Address of the Trustee Company	12 th Floor, Narain Manzil, 23, Barakhamba Road, New Delhi – 110 001.

The particulars of the Scheme mentioned herein above have been prepared in accordance with the Securities and Exchange Board of India (Mutual Funds) Regulations 1996, (herein after referred to as SEBI (MF) Regulations) as amended till date, and filed with SEBI, along with a Due Diligence Certificate from the Asset Management Company. The units being offered for public subscription have not been approved or recommended by SEBI nor has SEBI certified the accuracy or adequacy of the Scheme Information Document.

This Scheme Information Document sets forth concisely the information about the Scheme that a prospective investor ought to know before investing. Before investing, investors should also ascertain about any further changes pertaining to the Scheme such as features, load structure, etc. made to this Scheme Information Document by issue of addenda / notice after the date of this Document from the AMC / Mutual Fund / Investor Service Centers / Website / Distributors or Brokers.

The investors are advised to refer to the Statement of Additional Information (SAI) for details of ICICI Prudential Mutual Fund, Standard Risk Factors, Special Considerations, Tax and Legal issues and general information on www.icicipruamc.com

SAI is incorporated by reference (is legally a part of the SID). For a free copy of the current SAI, please contact your nearest Investor Service Centre or log on to our website.

The Scheme Information Document (Section I and II) should be read in conjunction with the SAI and not in isolation.

This Scheme Information Document is dated November 26, 2025.

Pursuant to SEBI's Framework on Fund of Fund schemes with multiple underlying funds (the Framework), ICICI Prudential Asset Allocator Fund (FOF) has been re-categorized as ICICI Prudential Dynamic Asset Allocation Active FOF with effective from November 25, 2025. The SID has been prepared in line with the changes carried out pursuant to the Framework.

Part I. HIGHLIGHTS/SUMMARY OF THE SCHEME

Sr. No.	Title	Description
I.	Name of the scheme	ICICI Prudential Dynamic Asset Allocation Active FOF
II.	Category of the Scheme	Hybrid FOF (Domestic) – Dynamic Asset Allocation FOF
III.	Scheme type	An open ended Fund of Funds scheme investing dynamically in units of active equity and debt oriented schemes.
IV.	Scheme code	ICIC/O/O/FOD/03/10/0021
V.	Investment objective	The primary objective of the Scheme is to generate capital appreciation by investing dynamically in units of active equity and debt oriented mutual fund schemes. However, there can be no assurance or guarantee that the investment objective of the Scheme would be achieved.
VI.	Liquidity/listing details	The Scheme being offered is an open-ended scheme and will offer Units for Sale / Switch-in and Redemption / Switch-out, on every Business Day at NAV based prices subject to applicable loads. As per the Regulations, the redemption proceeds shall be dispatched to the unitholders within 3 business Days of receiving the redemption request subject to exceptional situations and additional timelines for redemption payments provided by AMFI vide its letter no. AMFI/ 35P/ MEM-COR/ 74 / 2022-23 dated January 16, 2023". A penal interest of 15% p.a. or such other rate as may be prescribed by SEBI from time to time, will be paid in case the payment of redemption proceeds is not made within the stipulated timelines.
VII.	Benchmark (Total Return Index)	CRISIL Hybrid 50+50 - Moderate Index The composition of the benchmark is such that, it is most suited for comparing performance of the Scheme. The Trustees reserves the right to change the benchmark in future, if a benchmark better suited to the investment objective of the Scheme is available.
VIII.	NAV disclosure	The NAV will be calculated and disclosed by 12.00 noon of the following business day. NAV will be determined on by 12.00 noon. of the following business day except in special circumstances. NAV of the scheme shall be:

		- Prominently disclosed by the AMC under a separate head on the AMC's website https://www.icicipruamc.com/home by 12.00 noon of the following business day - On the website of Association of Mutual Funds in India - AMFI (www.amfiindia.com) by 12.00 noon of the following business day and - Shall be made available at all Customer Service Centres of the AMC. As the scheme is permitted to invest in units of mutual fund schemes which invest in international markets, thus the scheme requires extended timeline for NAV disclosure to ensure that all securities are valued basis same day valuation. In light of the above, NAV of the scheme would be declared by 12.00 noon on the following business day. In case any of the schemes ceases to hold exposure to any overseas securities, NAV of the scheme for that day will continue to be declared by 12.00 noon on the following business day. Subsequent to that day, NAV of the scheme shall be declared on 10.00 a.m., on the following business day. <i>Further details mentioned in Section II – 'III. Other Details' – 'C. Transparency/NAV'</i>
IX.	Applicable timelines	Dispatch of redemption proceeds As per the Regulations, the redemption proceeds shall be dispatched to the unitholders within 3 business Days of receiving the redemption request subject to exceptional situations and additional timelines for redemption payments provided by AMFI vide its letter no. AMFI/ 35P/ MEM-COR/ 74 / 2022-23 dated January 16, 2023". A penal interest of 15% p.a. or such other rate as may be prescribed by SEBI from time to time, will be paid in case the payment of redemption proceeds is not made within the stipulated timelines. Dispatch of IDCW (if applicable) etc. As per the Regulations, the IDCW warrants shall be dispatched to the Unit Holders within 7 business days from the record date. IDCW will be payable to those Unit Holders whose names appear in the Register of Unit Holders on the date (Record Date).

DUE DILIGENCE BY THE ASSET MANAGEMENT COMPANY

It is confirmed that:

- 1) The Scheme Information Document submitted to SEBI is in accordance with the SEBI (Mutual Funds) Regulations, 1996 and the guidelines and directives issued by SEBI from time to time.
- 2) All legal requirements connected with the launching of the Scheme as also the guidelines, instructions, etc., issued by the Government and any other competent authority in this behalf, have been duly complied with.
- 3) The disclosures made in the Scheme Information Document are true, fair and adequate to enable the investors to make a well informed decision regarding investment in the Scheme.
- 4) The intermediaries named in the Scheme Information Document and Statement of Additional Information are registered with SEBI and their registration is valid, as on date.
- 5) The contents of the Scheme Information Document including figures, data, yields etc. have been checked and are factually correct.
- 6) The AMC has complied with the set of checklist applicable for Scheme Information Documents and that there are no deviations from the regulations.
- 7) Notwithstanding anything contained in the Scheme Information Document, the provisions of the SEBI (Mutual Funds) Regulations, 1996 and the guidelines there under shall be applicable.
- 8) The Trustees have ensured that the Scheme approved by them is a new product offered by ICICI Prudential Mutual Fund and not a minor modification of any existing schemes.

Sd/-

Rakesh Shetty

Chief Compliance Officer & Company Secretary

Place: Mumbai

Date: November 26, 2025

Note: The Due Diligence Certificate dated November 26, 2025, was submitted to SEBI.

PART II. INFORMATION ABOUT THE SCHEME

A. HOW WILL THE SCHEME ALLOCATE ITS ASSETS?

Under normal circumstances, the asset allocation under the Scheme will be as follows:

Instrument	Indicative allocations (% of corpus) under normal circumstances	
	Minimum	Maximum
Units of Active Mutual Fund Schemes	95	100
• Active Equity oriented schemes	0	100
• Active Debt-oriented schemes	0	100
Money Market Instruments (with maturity not exceeding 91 days), including Tri-Party Repo*	0	5

* or similar instruments as may be permitted by RBI/SEBI

The Margin may be placed in the form of such securities / instruments / deposits as may be permitted/eligible to be placed as margin from the assets of the Scheme. The securities / instruments / deposits so placed as margin shall be classified under the applicable category of assets for the purposes of asset allocation. The Scheme can invest in the schemes managed by ICICI Prudential Mutual Fund or any other Mutual Fund(s) as per the above stated asset allocation.

The Cumulative Gross Exposure across units of mutual fund schemes/ETFs, Money Market Instruments and such other securities/assets as may be permitted by SEBI should not exceed 100% of the net assets of the scheme.

Exposure to various instruments will be as per the indicative table given below (Below percentages shall be subject to applicable SEBI circulars):

Sr. No.	Type of Instrument	Percentage exposure of	Circular references
1.	Stock Lending	Nil	Not applicable
2.	Derivatives	Nil	Not applicable
3.	Securitized Debt	Nil	Not applicable
4.	Overseas securities	Nil	Not applicable
5.	AT1 and Tier II Bonds	Nil	Not applicable
6.	Units of Reits and InvITs	Nil	Not applicable
7.	Structured Obligations and Credit Enhancements	Nil	Not applicable

At all points of time, the scheme will remain invested at least 95% (minimum allocation) in the underlying schemes. However, on account of rebalancing or certain liquidity requirements, the exposure to the underlying mutual fund schemes may fall below 95%. In such cases the same shall be rebalanced as per the provisions stated below. The

portfolio would be rebalanced periodically to address any deviations from the aforementioned allocations due to market changes.

Further, the AMC shall comply with the applicable regulatory guidelines related to reporting and disclosure requirements as specified in the aforesaid circular.

Rebalancing due to Short Term Defensive Consideration:

- Due to market conditions, the AMC may invest beyond the range set out in the asset allocation. Such deviations shall normally be for a short term and defensive considerations as per Paragraph 1.14.1.2.b of Master Circular, and the fund manager will rebalance the portfolio within 30 calendar days from the date of deviation.

Rebalancing due to Passive Breaches:

- Further, as per Paragraph 2.9 of Master Circular, as may be amended from time to time, in the event of deviation from mandated asset allocation due to passive breaches (occurrence of instances not arising out of omission and commission of the AMC), the fund manager shall rebalance the portfolio of the Scheme within 30 Business Days. In case the portfolio of the Scheme is not rebalanced within the period of 30 Business Days, justification in writing, including details of efforts taken to rebalance the portfolio shall be placed before the Investment Committee of the AMC. The Investment Committee, if it so desires, can extend the timeline for rebalancing up to sixty (60) Business Days from the date of completion of mandated rebalancing period. Further, in case the portfolio is not rebalanced within the aforementioned mandated plus extended timelines the AMC shall comply with the prescribed restrictions, the reporting and disclosure requirements as specified in Paragraph 2.9 of the Master Circular.

Further, in case of any passive breaches of prudential limits inter alia including issuer limits, group limits and sector limits etc. prescribed in SEBI (Mutual Funds) Regulations, 1996 and circulars issued thereunder, the rebalancing of such passive breaches shall be carried out in accordance with the provisions prescribed under paragraph 2.9 of the Master Circular, provided the specific timeline for rebalancing is not prescribed for the respective prudential limit.

Cash or cash equivalents with residual maturity of less than 91 days may be treated as not creating any exposure. AMFI vide letter dated November 3, 2021 has clarified that Cash Equivalent shall consist of Government Securities, T-Bills and Repo on Government Securities

Apart from the above investment restrictions, the Scheme follows certain internal norms vis-à-vis limiting exposure to scrips, sectors etc., within the above mentioned restrictions, and these are subject to review from time to time.

Negative list: The Scheme will not directly invest/ have exposure in the following:

Sr. No	Particulars
1.	Securitized debt
2.	Overseas Securities
3.	Derivatives
4.	Short selling
5.	Stock lending
6.	Repo in corporate debt securities
7.	Credit Default Swaps transactions
8.	Structured Obligations
9.	Units of Reits and InvITs
10.	AT1 and Tier II Bonds
11.	Equity and equity related instruments
12.	Debentures

B. WHERE WILL THE SCHEME INVEST?

The corpus of the Scheme shall be invested dynamically in units of active equity and debt oriented schemes.

As per the SEBI guidelines, a Fund of funds scheme shall not invest its assets other than in schemes of mutual funds, except to the extent of meeting the liquidity requirements for the purpose of repurchases or redemptions. Subject to the Regulations, the corpus of the Scheme can be invested in any (but not exclusively) of the following securities:

- Units of various active equity and debt oriented mutual fund schemes of ICICI Prudential Mutual Fund or any other Mutual Fund
- Money market instruments permitted by SEBI/RBI.

The units of the schemes of the Mutual Funds in which the Scheme propose to make investments in could be listed or unlisted, open/close ended. The units may be acquired through subscription to the units during the New Fund Offer of the schemes or by subscriptions on on-going basis in case of open -ended schemes.

Further the inter Scheme transfer of investments shall be in accordance with the provisions contained in clause Inter-Scheme transfer of investments, stated in paragraph 12.30 of the Master Circular.

C. WHAT ARE THE INVESTMENT STRATEGIES?

Subject to the Regulations and other prevailing laws as applicable, the Scheme can invest in any (but not exclusively) of the following category of the schemes:

- Units of active Equity Oriented Schemes and/or;
- Units of active Debt Oriented Schemes;

- Money market instruments permitted by SEBI/RBI.

The scheme shall dynamically allocate its net assets in units of active equity and debt oriented schemes.

The scheme shall also invest in Money Market Securities as per the prevailing regulations from time to time, only for the purpose of liquidity requirements. The Scheme shall allocate its assets between active equity oriented and debt oriented schemes depending on the in-house valuation model consisting of parameters as it may evolve over time. The valuation model currently consists of following broad parameters such as:

- 1) Earning Yield of Equity
- 2) Bond Yield
- 3) Currency
- 4) Crude

Post analyzing the above mentioned parameters, the Fund Manager shall determine the relative allocation to active equity oriented and debt oriented schemes. Further the Scheme shall follow an active investment strategy.

D. HOW WILL THE SCHEME BENCHMARK ITS PERFORMANCE?

The Benchmark for the Scheme is CRISIL Hybrid 50+50 - Moderate Index.

The index tracks the performance of a hybrid portfolio having a blend of the BSE 200 TRI and CRISIL Composite Bond Index.

The composition of the benchmark is such that it is most suited for comparing performance of the Scheme. The Trustee reserves right to change the benchmark for performance of the scheme by suitable notification to the investors to this effect.

E. WHO MANAGES THE SCHEME?

Mr. Sankaran Naren, Mr. Dharmesh Kakkad, Mr. Manish Banthia and Mr. Ritesh Lunawat are the Fund Managers of the Scheme. As on September 30, 2025, Mr. Dharmesh Kakkad is managing the equity portion of this fund for 7 years and 5 months since May 2018, Mr. Sankaran Naren is managing the equity portion of this fund for 7 years and 1 months since September 2018, Mr. Manish Banthia is managing the debt portion of this fund for around 8 years and 4 months since June 2017 and Mr. Ritesh Lunawat is managing the debt portion of this Scheme for around 2 year and 4 months since June 2023.

Compounded Annualised Returns (in %) of the Scheme (Growth Option) and its benchmark as on September 30, 2025:

Period	ICICI Prudential Dynamic Asset Allocation Active FOF-Regular	CRISIL Hybrid 50 + 50 - Moderate Index (Benchmark)	ICICI Prudential Dynamic Asset Allocation Active FOF-Direct	CRISIL Hybrid 50 + 50 - Moderate Index (Benchmark)
Last 1 Year	5.00%	0.91%	6.08%	0.91%
Last 3 Year	14.05%	11.88%	15.27%	11.88%
Last 5 Year	15.44%	13.12%	16.76%	13.12%
Since Inception	12.10%	10.84%	12.67%	10.71%

Inception Date^	18-12-2003	01-01-2013
-----------------	------------	------------

The date of inception of the Scheme is December 18, 2003, however the direct plan under the scheme was being offered since January 1, 2013. Thus the returns of direct plan are computed for period starting Jan 1, 2013.

Past performance may or may not be sustained in the future. For computation of returns the allotment NAV has been taken as Rs. 10.00 without considering the load. Date of inception of the scheme is December 18, 2003.

Pursuant to SEBI's Framework on Fund of Fund schemes with multiple underlying funds (the Framework), ICICI Prudential Asset Allocator Fund (FOF) has been re-categorized as ICICI Prudential Dynamic Asset Allocation Active FOF with effective from November 25, 2025.

^Inception date shown is the date from which units under the Schemes are available throughout.

Absolute Returns of the Scheme (Growth Option) for past 5 financial years:

Past performance may or may not be sustained in the future. The above returns for the last five financial years are absolute returns. Date of inception of the scheme is December 18, 2003. Performance of the Scheme is benchmarked to total return variant of the index.

The above stated benchmark performance values have been used w.e.f. February 01, 2019. Details of the changes in benchmark are as follows:

Scheme Name	Benchmark Name	Effective date
ICICI Prudential Dynamic Asset	Nifty 50 TRI (40%) + CRISIL Composite Bond Fund Index (40%) + CRISIL Liquid Fund Index (20%)	since inception to November 23, 2010

Allocation Active FOF	Nifty 50 TRI (40%) + CRISIL Composite Bond Fund Index (40%) + CRISIL Liquid Fund Index (10%) + Gold (10%)*	November 24, 2010 to May 27, 2018
	Nifty 50 TRI (40%) + CRISIL Composite Bond Fund Index (60%)	May 28, 2018 to January 31, 2019
	CRISIL Hybrid 50 + 50 - Moderate Index	w.e.f. Feb 01, 2019 onwards

*Benchmark against the domestic price of gold as derived from the LBMA AM fixing prices.

H. ADDITIONAL SCHEME RELATED DISCLOSURES

i. SCHEME'S PORTFOLIO HOLDINGS

The top 10 holdings by the Scheme and allocation towards various sectors can be accessed at the below link:

<https://www.icicipruamc.com/media-center/downloads?currentTabFilter=otherSchemeDisclosures&&subCatTabFilter=MonthlyPortfolioDisclosures>

ii. DISCLOSURE OF NAME AND EXPOSURE TO TOP 7 ISSUERS, STOCKS, GROUPS AND SECTORS AS A PERCENTAGE OF NAV OF THE SCHEME IN CASE OF DEBT AND EQUITY ETFS/INDEX FUNDS THROUGH A FUNCTIONAL WEBSITE LINK THAT CONTAINS DETAILED DESCRIPTION – Not Applicable

iii. PORTFOLIO DISCLOSURE

Investors can obtain Scheme's latest monthly/half yearly portfolio holding from the website of AMC i.e. <https://www.icicipruamc.com/media-center/downloads?currentTabFilter=otherSchemeDisclosures&&subCatTabFilter=MonthlyPortfolioDisclosures>

iv. WEBSITE LINK TO THE RESPECTIVE ADDENDUMS TO THE SID AFTER THE LAST UPDATE OF SID

List of addendums effective from April 1, 2026:

Sr. No.	Particulars	Date of Addendum	Link to addendum
1.	Change in scheme riskometer	July 8, 2026	Click
2.	Change in scheme riskometer	August 7, 2026	Click

For addendums released prior to the above date, kindly refer the following link [Media Center Updates](#)

v. SCHEME'S PORTFOLIO TURNOVER RATIO: NA

vi. Aggregate investment in the Scheme by:

As on September 30, 2025:

Sr. No.	Category of Persons	Net Value		Market Value (in Rs.)
A.	Scheme's Fund Manager(s)	Units	NAV per unit	
1.	Sankaran Naren	1,15,060.83	133.5205	1,53,62,979.28
2.	Dharmesh Kakkad	38,316.31	133.5205	51,16,013.00
3.	Manish Banthia	20,980.67	133.5205	28,01,349.01
4.	Ritesh Lunawat	4,192.52	133.5205	5,59,786.83

For any other disclosure with respect to investments by key personnel and AMC directors including regulatory provisions in this regard kindly refer SAI.

i. INVESTMENT OF THE AMC IN THE SCHEME

From time to time and subject to the SEBI (Mutual Funds) Regulations, 1996, the sponsors, the mutual funds and investment Companies managed by them, their associate companies, subsidiaries of the sponsors and the AMC may invest in either directly or indirectly in the Scheme. Such investments would be in accordance with paragraph 6.9 of the Master Circular. The details of such investments of the AMC can be accessed at the following link: [Statutory Disclosure \(icicipruamc.com\)](https://www.icicipruamc.com/Statutory-Disclosure)

PART III. OTHER DETAILS

A. COMPUTATION OF NAV

The NAV of the Units of the Scheme will be computed by dividing the net assets of the Scheme by the number of Units outstanding on the valuation date. The Fund shall value its investments according to the valuation norms, as specified in Schedule VIII of the Regulations, or such norms as may be prescribed by SEBI from time to time and as stipulated in the valuation policy and procedures of the Fund, provided in Statement of Additional Information (SAI).

The NAV of the Scheme shall be rounded off upto four decimals

NAV of units under the Scheme shall be calculated as shown below:

NAV (Rs.) =

Market or Fair Value of Scheme's investments + Current Assets
- Current Liabilities and Provision

No. of Units outstanding under Schemes

The NAV will be calculated as of the close of every Business Day of the respective Scheme. The valuation of the Scheme's assets and calculation of the Scheme's NAV

shall be subject to audit on an annual basis and such regulations as may be prescribed by SEBI from time to time.

Illustration of computation of NAV:

If the net assets of the Scheme are Rs.10,45,34,345.34 and units outstanding are 10,000,000, then the NAV per unit will be computed as follows:

$$10,45,34,345.34 / 10,000,000 = \text{Rs. } 10.4534 \text{ p.u. (rounded off to four decimals)}$$

The Fund shall ensure that the repurchase price of an open ended scheme is not lower than 97 per cent of the Net Asset Value.

For further details, such as policies with respect to computation of NAV, rounding off, valuation of investment in foreign securities, procedure in case of delay in disclosure of NAV etc, please refer to SAI.

B. NEW FUND OFFER (NFO) EXPENSES – Not Applicable

C. ANNUAL SCHEME RECURRING EXPENSE

Investment Management and Advisory Fee charged by the AMC, Registrar and Transfer Agents' fee, marketing and selling costs etc. as given in the table below:

The AMC has estimated that upto 2.00% of the daily net assets of the Scheme will be charged to the Scheme as expenses. For the actual current expenses being charged, the investor should refer to the website of the mutual fund. In case of any change in the expense ratio, the AMC would update the same on the website at least three business days prior to the effective date of the change. The requirement for disclosing such change would be subject to paragraph 10.1.8 of the Master Circular.

Investor can refer [Total Expense Ratio of Mutual Fund Schemes \(icicipruamc.com\)](http://icicipruamc.com) for Total Expense Ratio (TER) details.

Estimated Annual Recurring Expenses

Particulars	ICICI Prudential Dynamic Asset Allocation Active FOF (% p.a. of net assets)
Investment Management and Advisory Fees	Upto 2.00
Audit Fees and expenses of trustees	
Custodian Fees	
Registrar & Transfer Agent Fees including cost of providing account statements/IDCW/redemption cheques/warrants	
Marketing & Selling Expenses including Agents Commission and statutory advertisement	
Cost related to investor communications	
Cost of fund transfer from location to location	
Cost towards investor education & awareness	

Brokerage and transaction cost pertaining to distribution of units	
Goods and Services Tax on expenses other than investment and advisory fees	
Goods and Services Tax on brokerage and transaction cost	
Other Expenses*	
Maximum total expense ratio (TER) permissible under Regulation 52 (6) (c)	Upto 2.00
Additional expenses under regulation 52 (6A) (c)* (more specifically elaborated below)	Upto 0.05
The aforesaid does not include Goods and Services Tax on investment management and advisory fees. The same is more specifically elaborated below.	

The returns of the Direct Plan for the Scheme shall be exclusive of distributor commission.

Investors may please note that they will be bearing the recurring expenses of the Scheme in addition to the expenses of the underlying schemes in which the fund of fund scheme makes investment.

Weighted expense ratio of the underlying schemes as on September 30, 2025 is 0.60%.

The total expense ratio to be charged over and above the weighted average of total expense ratio of the underlying schemes shall not exceed two times the weighted average of the total expense ratio levied under the underlying schemes, subject to limit as specified above.

*As permitted under the Regulation 52 of SEBI (MF) Regulations, 1996 and pursuant to paragraph 15.10.1 of the Master Circular, SEBI (Mutual Funds) Second Amendment Regulations, 2012 and SEBI (Mutual Funds) (Fourth Amendment) Regulations 2018.

These estimates have been made in good faith as per information available to the AMC and the total expenses may be more than as specified in the table above. However, as per the Regulations, the total recurring expenses that can be charged to the Scheme in this Scheme Information Document shall be subject to the applicable guidelines.

All fees and expenses charged in a Direct Plan (in percentage terms) under various heads including the investment and advisory fee shall not exceed the fees and expenses charged under such heads in other than Direct Plan.

Investment Management and Advisory Fees charged by the AMC to the Scheme shall be within the total expense limit as prescribed under Regulation 52 of the Regulations with no sub-limits on said management and advisory fees.

Direct Plan shall have a lower expense ratio excluding distribution expenses, commission, etc. as compared to other Plan and no commission for distribution of Units will be paid/charged under Direct Plan.

Pursuant to paragraph 10.1 of SEBI Master Circular on Mutual Funds dated May 19, 2023, SEBI (Mutual Funds) Second Amendment Regulations, 2012 and Securities and Exchange Board of India (Mutual Funds) (Fourth Amendment) Regulations, 2018,

following additional costs or expenses may be charged to the scheme, namely:

- The AMC may charge Goods and Services tax on investment and advisory fees to the scheme of the Fund in addition to the maximum limit of total expenses ratio as prescribed in Regulation 52 of the Regulations.
- Additional expenses, incurred towards different heads mentioned under sub-regulations (2) and (4) of Regulation 52 of the Regulations, not exceeding 0.05 per cent of daily net assets of the scheme. However, such additional expenses will not be charged if exit load is not levied or not applicable to the Scheme.

