Part II. INFORMATION ABOUT THE SCHEME

A. HOW WILL THE SCHEME ALLOCATE ITS ASSETS?

Under normal circumstances, the asset allocation pattern will be:

Instruments	Indicative allocations (% of total assets)	
	Minimum	Maximum
Units of overseas ETFs focused on Nasdaq 100 TRI	95	100
Debt, Money market instruments	0	5

The Scheme shall invest in overseas ETFs focused on Nasdaq 100 TRI in accordance with Para 12.19 of SEBI master Circular for Mutual Funds, as amended from time to time.

The cumulative gross exposure through Units of overseas ETFs focused on Nasdaq 100 TRI, debt & Money market instruments should not exceed 100% of the net assets of the Scheme in accordance with Para 12.25 of SEBI Master Circular for Mutual Funds, as amended from time to time. Cash or cash equivalents with residual maturity of less than 91 days shall be treated as not creating any exposure.

The Scheme shall not invest in derivatives, Securitized debt (including foreign securitized debt), Credit Default Swaps, debt instruments having structured obligations / Credit enhancements, Repo in Corporate Debt Securities and instruments with special features as specified under Para 12.2 of SEBI Master Circular for Mutual Funds, as amended from time to time and mutual fund units. The Scheme shall not invest in REIT / INVIT.

Investment in Short Term Deposits

Pending deployment of the funds in securities in terms of investment objective of the Scheme, the AMC may in terms of Para 4.5 and Para 12.16.1.9 of SEBI Master Circular for Mutual Funds, as amended from time to time, park the funds of the Scheme in short term deposits of the Scheduled Commercial Banks.

Indicative Table (Actual instrument/percentages may vary subject to applicable SEBI circulars)

Sr. No.	Type of Instrument	Percentage of exposure	Circular references
1.	Overseas Securities	Upto 100% of net assets of the Scheme shall be invested in overseas ETFs focused on Nasdaq 100 TRI	Para 12.19 of SEBI Master Circular for Mutual Funds.
2.	Tri party Repo	Allocation may be made to TREPS from any amounts that are pending deployment or on account of any adverse market situation.	-

The limits given above shall be subject to Schedule VII of the Regulations / circulars issued by SEBI and shall stand revised to the extent of changes in the Regulations/ circulars from time to time.

The scheme shall not directly invest in below instruments:

Sr. No.	Type of Instrument
1	Credit default swaps
2	Mutual Fund Units
3	REITS and InVITS
4	Securitized Debt
5	Securities with special features such as Debt instruments with special features AT1 & AT2 Bonds, etc
6	Debt instruments with Credit Enhancement / Structured Obligations
7	Derivatives
8	Repo and Reverse repo in corporate debt securities
9	The Scheme shall not undertake Securities Lending and borrowing & Short selling
10	Unlisted debt instrument

11	Bespoke or complex debt products
12	The Scheme shall not undertake Inter scheme transactions
13	Unrated debt and money market instruments (except G-Secs, T-Bills and other money market instruments)

However, the underlying scheme may have exposure to any of the above instruments subject to compliance with clause 12.19.2 of master circular on Mutual Funds.

Portfolio rebalancing due to short term defensive considerations:

Subject to the SEBI (MF) Regulations, the asset allocation pattern indicated above may change from time to time, keeping in view market conditions, market opportunities, applicable regulations and political and economic factors. The Scheme may actively deviate from the stated asset allocation pattern outlined in the SID and may take higher allocation in debt and money market during extenuating circumstances which may include substantial subscription/redemption, adverse market conditions etc. These instances may be beyond the control of the fund manager & the AMC and hence may require such deviations. Such changes in the investment pattern will be transitional in nature and will be undertaken as defensive considerations only in accordance with Para 1.14.1.2 of SEBI Master circular for Mutual Fund and as amended from time to time. Defensive considerations may be determined by the fund manager. In case of deviations on account of exogenous factors, the fund manager will endeavor to rebalance the Scheme within 30 calendar days from the date of such deviation. The intention being at all times to seek to protect the interests of the Unit holders.

Portfolio rebalancing due to passive breaches:

In case of passive deviation from the asset allocation pattern, the AMC shall follow process specified in para 2.9 of SEBI master circular as amended from time to time. In line with the circular, in the event of deviation from the mandated asset allocation mentioned in the SID due to passive breaches, the portfolio would be rebalanced within 30 business days from the date of deviation. Where the portfolio is not rebalanced within mandated timelines, justification in writing including details of efforts taken to rebalance the portfolio shall be placed before the Investment Committee. The Investment Committee, if so desires, can extend the timelines up to sixty (60) business days from the date of completion of mandated rebalancing period. In case the portfolio of the Scheme is not rebalanced within aforementioned mandated plus extended timelines AMC shall adhere to the requirements as laid down in the aforesaid SEBI circular. However, at all times, the portfolio will adhere to the overall investment objective of the scheme.

B. WHERE WILL THE SCHEME INVEST?

The Scheme will invest in following instruments:

- Units of overseas ETFs focused on Nasdaq 100 TRI
- Debt & Money Market instruments
- Short Term Deposits

Investment in overseas securities shall be made in accordance with the requirements stipulated by SEBI and RBI from time to time.

The Scheme shall invest in any other instruments as may be permitted by SEBI/RBI from time to time.

Kindly refer detailed definitions and applicable regulations/guidelines for each instruments in the Section II.

C. WHAT ARE THE INVESTMENT STRATEGIES?

The scheme follows an active investment strategy.

The scheme aims to provide long term capital appreciation by replicating the performance of the Nasdaq 100 TRI by investing in ETFs whose primary objective is to track/replicate the performance of the Nasdaq TRI Index.

The Nasdaq 100 is one of the world's preeminent large-cap growth indexes. It includes 100 of the largest domestic and international non-financial companies listed on the Nasdaq Stock Market based on market capitalization. While technology is a dominant segment in the index, it is well-balanced by sectors such as consumer services, healthcare, consumer goods, and industrials amongst others.

The exchange traded fund route is one of the most efficient ways to gain exposure to the index. The fund may use one or more ETFs mentioned below to achieve its investment objective.

- iShares NASDAQ 100 UCITS ETF.
- Invesco EQQQ NASDAQ-100 UCITS ETF
- Xtrackers Nasdaq 100 UCITS ETF

For details of underlying funds, please refer Section II Part III A:

The scheme may also invest in similar overseas Exchange Traded Funds which shall have similar investment objective, asset allocation, benchmark, investment strategy. All these details shall be disclosed in the Scheme Information Document in respect of the underlying schemes as and when the scheme invests in such underlying schemes.

PORTFOLIO TURNOVER

As the Scheme will predominantly follow a passive investment strategy for investments in the overseas mutual fund, the endeavour will be to minimise the portfolio turnover subject to exigencies and needs of the Scheme. Generally, for the investments in overseas fund, the turnover will be confined to the subscriptions and redemptions (including inter-fund switches, if any) in the underlying overseas fund. However, it is difficult to estimate with any reasonable measure of accuracy, the likely turnover in the portfolio.

