PART II. INFORMATION ABOUT THE SCHEME

A. HOW WILL THE SCHEME ALLOCATE ITS ASSETS?

Under normal circumstances, the asset allocation under the Scheme will be as follows:

Instruments	Indicative allocations (% of total assets)	
	Minimum	Maximum
Units of ICICI Prudential Silver ETF	95%	100%
Debt & Money Market Instruments (including cash & cash equivalent and Liquid/Debt Funds).	0%	5%

The above percentages would be adhered to at the point of investment in the underlying schemes. Further, subject to the asset allocation pattern stated above, the maximum asset allocation to the Scheme of a Mutual Fund may be to the extent of 100% of the investible corpus under the Scheme.

The Cumulative Gross Exposure across, units of ICICI Prudential Silver ETF, Debt and Money Market Instruments and such other securities/assets as may be permitted by the Board from time to time, subject to prior approval from SEBI, if required, should not exceed 100% of the net assets of the scheme.

The Margin may be placed in the form of such securities / instruments / deposits as may be permitted/eligible to be placed as margin from the assets of the Scheme. The securities / instruments / deposits so placed as margin shall be classified under the applicable category of assets for the purposes of asset allocation.

Exposure to various instruments will be as per the indicative table given below: (Below percentages shall be subject to applicable SEBI circulars):

Sr. No.	Type of Instrument	Percentage exposure of	Circular references

Rebalancing due to Short Term Defensive Consideration:

- Due to market conditions, the AMC may invest beyond the range set out in the asset allocation. Such deviations shall normally be for a short term and defensive considerations as per Paragraph 1.14.1.2.b of the Master, and the fund manager will rebalance the portfolio within 30 calendar days from the date of deviation.

Rebalancing due to Passive Breaches:

- Further, as per Paragraph 2.9 of the SEBI Master Circular, as may be amended from time to time, in the event of deviation from mandated asset allocation due to passive breaches (occurrence of instances not arising out of omission and commission of the AMC), the fund manager shall rebalance the portfolio of the Scheme within 30 Business Days. In case the portfolio of the Scheme is not rebalanced within the period of 30 Business Days, justification in writing, including details of efforts taken to rebalance the portfolio shall be placed before the Investment Committee of the AMC. The Investment Committee, if it so desires, can extend the timeline for rebalancing up to sixty (60) Business Days from the date of completion of mandated rebalancing period. Further, in case the portfolio is not rebalanced within the aforementioned mandated plus extended timelines the AMC shall comply with the prescribed restrictions, the reporting and disclosure requirements as specified in Paragraph 2.9 of the Master Circular.

Further, the AMC shall comply with the applicable regulatory guidelines related to reporting and disclosure requirements as specified in the aforesaid circular.

Cash or cash equivalents with residual maturity of less than 91 days may be treated as not creating any exposure. AMFI vide letter dated November 3, 2021 has clarified that Cash Equivalent shall consist of Government Securities, T-Bills and Repo on Government Securities

Apart from the above investment restrictions, the Scheme follows certain internal norms vis-à-vis limiting exposure to scrips, sectors etc., within the above mentioned restrictions, and these are subject to review from time to time.

B. WHERE WILL THE SCHEME INVEST?

Subject to the Regulations and the disclosures as made under the section “How will the Scheme allocate its Assets”, the corpus of the Scheme can be invested in any (but not exclusively) of the following:

- 1) In the Units of ICICI Prudential Silver ETF registered with SEBI and/or permitted by SEBI.
- 2) Money market instruments which includes commercial papers, commercial bills, treasury bills, Government securities having an unexpired maturity up to one year, call or notice money, certificate of deposit, usance bills, and any other like instruments as specified by the Reserve Bank of India from time to time; to meet the liquidity requirements.
- 3) All types of debt securities which suits the investment objective of the Scheme.

As per the SEBI guidelines, a Fund of funds scheme shall not invest in any other fund of funds scheme.

The units of the schemes of the Mutual Funds or other securities where the Scheme proposes to invest could be listed, unlisted, privately placed, secured, unsecured, rated or unrated and of any maturity. The units may be acquired through subscription to the units during the New Fund Offerings (NFOs) of the schemes or by subscriptions on on-going basis in case of open-ended schemes. The Scheme may also enter into repurchase and reverse repurchases obligations in all securities held by it as per the guidelines and regulations applicable to such transactions.

Pending deployment of funds in accordance with the investment pattern of the Scheme, the Scheme may park funds in short term deposits of Scheduled commercial Banks, subject to SEBI guidelines.

The inter Scheme transfer of investments shall be in accordance with the provisions contained in paragraph 12.30 of the Master Circular pertaining to Inter-Scheme transfer of investments.

C. WHAT ARE THE INVESTMENT STRATEGIES?

The Scheme would endeavor to provide investment returns linked to the underlying scheme. The Scheme intends to achieve its investment objective by investing in units of ICICI

Prudential Silver ETF and Debt & Money Market Instruments. The AMC shall endeavor that the returns of ICICI Prudential Silver ETF Fund of Fund will replicate the returns generated by ICICI Prudential Silver ETF and is not expected to deviate more than 2% on an annualized basis, net of recurring expenses in the Scheme. The Scheme shall follow a passive investment strategy.

The Scheme will invest in ICICI Prudential Silver ETF directly or through secondary market.

Kindly refer “*Details of Benchmark, Investment Objective, Investment Strategy, TER, AUM, Year wise performance, Top 10 Holding/ link to Top10 holding of the underlying fund*” for details of the underlying scheme.

D. HOW WILL THE SCHEME BENCHMARK ITS PERFORMANCE?

The performance of the Scheme will be benchmarked against the domestic price of Silver. Further, the domestic price of Silver is derived from the LBMA prices and is same as that of the underlying scheme.

The Trustees reserves the right to change the benchmark in future if a benchmark better suited to the investment objective of the Scheme is available.

PART III. OTHER DETAILS

A. COMPUTATION OF NAV

The NAV of the Units of the Scheme will be computed by dividing the net assets of the Scheme by the number of Units outstanding on the valuation date. The Fund shall value its investments according to the valuation norms, as specified in Schedule VIII of the Regulations, or such norms as may be prescribed by SEBI from time to time and as stipulated in the valuation policy and procedures of the Fund, provided in Statement of Additional Information (SAI).

The NAV of the Scheme shall be rounded off upto four decimals

NAV of units under the Scheme shall be calculated as shown below:

NAV (Rs.) =

Market or Fair Value of Scheme's investments + Current Assets
- Current Liabilities and Provision

No. of Units outstanding under Schemes

The NAV will be calculated as of the close of every Business Day of the respective Scheme. The valuation of the Scheme's assets and calculation of the Scheme's NAV shall be subject to audit on an annual basis and such regulations as may be prescribed by SEBI from time to time.

Illustration of computation of NAV:

If the net assets of the Scheme are Rs.10,45,34345.34 and units outstanding are 10.000,000, then the NAV per unit will be computed as follows:

10,45,34,345.34 / 10,000,000 = Rs. 10.4534 p.u. (rounded off to four decimals)

The Fund shall ensure that the repurchase price of an open ended scheme is not lower than 95 per cent of the Net Asset Value.

B. NEW FUND OFFER (NFO) EXPENSES – Not Applicable

C. ANNUAL SCHEME RECURRING EXPENSE

These are the fees and expenses for operating the scheme. These expenses include Investment Management and Advisory Fee charged by the AMC, Registrar and Transfer Agents' fee, marketing and selling costs etc. as given in the table below:

The AMC has estimated that upto 1% of the daily net assets of the Scheme will be charged to the Scheme as expenses. For the actual current expenses being charged, the investor should refer to the website of the mutual fund. In case of any change in the expense ratio, the Mutual Fund would update the same on the website at least three working days prior to the effective date of the change. The requirement for disclosing such change would be subject to paragraph 10.1.8 of the Master Circular. Investor can refer [Mutual Funds - Invest in Mutual Funds Online | ICICI Prudential MF](#) for Total Expense Ratio (TER) details.

