisions may not be always profitable, as actual market movements may be at variance with anticipated trends. Trading volumes, settlement periods and transfer procedures may restrict the liquidity of these investments. Different segments of the Indian financial markets have different settlement periods and such periods may be extended significantly by unforeseen circumstances. The inability of the Schemes to make intended securities purchases due to settlement problems could cause the Schemes to miss certain investment opportunities.
- ii. The value of the Schemes' investments, may be affected generally by factors affecting securities markets, such as price and volume volatility in the capital markets, interest rates, currency exchange rates, changes in policies of the Government, taxation laws or any other appropriate authority policies and other political and economic developments which may have an adverse bearing on individual securities, a specific sector or all sectors including equity and debt markets. Consequently, the NAV of the Units of the Schemes may fluctuate and can go up or down.
- iii. Investors may note that the dividend is due only when declared and there is no assurance that a company (even though it may have a track record of payment of dividend in the past) may continue paying dividend in future. As such, the schemes are vulnerable to instances where investments in securities may not earn dividend or where lesser dividend is declared by a company in subsequent years in which investments are made by the scheme. As the profitability of companies are likely to vary and have a material bearing on their ability to declare and pay dividend, the performance of the schemes may be adversely affected due to such factors.
- iv. While securities that are listed on the stock exchange carry lower liquidity risk, the ability to sell these investments is limited by the overall trading volume on the stock exchanges. The liquidity of the Schemes' investments is inherently restricted by trading volumes in the securities in which it invests.

- v. Fund manager endeavors to generate returns based on certain past statistical trend. The performance of the schemes may get affected if there is a change in the said trend. There can be no assurance that such historical trends will continue.
- vi. In case of abnormal circumstances it will be difficult to complete the square off transaction due to liquidity being poor in stock futures/spot market. However, fund will aim at taking exposure only into relatively liquid stocks where there will be minimal risk to square off the transaction. The Schemes investing in foreign securities will be exposed to settlement risk, as different countries have different settlement periods.
- vii. In case of warrants, a relatively small movement in the price of the underlying security results in a disproportionately large movement, unfavourable or favourable, in the price of the warrant. The prices of warrants can therefore be volatile.
- viii. It is essential for the investors to understand that the right to subscribe which a warrant confers is invariably limited in time with the consequence that if the investor fails to exercise this right within the predetermined timeline then the investment becomes worthless. Investment in a warrant can result in a total loss of the money invested plus any commission or other transaction charges.

➤ **Risk factors associated with investing in Preference Shares**

- i. Credit Risk - Investments in Preference Shares are subject to the risk of an issuer's inability to meet IDCW and redemption by the issuer. Further, for non-cumulative preference shares, issuer also has an option to not pay IDCW on preference shares in case of inadequate profits in any year.
- ii. Liquidity Risk - Preference shares lack a well-developed secondary market, which may restrict the selling ability of the Scheme(s) and may lead to the Scheme(s) incurring losses till the security is finally sold.
- iii. Unsecured in nature - Preference shares are unsecured in nature and rank lower than secured and unsecured debt in hierarchy of payments in case of liquidation. Thus, there is significant risk of capital erosion in case the company goes into liquidation.
- iv. Market Risk – The schemes will be vulnerable to movements in the prices of securities invested by the schemes which could have a material bearing on the overall returns from the schemes.

➤ **Risk associated with investment in fixed income and money market securities**

- **Market Risk/Interest Rate Risk:** The Net Asset Value (NAV) of the Scheme(s), to the extent invested in fixed income and money market securities, will be affected by changes in the general level of interest rates. The NAV of the Scheme(s) is expected to increase from a fall in interest rates while it would be adversely affected by an increase in the level of interest rates.

- **Liquidity Risk:** The liquidity of a security may change depending on market conditions leading to changes in the liquidity premium linked to the price of the security. At the time of selling the security, the security can become illiquid leading to loss in the value of the portfolio.
- **Credit Risk:** Investments in fixed income securities and money market instruments are subject to the risk of an issuer's inability to meet interest and principal payments on its obligations and market perception of the creditworthiness of the issuer.
- **Price Risk:** Government securities where a fixed return is offered run price-risk like any other fixed income security. Generally, when interest rates rise, prices of fixed income securities fall and when interest rates drop, the prices increase. The extent of fall or rise in the prices is a function of the existing coupon, days to maturity and the increase or decrease in the level of interest rates. The new level of interest rate is determined by the rates at which government raises new money and/or the price levels at which the market is already dealing in existing securities. The price-risk is not unique to Government Securities. It exists for all fixed income securities. However, Government Securities are unique in the sense that their credit risk generally remains zero. Therefore, their prices are influenced only by movement in interest rates in the financial system.
- **Reinvestment Risk:** This risk refers to the interest rate levels at which cash flows received from the securities in the Scheme are reinvested. The additional income from reinvestment is the “interest on interest” component. The risk is that the rate at which interim cash flows can be reinvested may be lower than that originally assumed.
- **Regulatory Risk:** Changes in government policy in general and changes in tax benefits applicable to Mutual Funds may impact the returns to investors in the Scheme.
- **Risks associated with investment in unlisted securities:** Except for any security of an associate or group company, the underlying scheme(s) have the power to invest in securities which are not listed on a stock exchange or receive unlisted securities which in general are subject to greater price fluctuations, less liquidity and greater risk than those which are traded in the open market. These securities may lack a liquid secondary market and there can be no assurance that the underlying scheme(s) will realise their investments in unlisted securities at a fair value.
- **Settlement risk:** The inability of the Scheme to make intended securities purchases due to settlement problems could cause the Scheme to miss certain investment opportunities. By the same rationale, the inability to sell securities held in the Scheme's portfolio due to the extraneous factors that may impact liquidity would result, at times, in potential losses to the Scheme.
- Different types of fixed income securities in which the Scheme(s) would invest as given in the Scheme Information Document carry different levels and types of risk. Accordingly, the Scheme(s) risk may increase or decrease depending upon its investment pattern. e.g. corporate bonds carry a higher level of risk than Government securities.

- The AMC may, considering the overall level of risk of the portfolio, invest in lower rated / unrated securities offering higher yields as well as zero coupon securities that offer attractive yields. This may increase the absolute level of risk of the portfolio.
- As zero coupon securities does not provide periodic interest payments to the holder of the security, these securities are more sensitive to changes in interest rates. Therefore, the interest rate risk of zero coupon securities is higher. The AMC may choose to invest in zero coupon securities that offer attractive yields. This may increase the risk of the portfolio.
- The Scheme(s) at times may receive large number of redemption requests, leading to an asset-liability mismatch and therefore, requiring the investment manager to make a distress sale of the securities leading to realignment of the portfolio and consequently resulting in investment in lower yield instruments

➤ **Risk associated with investing in units of mutual funds**

The scheme may make investments in units of mutual funds. Investments in schemes of mutual funds are subject to market risks and there is no assurance or guarantee that the objectives of the scheme will be achieved. Further, any investment in mutual funds is also subject to risk factors outlined in the offer document of the mutual fund and an adverse performance of a mutual fund scheme in which the scheme has made investments could adversely impact the scheme's performance and NAV of the scheme.

➤ **Risks associated with investment in ADR/GDR/Foreign equity Securities/Overseas Mutual Funds/Overseas ETFs:**

It is AMC's belief that the investment in ADRs/GDRs/overseas securities/ overseas mutual funds and ETFs offers new investment and portfolio diversification opportunities into multi-market and multi-currency products. However, such investments also entail additional risks. Such investment opportunities may be pursued by the AMC provided they are considered appropriate in terms of the overall investment objectives of the schemes. Since the Schemes would invest only partially in ADRs/GDRs/overseas securities/overseas mutual funds and ETFs, there may not be readily available and widely accepted benchmarks to measure performance of the Schemes. To manage risks associated with foreign currency and interest rate exposure, the Scheme may use derivatives for efficient portfolio management including hedging and in accordance with conditions as may be stipulated by SEBI/RBI from time to time.

To the extent that the assets of the Scheme will be invested in securities denominated in foreign currencies, the Indian Rupee equivalent of the net assets, distributions and income may be adversely affected by the changes in the value of certain foreign currencies relative to the Indian Rupee. The repatriation of capital also may be hampered by changes in regulations concerning exchange controls or political circumstances as well as the application to it of the other restrictions on investment.

Offshore investments will be made subject to any/all approvals, conditions thereof as may be stipulated by SEBI/RBI and provided such investments do not result in expenses to the Scheme in excess of the ceiling on expenses prescribed by and consistent with costs and expenses attendant to international investing. The Scheme may, where

necessary, appoint other intermediaries of repute as advisors, custodian/sub-custodians etc. for managing and administering such investments. The appointment of such intermediaries shall be in accordance with the applicable requirements of SEBI and within the permissible ceilings of expenses. The fees and expenses would illustratively include, besides the investment management fees, custody fees and costs, fees of appointed advisors and sub-managers, transaction costs, and overseas regulatory costs.

Investors are requested to note that the costs associated with overseas investments like advisory fees (other than those expenses permissible under regulation 52 of SEBI Regulations) would not be borne by the scheme.

➤ **Risk associated with investment in Derivatives**

1. The Schemes may use various derivative products as permitted by the Regulations. Use of derivatives requires an understanding of not only the underlying instrument but also of the derivative itself. Other risks include the risk of mis-pricing or improper valuation and the inability of derivatives to correlate perfectly with underlying assets, rates and indices.
2. The Scheme may use derivatives instruments like Interest Rate Swaps, Forward Rate Agreements or other derivative instruments for the purpose of hedging and portfolio balancing, as permitted under the Regulations and guidelines. Usage of derivatives will expose the Schemes to certain risks inherent to such derivatives.
3. Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the fund manager to identify such opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and decision of fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies.
4. Thus, derivatives are highly leveraged instruments. Even a small price movement in the underlying security could have a large impact on their value.
5. The risks associated with the use of derivatives are different from or possibly greater than the risks associated with investing directly in securities and other traditional investments.
6. The specific risk factors arising out of a derivative strategy used by the Fund Manager may be as below:
 - The risk of mispricing or improper valuation and the inability of derivatives to correlate perfectly with underlying assets, rates and indices.
 - Execution Risk: The prices which are seen on the screen need not be the same at which execution will take place
 - Basis Risk: This risk arises when the derivative instrument used to hedge the

underlying asset does not match the movement of the underlying asset being hedged

- Exchanges could raise the initial margin, variation margin or other forms of margin on derivative contracts, impose one sided margins or insist that margins be placed in cash. All of these might force positions to be unwound at a loss, and might materially impact returns.
- The derivative contracts at times are undertaken with various counterparties. These counterparties may not be able to meet the obligations under such derivative contracts. This would lead to credit risk in derivative transactions, Hence, derivative trades are undertaken with approved counterparties or through exchanges. This mitigates credit risk on derivative transactions

➤ **Risk associated with writing covered call options for equity shares**

- A call option gives the holder (buyer) the right but not the obligation to buy an asset by a certain date for a certain price. Covered calls are an options strategy where a person holds a long position in an asset and writes (sells) call options on that same asset to generate an income stream. The Scheme may write call options under covered call strategy, as permitted by the regulations. Risks associated thereto are mentioned below:
- Writing call options are highly specialized activities and entail higher than ordinary investment risks. In such investment strategy, the profits from call option writing is capped at the option premium, however the downside depends upon the increase in value of the underlying equity shares.
- The Scheme may write covered call option only in case it has adequate number of underlying equity shares as per regulatory requirement. This would lead to setting aside a portion of investment in underlying equity shares. If covered call options are sold to the maximum extent allowed by regulatory authority, the scheme may not be able to sell the underlying equity shares immediately if the view changes to sell and exit the stock. The covered call options need to be unwound before the stock positions can be liquidated. This may lead to a loss of opportunity, or can cause exit issues if the strike price at which the call option contracts have been written become illiquid. Hence, the scheme may not be able to sell the underlying equity shares, which can lead to temporary illiquidity of the underlying equity shares and result in loss of opportunity.
- The writing of covered call option would lead to loss of opportunity due to appreciation in value of the underlying equity shares. Hence, when the appreciation in equity share price is more than the option premium received the scheme would be at a loss.
- The total gross exposure related to option premium paid and received must not exceed the regulatory limits of the net assets of the scheme. This may restrict the ability of Scheme to buy any options.

➤ **Benefits of using Covered Call strategy in Mutual Funds**

The covered call strategy can be followed by the Fund Manager in order to hedge risk thereby resulting in better risk adjusted returns of the Scheme. The strategy offers the following benefits:

- Hedge against market risk - Since the fund manager sells a call option on a stock already owned by the mutual fund scheme, the downside from fall in the stock price would be lower to the extent of the premium earned from the call option.
- Generating additional returns in the form of option premium in a range bound market.

Thus, a covered call strategy involves gains for unit holders in case the strategy plays out in the right direction.

➤ **Risk associated with imperfect hedging using interest rate futures**

An Interest Rate Futures is an agreement to buy or sell a debt instrument at a specified future date at a price that is fixed today. Interest Rate Futures are Exchange traded. These future contracts are cash settled.

1. Perfect Hedging means hedging the underlying using IRF contract of same underlying.
2. Imperfect hedging means the underlying being hedged and the IRF contract has correlation of closing prices of more than 90%.

