I. INTRODUCTION

A. RISK FACTORS 2

Standard Risk Factors:

- Mutual Funds and securities investments are subject to market risks and there is no assurance or guarantee that the objectives of the Scheme will be achieved.
- Investment in Mutual Fund Units involves investment risks such as trading volumes, settlement risk, liquidity risk, default risk including the possible loss of principal.
- As the price / value / interest rates of the securities in which the scheme invests fluctuates, the value of your investment in the scheme may go up or down depending on the factors and forces affecting the capital markets.
- Past performance of the Sponsor and other affiliates/AMC/Mutual Fund (or any of its schemes) does not guarantee future performance of the scheme.
- The name of the scheme does not in any manner indicate either the quality of the scheme or its future prospects and returns.
- The sponsor is not responsible or liable for any loss resulting from the operation of the scheme beyond the initial contribution of Rs.30,000 made by it towards setting up the Fund.
- The present scheme is not a guaranteed or assured return scheme.

Scheme Specific Risk Factors

- The value of the Scheme's investments, may be affected generally by factors affecting securities markets, such as price and volume volatility in the capital markets, interest rates, currency exchange rates, changes in policies of the Government, taxation laws or any other appropriate authority policies and other political and economic developments which may have an adverse bearing on individual securities, a specific sector or all sectors including equity and debt markets. Consequently, the NAV of the Units of the Scheme may fluctuate and can go up or down.
- The NAV of the Scheme is likely to be affected by changes in the prevailing rates of interest.
- Different segments of the Indian financial markets have different settlement periods and such periods may be extended significantly by unforeseen circumstances. The inability of the Scheme to make intended securities purchases due to settlement problems could cause the Scheme to miss certain investment opportunities. By the same rationale, the inability to sell securities held in the Scheme's portfolio due to the absence of a well developed and liquid secondary market for debt securities would result, at times, in potential losses to the Scheme, in case of a subsequent decline in the value of securities held in the Scheme's portfolio.
- Different types of securities in which the scheme would invest (bonds / money market instruments etc.) as given in the Scheme Information Document carry different levels and types of risks. Accordingly the scheme's risk may increase or decrease depending upon its investment pattern. Corporate bonds carry a higher amount of risk than Government securities. Further even among corporate bonds, bonds which are AAA rated are comparatively less risky than bonds which are AA rated.

Risk related to fixed income securities

- **Price-Risk or Interest-Rate Risk:** Fixed income securities such as Bank CD run price-risk or interest-rate risk. Generally, when interest rates rise, prices of existing fixed income securities fall and when interest rates drop, such prices increase. The extent of fall or rise in the prices is a function of the existing coupon, days to maturity and the increase or decrease in the level of interest rates.
- **Re-investment Risk:** Investments in fixed income securities may carry re-investment risk as interest rates prevailing on the interest or maturity due dates may differ from the original coupon of the bond. Consequently, the proceeds may get invested at a lower rate.
- **Basis Risk (Interest - rate movement):** Basis risk in finance is the risk associated with imperfect hedging. It could arise because of difference in performance of both the asset classes (e.g., long 5 year bond at 9% and pay 5 year OIS at 7.00%, giving spot spread of 200 bps, this

spread may increase or decrease in future depending upon market conditions as both these asset classes may not move in identical manner)

- **Spread Risk:** In a floating rate security the coupon is expressed in terms of a spread or mark up over the benchmark rate. However, depending upon the market conditions, the spreads may move adversely or favourably leading to fluctuation in the NAV.
- **Liquidity Risk:** Due to the evolving nature of the floating rate market, there may be an increased risk of liquidity risk in the portfolio from time to time.
- **Other Risk:** In case of downward movement of interest rates, floating rate debt instruments will give a lower return than fixed rate debt instruments.
- **Credit Risk:** In simple terms this risk means that the issuer of a debenture/bond or a money market instrument may default on interest payment or even in paying back the principal amount on maturity. Even where no default occurs, the price of a security may go down because the credit rating of an issuer goes down. It must, however, be noted that where the Scheme has invested in Government Securities, there is no credit risk to that extent. Different types of securities in which the scheme would invest as given in the scheme information document carry different levels and types of risk. Accordingly the scheme's risk may increase or decrease depending upon its investment pattern. E.g. corporate bonds carry a higher amount of risk than Government securities. Further even among corporate bonds, bonds which are AAA rated are comparatively less risky than bonds which are AA rated. Similarly, unrated securities may be comparatively more risky than rated securities.
- **Quality Risk:** This is the risk of investing in unsustainable/weak companies.
- **Price/timing risk:** This is the risk of buying the bonds at lower yields compared to fair value due to timing of purchases. Being a close-ended fund, the portfolio is built at the same time and investors are exposed to timing risks.
- **Short-selling of Securities:** Purchasing a security entails the risk of the security price going down. Short selling of securities (i.e. sale of securities without owning them) entails the risk of the security price going up there by decreasing the profitability of the short position. Short selling is subject to risks related to fluctuations in market price, and settlement/liquidity risks. If required by the Regulations, short selling may entail margin money to be deposited with the clearing house and daily mark to market of the prices and margins. This may impact fund pricing and may induce liquidity risks if the fund is not able to provide adequate margins to the clearing house. Failure to meet margin requirements may result in penalties being imposed by the exchanges and clearing house.
- **Securities Lending:** Engaging in securities lending is subject to risks related to fluctuations in collateral value and settlement/liquidity and counter party risks. The risks in lending portfolio securities, as with other extensions of credit, consist of the failure of another party, in this case the approved intermediary, to comply with the terms of agreement entered into between the lender of securities i.e. the Scheme and the approved intermediary. Such failure to comply can result in the possible loss of rights in the collateral put up by the borrower of the securities, the inability of the approved intermediary to return the securities deposited by the lender and the possible loss of any corporate benefits accruing to the lender from the securities deposited with the approved intermediary. The Mutual Fund may not be able to sell such lent securities and this can lead to temporary illiquidity.

Risk associated with investing in foreign securities

It is AMC's belief that the investment in overseas securities offer new investment and portfolio diversification opportunities into multi-market and multi-currency products. However, such investments also entail additional risks. Such investment opportunities may be pursued by the AMC provided they are considered appropriate in terms of the overall investment objectives of the schemes. Since the Schemes would invest only partially in overseas securities, there may not be readily available and widely accepted benchmarks to measure performance of the Schemes.

To the extent the assets of the scheme(s) are invested in overseas financial assets, there may be risks associated with currency movements, restrictions on repatriation and transaction procedures in overseas market. Further, the repatriation of capital to India may also be hampered by changes in

regulations or political circumstances as well as the application to it of other restrictions on investment. In addition, country risks would include events such as introduction of extraordinary exchange controls, economic deterioration, bi-lateral conflict leading to immobilization of the overseas financial assets and the prevalent tax laws of the respective jurisdiction for execution of trades or otherwise.

The Scheme(s) may also invest in Foreign Securities as permitted by Reserve Bank of India and Securities and Exchange Board of India from time to time. To the extent that some part of the assets of the Scheme(s) may be invested in securities denominated in foreign currencies, Indian Rupee equivalent of the net assets, distributions and income may be adversely affected by the changes in the value of certain foreign currencies relative to the Indian Rupee. The repatriation of capital also may be hampered by changes in regulations concerning exchange controls or political circumstances as well as the application to it of other restrictions on investment as applicable.

As the investment may be made in stocks of different countries, the portfolio shall be exposed to the political, economic and social risks with respect to each country. However, the portfolio manager shall ensure that his exposure to each country is limited so that the portfolio is not exposed to one country. Investments in various economies will also diversify and reduce this risk.

Currency Risk: The scheme(s) may invest in securities denominated in a broad range of currencies and may maintain cash in such currencies. As a consequence, fluctuations in the value of such currencies against the currency denomination of the relevant scheme will have a corresponding impact on the value of the portfolio. Furthermore, investors should be aware that movements in the rate of exchange between the currency of denomination of a fund and their home currency will affect the value of their shareholding when measured in their home currency.

In respect of the corpus of the Scheme(s) that is invested in overseas mutual fund schemes, investors shall bear the proportionate recurring expenses of such underlying scheme(s), in addition to the recurring expenses of the Scheme(s). Therefore, the returns attributable to such investments by the Scheme(s) may be impacted or may, at times, be lower than the returns that the investors could obtain by directly investing in the said underlying scheme(s).

To manage risks associated with foreign currency and interest rate exposure, the Fund may use derivatives for efficient portfolio management including hedging and in accordance with conditions as may be stipulated by SEBI/RBI from time to time. Offshore investments will be made subject to any/all approvals, conditions thereof as may be stipulated by SEBI/RBI and provided such investments do not result in expenses to the Fund in excess of the ceiling on expenses prescribed by and consistent with costs and expenses attendant to international investing. The Fund may, where necessary, appoint other intermediaries of repute as advisors, custodian/sub-custodians etc. for managing and administering such investments. The appointment of such intermediaries shall be in accordance with the applicable requirements of SEBI and within the permissible ceilings of expenses. The fees and expenses would illustratively include, besides the investment management fees, custody fees and costs, fees of appointed advisors and sub-managers, transaction costs, and overseas regulatory costs.

Risks associated with Investing in Derivatives:
Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the fund manager to identify such opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and decision of fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies. The risks associated with the use of derivatives are different from or possibly greater than, the risks associated with investing directly in securities and other traditional investments. As and when the Scheme trade in the derivatives market there are risk factors and issues concerning the use of derivatives that investors should understand. Derivative products are specialized instruments that

require investment techniques and risk analyses different from those associated with bonds. The use of a derivative requires an understanding not only of the underlying instrument but of the derivative itself. Derivatives require the maintenance of adequate controls to monitor the transactions entered into, the ability to assess the risk that a derivative adds to the portfolio and the ability to forecast price or interest rate movements correctly. There is the possibility that a loss may be sustained by the portfolio as a result of the failure of another party (usually referred to as the "counter party") to comply with the terms of the derivatives contract. Other risks in using derivatives include the risk of mispricing or improper valuation of derivatives and the inability of derivatives to correlate perfectly with underlying assets, rates and indices.

Derivatives are highly leveraged instruments. Even a small price movement in the underlying security could have a large impact on their value. Also, the market for derivative instruments is nascent in India.
The risks associated with the use of derivatives are different from or possibly greater than the risks associated with investing directly in securities and other traditional investments.

The specific risk factors arising out of a derivative strategy used by the Fund Manager may be as below:

- Lack of opportunity available in the market.
- The risk of mispricing or improper valuation and the inability of derivatives to correlate perfectly with underlying assets, rates and indices.

Risk associated with Interest Rate Future (IRFs):
An Interest Rate Futures is an agreement to buy or sell a debt instruments at a specified future date at a price that is fixed today. Interest Rate Futures are Exchange Traded and are cash settled. Hedging using Interest Rate Futures can be perfect or imperfect. Perfect hedging means hedging the underlying using IRF contract of same underlying.

(i) **Market risk**: Derivatives carry the risk of adverse changes in the market price.
(ii) **Liquidity risk** – This occurs where the derivatives cannot be sold (unwound) at prices that reflect the underlying assets, rates and indices.
(iii) **Model Risk -** The risk of mispricing or improper valuation of derivatives.
(iv) **Basis Risk –** This risk arises when the instrument used as a hedge does not match the movement in the instrument/ underlying asset being hedged. The risks may be inter-related also; for e.g. interest rate movements can affect equity prices, which could influence specific issuer/industry assets.

Risk associated with imperfect hedge using IRF:
In case the IRF used for hedging the interest rate risk has different underlying security than the existing position being hedged, it would result in imperfect hedging.

(i) **Basis Risk**: Basis risk is the risk that arises when the instrument used as a hedge does not match the movement in the instrument/ underlying asset being hedged. This could result into potential gains or losses from the strategy, thus adding risk to the position.
(ii) **Price Risk**: The risk of mispricing or improper valuation and the inability of derivatives to correlate perfectly with underlying assets, rates and indices.
(iii) **Risk of mismatch between the instruments**: The risk arises if there is a mismatch between the prices movements in derivative instrument used to hedge, compared to the price movement of the underlying assets being hedged. For example, when IRF which has government security as underlying is used to hedge a portfolio that contains corporate debt securities.
(iv) **Correlation weakening and consequent risk of regulatory breach**: SEBI Regulation mandates minimum correlation criterion of 0.9 (calculated on a 90-day basis) between the portfolio being hedged and the derivative instrument used for hedging. In cases where the correlation falls below 0.9, a rebalancing period of 5 working days has been permitted. In ability to satisfy this requirement to restore the correlation level to the stipulated level, within the stipulated period,

due to difficulties in rebalancing would lead to a lapse of the exemption in gross exposure computation. The entire derivative exposure would then need to be included in gross exposure, which may result in gross exposure in excess of 100% of net asset value.

Risk Associated with investing in Securitized Debt/ Structured Obligations

The Scheme may invest in domestic securitized debt such as asset backed securities (ABS) or mortgage backed securities (MBS). Asset Backed Securities (ABS) are securitized debts where the underlying assets are receivables arising from various loans including automobile loans, personal loans, loans against consumer durables, etc. Mortgage backed securities (MBS) are securitized debts where the underlying assets are receivables arising from loans backed by mortgage of residential / commercial properties. ABS/MBS instruments reflect the undivided interest in the underlying pool of assets and do not represent the obligation of the issuer of ABS/MBS or the originator of the underlying receivables. The ABS/MBS holders have a limited recourse to the extent of credit enhancement provided. If the delinquencies and credit losses in the underlying pool exceed the credit enhancement provided, ABS/MBS holders will suffer credit losses. ABS/MBS are also normally exposed to a higher level of reinvestment risk as compared to the normal corporate or sovereign debt.

Different types of Securitised Debts in which the scheme would invest carry different levels and types of risks. Accordingly the scheme's risk may increase or decrease depending upon its investments in Securitised Debts. e.g. AAA securitised bonds will have low Credit Risk than a AA securitised bond. Credit Risk on Securitised Bonds may also depend upon the Originator, if the Bonds are issued with Recourse to Originator. A Bond with Recourse will have a lower Credit Risk than a Bond without Recourse. Underlying Assets in Securitised Debt may be the Receivables from Auto Finance, Credit Cards, Home Loans or any such receipts. Credit risk relating to these types of receivables depends upon various factors including macro-economic factors of these industries and economies. To be more specific, factors like nature and adequacy of property mortgaged against these borrowings, loan agreement, mortgage deed in case of Home Loan, adequacy of documentation in case of Auto Finance and Home Loan, capacity of borrower to meet its obligation on borrowings in case of Credit Cards and intentions of the borrower influence the risks relating to the assets (borrowings) underlying the Securitised Debts. Holders of Securitised Assets may have Low Credit Risk with Diversified Retail Base on Underlying Assets, especially when Securitised Assets are created by High Credit Rated Tranches. Risk profiles of Planned Amortisation Class Tranches (PAC), Principal Only Class Tranches (PO) and Interest Only Class Tranches (IO) will also differ, depending upon the interest rate movement and Speed of Pre-payments. A change in market interest rates/prepayments may not change the absolute amount of receivables for the investors, but affects the reinvestment of the periodic cashflows that the investor receives in the securitised paper.

Presently, secondary market for securitised papers is not very liquid. There is no assurance that a deep secondary market will develop for such securities. This could limit the ability of the investor to resell them. Even if a secondary market develops and sales were to take place, these secondary transactions may be at a discount to the initial issue price due to changes in the interest rate structure

Securitised transactions are normally backed by pool of receivables and credit enhancement as stipulated by the rating agency, which differ from issue to issue. The Credit Enhancement stipulated represents a limited loss cover to the Investors. These Certificates represent an undivided beneficial interest in the underlying receivables and there is no obligation of either the Issuer or the Seller or the originator, or the parent or any affiliate of the Seller, Issuer and Originator. No financial recourse is available to the Certificate Holders against the Investors' Representative. Delinquencies and credit losses may cause depletion of the amount available under the Credit Enhancement and thereby the Investor Payouts may get affected if the amount available in the Credit Enhancement facility is not enough to cover the shortfall. On persistent default of an Obligor to repay his obligation, the Seller may repossess and sell the underlying Asset. However many factors may affect, delay or prevent the repossession of such Asset or the length of time required to realize the sale proceeds on such sales. In addition, the price at which such Asset may be sold may be lower than the amount due from that Obligor.

At present in Indian market, following types of loans are securitised:

- Auto Loans (cars / commercial vehicles /two wheelers)
- Residential Mortgages or Housing Loans
- Consumer Durable Loans
- Personal Loans
- Corporates Loans

The main risks pertaining to each of the asset classes above are described below:

Auto Loans (cars / commercial vehicles /two wheelers)
The underlying assets (cars etc) are susceptible to depreciation in value whereas the loans are given at high loan to value ratios. Thus, after a few months, the value of asset becomes lower than the loan outstanding. The borrowers, therefore, may sometimes tend to default on loans and allow the vehicle to be repossessed. These loans are also subject to model risk. ie if a particular automobile model does not become popular, loans given for financing that model have a much higher likelihood of turning bad. In such cases, loss on sale of repossession vehicles is higher than usual.

Commercial vehicle loans are susceptible to the cyclicality in the economy. In a downturn in economy, freight rates drop leading to higher defaults in commercial vehicle loans. Further, the second hand prices of these vehicles also decline in such economic environment.

Housing Loans
Housing loans in India have shown very low default rates historically. However, in recent years, loans have been given at high loan to value ratios and to a much younger borrower classes. The loans have not yet gone through the full economic cycle and have not yet seen a period of declining property prices. Thus the performance of these housing loans is yet to be tested and it need not conform to the historical experience of low default rates.

Consumer Durable Loans
The underlying security for such loans is easily transferable without the bank's knowledge and hence repossession is difficult. The underlying security for such loans is also susceptible to quick depreciation in value. This gives the borrowers a high incentive to default.

Personal Loans
These are unsecured loans. In case of a default, the bank has no security to fall back on. The lender has no control over how the borrower has used the borrowed money. Further, all the above categories of loans have the following common risks:

All the above loans are retail, relatively small value loans. There is a possibility that the borrower takes different loans using the same income proof and thus the income is not sufficient to meet the debt service obligations of all these loans.

In India, there is insufficiency of ready comprehensive and complete database regarding past credit record of borrowers. Thus, loans may be given to borrowers with poor credit record. In retail loans, the risks due to frauds are high.

Corporate Loans
These are loans given to single or multiple corporates. The receivables from a pool of loans to corporate are assigned to a trust that issues Pass through certificates in turn. The credit risk in such PTCs is on the underlying pool of loans to corporates. The credit risk of the underlying loans to the corporates would in turn depend of economic cycles.

Risk associated with investing in Debt instruments having Credit Enhancements

The Scheme may invest in debt instruments having credit enhancements. Credit Enhancement (CE) is a way of improving the credit quality of the said debt instruments by way of some form of explicit credit support from the parent/ group company of the issuer / a third party. The support may be in the form of corporate guarantee, letter of comfort, shortfall undertaking, pledge of shares, standby letter of credit from a commercial bank (majorly in case of Commercial Papers), etc. A common form of credit enhancement is an unconditional & irrevocable guarantee from a higher rated entity covering the issuer's debt obligations. Such instruments carry a suffix 'CE' in their credit rating (e.g. AAA(CE)).