Details of Annual Scheme Recurring Expenses under the Scheme is as follows:

Other Expenses*	
Maximum total expense ratio (TER) permissible under Regulation 52 (6) (a) (i)	Upto 1.00
Additional expenses under Regulations 52(6A)(c)	Upto 0.05
Additional expenses for gross new inflows from specified cities* (more specifically elaborated below)	Upto 0.30

The aforesaid does not include Goods and Services tax on investment management and advisory fees. The same is more specifically elaborated below.

§ No Investment Management and Advisory fees will be charged under the Scheme

The returns of the Direct Plan for the Scheme shall be exclusive of distributor commission.

Investors may please note that they will be bearing the recurring expenses of the Scheme in addition to the expenses of the underlying schemes in which the fund of fund scheme makes investment.

Provided that the total expense ratio to be charged over and above the weighted average of the total expense ratio of the underlying schemes shall not exceed two times the weighted average of the total expense ratio levied by the underlying scheme(s), subject to the overall ceilings as stated above.

*As permitted under the Regulation 52 of SEBI (MF) Regulations, 1996 and pursuant paragraph 15.10.1 of the Master Circular, SEBI (Mutual Funds) Second Amendment Regulations, 2012 and SEBI (Mutual Funds) (Fourth Amendment) Regulations 2018.

ICICI Prudential Silver ETF Fund of Fund- Direct Plan shall have a lower expense ratio excluding distribution expenses, commission, etc. as compared to ICICI Prudential Silver ETF Fund of Fund and no commission for distribution of Units will be paid/ charged under ICICI Prudential Silver ETF Fund of Fund- Direct Plan.

All fees and expenses charged in a Direct Plan (in percentage terms) under various heads including the investment and advisory fee shall not exceed the fees and expenses charged under such heads in Regular Plan.

As per Regulation 52(6)(a), the total expenses of the Scheme including weighted average of charges levied by the underlying schemes shall not exceed 1.00 per cent of the daily net assets of the Scheme.

These estimates have been made in good faith as per information available to the AMC and the total expenses may be more than as specified in the table above. However, as per the Regulations, the total recurring expenses that can be charged to the Scheme in this Scheme Information Document shall be subject to the applicable guidelines.

The purpose of the above table is to assist the investor in understanding the various costs and expenses that an investor in the Scheme will bear.

The Scheme can charge expenses within overall maximum limits prescribed under SEBI (MF) Regulations, without any internal cap allocated to any of the expense heads specified in the above table.

Pursuant to paragraph 10.1 of SEBI Master Circular on Mutual Funds, SEBI (Mutual Funds) Second Amendment Regulations, 2012 and Securities and Exchange Board of India (Mutual Funds) (Fourth Amendment) Regulations, 2018, following additional costs or expenses may be charged to the scheme, namely:

1. The AMC may charge Goods and Services tax on investment and advisory fees to the scheme of the Fund in addition to the maximum limit of total expenses ratio as prescribed

in Regulation 52 of the Regulations, whereas Goods and Services tax on other than investment and advisory fees, if any, shall be borne by the scheme within the maximum limit as per regulation 52 of the Regulations.

2. expenses not exceeding of 0.30 per cent of daily net assets, if the new inflows from retail investors from B30 cities as specified by the Securities and Exchange Board of India, from time to time are at least –

- 30 per cent of the gross new inflows from retail investors from B30 cities into the scheme, or;
- 15 per cent of the average assets under management (year to date) of the scheme, whichever is higher;

Provided that if inflows from retail investors from B30 cities are less than the higher of the above, such expenses on daily net assets of the scheme shall be charged on proportionate basis;

Provided further that expenses charged under this paragraph shall be utilised for distribution expenses incurred for bringing inflows from retail investors from B30 cities;

Provided further that amount incurred as expense on account of inflows from retail investors from B30 cities shall be credited back to the scheme in case the said inflows are redeemed within a period of one year from the date of investment.

For above purposes, 'B30 cities' shall be beyond Top 30 cities as at the end of the previous financial year as communicated by AMFI. Retail investors would mean individual investors from whom inflows into the Scheme would amount upto Rs. 2,00,000/- per transaction.

Note - SEBI vide its letter no. SEBI/HO/IMD-SEC-3/P/OW/2023/5823/1 dated February 24, 2023 and AMFI letter dated No. 35P/ MEM-COR/ 85-a/ 2022-23 dated March 02, 2023 has directed AMCs to keep B-30 incentive structure in abeyance with effect from March 01, 2023 till further notice.

3. Additional expenses, incurred towards different heads mentioned under sub-regulations (2) and (4) of Regulation 52 of the Regulations, not exceeding 0.05 per cent of daily net assets of the scheme. However, such additional expenses will not be charged if exit load is not levied or not applicable to the Scheme.

Fund of Funds (FoFs) investing more than 80% of its NAV in the underlying domestic funds shall not be required to set aside 2bps of the daily net assets towards investor education and awareness initiatives.

Brokerage and transaction cost incurred for the purpose of execution of trade shall be charged to the schemes as provided under Regulation 52 (6A) (a) upto 12 bps and 5 bps for cash market transactions and derivatives transactions respectively. Any payment towards brokerage and transaction costs, over and above the said 12 bps and 5 bps for cash market transactions and derivatives transactions respectively may be charged to the scheme within the maximum limit of Total Expense Ratio (TER) as prescribed under regulation 52. Expenses shall be charged / borne in accordance with the Regulations prevailing from time to time.

The following is an illustration of the impact of expense ratio on the scheme's returns:

Particulars	Regular Plan	Direct Plan
Amount Invested at the beginning of the year	10,000	10,000
Returns before Expenses	1,500	1,500
Expenses other than Distribution Expenses	150	150
Distribution Expenses	50	-
Returns after Expenses at the end of the Year	1300	1350

For calculating expense of ICICI Prudential Silver ETF Fund of Fund - Direct Plan, distribution expenses will not be considered

D. LOAD STRUCTURE

Exit Load is an amount which is paid by the investor to redeem the units from the scheme. Load amounts are variable and are subject to change from time to time. For the current applicable structure, please refer to the website of the AMC (www.icicipruamc.com) or your distributor.

Type of Load	Load chargeable (as % of NAV)
Exit Load	<ol style="list-style-type: none"> 1. If the amount sought to be redeemed or switched out is invested for a period of up to 15 days from the date of allotment - 1% of the applicable Net Asset Value 2. If the amount sought to be redeemed or switched out is invested for a period of more than 15 days from the date of allotment – Nil

However, the Trustee shall have a right to prescribe or modify the load structure with prospective effect subject to a maximum prescribed under the Regulations.

Any redemption/switch arising out of excess holding by an investor beyond 25% of the net assets of the Scheme in the manner envisaged under paragraph 6.11.1.1 (b) of the Master Circular, such redemption / switch will not be subject to exit load.

The exit load charged, if any, shall be credited back to the respective scheme. Goods and Services tax on exit load shall be paid out of the exit load proceeds and exit load net of Goods and Services tax shall be credited to the schemes.

Exit Load, if any, prevailing on the date of enrolment of SIP/ STP shall be levied in the Scheme.

The investor is requested to check the prevailing load structure of the Scheme before investing. For any change in load structure AMC will issue an addendum and display it on the website/Investor Service Centres. Any imposition or enhancement in the load shall be applicable on prospective investments only.

Subject to the Regulations, the Trustee reserves the right to modify/alter the load structure on the Units subscribed/redeemed on any Business Day. At the time of changing the load structure, the AMC / Mutual Fund may adopt the following procedure:

- i. The addendum detailing the changes will be attached to Scheme Information Documents and key information memorandum. The addendum will be circulated to all the distributors/brokers so that the same can be attached to all Scheme Information Documents and key information memoranda already in stock.
- ii. Arrangements will be made to display the addendum in the Scheme Information Document in the form of a notice in all the investor service centres and distributors/brokers office.
- iii. The introduction of the exit load along with the details will be stamped in the acknowledgement slip issued to the investors on submission of the application form and will also be disclosed in the statement of accounts issued after the introduction of such load.
- iv. A public notice shall be provided on the website of the AMC in respect of such changes.

Any imposition or enhancement in the load shall be applicable on prospective investments only.

