## Part II. INFORMATION ABOUT THE SCHEME

### A. HOW WILL THE SCHEME ALLOCATE ITS ASSETS?

Under normal circumstances, the anticipated asset allocation would be:

Instruments	Indicative asset allocation (% of total assets)		Risk Profile
	Minimum	Maximum	
#Government Securities representing the G-Sec portion of Nifty G-Sec Sep 2027 Index	95%	100%	Low to Moderate
**Money Market instruments & Cash and Cash Equivalents	0%	5%	Low

Cash Equivalents include Government Securities, T-Bills and Repo on Government Securities having residual maturity of less than 91 days.

\*\*Money Market Instruments will include treasury bills and government securities having a residual maturity upto one year and Tri-Party Repos on Government securities or Treasury bills.

During normal circumstances, the Scheme's exposure to money market instruments will be in line with the asset allocation table. However, in case of maturity of G-Secs in the Scheme portfolio, the reinvestment will be in line with the index methodology.

The scheme will not participate in repo in corporate debt.

The scheme will neither make any investment in ADR/ GDR/ Foreign Securities/ Structured Obligations / Credit Enhancements / Securitized Debt nor will it engage in short selling and securities lending. Further, it shall not take any exposure in derivative instruments.

The cumulative gross exposure through Debt & Money Market instruments and such other securities/assets as may be permitted by SEBI from time to time should not exceed 100% of the net assets of the scheme as per Clauses 12.24 and 12.25 of SEBI Master Circular dated June 27, 2024.

As per SEBI Letter dated 3rd November 2021 Cash and cash equivalents having residual maturity of less than 91 Days are not considered for the purpose of calculating gross exposure limit.

# Pursuant to Clause 3.5 of the SEBI Master Circular dated June 27, 2024, scheme shall be considered to be replicating the underlying index, provided:

- The duration of the portfolio of ETF/ Index Fund replicates the duration of the underlying index within a maximum permissible deviation of +/- 10%.
- In case of Target Maturity (or Target Date) ETFs/ Index Funds, the following norms for permissible deviation in duration shall apply:
  - For portfolio with residual maturity of greater than 5 years: Either +/- 6 months or +/- 10% of duration, whichever is higher.
  - For a portfolio with residual maturity of up to 5 years: Either +/- 3 months or +/- 10% of duration, whichever is higher.
  - However, at no point of time, the residual maturity of any security forming part of the portfolio shall be beyond the target maturity date of the ETF/ Index Fund.

The Fund Manager would monitor the Tracking Error of the Scheme on an ongoing basis and would seek to minimize the Tracking Error to the maximum extent possible.

#### Rebalancing of deviation due to short term defensive consideration:

Any alteration in the investment pattern will be for a short term on defensive considerations as per clause 1.14.1.2 of SEBI Master Circular dated June 27, 2024, the intention being always to protect the interests of the Unit Holders and the Scheme shall rebalance the portfolio within 7 calendar days.

It may be noted that no prior intimation/indication will be given to investors when the composition/asset allocation pattern under the Scheme undergoes changes within the permitted band as indicated above.

#### Portfolio rebalancing in case of passive breach:

In line with clause 3.5 of SEBI Master Circular dated June 27, 2024, in case of change in constituents of the index due to periodic review, the portfolio of Scheme shall be rebalanced within 7 calendar days. Further, any transactions undertaken in the portfolio of Index Schemes to meet the redemption and subscription obligations shall be done ensuring that post such transactions replication of the portfolio with the index is maintained at all points of time.