In case of imperfect hedging, the portfolio can be a mix of:

- 1) Corporate Bonds and Government securities or
- 2) Only Corporate debt securities or
- 3) Only government securities with different maturities

➤ **Risk associated with imperfect hedging includes:**

- **Basis Risk:** The risk arises when the price movements in derivative instrument used to hedge the underlying assets does not match the price movements of the underlying assets being hedged. Such difference may potentially amplify the gains or losses, thus adding risk to the position.
- **Price Risk:** The risk of mispricing or improper valuation and the inability of derivatives to correlate perfectly with underlying assets, rates and indices.
- **Risk of mismatch between the instruments:** The risk arises if there is a mismatch between the prices movements in derivative instrument used to hedge, compared to the price movement of the underlying assets being hedged. For example, when IRF which has government security as underlying is used, to hedge a portfolio that contains corporate debt securities.
- **Correlation weakening and consequent risk of regulatory breach:** SEBI Regulation mandates minimum correlation criterion of 0.9 (calculated on a 90 day basis) between the portfolio being hedged and the derivative instrument used for hedging. In cases where the correlation falls below 0.9, a rebalancing period of 5 business days has been permitted. Inability to satisfy this requirement to restore the correlation level to the stipulated level, within the stipulated period, due to difficulties in rebalancing would lead to a lapse of the exemption in gross exposure

computation. The entire derivative exposure would then need to be included in gross exposure, which may result in gross exposure in excess of 100% of net asset value.

➤ **Risks associated with Investing in Structured Obligation (SO) & Credit Enhancement (CE) rated securities:**

The risks factors stated below for the Structured Obligations & Credit Enhancement are in addition to the risk factors associated with debt instruments.

Credit rating agencies assign CE rating to an instrument based on any identifiable credit enhancement for the debt instrument issued by an issuer. The credit enhancement could be in various forms and could include guarantee, shortfall undertaking, letter of comfort, etc. from another entity. This entity could be either related or non-related to the issuer like a bank, financial institution, etc. Credit enhancement could include additional security in form of pledge of shares listed on stock exchanges, etc. SO transactions are asset backed/ mortgage backed securities, securitized paper backed by hypothecation of car loan receivables, securities backed by trade receivables, credit card receivables etc. Hence, for CE rated instruments evaluation of the credit enhancement provider, as well as the issuer is undertaken to determine the issuer rating. In case of SO rated issuer, the underlying loan pools or securitization, etc. is assessed to arrive at rating for the issuer

- **Liquidity Risk:** SO rated securities are often complex structures, with a variety of credit enhancements. Debt securities lack a well-developed secondary market in India, and due to the credit enhanced nature of CE securities as well as structured nature of SO securities, the liquidity in the market for these instruments is adversely affected compared to similar rated debt instruments. Hence, lower liquidity of such instruments, could lead to inability of the scheme to sell such debt instruments and generate liquidity for the scheme or higher impact cost when such instruments are sold.
- **Credit Risk:** The credit risk of debt instruments which are CE rated derives rating based on the combined strength of the issuer as well as the structure. Hence, any weakness in either the issuer or the structure could have an adverse credit impact on the debt instrument. The weakness in structure could arise due to ability of the investors to enforce the structure due to issues such as legal risk, inability to sell the underlying collateral or enforce guarantee, etc. In case of SO transactions, comingling risk and risk of servicer increases the overall risk for the securitized debt or assets backed transactions. Therefore apart from issuer level credit risk such debt instruments are also susceptible to structure related credit risk.

➤ **Risks associated with investing in Securitised Debt:**

A securitization transaction involves sale of receivables by the originator (a bank, non-banking finance company, housing finance company, microfinance companies or a manufacturing/service company) to a Special Purpose Vehicle (SPV), typically set up in the form of a trust. Investors are issued rated Pass Through Certificates (PTCs), the proceeds of which are paid as consideration to the originator. In this manner, the originator, by selling his loan receivables to an SPV, receives consideration from

investors much before the maturity of the underlying loans. Investors are paid from the collections of the underlying loans from borrowers. Typically, the transaction is provided with a limited amount of credit enhancement (as stipulated by the rating agency for a target rating), which provides protection to investors against defaults by the underlying borrowers. Generally available asset classes for securitization in India are:

- Commercial vehicles
- Auto and two wheeler pools
- Mortgage pools (residential housing loans)
- Personal loan, credit card and other retail loans
- Corporate loans/receivables
- Microfinance receivables

In pursuance to SEBI communication dated: August 25, 2010, given below are the requisite details relating to investments in Securitised debt.

- Risk profile of securitized debt vis-à-vis risk appetite of the scheme:

Investment in these instruments will help the scheme in aiming at reasonable returns. These returns come with a certain degree of risks which are covered separately in the Scheme Information Document. Accordingly, the medium risk profile of the securitised debt instruments matches that of the prospective investors of these Schemes.

- Policy relating to originators based on nature of originator, track record, NPAs, losses in earlier securitized debt, etc.
- Risk mitigation strategies for investments with each kind of originator

For a complete understanding of the policy relating to selection of originators, the AMC has first analysed below risks attached to a securitization transaction.

In terms of specific risks attached to securitization, each asset class would have different underlying risks, however, residential mortgages are supposed to be having lower default rates as an asset class. On the other hand, repossession and subsequent recovery of commercial vehicles and other auto assets is fairly easier and better compared to mortgages. Some of the asset classes such as personal loans, credit card receivables etc., being unsecured credits in nature, may witness higher default rates. As regards corporate loans/receivables, depending upon the nature of the underlying security for the loan or the nature of the receivable the risks would correspondingly fluctuate. However, the credit enhancement stipulated by rating agencies for such asset class pools is typically much higher, which helps in making their overall risks comparable to other AAA/AA rated asset classes.

The Scheme may invest in securitized debt assets. These assets would be in the nature of Asset Backed securities (ABS) and Mortgage Backed securities (MBS) with underlying pool of assets and receivables like housing loans, auto loans and single corporate loan originators. The Scheme intends to invest in securitized instruments rated AAA/AA by a SEBI recognized credit rating agency.

Before entering into any securitization transaction, the risk is assessed based on the information generated from the following sources:

- (1) Rating provided by the rating agency
- (2) Assessment by the AMC

a. Assessment by a Rating Agency

In its endeavor to assess the fundamental uncertainties in any securitization transaction, a credit rating agency normally takes into consideration following factors:

Credit Risk:

Credit risk forms a vital element in the analysis of securitization transaction. Adequate credit enhancements to cover defaults, even under stress scenarios, mitigate this risk. This is done by evaluating following risks:

- Asset risk
- Originator risk
- Portfolio risk
- Pool risks

The quality of the pool is a crucial element in assessing credit risk. In the Indian context, generally, pools are 'cherry-picked' using positive selection criteria. To protect the investor from adverse selection of pool contracts, the rating agencies normally take into consideration pool characteristics such as pool seasoning (seasoning represents the number of installments paid by borrower till date: higher seasoning represents better quality), over dues at the time of selection and Loan to Value (LTV). To assess its risk profile vis-à-vis the overall portfolio, the pool is analyzed with regard to geographical location, borrower profile, LTV, and tenure.

Counterparty Risk:

There are several counterparties in a securitization transaction, and their performance is crucial. Unlike in the case of credit risks, where the risks emanate from a diversified pool of retail assets, counterparty risks result in either performance or non-performance. The rating agencies generally mitigate such risks through the usage of stringent counterparty selection and replacement criteria to reduce the risk of failure. The risks assessed under this category include:

- Servicer risk
- Commingling risk
- Miscellaneous other counterparty risks

Legal Risks:

The rating agency normally conducts a detailed study of the legal documents to ensure that the investors' interest is not compromised and relevant protection and safeguards are built into the transaction.

Market Risks:

Market risks represent risks not directly related to the transaction, but other market related factors, stated below, which could have an impact on transaction

performance, or the value of the investments to the investors.

- Macro-economic risks
- Prepayment risks
- Interest rate risks

Other Risks associated with investment in securitized debt and mitigation measures

Limited Liquidity and Price Risk:

There is no assurance that a deep secondary market will develop for the Certificates. This could limit the ability of the investor to resell them.

Risk Mitigation: Securitized debt instruments are relatively illiquid in the secondary market and hence they are generally held to maturity. The liquidity risk and HTM nature is taken into consideration at the time of analyzing the appropriateness of the securitization.

Limited Recourse, Delinquency and Credit Risk:

The Credit Enhancement stipulated represents a limited loss cover to the Investors. These Certificates represent an undivided beneficial interest in the underlying receivables and do not represent an obligation of either the Issuer or the Seller or the originator, or the parent of the Seller, Issuer and Originator. No financial recourse is available to the Certificate Holders against the Investors' Representative. Delinquencies and credit losses may cause depletion of the amount available under the Credit Enhancement and thereby the Investor Payouts to the Certificate Holders may get affected if the amount available in the Credit Enhancement facility is not enough to cover the shortfall. On persistent default of an Obligor to repay his obligation, the Servicer may repossess and sell the Asset. However, many factors may affect, delay or prevent the repossession of such Asset or the length of time required to realise the sale proceeds on such sales. In addition, the price at which such Asset may be sold may be lower than the amount due from that Obligor.

Risk Mitigation: In addition to careful scrutiny of credit profile of borrower/pool additional security in the form of adequate cash collaterals and other securities may be obtained to ensure that they all qualify for similar rating.

Risks due to possible prepayments: Weighted Tenor / Yield

Asset securitisation is a process whereby commercial or consumer credits are packaged and sold in the form of financial instruments Full prepayment of underlying loan contract may arise under any of the following circumstances;

- Obligor pays the Receivable due from him at any time prior to the scheduled maturity date of that Receivable; or
- Receivable is required to be repurchased by the Seller consequent to its inability to rectify a material misrepresentation with respect to that Receivable; or
- The Servicer recognizing a contract as a defaulted contract and hence

- repossessing the underlying Asset and selling the same
- In the event of prepayments, investors may be exposed to changes in tenor and yield.

Risk Mitigation: A certain amount of prepayments is assumed in the calculations at the time of purchase based on historical trends and estimates. Further a stress case estimate is calculated and additional margins are built in.

Bankruptcy of the Originator or Seller:

If originator becomes subject to bankruptcy proceedings and the court in the bankruptcy proceedings concludes that the sale from originator to Trust was not a sale then an Investor could experience losses or delays in the payments due. All possible care is generally taken in structuring the transaction so as to minimize the risk of the sale to Trust not being construed as a “True Sale”. Legal opinion is normally obtained to the effect that the assignment of Receivables to Trust in trust for and for the benefit of the Investors, as envisaged herein, would constitute a true sale.

Risk Mitigation: Normally, specific care is taken in structuring the securitization transaction so as to minimize the risk of the sale to the trust not being construed as a 'true sale'. It is also in the interest of the originator to demonstrate the transaction as a true sell to get the necessary revenue recognition and tax benefits.

Bankruptcy of the Investor’s Agent:

If Investor’s agent becomes subject to bankruptcy proceedings and the court in the bankruptcy proceedings concludes that the recourse of Investor’s Agent to the assets/receivables is not in its capacity as agent/Trustee but in its personal capacity, then an Investor could experience losses or delays in the payments due under the swap agreement. All possible care is normally taken in structuring the transaction and drafting the underlying documents so as to provide that the assets/receivables if and when held by Investor’s Agent is held as agent and in Trust for the Investors and shall not form part of the personal assets of Investor’s Agent. Legal opinion is normally obtained to the effect that the Investors Agent’s recourse to assets/receivables is restricted in its capacity as agent and trustee and not in its personal capacity.

Risk Mitigation: All possible care is normally taken in structuring the transaction and drafting the underlying documents so as to provide that the assets/receivables if and when held by Investor’s Agent is held as agent and in Trust for the Investors and shall not form part of the personal assets of Investor’s Agent.

Credit Rating of the Transaction / Certificate:

The credit rating is not a recommendation to purchase, hold or sell the Certificate in as much as the ratings do not comment on the market price of the Certificate or its suitability to a particular investor. There is no assurance by the rating agency either that the rating will remain at the same level for any given period of time or that the rating will not be lowered or withdrawn entirely by the rating agency.

Risk of Co-mingling:

With respect to the Certificates, the Servicer will deposit all payments received from the Obligors into the Collection Account. However, there could be a time gap between collection by a Servicer and depositing the same into the Collection account especially considering that some of the collections may be in the form of cash. In this interim period, collections from the Loan Agreements may not be segregated from other funds of originator. If originator in its capacity as Servicer fails to remit such funds due to Investors, the Investors may be exposed to a potential loss.

(1) Assessment by the AMC

Mapping of structures based on underlying assets and perceived risk profile

The scheme may invest in securitized debt originated by Banks, NBFCs and other issuers. The AMC may evaluate following factors, while investing in securitized debt:

Originator:

Acceptance Evaluation Parameters (For Pool Loan and Single Loan Securitization Transactions)

Track record:

The AMC ensures that there is adequate past track record of the Originator before selection of the pool including a detailed look at the number of issuances in past, track record of issuances, experience of issuance team, etc.

Willingness to pay:

As the securitized structure has underlying collateral structure, depending on the asset class, historical NPA trend and other pool / loan characteristics, a credit enhancement in the form of cash collateral, such as fixed deposit, bank, guarantee etc. is obtained, as a risk mitigation measure.

Ability to pay:

This assessment is based on a strategic framework for credit analysis, which entails a detailed financial risk assessment.

Management analysis is used for identifying company specific financial risks. One of the most important factors for assessment is the quality of management based on its past track record and feedback from market participants. In order to assess financial risk a broad assessment of the issuer's financial statements is undertaken to review its ability to undergo stress on cash flows and asset quality. Business risk assessment, wherein following factors are considered:

- a. Outlook for the economy (domestic and global)
- b. Outlook for the industry
- c. Company specific factors

In addition, a detailed review and assessment of rating rationale is done including interactions with the company as well as agency

Critical Evaluation Parameters (For Pool Loan and Single Loan Securitization Transactions)

Typically, the AMC would avoid investing in securitization transaction (without specific risk mitigant strategies / additional cash/security collaterals/ guarantees) if there are concerns on the following issues regarding the originator / underlying issuer:

- High default track record/ frequent alteration of redemption conditions / covenants
- High leverage ratios – both on a standalone basis as well on a consolidated level/ group level
- Higher proportion of reschedulement of underlying assets of the pool or loan, as the case may be
- Higher proportion of overdue assets of the pool or the underlying loan, as the case may be
- Poor reputation in market
- Insufficient track record of servicing of the pool or the loan, as the case may be.

