I. INTRODUCTION

A. RISK FACTORS

2

Standard Risk Factors:

- Mutual Funds and securities investments are subject to market risks and there is no assurance or guarantee that the objectives of the Scheme will be achieved.
- Investment in Mutual Fund Units involves investment risks such as trading volumes, settlement risk, liquidity risk, default risk including the possible loss of principal.
- As the price / value / interest rates of the securities in which the scheme invests fluctuates, the value of your investment in the scheme may go up or down depending on the factors and forces affecting the capital markets.
- Past performance of the Sponsor and other affiliates/AMC/Mutual Fund (or any of its schemes) does not guarantee future performance of the scheme.
- IDFC Nifty200 Momentum 30 Index Fund, is the name of the Scheme and do not in any manner indicate either the quality of the Scheme, its future prospects or returns.
- The sponsor is not responsible or liable for any loss resulting from the operation of the Scheme beyond the initial contribution of Rs.30000/- made by it towards setting up the Fund.
- The present Scheme is not guaranteed or assured return Scheme.
- The liquidity of the Scheme's investments is inherently restricted by trading volumes in the securities in which it invests.
- Changes in Government policy in general and changes in tax benefits applicable to mutual funds may impact the returns to Investors in the Scheme.
- Mutual Funds being vehicles of securities investments are subject to market and other risks and there can be no guarantee against loss resulting from investing in the schemes. The various factors which impact the value of scheme investments include but are not limited to fluctuations in the equity and bond markets, fluctuations in interest rates, prevailing political and economic environment, changes in government policy, factors specific to the issuer of securities, tax laws, liquidity of the underlying instruments, settlements periods, trading volumes etc. and securities investments are subject to market risks and there is no assurance or guarantee that the objectives of the Scheme will be achieved.
- From time to time and subject to the Regulations, the Sponsors, the Mutual Funds and investment companies managed by them, their affiliates, their associate companies, subsidiaries of the Sponsors, and the AMC may invest either directly or indirectly in the Scheme. The funds managed by these affiliates, associates, the Sponsors, subsidiaries of the Sponsors and /or the AMC may acquire a substantial portion of the Scheme's Units and collectively constitute a major investor in the Scheme. Accordingly, redemption of Units held by such funds, affiliates/associates and Sponsors might have an adverse impact on the Units of the Scheme because the timing of such redemption may impact the ability of other Unitholders to redeem their Units. Further, as per the Regulation, in case the AMC invests in any of the schemes managed by it, it shall not be entitled to charge any fees on such investments.
- Different types of securities in which the scheme would invest as given in the Scheme Information Document carry different levels and types of risk. Accordingly, the scheme's risk may increase or decrease depending upon its investment pattern. E.g. corporate bonds carry a higher amount of risk than Government securities. Further even among corporate bonds, bonds which are AAA rated are comparatively less risky than bonds which are AA rated.

Scheme Specific Risk Factors

- The Scheme attempts to track the respective indices and it would invest in the securities included in its Underlying indices regardless of their investment merit. The Scheme may be affected by a general decline in the Indian markets.
- Performance of the Nifty200 Momentum 30 Index will have a direct bearing on the performance of the scheme. In the event the Nifty200 Momentum 30 Index is dissolved or is withdrawn by NSE Indices Limited (NSEIL) or is not published due to any reason whatsoever, the Trustee reserves the right to modify the respective scheme so as track a different and suitable index or to suspend tracking the Nifty200 Momentum 30 Index till such time it is dissolved / withdrawn or not published and appropriate intimation will be sent to the Unit holders of the scheme. In such a case, the investment pattern will be modified suitably to match the composition of the securities that are included in the new index to be tracked and the scheme will be subject to tracking errors during the intervening period.
- Tracking errors are inherent in any index fund and such errors may cause the scheme to generate returns which are not in line with the performance of the Nifty200 Momentum 30 Index or one or more securities covered by / included in the Nifty200 Momentum 30 Index and may arise from a variety of factors including but not limited to, any delay in the purchase or sale of shares due to illiquidity in the market, settlement and realisation of sales proceeds, delay in credit of securities or in receipt and consequent reinvestment of Income Distribution cum capital withdrawal, etc.
- The Indices reflect the prices of securities at a point in time, which is the price at close of business day on National Stock Exchange of India Limited (NSE). The scheme however, may trade these securities at different points in time during the trading session and therefore the prices at which the scheme trade may not be identical to the closing price of each scrip on that day on the NSE. In addition, the scheme may opt to trade the same securities on different exchanges due to price or liquidity factors, which may also result in traded prices being at variance, from NSE closing prices.
- NSEIL undertakes periodic reviews of the securities that are represented in the Nifty200 Momentum 30 Index and from time to time may exclude existing securities or include new ones. In such an event, the scheme will endeavor to reallocate its portfolio to mirror the changes. However, the reallocation process may not occur instantaneously and permit precise mirroring of the Nifty200 Momentum 30 Index during this period.
- The potential of trades to fail may result in the scheme not having acquired the security at the price necessary to mirror the index.
- Transaction and other expenses, such as but not limited to brokerage, custody, trustee and investment management fees.
- Being an open-ended scheme, the scheme may hold appropriate levels of cash or cash equivalents to meet ongoing redemptions. The scheme may not be able to acquire or sell the desired number of securities due to conditions prevailing in the securities market, such as, but not restricted to: circuit filters in the securities, liquidity and volatility in security prices.
- Due to the reasons mentioned above and other reasons that may arise, it is expected that the scheme may have a tracking error in the range of 2-3% per annum from the Benchmark. However, it needs to be clearly understood that the actual tracking error can be higher or lower than the range given.
- In case of investments in derivatives like index futures, the risk reward would be the same as investments in portfolio of shares representing an index. However, there may be a cost attached to buying an index future. Further, there could be an element of settlement risk, which could be different from the risk in settling physical shares and there is a risk attached to the liquidity and the depth of the index futures market as it is relatively new market.
- **Price-Risk or Interest-Rate Risk:** Fixed income securities such as bonds, debentures and money market instruments run price-risk or interest-rate risk. Generally, when interest rates rise, prices of existing fixed income securities fall and when interest rates drop, such prices increase. The

extent of fall or rise in the prices is a function of the existing coupon, days to maturity and the increase or decrease in the level of interest rates.