I. Introduction

A. Definitions

Definition for the words and expressions used in the SID are available at the following link : [SID related information \(icicipruamc.com\)](http://www.icicipruamc.com)

The words and expressions shall have the meaning as specified at the above link, unless the context otherwise requires.

B. Risk Factors

I. **Standard Risk Factors:** Please refer to SAI.

II. **Scheme specific risk factors**

Investors may please note that they will be bearing the recurring expenses of the Scheme in addition to the expenses of the underlying schemes in which the fund of fund scheme makes investment.

- **Risks associated with investing in Fund of Funds schemes:**
- As the investors are incurring expenditure at both the Fund of Funds level and the schemes into which the Fund of Funds invests, the returns that they may obtain may be materially impacted or may at times be lower than the returns that investors directly investing in such schemes obtain.
- Again as the Fund of Funds scheme may shift the weightage of investments between schemes into which it invests, the expenses charged being dependent on the structure of the underlying schemes (being different) may lead to a non- uniform charging of expenses over a period of time.
- As the Fund of Funds (FOF) factsheets and disclosures of portfolio will be limited to providing the particulars of the schemes invested at FOF level, investors may not be able to obtain specific details of the investments of the underlying schemes.
- While it would be the endeavour of the Fund Manager of the Fund of Funds scheme(s) to invest in the target schemes in a manner, which will seek to maximize returns, the performance of the underlying funds may vary which may lead to the returns of the Fund of Funds being adversely impacted.
- The scheme specific risk factors of each of the underlying schemes become applicable where a fund of funds invests in any underlying scheme. Investors who intend to invest in Fund of Funds are required to and are deemed to have read and understood the risk factors of the underlying schemes relevant to the Fund of Funds scheme that they invest in. Copies of the Scheme Information Documents pertaining to the various schemes of ICICI Prudential Mutual Fund, which disclose the relevant risk factors, are available at the Customer Service Centers or may be accessed at www.icicipruamc.com.
- A Fund Manager managing any one of the Fund of Funds schemes may also be the Fund Manager for any underlying schemes.

- **Settlement Risk**

The inability of the Scheme to make intended securities purchases due to settlement problems could cause the Scheme to miss certain investment opportunities as in certain cases, settlement periods may be extended significantly by unforeseen circumstances. Similarly, the inability to sell securities held in the Scheme portfolio may result, at times, in potential losses to the Scheme, and there can be a subsequent decline in the value of the securities held in the Scheme's portfolio.

- **Portfolio Concentration Risk**

To the extent that the Scheme may concentrate its investments in units of Silver ETF, the Scheme will therefore be subject to the risks associated with such concentration.

- **Regulatory Risk:** Changes in government policy in general and changes in tax benefits applicable to Mutual Funds may impact the returns to investors in the Scheme.

- **Redemption Risk**

The Scheme at times may receive large number of redemption requests, leading to an asset-liability mismatch and therefore, requiring the investment manager to make a distress sale of the securities leading to realignment of the portfolio and consequently resulting in investment in lower yield instruments.

- **Right to Limit Redemptions**

The Trustee, in the general interest of the Unit holders of the Scheme offered in this Document and keeping in view the unforeseen circumstances / unusual market conditions, may limit the total number of Units which can be redeemed on any Business Day. The same shall be in accordance with paragraph 1.12 of the Master Circular.

Risks associated with investing in Silver ETF

1. The Scheme would invest in Silver and Silver-linked instrument(s). Accordingly, the NAV of the Scheme will react to Silver price movements. Units of the Scheme are proposed to be listed on a stock exchange; hence the market prices of the units would also react to general stock market fluctuations.
2. Although units are proposed to be listed on an exchange, there can be no assurance that an active secondary market will develop or be maintained. Prices of units, which are proposed to be listed and traded, could be impacted by thin liquidity in the secondary market as these funds may not be actively traded.
3. **Risk of passive investment:** The Scheme is not actively managed. The Scheme may be affected by a general price decline in the Silver prices. The Scheme ultimately invests in Silver as an asset class regardless of such investment merit. The AMC does not attempt to take defensive positions in declining markets.
4. **Tracking error risk (pertaining to underlying scheme):** The performance of the Scheme may not commensurate with the performance of the benchmark index on any given day or over any given period. Such variation, referred to as tracking error may impact the performance of the Scheme. However, the Investment Manager would monitor the tracking error of the Scheme on an ongoing basis and would seek to minimize tracking error to the maximum extent possible. Investable surplus remaining idle increases the tracking error and hence acts as a risk factor.

5. Trading in units on the exchange may be halted because of market conditions or is not advisable for reasons which in view of the stock exchange authorities or SEBI. In addition, trading in units is subject to trading halts caused by extraordinary market volatility and pursuant to exchange and SEBI 'circuit filter' rules. There can be no assurance that the requirements of exchange necessary to maintain the listing of the units will continue to be met or will remain unchanged.
 6. The units may trade above or below their NAV. The NAV of the Scheme will fluctuate with changes in the market value of holdings. The trading prices will fluctuate in accordance with changes in their NAV as well as market supply and demand. However, given that units can be created and redeemed in Creation Units, it is expected that large discounts or premiums to the NAV will not sustain due to arbitrage opportunity available.
 7. Any changes in trading regulations by the stock exchange(s) or SEBI may affect the ability of market maker to arbitrage resulting into wider premium/ discount to NAV.
 8. The returns from physical Silver in which the Scheme invests may under perform returns from the various general securities markets or different asset classes other than Silver. Different types of securities tend to go through cycles of out-performance and under-performance in comparison to the general securities markets.
- A. Market risk due to volatility in silver prices:** The value of the Units relates directly to the value of the silver held by the Scheme and fluctuations in the price of silver could adversely affect investment value of the Units. The factors that may affect the price of silver, inter alia, include demand & supply, economic and political developments, changes in interest rates and perceived trends in bullion prices, exchange rates, inflation trends, market movements, movement/trade of silver that may be imposed by RBI, trade and restrictions on import/export of silver or silver jewellery, etc. Hence the investor may also lose money due to fluctuation in the prices of the silver. Silver Exchange Traded Funds are relatively new product and their value could decrease if unanticipated operational or trading problems arise.
- There is no Exchange for physical Silver in India. The Scheme may have to buy or sell Silver from the open market, which may lead to counter party risks for the Scheme for trading and settlement.
 - An investment in the Scheme may be adversely affected by competition from other methods of investing in Silver.
 - The Trustee, in the general interest of the unit holders of the Scheme offered under this Scheme Information Document and keeping in view of the unforeseen circumstances/unusual market conditions, may limit the total number of Units which can be redeemed on any Business Day.
 - For the valuation of units, indirect taxes like customs duty, VAT etc. would also be considered. Hence, any change in the rates of indirect taxation would affect the valuation of units of the Scheme.
 - The Scheme may invest in Silver and Silver related instruments, money market instruments, debt securities, units of debt oriented mutual funds as permitted under the Regulations which are subject to price, credit and interest rate risk. Trading volumes and settlement periods and transfer procedures may restrict liquidity in debt investments.
 - Physical Silver: There is a risk that part or all of the Scheme's Silver could be lost, damaged or stolen. Access to the Scheme's Silver could also be restricted by natural events or human actions. Any of these actions may have adverse impact on the operations of the Scheme and consequently on investment redemption in Units.

B. Liquidity risks in physical or derivative markets impairing the ability of the fund to buy and sell silver: Liquidity measures how easy and quick it is to convert an asset or security into cash or equivalent. Due to various economic and market conditions, the ability of the Scheme to buy and/or sell Silver in physical or trade in ETCD with silver as an underlying, could be impacted,

C. Risks associated with handling, storing and safekeeping of physical silver: There is a risk that part or all of the Scheme's silver could be lost, damaged or stolen. Access to the Scheme's silver could also be restricted by natural events or human actions. Any of these actions may have adverse impact on the operations of the scheme and consequently on investment in units.

