Note: The Due Diligence Certificate dated November 26, 2025, was submitted to SEBI.

PART II. INFORMATION ABOUT THE SCHEME

A. HOW WILL THE SCHEME ALLOCATE ITS ASSETS?

Under normal circumstances, the asset allocation under the Scheme will be as follows:

Instruments	Indicative allocations (% of total assets)	
	Minimum	Maximum
Units of passive domestic sector/multi sector based Equity Oriented Exchange Traded Funds (ETFs)	95	100
Money Market Instruments (with maturity not exceeding 91 days), including Tri-Party Repo*	0	5

*or similar instruments as may be permitted by RBI/SEBI, subject to approval from SEBI/RBI as required.

The Margin may be placed in the form of such securities / instruments / deposits as may be permitted/eligible to be placed as margin from the assets of the Scheme. The securities / instruments / deposits so placed as margin shall be classified under the applicable category of assets for the purposes of asset allocation.

The Cumulative Gross Exposure across units of exchange traded funds, Money Market Instruments, units of liquid schemes and such other securities/assets as may be permitted by SEBI from time to time, should not exceed 100% of the net assets of the scheme.

The Scheme can invest in the schemes managed by ICICI Prudential Mutual Fund or any other Mutual Fund(s) as per the above stated asset allocation.

Exposure to various instruments will be as per the indicative table given below:

Sr. No.	Type of Instrument	Percentage exposure of	Circular references
1.	Stock Lending	Nil	Not applicable
2.	Derivatives	Nil	Not applicable
3.	Securitized Debt	Nil	Not applicable
4.	Overseas Securities	Nil	Not applicable
5.	AT1 and Tier II Bonds	Nil	Not applicable
6.	Units of Reits and InvITs	Nil	Not applicable
7.	Structured Obligations and Credit Enhancements	Nil	Not applicable

At all points of time, the scheme will remain invested at least 95% (minimum allocation) in the underlying schemes. However, on account of rebalancing or certain liquidity requirements, the exposure to the underlying mutual fund schemes may fall below 95%. In

such cases the same shall be rebalanced as per the provisions stated below. The portfolio would be rebalanced periodically to address any deviations from the aforementioned allocations due to market changes.

Rebalancing due to Short Term Defensive Consideration:

- Due to market conditions, the AMC may invest beyond the range set out in the asset allocation. Such deviations shall normally be for a short term and defensive considerations as per Paragraph 1.14.1.2.b of Master Circular, and the fund manager will rebalance the portfolio within 30 calendar days from the date of deviation.

Rebalancing due to Passive Breaches:

- Further, as per Paragraph 2.9 of Master Circular, as may be amended from time to time, in the event of deviation from mandated asset allocation due to passive breaches (occurrence of instances not arising out of omission and commission of the AMC), the fund manager shall rebalance the portfolio of the Scheme within 30 Business Days. In case the portfolio of the Scheme is not rebalanced within the period of 30 Business Days, justification in writing, including details of efforts taken to rebalance the portfolio shall be placed before the Investment Committee of the AMC. The Investment Committee, if it so desires, can extend the timeline for rebalancing up to sixty (60) Business Days from the date of completion of mandated rebalancing period. Further, in case the portfolio is not rebalanced within the aforementioned mandated plus extended timelines the AMC shall comply with the prescribed restrictions, the reporting and disclosure requirements as specified in Paragraph 2.9 of the Master Circular.

Further, in case of any passive breaches of prudential limits inter alia including issuer limits, group limits and sector limits etc. prescribed in SEBI (Mutual Funds) Regulations, 1996 and circulars issued thereunder, the rebalancing of such passive breaches shall be carried out in accordance with the provisions prescribed under paragraph 2.9 of the Master Circular, provided the specific timeline for rebalancing is not prescribed for the respective prudential limit.

Further, the AMC shall comply with the applicable regulatory guidelines related to reporting and disclosure requirements as specified in the aforesaid circular.

Cash or cash equivalents with residual maturity of less than 91 days may be treated as not creating any exposure. AMFI vide letter dated November 3, 2021, has clarified that Cash Equivalent shall consist of Government Securities, T-Bills and Repo on Government Securities

Apart from the above investment restrictions, the Scheme follows certain internal norms vis-à-vis limiting exposure to scrips, sectors etc., within the above mentioned restrictions, and these are subject to review from time to time.

Negative list: The Scheme will not directly invest/ have exposure in the following:

Sr. No	Particulars
1.	Securitized debt

2.	Overseas Securities
3.	Derivatives
4.	Short selling
5.	Stock lending
6.	Repo in corporate debt securities
7.	Credit Default Swaps Transactions
8.	Structured Obligations and Credit Enhancements
9.	Units of Reits and InvITs
10.	Equity & equity related instruments
11.	AT1 and Tier II Bonds
12.	Debentures

B. WHERE WILL THE SCHEME INVEST?

The corpus of the Scheme shall be invested predominantly in units of passive domestic sector/multi sector based equity oriented exchange traded funds (ETFs), depending on the asset allocation pattern and Investment Objective of the Scheme. As per the SEBI guidelines, a Fund of funds scheme shall not invest its assets other than in schemes of mutual funds, except to the extent of funds required for meeting the liquidity requirements for the purpose of repurchases or redemptions.

Subject to the Regulations, the corpus of the Scheme can be invested in any (but not exclusively) of the following securities:

1. Units of passive domestic Equity oriented exchange traded funds of ICICI Prudential Mutual Fund or any other Mutual Fund;
2. Money Market Instruments, including Tri-Party Repo*, cash & cash equivalents.

*or similar instruments as may be permitted by SEBI/RBI, subject to approval from SEBI/RBI as required.

The units of the schemes of the Mutual Funds in which the Scheme propose to make investments in could be listed or unlisted, open/closed ended. The units may be acquired through subscription to the units during the New Fund Offer of the schemes or by subscriptions on on-going basis in case of open -ended schemes.

Further the inter Scheme transfer of investments shall be in accordance with the provisions contained in clause Inter-Scheme transfer of investments, stated in paragraph 12.30 of the Master Circular.

C. WHAT ARE THE INVESTMENT STRATEGIES?

The scheme shall predominantly invest in the units of passive domestic sector/multi sector based Equity Oriented Exchange Traded Funds (ETFs). The Scheme shall follow an active investment strategy.

The scheme shall invest in various passive equity oriented sector/multi sector based Exchange Traded Funds based on macro-economic conditions and fundamental outlook of relevant sectors.

Remaining corpus of the scheme can be deployed in Money Market Instruments, including Tri-Party Repo, cash & cash equivalents.

D. HOW WILL THE SCHEME BENCHMARK ITS PERFORMANCE?

The Benchmark of the Scheme is Nifty 500 TRI.

The Benchmark of the Scheme has been changed to Nifty 500 TRI with effect from November 25, 2025.

The composition of the benchmark is such that it is most suited for comparing performance of the Scheme. The Trustee reserves right to change the benchmark for performance of the scheme by suitable notification to the investors to this effect.

vi. INVESTMENT OF THE AMC IN THE SCHEME

From time to time and subject to the SEBI (Mutual Funds) Regulations, 1996, the sponsors, the mutual funds and investment Companies managed by them, their associate companies, subsidiaries of the sponsors and the AMC may invest in either directly or indirectly in the Scheme. Such investments would be in accordance with paragraph 6.9 of the Master Circular. The details of such investments of the AMC can be accessed at the following link: [Statutory Disclosure \(icicipruamc.com\)](http://icicipruamc.com)

PART III. OTHER DETAILS

A. COMPUTATION OF NAV

The NAV of the Units of the Scheme will be computed by dividing the net assets of the Scheme by the number of Units outstanding on the valuation date. The Fund shall value its investments according to the valuation norms, as specified in Schedule VIII of the Regulations, or such norms as may be prescribed by SEBI from time to time and as stipulated in the valuation policy and procedures of the Fund, provided in Statement of Additional Information (SAI).

The NAV of the Scheme shall be rounded off upto four decimals

NAV of units under the Scheme shall be calculated as shown below:

NAV (Rs.) =

Market or Fair Value of Scheme's investments + Current Assets
- Current Liabilities and Provision

No. of Units outstanding under Schemes

The NAV will be calculated as of the close of every Business Day of the respective Scheme. The valuation of the Scheme's assets and calculation of the Scheme's NAV shall be subject to audit on an annual basis and such regulations as may be prescribed by SEBI from time to time.

Illustration of computation of NAV:

If the net assets of the Scheme are Rs.10,45,34,345.34 and units outstanding are 10,000,000, then the NAV per unit will be computed as follows:

10,45,34,345.34 / 10,000,000 = Rs. 10.4534 p.u. (rounded off to four decimals)

The Fund shall ensure that the repurchase price of an open ended scheme is not lower than 97 per cent of the Net Asset Value.