- **Credit Risk:** In simple terms this risk means that the issuer of a debenture/bond or a money market instrument may default on interest payment or even in paying back the principal amount on maturity. Even where no default occurs, the price of a security may go down because the credit rating of an issuer goes down. It must, however, be noted that where the Scheme(s) has invested in Government Securities, there is no credit risk to that extent. Different types of securities in which the scheme(s) would invest as given in the scheme information document carry different levels and types of risk. Accordingly, the scheme's risk may increase or decrease depending upon its investment pattern. E.g. corporate bonds carry a higher amount of risk than Government securities. Further even among corporate bonds, bonds which are AAA rated are comparatively less risky than bonds which are AA rated.
- **Re-investment Risk:** Investments in fixed income securities may carry re-investment risk as interest rates prevailing on the interest or maturity due dates may differ from the original coupon of the bond. Consequently, the proceeds may get invested at a lower rate.
- **Basis Risk (Interest - rate movement):** During the life of a floating rate security or a swap, the underlying benchmark index may become less active and may not capture the actual movement in interest rates or at times the benchmark may cease to exist. These types of events may result in loss of value in the portfolio.
- **Spread Risk:** In a floating rate security the coupon is expressed in terms of a spread or mark up over the benchmark rate. However, depending upon the market conditions, the spreads may move adversely or favorably leading to fluctuation in the NAV.
- **Liquidity Risk:** Due to the evolving nature of the floating rate market, there may be an increased risk of liquidity risk in the portfolio from time to time.
- **Other Risk:** In case of downward movement of interest rates, floating rate debt instruments will give a lower return than fixed rate debt instruments.
- **Securities Lending:** Engaging in securities lending is subject to risks related to fluctuations in collateral value and settlement/liquidity and counter party risks. The risks in lending portfolio securities, as with other extensions of credit, consist of the failure of another party, in this case the approved intermediary, to comply with the terms of agreement entered into between the lender of securities i.e. the Scheme and the approved intermediary. Such failure to comply can result in the possible loss of rights in the collateral put up by the borrower of the securities, the inability of the approved intermediary to return the securities deposited by the lender and the possible loss of any corporate benefits accruing to the lender from the securities deposited with the approved intermediary. The Mutual Fund may not be able to sell such lent securities and this can lead to temporary illiquidity.
- **Short-selling of Securities:** Purchasing a security entails the risk of the security price going down. Short selling of securities (i.e. sale of securities without owning them) entails the risk of the security price going up there by decreasing the profitability of the short position. Short selling is subject to risks related to fluctuations in market price, and settlement/liquidity risks. If required by the Regulations, short selling may entail margin money to be deposited with the clearing house and daily mark to market of the prices and margins. This may impact fund pricing and may induce liquidity risks if the fund is not able to provide adequate margins to the clearing house. Failure to meet margin requirements may result in penalties being imposed by the exchanges and clearing house.

6

Risk Associated with Investing in Equities

The scheme proposes to invest in equity and equity related instruments. Equity instruments by nature are volatile and prone to price fluctuations on a daily basis due to both micro and macro factors. Trading volumes, settlement periods and transfer procedures may restrict the liquidity of these investments. Different segments of financial markets have different settlement periods and

such periods may be extended significantly by unforeseen circumstances. The inability of the Scheme to make intended securities' purchases due to settlement problems could cause the Scheme to miss certain investment opportunities.

Investors may note that AMC/Fund Manager's investment decisions may not be always profitable. Although it is intended to generate capital appreciation and maximize the returns by actively investing in equity/ equity related securities and utilising debt and money market instruments as a defensive investment strategy.

While securities that are listed on the stock exchange carry lower liquidity risk, the ability to sell these investments is limited by the overall trading volume on the stock exchanges. Money market securities, while fairly liquid, lack a well-developed secondary market, which may restrict the selling ability of the Scheme and may lead to the Scheme incurring losses till the security is finally sold.

Trading volumes, settlement periods and transfer procedures may restrict the liquidity of the investments made by the Scheme. Different segments of the Indian financial markets have different settlement periods and such periods may be extended significantly by unforeseen circumstances leading to delays in receipt of proceeds from sale of securities. The NAV of the Scheme can go up and down because of various factors that affect the capital markets in general.

Securities, which are not quoted on the stock exchanges, are inherently illiquid in nature and carry a larger amount of liquidity risk, in comparison to securities that are listed on the exchanges or offer other exit options to the investor, including a put option. Within the Regulatory limits, the AMC may choose to invest in unlisted securities that offer attractive yields. This may however increase the risk of the portfolio.

Risk factors with investing in Derivatives

5

Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the fund manager to identify such opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and decision of fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies. The risks associated with the use of derivatives are different from or possibly greater than, the risks associated with investing directly in securities and other traditional investments. As and when the Scheme trade in the derivatives market there are risk factors and issues concerning the use of derivatives that investors should understand.

Derivative products are specialized instruments that require investment techniques and risk analyses different from those associated with stocks and bonds. The use of a derivative requires an understanding not only of the underlying instrument but of the derivative itself. Derivatives require the maintenance of adequate controls to monitor the transactions entered into, the ability to assess the risk that a derivative adds to the portfolio and the ability to forecast price or interest rate movements correctly. There is the possibility that a loss may be sustained by the portfolio as a result of the failure of another party (usually referred to as the "counter party") to comply with the terms of the derivatives contract.

The specific risk factors arising out of a derivative strategy used by the Fund Manager may be as below:

- Lack of opportunity available in the market;
- The risk of mispricing or improper valuation and the inability of derivatives to correlate perfectly with underlying assets, rates and indices.

Other risks in using derivatives include the risk of mispricing or improper valuation of derivatives and the inability of derivatives to correlate perfectly with underlying assets, rates and indices.

Risk associated with investing in Repo of Corporate Bond Securities

Settlement Risk: Corporate Bond Repo will be settled between two counterparties in the OTC segment unlike in the case of TREPS transactions where CCIL stands as central counterparty on all transactions (no settlement risk).

Quality of collateral: The Mutual Fund will be exposed to credit risk on the underlying collateral – downward migration of rating. The Mutual Fund will impose adequate haircut on the collateral to cushion against any diminution in the value of the collateral. Collateral will require to be rated AAA or equivalent.

Liquidity of collateral: In the event of default by the counterparty, the Mutual Fund would have recourse to recover its investments by selling the collateral in the market. If the underlying collateral is illiquid, then the Mutual Fund may incur an impact cost at the time of sale (lower price realization).

Tracking Error Risk:

The Fund Manager would not be able to invest the entire corpus exactly in the same proportion as in the underlying index due to certain factors such as the fees and expenses of the scheme, corporate actions, cash balance, changes to the underlying index, non-availability of issuances, regulatory policies and any such reasons that may affect AMC’s ability to achieve close correlation with the underlying index of the scheme. The scheme’s returns may therefore deviate from those of its underlying index. “Tracking Difference” is the difference of return between the fund and its respective benchmark. “Tracking Error” is defined as the standard deviation of the difference between daily returns of the underlying index and the NAV of the respective scheme. Tracking difference /Tracking Error may arise including but not limited to the following reasons: -

- i) Expenditure incurred by the fund.
- ii) The holding of a cash position and accrued income prior to distribution of income and payment of accrued expenses. The fund may not be invested at all time as it may keep a portion of the funds in cash to meet redemptions or for corporate actions.
- iii) Securities trading may halt temporarily due to circuit filters.
- iv) Corporate actions such as debenture or warrant conversion, merger, change in constituents etc.
- v) Disinvestments to meet redemptions, recurring expenses, etc.
- vi) Execution of large buy / sell orders
- vii) Transaction cost (including taxes and insurance premium) and recurring expenses
- viii) Realisation of Unit holders’ funds

It will be the endeavor of the fund manager to keep the tracking error as low as possible. Under normal circumstances, such tracking error is not expected to exceed 2% per annum. However, in certain events like market volatility during rebalancing of the portfolio following the rebalancing

of the underlying index, etc. or in abnormal market circumstances, the tracking error may exceed the above limits. In case of unavoidable circumstances in the nature of force majeure, which are beyond the control of the AMCs, the tracking error may exceed 2% and the same shall be brought to the notice of Trustees with corrective actions taken by the AMC, if any. The Fund existence for a period of less than one year, the annualized standard deviation shall be calculated based on available data.