Advantages of Investments in Single Loan Securitized Debt

1. Wider Coverage: A Single Loan Securitized Debt market offers a more diverse range of issues / exposures as the Banks / NBFCs lend to larger base of borrowers.
2. Credit Assessment: Better credit assessment of the underlying exposure as the Banks / NBFCs ideally co-invest in the same structure or take some other exposure on the same borrower in some other form.
3. Better Structuring: Single Loan Securitized Debt investments facilitates better structuring than investments in plain vanilla debt instruments as it is governed by Securitization guidelines issued by RBI.
4. Better Legal documentation: Single Loan Securitized Debt structures involve better legal documentation than Non-Convertible Debenture (NCD) investments.
5. End use of funds: Securitized debt has better standards of disclosures as well as limitation on end use of funds as compared to NCD investments wherein the end use is general corporate purpose.
6. Yield enhancer: Single Loan Securitized Debt investments give higher returns as compared to NCD investments in same corporate exposure.
7. Regulator supervision: Macro level supervision from RBI in Securitization Investments as compared to NCD investments.
8. Tighter covenants: Single Loan Securitized Debt structures involve tighter financial covenants than NCD investments.

Disadvantages of Investments in Single Loan Securitized Debt

- Liquidity risk: Investments in Single Loan Securitized Debts have relatively less liquidity as compared to investments in NCDs.
- Co-mingling risk: Servicers in a securitization transaction normally deposit all payments received from the obligors into a collection account. However, there could be a time gap between collection by a servicer and depositing the same into the collection account. In this interim period, collections from the loan agreements by the servicer may not be segregated from other funds of the

servicer. If the servicer fails to remit such funds due to investors, investors in the Scheme may be exposed to a potential loss.

Table below shows illustrations that may be applied while evaluating investment decision relating to a pool securitization transaction:

Characteristics/Type of Pool	Mortgage Loan	Commercial Vehicle and Construction Equipment	CAR	2 wheelers	Micro Finance Pools	Personal Loans
Approximate Average maturity (in Months)	36-120 months	12- 60 months	12-60 months	15-48 months	15-80 weeks	5 months -3 years
Collateral margin (including cash ,guarantees, excess interest spread , subordinate tranche)	3-10%	4-12%	4-13%	4-15%	5-15%	5-15%
Average Loan to Value Ratio	75%-95%	80%-98%	75%-95%	70%-95%	Unsecured	Unsecured
Average seasoning of the Pool	3-5 months	3-6 months	3-6 months	3-5 months	2-7 weeks	1-5 months
Maximum single exposure range	4-5%	3-4%	NA (Retail Pool)	NA (Retail Pool)	NA (Very Small Retail loan)	NA (Retail Pool)
Average single exposure range %	0.5%-3%	0.5%-3%	<1% of the Fund size	<1% of the Fund size	<1% of the Fund size	<1% of the Fund size

Notes:

1. Retail pools are the loan pools relating to Car, 2 wheeler, micro finance and personal loans, wherein the average loan size is relatively small and spread over large number of borrowers.
2. Information illustrated in the Tables above, is based on the current scenario relating to Securitized Debt market and is subject to change depending upon the change in the related factors.
3. The level of diversification with respect to the underlying assets, and risk mitigation measures for less diversified investments
4. Majority of our securitized debt investments shall be in asset backed pools wherein the AMC may have underlying assets as Medium and Heavy Commercial Vehicles, Light Commercial Vehicles (LCV), Cars, and Construction Equipment etc. Where the AMC invests in Single Loan Securitization, as the credit is on the underlying issuer, the AMC focuses on the credit review of the borrower.

In addition to the factors as per the table above, the AMC also take into account following factors, which are analyzed to ensure diversification of risk and measures identified for less diversified investments:

- Size of the Loan:**
The AMC generally analyzes the size of each loan on a sample basis and analyze a static pool of the originator to ensure the same matches the Static pool characteristics. Also indicates whether there is excessive reliance on very small ticket size, which may result in difficult and costly recoveries. To illustrate, the ticket size of housing loans is generally higher than that of personal loans. Hence in the construction of a housing loan asset pool for say Rs.1,00,00,000/- it may be easier to construct a pool with just 10 housing loans of Rs.10,00,000 each rather than to construct a pool of personal loans as the ticket size of personal loans may rarely exceed Rs.5,00,000/- per individual. Also to amplify this illustration further, if one were to construct a pool of Rs.1,00,00,000/- consisting of personal loans of Rs.1,00,000/- each, the larger number of contracts (100 as against one of 10 housing loans of Rs.10 lakh each) automatically diversifies the risk profile of the pool as compared to a housing loan based asset pool.
- Average Original Maturity of the Pool:**
Indicates the original repayment period and whether the loan tenors are in line with industry averages and borrower's repayment capacity. To illustrate, in a car pool consisting of 60-month contracts, the original maturity and the residual maturity of the pool viz. number of remaining installments to be paid gives a better idea of the risk of default of the pool itself. If in a pool of 100 car loans having original maturity of 60 months, if more than 70% of the contracts have paid more than 50% of the installments and if no default has been observed in such contracts, this is a far superior portfolio than a similar car loan pool where 80% of the contracts have not even crossed 5 installments.
- Default Rate Distribution:**
The AMC generally ensure that all the contracts in the pools are current to ensure zero default rate distribution. Indicates how much % of the pool and overall portfolio of the originator is current, how much is in 0-30 DPD (days past due), 30-60 DPD, 60-90 DPD and so on. The rationale here being, as against 0-30 DPD, the 60-90 DPD is certainly a higher risk category.
- Geographical Distribution:**
Regional/state/ branch distribution is preferred to avoid concentration of assets in a particular region/state/branch.
- Loan to Value Ratio:**
Indicates how much % value of the asset is financed by borrower's own equity. The lower LTV, the better it is. This Ratio stems from the principle that where the borrowers own contribution of the asset cost is high, the chances of default are lower. To illustrate for a Truck costing Rs.20 lakhs, if the borrower has himself contributed Rs.10 lakh and has taken only Rs.10 lakh as a loan, he is going to have lesser propensity to default as he would lose an asset worth Rs.20 lakhs if he defaults in repaying an installment. This is as against a borrower who may meet only Rs.2 lakh out of his own equity for a truck costing Rs.20 lakh. Between the two scenarios given above, the latter would have higher risk of default than the former.
- Average seasoning of the pool:**
Indicates whether borrowers have already displayed repayment discipline. To

illustrate, in the case of a personal loan, if a pool of assets consist of those who have already repaid 80% of the installments without default, this certainly is a superior asset pool than one where only 10% of installments have been paid. In the former case, the portfolio has already demonstrated that the repayment discipline is far higher.

- **Risk Tranching:**
Typically, the AMC would avoid investing in mezzanine debt or equity of Securitized debt in the form of sub ordinate tranche, without specific risk mitigant strategies / additional cash / security collaterals/ guarantees, etc.
- The mechanism to tackle conflict of interest when the mutual fund invests in securitized debt of an originator and the originator in turn makes investments in that particular scheme of the fund

Investments made by the scheme in any asset are done based on the requirements of the scheme and is in accordance with the investment policy. All Investments are made entirely at an arm's length basis with no consideration of any existing / consequent investments by any party related to the transaction (originator, issuer, borrower etc.). Investments made in Securitized debt are made as per the Investment strategy of the Scheme and are done after detailed analysis of the underlying asset. There might be instances of Originator investing in the same scheme but both the transactions are at arm's length and avoid any conflict of interest.

- In general, the resources and mechanism of individual risk assessment with the AMC for monitoring investment in securitized debt

The risk assessment process for securitized debt, as detailed in the preceding paragraphs, is same as any other credit. The investments in securitized debt are done after appropriate research. The ratings are monitored for any movement. Monthly Pool Performance MIS is received from the trustee and is analyzed for any variation. The securitized debt investments are published in the fact sheet and disclosed on the website.

➤ **Risk factors associated with investments in Perpetual Debt Instrument (PDI)**

Perpetual Debt instruments are issued by Banks, non-banking financial institutions (NBFCs) and corporates to improve their capital profile. Some of the PDIs issued by Banks which are governed by the Reserve Bank of India (RBI) guidelines for Basel III Capital Regulations are referred to as Additional Tier I (AT1 bonds). While there are no regulatory guidelines for issuance of PDIs by corporate bodies, NBFCs issue these bonds as per guidelines issued by RBI. The instruments are treated as perpetual in nature as there is no fixed maturity date.

➤ **Risks associated with Stock Lending & Borrowing (SLB)**

Stock lending is lending of securities through an approved intermediary to a borrower under an agreement for a specified period with the condition that the borrower will return equivalent securities of the same type or class at the end of the specified period along with the corporate benefits accruing on the securities borrowed.

The risks in security lending consist of the failure of intermediary / counterparty, to comply with the terms of agreement entered into between the lender of securities i.e. the Scheme and the intermediary / counterparty. Such failure to comply can result in the possible loss of rights in the collateral put up by the borrower of the securities, the inability of the approved intermediary to return the securities deposited by the lender and the possible loss of any corporate benefits accruing to the lender from the securities deposited with the approved intermediary. The scheme may not be able to sell lent out securities, which can lead to temporary illiquidity & loss of opportunity.

Investors are requested to refer to section “How will the Scheme allocate its assets?” for maximum permissible exposure to Stock Lending & Borrowing.

The Scheme will not engage in Short Selling activity.

- **RISK ASSOCIATED TO NON-DIVERSIFICATION OF THE PORTFOLIO**

As there is non-diversification of the portfolio in the scheme, the scheme will be affected by the risks associated with investment in companies following the ESG theme.

In the scheme, the investment universe is limited to companies that are following the ESG theme. The scope for diversification could be limited at times. There could be instances the investment portfolio might have an unusually high exposure to a few stocks. However, given the nature of the scheme, the Mutual Fund may invest upto 100 % of the corpus into debt / money market instruments for a short term period on a defensive consideration.

- Risk Factors associated with Thematic Schemes:

Investing in thematic schemes is based on the premise that the Scheme will seek to invest in companies belonging to a specific sector / theme. This will limit the capability of the Scheme to invest in other sectors/theme.

The Scheme would invest in equity and equity related securities of companies engaged in the particular sector / theme and hence concentration risk is expected to be high.

Also, as with all equity investing, there is a risk that companies in that specific sector / theme will not achieve its expected earnings results, or that an unexpected change in the market or within the company will occur, both of which may adversely affect investment results. Thus investing in a sector /theme specific scheme could involve potentially greater volatility and risk.

- Risk factors associated with creation of segregated portfolios

1. Liquidity risk – A segregated portfolio is created when a credit event occurs at an issuer level in the scheme. This may reduce the liquidity of the security issued by the said issuer, as demand for this security may reduce. This is also further accentuated by the lack of secondary market liquidity for corporate papers in India. As per SEBI norms, the scheme is to be closed for redemption and subscriptions until the segregated portfolio is created, running the risk of investors being unable to redeem

their investments. However, it may be noted that, the proposed segregated portfolio is required to be formed within one day from the occurrence of the credit event.

Investors may note that no redemption and subscription shall be allowed in the segregated portfolio. However, in order to facilitate exit to unit holders in segregated portfolio, AMC shall list the units of the segregated portfolio on a recognized stock exchange within 10 business days of creation of segregated portfolio and also enable transfer of such units on receipt of transfer requests. For the units listed on the exchange, it is possible that the market price at which the units are traded may be at a discount to the NAV of such Units. There is no assurance that a deep secondary market will develop for units of segregated portfolio listed on the stock exchange. This could limit the ability of the investors to resell them.

2. Valuation risk - The valuation of the securities in the segregated portfolio is required to be carried out in line with the applicable SEBI guidelines. However, it may be difficult to ascertain the fair value of the securities due to absence of an active secondary market and difficulty to price in qualitative factors.

➤ Risks associated with investing in Tri Party Repo through CCIL (TREPS)

The mutual fund is a member of securities segment and Tri-party Repo trade settlement of the Clearing Corporation of India (CCIL). All transactions of the mutual fund in government securities and in Tri-party Repo trades are settled centrally through the infrastructure and settlement systems provided by CCIL; thus reducing the settlement and counterparty risks considerably for transactions in the said segments.

CCIL maintains prefunded resources in all the clearing segments to cover potential losses arising from the default member. In the event of a clearing member failing to honour his settlement obligations, the default Fund is utilized to complete the settlement. The sequence in which the above resources are used is known as the "Default Waterfall".

As per the waterfall mechanism, after the defaulter's margins and the defaulter's contribution to the default fund have been appropriated, CCIL's contribution is used to meet the losses. Post utilization of CCIL's contribution if there is a residual loss, it is appropriated from the default fund contributions of the non-defaulting members.

Thus the scheme is subject to risk of the initial margin and default fund contribution being invoked in the event of failure of any settlement obligations. In addition, the fund contribution is allowed to be used to meet the residual loss in case of default by the other clearing member (the defaulting member).

However, it may be noted that a member shall have the right to submit resignation from the membership of the Security segment if it has taken a loss through replenishment of its contribution to the default fund for the segments and a loss threshold as notified have been reached. The maximum contribution of a member towards replenishment of its contribution to the default fund in the 7 days (30 days in case of securities segment) period immediately after the afore-mentioned loss threshold having been reached shall not exceed 5 times of its contribution to the

Default Fund based on the last re-computation of the Default Fund or specified amount, whichever is lower.