B. NEW FUND OFFER (NFO) EXPENSES – Not Applicable

C. ANNUAL SCHEME RECURRING EXPENSE

These are the fees and expenses for operating the Scheme. These expenses include Investment Management and Advisory Fee charged by the AMC, Registrar and Transfer Agents' fee, marketing and selling costs etc. as given in the table below:

The AMC has estimated that upto 1.00% of the daily net assets of the Scheme will be charged to the Scheme as expenses. For the actual current expenses being charged, the investor should refer to the website of the mutual fund. In case of any change in the expense ratio, the AMC would update the same on the website at least three business days prior to the effective date of the change. The requirement for disclosing such change would be subject to paragraph 10.1.8 of the Master Circular.

Investor can refer [Total Expense Ratio of Mutual Fund Schemes](#) for Total Expense Ratio (TER) details.

Details of Annual Scheme Recurring Expenses under the Scheme is as follows:

Particulars	ICICI Prudential Multi Sector Passive FOF (% p.a. of net assets)
Investment Management and Advisory Fees	Upto 1.00
Audit Fees and expenses of trustees	
Custodian Fees	
Registrar & Transfer Agent Fees including cost of providing account statements/IDCW/redemption cheques/warrants	
Marketing & Selling Expenses including Agents Commission and statutory advertisement	
Cost related to investor communications	
Cost of fund transfer from location to location	
Cost towards investor education & awareness	
Brokerage and transaction cost pertaining to distribution of units	
Goods and Services Tax on expenses other than investment and advisory fees	
Goods and Services Tax on brokerage and transaction cost	
Other Expenses*	
Maximum total expense ratio (TER) permissible under Regulation 52 (6) (c)	Upto 1.00
Additional expenses under regulation 52 (6A) (c)* (more specifically elaborated below)	Upto 0.05
The aforesaid does not include Goods and Services Tax on investment management and advisory fees. The same is more specifically elaborated below.	

The returns of the Direct Plan for the Scheme shall be exclusive of distribution commission.

It may be further noted that the total expense ratio to be charged over and above the weighted average of total expense ratio of the underlying schemes shall not exceed two times the weighted average of the total expense ratio levied under the underlying schemes, subject to limit as specified above.

*As permitted under the Regulation 52 of SEBI (MF) Regulations, 1996 and pursuant to paragraph 15.10.1 of the Master Circular and Securities and Exchange Board of India (Mutual Funds) (Fourth Amendment) Regulations, 2018.

Weighted expense ratio of the underlying schemes as on September 30, 2025 for ICICI Prudential Multi Sector Passive FOF is 0.22%.

Investors may please note that they will be bearing the recurring expenses of the Scheme in addition to the expenses of the underlying schemes in which the fund of fund scheme makes investment.

These estimates have been made in good faith as per information available to the AMC and the total expenses may be more than as specified in the table above. However, as per the Regulations, the total recurring expenses that can be charged to the Scheme in this Scheme Information Document shall be subject to the applicable guidelines.

All fees and expenses charged in a Direct Plan (in percentage terms) under various heads including the investment and advisory fee shall not exceed the fees and expenses charged under such heads in other than Direct Plan.

Investment Management and Advisory Fees charged by the AMC to the Scheme shall be within the total expense limit as prescribed under Regulation 52 of the Regulations with no sub-limits on said management and advisory fees.

Direct Plan shall have a lower expense ratio excluding distribution expenses, commission, etc. as compared to other Plan and no commission for distribution of Units will be paid/charged under Direct Plan.

Pursuant to paragraph 10.1.3 of SEBI Master Circular on Mutual Funds, SEBI (Mutual Funds) Second Amendment Regulations, 2012 following additional costs or expenses may be charged to the scheme, namely:

- (i) The AMC may charge Goods and Services Tax on investment and advisory fees to the scheme of the Fund in addition to the maximum limit of total expenses ratio as prescribed in Regulation 52 of the Regulations.
- (ii) Additional expenses, incurred towards different heads mentioned under sub-regulations (2) and (4) of Regulation 52 of the Regulations, not exceeding 0.05 per cent of daily net assets of the scheme. However, such additional expenses will not be charged if exit load is not levied or not applicable to the Scheme.

Fund of Funds (FoFs) investing more than 80% of its NAV in the underlying domestic funds shall not be required to set aside 2bps of the daily net assets towards investor education and awareness initiatives.

Brokerage and transaction cost incurred for the purpose of execution of trade shall be charged to the schemes as provided under Regulation 52 (6A) (a) upto 12 bps and 5 bps for cash market transactions and derivatives transactions respectively. Any payment towards brokerage and transaction costs, over and above the said 12 bps and 5 bps for cash market transactions and derivatives transactions respectively may be charged to the scheme within the maximum limit of Total Expense Ratio (TER) as prescribed under regulation 52.

Expenses shall be charged / borne in accordance with the Regulations prevailing from time to time.

The following is an illustration of the impact of expense ratio on the scheme's returns:

Particulars	Regular Plan	Direct Plan
Amount Invested at the beginning of the year	10,000	10,000
Returns before Expenses	1,500	1,500
Expenses other than Distribution Expenses	150	150
Distribution Expenses	50	-
Returns after Expenses at the end of the Year	1300	1350

For calculating expense of ICICI Prudential Multi Sector Passive FOF – Direct plan, Distribution expenses will not be considered.

D. LOAD STRUCTURE

Exit Load is an amount which is paid by the investor to redeem the units from the scheme. Load amounts are variable and are subject to change from time to time. For the current applicable structure, please refer to the website of the AMC (www.icicipruamc.com) or your distributor.

Type of Load	Load chargeable (as % of NAV)
Exit Load	- If units purchased or switched in from another scheme of the Fund are redeemed or switched out upto 15 days from the date of allotment – 1% of the Applicable NAV - If units purchased or switched in from another scheme of the Fund are redeemed or switched out after 15 days from the date of allotment - Nil However, the Trustee shall have a right to prescribe or modify the load structure with prospective effect subject to a maximum prescribed under the Regulations.

Any redemption/switch arising out of excess holding by an investor beyond 25% of the net assets of the Scheme in the manner envisaged under paragraph 6.11.1.1 (b) of the Master Circular, such redemption / switch will not be subject to exit load.

The exit load charged, if any, shall be credited back to the respective scheme. Goods and Services tax on exit load shall be paid out of the exit load proceeds and exit load net of Goods and Services tax shall be credited to the schemes.

Exit Load, if any, prevailing on the date of enrolment of SIP/ STP shall be levied in the Scheme. Units issued on reinvestment of IDCW shall not be subject to exit load.

The investor is requested to check the prevailing load structure of the Scheme before investing. For any change in load structure AMC will issue an addendum and display it on the website/Investor Service Centres. Any imposition or enhancement in the load shall be applicable on prospective investments only.

Subject to the Regulations, the Trustee reserves the right to modify/alter the load structure on the Units subscribed/redeemed on any Business Day. At the time of changing the load structure, the AMC / Mutual Fund may adopt the following procedure:

- i. The addendum detailing the changes will be attached to Scheme Information Documents and key information memorandum. The addendum will be circulated to all the distributors/brokers so that the same can be attached to all Scheme Information Documents and key information memoranda already in stock.
- ii. Arrangements will be made to display the addendum in the Scheme Information Document in the form of a notice in all the investor service centres and distributors/brokers office.
- iii. The introduction of the exit load along with the details will be stamped in the acknowledgement slip issued to the investors on submission of the application form and will also be disclosed in the statement of accounts issued after the introduction of such load.
- iv. A public notice shall be provided on the website of the AMC in respect of such changes.

Any imposition or enhancement in the load shall be applicable on prospective investments only.

I. Introduction

A. Definitions

Definition for the words and expressions used in the SID are available at the following link : [SID related information \(icicipruamc.com\)](http://icicipruamc.com)

The words and expressions shall have the meaning as specified at the above link, unless the context otherwise requires.

B. Risk Mitigation Strategies

- I. **Standard Risk Factors:** Please refer to SAI.
- II. **Scheme specific risk factors**

Investors may please note that they will be bearing the recurring expenses of the relevant fund of fund scheme in addition to the expenses of the underlying schemes in which the fund of fund scheme makes investment.