For domestic securities investments, there may be an increase in transaction cost such as brokerage paid, if trading is done frequently. However, the cost would be negligible as compared to the total expenses of the Scheme. Frequent trading may increase the profits which will offset the increase in costs. The fund manager will endeavor to optimize portfolio turnover to maximize gains and minimize risks keeping in mind the cost associated with it. However, it is difficult to estimate with reasonable accuracy, the likely turnover in the portfolio of the Scheme. The Scheme has no specific target relating to portfolio turnover.

For details pertaining to Risk Controls and Risk Mitigation refer Point no. C Part I of Section II of the Scheme Information Document.

D. HOW WILL THE SCHEME BENCHMARK ITS PERFORMANCE?

For details refer Point no. VII – Part I - Section I of the Scheme Information Document.

vi. Investments of AMC in the Scheme –

Subject to the applicable Regulations, the AMC may invest either directly or indirectly, in the Scheme during Ongoing Offer Period. However, the AMC shall not charge any investment management fee on such investments in the Scheme.

Further, in terms of requirement of the Regulations, the AMC shall invest such amounts in Scheme, based on the risks associated with the Scheme, as may be specified by the SEBI from time to time.

Please refer the AMC website (<https://www.axismf.com/statutory-disclosures>) for detailed AMC Investments in Scheme(s) of Axis Mutual Fund.

Part III. OTHER DETAILS

A. COMPUTATION OF NAV

The Net Asset Value (NAV) per Unit under the Scheme will be computed by dividing the net assets of the Scheme by the number of Units outstanding on the valuation day. The Mutual Fund will value its investments according to the valuation norms, as specified in Schedule VIII of the SEBI (MF) Regulations, or such norms as may be specified by SEBI from time to time.

Valuation of Foreign Currency / Securities: On the valuation day, all the assets and liabilities denominated in foreign currency will be valued in Indian Rupees. The valuation price of the security will be converted to INR based on FBIL/any other designated agency, reference rate at the close of banking hours in India. If required, the AMC may change the source of determining the exchange rate. The Fund shall value its investments according to the valuation norms (Valuation Policy includes computation of NAV in case of investment in foreign securities), as specified in the Eighth Schedule of the Regulations, or such guidelines / recommendations as may be specified by SEBI from time to time. The broad valuation norms are detailed in the Statement of Additional Information.

The Net Assets Value (NAV) of the Units under the Scheme shall be calculated as shown below:

$$\text{NAV (Rs.)} = \frac{\text{Market or Fair Value of Scheme's Investments} + \text{Current Assets including Accrued Income} - \text{Current Liabilities and Provisions}}{\text{No. of Units outstanding under Scheme on the Valuation Day}}$$

The NAV shall be calculated up to two decimal places. However, the AMC reserves the right to declare the NAVs up to additional decimal places as it deems appropriate. Separate NAV will be calculated and disclosed for each Option.

The NAVs will be calculated and disclosed on all the Business Days.

Illustration of Computation of NAV:

The computation of NAV per unit using various components is explained as follows:

Particulars	Amount in Rs
Market or Fair Value of Scheme's Investments..... (A)	10,00,00,000.00
Add: Current Assets including Accrued Income.... (B)	75,34,345.00
Less: Current Liabilities and Provisions. (C)	(30,00,000.00)
Net Assets (A+B-C)	10,45,34,345.00

No. of Units outstanding under Scheme on the Valuation Day: 100,00,000

The NAV per unit will be computed as follows: $10,45,34,345.34 / 100,00,000 = \text{Rs. } 10.45$ per unit (rounded off to two decimals)

The Mutual Fund will ensure that the Redemption Price will not be lower than 95% of the Applicable NAV.

For other details such as policies w.r.t computation of NAV, rounding off, procedure in case of delay in disclosure of NAV etc. refer to SAI

B. NEW FUND OFFER (NFO) EXPENSES

These expenses are incurred for the purpose of various activities related to the NFO like sales and distribution fees paid marketing and advertising, registrar expenses, printing and stationery, bank charges etc.

C. ANNUAL SCHEME RECURRING EXPENSES

These are the fees and expenses for operating the scheme. These expenses include Investment

Management and Advisory Fee charged by the AMC, Registrar and Transfer Agents' fee, marketing and selling costs etc. as given in the table below:

The AMC has estimated that following expenses will be charged to the Scheme as expenses as permitted under Regulation 52 of SEBI (MF) Regulations. For the actual current expenses being charged, the investor should refer to the website of the Mutual Fund.

Expense Head	% of daily Net Assets
Investment Management and Advisory fees*	Upto 1.00%
Trustee fees	
Audit fees	
Custodian fees	
RTA fees	
Marketing & selling expense incl. agent commission	
Cost related to investor communications	
Cost of fund transfer from location to location	
Cost of providing account statements and IDCW redemption cheques and warrants	
Costs of statutory advertisements	
Brokerage & transaction cost over and above 12 bps for cash market trades	
Goods & Services Tax (GST) on expenses other than investment and advisory fees	
GST on brokerage and transaction cost (over & above 12bps limit mentioned above)	
Maximum total expense ratio (TER) permissible under Regulation 52(6)(a)	Upto 1.00%
Additional expenses under Regulation 52(6A)(c)^	Upto 0.05%
Additional expenses for gross new inflows from specified cities under Regulation 52(6A)(b)#	Upto 0.30%

*Any other expenses which are directly attributable to the Scheme, may be charged with the approval of the Trustee within the overall limits as specified in the Regulations except those expenses which are specifically prohibited.

^The AMC shall not charge additional expenses under Regulation 52(6A)(c) in case exit load is not levied/ not applicable.

All fees and expenses charged in a Direct Plan (in percentage terms) under various heads including the investment and advisory fee shall not exceed the fees and expenses charged under such heads in Regular Plan.

Direct Plan shall have a lower expense ratio excluding distribution expenses, commission, etc. and no commission for distribution of Units will be paid/ charged under Direct Plan.

The expenses towards Investment Management and Advisory Fees under Regulation 52(2) and the various sub-heads of recurring expenses mentioned under Regulation 52(4) of SEBI (MF) Regulations can be apportioned under various expense heads/ sub heads without any sub limit, as permitted under the applicable regulations. Thus, there shall be no internal sub-limits within the expense ratio for expense heads mentioned under Regulation 52(2) and (4) respectively. Further, the additional expenses under Regulation 52(6A)(c) may be incurred either towards investment & advisory fees and/or towards other expense heads as stated above.

These estimates have been made in good faith as per the information available to the Investment Manager and are subject to change inter-se or in total subject to prevailing Regulations.

The investors will bear the recurring expenses of the scheme in addition to the expenses of other scheme in which the Schemes will make investment.

The total expense ratio of the Scheme including weighted average of the total expense ratio levied by the underlying scheme shall not exceed 1.00 per cent of the daily net assets of the Scheme.

Provided that the total expense ratio to be charged over and above the weighted average of the total expense ratio of the underlying scheme shall not exceed two times the weighted average of the total expense ratio levied by the underlying scheme, subject to the overall ceilings as stated above.

The total expenses of the Scheme(s) including the investment management and advisory fee shall not exceed the limit stated in Regulation 52(6) of the SEBI (MF) Regulations and amendments thereto.

The AMC will charge the Scheme such actual expenses incurred, subject to the statutory limit prescribed in the Regulations.

