DUE DILIGENCE BY THE ASSET MANAGEMENT COMPANY

It is confirmed that:

- (i) The Scheme Information Document submitted to SEBI is in accordance with the SEBI (Mutual Funds) Regulations, 1996 and the guidelines and directives issued by SEBI from time to time.
- (ii) All legal requirements connected with the launching of the Scheme as also the guidelines, instructions, etc., issued by the Government and any other competent authority in this behalf, have been duly complied with.
- (iii) The disclosures made in the Scheme Information Document are true, fair and adequate to enable the investors to make a well informed decision regarding investment in the Scheme.
- (iv) The intermediaries named in the Scheme Information Document and Statement of Additional Information are registered with SEBI and their registration is valid, as on date.
- (v) The contents of the Scheme Information Document including figures, data, yields etc. have been checked and are factually correct.
- (vi) The AMC has complied with the set of checklist applicable for Scheme Information Documents and that there are no deviations from the regulations.
- (vii) Notwithstanding anything contained in the Scheme Information Document, the provisions of the SEBI (Mutual Funds) Regulations, 1996 and the guidelines there under shall be applicable.
- (viii) The Trustees have ensured that the Scheme approved by them is a new product offered by ICICI Prudential Mutual Fund and not a minor modification of any existing schemes.

Sd/-

Rakesh Shetty

Chief Compliance Officer & Company Secretary

Place: Mumbai

Date: November 26, 2024

Note: The Due Diligence Certificate dated May 28, 2025, was submitted to SEBI.

SECTION II. INFORMATION ABOUT THE SCHEME

A. HOW WILL THE SCHEME ALLOCATE ITS ASSETS?

Under normal market circumstances, the asset allocation under the Scheme would be as follows:

Particulars	Indicative Allocation (% of Corpus) Risk Profile	
	Minimum	Maximum
Units of ICICI Prudential Nifty 100 Low Volatility 30 ETF	95%	100%
Reverse Repo, Tri-Party Repo*, Units of Debt Mutual Funds and ETFs	0%	5%

*or similar instruments as may be permitted by RBI/ SEBI, subject to requisite approvals from SEBI / RBI, if needed.

The Margin may be placed in the form of such securities / instruments / deposits as may be permitted/eligible to be placed as margin from the assets of the Scheme. The securities / instruments / deposits so placed as margin shall be classified under the applicable category of assets for the purposes of asset allocation.

The cumulative gross exposure through units of ICICI Prudential Nifty 100 Low Volatility 30 ETF and Reverse Repo, Tri-Party Repo*, Units of Debt Mutual Funds and ETFs, other permitted securities/assets and such other securities/assets as may be permitted by the Board from time to time subject to prior approval from SEBI, if required, should not exceed 100% of the net assets of the scheme

Exposure to various instruments will be as per the indicative table given below: (Below percentages shall be subject to applicable SEBI circulars):

Sr. No.	Type of Instrument	Percentage of exposure	Circular references
1.	Stock lending	Nil	Not applicable
2.	Derivatives	Nil	Not applicable
3.	Securitized debt	Nil	Not applicable
4.	Overseas securities	Nil	Not applicable
5.	AT1 and Tier II Bonds	Nil	Not applicable
6.	Units of Reits and InvITs	Nil	Not applicable
7.	Structured Obligations and Credit Enhancements	Nil	Not applicable

Pending deployment of funds in accordance with the investment pattern of the Scheme, the Scheme may park funds in short term deposits of Scheduled commercial Banks, subject to SEBI guidelines.

Rebalancing due to Short Term Defensive Consideration:

- Due to market conditions, the AMC may invest beyond the range set out in the asset allocation. Such deviations shall normally be for a short term and defensive considerations as per Paragraph 1.14.1.2.b of SEBI Master Circular and the fund manager will rebalance the portfolio within 30 calendar days from the date of deviation.

Rebalancing due to Passive Breaches:

- Further, as per Paragraph 2.9 of SEBI Master Circular on Mutual Funds as may be amended from time to time, in the event of deviation from mandated asset allocation due to passive breaches (occurrence of instances not arising out of omission and commission of the AMC), the fund manager shall rebalance the portfolio of the Scheme within 30 Business Days. In case the portfolio of the Scheme is not rebalanced within the period of 30 Business Days, justification in writing, including details of efforts taken to rebalance the portfolio shall be placed before the Investment Committee of the AMC. The Investment Committee, if it so desires, can extend the timeline for rebalancing up to sixty (60) Business Days from the date of completion of mandated rebalancing period. Further, in case the portfolio is not rebalanced within the aforementioned mandated plus extended timelines the AMC shall comply with the prescribed restrictions, the reporting and disclosure requirements as specified in Para 2.9 of the Master Circular.

Further, the AMC shall comply with the applicable regulatory guidelines related to reporting and disclosure requirements as specified in the aforesaid circular.

Cash or cash equivalents with residual maturity of less than 91 days may be treated as not creating any exposure. AMFI vide letter dated November 3, 2021 has clarified that Cash Equivalent shall consist of Government Securities, T-Bills and Repo on Government Securities.

Apart from the above investment restrictions, the Scheme may follow certain internal norms vis-à-vis limiting exposure to scrips, sectors etc., within the above mentioned restrictions, and these are subject to review from time to time.

The Scheme will not directly invest/ have exposure in the following:

Sr. No	Particulars
1.	Overseas securities
2.	Debentures
3.	Derivatives
4.	Repos in corporate debt securities
5.	Credit Default Swaps transactions
6.	Short Selling
7.	Securities Lending
8.	Securitised Debt
9.	Structured Obligations / Credit Enhancement rated securities

10.	Equity and Equity related instruments
11.	Unrated debt and money market instruments (except TREPS/ Government Securities/ T- Bills / Repo and Reverse Repo in Government Securities);
12.	Bespoke or complex debt products
13.	AT1 and Tier II Bonds
14.	Units of ReITs and InvITs
15.	Unlisted debt Instruments
16.	Inter Scheme Transactions

B. WHERE WILL THE SCHEME INVEST?

Subject to the Regulations and the disclosures as made under the section “How the Scheme will allocate its Assets”, the corpus of the Scheme can be invested in any (but not exclusively) of the following:

1. Units of ICICI Prudential Nifty 100 Low Volatility 30 ETF.
2. Reverse Repo, Tri-Party Repo*, Units of Debt Mutual Funds and ETFs.

As per the SEBI guidelines, a Fund of funds scheme shall not invest in any other fund of funds scheme.

C. WHAT ARE THE INVESTMENT STRATEGIES?

The Scheme would endeavor to provide investment returns linked to the underlying scheme. The Scheme intends to achieve its investment objective by investing in ICICI Prudential Nifty 100 Low Volatility 30 ETF and Reverse Repo, Tri-Party Repo*, Units of Debt Mutual Funds and ETFs. The AMC shall endeavor that the returns of the Scheme will replicate the returns generated by ICICI Prudential Nifty 100 Low Volatility 30 ETF and is not expected to deviate more than 2% on an annualized basis, net of recurring expenses in the Scheme.

The deviation of returns from the scheme benchmark return may be on account of the tracking error of underlying scheme and expense ratio.

The Scheme will invest in ICICI Prudential Nifty 100 Low Volatility 30 ETF directly or through secondary market. The Scheme can also invest in debt securities.

D. HOW WILL THE SCHEME BENCHMARK ITS PERFORMANCE?

The benchmark of the Scheme is Nifty 100 Low Volatility 30 TRI.

The corpus of the Scheme shall be invested predominantly in ICICI Prudential Nifty 100 Low Volatility 30 ETF, which tracks Nifty 100 Low Volatility 30 Index. Thus, the performance of the Scheme will be benchmarked against Nifty 100 Low Volatility 30 TRI.

E. WHO MANAGES THE SCHEME?

Mr. Nishit Patel and Ms. Ashwini Shinde are the fund managers of the Scheme. As on March 31, 2025, Mr. Nishit Patel has been managing the Scheme for 4 years months since April 2021. PART III. OTHER DETAILS

A. COMPUTATION OF NAV

The NAV of the Units of the Scheme will be computed by dividing the net assets of the Scheme by the number of Units outstanding on the valuation date. The Fund shall value its investments according to the valuation norms, as specified in Schedule VIII of the Regulations, or such norms as may be prescribed by SEBI from time to time and as stipulated in the valuation policy and procedures of the Fund, provided in Statement of Additional Information (SAI). The broad valuation norms are detailed in Statement of Additional Information:

The NAV of the Scheme shall be rounded off up to four decimals.

NAV of units under the Scheme shall be calculated as shown below:

$$\text{NAV (Rs.)} = \frac{\text{Market or Fair Value of Scheme's investments} + \text{Current Assets} - \text{Current Liabilities and Provision}}{\text{No. of Units outstanding under Scheme}}$$

The NAV of the Scheme will be calculated as of the close of every Business Day. The valuation of the Scheme's assets and calculation of the Scheme's NAV shall be subject to audit on an annual basis and such regulations as may be prescribed by SEBI from time to time.

Illustration on computation of NAV:

If the net assets of the Scheme are Rs.10,45,34,345.34 and units outstanding are 100,00,000, then the NAV per unit will be computed as follows:

$$10,45,34,345.34 / 100,00,000 = \text{Rs. } 10.4534 \text{ p.u. (rounded off to four decimals)}$$

B. NEW FUND OFFER (NFO) EXPENSES – Not Applicable

C. ANNUAL SCHEME RECURRING EXPENSE

These are the fees and expenses for operating the Scheme. These expenses include Investment Management and Advisory Fee charged by the AMC, Registrar and Transfer Agents' fee, marketing and selling costs etc. as provided below:

The AMC has estimated that upto 1.00% of the daily net assets of the Scheme will be charged to the Scheme as expenses. For the actual current expenses being charged, the investor should refer to the website of the mutual fund. In case of any change in the expense ratio, the AMC would update the same on the website at least three business days prior to the effective date of the change. The requirement for disclosing such change would be subject to paragraph 10.1.8 of the Master Circular. Investor can refer [Total Expense Ratio of Mutual Fund Schemes](#) for Total Expense Ratio (TER) details.

Annual Scheme Recurring Expenses:

Particulars	ICICI Prudential Nifty 100 Low Volatility 30 ETF FOF (% p.a. of net assets)
Investment Management and Advisory Fees	Upto 1.00
Audit Fees and expenses of trustees	
Custodian Fees	
Registrar & Transfer Agent Fees including cost of providing account statements/IDCW/redemption cheques/warrants	
Marketing & Selling Expenses including Agents Commission and statutory advertisement	
Cost related to investor communications	
Cost of fund transfer from location to location	
Cost towards investor education & awareness	
Brokerage and transaction cost pertaining to distribution of units	
Goods and Services Tax on expenses other than investment and advisory fees	
Goods and Services Tax on brokerage and transaction cost	
Other Expenses*	
Maximum total expense ratio (TER) permissible under Regulation 52 (6) (a)	Upto 1.00
Additional expenses under regulation 52 (6A) (c)* (more specifically elaborated below)	Upto 0.05
Additional expenses for gross new inflows from specified cities* (more specifically elaborated below)	Upto 0.30

The aforesaid does not include Goods and Services Tax on investment management and advisory fees. The same is more specifically elaborated below.

The returns of the Direct Plan for the Scheme shall be exclusive of distributor commission.

Investors are requested to note that they will be bearing the recurring expenses of the fund of funds scheme, in addition to the expenses of underlying schemes in which the fund of funds scheme makes investments.

Provided that the total expense ratio to be charged over and above the weighted average of the total expense ratio of the underlying schemes shall not exceed two times the weighted average of the total expense ratio levied by the underlying scheme(s), subject to the overall ceilings as stated above.

*As permitted under the Regulation 52 of SEBI (MF) Regulations, 1996 and pursuant to paragraph 15.10.1 of the Master Circular, SEBI (Mutual Funds) Second Amendment Regulations, 2012 and SEBI (Mutual Funds) (Fourth Amendment) Regulations 2018.