1. Risks associated with investing in Fund of Fund schemes:

- As the investors are incurring expenditure at both the Fund of Funds level and the schemes into which the Fund of Funds invests, the returns that they may obtain may be materially impacted or may at times be lower than the returns that investors directly investing in such schemes obtain.
- Again as the Fund of Funds scheme may shift the weightage of investments between schemes into which it invests, the expenses charged being dependent on the structure of the underlying schemes (being different) may lead to a non- uniform charging of expenses over a period of time.
- As the Fund of Funds (FOF) factsheets and disclosures of portfolio will be limited to providing the particulars of the schemes invested at FOF level, investors may not be able to obtain specific details of the investments of the underlying schemes.
- While it would be the endeavour of the Fund Manager of the Fund of Funds scheme(s) to invest in the target schemes in a manner, which will seek to maximize returns, the performance of the underlying funds may vary which may lead to the returns of the Fund of Funds being adversely impacted.
- The scheme specific risk factors of each of the underlying schemes become applicable where a fund of funds invests in any underlying scheme. Investors who intend to invest in Fund of Funds are required to and are deemed to have read and understood the risk factors of the underlying schemes relevant to the Fund of Funds scheme that they invest in. Copies of the Scheme Information Documents pertaining to the various schemes of ICICI Prudential Mutual Fund, which disclose the relevant risk factors, are available at the Customer Service Centers or may be accessed at www.icicipruamc.com.
- A Fund Manager managing any one of the Fund of Funds schemes may also be the Fund Manager for any underlying schemes.
- There exists a possibility that the investment policy and/or fundamental attributes of the underlying scheme change over time. In such circumstances, the fund manager will seek to continue remain invested in such underlying scheme as long as it does not challenge the investment strategy of the Scheme.
- **Settlement Risk**

The inability of the Scheme to make intended securities purchases due to settlement problems could cause the Scheme to miss certain investment opportunities as in certain cases, settlement periods may be extended significantly by unforeseen circumstances. Similarly, the inability to sell securities held in the Scheme portfolio may result, at times, in potential losses to the Scheme, and there can be a subsequent decline in the value of the securities held in the Scheme's portfolio.

- **Portfolio Concentration Risk**

Scheme Information Document
ICICI Prudential Multi Sector Passive FOF

To the extent that the Scheme may concentrate its investments in the underlying schemes which invest in Securities of companies of certain companies/sectors, the Scheme will therefore be subject to the risks associated with such concentration. This risk may impact the Scheme to the extent that it invests in underlying schemes with focus on particular sectors even in cases where the investment objective is more generic.

- **Regulatory Risk:** Changes in government policy in general and changes in tax benefits applicable to Mutual Funds may impact the returns to investors in the Scheme.
- **Redemption Risk**
The Scheme at times may receive large number of redemption requests, leading to an asset-liability mismatch and therefore, requiring the investment manager to make a distress sale of the securities leading to realignment of the portfolio and consequently resulting in investment in lower yield instruments.
- **Right to Limit Redemptions**
The Trustee, in the general interest of the Unit holders of the Scheme offered in this Document and keeping in view the unforeseen circumstances / unusual market conditions, may limit the total number of Units which can be redeemed on any Business Day. The same shall be in accordance with paragraph 1.12 of the Master Circular.

Passive Investments: The underlying scheme(s) are not actively managed. The underlying scheme may be affected by a general decline in the Indian markets relating to its Underlying Index. The underlying scheme invests in the securities included in its Underlying Index regardless of their investment merit. The AMC does not attempt to individually select stocks or to take defensive positions in declining markets.

2. Risks associated with ADR / GDR / Foreign Securities

The scheme will not have any exposure to ADR / GDR / Foreign Securities.

3. Risks associated with Derivatives

The scheme will not have any exposure to Derivatives.

4. Risks associated with REITs/ InvITs

The scheme will not have any exposure to REITs/ InvITs.

5. Risks associated with Securitized Debt

The scheme will not have any exposure to Securitized debt.

6. Risks associated with Short Selling and Stock Lending

The scheme does not intend to short sell the securities and will not engage in Securities lending.

7. Risk associated with Investing in money market instruments

- a. **Market Risk/Interest Rate Risk:** The Net Asset Value (NAV) of the Scheme(s), to the extent invested in fixed income and money market securities, will be affected by changes in the general level of interest rates. The NAV of the Scheme(s) is expected to increase from a fall in interest rates while it would be adversely affected by an increase in the level of interest rates.
- b. **Liquidity Risk:** The liquidity of a security may change depending on market conditions leading to changes in the liquidity premium linked to the price of the security. At the time of selling the security, the security can become illiquid leading to loss in the value of the portfolio.
- c. **Credit Risk:** Investments in fixed income securities and money market instruments are subject to the risk of an issuer's inability to meet interest and principal payments on its obligations and market perception of the creditworthiness of the issuer.

8. Risk associated with investing in units of mutual funds

The scheme may make investments in units of mutual funds. Investments in schemes of mutual funds are subject to market risks and there is no assurance or guarantee that the objectives of the scheme will be achieved. Further, any investment in mutual funds is also subject to risk factors outlined in the offer document of the mutual fund and an adverse performance of a mutual fund scheme in which the scheme has made investments could adversely impact the scheme's performance and NAV of the scheme.

9. Risks associated with investing in Tri Party Repo through CCIL (TREPS)

The mutual fund is a member of securities segment and Tri-party Repo trade settlement of the Clearing Corporation of India (CCIL). All transactions of the mutual fund in government securities and in Tri-party Repo trades are settled centrally through the infrastructure and settlement systems provided by CCIL; thus reducing the settlement and counterparty risks considerably for transactions in the said segments.

CCIL maintains prefunded resources in all the clearing segments to cover potential losses arising from the default member. In the event of a clearing member failing to honour his settlement obligations, the default Fund is utilized to complete the settlement. The sequence in which the above resources are used is known as the "Default Waterfall".

As per the waterfall mechanism, after the defaulter's margins and the defaulter's contribution to the default fund have been appropriated, CCIL's contribution is used to meet the losses. Post utilization of CCIL's contribution if there is a residual loss, it is appropriated from the default fund contributions of the non-defaulting members.

Thus the scheme is subject to risk of the initial margin and default fund contribution being invoked in the event of failure of any settlement obligations. In addition, the fund contribution is allowed to be used to meet the residual loss in case of default by the other clearing member (the defaulting member).

However, it may be noted that a member shall have the right to submit resignation from the membership of the Security segment if it has taken a loss through replenishment of its contribution to the default fund for the segments and a loss threshold as notified have been

reached. The maximum contribution of a member towards replenishment of its contribution to the default fund in the 7 days (30 days in case of securities segment) period immediately after the afore-mentioned loss threshold having been reached shall not exceed 5 times of its contribution to the Default Fund based on the last re-computation of the Default Fund or specified amount, whichever is lower.

Further, it may be noted that, CCIL periodically prescribes a list of securities eligible for contributions as collateral by members. Presently, all Central Government securities and Treasury bills are accepted as collateral by CCIL. The risk factors may undergo change in case the CCIL notifies securities other than Government of India securities as eligible for contribution as collateral.

10. Risks associated with schemes investing in Gilt Securities

Generally, when interest rates rise, prices of fixed income securities fall and when interest rates drop, the prices increase. The extent of fall or rise in prices is a function of the existing coupon, days to maturity and the increase or decrease in interest rates. Price-risk is not unique to government securities but is true for all fixed income securities. The default risk however, in respect of Government securities is zero. Therefore, their prices are influenced only by movement in interest rates in the financial system. On the other hand, in the case of corporate or institutional fixed income securities, such as bonds or debentures, prices are influenced by credit standing of the issuer as well as the general level of interest rates.

Even though the Government securities market is more liquid compared to other debt instruments, on occasions, there could be difficulties in transacting in the market due to extreme volatility or unusual constriction in market volumes or on occasions when an unusually large transaction has to be put through.

The underlying schemes having exposure to the fixed income securities and/ or equity and equity related instruments will be subject to the following risks and in turn the Scheme's performance will be affected accordingly.

11. RISKS ASSOCIATED WITH INVESTING IN UNDERLYING SCHEMES (AS APPLICABLE):

- **Risk factors pertaining to investment in Equities –**
 1. The value of the Schemes' investments, may be affected generally by factors affecting securities markets, such as price and volume volatility in the capital markets, interest rates, currency exchange rates, changes in policies of the Government, taxation laws or any other appropriate authority policies and other political and economic developments which may have an adverse bearing on individual securities, a specific sector or all sectors including equity and debt markets. Consequently, the NAV of the Units of the Schemes may fluctuate and can go up or down.
 2. Investors may note that AMC/Fund Manager's investment decisions may not be always profitable, as actual market movements may be at variance with anticipated trends. Trading volumes, settlement periods and transfer procedures may restrict the liquidity of these investments. Different segments of the Indian financial markets have different settlement periods and such periods may be extended significantly by

unforeseen circumstances. The inability of the Schemes to make intended securities purchases due to settlement problems could cause the Schemes to miss certain investment opportunities.

3. The Mutual Fund may not be able to sell / lend out securities, which can lead to temporary illiquidity. There are risks inherent in securities lending, including the risk of failure of the other party, in this case the approved intermediary to comply with the terms of the agreement. Such failure can result in a possible loss of rights to the collateral, the inability of the approved intermediary to return the securities deposited by the lender and the possible loss of corporate benefits accruing thereon.
4. Investors may note that dividend is due only when declared and there is no assurance that a company (even though it may have a track record of payment of dividend in the past) may continue paying dividend in future. As such, the schemes are vulnerable to instances where investments in securities may not earn dividend or where lesser dividend is declared by a company in subsequent years in which investments are made by schemes. As the profitability of companies are likely to vary and have a material bearing on their ability to declare and pay dividend, the performance of the schemes may be adversely affected due to such factors.
5. Securities, which are not quoted on the stock exchanges, are inherently illiquid in nature and carry a larger amount of liquidity risk. in comparison to securities that are listed on the exchanges or offer other exit options to the investor, including a put option. Within the Regulatory limits, the AMC may choose to invest in unlisted securities. This may however increase the risk of the portfolio.
6. While securities that are listed on the stock exchange carry lower liquidity risk, the ability to sell these investments is limited by the overall trading volume on the stock exchanges. The liquidity of the Schemes' investments is inherently restricted by trading volumes in the securities in which it invests.