Debt instruments having credit enhancements are subject to the following risks, which in turn may impact the credit profile of the given debt instrument:

- The credit strength of the support provider may deteriorate or the value of the underlying asset / collateral may reduce. A common example would be a sharp reduction in the price of underlying equity shares provided as collateral or a possibility of the guarantor going insolvent, thus impacting the Fund's ability to recover the issuer's debt obligations.
- Any weakness or possible delay in the enforceability of the underlying support or invocation of the underlying asset/collateral owing to regulatory constraints.

Investment by the Scheme in debt instruments, having credit enhancements backed by equity shares directly or indirectly, shall have a minimum cover of 4 times considering the market value of such shares. Further, the AMC will ensure that the investment in debt instruments having credit enhancements are sufficiently covered to address the market volatility and reduce the inefficiencies of invoking of the pledge or cover, whenever required, without impacting the interest of the investors. In case of fall in the value of the cover below the specified limit, the AMC will initiate necessary steps to ensure protection of the interest of the investors.

Risk associated with investing in Repo of Corporate Bond Securities

To the extent the scheme invests in Repo of Corporate Bond Securities, the scheme will be subject to following risks –

- Settlement Risk: Corporate Bond Repo will be settled between two counterparties in the OTC segment unlike in the case of CBLO transactions where CCIL stands as central counterparty on all transactions (no settlement risk).
- Quality of collateral: The Mutual Fund will be exposed to credit risk on the underlying collateral – downward migration of rating. The Mutual Fund will impose adequate haircut on the collateral to cushion against any diminution in the value of the collateral. Collateral will require to be rated AAA or equivalent.

  Liquidity of collateral: In the event of default by the counterparty, the Mutual Fund would have recourse to recover its investments by selling the collateral in the market. If the underlying collateral is illiquid, then the Mutual Fund may incur an impact cost at the time of sale (lower price realization).

Close-ended scheme related risks

The tenor of the Scheme shall be 1,202 days from the date of allotment and no redemption/ repurchase of units shall be allowed prior to the maturity of the scheme. The investor invests in such scheme with an expectation of generating returns over the tenor of the scheme. The fund manager also invests funds as per the stated strategy keeping the above tenor in mind. While this allows the fund manager to take relatively long term investment calls without worrying about redemptions mid-way, in such scheme, the unit holder cannot exit the scheme before the maturity of the scheme, irrespective of changes in market conditions and alternative investment opportunities. Secondly, the stated strategy of the scheme may not be realized, within the tenor of the scheme.

Further, for the units listed on the exchange, it is possible that the market price at which the units are traded may be at a discount to the NAV of such Units. Hence, Unit Holders who sell their Units in a Scheme prior to maturity may not get the desired returns.

Listing related risks

Listing of the units of the fund does not necessarily guarantee their liquidity and there can be no assurance that an active secondary market for the units will develop or be maintained. Consequently, the Fund may quote below its face value / NAV.

Trading in Units of the scheme on the Exchange may be halted because of market conditions or for reasons that in view of Exchange Authorities or SEBI, trading in Units of the scheme) is not advisable. In addition, trading in Units of the Scheme is subject to trading halts caused by extraordinary market volatility and pursuant to Exchange and SEBI 'circuit filter' rules. There can be no assurance that the requirements of Exchange necessary to maintain the listing of Units of the scheme will continue to be met or will remain unchanged. Any changes in trading regulations by the Stock Exchange(s) or SEBI may inter-alia result in wider premium/ discount to NAV. The Units of the scheme may trade above or below their NAV. The NAV of the respective scheme will fluctuate with changes in the market value of Series' holdings. The trading prices of Units of the scheme will fluctuate in accordance with changes in their NAV as well as market supply and demand for the Units of the scheme. The Units will be issued in demat form through depositories. The records of the depository are final with respect to the number of Units available to the credit of Unit holder. Settlement of trades, repurchase of Units by the Mutual Fund on the maturity date will depend upon the confirmations to be received from depository (ies) on which the Mutual Fund has no control.

The market price of the Units of the scheme, like any other listed security, is largely dependent on two factors, viz., (1) the intrinsic value of the Unit (or NAV), and (2) demand and supply of Units in the market. Sizeable demand or supply of the Units in the Exchange may lead to market price of the Units to quote at premium or discount to NAV. As the Units allotted under scheme of the Scheme will be listed on the Exchange, the Mutual Fund shall not provide for redemption / repurchase of Units prior to maturity date of the scheme.

Risk Mitigation Strategies:

The Fund by utilizing a holistic risk management strategy will endeavor to manage risks associated with investing in debt markets. The risk control process involves identifying & measuring the risk through various risk measurement tools.

The Fund has identified following risks of investing in bonds and designed risk management strategies, which are embedded in the investment process to manage such risks.

- Credit / Quality risk - Stringent credit evaluation process to ensure high quality portfolio.
- Price/ timing risk - The purchases can be spread over a shorter time frame to ensure the impact is minimised.

Risk associated with Debt Investment

Risk Description	Risk Mitigants/management strategy
Market Risk As with all debt securities, changes in interest rates may affect the Scheme's Net Asset Value as the prices of securities generally increase as interest rates decline and generally decrease as interest rates rise. Prices of long-term securities generally fluctuate more in response to interest rate changes than do short-term securities. Indian debt markets can be volatile leading to the possibility of price movements up or down in fixed income securities and thereby to possible movements in the NAV.	In a rising interest rates scenario the Fund Managers will endeavor to increase its investment in money market securities whereas if the interest rates are expected to fall the allocation to debt securities with longer maturity will be increased thereby mitigating risk to that extent.

Risk Description	Risk Mitigants/management strategy
Liquidity or Marketability Risk This refers to the ease with which a security can be sold at or near to its valuation Yield-To-Maturity (YTM). The primary measure of liquidity risk is the spread between the bid price and the offer price quoted by a dealer. Liquidity risk is today characteristic of the Indian fixed income market.	The Scheme may invest in government securities, corporate bonds and money market instruments. While the liquidity risk for government securities, money market instruments and short maturity corporate bonds may be low, it may be high in case of medium to long maturity corporate bonds. Liquidity risk is today characteristic of the Indian fixed income market. The fund will however, endeavor to minimise liquidity risk by investing in securities having a liquid market.
Credit Risk Credit risk or default risk refers to the risk that an issuer of a fixed income security may default (i.e., will be unable to make timely principal and interest payments on the security). Because of this risk corporate debentures are sold at a higher yield above those offered on Government Securities which are sovereign obligations and free of credit risk. Normally, the value of a fixed income security will fluctuate depending upon the changes in the perceived level of credit risk as well as any actual event of default. The greater the credit risk, the greater the yield required for someone to be compensated for the increased risk.	A traditional SWOT analysis will be used for identifying company specific risks. Management's past track record will also be studied. In order to assess financial risk a detailed assessment of the issuer's financial statements will be undertaken to review its ability to undergo stress on cash flows and asset quality. A detailed evaluation of accounting policies, off balance sheet exposures, notes, auditors' comments and disclosure standards will also be made to assess the overall financial risk of the potential borrower. In case of securitized debt instruments, the fund will ensure that these instruments are sufficiently backed by assets.
Reinvestment Risk This risk refers to the interest rate levels at which cash flows received from the securities in the Scheme are reinvested. The additional income from reinvestment is the "interest on interest" component. The risk is that the rate at which interim cash flows can be reinvested may be lower than that originally assumed.	Reinvestment risks will be limited to the extent of coupons received on debt instruments, which will be a very small portion of the portfolio value.
Derivatives Risk As and when the Scheme trades in the derivatives market there are risk factors and issues concerning the use of derivatives that Investors should understand. Derivative products are specialized instruments that require investment techniques and risk analyses different from those associated with stocks and bonds. The use of a derivative requires an understanding not only of the underlying instrument but also of the derivative itself. Derivatives require the maintenance of adequate controls to monitor the transactions entered into, the ability to assess the risk that a derivative adds to the portfolio and the ability to forecast price or interest rate movements correctly. There is the possibility that a loss may be sustained by the portfolio as a result of the failure of another party (usually referred to as the "counter party") to comply with the terms of the derivatives	The fund has provision for using derivative instruments for portfolio balancing and hedging purposes. Interest Rate Swaps will be done with approved counter parties under pre approved ISDA agreements. Mark to Market of swaps, netting off of cash flow and default provision clauses will be provided as per international best practice on a reciprocal basis. Interest rate swaps and other derivative instruments will be used as per local (RBI and SEBI) regulatory guidelines.

Risk Description	Risk Mitigants/management strategy
contract. Other risks in using derivatives include the risk of mis-pricing or improper valuation of derivatives and the inability of derivatives to correlate perfectly with underlying assets, rates and indices.	

B. REQUIREMENT OF MINIMUM INVESTORS IN THE SCHEME (Being a close ended scheme, post NFO this provision is not applicable.)

The Scheme(s) and individual Plan(s) under the Scheme(s) shall have a minimum of 20 investors and no single investor shall account for more than 25% of the corpus of the Scheme(s)/Plan(s). These conditions will be complied with immediately after the close of the NFO itself i.e. at the time of allotment. In case of non-fulfilment with the condition of minimum 20 investors at the scheme level, shall be wound up in accordance with Regulation 39 (2) (c) of SEBI (MF) Regulations automatically without any reference from SEBI. In case of non-fulfilment with the condition of 25% holding by a single investor on the date of allotment, the application to the extent of exposure in excess of the stipulated 25% limit would be liable to be rejected and the allotment would be effective only to the extent of 25% of the corpus collected. Consequently, such exposure over 25% limits will lead to refund within five business days of the date of closure of the New Fund Offer.

C. SPECIAL CONSIDERATIONS, if any

All the above factors not only affect the prices of securities but may also affect the time taken by the Fund for redemption of units, which could be significant in the event of receipt of a very large number of redemption requests or very large value of redemption requests. The liquidity of the assets may be affected by other factors such as general market conditions, political events, bank holidays and civil strife. In view of this, the Trustee has the right in its sole discretion to limit redemption (including suspension of redemption) under certain circumstances as described in the SAI.

The liquidity of the Scheme's investments may be restricted by trading volumes, settlement periods and transfer procedures. In the event of an inordinately large number of redemption requests or of a restructuring of the Scheme's portfolio, the time taken by the Scheme for redemption of Units may become significant. In view of this, the Trustee has the right in its sole discretion to limit redemption (including suspension of redemption) under certain circumstances as described in the SAI.

Redemptions due to change in the fundamental attributes of the Scheme or due to any other reasons may entail tax consequences. The Trustee, AMC, Mutual Fund, their directors or their employees shall not be liable for any such tax consequences that may arise.

The Scheme may trade in derivatives as permitted under the Regulations subject to guidelines issued by SEBI and RBI from time to time. Trading in Derivatives involves risks, which are explained in Section titled "RISK FACTORS".

The Scheme may also invest in overseas financial assets as permitted under the applicable regulations. To the extent that the assets of the Scheme will be invested in securities denominated in foreign currencies, the Indian Rupee equivalent of the net assets, distributions and income may be adversely affected by changes in the value of certain foreign currencies relative to the Indian Rupee. The repatriation of capital to India may also be hampered by changes in regulations concerning exchange controls or political circumstances as well as the application to it of other restrictions on investment.

The tax benefits described in this Scheme Information Document are as available under the present taxation laws and are available subject to conditions. The information given is included for general purpose only and is based on advice received by the AMC regarding the law and practice in force in India and the Unitholders should be aware that the relevant fiscal rules or their interpretation may

II. INFORMATION ABOUT THE SCHEME

A. TYPE OF THE SCHEME

Close-ended debt scheme with tenure 1,202 days

B. INVESTMENT OBJECTIVE

The Scheme seeks to generate income by investing in a portfolio of debt and money market instruments maturing on or before the maturity of the scheme.

Disclaimer: There is no assurance or guarantee that the objectives of the scheme will be realized

C. ASSET ALLOCATION 14

The asset allocation under the Scheme will be as follows for the below mentioned scheme:

Instruments	Indicative Allocation (% of Total assets)		Risk Profile
	Maximum	Minimum	
Money market Instruments (including CBLO)	20	0	Low to Medium
Debt Securities	100	80	Medium to High

Investment in Securitised Debt - up to 50% of total assets
Investment in Foreign securities - up to 10% of total assets
Exposure in Derivatives - up to 100% of total assets
Investment in Securities lending - up to 20% of the total assets with maximum single party exposure restricted to 5% of the total assets
Gross Exposure to Repo of Corporate Debt Securities – up to the extent permitted by the Regulations (currently up to 10% of total assets, subject to change in line with the regulations from time to time)

The Scheme may engage in short selling of securities in accordance with the applicable guidelines / regulations.The cumulative gross exposure through derivatives, debt & money market instruments along with repo transactions in corporate debt securities shall not exceed 100% of the net assets of the Scheme.

Change in Investment Pattern
Subject to the SEBI Regulations, the asset allocation pattern indicated above may change from time to time, keeping in view market conditions, market opportunities, applicable regulations and political and economic factors. These proportions can vary substantially depending upon the perception of the Investment Manager; the intention being at all times to seek to protect the interests of the Unit holders. Such changes in the investment pattern will be for short term and for defensive considerations only which would be within 30 days from the date of deviation. In case the same is not aligned to the above asset allocation pattern within 30 days as indicated above, justification shall be provided to the Investment committee. The Investment committee shall then decide on the course of action.

NOTE ON DEBT MARKET & MONEY MARKET IN INDIA 12

The Indian debt markets are one of the largest such markets in Asia. Government and Public Sector enterprises are predominant borrowers in the market. While interest rates were regulated till a few years back, there has been a rapid deregulation and currently both the lending and deposit rates are market determined.

The debt markets are developing fast, with the rapid introduction of new instruments including

Foreign Portfolio Investors are also allowed to invest in Indian debt markets now. There has been a considerable increase in the trading volumes in the market. The trading volumes are largely concentrated in the Government of India Securities, which contribute a significant proportion of the daily trades.

The money markets in India essentially consist of the call money market (i.e. market for overnight and term money between banks and institutions), repo transactions (temporary sale with an agreement to buy back the securities at a future date at a specified price), commercial papers (CPs, short term unsecured promissory notes, generally issued by corporates), certificate of deposits (CDs, issued by banks) and Treasury Bills & Cash Management Bills (issued by RBI). In a predominantly institutional market, the key money market players are banks, financial institutions, insurance companies, mutual funds, primary dealers and corporates.

Following table exhibits various debt instruments along with indicative yields as on May 29, 2020:

Instruments	Yield level (% per annum)
G – Sec 5 year	5.43
G – Sec 10 year	5.76
CP's 3 months	4.40
CD's 3 months	3.40
CP's 1 year	5.70
CD's 1 year	4.40
NON PSU	
Corporate Debentures AAA 3 year	6.80
Corporate Debentures AAA 5 year	6.90
PSU	
Corporate Debentures AAA 3 year	5.35
Corporate Debentures AAA 5 year	5.70

The actual yields will, however, vary in line with general levels of interest rates and debt/money market conditions prevailing from time to time.

The mutual fund or AMC and its empanelled brokers have not given and shall not give any indicative portfolio and indicative yield in any communication, in any manner whatsoever. Investors are advised not to rely on any communication regarding indicative yield/ portfolio with regard to the scheme.

D. WHERE WILL THE SCHEME INVEST? 15

The corpus of the Series(s) under the Scheme will be invested in debt and money market instruments. Subject to the Regulations, the corpus of the Scheme can be invested in any (but not exclusively) of the following securities:

1. Securities created and issued by the Central and State Governments and/or repos/reverse repos in such Government Securities as may be permitted by RBI (including but not limited to Coupon bearing Bonds, Zero Coupon Bonds, Treasury Bills and Cash Management Bills)
2. Securities guaranteed by the Central and State Governments (including but not limited to coupon bearing Bonds, Zero Coupon Bonds, Treasury Bills and Cash Management Bills)
3. Debt instruments issued by Companies / institutions promoted / owned by the Central or State Governments and statutory bodies, which may or may not carry a Central/State Government guarantee.
4. Corporate Debt and Securities (of both public and private sector undertakings) including Bonds, Debentures, Notes, Strips, etc.
5. Debt instruments issued by banks (both public and private sector) and development financial institutions.
6. Securitised Debt

7. Permitted foreign securities (except foreign securitised debt)
8. Money market instruments permitted by SEBI, or in alternative investments for the call Money Market as may be provided by RBI to meet the liquidity requirements.
9. Certificate of Deposits (CDs).
10. Commercial Paper (CPs).
11. Derivatives
12. Any other like instruments as may be permitted by SEBI/ RBI from time to time.

The securities mentioned above and such other securities the Scheme is permitted to invest in could be listed, unlisted, privately placed, secured, unsecured, rated or unrated and of any maturity on or before the maturity of the scheme. The securities may be acquired through Initial Public offerings (IPOs), secondary market operations, private placement, rights offers or negotiated deals.

For the purpose of further diversification and liquidity, the Scheme may invest in another scheme managed by the same AMC or by the AMC of any other Mutual Fund without charging any fees on such investments, provided that aggregate inter-scheme investment made by all schemes managed by the same AMC or by the AMC of any other Mutual Fund shall not exceed 5% of the net asset value of the Fund.

The scheme may invest the funds of the scheme in short term deposits of scheduled commercial banks as permitted under extant regulations. The Scheme may also enter into repurchase and reverse repurchase obligations in Government Securities held by it as per the guidelines and regulations applicable to such transactions.

The Scheme will not make investments in Foreign Securitized Debt.

E. INVESTMENT STRATEGIES AND RISK CONTROL

Investment Strategy 7

The aim of the Investment Manager will be to allocate the assets of the Scheme between various money market and fixed income securities with the objective of achieving optimal returns with a highly liquid portfolio. The actual percentage of investment in various fixed income securities will be decided after considering the prevailing political conditions, the economic environment (including interest rates and inflation), the performance of the corporate sector and general liquidity and other considerations in the economy and markets.

The AMC may approach rating agencies such as CRISIL, ICRA, etc for ratings of the scheme.

Intended asset allocation:

The scheme shall invest in various securities/ instruments as mentioned below with the ratings mentioned against the type of instrument. As per the regulations, the scheme is allowed to invest within a range of 5% of the intended allocation (floor and cap) against each sub asset class/credit rating. The indicative allocation shall be provided at the time of launch of the scheme.

Instruments	Rating	
	AAA	Sovereign
NCDs	80-85%	-
G-sec	-	15-20%

1. The Fund manager reserves the right to improve the portfolio credit quality by deviating the asset allocation in favour of higher credit rated instruments in the same category of instruments at the time of launch of the scheme.
2. All investment shall be made based on the rating prevalent at the time of investment. However, in case of an instrument having dual ratings, the most conservative publically available rating

would be considered.