Fund of Funds (FoFs) investing more than 80% of its NAV in the underlying domestic funds shall not be required to set aside 2bps of the daily net assets towards investor education and awareness initiatives.

Any payment towards brokerage and transaction cost, over and above the said 12 bps for cash market transactions may be charged to the scheme within the maximum limit of Total Expense Ratio as prescribed under regulation 52(6A)(a) of the SEBI (Mutual Funds) Regulations, 1996. Goods and Services tax on brokerage and transaction cost paid for execution of trade, if any, shall be within the limit prescribed under regulation 52 of the Regulations.

Expenses shall be charged / borne in accordance with the Regulations prevailing from time to time.

Illustration impact of expense ratio on scheme's return:

Particulars	Regular Plan	Direct Plan
Amount Invested at the beginning of the year	10,000	10,000
Returns before Expenses	1,500	1,500
Expenses other than Distribution Expenses	150	150
Distribution Expenses	50	-
Returns after Expenses at the end of the Year	1300	1350

For calculating expense of ICICI Prudential Dynamic Asset Allocation Active FOF – Direct plan, distribution expenses will not be considered.

D. LOAD STRUCTURE

Exit Load is an amount which is paid by the investor to redeem the units from the scheme. Load amounts are variable and are subject to change from time to time. For the current applicable structure, please refer to the website of the AMC (www.icicipruamc.com) or your distributor.

Type of Load	Load chargeable (as % of NAV)
Exit Load	• If units purchased or switched in from another scheme of the Fund are redeemed or switched out up to 30% of the units (the limit) purchased or switched within 1 year from the date of allotment – Nil

	• If units purchased or switched in from another scheme of the Fund are redeemed or switched out in excess of the limit within 1 Year from the date of allotment - 1% of the applicable NAV • If units purchased or switched in from another scheme of the Fund are redeemed or switched out after 1 Year from the date of allotment - Nil
--	---

Any redemption/switch arising out of excess holding by an investor beyond 25% of the net assets of the Scheme in the manner envisaged under paragraph 6.11.1.1 (b) of the Master Circular, such redemption / switch will not be subject to exit load.

The exit load charged, if any, shall be credited back to the respective scheme. Goods and Services tax on exit load shall be paid out of the exit load proceeds and exit load net of Goods and Services tax shall be credited to the schemes.

Exit Load, if any, prevailing on the date of enrolment of SIP/ STP shall be levied in the Scheme.

The investor is requested to check the prevailing load structure of the Scheme before investing. For any change in load structure AMC will issue an addendum and display it on the website/Investor Service Centres. Any imposition or enhancement in the load shall be applicable on prospective investments only.

Subject to the Regulations, the Trustee reserves the right to modify/alter the load structure on the Units subscribed/redeemed on any Business Day. At the time of changing the load structure, the AMC / Mutual Fund may adopt the following procedure:

- I. The addendum detailing the changes will be attached to Scheme Information Documents and key information memorandum. The addendum will be circulated to all the distributors/brokers so that the same can be attached to all Scheme Information Documents and key information memoranda already in stock.
- II. Arrangements will be made to display the addendum in the Scheme Information Document in the form of a notice in all the investor service centres and distributors/brokers office.
- III. The introduction of the exit load along with the details will be stamped in the acknowledgement slip issued to the investors on submission of the application form and will also be disclosed in the statement of accounts issued after the introduction of such load.
- IV. A public notice shall be provided on the website of the AMC in respect of such changes.

Any imposition or enhancement in the load shall be applicable on prospective investments only.

SECTION II

A. Introduction

ii. Definitions

Definition for the words and expressions used in the SID are available at the following link : [SID related information \(icicipruamc.com\)](http://www.icicipruamc.com)

The words and expressions shall have the meaning as specified at the above link, unless the context otherwise requires.

iii. Risk Factors

- **Standard Risk Factors:** Please refer to SAI.
- **Scheme specific risk factors**

Investors may please note that they will be bearing the recurring expenses of the Scheme in addition to the expenses of the underlying schemes in which the fund of fund scheme makes investment.

1. Risks associated with investing in Fund of Funds schemes:

- As the investors are incurring expenditure at both the Fund of Funds level and the schemes into which the Fund of Funds invests, the returns that they may obtain may be materially impacted or may at times be lower than the returns that investors directly investing in such schemes obtain.
- Again as the Fund of Funds scheme may shift the weightage of investments between schemes into which it invests, the expenses charged being dependent on the structure of the underlying schemes (being different) may lead to a non- uniform charging of expenses over a period of time.
- As the Fund of Funds (FOF) factsheets and disclosures of portfolio will be limited to providing the particulars of the schemes invested at FOF level, investors may not be able to obtain specific details of the investments of the underlying schemes.
- While it would be the endeavour of the Fund Manager of the Fund of Funds scheme(s) to invest in the target schemes in a manner, which will seek to maximize returns, the performance of the underlying funds may vary which may lead to the returns of the Fund of Funds being adversely impacted.
- The scheme specific risk factors of each of the underlying schemes become applicable where a fund of funds invests in any underlying scheme. Investors who intend to invest in Fund of Funds are required to and are deemed to have read and understood the risk factors of the underlying schemes relevant to the Fund of Funds scheme that they invest in. Copies of the Scheme Information Documents pertaining to the various schemes of ICICI Prudential Mutual Fund, which disclose the relevant risk factors, are available at the Customer Service Centers or may be accessed at www.icicipruamc.com.
- A Fund Manager managing any one of the Fund of Funds schemes may also be the Fund Manager for any underlying schemes.

➤ **Settlement Risk**

The inability of the Scheme to make intended securities purchases due to settlement problems could cause the Scheme to miss certain investment opportunities as in certain cases, settlement periods may be extended significantly by unforeseen circumstances. Similarly, the inability to sell securities held in the Scheme portfolio may result, at times, in potential losses to the Scheme, and there can be a subsequent decline in the value of the securities held in the Scheme's portfolio.

➤ **Portfolio Concentration Risk**

To the extent that the Scheme may concentrate its investments in the underlying schemes which invest in Securities of companies of certain companies/sectors, the Scheme will therefore be subject to the risks associated with such concentration. This risk may impact the Scheme to the extent that it invests in underlying schemes with focus on particular sectors even in cases where the investment objective is more generic.

➤ **Regulatory Risk:** Changes in government policy in general and changes in tax benefits applicable to Mutual Funds may impact the returns to investors in the Scheme.

➤ **Redemption Risk**

The Scheme at times may receive large number of redemption requests, leading to an asset-liability mismatch and therefore, requiring the investment manager to make a distress sale of the securities leading to realignment of the portfolio and consequently resulting in investment in lower yield instruments.

➤ **Right to Limit Redemptions**

The Trustee, in the general interest of the Unit holders of the Scheme offered in this Document and keeping in view the unforeseen circumstances / unusual market conditions, may limit the total number of Units which can be redeemed on any Business Day. The same shall be in accordance with paragraph 1.12 of the Master Circular.

2. Risk associated with Investing in money market instruments:

- a. **Market Risk/Interest Rate Risk:** The Net Asset Value (NAV) of the Scheme(s), to the extent invested in fixed income and money market securities, will be affected by changes in the general level of interest rates. The NAV of the Scheme(s) is expected to increase from a fall in interest rates while it would be adversely affected by an increase in the level of interest rates.
- b. **Liquidity Risk:** The liquidity of a security may change depending on market conditions leading to changes in the liquidity premium linked to the price of the security. At the time of selling the security, the security can become illiquid leading to loss in the value of the portfolio.

- c. Credit Risk: Investments in fixed income securities and money market instruments are subject to the risk of an issuer's inability to meet interest and principal payments on its obligations and market perception of the creditworthiness of the issuer.

3. Risks associated with investing in Tri Party Repo through CCIL (TREPS):

The mutual fund is a member of securities segment and Tri-party Repo trade settlement of the Clearing Corporation of India (CCIL). All transactions of the mutual fund in government securities and in Tri-party Repo trades are settled centrally through the infrastructure and settlement systems provided by CCIL; thus reducing the settlement and counterparty risks considerably for transactions in the said segments.

CCIL maintains prefunded resources in all the clearing segments to cover potential losses arising from the default member. In the event of a clearing member failing to honour his settlement obligations, the default Fund is utilized to complete the settlement. The sequence in which the above resources are used is known as the "Default Waterfall".

As per the waterfall mechanism, after the defaulter's margins and the defaulter's contribution to the default fund have been appropriated, CCIL's contribution is used to meet the losses. Post utilization of CCIL's contribution if there is a residual loss, it is appropriated from the default fund contributions of the non-defaulting members.

Thus the scheme is subject to risk of the initial margin and default fund contribution being invoked in the event of failure of any settlement obligations. In addition, the fund contribution is allowed to be used to meet the residual loss in case of default by the other clearing member (the defaulting member).

However, it may be noted that a member shall have the right to submit resignation from the membership of the Security segment if it has taken a loss through replenishment of its contribution to the default fund for the segments and a loss threshold as notified have been reached. The maximum contribution of a member towards replenishment of its contribution to the default fund in the 7 days (30 days in case of securities segment) period immediately after the afore-mentioned loss threshold having been reached shall not exceed 5 times of its contribution to the Default Fund based on the last re-computation of the Default Fund or specified amount, whichever is lower.

Further, it may be noted that, CCIL periodically prescribes a list of securities eligible for contributions as collateral by members. Presently, all Central Government securities and Treasury bills are accepted as collateral by CCIL. The risk factors may undergo change in case the CCIL notifies securities other than Government of India securities as eligible for contribution as collateral.

The underlying schemes having exposure to the fixed income securities and/ or equity and equity related securities will be subject to the following risks and in turn the Scheme's/ Plans' performance will be affected accordingly.

4. Risk factors pertaining to investment in Equities by underlying schemes:

1. The value of the Schemes' investments, may be affected generally by factors affecting securities markets, such as price and volume volatility in the capital markets, interest rates,

currency exchange rates, changes in policies of the Government, taxation laws or any other appropriate authority policies and other political and economic developments which may have an adverse bearing on individual securities, a specific sector or all sectors including equity and debt markets. Consequently, the NAV of the Units of the Schemes may fluctuate and can go up or down.

2. Investors may note that AMC/Fund Manager's investment decisions may not be always profitable, as actual market movements may be at variance with anticipated trends. Trading volumes, settlement periods and transfer procedures may restrict the liquidity of these investments. Different segments of the Indian financial markets have different settlement periods and such periods may be extended significantly by unforeseen circumstances. The inability of the Schemes to make intended securities purchases due to settlement problems could cause the Schemes to miss certain investment opportunities.
3. The underlying schemes may not be able to sell / lend out securities, which can lead to temporary illiquidity. There are risks inherent in securities lending, including the risk of failure of the other party, in this case the approved intermediary to comply with the terms of the agreement. Such failure can result in a possible loss of rights to the collateral, the inability of the approved intermediary to return the securities deposited by the lender and the possible loss of corporate benefits accruing thereon.
4. Investors may note that dividend is due only when declared and there is no assurance that a company (even though it may have a track record of payment of dividend in the past) may continue paying dividend in future. As such, the schemes are vulnerable to instances where investments in securities may not earn dividend or where lesser dividend is declared by a company in subsequent years in which investments are made by schemes. As the profitability of companies are likely to vary and have a material bearing on their ability to declare and pay dividend, the performance of the schemes may be adversely affected due to such factors.
5. Securities, which are not quoted on the stock exchanges, are inherently illiquid in nature and carry a larger amount of liquidity risk in comparison to securities that are listed on the exchanges or offer other exit options to the investor, including a put option. Within the Regulatory limits, the AMC may choose to invest in unlisted securities. This may however increase the risk of the portfolio.
6. While securities that are listed on the stock exchange carry lower liquidity risk, the ability to sell these investments is limited by the overall trading volume on the stock exchanges. The liquidity of the Schemes' investments is inherently restricted by trading volumes in the securities in which it invests.
7. Fund manager endeavours to generate returns based on certain past statistical trend. The performance of the schemes may get affected if there is a change in the said trend. There can be no assurance that such historical trends will continue.
8. In case of abnormal circumstances it will be difficult to complete the square off transaction due to liquidity being poor in stock futures/spot market. However fund will aim at taking exposure only into liquid stocks where there will be minimal risk to square off the transaction. The Schemes investing in foreign securities will be exposed to settlement risk, as different countries have different settlement periods.

9. Changes in Government policy in general and changes in tax benefits applicable to mutual funds may impact the returns to investors in the Scheme or business prospects of the Company in any particular sector.

5. Risk factors pertaining to investment in Fixed Income Securities by underlying schemes:

- I. **Market Risk/Interest Rate Risk:** The Net Asset Value (NAV) of the Scheme(s), to the extent invested in Debt and Money Market securities, will be affected by changes in the general level of interest rates. The NAV of the Scheme(s) is expected to increase from a fall in interest rates while it would be adversely affected by an increase in the level of interest rates..
- II. **Liquidity Risk:** The liquidity of a security may change depending on market conditions leading to changes in the liquidity premium linked to the price of the security. At the time of selling the security, the security can become illiquid leading to loss in the value of the portfolio.
- III. **Credit Risk:** Investments in Fixed Income Securities are subject to the risk of an issuer's inability to meet interest and principal payments on its obligations and market perception of the creditworthiness of the issuer.
- IV. **Price Risk:** Government securities where a fixed return is offered run price-risk like any other fixed income security. Generally, when interest rates rise, prices of fixed income securities fall and when interest rates drop, the prices increase. The extent of fall or rise in the prices is a function of the existing coupon, days to maturity and the increase or decrease in the level of interest rates. The new level of interest rate is determined by the rates at which government raises new money and/or the price levels at which the market is already dealing in existing securities. The price-risk is not unique to Government Securities. It exists for all fixed income securities. However, Government Securities are unique in the sense that their credit risk generally remains zero. Therefore, their prices are influenced only by movement in interest rates in the financial system.
- V. **Reinvestment Risk:** This risk refers to the interest rate levels at which cash flows received from the securities in the Scheme are reinvested. The additional income from reinvestment is the "interest on interest" component. The risk is that the rate at which interim cash flows can be reinvested may be lower than that originally assumed.
- VI. **Settlement risk:** The inability of the underlying Scheme to make intended securities purchases due to settlement problems could cause the underlying Scheme to miss certain investment opportunities. By the same rationale, the inability to sell securities held in the underlying Schemes' portfolio due to the extraneous factors that may impact liquidity would result, at times, in potential losses to the Plan, in case of a subsequent decline in the value of securities held in the underlying Schemes' portfolio.
- VII. **Regulatory Risk:** Changes in government policy in general and changes in tax benefits applicable to Mutual Funds may impact the returns to investors in the Scheme.
- VIII. **Risks associated with investment in unlisted securities:** Except for any security of an associate or group company, the underlying scheme has the power to invest in securities which are not listed on a stock exchange ("unlisted Securities") which in general are subject to greater price fluctuations, less liquidity and greater risk than those which are traded in

the open market. Unlisted securities may lack a liquid secondary market and there can be no assurance that the underlying Scheme will realise their investments in unlisted securities at a fair value.

- IX. Different types of fixed income securities in which the Scheme(s) would invest as given in the Scheme Information Document carry different levels and types of risk. Accordingly, the Scheme(s) risk may increase or decrease depending upon its investment pattern. e.g. corporate bonds carry a higher level of risk than Government securities.
- X. The AMC may, considering the overall level of risk of the portfolio, invest in lower rated / unrated securities offering higher yields as well as zero coupon securities that offer attractive yields. This may increase the absolute level of risk of the portfolio.
- XI. As zero coupon securities does not provide periodic interest payments to the holder of the security, these securities are more sensitive to changes in interest rates. Therefore, the interest rate risk of zero coupon securities is higher. The AMC may choose to invest in zero coupon securities that offer attractive yields. This may increase the risk of the portfolio.
- XII. The Scheme(s) at times may receive large number of redemption requests, leading to an asset-liability mismatch and therefore, requiring the investment manager to make a distress sale of the securities leading to realignment of the portfolio and consequently resulting in investment in lower yield instruments.
- XIII. Scheme's performance may differ from the benchmark index to the extent of the investments held in the debt segment, as per the investment pattern indicated under normal circumstances.

6. Risks attached with investments in ADRs/GDRs/Other Overseas Investment by underlying schemes:

It is AMC's belief that the investment in ADRs/GDRs/overseas securities offers new investment and portfolio diversification opportunities into multi-market and multi-currency products. However, such investments also entail additional risks. Such investment opportunities may be pursued by the AMC provided they are considered appropriate in terms of the overall investment objectives of the Schemes. Since the Schemes would invest only partially in ADRs/GDRs/overseas securities, there may not be readily available and widely accepted benchmarks to measure performance of the Schemes. To manage risks associated with foreign currency and interest rate exposure, the Fund may use derivatives for efficient portfolio management including hedging and in accordance with conditions as may be stipulated by SEBI/RBI from time to time.

To the extent that the assets of the Schemes will be invested in securities denominated in foreign currencies, the Indian Rupee equivalent of the net assets, distributions and income may be adversely affected by the changes in the value of certain foreign currencies relative to the Indian Rupee. The repatriation of capital also may be hampered by changes in regulations concerning exchange controls or political circumstances as well as the application to it of the other restrictions on investment.

Offshore investments will be made subject to any/all approvals, conditions thereof as may be stipulated by SEBI/RBI and provided such investments do not result in expenses to the Fund in excess of the ceiling on expenses prescribed by and consistent with costs and

expenses attendant to international investing. The Fund may, where necessary, appoint other intermediaries of repute as advisors, custodian/sub-custodians etc. for managing and administering such investments. The appointment of such intermediaries shall be in accordance with the applicable requirements of SEBI and within the permissible ceilings of expenses. The fees and expenses would illustratively include, besides the investment management fees, custody fees and costs, fees of appointed advisors and sub-managers, transaction costs, and overseas regulatory costs.

Investors are requested to note that the costs associated with overseas investments like advisory fees (other than those expenses permissible under regulation 52 of SEBI Regulations) would not be borne by the scheme.

7. Risks associated with Investing in Derivatives by underlying schemes:

- The Schemes may use various derivative products as permitted by the Regulations. Use of derivatives requires an understanding of not only the underlying instrument but also of the derivative itself. Other risks include the risk of mis-pricing or improper valuation and the inability of derivatives to correlate perfectly with underlying assets, rates and indices.
- The Scheme may use derivatives instruments like Stock/ Index Futures, Interest Rate Swaps, Forward Rate Agreements or other derivative instruments for the purpose of hedging and portfolio balancing, as permitted under the Regulations and guidelines. Usage of derivatives will expose the Schemes to certain risks inherent to such derivatives.
- Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the fund manager to identify such opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and decision of fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies.
- Thus, derivatives are highly leveraged instruments. Even a small price movement in the underlying security could have a large impact on their value.
- The risks associated with the use of derivatives are different from or possibly greater than the risks associated with investing directly in securities and other traditional investments.
- The specific risk factors arising out of a derivative strategy used by the Fund Manager may be as below:
 - The risk of mispricing or improper valuation and the inability of derivatives to correlate perfectly with underlying assets, rates and indices.
 - Execution Risk: The prices which are seen on the screen need not be the same at which execution will take place
 - Basis Risk: This risk arises when the derivative instrument used to hedge the underlying asset does not match the movement of the underlying asset being hedged
 - Exchanges could raise the initial margin, variation margin or other forms of margin on derivative contracts, impose one sided margins or insist that margins be placed in cash. All of these might force positions to be unwound at a loss, and might materially impact returns.

RISK FACTORS WITH RESPECT TO IMPERFECT HEDGING USING INTEREST RATE FUTURES

An Interest Rate Futures is an agreement to buy or sell a debt instrument at a specified future date at a price that is fixed today. Interest Rate Futures are Exchange traded. These future contracts are cash settled.

- (i) Perfect Hedging means hedging the underlying using IRF contract of same underlying.
- (ii) Imperfect hedging means the underlying being hedged and the IRF contract has correlation of closing prices of more than 90%.

In case of imperfect hedging, the portfolio can be a mix of:

- 1) Corporate Bonds and Government securities or
- 2) Only Corporate debt securities or
- 3) Only government securities with different maturities

Risk associated with imperfect hedging includes:

Basis Risk: The risk arises when the price movements in derivative instrument used to hedge the underlying assets does not match the price movements of the underlying assets being hedged. Such difference may potentially amplify the gains or losses, thus adding risk to the position.

Price Risk: The risk of mispricing or improper valuation and the inability of derivatives to correlate perfectly with underlying assets, rates and indices.

Risk of mismatch between the instruments: The risk arises if there is a mismatch between the prices movements in derivative instrument used to hedge, compared to the price movement of the underlying assets being hedged. For example when IRF which has government security as underlying is used, to hedge a portfolio that contains corporate debt securities.

Correlation weakening and consequent risk of regulatory breach: SEBI Regulation mandates minimum correlation criterion of 0.9 (calculated on a 90 day basis) between the portfolio being hedged and the derivative instrument used for hedging. In cases where the correlation falls below 0.9, a rebalancing period of 5 business days has been permitted. Inability to satisfy this requirement to restore the correlation level to the stipulated level, within the stipulated period, due to difficulties in rebalancing would lead to a lapse of the exemption in gross exposure computation. The entire derivative exposure would then need to be included in gross exposure, which may result in gross exposure in excess of 100% of net asset value.

8. Risk associated with Investing in securitised debt by underlying schemes

A securitization transaction involves sale of receivables by the originator (a bank, non-banking finance company, housing finance company, microfinance companies or a manufacturing/service company) to a Special Purpose Vehicle (SPV), typically set up in the form of a trust. Investors are issued rated Pass Through Certificates (PTCs), the proceeds of which are paid as consideration to the originator. In this manner, the originator, by selling his loan receivables to an SPV, receives consideration from investors much before the maturity of the underlying loans. Investors are paid from the collections of the underlying loans from borrowers. Typically, the transaction is provided with a limited

amount of credit enhancement (as stipulated by the rating agency for a target rating), which provides protection to investors against defaults by the underlying borrowers. Generally available asset classes for securitization in India are:

- a. Commercial vehicles
- b. Auto and two wheeler pools
- c. Mortgage pools (residential housing loans)
- d. Personal loan, credit card and other retail loans
- e. Corporate loans/receivables
- f. Microfinance receivables

In pursuance to SEBI communication dated: August 25, 2010, given below are the requisite details relating to investments in Securitised debt.

- Risk profile of securitized debt vis-à-vis risk appetite of the scheme:

Securitized debt instruments are relatively illiquid in the secondary market and hence they are generally held to maturity. Investment in these instruments will help the fund in aiming at reasonable returns. These returns come with a certain degree of risks which are covered separately in the SID

In terms of specific risks attached to securitization, each asset class would have different underlying risks, however, residential mortgages are supposed to be having lower default rates as an asset class. On the other hand, repossession and subsequent recovery of commercial vehicles and other auto assets is fairly easier and better compared to mortgages. Some of the asset classes such as personal loans, credit card receivables etc., being unsecured credits in nature, may witness higher default rates. As regards corporate loans/receivables, depending upon the nature of the underlying security for the loan or the nature of the receivable the risks would correspondingly fluctuate. However, the credit enhancement stipulated by rating agencies for such asset class pools is typically much higher, which helps in making their overall risks comparable to other AAA/AA rated asset classes.

The underlying scheme may invest in securitized debt assets. These assets may be in the nature of Asset Backed securities (ABS) and Mortgage Backed securities (MBS) with underlying pool of assets and receivables like housing loans, auto loans and single corporate loan originators.

While entering into any securitization transaction, the risk may be assessed based on the information generated from the following sources:

- (1) Rating provided by the rating agency
- (2) Assessment by the AMC

- **Assessment by a Rating Agency**

In its endeavor to assess the fundamental uncertainties in any securitization transaction, a credit rating agency normally takes into consideration following factors:

Credit Risk:

Credit risk forms a vital element in the analysis of securitization transaction. Adequate credit enhancements to cover defaults, even under stress scenarios, mitigate this risk. This is done by evaluating following risks:

- g. Asset risk
- h. Originator risk
- i. Portfolio risk
- j. Pool risks

The quality of the pool is a crucial element in assessing credit risk. In the Indian context, generally, pools are 'cherry-picked' using positive selection criteria. To protect the investor from adverse selection of pool contracts, the rating agencies normally take into consideration pool characteristics such as pool seasoning (seasoning represents the number of installments paid by borrower till date: higher seasoning represents better quality), over dues at the time of selection and Loan to Value (LTV). To assess its risk profile vis-à-vis the overall portfolio, the pool is analyzed with regard to geographical location, borrower profile, LTV, and tenure.

Counterparty Risk:

There are several counterparties in a securitization transaction, and their performance is crucial. Unlike in the case of credit risks, where the risks emanate from a diversified pool of retail assets, counterparty risks result in either performance or non-performance. The rating agencies generally mitigate such risks through the usage of stringent counterparty selection and replacement criteria to reduce the risk of failure. The risks assessed under this category include:

- k. Servicer risk
- l. Commingling risk
- m. Miscellaneous other counterparty risks

Legal Risks:

The rating agency normally conducts a detailed study of the legal documents to ensure that the investors' interest is not compromised and relevant protection and safeguards are built into the transaction.

Market Risks:

Market risks represent risks not directly related to the transaction, but other market related factors, stated below, which could have an impact on transaction performance, or the value of the investments to the investors.