However, always the portfolio will adhere to the overall investment objectives of the Scheme. However, the same will be rectified at the earliest opportunity as may be available, but not later than 7 days, to minimize the tracking error

In the event of involuntary corporate action, the scheme shall dispose the security not forming part of the underlying index within 7 calendar days from the date of allotment/listing

#### Tracking Error

Tracking error is defined as the annualized standard deviation of the difference in daily returns between NAV of the Scheme and the underlying index. Theoretically, the corpus of the Scheme has to be fully invested in the securities comprising the Underlying Index in the same proportion of weights as the securities have in the Underlying Index. However, deviations from the stated index replication may occur due to reason that the Scheme has to incur expenses, corporate actions pertaining to the Index including changes to the constituents,

regulatory policies, ability of the Fund Manager to replicate the Underlying Index, delay in purchase or non-availability of underlying securities forming part of the index etc. Tracking Error may arise due to the following reasons:

1. Delay in purchase or non-availability of underlying securities forming part of the index.
2. Delay in liquidation of securities which have been removed by the Index.
3. Difference in valuation of underlying securities by the Index Provider and AMC's valuation providers.
4. Fees and expenses of the Scheme.
5. Cash balance held by the Scheme due to interest received during subscriptions, redemption, etc.
6. Halt in trading on the stock exchange due to circuit filter rules.
7. Corporate actions
8. The Scheme has to invest in the securities in whole numbers and has to round off the quantity of securities.
9. Interest/Dividend payout.
10. Changes in the constituents of the underlying Index. Whenever there are any changes, the Scheme has to reallocate its investment as per the revised Index but market conditions may not offer an opportunity to rebalance its portfolio to match the Index and such delay may affect the NAV of the Scheme.

The AMC would monitor the tracking error of the Scheme on an ongoing basis and would seek to minimize tracking error to the maximum extent possible.

#### Tracking difference

Tracking difference is defined as the annualized difference of returns between the NAV of the scheme and the underlying index. The AMC would monitor the tracking difference of the Scheme on an ongoing basis. The annualized tracking difference averaged over one year period shall not exceed 1.25%. In case, the average annualized tracking difference over one year period for the scheme is higher than 1.25%, the same shall be brought to the notice of trustees with corrective actions taken by the AMC, if any.

**B. WHERE WILL THE SCHEME INVEST?**

**Investment in Government Securities (G-Secs):** The Scheme would invest in Government Securities representing the G-Secs comprising Nifty G-Sec Sep 2027 Index and endeavor to track the benchmark index.

**Investment in money market instruments and Cash & Cash Equivalents:** The Scheme may also invest in money market instruments, in compliance with Regulations. Money Market Instruments will include treasury bills and government securities having a residual maturity upto one year and Tri-Party Repos on Government securities or Treasury bills. Cash Equivalents include Government Securities, T-Bills and Repo on Government Securities having residual maturity of less than 91 days.

**Debt Market In India**

The Indian Debt market is facing major shift in the recent times. The substantial growth in Mutual Fund collections in the past few years have provided an easy route for the investors to channelise their savings into the debt market, which otherwise is largely dominated by Banks and other Institutional investors.

At present, the Indian debt market is dominated by issues of Central Government bonds, Corporate Debentures and PSU Bonds. The new Securitised instruments are also very attractive in the primary market. Risk associated with securitized Debt or PTCs are credit risk, liquidity risk and price risk/interest rate risk. The other instruments available for investment are Commercial Papers, Certificate of Deposits, Government guaranteed bonds, etc.

Brief details about the instruments are given below as on Sep 30, 2025.

Instruments	Listed/ Unlisted	Current Yield Range As on Mar 28, 2025	Liquidity	Risk profile
Central Government Securities	Listed	5.40% - 7.29%	High	Low
Corporate Debentures / PSU Bonds	Listed	6.67%-7.22%	Moderate	Low
CDs (short term)	Unlisted	5.95% - 6.44%	High	Low
Call Money	Unlisted	4.75%- 5.85%	High	Low
Mibor linked Papers*	Listed	125-145 bps	Low	Low

**\* Range of spread of 5 year AAA Corporate bond and OIS papers of similar maturity**

A brief description about yields presently available on Central Govt. Securities /Bonds & Debentures of various maturities is as follows:

Annualised yields (as on Sep 30, 2025) are:

Yrs	=< 1yr	1yr - 5yr	5yr - 10yrs	10yr - 30 yrs
Central Government securities	5.47%-5.74%	5.74%-6.38%	6.37%-6.80%	6.68%-7.34%
Debentures/ Bonds (AAA rated)	6.67%-6.70%	6.74%-7.00%	7.02%-7.22%	-

THE PRICE AND YIELD ON VARIOUS DEBT INSTRUMENTS FLUCTUATE FROM TIME TO TIME DEPENDING UPON THE MACRO ECONOMIC SITUATION, INFLATION RATE, OVERALL LIQUIDITY POSITION, FOREIGN EXCHANGE SCENARIO, ETC. ALSO, THE PRICE AND YIELD VARIES ACCORDING TO MATURITY PROFILE, CREDIT RISK ETC.

