Part II. INFORMATION ABOUT THE SCHEME

A. How Will The Scheme Allocate Its Assets?

Instruments	Indicative allocations (% of total assets)	
	Minimum	Maximum
Units of Wellington Global Innovation Fund and/or any other similar overseas mutual fund schemes/ ETFs#	95	100
Debt & Money Market Instruments*,	0	5

#It shall be noted 'similar overseas mutual fund schemes/ETFs' shall have investment objective, investment strategy, asset allocation and risk profile/consideration similar to those of Wellington Global Innovation Fund.

List of "similar overseas mutual fund schemes/ETFs":

The scheme may invest in any (but not exclusively) in the below indicative list of offshore ETFs:
iShares Exponential Technologies ETF
BMO MSCI Innovation ETF

*Money Market instruments includes commercial papers, commercial bills, treasury bills, Government securities having an unexpired maturity up to one year, call or notice money, certificate of deposit, usance bills, triparty repo and any other like instruments as specified by the Reserve Bank of India from time to time.

The Scheme shall invest in Units/Securities issued by overseas Mutual Funds or Unit Trusts registered with overseas regulator as may be permissible and described in as may be amended from time to time, within the overall applicable limits. para 12.19 of SEBI Master Circular no. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024 and SEBI circular no. SEBI/HO/IMD/IMD-PoD-1/P/CIR/149 dated November 04, 2024

The Scheme can make overseas investments subject to a maximum of US $ 1 billion per Mutual Fund, within the overall industry limit of US $ 7 billion or such limits as may be prescribed by SEBI from time to time. The Scheme therefore may or may not be able to utilise the limit of USD 1 billion due to the USD 7 billion limit being exhausted by other Mutual Funds. Further, the scheme can make investments in overseas Exchange Traded Fund (ETF(s) subject to a maximum of US $ 300 million per Mutual Fund, within the overall industry limit of US $ 1 billion.

During the NFO, the intended amount for investment in overseas securities is US $100 Million and the intended amount for investment in overseas ETFs is US $1 Million. The said limits shall be valid for a period of six months from the date of closure of NFO. Thereafter the unutilized limit, if any, shall not be available to the Mutual Fund for investment in Overseas securities / Overseas ETFs and shall be available towards the unutilized industry wide limits. Further investments after the period of six months from the date of closure of NFO will follow the norms for ongoing schemes.

The Scheme may invest upto 5% in units of mutual fund schemes which invest predominantly in the money market securities and / or Debt Schemes of Kotak Mahindra Mutual Fund.

As per para 12.24 of SEBI Master Circular no. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024The cumulative gross exposure across all asset classes should not exceed 100% of the net assets of the scheme.

The Scheme shall not invest in derivatives, securitized debt or engage in short selling. The underlying Fund may have exposure in foreign securities, derivatives, securitized debt and engage in short selling as per respective funds SID's.

The Scheme will not invest in corporate bond repos and CE (credit enhanced) or SO (structured obligations) structures.

Apart from the investment restrictions, the Scheme follows certain internal norms vis-à-vis limiting exposure to scrips, sectors, etc. within the above-mentioned restrictions, and these are subject to review from time to time.

Portfolio Rebalancing:

As per para 2.9 of SEBI Master Circular no. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024, in the event of any deviation from mandated asset allocation mentioned above, due to passive breaches, rebalancing period will be Thirty (30) business days. In case the portfolio is not rebalanced within Thirty (30) business days, justification in writing, including details of efforts taken to rebalance the portfolio shall be placed before the Investment Committee. The Investment Committee, if so desired, can extend the timelines up to sixty (60) business days from the date of completion of mandated rebalancing period. In case the portfolio of the scheme is not rebalanced within the aforementioned mandated plus extended timelines, the AMC shall not launch any new scheme till the time the portfolio is rebalanced and also not levy exit load, if any on the investors exiting the Scheme. However, at all times the portfolio will adhere to the overall investment objective of the Scheme.

Short Term Defensive Consideration

As per Para 1.14.1.2 of SEBI Master Circular no. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024, the asset allocation pattern indicated above may change for a short term period on defensive considerations, keeping in view market conditions, market opportunities, applicable regulations and political and economic factors. These proportions may vary depending upon the perception of the Fund Manager, the intention being at all times to seek to protect the interests of the Unit holders. In case of any deviation, the portfolio shall be rebalanced within 30 calendar days.

B. WHERE WILL THE SCHEME INVEST?

The Scheme shall invest in the following securities as per the limits specified in the asset allocation table of Scheme, subject to SEBI (MF) Regulations.

a. Units of Wellington Global Innovation Fund and/or any other similar overseas mutual fund schemes/ ETFs. The Scheme may, at the discretion of the Investment Manager, also invest in the units/ shares of other similar overseas mutual fund schemes/ETFs.

   It shall be noted 'similar overseas mutual fund schemes/ETFs' shall have investment objective, investment strategy, asset allocation and risk profile/consideration similar to those of Wellington Global Innovation Fund.
b. Units of Mutual Fund Schemes;
c. Reverse repos in such Government Securities as may be permitted by RBI;
d. Short Term Deposits of banks (both public and private sector) and development financial institutions to the extent permissible under SEBI Regulations;
e. Money market instruments permitted by SEBI/RBI, having maturities of up to one year or in alternative investment for the call money market as may be provided by the RBI to meet the liquidity requirements;
f. Certificate of Deposits (CDs);
g. Commercial Paper (CPs);
h. Triparty repo on Government securities or treasury bills or repo or any alternative investment as may be provided by RBI; and

Note: The scheme will invest in direct plans of underlying schemes, if available or the best vehicle option in the interest of unit holders as per fund manager.

C. WHAT ARE THE INVESTMENT STRATEGIES?

The Scheme follows a passive investment strategy and will predominantly invest in Units of Wellington Global Innovation Fund and/or any other similar overseas mutual fund schemes/ETFs. The AMC/ Underlying Scheme does not make any judgments about the investment merit of the Fund nor will it attempt to apply any economic, financial or market analysis. The Scheme shall invest in Units of the Fund, except to meet its liquidity requirements. The scheme would also invest in units of Liquid/ debt schemes, debt and money market instruments as stated in the asset allocation table.