Risks associated with segregated portfolio:

- i. Liquidity risk – A segregated portfolio is created when a credit event / default occurs at an issuer level in the scheme. This may reduce the liquidity of the security issued by the said issuer, as demand for this security may reduce. This is also further accentuated by the lack of secondary market liquidity for corporate papers in India. As per SEBI norms, the scheme is to be closed for redemption and subscriptions until the segregated portfolio is created, running the risk of investors being unable to redeem their investments. However, it may be noted that, the proposed segregated portfolio is required to be formed within one day from the occurrence of the credit event.

Investors may note that no redemption and subscription shall be allowed in the segregated portfolio. However, in order to facilitate exit to unit holders in segregated portfolio, AMC shall list the units of the segregated portfolio on a recognized stock exchange within 10 working days of creation of segregated portfolio and also enable transfer of such units on receipt of transfer requests. For the units listed on the exchange, it is possible that the market price at which the units are traded may be at a discount to the NAV of such Units. There is no assurance that an active secondary market will develop for units of segregated portfolio listed on the stock exchange. This could limit the ability of the investors to resell them.

- ii. Valuation risk - The valuation of the securities in the segregated portfolio is required to be carried out in line with the applicable SEBI guidelines. However, it may be difficult to ascertain the fair value of the securities due to absence of an active secondary market and difficulty to price in qualitative factors.

RISK MANAGEMENT STRATEGIES

The Fund by utilizing a holistic risk management strategy will endeavor to manage risks associated with investing in debt and equity markets. The risk control process involves identifying & measuring the risk through various risk measurement tools.

The Fund has identified following risks of investing in equity and debt and designed risk management strategies, which are embedded in the investment process to manage such risks.

Risk associated with Debt Investment

| Risk Description | Risk Mitigants/management strategy |
|--|--|
| <p>Market Risk As with all debt securities, changes in interest rates may affect the Scheme’s Net Asset Value as the prices of securities generally increase as interest rates decline and generally decrease as interest rates rise. Prices of long-term securities generally fluctuate more in response to interest rate changes than do short-term securities. Indian debt markets</p> | <p>In a rising interest rates scenario the Fund Managers will endeavor to increase its investment in money market securities whereas if the interest rates are expected to fall the allocation to debt securities with longer maturity will be increased thereby mitigating risk to that extent.</p> |

| Risk Description | Risk Mitigants/management strategy |
|--|--|
| <p>can be volatile leading to the possibility of price movements up or down in fixed income securities and thereby to possible movements in the NAV.</p> | |
| <p>Liquidity or Marketability Risk This refers to the ease with which a security can be sold at or near to its valuation Yield-To-Maturity (YTM). The primary measure of liquidity risk is the spread between the bid price and the offer price quoted by a dealer. Liquidity risk is today characteristic of the Indian fixed income market.</p> | <p>The Scheme may invest in government securities, corporate bonds and money market instruments. While the liquidity risk for government securities, money market instruments and short maturity corporate bonds may be low, it may be high in case of medium to long maturity corporate bonds. Liquidity risk is today characteristic of the Indian fixed income market. The fund will however, endeavor to minimise liquidity risk by investing in securities having a liquid market.</p> |
| <p>Credit Risk Credit risk or default risk refers to the risk that an issuer of a fixed income security may default (i.e., will be unable to make timely principal and interest payments on the security). Because of this risk corporate debentures are sold at a higher yield above those offered on Government Securities which are sovereign obligations and free of credit risk. Normally, the value of a fixed income security will fluctuate depending upon the changes in the perceived level of credit risk as well as any actual event of default. The greater the credit risk, the greater the yield required for someone to be compensated for the increased risk.</p> | <p>A traditional SWOT analysis will be used for identifying company specific risks. Management’s past track record will also be studied. In order to assess financial risk a detailed assessment of the issuer’s financial statements will be undertaken to review its ability to undergo stress on cash flows and asset quality. A detailed evaluation of accounting policies, off balance sheet exposures, notes, auditors’ comments and disclosure standards will also be made to assess the overall financial risk of the potential borrower..</p> |
| <p>Reinvestment Risk This risk refers to the interest rate levels at which cash flows received from the securities in the Scheme are reinvested. The additional income from reinvestment is the “interest on interest” component. The risk is that the rate at which interim cash flows can be reinvested may be lower than that originally assumed.</p> | <p>Reinvestment risks will be limited to the extent of coupons received on debt instruments, which will be a very small portion of the portfolio value.</p> |

Risks associated with Equity investment

| Risk Description | Risk Mitigants/management strategy |
|--|--|
| <p>Market Risk The scheme is vulnerable to movements in the prices of securities invested by the scheme, which could have a material bearing on the overall returns from the scheme. The value of the Scheme's investments, may be affected generally by factors affecting securities markets, such as price and volume, volatility in the capital markets, interest rates, currency exchange rates, changes in policies of the Government, taxation laws or any other appropriate authority policies and other political and economic developments which may have an adverse bearing on individual securities, a specific sector or all sectors including equity and debt markets.</p> | <p>Market risk is a risk which is inherent to an equity scheme. The scheme may use derivatives to limit this risk.</p> |
| <p>Liquidity risk The liquidity of the Scheme's investments is inherently restricted by trading volumes in the securities in which it invests.</p> | <p>The fund seeks to control such risk by investing in such stocks having strong fundamentals, sound financial strength and superior quality of management and highly liquid papers. The fund will try to maintain a proper asset-liability match to ensure redemption payments are made on time and not affected by illiquidity of the underlying stocks.</p> |
| <p>Derivatives Risk As and when the Scheme trades in the derivatives market there are risk factors and issues concerning the use of derivatives that Investors should understand. Derivative products are specialized instruments that require investment techniques and risk analyses different from those associated with stocks and bonds. The use of a derivative requires an understanding not only of the underlying instrument but also of the derivative itself. Derivatives require the maintenance of adequate controls to monitor the transactions entered into, the ability to assess the risk that a derivative adds to the portfolio and the ability to forecast price or interest rate movements correctly. There is the possibility that a loss may be sustained by the portfolio as a result of the failure of another party (usually referred to as the "counter party") to comply with the terms of the derivatives contract. Other risks in using derivatives include the risk of mis-pricing or improper valuation of derivatives and the inability of derivatives to correlate perfectly with underlying assets, rates and indices.</p> | <p>The fund has provision for using derivative instruments for portfolio balancing and hedging purposes. Investments in derivative instruments will be used as per local (RBI and SEBI) regulatory guidelines. The fund will endeavor to maintain adequate controls to monitor the derivatives transactions entered into.</p> |
| <p>Liquidity Risk: In case of Arbitrage trades, under abnormal circumstances it will be difficult to</p> | <p>The fund will aim at taking exposure only into liquid stocks / derivatives where there</p> |

B. REQUIREMENT OF MINIMUM INVESTORS IN THE SCHEME

The Scheme shall have a minimum of 20 investors and no single investor shall account for more than 25% of the corpus of the Scheme. The two conditions mentioned above shall be complied in each calendar quarter, on an average basis, as specified by SEBI. In case the Scheme do not have a minimum of 20 investors, the provisions of Regulation 39(2)(c) of the SEBI (MF) Regulations would become applicable automatically without any reference from SEBI and accordingly the Scheme shall be wound up and the units would be redeemed at applicable NAV. If there is a breach of the 25% limit by any investor over the quarter, a rebalancing period of one month would be allowed and thereafter the investor who is in breach of the rule shall be given 15 day notice to redeem his exposure over the 25% limit. Failure on the part of the said investor to redeem his exposure over the 25% limit within the aforesaid 15 days would lead to automatic redemption by the Mutual Fund on the applicable Net Asset Value on the 15th day of the notice period. The Fund shall adhere to the requirements prescribed by SEBI from time to time in this regard.