- n. Macro-economic risks
- o. Prepayment risks
- p. Interest rate risks

Other Risks associated with investment in securitized debt and mitigation measures

Limited Liquidity and Price Risk:

There is no assurance that a deep secondary market will develop for the Certificates. This could limit the ability of the investor to resell them.

Securitized debt instruments are relatively illiquid in the secondary market and hence they are generally held to maturity.

Limited Recourse, Delinquency and Credit Risk:

The Credit Enhancement stipulated represents a limited loss cover to the Investors. These Certificates represent an undivided beneficial interest in the underlying receivables and do not represent an obligation of either the Issuer or the Seller or the originator, or the parent of the Seller, Issuer and Originator. No financial recourse is available to the Certificate Holders against the Investors' Representative. Delinquencies and credit losses may cause depletion of the amount available under the Credit Enhancement and thereby the Investor Payouts to the Certificate Holders may get affected if the amount available in the Credit Enhancement facility is not enough to cover the shortfall. On persistent default of an Obligor to repay his obligation, the Servicer may repossess and sell the Asset. However many factors may affect, delay or prevent the repossession of such Asset or the length of time required to realise the sale proceeds on such sales. In addition, the price at which such Asset may be sold may be lower than the amount due from that Obligor.

Risks due to possible prepayments: Weighted Tenor / Yield

Asset securitisation is a process whereby commercial or consumer credits are packaged and sold in the form of financial instruments Full prepayment of underlying loan contract may arise under any of the following circumstances;

- q. Obligor pays the Receivable due from him at any time prior to the scheduled maturity date of that Receivable; or
- r. Receivable is required to be repurchased by the Seller consequent to its inability to rectify a material misrepresentation with respect to that Receivable; or
- s. The Servicer recognizing a contract as a defaulted contract and hence repossessing the underlying Asset and selling the same
- t. In the event of prepayments, investors may be exposed to changes in tenor and yield.

Bankruptcy of the Originator or Seller:

If originator becomes subject to bankruptcy proceedings and the court in the bankruptcy proceedings concludes that the sale from originator to Trust was not a sale then an Investor could experience losses or delays in the payments due. All possible care may generally taken in structuring the transaction so as to minimize the risk of the sale to Trust not being construed as a "True Sale". Legal opinion may be normally obtained to the effect that the assignment of Receivables to Trust in trust for and for the benefit of the Investors, as envisaged herein, would constitute a true sale.

Bankruptcy of the Investor's Agent:

If Investor's agent becomes subject to bankruptcy proceedings and the court in the bankruptcy proceedings concludes that the recourse of Investor's Agent to the assets/receivables is not in its capacity as agent/Trustee but in its personal capacity, then an Investor could experience losses or delays in the payments due under the swap

agreement. All possible care may be normally taken in structuring the transaction and drafting the underlying documents so as to provide that the assets/receivables if and when held by Investor's Agent is held as agent and in Trust for the Investors and shall not form part of the personal assets of Investor's Agent. Legal opinion may be normally obtained to the effect that the Investors Agent's recourse to assets/receivables is restricted in its capacity as agent and trustee and not in its personal capacity.

Credit Rating of the Transaction / Certificate:

The credit rating is not a recommendation to purchase, hold or sell the Certificate in as much as the ratings do not comment on the market price of the Certificate or its suitability to a particular investor. There is no assurance by the rating agency either that the rating will remain at the same level for any given period of time or that the rating will not be lowered or withdrawn entirely by the rating agency.

Risk of Co-mingling:

With respect to the Certificates, the Servicer will deposit all payments received from the Obligors into the Collection Account. However, there could be a time gap between collection by a Servicer and depositing the same into the Collection account especially considering that some of the collections may be in the form of cash. In this interim period, collections from the Loan Agreements may not be segregated from other funds of originator. If originator in its capacity as Servicer fails to remit such funds due to Investors, the Investors may be exposed to a potential loss.

- **Assessment by the AMC**

Mapping of structures based on underlying assets and perceived risk profile

The underlying scheme may invest in securitized debt originated by Banks, NBFCs and other issuers. The AMC may evaluate following factors, while investing in securitized debt:

Originator:

Acceptance Evaluation Parameters (For Pool Loan and Single Loan Securitization Transactions)

Track record:

The AMC may check for adequate past track record of the Originator before selection of the pool including at the number of issuances in past, track record of issuances, experience of issuance team, etc.

Willingness to pay:

As the securitized structure has underlying collateral structure, depending on the asset class, historical NPA trend and other pool / loan characteristics, a credit enhancement in the form of cash collateral, such as fixed deposit, bank, guarantee etc. may be obtained, as a risk mitigation measure.

Ability to pay:

Management analysis may be used for identifying company specific financial risks. One of the factors for assessment may be the quality of management based on its past track record and feedback from market participants. In order to assess financial risk a broad assessment of the issuer's financial statements may be undertaken to review its ability to undergo stress on cash flows and asset quality. Business risk assessment, wherein following factors may be considered:

- u. Outlook for the economy (domestic and global)
- v. Outlook for the industry
- w. Company specific factors

In addition a detailed review and assessment of rating rationale may be done including interactions with the company as well as agency

Evaluation Parameters (For Pool Loan and Single Loan Securitization Transactions)

The AMC may avoid investing in securitization transaction (without specific risk mitigant strategies / additional cash/security collaterals/ guarantees) if there are concerns on the following issues regarding the originator / underlying issuer:

- (1) High default track record/ frequent alteration of redemption conditions / covenants
- (2) High leverage ratios – both on a standalone basis as well on a consolidated level/ group level
- (3) Higher proportion of reschedulement of underlying assets of the pool or loan, as the case may be
- (4) Higher proportion of overdue assets of the pool or the underlying loan, as the case may be
- (5) Poor reputation in market
- (6) Insufficient track record of servicing of the pool or the loan, as the case may be.

Advantages of Investments in Single Loan Securitized Debt

1. Wider Coverage: A Single Loan Securitized Debt market offers a more diverse range of issues / exposures as the Banks / NBFCs lend to larger base of borrowers.
2. Credit Assessment: Better credit assessment of the underlying exposure as the Banks / NBFCs ideally co-invest in the same structure or take some other exposure on the same borrower in some other form.
3. Better Structuring: Single Loan Securitized Debt investments facilitates better structuring than investments in plain vanilla debt instruments as it is governed by Securitization guidelines issued by RBI.
4. Better Legal documentation: Single Loan Securitized Debt structures involve better legal documentation than Non-Convertible Debenture (NCD) investments.
5. End use of funds: Securitized debt has better standards of disclosures as well as limitation on end use of funds as compared to NCD investments wherein the end use is general corporate purpose.
6. Yield enhancer: Single Loan Securitized Debt investments give higher returns as compared to NCD investments in same corporate exposure.
7. Regulator supervision: Macro level supervision from RBI in Securitization Investments as compared to NCD investments.

8. Tighter covenants: Single Loan Securitized Debt structures involve tighter financial covenants than NCD investments.

Disadvantages of Investments in Single Loan Securitized Debt

- Liquidity risk: Investments in Single Loan Securitized Debts have relatively less liquidity as compared to investments in NCDs.
- Co-mingling risk: Servicers in a securitization transaction normally deposit all payments received from the obligors into a collection account. However, there could be a time gap between collection by a servicer and depositing the same into the collection account. In this interim period, collections from the loan agreements by the servicer may not be segregated from other funds of the servicer. If the servicer fails to remit such funds due to investors, investors in the Scheme may be exposed to a potential loss.

Note: The information contained herein is based on current market conditions and may change from time to time based on changes in such conditions, regulatory changes and other relevant factors. Accordingly, investment strategy, risk mitigation measures and other information contained herein may change in response to the same.

9. Risks associated with Short Selling and Stock Lending by underlying schemes:

Stock lending is lending of securities through an approved intermediary to a borrower under an agreement for a specified period with the condition that the borrower will return equivalent securities of the same type or class at the end of the specified period along with the corporate benefits accruing on the securities borrowed.

The risks in security lending consist of the failure of intermediary / counterparty, to comply with the terms of agreement entered into between the lender of securities i.e. the Scheme and the intermediary / counterparty. Such failure to comply can result in the possible loss of rights in the collateral put up by the borrower of the securities, the inability of the approved intermediary to return the securities deposited by the lender and the possible loss of any corporate benefits accruing to the lender from the securities deposited with the approved intermediary. The scheme may not be able to sell lent out securities, which can lead to temporary illiquidity & loss of opportunity.

10. Risk Factors Associated with Investments in REITs and InvITS by underlying schemes:

Market Risk:

REITs and InvITs are volatile and prone to price fluctuations on a daily basis owing to market movements. Investors may note that AMC/Fund Manager's investment decisions may not always be profitable, as actual market movements may be at variance with the anticipated trends. The NAV of the Scheme is vulnerable to movements in the prices of securities invested by the scheme, due to various market related factors like changes in the general market conditions, factors and forces affecting capital market, level of interest rates, trading volumes, Real Estate and Infrastructure sectors, settlement periods and transfer procedures. The scheme will undertake active portfolio management as per the investment objective to reduce the market risk.

Liquidity Risk:

As the liquidity of the investments made by the Scheme(s) could, at times, be restricted by trading volumes and settlement periods, the time taken by the Mutual Fund for liquidating the investments in the scheme may be high in the event of immediate redemption requirement. Investment in such securities may lead to increase in the scheme portfolio risk. The fund will try to maintain a proper asset-liability match to ensure redemption payments are made on time and not affected by illiquidity of the underlying units.

Reinvestment Risk:

Investments in REITs & InvITs may carry reinvestment risk as there could be repatriation of funds by the Trusts in form of buyback of units or IDCW pay-outs, etc. Consequently, the proceeds may get invested in assets providing lower returns. However, the reinvestment risk will be limited as the proceeds are expected to be a small portion of the portfolio value.

Interest Rate Risk: Securities / Instruments of REITs and InvITs run interest rate risk. Generally, when interest rates rise, prices of units fall and when interest rates drop, such prices increase.

The above are some of the common risks associated with investments in REITs & InvITs. There can be no assurance that a Scheme's investment objectives will be achieved, or that there will be no loss of capital. Investment results may vary substantially on a monthly, quarterly or annual basis.

11. Risk Factors associated with investments in Gilt Securities by underlying schemes:

Generally, when interest rates rise, prices of fixed income securities fall and when interest rates drop, the prices increase. The extent of fall or rise in prices is a function of the existing coupon, days to maturity and the increase or decrease in interest rates. Price-risk is not unique to government securities but is true for all fixed income securities. The default risk however, in respect of Government securities is zero. Therefore, their prices are influenced only by movement in interest rates in the financial system. On the other hand, in the case of corporate or institutional fixed income securities, such as bonds or debentures, prices are influenced by credit standing of the issuer as well as the general level of interest rates.

Even though the Government securities market is more liquid compared to other debt instruments, on occasions, there could be difficulties in transacting in the market due to extreme volatility or unusual constriction in market volumes or on occasions when an unusually large transaction has to be put through.

12. Risks associated with investment in Repo in Corporate Debt by underlying scheme

Lending transactions:

The scheme may be exposed to counter party risk in case of repo lending transactions in the event of the counterparty failing to honour the repurchase agreement. However in repo lending transactions, the collateral may be sold and a loss is realized only if the sale price is less than the repo amount. The risk may be further mitigated through over-collateralization (the value of the collateral being more than the repo amount). Further, the liquidation of underlying securities in case of counterparty default would depend on liquidity of the securities and market conditions at that time. It is endeavoured to mitigate the risk by following an appropriate counterparty selection process, which include their

credit profile evaluation and over-collateralization to cushion the impact of market risk on sale of underlying security.

Borrowing transactions:

In the event of the scheme being unable to pay back the money to the counterparty as contracted, the counter party may dispose of the assets (as they have sufficient margin). This risk is normally mitigated by better cash flow planning to take care of such repayments. Further, there is also a Credit Risk that the Counterparty may fail to return the security or Interest received on due date. It is endeavoured to mitigate the risk by following an appropriate counterparty selection process, which include their credit profile evaluation.

13. Risks associated with schemes investing in Floating Rate papers

Risks of investing in floating rate debt instruments or fixed rate debt instruments swapped for floating rate return:

Interest rate movement (Basis Risk):

As the Schemes will invest in floating rate instruments these instruments' coupon will be reset periodically in line with the benchmark index movement. Normally, the interest rate risk of a floating rate instrument compared to a fixed rate instrument is limited. The changes in the prevailing rates of interest will likely affect the value of the Scheme's holdings until the next reset date and thus the value of the Scheme's Units. Increased rates of interest, which frequently accompany inflation and/ or a growing economy, are likely to have a negative effect on the value of the Units. The value of securities held by the Scheme generally will vary inversely with changes in prevailing interest rates. The Scheme could be exposed to the interest rate risk (i) to the extent of time gap in resetting of the benchmark rates, and (ii) to the extent the benchmark index fails to capture the interest rate movement.

Spread Movement (Spread Risk):

Though the basis (i.e. benchmark) gets readjusted on a regular basis, the spread (i.e. mark-up) over benchmark remains constant. This can result in some volatility to the holding period return of floating rate instruments.

Settlement Risk (Counter-party Risk):

The floating rate assets may also be created by swapping a fixed return to a floating rate return. In such a swap, there may be an additional risk of counter-party who will pay floating rate return and receive fixed rate return.

Liquidity Risk:

Due to the evolving nature of the floating rate market, there may be an increased degree of liquidity risk in the portfolio from time to time.

C. Risk mitigation strategies

The underlying schemes having exposure to the fixed income securities and/ or equity

and equity related securities will be subject to the following risks and in turn the Scheme's/ Plans' performance will be affected accordingly.

Risks associated with Equity investments	
<u>Concentration Risk</u> Concentration risk represents the probability of loss arising from heavily lopsided exposure to a particular group of sectors or securities.	The underlying schemes will try and mitigate this risk by investing in large number of companies so as to maintain optimum diversification and keep stock-specific concentration risk relatively low.
<u>Market Risk</u> The scheme is vulnerable to movements in the prices of securities invested by the scheme, which could have a material bearing on the overall returns from the scheme	Market risk is a risk which is inherent to an equity scheme. The underlying schemes may use derivatives to limit this risk.
<u>Derivatives Risk</u> As and when the Scheme trades in the derivatives market there are risk factors and issues concerning the use of derivatives since derivative products are specialized instruments that require investment techniques and risk analyses different from those associated with stocks and bonds.	The underlying scheme may invest in derivative for the purpose of hedging, portfolio balancing and other purposes as may be permitted under the Regulations. Derivatives will be used in the form of Index Options, Index Futures, Stock Options and Stock Futures and other instruments as may be permitted by SEBI. All derivatives trade will be done only on the exchange with guaranteed settlement. Fund managers will endeavor to use derivatives which are relatively liquid and traded frequently on the exchanges. Exposure with respect to derivatives shall be in line with regulatory limits and the limits specified in the SID. No OTC contracts will be entered into.
<u>Liquidity risk</u> The liquidity of the Scheme's investments is inherently restricted by trading volumes in the securities in which it invests.	As such the liquidity of stocks that the underlying schemes invest into could be relatively low. The underlying schemes will try to maintain a proper asset-liability match to ensure redemption / Maturity payments are made on time.
<u>Currency Risk</u> The Scheme will invest in foreign securities as permitted by the concerned regulatory authorities in India. Since the assets will be invested in securities denominated in foreign currency, the INR equivalent of the net assets, distributions and income may be adversely affected by changes / fluctuations in the value of the foreign currencies relative to the INR.	The underlying schemes subject to applicable regulations shall have the option to enter into forward contracts for the purposes of hedging against the foreign exchange fluctuations. The underlying schemes may employ various measures (as permitted by SEBI/RBI) including but not restricted to currency hedging (such as currency options and forward currency exchange contracts, currency futures, written call options and purchased put options on currencies and currency swaps), to manage foreign exchange movements arising out of investment in foreign securities.

All currency derivatives trade, if any will be done only through the stock exchange platform.

Risks associated with Debt investment	
<u>Market Risk/ Interest Rate Risk</u> As with all debt securities, changes in interest rates may affect the Scheme's Net Asset Value as the prices of securities generally increase as interest rates decline and generally decrease as interest rates rise. Prices of long-term securities generally fluctuate more in response to interest rate changes than do short-term securities. Indian debt markets can be volatile leading to the possibility of price movements up or down in fixed income securities and thereby to possible movements in the NAV.	The underlying schemes will undertake active portfolio management as per the investment objective to reduce the market risk. In a rising interest rates scenario the underlying schemes will increase its investment in money market securities whereas if the interest rates are expected to fall the allocation to debt securities with longer maturity will be increased thereby mitigating risk to that extent.
<u>Liquidity or Marketability Risk</u> This refers to the ease with which a security can be sold at or near to its valuation yield-to-maturity (YTM).	The underlying schemes may invest in government securities, corporate bonds and money market instruments. While the liquidity risk for government securities, money market instruments and short maturity corporate bonds may be low, it may be high in case of medium to long maturity corporate bonds. Liquidity risk is today characteristic of the Indian fixed income market. The underlying schemes will however, endeavor to minimize liquidity risk by investing in securities having a liquid market.
<u>Credit Risk</u> Credit risk or default risk refers to the risk that an issuer of a fixed income security may default (i.e., will be unable to make timely principal and interest payments on the security).	Management analysis will be used for identifying company specific risks. Management's past track record will also be studied. In order to assess financial risk a detailed assessment of the issuer's financial statements will be undertaken to review its ability to undergo stress on cash flows and asset quality. A detailed evaluation of accounting policies, off-balance sheet exposures, notes, auditors' comments and disclosure standards will also be made to assess the overall financial risk of the potential borrower. In case of securitized debt instruments, the underlying schemes will ensure that these instruments are sufficiently backed by assets.
<u>Reinvestment Risk</u> This risk refers to the interest rate levels at which cash flows received from the	Reinvestment risks will be limited to the extent of coupons received on debt instruments, which will be a very small portion of the portfolio value.

securities in the Schemes are reinvested The risk is that the rate at which interim cash flows can be reinvested may be lower than that originally assumed.	
<u>Currency Risk</u> The Scheme will invest in foreign securities as permitted by the concerned regulatory authorities in India. Since the assets will be invested in securities denominated in foreign currency, the INR equivalent of the net assets, distributions and income may be adversely affected by changes / fluctuations in the value of the foreign currencies relative to the INR.	The underlying schemes subject to applicable regulations shall have the option to enter into forward contracts for the purposes of hedging against the foreign exchange fluctuations. The underlying schemes may employ various measures (as permitted by SEBI/RBI) including but not restricted to currency hedging (such as currency options and forward currency exchange contracts, currency futures, written call options and purchased put options on currencies and currency swaps), to manage foreign exchange movements arising out of investment in foreign securities. All currency derivatives trade, if any will be done only through the stock exchange platform.
<u>Derivatives Risk</u> As and when the Scheme trades in the derivatives market there are risk factors and issues concerning the use of derivatives since derivative products are specialized instruments that require investment techniques and risk analyses different from those associated with stocks and bonds. There is the possibility that a loss may be sustained by the portfolio as a result of the failure of another party (usually referred to as the "counter party") to comply with the terms of the derivatives contract. Other risks in using derivatives include the risk of mispricing or improper valuation of derivatives and the inability of derivatives to correlate perfectly with underlying assets, rates and indices.	The underlying schemes may invest in derivative for the purpose of hedging, portfolio balancing and other purposes as may be permitted under the Regulations. Interest Rate Swaps will be done with approved counter parties under pre-approved ISDA agreements. Interest rate swaps and other derivative instruments will be used as per local (RBI and SEBI) regulatory guidelines.

Note: The information contained herein is based on current market conditions and may change from time to time based on changes in such conditions, regulatory changes and other relevant factors. Accordingly, our investment strategy, risk mitigation measures and other information contained herein may change in response to the same.

B. Information about the scheme

A. Where will the scheme invest?

The corpus of the Scheme shall be invested dynamically in units of active equity and debt oriented schemes.

As per the SEBI guidelines, a Fund of funds scheme shall not invest its assets other than in schemes of mutual funds, except to the extent of meeting the liquidity requirements for the purpose of repurchases or redemptions. Subject to the Regulations, the corpus of the Scheme can be invested in any (but not exclusively) of the following securities:

- Units of various active equity and debt oriented mutual fund schemes of ICICI Prudential Mutual Fund or any other Mutual Fund
- Money market instruments permitted by SEBI/RBI.

The units of the schemes of the Mutual Funds in which the Scheme propose to make investments in could be listed or unlisted, open/close ended. The units may be acquired through subscription to the units during the New Fund Offer of the schemes or by subscriptions on on-going basis in case of open -ended schemes.

Further the inter Scheme transfer of investments shall be in accordance with the provisions contained in clause Inter-Scheme transfer of investments, stated in paragraph 12.30 of the Master Circular.

POSITION OF DEBT MARKET IN INDIA

There are three main segments in the debt markets in India, viz., Government Securities, Public Sector Units (PSU) bonds, and corporate securities. A bulk of the debt market consists of Government Securities. Other instruments available currently include Corporate Debentures, Bonds issued by Financial Institutions, Commercial Paper, Certificates of Deposits and Securitised Debt. Securities in the Debt market typically vary based on their tenure and rating. Government Securities have tenures from one year to thirty years whereas the maturity period of the Corporate Debt now goes upto sixty years and more (perpetual). Perpetual bonds are now issued by banks as well. Securities may be both listed and unlisted and there is increasing trend of securities of maturities of over one year being listed by issuers.

The yields and liquidity on various securities as on September 30, 2025 are as under

Issuer	Instrument	Maturity	Yields (%)	Liquidity
GOI	Treasury Bill	91 Days	5.44%	High
GOI	Treasury Bill	364 Days	5.56%	High
GOI	Short Dated	1-3 Years	5.61% - 5.93%	High
GOI	Medium Dated	3-5 Years	5.93% - 6.21%	High
GOI	Long Dated	5-10 Years	6.21% - 6.57 %	High
Corporates	Taxable Bonds (AAA)	1-3 Years	6.72% - 6.96%	Medium
Corporates	Taxable Bonds (AAA)	3-5 Years	6.96% - 7.00%	Low to Medium
Corporates	CDs (A1+)	3 months	5.83%	Medium to High
Corporates	CPs (A1+)	3 months	6.57%	Medium to High

B. What are the investment restrictions?

As per the provisions of the Trust Deed read with the SEBI (Mutual Funds) Regulations, 1996, the following investment restrictions apply in respect of the Scheme at the time of making investments. however, all investments by the Scheme will be made in accordance with the investment objective, asset allocation and where will the schemes invest, described earlier, as well as the SEBI (Mutual Funds) Regulations, 1996, including schedule VII thereof, as amended from time to time.

1. Transfer of investments from one scheme to another scheme in the same Mutual Fund is permitted provided:
 - a) Such transfers are done at the prevailing market price for quoted instruments on spot basis (spot basis shall have the same meaning as specified by a Stock Exchange for spot transactions); and
 - b) The securities so transferred shall be in conformity with the investment objective of the scheme to which such transfer has been made.

Further the inter Scheme transfer of investments shall be in accordance with the provisions contained in clause Inter-Scheme transfer of investments, stated in paragraph 12.30 of the Master Circular.

- a. The Fund shall get the securities purchased transferred in the name of the Fund on account of the concerned scheme, wherever investments are intended to be of a long-term nature.
- b. The Fund may buy and sell securities on the basis of deliveries and shall in all cases of purchases, take delivery of relative securities and in all cases of sale, deliver the securities and will not make any short sales or engage in carry forward transaction or badla finance.

Provided further that sale of government security already contracted for purchase shall be permitted in accordance with the guidelines issued by the RBI in this regard

2. No loans for any purpose can be advanced by the Scheme.

3. No mutual fund scheme shall make any investments in;
 - any unlisted security of an associate or group company of the sponsor; or
 - any security issued by way of private placement by an associate or group company of the Sponsor;
 - the listed securities of group companies of the Sponsor which is in excess of 25% of the net assets except for investments by equity oriented exchange traded funds and index funds and subject to such conditions as may be specified by the Board.
 - Fund of Funds Schemes

4. The Fund shall not borrow except to meet temporary liquidity needs of the Fund for the purpose of repurchase/ redemption of units or payment of interest or IDCW to the Unitholders. Such borrowings shall not exceed more than 20% of the net assets of the individual scheme and the duration of the borrowing shall not exceed a period of 6 months.

5. Pending deployment of funds of the Schemes in terms of the investment objective of the Schemes, the Mutual Fund may invest them in short term deposits of scheduled commercial banks in accordance with paragraph 12.16 of the Master Circular. The following guidelines shall be followed for parking of funds in short term deposits of Scheduled commercial Banks pending deployment:
 - *“Short Term” for such parking of funds by mutual funds shall be treated as a period not exceeding 91 days.*
 - Such short term deposits shall be held in the name of the concerned Scheme.
 - No mutual fund Scheme shall park more than 15% of the net assets in Short term deposit(s) of all the scheduled commercial banks put together. However, it may be raised to 20% with prior approval of the trustees. Also, parking of funds in short term deposits of associate and sponsor scheduled commercial banks together shall not exceed 20% of total deployment by the mutual fund in short term deposits.
 - No mutual fund Scheme shall park more than 10% of the net assets in short term deposit(s), with any one scheduled commercial bank including its subsidiaries.
 - Trustees/Asset Management Companies (AMCs) shall ensure that no funds of a scheme are parked in short term deposit (STD) of a bank which has invested in that scheme. Trustees/AMCs shall also ensure that the bank in which a scheme has STD does not invest in the said scheme until the scheme has STD with such bank.