D. Several factors that may affect the price of Silver are as follows:

- a) Global Silver supplies and demand, which is influenced by factors such as forward selling by Silver producers, purchases made by Silver producers to unwind Silver hedge positions, government regulations, productions and cost levels in major Silver producing countries.
- b) Investors' expectations with respect to the macro-economic indicators;
- c) Currency exchange rates;
- d) Interest rates;
- e) Investment and trading activities of hedge funds and commodity funds; and
- f) Global or regional political, economic or financial events and situations.
- g) In addition, investors should be aware that there is no assurance that Silver will maintain its long-term value. In the event that the price of Silver declines, the value of investment in units is expected to decline proportionately.
- h) Changes in indirect taxes like custom duties for import, sales tax, VAT or any other levies will have an impact on the valuation of Silver and consequently the NAV of the Scheme.
- i) Demand side and/or supply side constraints in domestic and/or international markets.

- **Portfolio Concentration Risk**

To the extent that the Scheme may concentrate its investments in Silver and Silver-related instrument(s), the Scheme will therefore be subject to the risks associated with such concentration.

- **Risks associated with Investing in Derivatives –**

The Scheme would not be investing in derivatives except Investments in Exchange Traded Commodity Derivatives whose Risk factors are mentioned in “Risk Factors Associated with Investments in Exchange Traded Commodity Derivatives”.

- **Risks associated with Investing in Securitised Debt**

The Scheme shall not invest in securitised debt.

- **Risks associated with Investing in REITs/ InvITs**

The Scheme shall not invest in REITs/ InvITs.

- **Risks associated with Short Selling and Stock Lending.**

The Scheme will not do any Short Selling and Securities Lending activity.

- Risks associated with investment in ADR/GDR and foreign securities

The Scheme will not have any exposure in ADR/GDR and foreign securities. However, the Scheme may invest in units of the overseas Gold linked fund by publishing an addendum to this effect.

- **Risk factors associated with creation of segregated portfolios**

1. Liquidity risk – A segregated portfolio is created when a credit event occurs at an issuer level in the scheme. This may reduce the liquidity of the security issued by the said issuer, as demand for this security may reduce. This is also further accentuated by the lack of secondary market liquidity for corporate papers in India. As per SEBI norms, the scheme is to be closed for redemption and subscriptions until the segregated portfolio is created, running the risk of investors being unable to redeem their investments. However, it may be noted that, the proposed segregated portfolio is required to be formed within one day from the occurrence of the credit event.

Investors may note that no redemption and subscription shall be allowed in the segregated portfolio. However, in order to facilitate exit to unit holders in segregated portfolio, AMC shall list the units of the segregated portfolio on a recognized stock exchange within 10 business days of creation of segregated portfolio and also enable transfer of such units on receipt of transfer requests. For the units listed on the exchange, it is possible that the market price at which the units are traded may be at a discount to the NAV of such Units. There is no assurance that a deep secondary market will develop for units of segregated portfolio listed on the stock exchange. This could limit the ability of the investors to resell them.

2. Valuation risk - The valuation of the securities in the segregated portfolio is required to be carried out in line with the applicable SEBI guidelines. However, it may be difficult to ascertain the fair value of the securities due to absence of an active secondary market and difficulty to price in qualitative factors.

- **Risk Factors Associated with Investments in Exchange Traded Commodity Derivatives (ETCDs)**

- **An exchange traded commodity derivative is a derivative instrument that mimics the price movements of an underlying commodity, allowing an investor exposure to the commodity without physical purchase.**
- Liquidity Risk: While ETCDs that are listed on an exchange carry lower liquidity risk, the ability to sell these contracts is limited by the overall trading volume on the exchanges. The liquidity of the Schemes' investments is inherently restricted by trading volumes of the ETCD contracts in which it invests. Additionally, change in margin requirements or intervention by government agencies to reduce overall volatility in the underlying commodity could lead to adverse impact on the liquidity of the ETCD.
- Price risk: ETCDs are leveraged instruments hence, a small price movement in the underlying security could have a large impact on their value. Also, the market for

ETCDs is nascent in India hence, arbitrage can occur between the price of the physical commodity and the ETCD, due to a variety of reasons such as technical issues and volatile movement in the price of the physical good. This can result in mispricing and improper valuation of investment decisions as it can be difficult to ascertain the amount of the arbitrage.

- **Settlement risk:** ETCDs can be settled either through the exchange or physically. The inability to sell ETCDs held in the Schemes' portfolio in the exchanges due to the extraneous factors may impact liquidity and would result in losses, at times, in case of adverse price movement. Wherein the underlying commodity is physically delivered in order to settle the derivative contract, such settlement could get impacted due to various issues, such as logistics, Government policy for trading in such commodities.

Risks associated with Investing in Fixed Income Securities:

- **Market Risk/Interest Rate Risk:** The Net Asset Value (NAV) of the underlying scheme(s), to the extent invested in fixed income securities, will be affected by changes in the general level of interest rates. The NAV of the underlying scheme(s) is expected to increase from a fall in interest rates while it would be adversely affected by an increase in the level of interest rates.
- **Liquidity Risk:** The liquidity of a security may change depending on market conditions leading to changes in the liquidity premium linked to the price of the security. At the time of selling the security, the security can become illiquid leading to loss in the value of the portfolio.
- **Credit Risk:** Investments in fixed income securities are subject to the risk of an issuer's inability to meet interest and principal payments on its obligations and market perception of the creditworthiness of the issuer.
- **Price Risk:** Government securities where a fixed return is offered run price-risk like any other fixed income security. Generally, when interest rates rise, prices of fixed income securities fall and when interest rates drop, the prices increase. The extent of fall or rise in the prices is a function of the existing coupon, days to maturity and the increase or decrease in the level of interest rates. The new level of interest rate is determined by the rates at which government raises new money and/or the price levels at which the market is already dealing in existing securities. The price-risk is not unique to Government Securities. It exists for all fixed income securities. However, Government Securities are unique in the sense that their credit risk generally remains zero. Therefore, their prices are influenced only by movement in interest rates in the financial system.
- **Reinvestment Risk:** This risk refers to the interest rate levels at which cash flows received from the securities in the underlying scheme(s) are reinvested. The additional income from reinvestment is the "interest on interest" component. The risk is that the rate at which interim cash flows can be reinvested may be lower than that originally assumed.
- **Settlement risk:** The inability of the underlying scheme(s) to make intended securities purchases due to settlement problems could cause the underlying scheme(s) to miss certain investment opportunities. By the same rationale, the inability to sell securities held in the underlying scheme(s)' portfolio due to the extraneous factors that may

impact liquidity would result, at times, in potential losses to the Plan, in case of a subsequent decline in the value of securities held in the underlying scheme(s)' portfolio.

- **Regulatory Risk:** Changes in government policy in general and changes in tax benefits applicable to Mutual Funds may impact the returns to investors in the underlying scheme(s).
- **Risks associated with investment in unlisted securities:** Except for any security of an associate or group company, the underlying scheme(s) can invest in securities which are not listed on a stock exchange ("unlisted Securities") which in general are subject to greater price fluctuations, less liquidity and greater risk than those which are traded in the open market. Unlisted securities may lack a liquid secondary market and there can be no assurance that the underlying scheme(s) will realise their investments in unlisted securities at a fair value.
- Different types of fixed income securities in which the underlying scheme(s) would invest as given in the Scheme Information Document carry different levels and types of risk. Accordingly, the underlying scheme(s) risk may increase or decrease depending upon its investment pattern. e.g. corporate bonds carry a higher level of risk than Government securities.
- The underlying scheme(s) may, considering the overall level of risk of the portfolio, invest in lower rated securities offering higher yields as well as zero coupon securities that offer attractive yields. This may increase the absolute level of risk of the underlying scheme(s).
- As zero coupon securities does not provide periodic interest payments to the holder of the security, these securities are more sensitive to changes in interest rates. Therefore, the interest rate risk of zero coupon securities is higher. The underlying scheme(s) may choose to invest in zero coupon securities that offer attractive yields. This may increase the risk of the portfolio.
- The underlying scheme(s) at times may receive large number of redemption requests, leading to an asset-liability mismatch and therefore, requiring the investment manager to make a distress sale of the securities leading to realignment of the portfolio and consequently resulting in investment in lower yield instruments.
- Scheme's performance may differ from the benchmark index to the extent of the investments held in the debt segment, as per the investment pattern indicated under normal circumstances.