Fund manager endeavors to generate returns based on certain past statistical trend. The performance of the schemes may get affected if there is a change in the said trend. There can be no assurance that such historical trends will continue.

7. In case of abnormal circumstances, it will be difficult to complete the square off transaction due to liquidity being poor in stock futures/spot market. However, fund will aim at taking exposure only into liquid stocks where there will be minimal risk to square off the transaction. The Schemes investing in foreign securities will be exposed to settlement risk, as different countries have different settlement periods.
8. Changes in Government policy in general and changes in tax benefits applicable to mutual funds may impact the returns to investors in the Schemes or business prospects of the Company in any particular sector.

- **Risk factors pertaining to investment in Fixed Income Securities**

- **Market Risk/Interest Rate Risk:** The Net Asset Value (NAV) of the Scheme(s), to the extent invested in Debt and Money Market securities, will be affected by changes in

the general level of interest rates. The NAV of the Scheme(s) is expected to increase from a fall in interest rates while it would be adversely affected by an increase in the level of interest rates.

- **Liquidity Risk:** The liquidity of a security may change depending on market conditions leading to changes in the liquidity premium linked to the price of the security. At the time of selling the security, the security can become illiquid leading to loss in the value of the portfolio.
- **Credit Risk:** Investments in Debt Securities are subject to the risk of an issuer's inability to meet interest and principal payments on its obligations and market perception of the creditworthiness of the issuer.
- **Price Risk:** Government securities where a fixed return is offered run price-risk like any other fixed income security. Generally, when interest rates rise, prices of fixed income securities fall and when interest rates drop, the prices increase. The extent of fall or rise in the prices is a function of the existing coupon, days to maturity and the increase or decrease in the level of interest rates. The new level of interest rate is determined by the rates at which government raises new money and/or the price levels at which the market is already dealing in existing securities. The price-risk is not unique to Government Securities. It exists for all fixed income securities. However, Government Securities are unique in the sense that their credit risk generally remains zero. Therefore, their prices are influenced only by movement in interest rates in the financial system.
- **Reinvestment Risk:** This risk refers to the interest rate levels at which cash flows received from the securities in the Scheme are reinvested. The additional income from reinvestment is the "interest on interest" component. The risk is that the rate at which interim cash flows can be reinvested may be lower than that originally assumed.
- **Settlement risk:** The inability of the Scheme to make intended securities purchases due to settlement problems could cause the Scheme to miss certain investment opportunities. By the same rationale, the inability to sell securities held in the Scheme's portfolio due to the extraneous factors that may impact liquidity would result, at times, in potential losses to the Plan, in case of a subsequent decline in the value of securities held in the Scheme's portfolio.
- **Regulatory Risk:** Changes in government policy in general and changes in tax benefits applicable to Mutual Funds may impact the returns to investors in the Scheme.
- **Risks associated with investment in unlisted securities:** Except for any security of an associate or group company, the scheme can invest in securities which are not listed on a stock exchange ("unlisted Securities") which in general are subject to greater price fluctuations, less liquidity and greater risk than those which are traded in the open market. Unlisted securities may lack a liquid secondary market and there can be no assurance that the Scheme will realise their investments in unlisted securities at a fair value.

- Different types of fixed income securities in which the Scheme(s) would invest as given in the Scheme Information Document carry different levels and types of risk. Accordingly, the Scheme(s) risk may increase or decrease depending upon its investment pattern. e.g. corporate bonds carry a higher level of risk than Government securities.
- The AMC may, considering the overall level of risk of the portfolio, invest in lower rated / unrated securities offering higher yields as well as zero coupon securities that offer attractive yields. This may increase the absolute level of risk of the portfolio.
- As zero coupon securities does not provide periodic interest payments to the holder of the security, these securities are more sensitive to changes in interest rates. Therefore, the interest rate risk of zero coupon securities is higher. The AMC may choose to invest in zero coupon securities that offer attractive yields. This may increase the risk of the portfolio.
- The Scheme(s) at times may receive large number of redemption requests, leading to an asset-liability mismatch and therefore, requiring the investment manager to make a distress sale of the securities leading to realignment of the portfolio and consequently resulting in investment in lower yield instruments.
- Scheme's performance may differ from the benchmark index to the extent of the investments held in the debt segment, as per the investment pattern indicated under normal circumstances.
- **Market Trading Risks**
 - **Absence of Prior Active Market:** Although units of the underlying scheme(s) are listed on the Exchanges, there can be no assurance that an active secondary market will develop or be maintained.
 - **Lack of Market Liquidity:** Trading in units of the respective underlying scheme(s) on the Exchange may be halted because of market conditions or for reasons that in the view of the Market Authorities or SEBI, trading in units of the underlying scheme(s) are not advisable. In addition, trading in units of the underlying scheme(s) are subject to trading halts caused by extraordinary market volatility and pursuant to NSE/BSE and SEBI "circuit filter" rules. There can be no assurance that the requirements of the Market necessary to maintain the listing of units of the underlying scheme(s) will continue to be met or will remain unchanged.
 - **Units of the underlying scheme(s) may trade at Prices Other than NAV:** Units of the underlying scheme(s) may trade above or below its NAV. The NAV of the underlying scheme will fluctuate with changes in the market value of underlying scheme's holdings. The trading prices of units of the underlying scheme will fluctuate in accordance with changes in their NAVs as well as market supply and demand of units of the underlying scheme. However, given that units can be created and redeemed only in Creation Units directly with the Fund, it is expected that large discounts or premiums to the NAVs of the underlying Scheme will not sustain due to arbitrage possibility available.

- **Regulatory Risk:** Any changes in trading regulations by the Stock Exchange/s or SEBI may affect the ability of market maker to arbitrage resulting into wider premium/discount to NAV. Although, the units are listed on NSE and BSE, the AMC and the Trustees will not be liable for delay in listing of Units of the underlying scheme on the stock exchanges / or due to connectivity problems with the depositories due to the occurrence of any event beyond their control.
- **Settlement Risk:** In certain cases, settlement periods may be extended significantly by unforeseen circumstances. The inability of the underlying scheme to make intended securities purchases due to settlement problems could cause the underlying scheme to miss certain investment opportunities as in certain cases, settlement periods may be extended significantly by unforeseen circumstances. Similarly, the inability to sell securities held in the underlying scheme portfolio may result, at times, in potential losses to the underlying scheme, and there can be a subsequent decline in the value of the securities held in the underlying scheme's portfolio.

- **Tracking Error Risk**

The AMC would monitor the tracking error of the underlying scheme on an ongoing basis and would seek to minimize tracking error to the maximum extent possible. Under normal circumstances, the AMC will endeavour that the tracking error of the underlying scheme does not exceed 2% per annum. However, this may vary due to various reasons mentioned below or any other reasons that may arise and particularly when the markets are very volatile.

Factors such as the fees and expenses of the underlying scheme, Corporate Actions, Cash balance, changes to the Underlying Index and regulatory policies may affect AMC's ability to achieve close correlation with the Underlying Index of the underlying scheme. The underlying scheme's returns may therefore deviate from those of their Underlying Index. "Tracking Error" is defined as the standard deviation of the difference between daily returns of the index and the NAV of the underlying scheme. Tracking Error may arise due to the following reasons: -

- Expenditure incurred by the underlying scheme.
- Any delay experienced in the purchase or sale of shares due to illiquidity of the market, settlement and realization of sale proceeds and the registration of any securities transferred and any delays in receiving cash and scrip IDCW and resulting delays in reinvesting them.
- The underlying index reflects the prices of securities at close of business hours. However, the Fund may buy or sell the securities at different points of time during the trading session at the then prevailing prices which may not correspond to the closing prices on the exchange.
- Index Service Provider undertakes the periodical review of the scrips that comprise the underlying index and may either drop or include new securities. In such an event, the Fund will endeavor to reallocate its portfolio but the available investment/disinvestment opportunities may not permit precise mirroring of the Index.
- The potential for trades to fail which may result in the underlying scheme not having acquired shares at a price necessary to track the index.