The above conditions are not applicable to term deposits placed as margins for trading in cash and derivative market.

 - Asset Management Company (AMC) shall not be permitted to charge any investment management and advisory fees for parking of funds in short term deposits of scheduled commercial banks.

6. The Mutual Fund having an aggregate of securities which are worth Rs.10 crores or more, as on the latest balance sheet date, shall subject to such instructions as may be issued from time to time by the Board, settle their transactions entered on or after January 15, 1998 only through dematerialised securities. Further, all transactions in government securities shall be in dematerialised form.

7. A fund of funds scheme shall not invest its assets other than in schemes of mutual funds, except to the extent of funds required for meeting the liquidity requirements for the purpose of repurchases or redemptions, as disclosed in the Scheme Information Document.
8. The Scheme will comply with any other Regulation applicable to the investments of mutual funds from time to time.

The Trustee may alter the above restrictions from time to time to the extent that changes in the Regulations may allow or as deemed fit in the general interest of the Unitholders.

C. Fundamental Attributes

Following are the Fundamental Attributes of the Scheme, in terms of Regulation 18 (15A) subject to compliance with sub-regulation (26) of regulation 25 of the SEBI (MF) Regulations:

(i) Type of a Scheme

For details on type of Scheme, please refer **"Type of the Scheme"**.

(ii) Investment Objective

- Main Objective - Please refer **"What are the investment objectives of the Scheme?"**
- Investment pattern – The tentative portfolio break-up of Equity and Debt and other permitted securities and such other securities as may be permitted by the SEBI from time to time with minimum and maximum asset allocation, while retaining the option to alter the asset allocation for a short term period on defensive considerations. Please refer **"How will the Scheme allocate its assets?"** for more details.

(iii) Terms of Issue

1) Liquidity

On an on-going basis, an investor can purchase and redeem Units on every Business Day at NAV based prices, subject to the applicable load structure.

2) Listing

Being an open-ended fund, the Units of the Scheme will not be listed on any stock exchange, at present. The Trustee may, at its sole discretion, cause the Units under the Scheme to be listed on one or more Stock Exchanges. Notification of the same will be made through Customer Service Centres of the AMC and as may be required by the respective Stock Exchanges.

3) Redemption Price

The redemption price will be at Applicable NAV based prices, subject to applicable exit load provisions.

1. **Aggregate fees and expenses charged to the Scheme:** The provisions in respect of fees and expenses as indicated in this Scheme Information Document.
2. **Any safety net or guarantee provided:** The present Scheme is not a guaranteed or assured return scheme.

Changes in Fundamental Attributes

In accordance with Regulation 18(15A) of the SEBI (Mutual Funds) Regulations, 1996 and paragraph 1.14.1.4 of the Master Circular, the Trustees shall ensure that no change in the fundamental attributes of the Scheme(s) and the Plan(s) / Option(s) thereunder or the trust or fee and expenses payable or any other change which would modify the Scheme(s) and the Plan(s) / Option(s) thereunder and affect the interests of Unitholders is carried out unless it complies with sub-regulation (26) of regulation 25 of these regulations as follows:

- An application has been made with SEBI and views/comments of SEBI are sought on the proposal for fundamental attribute changes;
- An addendum to the existing SID shall be issued and displayed on AMC website immediately,
- SID shall be revised and updated immediately after completion of duration of the exit option (not less than 30 days),
- A public notice shall be given in respect of such changes in one English daily newspaper having nationwide circulation as well as in a newspaper published in the language of region where the Head Office of the Mutual Fund is situated, and the Unitholders are given an option for a period of 30 days to exit at the prevailing Net Asset Value without any exit load.

D. Index Methodology - NA

E. Other Scheme Specific Disclosures:

Listing and transfer of units	Listing: Being an open ended scheme, the Units of the Scheme will not be listed on any stock exchange, at present. The Trustee may, at its sole discretion, cause the Units under the Scheme to be listed on one or more Stock Exchanges. Notification of the same will be made through Customer Service Centres of the AMC and as may be required by the respective Stock Exchanges. Transfer: Pursuant to paragraph 14.4.4 of the Master Circular, the Units of the Scheme can be transferred freely in demat form or in statement of Account (SOA) mode. For Details process on transfer of units under SOA mode, please refer SAI.
--------------------------------------	--

Dematerialization of units	The asset management company shall issue units in dematerialized form to a unit holder in a scheme within two working days of the receipt of request from the unit holder subject to receipt of complete documents and details from the investor. Unit holders can convert their existing physical units (represented by statement of account) into dematerialized form, for further details, please refer to SAI.
Policy for declaration of Income Distribution cum capital withdrawal (IDCW Policy)	• Growth Option The Scheme will not declare any IDCW under this option. The income earned by the Scheme will remain reinvested in the Scheme and will be reflected in the Net Asset Value. This option is suitable for investors who are not looking for regular income but who have invested with the intention of capital appreciation. • IDCW Option This option is suitable for investors seeking income through IDCW declared by the Scheme. The Trustee may approve the distribution of IDCW by AMC out of the net surplus under this Option. The remaining net surplus after considering the IDCW and tax, if any, payable there on will be ploughed back in the Scheme and be reflected in the NAV. (iii) IDCW Payout: As per the SEBI (MF) Regulations, the IDCW warrants shall be dispatched to the Unit Holders within 7 business days from the record date. IDCW will be payable to those Unit Holders whose names appear in the Register of Unit Holders on the date (Record Date). IDCW will be paid by cheque, net of taxes as may be applicable. Unit Holders will also have the option of direct payment of IDCW to the bank account. The cheques will be drawn in the name of the sole/first holder and will be posted to the Registered address of the sole/first holder as indicated in the original application form. To safeguard the interest of Unit Holders from loss or theft of IDCW cheques, investors should provide the name of their bank, branch and account number in the application form. IDCW cheques will be sent to the Unit Holder

after incorporating such information. The minimum amount for IDCW payout shall be Rs.100, else IDCW would be mandatorily reinvested

(iv) IDCW Reinvestment:

The investors opting for IDCW Option may choose to reinvest the IDCW to be received by them in additional Units of the Scheme. Under this provision, the IDCW due and payable to the Unitholders will be compulsorily and without any further act by the Unitholders reinvested in the Scheme (under the IDCW Option, at the first ex- IDCW NAV). The IDCW so reinvested shall be constructive payment of IDCW to the Unitholders and constructive receipt of the same amount from each Unitholder for reinvestment in Units. On reinvestment of IDCW, the number of Units to the credit of Unitholder will increase to the extent of the IDCW reinvested by the NAV applicable on the day of reinvestment, as explained above.

(V) IDCW Transfer

IDCW Transfer facility will be available under the scheme.

The designated schemes (source and target schemes) for this facility are as given below:

Source schemes - all schemes where IDCW option is available [except (i) Exchange Traded Funds (ETFs) and (ii) separate plans under ICICI Prudential Overnight Fund for deployment of unclaimed amounts viz ICICI Prudential Overnight Fund - Unclaimed Redemption, ICICI Prudential Overnight Fund - Unclaimed IDCW, ICICI Prudential Overnight Fund - Unclaimed Redemption Investor Education and ICICI Prudential Overnight Fund - Unclaimed IDCW Investor Education]

Target schemes- all open ended schemes where subscription is allowed [except (i) Exchange Traded Funds (ETFs) and (ii) separate plans under ICICI Prudential Overnight Fund for deployment of unclaimed amounts viz ICICI Prudential Overnight Fund - Unclaimed Redemption, ICICI Prudential

	Overnight Fund - Unclaimed IDCW, ICICI Prudential Overnight Fund - Unclaimed Redemption Investor Education and ICICI Prudential Overnight Fund - Unclaimed IDCW Investor Education] Note: Investors are requested to note that any change in IDCW sub-option, due to additional investment or on the basis of a request received from the investor, will be applicable to all existing units in the IDCW option of the Scheme under the respective folio. The Trustee reserves the right to declare IDCW under the IDCW option of the Scheme depending on the distributable surplus available under the Scheme. It should, however, be noted that actual distribution of IDCW and the frequency of distribution will depend, inter-alia, on the availability of distributable surplus and will be entirely at the discretion of the Trustee. The IDCW will be distributed in accordance with Chapter 11 of the Master Circular on the procedure for IDCW Distribution. Equalisation Reserve: When units are sold, and sale price (NAV) is higher than face value of the unit, a portion of sale price that represents realized gains is credited to an Equalization Reserve Account and which can be used to pay IDCW. IDCW can be distributed out of investors capital (Equalization Reserve), which is part of sale price that represents realized gains.
Allotment (Detailed procedure)	The AMC shall allot the units to the applicant whose valid application has been accepted and funds have been credited to the account. The AMC shall also send confirmation specifying the number of units allotted to the applicant by way of email and/or SMS's to the applicant's registered email address and/or registered mobile number not later than 5 working days from the date of receipt of the request from the unitholders Further, the asset management company shall issue units in dematerialized form to a

	unit holder in a scheme within two business days of the receipt of request from the unit holder.
Refund	Not Applicable for ongoing schemes.

The investor shall be responsible for complying with all the applicable laws for such investments. The AMC reserves the right to put the transaction requests on hold/reject the transaction request/reverse allotted units, as the case may be, as and when identified by the AMC, which are not in compliance with the terms and conditions notified in this regard. • A person who is resident of Canada • Such other individuals/institutions/body corporate etc., as may be decided by the AMC from time to time.

How to Apply and other details	Please refer to SAI for detailed process (physical and online) with respect to additional/ongoing purchase, Investments by NRIs (Non-Resident Indian), FPIs (Foreign Portfolio Investors) and Foreign Investors, Joint Applications etc. Investors can also read further details in the application form available on the AMC website under Downloads -> Forms on the following link: Mutual Funds - Invest in Mutual Funds Online ICICI Prudential MF Link for Official Points of Acceptance: SID related information (icicipruamc.com) Currently, the Mutual Fund / AMC has not appointed any collecting bankers for accepting application forms for existing schemes. The application forms will be accepted at any of the Investor Service Centres of the AMC or the designated branch offices of Computer Age Management Services Ltd. (CAMS). Further, for details of R&T, Official Points of Acceptance please refer to the last section of the of the SID. It is mandatory for applicants to mention their bank account numbers in their applications for purchase or redemption of Units. If the Unitholder fails to provide the Bank mandate, the request for redemption would be considered as not valid and the Scheme retains the right to withhold the redemption until a proper bank mandate is furnished by the Unit-holder and the provision with respect of penal interest in such cases will not be applicable/ entertained. Kindly refer to below link for list of official points of acceptance, collecting banker details etc. SID related information (icicipruamc.com) Open Network for Digital Commerce (ONDC) The schemes of ICICI Prudential Mutual Fund (the Fund) are now available to be transacted through the Open Network for Digital Commerce (ONDC) ("Network"). To facilitate transactions through this Network,
--	--

	the Fund has/shall enter into agreement with service provider(s) who would provide backend platform on behalf of the Fund. The Dsaid platform would be considered as an 'OPAT'. Accordingly, for the purpose of determining the applicability of NAV, the time at which request for purchase / sale / switch of units is received on the server(s) of the said platform will be considered as time of receipt of transaction with the AMC. As per existing system architecture of ONDC network, currently regular plans of the schemes of ICICI Prudential Mutual Fund are available for transaction through this route. Kindly refer to below link for list of official points of acceptance, collecting banker details etc. SID related information (icicipruamc.com)
The policy regarding reissue of repurchased units, including the maximum extent, the manner of reissue, the entity (the Scheme or the AMC) involved in the same.	Not applicable
Restrictions, if any, on the right to freely retain or dispose of units being offered.	Subscription: In the interest of the investors and in order to protect the portfolio from market volatility, the Trustees reserve the right to limit or discontinue subscriptions under the Scheme for a specified period of time or till further notice. Redemption: Suspension or restriction of repurchase/redemption facility under any Scheme of the mutual fund shall be made applicable only after obtaining the approval from the Boards of Directors of the AMC and the Trustees. After obtaining the approval from the AMC Board and the Trustees, intimation would be sent to SEBI in advance providing details of circumstances and justification for the proposed action shall also be informed.
Cut off timing for subscriptions/ redemptions/ switches This is the time before which your application (complete in all	The below cut-off timings and applicability of NAV shall be applicable in respect of valid applications received at the Official Point(s) of Acceptance on a Business Day: For Purchase of any amount:

respects) should reach the official points of acceptance.

1. In respect of valid applications received upto 3.00 p.m. and where the funds for the entire xamount are available for utilization before the cut-off time i.e. 3.00 p.m. - the closing NAV of the day shall be applicable.
2. In respect of valid applications received after 3.00 p.m. and where the funds for the entire amount are available for utilization on the same day or before the cut-off time of the next business day - the closing NAV of the next Business Day shall be applicable
3. Irrespective of the time of receipt of application, where the funds for the entire amount are available for utilization before the cut-off time on any subsequent Business Day - the closing NAV of such subsequent Business Day shall be applicable.

For Switch-ins of any amount:

In case of switch from one scheme to another scheme received before cut-off i.e. upto 3 p.m. having business day for both the schemes, closing NAV of the Business Day shall be applicable for switch-out scheme and for Switch-in scheme, the closing NAV of the Business Day shall be applicable, on which funds are available for utilization in the switch-in scheme (allocation shall be in line with the redemption payout).

To clarify, for investments through systematic investment routes such as Systematic Investment Plans (SIP), Systematic Transfer Plans (STP), Flex STP, Capital Appreciation STP, IDCW Transfer, Trigger etc. the units will be allotted as per the closing NAV of the day on which the funds are available for utilization by the Target Scheme irrespective of the installment date of the SIP, STP or record date of IDCW etc.

- *“Switch Out” shall be treated as redemption application and accordingly, closing NAV of the day will be applicable based on the cut-off*

	time for redemption followed for various type of schemes. - “Switch In” shall be treated as purchase application and accordingly for unit allotment, closing NAV of the day will be applicable on which the funds are available for utilization. Redemptions including switch-outs: In respect of valid applications received upto 3.00 pm on a business day by the Mutual Fund, same day's closing NAV shall be applicable. In respect of valid applications received after the cut off time by the Mutual Fund: the closing NAV of the next business day. e.g.: If an investor submits redemption request at 2.00 pm on Monday, the same shall be processed at the closing NAV of Monday. If an investor submits redemption request at 3.30 pm on Monday, the same shall be processed at the closing NAV of Tuesday.
Minimum amount for purchase/redemption/switches	Rs. 5,000 (and in multiples of Re. 1). Minimum application amount for switch ins – Rs. 5,000 and any amount thereafter. For applications under systematic transactions, investors should refer to the details regarding the amount in the section ‘Special product/facility available on ongoing basis’ Minimum additional application Rs. 500 (& in multiples of Re. 1). Minimum additional application amount for switch ins – Rs. 500 and any amount thereafter. Minimum Redemption Amount: Any amount
Account Statements	The Consolidated Account Statement (CAS) for each calendar month will be issued on or before fifteenth day of succeeding month to the investors who have provided valid Permanent Account Number (PAN). Further, CAS will be sent via email where any of the folios consolidated has an email id or to the

	email id of the first unit holder as per KYC records. • For folios not included in the Consolidated Account Statement (CAS), the AMC shall henceforth issue account statement to the investors on a monthly basis, pursuant to any financial transaction in such folios on or before fifteenth day of succeeding month. • The AMC shall send an allotment confirmation specifying the units allotted by way of email and/or SMS within 5 Business Days of receipt of valid application/transaction to the Unit holders registered e-mail address and/ or mobile number. • In case of a specific request received from the unit holder, the AMC shall provide the account statement to the investors within 5 business days from the receipt of such request. • In the case of joint holding in a folio, the first named Unit holder shall receive the CAS/account statement. The holding pattern has to be same in all folios across Mutual Funds for CAS. Further, in case if no transaction has taken place in a folio during the period of six months ended September 30 and March 31, the CAS detailing the holdings across all Schemes of all mutual funds, shall be emailed at the registered email address of the unitholders on half yearly basis, on or before twenty first day of succeeding month, unless a specific request is made to receive the same in physical form. The asset management company shall issue units in dematerialized form to a unit holder in a scheme within two business days of the receipt of request from the unit holder. Each CAS issued to the investors shall also provide the total purchase value / cost of investment in each scheme.
--	--

	Further, CAS shall be issued for the half-year (September/ March). Such half-yearly CAS shall be issued to all MF investors, excluding those investors who do not have any holdings in MF schemes and where no commission against their investment has been paid to distributors, during the concerned half-year period. In case of the units are held in dematerialized (demat) form, the statement of holding of the beneficiary account holder will be sent by the respective Depository Participant periodically. The dispatch of CAS by the depositories would constitute compliance by the AMC/ the Mutual Fund with the requirement under Regulation 36(4) of SEBI (Mutual Funds) Regulations. The AMC reserves the right to furnish the account statement in addition to the CAS, if deemed fit in the interest of investor(s).
IDCW	The payment of IDCW to the unitholders shall be made within seven business days from the record date.
Redemption	The redemption or repurchase proceeds shall be dispatched to the unitholders within 3 business days from the date of redemption or repurchase. Further, AMFI has published a list of exceptional circumstances for schemes unable to transfer redemption or repurchase proceeds to investors within the limit specified above for transfer of redemption or repurchase proceeds to the unitholders in such exceptional circumstances. The said list is available on AMFI website.
Bank Mandate	<u>Bank Account Details:</u> As per the directives issued by SEBI, it is mandatory for applicants to mention their bank account numbers in their applications for purchase or redemption of Units. If the Unit-holder fails to provide the Bank mandate, the request for redemption would be considered as not valid and the Scheme retains the right to reject the redemption until a proper bank mandate is furnished by the Unit-holder and

	the provision with respect of penal interest in such cases will not be applicable. No bank account shall be registered in the investor account or subsequent addition or change in bank request unless a validation is undertaken whereby the investors name, account number/ details are verified <u>Bank Mandate Requirement</u> No bank account shall be registered in the investor account as part of account opening or subsequent addition or change of bank request unless a validation is undertaken through any one of the following modes whereby the investors name, account number /details are verified. In this regard, any one of the following documents needs to be submitted. 1. Original cancelled cheque having the First Holder Name and bank account number printed on the cheque. 2. Original bank statement reflecting the First Holder Name, Bank Account Number and Bank Name as specified in the application. 3. Self-certified cheque copy/bank passbook and verified with the original by AMC/ RTA. 4. Photocopy of the bank statement duly attested by the bank manager/ authorized personnel with designation, employee number and bank seal. 5. Confirmation by the bank manager with seal, designation and employee number on the bank's letter head confirming the name of investor, account type, bank branch, MICR and IFSC code of the bank branch. The letter should not be older than 3 months. In case the bank account details are not mentioned or found to be incomplete or invalid in a purchase application, then the AMC may consider the account details as appearing in the investment amount cheque and the same shall be updated under the folio as the payout bank account for the payment of redemption/IDCW amount etc.
--	--

	AMC reserves the right to validate the details through PAN based account validation facility provided by NCPI or Penny Drop facility. Where the bank mandate cannot be validated by any of the stated methods, the bank account validation may be done on the basis of the cheque leaf if it is available. If the bank account details cannot be validated, AMC reserves the right to reject the application and in case of redemption, the payout will be issued by way of warrant/cheque.
Delay in payment of redemption / repurchase proceeds/IDCW	The Asset Management Company shall be liable to pay interest to the unitholders at @ 15% per annum as specified vide paragraph 14.2 of Master Circular for the period of such delay.
Unclaimed Redemption and Income Distribution cum Capital Withdrawal Amount	The treatment of unclaimed redemption & IDCW amount will be as per paragraph 14.3 of the master circular.
Disclosure w.r.t investment by minors	A minor can invest through his/her parent/lawful guardian. Minors can complete their KYC requirements for their folio through guardian. Payment for investment by any mode shall be accepted from the bank account of the minor, parent or legal guardian of the minor with parent or legal guardian. For existing folios, the AMCs shall insist upon a Change of Payout Bank mandate before redemption is processed. For further details, please refer to SAI.

Ongoing Offer Period This is the date from which the scheme will reopen for subscriptions/redemptions after the closure of the NFO period.	The Scheme is an open ended scheme and hence is available for subscription and redemption on an ongoing basis on every business day at NAV based prices. The Units of the Scheme will not be listed on any exchange, for the present
Ongoing price for subscription (purchase)/switch-in (from other schemes/plans of the mutual fund) by investors. This is the price you need to pay for purchase/switch-in.	The purchase price of the Units will be based on the Applicable NAV subject to the applicable stamp duty. Purchase Price = Applicable NAV (for respective plan and option of the Scheme) (Example: An investor invests Rs 20,000/- and the current NAV is Rs. 20/- then the purchase price will be Rs. 20/- and the investor receives $20000/20 = 1000$ units. The Scheme shall not charge any entry load.
Nomination	The SEBI (Mutual Fund) Regulations notifies that the mutual fund shall provide nomination facility to the unit holders to nominate a person in whose favour the units shall be transmitted in the event of death of the unitholder. Any new investor, investing in Mutual Fund Units shall mandatorily have to provide nomination or Opt out of nomination through physical or online mode. The requirement of nomination shall be optional for jointly held folios. For detailed guidelines on Nomination please refer to SAI.

Acceptance of transactions through email in respect of Non-Individual investors	Application for financial transaction in the schemes of ICICI Prudential Mutual Fund from Non-Individual investors would be processed as per the following: a. The Investors are required to submit a copy of board resolution or an authority letter on their letterhead granting appropriate authority to the designated officials of the entity. b. The board resolution/authority letter shall explicitly mention the following: i. List of approved authorized officials who are authorized to transact on behalf of Investors along with their designation and email IDs. ii. An undertaking that the instructions for any financial transactions sent by email by the authorized officials shall be binding upon the Investor as if it were a written agreement. c. In case the document is submitted electronically with a valid Digital Signature Certificate (DSC) or through Aadhaar based e-signature by the authorized official/s shall be considered as valid and acceptable, and shall be binding on the Investor even if the transaction request is not received from the registered email id. of the authorized official/s. However, in such cases, the domain name of the email ID should be from the same organization's official domain name. d. In addition to acceptance of financial transaction via email, scanned copy of duly signed transaction form/request letter bearing wet signatures of the authorized signatories of the entity, received from some other official / employee of the Investor may also be accepted, and shall be binding on the non-individual investor provided –
---	--

	i. The email is also cc'd (copied) to the registered email ID of the authorized official/ signatory of the Investor; and ii. the domain name of the email ID of the sender of the email is from the same organization's official domain name. e. In addition to acceptance of financial transactions via email, scanned copies of signed transaction form /request letters bearing wet signatures of the authorized signatories of the Investor, received from the registered mutual fund distributor (MFD) of the Investor or a third party authorized by the non-individual unitholder may also be accepted subject to fulfilment of the following requirements: i. Authorization letter from the Investor authorizing the MFD/person to send the scanned copies of signed transaction form/request letter on behalf the Investor and ii. the Investor's registered email ID is also cc'd (copied) in the email sent by the authorized MFD/person sending the scanned copies of the duly signed transaction form/request letter. For more details, please refer SAI.

KYC rules for investors:	All the prospective and existing investors / Unit holders of the Fund are requested to note that, pursuant to SEBI Master Circular on Know Your Client (KYC) norms for the securities market dated October 12, 2023 regarding uniformity in KYC process in the securities market and development of a mechanism for centralization of the KYC records, the following KYC procedure is being carried out: A) Requirement of PAN: • In order to strengthen the KYC norms and identify every participant in the securities market with their respective PAN thereby ensuring sound audit trail of all the transactions, PAN shall be the unique identification number for all participants transacting in the securities market, irrespective of the amount of transaction • The following are exempted from the mandatory requirement of PAN: a. Transactions undertaken on behalf of Central Government and/or State Government and by officials appointed by Courts e.g. Official liquidator, Court receiver etc. (under the category of Government) for transacting in the securities market. b. Investors residing in the state of Sikkim. c. UN entities/multilateral agencies exempt from paying taxes/filing tax returns in India. d. SIP of Mutual Funds upto ₹50,000/- per year. • Exempted investors are required to provide alternate proof of identity in lieu of PAN for KYC purposes and are allotted PAN-exempt KYC Reference Number (PEKRN). B) List of Officially Valid Documents (OVDs): The aforesaid circular specifies list of documents considered as Officially Valid Documents for Proof of Identity (PoI) and Proof of Address (POA). The investor shall visit the www.icicipruamc.com of the Mutual fund and go on KYC Corner
--	--

	section which will have FAQs providing required details. C) <u>Methods for completing KYC process and know your KYC status:</u> <u>Physical KYC process:</u> - To bring uniformity in KYC process, SEBI has introduced a common KYC application form for all the SEBI registered intermediaries viz. Mutual Funds, Depository Participants, Stock Brokers, etc. are therefore requested to use the Common KYC application form to apply for KYC and mandatorily undergo - In Person Verification (IPV) requirements. For Common KYC Application Form please visit our website www.icicipruamc.com <u>Digital KYC process:</u> - The investor shall visit the www.icicipruamc.com of the Mutual fund and go on new investor section and fill up the required details and online KYC form and submit requisite documents. Digital KYC process will be in accordance with SEBI Master circular of KYC dated October 12, 2023. <u>Review of KYC status by existing investors:</u> The investor shall visit the www.icicipruamc.com of the Mutual fund and go on KYC Corner in Quick link section and fill up the required details to check their KYC status. Further, if investors wish to modify its KYC status, the same can also be done from that section of the website.
Any other disclosure in terms of Consolidated Checklist on Standard Observations	Investment by the AMC: From time to time and subject to the SEBI (Mutual Funds) Regulations, 1996, the sponsors, the mutual funds and investment Companies managed by them, their associate companies, subsidiaries of the sponsors and the AMC may invest in either directly or indirectly in the Scheme. Such investments would be in accordance with paragraph 6.9 of the Master Circular.