Further, it may be noted that, CCIL periodically prescribes a list of securities eligible for contributions as collateral by members. Presently, all Central Government securities and Treasury bills are accepted as collateral by CCIL. The risk factors may undergo change in case the CCIL notifies securities other than Government of India securities as eligible for contribution as collateral.

➤ Risk Factors Associated with Investments in REITs and InvITS:

Market Risk:

REITs and InvITs are volatile and prone to price fluctuations on a daily basis owing to market movements. Investors may note that AMC/Fund Manager's investment decisions may not always be profitable, as actual market movements may be at variance with the anticipated trends. The NAV of the Scheme is vulnerable to movements in the prices of securities invested by the scheme, due to various market related factors like changes in the general market conditions, factors and forces affecting capital market, level of interest rates, trading volumes, Real Estate and Infrastructure sectors, settlement periods and transfer procedures. The scheme will undertake active portfolio management as per the investment objective to reduce the market risk.

Liquidity Risk:

As the liquidity of the investments made by the Scheme(s) could, at times, be restricted by trading volumes and settlement periods, the time taken by the Mutual Fund for liquidating the investments in the scheme may be high in the event of immediate redemption requirement. Investment in such securities may lead to increase in the scheme portfolio risk. The fund will try to maintain a proper asset-liability match to ensure redemption payments are made on time and not affected by illiquidity of the underlying units.

Reinvestment Risk:

Investments in REITs & InvITs may carry reinvestment risk as there could be repatriation of funds by the Trusts in form of buyback of units or dividend pay-outs, etc. Consequently, the proceeds may get invested in assets providing lower returns. However, the reinvestment risk will be limited as the proceeds are expected to be a small portion of the portfolio value.

Interest Rate Risk: Securities / Instruments of REITs and InvITs run interest rate risk. Generally, when interest rates rise, prices of units fall and when interest rates drop, such prices increase.

The above are some of the common risks associated with investments in REITs & InvITs. There can be no assurance that a Scheme's investment objectives will be achieved, or that there will be no loss of capital. Investment results may vary substantially on a monthly, quarterly or annual basis.

➤ Risks associated with Investing in Structured Obligation (SO) & Credit Enhancements (CE) rated securities:

- The risks factors stated below for the Structured Obligations & Credit Enhancements are in addition to the risk factors associated with debt instruments.
- Credit rating agencies assign an SO rating to an instrument based on any identifiable credit enhancement for the debt instrument issued by an issuer. The credit enhancement could be in various forms and could include guarantee, shortfall undertaking from another entity. This entity could be either related or non-related to the issuer like a bank, financial institution, etc. Credit enhancement could include additional security in form of pledge of shares listed on stock exchanges, asset backed/ mortgage backed securities, securitized paper backed by hypothecation of car loan receivables, securities backed by trade receivables, credit card receivables etc. Additionally, certain issuances where cash flows are escrowed and used in a predetermined manner are also considered as Structured Obligations. Hence, for SO rated instruments evaluation of the credit enhancement provider, as well as the issuer is undertaken to determine the issuer rating.
- Liquidity Risk: SO rated securities are often complex structures, with a variety of credit enhancements. Debt securities lack a well-developed secondary market in India, and due to the structured nature of SO securities, the liquidity in the market for these instruments is adversely affected compared to similar rated debt instruments. Hence, lower liquidity of such instruments, could lead to inability of the scheme to sell such debt instruments and generate liquidity for the scheme or higher impact cost when such instruments are sold.
- Credit Risk: The credit risk of debt instruments which are SO rated derives rating based on the combined strength of the issuer as well as the structure. Hence, any weakness in either the issuer or the structure could have an adverse credit impact on the debt instrument. The weakness in structure could arise due to ability of the investors to enforce the structure due to issues such as legal risk, inability to sell the underlying collateral or enforce guarantee, etc. Therefore, apart from issuer level credit risk such debt instruments are also susceptible to structure related credit risk.

➤ **Risk associated with investment in Perpetual Debt Instrument (PDI)**

Perpetual Debt instruments are issued by Banks, non-banking financial institutions (NBFCs) and corporates to improve their capital profile. Some of the PDIs issued by Banks which are governed by the Reserve Bank of India (RBI) guidelines for Basel III Capital Regulations are referred to as Additional Tier I (AT1 bonds). RBI regulations also apply to PDIs issued by NBFC. However, there are no regulatory guidelines for issuance of PDIs by corporate bodies. The instruments are treated as perpetual in nature as there is no maturity date. The key risks associated with these instruments are highlighted below:

Risk associated with coupon servicing

• **Banks**

As per the terms of the instruments, Banks may have discretion at all times to cancel distributions/payment of coupons. In the event of non-availability of

adequate distributable reserves and surpluses or inadequacy in terms of capital requirements, RBI may not allow banks to make payment of coupons.

- **NBFCs**

While NBFCs may have discretion at all times to cancel payment of coupon, coupon may also be deferred (instead of being cancelled), in case paying the coupon leads to breach of capital ratios.

- **Corporates**

Corporates usually have discretion to defer the payment of coupon. However, the coupon is usually cumulative and any deferred coupon shall accrue interest at the original coupon rate of the PDI.

Risk associated with write-down or conversion into equity

- **Banks**

AT1 Bonds could be written down or converted to common equity, at the discretion of RBI, in the event of non-maintenance of capital adequacy ratios and/or Point of Non Viability Trigger (PONV). Minimum capital adequacy ratio requirements would be as per Basel III regulations. PONV is a point, determined by RBI, when a bank is deemed to have become non-viable unless appropriate measures are taken to revive its operations. Further Tier II bonds issued under Basel III, having a fixed maturity date, are also liable to be written down or converted to common equity under the aforesaid event of PONV. This risk is not applicable in case of NBFCs and Corporates.

Risk associated with instrument not being called by the Issuer

- **Banks**

The issuing banks have an option to call back the instrument after minimum period as per the regulatory requirement from the date of issuance and specified period thereafter, subject to meeting the RBI guidelines. However, if the bank does not exercise the call on first call date, the Scheme may have to hold the instruments for a period beyond the first call exercise date.

- **NBFCs**

The NBFC issuer has an option to call back the instrument after minimum period as per the regulatory requirement from date of issuance and specified period thereafter, subject to meeting the RBI guidelines. However, if the NBFC does not exercise the call option the Scheme may have to hold the instruments for a period beyond the first call exercise date.

- **Corporates**

There is no minimum period for call date. However, if the corporate does not exercise the call option, the Scheme may have to hold the instruments for a period beyond the call exercise date.

➤ **Risk Factors associated with schemes investing in Gilt Securities**

Generally, when interest rates rise, prices of fixed income securities fall and when interest rates drop, the prices increase. The extent of fall or rise in prices is a function of the existing coupon, days to maturity and the increase or decrease in interest rates. Price-risk is not unique to government securities but is true for all fixed income securities. The default risk however, in respect of Government

securities is zero. Therefore, their prices are influenced only by movement in interest rates in the financial system. On the other hand, in the case of corporate or institutional fixed income securities, such as bonds or debentures, prices are influenced by credit standing of the issuer as well as the general level of interest rates.

Even though the Government securities market is more liquid compared to other debt instruments, on occasions, there could be difficulties in transacting in the market due to extreme volatility or unusual constriction in market volumes or on occasions when an unusually large transaction has to be put through.

- Risk on coupon servicing

As per the terms of the instruments, Banks may have discretion at all times to cancel distributions/payment of coupons. In the event of non-availability of adequate distributable reserves and surpluses or inadequacy in terms of capital requirements, RBI may not allow banks to make payment of coupons.

- a. NBFCs

While NBFCs may have discretion at all times to cancel payment of coupon, coupon may also be deferred (instead of being cancelled), in case paying the coupon leads to breach of capital ratios.

- b. Corporates

Corporates usually have discretion to defer the payment of coupon. However, the coupon is usually cumulative and any deferred coupon shall accrue interest at the original coupon rate of the PDI.

- Risk of write-down or conversion into equity

- a. Banks

AT1 Bonds are could be written down or converted to common equity, at the discretion of RBI, in the event of non-maintenance of capital adequacy ratios and/or Point of Non Viability Trigger (PONV). Minimum capital adequacy ratio requirements would be as per Basel III regulations. PONV is a point, determined by RBI, when a bank is deemed to have become non-viable unless appropriate measures are taken to revive its operations. Further Tier II bonds issued under Basel III, having a fixed maturity date, are also liable to be written down or converted to common equity under the aforesaid event of PONV. This risk is not applicable in case of NBFCs and Corporates.

- Risk of instrument not being called by the Issuer

- a. Banks

The issuing banks have an option to call back the instrument after minimum period as per the regulatory requirement from the date of issuance and specified period thereafter, subject to meeting the RBI guidelines. However, if the bank does not exercise the call on first call date, the Scheme may have to hold the instruments for a period beyond the first call exercise date.

- b. NBFCs

The NBFC issuer has an option to call back the instrument after minimum period as per the regulatory requirement from date of issuance and specified period thereafter, subject to meeting the RBI guidelines. However, if the NBFC does not exercise the call option the Scheme may have to hold the instruments for a period beyond the first call exercise date.

c. Corporates

There is no minimum period for call date. However, if the corporate does not exercise the call option, the Scheme may have to hold the instruments for a period beyond the call exercise date.

C. Risk Mitigation Strategies

The Scheme by utilizing a holistic risk management strategy will endeavour to manage risks associated with investing in debt and equity markets. The risk control process involves identifying & measuring the risk through various risk measurement tools.

The Scheme has identified following risks of investing in equity and debt and designed risk management strategies, which are embedded in the investment process to manage such risks.

<u>Risks associated with Equity investments</u>	
<p><u>Concentration Risk</u></p> <p>Concentration risk represents the probability of loss arising from heavily lopsided exposure to a particular group of sectors or securities.</p>	<p>The Scheme will try and mitigate this risk by investing across large number of companies/sectors and endeavor to keep stock-specific concentration risk relatively low.</p>
<p><u>Market Risk</u></p> <p>The scheme is vulnerable to movements in the prices of securities invested by the scheme, which could have a material bearing on the overall returns from the scheme</p>	<p>Market risk is a risk which is inherent to an equity scheme. The Schemes may use derivatives to limit this risk.</p>
<p><u>Derivatives Risk</u></p> <p>As and when the Scheme trades in the derivatives market there are risk factors and issues concerning the use of derivatives since derivative products are specialized instruments that require investment techniques and risk analyses different from those associated with stocks and bonds.</p>	<p>The Scheme may invest in derivative for the purpose of hedging, portfolio balancing and other purposes as may be permitted under the Regulations. Derivatives will be used in the form of Index Options, Index Futures, Stock Options and Stock Futures and other instruments as may be permitted by SEBI. All derivatives trade will be done only on the exchange with guaranteed settlement. Exposure with respect to derivatives shall be in line with regulatory limits and the limits specified in the SID. No OTC contracts will be entered into.</p>

<p><u>Liquidity risk</u></p> <p>The liquidity of the Scheme's investments is inherently restricted by trading volumes in the securities in which it invests.</p>	<p>As such the liquidity of stocks that the fund invests into could be relatively low. The fund will try to maintain a proper asset-liability match to ensure redemption / Maturity payments are made on time and not affected by illiquidity of the underlying stocks.</p>
<p><u>Currency Risk</u></p> <p>The Scheme may invest in foreign securities as permitted by the concerned regulatory authorities in India. Since the assets will be invested in securities denominated in foreign currency, the INR equivalent of the net assets, distributions and income may be adversely affected by changes / fluctuations in the value of the foreign currencies relative to the INR.</p>	<p>The Schemes may employ various measures (as permitted by SEBI/RBI) including but not restricted to currency hedging (such as currency options and forward currency exchange contracts, currency futures, written call options and purchased put options on currencies and currency swaps), to manage foreign exchange movements arising out of investment in foreign securities.</p> <p>All currency derivatives trade, if any will be done only through the stock exchange platform.</p>

<p><u>Risks associated with Debt investment</u></p>	
<p><u>Market Risk/ Interest Rate Risk</u></p> <p>As with all debt securities, changes in interest rates may affect the Scheme's Net Asset Value as the prices of securities generally increase as interest rates decline and generally decrease as interest rates rise. Prices of long-term securities generally fluctuate more in response to interest rate changes than do short-term securities. Indian debt markets can be volatile leading to the possibility of price movements up or down in fixed income securities and thereby to possible movements in the NAV.</p>	<p>In a rising interest rates scenario the scheme may increase its investment in money market securities whereas if the interest rates are expected to fall the allocation to debt securities with longer maturity may be increased thereby mitigating risk to that extent.</p>
<p><u>Liquidity or Marketability Risk</u></p> <p>This refers to the ease with which a security can be sold at or near to its valuation yield-to-maturity (YTM).</p>	<p>The Scheme may invest in government securities, corporate bonds and money market instruments. While the liquidity risk for government securities, money market instruments and short maturity corporate bonds may be low, it may be high in case of medium to long maturity corporate bonds.</p>

	The Schemes will however, endeavor to minimize liquidity risk by investing in securities having a relatively liquid market.
<p><u>Credit Risk</u></p> <p>Credit risk or default risk refers to the risk that an issuer of a fixed income security may default (i.e., will be unable to make timely principal and interest payments on the security).</p>	<p>Management analysis will be used for identifying company specific risks. In order to assess financial risk, a detailed assessment of the issuer's financial statements will be undertaken to review its ability to undergo stress on cash flows and asset quality. A detailed evaluation of accounting policies, off-balance sheet exposures, notes, auditors' comments and disclosure standards will also be made to assess the overall financial risk of the potential borrower.</p>
<p><u>Reinvestment Risk</u></p> <p>This risk refers to the interest rate levels at which cash flows received from the securities in the Schemes are reinvested. The risk is that the rate at which interim cash flows can be reinvested may be lower than that originally assumed.</p>	<p>Reinvestment risks will be limited to the extent of coupons received on debt instruments, which will be a very small portion of the portfolio value.</p>
<p><u>Currency Risk</u></p> <p>The Scheme may invest in foreign securities as permitted by the concerned regulatory authorities in India. Since the assets will be invested in securities denominated in foreign currency, the INR equivalent of the net assets, distributions and income may be adversely affected by changes / fluctuations in the value of the foreign currencies relative to the INR.</p>	<p>The Scheme may employ various measures (as permitted by SEBI/RBI) including but not restricted to currency hedging (such as currency options and forward currency exchange contracts, currency futures, written call options and purchased put options on currencies and currency swaps), to manage foreign exchange movements arising out of investment in foreign securities.</p> <p>All currency derivatives trade, if any will be done only through the stock exchange platform.</p>

Derivatives Risk

As and when the Scheme trades in the derivatives market there are risk factors and issues concerning the use of derivatives since derivative products are specialized instruments that require investment techniques and risk analyses different from those associated with stocks and bonds. There is the possibility that a loss may be sustained by the portfolio as a result of the failure of another party (usually referred to as the “counter party”) to comply with the terms of the derivatives contract. Other risks in using derivatives include the risk of mis-pricing or improper valuation of derivatives and the inability of derivatives to correlate perfectly with underlying assets, rates and indices.