The scheme may also invest in units of debt schemes of ICICI Prudential Mutual Fund or other schemes which may be subject to risks as stated below.

Risks associated with investing in Tri Party Repo through CCIL (TREPS):

- The mutual fund is a member of securities segment and Tri-party Repo trade settlement of the Clearing Corporation of India (CCIL). All transactions of the mutual fund in government securities and in Tri-party Repo trades are settled centrally through the infrastructure and settlement systems provided by CCIL; thus reducing the settlement and counterparty risks considerably for transactions in the said segments.

- CCIL maintains prefunded resources in all the clearing segments to cover potential losses arising from the default member. In the event of a clearing member failing to honour his settlement obligations, the default Fund is utilized to complete the settlement. The sequence in which the above resources are used is known as the "Default Waterfall".
- As per the waterfall mechanism, after the defaulter's margins and the defaulter's contribution to the default fund have been appropriated, CCIL's contribution is used to meet the losses. Post utilization of CCIL's contribution if there is a residual loss, it is appropriated from the default fund contributions of the non-defaulting members.
- Thus the scheme is subject to risk of the initial margin and default fund contribution being invoked in the event of failure of any settlement obligations. In addition, the fund contribution is allowed to be used to meet the residual loss in case of default by the other clearing member (the defaulting member).
- However, it may be noted that a member shall have the right to submit resignation from the membership of the Security segment if it has taken a loss through replenishment of its contribution to the default fund for the segments and a loss threshold as notified have been reached. The maximum contribution of a member towards replenishment of its contribution to the default fund in the 7 days (30 days in case of securities segment) period immediately after the afore-mentioned loss threshold having been reached shall not exceed 5 times of its contribution to the Default Fund based on the last re-computation of the Default Fund or specified amount, whichever is lower.
- Further, it may be noted that, CCIL periodically prescribes a list of securities eligible for contributions as collateral by members. Presently, all Central Government securities and Treasury bills are accepted as collateral by CCIL. The risk factors may undergo change in case the CCIL notifies securities other than Government of India securities as eligible for contribution as collateral.
- The underlying schemes having exposure to the fixed income securities and/ or equity and equity related securities will be subject to the following risks and in turn the Scheme's/ Plans' performance will be affected accordingly.

Apart from the risk factors mentioned above, the scheme is exposed to certain specific risks, which are as mentioned below –

- a. The Fund Manager would not be able to invest the entire corpus in physical silver due to certain factors such as the fees and expenses of the Scheme, cash balance, various other factors which may result in Tracking Error with the underlying index.

The tracking error i.e. the annualised standard deviation of the difference in daily returns between the underlying index and the Scheme based on past one year rolling over data shall not exceed 2%. In case of unavoidable circumstances in the nature of force majeure which are beyond the control of the AMCs, the tracking error may exceed 2%, for which approval of Board of AMC and Trustees shall be taken and the same shall prominently be disclosed on the website of the AMC.

- b. The Fund Manager would monitor the Tracking Error of the Scheme on an ongoing basis and would seek to minimize the Tracking Error to the maximum extent possible. There can be no assurance or guarantee that the Scheme will achieve any particular level of Tracking Error relative to performance of the underlying Index.
- c. In case of investments in derivative instruments like ETCDs, the risk/ reward would be the same as investments in commodities. However, there may be a cost attached to buying a derivative contract. Further, there could be an element of settlement risk, which could be different from the risk in settling physical commodities and there is a risk attached to the

e liquidity and the depth of the ETCD market as it is relatively new market.

C. Risk Mitigation Strategies:

Risk Mitigation measures for portfolio volatility

Silver ETFs being passively managed carry lesser risk compared to active management. The underlying ETF scheme(s) where the Scheme intends to invest follow the underlying price of Silver and therefore the level of portfolio volatility would be same as that of the underlying Silver price. The fund manager would also endeavour to keep minimal cash levels to keep performance deviation from the underlying ETF's to minimal.

Risk mitigation measures for managing liquidity

Silver ETFs invest in physical Silver which satisfy the norms of 'Good Delivery' as defined by London Bullion Markets association. Liquidity issues are not envisaged as Silver is a globally traded commodity and thereby liquid. There are also designated Authorised Participants who facilitate liquidity on the exchange.

Also the Silver ETF could have tracking error with respect to price of physical Silver which may add to the Schemes tracking error with its benchmark i.e. physical Silver due to various factors including but not limited to:

1. Delay in the purchase or sale of Silver due to

- a. Illiquidity of Silver,
- b. Delay in realization of sale proceeds,
- c. Creating a lot size to buy the required amount of Silver

Risk Mitigation:

- a. Under normal circumstances, Silver would be available for purchase and sale at all points of time.
 - b. The AMC has a robust process of retrieving speedily the daily collections at various RTA locations. The RTA has been advised to bank cheques as expeditiously as possible. The AMC tracks the daily cash flows and the Fund Managers towards prompt deployment, subject to market conditions.
 - c. Even if the collections reported on a day are less than the minimum lot size, the AMC can procure the required quantity through open market purchases. The AMCs generally appoint Authorised Participants under the Silver ETF scheme to ensure liquidity in the market place for the ETF units.
2. The Scheme may buy or sell the Silver at different points of time during the trading session at the then prevailing prices which may not correspond to its closing prices.

Risk Mitigation:

Investment is based on the judgment of the Fund Manager, and he would work towards furtherance of the unitholders interest.

3. The potential for trades to fail, which may result in the Scheme not having acquired Silver at a price necessary to track the benchmark price.

Risk Mitigation:

Units procured through exchanges have an auction process inbuilt into them, and hence the aforesaid risk is automatically mitigated.

Even for lot size purchases, the AMC deals with multiple reputed banks/authorized participants whereby the probability of default in trades are remote.

4. The holding of a cash position and accrued income prior to distribution of income and payment of accrued expenses.

Risk Mitigation:

The fund manager would endeavour to keep cash to the minimal, subject to the asset allocation table; the fund has also proposed a minimal expenses ratio, thereby reducing the extent of tracking error.

5. Execution of large buy / sell orders, and disinvestments to meet redemptions, recurring expenses, IDCW payouts etc.

Risk Mitigation:

These deals are done at best possible prices available at the time of investments. Distortions, if any would automatically get corrected over periods of time.

6. Transaction cost (including taxes and insurance premium) and recurring expenses

Risk Mitigation:

The Fund seeks to keep it to the minimal to reduce the impact of the tracking error. The AMC will endeavor to keep the tracking error as low as possible. Under normal circumstances, such tracking errors are not expected to exceed 2% per annum. However this may vary when the markets are very volatile.

7. Delay in receipt of subscription/SIP inflows

Risk Mitigation:

The inputs regarding cash flows by various modes of acceptance will be estimated on a daily basis by ICICI Prudential Mutual Fund. The subscription/redemption request will also be reported and used as a basis for planning investments in IPru Silver ETF. The deployment will be carefully planned on the basis of the mode of acceptance of instrument to moderate tracking error.

8. Availability of Silver bars for creation of units of IPru Silver ETF

Risk Mitigation:

The Mutual Fund appoints leading bullion banks to make Silver bars available for creation of underlying scheme and that in turn will help minimize tracking error.

9. Funds flows in Silver ETF fund of fund of value lesser than Creation lot size of IPru Silver ETF

Risk Mitigation:

For small amounts of inflows/outflows which are less than the creation size of IPru Silver ETF, the FOF scheme will buy/sell IPru Silver ETF units directly on the stock exchange without waiting for additional subscription redemption to minimize tracking error.

10. The trade execution prices for IPru Silver ETF may be different from NAV of IPru Silver ETF.

Risk Mitigation:

The execution price of IPru Silver ETF will be a factor of demand/supply on the stock exchange. The difference tends to average out over a longer time horizon and that will moderate tracking error.

The Scheme by utilizing a holistic risk management strategy will endeavor to manage risks associated with investing in the underlying scheme and debt markets. The risk control process involves identifying & measuring the risk through various risk measurement tools.