	Further, as per the SEBI (Mutual Funds) Regulations, 1996, in case the AMC invests in any of the Scheme managed by it, it shall not be entitled to charge any fees on such investments. The Scheme may invest in other Scheme managed by the AMC or in the Scheme of any other Mutual Funds, provided it is in conformity to the investment objectives of the Scheme and in terms of the prevailing SEBI (Mutual Funds) Regulations, 1996 and guidelines. As per the SEBI (Mutual Funds) Regulations, 1996, no investment management fees will be charged for such investments.

However there can be no assurance or guarantee that the investment objective of the scheme would be achieved.

Investment Strategies of Underlying Funds:

- ICICI Prudential Focused Equity Fund

The Scheme shall follow an active investment strategy.

Equities

The Scheme aims to generate capital appreciation by investing in a concentrated portfolio of equity and equity related securities of up to 30 companies across market capitalization i.e. multicap.

The Scheme intends to invest in equity and equity-related securities and/or equity Schemes of companies across capitalization. The focus will be to identify out performers on absolute basis in the market over medium- to long-term, periods of time.

Key to the fund manager's investment strategy is the identification of triggers for potential appreciation of stocks in the universe over medium term time frame.

Fundamental analysis of triggers for stock price performance would include the following financial metrics, this is an indicative but not an exhaustive list.

- Discounted cash flow
- Cash Flow Return on Investment
- Return on Invested Capital relative to the Weighted Average Cost of Capital
- Price/Book value

- **Earnings Yield**

Apart from such fundamentals the Fund managers would also strive to identify the potential impact of changes in share-holding patterns, liquidity and similar short term triggers to share price movements.

The process for selection comprises the following elements.

Selection criteria:

The fund manager's core philosophy for stock selection would be to assess how much a company is worth, that is, its intrinsic value.

Business model:

Companies must have business models that are able to sustain earnings growth independent of the stage reached in the economic cycle. Business models must also be tangible and comprehensible, allowing in-depth analysis of companies' future earnings capability.

Financial strength:

In addition to the criteria above, a healthy financial position is essential, as evidenced by a strong balance sheet, high-quality sustainable cashflow and preferably lack of leverage.

Management ability:

Management is regarded as the guardians of a company's assets, responsible for optimizing their use on behalf of shareholders. Qualities sought in management are appropriate experience, stability and proven ability to succeed. Adherence to strict standards of corporate governance is also essential to demonstrate that management is working fully in the interests of shareholders.

Valuation:

Investment ideas will be subjected to full valuation analysis to assess their suitability for the Scheme. The Investment team shall compare the cashflows and returns on capital generated by a company with the market's expectations as implied by the current share price. The fund manager will also focus on the value of a company's asset base relative to the value attributed to those assets by the market.

Bottom-up stock picking

Portfolio construction will be undertaken purely on a bottomup basis - the fund manager will select stocks on their own merits. The fund manager will endeavor to generate out performance over the benchmark index by being overweight or underweight certain stocks.

The Scheme may also invest a part of its corpus in overseas markets in Global Depository Receipts (GDRs), ADRs, overseas equity, bonds and mutual funds and such other instruments as may be allowed under the Regulations from time to time.

The Scheme may engage in Stock Lending activities.

The Scheme may invest in derivatives such as Futures & Options and such other derivative instruments like Stock/ Index Futures, Interest Rate Swaps, Forward Rate Agreements or such other derivative instruments as may be introduced and permitted by SEBI from time to time. The Scheme may invest in derivative for the purpose of hedging, portfolio balancing and other purposes as may be permitted under the Regulations. Hedging using Interest Rate Futures could be perfect or imperfect, subject to applicable regulations.

Fixed Income securities

The Scheme may also invest in Debt and Money Market Securities/Instruments (Money Market securities include cash and cash equivalents). The Scheme aims to identify securities which offer optimal level of yields/returns, considering risk-reward ratio. With the aim of controlling risks rigorous in depth credit evaluation of the securities proposed to be invested in will be carried out by the Risk Management Team of the AMC. The credit evaluation includes a study of the operating environment of the issuer, the short as well as long-term financial health of the issuer. Rated debt instruments in which the Scheme invests will be of investment grade as rated by a credit rating agency. The AMC may consider the ratings of such Rating Agencies as approved by SEBI to carry out the functioning of rating agencies. The Scheme may invest in securitised debt.

In addition, the investment team of the AMC will study the macro economic conditions, including the political, economic environment and factors affecting liquidity and interest rates. The AMC would use this analysis to attempt to predict the likely direction of interest rates and position the portfolio appropriately to take advantage of the same.

Further, the Scheme may invest in other schemes managed by the AMC or in the schemes of any other Mutual Funds in terms of the prevailing Regulations. As per the Regulations, no investment management fees will be charged for such investments.

For the present, the Scheme does not intend to enter into underwriting obligations. However, if the Scheme does enter into an underwriting agreement, it would do so after complying with the Regulations and with the prior approval of the Board of the AMC/Trustee.

The scheme may undertake repo transactions in corporate debt securities in accordance with the directions issued by RBI and SEBI from time to time. Such investment shall be made subject to the guidelines which may be prescribed.

For detailed derivatives strategies and illustrations, please refer to SAI.

- **ICICI Prudential Bharat Consumption Fund**

India has over one billion in population. And it is set to reap what is now famously called the demographic dividend; its working age population being larger than the population

that is dependent on it. India's 65% population is below 35 years of age (Census 2011). With Western Europe, the US, South Korea, Japan and even China's aging population, India could reap the reward of demographic dividend. IMF, in its earlier report, stated that India could add a significant pace to its GDP growth rate due to demographic dividend.

Global corporations view India as one of the key markets from where future growth is likely to emerge. The growth in India's consumer market would be primarily driven by a favourable population composition and increasing disposable incomes.

India's robust economic growth and rising household incomes are expected to increase consumer spending in the coming years. India is expected to see substantial growth in the consumer durables market globally. Demand growth is likely to accelerate with rising disposable incomes and easy access to credit. Increasing electrification of rural areas and wide usability of online sales would also aid growth in demand.

ICICI Prudential Bharat Consumption Fund will aim to capture this change in spending pattern.

The Scheme intends to invest predominantly in Equities and Equity Related Securities of companies that are likely to benefit directly or indirectly from consumption and related activities or allied sectors. These companies may directly or indirectly benefit from increase in consumption led demand. The scheme follows an active investment strategy. The Scheme may invest in units issued by REITs & InvITs.

Indicative list of sectors/industry falling under consumption and consumption related activities are as follows:

- Automobile including auto components companies,
- Consumer Goods including consumer durables, consumer non-durables, retailing etc.
- Energy,
- Healthcare Services,
- Media & Entertainment,
- Pharma,
- Services such as Commercial and Engineering Services, Hotels Resorts and Recreational Activities, Transportation, Trading etc.
- Telecom,
- Textiles

Please note that the above list is indicative and the Fund Manager may add such other sector/industries which satisfy the consumption theme. The Fund Manager may also add other sectors as may be added in Nifty Consumption Index from time to time.

The Scheme will predominantly invest in companies, which, in the opinion of the Fund Manager, offer an attractive investment opportunity to participate in the growth of the Consumption sector.

The scheme can also invest in equity & equity related securities of other companies.

The scheme will follow a blend approach, a combination of value and growth, to build the portfolio. The scheme intends to invest in stocks across large cap, midcap and small cap.

The Scheme may use derivative instruments like Stock / Index Futures or Options, Interest Rate Swaps, Interest Rate Futures, Forward Rate Agreements or other instruments for the purpose of hedging, portfolio balancing and other purposes, as permitted under the Regulations. Hedging using Interest Rate Futures could be perfect or imperfect, subject to applicable regulations. Usage of derivatives may expose the Scheme to certain risks inherent to such derivatives.

The Scheme may invest in other schemes managed by the AMC or in the schemes of any other Mutual Funds, provided it is in conformity with the investment objective of the Scheme and in terms of the prevailing Regulations. As per the Regulations, no investment management fees will be charged for such investments. As per the SEBI Regulations, such inter scheme investments shall not exceed 5% of the Net Asset Value of the Fund.

At present, the Scheme does not intend to enter into underwriting obligations. However, if the Scheme does enter into an underwriting agreement, it would do so after complying with the Regulations and with the prior approval of the Board of the AMC/Trustee.

The Scheme may also invest in depository receipts including American Depository Receipts (ADRs), Global Depository Receipts (GDRs) and foreign securities.

The Scheme may invest in derivatives to engage in permitted currency hedging transactions with an intention to reduce exchange rate fluctuations between the currency of the Scheme (INR) and the foreign currency exposure.

Fixed Income securities

The Scheme can also invest in Debt and Money Market Securities/Instruments (Money Market securities include cash and cash equivalents). The Scheme aims to identify securities which offer optimal level of yields/returns, considering risk-reward ratio. With the aim of controlling risks rigorous in depth credit evaluation of the securities proposed to be invested in will be carried out by the Risk Management Team of the AMC. The credit evaluation includes a study of the operating environment of the issuer, the short as well as long-term financial health of the issuer. Rated debt instruments in which the Scheme invests will be of investment grade as rated by a credit rating agency. The AMC may consider the ratings of such Rating Agencies as approved by SEBI to carry out the functioning of rating agencies. The Scheme may invest in securitised debt.

In addition, the investment team of the AMC will study the macro economic conditions, including the political, economic environment and factors affecting liquidity and interest rates. The AMC would use this analysis to attempt to predict the likely direction of interest rates and position the portfolio appropriately to take advantage of the same.

Further, the Scheme may invest in other schemes managed by the AMC or in the schemes of any other Mutual Funds in terms of the prevailing Regulations. As per the Regulations, no investment management fees will be charged for such investments.

For the present, the Scheme does not intend to enter into underwriting obligations. However, if the Scheme does enter into an underwriting agreement, it would do so after complying with the Regulations and with the prior approval of the Board of the AMC/Trustee.

The scheme may refer to certain in-house models which would be based on various prevailing broad market parameters which would be dynamic in nature. The same may be referred by the fund manager as required from time to time.

- **ICICI Prudential Exports and Services Fund**

The Scheme is an open-ended equity Scheme investing predominantly in the stocks of companies engaged in exports (companies which generate revenue of more than 50% from exports) and the Scheme shall also invest in service sector companies (companies which generates revenue of more than 50% from services sector). The scheme follows an active investment strategy.

Services are intangible commodities which add value to the person or to the products e.g. doing something for someone or providing some value addition. A service provider meets someone else's need and satisfies the other person's wants. Service sector alternatively may be defined as a group of service providing industries. The services sector is well diversified and comprises of many different sub sectors such as Information Technology, IT enabled services, Aviation, Trade and Retail, Tourism and Hotels, Transportation, Distribution and Logistics, Construction, Consultancy, Telecom, Communications, Media and Entertainment, Education and Training, Hospitals and Health Services, Insurance, Auto components, Garment accessories, Power generation, Transmission and Equipment, shipping, Banking and Financial Services.

Please note that the above list is indicative and the Fund Manager may add such other sector/industries which satisfy the service sector theme.

The Indian Service sector is well diversified, and offers adequate liquidity for investment. India, with its large pool of trained manpower. The increasing income levels of the Indian population have resulted in a higher proportion of income being spent on services. Many segments of the service sector are globally competitive and cater to the global market. Thus, investment in service sector provides opportunity for growth with diversification.

The Scheme may also invest in companies other than those engaged in Exports or services theme.

The Fund Manager will be adopting a combination of the top down approach and bottom up stock selection approach. From a top down perspective, the focus will be on an analysis of changing factors in the economy, trends, policy changes, etc. From "Bottom Up" perspective, the Scheme will concentrate on business and economic fundamentals for strong stock selection, seeking to identify companies with high profitability and scalability supported by sustainable competitive advantages.

These companies will have a long-term growth prospect and will be measured on price-to-earnings ratios and earnings power.

The Scheme may also invest a part of its corpus in overseas markets in Global Depository Receipts (GDRs), ADRs, overseas equity, bonds and mutual funds and such other instruments as may be allowed under the Regulations from time to time, including securities issued by companies belonging to Exports & Services industry.

The Scheme may engage in Stock Lending activities.

The Scheme may invest in derivatives such as Futures & Options and such other derivative instruments like Stock/ Index Futures, Interest Rate Swaps, Forward Rate Agreements or such other derivative instruments as may be introduced and permitted by SEBI from time to time. The Scheme may invest in derivative for the purpose of hedging, portfolio balancing and other purposes as may be permitted under the Regulations. Hedging using Interest Rate Futures could be perfect or imperfect, subject to applicable regulations.

Fixed Income securities

The Scheme may also invest in Debt and Money Market Securities/Instruments (Money Market securities include cash and cash equivalents). The Scheme aims to identify securities which offer optimal level of yields/returns, considering risk-reward ratio. With the aim of controlling risks rigorous in depth credit evaluation of the securities proposed to be invested in will be carried out by the Risk Management Team of the AMC. The credit evaluation includes a study of the operating environment of the issuer, the short as well as long-term financial health of the issuer. Rated debt instruments in which the Scheme invests will be of investment grade as rated by a credit rating agency. The AMC may consider the ratings of such Rating Agencies as approved by SEBI to carry out the functioning of rating agencies. The Scheme may invest in securitised debt.

In addition, the investment team of the AMC will study the macro economic conditions, including the political, economic environment and factors affecting liquidity and interest rates. The AMC would use this analysis to attempt to predict the likely direction of interest rates and position the portfolio appropriately to take advantage of the same.

The scheme may undertake repo transactions in corporate debt securities in accordance with the directions issued by RBI and SEBI from time to time. Such investment shall be made subject to the guidelines which may be prescribed.

Further, the Scheme may invest in other schemes managed by the AMC or in the schemes of any other Mutual Funds in terms of the prevailing Regulations. As per the Regulations, no investment management fees will be charged for such investments.

For the present, the Scheme does not intend to enter into underwriting obligations. However, if the Scheme does enter into an underwriting agreement, it would do so after complying with the Regulations and with the prior approval of the Board of the AMC/Trustee.

The scheme may refer to certain in-house models which would be based on various prevailing broad market parameters which would be dynamic in nature. The same may

be referred by the fund manager as required from time to time.

For detailed derivatives strategies and illustrations, please refer to SAI.

- **ICICI Prudential Technology Fund**

The primary investment objective of the Scheme is to seek to generate long-term capital appreciation by creating a portfolio that shall predominantly invest in equity and equity related securities of technology and technology dependent companies. Further, the Scheme shall follow an active investment strategy

The Scheme would opportunistically also invest in companies forming part of Information Technology Services Products, Technology based Online Market Places, Technology Focused Financial (FINTECH).

Indicative list of businesses which are part of Technology sector is as follows:

- IT services, consulting and outsourcing companies
- IT hardware and/or software companies
- IT infrastructure providers like data centres, leased line providers etc.
- Fin tech companies
- Internet companies
- Digital service providers
- Telecom, telecom application, telecom software & other infrastructure providers
- Media, media infrastructure, media content
- Data and data solutions providers

Please note that the list is indicative and the Fund Manager may add such other businesses which fall part of Technology sector.

The Scheme also intends to invest small portion of net asset in companies other than those engaged in Technology or Technology dependent sector.

The Scheme may also invest a part of its corpus in overseas markets in Global Depository Receipts (GDRs), ADRs, overseas equity, bonds and mutual funds and such other instruments as may be allowed under the Regulations from time to time, including securities issued by companies forming part of technology and technology related sectors.

The Scheme may engage in Stock Lending activities.

The Scheme may invest in derivatives such as Futures & Options and such other derivative instruments like Stock/ Index Futures, Interest Rate Swaps, Forward Rate Agreements or such other derivative instruments as may be introduced and permitted by SEBI from time to time. The Scheme may invest in derivative for the purpose of hedging, portfolio balancing and other purposes as may be permitted under the Regulations. Hedging using Interest Rate Futures could be perfect or imperfect, subject to applicable regulations.

The scheme may refer to certain in-house models which would be based on various prevailing broad market parameters and would be dynamic in nature. The same may be referred by the fund manager as required from time to time.

Fixed Income securities

The Scheme may also invest in Debt and Money Market Securities/Instruments (Money Market securities include cash and cash equivalents). The Scheme aims to identify securities which offer optimal level of yields/returns, considering risk-reward ratio. With the aim of controlling risks rigorous in depth credit evaluation of the securities proposed to be invested in will be carried out by the Risk Management Team of the AMC. The credit evaluation includes a study of the operating environment of the issuer, the short as well as long-term financial health of the issuer. Rated debt instruments in which the Scheme invests will be of investment grade as rated by a credit rating agency. The AMC may consider the ratings of such Rating Agencies as approved by SEBI to carry out the functioning of rating agencies. The Scheme may invest in securitised debt.

In addition, the investment team of the AMC will study the macro economic conditions, including the political, economic environment and factors affecting liquidity and interest rates. The AMC would use this analysis to attempt to predict the likely direction of interest rates and position the portfolio appropriately to take advantage of the same.

Further, the Scheme may invest in other schemes managed by the AMC or in the schemes of any other Mutual Funds in terms of the prevailing Regulations. As per the Regulations, no investment management fees will be charged for such investments.

For the present, the Scheme does not intend to enter into underwriting obligations. However, if the Scheme does enter into an underwriting agreement, it would do so after complying with the Regulations and with the prior approval of the Board of the AMC/Trustee.

The Scheme may undertake repo transactions in corporate debt securities in accordance with the directions issued by RBI and SEBI from time to time. Such investment shall be made subject to the guidelines which may be prescribed.

For detailed derivatives strategies and illustrations, please refer to SAI.

• ICICI Prudential Quant Fund

The Scheme shall follow an active investment strategy. The Scheme shall predominantly invest in equity and equity related securities selected based on the Quantitative Model. The Scheme will consider various quantitative parameters while constructing the portfolio. The stock selection and portfolio construct of the Scheme under quant model will be based on following strategy:

1. Universe:

The universe for stock selection is from the benchmark universe.

2. Stock Selection:

a. Negative screening:

Companies may be excluded from investable universe based on certain standard exclusions (negative list stocks), broadly comprising of companies with poor corporate governance standards, liquidity constraints, high default risk, etc.

b. Parameters considered

Quantitative model will be used for screening the stocks i.e. to make the stock selection. One of the popular models of quant portfolio construction is using factor portfolios, which is detailed below through some example parameters. In the factor portfolio construction method, the stock level exposures can be measured by combination of any of the below mentioned parameters (Historical or Estimates).

The list of parameters considered for stock screening/selection is highlighted below (this is not an exhaustive list and the fund manager may add or delete any factor(s)):

- Price to Book
- Price to Earnings
- Return on Equity
- Dividend yield
- Earnings per share change
- Interest Coverage Ratio
- Analyst Ratings
- Return on Invested Capital
- Return on Assets

3. Assigning Stock Weight and Portfolio Construction

Based on the stock screening/selection process, an investable universe is arrived. The Scheme shall invest in approximately 30-60 stocks from the universe of the benchmark index. In order to provide diversification benefit, the stock level cap of 10% and sector level cap of 30% shall be maintained in the portfolio.

During the portfolio construction phase or post creation of portfolio, if any of the following scenarios or any other specific event occurs in a stock that has direct negative impact on the performance, the fund manager shall exclude the stock from the portfolio during construction phase or by rebalancing the existing portfolio.

- Any negative news of corporate action, including but not limited to Merger/Acquisition, Demerger, Delisting, Takeover, etc.,
 - Any negative/adverse news not captured by the Quant model pertaining to the stock and/or overall economy/sector,
 - Any negative/adverse movement in issue level ratings not limited to (i) more than two level downgrade (ii) downgrade to non-investment grade or default status,
 - Any negative news of change in management for instance, changes to the composition of the Board of Directors, changes in key personnel, etc.,
 - Any negative news which is notified on the stock exchange, for instance, Stepping down of auditors, Earnings revision, adverse outcomes of pending litigations, etc.
- (Human intervention will be only to the extent of removing securities with negative news)

4. Review and Rebalance:

a. Quantitative Model

The fund manager will review and maintain the model (including variables) on an ongoing basis and make changes as necessary. The same will be reviewed periodically by the Fund Manager & CIO of the AMC.

b. Portfolio Rebalance

i. Rebalancing of asset allocation pattern

In the event of any deviation from the asset allocation stated pattern, the portfolio shall be rebalanced within 30 days from the date of such deviation. If owing to adverse market conditions or with the view to protect the interest of the investors, the fund manager is not able to rebalance the asset allocation within the above mentioned period of 30 days, the same shall be reported to the Internal Investment Committee (i.e. Executive Equity Investment Committee) and reasons for the same shall be recorded in writing. The internal investment committee (i.e. Executive Equity Investment Committee) shall then decide on the future course of action.

ii. Rebalancing as per quantitative model

The portfolio of the Scheme shall be reviewed monthly and rebalanced by the Fund Manager on monthly basis based on the output of the model.

iii. Ad-hoc Rebalancing

There are various scenarios which might demand ad-hoc rebalancing of the model and its constituents in the portfolio. Illustrative list of such scenario is as under:

- a) Any corporate actions including but not limited to Merger & Acquisition, demerger, corporate restructuring, delisting, hostile takeovers among the portfolio constituents
- b) Adverse movement in Issuer level ratings including but not limited to (i) more than two level downgrade (ii) downgrade to non-investment grade or default status
- c) Adverse news-flow including but not limited to misstatement of reported financial information, emergence of new problems of corporate governance, auditor issues, etc.
- d) Notification to exchanges about significant changes to the composition of the Board of Directors, Stepping down of auditors, Earnings revision, adverse outcomes of pending litigations.

The Fund Manager shall review any such aforesaid development and may rebalance as deemed fit considering the best interests of the Investors.

The Scheme may also use various derivatives instruments (which may be towards hedging, portfolio rebalancing or as permitted by SEBI from time to time) and hedging products from time to time, utilize SLB opportunities as would be available and permitted by SEBI, in an attempt to protect the value of the portfolio and enhance unit holders' interest.

For investment in “Other Equity and Equity related instruments (0-20% of total assets)”, the Scheme may also invest in equity and equity related instruments which are not a part of quantitative model, whether forming part of benchmark or not.

Further, the Scheme may invest in other schemes managed by the AMC or in the schemes of any other Mutual Funds in terms of the prevailing Regulations.

Fixed Income securities

The Scheme may also invest in Debt and Money Market Securities/Instruments. The Scheme aims to identify securities which offer optimal level of yields/returns, considering risk-reward ratio. With the aim of controlling risks rigorous in depth credit evaluation of the securities proposed to be invested in will be carried out by the Risk Management Team of the AMC. The credit evaluation includes a study of the operating environment of the issuer, the short as well as long-term financial health of the issuer. Rated debt instruments in which the Scheme invests will be of investment grade as rated by a credit rating agency. The AMC may also consider the ratings of such Rating Agencies as approved by SEBI to carry out the functioning of rating agencies.

In addition, the investment team of the AMC will study the macro economic conditions, including the political, economic environment and factors affecting liquidity and interest rates. The AMC would use this analysis to attempt to predict the likely direction of interest rates and position the portfolio appropriately to take advantage of the same.

The Scheme may use derivative instruments like Interest Rate Swaps, Interest Rate Futures, Forward Rate Agreements Stock / Index Futures or Options or other instruments for the purpose of hedging, portfolio balancing and other purposes, as permitted under the Regulations. Hedging using Interest Rate Futures could be perfect or imperfect, subject to applicable regulations. Usage of derivatives may expose the Scheme to certain risks inherent to such derivatives. It may also invest in securitized debt.

For detailed derivatives strategies and illustrations, please refer to SAI.

- **ICICI Prudential FMCG Fund**

The Scheme is an open ended Equity Scheme predominantly investing in equity & equity related securities forming part of FMCG sector. Further, the Scheme shall follow an active investment strategy.

Equities

Fast Moving Consumer Goods (FMCG) are products that are typically purchased and used/consumed on a regular basis or at frequent intervals. The market potential for Fast Moving Consumer Goods in India is large given that it has a large population. Favourable demographics and rise in income level could further boost FMCG market. Thus, it provides an opportunity for the scheme to benefit from investing in FMCG companies.

Growth of FMCG sector in India

Growing Demand: Rising incomes and growing youth population have been key growth

drivers of the sector. Brand consciousness has also aided demand. Tier II/III cities are witnessing faster growth in modern trade.

Attractive Opportunities: Low penetration levels in rural market offers room for growth. Disposable income in rural India has increased due to the direct cash transfer scheme. Exports is another growing segment. E-commerce companies are strengthening their business in FMCG sector, by positioning their platform pantry as front line offering to drive daily products sales.