Portfolio Turnover: Portfolio Turnover is a term used to measure the volume of trading that occurs in a Scheme's portfolio during a given time period. The scheme being an open ended scheme, it is expected that there would be frequent subscriptions and redemptions. Hence, it is difficult to estimate with any reasonable measure of accuracy, the likely turnover in the portfolio. If trading is done frequently there may be an increase in transaction cost such as brokerage paid etc. The fund manager will endeavour to optimize portfolio turnover to maximize gains and minimize risks keeping in mind the cost associated with it. The Scheme has no specific target relating to portfolio turnover.

D. HOW WILL THE SCHEME BENCHMARK ITS PERFORMANCE?

MSCI All Country World Index Total Return Index (TRI)

Justification for adoption of benchmark:
The composition of the benchmark is such that it is most suited for comparing the performance of the scheme. The AMC/Trustees reserves right to change benchmark in future for measuring performance of the scheme and as per the guidelines and directives issued by SEBI from time to time.

Part III- OTHER DETAILS

A. COMPUTATION OF NAV

The AMC shall compute NAV of the Units of the Scheme will be computed by dividing the net assets of the Scheme by the number of Units outstanding on the valuation date.

The AMC shall value its investments according to the valuation norms (Valuation Policy includes computation of NAV in case of investment in foreign securities), as specified in the Eighth Schedule of the Regulations, or such guidelines / recommendations as may be specified by SEBI from time to time. The broad valuation norms are detailed in the Statement of Additional Information.

NAV of Units under the Scheme will be calculated as shown below:

NAV =	Market or Fair Value of Scheme's investments	+	Current assets including Accrued Income	-	Current Liabilities and provisions including accrued expenses
	No. of Units outstanding under the Scheme/Option.				

Computation of NAV will be done after taking into account IDCW paid, if any, and the distribution tax thereon, if applicable. Therefore, once IDCW are distributed under the IDCW Option, the NAV of the Units under the IDCW Option would always remain lower than the NAV of the Units issued under the Growth Option. The income earned and the profits realized in respect of the Units issued under the Growth Option remain invested and are reflected in the NAV of the Units.

The valuation of other domestic investment is already explained under the heading "INVESTMENT VALUATION NORMS FOR SECURITIES AND OTHER ASSETS covered under SAI."

As the Scheme will primarily invest in overseas mutual fund scheme, there is bound to be difference in time zones as compared to India and this will have an effect on the computation of NAV. The closing values for NAV computation for any given day in India may be available only after the prescribed time limit for declaration of NAV in India. The NAV of Kotak Global Innovation Fund of Fund for any given day shall be determined only when the NAV (for that day) of the overseas scheme in which the Scheme invests is available.

The NAVs of the Scheme will be calculated and updated on next Business day on AMFI's website www.amfiindia.com by 10.00 a.m.The NAV shall be computed upto four decimals. The NAV of Direct Plan will be different than the NAV of Regular Plan.

Since this Scheme invests in International Markets, there would be time zone differences between transactions by investors and investments in/sale of securities. As a result, the AMC shall update the NAV of the scheme by 10 am on the subsequent business day.

Illustration for Computation of NAV:

$$\text{NAV} = \frac{\text{Market or Fair Value of Scheme's investments} + \text{Current assets including Accrued Income} - \text{Current Liabilities and provisions including accrued expenses}}{\text{No. of Units outstanding under the Scheme/Option.}}$$

$$10.109 = \frac{10{,}01{,}00{,}000.00 + 10{,}00{,}000.00 - 10{,}000.00}{1{,}00{,}00{,}000.00} \qquad \frac{10{,}10{,}90{,}000.00}{1{,}00{,}00{,}000.00}$$

As required under the Regulations, the asset management company shall ensure that the repurchase price of an open ended scheme shall not be lower than 95% of the Net Asset Value.

For other details such as policies w.r.t computation of NAV, rounding off, investment in foreign securities, procedure in case of delay in disclosure of NAV etc. refer to SAI.

B. NEW FUND OFFER (NFO) EXPENSES

These expenses are incurred for the purpose of various activities related to the NFO like sales and distribution fees paid marketing and advertising, registrar expenses, printing and stationary, bank charges etc.

The New Fund Offer expenses of the scheme were borne by the AMC.

C. ANNUAL SCHEME RECURRING EXPENSES

These are the fees and expenses for operating the scheme. These expenses include Investment Management and Advisory Fee charged by the AMC, Registrar and Transfer Agents' fee, marketing and selling costs etc. as given in the table below:

In terms of the SEBI Circular no. Para10.1.12of SEBI Master Circular no. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024, all fees and expenses charged in a direct plan (in percentage terms) under various heads including the investment and advisory fee shall not exceed the fees and expenses charged under such heads in a regular plan.

However, Direct Plan shall have a lower expense ratio than the Regular Plan. The expenses would exclude distribution expenses, commission, etc and no commission for distribution of Units will be paid / charged under Direct Plan.

<u>Additional expenses which may be charged to the Scheme</u>

The following additional expenses may be charged to the Schemes under Regulation 52 (6A), namely-

- Brokerage and transaction cost incurred for the purpose of execution shall be charged to the schemes (a) upto 12 bps and 5 bps for cash market transactions and derivatives transactions respectively. Any payment towards brokerage & transaction costs, over and above the said 12 bps and 5 bps for cash market transactions and derivatives transactions respectively may be charged to the Scheme within the maximum limit of Total Expense Ratio (TER) as prescribed under Regulation 52 of the SEBI (Mutual Finds) Regulations, 1996.
- Expenses not exceeding of 0.30 % of daily net assets, if the new inflows from beyond top 30 cities are at least:
  (i) 30 % of gross new inflows in the scheme; or
  (ii) 15 % of the average assets under management (year to date) of the scheme; whichever is higher.

Provided that if inflows from such cities is less than the higher of sub-clause (i) or sub- clause (ii), such expenses on daily net assets of the scheme shall be charged on proportionate basis.
Provided further that expenses charged under this clause shall be utilized for distribution expenses incurred for bringing inflows from such cities.
Provided further that amount incurred as expense on account of inflows from such cities shall be credited back to the scheme in case the said inflows are redeemed within a period of one year from the date of investment.
Provided further that the additional TER can be charged based on inflows only from 'retail investors' (Para 10.1.3 of SEBI Master Circular no. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024, has defined that inflows of amount upto Rs 2,00,000/- per transaction, by individual investors shall be considered as inflows from "retail investor") from beyond top 30 cities.
Provided that the additional commission for beyond top 30 cities shall be paid as trail only.
In case inflows from beyond top 30 cities is less than the higher of (i) or (ii) above, additional TER on daily net assets of the scheme shall be charged as follows:

Daily net assets X 30 basis points X New inflows from individual investors from beyond top 30 cities
----
365* X Higher of (i) or (ii) above

* 366, wherever applicable.