C. SPECIAL CONSIDERATIONS, if any

All the above factors not only affect the prices of securities but may also affect the time taken by the Fund for redemption of units, which could be significant in the event of receipt of a very large number of redemption requests or very large value of redemption requests. The liquidity of the assets may be affected by other factors such as general market conditions, political events, bank holidays and civil strife. In view of this, the Trustee has the right in its sole discretion to limit redemption (including suspension of redemption) under certain circumstances.

The liquidity of the Schemes investments may be restricted by trading volumes, settlement periods and transfer procedures. In the event of an inordinately large number of redemption requests or of a restructuring of the Schemes portfolio, the time taken by the Scheme for redemption of Units may become significant. In view of this, the Trustee has the right in its sole discretion to limit redemption (including suspension of redemption) under certain circumstances.

The Scheme may trade in derivatives as permitted under the Regulations subject to guidelines issued by SEBI and RBI from time to time and trading in Derivatives involves risks.

In case the scheme undertakes stock lending under the Regulations, the Scheme may, at times be exposed to counter party risk.

Redemptions due to change in the fundamental attributes of the Scheme or due to any other reasons may entail tax consequences. The Trustee, AMC, Mutual Fund, their directors or their employees shall not be liable for any such tax consequences that may arise.

However, if the Scheme does enter into an underwriting agreement, it would do so after complying with the Regulations.

Tracking Error

The extent to which the NAV of the scheme moves in a manner inconsistent with the movements of the total returns of the Nifty200 Momentum 30 Index on any given day or over any given period of time arising from any cause or reason whatsoever including but not limited to differences in the weightage of the investments in the securities and the weightage to such securities in the Nifty200 Momentum 30 Index and the time lags in deployment or realization of funds under the Scheme as compared to the movement of or within the Nifty200 Momentum 30 Index as well as the market liquidity, cost of trading, management and other expenses.

Tracking errors may result from a variety of factors including but not limited to:

- Any delay experienced in the purchase or sale of shares due to illiquidity of the market, settlement and realization of sale proceeds and / or the registration of any securities transferred and / or any delays in receiving cash Income Distribution cum capital withdrawal and resulting delays in reinvesting them.
- The Nifty200 Momentum 30 Index reflect the prices of securities at close of business hours. However, the Fund may buy or sell the securities at different points of time during the trading session at the then prevailing prices which may not correspond to the closing prices on the NSE.
- IISL undertakes periodic reviews of the securities that are represented in the Nifty200 Momentum 30 Index and from time to time may exclude existing securities or include new ones. In such an event, the Fund will endeavour to reallocate its portfolio but the available investment/disinvestment opportunities may not permit precise mirroring of the Nifty200 Momentum 30 Index in a short period of time.
- The charging of expenses to the Fund including investment management fees and custodian fees.
- The potential for trades to fail which may result in the Scheme not having acquired shares at a price necessary to track the index.
- The holding of a cash position and accrued income prior to distribution and accrued expenses.
- Disinvestments to meet redemptions, recurring expenses, Income Distribution cum capital withdrawal payouts etc.

PORTFOLIO TURNOVER

Portfolio turnover in the scheme will be a function of market opportunities. It is difficult to estimate with any reasonable measure of accuracy, the likely turnover in the portfolio. The AMC will endeavor to optimize portfolio turnover to optimize risk adjusted return keeping in mind the cost associated with it. A high portfolio turnover rate is not necessarily a drag on portfolio performance and may be representative of investment opportunities that exist in the market.

NOTE ON DEBT MARKET & MONEY MARKET IN INDIA

The Indian debt markets are one of the largest such markets in Asia. Government and Public Sector enterprises are predominant borrowers in the market. While interest rates were regulated till a few years back, there has been a rapid deregulation and currently both the lending and deposit rates are market determined.

The debt markets are developing fast, with the rapid introduction of new instruments including Foreign Portfolio Investors are also allowed to invest in Indian debt markets now. There has been a considerable increase in the trading volumes in the market. The trading volumes are largely concentrated in the Government of India Securities, which contribute a significant proportion of the daily trades.

The money markets in India essentially consist of the call money market (i.e. market for overnight and term money between banks and institutions), repo transactions (temporary sale with an agreement to buy back the securities at a future date at a specified price), commercial papers (CPs, short term unsecured promissory notes, generally issued by corporates), certificate of deposits (CDs, issued by banks) and Treasury Bills & Cash Management Bills (issued by RBI). In a predominantly institutional market, the key money market players are banks, financial institutions,

insurance companies, mutual funds, primary dealers and corporates.

 - d. The trustees shall monitor the compliance of guidelines prescribed by SEBI in this regard and disclose in the half-yearly trustee reports filed with SEBI, the compliance in respect to every segregated portfolio created.
2. In order to avoid misuse of the segregated portfolio facility, the Trustees have ensured that the AMC has a mechanism in place to negatively impact the performance incentives of the Fund Manager, Chief Investment Officer (CIO), etc involved in investment process of securities under the segregated portfolio, mirroring the existing mechanism for performance incentives of the AMC, including claw back of such amount to the segregated portfolio of the Scheme.

SWITCH FACILITY

Unitholders under the Scheme have the option to switch part or all of their holdings in any scheme launched by the Mutual Fund, or within the Scheme from one Option to another, subject to conditions attached to that scheme, which is available for investment at that time. This Option will be useful to Unitholders who wish to alter the allocation of their investment among the scheme(s)/ plans of the Mutual Fund in order to meet their changed investment needs or risk profiles.

The switch will be effected by way of a redemption of Units from one Scheme / Plan/ Option and a reinvestment of the redemption proceeds in the other Scheme/ Plan/ sub plan/option and accordingly, to be effective, the switch must comply with the redemption rules of the Scheme and the issue rules of the other scheme (for e.g. as to the minimum number of Units that may be redeemed or issued). The price at which the Units will be switched out of the Scheme/options will be based on the Applicable NAV of the relevant Scheme/ Plan(s)/ sub plans/options and considering any exit loads if any that the AMC/ Trustee may have from time to time.

Switches of following kind within the Scheme will also not attract any exit load - (i) switch from Direct Plan to Regular Plan; (ii) switch from Regular Plan to Direct Plan where the investment in Regular Plan is without a Distributor (ARN) code; (iii) within different Options (Income Distribution cum capital withdrawal /growth) of the same Plan (Direct/Regular) of the Scheme.

Investors so desiring to switch may submit a switch request, already available with them along with an application form of the Scheme indicating therein the details of the scheme to which the switch is to be made. Applications for switch as above should specify the amount/Units to be switched from out of the Units held in any of the existing Schemes of the Fund. The switch request will be subject to the minimum application size and other terms and conditions of the SID of this Scheme and the scheme from which the amount is switched out.