- The holding of a cash position and accrued income prior to distribution and accrued expenses.
 - Disinvestments to meet redemptions, recurring expenses, IDCW payouts etc.
 - The fund may not be invested at all times as it may keep a portion of the fund in cash to meet redemptions or for corporate actions of securities in the index.
 - Securities trading may halt temporarily due to circuit filters.
 - Corporate actions such as rights, merger, change in constituents etc.
 - Rounding off quantity of shares underlying the index.
 - Index providers undertake a periodical review of the scrips that comprise the Underlying Index and may either remove or include new scrips. In such an event, the underlying scheme will endeavour to reallocate its portfolio but the available investment opportunity may not permit absolute mirroring immediately.
- **Risks associated with Investing in Derivatives**
 1. The Schemes may use various derivative products as permitted by the Regulations. Use of derivatives requires an understanding of not only the underlying instrument but also of the derivative itself. Other risks include the risk of mis-pricing or improper valuation and the inability of derivatives to correlate perfectly with underlying assets, rates and indices.
 2. The Fund may use derivatives instruments like Stock /Index Futures, Interest Rate Swaps, Forward Rate Agreements or other derivative instruments for the purpose of hedging and portfolio balancing, as permitted under the Regulations and guidelines. Usage of derivatives will expose the Schemes to certain risks inherent to such derivatives.
 3. Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the fund manager to identify such opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and decision of fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies.
 4. Thus, derivatives are highly leveraged instruments. Even a small price movement in the underlying security could have a large impact on their value.
 5. The risks associated with the use of derivatives are different from or possibly greater than the risks associated with investing directly in securities and other traditional investments.
 6. The specific risk factors arising out of a derivative strategy used by the Fund Manager may be as below:
 - The risk of mispricing or improper valuation and the inability of derivatives to correlate perfectly with underlying assets, rates and indices.
 - Execution Risk: The prices which are seen on the screen need not be the same at which execution will take place
 - Basis Risk: This risk arises when the derivative instrument used to hedge the underlying asset does not match the movement of the underlying asset being hedged
 - Exchanges could raise the initial margin, variation margin or other forms of margin on derivative contracts, impose one sided margins or insist that margins be placed in

cash. All of these might force positions to be unwound at a loss, and might materially impact returns.

C. Risk mitigation strategies

The underlying schemes having exposure to the fixed income securities and/ or equity and equity related instruments may be subject to the following risks and in turn the Scheme's/ Plans' performance will be affected accordingly.

<u>Risks associated with Equity investments</u>	
<u>Concentration Risk</u> Concentration risk represents the probability of loss arising from heavily lopsided exposure to a particular group of sectors or securities.	The underlying schemes will try and mitigate this risk by investing in large number of companies so as to maintain optimum diversification and keep stock-specific concentration risk relatively low.
<u>Market Risk</u> The scheme is vulnerable to movements in the prices of securities invested by the scheme, which could have a material bearing on the overall returns from the scheme	Market risk is a risk which is inherent to an equity scheme. The underlying schemes may use derivatives to limit this risk.
<u>Derivatives Risk</u> As and when the Scheme trades in the derivatives market there are risk factors and issues concerning the use of derivatives since derivative products are specialized instruments that require investment techniques and risk analyses different from those associated with stocks and bonds.	The underlying scheme may invest in derivative for the purpose of hedging, portfolio balancing and other purposes as may be permitted under the Regulations. Derivatives will be used in the form of Index Options, Index Futures, Stock Options and Stock Futures and other instruments as may be permitted by SEBI. All derivatives trade will be done only on the exchange with guaranteed settlement. Fund managers will endeavor to use derivatives which are relatively liquid and traded frequently on the exchanges. Exposure with respect to derivatives shall be in line with regulatory limits and the limits specified in the SID. No OTC contracts will be entered into.
<u>Liquidity risk</u> The liquidity of the Scheme's investments is inherently restricted by trading volumes in the securities in which it invests.	As such the liquidity of stocks that the underlying schemes invest into could be relatively low. The underlying schemes will try to maintain a proper asset-liability match to ensure redemption / Maturity payments are made on time.

<u>Risks associated with Fixed Income investment</u>	
<u>Market Risk/ Interest Rate Risk</u> As with all debt securities, changes in interest rates may affect the Scheme's Net Asset Value as the prices of securities generally increase as interest rates decline and generally decrease as	The underlying schemes will undertake the active portfolio management as per the investment objective to reduce the market risk. In a rising interest rates scenario the underlying scheme may increase its

interest rates rise. Prices of long-term securities generally fluctuate more in response to interest rate changes than do short-term securities. Indian debt markets can be volatile leading to the possibility of price movements up or down in fixed income securities and thereby to possible movements in the NAV.	investment in money market securities whereas if the interest rates are expected to fall the allocation to debt securities with longer maturity may be increased thereby mitigating risk to that extent.
<u>Liquidity or Marketability Risk</u> This refers to the ease with which a security can be sold at or near to its valuation yield-to-maturity (YTM).	The underlying scheme may invest in government securities, corporate bonds and money market instruments. While the liquidity risk for government securities, money market instruments and short maturity corporate bonds may be low, it may be high in case of medium to long maturity corporate bonds.
<u>Credit Risk</u> Credit risk or default risk refers to the risk that an issuer of a fixed income security may default (i.e., will be unable to make timely principal and interest payments on the security).	Management analysis will be used for identifying company specific risks. Management's past track record will also be studied. In order to assess financial risk a detailed assessment of the issuer's financial statements will be undertaken.

Note: The information contained herein is based on current market conditions and may change from time to time based on changes in such conditions, regulatory changes and other relevant factors. Accordingly, our investment strategy, risk mitigation measures and other information contained herein may change in response to the same.

I. Information about the scheme

A. Where will the scheme invest?

The corpus of the Scheme will be invested predominantly in units of passive domestic sector/multi sector based equity oriented exchange traded funds (ETFs), depending on the asset allocation pattern and Investment Objective of the Scheme. As per the SEBI guidelines, a Fund of funds scheme shall not invest its assets other than in schemes of mutual funds, except to the extent of funds required for meeting the liquidity requirements for the purpose of repurchases or redemptions.

Subject to the Regulations, the corpus of the Scheme can be invested in any (but not exclusively) of the following securities:

1. Units of passive domestic Equity oriented exchange traded funds of ICICI Prudential Mutual Fund or any other Mutual Fund;
2. Money Market Instruments, including Tri-Party Repo*, cash & cash equivalents.

*or similar instruments as may be permitted by SEBI/RBI, subject to approval from SEBI/RBI as required.

The units of the schemes of the Mutual Funds in which the Scheme propose to make investments in could be listed or unlisted, open/closed ended. The units may be acquired through subscription to the units during the New Fund Offer of the schemes or by subscriptions on on-going basis in case of open -ended schemes.

Further the inter Scheme transfer of investments shall be in accordance with the provisions contained in clause Inter-Scheme transfer of investments, stated in paragraph 12.30 of the Master Circular.

POSITION OF DEBT MARKET IN INDIA

There are three main segments in the debt markets in India, viz., Government Securities, Public Sector Units (PSU) bonds, and corporate securities. A bulk of the debt market consists of Government Securities. Other instruments available currently include Corporate Debentures, Bonds issued by Financial Institutions, Commercial Paper, Certificates of Deposits and Securitised Debt. Securities in the Debt market typically vary based on their tenure and rating. Government Securities have tenures from one year to thirty years whereas the maturity period of the Corporate Debt now goes upto sixty years and more (perpetual). Perpetual bonds are now issued by banks as well. Securities may be both listed and unlisted and there is increasing trend of securities of maturities of over one year being listed by issuers.

The yields and liquidity on various securities as on September 30, 2025 are as under:

Issuer	Instrument	Maturity	Yields (%)	Liquidity
GOI	Treasury Bill	91 Days	5.44%	High
GOI	Treasury Bill	364 Days	5.56%	High
GOI	Short Dated	1-3 Years	5.61% - 5.93%	High
GOI	Medium Dated	3-5 Years	5.93% - 6.21%	High
GOI	Long Dated	5-10 Years	6.21% - 6.57 %	High
Corporates	Taxable Bonds (AAA)	1-3 Years	6.72% - 6.96%	Medium
Corporates	Taxable Bonds (AAA)	3-5 Years	6.96% - 7.00%	Low to Medium
Corporates	CDs (A1+)	3 months	5.83%	Medium to High
Corporates	CPs (A1+)	3 months	6.57%	Medium to High

B. What are the investment restrictions?

As per the provisions of the Trust Deed read with the SEBI (Mutual Funds) Regulations, 1996, the following investment restrictions apply in respect of the Scheme at the time of making investments. however, all investments by the Scheme will be made in accordance with the investment objective, asset allocation and where will the schemes invest, described earlier,

as well as the SEBI (Mutual Funds) Regulations, 1996, including schedule VII thereof, as amended from time to time.

1. Transfer of investments from one scheme to another scheme in the same Mutual Fund is permitted provided:
 - a) Such transfers are done at the prevailing market price for quoted instruments on spot basis (spot basis shall have the same meaning as specified by a Stock Exchange for spot transactions); and
 - b) The securities so transferred shall be in conformity with the investment objective of the scheme to which such transfer has been made.

Further the inter Scheme transfer of investments shall be in accordance with the provisions contained in clause Inter-Scheme transfer of investments, stated in paragraph 12.30 of the Master Circular.

2. The Fund shall get the securities purchased transferred in the name of the Fund on account of the concerned scheme, wherever investments are intended to be of a long-term nature.
3. The Fund may buy and sell securities on the basis of deliveries and shall in all cases of purchases, take delivery of relative securities and in all cases of sale, deliver the securities and will not make any short sales or engage in carry forward transaction or badla finance.