Additional expenses upto 0.05% of daily net assets of the schemes, incurred towards different heads mentioned under Regulation 52 (2) and 52 (4).

With reference to SEBI's letter no. SEBI/HO/ IMD/ IMD-SEC-3/ P/ OW/ 2023/ 5823/ 1 dated February 24, 2023, and AMFI Circular No. CIR/ ARN-23/ 2022-23 March 07, 2023, the B-30 incentive structure for new inflows has been kept in abeyance with effect from March 01, 2023 till the incentive structure is appropriately re-instated by SEBI with necessary safeguards.

Clause 4 of Seventh Schedule to SEBI (Mutual Funds) Regulations, 1996 which restricts investments in mutual fund units upto 5% of net assets and prohibits charging of fees, shall not be applicable to investments in mutual funds in foreign countries made in accordance with guidelines as per para 12.19 of SEBI Master circular no SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024. However, the management fees and other expenses charged by the mutual fund(s) in foreign countries along with the management fee and recurring expenses charged to the domestic mutual fund scheme shall not exceed the total limits on expenses as prescribed under Regulation 52(6). Where the scheme is investing only a part of the net assets in the overseas mutual fund(s), the same principle shall be applicable for that part of investment.

TER for the Segregated Portfolio

1. AMC shall not charge investment and advisory fees on the segregated portfolio. However, TER (excluding the investment and advisory fees) can be charged, on a pro-rata basis only upon recovery of the investments in segregated portfolio.
2. The TER so levied shall not exceed the simple average of such expenses (excluding the investment and advisory fees) charged on daily basis on the main portfolio (in % terms) during the period for which the segregated portfolio was in existence.
3. The legal charges related to recovery of the investments of the segregated portfolio may be charged to the segregated portfolio in proportion to the amount of recovery. However, the same shall be within the maximum TER limit as applicable to the main portfolio. The legal charges in excess of the TER limits, if any, shall be borne by the AMC.
4. The costs related to segregated portfolio shall in no case be charged to the main portfolio.

Goods and Services tax:

Goods and Services tax on investment and advisory fees may be charged to the scheme in addition to the maximum limit of TER as prescribed in Regulation 52(6)(c). Goods and Services tax on other than investment and advisory fees, if any, shall be borne by the scheme within the maximum limit of TER as per Regulation 52.

The aforesaid estimates are made in good faith by the Investment Manager and are subject to change inter se among the various heads of expenses and between the Plans. It may also be noted that the total expenses of the Plans will also be subject to change within the overall limits of expenses under Regulation 52. Actual expenses under any head and / or the total expenses may be more or less than the estimates. The Investment Manager retains the right to charge the actual expenses to the Scheme, however the expenses charged will not exceed the statutory limit prescribed by the Regulations. There will be no sub limit on management fee, and it shall be within the overall TER specified above.

Illustration of impact of expense ratio on scheme's returns:

Particulars	Regular Plan	Direct Plan
Amount Invested at the beginning of the year	10,000	10,000
Annual Returns before Expenses	800	800
Expenses other than Distribution Expenses	75	75
Distribution Expenses / Commission	25	-
Returns after Expenses at the end of the Year	**700**	**725**

Illustration is given to understand the impact of expense ratio on a scheme return and this should not be construed as an indicative return of the scheme. The expenses of the Direct Plan under the Scheme will be lower to the extent of distribution expenses/ commission.

D. LOAD STRUCTURE

Exit Load is an amount which is paid by the investor to redeem the units from the scheme. Load amounts are variable and are subject to change from time to time. For the current applicable structure, please refer to the website of www.kotakmf.com or may call at 18003091490 or your distributor.

Type of Load	Load chargeable (as % age of NAV)
Exit	• For redemptions / switch outs (including SIP/STP) within 1 year from the date of allotment of units, irrespective of the amount of investment – 1% • For redemptions / switch outs (including SIP/STP) after 1 year from the date of allotment of units, irrespective of the amount of investment – NIL

No exit load will be chargeable in case of switches made between different plan/options of the scheme

*In terms ofPara 10.4 of SEBI Master Circular no. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024, no entry load will be charged on purchase / additional purchase / switch-in. The commission as specified in aforesaid circular, if any, on investment made by the investor shall be paid by the investor directly to the Distributor, based on his assessment of various factors including the service rendered by the Distributor.

** Any exit load charged (net off Goods and Services tax, if any) shall be credited back to the Scheme.

Any imposition or enhancement of Load in future shall be applicable on prospective investments only. For any change in load structure AMC will issue an addendum and display it on the website/Investor Service Centres. In case of changes in load structure the addendum carrying the latest applicable load structure shall be attached to all KIM and SID already in stock till it is updated.

Investors may obtain information on loads on any Business Day by calling the office of the AMC or any of the Investor Service Centers. Information on applicability of loads will also be provided in the Account Statement.

As required under the Regulations, the asset management company shall ensure that the repurchase price of an open ended scheme is not lower than 95% of the Net Asset Value.

The investor is requested to check the prevailing load structure of the scheme before investing.

I. INTRODUCTION

A. Definitions/interpretation

The detailed definitions/ interpretations refer to the link on website of the mutual fund viz. https://www.kotakmf.com/Information/statutory-disclosure/disclosuresrelatedtosidandkim

B. Risk factors

1. Scheme Specific Risk Factors

- Investments in underlying schemes will have all the risks associated with such schemes including performance of underlying stocks, derivative investments, off shore investments, stock lending, changes in credit rating, trading volumes, settlement periods, price/interest rate risk, volatility & liquidity in money markets, basis risk, spread risk, re-investment risk, etc.

- The investors should refer to the Scheme Information Documents and the related addendum for the scheme specific risk factors and special consideration of the respective Underlying Schemes.

- Since the Scheme proposes to invest in underlying schemes, the Scheme's performance will depend upon the performance of the underlying schemes and any significant underperformance in even one of the underlying schemes may adversely affect the performance of the Scheme.

- Any change in the investment policies or the fundamental attributes of the underlying schemes may affect the performance of the Scheme.