Indicative list of segments which are part of FMCG sector is as follows:

- Food, snacks and food retail
- Beverage, juices, alcohol and other ancillary companies
- Personal care
- Over the counter supplements and hygiene products
- Apparel, footwear, bags, innerwear, etc
- Grocery stores, departmental stores, hypermarkets and retailers of various kinds
- Frequently used and purchased items such as stationary, batteries, etc.
- FMCG ancillaries such as raw material suppliers, distributors, packaging firms etc.

Please note that the list is indicative and the Fund Manager may add such other businesses which satisfy the FMCG sector.

The Scheme may invest in companies other than those engaged in FMCG sector.

The stocks may be at any levels of market capitalisation.

The Scheme may also invest a part of its corpus in overseas markets in Global Depository Receipts (GDRs), ADRs, overseas equity, bonds and mutual funds and such other instruments as may be allowed under the Regulations from time to time, including securities issued by companies forming part of FMCG sector.

The Scheme may engage in Stock Lending activities.

The Scheme may invest in derivatives such as Futures & Options and such other derivative instruments like Stock/ Index Futures, Interest Rate Swaps, Forward Rate Agreements or such other derivative instruments as may be introduced and permitted by SEBI from time to time. The Scheme may invest in derivative for the purpose of hedging, portfolio balancing and other purposes as may be permitted under the Regulations. Hedging using Interest Rate Futures could be perfect or imperfect, subject to applicable regulations.

The scheme may refer to certain in-house models which would be based on various prevailing broad market parameters which would be dynamic in nature. The same may be referred by the fund manager as required from time to time.

Fixed Income securities

The Scheme may also invest in Debt and Money Market Securities/Instruments (Money Market securities include cash and cash equivalents). The Scheme aims to identify securities which offer optimal level of yields/returns, considering risk-reward ratio. With

the aim of controlling risks rigorous in depth credit evaluation of the securities proposed to be invested in will be carried out by the Risk Management Team of the AMC. The credit evaluation includes a study of the operating environment of the issuer, the short as well as long-term financial health of the issuer. Rated debt instruments in which the Scheme invests will be of investment grade as rated by a credit rating agency. The AMC may consider the ratings of such Rating Agencies as approved by SEBI to carry out the functioning of rating agencies. The Scheme may invest in securitised debt.

In addition, the investment team of the AMC will study the macro economic conditions, including the political, economic environment and factors affecting liquidity and interest rates. The AMC would use this analysis to attempt to predict the likely direction of interest rates and position the portfolio appropriately to take advantage of the same.

Further, the Scheme may invest in other schemes managed by the AMC or in the schemes of any other Mutual Funds in terms of the prevailing Regulations. As per the Regulations, no investment management fees will be charged for such investments.

For the present, the Scheme does not intend to enter into underwriting obligations. However, if the Scheme does enter into an underwriting agreement, it would do so after complying with the Regulations and with the prior approval of the Board of the AMC/Trustee.

For detailed derivatives strategies and illustrations, please refer to SAI.

- **ICICI Prudential Innovation Fund**

The Scheme is an open ended fund, predominantly investing in companies that are adopting innovation strategies and themes. The Scheme shall have a diversified portfolio across marketcap and certain portion can also be invested in ADR/GDR, foreign equity securities (including companies following adoptive innovation and disruption strategies), units/shares of global mutual fund/ ETFs, which can benefit from innovation strategies and theme. The Scheme shall follow an active investment strategy.

Innovation is anything that proposes an alternative to existing product or service or solutions offered by existing or new company or introduction of new products, services or solutions. The broad intent for product, services or solutions related innovation is to bring economic benefit and bring in change that is sustainable & evolving. Broadly, there are three major types of innovation: Radical Innovation, Disruptive Innovation & Incremental Innovation.

- **Radical Innovation:** Transforming the business model that seeks to completely demolish and replace an existing industry or create a whole new industry. It takes an existing system, design or invention and turns it into something brand new.
- **Disruptive Innovation:** An innovation strategy adopted by new or existing companies to make more affordable products and offer affordable services. These strategies are typically created for large customer base/needs.
- **Incremental Innovation:** A series of improvement or upgrades made by company to existing products, services, process or methodology.

Innovation may be a lengthy process, and involve lots of research and time before new products, services or processes are rolled out. Further, benefit arising from such innovation can also be observed over long term. The Scheme proposes to invest in the companies which are:

- i. at the initial, research and/or development stage of a product, service or process or solutions;
- ii. at pre-launch, testing, experimental stage of a product, services and process or solutions;
- iii. Launch/Post-launch stage, of the product, services, process or solutions which can be at early stage of their life cycle and/or is still moving above the life cycle curve

Investment Approach & Universe

The Scheme is a thematic open ended scheme predominantly investing in companies involved in product/services/solution related innovation. The investment universe for the Scheme shall be companies and sectors forming part of Nifty 500 Index and can invest in to be listed companies involved in product/services/solutions related innovation. The Scheme shall have a diversified portfolio across marketcap and certain portion can also be invested in ADR/GDR, foreign equity securities (including companies involved in product/services related in innovation), units/shares of global mutual fund/ ETFs which can benefit from the innovation strategies and theme.

The Fund Manager shall follow bottom up stock selection approach. There are multiple companies/businesses that are moving towards Radical innovation i.e. non-traditional business models, different from the existing mature business set up or adding new lines of business. In order to provide cost efficient product and services, companies are adopting Disruptive innovation strategies. Companies with an intent to improve existing product/services are moving towards Incremental Innovation by adding to their current line of business.

The key objective of innovation is to improve productivity, reduce cost, increase competitive edge, improve/sustain brand value, acquire new client or new partnership & overall increase turnover and profitability of the company. The Scheme may also invest in companies which assist in providing or development of new products, services or solutions to other businesses.

The Scheme may also invest in companies that shall derive benefits from innovation. The Scheme shall identify the stock based on any of the following parameters. Following are the indicative parameters & broad universe for identification.

Broad identification of companies	Parameters for	Desired Outcome for the Company	Broad Sector Universe
-----------------------------------	----------------	---------------------------------	-----------------------

- Existing or new company utilizing new technology and/or process - Companies which provides technology services/consultation/industrial products and services which enable digital or industrial transformation for their clients	To create large value for customers, government, society by way of either time savings, cost savings, enable better engagement or make them more productive or process efficient	Technology Services & Industrial Automation
Companies launching products, services or solutions which can be completely new or can be an improvement of existing products, services or solutions.	To offer new value propositions to their existing clients & attract new clients	- Retail companies upgrading from the traditional physical model towards e-commerce based home delivery model - HFC / NBFCs using innovative, technology-led or evolved lending models - Banks using digital platform/mediums to acquire, retain, and service their customers - Consumer facing companies focusing on new product launches in FMCG, consumer electrical space, etc.
Improvement in capital structure and availability of additional funds for research and development and reducing overall cost of production.	To provide new age and cost efficient product and services, to enable overall reduction in cost of production of end product or service cost to the final consumer	- Pharma companies with R&D focus on global specialty, biosimilars, US generic, etc. - Hospital companies investing in new age robotics technology, and other innovative health service delivery models, etc.
Create or utilizing patents, processes or products that can challenge the business of their competitors or develop new process to manufacture products	Intent to provide better product to suppliers/ customers	Specialty chemicals & agro chemicals.
Reinvent distribution strategies/networks. Eg. leveraging internet based	Digital disruption	Online Businesses may or may not having brick and mortar stores.

platforms for business advantage		
• Challenge or change the current market trends, displace established market leaders, or bring in novel business models	Creating simpler products and services compared to existing ones which is likely to change the market trends.	• Auto and battery companies focusing on EV related products and components • Power companies investing in non-thermal renewable energy sources • Media companies creating OTT platforms
• Companies engaged in reverse engineering, low cost engineering and reverse innovation	Companies manufacturing global products at cheaper costs by using different, modified processes in production	• Agro Chemical companies, chemical companies
• Companies spending on capital expenditure for providing telecommunication services	Companies spending on providing new age telecommunication services like 5G, enabling better and faster access to internet to users at cheaper price	• Telecom and internet service provider companies

Innovation being dynamic in nature, the parameters mentioned above are indicative, non-exhaustive and can be used inter-se.

Similar, the Scheme can also invest in units of global mutual funds/ ETFs following the innovation theme. Further, the scheme can invest upto 20% in other equity and equity related instruments.

The Scheme can invest in Derivative positions for other than hedging purposes and not exceed 50% of equity and debt portfolio of the scheme. Derivatives instruments including covered call. Detailed strategy for the same is mentioned in SAI. The Scheme may also invest in units issued by REITS and INVITS.

Fixed Income securities

The Scheme may also invest in Debt and Money Market Securities/Instruments (Money Market securities include cash and cash equivalents). The Scheme aims to identify securities which offer optimal level of yields/returns, considering risk-reward ratio. With the aim of controlling risks rigorous in depth credit evaluation of the securities proposed to be invested in will be carried out the AMC. The credit evaluation includes a study of the operating environment of the issuer, the short as well as long-term financial health of the issuer. Rated debt instruments in which the Scheme invests will be of investment grade as rated by a credit rating agency. The AMC may consider the ratings of such Rating Agencies as approved by SEBI to carry out the functioning of rating agencies.

The Scheme may invest in securitised debt.

In addition, the investment team of the AMC will also consider the macro economic conditions, including the political, economic environment and factors affecting liquidity and interest rates.

Further, the Scheme may invest in other schemes managed by the AMC or in the schemes of any other Mutual Funds in terms of the prevailing Regulations. As per the Regulations, no investment management fees will be charged for such investments.

For the present, the Scheme does not intend to enter into underwriting obligations. However, if the Scheme does enter into an underwriting agreement, it would do so after complying with the Regulations and with the prior approval of the Board of the AMC/Trustee.

The Scheme may undertake repo transactions in corporate debt securities in accordance with the directions issued by RBI and SEBI from time to time. Such investment shall be made subject to the guidelines which may be prescribed.

The AMC would use this analysis to attempt to predict the likely direction of interest rates and position the portfolio appropriately to take advantage of the same.

Other mutual fund schemes

Further, the Scheme may invest in other schemes managed by the AMC or in the schemes of any other Mutual Funds in terms of the prevailing Regulations. As per the Regulations, no investment management fees will be charged for such investments. For the present, the Scheme does not intend to enter into underwriting obligations. However, if the Scheme does enter into an underwriting agreement, it would do so after complying with the Regulations and with the prior approval of the Board of the AMC/Trustee.

For detailed derivatives strategies and illustrations, please refer to SAI.

- **ICICI Prudential Equity Minimum Variance Fund**

The Scheme is an open ended equity scheme predominantly investing in Equity & Equity related instruments through a diversified basket with an aim to reduce the portfolio volatility. As a part of low variance strategy, the scheme will invest in Equity & Equity related instruments of companies forming part of Nifty 50 Index. Portfolio would be constructed with an endeavour to maintain the overall variance of the scheme lower than that of the benchmark. Further, the Scheme shall follow an active investment strategy.

Variance can be defined as a measure of dispersion i.e., how the stock returns varies from its average returns over a period of time. A stock with low price volatility (or movement) and consistent returns over a period of time are construed to be a stock having low variance.

The AMC may exclude certain companies from investable universe based on various factors, including but not limited to corporate governance standards, liquidity constraints, volatility, valuations, financial performance, higher default risk, etc.

The parameters used for selecting the stocks will be a combination of factors such as volatility, downside risk, maximum drawdown and upside potential. Minimum Variance Strategy will aim to maintain the risk (volatility of returns) of core portfolio lower than the benchmark. We measure risk based on the historical volatility of the returns. Portfolio of the Scheme will be reviewed on a periodic basis. The Scheme may also use various derivative and hedging products from time to time for hedging and rebalancing purposes, in the manner permitted by SEBI, including writing of covered call option.

The Scheme may use other derivative instruments like Interest Rate Swaps, Interest Rate Futures, Forward Rate Agreements, Stock / Index Futures or Options or other instruments for the purpose of hedging, portfolio balancing and other purposes, as permitted under the Regulations. Hedging using Interest Rate Futures could be perfect or imperfect, subject to applicable regulations. Usage of derivatives may expose the Scheme to certain risks inherent to such derivatives. For complete details on 'Derivative Strategies' kindly refer to SAI.

The Scheme may also invest up to 20% in overseas markets in equity & equity related instruments including Global Depository Receipts (GDRs), ADRs, foreign securities, bonds and mutual funds and such other instruments as may be allowed under the Regulations from time to time.

Further, the Scheme may invest in other schemes managed by the AMC or in the schemes of any other Mutual Funds in terms of the prevailing Regulations. As per the Regulations, no investment management fees will be charged for such investments.

The Scheme may also invest in Debt and Money Market Securities/Instruments (Money Market securities include cash and cash equivalents). The Scheme may also take exposure to Units of debt Mutual Fund schemes. The Scheme aims to identify debt/money market securities which offer optimal level of yields/returns, considering risk-reward ratio. With the aim of controlling risks rigorous in depth credit evaluation of the securities proposed to be invested in will be carried out by the Risk Management Team of the AMC. The credit evaluation includes a study of the operating environment of the issuer, the short as well as long-term financial health of the issuer. Rated debt instruments in which the Scheme invests will be of investment grade as rated by a credit rating agency. The AMC may consider the ratings of such Rating Agencies as approved by SEBI to carry out the functioning of rating agencies. The Scheme may invest in securitised debt. The scheme may also undertake repo transactions in corporate debt securities in accordance with the directions issued by RBI and SEBI from time to time. Such investment shall be made subject to the guidelines which may be prescribed.

For the present, the Scheme does not intend to enter into underwriting obligations. However, if the Scheme does enter into an underwriting agreement, it would do so after complying with the Regulations and with the prior approval of the Board of the AMC/Trustee.

- **ICICI Prudential Large & Mid Cap Fund**

The Scheme is an open ended Equity Scheme predominantly investing in equity and equity related securities of both large cap and mid cap stocks, and balance in other equity and equity related securities and debt and money market instruments. Further, the Scheme shall follow an active investment strategy.

Equities:

The AMC in selecting scrips will focus on the fundamentals of the business, the industry structure, the quality of management, sensitivity to economic factors, the financial strength of the company and the key earnings drivers. Since investing requires disciplined risk management, the AMC would incorporate adequate safeguards for controlling risks in the portfolio construction process. Stock specific risk will be minimized by investing only in those companies that have been thoroughly analyzed by the Investment team at the AMC. Risk will also be reduced through adequate diversification of the portfolio. Diversification will also be achieved by spreading the investments over a diverse range of industries/sectors. For investments in large cap and mid cap stocks, the Fund Manager(s) will select stocks as may be prescribed by SEBI/AMFI from time to time. The Scheme may also invest in other equity and equity related instruments, including investment in companies from small cap segment.

The Scheme may also invest a part of its corpus in overseas markets in Global Depository Receipts (GDRs), ADRs, overseas equity, bonds, Overseas ETFs and mutual funds and such other instruments as may be allowed under the Regulations from time to time.

The Scheme may engage in Stock Lending activities.

The Scheme may invest in derivatives such as Futures & Options and such other derivative instruments like Stock/ Index Futures, Interest Rate Swaps, Forward Rate Agreements or such other derivative instruments as may be introduced and permitted by SEBI from time to time. The Scheme may invest in derivative for the purpose of hedging, portfolio balancing and other purposes as may be permitted under the Regulations. Hedging using Interest Rate Futures could be perfect or imperfect, subject to applicable regulations.

The Scheme may refer to certain in-house models which would be based on various prevailing broad market parameters and would be dynamic in nature. The same may be referred by the fund manager as required from time to time.

Fixed Income securities

The Scheme may also invest in Debt and Money Market Securities/Instruments (Money Market securities include cash and cash equivalents). The Scheme aims to identify securities which offer optimal level of yields/returns, considering risk-reward ratio. With the aim of controlling risks, rigorous in depth credit evaluation of the securities proposed to be invested in will be carried out by the Risk Management Team of the AMC. The credit evaluation includes a study of the operating environment of the issuer, the short as well as long-term financial health of the issuer. Rated debt instruments in which the Scheme invests will be of investment grade as rated by a credit rating agency. The AMC may consider the ratings of such Rating Agencies as approved by SEBI to carry out the functioning of rating agencies. The Scheme may invest in securitised debt.

In addition, the investment team of the AMC will study the macro economic conditions, including the political, economic environment and factors affecting liquidity and interest rates. The AMC would use this analysis to attempt to predict the likely direction of interest rates and position the portfolio appropriately to take advantage of the same.

Further, the Scheme may invest in other schemes managed by the AMC or in the schemes of any other Mutual Funds in terms of the prevailing Regulations. As per the Regulations, no investment management fees will be charged for such investments.

For the present, the Scheme does not intend to enter into underwriting obligations. However, if the Scheme does enter into an underwriting agreement, it would do so after complying with the Regulations and with the prior approval of the Board of the AMC/Trustee.

The Scheme may undertake repo transactions in corporate debt securities in accordance with the directions issued by RBI and SEBI from time to time. Such investment shall be made subject to the guidelines which may be prescribed.

For detailed derivatives strategies and illustrations, please refer to SAI.

- **ICICI Prudential Quality Fund**

The Scheme is an open-ended Scheme investing primarily in equity and equity related instruments of companies identified based on the Quality factor. Quality investing is an investment strategy based on defined fundamentals that seek to identify companies with good quality characteristics such as their efficiency to generate profits and stable balance sheets. The scheme follows an active investment strategy.

The companies shall be identified based on fundamental ratio/ information disclosed in Annual reports (consolidated annual reports wherever available):

1. Return on Equity (ROE) – ROE is a financial metric used to measure a company's profitability relative to its Shareholder's Equity.
2. Return on Invested Capital (ROIC) – ROIC is used to measure the efficiency and profitability of a company in generating returns from its invested capital. This provides insight into how well a company is using its capital to generate profits.
3. Net cash balance – It is derived from company's balance sheet and is calculated as cash and cash equivalents after subtracting any debt/borrowings.
4. Debt Equity Ratio – This is used to evaluate a company's financial leverage and overall risk. Higher ratio indicates greater financial leverage and a lower ratio indicates financial stability.

Parameters for specific industries

- i. Holding companies - In addition to the aforesaid parameters, the company deriving higher profits or the underlying company deriving majority value shall be considered.
- ii. Lending companies such as Bank & NBFC - In addition to the aforesaid ratios, credit cost will also be an additional parameter to be considered.

The Scheme may use other derivative instruments like Stock / Index Futures or Options, Interest Rate Swaps, Interest Rate Futures, Forward Rate Agreements or other instruments for the purpose of hedging, portfolio balancing and other purposes, as permitted under the Regulations. Hedging using Interest Rate Futures could be perfect or imperfect, subject to applicable regulations. Usage of derivatives may expose the Scheme to certain risks inherent to such derivatives. For complete details on 'Derivative Strategies' kindly refer to SAI.

The Scheme may also invest up to 20% in overseas markets in equity & equity related instruments including Global Depository Receipts (GDRs), ADRs, foreign securities, bonds and mutual funds and such other instruments as may be allowed under the Regulations from time to time.

Further, the Scheme may invest in other schemes managed by the AMC or in the schemes of any other Mutual Funds in terms of the prevailing Regulations. As per the Regulations, no investment management fees will be charged for such investments.

The Scheme may also invest in Debt and Money Market Securities/Instruments. The Scheme may also take exposure to Units of debt Mutual Fund schemes. The Scheme aims to identify debt/ money market securities which offer optimal level of yields/returns, considering risk-reward ratio. With the aim of controlling risks, rigorous in depth credit evaluation of the securities proposed to be invested in will be carried out by the Risk Management Team of the AMC. The credit evaluation includes a study of the operating environment of the issuer, the short as well as long-term financial health of the issuer. Rated debt instruments in which the Scheme invests will be of investment grade as rated by a credit rating agency. The AMC may consider the ratings of such Rating Agencies as approved by SEBI to carry out the functioning of rating agencies. The Scheme may invest in securitised debt. The Scheme may also undertake repo transactions in corporate debt securities in accordance with the directions issued by RBI and SEBI from time to time. Such investment shall be made subject to the guidelines which may be prescribed.

For the present, the Scheme does not intend to enter into underwriting obligations. However, if the Scheme does enter into an underwriting agreement, it would do so after complying with the Regulations and with the prior approval of the Board of the AMC/Trustee.

The Scheme may invest in units issued by REITs & InvITs and other permissible asset classes.

- **ICICI Prudential Energy Opportunities Fund**

Being an open ended Scheme, the Scheme will follow an active investment strategy. The primary investment objective of the Scheme is to generate long-term capital appreciation by creating a portfolio that is invested predominantly in domestic/ overseas instruments of companies engaged in and/or expected to benefit from the growth in traditional & new energy sectors & allied business activities.

Examples of industries/sectors classified under 'Energy' are as follows:

1. Coal
2. Gas Transmission/Marketing
3. LPG/CNG/PNG/LNG Supplier
4. Lubricants
5. Offshore Support Solution Drilling
6. Oil Equipment & Services
7. Oil Exploration & Production
8. Oil Storage & Transportation
9. Refineries & Marketing

- 10. Trading – Coal
- 11. Trading – Gas etc

In addition to the above, the Scheme can also invest in domestic/ overseas securities of companies that are engaged in energy allied sectors including but not limited to Chemicals & Petrochemicals companies, industrial & capital goods companies that are engaged in energy consultancy, manufacturing pipelines used in energy sector, manufacturing electrical equipment's for production, transmission & distribution of energy, companies engaged in bio energy value chain, companies making components of new energy, ancillary companies in power transmission & distribution space.

The Fund Manager will have the discretion to invest in all those sectors / areas which are engaged either directly or indirectly in the traditional & new energy sectors. Traditional energy includes but is not limited to sources of energy such as crude oil, natural gas, coal and new energy refers to renewable energy such as hydropower, solar, wind among others.

The Scheme may also invest a part of its corpus in overseas markets in Global Depository Receipts (GDRs), ADRs, overseas equity, bonds and mutual funds and such other instruments as may be allowed under the Regulations from time to time, including securities issued by companies belonging to traditional & new energy industries/sectors & allied business activities.

Investments by the Scheme will be guided by companies classified under 'Energy' as per Industry classification issued by AMFI from time to time and any other industry/sector that forms part of the benchmark index. The Scheme can also invest in companies involved in other energy and allied sectors.

The scheme can also invest upto 20% in other equity & equity related instruments, including ADRs/ GDRs/ foreign securities.

The scheme may refer to certain in-house models which would be based on various prevailing broad market parameters which would be dynamic in nature. The same may be referred by the fund manager as required from time to time.

Fixed Income securities

The Scheme may also invest in Debt and Money Market Securities/Instruments (Money Market securities include cash and cash equivalents). The Scheme may also take exposure to Units of debt Mutual Fund schemes. The Scheme aims to identify securities which offer optimal level of yields/returns, considering risk-reward ratio. With the aim of controlling risks rigorous in depth credit evaluation of the securities proposed to be invested in will be carried out by the Risk Management Team of the AMC. The credit evaluation includes a study of the operating environment of the issuer, the short as well as long-term financial health of the issuer. Rated debt instruments in which the Scheme invests will be of investment grade as rated by a credit rating agency. The AMC may consider the ratings of such Rating Agencies as approved by SEBI to carry out the functioning of rating agencies. The Scheme may invest in securitised debt.

In addition, the investment team of the AMC will study the macro economic conditions, including the political, economic environment and factors affecting liquidity and interest

rates. The AMC would use this analysis to attempt to predict the likely direction of interest rates and position the portfolio appropriately to take advantage of the same.

The Scheme may use derivative instruments like Interest Rate Swaps, Interest Rate Futures, Forward Rate Agreements Stock / Index Futures or Options or other instruments for the purpose of hedging, portfolio balancing and other purposes, as permitted under the Regulations. Hedging using Interest Rate Futures could be perfect or imperfect, subject to applicable regulations. Usage of derivatives may expose the Scheme to certain risks inherent to such derivatives. It may also invest in securitized debt.

The Scheme may also invest in depository receipts including American Depository Receipts (ADRs) and Global Depository Receipts (GDRs), including securities issued by companies forming part of traditional & new energy sectors & allied business activities.

Further, the Scheme may invest in other schemes managed by the AMC or in the schemes of any other Mutual Funds in terms of the prevailing Regulations. As per the Regulations, no investment management fees will be charged for such investments.

For the present, the Scheme does not intend to enter into underwriting obligations. However, if the Scheme does enter into an underwriting agreement, it would do so after complying with the Regulations and with the prior approval of the Board of the AMC/Trustee.

The scheme may undertake repo transactions in corporate debt securities in accordance with the directions issued by RBI and SEBI from time to time. Such investment shall be made subject to the guidelines which may be prescribed.

For complete details on 'Derivative Strategies' kindly refer to SAI.

- **ICICI Prudential Value Fund**

The Scheme shall follow an active investment strategy. The Scheme is an open-ended Scheme that aims to provide long term capital growth by investing primarily in a well-diversified portfolio of companies that are selected based on the criteria of Value Investing. Value investing is an investment strategy where stocks are selected that trade for less than their intrinsic values.