3. In the event of any deviations from the floor and ceiling of credit ratings specified for any instrument, the same shall be rebalanced within 30 days from the date of deviation. Such changes in the investment pattern will be for a short term and for defensive consideration and the intention being at all times to seek to protect the interest of unitholders.
4. In case of non availability and taking into account the risk reward analysis of NCDs the scheme may invest in Treasury Bills, Cash Management Bills,TREPS or CDs of highest credit rating i.e., A1+. Such deviation may exist till suitable NCD of desired credit quality are not available.
5. The scheme shall invest in repo of corporate debt securities up to 10% of total assets.
6. The cumulative gross exposure through derivatives, debt & money market instruments along with repo transactions in corporate debt securities shall not exceed 100% of the net assets of the Scheme.
7. The ratings mentioned shall include the modifiers (+/-). E.g., the ratings AA, A mentioned above shall include AA+ / - or A+/- respectively.
8. At the time of building up the portfolio and towards the end of the maturity of the scheme, the portfolio may have higher allocation to cash and cash equivalent instruments.
9. The above allocation may vary during the duration of the Scheme. Some of these instances are: (i) coupon inflow; (ii) the instrument is called or bought back by the issuer (iii) in anticipation of any adverse credit event etc. In case of such deviations, the Scheme may invest in Treasury Bills, Cash Management Bills, TREPS or CDs of highest credit rating i.e., A1+. Deviation, if any, due to such instances, may continue till the suitable NCDs of desired credit quality are not available.
10. Further, the above allocation may vary during the duration of the Scheme due to occurrence of any adverse credit events such as rating downgrade/credit default. In such case, it would be the discretion of the fund manager to either rebalance the portfolio or continue to hold the instrument in the portfolio in the best interest of the investors.

There shall not be any deviations in the intended allocation and actual allocation post NFO other than the scenario envisaged in points 3, 4, 9 & 10 above due to unavailability of securities with the desired credit quality.

Risk Control

Since investing requires disciplined risk management, the AMC would incorporate adequate safeguards for controlling risks in the portfolio construction process. The risk control process involves reducing risks through portfolio diversification, taking care however not to dilute returns in the process. The AMC believes that this diversification would help achieve the desired level of consistency in returns. The AMC may also implement certain internal control procedures / risk & exposure limits etc., which may be varied from time to time

The AMC aims to identify securities, which offer superior levels of yield at lower levels of risks. With the aim of controlling risks, rigorous in-depth credit evaluation of the securities proposed to be invested in will be carried out by the investment team of the AMC.

Credit Evaluation Policy

The credit evaluation policy of the AMC entails evaluation of credit fundamentals of each underlying exposure. Some of the major factors that are evaluated are:

a) Outlook on the sector
b) Strength & Support of the Parent (promoters/sponsors/holding company or group)
c) Quality of management
d) Overall financial strength of the credit as determined by key financial ratios.

Ratings of recognized rating agencies are taken as a reference point in the credit evaluation process. Investments in bonds and debenture are made usually in instruments that have high investment grade ratings by a recognized rating agency

INVESTMENT IN SECURITISED DEBT

1. How the risk profile of securitized debt fits into the risk appetite of the scheme
Securitization is the fact or process of securitizing assets i.e. the conversion of loans into securities, usually in order to sell them on to other investors. This is done by assigning the loans to a special purpose vehicle (a trust), which in turn issues Pass-Through-Certificates (PTCs). These PTCs are transferable securities with fixed income characteristics. The risk of investing in securitized debt is similar to investing in debt securities.

However it differs mainly in two respects. One, the liquidity of securitized debt is less than similar debt securities. Two, for certain types of securitized debt (backed by mortgages etc.), there is an additional pre-payment risk. Prepayment risk refers to the possibility that loans are repaid before they are due, which may reduce returns if the re-investment rates are lower than initially envisaged.

Because of these additional risks, securitized debt typically offers higher yields than debt securities of similar credit rating and maturity. After considering these additional risks, the investment is no different from investment in a normal debt security. Considering the investment objective of the scheme, these instruments with medium risk profile can be considered in the investment universe. Thus if the Fund Manager judges that the additional risks are suitably compensated by the higher returns, he may invest in securitized debt up to the limits specified in the asset allocation table.

2. Policy relating to originators based on nature of originator, track record, NPAs, losses in earlier securitized debt, etc
Investments in securitized debt will be done based on the assessment of the originator and the securitized debt, which is carried out by the Fixed Income team based on the in-house research capabilities as well as the inputs from the independent credit rating agencies and by following AMC's internal credit process.

Specifically, in order to mitigate the risk at the issuer/originator level the Fixed Income team will consider various factors which will include -
− Track record of the originator in the specific business to which the underlying loans correspond to;
− Size and reach of the issuer/originator;
− Collection infrastructure & collection policies;
− Post default recovery mechanism & infrastructure;
− Underwriting standards & policies followed by originator;
− Management information systems;
− Financials of the originators including an analysis of leverage, NPAs, earnings, etc.
− Future strategy of the company for the specific business to which the underlying loans correspond to;
− Performance track record of Originator's portfolio & securitized pools, if any;
− Utilization of credit enhancement in the prior securitized pools;
− The quality of information disseminated by the issuer/ originator; and
− The credit enhancement for different types of issuer/originator.

Also, assessment of business risk would be carried out which includes -
− Outlook for the economy (both domestic and global); and
− Outlook for the industry

In addition, the fund analyses the specific pool and the broad evaluation parameters are as follows:
− Average seasoning of the loans in the pool
− Average Loan to value ratio of the loans in the pool
− Average ticket size of the loans
− Borrower profile (salaried / self employed, etc)
− Geographical profile of the pool
− Tenure profile of the pool
− Obligor concentration
− Credit enhancement cover available over and above the historic losses on Originator's portfolio

− Expected Prepayment rate in the specific asset class experienced by the originator in the past as well as the industry
− Limited Liquidity and Price Risk.

The scheme will invest in securitized debt which are rated investment grade and above by a credit rating agency recognized by SEBI. The investment team analyses the Rating Rationale in detail before investing in any PTCs, and also discusses with the concerned rating agency on a need basis. The rating agency would normally take into consideration the following factors while rating a securitized debt:

- Credit risk at the asset/originator/portfolio/pool level
The quality of the pool is a crucial element in assessing credit risk. In the Indian context, generally, pools are 'cherry-picked' using positive selection criteria. To protect the investor from adverse selection of pool contracts, the rating agencies normally take into consideration pool characteristics such as pool seasoning (seasoning represents the number of installments paid by borrower till date: higher seasoning represents better quality), over dues at the time of selection and Loan to Value (LTV). To assess its risk profile vis-à-vis the overall portfolio, the pool is analyzed with regard to geographical location, borrower profile, LTV, and tenure.

- Counterparty risk
This includes Servicer Risk, co-mingling risk etc. The rating agencies generally mitigate such risks though the usage of stringent counterparty selection and replacement criteria to reduce the risk of failure.
- Bankruptcy risk
- Of the Originator –
• Normally, specific care is taken in structuring the securitization transaction so as to minimize the risk of the sale to the trust not being construed as a 'true sale'.
It is also in the Interest of the originator to demonstrate the transaction as a true sell to get the necessary revenue recognition and tax benefits.
- Of the Investors' agent
• All possible care is normally taken in structuring the transaction and drafting the underlying documents so as to provide that the assets/receivables if and when held by Investor's Agent is held as agent and in Trust for the Investors and shall not form part of the personal assets of Investor's Agent.
- Legal risks

The rating agency normally conducts a detailed study of the legal documents to ensure that the investors' interest is not compromised and relevant protection and safeguards are built into the transaction.

Various market risks like interest rate risk, macro-economic risks Assessment of risks related to business for example outlook for the economy, outlook for the industry and factors specific to the issuer/originator.

3. Risk mitigation strategies for investments with each kind of originator
The examples of securitized assets which may be considered for investment by the Scheme and the various risk mitigation parameters (please read in continuation with point 2 above), which will be considered include;

A) Asset backed securities issued by banks or nonbanking finance companies.
Underlying assets may include receivables from loans against cars, commercial vehicles, construction equipment or unsecured loans such as personal loans, consumer durable loans. The various factors which will be usually considered while making investments in such type of securities include profile of the issuer, analysis of underlying loan portfolio – nature of asset class, seasoning of loans, geographical distribution of loans and coverage provided by credit-cum-liquidity enhancements.

A) Mortgage backed securities issued by banks or housing finance companies, where underlying assets are comprised of mortgages/home loan.

The various factors which will be usually considered while making investments in such type of securities include issuer profile of the issuer, quality of underlying portfolio, seasoning of loans, coverage provided by credit-cum-liquidity enhancements and prepayment risks.

B) Single loan securitization, where the underlying asset comprises of loans issued by a bank/non-banking finance company.

The factors which will be usually considered while making investments in such type of securities include assessment of credit risk associated with the underlying borrower as well as the originator. The Fixed Income team will adhere to the AMC's internal credit process and perform a detailed review of the underlying borrower prior to making investments. This analysis is no different from the analysis undertaken by Fund when it invests in Debentures or Commercial papers issued by the same borrower.

Critical Evaluation Criteria
Typically the Fund would avoid investing in securitization transaction (without specific risk mitigation strategies / additional cash/security collaterals/ guarantees) if there are concerns on the following issues regarding the originator / underlying issuer:
1. High default track record/ frequent alteration of redemption conditions/covenants
2. High leverage ratios – both on a standalone basis as well on a consolidated level/ group level
3. Higher proportion of re-schedulement of underlying assets of the pool or loan, as the case may be
4. Higher proportion of overdue assets of the pool or the underlying loan, as the case may be
5. Poor reputation in market
6. Insufficient track record of servicing of the pool or the loan, as the case may be.

Further, investments in securitized debt will be done in accordance with the investment restrictions specified under the SEBI Regulations/ this Scheme Information Document which would help in mitigating certain risks.

4. The level of diversification with respect to the underlying assets, and risk mitigation measures for less diversified investments
The framework which will generally be applied by the Fund Manager while evaluating the investment decision with respect to securitized debt will be as follows:

Characteristics/Type of Pool	**Mortgage Loan**	**Single Sell Down**	**Others**
Approximate Average Maturity (in Months)	Up to 10 years	Case by case basis	As and when new asset classes of securitized debt are introduced, the investments in such instruments will be evaluated on a case by case basis
Collateral margin (including cash, guarantees, excess interest spread, subordinate tranche)	In excess of 3%	Case by case basis	
Average Loan to Value Ratio	95% or lower	Case by case basis	
Average seasoning of the Pool	Minimum 2 months	Case by case basis	
Maximum single exposure range *	< 5%	Not applicable	
Average single exposure applicable range % *	< 5%	Not applicable	

* denotes % of a single ticket/loan size to the overall assets in the securitized pool.
$ Broad evaluation criteria as per point 3 above

Notes:

1. Retail pools are the loan pools relating to Car, 2 wheeler, micro finance and personal loans, wherein the average loan size is relatively small and spread over large number of borrowers.
2. The information illustrated in the table above is based on current scenario relating to securitized debt market and is subject to change depending upon the change in the related factors. In addition to the framework stated in the table above, in order to mitigate the risks associated with the underlying assets where the diversification is less, at the time of investment the Fixed Income team could consider various factors including but not limited to -
− Size of the loan - the size of each loan is generally analyzed on a sample basis and an analysis of the static pool of the originator is undertaken to ensure that the same matches with the static pool characteristics. It also indicates whether there is high reliance on very small ticket size borrower which could result in delayed and expensive recoveries.
− Average original maturity of the pool of underlying assets
− The analysis of average maturity of the pool is undertaken to evaluate whether the tenor of the loans are generally in line with the average loans in the respective industry and repayment capacity of the borrower.
− Loan to value ratio, average seasoning of the pool of underlying assets - these parameters would be evaluated based on the asset class as mentioned in the table above.
− Default rate distribution - the Fixed Income team generally ensures that all the contracts in the pool are current to ensure zero default rate distribution.
− Geographical distribution - the analysis of geographical distribution of the pool is undertaken to ensure prevention of concentration risk.
− Credit enhancement facility - credit enhancement facilities in the form of cash collateral, such as fixed deposits, bank guarantee etc could be obtained as a risk mitigation measure.
− Liquidity facility - these parameters will be evaluated based on the asset class as mentioned in the table above.
− Structure of the pool of underlying assets – The structure of the pool of underlying assets would be either single asset class or combination of various asset classes as mentioned in the table above. We could add new asset class depending upon the securitization structure and changes in market acceptability of asset classes.

5. Minimum retention period of the debt by originator prior to securitization
The minimum retention period of the debt by the originator prior to securitization and the minimum retention percentage by originator of debts will be as per the guidelines/regulations issued by the RBI/other regulatory agencies from time to time.
Also, please refer the table in point 4. The Fund will adopt that policy, whichever is stricter.

6. Minimum retention percentage by originator of debts to be securitized
Same as point 5 above.

7. The mechanism to tackle conflict of interest when the mutual fund invests in securitized debt of an originator and the originator in turn makes investments in that particular scheme of the fund
An investment by the scheme in any security is done after detailed analysis by the Fixed Income team and in accordance with the investment objectives and the asset allocation pattern of a scheme. All investments are made on an arms-length basis without consideration of any investments (existing/potential) in the schemes made by any party related/involved in the transaction. The robust credit process ensures that there is no conflict of interests when a scheme invests in securitized debt of an originator and the originator in turn makes investments in that particular scheme.

8. The resources and mechanism of individual risk assessment with the AMC for monitoring investment in securitized debt
The resources for and mechanisms of individual risk assessment with the AMC for monitoring investment in securitized debt are as follows:
− Fixed Income Team – Currently, the AMC has a 4 member team, who is responsible for credit research and monitoring and fund management, for all exposures including securitized debt.

- Ratings are monitored for any movement – Based on the cash flow report and Fixed Income Team's view, periodic review of utilization of credit enhancement shall be conducted and ratings shall be monitored accordingly.
- For legal and technical assistance with regard to the documentation of securitized debt instruments, the team can make use of resources within the internal legal team and if required take help of our external legal counsel as well.

INVESTMENT IN REPO IN CORPORATE DEBT SECURITIES

SEBI has vide CIRCULAR no. CIR / IMD / DF / 19 / 2011 dated November 11, 2011 enabled mutual funds to participate in repos in corporate debt securities as per the guidelines issued by RBI from time to time and subject to few conditions listed in the circular.

The circular requires the Trustees and the Asset Management Companies to frame guidelines about, inter alia, the following in context of these transactions, keeping in mind the interest of investors in the scheme:

i. Category of counterparty
ii. Credit rating of counterparty
iii. Tenor of collateral
iv. Applicable haircuts

Conditions applicable (as per SEBI circular):

a) The gross exposure of any mutual fund scheme to repo transactions in corporate debt securities shall not be more than 10% of the net assets of the concerned scheme.
b) The cumulative gross exposure through repo transactions in corporate debt securities along with equity, debt and derivatives shall not exceed 100% of the net assets of the Scheme.
c) Mutual funds shall participate in repo transactions only in AAA rated corporate debt securities.
d) In terms of Regulation 44 (2) of the Securities and Exchange Board of India (Mutual Funds) Regulations, 1996, mutual funds shall borrow through repo transactions only if the tenor of the transaction does not exceed a period of six months.
e) Mutual funds shall ensure compliance with the Seventh Schedule of the Mutual Funds Regulations about restrictions on investments, wherever applicable, with respect to repo transactions in corporate debt securities.
f) The details of repo transactions of the scheme in corporate debt securities, including details of counterparties, amount involved and percentage of NAV shall be disclosed to investors in the half yearly portfolio statements and to SEBI in the half yearly trustee report.
g) To enable the investors in the mutual fund schemes to take an informed decision, the concerned Scheme Information Document shall disclose the following:

i. The intention to participate in repo transactions in corporate debt securities in accordance with directions issued by RBI and SEBI from time to time;
ii. The exposure limit for the scheme; and
iii. The risk factors associated with repo transactions in corporate bonds

Guidelines to be followed by IDFC Mutual Fund:
The following guidelines shall be followed by IDFC Mutual Fund for participating in repo in corporate debt security:

i. Category of counterparty & Credit rating of counterparty

All the counterparties with whom IDFC Mutual Fund currently deals in repo (SLR) shall be eligible for corporate bonds repo subject to execution of corporate bond repo agreement.

ii. Tenor of Repo

Tenor of repo shall be capped to 3 months as against maximum permissible tenor of 6 months. Any repo for a tenor beyond 3 months shall require prior approval from investment committee of the fund. There shall be no restriction / limitation on the tenor of collateral.

iii. Applicable haircut

A haircut of minimum 5% or such other amount specified by SEBI / RBI, whichever higher, from on the market value of the underlying security irrespective of the tenor to adjust for the illiquidity of the underlying instrument. The haircut % mentioned herein is a function of how market practice evolves with respect to corporate bond repo. Prior approval of the Investment committee shall be sought for change in the haircut from existing 5% to such other % as deemed fit.

iv. Additional internal investment limit:

Any scheme shall not lend / borrow more than 10% of its corpus in repo against corporate bonds or 5% of total AUM of the Mutual fund (excluding Fund of fund) whichever is lower.

INVESTMENT IN OVERSEAS FINANCIAL ASSETS/FOREIGN SECURITIES:

In terms of SEBI Circulars dated September 26, 2007 and April 08, 2008, each mutual fund is permitted to invest up to maximum of US$ 300 million. The overall cap for the entire mutual funds industry to invest in foreign securities is US$ 7 billion. The Scheme can invest in:

i) Foreign debt securities in the countries with fully convertible currencies, short term as well as long term debt instruments with rating not below investment grade by accredited/registered credit rating agencies
ii) Money market instruments rated not below investment grade
iii) Repos in the form of investment, where the counterparty is rated not below investment grade; repos should not however, involve any borrowing of funds by mutual funds
iv) Government securities where the countries are rated not below investment grade
v) Derivatives traded on recognized stock exchanges overseas only for hedging and portfolio balancing with underlying as securities
vi) Short term deposits with banks overseas where the issuer is rated not below investment grade
vii) Units/securities issued by overseas mutual funds or unit trusts registered with overseas regulators and investing in (a) aforesaid securities, (b) Real Estate Investment Trusts (REITs) listed in recognized stock exchanges overseas or (c) unlisted overseas securities (not exceeding 10% of their net assets).

The overall ceiling for investment in overseas ETFs that invest in securities is US $ 1 billion subject to a maximum of US $ 50 million per mutual fund.

The restriction on the investments in mutual fund units upto 5% of net assets and prohibits charging of fees, shall not be applicable to investments in mutual funds in foreign countries made in accordance with SEBI Guidelines. However, the management fees and other expenses charged by the mutual fund in foreign countries along with the management fee and recurring expenses charged to the domestic mutual fund scheme shall not exceed the total limits on expenses as prescribed under Regulation 52(6). Where the scheme is investing only a part of the net assets in the foreign mutual fund(s), the same principle shall be applicable for that part of investment.

Procedure & Recording of Investment Decisions and Risk Control

All investment decisions, relating to the Scheme, will be undertaken by the AMC in accordance with the Regulations and the investment objectives specified in this SID. All investment decisions taken by the AMC in relation to the Scheme shall be recorded.