- The Portfolio disclosure of the Scheme may be limited to providing the particulars of the underlying schemes where the Scheme has invested and may not include the investments made by the underlying schemes.

- The investors of the Scheme shall bear the recurring expenses of the Scheme in addition to the expenses of the underlying schemes. Hence the investor under the Scheme may receive lower pre-tax returns than what they may receive if they had invested directly in the underlying schemes in the same proportions.

- The Portfolio rebalancing may result in higher transaction costs.

- The Scheme’s performance may be impacted by exit loads or other redemption charges that may be charged at the time of redemption from the Underlying Schemes. Since the incidence of exit loads on investments made by the Scheme in Underlying Schemes of the Fund is based on first-in, first-out principle, it is anticipated that the impact of such exit loads/redemption charges could be minimal during the normal course of functioning of the Scheme.

  The following are the significant risks mentioned in the prospectus of Wellington Global Innovation Fund.

- Capital Risk: Investment markets are subject to economic, regulatory, market sentiment and political risks. All investors should consider the risks that may impact their capital, before investing. The value of your investment may become worth more or less than at the time of the original investment. The Fund may experience a high volatility from time to time.

- Concentration Risk: Concentration of investments within securities, sectors or industries, or geographical regions may impact performance.

- Currency Risk: The value of the Fund may be affected by changes in currency exchange rates. Unhedged currency risk may subject the Fund to significant volatility.

- Emerging Markets Risk: Emerging markets may be subject to custodial and political risks, and volatility. Investment in foreign currency entails exchange risks.

- Equities Risk: Investments may be volatile and may fluctuate according to market conditions, the performance of individual companies and that of the broader equity market.

- Hedging Risk: Any hedging strategy using derivatives may not achieve a perfect hedge.

- Liquidity Risk: The Fund may invest in securities that are less liquid and may be more difficult to buy or sell in a timely fashion and/or at fair value.

- Managerial Risk: Investment performance depends on the investment management team and their investment strategies. If the strategies do not perform as expected, if opportunities to implement them do not arise, or if the team does not implement its investment strategies successfully; then a fund may underperform or experience losses.

- Small and Mid-Cap company: Small and mid-cap companies' valuations may be more volatile than those of large cap companies. They may also be less liquid.

2. Risks associated with Debt / Money Markets (i.e. Markets in which Interest bearing Securities or Discounted Instruments are traded)

i. Credit Risk:

Securities carry a Credit risk of repayment of principal or interest by the borrower. This risk depends on micro-economic factors such as financial soundness and ability of the borrower as also macro-economic factors such as Industry performance, Competition from Imports, Competitiveness of Exports, Input costs, Trade barriers, Favourability of Foreign Currency conversion rates, etc.

Credit risks of most issuers of Debt securities are rated by Independent and professionally run rating agencies. Ratings of Credit issued by these agencies typically range from "AAA" (read as "Triple A" denoting "Highest Safety") to "D" (denoting "Default"), with about 6 distinct ratings between the two extremes.

The highest credit rating (i.e. lowest credit risk) commands a low yield for the borrower. Conversely, the lowest credit rated borrower can raise funds at a relatively higher cost. On account of a higher credit risk for lower rated borrowers lenders prefer higher rated instruments further justifying the lower yields.

ii. Price-Risk or Interest-Rate Risk:

From the perspective of coupon rates, Debt securities can be classified in two categories, i.e., Fixed Income bearing Securities and Floating Rate Securities. In Fixed Income Bearing Securities, the Coupon rate is determined at the time of investment and paid/received at the predetermined frequency. In the Floating Rate Securities, on the other hand, the coupon rate changes - 'floats' - with the underlying benchmark rate, e.g., MIBOR, 1 yr. Treasury Bill.

Fixed Income Securities (such as Government Securities, bonds, debentures and money market instruments) where a fixed return is offered, run price-risk. Generally, when interest rates rise, prices of fixed income securities fall and when interest rates drop, the prices increase. The extent of fall or rise in the prices is a function of the existing coupon, the payment-frequency of such coupon, days to maturity and the increase or decrease in the level of interest rates. The prices of Government Securities (existing and new) will be influenced only by movement in interest rates in the financial system. Whereas, in the case of corporate or institutional fixed income securities, such as bonds or debentures, prices are influenced not only by the change in interest rates but also by credit rating of the security and liquidity thereof.

Floating rate securities issued by a government (coupon linked to treasury bill benchmark or a real return inflation linked bond) have the least sensitivity to interest rate movements, as compared to other securities. The Government of India has already issued a few such securities and the Investment Manager believes that such securities may become available in future as well. These securities can play an important role in minimizing interest rate risk on a portfolio.

iii. Risk of Rating Migration:

The following table illustrates the impact of change of rating (credit worthiness) on the price of a hypothetical AA rated security with a maturity period of 3 years, a coupon of 10.00% p.a. and a market value of Rs. 100. If it is downgraded to A category, which commands a market yield of, say, 11.50% p.a., its market value would drop to Rs. 98.76 (i.e. 1.24%) If the security is up-graded to AAA category which commands a market yield of, say, 9.60% p.a. its market value would increase to Rs103.48 (i.e. by 3.48%). The figures shown in the table are only indicative and are intended to demonstrate how the price of a security can be affected by change in credit rating.

Rating	**Yield (% p.a.)**	**Market Value (Rs.)**
AA	11.00	100.00
If upgraded to AAA	9.60	103.48
If downgraded to A	11.50	98.76

iv. Basis Risk:

During the life of floating rate security or a swap the underlying benchmark index may become less active and may not capture the actual movement in the interest rates or at times the benchmark may cease to exist. These types of events may result in loss of value in the portfolio. Where swaps are used to hedge an underlying fixed income security, basis risk could arise when the fixed income yield curve moves differently from that of the swap benchmark curve.

v. Spread Risk:

In a floating rate security the coupon is expressed in terms of a spread or mark up over the benchmark rate. However, depending upon the market conditions the spreads may move adversely or favourably leading to fluctuation in NAV.

vi. Reinvestment Risk:

Investments in fixed income securities may carry reinvestment risk as interest rates prevailing on the interest or maturity due dates may differ from the original coupon of the bond. Consequently, the proceeds may get invested at a lower rate.

vii. Liquidity Risk:

The corporate debt market is relatively illiquid vis-a- vis the government securities market. There could therefore be difficulties in exiting from corporate bonds in times of uncertainties. Liquidity in a scheme therefore may suffer. Even though the Government Securities market is more liquid compared to that of other debt instruments, on occasions, there could be difficulties in transacting in the market due to extreme volatility or unusual constriction in market volumes or on occasions when an unusually large transaction has to be put through. In view of this, redemption may be limited or suspended after approval from the Boards of Directors of the AMC and the Trustee, under certain circumstances as described elsewhere in the SAI.