Expenses charged to the Scheme:

- A. In addition to the limits as specified in Regulation 52(6) of SEBI (MF) Regulations 1996 or the Total Recurring Expenses (Total Expense Limit) as specified above, the following costs or expenses may be charged to the Scheme namely-

Additional expenses for gross new inflows from specified cities

- a) expenses not exceeding of 0.30 per cent of daily net assets, if the new inflows from such cities as specified by SEBI/AMFI from time to time are at least -
 - i. 30 per cent of gross new inflows in the Scheme, or;
 - ii. 15 per cent of the average assets under management (year to date) of the Scheme, whichever is higher.

Provided that if inflows from such cities is less than the higher of sub-clause (i) or sub-clause (ii), such expenses on daily net assets of the Scheme shall be charged on proportionate basis.

Provided further that, expenses charged under this clause shall be utilised for distribution expenses incurred for bringing inflows from such cities.

Provided further that amount incurred as expense on account of inflows from such cities shall be credited back to the Scheme in case the said inflows are redeemed within a period of one year from the date of investment.

Provided further that, additional TER can be charged based on inflows only from retail investors in terms of Para 10.1.3 of SEBI master Circular for Mutual Funds as amended from time to time. For this purpose inflows of amount upto Rs 2,00,000/- per transaction, by individual investors shall be considered as inflows from "retail investor".

#Note: Pursuant to SEBI letter dated February 24, 2023 read with AMFI communication dated March 02, 2023, w.e.f March 01, 2023 no additional expense shall be charged on the new inflows received on or after March 01, 2023 from specified cities as per Regulation 52 (6A) (b) till any further guidance is received from SEBI in this regard.

Additional expenses under Regulation 52(6A)(c)

- a) additional expenses, incurred towards different heads mentioned under Regulations 52(2) and 52(4), not exceeding 0.05 per cent of daily net assets of the Scheme;

GST payable on investment and advisory service fees ('AMC fees') charged by Axis Asset Management Company Ltd.;

Brokerage and transaction cost incurred for the purpose of execution shall be charged to the schemes as provided under Regulation 52 (6A) (a) upto 12 bps for cash market transactions. Any payment towards brokerage & transaction costs, over and above the said 12 bps for cash market transactions will be charged within the maximum limit of Total Expense Ratio (TER) as prescribed under Regulation 52 of the Regulations.

- B. Within the Total Expense Limit chargeable to the scheme, following will be charged to the Scheme:

- a) GST on other than investment and advisory fees, if any, shall be borne by the Scheme
- b) Investor education and awareness initiative fees of 5% of total TER charged to direct plan, subject to maximum of 0.5 bps of AUM.

C. AMC fees charged by Axis AMC to the scheme will be within the Total Expense Limit as prescribed by SEBI Regulations, as amended from time to time.

The mutual fund would update the notice of change in base TER on its website (www.axismf.com) at least three working days prior to the effective date of the change. Investors can refer 'Total Expense Ratio of Mutual Fund Schemes' section on <https://www.axismf.com/total-expense-ratio> for Total Expense Ratio (TER) details.

The investors are bearing the recurring expenses of the scheme, in addition to the expenses of other schemes in which the Fund of Funds Scheme makes investments.

Illustration: Impact of Expense Ratio on Scheme's return:

Expense ratio, normally expressed as a percentage of Average Assets under Management, is calculated by dividing the permissible expenses under the Regulations by the average net assets.

To further illustrate in rupee terms the above, for the Scheme under reference, suppose an Investor invested Rs. 10,000/- (after deduction of stamp duty and transaction charges, if any) under the Growth Option, the impact of expenses charged will be as under:

Sr. No.	Particulars	Regular Plan	Direct Plan
A.	Amount invested at the beginning of the year (Rs.)	10,000	10,000
B.	Returns before expenses (Rs.)	1,500	1,500
C.	Expenses other than the expenses mentioned in 'D' below (Rs.)	50	50
D.	Marketing & Selling expense incl. agent commission (Rs.)	150	0
E.	Returns after expenses at the end of the year (Rs.) [B – (C + D)]	1300	1450
	Returns after expenses at the end of the year (in %) [(E/A) – 1]	13%	14.5%

Note(s):

- The purpose of the above illustration is purely to explain the impact of expense ratio charged to the Plan(s) under the Scheme and should not be construed as providing any kind of investment advice or guarantee of returns on investments.
- It is assumed that the expenses charged are evenly distributed throughout the year.
- The expenses of the Direct Plan of the Scheme will be lower to the extent of the distribution expenses/ commission
- Any tax impact has not been considered in the above example, in view of the individual nature of the tax implications. Each investor is advised to seek appropriate advice

D. LOAD STRUCTURE

Load is an amount which is paid by the Investor to redeem the Units from the Scheme. This amount is used by the AMC to pay commission to the distributors and to take care of other marketing and selling expenses. Load amounts are variable and are subject to change from time to time. For the current applicable structure, investors may refer to the website of the AMC (www.axismf.com) or may call at contact number 8108622211 from 8.00 am to 8.00 pm (Monday to Friday) and 9.00 am to 6.00 pm (on Saturday and Sunday) or can contact his distributor.

SEBI Vide Para 10.4 of SEBI Master Circular For Mutual Funds as amended from time to time has decided that there shall be no entry Load for all Mutual Fund Schemes.

Type of Load	Load chargeable (as %age of NAV)
--------------	----------------------------------

Exit Load	For details refer Point no. XI of Part – I of Section I of the Scheme Information Document.
------------------	---

Units issued on reinvestment of IDCW shall not be subject to Load. No load shall be levied on switches between options and sub-options of the Scheme.

The above mentioned load structure shall be equally applicable to the special products such as switches, STP, SWP, etc. offered by the AMC. Further, for switches between the Growth and IDCW Option, no load will be charged by the Scheme. For switches within the Scheme from Regular to Direct Plan or vice versa, no exit load shall be charged

Exit load, if any, charged to the investors will be credited back to the Scheme net of GST. The Investor is requested to check the prevailing Load structure of the Scheme before investing.

SEBI Vide Para 10.4 of SEBI Master Circular For Mutual Funds has decided that there shall be no Entry Load for all Mutual Fund schemes.

For any change in Load structure, AMC will issue an addendum and display it on the website/ Investor Service Centres.

Under the Scheme, the AMC/ Trustee reserves the right to change / modify the Load structure if it so deems fit in the interest of smooth and efficient functioning of the Mutual Fund. The AMC/ Trustee reserves the right to introduce / modify the Load depending upon the circumstances prevailing at that time subject to maximum limits as prescribed under the Regulations.

The Redemption Price however, will not be lower than 95% of the NAV. Any imposition or enhancement of Load in future shall be applicable on prospective investments only.

At the time of changing the Load Structure:

1. The AMC shall be required to issue an addendum and display the same on its website immediately;
2. The addendum shall be circulated to all the distributors / brokers so that the same can be attached to all Scheme Information Document and Key Information Memorandum already in stock.
3. Latest applicable addendum shall be a part of KIM and SID of the respective Scheme(s).
4. Further, the account statements shall continue to include applicable load structure.