The Scheme may invest in derivative for the purpose of hedging, portfolio balancing and other purposes as may be permitted under the Regulations. Mark to Market of swaps, netting off of cash flow and default provision clauses will be provided as per international best practice on a reciprocal basis. Interest Rate Swaps will be done with approved counter parties under pre-approved ISDA agreements. Interest rate swaps and other derivative instruments will be used as per local (RBI and SEBI) regulatory guidelines.

Note: The information contained herein is based on current market conditions and may change from time to time based on changes in such conditions, regulatory changes and other relevant factors. Accordingly, our investment strategy, risk mitigation measures and other information contained herein may change in response to the same.

II. Information about the scheme

A. Where will the scheme invest?

Subject to the Regulations and the disclosures as made under the Section “How the Scheme will allocate its Assets”, the corpus of the Scheme can be invested in any (but not exclusive) of the following securities/ instruments:

- a. Equity and equity related securities including Indian Depository Receipts (IDRs), and warrants carrying the right to obtain equity shares.
- b. Securities created and issued by the Central and State Governments and/or repos/reverse repos in such Government Securities as may be permitted by RBI (including but not limited to coupon bearing bonds, zero coupon bonds and treasury bills).
- c. Securities guaranteed by the Central, State and local Governments (including but not limited to coupon bearing bonds, zero coupon bonds and treasury bills)
- d. Debt securities issued by domestic Government agencies and statutory bodies, which may or may not carry a Central/State Government guarantee

- e. Listed and unlisted Corporate debt securities (of both public and private sector undertakings) including corporate bonds having structured obligations and credit enhancements
- f. Securities issued by banks (both public and private sector) including term deposit with the banks as permitted by SEBI/RBI from time to time and development financial institutions
- g. Money market instruments, as permitted by SEBI/ RBI.
- h. Securitized Debt.
- i. The non-convertible part of convertible securities
- j. Derivative instruments like Stock / Index Futures, Stock / Index Options and such other derivative instruments permitted by SEBI.
- k. ADRs / GDRs / Foreign Securities / Foreign ETFs as permitted by Reserve Bank of India and Securities and Exchange Board of India.
- l. Units of Real Estate Investment Trusts (REITs) & Infrastructure Investment Trust (InvITs)
- m. Preference Shares
- n. Units of Mutual Fund Schemes, cash & cash equivalents
- o. Any other domestic fixed income securities.

Subject to the Regulations, the securities mentioned above could be listed, unlisted, privately placed, secured, unsecured and of varying maturity. The securities may be acquired through Public Offerings, secondary market operations, private placement, rights offers or negotiated deals. Further, the Scheme intend to participate in securities lending as permitted under the regulations. Investment in overseas securities shall be made in accordance with the requirements stipulated by SEBI and RBI from time to time. The Scheme may also enter into repurchase and reverse repurchase in various securities as per the guidelines and regulations applicable to such transactions.

POSITION OF DEBT MARKET IN INDIA

There are three main segments in the debt markets in India, viz., Government Securities, Public Sector Units (PSU) bonds, and corporate securities. A bulk of the debt market consists of Government Securities. Other instruments available currently include Corporate Debentures, Bonds issued by Financial Institutions, Commercial Paper, Certificates of Deposits and Securitized Debt. Securities in the Debt market typically vary based on their tenure and rating. Government Securities have tenures from one year to thirty years whereas the maturity period of the Corporate Debt now goes upto sixty years and more (perpetual). Perpetual bonds are now issued by banks as well. Securities may be both listed and unlisted and there is increasing trend of securities of maturities of over one year being listed by issuers.

The yields and liquidity on various securities as on September 30, 2024 are as under:

Issuer	Instrument	Maturity	Yields (%)	Liquidity
GOI	Treasury Bill	91 Days	6.45%	High
GOI	Treasury Bill	364 Days	6.55%	High
GOI	Short Dated	1-3 Years	6.63% - 6.66%	High
GOI	Medium Dated	3-5 Years	6.66% - 6.67%	High
GOI	Long Dated	5-10 Years	6.67% - 6.75%	High
Corporates	Taxable Bonds (AAA)	1-3 Years	7.62% - 7.44%	Medium
Corporates	Taxable Bonds (AAA)	3-5 Years	7.44% - 7.30%	Low to Medium
Corporates	CDs (A1+)	3 months	7.18%	Medium to High
Corporates	CPs (A1+)	3 months	7.45%	Medium to High

B. What are the investment restrictions?

As per the provisions of the Trust Deed read with the SEBI (Mutual Funds) Regulations, 1996, the following investment restrictions apply in respect of the Scheme at the time of making investments. Further, all investments by the Scheme will be made in accordance with the investment objective, asset allocation and where will the schemes invest, described earlier, as well as the SEBI (Mutual Funds) Regulations, 1996, including Seventh Schedule thereof, as amended from time to time.

- A mutual fund scheme shall not invest more than 10% of its NAV in debt instruments comprising money market instruments and non-money market instruments issued by a single issuer which are rated not below investment grade by a credit rating agency authorised to carry out such activity under the Act. Such investment limit may be extended to 12% of the NAV of the scheme with the prior approval of the Board of Trustees and the Board of directors of the asset management company:

Provided that such limit shall not be applicable for investments in Government Securities, treasury bills and TREPs:

- a) A mutual fund scheme shall not invest more than 10% of its NAV in debt instruments comprising money market instruments and non-money market instruments issued by a single issuer which are rated not below investment grade by a credit rating agency authorised to carry out such activity under the Act as per the following matrix.

A mutual fund scheme shall not invest more than:

- a. 10% of its NAV in debt and money market securities rated AAA; or
- b. 8% of its NAV in debt and money market securities rated AA; or
- c. 6% of its NAV in debt and money market securities rated A and below issued by a single issuer.

The above investment limits may be extended by up to 2% of the NAV of the scheme with prior approval of the Board of Trustees and Board of Directors of the AMC, subject to compliance with the overall 12% limit specified in clause 1 of Seventh Schedule of MF Regulation.

b) Provided that such limit shall not be applicable for investments in Government Securities, treasury bills and TREPs:

c) Provided further that investment within such limit can be made in mortgaged backed securitised debt which are rated not below investment grade by a credit rating agency registered with the Board.

A mutual fund scheme shall not invest in unlisted debt instruments including commercial papers, except Government Securities and other money market instruments.

d) In terms of the Asset Allocation of the Scheme, the Scheme may invest upto 5% of its total assets in Money market instruments including TREPs. Provided further that investment within such limit can be made in mortgaged backed securitised debt which are rated not below investment grade by a credit rating agency registered with the Board.

- Mutual fund schemes shall not invest in unlisted debt instruments including commercial papers (CPs), other than (a) government securities, (b) other money market instruments and (c) derivative products such as Interest Rate Swaps (IRS), Interest Rate Futures (IRF), etc. which are used by mutual funds for hedging.

However, mutual fund schemes may invest in unlisted Non-Convertible Debentures (NCDs) not exceeding 10% of the debt portfolio, of the scheme subject to the condition that such unlisted NCDs have a simple structure (i.e. with fixed and uniform coupon, fixed maturity period, without any options, fully paid up upfront, without any credit enhancements or structured obligations) and are rated and secured with coupon payment frequency on monthly basis.

For the above purposes, listed debt instruments shall include listed and to be listed debt instruments.

- The Scheme shall not invest more than 5% of its net assets in unrated debt and money market instruments, other than government securities, treasury bills, derivative products such as Interest Rate Swaps (IRS), Interest Rate Futures (IRF), etc. All such investments shall be made with the prior approval of the Board of Trustees and the Board of AMC.

Investments should only be made in such instruments, including bills re-discounting, usance bills, etc., that are generally not rated and for which separate investment norms or limits are not provided in SEBI (Mutual Fund) Regulations, 1996 and various circulars issued thereunder.

- The Fund under all its Schemes shall not own more than 10% of any company's paid up capital carrying voting rights.

Provided, investment in the asset management company or the trustee company of a mutual fund shall be governed by clause (a), of sub-regulation (1), of regulation 7B

- The investment of mutual fund schemes in the following instruments shall not exceed 10% of the debt portfolio of the schemes and the group exposure in such instruments shall not exceed 5% of the debt portfolio of the schemes
 - a. Unsupported rating of debt instruments (i.e. without factoring-in credit enhancements) is below investment grade and
 - b. Supported rating of debt instruments (i.e. after factoring-in credit enhancement) is above investment grade.

For the purpose of this provision, 'Group' shall have the same meaning as defined in paragraph 12.9.3.3 of the Master Circular. .

Investment limits as mentioned above shall not be applicable on investments in securitized debt instruments, as defined in SEBI (Public Offer and Listing of Securitized Debt Instruments) Regulations 2008.

Investment in debt instruments, having credit enhancements backed by equity shares directly or indirectly, shall have a minimum cover of 4 times considering the market value of such shares. AMCs may ensure that the investment in debt instruments having credit enhancements are sufficiently covered to address the market volatility and reduce the inefficiencies of invoking of the pledge or cover, whenever required, without impacting the interest of the investors. In case of fall in the value of the cover below the specified limit, AMCs should initiate necessary steps to ensure protection of the interest of the investors.

- Transfer of investments from one Scheme to another Scheme in the same Mutual Fund is permitted provided:
 - a. Such transfers are done at the prevailing market price for quoted instruments on spot basis (spot basis shall have the same meaning as specified by a Stock Exchange for spot transactions); and
 - b. The securities so transferred shall be in conformity with the investment objective of the Scheme to which such transfer has been made.

Further the inter Scheme transfer of investments shall be in accordance with the provisions contained in clause Inter-Scheme transfer of investments, in paragraph 12.30 of the Master Circular.

- The Scheme may invest in other Schemes under the same AMC or any other Mutual Fund without charging any fees, provided the aggregate inter-Scheme investment made by all the Schemes under the same management or in Schemes under management of any other asset management company shall not exceed 5% of the Net Asset Value of the Fund. No investment management fees shall be charged for investing in other Schemes of the Fund or in the Schemes of any other mutual fund.
- The Mutual Fund shall buy and sell securities on the basis of deliveries and shall in all cases of purchases, take delivery of relevant securities and in all cases of sale, deliver the securities:

Provided further that the Mutual Fund may enter into derivatives transactions in a recognized stock exchange, subject to the framework specified by SEBI

Provided further that sale of government security already contracted for purchase shall be permitted in accordance with the guidelines issued by the RBI in this regard

- The Fund shall get the securities purchased transferred in the name of the Fund on account of the concerned Scheme, wherever investments are intended to be of a long-term nature.
- Pending deployment of funds of the Schemes in terms of the investment objective of the Schemes, the Mutual Fund may invest them in short term deposits of scheduled commercial banks in accordance with paragraph 12.16 of the Master Circular. The following guidelines shall be followed for parking of funds in short term deposits of Scheduled commercial Banks pending deployment:
 - “Short Term” for such parking of funds by mutual funds shall be treated as a period not exceeding 91 days.
 - Such short term deposits shall be held in the name of the concerned Scheme.
 - No mutual fund Scheme shall park more than 15% of the net assets in Short term deposit(s) of all the scheduled commercial banks put together. However, it may be raised to 20% with prior approval of the trustees. Also, parking of funds in short term deposits of associate and sponsor scheduled commercial banks together shall not exceed 20% of total deployment by the mutual fund in short term deposits.
 - No mutual fund Scheme shall park more than 10% of the net assets in short term deposit(s), with any one scheduled commercial bank including its subsidiaries.
 - Trustees/Asset Management Companies (AMCs) shall ensure that no funds of a scheme are parked in short term deposit (STD) of a bank which has invested in that scheme. Trustees/AMCs shall also ensure that the bank in which a scheme has STD does not invest in the said scheme until the scheme has STD with such bank.

The above conditions are not applicable to term deposits placed as margins for trading in cash and derivative market.