3. Risk associated with investment in Government securities and Tri-Party Repo on Government securities or treasury bills:

The mutual fund is a member of securities segment and Triparty repo on Government securities or treasury bills trade settlement of the Clearing Corporation of India (CCIL). All transactions of the mutual fund in government securities and in Triparty repo on Government securities or treasury bills or trades are settled centrally through the infrastructure and settlement systems provided by CCIL; thus reducing the settlement and counter party risks considerably for transactions in the said segments.

The members are required to contribute towards margin obligation (Initial / Mark to Market etc.) as per bye-laws of CCIL as also an amount as communicated by CCIL from time to time to the default fund maintained by CCIL as a part of the default waterfall (a loss mitigating measure of CCIL in case of default by any member in discharging their obligation. As per the waterfall mechanism, after the defaulter's margins and the defaulter's contribution to the default fund have been appropriated, CCIL's contribution is used to meet the losses. Post utilization of CCIL's contribution if there is a residual loss, it is appropriated from the default fund contributions of the non-defaulting members as determined by CCIL.

Thus the scheme is subject to risk of the initial margin and default fund contribution being invoked in the event of failure of any settlement obligations. In addition, the mutual fund contribution is allowed to be used to meet the residual loss in case of default by the other clearing member (the defaulting member).

CCIL maintains two separate Default Funds in respect of its Securities Segment, one with a view to meet losses arising out of any default by its members from outright and repo trades and the other for meeting losses arising out of any default by its members from Triparty repo on Government securities or treasury bills trades. The mutual fund is exposed to the extent of its contribution to the default fund of CCIL, in the event that the contribution of the mutual fund is called upon to absorb settlement/ default losses of another member by CCIL, as a result the scheme may lose an amount equivalent to its contribution to the default fund.

4. Risk Factors Associated with investing in Foreign Securities:
Subject to necessary approvals and within the investment objectives of the Scheme, the Scheme may invest in overseas markets which carry risks related to fluctuations in the foreign exchange rates, the nature of the securities market of the country, repatriation of capital due to exchange controls and political circumstances. However, in case the overall industry limit or such other limit as prescribed by SEBI has been breached, the Scheme may not in a position to invest in foreign securities temporarily.

To manage risks associated with foreign currency and interest rate exposure, the Scheme may use derivatives for efficient portfolio management including hedging and in accordance with conditions as may be stipulated under the Regulations or by the RBI from time to time.

Overseas investments will be made subject to any/all approvals, conditions thereof as may be stipulated under the Regulations or by RBI and provided such investments do not result in expenses to the Scheme in excess of the ceiling on expenses prescribed by and consistent with costs and expenses attendant to international investing.

The Mutual Fund may, where necessary, appoint other intermediaries of repute as advisors, custodian/sub-custodians etc. for managing and administering such investments. The appointment of such intermediaries shall be in accordance with the applicable requirements of SEBI and within the permissible ceilings of expenses. The fees and expenses would illustratively include, besides the investment management fees, custody fees and costs, fees of appointed advisors and sub-managers, transaction costs and overseas regulatory costs.

To the extent that the assets of the Scheme will be invested in securities denominated in foreign currencies, the Indian Rupee equivalent of the net assets, distributions and income may be adversely affected by changes in the value of certain foreign currencies relative to the Indian Rupee. The repatriation of capital to India may also be hampered by changes in regulations concerning exchange controls or political circumstances as well as the application to it of other restrictions on investment.

Currency Risk:

Investments in overseas securities/mutual fund units are subject to currency risk. Returns to investors are the result of a combination of returns from investments and from movements in exchange rates. For example, if the Rupee appreciates vis-à-vis the US $, the extent of appreciation will lead to reduction in the yield to the investor. However, if the Rupee appreciates against the US $ by an amount in excess of the interest earned on the investment, the returns can even be negative. Again, in case the Rupee depreciates vis-à-vis the US $, the extent of depreciation will lead to a corresponding increase in the yield to the investor. Going forward, the Rupee may depreciate (lose value) or appreciate (increase value) against the currencies of the countries where the Scheme will invest.

Exhaustion of overseas limit Risk
The Scheme can make overseas investments subject to a maximum of US $ 1 billion per Mutual Fund, within the overall industry limit of US $ 7 billion or such limits as may be prescribed by SEBI/RBI from time to time. The Scheme therefore may or may not be able to utilise the limit of USD 1 billion due to the USD 7 billion limit being exhausted by other Mutual Funds. Further, the scheme can make investments in overseas Exchange Traded Fund (ETF(s) subject to a maximum of US $ 300 million per Mutual Fund, within the overall industry limit of US $ 1 billion.

As and when the investment limits at Mutual Fund level/Industry level are exhausted or nearing exhaustion, the scheme may temporarily suspend deployment of funds in overseas funds/securities.

5. Risk associated with investing in Mutual fund units

Investment in units of Mutual Fund scheme involves investment risks such as trading volumes, settlement risk, liquidity risk, default risk including the possible loss of principal. As the price / value / interest rates of the underlying securities in which the mutual fund scheme invests fluctuates, the value of units of mutual fund scheme may go up or down. The value of underlying securities may be affected, inter-alia, by changes in the market, interest rates, changes in credit rating, trading volumes, settlement periods and transfer procedures; the NAV is also exposed to Price/Interest-Rate Risk and Credit Risk and may be affected inter-alia, by government policy, volatility and liquidity in the money markets and pressure on the exchange rate of the rupee. Investment in units of mutual fund scheme is also exposed to risk of suspension of subscriptions / redemptions of the units, change in fundamental attributes etc. Since the Scheme may invest in schemes of Mutual Funds, scheme specific risk factors of each such mutual fund schemes will be applicable to the Scheme portfolio.

All the above factors may not only affect the prices of securities but also the time taken by the Fund for redemption of Units, which could be significant in the event of receipt of a very large number of redemption requests or very large value redemption requests. The liquidity of the assets may be affected by other factors such as general market conditions, political events, bank holidays and civil strife. In view of this, redemption may be limited or suspended after approval from the Boards of Directors of the AMC and the Trustee, under certain circumstances as described elsewhere in the SAI.