As per Regulation 52(6)(a), the total expenses of the Scheme including weighted average of charges levied by the underlying schemes shall not exceed 1.00 per cent of the daily net assets of the Scheme.

ICICI Prudential Nifty 100 Low Volatility 30 ETF FOF – Direct Plan shall have a lower expense ratio excluding distribution expenses, commission, etc as compared to ICICI Prudential Nifty 100 Low Volatility 30 ETF FOF – Regular Plan and no commission for distribution of units will be paid/charged under ICICI Prudential Nifty 100 Low Volatility 30 ETF FOF – Direct Plan.

All fees and expenses charged in a Direct Plan (in percentage terms) under various heads including the investment and advisory fee shall not exceed the fees and expenses charged under such heads in Regular Plan.

These estimates have been made in good faith as per information available to the AMC and the total expenses may be more than as specified in the table above. However, as per the Regulations, the total recurring expenses that can be charged to the Scheme in this Scheme Information Document shall be subject to the applicable guidelines.

The purpose of the above table is to assist the investors in understanding the various costs and expenses that an investor in the Scheme will bear. The above expenses may increase/decrease as per actual and/or any change in the Regulations.

The Scheme can charge expenses within overall maximum limits prescribed under SEBI (MF) Regulations, without any internal cap allocated to any of the expense heads specified in the above table.

Pursuant to paragraph 10.1 of SEBI Master Circular on Mutual Funds, SEBI (Mutual Funds) Second Amendment Regulations, 2012 following additional costs or expenses may be charged to the scheme, namely:

- i. The AMC may charge Goods and Services Tax on investment and advisory fees to the scheme of the Fund in addition to the maximum limit of total expenses ratio as prescribed in Regulation 52 of the Regulations, whereas Goods and Services tax on

other than investment and advisory fees, if any, shall be borne by the scheme within the maximum limit as per regulation 52 of the Regulations.

- ii. expenses not exceeding of 0.30 per cent of daily net assets, if the new inflows from retail investors from B30 cities or as may be specified by the Securities and Exchange Board of India, from time to time are at least –
1. 30 per cent of the gross new inflows from retail investors from B30 cities into the scheme, or;
 2. 15 per cent of the average assets under management (year to date) of the scheme,

whichever is higher;

Provided that if inflows from retail investors from B30 cities are less than the higher of the above, such expenses on daily net assets of the scheme shall be charged on proportionate basis;

Provided further that expenses charged under this clause shall be utilised for distribution expenses incurred for bringing inflows from retail investors from B30 cities;

Provided further that amount incurred as expense on account of inflows from retail investors from B30 cities shall be credited back to the scheme in case the said inflows are redeemed within a period of one year from the date of investment.

For above purposes, 'B30 cities' shall be beyond Top 30 cities as at the end of the previous financial year as communicated by AMFI. Retail investors would mean individual investors from whom inflows into the Scheme amount upto Rs. 2,00,000/-per transaction.

Note - SEBI vide its letter no. SEBI/HO/IMD-SEC-3/P/OW/2023/5823/1 dated February 24, 2023 and AMFI letter dated No. 35P/ MEM-COR/ 85-a/ 2022-23 dated March 02, 2023 has directed AMCs to keep B-30 incentive structure in abeyance with effect from March 01, 2023 till further notice

Fund of Funds (FoFs) investing more than 80% of its NAV in the underlying domestic funds shall not be required to set aside 2bps of the daily net assets towards investor education and awareness initiatives.

Brokerage and transaction cost incurred for the purpose of execution of trade shall be charged to the schemes as provided under Regulation 52 (6A) (a) upto 12 bps and 5 bps for cash market transactions and derivatives transactions respectively. Any payment towards brokerage and transaction costs, over and above the said 12 bps and 5 bps for cash market transactions and derivatives transactions respectively may be charged to the scheme within the maximum limit of Total Expense Ratio (TER) as prescribed under regulation 52.

Expenses shall be charged / borne in accordance with the Regulations prevailing from time to time.

The following is an illustration of the impact of expense ratio on the scheme's returns:

Particulars	Regular Plan	Direct Plan
-------------	--------------	-------------

Scheme Information Document
ICICI Prudential Nifty 100 Low Volatility 30 ETF FOF

Amount Invested at the beginning of the year	10,000	10,000
Returns before Expenses	1,500	1,500
Expenses other than Distribution Expenses	150	150
Distribution Expenses	50	-
Returns after Expenses at the end of the Year	1300	1350

For calculating expense of ICICI Prudential Nifty 100 Low Volatility 30 ETF FOF – Direct plan, Distribution expenses will not be considered.

D. LOAD STRUCTURE

Exit Load is an amount which is paid by the investor to redeem the units from the scheme. Load amounts are variable and are subject to change from time to time. For the current applicable structure, please refer to the website of the AMC (www.icicipruamc.com) or your distributor.

Type of Load	Load chargeable (as % of NAV)
Exit Load	Exit Load: Nil.

Any redemption/switch arising out of excess holding by an investor beyond 25% of the net assets of the Scheme in the manner envisaged under paragraph 6.11.1.1 (b) of the Master Circular, such redemption / switch will not be subject to exit load.

The exit load charged, if any, shall be credited back to the respective scheme. Goods and Services tax on exit load shall be paid out of the exit load proceeds and exit load net of Goods and Services tax shall be credited to the schemes.

Exit Load, if any, prevailing on the date of enrolment of SIP/ STP shall be levied in the Scheme.

The investor is requested to check the prevailing load structure of the Scheme before investing. For any change in load structure AMC will issue an addendum and display it on the website/Investor Service Centres. Any imposition or enhancement in the load shall be applicable on prospective investments only.

Subject to the Regulations, the Trustee reserves the right to modify/alter the load structure on the Units subscribed/redeemed on any Business Day. At the time of changing the load structure, the AMC / Mutual Fund may adopt the following procedure:

- The addendum detailing the changes will be attached to Scheme Information Documents and key information memorandum. The addendum will be circulated to all the distributors/brokers so that the same can be attached to all Scheme Information Documents and key information memoranda already in stock.
- Arrangements will be made to display the addendum in the Scheme Information Document in the form of a notice in all the investor service centres and distributors/brokers office.

- The introduction of the exit load along with the details will be stamped in the acknowledgement slip issued to the investors on submission of the application form and will also be disclosed in the statement of accounts issued after the introduction of such load.
- A public notice shall be provided on the website of the AMC in respect of such changes.

Any imposition or enhancement in the load shall be applicable on prospective investments only.

SECTION II

Scheme Information Document

I. Introduction

A. Definitions

Definition for the words and expressions used in the SID are available at the following link : [SID related information \(icicipruamc.com\)](http://icicipruamc.com)

The words and expressions shall have the meaning as specified at the above link, unless the context otherwise requires.

B. Risk Factors

(i) **Standard Risk Factors:** Please refer to SAI.

(ii) **Scheme specific risk factors**

Investors may please note that they will be bearing the recurring expenses of the relevant Fund of Funds Scheme in addition to the expenses of the underlying schemes in which the Fund of Funds Scheme makes investment.

Risks associated with investing in Fund of Funds schemes:

- As the investors are incurring expenditure at both the Fund of Funds level and the schemes into which the Fund of Funds invests, the returns that they may obtain may be materially impacted or may at times be lower than the returns that investors directly investing in such schemes obtain.
- Again as the Fund of Funds scheme may shift the weightage of investments between schemes into which it invests, the expenses charged being dependent on the structure of the underlying schemes (being different) may lead to a non- uniform charging of expenses over a period of time.
- As the Fund of Funds (FOF) factsheets and disclosures of portfolio will be limited to providing the particulars of the schemes invested at FOF level, investors may not be able to obtain specific details of the investments of the underlying schemes.
- While it would be the endeavour of the Fund Manager of the Fund of Funds scheme(s) to invest in the target schemes in a manner, which will seek to maximize returns, the performance of the underlying funds may vary which may lead to the returns of the Fund of Funds being adversely impacted.
- The scheme specific risk factors of each of the underlying schemes become applicable where a fund of funds invests in any underlying scheme. Investors who intend to invest in Fund of Funds are required to and are deemed to have read and understood the risk factors of the underlying schemes relevant to the Fund of Funds scheme that they invest in. Copies of the Scheme Information Documents pertaining to the various schemes of ICICI Prudential Mutual Fund, which disclose the relevant risk factors, are available at the Customer Service Centers or may be accessed at www.icicipruamc.com.
- A Fund Manager managing any one of the Fund of Funds schemes may also be the Fund Manager for any underlying schemes.
- **Settlement Risk:** The inability of the Scheme to make intended securities purchases due to settlement problems could cause the Scheme to miss certain investment opportunities

as in certain cases, settlement periods may be extended significantly by unforeseen circumstances. Similarly, the inability to sell securities held in the Scheme portfolio may result, at times, in potential losses to the Scheme, and there can be a subsequent decline in the value of the securities held in the Scheme's portfolio.

- **Portfolio Concentration Risk:** To the extent that the Scheme may concentrate its investments in the underlying schemes which invest in Securities of companies of certain companies/sectors, the Scheme will therefore be subject to the risks associated with such concentration. This risk may impact the Scheme to the extent that it invests in underlying schemes with focus on particular sectors even in cases where the investment objective is more generic.
- **Regulatory Risk:** Changes in government policy in general and changes in tax benefits applicable to Mutual Funds may impact the returns to investors in the Scheme.
- **Redemption Risk**
Investors should note that even though the underlying scheme is an open ended scheme, subscription/redemptions directly with the Fund would be limited to such investors who have the ability to subscribe/redeem the units of the underlying scheme in the creation unit size. Generally, this lot size is larger as compared to normal fund. However, the scheme wishing to subscribe/redeem units in other than specific lot size can do so by buying/selling the same on the Stock Exchange. The scheme can also approach the Fund directly for redemption in other than Creation Unit Size on occurrence of various events as listed in this document.
- **Right to Limit Redemptions**
The Trustee, in the general interest of the Unit holders of the Scheme offered in this Document and keeping in view the unforeseen circumstances / unusual market conditions, may limit the total number of Units which can be redeemed on any Business Day. The same shall be in accordance with paragraph 1.12 of the Master Circular.
- **Passive Investments:** The underlying scheme is not actively managed. The underlying scheme may be affected by a general decline in the Indian markets relating to its Underlying Index. The underlying scheme invests in the securities included in its Underlying Index regardless of their investment merit. The AMC does not attempt to individually select stocks or to take defensive positions in declining markets.

- **Risks associated with ADR / GDR / Foreign Securities**

The scheme will not have any exposure to ADR / GDR / Foreign Securities.

- **Risks associated with Derivatives**

The scheme will not have any exposure to Derivatives.

- **Risks associated with Securitized Debt**

The scheme will not have any exposure to Securitized debt.

- **Risks associated with Short Selling and Stock Lending**

The scheme does not intend to short sell the securities and will not engage in Securities lending.

- **Risk associated with Investing in money market instruments**

a. **Market Risk/Interest Rate Risk:** The Net Asset Value (NAV) of the Scheme(s), to the extent invested in fixed income and money market securities, will be affected by changes in the general level of interest rates. The NAV of the Scheme(s) is expected to increase from a fall in interest rates while it would be adversely affected by an increase in the level of interest rates.

b. **Liquidity Risk:** The liquidity of a security may change depending on market conditions leading to changes in the liquidity premium linked to the price of the security. At the time of selling the security, the security can become illiquid leading to loss in the value of the portfolio.

c. **Credit Risk:** Investments in fixed income securities and money market instruments are subject to the risk of an issuer's inability to meet interest and principal payments on its obligations and market perception of the creditworthiness of the issuer.

- **Risks associated with investing in Tri Party Repo through CCIL (TREPS)**

The mutual fund is a member of securities segment and Tri-party Repo trade settlement of the Clearing Corporation of India (CCIL). All transactions of the mutual fund in government securities and in Tri-party Repo trades are settled centrally through the infrastructure and settlement systems provided by CCIL; thus reducing the settlement and counterparty risks considerably for transactions in the said segments.