The Scheme has identified following risks of investing in the underlying scheme and debt and designed risk management strategies, which are embedded in the investment process to manage such risks.

Risk & Description specific to Silver	Risk mitigants / management strategy
Price risk: Fluctuations in the price of Silver	Price risk is inherent to a Silver scheme. Being a passively managed scheme, it will invest in the underlying scheme.
Liquidity risk: Inability to buy / sell appropriate quantity of IPru Silver ETF units	For small amounts of inflows/outflows which are less than the creation size of IPru Silver ETF, the FOF scheme will buy/sell IPru Silver ETF units directly on the stock exchange without waiting for additional subscription redemption to minimize tracking error.

	<p>The underlying scheme may retain certain investments in cash or cash equivalents for its day-to-day liquidity requirements. The underlying scheme has to sell Silver only to bullion bankers / traders who are authorized to buy Silver. Though, there are adequate numbers of players (commercial or bullion bankers) to whom the underlying scheme can sell Silver, the underlying scheme may have to resort to distress sale of Silver if there is no or low demand for Silver to meet its cash needs of redemption or expenses. The Trustee, in general interest of the Unit holders of the underlying scheme offered under its Scheme Information Document and keeping in view of the unforeseen circumstances / unusual market conditions, may limit the total number of Units, which can be redeemed on any Business Day.</p>
<p>Event risk/Custody Risk: Risk of loss, damage, theft, impurity etc. of Silver</p>	<p>There is a risk that part or all of the physical Silver belonging to the Scheme could be lost, damaged or stolen. In order to ensure safety, the said Silver will be stored with custodian in its vaults. Silver held by custodian is also insured. The custodian will insure/cover all such risks.</p>
<p>Risk & Description specific to Debt</p>	<p>Risk mitigants / management strategy</p>
<p><u>Market Risk</u> As with all debt securities, changes in interest rates may affect the Scheme's Net Asset Value as the prices of securities generally increase as interest rates decline and generally decrease as interest rates rise. Indian debt markets can be volatile leading to the possibility of price movements up or down in fixed income securities and thereby to possible movements in the NAV.</p>	<p>In a rising interest rates scenario the Scheme may increase its investment in money market securities whereas if the interest rates are expected to fall the allocation to debt securities with longer maturity may be increased thereby mitigating risk to that extent.</p>
<p><u>Liquidity or Marketability Risk</u> This refers to the ease with which a security can be sold at or near to its valuation yield-to-maturity (YTM).</p>	<p>The Scheme may invest in government securities, corporate bonds and money market instruments. While the liquidity risk for government securities, money market instruments and short maturity corporate bonds may be low, it may be high in case of medium to long maturity corporate bonds. The Scheme will however, endeavor to minimise liquidity risk by investing in securities having a relatively liquid market.</p>

<p><u>Credit Risk</u> Credit risk or default risk refers to the risk that an issuer of a fixed income security may default (i.e., will be unable to make timely principal and interest payments on the security).</p>	<p>Management's past track record will also be studied. In order to assess financial risk a detailed assessment of the issuer's financial statements will be undertaken.</p>
<p><u>Reinvestment Risk</u> This risk refers to the interest rate levels at which cash flows received from the securities in the Scheme are reinvested. The additional income from reinvestment is the "interest on interest" component. The risk is that the rate at which interim cash flows can be reinvested may be lower than that originally assumed.</p>	<p>Reinvestment risks will be limited to the extent of coupons received on debt instruments, which will be a very small portion of the portfolio value.</p>

Taxation Provisions:

Repurchase of ICICI Prudential Silver ETF by the Fund or sale of ICICI Prudential Silver ETF by the investor on the Stock Exchange may attract short or long term capital gain tax depending upon the holding period of the Units. The tax benefits described in this SID are as available under the present taxation laws and are available subject to relevant conditions. The information given is included only for general purpose and is based on advice received by the AMC regarding the law and practice currently in force in India and the Unit holders should be aware that the relevant fiscal rules or their interpretation may change. As is the case with any investment, there can be no guarantee that the tax position or the proposed tax position prevailing at the time of an investment or redemption in the Scheme will endure indefinitely. In view of the individual nature of tax consequences, each investor is advised to consult his / her own professional tax advisor.

II. Information about the scheme

A. Where will the scheme invest?

Subject to the Regulations and the disclosures as made under the section “How the Scheme will allocate its Assets”, the corpus of the Scheme can be invested in any (but not exclusively) of the following:

- 1) In the Units of ICICI Prudential Silver ETF registered with SEBI and/or permitted by SEBI.
- 2) Money market instruments which includes commercial papers, commercial bills, treasury bills, Government securities having an unexpired maturity up to one year, call or notice money, certificate of deposit, usance bills, and any other like instruments as specified by the Reserve Bank of India from time to time; to meet the liquidity requirements.
- 3) All types of debt securities which suits the investment objective of the Scheme.

As per the SEBI guidelines, a Fund of funds scheme shall not invest in any other fund of funds scheme.

The units of the schemes of the Mutual Funds or other securities where the Scheme proposes to invest could be listed, unlisted, privately placed, secured, unsecured, rated or unrated and of any maturity. The units may be acquired through subscription to the units during the New Fund Offerings (NFOs) of the schemes or by subscriptions on on-going basis in case of open-ended schemes. The Scheme may also enter into repurchase and reverse repurchases obligations in all securities held by it as per the guidelines and regulations applicable to such transactions.

Pending deployment of funds in accordance with the investment pattern of the Scheme, the Scheme may park funds in short term deposits of Scheduled commercial Banks, subject to SEBI guidelines.

Further the inter Scheme transfer of investments shall be in accordance with the provisions contained in clause Inter-Scheme transfer of investments, stated in paragraph 12.30 of the Master Circular.

POSITION OF DEBT MARKET IN INDIA

There are three main segments in the debt markets in India, viz., Government Securities, Public Sector Units (PSU) bonds, and corporate securities. A bulk of the debt market consists of Government Securities. Other instruments available currently include Corporate Debentures, Bonds issued by Financial Institutions, Commercial Paper, Certificates of Deposits and Securitised Debt. Securities in the Debt market typically vary based on their tenure and rating. Government Securities have tenures from one year to thirty years whereas the maturity period of the Corporate Debt now goes upto sixty years and more (perpetual). Perpetual bonds are now issued by banks as well. Securities may be both listed and unlisted and there is increasing trend of securities of maturities of over one year being listed by issuers.

The yields and liquidity on various securities as on March 31, 2025 are as under:

Issuer	Instrument	Maturity	Yields (%)	Liquidity
GOI	Treasury Bill	91 Days	6.34%	High
GOI	Treasury Bill	364 Days	6.40%	High
GOI	Short Dated	1-3 Years	6.40% - 6.44%	High
GOI	Medium Dated	3-5 Years	6.44% - 6.45%	High
GOI	Long Dated	5-10 Years	6.45% - 6.58%	High
Corporates	Taxable Bonds (AAA)	1-3 Years	7.29% - 7.11%	Medium
Corporates	Taxable Bonds (AAA)	3-5 Years	7.11% - 7.11%	Low to Medium
Corporates	CDs (A1+)	3 months	7.00%	Medium to High
Corporates	CPs (A1+)	3 months	7.25%	Medium to High

B. What are the investment restrictions?

As per the provisions of the Trust Deed read with the SEBI (MF) Regulations, the following investment restrictions apply in respect of the Schemes at the time of making investments. However, all investments by the Schemes will be made in accordance with the investment objective, asset allocation and where will the schemes invest, described earlier, as well as the SEBI (MF) Regulations, including schedule VII thereof, as amended from time to time.

1. Transfer of investments from one scheme to another scheme in the same Mutual Fund is permitted provided:
 - a) Such transfers are done at the prevailing market price for quoted instruments on spot basis (spot basis shall have the same meaning as specified by a Stock Exchange for spot transactions); and
 - b) The securities so transferred shall be in conformity with the investment objective of the Scheme to which such transfer has been made.