The Applicable NAV for switching out of the existing open-ended funds will be the NAV of the Business Day on which the switch request, complete in all respects, is accepted by the AMC, subject to the cut-off time and other terms specified in the SID of the respective existing open ended Schemes. In close-ended scheme the applicable NAV for switching out of the existing close-ended funds will be the applicable NAV (after considering applicable loads) as on the date of its maturity.

SET TRANSACTION ON AUTO REMINDER (STAR)

This facility provides the unitholders with an option to withdraw and / or switch out and / or reinvest the investments made in the Scheme:

- 1) On the value of investments either reaching a particular/ amount or on the investments depreciating in value to a particular amount.
- 2) On achieving capital appreciation / on depreciation in value of investments equal to or more than a specified amount or percentage
- 3) On happening of a particular event or on a particular date (with or without lock in for a particular period)

Certain illustrations have been given for clarification of STAR:

1. Value of investment depreciating to a particular amount

If the investor has opted for STAR for a redemption on the value of his investment reaching Rs. 10000 when his initial investment was Rs 11000, in such a case a redemption will be automatically triggered on the value of his investment reaching Rs 10000 based on the applicable NAV on the day the said condition is met.

2. Capital appreciation of a particular amount

If the investor has opted for STAR for redemption on achieving 30 % capital appreciation on an investment of Rs 1000, his redemption will be automatically triggered on the value of investment reaching Rs 1300 based on the applicable NAV on the day the said condition is met.

3. On the happening of an event or on a particular date

If the investor wants a particular amount on his birthday, he may opt for STAR and specify the date in such a manner that his redemption proceeds of a particular amount are made available to him on the specified date or as an instance, if the investor wants to switch his investments to certain other scheme of IDFC Mutual Fund on the first day of the next financial year, he may do so by providing such an instruction to the AMC. STAR is thus a financial tool which provides the investors with an opportunity to plan their redemptions / switch outs in accordance with their financial needs. STAR can also help an investor in minimizing losses and / or timely booking of profits. All redemptions/ switches/reinvestments etc. linked to STAR will be based on the applicable NAV of the day on which the condition specified / event occurs. STAR is only an additional facility to the unitholders which provides them with a convenient method of switching out / reinvesting / redeeming their investments on happening of a particular predetermined condition / event. STAR is not an assurance of any return or gains on part of AMC / Fund to the investor. Nor is there any assurance of minimizing the loss of the investors. The Trustees / AMC reserve the right to add / modify / remove

the conditions / events with respect to STAR for redemption / reinvestment / switch outs in the Scheme.

MANDATORY QUOTING OF BANK MANDATE BY INVESTORS

As per the directives issued by SEBI, it is mandatory for applicants to mention their bank account numbers in their applications and therefore, investors are requested to fill-up the appropriate box in the application form failing which applications are liable to be rejected.

PAN & KYC REQUIREMENTS

It is mandatory for all investors (including joint holders, NRIs, POA holders and guardians in the case of minors) to furnish such documents and information as may be required to comply with the Know Your Customers (KYC) policies under the AML Laws. Applications without such documents and information may be rejected.

In terms of SEBI circulars dated April 27, 2007, April 03, 2008 and June 30, 2008 read with SEBI letter dated June 25, 2007, Permanent Account Number (PAN) would be the sole identification number for all participants transacting in the securities market, irrespective of the amount of transaction, except (a) investors residing in the state of Sikkim; (b) Central Government, State Government, and the officials appointed by the courts e.g. Official liquidator, Court receiver etc. (under the category of Government) and (c) investors participating only in micro-pension. SEBI, in its subsequent letters dated June 19, 2009 and July 24, 2012 has conveyed that systematic investment plans (SIP) and lumpsum investments (both put together) per mutual fund up to Rs.50,000/- per year per investor shall be exempted from the requirement of PAN.

Accordingly, investments in IDFC Mutual Fund (including SIP investment where the aggregate of

SIP installments in a rolling 12 months period or in a financial year i.e April to March) of upto Rs 50,000/- per investor per year shall be exempt from the requirement of PAN.

However, eligible Investors (including joint holders) should comply with the KYC requirement through registered KRA by submitting Photo Identification documents as proof of identification and the Proof of Address [self-attested by the investor / attested by the ARN Holder/AMFI distributor]. These exempted investors will have to quote the “PERN (PAN exempt KYC Ref No) in the application form. This exemption of PAN will be applicable only to investments by individuals (including NRIs but not PIOs), joint holders, Minors and Sole proprietary firms. PIOs, HUFs and other categories of investors will not be eligible for this exemption.

Thus, submission of PAN is mandatory for all other investors existing as well as prospective investors (except the ones mentioned above) (including all joint applicants/holders, guardians in case of minors, POA holders and NRIs but except for the categories mentioned above) for investing with mutual funds from this date. Investors are required to register their PAN with the Mutual Fund by providing the PAN card copy (along with the original for verification which will be returned across the counter). All investments without PAN (for all holders, including Guardians and POA holders) are liable to be rejected.

Application Forms without quoting of PERN shall be considered incomplete and are liable to be rejected without any reference to the investors. The procedure implemented by the AMC and the decisions taken by the AMC in this regard shall be deemed final.

NATIONAL AUTOMATED CLEARING HOUSE FACILITY (NACH)

Investors can enroll for investments in Systematic Investment Plan (SIP) through National Automated Clearing House (NACH) Platform. NACH is a centralised system, launched by National Payment Corporation of India (NPCI). LISTING AND TRANSFER OF UNITS

The Scheme is an open ended equity scheme, sale and repurchase is available on a continuous basis and therefore the Units of the Scheme are presently not proposed to be listed on any stock exchange. However, the Fund may at its sole discretion list the Units under the Scheme on one or more Stock Exchanges at a later date, and thereupon the Fund will make a suitable public announcement to that effect.

In accordance with SEBI circular number CIR/IMD/DF/10/2010 dated August 18, 2010 units of the Scheme which are held in electronic (demat) form, will be transferable and will be subject to the transmission facility in accordance with the provisions of SEBI (Depositories and Participants) Regulations, 1996 as may be amended from time to time.

Units of the Scheme are freely transferable in demat and non demat mode.

If a person becomes a holder of the Units consequent to operation of law, or upon enforcement of a pledge, the Fund will, subject to production of satisfactory evidence, effect the transfer, if the transferee is otherwise eligible to hold the Units. Similarly, in cases of transfers taking place consequent to death, insolvency etc., the transferee's name will be recorded by the Fund subject to production of satisfactory evidence.

TRANSMISSION OF UNITS

In cases of transmission of Units consequent on the death of a unitholder, the transferee's name will be recorded by the AMC / Registrar subject to production of satisfactory evidence and completing the requisite procedure / documentation to the satisfaction of the AMC and upon executing suitable indemnities in favor of the Fund and the AMC. Where the Units are held in demat form by the investor, the nomination as registered with the DP will be applicable to the Units. A Nominee / legal heir approaching the Fund for Transmission of Units must have beneficiary account with a DP of CDSL or NSDL, since the Units shall be in demat mode. The Stamp duty payable by the claimant with respect to the indemnity bond and affidavit, shall be in accordance with the stamp duty prescribed by law.

In accordance with SEBI Circular dated December 24, 2019, the AMC shall not accept requests for redemption from a claimant pending completion of the transmission of units in favour of the claimant. In other words, AMCs shall not entertain or accept any 'Transmission-cum- Redemption' request.