The Trustee/AMC reserves the right to change the load structure subject to the limits prescribed under the Regulations. Any change in load structure shall be only on a prospective basis i.e. any such changes would be chargeable only for Redemptions from prospective purchases (applying first in first out basis).

E. REQUIREMENT OF MINIMUM INVESTORS IN THE SCHEME

The Scheme shall have a minimum of 20 Investors and no single Investor shall account for more than 25% of the corpus of the Scheme. The aforesaid conditions should be complied with in each calendar quarter on an average basis. In case the Scheme does not have a minimum of 20 Investors on an ongoing basis for each calendar quarter, the provisions of Regulation 39(2)(c) of the SEBI (MF) Regulations would become applicable automatically without any reference from SEBI and accordingly the Scheme shall be wound up and the units would be redeemed at Applicable NAV. If there is a breach of the 25% limit by any Investor over the quarter, a rebalancing period of one month would be allowed and thereafter the Investor who is in breach of the rule shall be given 15 days' notice to redeem his exposure over the 25% limit. Failure on the part of the said investor to redeem his exposure over the 25% limit within the aforesaid 15 days would lead to automatic Redemption by the Mutual Fund at the Applicable NAV on the 15th day of the notice period. The Fund shall adhere to the requirements prescribed by SEBI from time to time in this regard.

SPECIAL CONSIDERATIONS

- The investors will bear the recurring expenses of the Underlying Fund in addition to the recurring expenses charged by Axis NASDAQ 100 Fund of Fund.

- The Scheme will invest in permissible overseas investments in accordance with the provisions of Para 12.19 of SEBI Master Circular for Mutual Funds as amended from time to time and further circulars issued by SEBI from time to time, subject to a maximum of US\$ 1 billion per mutual fund and as per the provisions of para 4 (h) of the said circular and in overseas ETF subject to a maximum \$300 million or such limits as amended from time to time / RBI, and commensurate with the Scheme objectives, the limit of 5% of Net Assets and the prohibition of charging of fees shall not be applicable to investments in mutual funds in foreign countries made in accordance with the guidelines as per the above circular. However, management fees and other expenses charged by the mutual fund(s) in foreign countries along with the management fee and recurring expenses charged to the domestic mutual fund shall not exceed the total limit on expenses as prescribed under Regulation 52 (6)(a).

Section II

I. Introduction

A. Definitions/interpretation

For details refer website of Axis Mutual Fund: <https://www.axismf.com/statutory-disclosures>.

B. Risk factors

Scheme Specific Risk Factors

Risk factors for a Fund of Funds Scheme

The Scheme will be investing primarily in units of the underlying fund, which in turn invests in equities. Hence the Scheme's performance may depend upon the performance of the underlying fund. Any change in the investment policy or the fundamental attributes of the underlying fund will affect the performance of the Scheme.

Investments in the underlying fund, which is an ETF, will have all the risks associated with investments in equity and the offshore markets.

The portfolio disclosure of the Scheme will be largely limited to the investments made by the Scheme.

Risk Factors for the Underlying Fund

The performance of the underlying fund will be affected by a number of risk factors, including the following, some of which have also been disclosed by the underlying fund in its prospectus filed with the appropriate regulatory authorities.

Passive investments strategy: The Underlying Fund will be a passively managed fund providing exposure to constituents of underlying Index and tracking its performance and yield, before expenses, as closely as possible. The Underlying Fund performance may be affected by a general decline in the markets relating to its underlying Index. The Underlying Fund invests in the underlying Index regardless of its investment merit.

General Risks: Past performance is not a guide to future performance and investments should be regarded as a medium to long-term investment. The value of investments and the income generated by them may go down as well as up and investors may not get back the amount originally invested. Where the fund Currency varies from the Investor's home currency, or where the Underlying Fund Currency varies from the currencies of the markets in which the Underlying Fund invests, there is the prospect of additional loss (or the prospect of additional gain) to the Investor greater than the usual risks of investment.

Investment Objective Risk: Investment objectives express an intended result but there is no guarantee that such a result will be achieved. Depending on market conditions and the macroeconomic environment, investment objectives may become more difficult or even impossible to achieve. There is no express or implied assurance as to the likelihood of achieving the investment objective for an Underlying Fund.

Regulatory Risk: Investors should note that all the regulatory protections provided by their local regulatory authorities may not apply. Additionally, the Underlying Fund will be registered in non-EU jurisdictions. As a result of such registrations the Underlying Fund may be subject, without any notice to the investors in the Underlying Fund concerned, to more restrictive regulatory regimes. In such cases the Underlying Fund will abide by these more restrictive requirements. This may prevent the Underlying Fund from making the fullest possible use of the investment limits.

Business, Legal and Tax Risks: In some jurisdictions the interpretation and implementation of laws and regulations and the enforcement of shareholders' rights under such laws and regulations may involve significant uncertainties. Furthermore, there may be differences between accounting and auditing standards, reporting practices and disclosure requirements and those generally accepted internationally. Underlying Fund may be subject to withholding and other taxes. Tax law and regulations of any jurisdiction

are frequently reviewed and may be changed at any time, in certain cases with retrospective effect. The interpretation and applicability of tax law and regulations by tax authorities in some jurisdictions are not consistent and transparent and may vary from jurisdiction to jurisdiction and/or region to region. Any change in taxation legislation could affect the value of the investments held by and the performance of the Underlying Fund.

Derivatives Risk: For Underlying Fund that uses derivatives to meet its specific investment objective, there is no guarantee that the performance of the derivatives will result in a positive effect for the Underlying Fund

Currency risk – The assets in which the underlying fund is invested and the income from the assets will or may be quoted in currencies which are different from the underlying fund's base currency. The performance of the underlying fund will therefore be affected by movements in the exchange rate between the currencies in which the assets are held and the underlying funds' base currency and hence there can be the prospect of additional loss or the prospect of additional gain to the investors greater than the usual risks of investment. The performance of the underlying fund may also be affected by changes in exchange control regulations.

Settlement Risks - The securities markets in some countries lack the liquidity, efficiency and regulatory and supervisory controls of more developed markets. Lack of liquidity may adversely affect the ease of disposal of assets. The absence of reliable pricing information in a particular security held by the underlying fund may make it difficult to assess reliably the market value of assets. The share register of companies in which the underlying fund invests in may not be properly maintained and the ownership or interest may not be (or remain) fully protected.

Risk Factors Relating to Industry Sectors / Geographic Areas: Funds that focus on a particular industry or geographic area are subject to the risk factors and market factors which affect this particular industry or geographic area, including legislative changes, changes in general economic conditions and increased competitive forces. This may result in a greater volatility of the Net Asset Value of the Shares of the relevant Fund. Additional risks may include greater social and political uncertainty and instability; and natural disasters.

Registration of Securities may be subject to delay and during the period of delay it may be difficult to prove beneficial ownership of the Securities. The provision for custody of assets may be less developed than in other more mature markets and thus provides an additional level of risk for the fund. Settlement procedures may be less developed and still be in physical as well as in dematerialized form.