The Investment Management Committee (IMC) oversees the Investment function, will be responsible for laying down the broad Investment Policy and the Specific scheme mandates, in addition to monitoring scheme performance and reviewing portfolio strategy. The risk control parameters would be laid down for each scheme based on the objectives of the scheme and prudent fund management practices will ensure that investor monies are invested in the appropriate risk/reward environment. The AMC would ensure that investments are made in accordance with the regulatory / internal guidelines, if any. Internal guidelines may be set by the AMC from time to time and reviewed in line with the market dynamics.

The designated Fund manager of the scheme will be responsible for taking the day-to-day investment decisions and will inter-alia be responsible for asset allocation, security selection and timing of investment decisions.

In case of investments in debt instruments, the AMC aims to identify securities, which offer superior levels of yield at lower levels of risks. With the aim of controlling risks, the investment team of the AMC will carry out requisite credit evaluation of the securities. Rated Debt instruments in which the Scheme invests will be of investment grade as rated by a credit rating agency. The AMC will be guided by the ratings of Rating Agencies such as CRISIL, CARE, ICRA and Fitch or any other rating agencies that may be registered with SEBI from time to time. In case a debt instrument is not rated, prior approval of the Board of Directors of Trustee and the AMC will be obtained for such an investment.

The AMC may approach rating agencies such as CRISIL, ICRA, etc for ratings of the scheme. The Scheme may use various derivatives and hedging products from time to time, as would be available and permitted by SEBI, in an attempt to protect the value of the portfolio and enhance Unit holders' interests.

The Scheme may invest in other Schemes managed by the AMC or in the Schemes of any other Mutual Funds, provided it is in conformity to the investment objectives of the Scheme and in terms of the prevailing Regulations. As per the Regulations, no investment management fees will be charged for such investments and the aggregate inter-Scheme investment made by all Schemes of IDFC Mutual Fund or in the Schemes under the management of other asset management companies shall not exceed 5% of the net asset value of the IDFC Mutual Fund. For the present, the Scheme does not intend to enter into underwriting obligations. However, if the Scheme does enter into an underwriting agreement, it would do so after complying with the Regulations.

INVESTMENT IN DERIVATIVES

The Scheme may use derivatives instruments like Interest Rate Swaps, Forward Rate Agreements, Interest Rate Futures or such other derivative instruments as may be introduced from time to time and in the manner permitted by SEBI/RBI from time to time.

The following information provides a basic idea as to the nature of the derivative instruments proposed to be used by the Scheme and the risks attached there with.

Advantages of Derivatives:

Derivatives provide unique flexibility to the Scheme to hedge part of its portfolio. Some of the advantages of specific derivatives are as under:

Interest Rate Swaps (IRS)

An IRS is an agreement between two parties to exchange stated interest obligations for an agreed period in respect of a notional principal amount. The most common form is a fixed to floating rate swap where one party receives a fixed (pre-determined) rate of interest while the other receives a floating (variable) rate of interest.

In terms of SEBI circular no. Cir/IMD/DF/11/2010 dated August 18, 2010, Mutual Funds may enter

into plain vanilla interest rate swaps for hedging purposes. The counter party in such transactions has to be an entity recognized as a market maker by RBI. Further, the value of the notional principal in such cases must not exceed the value of respective existing assets being hedged by the scheme. Exposure to a single counterparty in such transactions should not exceed 10% of the net assets of the scheme.

Basic Structure Of A Swap
Let us assume the Scheme holds a fixed rate bond with an interest rate (coupon) of 6% p.a. The Scheme can enter into an IRS with another market participant (Counter party) to hedge this risk and convert it into a floating rate instrument.

The following is an illustration of how an Interest rate swap works:

- The Scheme contracts to pay a fixed rate, say 6% p.a., and receive a floating rate (say overnight MIBOR).
- This transaction is done for a notional principal amount equal to the value of the investment, say INR 10 crore.
- The counter party pays floating rate (overnight MIBOR) and receives fixed rate, 6% p.a.
- Deal tenor is say 3 months.

At the end of the tenor, the following exchange will take place:

- The scheme pays at the rate of 6% p.a. i.e. INR 10 crore * 6% * 91/365 = INR 14,95,890
- The counter party pays a compounded MIBOR rate for 3 months, say 6.25%, which effectively works out to INR 15,58,219
- In practice, however, the difference of the two amounts is settled. In this case counter party will pay the scheme INR 62,329.

Please note that the above example is hypothetical in nature and the interest rates are assumed. The actual return may vary based on actual and depends on the interest rate prevailing at the time the swap agreement is entered into.

The AMC retains the right to enter into such derivative transactions as may be permitted by the applicable regulations from time to time.

Forward Rate Agreement (FRA)
A FRA is an agreement between two parties to pay or receive the difference between an agreed fixed rate (the FRA rate) and the interest rate (reference rate) prevailing on a stipulated future date, based on a notional principal amount for an agreed period. The only cash flow is the difference between the FRA rate and the reference rate. As is the case with IRS, the notional amounts are not exchanged in FRAs.

Interest Rate Future (IRF)
Interest Rate Futures means a standardized interest rate derivative contract traded on a recognized stock exchange to buy or sell a notional security or any other interest bearing instrument or an index of such instruments or interest rates at a specified future date, at a price determined at the time of the contract.

Exchange traded IRFs are standardised contracts based on a notional coupon bearing Government of India (GOI) security currently.

As there is an inverse relationship between interest rate movement and underlying bond prices and the futures price also moves in tandem with the underlying bond prices. If the Fund Manager has a view that interest rates will rise in the near future and intends to hedge the risk from rise in interest rates; the Fund Manager can do so by taking short position in IRF contracts.

If the Fund Manager is of the view that the interest rates will go down the Fund Manager will buy IRF

to participate in appreciation.

Example:

The scheme holds cash & cash equivalent and expects that the interest rate will go down and intends to take directional position. Accordingly, the fund manager shall buy IRF –

- Trade Date – January 1, 2019
- Futures Delivery date – April 1, 2019
- Current Futures Price - Rs. 102.00
- Futures Bond Yield- 8.85%
- Trader buys 200 contracts of the April 2019 10 Year futures contract of face value of Rs.1000 on NSE on January 1, 2019 at Rs. 102.00

Closing out the Position

- Date: January 7, 2019
- Futures market Price – Rs. 105.00
- Trader sells 200 contracts of April 2019 10 year futures contract of face value of Rs.1000 at Rs. 105 and squares off his position
- Therefore total profit for trader 200*1000*(105 – 102) is Rs.6,00,000

Exposure to Interest Rate Derivatives shall be within the position limits as prescribed by SEBI vide circulars no. CIR/MRD/DRMNP/11/2015 dated June 12, 2015 and Circular No. SEBI/HO/MRD/CIR/P/2019/103 dated September 26, 2019.

Hedging

Debt securities are exposed to the risk of rising interest rates, which in turn results in the reduction in the value and such impact can be seen in the value of the portfolio of the scheme. Under such circumstances, in order to hedge the fall in the value of the portfolio of the scheme due to falling bond prices, the fund manager may sell IRF contracts.

Example:

Date: January 01, 2019
Spot price of Security: Rs 101.80
Futures price of IRF Contract: Rs 102.00

On January 01, 2019, the Fund Manager bought 2000 GOI securities from spot market at Rs 101.80. The Fund Manager anticipates that the interest rate will rise in near future, therefore to hedge the exposure in underlying security the Fund Manager sells March 2019, Interest Rate Futures contracts at Rs 102.00.

On February 01, 2019 due to increase in interest rate:

Spot price of Security: Rs 100.80
Futures Price of IRF Contract: Rs 101.10
Loss in underlying market will be (101.80 - 100.80)*2000 = Rs 2000
Profit in the Futures market will be (101.10 – 102.00)*2000 = Rs 1800

Imperfect hedging:

Use of IRF may result in imperfect hedging when the IRF used for hedging the interest rate risk has different underlying security(s) than the existing position being hedged.

<u>Example of imperfect hedge due to use of IRF:</u>

Assume the portfolio of market value worth INR 100 crore has a modified duration of 5. This is being hedged with an IRF that has a modified duration of 10.

Imperfect Hedging cannot exceed 20% of Portfolio. The maximum extent of short position that may be taken in IRFs is as below:

$$\frac{\text{(Portfolio Modified Duration * Market Value of Portfolio)}}{\text{(Futures Modified Duration * Futures Price/PAR)}}$$

Consider that we choose to hedge 20% of portfolio, as below:

$$\frac{(5 * (0.2*100))}{(10 * 101/100)} = \text{INR 9.90 Crores}$$

Hence the scheme can sell IRFs worth INR 9.90 Crores and with duration of 10 to hedge INR 20 crore of portfolio with a duration of 5.

SECURITIES LENDING

If permitted by SEBI Regulations, the Scheme may also engage in securities lending in accordance with the applicable guidelines/regulations. Securities lending means lending a security to another person or entity for a fixed period of time, at a negotiated compensation. The security lent will be returned by the borrower on expiry of the stipulated period.

A maximum of 20% of the net assets will be deployed in securities lending and the maximum single party exposure will be restricted to 5% of the net assets.

Engaging in securities lending is subject to risks related to fluctuations in the collateral value / settlement / liquidity / counter party.

SHORT SELLING OF SECURITIES

If permitted by SEBI Regulations, the Scheme may engage in short selling of securities in accordance with the guidelines / regulations issued by SEBI. Short sale of securities means selling of securities without owning them.

Engaging in short sale of securities is subject to risks related to fluctuations in market price, and settlement/ liquidity risks.

PORTFOLIO TURNOVER

The AMC's portfolio management style is conducive to a relatively low portfolio turnover rate. However, the AMC will take advantage of the opportunities that present themselves from time to time because of the conditions prevailing / inefficiencies in the securities markets. The AMC will endeavour to balance the increased cost on account of higher portfolio turnover with the benefits derived there from. Being a debt scheme, portfolio turnover is not applicable to the Scheme.

F: FUNDAMENTAL ATTRIBUTES 8

Following are the Fundamental Attributes of the scheme, in terms of Regulation 18 (15A) of the SEBI (MF) Regulations:

(i) Type of Scheme - Please refer to section on INFORMATION ABOUT THE SCHEME

(ii) Investment Objectives & Policies - Please refer to section on INFORMATION ABOUT THE

SCHEME

(iii) Asset Allocation Pattern - Please refer to section on INFORMATION ABOUT THE SCHEME

(iv) Terms of Issue - Repurchase and Redemption of Units Please refer to section UNITS AND OFFER. Fees and expenses Please refer to section FEES AND EXPENSES

(v) Any Safety Net of Guarantee provided – None

In accordance with Regulation 18(15A) of the SEBI (MF) Regulations, the Trustees shall ensure that no change in the fundamental attributes of the Scheme(s) and the Series / Plan(s) / Option(s) there under or the trust or fee and expenses payable or any other change which would modify the Scheme(s) and the Series / Plan(s) / Option(s) there under and affect the interests of Unitholders is carried out unless:

- A written communication about the proposed change is sent to each Unitholder and an advertisement is given in one English daily newspaper having nationwide circulation as well as in a newspaper published in the language of the region where the Head Office of the Mutual Fund is situated; and
- The Unitholders are given an option for a period of 30 days to exit at the prevailing Net Asset Value without any exit load.

G. HOW WILL THE SCHEME BENCHMARK ITS PERFORMANCE? 9

The Benchmark Index for the Scheme would be Crisil Composite Bond Fund Index
However, being widely used benchmark in the market, the above benchmark has been selected as the standard benchmark for the purpose of this Scheme.

The fund reserves the right to change the said benchmark and/or adopt one/more other benchmarks to compare the performance of the Scheme.

H. WHO MANAGES THE SCHEME? 10

Mr Anurag Mittal is the Fund Manager of the Scheme. His particulars are given below:

INVESTMENT BY THE AMC IN THE SCHEME

1

The AMC may invest in the Scheme from time to time. As per the Regulations, such investments are permitted subject to disclosure being made in the Scheme Information Document. However, the AMC shall not be entitled to charge any management fee on its investments in the Scheme.

I. WHAT ARE THE INVESTMENT RESTRICTIONS?

11

Pursuant to the Regulations and amendments thereto, the following investment restrictions are presently applicable to the Scheme:

1. Investment in securities from the scheme's corpus would be in accordance with Regulation 43 of Chapter VI of SEBI [Mutual Funds] Regulations, 1996.

2. The Scheme shall not invest more than 10% of its NAV in debt instruments comprising money market instruments and non-money market instruments issued by a single issuer which are rated not below investment grade by a credit rating agency authorised to carry out such activity under the SEBI Act. Such investment limit may be extended to 12% of the NAV of the Scheme with the prior approval of the Boards of the Trustee Company and the AMC;

   Provided that such limit shall not be applicable for investments in Government Securities, treasury bills and collateralized borrowing and lending obligations*;

   Provided further that investment within such limit can be made in mortgaged backed securitised debt which are rated not below investment grade by a credit rating agency registered with SEBI.

*With effect from November 5, 2018 collateralized borrowing and lending obligations has been discontinued and replaced with Tri-party Repo

3. The Scheme shall not invest in unlisted debt instruments including commercial papers (CPs), other than (a) government securities, (b) other money market instruments and (c) derivative products such as Interest Rate Swaps (IRS), Interest Rate Futures (IRF), etc. which are used by mutual funds for hedging.

   However, Scheme may invest in unlisted Non-Convertible Debentures (NCDs) not exceeding 10% of the debt portfolio of the Scheme subject to the condition that such unlisted NCDs have a simple structure (i.e. with fixed and uniform coupon, fixed maturity period, without any options, fully paid up upfront, without any credit enhancements or structured obligations) and are rated and secured with coupon payment frequency on monthly basis.

   For the purpose of investment in debt instruments, listed debt instruments shall include listed and to be listed debt instruments.

4. All investments by the Scheme in Commercial Papers (CPs) would be made only in CPs which are listed or to be listed.

5. Investment in unrated debt and money market instruments, other than government securities, treasury bills, derivative products such as Interest Rate Swaps, Interest Rate Futures, etc by the Scheme shall be subject to the following:
   a. Investments shall only be made in such instruments, including bills re-discounting, usance bills, etc., that are generally not rated and for which separate investment norms or limits are not provided in SEBI (Mutual Fund) Regulations, 1996 and various circulars issued thereunder.
   b. Exposure of the Scheme in such instruments, shall not exceed 5% of the net assets of the Scheme.
   c. All such investments shall be made with the prior approval of the Board of AMC and the Board of Trustees.

6. The investment of the Scheme in the following instruments shall not exceed 10% of the debt portfolio of the Scheme and the group exposure in such instruments shall not exceed 5% of the debt portfolio of the Scheme:
   a. Unsupported rating of debt instruments (i.e. without factoring-in credit enhancements) is below investment grade and
   b. Supported rating of debt instruments (i.e. after factoring-in credit enhancement) is above investment grade

   However, the above investment restriction shall not be applicable on investments in securitized debt instruments.

7. The Scheme may invest in other schemes of the Mutual Fund or any other mutual fund without charging any fees, provided the aggregate inter-scheme investment made by all the schemes under the same management or in schemes under the management of any other asset management company shall not exceed 5% of the Net Asset Value of the Mutual Fund.

8. The Scheme shall not make any investment in :
   - any unlisted security of an associate or group company of the sponsor; or
   - any security issued by way of private placement by an associate or group company of the sponsor; or
   - the listed securities of group companies of the sponsor which is in excess of 25% of the net assets.

9. The Mutual Fund shall get the securities purchased transferred in the name of the Fund on

account of the concerned Scheme, wherever investments are intended to be of a long term nature.

10. Transfer of investments from one scheme to another scheme in the same Mutual Fund is permitted provided:
    a) such transfers are done at the prevailing market price for quoted instruments on spot basis and in line provisions of SEBI Circular dated September 24, 2019 and as may be specified by SEBI from time to time, in this regard; and
    b) the securities so transferred shall be in conformity with the investment objective of the Scheme to which such transfer has been made.

11. The Scheme shall buy and sell securities on the basis of deliveries and shall in all cases of purchases, take delivery of relevant securities and in all cases of sale, deliver the securities;

    Provided that the Scheme may engage in short selling of securities in accordance with the framework relating to short selling and securities lending and borrowing specified by SEBI;

    Provided further that the Scheme may enter into derivatives transactions in a recognised stock exchange, subject to the framework specified by SEBI;

    Provided further that sale of government security already contracted for purchase shall be permitted in accordance with the guidelines issued by the Reserve Bank of India in this regard.

12. The Scheme shall not make any investment in any fund of funds scheme.

13. Pending deployment of the funds of the Scheme in securities in terms of the investment objective of the Scheme, the AMC may park the funds of the Scheme in short term deposits of scheduled commercial banks, subject to the guidelines issued by SEBI from time to time. currently, the following guidelines/restrictions are applicable for parking of funds in short term deposits:
    - "Short Term" for such parking of funds by the Scheme shall be treated as a period not exceeding 91 days.
    - Such short-term deposits shall be held in the name of the Scheme.
    - The Scheme shall not park more than 15% of the net assets in short term deposit(s) of all the scheduled commercial banks put together. However, such limit may be raised to 20% with prior approval of the Trustee.
    - Parking of funds in short term deposits of associate and sponsor scheduled commercial banks together shall not exceed 20% of total deployment by the Mutual Fund in short term deposits.
    - The Scheme shall not park more than 10% of the net assets in short term deposit(s),with any one scheduled commercial bank including its subsidiaries.
    - The Scheme shall not park funds in short term deposit of a bank which has invested in that Scheme. The Trustees / AMCs shall ensure that the bank in which the Scheme has short term deposit do not invest in the Scheme until the Scheme has STD with such bank.
    - The AMC shall not charge any investment management and advisory fees for parking of funds in short term deposits of scheduled commercial banks.
    - The above provisions will not apply to term deposits placed as margins for trading in cash and Derivatives market.

14. The Scheme shall not advance any loans.

15. The Fund shall not borrow except to meet temporary liquidity needs of the Fund for the purpose of Repurchase/Redemption of Unit or payment of interest and/or Dividend to the Unit holder. The Fund shall not borrow more than 20% of the net assets of the individual Scheme and the duration of the borrowing shall not exceed a period of 6 months.

16. The scheme shall invest only in such security which matures on or before the maturity of the

scheme.

17. The exposure in a particular sector (excluding investments in Bank CDs, TREPS, G-Secs, T-Bills and AAA rated securities issued by Public Financial Institutions and Public Sector Banks) under the portfolio will not exceed 20% of the net assets on account of purchase.

    An additional exposure to financial services sector (over and above the limit of 20%) not exceeding 10% of the net assets of the scheme shall be allowed by way of increase in exposure to Housing Finance Companies (HFCs) only. Further, an additional exposure of 5% of the net assets of the Scheme has been allowed for investments in securitized debt instruments based on retail housing load portfolio and / or affordable housing loan portfolio.

    Provided that the additional exposure to such securities issued by HFCs are rated AA and above and these HFCs are registered with National Housing Bank (NHB) and the total investment/ exposure in HFCs shall not exceed 20% of the net assets of the scheme on account of purchase.

18. The total exposure of debt and liquid schemes in a group (excluding investments in securities issued by Public Sector Units, Public Financial Institutions and Public Sector Banks) shall not exceed 20% of the net assets of the scheme. Such investment limit may be extended to 25% of the net assets of the scheme with the prior approval of the Board of the Trustee Company.