PLEDGE OF UNITS FOR LOANS

The Units can be pledged by the Unitholders as security for raising loans subject to the conditions of the lending institution. The Registrar will take note of such pledge (by marking a lien etc.) / charge in its records. Disbursement of such loans will be at the entire discretion of the lending institution and the fund assumes no responsibility thereof.

The pledgor will not be able to redeem Units that are pledged until the entity to which the Units are pledged provides written authorisation to the fund that the pledge/lien charge may be removed. As long as Units are pledged, the pledgee will have complete authority to redeem such Units. Decision of the AMC shall be final in all cases of lien marking.

RIGHT TO RESTRICT REDEMPTION OR SUSPEND REDEMPTION IN THE SCHEME

The AMC/Trustee, at its sole discretion, reserves the right to impose restriction on redemption (including switches) or suspend redemption (including switches) from the Scheme in the general interest of the Unitholders of the Scheme and keeping in view the unforeseen circumstances/unusual market conditions.

Imposition of such restriction will be subject to following conditions:

- a) Restriction on redemption may be imposed when there are circumstances leading to a systemic crisis or event that severely constricts market liquidity or the efficient functioning of markets such as:
 - i. Liquidity issues - when market at large becomes illiquid affecting almost all securities rather than any issuer specific security;
 - ii. Market failures, exchange closures;

- iii. Operational issues – when exceptional circumstances are caused by force majeure, unpredictable operational problems and technical failures.
- b) Restriction on redemption may be imposed for a period not exceeding 10 working days in any 90 days period.
- c) When restriction on redemption is so imposed, the following procedure shall be applied:
 - i. No redemption requests of value up to Rs.2 lakhs shall be subject to such restriction.
 - ii. For redemption request of value above Rs.2 lakhs, the first Rs.2 lakhs shall be redeemed without such restriction and the restriction shall apply for the redemption amount exceeding Rs.2 lakhs.

Any restriction on Redemption or suspension of redemption (including switches) of the Units in the Scheme shall be made applicable only after specific approval of the Board of Directors of the AMC and the Trustee Company and thereafter, immediately informing the same to SEBI.

It is clarified that since the occurrence of the abovementioned eventualities have the ability to impact the overall market and liquidity situation, the same may result in exceptionally large number of Redemption requests being made and in such a situation the indicative timelines (i.e. within 3 Business Days for schemes other than interval funds and within 1 Business Day for interval funds) mentioned by the Fund in the scheme offering documents, for processing of requests for Redemption may not be applicable.

The AMC / Trustee reserves the right to change / modify the provisions of right to restrict or suspend redemption of Units in the Scheme, subject to the applicable regulatory provisions from time to time.

Based on the PANs provided by the AMCs/MF-RTAs, the Depositories shall match their PAN database to determine the common PANs and allocate the PANs among themselves for the purpose of sending CAS. For PANs which are common between depositories and AMCs, the Depositories shall send the CAS.

1) Long-term capital gains

As per section 10(38) of the Act, long-term capital gains arising from sale of units of an equity oriented fund on a recognized stock exchange or sale of units of an equity oriented fund to the mutual fund were earlier exempt² from tax, provided such transaction of sale is chargeable to STT.

The Finance Act, 2018 has withdrawn the exemption under section 10(38) of the Act and introduced a new section 112A (effective 1 April 2018) to tax long-term capital gains arising from transfer of units of equity oriented mutual funds. Such gains, exceeding Rs.100,000, will be taxed at concessional rate of 10 percent (plus surcharge and cess), provided the transfer is subject to STT, as applicable.

Section 112A of the Act also provides relief in computation of gains on sale of units acquired before 1 February 2018 such that the cost of acquisition ('COA') of such units is to be considered the **higher of**

It is also provided that the percentage of equity shareholding or unit held in respect of the fund, as the case may be, shall be computed with reference to the annual average of the monthly averages of the opening and closing figures

Further, in case of individuals/ HUFs, being residents, where the total income excluding long-term capital gains is below the maximum amount not chargeable to tax, then the difference between the current maximum amount not chargeable to tax and total income excluding long-term capital gains, shall be adjusted from long-term capital gains. Therefore, only the balance long-term capital gains (exceeding Rs. 100,000) will be liable to income tax at the rate of 10 percent plus applicable surcharge and cess.

As per section 111A of the Act, short-term capital gains from the sale of units of an equity oriented fund on a recognised stock exchange or sale of such units to the mutual fund is taxed at 15 percent, provided such transaction of sale is chargeable to STT. The said tax rate would be increased by surcharge and cess as mentioned in paragraph 7.

In case of resident individual or HUF, if the income from short-term capital gains is less than the maximum amount not chargeable to tax, then there will be no tax payable.

Further, in case of individuals/ HUFs, being residents, where the total income excluding short-term capital gains is below the maximum amount not chargeable to tax⁴, then the difference between the current maximum amount not chargeable to tax and total income excluding short-term capital gains, shall be adjusted from short-term capital gains. Therefore, only the balance short term capital gains will be liable to income tax at the rate of 15 percent plus cess.

Further, the applicable TDS rates are mentioned in paragraph 8 below.

Further, as per section 57, the resident unitholders can claim deduction of interest expense to the extent of 20 per cent of Income Distribution cum capital withdrawal income.

³ In case of a listed unit, the FMV means the highest price of such share or unit quoted on a recognized stock exchange on 31 January 2018. However, if there is no trading on 31 January 2018, the FMV will be the highest price quoted on a date immediately preceding 31 January 2018, on which it has been traded. In the case of unlisted unit, the net asset value of such unit on 31 January 2018 will be the FMV.

B. Other categories of investors

Tax rates for other categories are given below:

| Type of tax-payer | Tax rate |
|--|-----------------|
| Partnership firms (including limited liability partnership)/ domestic company* | 30% |
| Company other than a domestic company | 40% |

*Finance Act, 2022 ('FA 2022') provides that in case of a domestic company, where the total turnover or gross receipts of such company for financial year 2020-21 does not exceed Rs 400 crores, the rate of tax shall be 25% plus applicable surcharge and cess.

The Taxation Laws (Amendment) Act, 2019 has introduced two new sections i.e. section 115BAA and section 115BAB effective from financial year commencing 1 April 2019:

- ***Section 115BAA***

As per section 115BAA, a domestic company can opt for paying tax at a lower rate of 22%, plus applicable surcharge and cess, subject to prescribed conditions especially such that certain

⁵ Section 115BAC. For adopting the new tax regime, most of the deductions/exemptions such as section 80C, 80D, etc. are to be foregone. The aforesaid regime is optional. Accordingly, individuals and HUFs have the option to be taxed under either of the options. The option under new regime once exercised can be changed in subsequent years (not applicable for business income).

deductions and exemptions need to be foregone. Further, the provisions of MAT will not apply to such companies. The option has to be exercised before the due date of filing the income-tax return. Once the option is exercised, it cannot be withdrawn subsequently.

• Section 115BAB

As per section 115BAB new domestic manufacturing companies, which have been set up and registered on or after 1 October 2019 and commenced manufacturing on or before 31 March 2024⁶, can opt for a lower tax rate of 15% plus applicable surcharge and cess subject to prescribed conditions especially such that certain deductions and exemptions need to be foregone.