CCIL maintains prefunded resources in all the clearing segments to cover potential losses arising from the default member. In the event of a clearing member failing to honour his settlement obligations, the default Fund is utilized to complete the settlement. The sequence in which the above resources are used is known as the "Default Waterfall".

As per the waterfall mechanism, after the defaulter's margins and the defaulter's contribution to the default fund have been appropriated, CCIL's contribution is used to meet the losses. Post utilization of CCIL's contribution if there is a residual loss, it is appropriated from the default fund contributions of the non-defaulting members.

Thus the scheme is subject to risk of the initial margin and default fund contribution being invoked in the event of failure of any settlement obligations. In addition, the fund contribution is allowed to be used to meet the residual loss in case of default by the other clearing member (the defaulting member).

However, it may be noted that a member shall have the right to submit resignation from the membership of the Security segment if it has taken a loss through replenishment of its contribution to the default fund for the segments and a loss threshold as notified have been reached. The maximum contribution of a member towards replenishment of its contribution to the default fund in the 7 days (30 days in case of securities segment) period immediately

after the afore-mentioned loss threshold having been reached shall not exceed 5 times of its contribution to the Default Fund based on the last re-computation of the Default Fund or specified amount, whichever is lower.

Further, it may be noted that, CCIL periodically prescribes a list of securities eligible for contributions as collateral by members. Presently, all Central Government securities and Treasury bills are accepted as collateral by CCIL. The risk factors may undergo change in case the CCIL notifies securities other than Government of India securities as eligible for contribution as collateral.

➤ **Market Trading Risks**

- **Absence of Prior Active Market:** Although units of the underlying scheme are listed on the Exchanges, there can be no assurance that an active secondary market will develop or be maintained.
- **Lack of Market Liquidity:** Trading in units of the respective underlying scheme on the Exchange may be halted because of market conditions or for reasons that in the view of the Market Authorities or SEBI, trading in units of the underlying scheme are not advisable. In addition, trading in units of the underlying scheme are subject to trading halts caused by extraordinary market volatility and pursuant to NSE/BSE and SEBI “circuit filter” rules. There can be no assurance that the requirements of the Market necessary to maintain the listing of units of the underlying scheme will continue to be met or will remain unchanged.
- **Units of the underlying scheme may trade at Prices Other than NAV:** Units of the underlying scheme may trade above or below its NAV. The NAV of the underlying scheme will fluctuate with changes in the market value of underlying scheme’s holdings. The trading prices of units of the underlying scheme will fluctuate in accordance with changes in their NAVs as well as market supply and demand of units of the underlying scheme. However, given that units can be created and redeemed only in Creation Units directly with the Fund, it is expected that large discounts or premiums to the NAVs of the underlying Scheme will not sustain due to arbitrage possibility available.
- **Regulatory Risk:** Any changes in trading regulations by the Stock Exchange/s or SEBI may affect the ability of market maker to arbitrage resulting into wider premium/discount to NAV. Although, the units are listed on NSE and BSE, the AMC and the Trustees will not be liable for delay in listing of Units of the underlying scheme on the stock exchanges / or due to connectivity problems with the depositories due to the occurrence of any event beyond their control.
- **Settlement Risk:** In certain cases, settlement periods may be extended significantly by unforeseen circumstances. The inability of the underlying scheme to make intended securities purchases due to settlement problems could cause the underlying scheme to miss certain investment opportunities as in certain cases, settlement periods may be extended significantly by unforeseen circumstances. Similarly, the inability to sell securities held in the underlying scheme portfolio may result, at times, in potential losses to the underlying scheme, and there can be a subsequent decline in the value of the securities held in the underlying scheme’s portfolio.

- **Risks associated with schemes investing in Gilt Securities**

Generally, when interest rates rise, prices of fixed income securities fall and when interest rates drop, the prices increase. The extent of fall or rise in prices is a function of the existing coupon, days to maturity and the increase or decrease in interest rates. Price-risk is not unique to government securities but is true for all fixed income securities. The default risk however, in respect of Government securities is zero. Therefore, their prices are influenced only by movement in interest rates in the financial system. On the other hand, in the case of corporate or institutional fixed income securities, such as bonds or debentures, prices are influenced by credit standing of the issuer as well as the general level of interest rates.

Even though the Government securities market is more liquid compared to other debt instruments, on occasions, there could be difficulties in transacting in the market due to extreme volatility or unusual constriction in market volumes or on occasions when an unusually large transaction has to be put through.

Tracking Error Risk

The AMC would monitor the tracking error of the underlying scheme on an ongoing basis and would seek to minimize tracking error to the maximum extent possible. Under normal circumstances, the AMC will endeavour that the tracking error of the underlying scheme does not exceed 2% per annum. However, this may vary due to various reasons mentioned below or any other reasons that may arise and particularly when the markets are very volatile.

Factors such as the fees and expenses of the underlying scheme, Corporate Actions, Cash balance, changes to the Underlying Index and regulatory policies may affect AMC's ability to achieve close correlation with the Underlying Index of the underlying scheme. The underlying scheme's returns may therefore deviate from those of their Underlying Index. "Tracking Error" is defined as the standard deviation of the difference between daily returns of the index and the NAV of the underlying scheme. Tracking Error may arise due to the following reasons: -

- Expenditure incurred by the underlying scheme.
- Any delay experienced in the purchase or sale of shares due to illiquidity of the market, settlement and realization of sale proceeds and the registration of any securities transferred and any delays in receiving cash and scrip IDCW and resulting delays in reinvesting them.
- The underlying index reflects the prices of securities at close of business hours. However, the Fund may buy or sell the securities at different points of time during the trading session at the then prevailing prices which may not correspond to the closing prices on the exchange.
- Index Service Provider undertakes the periodical review of the scrips that comprise the underlying index and may either drop or include new securities. In such an event, the Fund will endeavor to reallocate its portfolio but the available investment/ disinvestment opportunities may not permit precise mirroring of the Index.
- The potential for trades to fail which may result in the underlying scheme not having acquired shares at a price necessary to track the index.
- The holding of a cash position and accrued income prior to distribution and accrued expenses.
- Disinvestments to meet redemptions, recurring expenses, IDCW payouts etc.

- The fund may not be invested at all times as it may keep a portion of the fund in cash to meet redemptions or for corporate actions of securities in the index.
- Securities trading may halt temporarily due to circuit filters.
- Corporate actions such as rights, merger, change in constituents etc.
- Rounding off quantity of shares underlying the index.

Index providers undertake a periodical review of the scrips that comprise the Underlying Index and may either remove or include new scrips. In such an event, the underlying scheme will endeavour to reallocate its portfolio but the available investment opportunity may not permit absolute mirroring immediately.

Risk associated with investing in units of mutual funds

The scheme may make investments in units of mutual funds. Investments in schemes of mutual funds are subject to market risks and there is no assurance or guarantee that the objectives of the scheme will be achieved. Further, any investment in mutual funds is also subject to risk factors outlined in the offer document of the mutual fund and an adverse performance of a mutual fund scheme in which the scheme has made investments could adversely impact the scheme's performance and NAV of the scheme.

The underlying schemes having exposure to the fixed income securities and/ or equity and equity related securities will be subject to the following risks and in turn the Scheme's performance will be affected accordingly.

RISKS ASSOCIATED WITH INVESTING IN UNDERLYING SCHEMES (AS APPLICABLE):

- **Risk factors pertaining to investment in Equities –**
 1. The value of the Schemes' investments, may be affected generally by factors affecting securities markets, such as price and volume volatility in the capital markets, interest rates, currency exchange rates, changes in policies of the Government, taxation laws or any other appropriate authority policies and other political and economic developments which may have an adverse bearing on individual securities, a specific sector or all sectors including equity and debt markets. Consequently, the NAV of the Units of the Schemes may fluctuate and can go up or down.
 2. Investors may note that AMC/Fund Manager's investment decisions may not be always profitable, as actual market movements may be at variance with anticipated trends. Trading volumes, settlement periods and transfer procedures may restrict the liquidity of these investments. Different segments of the Indian financial markets have different settlement periods and such periods may be extended significantly by unforeseen circumstances. The inability of the Schemes to make intended securities purchases due to settlement problems could cause the Schemes to miss certain investment opportunities.
 3. The Mutual Fund may not be able to sell / lend out securities, which can lead to temporary illiquidity. There are risks inherent in securities lending, including the risk of failure of the other party, in this case the approved intermediary to comply with the terms of the agreement. Such failure can result in a possible loss of rights to the collateral, the inability of the approved intermediary to return the securities deposited by the lender and the possible loss of corporate benefits accruing thereon.

4. Investors may note that dividend is due only when declared and there is no assurance that a company (even though it may have a track record of payment of dividend in the past) may continue paying dividend in future. As such, the schemes are vulnerable to instances where investments in securities may not earn dividend or where lesser dividend is declared by a company in subsequent years in which investments are made by schemes. As the profitability of companies are likely to vary and have a material bearing on their ability to declare and pay dividend, the performance of the schemes may be adversely affected due to such factors.
5. Securities, which are not quoted on the stock exchanges, are inherently illiquid in nature and carry a larger amount of liquidity risk. In comparison to securities that are listed on the exchanges or offer other exit options to the investor, including a put option. Within the Regulatory limits, the AMC may choose to invest in unlisted securities. This may however increase the risk of the portfolio.
6. While securities that are listed on the stock exchange carry lower liquidity risk, the ability to sell these investments is limited by the overall trading volume on the stock exchanges. The liquidity of the Schemes' investments is inherently restricted by trading volumes in the securities in which it invests.

Fund manager endeavors to generate returns based on certain past statistical trend. The performance of the schemes may get affected if there is a change in the said trend. There can be no assurance that such historical trends will continue.

7. In case of abnormal circumstances, it will be difficult to complete the square off transaction due to liquidity being poor in stock futures/spot market. However, fund will aim at taking exposure only into liquid stocks where there will be minimal risk to square off the transaction. The Schemes investing in foreign securities will be exposed to settlement risk, as different countries have different settlement periods.
8. Changes in Government policy in general and changes in tax benefits applicable to mutual funds may impact the returns to investors in the Schemes or business prospects of the Company in any particular sector.

- **Risk factors pertaining to investment in Fixed Income Securities**

- **Market Risk/Interest Rate Risk:** The Net Asset Value (NAV) of the Scheme(s), to the extent invested in Debt and Money Market securities, will be affected by changes in the general level of interest rates. The NAV of the Scheme(s) is expected to increase from a fall in interest rates while it would be adversely affected by an increase in the level of interest rates.
- **Liquidity Risk:** The liquidity of a security may change depending on market conditions leading to changes in the liquidity premium linked to the price of the security. At the time of selling the security, the security can become illiquid leading to loss in the value of the portfolio.
- **Credit Risk:** Investments in Debt Securities are subject to the risk of an issuer's inability to meet interest and principal payments on its obligations and market perception of the creditworthiness of the issuer.