    However, investment by debt mutual fund schemes in debt and money market instruments of group companies of both the sponsor and asset management company shall not exceed 10% of the net assets of the Scheme. Such investment limit may be extended to 15% of the net assets of the Scheme with the prior approval of the Board of Trustees.

    For this purpose, a group means a group as defined under regulation 2 (mm) of SEBI (Mutual Funds) Regulations, 1996 and shall include an entity, its subsidiaries, fellow subsidiaries, its holding company and its associates.

19. The Mutual Fund shall enter into transactions relating to Government Securities only in dematerialised form.

20. The Scheme will comply with provisions specified in Circular dated August 18, 2010 related to overall exposure limits applicable for derivative transactions as stated below:
    a) The cumulative gross exposure through equity, debt, derivative positions, REITs & InvITs and across various other asset classes in which the Scheme is permitted to invest should not exceed 100% of net assets of the Scheme.
    b) Mutual Funds shall not write options or purchase instruments with embedded written options.
    c) The total exposure related to option premium paid must not exceed 20% of the net assets of the Scheme.
    d) Cash or cash equivalents with residual maturity of less than 91 days may be treated as not creating any exposure.
    e) Exposure due to hedging positions may not be included in the above mentioned limits subject to the following:
        i. Hedging positions are the derivative positions that reduce possible losses on an existing position in securities till the existing position remains.
        ii. Hedging position cannot be taken for existing derivative positions. Exposure due to such positions shall have to be added and treated under limits mentioned in point a).
        iii. Any derivative instrument used to hedge the underlying security as the existing position being hedged.
        iv. The quantity of underlying associated with the derivative position taken for hedging purpose does not exceed the quantity of the existing position against which hedge has been taken.

f) Mutual Funds may enter into plain vanilla interest rate swaps for hedging purposes. The counterparty in such transactions has to be an entity recognized as a market maker by RBI. Further, the value of the notional principal in such cases must not exceed the value of respective existing assets being hedged by the Scheme. Exposure to a single counterparty in such transactions should not exceed 10% of the net assets of the Scheme.

g) Exposure due to derivative positions taken for hedging purposes in excess of the underlying position against which the hedging position has been taken, shall be treated under the limits mentioned in point a) above.

h) Definition of Exposure in case of Derivatives Positions – Each position taken in derivatives shall have an associated exposure as defined under. Exposure is the maximum possible loss that may occur on a position. However, certain derivative positions may theoretically have unlimited possible loss. Exposure in derivative positions shall be computed as follows:

Position	Exposure
Long Future	Futures Price * Lot Size * Number of Contracts
Short Future	Futures Price * Lot Size * Number of Contracts
Option Bought	Option Premium Paid * Lot Size * Number of Contracts

Exposure limit for participating in Interest Rate Futures

In addition to the existing provisions of SEBI Circular No. Cir/IMD/DF/11/2010 dated August 18, 2010, the following has been prescribed vide SEBI Circular No. SEBI/HO/IMD/DF2/ CIR/P/2017/109 dated September 27, 2017:

i. To reduce interest rate risk in a debt portfolio, mutual funds may hedge the portfolio or part of the portfolio (including one or more securities) on weighted average modified duration basis by using Interest Rate Futures (IRFs). The maximum extent of short position that may be taken in IRFs to hedge interest rate risk of the portfolio or part of the portfolio, is as per the formula given below:

$$\frac{\text{(Portfolio Modified Duration * Market Value of the Portfolio)}}{\text{(Futures Modified Duration * Future Price / PAR)}}$$

ii. In case the IRF used for hedging the interest rate risk has different underlying security(s) than the existing position being hedged, it would result in imperfect hedging.

iii. Imperfect hedging using IRFs may be considered to be exempted from the gross exposure, upto maximum of 20% of the net assets of the Scheme, subject to the following:

01. Exposure to IRFs is created only for hedging the interest rate risk based on the weighted average modified duration of the bond portfolio or part of the portfolio.

02. Mutual Funds are permitted to resort to imperfect hedging, without it being considered under the gross exposure limits, if and only if, the correlation between the portfolio or part of the portfolio (excluding the hedged positions, if any) and the IRF is at least 0.9 at the time of initiation of hedge. In case of any subsequent deviation from the correlation criteria, the same may be rebalanced within 5 working days and if not rebalanced within the timeline, the derivative positions created for hedging shall be considered under the gross exposure computed in terms of Para 20 a) above. The correlation should be calculated for a period of last 90 days.

Explanation: If the fund manager intends to do imperfect hedging upto 15% of the portfolio using IRFs on weighted average modified duration basis, either of the following conditions need to be complied with:

I. The correlation for past 90 days between the portfolio and the IRF is at least 0.9 or

II. The correlation for past 90 days between the part of the portfolio (excluding the hedged portions, if any) i.e. at least 15% of the net asset of the Scheme (including one or more securities) and the IRF is at least 0.9.

03. At no point of time, the net modified duration of part of the portfolio being hedged should be negative.
04. The portion of imperfect hedging in excess of 20% of the net assets of the Scheme should be considered as creating exposure and shall be included in the computation of gross exposure in terms of 20.a) above.

iv. The basic characteristics of the Scheme should not be affected by hedging the portfolio or part of the portfolio (including one or more securities) baseed on the weighted average modified duration.
Explanation: In case of long term bond fund, after hedging the portfolio based on the modified duration of the portfolio, the net modified duration should not be less than the minimum modified duration of the portfolio as required to consider the fund as a long term bond fund.

v. The interest rate hedging of the portfolio should be in the interest of investors.

The Scheme will comply with the other Regulations applicable to the investments of Mutual Funds from time to time. All the investment restrictions will be applicable at the time of making investments.

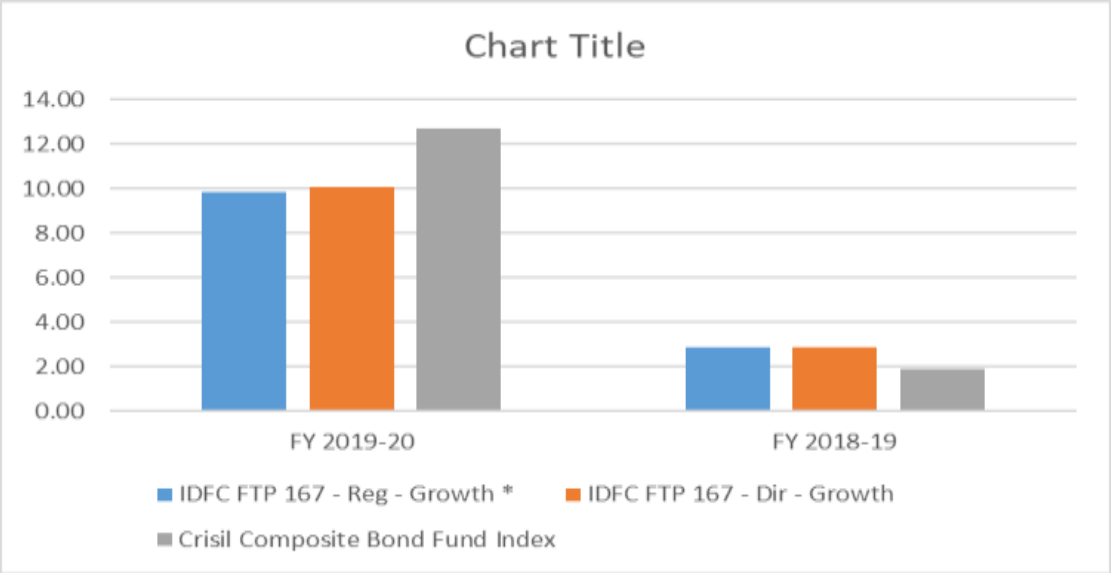

Apart from the Investment Restrictions prescribed under the Regulations, internal risk parameters for limiting exposure to a particular scrip or sector may be prescribed from time to time to respond to the dynamic market conditions and market opportunities.

The AMC/Trustee may alter these above stated restrictions from time to time to the extent the Regulations change, so as to permit the Scheme to make its investments in the full spectrum of permitted investments for mutual funds to achieve its respective investment objective.

The investment restrictions specified shall be applicable at the time of making the investment and it is clarified that changes need not be effected, merely by reason of appreciation or depreciation in value. In case the limits are exceeded due to reasons beyond its control of the AMC (such as receipt of any corporate or capital benefits or amalgamations), the AMC shall adopt necessary measures of prudence to reset the situation having regard to the interest of the investors.

dividend will be notified suitably to the Registrar. Unitholders are entitled to receive dividend within 30 days of the date of declaration of the dividend. However, the Mutual Fund will endeavour to make dividend payments sooner to Unitholders. There is no assurance or guarantee to Unitholders as to the rate of dividend distribution nor will that dividends be paid, though it is the intention of the Mutual Fund to make dividend distributions.

The AMC shall be liable to pay interest @ 15 per cent per annum to the unit holders for the period of delay in dispatch of dividend. Such interest shall be borne by the AMC.

For details on taxation of dividend, please refer to the section on 'Tax Benefits of Investing in the Mutual Fund' in the Statement of Additional Information.

The Investors should note that NAVs of the Dividend Options (each dividend option) and the Growth Option will be different after the declaration of dividend under the Scheme.

The scheme has investors in the options mentioned below:

Sr. No.	Plan & Option
1	Regular Plan - Growth Option
2	Regular Plan – Half Yearly Dividend Option
3	Regular Plan – Quarterly Dividend Option
4	Direct Plan - Growth Option

Quarterly Dividend Option The scheme currently offers Quarterly dividend option (payout). Under this option the investor shall receive quarterly dividend, subject to availability of distributable surplus.

Half Yearly Dividend Option The scheme currently offers Half yearly dividend option (payout). Under this option the investor shall receive half yearly dividend, subject to availability of distributable surplus.

All the plans and options under the Scheme will have a common portfolio.

Default option: The investors must clearly indicate the Option (Growth or Dividend / Dividend frequency) in the relevant space provided for in the Application Form. In case the investor does not select any Option, the default shall be considered as Growth Option. Within Dividend option if the investor does not select any frequency option, the default option shall be Half-yearly.

Dividend Policy

Dividend declaration and distribution shall be in accordance with SEBI Regulations as applicable from time to time. The AMC reserves the right to declared dividend from time to time, depending on availability of distributable surplus.

Allotment
Full allotment was made to all valid applications received during the New Fund Offer Period.
The Units will be computed and accounted for up to whole numbers (complete integers) only and no fractional units will be allotted. If any fractional units are calculated as a result of the application money/switch units received from the investors, the Units would be allotted to the extent of whole numbers (complete integers) only and the excess of application money/units corresponding to the fractional Units will be paid / refunded to the investor.

Option to hold Units in dematerialized (demat) form
The Unit holders under the Scheme(s)/Series(s) shall have an option to subscribe/ hold the Units in demat form in accordance with the provisions laid under the respective Scheme(s)/Series(s) and in terms of the guidelines/ procedural requirements as laid by the Depositories (NSDL/CDSL) from time to time.

In case, the Unit holder desires to hold the Units in a Dematerialized /Rematerialized form at a later date, the request for conversion of units held in non-demat form into Demat (electronic) form or vice-versa should be submitted along with a Demat/Remat Request Form to their Depository Participants.

Units held in demat form will be transferable subject to the provisions laid under the Scheme and in accordance with provisions of Depositories Act, 1996 and the Securities and Exchange Board of India (Depositories and Participants) Regulations, 1996 as may be amended from time to time.

Allotment of Units and dispatch of Account Statements to FPIs will be subject to RBI approval.

ACCOUNT STATEMENTS 18

For NFO allotment:

- The AMC shall allot the units to the applicant whose application has been accepted and also send confirmation specifying the number of units allotted to the applicant by way of email and/or SMS's to the applicant's registered email address and/or mobile number within five working days from the date of closure of the NFO.
- The AMC shall issue to the investor whose application has been accepted, an account statement specifying the number of units allotted within five business days of closure of NFO. For allotment in demat form the account statement shall be sent by the depository / depository participant, and not by the AMC.
- For NFO allotment in demat form, the AMC shall issue an intimation of allotment.
- For those unitholders who have provided an e-mail address, the AMC will send the account statement by e-mail instead of physical statement.
- The unitholder may request for an account statement by writing / calling us at any of the ISC and the AMC shall provide the account statement to the investor within 5 business days from the receipt of such request.

Pursuant to sub regulation (1), (2) and (4) of Regulation 36 of SEBI (Mutual Funds) Regulations, 1996 read with SEBI circulars no. Cir/ IMD/DF/16/ 2011 dated September 08, 2011, no. Cir/MRD/D9/31/201 dated November 12, 2014,no.SEBI/HO/IMD/DF2/CIR/P/2016/42 dated March18, 2016 and no. SEBI/HO/IMD/DF2/CIR/P/2016/89 dated September 20, 2016; investors are requested to note the following regarding dispatch of account statements:

A) Consolidated Account Statement (CAS) - for Unitholders who have registered their PAN / PEKRN with the Mutual Fund:

Investors who hold demat account and have registered their PAN with the mutual fund:

For transactions in the schemes of IDFC Mutual Fund, a Consolidated Account Statement, based on PAN of the holders, shall be sent by Depositories to investors holding demat account, for each

calendar month within 10th day of the succeeding month to the investors in whose folios transactions have taken place during that month.

Due to this regulatory change, AMC has now ceased sending account statement (physical / e-mail) to the investors after every financial transaction including systematic transactions.

The CAS shall be generated on a monthly basis. AMCs/ RTAs shall share the requisite information with the Depositories on monthly basis to enable generation of CAS. Consolidation of account statement shall be done on the basis of PAN. In case of multiple holding, it shall be the PAN of the first holder and pattern of holding. Based on the PANs provided by the AMCs/MF-RTAs, the Depositories shall match their PAN database to determine the common PANs and allocate the PANs among themselves for the purpose of sending CAS. For PANs which are common between depositories and AMCs, the Depositories shall send the CAS.

In case investors have multiple accounts across the two depositories, the depository having the demat account which has been opened earlier shall be the default depository which will consolidate details across depositories and MF investments and dispatch the CAS to the investor. However, option shall be given to the demat account holder by the default depository to choose the depository through which the investor wishes to receive the CAS.

In case of demat accounts with nil balance and no transactions in securities and in mutual fund folios, the depository shall send the account statement to the investor as specified under the regulations applicable to the depositories.

Consolidated account statement sent by Depositories is a statement containing details relating to all financial transactions made by an investor across all mutual funds viz. purchase, redemption, switch, dividend payout, dividend reinvestment, systematic investment plan, systematic withdrawal plan, systematic transfer plan, bonus etc. (including transaction charges paid to the distributor) and transaction in dematerialised securities across demat accounts of the investors and holding at the end of the month. The CAS shall also provide the total purchase value / cost of investment in each scheme.

Further, a consolidated account statement shall be sent by Depositories every half yearly (September/March), on or before 10th day of succeeding month, providing the following information:

- holding at the end of the six month
- The amount of actual commission paid by AMCs/Mutual Funds (MFs) to distributors (in absolute terms) during the half-year period against the concerned investor's total investments in each MF scheme. The term 'commission' here refers to all direct monetary payments and other payments made in the form of gifts / rewards, trips, event sponsorships etc. by AMCs/MFs to distributors. Further, a mention may be made in such CAS indicating that the commission disclosed is gross commission and does not exclude costs incurred by distributors such as Goods & Services Tax (wherever applicable, as per existing rates), operating expenses, etc.

  The scheme's average Total Expense Ratio (in percentage terms) along with the break up between investment and advisory fees, commission paid to the distributor and other expenses for the period for each scheme's applicable plan (regular or direct or both) where the concerned investor has actually invested in.

  Such half-yearly CAS shall be issued to all MF investors, excluding those investors who do not have any holdings in MF schemes and where no commission against their investment has been paid to distributors, during the concerned half-year period.

Investors whose folio(s)/demat account(s) are not updated with PAN shall not receive CAS. Investors are therefore requested to ensure that their folio(s)/demat account(s) are updated with PAN.

For Unit Holders who have provided an e-mail address to the Mutual Fund or in KYC records, the CAS will be sent by e-mail. However, where an investor does not wish to receive CAS through email, option shall be given to the investor to receive the CAS in physical form at the address registered in the Depository system.

Investors who do not wish to receive CAS sent by depositories have an option to indicate their negative consent. Such investors may contact the depositories to opt out.

Other investors:

The Consolidated Account Statement (CAS) for each calendar month shall be issued on or before tenth day of succeeding month to the investors who have provided valid Permanent Account Number (PAN) / PAN Exempt KYC Registration Number (PEKRN).
Due to this regulatory change, AMC has now ceased sending physical account statement to the investors after every financial transaction including systematic transactions.

The CAS shall be generated on a monthly basis. The Consolidated Account Statement issued is a statement containing details relating to all financial transactions made by an investor across all mutual funds viz. purchase, redemption, switch, dividend payout, dividend reinvestment, systematic investment plan, systematic withdrawal plan, systematic transfer plan, bonus etc. (including transaction charges paid to the distributor) and holding at the end of the month. The CAS shall also provide the total purchase value / cost of investment in each scheme.

Further, a consolidated account statement shall be issued every half yearly (September/March), on or before 10th day of succeeding month, providing the following information:

- holding at the end of the six month
- The amount of actual commission paid by AMCs/Mutual Funds (MFs) to distributors (in absolute terms) during the half-year period against the concerned investor's total investments in each MF scheme. The term 'commission' here refers to all direct monetary payments and other payments made in the form of gifts / rewards, trips, event sponsorships etc. by AMCs/MFs to distributors. Further, a mention may be made in such CAS indicating that the commission disclosed is gross commission and does not exclude costs incurred by distributors such as Goods & Services Tax (wherever applicable, as per existing rates), operating expenses, etc.
- The scheme's average Total Expense Ratio (in percentage terms) along with the break up between investment and advisory fees, commission paid to the distributor and other expenses for the period for each scheme's applicable plan (regular or direct or both) where the concerned investor has actually invested in

Such half-yearly CAS shall be issued to all MF investors, excluding those investors who do not have any holdings in MF schemes and where no commission against their investment has been paid to distributors, during the concerned half-year period.

The CAS will be sent via email (instead of physical statement) where any of the folios consolidated has an email id or to the email id of the first unit holder as per KYC records.

B) For Unitholders who have not registered their PAN / PEKRN with the Mutual Fund:

For folios not included in the Consolidated Account Statement (CAS):

- The AMC shall allot the units to the applicant whose application has been accepted and also send confirmation specifying the number of units allotted to the applicant by way of email and/or SMS's to the applicant's registered email address and/or mobile number within five working days from the date of transaction.
- The AMC shall issue account statement to the investors on a monthly basis, pursuant to any

financial transaction in such folios on or before tenth day of succeeding month. The account statement shall contain the details relating to all financial transactions made by an investor during the month, the holding as at the end of the month and shall also provide the total purchase value / cost of investment in each scheme.