Provided further that sale of government security already contracted for purchase shall be permitted in accordance with the guidelines issued by the RBI in this regard

4. No loans for any purpose can be advanced by the Scheme.
5. No mutual fund scheme shall make any investments in;
 - a) any unlisted security of an associate or group company of the sponsor; or
 - b) any security issued by way of private placement by an associate or group company of the Sponsor; or
 - c) the listed securities of group companies of the Sponsor which is in excess of 25% of the net assets except for investments by equity oriented exchange traded funds and index funds and subject to such conditions as may be specified by the Board.
6. No underlying mutual fund scheme shall invest more than 10% of its NAV in equity shares or equity related instruments of any one company.

Provided, investment in the asset management company or the trustee company of a mutual fund shall be governed by clause (a), of sub-regulation (1), of regulation 7B.

7. The Fund shall not borrow except to meet temporary liquidity needs of the Fund for the purpose of repurchase/ redemption of units or payment of interest or IDCW to the Unitholders. Such borrowings shall not exceed more than 20% of the net assets of the individual scheme and the duration of the borrowing shall not exceed a period of 6 months.

8. Pending deployment of funds of the Schemes in terms of the investment objective of the Schemes, the Mutual Fund may invest them in short term deposits of scheduled commercial banks in accordance with paragraph 12.16 of the Master Circular. The following guidelines shall be followed for parking of funds in short term deposits of Scheduled commercial Banks pending deployment:
- a. "Short Term" for such parking of funds by mutual funds shall be treated as a period not exceeding 91 days.
 - b. Such short term deposits shall be held in the name of the concerned Scheme.
 - c. No mutual fund Scheme shall park more than 15% of the net assets in Short term deposit(s) of all the scheduled commercial banks put together. However, it may be raised to 20% with prior approval of the trustees. Also, parking of funds in short term deposits of associate and sponsor scheduled commercial banks together shall not exceed 20% of total deployment by the mutual fund in short term deposits.
 - d. No mutual fund Scheme shall park more than 10% of the net assets in short term deposit(s), with any one scheduled commercial bank including its subsidiaries.
 - e. Trustees/Asset Management Companies (AMCs) shall ensure that no funds of a scheme are parked in short term deposit (STD) of a bank which has invested in that scheme. Trustees/AMCs shall also ensure that the bank in which a scheme has STD does not invest in the said scheme until the scheme has STD with such bank.
The above conditions are not applicable to term deposits placed as margins for trading in cash and derivative market.
 - f. Asset Management Company (AMC) shall not be permitted to charge any investment management and advisory fees for parking of funds in short term deposits.
9. The Mutual Fund having an aggregate of securities which are worth Rs.10 crores or more, as on the latest balance sheet date, shall subject to such instructions as may be issued from time to time by the Board, settle their transactions entered on or after January 15, 1998 only through dematerialised securities. Further, all transactions in government securities shall be in dematerialised form.
10. This Scheme shall not invest in any other Fund of Funds Scheme.
11. A fund of funds scheme shall not invest its assets other than in schemes of mutual funds, except to the extent of funds required for meeting the liquidity requirements for the purpose of repurchases or redemptions, as disclosed in the Scheme Information Document.
12. The Scheme will comply with any other Regulation applicable to the investments of mutual funds from time to time.

The Trustee may alter the above restrictions from time to time to the extent that changes in

the Regulations may allow or as deemed fit in the general interest of the Unitholders.

E. Other Scheme Specific Disclosures:

Listing and transfer of units	Listing: Being an open ended scheme, the Units of the Scheme will not be listed on any stock exchange, at present. The Trustee may, at its sole discretion, cause the Units under the Scheme to be listed on one or more Stock Exchanges. Notification of the same will be made through Customer Service Centres of the AMC and as may be required by the respective Stock Exchanges. Transfer: Pursuant to paragraph 14.4.4 of the Master Circular, the Units of the Scheme can be transferred freely in demat form or in statement of Account (SOA) mode. For Details process on transfer of units under SOA mode, please refer SAI.
Dematerialization of units	The asset management company shall issue units in dematerialized form to a unit holder in a scheme within two working days of the receipt of request from the unit holder subject to receipt of complete documents and details

	from the investor. Unit holders can convert their existing physical units (represented by statement of account) into dematerialized form, for further details, please refer to SAI.
Policy for declaration of Income Distribution cum capital withdrawal (IDCW Policy)	(i) Growth Option The Scheme will not declare any IDCW under this option. The income earned by the Scheme will remain reinvested in the Scheme and will be reflected in the Net Asset Value. This option is suitable for investors who are not looking for regular income but who have invested with the intention of capital appreciation. (ii) IDCW Option This option is suitable for investors seeking income through IDCW declared by the Scheme. The Trustee may approve the distribution of IDCW by AMC out of the net surplus under this Option. The remaining net surplus after considering the IDCW and tax, if any, payable there on will be ploughed back in the Scheme and be reflected in the NAV. (iii) IDCW Payout: As per the SEBI (MF) Regulations, the IDCW warrants shall be dispatched to the Unit Holders within 7 business days from the record date. IDCW will be payable to those Unit Holders whose names appear in the Register of Unit Holders on the date (Record Date). IDCW will be paid by cheque, net of taxes as may be applicable. Unit Holders will also have the option of direct payment of IDCW to the bank account. The cheques will be drawn in the name of the sole/first holder and will be posted to the Registered address of the sole/first holder as indicated in the original application form. To safeguard the interest of Unit Holders from loss or theft of IDCW cheques, investors should provide the name of their bank, branch and account number in the application form. IDCW cheques will be sent to the Unit Holder after incorporating such information. The minimum

	amount for IDCW payout shall be Rs.100, else IDCW would be mandatorily reinvested (iv) IDCW Reinvestment: The investors opting for IDCW Option may choose to reinvest the IDCW to be received by them in additional Units of the Scheme. Under this provision, the IDCW due and payable to the Unitholders will be compulsorily and without any further act by the Unitholders reinvested in the Scheme (under the IDCW Option, at the first ex- IDCW NAV). The IDCW so reinvested shall be constructive payment of IDCW to the Unitholders and constructive receipt of the same amount from each Unitholder for reinvestment in Units. On reinvestment of IDCW, the number of Units to the credit of Unitholder will increase to the extent of the IDCW reinvested by the NAV applicable on the day of reinvestment, as explained above. (v) IDCW Transfer IDCW Transfer facility will be available under the scheme. The designated schemes (source and target schemes) for this facility are as given below: Source schemes - all schemes where IDCW option is available [except (i) Exchange Traded Funds (ETFs) and (ii) separate plans under ICICI Prudential Overnight Fund for deployment of unclaimed amounts viz ICICI Prudential Overnight Fund - Unclaimed Redemption, ICICI Prudential Overnight Fund - Unclaimed IDCW, ICICI Prudential Overnight Fund - Unclaimed Redemption Investor Education and ICICI Prudential Overnight Fund - Unclaimed IDCW Investor Education] Target schemes- all open ended schemes where subscription is allowed [except (i) Exchange Traded Funds (ETFs) and (ii) separate plans under ICICI Prudential Overnight Fund for deployment of unclaimed amounts viz ICICI Prudential Overnight Fund -
--	---

	Unclaimed Redemption, ICICI Prudential Overnight Fund - Unclaimed IDCW, ICICI Prudential Overnight Fund - Unclaimed Redemption Investor Education and ICICI Prudential Overnight Fund - Unclaimed IDCW Investor Education] Note: Investors are requested to note that any change in IDCW sub-option, due to additional investment or on the basis of a request received from the investor, will be applicable to all existing units in the IDCW option of the Scheme under the respective folio. The Trustee reserves the right to declare IDCW under the IDCW option of the Scheme depending on the distributable surplus available under the Scheme. It should, however, be noted that actual distribution of IDCW and the frequency of distribution will depend, inter-alia, on the availability of distributable surplus and will be entirely at the discretion of the Trustee. The IDCW will be distributed in accordance with Chapter 11 of the Master Circular on the procedure for IDCW Distribution. Equalisation Reserve: When units are sold, and sale price (NAV) is higher than face value of the unit, a portion of sale price that represents realized gains is credited to an Equalization Reserve Account and which can be used to pay IDCW. IDCW can be distributed out of investors capital (Equalization Reserve), which is part of sale price that represents realized gains.