- **Price Risk:** Government securities where a fixed return is offered run price-risk like any other fixed income security. Generally, when interest rates rise, prices of fixed income securities fall and when interest rates drop, the prices increase. The extent of fall or rise in the prices is a function of the existing coupon, days to maturity and the increase or decrease in the level of interest rates. The new level of interest rate is determined by the rates at which government raises new money and/or the price levels at which the market is already dealing in existing securities. The price-risk is not unique to Government Securities. It exists for all fixed income securities. However, Government Securities are unique in the sense that their credit risk generally remains zero. Therefore, their prices are influenced only by movement in interest rates in the financial system.
- **Reinvestment Risk:** This risk refers to the interest rate levels at which cash flows received from the securities in the Scheme are reinvested. The additional income from reinvestment is the “interest on interest” component. The risk is that the rate at which interim cash flows can be reinvested may be lower than that originally assumed.
- **Settlement risk:** The inability of the Scheme to make intended securities purchases due to settlement problems could cause the Scheme to miss certain investment opportunities. By the same rationale, the inability to sell securities held in the Scheme’s portfolio due to the extraneous factors that may impact liquidity would result, at times, in potential losses to the Plan, in case of a subsequent decline in the value of securities held in the Scheme’s portfolio.
- **Regulatory Risk:** Changes in government policy in general and changes in tax benefits applicable to Mutual Funds may impact the returns to investors in the Scheme.
- **Risks associated with investment in unlisted securities:** Except for any security of an associate or group company, the scheme can invest in securities which are not listed on a stock exchange (“unlisted Securities”) which in general are subject to greater price fluctuations, less liquidity and greater risk than those which are traded in the open market. Unlisted securities may lack a liquid secondary market and there can be no assurance that the Scheme will realise their investments in unlisted securities at a fair value.
- Different types of fixed income securities in which the Scheme(s) would invest as given in the Scheme Information Document carry different levels and types of risk. Accordingly, the Scheme(s) risk may increase or decrease depending upon its investment pattern. e.g. corporate bonds carry a higher level of risk than Government securities.
- The AMC may, considering the overall level of risk of the portfolio, invest in lower rated / unrated securities offering higher yields as well as zero coupon securities that offer attractive yields. This may increase the absolute level of risk of the portfolio.
- As zero coupon securities does not provide periodic interest payments to the holder of the security, these securities are more sensitive to changes in interest rates. Therefore, the interest rate risk of zero coupon securities is higher. The AMC may choose to invest in zero coupon securities that offer attractive yields. This may increase the risk of the portfolio.

- The Scheme(s) at times may receive large number of redemption requests, leading to an asset-liability mismatch and therefore, requiring the investment manager to make a distress sale of the securities leading to realignment of the portfolio and consequently resulting in investment in lower yield instruments.
- Scheme's performance may differ from the benchmark index to the extent of the investments held in the debt segment, as per the investment pattern indicated under normal circumstances.
- **Risks associated with Investing in Derivatives**
 1. The Schemes may use various derivative products as permitted by the Regulations. Use of derivatives requires an understanding of not only the underlying instrument but also of the derivative itself. Other risks include the risk of mis-pricing or improper valuation and the inability of derivatives to correlate perfectly with underlying assets, rates and indices.
 2. The Fund may use derivatives instruments like Stock /Index Futures, Interest Rate Swaps, Forward Rate Agreements or other derivative instruments for the purpose of hedging and portfolio balancing, as permitted under the Regulations and guidelines. Usage of derivatives will expose the Schemes to certain risks inherent to such derivatives.
 3. Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the fund manager to identify such opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and decision of fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies.
 4. Thus, derivatives are highly leveraged instruments. Even a small price movement in the underlying security could have a large impact on their value.
 5. The risks associated with the use of derivatives are different from or possibly greater than the risks associated with investing directly in securities and other traditional investments.
 6. The specific risk factors arising out of a derivative strategy used by the Fund Manager may be as below:
 - The risk of mispricing or improper valuation and the inability of derivatives to correlate perfectly with underlying assets, rates and indices.
 - Execution Risk: The prices which are seen on the screen need not be the same at which execution will take place
 - Basis Risk: This risk arises when the derivative instrument used to hedge the underlying asset does not match the movement of the underlying asset being hedged
 - Exchanges could raise the initial margin, variation margin or other forms of margin on derivative contracts, impose one sided margins or insist that margins be placed in cash. All of these might force positions to be unwound at a loss, and might materially impact returns.
- **RISK FACTORS WITH RESPECT TO IMPERFECT HEDGING USING INTEREST RATE FUTURES**

An Interest Rate Futures is an agreement to buy or sell a debt instrument at a specified future date at a price that is fixed today. Interest Rate Futures are Exchange traded. These future contracts are cash settled.

1. Perfect Hedging means hedging the underlying using IRF contract of same underlying.
2. Imperfect hedging means the underlying being hedged and the IRF contract has correlation of closing prices of more than 90%.

In case of imperfect hedging, the portfolio can be a mix of:

- 1) Corporate Bonds and Government securities or
- 2) Only Corporate debt securities or
- 3) Only government securities with different maturities

Risk associated with imperfect hedging includes:

Basis Risk: The risk arises when the price movements in derivative instrument used to hedge the underlying assets does not match the price movements of the underlying assets being hedged. Such difference may potentially amplify the gains or losses, thus adding risk to the position.

Price Risk: The risk of mispricing or improper valuation and the inability of derivatives to correlate perfectly with underlying assets, rates and indices.

Risk of mismatch between the instruments: The risk arises if there is a mismatch between the prices movements in derivative instrument used to hedge, compared to the price movement of the underlying assets being hedged. For example when IRF which has government security as underlying is used, to hedge a portfolio that contains corporate debt securities.

Correlation weakening and consequent risk of regulatory breach: SEBI Regulation mandates minimum correlation criterion of 0.9 (calculated on a 90 day basis) between the portfolio being hedged and the derivative instrument used for hedging. In cases where the correlation falls below 0.9, a rebalancing period of 5 business days has been permitted. Inability to satisfy this requirement to restore the correlation level to the stipulated level, within the stipulated period, due to difficulties in rebalancing would lead to a lapse of the exemption in gross exposure computation. The entire derivative exposure would then need to be included in gross exposure, which may result in gross exposure in excess of 100% of net asset value.

➤ **Risk associated with repo transactions in corporate debt securities**

• **Lending transactions**

The scheme may be exposed to counter party risk in case of repo lending transactions in the event of the counterparty failing to honour the repurchase agreement. However, in repo lending transactions, the collateral may be sold and a loss is realized only if the sale price is less than the repo amount. The risk may be further mitigated through over-collateralization (the value of the collateral being more than the repo amount). Further, the liquidation of underlying securities in case of counterparty default would depend on liquidity of the securities and market conditions at that time. It is endeavoured to

mitigate the risk by following an appropriate counterparty selection process, which include their credit profile evaluation and over-collateralization to cushion the impact of market risk on sale of underlying security.

- **Borrowing transactions**

In the event of the scheme being unable to pay back the money to the counterparty as contracted, the counter party may dispose of the assets (as they have sufficient margin). This risk is normally mitigated by better cash flow planning to take care of such repayments. Further, there is also a Credit Risk that the Counterparty may fail to return the security or Interest received on due date. It is endeavoured to mitigate the risk by following an appropriate counterparty selection process, which include their credit profile evaluation.

Risk Factors associated with the underlying scheme (ICICI Prudential Nifty 100 Low Volatility 30 ETF):

- **Risk associated with investing in companies forming part of Nifty 100 Low Volatility 30 Index:**

The index tracks the performance of 30 stocks having low volatility in the past one year selected from Nifty 100 index. The underlying scheme by mandate invests in stocks of the underlying index which represents the Nifty 100 Low Volatility 30 Index having 30 constituents and will therefore be subject to the risks associated with such concentration. In addition, the underlying scheme would be subject to risks associated with increase in volatility observed in the underlying stocks between two index rebalancing dates.

a. Investing in Equities

- Trading volumes, settlement periods and transfer procedures may restrict the liquidity of these investments. Different segments of the Indian financial markets have different settlement periods and such periods may be extended significantly by unforeseen circumstances. The inability of the Schemes to make intended securities purchases due to settlement problems could cause the Schemes to miss certain investment opportunities.
- The value of the Schemes' investments, may be affected generally by factors affecting securities markets, such as price and volume volatility in the capital markets, interest rates, currency exchange rates, changes in policies of the Government, taxation laws or any other appropriate authority policies and other political and economic developments which may have an adverse bearing on individual securities, a specific sector or all sectors including equity and debt markets. Consequently, the NAV of the Units of the Schemes may fluctuate and can go up or down.
- Investors may note that dividend is due only when declared and there is no assurance that a company (even though it may have a track record of payment of dividend in the past) may continue paying dividend in future. As such, the schemes are vulnerable to instances where investments in securities may not earn dividend or where lesser dividend is declared by a company in subsequent years in which investments are made by schemes. As the profitability of

companies are likely to vary and have a material bearing on their ability to declare and pay dividend, the performance of the schemes may be adversely affected due to such factors.

- Securities, which are not quoted on the stock exchanges, are inherently illiquid in nature and carry a larger amount of liquidity risk. Within the Regulatory limits, the AMC may choose to invest in unlisted securities. This may however increase the risk of the portfolio.
- While securities that are listed on the stock exchange carry lower liquidity risk, the ability to sell these investments is limited by the overall trading volume on the stock exchanges. The liquidity of the Schemes' investments is inherently restricted by trading volumes in the securities in which it invests.
- Fund manager endeavors to generate returns based on certain past statistical trend. The performance of the schemes may get affected if there is a change in the said trend. There can be no assurance that such historical trends will continue.
- In case of abnormal circumstances it will be difficult to complete the square off transaction due to liquidity being poor in stock futures/spot market. However fund will aim at taking exposure only into liquid stocks where there will be minimal risk to square off the transaction. The Schemes investing in foreign securities will be exposed to settlement risk, as different countries have different settlement periods.
- The schemes are also vulnerable to movements in the prices of securities invested by the schemes which again could have a material bearing on the overall returns from the schemes. These stocks, at times, may be relatively less liquid as compared to growth stocks.
- Changes in Government policy in general and changes in tax benefits applicable to mutual funds may impact the returns to investors in the Schemes or business prospects of the Company in any particular sector.

b. Risks associated with Investing in Derivatives:

The underlying Scheme may use various derivative products as permitted by the Regulations. Use of derivatives requires an understanding of not only the underlying instrument but also of the derivative itself. Other risks include the risk of mis-pricing or improper valuation and the inability of derivatives to correlate perfectly with underlying assets, rates and indices.

The underlying Scheme may use derivatives instruments like Stock /Index Futures or other derivative instruments for the purpose of hedging and portfolio balancing, as permitted under the Regulations and guidelines. Usage of derivatives will expose the underlying Scheme to certain risks inherent to such derivatives.

Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the fund manager to identify such opportunities. Identification and

execution of the strategies to be pursued by the fund manager involve uncertainty and decision of fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies.

Thus, derivatives are highly leveraged instruments. Even a small price movement in the underlying security could have a large impact on their value.

The risks associated with the use of derivatives are different from or possibly greater than the risks associated with investing directly in securities and other traditional investments.

The specific risk factors arising out of a derivative strategy used by the Fund Manager may be as below:

- Lack of opportunity available in the market.
- The risk of mispricing or improper valuation and the inability of derivatives to correlate perfectly with underlying assets, rates and indices.
- Execution Risk: The prices which are seen on the screen need not be the same at which execution will take place
- Basis Risk: This risk arises when the derivative instrument used to hedge the underlying asset does not match the movement of the underlying asset being hedged
- Exchanges could raise the initial margin, variation margin or other forms of margin on derivative contracts, impose one sided margins or insist that margins be placed in cash. All of these might force positions to be unwound at a loss, and might materially impact returns.

c. Risks associated with Securities Lending & Borrowing (SLB)

Securities lending is lending of securities through an approved intermediary to a borrower under an agreement for a specified period with the condition that the borrower will return equivalent securities of the same type or class at the end of the specified period along with the corporate benefits accruing on the securities borrowed.

The risks in security lending consist of the failure of intermediary / counterparty, to comply with the terms of agreement entered into between the lender of securities i.e. the Scheme and the intermediary / counterparty. Such failure to comply can result in the possible loss of rights in the collateral put up by the borrower of the securities, the inability of the approved intermediary to return the securities deposited by the lender and the possible loss of any corporate benefits accruing to the lender from the securities deposited with the approved intermediary. The scheme may not be able to sell lent out securities, which can lead to temporary illiquidity & loss of opportunity.

The AMC shall report to the Trustee on a quarterly basis as to the level of lending in terms of value, volume and the names of the intermediaries and the earnings/losses arising out of the transactions, the value of collateral security offered etc. The Trustees shall offer their comments on the above aspect in the report filed with SEBI under sub-regulation 23(a) of Regulation 18.