- For those unitholders who have provided an e-mail address, the AMC will send the account statement by e-mail instead of physical statement.
- The unitholder may request for an account statement by writing / calling us at any of the ISC and the AMC shall provide the account statement to the investor within 5 business days from the receipt of such request.

Further, an account statement shall be sent by the AMC every half yearly (September/March), on or before 10th day of succeeding month, providing the following information:

- holding at the end of the six month
- The amount of actual commission paid by AMCs/Mutual Funds (MFs) to distributors (in absolute terms) during the half-year period against the concerned investor's total investments in each MF scheme. The term 'commission' here refers to all direct monetary payments and other payments made in the form of gifts / rewards, trips, event sponsorships etc. by AMCs/MFs to distributors. Further, a mention may be made in such CAS indicating that the commission disclosed is gross commission and does not exclude costs incurred by distributors such as Goods & Services Tax (wherever applicable, as per existing rates), operating expenses, etc.
- The scheme's average Total Expense Ratio (in percentage terms) along with the break up between investment and advisory fees, commission paid to the distributor and other expenses for the period for each scheme's applicable plan (regular or direct or both) where the concerned investor has actually invested in

Such half-yearly account statement shall be issued to all investors, excluding those investors who do not have any holdings in IDFC MF schemes and where no commission against their investment has been paid to distributors, during the concerned half-year period.

C) For all Unitholders

In case of a specific request received from the unit holder, the AMC shall provide the account statement to the investor within 5 business days from the receipt of such request.

UNIT CERTIFICATES

No Unit Certificates will be issued. An investor who wishes to trade in units would require to have a demat account.

The distribution of these Documents in certain jurisdictions may be prohibited or restricted or subject to registration requirements and accordingly, persons who come into possession of any of these Documents are required to inform themselves about and to observe, any such restrictions. No person receiving a copy of any of these Documents in such jurisdiction may act or treat these Document or any part/portion thereof as constituting an invitation to him to subscribe for Units, nor should he in any event use any such Documents, unless in the relevant jurisdiction such an invitation could lawfully be made to him and such Documents could lawfully be used without compliance with any

registration or other legal requirements.

Where can you submit the filled up applications.

Filled up applications can be submitted at the Official points of acceptance, as per the details given on the back cover page of this document.

HOW TO APPLY?

Please refer to the SAI and Application form for the instructions.

MANDATORY QUOTING OF BANK MANDATE BY INVESTORS 19

As per the directives issued by SEBI, it is mandatory for applicants to mention their bank account numbers in their applications and therefore, investors are requested to fill-up the appropriate box in the application form failing which applications are liable to be rejected.

PAN & KYC REQUIREMENTS

It is mandatory for all investors (including joint holders, NRIs, POA holders and guardians in the case of minors) to furnish such documents and information as may be required to comply with the Know Your Customers (KYC) policies under the AML Laws. Applications without such documents and information may be rejected.

In terms of SEBI circulars dated April 27, 2007, April 03, 2008 and June 30, 2008 read with SEBI letter dated June 25, 2007, Permanent Account Number (PAN) would be the sole identification number for all participants transacting in the securities market, irrespective of the amount of transaction, except (a) investors residing in the state of Sikkim; (b) Central Government, State Government, and the officials appointed by the courts e.g. Official liquidator, Court receiver etc. (under the category of Government) and (c) investors participating only in micro-pension. SEBI, in its subsequent letters dated June 19, 2009 and July 24, 2012 has conveyed that systematic investment plans (SIP) and lumpsum investments (both put together) per mutual fund up to Rs.50,000/- per year per investor shall be exempted from the requirement of PAN.

Accordingly, investments in IDFC Mutual Fund (including SIP investment where the aggregate of SIP instalments in a rolling 12 months period or in a financial year i.e April to March) of upto Rs 50,000/- per investor per year shall be exempt from the requirement of PAN.

However, eligible Investors (including joint holders) should comply with the KYC requirement through registered KRA by submitting Photo Identification documents as proof of identification and the Proof of Address [self-attested by the investor / attested by the ARN Holder/AMFI distributor]. These exempted investors will have to quote the "PEKRN (PAN exempt KYC Ref No) in the application form. This exemption of PAN will be applicable only to investments by individuals (including NRIs but not PIOs), joint holders, Minors and Sole proprietary firms. PIOs, HUFs and other categories of investors will not be eligible for this exemption.

Thus, submission of PAN is mandatory for all other investors existing as well as prospective investors (except the ones mentioned above) (including all joint applicants/holders, guardians in case of minors, POA holders and NRIs but except for the categories mentioned above) for investing with mutual funds from this date. Investors are required to register their PAN with the Mutual Fund by providing the PAN card copy (along with the original for verification which will be returned across the counter). All investments without PAN (for all holders, including Guardians and POA holders) are liable to be rejected.

Application Forms without quoting of PEKRN shall be considered incomplete and are liable to be

rejected without any reference to the investors. The procedure implemented by the AMC and the decisions taken by the AMC in this regard shall be deemed final.

LISTING AND TRANSFER OF UNITS

LISTING

The units of the scheme are listed on the BSE. The In – principle approval from BSE has been received for listing of units of the above scheme.

Buying or selling of Units by investors can be made from the secondary market on the Stock Exchange. Units can be bought or sold like any other listed stock on the Exchange at market prices. The minimum number of Units that can be bought or sold on the Exchange is 1 (one) unit. Investors can purchase Units at market prices, which may be at a premium/discount to the NAV of the Scheme depending upon the demand and supply of Units at the Stock Exchange. Unitholders who wish to trade in units would be required to have a demat account. All investors may buy/sell Units on the Stock Exchange on all the trading days as per the settlement cycle of the Stock Exchange.

Since the Scheme is listed, for declaration of dividend, the Scheme shall follow the requirements stipulated in the listing agreement.

Although Units listed on BSE, there can be no assurance that an active secondary market will develop or be maintained. Trading on the Stock Exchange may be halted because of market conditions or for reasons that in the view of the market authorities or SEBI, trading in the Units is not advisable. There can be no assurance that the requirements of the market necessary to maintain the listing of the Units will continue to be met or will remain unchanged. The AMC and the Trustees will not be liable for delay in trading of Units on the Stock Exchange due to the occurrence of any event beyond their control.

TRANSFER

On listing, the units of scheme / Series would be transferable. Transfers should be only in favour of transferees who are eligible for holding Units under the Scheme. The AMC shall not be bound to recognise any other transfer. For effecting the transfer of Units held in electronic form, the Unitholders would be required to lodge delivery instructions for transfer of Units with the DP in the requisite form as may be required from time to time and the transfer will be effected in accordance with such rules/regulations as may be in force governing transfer of securities in dematerialised mode.

If a person becomes a holder of the Units consequent to operation of law, or upon enforcement of a pledge, the Fund will, subject to production of satisfactory evidence, effect the transfer, if the transferee is otherwise eligible to hold the Units. Similarly, in cases of transfers taking place consequent to death, insolvency etc., the transferee's name will be recorded by the Fund subject to production of satisfactory evidence.

Special Products / facilities available during the NFO

This being a close ended scheme, facilities like Systematic Investment Plan, Systematic Transfer Plan Systematic Withdrawal Plan is not available to investors.

PLEDGE OF UNITS FOR LOANS

The Units can be pledged by the Unitholders as security for raising loans subject to the conditions of the lending institution. The Registrar will take note of such pledge (by marking a lien etc.) / charge in its records. Disbursement of such loans will be at the entire discretion of the lending institution and the fund assumes no responsibility thereof.

The pledgor will not be able to redeem Units that are pledged until the entity to which the Units are pledged provides written authorisation to the fund that the pledge/lien charge may be removed. As long as Units are pledged, the pledgee will have complete authority to redeem such Units. However, such redemption will be permitted only on maturity of the scheme. Decision of the AMC shall be final in all cases of lien marking.

In case of Units held in electronic form, the rules of Depository applicable for pledge will be applicable for Pledge/Assignment of the Units of the Scheme. Units held in electronic form can be pledged by completing the requisite forms/formalities as may be required by the Depository

PHONE TRANSACT & M-TRANSACT

The Facility 'Phone Transact' has been introduced by the AMC which enables the investors to subscribe and/or redeem units by calling from their registered phone number on a dedicated phone number identified by the AMC.

The Facility "M-Transact" has been introduced by the AMC which enables investors to subscribe and/or redeem units, by sending instructions through short messaging service ("SMS") from their registered mobile phone number on a dedicated number identified by the AMC.

These facilities are currently available to all existing Individual investors in the schemes of IDFC Mutual Fund. Individual investors applying on "Sole" or "Anyone or Survivor" basis in their own capacity shall be eligible to avail of these facilities for permitted transactions; inter alia, on the terms and conditions specified by the AMC for use of this facility from time to time. All such investors also need to have completed the KYC process and bank mandate registration as specified by the AMC from time to time. This facility is currently not available to a first time investor in the schemes of IDFC Mutual Fund.

Currently, only purchase, switch and redemption transactions are accepted through this facility. Eligible investors can make additional purchase in the scheme in which they are currently invested or make fresh purchase in any other scheme of IDFC Mutual Fund. Additionally, in case of open-ended schemes offering SIP facility, investors can register a SIP using Phone Transact. Requests like change in bank mandate, change of nomination, change in mode of holding, change of address or such other requests as the AMC may decide from time to time will not be permitted using the phone transact facility.

The AMC may, if deemed fit, extend this facility to other categories of investors at a future date. The AMC/Mutual Fund reserves the right to modify the terms and conditions of this Facility from time to time as may be deemed expedient or necessary.

"Terms and Conditions" mean the terms and conditions set out below by which the Facility shall be used/availed by the Unit holder and shall include all modifications and supplements made by AMC thereto from time to time.

It is clarified that the Facility is only with a view to accommodate /facilitate the Unit holder and offered at the sole discretion of the AMC. Further, the AMC may refuse access to this Facility to any investor for reasons such as attempt to mis-use this facility, attempt to place unauthorised transaction etc.

AMC may periodically provide the Unit holder with a written statement of all the transactions made by the Unit holder on a regular/as & when basis, as is being currently done.

The Unit holder shall check his/her account records carefully and promptly. If the Unit holder believes that there has been a mistake in any transaction using the Facility, or that un authorised transaction has been effected, the Unit holder shall notify AMC immediately.

By opting for the facility the Unit holder authorises and instructs the AMC to carry out the transactions as per the instruction given by the investor.

The Unit holder shall at all times be bound by any modifications and/or variations made to these Terms and Conditions by the AMC.

The Unit holder agrees and confirms that the AMC may at its sole discretion suspend the Facility in whole or in part at any time without prior notice if (i) the Unit holder does not comply with any of the Terms and Conditions or any modifications thereof, (ii) the AMC has the reason to believe that such processing is not in the interest of the Unit holder or is contrary to Regulation/SIDs/amendments to the SID and (iii) otherwise at the sole discretion of the AMC in cases amongst when the markets are volatile or when there are major disturbances in the market, economy, country, etc.

1. INSTRUCTIONS / TERMS AND CONDITIONS FOR PHONE TRANSACT & M-TRANSACT FACILITIES

a) Prospective investor(s) / Unitholder(s) are requested to read the Scheme Information Document ("SID"), Key Information Memorandum ("KIM") (collectively the "Offering Documents") and instructions and terms and conditions ("Instructions") carefully before filling the Registration Form and the One Time Debit Mandate Form ("Registration cum Debit Mandate").

b) Prospective investor(s) / Unitholder(s) proposing to avail the M-Transact Facility ("User") are deemed to have read and accepted the terms and conditions as stated in the Offering Documents, the Know Your Customer (KYC) norms, the Privacy and Security Policy on the website of the Mutual Fund and these Instructions, and bind themselves to the terms thereof upon signing the Registration cum Debit Mandate.

c) The AMC is offering the M-Transact facility with a view to accommodate / facilitate the User and is as such offered at the sole discretion of the AMC.

d) Once registered under the Facilities, the User would be registered for all schemes of IDFC Mutual Fund and all services covered respectively under each of the Facilities. Users do not have an option to selectively choose the Scheme(s) or the services they would like to be registered under the Facilities. The Users should note that separate SMS confirmations will be sent on their registered mobile number confirming successful registration and activation of the Facilities. In addition, User(s) will also receive a letter from the AMC confirming activation of the Facilities. The User will be able to transact for each of the Facilities only after receiving the relevant registration confirmation SMS.

e) User(s) to take note that in line with guidelines by SEBI vide its Circular No. Cir/IMD/DF/13/2011 dated August 22, 2011, Mutual Fund shall deduct Transaction Charges from the subscription amount, as applicable.

f) The distributor code (ARN) and the distributor sales person code (EUIN) as mentioned on the SMS transact Registration Form would be applicable for all transactions done using the Facility. Any change in the ARN and/or EUIN for Facilities would be required to be intimated, in writing, to IDFC Mutual Fund/ IDFC AMC and would be effected on a prospective basis.

g) The following rules will apply for processing of purchase (lump sum and SIP) transactions using SMS Transact/ M Transact Facility:

A. Distributor ARN code and EUIN mentioned during filling the registration form for the Facilities:

- If the investment is requested in a scheme under a 'Direct Plan', the Distributor/ARN code will be excluded for that transaction and units will be allotted under the 'Direct Plan' as requested.

- If the investment is requested in a scheme under a 'Regular Plan', the registered ARN code and EUIN will be considered for that transaction and units will be allotted under the 'Regular Plan' as requested.

B. Distributor/ ARN code not mentioned (left blank or 'Direct' mentioned) during filling the registration form for the Facilities:

- If the investment is requested in a scheme under a 'Direct Plan', the units will be allotted under the 'Direct Plan' as requested.
- If the investment is requested in a scheme under a 'Regular Plan', the units will, by default, be allotted under the 'Direct Plan' of the respective scheme.

h) The Unit holder desirous to make purchase and SIP registration over this facility shall register to avail the Phone Purchase facility by submitting the "Registration - Cum - One Time Mandate Form" and submit the same to the AMC/ISC. The form can be downloaded from www.idfcmf.com. The terms and conditions for Phone Purchase are mentioned on the reverse of the Application Form.

2. UNITHOLDER INFORMATION

a) M-Transact facility is only available to User(s) having a folio (which would include any zero balance folio) with the Mutual Fund, and who are either Resident Individuals (with mode of holding of the folio as 'single' or 'anyone or survivor' or 'either or survivor'), Hindu Undivided Family, sole proprietors or minors (through guardians). This facility is not available to User(s) who are non-residents (NRIs), Corporates, Partnership Firms and Resident Individuals (with mode of holding of the folio as 'joint'). Further, User(s) transacting through the online platforms of distributors (channel investors) or holding Units in demat form cannot be registered for the M-Transact facility.

b) In case the User is a 'minor', the parents or legal guardian appointed by a court of competent jurisdiction shall be eligible to avail of the facilities till the minor attains majority. The legal guardian of the minor hereby agrees to submit such details as may be specified by the AMC, from time to time. Upon the minor attaining majority, the right of the parent / legal guardian to operate the said User(s) account / folio(s), shall cease and the 'major' User would be required to register himself afresh for availing the M-Transact facility. The parent / legal guardian of the minor agree to indemnify the AMC against any claim made by the above minor for any transactions made by him/her on behalf of the minor.

c) In case of 'single' holding folio, M-Transact facility will be offered to the sole User. In case the mode of holding of the folio is 'Anyone or Survivor', the AMC shall offer the facility in favour of the 'Anyone or Survivor' in the folio.

d) User(s) should specify their full name, PAN details, folio no, mobile number and email address in the 'Unitholders Information' section in the Registration cum Debit Mandate. User's name should match with the details in the existing folio, failing which the Registration cum Debit Mandate is liable to be rejected.

e) User(s) are required to specify whether they are KYC compliant and enclose a photocopy of their PAN card duly self-certified along with the original PAN card along with a proof of KYC Compliance (viz. KYC Acknowledgement Letter issued by KYC Registration Agency ("KRA") or printout of KYC Compliance status downloaded from the KRA website using the PAN Number or KYC acknowledgment letter issued by any KYC Registration Agency registered with SEBI), if not provided earlier, along with the Registration cum Debit Mandate. Only KYC compliant users shall be permitted to use the facility. KYC failed cases or KYC pending or under-process cases are currently not eligible to be registered for this facility. Decisions of the AMC with regards permitting the User(s) to avail M-Transact shall be final and binding upon them. Registration cum Debit Mandate not complying with the above requirement will not be accepted/ processed.

f) The mobile number and email address specified in the Registration Cum Debit Mandate will be registered for availing this M-Transact facility and such details will supersede corresponding existing details (if any) for the User(s) folio. A user can undertake transactions under the M-Transact facility only through the registered mobile no. Only one folio can be tagged

to one mobile number and once a mobile number is registered for one folio, the same mobile number cannot be re-registered against another folio in the Mutual Fund. Further, only one mobile number can be registered against one folio.

3. TRANSACTION AND FUND OPTION

Currently, the following types of transactions are permitted under each of the Facilities:

- SMS Transact – Lump sum Purchase, SIP registration, Redemption
- Phone Transact - Lump sum Purchase, SIP/STP/SWP registration, switch, Redemption
- Investors can use the Facilities for all the eligible and live open-ended schemes (currently available and launched in future) of IDFC Mutual Fund.

If the User has existing units in the same folio under the Scheme(s) covered under the Facilities under the Dividend Option with a different sub-option selected (i.e. payout or reinvest), the existing sub-option would be substituted with the sub-option selected during the phone transaction, for that folio. In a subsequent Purchase transaction through a mode other than a SMS or phone transaction, if the User selects a different sub-option under the folio, such new sub-option will substitute the earlier selected sub-option, including the one registered for the Phone Transact facility.

The User(s) understands that the AMC may, at its sole discretion decide to make available additional Schemes under the Facilities. The User(s) acknowledges and agrees to be bound by the terms and conditions of these Facilities for such additional Schemes that the AMC may make available from time to time.

4. BANK DETAILS

a) User(s) proposing to undertake purchase transactions through the Facilities must have a bank account with any one of the eligible banks on the NACH Platform. The Mutual Fund / AMC reserves the right to remove or add any bank as an eligible bank at any time without giving any prior notice to the User(s). User(s) will have to register a single bank mandate which will be debited towards subscription of unit(s) of Scheme(s) ("Purchase") undertaken through the SMS Transact facility. Relevant information in the 'Bank Details' section should be filled in and an original cancelled cheque or a self attested copy of the cheque of such a bank account should be provided along with the OTM for verification and registration of bank mandate. The bank mandate mentioned in the OTM is limited/ applicable only for Purchases through the Facilities and will not be added to the bank master for transactions through other modes, in the folio. User(s) can make payments for Purchases under the Facilities only from their respective bank account(s). In case of minor account, the bank account has to be either of the minor only or a joint account of the minor with the guardian only. Upon the minor attaining the status of major, the minor in whose name the investment was made, shall be required to provide all the KYC details, updated bank account details including cancelled original cheque leaf of the new account. No further transactions shall be allowed till the status of the minor is changed to major. Third party payments are not permitted.