Further, the provisions of MAT will not apply to such companies. The option has to be exercised before the due date of filing the income-tax return. Once the option is exercised, it cannot be withdrawn subsequently.

7) Surcharge and Cess

The tax rates mentioned in paragraphs above would be increased by a surcharge of:

a) For Individuals, HUF, Artificial Juridical Person, AOP⁷ or BOI:

| Nature of Income | Up to Rs. 50 lakhs | More than Rs. 50 lakhs but upto Rs. 1 crore | More than Rs. 1 crore but less than Rs. 2 crores | More than Rs. 2 crores but up to Rs. 5 crores | More than Rs. 5 crores |
|--|--------------------|---|--|---|------------------------|
| 1. Short-term capital gain under section 111A; 2. Long-term capital gains under section 112A; 3. Short term or Long-term capital gains under section 115AD(1)(b) | NIL | 10% | 15% | 15% | 15% |
| 4. Income Distribution cum capital withdrawal Income ⁸ | NIL | 10% | 15% | 25% | 37% |

⁶ The FA 2022 has extended last date to commence manufacturing to 31-03-2024.

⁷ The FA 2022 has capped surcharge at 15% in case of AOP consisting of only companies.

⁸ The FA 2021 caps the surcharge on "Income Distribution cum capital withdrawal". It appears for this purpose that Income Distribution cum capital withdrawal would mean Income Distribution cum capital withdrawal from equity shares and may not cover Income Distribution cum capital withdrawal from mutual fund schemes/income distributed by mutual funds. This is because the Income-tax Act in several places refers to Income Distribution cum capital withdrawal from equity as "Income Distribution cum capital withdrawal" and Income Distribution cum capital withdrawal from mutual fund as "income distributed by mutual fund".

| | | | | | |
|-----------------------------|-----|-----|-----|-----|-----|
| Residents and Non-residents | | | | | |
| 5. Any other Income | NIL | 10% | 15% | 25% | 37% |

b) For Firms and LLPs

12% where total income exceeds Rs. 10,000,000.

c) For Companies

| Company | Total income upto Rs. 1 crore | Total income exceeds Rs. 1 crore but not Rs. 10 crores | Total income exceeds Rs. 10 crores |
|---|-------------------------------|--|------------------------------------|
| Domestic company | NIL | 7% | 12% |
| Domestic Company opting for section 115BAA and 115BAB | 10% | | |
| Foreign company | NIL | 2% | 5% |

A health and education cess of 4% would be charged on amount of tax inclusive of the applicable surcharge for all taxpayers.

8) TDS on income from mutual funds

a) Income Distribution cum capital withdrawal income

| Category | TDS rate |
|------------------------------------|----------------------------------|
| Resident | 10% (section 194K ⁹) |
| FPI (corporate)* | 20% (section 196D) |
| FPI (non-corporate)* | 20% (section 196D) |
| Non-residents including corporates | 20% (section 196A) |

*As per FA 2021, an FPI, eligible to claim treaty benefits, would be governed by the provisions of the Act to the extent that they are more beneficial. Accordingly, tax should be withheld as per the provisions of the Act or the provisions of the relevant Double Taxation Avoidance Agreement ('DTAA'), whichever is more beneficial. However, the unit holder will be required to provide appropriate documents to the Mutual Fund in order to be entitled to a beneficial rate

Based on such approach, "mutual fund Income Distribution cum capital withdrawal" is subject to super-rich surcharge.

⁹ Threshold of Rs. 5,000 is applicable under section 194K.

under such DTAA. The implications of the provisions of General Anti-avoidance Rules ('GAAR')¹⁰ and Multilateral instrument ('MLI')¹¹ will also need to be evaluated.

b) Capital gains

| Category | TDS rate |
|---|-----------------------------------|
| Resident | NIL (section 194K ¹²) |
| FPI (corporate) | NIL (section 196D ¹³) |
| FPI (non-corporate) | NIL (section 196D) |
| <u>Other non-residents:</u> | |
| • Short-term capital gains under section 111A | 15% (section 195) |
| • Long-term capital gains under section 112A | 10% (section 195) ¹⁴ |

Requirement to furnish PAN

As per section 206AA, if any deductee (investor) fails to furnish or furnishes incorrect permanent account number (PAN) to deductor (mutual fund), tax shall be deducted at higher of the following rates, namely: -

- (i) at the rates specified in the relevant provision of this Act; or
- (ii) at the rate or rates in force; or
- (iii) at the rate of twenty per cent

Higher rate of TDS for non-filer of Income tax return

As per section 206AB, tax will be deducted in case of an investor being a specified person* at higher of the following rates, namely: -

- (i) at twice the rate specified in the relevant provision of the Act; or
- (ii) at twice the rate or rates in force; or
- (iii) at the rate of five per cent

*Specified persons (excluding a non-resident who does not have a permanent establishment in India) means any person who has not filed the return for the previous year immediately

¹⁰ GAAR may be invoked by the Indian income-tax authorities if arrangement(s) are found to be impermissible avoidance arrangements. The CBDT has issued clarifications on GAAR (Circular No. 7/2017 dated 27 January 2017). The provisions of GAAR are effective from the financial year commencing April 1, 2017.

¹¹ The Organisation of Economic Co-operation and Development ('OECD') released the Multilateral Convention to implement Tax Treaty related measures to prevent Base Erosion and Profit Shifting ('MLI'). The MLI, amongst others, includes a "principal purpose test", wherein Tax Treaty benefits can be denied if one of the principal purpose of an arrangement or a transaction was to, directly or indirectly, obtain tax benefit. The MLI has also expanded the scope of permanent establishment to include agent (excluding an independent agent) playing principal role, leading to routine conclusion of contracts without material modification. For this purpose, an agent is not considered independent if it acts exclusively or almost exclusively on behalf of one or more closely related enterprises. India has been an active participant in the entire discussion and its involvement in the BEPS project has been intensive. In a ceremony held in Paris on 7 June 2017, various countries including India, signed the MLIs.

¹² As per section 194K, TDS is not required to be withheld on income in the nature of capital gains.

¹³ As per section 196D(2) of the Act, income-tax is not required to be withheld from any income arising to FPIs by way of capital gains on transfer of shares and units referred to in section 115AD.

¹⁴ The FA 2022 has provided that TDS on long term capital gain under section 112A will be calculated on capital gains exceeding Rs.1,00,000.

preceding the previous year in which tax is required to be deducted; whose time limit to file return has expired and the aggregate of tax deducted at source and tax collected at source is fifty thousand or more in the said previous year.

If section 206AA is applicable to a specified person, in addition to the provision of section 206AB, the tax shall be deducted at higher of the two rates provided in section 206AB and in section 206AA.