- Asset Management Company (AMC) shall not be permitted to charge any investment management and advisory fees for parking of funds in short term deposits of scheduled commercial banks.
- No mutual fund Scheme shall make any investments in;
 - a) any unlisted security of an associate or group company of the sponsor; or
 - b) any security issued by way of private placement by an associate or group company of the Sponsor; or
 - c) the listed securities of group companies of the Sponsor which is in excess of 25% of its net assets.
- The scheme shall not invest in Fund of funds scheme.
- All investments by a mutual fund scheme in equity shares and equity related instruments shall only be made provided such securities are listed or to be listed

- No mutual fund Schemes shall invest more than 10% of its NAV in equity shares or equity related instruments of any company. Provided that the limit of 10% will not be applicable for the investments in case of Index Fund or sector or industry specific scheme. In case of sector or industry specific scheme, the upper ceiling on investments may be in accordance with the weightage of the scrips in the representative sectoral index or sub index as disclosed in the SID or 10% of the NAV of the scheme, whichever is higher.
- No loans for any purpose can be advanced by the Scheme.
- The Fund shall not borrow except to meet temporary liquidity needs of the Fund for the purpose of repurchase/ redemption of units or payment of interest or IDCW to the unit holders. Such borrowings shall not exceed more than 20% of the net assets of the individual Scheme and the duration of the borrowing shall not exceed a period of 6 months.
- If any company invests more than 5% of the NAV of any of the Scheme, investments made by that or any other schemes of the Mutual Fund in that company or its subsidiaries will be disclosed in accordance with the SEBI (MF) Regulations.
- The Mutual Fund having an aggregate of securities which are worth Rs.10 crores or more, as on the latest balance sheet date, shall subject to such instructions as may be issued from time to time by the Board, settle their transactions entered on or after January 15, 1998 only through dematerialised securities. Further all transactions in government securities shall be in dematerialised form.
- The Scheme will comply with provisions specified in paragraph 12.25 of the Master Circular related to overall exposure limits applicable for derivative transactions as stated below:
 - The cumulative gross exposure across all asset classes should not exceed 100% of the net assets of the Scheme.
 - The total exposure related to option premium paid must not exceed 20% of the net assets of the Scheme.
 - Cash or cash equivalents with residual maturity of less than 91 days may be treated as not creating any exposure.
 - Exposure due to hedging positions may not be included in the above mentioned limits subject to the following
 - a. Hedging positions are the derivative positions that reduce possible losses on an existing position in securities and till the existing position remains.
 - b. Hedging positions cannot be taken for existing derivative positions. Exposure due to such positions shall have to be added and treated under limits mentioned in Point 1.
 - c. Any derivative instrument used to hedge has the same underlying security as the existing position being hedged.
 - d. The quantity of underlying associated with the derivative position taken for hedging purposes does not exceed the quantity of the existing position against which hedge has been taken

- (a) Mutual Funds may enter into plain vanilla Interest Rate Swaps (IRS) for hedging purposes. The value of the notional principal in such cases must not exceed the value of respective existing assets being hedged by the scheme.
- (b) In case of participation in IRS is through over the counter transactions, the counter party has to be an entity recognized as a market maker by RBI and exposure to a single counterparty in such transactions should not exceed 10% of the net assets of the scheme. However, if mutual funds are transacting in IRS through an electronic trading platform offered by the Clearing Corporation of India Ltd. (CCIL) and CCIL is the central counterparty for such transactions guaranteeing settlement, the single counterparty limit of 10% shall not be applicable.
- Exposure due to derivative positions taken for hedging purposes in excess of the underlying position against which the hedging position has been taken, shall be treated under the limits mentioned in point 1.
- Definition of Exposure in case of Derivative Positions - Each position taken in derivatives shall have an associated exposure as defined under. Exposure is the maximum possible loss that may occur on a position. However, certain derivative positions may theoretically have unlimited possible loss. Exposure in derivative positions shall be computed as follows:

Position	Exposure
Long Future	Futures Price * Lot Size * Number of Contracts
Short Future	Futures Price * Lot Size * Number of Contracts
Option bought	Option Premium Paid * Lot Size * Number of Contracts

Exposure limit for participating in Interest Rate Futures as per paragraph 12.25.9 of the Master Circular

i. To reduce interest rate risk in a debt portfolio, mutual funds may hedge the portfolio or part of the portfolio (including one or more securities) on weighted average modified duration basis by using Interest Rate Futures (IRFs). The maximum extent of short position that may be taken in IRFs to hedge interest rate risk of the portfolio or part of the portfolio, is as per the formula given below:

$$\frac{(\text{Portfolio Modified Duration} * \text{Market Value of the Portfolio})}{(\text{Futures Modified Duration} * \text{Future Price/ PAR})}$$

ii. In case the IRF used for hedging the interest rate risk has different underlying security(s) than the existing position being hedged, it would result in imperfect hedging.

iii. Imperfect hedging using IRFs may be considered to be exempted from the gross exposure, upto maximum of 20% of the net assets of the scheme, subject to the following:

a) Exposure to IRFs is created only for hedging the interest rate risk based on the weighted average modified duration of the bond portfolio or part of the portfolio.

b) Mutual Funds are permitted to resort to imperfect hedging, without it being considered under the gross exposure limits, if and only if, the correlation between the portfolio or part of the portfolio (excluding the hedged portions, if any) and the IRF is atleast 0.9 at the time of initiation of hedge. In case of any subsequent deviation from the correlation criteria, the same may be rebalanced within 5 business days and if not

rebalanced within the timeline, the derivative positions created for hedging shall be considered under the gross exposure computed in terms of Paragraph 3 of 12.24 of the Master Circular. The correlation should be calculated for a period of last 90 days.

Explanation: If the fund manager intends to do imperfect hedging upto 15% of the portfolio using IRFs on weighted average modified duration basis, either of the following conditions need to be complied with:

- i. The correlation for past 90 days between the portfolio and the IRF is at least 0.9 or
- ii. The correlation for past 90 days between the part of the portfolio (excluding the hedged portions, if any) i.e. at least 15% of the net asset of the scheme (including one or more securities) and the IRF is at least 0.9.

c) At no point of time, the net modified duration of part of the portfolio being hedged should be negative.

d) The portion of imperfect hedging in excess of 20% of the net assets of the scheme should be considered as creating exposure and shall be included in the computation of gross exposure in terms of Paragraph 12.24 of the Master Circular.

iv. The basic characteristics of the scheme should not be affected by hedging the portfolio or part of the portfolio (including one or more securities) based on the weighted average modified duration.

Explanation: In case of long term bond fund, after hedging the portfolio based on the modified duration of the portfolio, the net modified duration should not be less than the minimum modified duration of the portfolio as required to consider the fund as a long term bond fund.

v. The interest rate hedging of the portfolio should be in the interest of the investors.

- Mutual Fund schemes (excluding ETFs and Index funds) can write Call options under a covered strategy for constituent stocks of NIFTY 50 and BSE SENSEX subject to the following:

a) The total notional value (taking into account strike price as well as premium value) of call options written by a scheme shall not exceed 15% of the total market value of equity shares held in that scheme.

b) The total number of shares underlying the call options written shall not exceed 30% of the unencumbered shares of a particular company held in the scheme. The unencumbered shares in a scheme shall mean shares that are not part of Securities Lending and Borrowing Mechanism (SLBM), margin or any other kind of encumbrances.

c) At all points of time the Mutual Fund scheme shall comply with the provisions at points (a) and (b) above. In case of any passive breach of the requirement at paragraph (a) above, the respective scheme shall have 7 trading days to rebalance the portfolio. During the rebalancing period, no additional call options can be written in the said scheme.

d) In case a Mutual Fund scheme needs to sell securities on which a call option is written under a covered call strategy, it must ensure compliance with paragraphs (a) and (b) above while selling the securities.

e) In no case, a scheme shall write a call option without holding the underlying equity

shares. A call option can be written only on shares which are not hedged using other derivative contracts.

- f) The premium received shall be within the requirements stated in paragraph 12.25 of the Master Circular i.e. the total gross exposure related to option premium paid and received must not exceed 20% of the net assets of the scheme.
 - g) The exposure on account of the call option written under the covered call strategy shall not be considered as exposure in terms of paragraph 201012.24 of the Master Circular.
 - h) The call option written shall be marked to market daily and the respective gains or losses factored into the daily NAV of the respective scheme(s) until the position is closed or expired.
- The Scheme will comply with any other Regulation applicable to the investments of mutual funds from time to time.
 - A mutual fund may invest in the units of REITs and InvITs subject to the following:
 - No mutual fund under all its schemes shall own more than 10% of units issued by a single issuer of REIT and InvIT; and
 - A mutual fund scheme shall not invest-
 - more than 10% of its NAV in the units of REIT and InvIT; and
 - more than 5% of its NAV in the units of REIT and InvIT issued by a single issuer.

Provided that the limits mentioned in sub-clauses (i) and (ii) above shall not be applicable for investments in case of index fund or sector or industry specific scheme pertaining to REIT and InvIT.

The Trustee may alter the above restrictions from time to time to the extent that changes in the Regulations may allow or as deemed fit in the general interest of the unit holders.

All investment restrictions shall be applicable at the time of making investment.

The Trustee /AMC may alter the above stated limitations from time to time, and also to the extent the SEBI (MF) Regulations change, so as to permit the Scheme to make their investments in the full spectrum of permitted investments in order to achieve their investment objective.

C. Fundamental Attributes

Following are the Fundamental Attributes of the Scheme, in terms of Regulation 18 (15A) subject to compliance with sub-regulation (26) of regulation 25 of the SEBI (MF) Regulations:

(i) Type of Scheme:

For details on type of Scheme, please refer “**Highlights/Summary of The Scheme**”:

(ii) Investment Objective

Main Objective - Please refer “**Highlights/Summary of The Scheme**”

Investment pattern – The tentative portfolio break-up of Equity and Debt and other permitted securities and such other securities as may be permitted by the SEBI from time to time with minimum and maximum asset allocation, while retaining the option to alter the asset allocation for a short term period on defensive considerations.

(iii) Terms of Issue

a) Liquidity provisions such as listing, repurchase, redemption:

Listing: Being an open ended scheme, the Units of the Scheme will not be listed on any stock exchange, at present. The Trustee may, at its sole discretion, cause the Units under the Scheme to be listed on one or more Stock Exchanges. Notification of the same will be made through Customer Service Centres of the AMC and as may be required by the respective Stock Exchanges.

For details on redemption, repurchase of units, please refer Redemption of Units.

b) Aggregate fees and expenses charged to the Scheme:

For details on redemption of units, please refer **Section “FEES AND EXPENSES”**

c) Any safety net or guarantee provided:

The Scheme does not provide guaranteed or assured return

Changes in Fundamental Attributes:

In accordance with Regulation 18(15A) of the SEBI (Mutual Funds) Regulations, 1996 and paragraph 1.14.1.4 of the Master Circular, the Trustees shall ensure that no change in the fundamental attributes of the Scheme(s) and the Plan(s) / Option(s) thereunder or the trust or fee and expenses payable or any other change which would modify the Scheme(s) and the Plan(s) / Option(s) thereunder and affect the interests of Unitholders is carried out unless it complies with sub-regulation (26) of regulation 25 of these regulations as follows:

- An application has been made with SEBI and views/comments of SEBI are sought on the proposal for fundamental attribute changes;
- An addendum to the existing SID shall be issued and displayed on AMC website immediately,
- SID shall be revised and updated immediately after completion of duration of the exit option (not less than 30 days),
- A public notice shall be given in respect of such changes in one English daily newspaper having nationwide circulation as well as in a newspaper published in the language of region where the Head Office of the Mutual Fund is situated, and the Unitholders are given an option for a period of 30 days to exit at the prevailing Net Asset Value without any exit load.

D. Other Scheme Specific Disclosures:

Listing and transfer of units	Listing: Being an open ended scheme, the Units of the Scheme will not be listed on any stock
--------------------------------------	---

	<p>exchange, at present. The Trustee may, at its sole discretion, cause the Units under the Scheme to be listed on one or more Stock Exchanges. Notification of the same will be made through Customer Service Centres of the AMC and as may be required by the respective Stock Exchanges.</p> <p>Transfer: Pursuant to paragraph 14.4.4 of the Master Circular, the Units of the Scheme can be transferred freely in demat form or in such form as may be permitted under SEBI Regulations and guidelines, as amended from time to time.</p>
Dematerialization of units	<p>The asset management company shall issue units in dematerialized form to a unit holder in a scheme within two business days of the receipt of request from the unit holder subject to receipt of complete documents and details from the investor.</p> <p>Unit holders can convert their existing physical units (represented by statement of account) into dematerialized form, for further details, please refer to SAI.</p>
Policy for declaration of Income Distribution cum capital withdrawal (IDCW Policy)	<p>(i) Growth Option</p> <p>The Scheme will not declare any IDCW under this option. The income earned by the Scheme will remain reinvested in the Scheme and will be reflected in the Net Asset Value. This option is suitable for investors who are not looking for regular income but who have invested with the intention of capital appreciation.</p> <p>(ii) IDCW Option</p> <p>This option is suitable for investors seeking income through IDCW declared by the Scheme. The Trustee may approve the distribution of IDCW by AMC out of the distributable surplus under this Option. The remaining distributable surplus after considering the IDCW and tax, if any, payable there on will be ploughed back in the Scheme and be reflected in the NAV.</p> <p>(iii) IDCW Payout:</p> <p>As per the SEBI (MF) Regulations, the IDCW warrants shall be dispatched to the Unit Holders, within 7 business days from the</p>

record date. IDCW will be payable to those Unit Holders whose names appear in the Register of Unit Holders on the date (Record Date). IDCW will be paid by cheque, net of taxes as may be applicable. Unit Holders will also have the option of direct payment of IDCW to the bank account. The cheques will be drawn in the name of the sole/first holder and will be posted to the Registered address of the sole/first holder as indicated in the original application form. To safeguard the interest of Unit Holders from loss or theft of IDCW cheques, investors should provide the name of their bank, branch and account number in the application form. IDCW cheques will be sent to the Unit Holder after incorporating such information. The minimum amount for IDCW payout shall be Rs.100, else IDCW would be mandatorily reinvested

(iv) IDCW Reinvestment:

The investors opting for IDCW Option may choose to reinvest the IDCW to be received by them in additional Units of the Scheme. Under this provision, the IDCW due and payable to the Unitholders will be compulsorily and without any further act by the Unitholders reinvested in the Scheme (under the IDCW Option, at the first ex- IDCW NAV). The IDCW so reinvested shall be constructive payment of IDCW to the Unitholders and constructive receipt of the same amount from each Unitholder for reinvestment in Units. On reinvestment of IDCW, the number of Units to the credit of Unitholder will increase to the extent of the IDCW reinvested IDCW by the NAV applicable on the day of reinvestment, as explained above.