Risks associated with investments in Equity and Equity related instruments

- Equity and equity related instruments are volatile and prone to price fluctuations on a daily basis. The liquidity of investments made in the Scheme may be restricted by trading volumes and settlement periods. Settlement periods may be extended significantly by unforeseen circumstances. The inability of the Scheme to make intended securities purchases, due to settlement problems, could cause the Scheme to miss certain investment opportunities. Similarly, the inability to sell securities held in the Scheme portfolio would result at times, in potential losses to the Scheme, should there be a subsequent decline in the value of securities held in the Scheme portfolio. Also, the value of the Scheme investments may be affected by interest rates, currency exchange rates, changes in law/ policies of the government, taxation laws and political, economic or other developments which may have an adverse bearing on individual securities, a specific sector or all sectors.
- Investments in equity and equity related securities involve a degree of risk and investors should not invest in the equity Schemes unless they can afford to take the risk of losing their investment.
- Securities which are not quoted on the stock exchanges are inherently illiquid in nature and carry a larger liquidity risk in comparison with securities that are listed on the exchanges or offer other exit options to the investors / unitholders, including put options. The AMC may choose to invest in unlisted securities that offer attractive yields within the regulatory limit. This may however increase the risk of the portfolio. Additionally, the liquidity and valuation of the Scheme investments due to its holdings of unlisted securities may be affected if they have to be sold prior to the target date of disinvestment.

Risks associated with investing in foreign securities/ overseas investments/ offshore securities

- Subject to necessary approvals and within the investment objectives of the Scheme, the Scheme may invest in overseas markets which carry risks related to fluctuations in the foreign exchange rates, the nature of the securities market of the country, repatriation of capital due to exchange controls and political circumstances.
- To the extent that the assets of the Scheme will be invested in securities denominated in foreign currencies, the Indian Rupee equivalent of the net assets, distributions and income may be adversely affected by changes in the value of certain foreign currencies relative to the Indian Rupee. The repatriation of capital to India may also be hampered by changes in regulations concerning exchange controls or political circumstances as well as the application to it of other restrictions on investment.

Risks associated with investments in Fixed Income Securities

Interest-Rate Risk: Fixed income securities such as government bonds, corporate bonds, money market instruments run price-risk or interest-rate risk. Generally, when interest rates rise, prices of existing fixed income securities fall and when interest rates drop, such prices increase. The extent of fall or rise in the prices depends upon the coupon and maturity of the security. It also depends upon the yield level at which the security is being traded.

Re-investment Risk: Investments in fixed income securities carry re-investment risk as interest rates prevailing on the coupon payment or maturity dates may differ from the original coupon of the bond.

Basis Risk: The underlying benchmark of a floating rate security or a swap might become less active or may cease to exist and thus may not be able to capture the exact interest rate movements, leading to loss of value of the portfolio.

Spread Risk: In a floating rate security the coupon is expressed in terms of a spread or mark up over the benchmark rate. In the life of the security this spread may move adversely leading to loss in value of the portfolio. The yield of the underlying benchmark might not change, but the spread of the security over the underlying benchmark might increase leading to loss in value of the security.

Liquidity Risk: The liquidity of a bond may change, depending on market conditions leading to changes in the liquidity premium attached to the price of the bond. At the time of selling the security, the security can become illiquid, leading to loss in value of the portfolio.

Liquidity Risk on account of unlisted securities: The liquidity and valuation of the Schemes' investments due to their holdings of unlisted securities may be affected if they have to be sold prior to their target date of divestment. The unlisted security can go down in value before the divestment date and selling of these securities before the divestment date can lead to losses in the portfolio. However, the Scheme shall not invest in unlisted debt instruments including commercial papers, except Government Securities and other money market instruments.

Credit Risk: This is the risk associated with the issuer of a debenture/bond or a Money Market Instrument defaulting on coupon payments or in paying back the principal amount on maturity. Even when there is no default, the price of a security may change with expected changes in the credit rating of the issuer. It is to be noted here that a Government Security is a sovereign security and is the safest. Corporate bonds carry a higher amount of credit risk than Government Securities. Within corporate bonds also there are different levels of safety and a bond rated higher by a particular rating agency is safer than a bond rated lower by the same rating agency.

Settlement Risk: Fixed income securities run the risk of settlement which can adversely affect the ability of the fund house to swiftly execute trading strategies which can lead to adverse movements in NAV.

Risks associated with Segregated Portfolio

1. Investor holding units of segregated portfolio may not be able to liquidate their holding till the time recovery of money from the issuer.
2. Security comprises of segregated portfolio may not realise any value.

Listing of units of segregated portfolio on recognised stock exchange does not necessarily guarantee their liquidity. There may not be active trading of units in the stock market. Further trading price of units on the stock market may be significantly lower than the prevailing NAV.

C. Risk mitigation strategies

Risk Control/Risk Mitigation

Risk management is going to be an integral part of the investment process. Effective risk management is critical to fund management for achieving financial soundness. The performance of overseas mutual funds will be regularly monitored. The investment team of the AMC will carry out rigorous in depth credit evaluation of the money market and debt instruments (other than G-Secs) proposed to be invested in. Investments by the Scheme shall be made as per the investment objectives of the Scheme and provisions of SEBI regulations. AMC has implemented the Bloomberg Portfolio Order Management System as Front Office System (FOS). The system has incorporated all the investment restrictions as per SEBI guidelines and "soft" warning alerts at appropriate levels for preemptive monitoring. The system enables identifying & measuring the risk through various risk measurement tools like various risk ratios, average duration and analyzes the same and acts in a preventive manner.

Risk control measures for Underlying scheme

Market Risk: The scheme is vulnerable to movements in the prices of securities invested by the underlying scheme, which could have a material bearing on the overall returns from the scheme. Investments in underlying equity shares of NASDAQ 100 ETF and/or other ETFs are subject to price fluctuation on daily basis. The volatility in the value of equity is due to various micro and macroeconomic factors like economic and political developments, changes in interest rates, etc. affecting the securities markets.

Mitigation - ETFs being passively managed carry lesser risk compared to active management. The underlying ETF scheme(s) where the Scheme intends to invest follow the underlying benchmarks and therefore the level of portfolio volatility would be same as that of the underlying benchmark. The fund manager would also endeavour to keep minimal cash levels to keep performance deviation from the underlying ETF's to minimal.

Currency Risk: As the underlying ETFs will invest in securities which are denominated in foreign currencies, fluctuations in the exchange rates of these foreign currencies may have an impact on the income and value of the underlying ETFs. The repatriation of capital to India may also be hampered by changes in the regulations concerning exchange controls or political circumstances as well as the application to it of other restriction on investment.

Mitigation: The scheme shall have the option to enter into permissible instruments (subject to applicable regulations by SEBI/RBI) for the purposes of hedging against the foreign exchange fluctuations.

Tracking error risk (pertaining to underlying scheme): The performance of the Scheme may not commensurate with the performance of the benchmark index on any given day or over any given period. Such variation, referred to as tracking error may impact the performance of the Scheme.

Mitigation: The Investment Manager would monitor the tracking error of the Scheme on an ongoing basis and would seek to minimize tracking error to the maximum extent possible.

Liquidity risk: The liquidity of investments made in the underlying Scheme may be restricted by trading volumes and settlement periods

Mitigation- As such the liquidity of stocks that the underlying schemes invest into could be relatively low. The underlying schemes will try to maintain a proper asset-liability match to ensure redemption / Maturity payments are made on time.