Delay in payment of redemption / repurchase proceeds/ IDCW	The Asset Management Company shall be liable to pay interest to the unitholders at @ 15% per annum as specified vide paragraph 14.2 of Master Circular for the period of such delay.
Unclaimed Redemption and Income Distribution cum Capital Withdrawal Amount	The treatment of unclaimed redemption & IDCW amount will be as per paragraph 14.3 of the master circular.
Disclosure w.r.t investment by minors	A minor can invest through his/her parent/lawful guardian. Minors can complete their KYC requirements for their folio through guardian. Payment for investment by any mode shall be accepted from the bank account of the minor, parent or legal guardian of the minor, or from a joint account of the minor with parent or legal guardian. For existing folios, the AMCs shall insist upon a Change of Pay-out Bank mandate before redemption is processed. For further details, please refer to SAI.
Ongoing Offer Period This is the date from which the Scheme will reopen for subscriptions/redemptions after the closure of the NFO period.	The Scheme is an open ended scheme and hence is available for subscription and redemption on an ongoing basis on every business day at NAV based prices. The Units of the Scheme will not be listed on any exchange, for the present.
Ongoing price for subscription (purchase)/switch-in (from other Schemes/plans of the mutual fund) by investors This is the price you need to pay for purchase/switch-in.	The purchase price of the Units will be based on the Applicable NAV subject to the applicable stamp duty. Purchase Price = Applicable NAV (for respective plan and option of the Scheme) (Example: An investor invests Rs 20,000/- and the current NAV is Rs. 20/- then the purchase price will be Rs. 20/- and the investor receives $20000/20 = 1000$ units. The Scheme shall not charge any entry load.
Nomination	The SEBI (Mutual Fund) Regulations notifies that the mutual fund shall provide nomination facility to the unit holders to nominate a person in whose favour the units shall be transmitted in the event of death of the unitholder. Any new investor, investing in Mutual Fund Units shall mandatorily have to provide nomination or Opt out of nomination

	through physical or online mode. The requirement of nomination shall be optional for jointly held folios. For detailed guidelines on Nomination please refer to SAI.
KYC rules for investors:	All the prospective and existing investors / Unit holders of the Fund are requested to note that, pursuant to SEBI Master Circular on Know Your Client (KYC) norms for the securities market dated October 12, 2023 regarding uniformity in KYC process in the securities market and development of a mechanism for centralization of the KYC records, the following KYC procedure is being carried out: A) Requirement of PAN: • In order to strengthen the KYC norms and identify every participant in the securities market with their respective PAN thereby ensuring sound audit trail of all the transactions, PAN shall be the unique identification number for all participants transacting in the securities market, irrespective of the amount of transaction • The following are exempted from the mandatory requirement of PAN: a. Investment Strategies of the underlying Schemes:

- ICICI Prudential Nifty Private Bank ETF

The corpus of the Scheme will be invested predominantly in stocks constituting the underlying index in the same proportion as in the Index and endeavor to track the benchmark index. A very small portion (0-5% of the Net Assets) of the Scheme may be kept liquid to meet the liquidity and expense requirements. Further, the Scheme shall follow a passive investment strategy. The performance of the Scheme may not be commensurate with the performance of the underlying index on any given day or over any given period. Such variations are commonly referred to as the tracking error. The Scheme intends to maintain a low tracking error by closely aligning the portfolio in line with the index. The stocks comprising the underlying index are periodically reviewed by Index Service Provider. A particular stock may be dropped or new securities may be included as a constituent of the index. In such an event, the Scheme will endeavor to reallocate its portfolio but the available investment/ disinvestment opportunities may not permit precise mirroring of the underlying index immediately. Similarly, in the event of a constituent stock being demerged / merged / delisted from the exchange or due to a major corporate action in a constituent stock, the Scheme may have to reallocate the portfolio and seek to minimize the variation from the index. The portfolio shall be rebalanced within 7 calendar days to ensure adherence to the asset allocation norms of the Scheme (or any other timeline as may be prescribed by SEBI).

Equities and equity related instruments: The Scheme would invest in stocks comprising the underlying index and endeavor to track the benchmark index.

Fixed Income Securities: The Scheme may also invest in units of liquid schemes, money market instrument (with maturity not exceeding 91 days), including TREP, cash & cash equivalents, in compliance with Regulations to meet liquidity requirements. The scheme may also invest in liquid schemes of ICICI Prudential Mutual Fund or other schemes which has objective to invest in debt and money market instruments. Money Market Instruments include commercial papers, commercial bills, treasury bills, and Government securities having an unexpired maturity up to one year, call or notice money, certificate of deposit, usance bills, TREPs and any other like instruments as specified by the Reserve Bank of India from time to time. **Investment in Derivatives:** The Scheme may take an exposure to equity derivatives of constituents of the underlying Basket when securities of the Basket are unavailable, insufficient or for rebalancing at the time of change in Basket or in case of corporate actions, for a short period of time. The Scheme may use derivative instruments such as stock futures and options contracts, warrants, convertible securities, swap agreements or any other derivative instruments that are permissible or may be permissible in future under applicable regulations and such investments shall be in accordance with the investment objective of the Scheme.

Investment Process. The Scheme will track the Underlying Index and is a passively managed scheme. The investment Decisions will be determined as per the Underlying Index. In case of any change in the index due to corporate actions or change in the constituents of the Underlying Index (as communicated by the Index Service Provider), relevant investment

decisions will be determined considering the composition of the Underlying Index. For details on the Derivative Strategies followed, kindly refer to SAI.

Expectation is that, over time, the tracking error of the Scheme relative to the performance of the Underlying Index will be relatively low. The Investment Manager would

monitor the tracking error of the Scheme on an ongoing basis and would seek to minimize tracking error to the maximum extent possible. There can be no assurance or guarantee that the Scheme will achieve any particular level of tracking error relative to performance of the Underlying Index. Investment Process. The Investment decision of the Scheme will be carried out by the designated Fund Manager. For details on the Derivative Strategies followed, kindly refer to SAI.

- ICICI Prudential Nifty Metal ETF

Being an ETF, the Scheme will follow a passive investment strategy. The corpus of the Scheme will be invested in stocks constituting the underlying index in the same proportion as in the Index and endeavor to track the benchmark index. A very small portion (0-5% of the Net Assets) of the Scheme may be kept liquid to meet the liquidity and expense requirements. The performance of the Scheme may not commensurate with the performance of the underlying index on any given day or over any given period. Such variations are commonly referred to as the tracking error. The scheme intends to maintain a low tracking error by closely aligning the portfolio in line with the index. The stocks comprising the underlying index are periodically reviewed by Index Service Provider. A particular stock may be dropped or new securities may be included as constituents of the index. In such an event, the Scheme will endeavor to reallocate its portfolio but the available investment/ disinvestment opportunities may not permit precise mirroring of the underlying index immediately. The portfolio shall be rebalanced within 7 calendar days to ensure adherence to the asset allocation norms of the Scheme. Similarly, in the event of a constituent stock being demerged / merged / delisted from the exchange or due to a major corporate action in a constituent stock, the Scheme may have to reallocate the portfolio and seek to minimize the variation from the index. In such events, it may be more prudent for the Scheme to take exposure through derivatives of the index itself or its constituent stocks in order to minimize the long term tracking error. Equities and equity related instruments: The Scheme would invest in stocks comprising the underlying index and endeavor to track the benchmark index. Fixed Income Securities: The Scheme may also invest in units of TREPs, Repo and Reverse Repo, cash & cash equivalents, in compliance with Regulations to meet liquidity requirements. The scheme may also invest in liquid schemes of ICICI Prudential Mutual Fund or other schemes which has objective to invest in debt and money market instruments. Money Market Instruments include commercial papers, commercial bills, treasury bills, and Government securities having an unexpired maturity up to one year, call or notice money, certificate of deposit, usance bills, TREPs and any other like instruments as specified by the Reserve Bank of India from time to time, subject to regulatory approvals.

Implementation of Policies:

The Scheme, in general, will hold all of the securities that comprise the Underlying Index in the same proportion as the index. Expectation is that, over time, the tracking error of the Scheme relative to the performance of the Underlying Index will be relatively low. The Investment Manager would monitor the tracking error of the Scheme on an ongoing basis and would seek to minimize tracking error to the maximum extent possible. There can be no assurance or guarantee that the Scheme will achieve any particular level of tracking error relative to performance of the Underlying Index. Investment Process The Scheme will track the Underlying Index and is a passively managed scheme. The investment Decisions will be determined as per the Underlying Index. In case of any change in the index due to corporate actions or change in the constituents of the Underlying Index (as communicated by the Index Service Provider), relevant investment decisions will be determined considering the composition of the Underlying Index. The Investment decision of the Scheme if required will be carried out by the designated Fund Manager. For complete details on 'Derivative Strategies' kindly refer to SAI.