The Scheme proposes to carefully accumulate a portfolio of stocks, which are available at a discount to its intrinsic value through a process of "Discovery". The Discovery Process would be through identification of such stocks, which have attractive valuations in relation to earnings or book value or current and/or future dividend and are available at a price, which can be termed as a bargain. This may constitute stocks, which have depreciated for a short period due to some exceptional circumstance or due to market correction phase or due to lack of interest in investing in a sector, which has significantly underperformed the market. Such stocks are considered to have intrinsic value because of their business models and show potential for smart growth in the future. Intrinsic value of a stock is determined through analyzing the financial statements of the companies and parameters such as EPS (Earnings per Share), the Book Value per share, understanding the competition land-scape and business structure of these companies. The universe of stocks for this Scheme will be defined as those stocks whose prices are low relative to their fundamentals, their historic performance, their book values, their

earnings and cash flow potential and current and/or future dividend.

For investment, AMC would use industry specific valuation measures to evaluate companies in every sector in order to select the most attractive companies for the portfolio.

The Scheme may also invest a part of its corpus in overseas markets in Global Depository Receipts (GDRs), ADRs, overseas equity, bonds and mutual funds and such other instruments as may be allowed under the Regulations from time to time.

The Scheme may engage in Stock Lending activities.

The Scheme may invest in derivatives such as Futures & Options and such other derivative instruments like Stock/ Index Futures, Interest Rate Swaps, Forward Rate Agreements or such other derivative instruments as may be introduced and permitted by SEBI from time to time. The Scheme may invest in derivative for the purpose of hedging, portfolio balancing and other purposes as may be permitted under the Regulations. Hedging using Interest Rate Futures could be perfect or imperfect, subject to applicable regulations.

Fixed Income securities

The Scheme may also invest in Debt and Money Market Securities/Instruments (Money Market securities include cash and cash equivalents). The Scheme aims to identify securities which offer optimal level of yields/returns, considering risk-reward ratio. With the aim of controlling risks, rigorous in depth credit evaluation of the securities proposed to be invested in will be carried out by the Risk Management Team of the AMC. The credit evaluation includes a study of the operating environment of the issuer, the short as well as long-term financial health of the issuer. Rated debt instruments in which the Scheme invests will be of investment grade as rated by a credit rating agency. The AMC may consider the ratings of such Rating Agencies as approved by SEBI to carry out the functioning of rating agencies. The Scheme may invest in securitised debt.

In addition, the investment team of the AMC will study the macro economic conditions, including the political, economic environment and factors affecting liquidity and interest rates. The AMC would use this analysis to attempt to predict the likely direction of interest rates and position the portfolio appropriately to take advantage of the same.

Further, the Scheme may invest in other schemes managed by the AMC or in the schemes of any other Mutual Funds in terms of the prevailing Regulations. As per the Regulations, no investment management fees will be charged for such investments.

For the present, the Scheme does not intend to enter into underwriting obligations. However, if the Scheme does enter into an underwriting agreement, it would do so after complying with the Regulations and with the prior approval of the Board of the AMC/Trustee.

The scheme may undertake repo transactions in corporate debt securities in accordance with the directions issued by RBI and SEBI from time to time. Such investment shall be made subject to the guidelines which may be prescribed.

For detailed derivatives strategies and illustrations, please refer to SAI.

- **ICICI Prudential Infrastructure Fund**

The Scheme shall follow an active investment strategy. The Scheme is an open-ended equity Scheme predominantly investing in infrastructure theme for capital appreciation and income distribution to unitholder. Infrastructure is one of the thrust areas for the overall growth of the economy today. Government of India, Planning Commission and various other authorities has explicitly recognized the need for improving the infrastructure to a world-class level in order to sustain high economic growth. Infrastructure includes broadly segments such as roads, railways, ports, telecommunication, power and so on. The Scheme would be looking at investing in those companies that are expected to get favorable impact, directly or indirectly, by the large expected investments in the infrastructure theme.

Infrastructure theme plays important role in country's development and GDP growth. India has already negotiated the difficult transition from public infrastructure creation to a market-determined model. An ambitious reform programme initiated involving a shift from a controlled to an open market economy has opened doors for private sector/foreign investment in infrastructure projects such as energy, petroleum, telecommunications transportation sectors etc. And in the Indian context, removal of regulatory and availability constraints on any product or service, has catalyzed investments, attracted competition and rationalized costs leading to a new growth trajectory. The infrastructure sector in the country is thus poised for accelerated growth in the coming years. There is a momentum in highways, power generation and ports, where a track record has fostered a virtuous cycle of more success.

India is the fastest growing mobility market in the world. Telecom is one of the sectors where significant progress has been made. Also, India has emerged as a global sourcing base for manufactured products. Further, India has made substantial progress in the oil & gas sector.

Indicative list of sectors/industry falling under infrastructure theme:

- Banking & Financial Services
- Cement & Cement Products
- Coal
- Construction & related Industry
- Electrical & Electronic components
- Energy
- Engineering
- Metals/Mining/Minerals
- Housing and related industries
- Industrial Capital Goods
- Industrial Products
- Oil & Gas and Allied Industries
- Petroleum & related Industries
- Ports and Airports
- Power and Power Equipments
- Telecom

- Logistics
- Urban infrastructure including, water, transportation etc.

Please note that the list is indicative and the Fund Manager may add such other sector/industries which satisfy the infrastructure theme.

The Scheme will predominantly invest in companies, which, in the opinion of the Fund Manager, offer an attractive investment opportunity to participate in the growth of the infrastructure sector. These may be across the abovementioned sectors or other areas of Infrastructure as may be identified by the Fund Manager. The stocks may be at any levels of market capitalization and Fund Manager will use growth investment styles. There will be no restrictions on the level of participation in any of the above industries, except for the Seventh Schedule restriction as prescribed under the SEBI (Mutual Fund) Regulations, 1996.

These sectors are only indicative and this could undergo change based on future reforms and developments.

The Scheme may also invest in companies outside infrastructure theme.

The Scheme may also invest a part of its corpus in overseas markets in Global Depository Receipts (GDRs), ADRs, overseas equity, bonds and mutual funds and such other instruments as may be allowed under the Regulations from time to time, including securities issued by companies following the infrastructure theme.

The Scheme may engage in Stock Lending activities.

The Scheme may invest in derivatives such as Futures & Options and such other derivative instruments like Stock/ Index Futures, Interest Rate Swaps, Forward Rate Agreements or such other derivative instruments as may be introduced and permitted by SEBI from time to time. The Scheme may invest in derivative for the purpose of hedging, portfolio balancing and other purposes as may be permitted under the Regulations. Hedging using Interest Rate Futures could be perfect or imperfect, subject to applicable regulations.

The scheme may refer to certain in-house models which would be based on various prevailing broad market parameters and would be dynamic in nature. The same may be referred by the fund manager as required from time to time.

Fixed Income securities

The Scheme may also invest in Debt and Money Market Securities/Instruments (Money Market securities include cash and cash equivalents). The Scheme aims to identify securities which offer optimal level of yields/returns, considering risk-reward ratio. With the aim of controlling risks rigorous in depth credit evaluation of the securities proposed to be invested in will be carried out by the Risk Management Team of the AMC. The credit evaluation includes a study of the operating environment of the issuer, the short as well as long-term financial health of the issuer. Rated debt instruments in which the Scheme invests will be of investment grade as rated by a credit rating agency. The AMC may consider the ratings of such Rating Agencies as approved by SEBI to carry out the functioning of rating agencies. The Scheme may invest in securitised debt.

In addition, the investment team of the AMC will study the macro economic conditions, including the political, economic environment and factors affecting liquidity and interest rates. The AMC would use this analysis to attempt to predict the likely direction of interest rates and position the portfolio appropriately to take advantage of the same.

Further, the Scheme may invest in other schemes managed by the AMC or in the schemes of any other Mutual Funds in terms of the prevailing Regulations. As per the Regulations, no investment management fees will be charged for such investments.

For the present, the Scheme does not intend to enter into underwriting obligations. However, if the Scheme does enter into an underwriting agreement, it would do so after complying with the Regulations and with the prior approval of the Board of the AMC/Trustee.

For detailed derivatives strategies and illustrations, please refer to SAI.

- **ICICI Prudential Banking and Financial Services Fund**

Equities

The Scheme aims to maximize long-term capital appreciation by predominantly investing in equity and equity related securities of companies engaged in banking services and financial services. Financial services companies listed in the Indian equity markets provide non-banking financial services like stock broking, wealth management, insurance, etc. Most of the banks in India also provide these services in addition to the traditional banking services. Further, the Scheme shall follow an active investment strategy.

The companies which are considered as financial services are as follows. However, this is a very fast evolving space so this list may have further additions in the future.

- Banks
- Non-banking financial companies
- Housing Finance Companies
- Micro Finance Companies
- Broking and securities
- Stock exchanges, depositories and related infrastructure providers
- Wealth management or various kinds of asset management
- Insurance
- Currency and Forex
- Credit cards and payment gateways or such infrastructure providers
- Internet based finance
- Rating agencies
- Financial data providers like Bloomberg or Reuters
- Investment companies

The Scheme may also invest in companies other than Banking and Financial Services sector.

Banking & Financial Services Sector Outlook:

The performance of the Banking and Financial Services sector of any nation has a direct correlation to the performance of the nation's economy. The Indian Financial services industry has experienced significant growth in the last few years. There has been a considerable broadening and deepening of the Indian financial markets due to various financial market reforms undertaken by the Indian regulators, the introduction of innovative financial instruments in recent years and the entry of sophisticated domestic and international financial services participants. Sectors such as banking, asset management, insurance and brokerage have been liberalized to allow private sector involvement, which has contributed to the development and modernization of the financial services sector.

Banking

The upsurge in economic activity in India and an under penetrated market provides huge potential for growth for banks in India. Consumer credit penetration in India is very low. Household gearing in India is low in absolute terms and relative to other economies. Strong economic growth will translate into rising disposable incomes, which will fuel the demand for consumer credit. Given a low base, India has considerable room to grow. Most banks now have significant proportion of their businesses covered under core banking solution. With technology implementation (internet banking), wider distribution network (ATMs) and growing customer base (rural penetration), Indian banks are well poised to move on to the next level of growth.

Growth of NBFCs and other Financial Services Sectors in India

Non-banking financial companies (NBFCs) are fast emerging as an important segment of Indian financial system. They have broadened and diversified the range of products and services offered by a financial sector. The sector comprises commercial banks, insurance companies, non-banking financial companies, cooperatives, pension funds, mutual funds and other smaller financial entities.

According to the Reserve Bank of India's (RBI) Financial Stability Report, the non-banking financial companies (NBFC) sector registered a significantly higher credit growth.

Since, Government of India has huge focus on Digital initiatives; the AMC can see more and more payment banks and companies entering the capital markets.

Due to the above factors and possible growth of NBFC sector and other financial services sectors in India, the Scheme may increase the exposure towards these sectors in order to generate capital appreciation for the investors.

Asset Management Companies

Growth in the asset management industry in India has been signified by two main factors, the growth in the retail mutual fund business and the emergence of alternative asset management. From 1963 to 1987, Unit Trust of India was the only mutual fund operating in the country. From 1987 onwards, several other public sector mutual funds entered this sector and participation was finally opened up to the private sector in 1993. The mutual fund industry has experienced considerable growth since the last few years. The private sector accounts for major market share of the total AUM. The asset

management companies are now listed on the stock exchanges and few others are in the process of listing. This provides an opportunity for the Scheme to consider investment in these companies.

Insurance Companies

The insurance sector in India is regulated by the Insurance Regulatory and Development Authority. In December 1999, the parliament passed the Insurance Regulatory and Development Authority Act, 1999 that opened the Indian insurance sector to foreign and private investors. Since then, various foreign and Indian private sector participants have targeted the market potential by providing a range of customized products. Currently, there are many insurance companies in India operating in both Life Insurance and General Insurance. There are various public sector insurance companies alongwith private companies. There are also foreign insurance companies operating in joint venture.

There has been considerable broadening and deepening of the Indian financial markets due to various financial market reforms undertaken by the regulators, the introduction of innovative financial instruments in recent years and the entry of sophisticated domestic and international players.

The increase in FDI investment limit has enabled greater interest being shown by foreign insurance companies who are keen to increase their stake in joint ventures.

Strong economic growth, favorable demographics, increased geographic penetration, growth of small and medium enterprises and the increasing needs for capital among Indian corporations are expected to continue to drive India's financial services industry.

Broking Companies:

The primary drivers for the level of activity in the secondary markets have been economic growth and growing companies, leading to increased international and domestic investor interest.

The Scheme may also invest a part of its corpus in overseas markets in Global Depository Receipts (GDRs), ADRs, overseas equity, bonds and mutual funds and such other instruments as may be allowed under the Regulations from time to time, including securities issued by companies belonging to Banking and Financial Services industry.

The Scheme may engage in Stock Lending activities.

The Scheme may invest in derivatives such as Futures & Options and such other derivative instruments like Stock/ Index Futures, Interest Rate Swaps, Forward Rate Agreements or such other derivative instruments as may be introduced and permitted by SEBI from time to time. The Scheme may invest in derivative for the purpose of hedging, portfolio balancing and other purposes as may be permitted under the Regulations. Hedging using Interest Rate Futures could be perfect or imperfect, subject to applicable regulations.

The scheme may refer to certain in-house models which would be based on various prevailing broad market parameters which would be dynamic in nature. The same may

be referred by the fund manager as required from time to time.

Fixed Income securities

The Scheme may also invest in Debt and Money Market Securities/Instruments (Money Market securities include cash and cash equivalents). The Scheme aims to identify securities which offer optimal level of yields/returns, considering risk-reward ratio. With the aim of controlling risks rigorous in depth credit evaluation of the securities proposed to be invested in will be carried out by the Risk Management Team of the AMC. The credit evaluation includes a study of the operating environment of the issuer, the short as well as long-term financial health of the issuer. Rated debt instruments in which the Scheme invests will be of investment grade as rated by a credit rating agency. The AMC may consider the ratings of such Rating Agencies as approved by SEBI to carry out the functioning of rating agencies. The Scheme may invest in securitised debt.

In addition, the investment team of the AMC will study the macro economic conditions, including the political, economic environment and factors affecting liquidity and interest rates. The AMC would use this analysis to attempt to predict the likely direction of interest rates and position the portfolio appropriately to take advantage of the same.

Further, the Scheme may invest in other schemes managed by the AMC or in the schemes of any other Mutual Funds in terms of the prevailing Regulations. As per the Regulations, no investment management fees will be charged for such investments.

For the present, the Scheme does not intend to enter into underwriting obligations. However, if the Scheme does enter into an underwriting agreement, it would do so after complying with the Regulations and with the prior approval of the Board of the AMC/Trustee.

The scheme may undertake repo transactions in corporate debt securities in accordance with the directions issued by RBI and SEBI from time to time. Such investment shall be made subject to the guidelines which may be prescribed.

For detailed derivatives strategies and illustrations, please refer to SAI.

• ICICI Prudential Commodities Fund

The primary investment objective of the Scheme is to generate long-term capital appreciation by creating a portfolio that is invested predominantly in Equity and Equity related securities of companies engaged in commodity and commodity related sectors. The Scheme shall follow an active investment strategy.

The Scheme will invest in companies classified under 'Commodities' as per Industry classification issued by AMFI from time to time.

Examples of industries in this sector are as follows:

1. Energy (including Oil & Gas, Petroleum Products, Power, Oil Exploration, etc.),
2. Paper, Forest and Jute
3. Cement and Cement Products, Metals (including, Ferrous Metals, Non- Ferrous Metals, Minerals & Mining and Gems),
4. Chemicals,

5. Fertilizers, Agrochemicals and Pesticides, etc.
6. Agri products (such as rice, tea, coffee, pulses, grains, tobacco, corn etc).

The Scheme may take exposure to any other Sector that forms part of the benchmark and can invest in to be listed companies involved in commodity and commodity related sectors.

The exposure to Commodity and commodity related industry/sectors will be as per sector list provided by the index provider/AMFI (as applicable).

The scheme can also invest in equity & equity related instruments of other companies as stated in the asset allocation table.

The Scheme may also invest a part of its corpus in overseas markets in Global Depository Receipts (GDRs), ADRs, overseas equity, bonds, Gold ETFs, Silver ETFs, Units issued by REITs and InvITs and mutual funds and such other instruments as may be allowed under the Regulations from time to time, including securities issued by companies belonging to Commodities and commodity related industry.

The proportion of investment between equity and debt will be decided based on the view of the fund manager on anticipated movement in both equity as well as debt markets. The Fund manager can take aggressive calls on the market by going up to 100% in equity at any point of time or any other appropriate ratio depending upon his view. The allocation between debt and equity will be decided based upon the prevailing market conditions, macro- economic environment the performance of the corporate sector, the equity market and other considerations.

The scheme may refer to certain in-house models which would be based on various prevailing broad market parameters which would be dynamic in nature. The same may be referred by the fund manager as required from time to time.

Fixed Income securities

The Scheme may also invest in Debt and Money Market Securities/Instruments (Money Market securities include cash and cash equivalents). The Scheme may also take exposure to Units of debt Mutual Fund schemes. The Scheme aims to identify securities which offer optimal level of yields/returns, considering risk-reward ratio. With the aim of controlling risks rigorous in depth credit evaluation of the securities proposed to be invested in will be carried out by the Risk Management Team of the AMC. The credit evaluation includes a study of the operating environment of the issuer, the short as well as long-term financial health of the issuer. Rated debt instruments in which the Scheme invests will be of investment grade as rated by a credit rating agency. The AMC may consider the ratings of such Rating Agencies as approved by SEBI to carry out the functioning of rating agencies. The Scheme may invest in securitised debt.

In addition, the investment team of the AMC will study the macro economic conditions, including the political, economic environment and factors affecting liquidity and interest rates. The AMC would use this analysis to attempt to predict the likely direction of interest rates and position the portfolio appropriately to take advantage of the same.

The Scheme may use derivative instruments like Interest Rate Swaps, Interest Rate Futures, Forward Rate Agreements Stock / Index Futures or Options or other

instruments for the purpose of hedging, portfolio balancing and other purposes, as permitted under the Regulations. Hedging using Interest Rate Futures could be perfect or imperfect, subject to applicable regulations. Usage of derivatives may expose the Scheme to certain risks inherent to such derivatives. It may also invest in securitized debt.

The Scheme may also invest in depository receipts including American Depository Receipts (ADRs) and Global Depository Receipts (GDRs), including securities issued by companies forming part of commodities and commodity related sectors. Further, the Scheme may invest in other schemes managed by the AMC or in the schemes of any other Mutual Funds in terms of the prevailing Regulations. As per the Regulations, no investment management fees will be charged for such investments.

For the present, the Scheme does not intend to enter into underwriting obligations. However, if the Scheme does enter into an underwriting agreement, it would do so after complying with the Regulations and with the prior approval of the Board of the AMC/Trustee.

The scheme may undertake repo transactions in corporate debt securities in accordance with the directions issued by RBI and SEBI from time to time. Such investment shall be made subject to the guidelines which may be prescribed.

For detailed derivatives strategies and illustrations, please refer to SAI.

- **ICICI Prudential Pharma Healthcare and Diagnostics (P.H.D) Fund**

The primary investment objective of the Scheme is to seek to generate long-term capital appreciation by creating a portfolio that is invested in Equity and Equity related securities of pharma, healthcare, hospitals, diagnostics, wellness and allied companies. Further the Scheme shall follow an active investment strategy.

The scheme being theme specific will be largely affected by the risks associated with the pharma, healthcare, hospitals, diagnostics, wellness and allied sector. Investment in the scheme carries the risk with regard to non-diversification of the portfolio due to the investment universe limited to companies that are operating in the pharma, healthcare, hospitals, diagnostics, wellness and allied sector and hence, the scope for diversification could be limited at times. There could be instances when the portfolio might have an unusually high exposure to a few stocks.

The proportion of investment between equity and debt will be decided based on the view of the fund manager on anticipated movement in both equity as well as debt markets. The Fund manager can also take aggressive calls on the market by going upto 100% in equity at any point of time or any other appropriate ratio depending upon his view. The allocation between debt and equity will be decided based upon the prevailing market conditions, macro- economic environment the performance of the corporate sector, the equity market and other considerations.

The Scheme may invest in companies forming part of BSE Healthcare Index or even stocks outside the index but which form part of pharma, healthcare, hospitals, diagnostics, wellness and related companies.

The Scheme may also invest a part of its corpus in overseas markets in Global Depository Receipts (GDRs), ADRs, overseas equity, bonds and mutual funds and such other instruments as may be allowed under the Regulations from time to time, including securities issued by companies belonging to pharma, healthcare, diagnostics and wellness industry.

A brief description of pharma, healthcare, diagnostics and wellness sectors is mentioned below:

Pharma

The Indian pharmaceuticals market is the third largest in terms of volume and thirteenth largest in terms of value. Branded generics dominate the pharmaceuticals market, constituting nearly 70 to 80 per cent of the market. India is the largest provider of generic drugs globally with the Indian generics accounting for 20 per cent of global exports in terms of volume. Of late, consolidation has become an important characteristic of the Indian pharmaceutical market as the industry is highly fragmented.

India enjoys an important position in the global pharmaceuticals sector. The country also has a large pool of scientists and engineers who have the potential to steer the industry ahead to an even higher level. The Union Cabinet has given its nod for the amendment of the existing Foreign Direct Investment (FDI) policy in the pharmaceutical sector in order to allow FDI up to 100 per cent under the automatic route for manufacturing of medical devices subject to certain conditions.

Healthcare

Healthcare has become one of India's largest sectors - both in terms of revenue and employment. Healthcare comprises hospitals, medical devices, clinical trials, outsourcing, telemedicine, medical tourism, health insurance and medical equipment. The Indian healthcare sector is growing at a brisk pace due to its strengthening coverage, services and increasing expenditure by public as well private players.

Indian healthcare delivery system is categorised into two major components - public and private. The Government, i.e. public healthcare system comprises limited secondary and tertiary care institutions in key cities and focuses on providing basic healthcare facilities in the form of primary healthcare centers (PHCs) in rural areas. The private sector provides majority of secondary, tertiary and quaternary care institutions with a major concentration in metros, tier I and tier II cities.

India's competitive advantage lies in its large pool of well-trained medical professionals. India is also cost competitive compared to its peers in Asia and Western countries. The cost of surgery in India is about one-tenth of that in the US or Western Europe.

Diagnostics

Heightened physician awareness to better clinical outcomes and increasing patient requirement to avail of high quality care have made it imperative for providers to deliver targeted therapy. This has been made possible by the availability of sensitive and specific diagnostic tests along with technologically advanced medical devices and equipments. These further enable healthcare providers to utilize material and human resources optimally.

Advancement in medical technology, substantial demand, coupled with ongoing standardization of regulation and accreditation, has made India an attractive destination for foreign companies to outsource manufacturing of high end devices. Imminent consolidation, international tie ups and the demand created by insurance industry will similarly aid diagnostic players to deliver world class services. It is anticipated that these developments will enable health care providers to synergize medical and service excellence, thus, enabling them to deliver need-based, high quality patient care.

Wellness

In India, wellness is a concept which has been in vogue since ancient times. Traditional medicinal and health practices like Ayurveda and yoga have propounded the concept of mental and bodily wellness. Most of the ancient wellness concepts have largely focused on the basic needs of an individual within the need hierarchy, namely a focus on health, nutrition and relaxation. With the progress of time, wellness as a concept has taken up a multi-dimensional definition, encompassing the individual's desire for social acceptance, exclusivity and collective welfare.

Chiefly influenced by changes in society and in the lifestyles of individuals, this change has also been accelerated by extraneous factors like globalization and a greater awareness of the need for wellness among individuals. Wellness players, thus have responded to this change, shifting their focus from traditional offerings like curative healthcare and value oriented mass products to new generational offerings like preventive healthcare, luxury products and personalized services.

While the Consumers mainly comprise a young population with rising income levels and the increasing need to look good and feel good, which has led these young consumers to seek wellness solutions to meet lifestyle challenges, the Providers offer wellness services and products to meet the hygiene, curative and enhancement needs of the consumer. The Adjacent industries, such as healthcare, media, retail, gaming, hospitality and education capitalize on the growth of the wellness sector to generate additional revenue streams, leverage existing competencies and offer a wider array of services/products to customers while the Facilitators, include employers, insurance companies and schools, who are likely to play a key role in encouraging and inculcating pro-wellness habits among consumers going forward. The last participant, the Government wears multiple hats in its roles as a provider, facilitator, enabler, and regulator in the industry.

The scheme may refer to certain in-house models which would be based on various prevailing broad market parameters and would be dynamic in nature. The same may be referred by the fund manager as required from time to time.

Fixed Income securities

The AMC aims to identify securities, which offer optimal levels of yield/return considering risk-reward ratio. An appropriate mix of debt and money market instruments will be used to achieve this.

With the aim of controlling risks, rigorous in depth credit evaluation of the securities proposed to be invested in will be carried out by Risk Management team of the AMC. The credit evaluation includes a study of the operating environment of the company, the past

track record as well as the future prospects of the issuer, the short as well as long-term financial health of the issuer.

The AMC may consider the ratings of such Rating Agencies as approved by SEBI to carry out the functioning of rating agencies. In addition, the investment team of the AMC will study the macro economic conditions, including the political, economic environment and factors affecting liquidity and interest rates. The AMC would use this analysis to attempt to predict the likely direction of interest rates and position the portfolio appropriately to take advantage of the same.

Further, the Scheme may invest in other schemes managed by the AMC or in the Schemes of any other Mutual Funds, provided it is in conformity with the prevailing Regulations. As per the Regulations, no investment management fees will be charged for such investments.

For the present, the Scheme does not intend to enter into underwriting obligations. However, if the Scheme does enter into an underwriting agreement, it would do so with the prior approval of the Board of the AMC/Trustees.