Risk control measures with respect to Debt Investments – i.e investment in Debt, Money Market Instruments & units of liquid schemes

Market Risk / Interest Rate Risk: Changes in interest rates may affect the Scheme's Net Asset Value as the prices of securities generally increase as interest rates decline and generally decrease as interest rates rise. The price movement up and down in fixed income securities will lead to possible movements in the NAV.

Mitigation - In a rising interest rates scenario the Scheme / underlying scheme may increase its investment in money market securities whereas if the interest rates are expected to fall the allocation to debt securities with longer maturity may be increased thereby mitigating risk to that extent.

Liquidity or Marketability Risk: This refers to the ease with which a security can be sold at or near to its valuation yield-to-maturity (YTM).

Mitigation- The Scheme / underlying scheme may invest in government securities, corporate bonds and money market instruments. While the liquidity risk for government securities, money market instruments and short maturity corporate bonds may be low, it may be high in case of medium to long maturity corporate bonds.

Credit risk or default risk: It refers to the risk that an issuer of a fixed income security may default (i.e., will be unable to make timely principal and interest payments on the security). Normally, the value of a fixed income security will fluctuate depending upon the changes in the perceived level of credit risk as well as any actual event of default. The greater the credit risk, the greater the yield required for someone to be compensated for the increased risk.

Mitigation- Apart from the basic examination, management's past track record will also be studied. In order to assess financial risk a detailed assessment of the issuer's financial statements will be undertaken to review its ability to undergo stress on cash flows and asset quality. A detailed evaluation of accounting policies, off-balance sheet exposures, notes, auditors' comments and disclosure standards will also be made to assess the overall financial risk of the potential borrower.

II. Information about the scheme:

A. Where will the scheme invest –

The corpus of the Scheme, will be primarily invested in units of underlying ETF focused on Nasdaq 100 TRI in accordance with the requirements stipulated by SEBI / RBI from time to time:

The indicative list of overseas Exchange Traded Funds are as follows:

- Shares NASDAQ 100 UCITS ETF.
- Invesco EQQQ NASDAQ-100 UCITS ETF
- Xtrackers Nasdaq 100 UCITS ETF

The scheme may also invest in similar overseas Exchange Traded Funds which shall have similar investment objective, investment strategy and other attributes.

The Scheme will also invest in Debt Instruments, Money Market Instruments and other permitted securities which will include but not limited to:

Debt Instruments & Money Market Instruments

Certificate of Deposit (CD)

Certificate of Deposit (CD) is a negotiable money market instrument issued by scheduled commercial banks and select all-India Financial Institutions that have been permitted by the RBI to raise short term resources. The maturity period of CDs issued by the Banks is between 7 days to one year, whereas, in case of FIs, maturity is one year to 3 years from the date of issue.

Commercial Paper (CP)

Commercial Paper (CP) is an unsecured negotiable money market instrument issued in the form of a promissory note, generally issued by the corporates, primary dealers and all India Financial Institutions as an alternative source of short term borrowings. CP is traded in secondary market and can be freely bought and sold before maturity.

Treasury Bill (T-Bill)

Treasury Bills (T-Bills) are issued by the Government of India to meet their short term borrowing requirements. T-Bills are issued for maturities of 14 days, 91 days, 182 days and 364 days. The Scheme may also invest in Cash Management Bill (CMB) issued by the Government of India to meet their short term borrowing requirements. CMB are generally issued for maturities of less than 91 days.

Commercial Usance Bills

Bill (bills of exchange/promissory notes of public sector and private sector corporate entities) Rediscounting, usance bills and commercial bills.

Repos

Repo (Repurchase Agreement) or Reverse Repo is a transaction in which two parties agree to sell and purchase the same security with an agreement to purchase or sell the same security at a mutually decided future date and price. The transaction results in collateralized borrowing or lending of funds. Presently in India, corporate debt securities, Government Securities, State Government Securities and T-Bills are eligible for Repo/Reverse Repo.

Tri-party repo means a repo contract where a third entity (apart from the borrower and lender), called a Tri-Party Agent, acts as an intermediary between the two parties to the repo to facilitate services like collateral selection, payment and settlement, custody and management during the life of the transaction.

The Scheme may undertake repo or reverse repo transactions in accordance with the directions issued by RBI and SEBI from time to time. Such investment shall be made subject to the guidelines which may be prescribed by the Board of Directors of the Asset Management Company and Trustee Company.

Securities created and issued by the Central and State Governments as may be permitted by RBI, securities guaranteed by the Central and State Governments (including but not limited to coupon bearing bonds, zero coupon bonds and treasury bills). State Government securities (popularly known as State Development Loans or SDLs) are issued by the respective State Government in co-ordination with the RBI.

Non -Convertible Debentures

Non convertible debentures are securities issued by companies / institutions promoted / owned by the Central or State Governments and statutory bodies which may or may not carry a Central/State Government guarantee, Public and private sector banks, all India Financial Institutions and Private Sector Companies. These instruments may be secured or unsecured against the assets of the Company and generally issued to meet the short term and long term fund requirements. These instruments may have fixed or floating rate coupon. The Scheme may also invest in the non convertible part of convertible debt securities.

Foreign Securities

The Scheme shall invest in units/securities issued by overseas mutual funds investing in eligible securities in terms of Para 12.19 of SEBI master circular for Mutual Funds and as amended from time to time, mutual funds can make overseas investments (other than overseas ETF) subject to a maximum of US \$ 1 billion and in overseas ETF subject to a maximum \$300 million or such limits as amended from time to time / RBI, and commensurate with the Scheme objectives. The Mutual Fund may also appoint overseas investment advisors and other service providers, to the extent permissible under the Regulations.

The Mutual Fund may open one or more foreign currency accounts abroad either directly, or through the custodian/sub-custodian, to facilitate investments and to enter into/deal in forward currency contracts, currency futures, interest rate futures / swaps, currency options for the purpose of hedging the risks of assets of a portfolio or for its efficient management. However, the use of such instruments shall be as permitted from time to time. All the requirement of the SEBI circular dated September 26, 2007 read with SEBI circular date November 5, 2020 and June 3, 2021, would be adhered to by the AMC for investment in foreign

securities.

Limits for a period of six months from the date of closure of NFO: The Scheme intends to initially invest US \$ 100 mn in overseas securities subject to maximum limit specified in SEBI circulars. The above limits will be valid for six months from the closure of the New Fund Offer. Thereafter, the unutilized limit, if any, shall not be available to the Scheme for investment in overseas securities and shall be available towards the unutilized industry wide limits. Further, after 6 months of closure of New fund offer shall the norms of ongoing scheme as specified in the SEBI circulars shall be followed. The above limits will be subject to changes, if any, specified by SEBI from time to time.

Limits post completion of a period of six months from the date of closure of NFO (ongoing): An investment headroom of 20% of the average AUM in overseas securities / overseas ETFs of the previous three calendar months would be available to the Mutual Fund for that month to invest in overseas securities / overseas ETFs subject to maximum limits specified in SEBI circulars. Investment in overseas securities shall be made in accordance with the requirements including appointment of a dedicated Fund Manager stipulated by SEBI and RBI from time to time.