- CPSE ETF

Investment Approach CPSE ETF is a passively managed exchange traded fund. The AMC uses a "passive" or indexing approach to try and achieve Scheme's investment objective. Unlike other Funds, the Scheme does not try to "beat" the markets they track and do not seek temporary defensive positions when markets decline or appear over valued. The AMC does not make any judgments about the investment merit of a particular stock or a particular industry segment or the underlying nor will it attempt to apply any economic, financial or market analysis. Indexing eliminates active management risks with regard to over/ underperformance vis-à-vis a benchmark. The Scheme shall invest all of its funds as per its

investment objective and asset allocation pattern, except to meet its liquidity requirements. Passive approach eliminates active management risks pertaining to over/underperformance vis-à-vis a benchmark. CPSE ETF will invest at least 95% of its total assets in the stocks of the Nifty CPSE Index. Due to corporate action in companies comprising the index, the Scheme may be allocated/allotted Securities which are not part of its underlying index. Hence, the Scheme may hold upto 5% of their total assets in stocks not included in the corresponding underlying index. For example, the AMC may invest in stocks not included in the relevant underlying index in order to reflect various corporate actions (such as mergers) and other changes in the relevant underlying index (such as reconstitutions, additions, deletions and these holdings will be in anticipation and in the direction of impending changes in the underlying index). In case the Scheme invests in stocks of companies outside the Index due to corporate actions, then the Fund Manager will rebalance the portfolio of the Scheme to the position indicated in the asset allocation table above within a period of 30 days from the date of said deviation. However, if market conditions do not permit exiting the corporate action within this stipulated period of 30 days then the AMC would notify the Board of the Trustee Company and the Investment Committee of the AMC with appropriate justifications. The Scheme shall also invest upto 5% in Money Market Instruments (with maturity not exceeding 91 days), including Tri-Party Repo on Government Securities or T-bills, cash and cash equivalents, as per its investment allocation pattern.

- **Motilal Oswal Nifty Realty ETF**

The Scheme follows a passive investment strategy and seek to invest in the constituent of benchmark Index. The scheme aims to achieve returns equivalent to the benchmark subject to tracking error. The investment strategy would involve offering investment returns that are similar to the total returns of Nifty Realty TR Index before fees / expense and subject to tracking error. The scheme aims to invest in the constituent of Nifty Realty Index, in the range of 95% to 100%. The scheme would also invest in units of Liquid Schemes and money market instruments, in the range of 0% to 5%. The scheme would also invest in units of Liquid/ debt schemes, debt and money market instruments as stated in the asset allocation table.

Risk Control Risk is an inherent part of the investment function. Effective Risk management is critical to fund management for achieving financial soundness. Investment by the Scheme would be made as per the investment objective of the Scheme and in accordance with SEBI Regulations. AMC has adequate safeguards to manage risk in the portfolio construction process. Risk control would involve managing risk in order to keep in line with the investment objective of the Scheme. The risk control process would include identifying the risk and taking proper measures for the same. Further, AMC has implemented Bloomberg Portfolio Order Management System as the Front Office System for managing risk. The system has incorporated all the investment restrictions as per the SEBI guidelines and enables identifying and measuring the risk through various risk management tools like various portfolio analytics, risk ratios, average duration and analyses the same and acts in a preventive manner.

Portfolio Turnover Portfolio Turnover is defined as the lower of sales or purchase divided by the average corpus during a specified period of time. Generally, Portfolio Turnover would

depend upon the rebalancing of the portfolio due to change in composition of the Index or due to corporate actions of the securities constituting the Index.

Tracking Error Tracking error is defined as the annualized standard deviation of the difference between the daily returns of the Underlying Index and the NAV of the Scheme based on past one year rolling data shall not exceed 2%. Theoretically, the corpus of the Scheme has to be fully invested in the securities comprising the Underlying Index in the same proportion of weightage as the securities have in the Underlying Index. However, it is not possible to invest as per the objective due to reason that the Scheme has to incur expenses, corporate actions pertaining to the Basket including changes to the constituents, regulatory policies, ability of the Fund Manager to closely replicate the Underlying Index, etc. The Scheme's returns may therefore deviate from those of its Underlying Basket. Tracking Error may arise due to the following reasons: - 1. Fees and expenses of the Scheme. 2. Cash balance held by the Scheme due to dividend accumulated but not received, subscriptions, redemption, etc. 3. Corporate actions 4. The Scheme has to invest in the securities in whole numbers and has to round off the quantity of securities shares. 5. Changes in the constituents of the underlying Basket. Whenever there are any changes, the Scheme has to reallocate its investment as per the revised Basket but market conditions may not offer an opportunity to rebalance its portfolio to match the Basket and such delay may affect the NAV of the Scheme. 6. Lack of Liquidity. The AMC would monitor the tracking error of the Scheme on an ongoing basis and would seek to minimize tracking error to the maximum extent possible. Under normal market circumstances, such tracking error shall not exceed by 2%. In case of unavoidable circumstances in the nature of force majeure, which are beyond the control of the AMC, the tracking error may exceed 2% and the same will be intimated to the Trustees with corrective actions taken by the AMC, if any. Tracking Difference: Tracking difference i.e. the annualized difference of daily returns between the index or goods and the NAV of the ETF will be disclosed on the website of the AMC and AMFI, on a monthly basis, for tenures 1 year, 3 years, 5 years, 10 years and since the date of allotment of units.

1. As per the provisions of the Income-tax Act, 1961, the Scheme is classified as "Equity oriented fund".
2. Income of the Mutual Fund is exempt from income tax in accordance with the provisions of Section 10(23D) of the Act.
3. As per clause (a) of the explanation to section 112A of the Act, an "Equity oriented fund" has been defined to mean a fund set up under a scheme of a mutual fund specified under clause (23D) of section 10 and,—

Scheme Information Document
ICICI Prudential Multi Sector Passive FOF

(i) in a case where the fund invests in the units of another fund which is traded on a recognised stock exchange,—

(A) a minimum of ninety per cent of the total proceeds of such fund is invested in the units of such other fund; and

(B) such other fund also invests a minimum of ninety per cent of its total proceeds in the equity shares of domestic companies listed on a recognised stock exchange; and

(ii) in any other case, a minimum of sixty-five per cent of the total proceeds of such fund is invested in the equity shares of domestic companies listed on a recognised stock exchange

4. If the total income of a resident investor (being individual or HUF) [without considering such Long Term Capital Gains / Short Term Capital Gains] is less than the basic exemption limit, then such Long-term capital gains/short-term capital gains should be first adjusted towards basic exemption limit and only excess should be chargeable to tax.

Non-resident investors may be subject to a separate of tax regime / eligible to benefits under Tax Treaties, depending upon the facts of the case. The same has not been captured above.

A rebate of up to Rs. 12,500 is available under the old regime for resident individuals whose total income does not exceed Rs. 5,00,000.

The Finance Act, 2025 amended Section 87A of the Act to provide that where an Individual apply for lower slab rates provided under section 115BAC(1A) of the Act (i.e. the new regime) and the total income:

- i. does not exceed 12,00,000, a rebate shall be provided on tax to the extent of an amount equal to 100% of such income-tax or an amount of INR 60,000 (whichever is less);
- ii. exceeds INR 12,00,000 and the income-tax payable on such total income exceeds the amount by which the total income is in excess of 12,00,000, a rebate shall be provided on tax of an amount equal to the amount by which the tax payable is in excess of the amount by which the total income exceeds 12,00,000

Further, such rebate of income-tax will not be available on tax on incomes chargeable to tax at special rates (for e.g.: capital gains u/s 111A, 112 and 112A of the Act etc.)

Excluding applicable surcharge and cess.

For further details on taxation please refer to the Section on 'Tax Benefits of investing in the Mutual Fund' provided in 'Statement of Additional Information ('SAI')'.

Please consult your tax advisor for further details on taxation.

In addition to the existing Official Point of Acceptance of transactions, Computer Age Management Services Ltd. (CAMS), the Registrar and Transfer Agent of ICICI Prudential Mutual Fund, having its office at New No 10. Old No. 178, Opp. to Hotel Palm Grove, MGR Salai (K.H.Road), Chennai - 600 034 shall be an official point of acceptance for electronic transactions received from the Channel Partners with whom ICICI Prudential Asset Management Company Limited has entered or may enter into specific arrangements for all financial transactions relating to the units of mutual fund schemes. Additionally, the secure Internet sites operated by CAMS will also be official point of acceptance only for the limited purpose of all channel partners transactions based on agreements entered into between IPMF and such authorized entities. Additionally, the Internet site(s) operated by the AMC and online applications of the AMC [including i-Invest iPru (previously IPRUTouch)] will also be official point of acceptance. The AMC also accepts applications received on designated FAX numbers.

In addition to the existing Official Point of Acceptance of transactions, authorized Points of Service (POS) of MF Utilities India Private Limited (MFUI) shall be an official point of acceptance for all financial and non- financial transactions. The updated list of POS of MFUI is available on www.mfuindia.com. The online transaction portal of MFU is www.mfuonline.com. Further, Investors can also subscribe units of the Scheme during the NFO Period by availing the platforms/facilities made available by the Stock Exchanges.

Open Network for Digital Commerce (ONDC)

The schemes of ICICI Prudential Mutual Fund (the Fund) are now available to be transacted through the Open Network for Digital Commerce (ONDC) ("Network").

To facilitate transactions through this Network, the Fund has/shall enter into agreement with service provider(s) who would provide backend platform on behalf of the Fund. The said platform would be considered as an 'OPAT'.

Accordingly, for the purpose of determining the applicability of NAV, the time at which request for purchase / sale / switch of units is received on the server(s) of the said platform will be considered as time of receipt of transaction with the AMC.

As per existing system architecture of ONDC network, currently regular plans of the schemes of ICICI Prudential Mutual Fund are available for transaction through this route.