(V) IDCW Transfer

IDCW Transfer facility will be available under the scheme.

The designated schemes (source and target schemes) for this facility are as given below:

Source schemes - all schemes where IDCW option is available [except (i) Exchange Traded Funds (ETFs) and (ii) separate plans under ICICI Prudential Overnight Fund for

deployment of unclaimed amounts viz ICICI Prudential Overnight Fund - Unclaimed Redemption, ICICI Prudential Overnight Fund - Unclaimed IDCW, ICICI Prudential Overnight Fund - Unclaimed Redemption Investor Education and ICICI Prudential Overnight Fund - Unclaimed IDCW Investor Education]

Target schemes- all open ended schemes where subscription is allowed [except (i) Exchange Traded Funds (ETFs) and (ii) separate plans under ICICI Prudential Overnight Fund for deployment of unclaimed amounts viz ICICI Prudential Overnight Fund - Unclaimed Redemption, ICICI Prudential Overnight Fund - Unclaimed IDCW, ICICI Prudential Overnight Fund - Unclaimed Redemption Investor Education and ICICI Prudential Overnight Fund - Unclaimed IDCW Investor Education]

Note: Investors are requested to note that any change in IDCW sub-option, due to additional investment or on the basis of a request received from the investor, will be applicable to all existing units in the IDCW option of the Scheme under the respective folio.

The Trustee reserves the right to declare IDCW under the IDCW option of the Scheme depending on the distributable surplus available under the Scheme. It should, however, be noted that actual distribution of IDCW and the frequency of distribution will depend, inter-alia, on the availability of distributable surplus and will be entirely at the discretion of the Trustee.

The IDCW will be distributed in accordance with Chapter 11 of the Master Circular on the procedure for IDCW Distribution.

Equalization Reserve: When units are sold, and sale price (NAV) is higher than face value of the unit, a portion of sale price that represents realized gains is credited to an Equalization Reserve Account and which can be used to pay IDCW. IDCW can be distributed out of investors capital (Equalization Reserve), which is part of sale price that represents realized gains.

<p>Allotment (Detailed procedure)</p>	<p>The AMC shall allot the units to the applicant whose valid application has been accepted and funds have been credited to the account. The AMC shall also send confirmation specifying the number of units allotted to the applicant by way of email and/or SMS's to the applicant's registered email address and/or registered mobile number not later than 5 business days from the date of receipt of the request from the unitholders</p> <p>Further, the asset management company shall issue units in dematerialized form to a unit holder in a scheme within two business days of the receipt of request from the unit holder.</p>
<p>Refund</p>	<p>Not Applicable for ongoing schemes.</p>
<p>Who can Invest? (This is an indicative list and investors shall consult their financial advisor to ascertain whether the scheme is suitable to their risk profile.)</p>	<p>The following persons are eligible and may apply for subscription to the Units of the Scheme (subject, wherever relevant, to purchase of units of Mutual Funds being permitted under respective constitutions and relevant statutory regulations):</p> <ul style="list-style-type: none"> • Resident adult individual either singly or jointly (not exceeding four) • Minor through parent/lawful guardian • Companies, Bodies Corporate, Public Sector Undertakings, association of persons or bodies of individuals and societies registered under the Societies Registration Act, 1860 (so long as the purchase of units is permitted under the respective constitutions) • Religious and Charitable Trusts (eligible to invest in certain securities) under the provisions of 11(5) of the Income-tax Act, 1961 read with Rule 17C of Income-Tax Rules, 1962 subject to the provisions of the respective constitutions under which they are established permits to invest • Any other trust, including private trusts as may be permitted by their respective Regulator • Non-Government Organizations as may be permitted by their respective Regulator. • Partnership Firms • Karta of Hindu Undivided Family (HUF) • Banks & Financial Institutions • Non-resident Indians/Persons of Indian origin residing abroad (NRIs) on full

	<p>repatriation basis or on non-repatriation basis</p> <ul style="list-style-type: none"> • Army, Air Force, Navy and other para-military funds • Scientific and Industrial Research Organizations • Mutual fund Schemes • Alternate Investment Funds, Portfolio Management Services, etc. • Authorized Government entities as may be approved by State Governments or Central Government • EPFOs • Other individuals/institutions/body corporate etc. or any other permitted category of investors <p>Investors are requested to ensure compliance with the regulatory guidelines applicable to them, while making such investments.</p> <p>Every investor, depending on any of the above category under which he/she/ it falls, is required to provide the relevant documents along with the application form as may be prescribed by AMC.</p>
<p>Who cannot invest?</p>	<p>The following persons are not eligible to invest in the Scheme:</p> <ul style="list-style-type: none"> • A person who falls within the definition of the term “U.S. Person” under ‘Regulation S’ promulgated under the Securities Act of 1933 of the United States, as amended, and corporations or other entities organised under the laws of the U.S. are not eligible to invest in the schemes and apply for subscription to the units of the schemes, except for lump sum subscription, systematic transactions and switch transactions requests received from Non-resident Indians/Persons of Indian origin who at the time of such investment, are present in India and submit a physical transaction request along with such documents as may be prescribed by ICICI Prudential Asset Management Company Limited (the AMC)/ICICI Prudential Trust Limited (the Trustee) from time to time.

	<p>The AMC shall accept such investments subject to the applicable laws and such other terms and conditions as may be notified by the AMC/the Trustee. The investor shall be responsible for complying with all the applicable laws for such investments.</p> <p>The AMC reserves the right to put the transaction requests on hold/reject the transaction request/reverse allotted units, as the case may be, as and when identified by the AMC, which are not in compliance with the terms and conditions notified in this regard.</p> <ul style="list-style-type: none"> • A person who is resident of Canada • Such other individuals/institutions/body corporate etc., as may be decided by the AMC from time to time.
<p>How to Apply and other details</p>	<p>Please refer to the SAI for detailed process (physical and online) with respect to additional/ongoing purchase, Investments by NRIs (Non-Resident Indian), FPIs (Foreign Portfolio Investors) and Foreign Investors, Joint Applications etc. Investors can also read further details in the application form available on the AMC website under Downloads -> Forms on the following link:</p> <p>Downloads - Application Forms, SID, KIM, SAI & Others ICICI Prudential Mutual Fund</p> <p>Link for Official Points of Acceptance: SID related information (icicipruamc.com)</p> <p>Currently, the Mutual Fund / AMC has not appointed any collecting bankers for accepting application forms for existing schemes. The application forms will be accepted at any of the Investor Service Centres of the AMC or the designated branch offices of Computer Age Management Services Ltd. (CAMS).</p> <p>Further, for details of R&T, Official Points of Acceptance please refer to the last section of the of the SID.</p> <p>It is mandatory for applicants to mention their bank account numbers in their applications for purchase or redemption of Units. If the Unit-</p>

	<p>holder fails to provide the Bank mandate, the request for redemption would be considered as not valid and the Scheme retains the right to withhold the redemption until a proper bank mandate is furnished by the Unit-holder and the provision with respect of penal interest in such cases will not be applicable/ entertained.</p> <p>Kindly refer to below link for the list of official points of acceptance, collecting banker details etc.</p> <p>SID related information (icicipruamc.com)</p>
<p>The policy regarding reissue of repurchased units, including the maximum extent, the manner of reissue, the entity (the Scheme or the AMC) involved in the same.</p>	<p>Not Applicable</p>
<p>Restrictions, if any, on the right to freely retain or dispose of units being offered.</p>	<p>Subscription: In the interest of the investors and in order to protect the portfolio from market volatility, the Trustees reserve the right to limit or discontinue subscriptions under the Scheme for a specified period of time or till further notice.</p> <p>Redemption: Suspension or restriction of repurchase/ redemption facility under any Scheme of the mutual fund shall be made applicable only after obtaining the approval from the Boards of Directors of the AMC and the Trustees. After obtaining the approval from the AMC Board and the Trustees, intimation would be sent to SEBI in advance providing details of circumstances and justification for the proposed action shall also be informed.</p>
<p>Cut off timing for subscriptions/ redemptions/ switches</p> <p>This is the time before which your application (complete in all respects) should reach the official points of acceptance.</p>	<p>The below cut-off timings and applicability of NAV shall be applicable in respect of valid applications received at the Official Point(s) of Acceptance on a Business Day:</p> <p>For Purchase of any amount:</p> <ul style="list-style-type: none"> • In respect of valid applications received upto 3.00 p.m. and where the funds for the entire amount are available for utilization before the cut-off time i.e. 3.00 p.m. - the closing NAV of the day shall be applicable. • In respect of valid applications received

after 3.00 p.m. and where the funds for the entire amount are available for utilization on the same day or before the cut-off time of the next business day - the closing NAV of the next Business Day shall be applicable.

- Irrespective of the time of receipt of application, where the funds for the entire amount are available for utilization before the cut-off time on any subsequent Business Day - the closing NAV of such subsequent Business Day shall be applicable.

For Switch-ins of any amount:

In case of switch from one scheme to another scheme received before cut-off i.e. upto 3 p.m. having business day for both the schemes, closing NAV of the Business Day shall be applicable for switch-out scheme and for Switch-in scheme, the closing NAV of the Business Day shall be applicable, on which funds are available for utilization in the switch-in scheme (allocation shall be in line with the redemption payout).

To clarify, for investments through systematic investment routes such as Systematic Investment Plans (SIP), Systematic Transfer Plans (STP), Flex STP, Capital Appreciation STP, IDCW Transfer, Trigger etc. the units will be allotted as per the closing NAV of the day on which the funds are available for utilization by the Target Scheme irrespective of the installment date of the SIP, STP or record date of IDCW etc.

- *“Switch Out” shall be treated as redemption application and accordingly, closing NAV of the day will be applicable based on the cut-off time for redemption followed for various type of schemes.*

- *“Switch In” shall be treated as purchase application and accordingly for unit allotment, closing NAV of the day will be applicable on which the funds are available for utilization.*

	<p>Redemptions including switch-outs: In respect of valid applications received upto 3.00 pm on a business day by the Mutual Fund, same day's closing NAV shall be applicable.</p> <p>In respect of valid applications received after the cut off time by the Mutual Fund: the closing NAV of the next business day.</p> <p>e.g.: If an investor submits redemption request at 2.00 pm on Monday, the same shall be processed at the closing NAV of Monday. If an investor submits redemption request at 3.30 pm on Monday, the same shall be processed at the closing NAV of Tuesday.</p>
<p>Minimum amount for purchase/redemption/switches</p>	<p>Rs. 5,000/- (plus in multiple of Re. 1/-) Minimum Purchase Amount for switch ins: Rs. 5,000/- and any amount thereafter</p> <p>Minimum additional application amount Rs. 1,000 (plus in multiple of Re. 1/-) Minimum additional application amount for switch ins – Rs. 1,000 and any amount thereafter.</p> <p>For applications under systematic transactions, investors should refer to the details regarding the amount in the section 'Special product/facility available on ongoing basis'.</p> <p>Minimum Redemption Amount: Any amount</p>
<p>Accounts Statements</p>	<ol style="list-style-type: none"> 1. The Consolidated Account Statement (CAS) for each calendar month will be issued on or before fifteenth day of succeeding month to the investors who have provided valid Permanent Account Number (PAN). Further, CAS will be sent via email where any of the folios consolidated has an email id or to the email id of the first unit holder as per KYC records. 2. For folios not included in the Consolidated Account Statement (CAS), the AMC shall henceforth issue account

statement to the investors on a monthly basis, pursuant to any financial transaction in such folios on or before fifteenth day of succeeding month.

3. The AMC shall send an allotment confirmation specifying the units allotted by way of email and/or SMS within 5 Business Days of receipt of valid application/transaction to the Unit holders registered e-mail address and/ or mobile number.
4. In case of a specific request received from the unit holder, the AMC shall provide the account statement to the investors within 5 business days from the receipt of such request.
5. In the case of joint holding in a folio, the first named Unit holder shall receive the CAS/account statement. The holding pattern has to be same in all folios across Mutual Funds for CAS.

Further, in case if no transaction has taken place in a folio during the period of six months ended September 30 and March 31, the CAS detailing the holdings across all Schemes of all mutual funds, shall be emailed at the registered email address of the unitholders on half yearly basis, on or before twenty first day of succeeding month, unless a specific request is made to receive the same in physical form.

The asset management company shall issue units in dematerialized form to a unit holder in a scheme within two business days of the receipt of request from the unit holder.

Each CAS issued to the investors shall also provide the total purchase value / cost of investment in each scheme.

Further, CAS shall be issued for the half-year (September/ March).