Risk factors associated with creation of segregated portfolios

1. Liquidity risk – A segregated portfolio is created when a credit event occurs at an issuer level in the underlying Scheme. This may reduce the liquidity of the security issued by the said issuer, as demand for this security may reduce. This is also further accentuated by the lack of secondary market liquidity for corporate papers in India. As per SEBI norms, the underlying Scheme is to be closed for redemption and subscriptions until the segregated portfolio is created, running the risk of investors being unable to redeem their investments. However, it may be noted that, the proposed segregated portfolio is required to be formed within one day from the occurrence of the credit event.

Investors may note that no redemption and subscription shall be allowed in the segregated portfolio. However, in order to facilitate exit to unit holders in segregated portfolio, AMC shall list the units of the segregated portfolio on a recognized stock exchange within 10 business days of creation of segregated portfolio and also enable transfer of such units on receipt of transfer requests. For the units listed on the exchange, it is possible that the market price at which the units are traded may be at a discount to the NAV of such Units. There is no assurance that a deep secondary market will develop for units of segregated portfolio listed on the stock exchange. This could limit the ability of the investors to resell them.

2. Valuation risk - The valuation of the securities in the segregated portfolio is required to be carried out in line with the applicable SEBI guidelines. However, it may be difficult to ascertain the fair value of the securities due to absence of an active secondary market and difficulty to price in qualitative factors.

C. Risk Mitigation Strategies

The Fund of Funds schemes having exposure to the fixed income securities and/ or equity and equity related securities will be subject to the following risks and in turn the Scheme's/ Plans' performance will be affected accordingly.

<u>Risks associated with Equity investments</u>	
<u>Concentration Risk</u> Concentration risk represents the probability of loss arising from heavily lopsided exposure to a particular group of sectors or securities.	The underlying schemes will try and mitigate this risk by investing in large number of companies so as to maintain optimum diversification and keep stock-specific concentration risk relatively low.
<u>Market Risk</u> The scheme is vulnerable to movements in the prices of securities invested by the underlying schemes, which could have a material bearing on the overall returns from the scheme	Market risk is a risk which is inherent to an equity scheme. The underlying schemes may use derivatives to limit this risk.
<u>Derivatives Risk</u> As and when the underlying schemes trades in the derivatives market there are risk factors and issues concerning the use of derivatives since derivative products are specialized instruments that require investment techniques and risk analyses	The underlying schemes may invest in derivative for the purpose of hedging, portfolio balancing and other purposes as may be permitted under the Regulations. Derivatives will be used in the form of Index Options, Index Futures, Stock Options and Stock Futures and other

different from those associated with stocks and bonds.	instruments as may be permitted by SEBI. Fund managers will endeavor to use derivatives which are liquid and traded frequently on the exchanges. Exposure with respect to derivatives shall be in line with regulatory limits and the limits specified in the SID.
<u>Liquidity risk</u> The liquidity of the underlying scheme's investments is inherently restricted by trading volumes in the securities in which it invests.	As such the liquidity of stocks that the underlying schemes invest into could be relatively low. The fund will try to maintain a proper asset-liability match to ensure redemption / Maturity payments are made on time.
<u>Currency Risk</u> The underlying schemes will invest in foreign securities as permitted by the concerned regulatory authorities in India. Since the assets will be invested in securities denominated in foreign currency, the INR equivalent of the net assets, distributions and income may be adversely affected by changes / fluctuations in the value of the foreign currencies relative to the INR.	The underlying schemes, subject to applicable regulations shall have the option to enter into forward contracts for the purposes of hedging against the foreign exchange fluctuations. The underlying schemes may employ various measures (as permitted by SEBI/RBI) including but not restricted to currency hedging (such as currency options and forward currency exchange contracts, currency futures, written call options and purchased put options on currencies and currency swaps), to manage foreign exchange movements arising out of investment in foreign securities. All currency derivatives trade, if any will be done only through the stock exchange platform.

Risks associated with Fixed Income investment

<u>Market Risk/ Interest Rate Risk</u> As with all debt securities, changes in interest rates may affect the Scheme's Net Asset Value as the prices of securities generally increase as interest rates decline and generally decrease as interest rates rise. Prices of long-term securities generally fluctuate more in response to interest rate changes than do short-term securities. Indian debt markets can be volatile leading to the possibility of price movements up or down in fixed income securities and thereby to possible movements in the NAV.	The underlying schemes will undertake the active portfolio management as per the investment objective to reduce the market risk. In a rising interest rates scenario the underlying scheme may increase its investment in money market securities whereas if the interest rates are expected to fall the allocation to debt securities with longer maturity may be increased thereby mitigating risk to that extent.
<u>Liquidity or Marketability Risk</u>	The underlying scheme may invest in government securities, corporate bonds and money market instruments. While the

This refers to the ease with which a security can be sold at or near to its valuation yield-to-maturity (YTM).	liquidity risk for government securities, money market instruments and short maturity corporate bonds may be low, it may be high in case of medium to long maturity corporate bonds.
<u>Credit Risk</u> Credit risk or default risk refers to the risk that an issuer of a fixed income security may default (i.e., will be unable to make timely principal and interest payments on the security).	Management analysis will be used for identifying company specific risks. Management's past track record will also be studied. In order to assess financial risk a detailed assessment of the issuer's financial statements will be undertaken.
<u>Currency Risk</u> The Scheme will invest in foreign securities as permitted by the concerned regulatory authorities in India. Since the assets will be invested in securities denominated in foreign currency, the INR equivalent of the net assets, distributions and income may be adversely affected by changes / fluctuations in the value of the foreign currencies relative to the INR.	The underlying scheme subject to applicable regulations, shall have the option to enter into forward contracts for the purposes of hedging against the foreign exchange fluctuations. The Scheme may employ various measures (as permitted by SEBI/RBI) including but not restricted to currency hedging (such as currency options and forward currency exchange contracts, currency futures, written call options and purchased put options on currencies and currency swaps), to manage foreign exchange movements arising out of investment in foreign securities. All currency derivatives trade, if any will be done only through the stock exchange platform.

Derivatives Risk

As and when the Scheme trades in the derivatives market there are risk factors and issues concerning the use of derivatives since derivative products are specialized instruments that require investment techniques and risk analyses different from those associated with stocks and bonds. There is the possibility that a loss may be sustained by the portfolio as a result of the failure of another party (usually referred to as the “counter party”) to comply with the terms of the derivatives contract. Other risks in using derivatives include the risk of mispricing or improper valuation of derivatives and the inability of derivatives to correlate perfectly with underlying assets, rates and indices.

The underlying scheme may invest in derivative for the purpose of hedging, portfolio balancing and other purposes as may be permitted under the Regulations. Interest Rate Swaps will be done with approved counter parties under pre-approved ISDA agreements. Interest rate swaps and other derivative instruments will be used as per local (RBI and SEBI) regulatory guidelines.

II. Information about the scheme**A. Where will the scheme invest?**

Subject to the Regulations and the disclosures as made under the section “How the Scheme will allocate its Assets”, the corpus of the Scheme can be invested in any (but not exclusively) of the following:

- 1) Units of ICICI Prudential Nifty 100 Low Volatility 30 ETF.
- 2) Reverse Repo, Tri-Party Repo*, Units of Debt Mutual Funds and ETFs.

As per the SEBI guidelines, a Fund of funds scheme shall not invest in any other fund of funds scheme.

POSITION OF DEBT MARKET IN INDIA

There are three main segments in the debt markets in India, viz., Government Securities, Public Sector Units (PSU) bonds, and corporate securities. A bulk of the debt market consists of Government Securities. Other instruments available currently include Corporate Debentures, Bonds issued by Financial Institutions, Commercial Paper, Certificates of Deposits and Securitised Debt. Securities in the Debt market typically vary based on their tenure and rating. Government Securities have tenures from one year to thirty years whereas the maturity period of the Corporate Debt now goes upto sixty years and more (perpetual). Perpetual bonds are now issued by banks as well. Securities may be both listed and unlisted and there is increasing trend of securities of maturities of over one year being listed by issuers.

The yields and liquidity on various securities as on March 31, 2025 are as under:

Issuer	Instrument	Maturity	Yields (%)	Liquidity
GOI	Treasury Bill	91 Days	6.34%	High
GOI	Treasury Bill	364 Days	6.40%	High
GOI	Short Dated	1-3 Years	6.40% - 6.44%	High
GOI	Medium Dated	3-5 Years	6.44% - 6.45%	High
GOI	Long Dated	5-10 Years	6.45% - 6.58%	High
Corporates	Taxable Bonds (AAA)	1-3 Years	7.29% - 7.11%	Medium
Corporates	Taxable Bonds (AAA)	3-5 Years	7.11% - 7.11%	Low to Medium
Corporates	CDs (A1+)	3 months	7.00%	Medium to High
Corporates	CPs (A1+)	3 months	7.25%	Medium to High

B. What are the investment restrictions?

Pursuant to the Regulations and amendments thereto and subject to the investment pattern of the Scheme, the following investment restrictions are presently applicable to the Scheme:

1. Transfer of investments from one scheme to another scheme in the same Mutual Fund is permitted provided:
 - Such transfers are done at the prevailing market price for quoted instruments on spot basis (spot basis shall have the same meaning as specified by a Stock Exchange for spot transactions); and
 - The securities so transferred shall be in conformity with the investment objective of the scheme to which such transfer has been made.

Further the inter Scheme transfer of investments shall be in accordance with the provisions contained in clause Inter-Scheme transfer of investments, stated in paragraph 12.30 of the Master Circular.

2. The Fund shall get the securities purchased transferred in the name of the Fund on account of the concerned scheme, wherever investments are intended to be of a long-term nature.
3. The Fund shall buy and sell securities on the basis of deliveries and shall in all cases of purchases, take delivery of relative securities and in all cases of sale, deliver the securities and will not make any short sales or engage in carry forward transaction or badla finance.
4. No loans for any purpose can be advanced by the Scheme.
5. The Fund shall not borrow except to meet temporary liquidity needs of the Fund for the purpose of repurchase/ redemption of units or payment of interest and IDCW to the Unitholders. Such borrowings shall not exceed more than 20% of the net assets of the individual scheme and the duration of the borrowing shall not exceed a period of 6 months.

6. The Mutual Fund having an aggregate of securities which are worth Rs.10 crores or more, as on the latest balance sheet date, shall subject to such instructions as may be issued from time to time by the Board, settle their transactions entered on or after January 15, 1998 only through dematerialised securities. Further, all transactions in government securities shall be in dematerialised form.
7. This Scheme shall not invest in any other Fund of Funds Scheme.
8. A fund of funds scheme shall not invest its assets other than in schemes of mutual funds, except to the extent of funds required for meeting the liquidity requirements for the purpose of repurchases or redemptions, as disclosed in the Scheme Information Document.
9. The Scheme will comply with any other Regulation applicable to the investment of mutual funds from time to time.

The Trustee may alter the above restrictions from time to time to the extent that changes in the SEBI (Mutual Funds) Regulations, 1996 may allow or as deemed fit in the general interest of the Unitholders.

C. Fundamental Attributes

Following are the Fundamental Attributes of the Scheme, in terms of Regulation 18 (15A) subject to compliance with sub-regulation (26) of regulation 25 of the SEBI (MF) Regulations:

(i) Type of a Scheme

For details on type of Scheme, please refer **“Type of the Scheme”**.

(ii) Investment Objective

- Main Objective - Please refer **“What are the investment objectives of the Scheme?”**
- Investment pattern – The tentative portfolio break-up of Equity and Debt and other permitted securities and such other securities as may be permitted by the SEBI from time to time with minimum and maximum asset allocation, while retaining the option to alter the asset allocation for a short term period on defensive considerations. Please refer **“How will the Scheme allocate its assets?”** for more details.