Further the inter Scheme transfer of investments shall be in accordance with the provisions contained in paragraph Inter-Scheme transfer of investments, in paragraph 12.30 of the Master Circular.

2. The Fund shall get the securities purchased transferred in the name of the Fund on account of the concerned scheme, wherever investments are intended to be of a long-term nature.
3. The Mutual Fund shall buy and sell securities on the basis of deliveries and shall in all cases of purchases, take delivery of relevant securities and in all cases of sale, deliver the securities:

Provided further that sale of government security already contracted for purchase shall be permitted in accordance with the guidelines issued by the RBI in this regard.

4. No loans for any purpose can be advanced by the Scheme.
5. No mutual fund scheme shall make any investments in;
 - a) any unlisted security of an associate or group company of the sponsor; or

- b) any security issued by way of private placement by an associate or group company of the Sponsor; or
 - c) the listed securities of group companies of the Sponsor which is in excess of 25% of the net assets of the scheme of the Mutual Fund. - considering the scheme shall invest 95% in units of Silver ETF, this limit shall only apply to the 5% portion investing in Debt & Money Market Instruments including units of Debt oriented Mutual Funds.
6. The Fund shall not borrow except to meet temporary liquidity needs of the Fund for the purpose of repurchase/ redemption of units or payment of interest or IDCW to the Unitholders. Such borrowings shall not exceed 20% of the net assets of the individual scheme and the duration of the borrowing shall not exceed a period of 6 months.
7. Pending deployment of funds of the Schemes in terms of the investment objective of the Schemes, the Mutual Fund may invest them in short term deposits of scheduled commercial banks in accordance with paragraph 12.16 of Master Circular. The following guidelines shall be followed for parking of funds in short term deposits of Scheduled commercial Banks pending deployment:
- a. "Short Term" for such parking of funds by mutual funds shall be treated as a period not exceeding 91 days.
 - b. Such short term deposits shall be held in the name of the concerned Scheme.
 - c. No mutual fund Scheme shall park more than 15% of the net assets in Short term deposit(s) of all the scheduled commercial banks put together. However, it may be raised to 20% with prior approval of the trustees. Also, parking of funds in short term deposits of associate and sponsor scheduled commercial banks together shall not exceed 20% of total deployment by the mutual fund in short term deposits.
 - d. No mutual fund Scheme shall park more than 10% of the net assets in short term deposit(s), with any one scheduled commercial bank including its subsidiaries.
 - e. Trustees/Asset Management Companies (AMCs) shall ensure that no funds of a scheme are parked in short term deposit (STD) of a bank which has invested in that scheme. Trustees/AMCs shall also ensure that the bank in which a scheme has STD does not invest in the said scheme until the scheme has STD with such bank.
- The above conditions are not applicable to term deposits placed as margins for trading in cash and derivative market.**
- f. Asset Management Company (AMC) shall not be permitted to charge any investment management and advisory fees for parking of funds in short term deposits of scheduled commercial banks.
8. The Mutual Fund having an aggregate of securities which are worth Rs.10 crores or more, as on the latest balance sheet date, shall subject to such instructions as may be issued from time to time by the Board, settle their transactions entered on or after January 15, 1998 only through dematerialised securities. Further, all transactions in government securities shall be in dematerialised form.
9. The Scheme being the fund of fund scheme, it shall be subject to following investment restrictions:
- a) The Scheme shall not invest in any other fund of fund scheme.
 - b) The Scheme shall not invest its assets other than in schemes of mutual funds, except to the extent of funds required for meeting the liquidity requirements for the purpose of repurchases or redemptions, as disclosed in the SID of fund of fund scheme.
10. The Scheme will comply with any other Regulation applicable to the investment of mutual funds from time to time.

The Trustee may alter the above restrictions from time to time to the extent that changes in the Regulations may allow or as deemed fit in the general interest of the Unitholders.

The Trustee /AMC may alter the above stated limitations from time to time, and also to the extent the SEBI (Mutual Funds) Regulations, 1996 change, so as to permit the Scheme to make their investments in the full spectrum of permitted investments in order to achieve their investment objective.

C. Fundamental Attributes

Following are the Fundamental Attributes of the Scheme, in terms of Regulation 18 (15A) subject to compliance with sub-regulation (26) of regulation 25 of the SEBI (MF) Regulations:

(i) Type of a Scheme

For details on type of Scheme, please refer **“Type of the Scheme”**.

(ii) Investment Objective

- Main Objective - Please refer **“What are the investment objectives of the Scheme?”**
- Investment pattern – The tentative portfolio break-up of Equity and Debt and other permitted securities and such other securities as may be permitted by the SEBI from time to time with minimum and maximum asset allocation, while retaining the option to alter the asset allocation for a short term period on defensive considerations. Please refer **“How will the Scheme allocate its assets?”** for more details.

(iii) Terms of Issue

1) Liquidity

On an on-going basis, an investor can purchase and redeem Units on every Business Day at NAV based prices, subject to the applicable load structure.

• Listing

Being an open-ended fund, the Units of the Scheme will not be listed on any stock exchange, at present. The Trustee may, at its sole discretion, cause the Units under the Scheme to be listed on one or more Stock Exchanges. Notification of the same will be made through Customer Service Centres of the AMC and as may be required by the respective Stock Exchanges.

• Redemption Price

The redemption price will be at Applicable NAV based prices, subject to applicable exit load provisions.

2) **Aggregate fees and expenses charged to the Scheme:** The provisions in respect of fees and expenses as indicated in this Scheme Information Document.

Changes in Fundamental Attributes

In accordance with Regulation 18(15A) of the SEBI (Mutual Funds) Regulations, 1996 and paragraph 1.14.1.4 of the Master Circular, the Trustees shall ensure that no change in the fundamental attributes of the Scheme(s) and the Plan(s) / Option(s) thereunder or the trust or fee and expenses payable or any other change which would modify the Scheme(s) and the Plan(s) / Option(s) thereunder and affect the interests of Unitholders is carried out unless it complies with sub-regulation (26) of regulation 25 of these regulations as follows:

- An application has been made with SEBI and views/comments of SEBI are sought on the proposal for fundamental attribute changes;
- An addendum to the existing SID shall be issued and displayed on AMC website immediately,
- SID shall be revised and updated immediately after completion of duration of the exit option (not less than 30 days),
- A public notice shall be given in respect of such changes in one English daily newspaper having nationwide circulation as well as in a newspaper published in the language of region where the Head Office of the Mutual Fund is situated, and the Unitholders are given an option for a period of 30 days to exit at the prevailing Net Asset Value without any exit load.

D. Other Scheme Specific Disclosures:

Listing and transfer of units	<p>Listing:</p> <p>Being an open ended scheme, the Units of the Scheme will not be listed on any stock exchange, at present. The Trustee may, at its sole discretion, cause the Units under the Scheme to be listed on one or more Stock Exchanges. Notification of the same will be made through Customer Service Centres of the AMC and as may be required by the respective Stock Exchanges.</p> <p>Transfer:</p> <p>Pursuant to paragraph 14.4.4 of the Master Circular, the Units of the Scheme can be transferred freely in demat form or in such form as may be permitted under SEBI Regulations and guidelines, as amended from time to time.</p>
Dematerialization of units	<p>The asset management company shall issue units in dematerialized form to a unit holder in a scheme within two business days of the receipt of request from the unit holder subject to receipt of complete documents and details from the investor.</p> <p>Unit holders can convert their existing</p>