   Eligible Banks for Purchases through the Facilities: All banks / bank branches participating in NACH Platform of NPCI

b) User(s) not providing information in the 'Bank Details' section or not having an account with any of the eligible banks can still be eligible to avail the Redemption facility through M-Transact with the existing default bank mandate registered in the folio. The Redemption proceeds will continue to get credited/ paid out to the existing default bank mandate registered in the folio as per the Registrars records and is independent of the bank mandate registered for Purchases under the M-Transact facility. In such cases, the 'Bank Details' section and the 'Authorisation of the Bank Account Holder' section are not required to be filled-in and must be kept blank.

c) Any change of bank mandate in the folio submitted subsequently, will not impact/ alter the bank mandate, default or otherwise, registered for Purchases under the M-Transact facility. In case the User(s) desire to change their bank mandate for Purchases under M-Transact facility, they will have to de-register the existing M-Transact registration and re-register with the new bank mandate by filling up a fresh Registration cum Debit Mandate. A notification of such change should also be separately sent to the old bank by the User(s) for necessary action.

DECLARATION AND AUTHORISATION OF THE USER

a) All signatures should be in English or in any Indian language. Thumb impressions should be from the left hand for males and the right hand for females and in all cases must be attested by a magistrate, notary public or special executive magistrate under his / her official seal. Applications by minors should be signed by their guardians. If you are investing through your constituted attorney, please ensure that the Power of Attorney (POA) document is signed by you and your constituted attorney. The signature in the Registration cum Debit Mandate, then, needs to clearly indicate that the signature is on your behalf by the constituted attorney.

b) User(s)entering relevant details in the 'Bank Details' section are also required to sign in the 'Authorisation of the Bank Account' section in the order in which the bank account is held and the manner in which their signatures appear on bank records.

c) User(s) who have not provided information in the 'Bank Details' section and are only availing the Redemption facility through the Facilities, will be only bound by the declarations and authorizations set out in the second paragraph of this section upon signing the signature block in this section.

OTHER TERMS AND CONDITIONS

a) Currently, each Purchase transaction under the Facilities is restricted up to a monetary limit as mentioned below:
SMS Transact facility – up to Rs. 99,99,999 per transaction
Phone Transact facility – up to Rs. 1,99,999 per transaction.
However, with further system developments, the AMC would endeavour to enhance such limit over a period of time. Notification of such enhanced limits would be informed in accordance with the requirements under the Regulations. The minimum Purchase amount criteria (lump sum and SIP) specified in the respective Option of the Scheme would be applicable.
Further, the restriction on number of transactions which a user can do in one folio on a single day is as given below:
SMS Transact - No restriction, the User can make multiple Purchases if required in a single day.
Phone Transact - At present, only five (5) transactions per folio per scheme per day are accepted towards purchases in all eligible open ended schemes.
Redemption can be submitted in all eligible open ended schemes, subject to maximum limit of only five (5) transactions per folio per scheme per day.
Users submitting multiple requests in any of the eligible open ended schemes, which aggregates to Rs. 2 lakhs or above, and in Liquid Schemes irrespective of the amount, from various modes of application, are requested to read the Applicable NAV section in the SID of the relevant Scheme(s). The Redemption requests shall be subject to the minimum Redemption amount criteria and such other requirements (as applicable), details of which are provided in the SID of the relevant Scheme(s).

b) SIP (available only for investors who have successfully registered for Purchases under the Facilities): Users who are have received the SIP Purchase registration confirmation SMS from IDFC/ Registrars can initiate SIP Purchases in any of the Schemes offered under the Facilities by sending the prescribed SMS with the relevant SIP amount and scheme code to 56767267.Users are requested to refer to the SID of the Scheme for details on the minimum initial lumpsum

investment amount to commence the SIP and the minimum instalment amount. The default date for SIP instalment would be on the 10th of every month, or the subsequent Business Day if the 10th is a non-Business Day. On receipt of the SMS for starting SIP, the first SIP will be triggered on the 10th of the month immediately following the date of receipt of the SMS. Thereafter, it will automatically be triggered on every 10th of the subsequent month. The SIP would be open-ended (i.e. a perpetual SIP – till Dec 2099) which can be discontinued by the User at any time by sending a written request to the Registrar/AMC.

User(s) to note that SIP registration will be cancelled and SIP will be discontinued in case of 3 consecutive reversals for non-receipt of funds by the Scheme (including offline SIPs). The default syntax would be SIP space <amount> space <scheme code>. SIP can also be registered using phone transact facility.

c) Applicable NAV: Investments in the Scheme would be aggregated at a Portfolio level based upon the PAN of the User, irrespective of the time or mode of receipt on the application on any given business day. In case such investments aggregate to Rs. 2 lakhs or above, the closing NAV of the day on which the funds for the entire amount of subscription/Purchase (including switch ins) as per the application(s) are credited to the bank account of the respective Scheme before the cut-off time i.e. available for utilization before the cut off time, shall be applicable.

User(s) may note that the transactions submitted through Phone Transact facility will be processed at the Applicable NAV basis the time of receipt of final confirmation from the User by the Registrar. Electronic time stamping of such instruction by the Registrar shall be deemed to be in accordance with the requirements under the Regulations. The time and date recorded by the server of the Registrar will be treated as the time and date for the submission of such transaction request.

User(s) to note that Redemption transactions under the SMS Transact facility will be processed at the Applicable NAV at the time of receipt of the SMS instruction by the Registrar. Users are requested to refer the SID of the Scheme for further details on the Applicable NAV for Purchase transactions (lumpsum and SIP). Users to note that each Purchase and Redemption request is however subject to acceptance of the transaction request by the AMC/Registrar. Electronic time stamping of such SMS instruction by the Registrar shall be deemed to be in accordance with the requirements under the Regulations. The time and date recorded by the server of the Registrar will be treated as the time and date for the submission of the Purchase/Redemption request.

d) At the time of requesting a Purchase transaction (lumpsum and SIP) under the Facilities, availability of clear funds should be ensured in the bank account specified in the OTM as non-availability of funds in the bank account of the User(s) may lead to unsuccessful transaction. The AMC / Registrar shall attempt to settle the transaction by requesting the registered bank for release of funds. However, in case of non-receipt of funds, the transaction shall stand cancelled and the units allotted, if any, would be reversed.

e) All allotments of Units will be provisional, subject to realization of payment and other information as required by the AMC in a form satisfactory to the AMC, failing which the Mutual Fund / AMC reserve the right to reject the application and refund the Purchase amount or if Units have been allotted, freeze the folio or reverse the units or Redeem the Units at Applicable NAV and in such a case the Mutual Fund / AMC will not be responsible for any consequence there from.

f) Any Transaction request on a non-Business Day will be processed on the next Business Day in accordance with the provisions provided in the SID of the Scheme and/or SAI.

g) If any transaction under the Facilities is delayed or not effected at all for reasons of incomplete or incorrect information/entry or due to non-receipt of SMS by the service provider or

the Registrar, the User(s) will not hold the AMC, the Mutual Fund, its agents or service providers responsible.

h) While the AMC shall aim to provide security to prevent any unauthorized access, there cannot be any guarantee from frauds, hacking and other actions, which could affect the electronic instructions to the AMC.

i) The User has to immediately notify the AMC/Mutual Fund on toll-free number 180030066688 / 18002666688 followed by email to investormf@idfc.com from his registered email address informing of the loss or change in mobile number, to enable the AMC/Mutual Fund to de-register the folio mapped to the mobile number for SMS Transact facility.

j) Upon receipt of request from User, the AMC / the Mutual Fund may restrict SMS transact facility to prevent any unauthorized access.

k) Requests like change in bank account details/mandates (other than under this facility), change of nomination, change in mode of holding, change of address or such other requests as the AMC may decide from time to time will not be permitted by using the Facilities. User(s) should submit relevant request forms available with the ISCs / our website www.idfcmf.com for such requests.

l) In order to avail the Facilities, the User(s) are required to provide certain data in the Registration form/OTM or otherwise. The AMC may in its absolute discretion and in the User's interest, request the User(s) for an oral, fax or written confirmation of any transaction request and/or any additional information with respect to the User(s). The AMC shall not be bound to act on any SMS instructions received until such oral, fax or written confirmation and/or any additional information in a form and manner acceptable to the AMC is received.

However, the AMC shall rely on the fax confirmations purporting to have been sent by the User(s) and may act thereon as if the same had been duly given. If for any reason, the AMC is not satisfied with the replies of the User(s), the AMC has, at its sole discretion and in the interest of the investor, the right to refuse to suspend SMS Transact facility.

The User(s) shall ensure that the details provided to the AMC are complete, true, accurate and as at the date of submission. The AMC shall be notified immediately if the User is aware or suspects another person knows or has used his/her/their data without authority, and the AMC/Mutual Fund will not be liable for any loss caused to the User on account of any mis-use of the data by such other person.

m) The User(s) understands that the data / information provided by him / her / them pursuant to dealing with the AMC / Mutual Fund could be dealt/shared by the AMC with the Sponsor, Trustee Company, Registrar, banks and / or authorized external third parties who are involved in transaction processing, dispatches, etc. of the Scheme or who have been appointed by the Trustees/AMC to provide services to the Scheme, distributors or sub-brokers or any other persons for compliance with any legal or regulatory requirements or directives or to verify the identity of User(s) for complying with anti-money laundering requirements or for prevention of fraud purposes in accordance with the Privacy and Security Policy of the Mutual Fund which is available on its website www.idfcmf.com.

n) The AMC / Mutual Fund may at its sole discretion modify / vary or suspend any of the Facilities in whole or in part, at any time with requisite intimation to the User(s), as may be deemed expedient or necessary.

o) Providing the Facilities shall not be considered as solicitation to buy or an offer to sell or recommendation for a security or any other product or service, to any person in any jurisdiction

where such solicitation, offer, recommendation, purchase or sale would be unlawful under the laws of that jurisdiction.

p) The AMC accepts no liability whatsoever, direct or indirect, for non-compliance with the laws of any country other than the Republic of India. The mere fact that the Facilities may be accessed by a User(s) by sending a SMS from a country other than India, shall not be interpreted to imply that the laws of the said country supersede the Instructions and/or the use of the Facilities. The Facilities shall be expressly governed by these Instructions at all times.

q) The AMC will not be liable to the User(s) for any damages whether direct or indirect, on account of any unauthorized access or misuse of the Facilities by the User(s).

r) The grant of the Facilities is not transferable / assignable under any circumstances.

s) The Facilities are provided only with a view to accommodate/facilitate the Unit holder(s) and offered at the sole discretion of the AMC.

The investor acknowledges that Electronic Transactions is not a secure means of giving instructions / transactions requests and that the investor is aware of the risks involved including those arising out of such transmission being inaccurate, imperfect, ineffective, illegible, having a lack of quality or clarity, garbled, altered, distorted, not timely etc. The investor's request to the Recipient to act on Electronic Transactions is for the investor's convenience and the Recipient is not obliged or bound to act on the same. The investor authorizes the recipient to accept and act on any Electronic Transactions which the recipient believes in good faith to be given by the investor and the recipient may at its discretion treat any such transaction as if the same was given to the recipient under the investor's original signature.

In case there is any difference between the particulars mentioned in the fax/ web/ electronic transmission received as against the original document which may be received thereafter, the Recipient shall not be liable for any consequences arising therefrom.

The investor agrees that the recipient may adopt additional security measures including signature verification, telephone call backs or a combination of the same, which may be recorded and the investor consents to such recording and agrees to co-operate with the recipient to enable confirmation of such transaction requests. In consideration of the Recipient from time to time accepting and at its sole discretion (including but not limited to the AMC extending/ discontinuing such facilities from time to time) acting on any Electronic Transactions request received / purporting to be received from the investor, the investor agrees to indemnify and keep indemnified the AMC, Directors, employees, agents, representatives of the AMC, Mutual Fund and Trustees from and against all actions, claims, demands, liabilities, obligations, losses, damages, costs and expenses of whatever nature (whether actual or contingent) directly or indirectly suffered or incurred, sustained by or threatened against the indemnified parties whatsoever arising from or in connection with or any way relating to the indemnified parties in good faith accepting and acting on Electronic Transactions requests including relying upon such transaction requests purporting to come from the investor. The AMC reserves the right to modify the terms and conditions or to discontinue the facility at any point of time.

B. ONGOING OFFER DETAILS

Ongoing Offer Period

This is a close ended scheme. Units shall be on offer for subscription only during the New Fund Offer period.

Ongoing price for subscription (purchase)/switch-in (from other schemes/plans of the mutual fund) by investors. : *Not Applicable, as this is a close ended scheme and units are available for subscription only during the NFO.*

Ongoing price for redemption (sale) /switch outs (to other schemes/plans of the Mutual Fund) by investors:

No Redemption/ repurchase of units shall be allowed prior to the maturity of the scheme. Unitholders who wish to exit may do so through the Stock Exchange mode.

Switch outs to other schemes/plans of the Mutual Fund will be permitted only on maturity of the scheme.

SWITCH FACILITY

Unitholders under the Scheme have the option to switch part or all of their holdings in any scheme launched by the Mutual Fund, or within the Scheme from one Option to another, subject to conditions attached to that scheme, which is available for investment at that time. This Option will be useful to Unitholders who wish to alter the allocation of their investment among the scheme(s)/ plans of the Mutual Fund in order to meet their changed investment needs or risk profiles.

The switch will be effected by way of a redemption of Units from one Scheme / Plan/ Option and a reinvestment of the redemption proceeds in the other Scheme/ Plan/ sub plan/option and accordingly, to be effective, the switch must comply with the redemption rules of the Scheme and the issue rules of the other scheme (for e.g. as to the minimum number of Units that may be redeemed or issued). The price at which the Units will be switched out of the Scheme/options will be based on the Applicable NAV of the relevant Scheme/ Plan(s)/ sub plans/options and considering any exit loads if any that the AMC/ Trustee may have from time to time.

Investors so desiring to switch may submit a switch request, already available with them along with an application form of the Scheme indicating therein the details of the scheme to which the switch is to be made. Applications for switch as above should specify the amount/Units to be switched from out of the Units held in any of the existing Schemes of the Fund. The switch request will be subject to the minimum application size and other terms and conditions of the SID of this Scheme and the scheme from which the amount is switched out.

Similarly the Applicable NAV for switching out of the existing open-ended funds will be the NAV of the Business Day on which the switch request, complete in all respects, is accepted by the AMC, subject to the cut-off time and other terms specified in the SID of the respective existing open ended Schemes. In close-ended scheme the applicable NAV for switching out of the existing close-ended funds will be the applicable NAV (after considering applicable loads) as on the date of its maturity.

Cut off timing for / redemptions/ switches

The Scheme is a close ended scheme. No subscription facility is available, other than during the New Fund Offer.

No Redemption/ repurchase/ Switch out of units shall be allowed prior to the maturity of the scheme.

The unaudited financial results will be displayed on the website of the Mutual Fund (www.idfcmf.com) and that of AMFI (www.amfiindia.com).

Annual Report

The Scheme wise annual report or an abridged summary hereinafter shall be sent by AMC/Mutual Fund as under:

(i) by e-mail to the Unit holders whose e-mail address is available with the Fund,
(ii) in physical form to the Unit holders whose email address is not available with the Fund and who have expressly opted-in to receive physical copy of the same.

The scheme wise annual report or an abridged summary shall be sent by mail/e-mail not later than four months from the date of closure of the relevant accounting year (i.e. 31st March each year).

The physical copy of the scheme wise annual report or abridged summary shall be made available to the investors at the registered office of the AMC. Physical copy of the abridged summary of the Annual Report shall be provided to the unitholder, without charging any cost, on such specific request by the unitholder.

A link of the scheme annual report shall be displayed prominently on the website of the Mutual Fund (www.idfcmf.com) and that of AMFI (www.amfiindia.com). The Mutual Fund shall publish an advertisement disclosing uploading of such scheme annual report thereof on its website, in all India editions of one English and one Hindi daily newspaper.

Associate Transactions
Please refer to Statement of Additional Information (SAI).

Taxation
As per the taxation laws in force as at the date of this document, some broad income tax implications of investing in the units of the various schemes of the Fund are stated below. The information so stated is based on the Fund's understanding of the tax laws in force as of the date of this document.

The information is provided for general information only. However, in view of the individual nature of the implications, each investor is advised to consult his or her own tax advisors/authorised dealers with respect to the specific amount of tax and other implications arising out of his or her participation in the schemes.

Particulars	**Investors**	**Mutual Fund**
Tax on Dividend/ Income	Applicable slab/tax rates* For FPI - 20%	NIL
Capital Gains: Long Term	20 % / 10% For FPI - 10% *(Please refer paragraph 1 below)*	N.A.
Short Term	Applicable slab/tax rates* For FPI - 30%	N.A.

*For tax rates, please refer paragraph 5.

For further details on taxation please refer to the clause on Taxation in the SAI

Note: Surcharge and Health & Education cess will be payable in addition to the applicable taxes, wherever applicable. Further, the TDS rates on dividend income are mentioned in paragraph 7.

As per section 2(42A) of the Income-tax Act, 1961 ('the Act), mutual fund units (other than equity oriented funds) held by the investor as a capital asset is considered as short term capital asset if it is held for a period of up to 36 months. Accordingly, if such unit is held for a period of more than 36 months, it is treated as a long-term capital asset.

1) Long-term capital gains

For resident, as per section 112 of the Act, long-term capital gains on transfer of units, are liable to tax at the rate of 20% (with indexation benefits). Base year for indexation for computing long term capital gains shall be 1 April 2001 or the year in which the asset was first held by the assessee, whichever is later.

Further, in case of individuals/HUF's, being residents, where the total income excluding long-term capital gains is below the maximum amount not chargeable to tax[1] [refer paragraph 5], then the difference between the maximum amount not chargeable to tax and total income excluding long term capital gains, shall be adjusted from long term capital gains. Therefore, only the balance long term capital gains will be liable to income tax at the rate of 20%.

[1] Basic exemption limit

In case of non-residents, under section 112 of the Act, long-term capital gains would be taxable at the rate of 10% on the transfer of capital assets, being unlisted securities, without giving effect to the first and the second proviso to section 48 i.e. without taking the benefit of foreign currency fluctuation and indexation benefit. Long-term capital gains on transfer of listed units of other than equity oriented mutual fund would be taxable at the rate of 20% (plus the applicable surcharge and cess), with indexation benefit.
In case of FPIs, the long-term capital gains from the redemption or transfer of units shall be taxed at the rate of 10% without taking the benefit of foreign currency fluctuation and indexation benefit.

2) Short-term capital gains

Short-term capital gains arising on redemption or transfer of units are subject to tax at normal tax rates (Refer paragraph 5 below) and 30% in case of FPIs.

3) Taxability of dividends

With effect from 1 April 2020, income distribution tax has been abolished and now the dividend income will be taxed in the hands of the unitholder at normal tax rates as mentioned in paragraph 5 and 20% in case of FPIs.

Further, as per section 57, the resident unitholders can claim deduction of interest expense to the extent of 20 per cent of dividend income.

4) Any income, including gains from redemption of units of scheme of Mutual Fund, received by any person for, or on behalf of, the New Pension System Trust[2], is exempt in the hands of such person under section 10(44) of the Act.