(iii) Terms of Issue

- **Liquidity**
On an on-going basis, an investor can purchase and redeem Units on every Business Day at NAV based prices, subject to the applicable load structure.
- **Listing**

Being an open-ended fund, the Units of the Scheme will not be listed on any stock exchange, at present. The Trustee may, at its sole discretion, cause the Units under the Scheme to be listed on one or more Stock Exchanges. Notification of the same will be made through Customer Service Centres of the AMC and as may be required by the respective Stock Exchanges.

- **Redemption of Units**

For details on redemption of units, please refer SECTION V: UNITS AND OFFER “Redemption of Units” in Ongoing Offer details.

- **Redemption Price**

The redemption price will be at Applicable NAV based prices, subject to applicable exit load provisions.

- **Aggregate fees and expenses charged to the Scheme:** The provisions in respect of fees and expenses as indicated in this Scheme Information Document.

- **Any safety net or guarantee provided:** The present Scheme is not a guaranteed or assured return scheme.

Changes in Fundamental Attributes

In accordance with Regulation 18(15A) of the SEBI (Mutual Funds) Regulations, 1996, the trustees shall ensure that no change in the fundamental attributes of any scheme and Plan(s)/Option(s) under the scheme, the fees and expenses payable or any other change which would modify the scheme and affect the interest of the unit holders is carried out by the asset management company, unless it complies with sub-regulation (26) of regulation 25 of SEBI (MF) Regulations as mentioned below:

- An application has been made with SEBI and views/comments of SEBI are sought on the proposal for fundamental attribute changes;
- An addendum to the existing SID shall be issued and displayed on AMC website immediately;
- SID shall be revised and updated immediately after completion of duration of the exit option (not less than 30 days from the notice date).;
- A public notice shall be given in respect of such changes in one English daily newspaper having nationwide circulation as well as in a newspaper published in the language of region where the Head Office of the Mutual Fund is situated, and
- The Unitholders are given an option for a period of atleast 30 calendar days to exit at the prevailing Net Asset Value without any exit load.

D. Index Methodology

Information about ICICI Prudential Nifty 100 Low Volatility 30 ETF

Nifty100 Low Volatility 30 Index aims to measure the performance of the low volatile securities in the large market capitalisation segment. The selection of securities and its weights in Nifty100 Low Volatility 30 are based on volatility.

Eligibility Criteria and Methodology

Eligible Universe: i. The securities forming part of Nifty 100 are eligible for inclusion in the Scheme Information Document
ICICI Prudential Nifty 100 Low Volatility 30 ETF FOF

index ii. Securities should have a minimum listing history of 1 year iii. Securities should be available for trading in derivative segment (F&O). iv. DVR shares are not eligible for inclusion in the index

Selection Criteria: i. Stocks are assessed on the basis of volatility for index inclusion ii. Volatility is calculated as the standard deviation of daily price returns (log normal) for last one year iii. Eligible stocks are then ranked based on their volatility score, with stock having lowest volatility getting a rank of 1 iv. Top 30 ranked stocks with least volatility form part of the index

Index Rebalancing: i. The index is reviewed on quarterly basis ii. At time of review, if the existing constituent of the index is ranked within top 60 based on the low volatility score, then the stock is retained in the index iii. Stocks based on lowest volatility rank gets included in the index, depending on the number of exclusions from the index due to above rule.

Index Governance: A professional team manages all NSE indices. There is a three-tier governance structure comprising the Board of Directors of NSE Indices Limited, the Index Advisory Committee (Equity) and the Index Maintenance Sub-Committee.

Impact cost of constituents: Companies must have average impact cost not greater than 1% during the previous six months period.

Index Service provider: NSE Indices Limited

Index Constituents as on March 31, 2025:

Company	WEIGHTAGE
ITC LTD.	4.01%

LARSEN & TOUBRO LTD.	2.69%
WIPRO LTD.	2.61%

The updated constituents of the underlying index of the Scheme shall also be made available on the website i.e. www.icicietf.com at all points of time.

➤ **Other Scheme Specific Disclosures:**

Listing and transfer of units	Listing: Being an open ended scheme, the Units of the Scheme will not be listed on any stock exchange, at present. The Trustee may, at its sole discretion, cause the Units under the Scheme to be listed on one or more Stock Exchanges. Notification of the same will be made through Customer Service Centres of the AMC and as may be required by the respective Stock Exchanges. Transfer: Pursuant to paragraph 14.4.4 of the Master Circular, the Units of the Scheme can be transferred freely in demat form or in statement of Account (SOA) mode. For Details process on transfer of units under SOA mode, please refer SAI.
Dematerialization of units	The asset management company shall issue units in dematerialized form to a unit holder in a scheme within two business days of the receipt of request from the unit holder subject to receipt of complete documents and details from the investor. Unit holders can convert their existing physical units (represented by statement of account) into dematerialized form, for further details, please refer to SAI.
Policy for declaration of Income Distribution cum capital withdrawal (IDCW Policy)	(iii) Growth Option The Scheme will not declare any IDCW under this option. The income earned by the Scheme

will remain reinvested in the Scheme and will be reflected in the Net Asset Value. This option is suitable for investors who are not looking for regular income but who have invested with the intention of capital appreciation.

(iv) IDCW Option

This option is suitable for investors seeking income through IDCW declared by the Scheme. The Trustee may approve the distribution of IDCW by AMC out of the net surplus under this Option. The remaining net surplus after considering the IDCW and tax, if any, payable there on will be ploughed back in the Scheme and be reflected in the NAV.

(iii) IDCW Payout:

As per the SEBI (MF) Regulations, the IDCW warrants shall be dispatched to the Unit Holders within 7 business days from the record date. IDCW will be payable to those Unit Holders whose names appear in the Register of Unit Holders on the date (Record Date). IDCW will be paid by cheque, net of taxes as may be applicable. Unit Holders will also have the option of direct payment of IDCW to the bank account. The cheques will be drawn in the name of the sole/first holder and will be posted to the Registered address of the sole/first holder as indicated in the original application form. To safeguard the interest of Unit Holders from loss or theft of IDCW cheques, investors should provide the name of their bank, branch and account number in the application form. IDCW cheques will be sent to the Unit Holder after incorporating such information. The minimum amount for IDCW payout shall be Rs.100, else IDCW would be mandatorily reinvested

(iv) IDCW Reinvestment:

The investors opting for IDCW Option may choose to reinvest the IDCW to be received by them in additional Units of the Scheme. Under this provision, the IDCW due and payable to the Unitholders will be compulsorily and without any further act by the Unitholders reinvested in the Scheme (under the IDCW

Option, at the first ex- IDCW NAV). The IDCW so reinvested shall be constructive payment of IDCW to the Unitholders and constructive receipt of the same amount from each Unitholder for reinvestment in Units. On reinvestment of IDCW, the number of Units to the credit of Unitholder will increase to the extent of the IDCW reinvested by the NAV applicable on the day of reinvestment, as explained above.

(V) IDCW Transfer

IDCW Transfer facility will be available under the scheme.

The designated schemes (source and target schemes) for this facility are as given below:

Source schemes - all schemes where IDCW option is available [except (i) Exchange Traded Funds (ETFs) and (ii) separate plans under ICICI Prudential Overnight Fund for deployment of unclaimed amounts viz ICICI Prudential Overnight Fund - Unclaimed Redemption, ICICI Prudential Overnight Fund - Unclaimed IDCW, ICICI Prudential Overnight Fund - Unclaimed Redemption Investor Education and ICICI Prudential Overnight Fund - Unclaimed IDCW Investor Education]

Target schemes- all open ended schemes where subscription is allowed [except (i) Exchange Traded Funds (ETFs) and (ii) separate plans under ICICI Prudential Overnight Fund for deployment of unclaimed amounts viz ICICI Prudential Overnight Fund - Unclaimed Redemption, ICICI Prudential Overnight Fund - Unclaimed IDCW, ICICI Prudential Overnight Fund - Unclaimed Redemption Investor Education and ICICI Prudential Overnight Fund - Unclaimed IDCW Investor Education]

Note: Investors are requested to note that any change in IDCW sub-option, due to additional investment or on the basis of a request received from the investor, will be applicable to all existing units in the IDCW option of the Scheme under the respective folio.

The Trustee reserves the right to declare IDCW

	under the IDCW option of the Scheme depending on the distributable surplus available under the Scheme. It should, however, be noted that actual distribution of IDCW and the frequency of distribution will depend, inter-alia, on the availability of distributable surplus and will be entirely at the discretion of the Trustee. The IDCW will be distributed in accordance with Chapter 11 of the Master Circular on the procedure for IDCW Distribution. Equalisation Reserve: When units are sold, and sale price (NAV) is higher than face value of the unit, a portion of sale price that represents realized gains is credited to an Equalization Reserve Account and which can be used to pay IDCW. IDCW can be distributed out of investors capital (Equalization Reserve), which is part of sale price that represents realized gains.
Allotment (Detailed procedure)	The AMC shall allot the units to the applicant whose valid application has been accepted and funds have been credited to the account. The AMC shall also send confirmation specifying the number of units allotted to the applicant by way of email and/or SMS's to the applicant's registered email address and/or registered mobile number not later than 5 working days from the date of receipt of the request from the unitholders Further, the asset management company shall issue units in dematerialized form to a unit holder in a scheme within two business days of the receipt of request from the unit holder.
Refund	Not Applicable for ongoing schemes.

How to Apply and other details	Please refer to SAI for detailed process (physical and online) with respect to additional/ongoing purchase, Investments by NRIs (Non-Resident Indian), FPIs (Foreign Portfolio Investors) and Foreign Investors, Joint Applications etc. Investors can also read further details in the application form available on the AMC website under Downloads -> Forms on the following link: Downloads - Application Forms, SID, KIM, SAI & Others ICICI Prudential Mutual Fund Link for Official Points of Acceptance:

[SID related information \(icicipruamc.com\)](http://icicipruamc.com)

Currently, the Mutual Fund / AMC has not appointed any collecting bankers for accepting application forms for existing schemes. The application forms will be accepted at any of the Investor Service Centres of the AMC or the designated branch offices of Computer Age Management Services Ltd. (CAMS).

Further, for details of R&T, Official Points of Acceptance please refer to the last section of the of the SID.

It is mandatory for applicants to mention their bank account numbers in their applications for purchase or redemption of Units. If the Unitholder fails to provide the Bank mandate, the request for redemption would be considered as not valid and the Scheme retains the right to withhold the redemption until a proper bank mandate is furnished by the Unit-holder and the provision with respect of penal interest in such cases will not be applicable/ entertained.

Kindly refer to below link for list of official points of acceptance, collecting banker details etc.

[SID related information \(icicipruamc.com\)](http://icicipruamc.com)

Open Network for Digital Commerce (ONDC)

The schemes of ICICI Prudential Mutual Fund (the Fund) are now available to be transacted through the Open Network for Digital Commerce (ONDC) ("Network").

To facilitate transactions through this Network, the Fund has/shall enter into agreement with service provider(s) who would provide backend platform on behalf of the Fund. The Dsaid platform would be considered as an 'OPAT'.

Accordingly, for the purpose of determining the applicability of NAV, the time at which request for purchase / sale / switch of units is received on the server(s) of the said platform will be considered as time of receipt of transaction with the AMC.

	As per existing system architecture of ONDC network, currently regular plans of the schemes of ICICI Prudential Mutual Fund are available for transaction through this route. Kindly refer to below link for list of official points of acceptance, collecting banker details etc. SID related information (icicipruamc.com)
Restrictions, if any, on the right to freely retain or dispose of units being offered.	Subscription: In the interest of the investors and in order to protect the portfolio from market volatility, the Trustees reserve the right to limit or discontinue subscriptions under the Scheme for a specified period of time or till further notice. Redemption: Suspension or restriction of repurchase/redemption facility under any Scheme of the mutual fund shall be made applicable only after obtaining the approval from the Boards of Directors of the AMC and the Trustees. After obtaining the approval from the AMC Board and the Trustees, intimation would be sent to SEBI in advance providing details of circumstances and justification for the proposed action shall also be informed.
Cut off timing for subscriptions/redemptions/ switches This is the time before which your application (complete in all respects) should reach the official points of acceptance.	The below cut-off timings and applicability of NAV shall be applicable in respect of valid applications received at the Official Point(s) of Acceptance on a Business Day: For Purchase of any amount: • In respect of valid applications received upto 3.00 p.m. and where the funds for the entire amount are available for utilization before the cut-off time i.e. 3.00 p.m. - the closing NAV of the day shall be applicable. • In respect of valid applications received after 3.00 p.m. and where the funds for the entire amount are available for utilization on the same day or before the cut-off time of the next business day - the closing NAV of the next Business Day shall be applicable

- Irrespective of the time of receipt of application, where the funds for the entire amount are available for utilization before the cut-off time on any subsequent Business Day - the closing NAV of such subsequent Business Day shall be applicable.