9) Surcharge on TDS

- In case of TDS on payments made to residents, the tax rates would not be increased by surcharge and cess.
- In case of TDS on payments made to non-residents, the tax rates would be increased by surcharge and cess. The surcharge rates are as under:

| Nature of Income | Up to Rs. 50 lakhs | More than Rs. 50 lakhs but upto Rs. 1 crore | More than Rs. 1 crore but less than Rs. 2 crores | More than Rs. 2 crores but up to Rs. 5 crores | More than Rs. 5 crores | More than Rs. 10 crores |
|--|--------------------|---|--|---|------------------------|-------------------------|
| a) Non-corporates | | | | | | |
| <ul style="list-style-type: none"> • Short-term capital gain under section 111A; • Long-term capital gains under section 112A; | NIL | 10% | 15% | 15% | 15% | |
| <ul style="list-style-type: none"> • Income Distribution cum capital withdrawal income¹⁵ – FPIs and other non-residents | NIL | 10% | 15% | 25% | 37% | |
| <ul style="list-style-type: none"> • Any other Income | NIL | 10% | 15% | 25% | 37% | |
| b) Corporates | NIL | | 2% (More than Rs. 1 crore but up to Rs. 10 crores) | | 5% | |

¹⁵ The FA 2021 caps the surcharge on "Income Distribution cum capital withdrawal". It appears for this purpose that Income Distribution cum capital withdrawal would mean Income Distribution cum capital withdrawal from equity shares and may not cover Income Distribution cum capital withdrawal from mutual fund schemes/income distributed by mutual funds. This is because the Income-tax Act in several places refers to Income Distribution cum capital withdrawal from equity as "Income Distribution cum capital withdrawal" and Income Distribution cum capital withdrawal from mutual fund as "income distributed by mutual fund". Based on such approach, "mutual fund Income Distribution cum capital withdrawal" is subject to super-rich surcharge.

The rate of health and education cess is 4%. (applicable on tax plus surcharge).

Annexure 1 – Definition of Equity oriented mutual fund

“Equity oriented fund” is defined under 112A of the Income-tax Act, 1961, to mean a fund set up under a scheme of a mutual fund specified under clause (23D) of section 10 and,—

(i) in a case where the fund invests in the units of another fund which is traded on a recognised stock exchange (*this refers to fund of fund schemes*),—

(A) a minimum of ninety per cent of the total proceeds of such fund is invested in the units of such other fund; and

(B) such other fund also invests a minimum of ninety per cent of its total proceeds in the equity shares of domestic companies listed on a recognised stock exchange; and

(ii) in any other case, a minimum of sixty-five per cent of the total proceeds of such fund is invested in the equity shares of domestic companies listed on a recognised stock exchange.

It is also provided that the percentage of equity shareholding or unit held in respect of the fund, as the case may be, shall be computed with reference to the annual average of the monthly averages of the opening and closing figures

Stamp duty implications

The Finance Act, 2019 has amended the Indian Stamp Act, 1899 to introduce the levy and collection of stamp duty on the issue and transfer of financial instruments at one place through stock exchanges, clearing corporation and depositories.

State Governments will discontinue to charge/collect stamp duty on securities once amendments are effective. Stock exchange/clearing corporation/depository will transfer the stamp duty to respective state governments.

Based on the present language, there will be incidence of stamp duty on:

- a) The unit holder, for transactions in the units of the fund; and
- b) The fund, for transactions by the fund.

Rate of stamp duty applicable from July 1, 2020 is:

A. For securities other than debentures:-

| Transaction/ Instruments | Rates in % |
|--|-------------------|
| Issuance of units of mutual fund and unlisted shares | 0.005 |
| Transfer of securities on delivery basis (<i>including transfer of mutual fund units</i>) | 0.015 |
| Transfer of securities on non-delivery basis | 0.003 |
| Derivatives: Futures (Equity and commodity) | 0.002 |
| Derivatives: Options (Equity and commodity) | 0.003 |
| Derivatives: Currency and Interest rates derivatives | 0.0001 |
| Other derivatives | 0.002 |
| Government securities | 0 |
| Repo on corporate bonds | 0.00001 |

B. For debentures:-

| Transaction/ Instruments | Rates in % |
|--|-------------------|
| Issuance of debentures | 0.005 |
| Transfer and reissue debentures | 0.0001 |

The collection of stamp duty is subject to the *Indian Stamp (Collection of Stamp-duty through Stock Exchanges, Clearing Corporations and Depositories) Rules, 2019*.

Key points:

- The rules prescribe the collection and payment mechanism of stamp duty by stock exchanges, clearing corporations and depositories (collectively known as ‘collecting agent’).
- Collecting agent may deduct 0.2 percent of the stamp duty collected as facilitation charges before transferring the same to concerned State Government.
- As per notification issued by Ministry of Finance dated 8 January 2020, a Registrar and Share Transfer Agent will be treated as a “depository” for the limited purpose of acting as a “Collecting Agent” only in case of instruments of transactions otherwise than through a stock exchange, i.e., issue of mutual fund units.

The mechanics of stamp duty collection are as under:

| Nature of transaction | Duty to be collected from | Responsibility to collect stamp duty |
|---|---|---|
| Sale of securities made through stock exchange | Buyer | Stock exchange or clearing corporation |
| Off market transfer of securities made through depository (from one demat account to another) | Transferor | Depository |
| Issue of securities resulting in creation/change in records of Depository | Issuer | Depository |
| Sale or transfer or issue/reissue of unlisted securities not made through depositories | Seller or transferor or issuer as case may be | |
| In case of any other instrument | Person making, drawing or executing such instrument | |
| Transfer of securities pursuant to invocation of pledge | Pledgee | Depository |

Redemption of mutual fund units is not liable to stamp duty as it is neither a transfer nor an issue nor a sale. Stamp duty collected is to be transferred within 3 weeks of collection to the State Government where the residence of the buyer is located in India and in case the buyer is located outside India then the State in which the trading member/broker of the buyer is located.

D. COMPUTATION OF NAV

The NAV of the Units of the Scheme will be computed by dividing the net assets of the Scheme by the number of Units outstanding on the valuation date. The Fund shall value its investments according to the valuation norms, as specified in Schedule VIII of the Regulations, or such norms as may be prescribed by SEBI from time to time.

All expenses and incomes accrued up to the valuation date shall be considered for computation of NAV. For this purpose, major expenses like management fees and other periodic expenses would be accrued on a day to day basis. The minor expenses and income will be accrued on a periodic basis, provided the non-daily accrual does not affect the NAV calculations by more than 1%.

Any changes in securities and in the number of units be recorded in the books not later than the first valuation date following the date of transaction. If this is not possible given the frequency of the Net Asset Value disclosure, the recording may be delayed upto a period of seven days following the date of the transaction, provided that as a result of the non-recording, the Net Asset Value calculations shall not be affected by more than 1%.

In case the Net Asset Value of a scheme differs by more than 1%, due to non - recording of the transactions, the investors or scheme/s as the case may be, shall be paid the difference in amount as follows:-

- (i) If the investors are allotted units at a price higher than Net Asset Value or are given a price lower than Net Asset Value at the time of sale of their units, they shall be paid the difference in amount by the scheme.
- (ii) If the investors are charged lower Net Asset Value at the time of purchase of their units or are given higher Net Asset Value at the time of sale of their units, asset management company shall pay the difference in amount to the scheme. The asset management company may recover the difference from the investors.

NAV of units under the Scheme shall be calculated as shown below:

NAV (Rs.) =

| | | | | |
|--|---|---|---|---|
| Market or Fair Value of Scheme's investments | + | Current Assets including Accrued Income | - | Current Liabilities and Provisions including accrued expenses |
|--|---|---|---|---|

No. of Units outstanding under Scheme

The NAV of the Scheme will be calculated upto four decimal places and will be declared on each business day. The valuation of the Scheme's assets and calculation of the Scheme's NAV shall be subject to audit on an annual basis and shall be subject to such regulations as may be prescribed by SEBI from time to time.