5) The tax rates applicable to different categories of tax-payers for FY 2020-21:

The Taxation Laws (Amendment) Act, 2019 has introduced two new sections i.e. section 115BAA and section 115BAB effective from financial year commencing 1 April 2019:

- *Section 115BAA*

As per section 115BAA, a domestic company can opt for paying tax at a lower rate of 22%, plus applicable surcharge and cess, subject to prescribed conditions especially such that certain deductions [such as section 80G (w.e.f. FY2020-21)] and exemptions need to be foregone. Further, the provisions of Minimum Alternate Tax ('MAT') will not apply to such companies. The option has to be exercised before the due date of filing the income-tax return. Once the option is exercised, it cannot be withdrawn subsequently.

- *Section 115BAB*

As per s.115BAB new domestic manufacturing companies, which have been set up and registered on or after 1 October 2019 and commenced manufacturing on or before 31 March 2023, can opt for a

[3] Section 115BAC. For adopting the new tax regime, most of the deductions/exemptions such as section 80C, 80D, etc. are to be foregone. The aforesaid regime is optional. Accordingly, individuals and HUFs have the option to be taxed under either of the options. The option under new regime once exercised can be changed in subsequent years (not applicable for business income).

lower tax rate of 15% plus applicable surcharge and cess subject to prescribed conditions especially such that certain deductions [such as section 80G (w.e.f. FY2020-21)] and exemptions need to be foregone.

Further, the provisions of MAT will not apply to such companies. The option has to be exercised before the due date of filing the income-tax return. Once the option is exercised, it cannot be withdrawn subsequently.

6) Surcharge and Cess

The tax rates mentioned in paragraph 1 and 5 above would be increased by a surcharge of:

a) For Individuals, HUF, Artificial Juridical Person, AOP or BOI:

Nature of Income	Up to Rs. 50 lakhs	More than Rs. 50 lakhs but upto Rs. 1 crore	More than Rs. 1 crore but less than Rs. 2 crores	More than Rs. 2 crores but up to Rs. 5 crores	More than Rs. 5 crores
1. Short term or Long-term capital gains under section 115AD(1)(b)	NIL	10%	15%	15%	15%
2. Dividend Income[4] – Residents and Non-residents	NIL	10%	15%	25%	37%
3. Any other Income	NIL	10%	15%	25%	37%

b) <u>For Firms and LLPs</u>

12% where total income exceeds Rs. 10,000,000.

c) <u>For Companies</u>

Company	Total income upto Rs. 1 crore	Total income exceeds Rs. 1 crore but not Rs. 10 crores	Total income exceeds Rs. 10 crores
Domestic company	NIL	7%	12%
Domestic Company opting for section 115BAA and 115BAB - on income other than capital gains	10%		
Domestic Company opting for section 115BAA and 115BAB - on capital gains	NIL	7%	12%
Foreign company	NIL	2%	5%

[4] The FA 2020 caps the surcharge on "dividend". It appears for this purpose that dividend would mean dividend from equity shares and may not cover dividend from mutual fund schemes/income distributed by mutual funds. This is because the Income-tax Act in several places refers to dividend from equity as "dividend" and dividend from mutual fund as "income distributed by mutual fund". Based on such approach, "mutual fund dividend" is subject to super-rich surcharge.

A health and education cess of 4% by way of would be charged on amount of tax inclusive of the applicable surcharge for all taxpayers.

7) TDS on income from mutual funds

a) Dividend income

Category	**TDS rate**	**Reduced TDS rates from 14/05/2020 to 31/03/2021**
Resident	10% (new section 194K[5])	7.5%
FPI (corporate)	20% (section 196D)	No change
FPI (non-corporate)	20% (section 196D)	No change
Non-residents including corporates	20% (section 196A)	No change

b) Capital gains

Category	**TDS rate**
Resident	NIL (new section 194K[6])
FPI (corporate)	NIL (section 196D[7])
FPI (non-corporate)	NIL (section 196D[10])
Other non-residents	As given below
Long term capital gains on listed units	20% (section 195)
Long term capital gains on unlisted units	10% (section 195)
Short term capital gains in case of a person other than a company	30% (section 195)
Short term capital gains in case of a company	40% (section 195)

8) Surcharge on TDS

- In case of TDS on payments made to residents, the tax rates would not be increased by surcharge and cess.

- In case of TDS on payments made to non-residents, the tax rates would be increased by surcharge and cess. The surcharge rates are as under:

[5] Threshold of Rs. 5,000 is applicable under section 194K.

[6] As per section 194K, TDS is not required to be withheld on income in the nature of capital gains.

[7] As per section 196D(2) of the Act, income-tax is not required to be withheld from any income arising to FPIs by way of capital gains on transfer of shares and units referred to in section 115AD.

Nature of Income	Up to Rs. 50 lakhs	More than Rs. 50 lakhs but upto Rs. 1 crore	More than Rs. 1 crore but less than Rs. 2 crores	More than Rs. 2 crores but up to Rs. 5 crores	More than Rs. 5 crores	More Than Rs.10 crores
a) Non-corporates						
• Capital Gains	NIL	10%	15%	25%	37%	
• Dividend income[8] – FPIs and other non-residents	NIL	10%	15%	25%	37%	
• Any other Income	NIL	10%	15%	25%	37%	
b) Corporates	NIL		2% (More than Rs. 1 crore but up to Rs. 10 crores)			5%

The rate of health and education cess is 4%. (applicable on tax plus surcharge).

Stamp duty implications

The Finance Act, 2019 has amended the Indian Stamp Act, 1899 to introduce the levy and collection of stamp duty on the issue and transfer of financial instruments at one place through stock exchanges, clearing corporation and depositories.

State Governments will discontinue to charge/collect stamp duty on securities once amendments are effective. Stock exchange/clearing corporation/depository will transfer the stamp duty to respective state governments.

Based on the present language, there will be incidence of stamp duty on:

a) The unit holder, for transactions in the units of the fund; and
b) The fund, for transactions by the fund.

Rate of stamp duty applicable from July 1, 2020 is:

A. <u>For securities other than debentures:-</u>

Transaction/ Instruments	Rates in %
Issuance of units of mutual fund and unlisted shares	0.005
Transfer of securities on delivery basis *<u>(including transfer of mutual fund units)</u>*	0.015
Transfer of securities on non-delivery basis	0.003
Derivatives: Futures (Equity and commodity)	0.002
Derivatives: Options (Equity and commodity)	0.003
Derivatives: Currency and Interest rates derivatives	0.0001
Other derivatives	0.002
Government securities	0

[8] The FA 2020 caps the surcharge on "dividend". It appears for this purpose that dividend would mean dividend from equity shares and may not cover dividend from mutual fund schemes/income distributed by mutual funds. This is because the Income-tax Act in several places refers to dividend from equity as "dividend" and dividend from mutual fund as "income distributed by mutual fund". Based on such approach, "mutual fund dividend" is subject to super-rich surcharge.

Repo on corporate bonds	0.00001

B. For debentures:-

Transaction/ Instruments	**Rates in %**
Issuance of debentures	0.005
Transfer and reissue debentures	0.0001

The collection of stamp duty is subject to the *Indian Stamp (Collection of Stamp-duty through Stock Exchanges, Clearing Corporations and Depositories) Rules, 2019.*

Key points:

- The rules prescribe the collection and payment mechanism of stamp duty by stock exchanges, clearing corporations and depositories (collectively known as 'collecting agent').
- Collecting agent may deduct 0.2 percent of the stamp duty collected as facilitation charges before transferring the same to concerned State Government.
- As per notification issued by Ministry of Finance dated 8 January 2020, a Registrar and Share Transfer Agent will be treated as a "depository" for the limited purpose of acting as a "Collecting Agent" only in case of instruments of transactions otherwise than through a stock exchange, i.e., issue of mutual fund units.

The mechanics of stamp duty collection are as under:

Nature of transaction	**Duty to be collected from**	**Responsibility to collect stamp duty**
Sale of securities made through stock exchange	Buyer	Stock exchange or clearing corporation
Off market transfer of securities made through depository (from one demat account to another)	Transferor	Depository
Issue of securities resulting in creation/change in records of Depository	Issuer	Depository
Sale or transfer or issue/reissue of unlisted securities not made through depositories	Seller or transferor or issuer as case may be	
In case of any other instrument	Person making, drawing or executing such instrument	
Transfer of securities pursuant to invocation of pledge	Pledgee	Depository

Redemption of mutual fund units is not liable to stamp duty as it is neither a transfer nor an issue nor a sale. Stamp duty collected is to be transferred within 3 weeks of collection to the State Government where the residence of the buyer is located and in case the buyer is located outside India then the State in which the trading member/broker of the buyer is located.

D. COMPUTATION OF NAV

The NAV of the Units of the Scheme will be computed by dividing the net assets of the Scheme by the number of Units outstanding on the valuation date. The Fund shall value its investments according to the valuation norms, as specified in Schedule VIII of the Regulations, or such norms as may be prescribed by SEBI from time to time.

All expenses and incomes accrued up to the valuation date shall be considered for computation of NAV. For this purpose, major expenses like management fees and other periodic expenses would be accrued on a day to day basis. The minor expenses and income will be accrued on a periodic basis, provided the non-daily accrual does not affect the NAV calculations by more than 1%.

Any changes in securities and in the number of units be recorded in the books not later than the first valuation date following the date of transaction. If this is not possible given the frequency of the Net Asset Value disclosure, the recording may be delayed upto a period of seven days following the date of the transaction, provided that as a result of the non-recording, the Net Asset Value calculations shall not be affected by more than 1%.

In case the Net Asset Value of a scheme differs by more than 1%, due to non - recording of the transactions, the investors or scheme/s as the case may be, shall be paid the difference in amount as follows:-

(i) If the investors are allotted units at a price higher than Net Asset Value or are given a price lower than Net Asset Value at the time of sale of their units, they shall be paid the difference in amount by the scheme.
(ii) If the investors are charged lower Net Asset Value at the time of purchase of their units or are given higher Net Asset Value at the time of sale of their units, Asset Management Company shall pay the difference in amount to the scheme. The asset management company may recover the difference from the investors

NAV of units under the Scheme shall be calculated as shown below: **NAV (Rs.) =**

Market or Fair Value of Scheme's investments	+	Current Assets including Accrued Income	-	Current Liabilities and Provisions including accrued expenses

No. of Units outstanding under Scheme

The NAV of the Scheme will be calculated upto four decimal places and will be declared on all business days. The valuation of the Scheme's assets and calculation of the Scheme's NAV shall be subject to audit on an annual basis and shall be subject to such regulations as may be prescribed by SEBI from time to time.

IV. FEES AND EXPENSES

As per the provisions of the Regulations, read with the amendments thereto, the following fee and expenses will be charged to the series/plans under the Scheme:

A. NEW FUND OFFER (NFO) EXPENSES (These expenses are incurred for the purpose of various activities related to the NFO like sales and distribution fees paid marketing and advertising, registrar expenses, printing and stationary, bank charges etc.)

New fund offer expenses will be borne by the AMC.

B. ANNUAL SCHEME RECURRING EXPENSES

These are the fees and expenses for operating the scheme. These expenses include Investment Management and Advisory Fee charged by the AMC, Registrar and Transfer Agents' fee, marketing and selling costs etc. as given in the table below:

As per SEBI (MF) Regulations, 1996, the total expense ratio shall not exceed 1.00% of the daily net assets of the scheme.

The total fees and expenses for operating the scheme as listed hereunder would be up to 1% of the daily net assets which includes expenses towards management fees, commission, marketing expense and other expense relating to operating the scheme.

Expense Head	% of daily Net Assets
Investment Management and Advisory Fees	Up to 1.00%
Trustee fee	
Audit fees	
Custodian fees	
Listing fees	
RTA Fees	
Marketing & Selling expense incl. agent commission	
Cost related to investor communications	
Cost of fund transfer from location to location	
Cost of providing account statements and dividend redemption cheques and warrants	
Costs of statutory Advertisements	
Cost towards investor education & awareness (at least 2 bps) ^	
Brokerage & transaction cost over and above 12 bps for cash market trades and 5 bps for derivative market trades @	
Goods & Services Tax on expenses other than investment and advisory fees	
Goods & Services Tax on brokerage and transaction cost	
Other Expenses	
Maximum total expense ratio (TER) permissible under Regulation 52 (6) (d) (ii)	**Up to 1.00%**
Additional expenses for gross new inflows from specified cities	Up to 0.30%

^ In terms of SEBI Circular No. CIR/IMD/DF/21/2012 dated September 13, 2012, the AMC / Mutual Fund shall annually set apart at least 2 basis points (i.e. 0.02%) on daily net assets of the scheme within the maximum limit of Total Expense Ratio as per Regulation 52 of the SEBI (MF) Regulations for investor education and awareness initiatives.

@ Brokerage and transaction costs incurred for the execution of trades and included in the cost of

investment, not exceeding 0.12 per cent of the value of trades of cash market transactions and 0.05 per cent of the value of trades of derivative market transactions. Thus, in terms of SEBI circular CIR/IMD/DF/24/2012 dated November 19, 2012, it is hereby clarified that the brokerage and transaction costs incurred for the execution of trades may be capitalized to the extent of 0.12 per cent of the value of trades of cash market transactions and 0.05 per cent of the value of trades of derivative market transactions. Any payment towards brokerage and transaction costs (including Goods & Services Tax, if any) incurred for the execution of trades, over and above the said 0.12 per cent for cash market transactions and 0.05 per cent of the value of trades of derivative market transactions may be charged to the scheme within the maximum limit of Total Expense Ratio (TER) as prescribed under Regulation 52 of the SEBI (MF) Regulations.

The expense of 30 bps shall be charged if the new inflows from retail investors from B30 cities as specified from time to time are at least -
(i) 30 per cent of gross new inflows in the scheme, or; (ii) 15 per cent of the average assets under management (year to date) of the scheme, whichever is higher:
Provided that if inflows from retail investors from B30 cities is less than the higher of sub-clause (i) or sub- clause (ii), such expenses on daily net assets of the scheme shall be charged on proportionate basis.
Provided further that expenses charged under this clause shall be utilized for distribution expenses incurred for bringing inflows from retail investors from B30 cities . Provided further that amount incurred as expense on account of inflows from retail investors from B30 cities shall be credited back to the scheme in case the said inflows are redeemed within a period of one year from the date of investment;

In case inflows from retail investors from beyond top 30 cities is less than the higher of (i) or (ii) above, additional TER on daily net assets of the scheme shall be charged as follows:

$$\frac{\text{Daily net assets} \times 30 \text{ basis points} \times \text{New inflows from individuals from beyond top 30 cities}}{365^{*} \times \text{Higher of (i) or (ii) above}}$$

* 366, wherever applicable.

For the above purposes, 'B30 cities' shall be beyond Top 30 cities as at the end of previous financial year as communicated by AMFI. Retail investors would mean individual investors from whom inflows into the Scheme would amount upto Rs. 2,00,000/- per transaction

Direct Plan shall have a lower expense ratio excluding distribution expenses, commission, etc and no commission for distribution of Units will be paid / charged under Direct Plan.

At least 0.01% of the TER is charged towards distribution expenses/ commission in the Regular Plan. The TER of the Direct Plan will be lower to the extent of the above mentioned distribution expenses/ commission (at least 0.01 %) which is charged in the Regular Plan. For example, in the event that the TER of the Regular Option is 2.25% p.a., the TER of the Direct Option would not exceed 2.24% p.a.

The AMC shall adhere provisions of SEBI Circular dated October 22, 2018 and various guidelines specified by SEBI as amended from time to time, with reference to charging of fees and expenses. Accordingly:

a. All scheme related expenses including commission paid to distributors, shall be paid from the Scheme only within the regulatory limits and not from the books of the AMC, its associates, sponsor, trustee or any other entity through any route.
   Provided that, such expenses that are not specifically covered in terms of Regulation 52 (4) can be paid out of AMC books at actual or not exceeding 2 bps of the Scheme AUM, whichever is lower.
b. The Fund / the AMC shall adopt full trail model of commission in the Scheme, without payment

of any upfront commission or upfronting of any trail commission, directly or indirectly, in cash or kind, through sponsorships, or any other route.

c. All fees and expenses charged in a Direct Plan (in percentage terms) under various heads including the investment and advisory fee shall not exceed the fees and expenses charged under such heads in Regular Plan.

d. No pass back, either directly or indirectly, shall be given by the Fund / the AMC / Distributors to the investors.

Disclosure on Goods & Services Tax:

Goods & Services Tax on investment management and advisory fees shall be in addition to the above expense.

Further, with respect to Goods & Services Tax on other than management and advisory fees:

- Goods & Services Tax on other than investment and advisory fees, if any, shall be borne by the scheme within the maximum limit of TER as per regulation 52 of the Regulations.
- Goods & Services Tax on exit load, if any, shall be paid out of the exit load proceeds and exit load net of Goods & Services Tax, if any, shall be credited to the scheme.
- Goods & Services Tax on brokerage and transaction cost paid for asset purchases, if any, shall be within the limit prescribed under regulation 52 of the Regulations.

For the actual current expenses being charged to the Scheme, the investor should refer to the website of the mutual fund at www.idfcmf.com (Home> Total Expense Ratio of Mutual Fund Schemes). Any change proposed to the current expense ratio will be updated on the website and communicated to the investors via e-mail or SMS at least three working days prior to the change.

As per the Regulations, the total recurring expenses that can be charged to the Scheme in this Scheme information document shall be subject to the applicable guidelines. Expenses over and above the permitted limits will be borne by the AMC. The total recurring expenses of the Scheme, will, however, be limited to the ceilings as prescribed under Regulation 52(6) of the Regulations.

D. LOAD STRUCTURE 16

Load is an amount which is paid by the investor to redeem the units from the scheme. This amount is used by the AMC to pay commissions to the distributor and to take care of other marketing and selling expenses. Load amounts are variable and are subject to change from time to time. For the current applicable structure, please refer to the website of the AMC (www.idfcmf.com) or may call at (toll free no. 1-800-2666688) or your distributor. There is no entry or exit load.

Entry Load & Exit Load: Nil

TRANSACTION CHARGES

In accordance with SEBI circular no. CIR/ IMD/ DF/ 13/ 2011 dated August 22, 2011, Transaction Charge per subscription of Rs.10,000/ – and above shall be charged from the investors and shall be payable to the distributors/ brokers (who have opted in for charging the transaction charge) in respect of applications routed through distributor/ broker relating to Purchases / subscription / new inflows only, subject to the following:

- For Existing / New investors: Rs.100 / Rs.150 as applicable per subscription of Rs. 10,000/ – and above
- There shall be no transaction charge on subscription below Rs.10,000/-.
- There shall be no transaction charges on direct investments.

The distributors shall have the option to either opt in or opt out of levying transaction charge based on type of the product.

The Transaction Charge as mentioned above shall be deducted by the AMC from the subscription amount of the Unit Holder and paid to the distributor and the balance shall be invested in the Scheme. The statement of account shall clearly state that the net investment as gross subscription less transaction charge and give the number of units allotted against the net investment.

The requirement of minimum application amount shall not be applicable if the investment amount falls below the minimum amount required due to deduction of transaction charges from the subscription amount.

The AMCs shall be responsible for any malpractice/mis-selling by the distributor while charging transaction costs.