Investment in overseas securities shall be made in accordance with the requirements including appointment of a dedicated Fund Manager stipulated by SEBI and RBI from time to time.

Short Term Deposits

Pending deployment of funds as per the investment objective of the Scheme, the Funds may be parked in short term deposits of the Scheduled Commercial Banks, subject to guidelines and limits specified by SEBI.

The securities / instruments mentioned above and such other securities the Scheme is permitted to invest in could be listed, unlisted, privately placed, secured, unsecured, rated and of any maturity.

The securities may be acquired through secondary market, private placement, rights offers, negotiated deals etc. Further investments in debentures, bonds and other fixed income securities will be in instruments which have been assigned investment grade rating by the Credit Rating Agency.

For applicable regulatory investment limits please refer paragraph "Investment Restrictions".

The Fund Manager may invest in any other security as maybe permitted from time to time and which are in line with the investment objectives of the Scheme.

Debt and Money Markets in India

The Indian debt market is today one of the largest in Asia and includes securities issued by the Government (Central & State Governments), public sector undertakings, other government bodies, financial institutions, banks and corporates. Government and public sector enterprises are the predominant borrowers in the markets. The major players in the Indian debt markets today are banks, financial institutions, mutual funds, insurance companies, primary dealers, trusts, pension funds and corporates. The Indian debt market is the largest segment of the Indian financial markets. The debt market comprises broadly two segments, viz. Government Securities market or G-Sec market and corporate debt market. The latter is further classified as market for PSU bonds and private sector bonds.

The Government Securities (G-Secs) market, consists of G-Sec outstanding of Rs. 80,86,643.177 cr as on Feb 17, 2022(State Govt securities - Rs 38,31,895.100 cr, (as on Feb'21) Source: CCIL), is the oldest and the largest component (50% share in market cap) of the Indian debt market in terms of market capitalization, outstanding securities and trading volumes. The G-Secs market plays a vital role in the Indian economy as it provides the benchmark for determining the level of interest rates in the country through the yields on the Government Securities which are referred to as the risk-free rate of return in any economy. Over the years, there have been new products introduced by the RBI like zero coupon bonds, floating rate bonds, inflation indexed bonds, etc.

The corporate bond market, in the sense of private corporate sector raising debt through public issuance in capital market, is only an insignificant part of the Indian Debt Market. A large part of the issuance in the non-Government debt market is currently on private placement basis.

The money markets in India essentially consist of the call money market (i.e. market for overnight and term money between banks and institutions), repo transactions (temporary sale with an agreement to buy back the securities at a future date at a specified price), commercial papers (CPs, short term unsecured promissory notes, generally issued by corporates), certificate of deposits (CDs, issued by banks) and Treasury Bills (issued by RBI). In a predominantly institutional market, the key money market players are banks, financial institutions, insurance companies, mutual funds, primary dealers and corporates. In money market, activity levels of the Government and nongovernment debt vary from time to time. Instruments that comprise a major portion of money market activity include but not limited to:

- Overnight Call
- Tri Party Repo
- Repo/Reverse Repo Agreement
- Treasury Bills
- Government securities with a residual maturity of < 1 year.
- Commercial Paper
- Certificate of Deposit

Apart from these, there are some other options available for short tenure investments that include MIBOR linked debentures with periodic exit options and other such instruments. Though not strictly classified as Money Market Instruments, PSU / DFI / Corporate paper with a residual maturity of < 1 year, are actively traded and offer a viable investment option.

The market has evolved in past 2-3 years in terms of risk premia attached to different class of issuers. Bank CDs have clearly emerged as popular asset class with increased acceptability in secondary market. PSU banks trade the tightest on the back of comfort from majority government holding. Highly rated manufacturing companies also command premium on account of limited supply. However, there has been increased activity in papers issued by private/foreign banks/NBFCs/companies in high-growth sector due to higher yields offered by them. Even though companies across these sectors might have been rated on a same scale, the difference in the yield on the papers for similar maturities reflects the perception of their respective credit profiles.

The following table gives approximate yields prevailing on March 31, 2025 on some of the instruments and further illustrates this point.

Instrument	Current Yield range (%)
Tri-party Repo	6-6.25
Repo	6-6.25
3M T-bill	6.50-55
1Y T-bill	6.55-60
10Y G-sec	6.50-55
3m PSU Bank CD	7-7.05
3m Manufacturing co. CP	7.10-15
1Y PSU Bank CD	7.05-10
1Y NBFC CP	7.40-45
1Y Manufacturing co. CP	7.15-20
5Y AAA Institutional Bond	7.10-15
10Y AAA Institutional Bond	7.10-15

These yields are indicative and do not indicate yields that may be obtained in future as interest rates keep changing consequent to changes in macro-economic conditions and RBI policy. The price and yield on various debt instruments fluctuate from time to time depending upon the macro economic situation, inflation rate, overall liquidity position, foreign exchange scenario etc. Also, the price and yield vary according to maturity profile, credit risk etc.

B. What are the investment restrictions?

Pursuant to Regulations, specifically the Seventh Schedule and amendments thereto, the following investment restrictions are currently applicable to the Scheme:

1. The Scheme shall not invest more than 10% of its NAV in debt instruments comprising money market instruments and non-money market instruments issued by a single issuer, which are rated not below investment grade by a credit rating agency authorized to carry out such activity under the SEBI Act, 1992. Such investment limit may be extended to 12% of the NAV of the Scheme with the prior approval of the Trustee and the Board of Directors of AMC.

Provided that such limit shall not be applicable for investment in Government Securities, treasury bills and tri party repo on government securities.

Note: According to the Asset Allocation of the Scheme, the indicative allocation of the Scheme to Debt, Money market instruments and / or units of liquid schemes shall be in the range of 0% to 5% of the net assets of the Scheme, subject to conditions specified.