For Switch-ins of any amount:

In case of switch from one scheme to another scheme received before cut-off i.e. upto 3 p.m. having business day for both the schemes, closing NAV of the Business Day shall be applicable for switch-out scheme and for Switch-in scheme, the closing NAV of the Business Day shall be applicable, on which funds are available for utilization in the switch-in scheme (allocation shall be in line with the redemption payout).

To clarify, for investments through systematic investment routes such as Systematic Investment Plans (SIP), Systematic Transfer Plans (STP), Flex STP, Capital Appreciation STP, IDCW Transfer, Trigger etc. the units will be allotted as per the closing NAV of the day on which the funds are available for utilization by the Target Scheme irrespective of the installment date of the SIP, STP or record date of IDCW etc.

- *“Switch Out” shall be treated as redemption application and accordingly, closing NAV of the day will be applicable based on the cut-off time for redemption followed for various type of schemes.*

- *“Switch In” shall be treated as purchase application and accordingly for unit allotment, closing NAV of the day will be applicable on which the funds are available for utilization.*

Redemptions including switch-outs:

In respect of valid applications received upto 3.00 pm on a business day by the Mutual Fund, same day's closing NAV shall be applicable.

In respect of valid applications received after

	the cut off time by the Mutual Fund: the closing NAV of the next business day. e.g.: If an investor submits redemption request at 2.00 pm on Monday, the same shall be processed at the closing NAV of Monday. If an investor submits redemption request at 3.30 pm on Monday, the same shall be processed at the closing NAV of Tuesday.
Minimum amount for purchase/redemption/switches	Rs. 1,000/- (plus in multiple of Re. 1/-) Minimum Purchase Amount for switch ins: Rs. 1,000/- and any amount thereafter Minimum additional application amount: Rs. 500/- (plus in multiple of Re. 1/-) Minimum additional application amount for switch ins– Rs. and any amount thereafter For applications under systematic transactions, investors should refer to the details regarding the amount in the section 'Special product/facility available on ongoing basis'. Minimum Redemption Amount: Any amount
Account Statements	1. The Consolidated Account Statement (CAS) for each calendar month will be issued on or before fifteenth day of succeeding month to the investors who have provided valid Permanent Account Number (PAN). Further, CAS will be sent via email where any of the folios consolidated has an email id or to the email id of the first unit holder as per KYC records. 2. For folios not included in the Consolidated Account Statement (CAS), the AMC shall henceforth issue account statement to the investors on a monthly basis, pursuant to any financial transaction in such folios on or before fifteenth day of succeeding month. 3. The AMC shall send an allotment confirmation specifying the units allotted by way of email and/or SMS within 5 Business Days of receipt of valid application/transaction to the Unit holders

	registered e-mail address and/ or mobile number. 4. In case of a specific request received from the unit holder, the AMC shall provide the account statement to the investors within 5 business days from the receipt of such request. 5. In the case of joint holding in a folio, the first named Unit holder shall receive the CAS/account statement. The holding pattern has to be same in all folios across Mutual Funds for CAS. Further, in case if no transaction has taken place in a folio during the period of six months ended September 30 and March 31, the CAS detailing the holdings across all Schemes of all mutual funds, shall be emailed at the registered email address of the unitholders on half yearly basis, on or before twenty first day of succeeding month, unless a specific request is made to receive the same in physical form. The asset management company shall issue units in dematerialized form to a unit holder in a scheme within two business days of the receipt of request from the unit holder. Each CAS issued to the investors shall also provide the total purchase value / cost of investment in each scheme. Further, CAS shall be issued for the half-year (September/ March). Such half-yearly CAS shall be issued to all MF investors, excluding those investors who do not have any holdings in MF schemes and where no commission against their investment has been paid to distributors, during the concerned half-year period. In case of the units are held in dematerialized (demat) form, the statement of holding of the beneficiary account holder will be sent by the respective Depository Participant periodically.
--	---

	The dispatch of CAS by the depositories would constitute compliance by the AMC/ the Mutual Fund with the requirement under Regulation 36(4) of SEBI (Mutual Funds) Regulations. The AMC reserves the right to furnish the account statement in addition to the CAS, if deemed fit in the interest of investor(s).
IDCW	The payment of IDCW to the unitholders shall be made within seven business days from the record date.
Redemption	The redemption or repurchase proceeds shall be dispatched to the unitholders within 3business days from the date of redemption or repurchase. Further, AMFI has published a list of exceptional circumstances for schemes unable to transfer redemption or repurchase proceeds to investors within the limit specified above for transfer of redemption or repurchase proceeds to the unitholders in such exceptional circumstances. The said list is available on AMFI website.
Bank Mandate	<u>Bank Account Details:</u> As per the directives issued by SEBI, it is mandatory for applicants to mention their bank account numbers in their applications for purchase or redemption of Units. If the Unit-holder fails to provide the Bank mandate, the request for redemption would be considered as not valid and the Scheme retains the right to reject the redemption until a proper bank mandate is furnished by the Unit-holder and the provision with respect of penal interest in such cases will not be applicable. No bank account shall be registered in the investor account or subsequent addition or change in bank request unless a validation is undertaken whereby the investors name, account number/ details are verified <u>Bank Mandate Requirement</u> No bank account shall be registered in the investor account as part of account

opening or subsequent addition or change of bank request unless a validation is undertaken through any one of the following modes whereby the investors name, account number /details are verified. In this regard, any one of the following documents needs to be submitted.

1. Original cancelled cheque having the First Holder Name and bank account number printed on the cheque.
2. Original bank statement reflecting the First Holder Name, Bank Account Number and Bank Name as specified in the application.
3. Self-certified cheque copy/bank passbook and verified with the original by AMC/ RTA.
4. Photocopy of the bank statement duly attested by the bank manager/ authorized personnel with designation, employee number and bank seal.
5. Confirmation by the bank manager with seal, designation and employee number on the bank's letter head confirming the name of investor, account type, bank branch, MICR and IFSC code of the bank branch. The letter should not be older than 3 months.

In case the bank account details are not mentioned or found to be incomplete or invalid in a purchase application, then the AMC may consider the account details as appearing in the investment amount cheque and the same shall be updated under the folio as the payout bank account for the payment of redemption/IDCW amount etc.

AMC reserves the right to validate the details through PAN based account validation facility provided by NCPI or Penny Drop facility. Where the bank mandate cannot be validated by any of the stated methods, the bank account validation may be done on the basis of the cheque leaf if it is available. If the bank account details cannot be validated, AMC reserves the right to reject the application and in case of redemption, the payout will be issued by way of warrant/cheque.

	The AMC reserves the right to call for any additional documents as may be required, for processing of such transactions with missing/ incomplete/ invalid bank account details. The AMC also reserves the right to reject such applications.
Delay in payment of redemption / repurchase proceeds/IDCW	The Asset Management Company shall be liable to pay interest to the unitholders at @ 15% per annum as specified vide paragraph 14.2 of Master Circular for the period of such delay.
Unclaimed Redemption and Income Distribution cum Capital Withdrawal Amount	The treatment of unclaimed redemption & IDCW amount will be as per paragraph 14.3 of the master circular.
Disclosure w.r.t investment by minors	A minor can invest through his/her parent/lawful guardian. Payment for investment by any mode shall be accepted from the bank account of the minor, parent or legal guardian of the minor, or from a joint account of the minor with parent or legal guardian. For existing folios, the AMCs shall insist upon a Change of Pay-out Bank mandate before redemption is processed. For further details, please refer to SAI.
Ongoing Offer Period This is the date from which the Scheme will reopen for subscriptions/redemptions after the closure of the NFO period.	The Scheme is an open ended scheme and hence is available for subscription and redemption on an ongoing basis on every business day at NAV based prices. The Units of the Scheme will not be listed on any exchange, for the present.
Ongoing price for subscription (purchase)/switch-in (from other Schemes/plans of the mutual fund) by investors This is the price you need to pay for purchase/switch-in.	The purchase price of the Units will be based on the Applicable NAV subject to the applicable stamp duty. Purchase Price = Applicable NAV (for respective plan and option of the Scheme) (Example: An investor invests Rs 20,000/- and the current NAV is Rs. 20/- then the purchase price will be Rs. 20/- and the investor receives $20000/20 = 1000$ units. The Scheme shall not charge any entry load.
Any other disclosure in terms of Consolidated Checklist on Standard Observations	Investment by the AMC: From time to time and subject to the SEBI (Mutual Funds) Regulations, 1996, the sponsors, the mutual funds and investment Companies managed by them, their associate

	companies, subsidiaries of the sponsors and the AMC may invest in either directly or indirectly in the Scheme. Such investments would be in accordance with paragraph 6.9 of the Master Circular. Further, as per the SEBI (Mutual Funds) Regulations, 1996, in case the AMC invests in any of the Scheme managed by it, it shall not be entitled to charge any fees on such investments. The Scheme may invest in other Scheme managed by the AMC or in the Scheme of any other Mutual Funds, provided it is in conformity to the investment objectives of the Scheme and in terms of the prevailing SEBI (Mutual Funds) Regulations, 1996 and guidelines. As per the SEBI (Mutual Funds) Regulations, 1996, no investment management fees will be charged for such investments.

III. Other Details

A. Details of Benchmark, Investment Objective, Investment Strategy, TER, AUM, Year wise performance, Top 10 Holding/ link to Top10 holding of the underlying fund accessed at the below link:

Information about ICICI Prudential Nifty 100 Low Volatility 30 ETF (the Underlying Scheme):

Benchmark:

Nifty100 Low Volatility 30 Index aims to measure the performance of the low volatile securities in the large market capitalisation segment. The selection of securities and its weights in Nifty100 Low Volatility 30 are based on volatility. The least volatile stocks receive the highest weight in the index. Weight of the stocks, having 6 month average turnover less than the stock with the lowest 6 month average turnover in NIFTY 50 Index, are capped at 3%. The excess weight is distributed among the non-capped stocks in the proportion of their low volatility weights.

Investment Objective:

The investment objective of the scheme is to provide returns before expenses that closely correspond to the total return of the Underlying Index subject to tracking errors.

However, there can be no assurance or guarantee that the investment objective of the Scheme would be achieved.

Investment Strategy:

The corpus of the Scheme will be invested predominantly in stocks constituting the underlying index in the same proportion as in the Index and endeavor to track the

benchmark index. A very small portion (0-5% of the Net Assets) of the fund may be kept liquid to meet the liquidity and expense requirements.

The performance of the Scheme may not commensurate with the performance of the underlying index on any given day or over any given period. Such variations are commonly referred to as the tracking error. The fund intends to maintain a low tracking error by closely aligning the portfolio in line with the index. The stocks comprising the underlying index are periodically reviewed by Index Service provider. A particular stock may be dropped or new securities may be included as a constituent of the index. In such an event, the Fund will endeavor to reallocate its portfolio but the available investment/ disinvestment opportunities may not permit precise mirroring of the underlying index immediately. Similarly, in the event of a constituent stock being demerged / merged / delisted from the exchange or due to a major corporate action in a constituent stock, the fund may have to reallocate the portfolio and seek to minimize the variation from the index.

Equities and equity related instruments:

The Scheme would invest in stocks comprising the underlying index and endeavor to track the benchmark index.