For detailed derivatives strategies and illustrations, please refer to SAI.

- **ICICI Prudential Banking and PSU Debt Fund**

The Scheme aims to predominantly invest in a basket of debt and money market instruments of Banks, Public Sector Undertakings (PSU), Public Financial Institutions (PFI) and Municipal Bonds with a view to offer optimal level of yields/returns, considering risk-reward ratio. The scheme will invest minimum of 80% of net assets in debt and money market securities of banks, public sector undertakings, public financial institutions and municipal bonds. Balance amount will be invested in other debt and money market instruments, including government securities. Further, the Scheme shall follow an active investment strategy.

An appropriate mix of debt market securities and money market securities will be used to achieve this. Money Market securities include cash and cash equivalents.

Investment in debt and money market securities issued by banks, PSU, PFI and Municipal Bonds is primarily with the intention of maintaining high credit quality of the portfolio and to ensure safety in terms of timely repayment of interest and maturity proceeds.

With the aim of controlling risks, rigorous in-depth credit evaluation of the securities proposed to be invested in will be carried out by the Risk Management team of the AMC. The credit evaluation includes a study of the operating environment of the issuer, the past track record as well as the future prospects of the issuer, the short as well as longer-term financial health of the issuer. The AMC may consider the ratings of such Rating Agencies as approved by SEBI to carry out the functioning of rating agencies. In addition, the investment team of the AMC will study the macro economic conditions, including the political, economic environment and factors affecting liquidity and

interest rates. The AMC would use this analysis to attempt to predict the likely direction of interest rates and position the portfolio appropriately to take advantage of the same.

The Scheme may use derivative instruments like Interest Rate Swaps, Interest Rate Futures, Forward Rate Agreements or other derivative instruments for the purpose of hedging, portfolio balancing and other purposes, as permitted under the Regulations. Hedging using Interest Rate Futures could be perfect or imperfect, subject to applicable regulations. Usage of derivatives may expose the Scheme to certain risks inherent to such derivatives. It may also invest in securitized debt.

For the present, the Scheme does not intend to enter into underwriting obligations. However, if the Scheme does enter into an underwriting agreement, it would do so with the prior approval of the Board of the AMC/Trustees.

The Scheme may undertake repo transactions in corporate debt securities in accordance with the directions issued by RBI and SEBI from time to time. Such investment shall be made subject to the guidelines which may be prescribed.

The scheme may refer to certain in-house models which would be based on various prevailing broad market parameters which would be dynamic in nature. The same may be referred by the fund manager as required from time to time.

For complete details on 'Derivative Strategies' kindly refer to SAI.

- **ICICI Prudential Savings Fund**

The scheme aims to identify securities which offer optimal level of yields/returns, considering risk-reward ratio. An appropriate mix of debt market securities and money market securities will be used to achieve this. Money Market instruments include cash and cash equivalents. The scheme will invest in Debt & Money Market instruments such that the Macaulay duration of the portfolio is between 6 months and 12 months. Further, the Scheme shall follow an active investment strategy

The Macaulay duration is the weighted average term to maturity of the cash flows from a bond. The weight of each cash flow is determined by dividing the present value of the cash flow by the price.

With the aim of controlling risks, rigorous in depth credit evaluation of the securities proposed to be invested will be carried out by the Risk Management team of the AMC. The credit evaluation includes a study of the operating environment of the issuer, the past track record as well as the future prospects of the issuer, the short as well as longer-term financial health of the issuer.

The AMC may consider the ratings of such Rating Agencies as approved by SEBI to carry out the functioning of rating agencies. In addition, the investment team of the AMC will study the macro economic conditions, including the political, economic environment and factors affecting liquidity and interest rates. The AMC would use this analysis to attempt to predict the likely direction of interest rates and position the portfolio appropriately to take advantage of the same.

Further, the Scheme may invest in other schemes managed by the AMC or in the Schemes of any other Mutual Funds, provided it is in conformity with the prevailing Regulations. As per the Regulations, no investment management fees will be charged for such investments.

The Scheme may use derivative instruments like Interest Rate Swaps, Interest Rate Futures, Forward Rate Agreements or other derivative instruments for the purpose of hedging, portfolio balancing and other purposes, as permitted under the Regulations. Hedging using Interest Rate Futures could be perfect or imperfect, subject to applicable regulations. Usage of derivatives may expose the Scheme to certain risks inherent to such derivatives. It may also invest in securitized debt.

For the present, the Scheme does not intend to enter into underwriting obligations. However, if the Scheme does enter into an underwriting agreement, it would do so with the prior approval of the Board of the AMC/Trustees.

The Scheme may undertake repo transactions in corporate debt securities in accordance with the directions issued by RBI and SEBI from time to time. Such investment shall be made subject to the guidelines which may be prescribed.

The scheme may refer to certain in-house models which would be based on various prevailing broad market parameters which would be dynamic in nature. The same may be referred by the fund manager as required from time to time.

For complete details on 'Derivative Strategies' kindly refer to SAI.

- **ICICI Prudential Credit Risk Fund**

The scheme aims to identify securities which offer optimal level of yields/returns, considering risk-reward ratio. An appropriate mix of debt market securities and money market securities will be used to achieve this. Money Market securities include cash and cash equivalents. The scheme will have minimum investment of 65% of total assets in corporate bonds rated AA and below. Balance amount will be invested in other debt and money market instruments. Further, the Scheme shall follow an active investment strategy.

With the aim of controlling risks, rigorous in depth credit evaluation of the securities proposed to be invested in will be carried out by the Risk Management team of the AMC. The credit evaluation includes a study of the operating environment of the company, the past track record as well as the future prospects of the issuer, the short as well as longer-term financial health of the issuer.

The AMC may consider the ratings of such Rating Agencies as approved by SEBI to carry out the functioning of rating agencies. In addition, the investment team of the AMC will study the macro economic conditions, including the political, economic environment and factors affecting liquidity and interest rates. The AMC would use this analysis to attempt to predict the likely direction of interest rates and position the portfolio appropriately to take advantage of the same.

Further, the Scheme may invest in other schemes managed by the AMC or in the Schemes of any other Mutual Funds, provided it is in conformity with the prevailing Regulations.

As per the Regulations, no investment management fees will be charged for such investments.

The Scheme may use derivative instruments like Interest Rate Swaps, Interest Rate Futures, Forward Rate Agreements or other derivative instruments for the purpose of hedging, portfolio balancing and other purposes, as permitted under the Regulations. Hedging using Interest Rate Futures could be perfect or imperfect, subject to applicable regulations. Usage of derivatives may expose the Scheme to certain risks inherent to such derivatives. It may also invest in securitized debt.

The scheme may also invest in Units issued by REITs & InvITs.

The scheme may undertake repo transactions in corporate debt securities in accordance with the directions issued by RBI and SEBI from time to time. Such investment shall be made subject to the guidelines which may be prescribed.

For the present, the Scheme does not intend to enter into underwriting obligations. However, if the Scheme does enter into an underwriting agreement, it would do so with the prior approval of the Board of the AMC/Trustees.

The scheme may refer to certain in-house models which would be based on various prevailing broad market parameters which would be dynamic in nature. The same may be referred by the fund manager as required from time to time.

For detailed derivatives strategies and illustrations, please refer to SAI.

- **ICICI Prudential Gilt Fund**

The Scheme shall follow an active investment strategy. The Scheme aims to identify securities which offer optimal level of yields/returns, considering risk reward ratio. The scheme will have minimum investment of 80% of total assets in government securities across maturity and balance amount can be invested in other debt and money market instruments. Money Market securities include cash and cash equivalents.

The Scheme could invest in fixed income securities issued by central and state government in line with the investment objectives of the Scheme and as permitted by SEBI from time to time.

With the aim of controlling risks, rigorous in depth credit evaluation of the debt and money market securities proposed to be invested in will be carried out by the Risk Management team of the AMC. The credit evaluation includes a study of the operating environment of the company, the past track record as well as the future prospects of the issuer, the short as well as longer-term financial health of the issuer.

The AMC may consider the ratings of such Rating Agencies as approved by SEBI to carry out the functioning of rating agencies. In addition, the investment team of the AMC will study the macro economic conditions, including the political, economic environment and factors affecting liquidity and interest rates. The AMC would use this analysis to attempt to predict the likely direction of interest rates and position the portfolio appropriately to take advantage of the same.

Further, the Scheme may invest in other schemes managed by the AMC or in the Schemes of any other Mutual Funds, provided it is in conformity with the prevailing Regulations. As per the Regulations, no investment management fees will be charged for such investments.

The Scheme may use derivative instruments like Interest Rate Swaps, Interest Rate Futures, Forward Rate Agreements or other derivative instruments for the purpose of hedging, portfolio balancing and other purposes, as permitted under the Regulations. Hedging using Interest Rate Futures could be perfect or imperfect, subject to applicable regulations. Usage of derivatives may expose the Scheme to certain risks inherent to such derivatives. It may also invest in securitized debt.

For the present, the Scheme does not intend to enter into underwriting obligations. However, if the Scheme does enter into an underwriting agreement, it would do so with the prior approval of the Board of the AMC/Trustees.

The Scheme may undertake repo transactions in corporate debt securities in accordance with the directions issued by RBI and SEBI from time to time. Such investment shall be made subject to the guidelines which may be prescribed.

The scheme may follow certain in-house model. The model may be developed in order to manage the scheme and to help the scheme attains its investment objective. These models are based on various broad market parameters prevalent in the market and are dynamic in nature.

For complete details on 'Derivative Strategies' kindly refer to SAI.

- **ICICI Prudential Medium Term Bond Fund**

The scheme aims to identify securities which offer optimal level of yields/returns, considering risk-reward ratio. An appropriate mix of debt market securities and money market securities will be used to achieve this. Money Market securities include cash and cash equivalents. The scheme will invest in Debt & Money Market securities such that the Macaulay duration of the portfolio is between 3 years and 4 years. Further, the Scheme shall follow an active investment strategy.

The Macaulay duration is the weighted average term to maturity of the cash flows from a bond. The weight of each cash flow is determined by dividing the present value of the cash flow by the price.

The fund manager may, in the interest of investors, in case of anticipated adverse situation reduce the portfolio duration of the scheme up to a duration of 1 year. In such cases, the AMC shall record and maintain the reasons for the same. The reasons shall be placed before the Trustees in the subsequent Trustee meeting.

With the aim of controlling risks, rigorous in depth credit evaluation of the securities proposed to be invested will be carried out by the Risk Management team of the AMC. The credit evaluation includes a study of the operating environment of the issuer, the past track record as well as the future prospects of the issuer, the short as well as longer-term financial health of the issuer.

The AMC may consider the ratings of such Rating Agencies as approved by SEBI to carry out the functioning of rating agencies. In addition, the investment team of the AMC will study the macro economic conditions, including the political, economic environment and factors affecting liquidity and interest rates. The AMC would use this analysis to attempt to predict the likely direction of interest rates and position the portfolio appropriately to take advantage of the same.

Further, the Scheme may invest in other schemes managed by the AMC or in the Schemes of any other Mutual Funds, provided it is in conformity with the prevailing Regulations. As per the Regulations, no investment management fees will be charged for such investments.

The Scheme may use derivative instruments like Interest Rate Swaps, Interest Rate Futures, Forward Rate Agreements or other derivative instruments for the purpose of hedging, portfolio balancing and other purposes, as permitted under the Regulations. Hedging using Interest Rate Futures could be perfect or imperfect, subject to applicable regulations. Usage of derivatives may expose the Scheme to certain risks inherent to such derivatives.

It may also invest in securitized debt.

The scheme may also invest in Units issued by REITs & InvITs.

The scheme may undertake repo transactions in corporate debt securities in accordance with the directions issued by RBI and SEBI from time to time. Such investment shall be made subject to the guidelines which may be prescribed.

For the present, the Scheme does not intend to enter into underwriting obligations. However, if the Scheme does enter into an underwriting agreement, it would do so with the prior approval of the Board of the AMC/Trustees.

The scheme may refer to certain in-house models which would be based on various prevailing broad market parameters and would be dynamic in nature. The same may be referred by the fund manager as required from time to time.

For complete details on 'Derivative Strategies' kindly refer to SAI.

- **ICICI Prudential Bond Fund**

The scheme aims to identify securities which offer optimal level of yields/returns, considering risk-reward ratio. An appropriate mix of debt market securities and money market securities will be used to achieve this. Money Market securities include cash and cash equivalents. The scheme will invest in Debt & Money Market securities such that the Macaulay duration of the portfolio is between 4 years and 7 years.

The Macaulay duration is the weighted average term to maturity of the cash flows from a bond. The weight of each cash flow is determined by dividing the present value of the cash flow by the price.

The fund manager may, in the interest of investors, in case of anticipated adverse situation reduce the portfolio duration of the scheme up to a duration of 1 year. In such

cases, the AMC shall record and maintain the reasons for the same. The reasons shall be placed before the Trustees in the subsequent Trustee meeting.

With the aim of controlling risks, rigorous in depth credit evaluation of the securities proposed to be invested in will be carried out by the Risk Management team of the AMC. The credit evaluation includes a study of the operating environment of the company, the past track record as well as the future prospects of the issuer, the short as well as longer-term financial health of the issuer.

B. Periodic Disclosures

i. Portfolio Disclosures

The AMC shall disclose portfolio of the scheme (along with ISIN) as on the last day of the month / half-year within 10 days from the close of each month / half-year respectively on website of:

AMC i.e. <https://www.icicipruamc.com/media-center/downloads?currentTabFilter=otherSchemeDisclosures&&subCatTabFilter=MonthlyPortfolioDisclosures>
AMFI i.e. www.amfiindia.com.

The AMC shall send via email both the monthly and half-yearly statement of scheme portfolio within 10 days from the close of each month / half-year respectively. The AMC shall send the details of the scheme portfolio while communicating the monthly and half-yearly statement of scheme portfolio via email or any other mode as may be communicated by SEBI/AMFI from time to time within the prescribed timelines. The AMC shall provide a feature wherein a link is provided to the investors to their registered email address to enable the investor to directly view/download only the portfolio of schemes subscribed by the said investor. The portfolio disclosure shall also include the scheme risk-o-meter, name of benchmark and risk-o-meter of benchmark.

The AMC shall publish an advertisement in all India edition of at least two daily newspapers, one each in English and Hindi, every half year disclosing the hosting of the half-yearly statement of the scheme's portfolio on the AMC's website and on the website of AMFI.

The unitholders whose e-mail addresses are not registered with the Fund are requested to update / provide their email address to the Fund for updating the database. The AMC shall provide a physical copy of the statement of scheme portfolio, without charging any cost, on specific request received from a unit holder.

ii. Annual Report

The scheme wise annual report shall be hosted on the website of the AMC and on the website of the AMFI soon as may be possible but not later than four months from the date of closure of the relevant accounts year. The AMC shall publish an

advertisement every year in all India edition of at least two daily newspapers, one each in English and Hindi, disclosing the hosting of the scheme wise annual report on the website of the AMC <https://www.icicipruamc.com/about-us/financials-&-disclosures>

The AMC shall display prominently on the AMC's website link of the scheme wise annual report and physical copy of the same shall be made available to the unitholders at the registered / corporate office of the AMC at all times.

iii. Half – Yearly Financial Results

The AMC shall within one month from the close of each half year, that is on 31st March and on 30th September, host a soft copy of its unaudited financial results on their website <https://www.icicipruamc.com/about-us/financials-&-disclosures>. Further, the AMC shall publish an advertisement disclosing the hosting of such financial results on their website, in atleast one English daily newspaper having nationwide circulation and in a newspaper having wide circulation published in the language of the region where the Head Office of the mutual fund is situated.

iv. Disclosure on Riskometers and Scheme Summary Document (SSD)

In accordance with paragraph 17.4 of the master circular Risk-o-meter shall be evaluated on a monthly basis and Mutual Funds/AMCs shall disclose the Risk-o-meter along with portfolio disclosure for all their schemes on their respective website and on AMFI website within 10 days from the close of each month. Any change in risk-o-meter of the Scheme or its benchmark shall be communicated by way of Notice cum Addendum and by way of an e-mail or SMS to unitholders of that particular scheme.

Risk-o-meter shall have following six levels of risk for the Scheme

- i. Low risk
- ii. Low to Moderate risk
- iii. Moderate risk
- iv. Moderately High risk
- v. High - risk and
- vi. Very High risk

The evaluation of risk levels of a scheme shall be done in accordance with the aforesaid circular.

A Scheme Summary Document (SSD) of the Scheme which contains details such as Scheme features, Fund Manager details, investment details, investment objective, expense ratio etc will be made available on the website of the AMC and AMFI. The SSD will be updated within 5 working days from the date of change or modification in the Scheme.

Transaction charges and stamp duty

A. Transaction charges:

No transaction charges to be levied on the investment amount from transactions/applications (including SIPs) received through distributors (i.e. for Regular Plans). Accordingly, payment of transaction charges to the distributors has been discontinued.

Please refer to SAI for more details.

B. Stamp Duty:

Pursuant to Notification No. S.O. 1226(E) and G.S.R. 226(E) dated March 30, 2020 issued by Department of Revenue, Ministry of Finance, Government of India, read with Part I of Chapter IV of Notification dated February 21, 2019 issued by Legislative Department, Ministry of Law and Justice, Government of India on the Finance Act, 2019, a stamp duty @ 0.005% of the transaction value would be levied on applicable mutual fund transactions, with effect from July 1, 2020. Accordingly, pursuant to levy of stamp duty, the number of units allotted on purchase transactions (including IDCW reinvestment) to the unitholders would be reduced to that extent.

C. Transparency/NAV Disclosure

The NAV will be calculated and disclosed by 12.00 noon. of the following business day. NAV will be determined on by 12.00 noon. of the following business day except in special circumstances. NAV of the scheme shall be:

- Prominently disclosed by the AMC under a separate head on the AMC's website <https://www.icicipruamc.com/home> by 12.00 noon. of the following business day,
- On the website of Association of Mutual Funds in India - AMFI (www.amfiindia.com) by 12.00 noon. of the following business day, and
- Shall be made available at all Customer Service Centres of the AMC.

As the scheme is permitted to invests in units of mutual fund schemes which invest in international markets, thus the scheme requires extended timeline for NAV disclosure to ensure that all securities are valued basis same day valuation.

In light of the above, NAV of the scheme would be declared by 12.00 noon on the following business day. In case any of the scheme ceases to hold exposure to any overseas securities, NAV of the scheme for that day will continue to be declared on 12.00 noon on the following business day.

Subsequent to that day, NAV of the scheme shall be declared on 10.00 a.m., on the following business day.

In case of any delay, the reasons for such delay would be explained to AMFI and SEBI by the next business day. If the NAVs are not available before commencement of business hours on the following day due to any reason, the Fund shall issue a press release providing reasons and explaining when the Fund would be able to publish the NAVs.

E. Associate Transactions

Please refer to Statement of Additional Information (SAI).

F. Taxation

As per the provisions of the Income-tax Act, 1961, as amended from time to time:

Particulars	Tax rates [#] applicable for Resident Investors (Refer note 2)	Tax rates [#] applicable for Non-Resident Investors (Refer note 2)	Tax rates applicable for Mutual Fund
Tax on IDCW	Taxable as per applicable tax rates	Taxable as per applicable tax rates	Nil
Long Term Capital Gains on sale of listed and unlisted units transferred	12.5% without Indexation Listed - held for more than 12 months Unlisted – held for more than 24 months)	12.5% without Indexation (Listed - held for more than 12 months Unlisted – held for more than 24 months)	Nil
Short Term Capital Gains on sale of listed and unlisted units	Income tax rate applicable to the unit holders as per their income slabs (*) (Listed - held for less than 12 months Unlisted – held for less than 24 months)	Non-resident (other than company) - Income tax rate applicable to the unit holders as per their income slabs Foreign company – 35% (Listed - held for less than 12 months Unlisted – held for less than 24 months)	Nil

Note:

1. As per the the provisions of the Income-tax Act, 1961, as amended from time to time, the scheme is classified as “other mutual fund”.
2. As per section 50AA of the Act, “specified mutual fund” means (a) a Mutual Fund by whatever name called, which invests more than sixty-five per cent of its total proceeds in debt and money market instruments; or (b) a fund which invests sixty-

five per cent or more of its total proceeds in units of a fund referred to in sub-clause (a).”

Provided that the percentage of investment in debt and money market instruments or in units of a fund, as the case may be, in respect of the Specified Mutual Fund, shall be computed with reference to the annual average of the daily closing figures.

Provided further that for the purposes of this clause, “debt and money market instruments” shall include any securities, by whatever name called, classified or regulated as debt and money market instruments by the Securities and Exchange Board of India.’

3. Income of the Mutual Fund is exempt from income tax in accordance with the provisions of Section 10(23D) of the Income-tax Act, 1961 (Act).
4. If the total income of a resident investor (being individual or HUF) [without considering such Long Term Capital Gains / Short Term Capital Gains] is less than the basic exemption limit, then such Long-term capital gains/short-term capital gains should be first adjusted towards basic exemption limit and only excess should be chargeable to tax.

Non-resident investors may be subject to a separate of tax regime / eligible to benefits under Tax Treaties, depending upon the facts of the case. The same has not been captured above.

A rebate of up to Rs. 12,500 is available under the old regime for resident individuals whose total income does not exceed Rs. 5,00,000.

The Finance Act, 2025 amended Section 87A of the Act to provide that where an Individual apply for lower slab rates provided under section 115BAC(1A) of the Act (i.e., new regime) and the total income:

- i. does not exceed 12,00,000, a rebate shall be provided on tax to the extent of an amount equal to 100% of such income-tax or an amount of INR 60,000 (whichever is less);
- ii. exceeds INR 12,00,000 and the income-tax payable on such total income exceeds the amount by which the total income is in excess of 12,00,000, a rebate shall be provided on tax of an amount equal to the amount by which the tax payable is in excess of the amount by which the total income exceeds 12,00,000

Further, such rebate of income-tax will not be available on tax on incomes chargeable to tax at special rates (for e.g.: capital gains u/s 111A, 112 and 112A etc.)

(*) A tax rate of 25% (plus applicable surcharge and health and education cess) is applicable for the financial year 2025-26 in the case of domestic companies having total turnover or gross receipts not exceeding Rs. 400 crores in the financial year 2023-24. Domestic companies may opt for a lower tax rate of 22% (plus fixed surcharge at the rate of 10% and health and education cess) (as per section 115BAA of the Act), subject to fulfillment of prescribed conditions. Further, new domestic manufacturing companies may opt for a lower tax rate of 15% (plus fixed surcharge at the rate of 10% and health and education cess) (as per section 115BAB of the Act), subject to fulfillment of prescribed conditions.

Excluding applicable surcharge and cess.

For details on Stamp Duty, please refer SAI.

For further details on taxation please refer to the Section on 'Tax Benefits of investing in the Mutual Fund' provided in 'Statement of Additional Information ('SAI')'.

Please consult your tax advisor for further details on taxation.

G. Rights of Unitholders

Please refer to SAI for details.

H. List of official points of acceptance/ Additional official transaction acceptance points CAMS Transaction Points):

The details of the points of acceptance/ Additional official transaction acceptance points CAMS Transaction Points) can be accessed at the following link: [SID related information \(icicipruamc.com\)](#)

In addition to the existing Official Point of Acceptance of transactions, Computer Age Management Services Ltd. (CAMS), the Registrar and Transfer Agent of ICICI Prudential Mutual Fund, having its office at New No 10. Old No. 178, Opp. to Hotel Palm Grove, MGR Salai (K.H.Road), Chennai - 600 034 shall be an official point of acceptance for electronic transactions received from the Channel Partners with whom ICICI Prudential Asset Management Company Limited has entered or may enter into specific arrangements for all financial transactions relating to the units of mutual fund schemes. Additionally, the secure Internet sites operated by CAMS will also be official point of acceptance only for the limited purpose of all channel partners transactions based on agreements entered into between IPMF and such authorized entities. Additionally, the Internet site(s) operated by the AMC and online applications of the AMC [including i-Invest i Pru (previously IPRUTouch)] will also be official point of acceptance. The AMC also accepts applications received on designated FAX numbers.

In addition to the existing Official Point of Acceptance of transactions, authorized Points of Service (POS) of MF Utilities India Private Limited (MFUI) shall be an official point of acceptance for all financial and non- financial transactions. The updated list of POS of MFUI is available on www.mfuindia.com. The online transaction portal of MFUI is www.mfuonline.com. Further, Investors can also subscribe units of the Scheme during the NFO Period by availing the platforms/facilities made available by the Stock Exchanges.

For the updated list of official Point of Acceptance of transactions of AMC and CAMS, please refer the website of the AMC viz., www.icicipruamc.com

Open Network for Digital Commerce (ONDC)

The schemes of ICICI Prudential Mutual Fund (the Fund) are now available to be transacted through the Open Network for Digital Commerce (ONDC) ("Network").

To facilitate transactions through this Network, the Fund has/shall enter into agreement with service provider(s) who would provide backend platform on behalf of the Fund. The said platform would be considered as an 'OPAT'.

Accordingly, for the purpose of determining the applicability of NAV, the time at which request for purchase / sale / switch of units is received on the server(s) of the said platform will be considered as time of receipt of transaction with the AMC.

As per existing system architecture of ONDC network, currently regular plans of the schemes of ICICI Prudential Mutual Fund are available for transaction through this route.