2. A mutual fund scheme shall not invest more than:

<p>Ongoing price for subscription (purchase)/switch-in (from other schemes/plans of the mutual fund) by investors.</p> <p>This is the price you need to pay for purchase/switch-in.</p>	<p>At the Applicable NAV.</p> <p>Para 10.4 of SEBI Master Circular for Mutual Funds and as amended from time to time, has decided that there shall be no Entry Load for all Mutual Fund schemes. Hence, no entry load is levied for subscription transactions by the Scheme.</p> <p>Methodology of calculating subscription price: Subscription Price = Applicable NAV*(1+Entry Load, if any) Example: If the Applicable NAV is Rs. 10, Entry Load is NIL then the subscription price will be: = Rs. 10* (1+NIL) = Rs. 10</p>
<p>Ongoing price for redemption (sale) /switch outs (to other schemes/plans of the Mutual Fund) by investors.</p> <p>This is the price you will receive for redemptions/switch outs.</p>	<p>At the Applicable NAV subject to prevailing Exit Load.</p> <p>Ongoing price for redemption /Switch out (to other Schemes/Plans of the Mutual Fund) is price which a Unit holder will receive for redemption/Switch-outs. During the continuous offer of the Scheme, the Unit holder can redeem the Units at Applicable NAV, subject to payment of Exit Load, if any.</p> <p>Methodology of calculating repurchase price: Redemption Price = Applicable NAV*(1-Exit Load, if any) Example: If the Applicable NAV is Rs. 10, Exit Load is 1% then redemption price will be: = Rs. 10* (1-0.01) = Rs. 9.99</p> <p>Investors/Unit holders should note that the AMC/Trustee has right to modify existing Load structure and to introduce Loads subject to a maximum limits prescribed under the SEBI Regulations.</p> <p>Any change in Load structure will be effective on prospective basis and will not affect the existing Unit holder in any manner.</p> <p>However, the Mutual Fund will ensure that the Redemption Price will not be lower than 95% of the Applicable NAV. The Purchase Price shall be at applicable NAV.</p>
<p>Minimum amount for purchase / redemption / switches</p>	<p>Refer Section I – Part I for Minimum amount for purchase/redemption/switches.</p> <p>Minimum Redemption Amount/Switch Out</p> <p>There will be no minimum redemption criterion. The Redemption / Switch-out would be permitted to the extent of credit balance in the Unit holder's account of the Plan(s) / Option(s) of the Scheme (subject to completion of Lock-in period or release of pledge / lien or other encumbrances). The Redemption / Switch-out request can be made by specifying the rupee amount or by specifying the number of Units of the respective Plan(s) / Option(s) to be redeemed. In case a Redemption / Switch-out request received is for both, a specified rupee amount and a specified number of Units of the respective Plan(s)/ Option(s), the specified number of Units will be considered the definitive request. In case the value / number of available units held in the Unit holder's folio / account under the Plan / Option of the Scheme is less than the amount / number of units specified in the redemption / switch-out request, then the transaction shall be treated as an all units redemption and the entire balance of available Units in the folio / account of the Unit holder shall be redeemed.</p> <p>In case of Units held in dematerialized mode, the Unit Holder can give a request for Redemption only in number of Units which can be fractional units also. Depository</p>

	<p>participants of registered Depositories can process only redemption request of units held in demat mode .</p> <p>The AMC/ Trustee reserves the right to change/ modify the terms of minimum redemption amount/switch-out.</p> <p>Note: Pursuant to the directive issued by SEBI and as communicated by AMFI vide its email dated March 20, 2024, in order to adhere to industry-wide investment limits for overseas ETFs, Axis Mutual Fund has stop subscriptions of the schemes intending to invest in overseas ETFs, effective from April 1, 2024.</p> <p>In view of the above:</p> <p>a) Axis Mutual Fund had temporarily suspended lump-sum subscription, switch-ins and fresh registration of Systematic Investment Plan (SIP)/Systematic Transfer Plan (STP) or such other special product in the schemes of the fund after the applicable cut off timing (i.e. 3.00 pm) on March 28, 2024.</p> <p>b) Existing SIP facility availed in the aforesaid scheme shall be paused from April 1, 2024, till further notice. Once the temporary suspension on SIPs is discontinued the existing SIPs will continue till end of the pre-defined tenure of such SIPs, as had been decided by the investor at the time of registration of such SIPs.</p> <p>Further, there will be no restriction on redemption / intra scheme switches between Plan(s) and Option(s) in the same scheme, registration of fresh Systematic Withdrawal Plan (SWP) and instalments of existing SWP / STP where any of the aforesaid scheme is the source scheme.</p> <p>The aforesaid suspension is temporary in nature and will be in effect till further direction from regulators in this regard.</p>
Accounts Statements	<p>The AMC shall send an allotment confirmation specifying the units allotted by way of email and/or SMS within 5 working days of receipt of valid application/transaction to the Unit holders registered e-mail address and/ or mobile number (whether units are held in demat mode or in account statement form).</p> <p>The depositories shall dispatch a monthly consolidated statement with details across all schemes of mutual funds and securities held in dematerialized form across demat accounts and dispatch the same to investors who have opted for delivery via electronic mode (e-CAS) by the 12th day from the month end and to investors who have opted for delivery via physical mode by the 15th day from the month end.</p> <p>For folios where there are no transactions during the half – year , the depositories shall dispatch a consolidated statement i.e. half-yearly CAS at the end of every six months (i.e. September/ March) to investors that have opted for e-CAS on or before the 18th day of April and October and to investors who have opted for delivery via physical mode by the 21st day of April and October to all investors providing the prescribed details across all schemes of mutual funds and securities held in dematerialized form across demat accounts, if applicable</p> <p>For further details, refer SAI.</p>
Dividend/ IDCW	<p>The warrants/cheque/demand draft shall be dispatched to the Unit holders within seven (7) working days from the record date.</p> <p>The AMC shall be liable to pay interest to the Unit holders at 15% p.a. or such other rate</p>

	as may be prescribed by SEBI from time to time, in the event of failure of despatch of dividend payments within the stipulated time period calculated from the record date.
Redemption	<p>The redemption or repurchase proceeds shall be dispatched to the unitholders within five working days from the date of redemption or repurchase.</p> <p>For list of exceptional circumstances refer para 14.1.3 of SEBI Master Circular for Mutual Funds</p> <p>For detailed procedure on how to redeem, kindly refer SAI.</p>
Bank Mandate	It is mandatory for investors to mention bank account details on the form. Applications without this information are liable to be rejected. The Mutual Fund / AMC reserve the right to hold redemption proceeds in case requisite bank details are not submitted.
Delay in payment of redemption / repurchase proceeds / dividend	<p>The Asset Management Company shall be liable to pay interest to the unitholders at rate as specified vide para 14.2 of SEBI Master Circular for Mutual Funds for the period of such delay.</p> <p>The AMC shall pay interest to the Unit holders at 15% or such other rate as may be prescribed by SEBI from time to time, in case the Redemption / Repurchase proceeds are not made within five (5) working Days of the date of Redemption / Repurchase.</p> <p>However, the AMC will not be liable to pay any interest or compensation or any amount otherwise, in case the AMC / Trustee is required to obtain from the Investor / Unit holders verification of identity or such other details relating to Subscription for Units under any applicable law or as may be requested by a Regulatory Agency or any government authority, which may result in delay in processing the application.</p>
Unclaimed Redemption and Income Distribution cum Capital Withdrawal Amount	<p>As per Para 14.3 of SEBI Master Circular on Mutual Funds as amended from time to time, the unclaimed Redemption and IDCW amounts shall be deployed by the Fund in money market instruments and such other instruments/securities as maybe permitted from time to time. The investment management fee charged by the AMC for managing such unclaimed amounts shall not exceed 50 basis points. The circular also specifies that investors who claim these amounts during a period of three years from the due date shall be paid at the prevailing NAV. Thus, after a period of three years, this amount can be transferred to a pool account and the investors can claim the said amounts at the NAV prevailing at the end of the third year. In terms of the circular, the onus is on the AMC to make a continuous effort to remind investors through letters to take their unclaimed amounts. The details of such unclaimed amounts shall be disclosed in the annual report sent to the Unit Holders.</p> <p>Further, according to Para 14.3 of SEBI Master Circular for Mutual Funds as amended from time to time the unclaimed Redemption and IDCW amounts may be deployed in separate plan of Liquid scheme/ Overnight scheme /Money market mutual fund scheme floated by Mutual Funds specifically for deployment of the unclaimed Redemption and IDCW amounts.</p>