Fixed Income Securities:

The Scheme may also invest in debt and money market instruments, in compliance with Regulations to meet liquidity requirements. The scheme may also invest in liquid schemes of ICICI Prudential Mutual Fund. Money Market Instruments include commercial papers, commercial bills, treasury bills, and Government securities having an unexpired maturity upto one year, call or notice money, certificate of deposit, usance bills, TREPs and any other like instruments as specified by the Reserve Bank of India from time to time, subject to regulatory approvals.

Investment in Derivatives:

The Scheme may take an exposure to equity derivatives of constituents of the underlying Basket when securities of the Basket are unavailable, insufficient or for rebalancing at the time of change in Basket or in case of corporate actions, for a short period of time. The Scheme may use derivative instruments such as stock futures and options contracts, warrants, convertible securities, swap agreements or any other derivative instruments that are permissible or may be permissible in future under applicable regulations and such investments shall be in accordance with the investment objective of the Scheme.

Implementation of Policies

The Scheme, in general, will hold all of the securities that comprise the Underlying Index in the same proportion as the index. Expectation is that, over time, the tracking error of the Scheme relative to the performance of the Underlying Index will be relatively low.

The Investment Manager would monitor the tracking error of the Scheme on an ongoing basis and would seek to minimize tracking error to the maximum extent possible. There can be no assurance or guarantee that the Scheme will achieve any particular level of tracking error relative to performance of the Underlying Index.

Investment Process

The Scheme will track the Underlying Index and is a passively managed scheme. The investment Decisions will be determined as per the Underlying Index. In case of any change

in the index due to corporate actions or change in the constituents of the Underlying Index (as communicated by the Index Service Provider), relevant investment decisions will be determined considering the composition of the Underlying Index.

The Investment decision of the Scheme will be carried out by the designated Fund Manager.

B. Periodic Disclosures

• **Portfolio Disclosures**

The AMC shall disclose portfolio of the scheme (along with ISIN) within 10 days from the close of each quarter on website of:

AMC i.e. www.icicipruamc.com

AMFI i.e. www.amfiindia.com.

The AMC shall send via email the quarterly statement of scheme portfolio within 10 days from the close of each quarter. The AMC shall send the details of the scheme portfolio while communicating the quarterly statement of scheme portfolio via email or any other mode as may be communicated by SEBI/AMFI from time to time. The AMC shall provide a feature wherein a link is provided to the investors to their registered email address to enable the investor to directly view/download only the portfolio of schemes subscribed by the said investor. The portfolio disclosure shall also include the scheme risk-o-meter, name of benchmark and risk-o-meter of benchmark.

The unitholders whose e-mail addresses are not registered with the Fund are requested to update / provide their email address to the Fund for updating the database. The AMC shall provide a physical copy of the statement of scheme portfolio, without charging any cost, on specific request received from a unit holder.

- **Annual Report**

The scheme wise annual report shall be hosted on the website of the AMC and on the website of the AMFI soon as may be possible but not later than four months from the date of closure of the relevant financial year. The AMC shall publish an advertisement every year in all India edition of at least two daily newspapers, one each in English and Hindi, disclosing the hosting of the scheme wise annual report on the website of the AMC i.e. <https://www.icicipruamc.com/about-us/financials-&-disclosures>

The AMC shall display prominently on the AMC's website link of the scheme wise annual report and physical copy of the same shall be made available to the unitholders at the registered / corporate office of the AMC at all times.

- **Disclosure on Riskometers and Scheme Summary Document (SSD)**

In accordance with paragraph 17.4 of the master circular Risk-o-meter shall be evaluated on a monthly basis and Mutual Funds/AMCs shall disclose the Risk-o-meter along with portfolio disclosure for all their schemes on their respective website and on AMFI website within 10 days from the close of each month. Any change in risk-o-meter shall be communicated by way of Notice cum Addendum and by way of an e-mail or SMS to unitholders of that particular scheme.

Risk-o-meter shall have following six levels of risk for the Scheme

- i. Low risk
- ii. Low to Moderate risk
- iii. Moderate risk
- iv. Moderately High risk
- v. High - risk and
- vi. Very High risk

The evaluation of risk levels of a scheme shall be done in accordance with the aforesaid circular.

A Scheme Summary Document (SSD) of the Scheme which contains details such as Scheme features, Fund Manager details, investment details, investment objective, expense ratio etc will be made available on the website of the AMC and AMFI. The SSD will be updated within 5 working days from the date of change or modification in the Scheme.

C. Transaction charges and stamp duty

- **Transaction charges:**

No transaction charges to be levied on the investment amount from transactions/applications (including SIPs) received through distributors (i.e. for Regular Plans). Accordingly, payment of transaction charges to the distributors has been discontinued.

Please refer to SAI for more details.

- **Stamp Duty:**

Pursuant to Notification No. S.O. 1226(E) and G.S.R. 226(E) dated March 30, 2020 issued by Department of Revenue, Ministry of Finance, Government of India, read with Part I of Chapter IV of Notification dated February 21, 2019 issued by Legislative Department, Ministry of Law and Justice, Government of India on the Finance Act, 2019, a stamp duty @ 0.005% of the transaction value would be levied on applicable mutual fund transactions, with effect from July 1, 2020. Accordingly, pursuant to levy of stamp duty, the number of units allotted on purchase transactions (including IDCW reinvestment) to the unitholders would be reduced to that extent.

- **Transparency/NAV Disclosure**

The NAV will be calculated and disclosed at the close of every Business Day. NAV will be determined on every Business Day except in special circumstances. NAV of the scheme shall be:

- Prominently disclosed by the AMC under a separate head on the AMC's website <https://www.icicipruamc.com/home> by 10.00 a.m. on the next business day,
- On the website of Association of Mutual Funds in India - AMFI (www.amfiindia.com) by 10.00 a.m. on the next business day, and
- Shall be made available at all Customer Service Centres of the AMC.

In case of any delay, the reasons for such delay would be explained to AMFI and SEBI by the next business day. If the NAVs are not available before commencement of business hours on the following day due to any reason, the Fund shall issue a press release providing reasons and explaining when the Fund would be able to publish the NAVs.

D. Associate Transactions

Please refer to Statement of Additional Information (SAI).

E. Taxation

As per the provisions of the Income-tax Act, 1961, as amended from time to time

Particulars	Tax rates applicable for Resident Investors	Tax rates applicable for non-resident Investors	Tax rates applicable for Mutual Fund –
Tax on IDCW	Taxable as per applicable slab rates	Taxable as per applicable tax rates	Nil
Equity Mutual Fund (held for more than 12 months)	12.5% without Indexation (Exceeding INR 1.25 Lakhs) in case of redemption of units where STT is payable on redemption [u/s 112A]	12.5% without Indexation (Exceeding INR 1.25 Lakhs) in case of redemption of units where STT is payable on redemption [u/s 112A]	Nil
Equity Mutual Fund Capital Gains on transfer (held for not more than 12 months)	20%# on redemption of units where STT is payable on redemption (u/s 111A)	20%# on redemption of units where STT is paid on transfer (u/s 111A)	Nil

Equity Scheme(s) will also attract Securities Transaction Tax (STT) at applicable rates.

Notes:

- 1) Income of the Mutual Fund is exempt from income tax in accordance with the provisions of Section 10(23D) of the Income-tax Act, 1961 (the Act).
- 2) Under the terms of the Scheme Information Document, this Scheme is classified as "equity oriented fund".
- 3) As per clause (a) of the explanation to section 112A of the Act, an "Equity oriented fund" has been defined to mean a fund set up under a scheme of a mutual fund specified under clause (23D) of section 10 and,—
 - (i) in a case where the fund invests in the units of another fund which is traded on a recognised stock exchange,—

(A) a minimum of ninety per cent of the total proceeds of such fund is invested in the units of such other fund; and

Scheme Information Document
ICICI Prudential Nifty 100 Low Volatility 30 ETF FOF

(B) such other fund also invests a minimum of ninety per cent of its total proceeds in the equity shares of domestic companies listed on a recognised stock exchange; and

- (ii) in any other case, a minimum of sixty-five per cent of the total proceeds of such fund is invested in the equity shares of domestic companies listed on a recognised stock exchange.

Further it is stated that the percentage of equity shareholding or unit held in respect of the fund, as the case may be, shall be computed with reference to the annual average of the monthly averages of the opening and closing figures

1. If the total income of a resident investor (being individual or HUF) [without considering such Long-term capital Gains / short term capital gains] is less than the basic exemption limit, then such Long-term capital gains/short-term capital gains should be first adjusted towards basic exemption limit and only excess should be chargeable to tax.
2. Non-resident investors may be subject to a separate of tax regime / eligible to benefits under Tax Treaties, depending upon the facts of the case. The same has not been captured above.
3. A rebate of up to Rs. 12,500 is available for resident individuals whose total income does not exceed Rs. 500,000.
4. The Finance Act, 2025 amended Section 87A of the Act to provide that where an Individual apply for lower slab rates provided under section 115BAC(1A) and the total income:
 - i. does not exceed 12,00,000, a rebate shall be provided on tax to the extent of an amount equal to 100% of such income-tax or an amount of INR 60,000 (whichever is less);
 - ii. exceeds INR 12,00,000 and the income-tax payable on such total income exceeds the amount by which the total income is in excess of 12,00,000, a rebate shall be provided on tax of an amount equal to the amount by which the tax payable is in excess of the amount by which the total income exceeds 12,00,000

Further, such rebate of income-tax will not be available on tax on incomes chargeable to tax at special rates (for e.g.: capital gains u/s 111A, 112 etc.)

#excluding applicable surcharge and health and education cess.

For details on Stamp Duty, please refer SAI.

For further details on taxation please refer to the Section on 'Tax Benefits of investing in the Mutual Fund' provided in 'Statement of Additional Information ('SAI')'.

Please consult your tax advisor for further details on taxation.

In addition to the existing Official Point of Acceptance of transactions, Computer Age Management Services Ltd. (CAMS), the Registrar and Transfer Agent of ICICI Prudential Mutual Fund, having its office at New No 10. Old No. 178, Opp. to Hotel Palm Grove, MGR Salai (K.H.Road), Chennai - 600 034 shall be an official point of acceptance for electronic transactions received from the Channel Partners with whom ICICI Prudential Asset Management Company Limited has entered or may enter into specific arrangements for all financial transactions relating to the units of mutual fund schemes. Additionally, the secure Internet sites operated by CAMS will also be official point of acceptance only for the limited purpose of all channel partners transactions based on agreements entered into between IPMF and such authorized entities. Additionally, the Internet site(s) operated by the AMC and online applications of the AMC [including i-Invest iPru (previously IPRUTouch)] will also be official point of acceptance. The AMC also accepts applications received on designated FAX numbers.

In addition to the existing Official Point of Acceptance of transactions, authorized Points of Service (POS) of MF Utilities India Private Limited (MFUI) shall be an official point of acceptance for all financial and non- financial transactions. The updated list of POS of MFUI is available on www.mfuindia.com. The online transaction portal of MFU is www.mfuonline.com. Further, Investors can also subscribe units of the Scheme during the NFO Period by availing the platforms/facilities made available by the Stock Exchanges.

For the updated list of official Point of Acceptance of transactions of AMC and CAMS, please refer the website of the AMC viz., www.icicipruamc.com

Open Network for Digital Commerce (ONDC)

The schemes of ICICI Prudential Mutual Fund (the Fund) are now available to be transacted through the Open Network for Digital Commerce (ONDC) (“Network”). To facilitate transactions through this Network, the Fund has/shall enter into agreement with service provider(s) who would provide backend platform on behalf of the Fund. The said platform would be considered as an ‘OPAT’.

Accordingly, for the purpose of determining the applicability of NAV, the time at which request for purchase / sale / switch of units is received on the server(s) of the said platform will be considered as time of receipt of transaction with the AMC.

As per existing system architecture of ONDC network, currently regular plans of the schemes of ICICI Prudential Mutual Fund are available for transaction through this

route.