C. Risk mitigation strategies

Type of Risks	**Measures/ Strategies to control risks**
Equity Markets/ Equity Oriented Instruments	Investment strategy The fund will comply with the prescribed SEBI limits on exposure. Risk is monitored and necessary action would be taken on the portfolio, if required. Attribution analysis is done to monitor the under or over performance vis a vis the benchmark and the reasons for the same. Portfolio volatility & concentration The overall volatility of the portfolio would be maintained in line with the objective of the scheme Volatility would be monitored with respect to the benchmark and peer set. Liquidity The scheme predominantly invests across market capitalisation which are actively

	traded and thereby liquid. The fund manager may also keep some portion of the portfolio in debt and money market instruments and/or cash within the specified asset allocation framework for the purpose of meeting redemptions. The liquidity would be monitored and necessary action would be taken on the portfolio if required. Stock turnover is monitored at regular intervals. The debt/money market instruments that are invested by the fund will have a short term duration.
Debt and Money Market instruments	• Credit Risk: Management analysis will be used for identifying company specific risks. Management's past track record will also be studied. In order to assess financial risk a detailed assessment of the issuer's financial statements will be undertaken. • Price-Risk or Interest-Rate Risk: The Scheme may primarily invest the debt portion of the portfolio in short term debt & money market instruments, units of Liquid and Overnight schemes thereby mitigating the price volatility due to interest rate changes generally associated with long-term securities. • Risk of Rating Migration: The Scheme may primarily invest the debt portion of the portfolio in short-term debt & money market instruments, units of Liquid and Overnight schemes thereby mitigating the risk of rating migration generally associated with long-term securities • Basis Risk: The debt allocation of scheme is primarily as a cash management strategy and such strategy returns are expected to reflect the very short term interest rate hence investment is done in short term debt and money market instruments. • Spread Risk: The Scheme may primarily invest the debt portion of the portfolio in short-term debt & money market instruments, units of Liquid and Overnight schemes thereby mitigating the risk of spread expansion which is generally associated with long-term securities • Reinvestment Risk: The debt allocation of scheme is primarily as a cash management strategy and such strategy returns are expected to reflect the very short term interest rate hence investment is done in short term debt and money market instruments. Reinvestment risks will be limited to the extent of debt instruments, which will be a very small portion of the overall portfolio value. • Liquidity Risk: The Scheme may, however, endeavor to minimize liquidity risk by primarily investing the debt portion of the portfolio in relatively liquid short-term debt & money market instruments, units of Liquid and Overnight schemes.
Currency	The scheme subject to applicable regulations shall have the option to enter into forward contracts for the purposes of hedging against the foreign exchange fluctuations. The Schemes may employ various measures (as permitted by SEBI/RBI) including but not restricted to currency hedging (such as currency options and forward currency exchange contracts, currency futures, written call options and purchased put options on currencies and currency swaps), to manage foreign exchange movements arising out of investment in foreign securities. All currency derivatives trade, if any will be done only through the stock exchange

	platform.
Government securities and Triparty repo on Government securities or treasury bills:	As a member of securities segment and Triparty repo segment, maintenance of sufficient margin is a mandatory requirement. CCIL monitors these on a real time basis and requests the participants to provide sufficient margin to enable the trades etc. Also there are stringent conditions / requirements before registering any participants by CCIL in these segments. Since settlement is guaranteed the loss on this account could be minimal though there could be an opportunity loss.
Units of mutual fund schemes	Mutual Fund portfolios are generally well diversified and typically endeavor to provide liquidly normally within T+2

While these measures are expected to mitigate the above risks to a large extent, there can be no assurance that these risks would be completely eliminated.

The measures mention above is based on current market conditions and may change from time to time based on changes in such conditions, regulatory changes and other relevant factors. Accordingly, our investment strategy, risk mitigation measures and other information contained herein may change.in response to the same.

II. INFORMATION ABOUT THE SCHEME:

A. Where will the scheme invest

The Scheme shall invest in the following securities as per the limits specified in the asset allocation table of Scheme, subject to SEBI (MF) Regulations.

Securities/ Instruments	Definitions
Equity and equity related securities including convertible bonds and debentures and warrants carrying the right to obtain equity shares;	Equity shares is a security that represents ownership interest in a company.
	Equity related instruments include convertible debentures, convertible preference shares, warrants carrying the right to obtain equity shares, equity derivatives and such other instrument as may be specified by the Board from time to time.
	Derivative is a financial instrument whose value is based upon the value of an underlying equity shares or indices. The equity derivatives may be in the following form: Futures - Futures Contract means a legally binding agreement to buy or sell the underlying security / indices on a future date at an agreed price. Options - Options Contract is a type of Derivatives Contract which gives the buyer/holder of the contract the right (but not the obligation) to buy/sell the underlying asset at a predetermined price within or at end of a specified period. The buyer / holder of the option purchases the right from the seller/writer for a consideration which is called the premium. The seller/writer of an option is obligated to settle the option as per the terms of the contract when the buyer/holder exercises his right. The underlying asset could include securities, an index of prices of securities etc.
Securities created and issued by the Central and State Governments and/or repos/reverse repos in such Government Securities as may be permitted by RBI (including but not limited to coupon bearing bonds, zero coupon bonds and treasury bills)	Government Security (G-Sec) is a tradeable instrument issued by the Central Government or the State Governments. It acknowledges the Government's debt obligation. They are generally long term with maturity of one year or more. In India, the Central Government issues both, treasury bills and bonds or dated securities while the State Governments issue only bonds or dated securities, which are called the State Development Loans (SDLs). G-Secs carry practically no risk of default and, hence, are called risk-free gilt-edged instruments. Repos / Reverse Repos enables collateralized short term borrowing and lending through sale/purchase operations in the such government securities.
Debt obligations of domestic Government agencies and statutory bodies, which may or	These are instruments are issued by various government agencies and bodies (including but not limited to Indian Government Bond, State Development Loans issued and serviced at the Public Debt