Such half-yearly CAS shall be issued to all MF investors, excluding those investors who do not have any holdings in MF schemes and where no commission against their investment

	<p>has been paid to distributors, during the concerned half-year period.</p> <p>In case of the units are held in dematerialized (demat) form, the statement of holding of the beneficiary account holder will be sent by the respective Depository Participant periodically.</p> <p>The dispatch of CAS by the depositories would constitute compliance by the AMC/ the Mutual Fund with the requirement under Regulation 36(4) of SEBI (Mutual Funds) Regulations.</p> <p>The AMC reserves the right to furnish the account statement in addition to the CAS, if deemed fit in the interest of investor(s).</p>
IDCW	The payment of IDCW to the unitholders shall be made within seven business days from the record date.
Redemption	<p>The redemption or repurchase proceeds shall be dispatched to the unitholders within 3 business days from the date of redemption or repurchase.</p> <p>Further, AMFI has published a list of exceptional circumstances for schemes unable to transfer redemption or repurchase proceeds to investors within the limit specified above for transfer of redemption or repurchase proceeds to the unitholders in such exceptional circumstances. The said list is available on AMFI website.</p>
Bank Mandate	<p>For all fresh purchase transactions made by means of a cheque, if cheque provided alongwith fresh subscription/new folio creation does not belong to the bank mandate opted in the application form, any one of the following documents needs to be submitted.</p> <ol style="list-style-type: none"> 1. Original cancelled cheque having the First Holder Name and bank account number printed on the cheque. 2. Original bank statement reflecting the First Holder Name, Bank Account Number and Bank Name as specified in the application. 3. Photocopy of the bank statement duly attested by the bank manager/ authorized personnel with

designation, employee number and bank seal.

4. Photocopy of the bank pass book duly attested by the bank manager/ authorized personnel with designation, employee number and bank seal.
5. Photocopy of the bank statement/passbook/cheque duly attested by the AMC branch officials after verification of original bank statement/passbook shown by the investor or their representative.
6. Confirmation by the bank manager with seal, designation and employee number on the bank's letter head confirming the name of investor, account type, bank branch, MICR and IFSC code of the bank branch. The letter should not be older than 3 months.

This condition is also applicable to all purchase transactions made by means of a Demand Draft. In case the application is not accompanied by the aforesaid documents, the AMC reserves the right to reject the application, also the AMC will not be liable in case the redemption/IDCW proceeds are credited to wrong account in absence of above original documents.

In case the bank account details are not mentioned or found to be incomplete or invalid in a purchase application, then the AMC may consider the account details as appearing in the investment amount cheque and the same shall be updated under the folio as the payout bank account for the payment of redemption/IDCW amount etc. The aforementioned updation of bank account shall however be subject to compliance with the third party investment guidelines issued by Association of Mutual Funds in India (AMFI) from time to time.

The AMC reserves the right to call for any additional documents as may be required, for processing of such transactions with missing/incomplete/invalid bank account details. The AMC also reserves the right to

	reject such applications.
Delay in payment of redemption / repurchase proceeds/IDCW	The Asset Management Company shall be liable to pay interest to the unitholders at @ 15% per annum as specified vide paragraph 14.2 of Master Circular for the period of such delay.
Unclaimed Redemption and Income Distribution cum Capital Withdrawal Amount	The treatment of unclaimed redemption & IDCW amount will be as per paragraph 14.3 of the master circular.
Disclosure w.r.t investment by minors	<p>A minor can invest through his/her parent/lawful guardian.</p> <p>Payment for investment by any mode shall be accepted from the bank account of the minor, parent or legal guardian of the minor, or from a joint account of the minor with parent or legal guardian. For existing folios, the AMCs shall insist upon a Change of Pay-out Bank mandate before redemption is processed.</p> <p>For further details, please refer to SAI</p>
Ongoing Offer Period This is the date from which the Scheme will reopen for subscriptions/redemptions after the closure of the NFO period.	The Scheme is an open ended scheme and hence is available for subscription and redemption on an ongoing basis on every business day at NAV based prices. The Units of the Scheme will not be listed on any exchange, for the present.
Ongoing price for subscription (purchase)/switch-in (from other Schemes/plans of the mutual fund) by investors This is the price you need to pay for purchase/switch-in.	<p>The purchase price of the Units will be based on the Applicable NAV subject to the applicable stamp duty.</p> <p>Purchase Price = Applicable NAV (for respective plan and option of the Scheme) (</p> <p>Example: An investor invests Rs 20,000/- and the current NAV is Rs. 20/- then the purchase price will be Rs. 20/- and the investor receives $20000/20 = 1000$ units.</p> <p>The Scheme shall not charge any entry load.</p>
Any other disclosure in terms of Consolidated Checklist on Standard Observations	<p>Investment by the AMC:</p> <p>From time to time and subject to the SEBI (Mutual Funds) Regulations, 1996, the sponsors, the mutual funds and investment Companies managed by them, their associate companies, subsidiaries of the sponsors and the AMC may invest either directly or indirectly in the Scheme. The funds managed by associates and/ or the AMC may acquire a substantial portion of the</p>

	<p>Scheme. Accordingly, redemption of units held by such funds, associates and sponsors may have an adverse impact on the units of the Scheme because the timing of such redemption may impact the ability of other unitholders to redeem their units.</p> <p>Further, as per the SEBI (Mutual Funds) Regulations, 1996, in case the AMC invests in any of the Scheme managed by it, it shall not be entitled to charge any fees on such investments.</p> <p>The Scheme may invest in other Scheme managed by the AMC or in the Scheme of any other Mutual Funds, provided it is in conformity to the investment objectives of the Scheme and in terms of the prevailing SEBI (Mutual Funds) Regulations, 1996 and guidelines. As per the SEBI (Mutual Funds) Regulations, 1996, no investment management fees will be charged for such investments.</p>
--	--

a. Periodic Disclosures

• Portfolio Disclosures

The AMC shall disclose portfolio of the scheme (along with ISIN) as on the last day of the month / half-year within 10 days from the close of each month / half-year respectively on website of:

AMC i.e. www.icicipruamc.com

AMFI i.e. www.amfiindia.com.

The AMC shall send via email both the monthly and half-yearly statement of scheme portfolio within 10 days from the close of each month / half-year respectively. The AMC shall send the details of the scheme portfolio while communicating the monthly and half-yearly statement of scheme portfolio via email or any other mode as may be communicated by SEBI/AMFI from time to time. The AMC shall provide a feature wherein a link is provided to the investors to their registered email address to enable the investor to directly view/download only the portfolio of schemes subscribed by the said investor. The portfolio disclosure shall also include the scheme risk-o-meter, name of benchmark and risk-o-meter of benchmark.

The AMC shall publish an advertisement in all India edition of at least two daily newspapers, one each in English and Hindi, every half year disclosing the hosting of the half-yearly statement of the scheme's portfolio on the AMC's website and on the website of AMFI.

The unitholders whose e-mail addresses are not registered with the Fund are requested to update / provide their email address to the Fund for updating the

database. The AMC shall provide a physical copy of the statement of scheme portfolio, without charging any cost, on specific request received from a unit holder.

- **Annual Report**

The scheme wise annual report shall be hosted on the website of the AMC and on the website of the AMFI soon as may be possible but not later than four months from the date of closure of the relevant accounts year. The AMC shall publish an advertisement every year in all India edition of at least two daily newspapers, one each in English and Hindi, disclosing the hosting of the scheme wise annual report on the website of the AMC. i.e www.icicipruamc.com

The AMC shall display prominently on the AMC's website link of the scheme wise annual report and physical copy of the same shall be made available to the unitholders at the registered / corporate office of the AMC at all times.

- **Half – Yearly Financial Results**

The AMC shall within one month from the close of each half year, that is on 31st March and on 30th September, host a soft copy of its unaudited financial results on their website i.e. www.icicipruamc.com. Further, the AMC shall publish an advertisement disclosing the hosting of such financial results on their website, in atleast one English daily newspaper having nationwide circulation and in a newspaper having wide circulation published in the language of the region where the Head Office of the mutual fund is situated.

- **Disclosure on Riskometers and Scheme Summary Document (SSD)**

In accordance with paragraph 17.4 of the master circular Risk-o-meter shall be evaluated on a monthly basis and Mutual Funds/AMCs shall disclose the Risk-o-meter along with portfolio disclosure for all their schemes on their respective website and on AMFI website within 10 days from the close of each month. Any change in risk-o-meter of the Scheme or its benchmark shall be communicated by way of Notice cum Addendum and by way of an e-mail or SMS to unitholders of that particular scheme.

Risk-o-meter shall have following six levels of risk for the Scheme

- i. Low risk
- ii. Low to Moderate risk
- iii. Moderate risk
- iv. Moderately High risk
- v. High - risk and
- vi. Very High risk

The evaluation of risk levels of a scheme shall be done in accordance with the aforesaid circular.

A Scheme Summary Document (SSD) of the Scheme which contains details such as Scheme features, Fund Manager details, investment details, investment objective, expense ratio etc will be made available on the website of the AMC and

AMFI. The SSD will be updated within 5 working days from the date of change or modification in the Scheme.

b. Transaction charges and stamp duty

➤ Transaction charges:

No transaction charges to be levied on the investment amount from transactions/applications (including SIPs) received through distributors (i.e. for Regular Plans). Accordingly, payment of transaction charges to the distributors has been discontinued.

Please refer to SAI for more details.

➤ Stamp Duty:

Pursuant to Notification No. S.O. 1226(E) and G.S.R. 226(E) dated March 30, 2020 issued by Department of Revenue, Ministry of Finance, Government of India, read with Part I of Chapter IV of Notification dated February 21, 2019 issued by Legislative Department, Ministry of Law and Justice, Government of India on the Finance Act, 2019, a stamp duty @ 0.005% of the transaction value would be levied on applicable mutual fund transactions, with effect from July 1, 2020. Accordingly, pursuant to levy of stamp duty, the number of units allotted on purchase transactions (including IDCW reinvestment) to the unitholders would be reduced to that extent.

c. Transparency/NAV Disclosure

The NAV will be calculated and disclosed at the close of every Business Day. NAV will be determined on every Business Day except in special circumstances. NAV of the scheme shall be:

- Prominently disclosed by the AMC under a separate head on the AMC's website (www.icicipruamc.com) by 11.00 p.m. on every business day,
- On the website of Association of Mutual Funds in India - AMFI (www.amfiindia.com) by 11.00 p.m. on every business day, and
- Shall be made available at all Customer Service Centres of the AMC.

As the Scheme is permitted to take exposure to overseas securities, the Scheme requires extended timeline for NAV disclosure to ensure that all securities are valued basis same day valuation. In light of the above, NAV of the Scheme will be declared by 10.00 a.m. on the following business day.

In case the Scheme ceases to hold exposure to any overseas securities during the business day, NAV of the Scheme for that day would continue to be declared on 10.00 am on the following business day. Subsequent to that day, NAV of the relevant scheme shall be declared on 11.00 p.m., on the same day.

In case of any delay, the reasons for such delay would be explained to AMFI and SEBI by the next day. If the NAVs are not available before commencement of

business hours on the following day due to any reason, the Fund shall issue a press release providing reasons and explaining when the Fund would be able to publish the NAVs.

d. Associate Transactions

Please refer to Statement of Additional Information (SAI).

e. Taxation

As per the provisions of the Income-tax Act, 1961 ("the Act"), as proposed to be amended by the Finance (No. 2) Bill, 2024:

Particulars	Tax rates applicable for Resident Investors	Tax rates applicable for non-resident Investors	Mutual Fund
Tax on Dividend/IDCW	Taxable as per applicable tax rates	Taxable as per applicable tax rates	Nil
Equity Mutual Fund - Long term Capital Gains on transfer on or after 23 July 2024 (held for more than 12 months)**	12.5[#]% (Exceeding INR 1.25 Lakhs) without Indexation in case of redemption of units where STT is paid on transfer (u/s 112A)	12.5[#]% (Exceeding INR 1.25 Lakhs) without Indexation in case of redemption of units where STT is paid on transfer (u/s 112A)	Nil
Equity Mutual Fund - Short term Capital Gains on transfer on or after 23 July 2024 (held for not more than 12 months)	20[#]% on redemption of units where STT is paid on transfer (u/s 111A)	20[#]% on redemption of units where STT is paid on transfer (u/s 111A)	Nil

Notes:

- Income of the Mutual Fund is exempt from income tax in accordance with the provisions of Section 10(23D) of the Act.
- Under the terms of the Scheme Information Document, this Scheme is classified as "equity oriented fund".

As per clause (a) of the explanation to section 112A, an "Equity oriented fund" has been defined to mean a fund set up under a scheme of a mutual fund specified under clause (23D) of section 10 and,—

- in a case where the fund invests in the units of another fund which is traded on a recognised stock exchange,—

(A) a minimum of ninety per cent of the total proceeds of such fund is invested in the units of such other fund; and

(B) such other fund also invests a minimum of ninety per cent of its total proceeds in the equity shares of domestic companies listed on a recognised stock exchange; and

(ii) in any other case, a minimum of sixty-five per cent of the total proceeds of such fund is invested in the equity shares of domestic companies listed on a recognised stock exchange

Further it is stated that the percentage of equity shareholding or unit held in respect of the fund, as the case may be, shall be computed with reference to the annual average of the monthly averages of the opening and closing figures

1. If the total income of a resident investor (being individual or HUF) [without considering such Long-term capital Gains / short term capital gains] is less than the basic exemption limit, then such Long-term capital gains/short-term capital gains should be first adjusted towards basic exemption limit and only excess should be chargeable to tax.
2. Non-resident investors may be subject to a separate of tax regime / eligible to benefits under Tax Treaties, depending upon the facts of the case. The same has not been captured above.
3. A rebate of up to Rs. 12,500 is available for resident individuals whose total income does not exceed Rs. 500,000.
4. The Finance Act, 2023 provides a rebate of up to Rs 25,000 for resident individuals opting for taxation under section 115BAC of the Act whose total income does not exceed Rs 700,000

**Aggregate long term capital gains exceeding one lakh twenty-five thousand rupees in a financial year, arising from the transfer of units of an 'equity oriented fund', equity shares and units of business trust are chargeable to tax at 12.5 per cent (plus the applicable surcharge, health and education cess).

#excluding applicable surcharge and health and education cess.

f. Rights of Unitholders