	physical units (represented by statement of account) into dematerialized form, for further details, please refer to SAI.
Policy for declaration of Income Distribution cum capital withdrawal (IDCW Policy)	<p>(i) Growth Option</p> <p>The Scheme will not declare any IDCW under this option. The income earned by the Scheme will remain reinvested in the Scheme and will be reflected in the Net Asset Value. This option is suitable for investors who are not looking for regular income but who have invested with the intention of capital appreciation.</p> <p>(ii) IDCW Option</p> <p>This option is suitable for investors seeking income through IDCW declared by the Scheme. The Trustee may approve the distribution of IDCW by AMC out of the net surplus under this Option. The remaining net surplus after considering the IDCW and tax, if any, payable there on will be ploughed back in the Scheme and be reflected in the NAV.</p> <p>(iii) IDCW Payout:</p> <p>As per the SEBI (MF) Regulations, the IDCW warrants shall be dispatched to the Unit Holders, within 7 business days from the record date. IDCW will be payable to those Unit Holders whose names appear in the Register of Unit Holders on the date (Record Date). IDCW will be paid by cheque, net of taxes as may be applicable. Unit Holders will also have the option of direct payment of IDCW to the bank account. The cheques will be drawn in the name of the sole/first holder and will be posted to the Registered address of the sole/first holder as indicated in the original application form. To safeguard the interest of Unit Holders from loss or theft of IDCW cheques, investors should provide the name of their bank, branch and account number in the application form. IDCW cheques will be sent to the Unit Holder after incorporating such information. The minimum amount for IDCW payout shall be Rs.100, else IDCW would be mandatorily reinvested</p> <p>(iv) IDCW Reinvestment:</p> <p>The investors opting for IDCW Option may</p>

choose to reinvest the IDCW to be received by them in additional Units of the Scheme. Under this provision, the IDCW due and payable to the Unitholders will be compulsorily and without any further act by the Unitholders reinvested in the Scheme (under the IDCW Option, at the first ex- IDCW NAV). The IDCW so reinvested shall be constructive payment of IDCW to the Unitholders and constructive receipt of the same amount from each Unitholder for reinvestment in Units. On reinvestment of IDCW, the number of Units to the credit of Unitholder will increase to the extent of the IDCW reinvested by the NAV applicable on the day of reinvestment, as explained above.

(V) IDCW Transfer

IDCW Transfer facility will be available under the scheme.

The designated schemes (source and target schemes) for this facility are as given below:

Source schemes - all schemes where IDCW option is available [except (i) Exchange Traded Funds (ETFs) and (ii) separate plans under ICICI Prudential Overnight Fund for deployment of unclaimed amounts viz ICICI Prudential Overnight Fund - Unclaimed Redemption, ICICI Prudential Overnight Fund - Unclaimed IDCW, ICICI Prudential Overnight Fund - Unclaimed Redemption Investor Education and ICICI Prudential Overnight Fund - Unclaimed IDCW Investor Education]

Target schemes- all open ended schemes where subscription is allowed [except (i) Exchange Traded Funds (ETFs) and (ii) separate plans under ICICI Prudential Overnight Fund for deployment of unclaimed amounts viz ICICI Prudential Overnight Fund - Unclaimed Redemption, ICICI Prudential Overnight Fund - Unclaimed IDCW, ICICI Prudential Overnight Fund - Unclaimed Redemption Investor Education and ICICI Prudential Overnight Fund - Unclaimed IDCW Investor Education]

Note: Investors are requested to note that any change in IDCW sub-option, due to additional investment or on the basis of a request

	<p>received from the investor, will be applicable to all existing units in the IDCW option of the Scheme under the respective folio.</p> <p>The Trustee reserves the right to declare IDCW under the IDCW option of the Scheme depending on the distributable surplus available under the Scheme. It should, however, be noted that actual distribution of IDCW and the frequency of distribution will depend, inter-alia, on the availability of distributable surplus and will be entirely at the discretion of the Trustee.</p> <p>The IDCW will be distributed in accordance with Chapter 11 of the Master Circular on the procedure for IDCW Distribution.</p> <p>Equalisation Reserve:</p> <p>When units are sold, and sale price (NAV) is higher than face value of the unit, a portion of sale price that represents realized gains is credited to an Equalization Reserve Account and which can be used to pay IDCW. IDCW can be distributed out of investors capital (Equalization Reserve), which is part of sale price that represents realized gains.</p>
Allotment (Detailed procedure)	<p>The AMC shall allot the units to the applicant whose valid application has been accepted and funds have been credited to the account. The AMC shall also send confirmation specifying the number of units allotted to the applicant by way of email and/or SMS's to the applicant's registered email address and/or registered mobile number not later than 5 business days from the date of receipt of the request from the unitholders</p> <p>Further, the asset management company shall issue units in dematerialized form to a unit holder in a scheme within two business days of the receipt of request from the unit holder.</p>
Refund	Not Applicable for ongoing schemes.

III. Other Details

A. Details of Benchmark, Investment Objective, Investment Strategy, TER, AUM, Year wise performance, Top 10 Holding/ link to Top10 holding of the underlying fund is mentioned as follows:-

Information about ICICI Prudential Silver ETF (the underlying Scheme):

Benchmark: The performance of the Scheme shall be benchmarked against the price of silver (based on LBMA Silver daily spot fixing price).

Investment Objective: The Investment Objective of the Scheme is to generate returns that are in line with the performance of physical silver in domestic prices, subject to tracking error.

There can be no assurance or guarantee that the investment objective of the plan will be achieved.

The Scheme may also participate in Exchange Traded Commodity Derivatives (ETCDs) with silver as underlying.

1. **Investment Strategy:** The AMC uses a “passive” approach to try and achieve Scheme investment objective. The Scheme invests in silver and silver related instruments as an asset regardless of such investment merit.
2. The Scheme will invest at least 95% of its total assets in the Silver or silver related instruments. It may hold up to 5% of their total assets in debt or money market securities. Expectation is that, over time, the tracking error of the Scheme relative to the performance of the Underlying Index will be relatively low.

3. The Investment Manager would monitor the tracking error of the Scheme on an ongoing basis and would seek to minimize tracking error to the maximum extent possible. There can be no assurance or guarantee that the Scheme will achieve any particular level of tracking error relative to performance of the benchmark Index.
4. All the Investment decision will be taken by the designated Fund Manager under the supervision of Chief Investment Officer.
5. Any other strategy notified by the regulators from time to time.

Further, the Scheme may participate in Exchange Traded Commodity Derivatives ("ETCDs") with silver as underlying up to 10% of the net asset value of the Scheme.

Exchange Traded Commodity Derivatives (ETCDs):

The Commodity derivatives are instruments designed to give exposure to the commodity market.

Multi Commodity Exchange provides derivatives for bullion, base metals, energy, agri commodities etc. These contracts have varied maturities. The pricing of a commodity derivative is the function of the underlying commodity.

Fixed Income securities

The AMC aims to identify securities, which offer superior levels of yield at lower levels of risks. With the aim of controlling risks rigorous in depth credit evaluation of the securities proposed to be invested in will be carried out by the Risk team of the AMC. The credit evaluation includes a study of the operating environment of the issuer, the past track record as well as the future prospects of the issuer, the short as well as longer-term financial health of the issuer. Rated debt instruments in which the Schemes invests will be of investment grade as rated by a credit rating agency. The AMC will be guided by the ratings of such Rating Agencies as approved by SEBI to carry out the functioning of Rating agencies, for this purpose. In case a debt instrument is not rated, such investments shall be made by the Board of Trustees and the Board of Asset Management Company or by an internal committee constituted by AMC to approve the investment in un-rated debt securities in terms of the parameters approved by the Board of Trustees and the Board of Asset Management Company.

In addition, the investment team of the AMC will study the macro economic conditions, including the political, economic environment and factors affecting liquidity and interest rates. The AMC would use this analysis to attempt to predict the likely direction of interest rates and position the portfolio appropriately to take advantage of the same.

The Schemes could invest in Fixed Income Securities issued by government, quasi government entities, corporate issuers, structured notes and various other institutions in line with the investment objectives of the Schemes as permitted by SEBI from time to time.

Open Network for Digital Commerce (ONDC)

The schemes of ICICI Prudential Mutual Fund (the Fund) are now available to be transacted through the Open Network for Digital Commerce (ONDC) ("Network").

To facilitate transactions through this Network, the Fund has/shall enter into agreement with service provider(s) who would provide backend platform on behalf of the Fund. The said platform would be considered as an 'OPAT'.

Accordingly, for the purpose of determining the applicability of NAV, the time at which request for purchase / sale / switch of units is received on the server(s) of the said platform will be considered as time of receipt of transaction with the AMC.

As per existing system architecture of ONDC network, currently regular plans of the schemes of ICICI Prudential Mutual Fund are available for transaction through this route.