They can be issued at discount, par or premium.
Corporate debt (of both public and private sector undertakings) including Nonconvertible debentures (including bonds) and non-convertible part of convertible securities;	These are financial instruments issued by companies (both public and private) to raise long-term funds through public issues. They are generally rated by credit rating agencies.
Short Term Deposits of banks (both public and private sector) and development financial institutions to the extent permissible under SEBI Regulations;	Short Term Deposits are offered by Scheduled Commercial Banks (both public and private sector banks) with a fixed/floating interest rate and maturity date.
Money market instruments permitted by SEBI/RBI, having maturities of up to one year but not limited to: • Certificate of Deposits (CDs). • Commercial Paper (CPs) • Tri-party Repo, Bills re-discounting, as may be permitted by SEBI from time to time. • Repo of corporate debt securities	• "Certificate of Deposit" or "CD" is issued by Scheduled Commercial Banks (SCBs) and All-India Financial Institutions. There is a term period of 7 days to 1 year for CDs that are issued by SCBs, whereas the term period ranges from 1 year to 3 years for CDs issued by financial institutions. CDs are usually issued at a discounted rate and redeemed at par. • "Commercial Paper" or "CP" is a short-term instrument issued by corporates and financial institutions CPs are usually issued at a discounted rate and redeemed at par. The tenor of CP ranges from 7 days to 1 year. • Treasury bills or T-bills, which are money market instruments, are short term debt instruments issued by the Government of India and are presently issued in three tenors, namely, 91 day, 182 day and 364 day. Treasury bills are zero coupon securities and pay no interest. Instead, they are issued at a discount and redeemed at the face value at maturity. • Triparty Repo (TREPS) is a type of repo contract where a third entity (apart from the borrower and lender), called a Tri-Party Agent, acts as an intermediary between the two parties to the repo to facilitate services like collateral selection, payment and settlement, custody and management during the life of the transaction. • Repos / Reverse Repos enables collateralized short term

	borrowing and lending through sale/purchase operations in debt instruments (including corporate bonds). • Bills Re-discounting is an instrument where a financial institution discounts the bills of exchange that it has discounted previously with another financial institution.
The scheme may invest in units of overseas Mutual Funds schemes / ETFs, ADRs, GDRs or other foreign securities	Overseas securities refer to securities (viz. mutual funds, ETFs, ADRs / GDRs, stocks) that are listed or traded in any jurisdiction outside India.

Transfer of investments from one scheme to another scheme in the same Mutual Fund, shall be allowed, in lines with Para 12.30 of SEBI Master Circular no. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024.

INVESTMENT IN FOREIGN SECURITIES

The Scheme may, in terms of its investment objectives with the approval of SEBI/RBI invest in following Foreign Securities:

i. ADRs/ GDRs issued by Indian or foreign companies
ii. Equity of overseas companies listed on recognized stock exchanges overseas
iii. Initial and follow on public offerings for listing at recognized stock exchanges overseas

The appointment of such intermediaries shall be in accordance with the applicable requirements of SEBI and within the permissible ceilings of expenses as stated under Regulation 52 of SEBI (MF) Regulations.

Investments in Overseas Mutual Funds/ Unit Trusts ("UT") by Indian Mutual Funds:

Pursuant to SEBI circular no. SEBI/HO/IMD/IMD-PoD-1/P/CIR/149 dated November 04, 2024, the scheme shall also invest in overseas MF/UTs that have exposure to Indian securities, provided that the total exposure to Indian securities by these overseas MF/UTs shall not be more than 25% of their assets.

While investing in overseas MF/UTs that have exposure to Indian securities, the scheme shall ensure the following:

1. Pooling - Contribution of all investors of the overseas MF/UT is pooled into a single investment vehicle, with no side-vehicles including segregated portfolios, sub-funds or protected calls, etc;

2. Pari-passu and Pro-rata - Corpus of the overseas MF/UT is a blind pool (i.e. common portfolio) with no segregated portfolios. All investors in the overseas MF/UT have pari-passu and pro-rata rights in the fund, i.e. they receive a share of returns/gains from the fund in proportion to their contribution and have pari-passu rights.

3. Independent investment manager/fund manager - Overseas MF/UT is managed by an independent investment manager/fund manager who is actively involved in making all investment decisions for the fund. This ensures that the investments are made autonomously by the investment manager/fund manager without influence, directly or indirectly, from any of the investors or from any other entity.

4. Public disclosure - Such overseas MF/UTs shall disclose their portfolios at least on a quarterly-intervals to the public to maintain transparency.
5. No advisory agreement - There shall not be any advisory agreements between the Scheme and underlying overseas MF/UTs, to prevent conflict of interest and avoid any undue advantage to either of the parties

Breach of the limit:

i) At the time of making investments (both fresh and subsequent), the scheme shall ensure that the underlying overseas MF/UTs do not have more than 25% exposure to Indian securities;

ii) Subsequent to the investment, if the exposure by an underlying overseas MF/UTs to Indian securities exceeds 25% of their net assets, an observance period of 6 months from the date of publicly available information of such breach (e.g. portfolio disclosures) shall be permitted to the scheme for monitoring of any portfolio rebalancing activity by the underlying overseas MF/UT;

iii) During the observance period, the scheme shall not undertake any fresh investment in such overseas MF/UT. The Scheme may resume their investments in such overseas MF/UT in case the exposure to Indian securities by such overseas MF/UT falls below the limit of 25%.

Rebalancing of the portfolio:
If the portfolio of an underlying overseas MF/UT is not rebalanced within the 6-month observance period, the scheme shall liquidate its investments in the concerned underlying overseas MF/UT within the next 6 months ('liquidation period') from end of the observance period.

If the exposure to Indian securities by the underlying overseas MF/UT falls below the prescribed limit of 25% during the liquidation period, the requirement at the above clause above shall not be applicable.

If the Scheme/ Asset Management Company fails to rebalance the portfolio of the scheme in line with the aforesaid requirements, then after the 6-month liquidation period, the scheme/ Asset Management Company shall:

- not be permitted to accept any fresh subscriptions in concerned the scheme;
- not be permitted to launch any new scheme;
- not levy exit load, if any, on the investors exiting such scheme(s).

B. What are the investment restrictions?

As per the Trust Deed read with the SEBI (MF) Regulations, the following investment restrictions apply in respect of the Scheme at the time of making investments.

1. Within the limits specified in clause 1 of the Seventh Schedule of MF Regulation, a mutual fund scheme shall not invest more than:
    a. 10% of its NAV in debt and money market securities rated AAA issued by a single issuer; or
    a. 8% of its NAV in debt and money market securities rated AA issued by a single issuer; or
    b. 6% of its NAV in debt and money market securities rated A and below issued by a single issuer.

    The above investment limits may be extended by up to 2% of the NAV of the scheme with prior approval of the Board of Trustees and Board of Directors of the AMC, subject to compliance with the overall 12% limit specified in clause 1 of the Seventh Schedule of MF Regulation.

    The long term rating of issuers shall be considered for the money market instruments. However, if there is no long term rating available for the same issuer, then based on credit rating mapping of Credit Rating Agency (CRAs) between short term and long term ratings, the most conservative long term rating shall be taken for a given short term rating

    Provided that such limit shall not be applicable for investments in Government Securities, treasury bills and triparty repo on Government securities or treasury bills

    Provided further that investments within such limit can be made in mortgaged backed securitised debt which are rated not below investment grade by a credit rating agency registered with the Board.

    Provided further that such limit shall not be applicable for investments in case of debt exchange traded funds or such other funds as may be specified by the Board from time to time.

    Considering the nature of the Scheme, investments in such instruments will be permitted up to 5% of its Net Assets.

2. Debentures, irrespective of any residual maturity period (above or below one year), shall attract the

investment restrictions as applicable for debt instruments. It is further clarified that the investment limits are applicable to all debt securities, which are issued by public bodies/institutions such as electricity boards, municipal corporations, state transport corporations etc. guaranteed by either state or central government. Government securities issued by central/state government or on its behalf by the RBI are exempt from the above investment limits.

3. The Scheme may invest in another scheme under the same AMC or any other mutual fund without charging any fees, provided that aggregate inter-scheme investment made by all schemes under the same AMC or in schemes under the management of any other asset management shall not exceed 5% of the net asset value of the Mutual Fund. However, the aforesaid provision will not apply to fund of funds scheme.

4. The Scheme shall not make any investments in:
   (a) any unlisted security of an associate or group company of the Sponsors; or
   (b) any security issued by way of private placement by an associate or group company of the Sponsors; or
   (c) the listed securities of group companies of the Sponsors which is in excess of 25% of the net assets.

5. The Scheme shall not invest in any Fund of Funds Scheme.

6. A fund of funds scheme shall be subject to the following investment restrictions:

   A scheme shall not invest its assets other than in schemes of mutual funds, except to the extent of funds required for meeting the liquidity requirements for the purpose of repurchases or redemptions, as disclosed in the Scheme Information Document of fund of funds scheme.

7. Transfer of investments from one scheme to another scheme in the same Mutual Fund, shall be allowed only if:-
   (a) such transfers are made at the prevailing market price for quoted Securities on spot basis (spot basis shall have the same meaning as specified by Stock Exchange for spot transactions.)
   (b) the securities so transferred shall be in conformity with the investment objective of the scheme to which such transfer has been made.
   (c) the same are in line with para 12.30 of SEBI Master Circular no. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024

8. The Mutual Fund shall buy and sell securities on the basis of deliveries and shall in all cases of purchases, take delivery of relevant securities and in all cases of sale, deliver the securities:

   Provided further that sale of government security already contracted for purchase shall be permitted in accordance with the guidelines issued by the Reserve Bank of India in this regard.

9. No loans for any purpose may be advanced by the Mutual Fund and the Mutual Fund shall not borrow except to meet temporary liquidity needs of the Schemes for the purpose of payment of interest or IDCW to Unit Holders, provided that the Mutual Fund shall not borrow more than 20% of the net assets of each of the Schemes and the duration of such borrowing shall not exceed a period of six months.

10. The Mutual Fund shall enter into transactions relating to Government Securities only in dematerialised form.

11. The mutual fund shall get the securities purchased / transferred in the name of the fund on account of the concerned scheme, where investments are intended to be of long term nature.

12. Pending deployment of funds of a scheme in terms of investment objectives of the scheme, a mutual fund may invest them in short term deposits of schedule commercial banks, subject to the to Para 12.16 and 4.5 of SEBI Master Circular no. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 20242023, as may be amended from time to time. The AMC shall not charge any investment management and advisory fees for parking of funds in such short term deposits of scheduled commercial banks.

13. In accordance with the guidelines as stated under Para 12.1 SEBI Master Circular no. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024, investments in following instruments as specified in the said circular, as may be amended from time to time, shall be applicable:

    i. The scheme shall not invest in unlisted debt instruments including commercial papers (CPs), other than (a) government securities, (b) other money market instrument and (c) derivative products such as Interest Rate Swaps (IRS), Interest Rate Futures (IRF), etc. which are used by mutual funds for hedging.

       However, the scheme may invest in unlisted Non-Convertible Debentures (NCDs) not exceeding 10% of the debt portfolio of the scheme subject to the condition that such unlisted NCDs have a simple structure (i.e. with fixed and uniform coupon, fixed maturity period, without any options, fully paid up upfront, without any credit enhancements or structured obligations) and are rated and secured with coupon payment frequency on monthly basis.

    ii. All fresh investments by mutual fund schemes in CPs would be made only in CPs which are listed or to be listed.

    iii. Further, investment in unrated debt and money market instruments, other than government securities, treasury bills, derivative products such as Interest Rate Swaps (IRS), Interest Rate Futures (IRF), etc. by mutual fund schemes shall be subject to the conditions as specified in the said circular:

    a. Investments should only be made in such instruments, including bills re-discounting, usance bills, etc., that are generally not rated and for which separate investment norms or limits are not provided in SEBI (Mutual Fund) Regulations, 1996 and various circulars issued thereunder.

    b. Exposure of mutual fund schemes in such instruments shall not exceed 5% of the net assets of the schemes.

    c. All such investments shall be made with the prior approval of the Board of AMC and the Board of trustees.

The AMC may alter these above stated restrictions from time to time to the extent the SEBI (MF) Regulations change, so as to permit the Scheme to make its investments in the full spectrum of permitted investments for mutual funds to achieve its respective investment objective. The Trustee may from time to time alter these restrictions in conformity with the SEBI (MF) Regulations.

All investment restrictions shall be applicable at the time of making investment.

Apart from the above investment restrictions, the Scheme follows certain internal norms vis-à-vis limiting exposure to scrips, sectors etc, within the above-mentioned restrictions, and these are subject to review from time to time.

Modifications, if any, in the Investment Restrictions on account of amendments to the Regulations shall supercede /override the provisions of the Trust Deed.