**C. WHAT ARE THE INVESTMENT STRATEGIES?**

Nippon India Nifty G-Sec Sep 2027 Maturity Index Fund is a passively managed Index fund which will employ an investment approach designed to track the performance of Nifty G-Sec Sep 2027 Index.

The Scheme will follow Buy and Hold investment strategy in which existing G-Secs will be held till maturity unless sold for meeting redemptions requirement.

Pursuant to Clause 3.5 of the SEBI Master Circular dated June 27, 2024, scheme shall be considered to be replicating the underlying index, provided:

- The duration of the portfolio of ETF/ Index Fund replicates the duration of the underlying index within a maximum permissible deviation of +/- 10%.
- In case of Target Maturity (or Target Date) ETFs/ Index Funds, the following norms for permissible deviation in duration shall apply:
  - For portfolio with residual maturity of greater than 5 years: Either +/- 6 months or +/- 10% of duration, whichever is higher.
  - For a portfolio with residual maturity of up to 5 years: Either +/- 3 months or +/- 10% of duration, whichever is higher.
  - However, at no point of time, the residual maturity of any security forming part of the portfolio shall be beyond the target maturity date of the ETF/ Index Fund.

During normal circumstances, the Scheme's exposure to money market instruments will be in line with the asset allocation table. However, in case of maturity of G-Secs in the Scheme portfolio, the reinvestment will be in line with the index methodology.

## Risk Control

For the Scheme, risks would be the impact cost on securities, the delayed communication of weightage changes by the index service providers and the delayed calculation of net change in assets of the Scheme, amongst others.

It is proposed to manage the risks by placing limit orders for basket trades and other trades, proactive follow-up with the service providers for daily change in weights in index as well as monitor daily inflows and outflows to and from the Fund closely.

While these measures are expected to mitigate the above risks to a large extent, there can be no assurance that these risks would be completely eliminated. Since investing requires disciplined risk management, the AMC would incorporate adequate safeguards for controlling risks in the portfolio construction process.

## Disclosure of Trading in Derivatives

The Scheme does not invest in Derivatives.

## D. HOW WILL THE SCHEME BENCHMARK ITS PERFORMANCE?

### Nifty G-Sec Sep 2027 Index

Considering the investment in the scheme is made with the objective of achieving return commensurate with the performance of Nifty G-Sec Sep 2027 Index, we propose to have Nifty G-Sec Sep 2027 Index as benchmark.

### vi. Investments of AMC in the Scheme –

Subject to the Regulations, the AMC may invest in the Scheme during the NFO and/or on ongoing basis.

In terms of sub-regulation 16(A) in Regulation 25 of SEBI (Mutual Funds) Regulations, 1996 read along with Clause 6.9 of the SEBI Master Circular dated June 27, 2024 and AMFI Best Practice Guidelines Circular No.100 /2022-23 dated April 26, 2022 on 'Alignment of interest of AMCs with the Unitholders of the Mutual Fund schemes', the AMC shall invest its own funds in the scheme(s) based on the risks associated with the schemes, as may be specified by the SEBI from time to time.

Further, the AMC shall not charge any investment management and advisory fee on its investment in the Scheme (s), unless allowed to do so under SEBI Regulations in the future.

For details of investment please visit : <https://mf.nipponindiaim.com/investor-service/statutory-disclosures>

**A. COMPUTATION OF NAV**

The Net Asset Value (NAV) of the Units will be determined daily or as prescribed by the Regulations. The NAV shall be calculated in accordance with the following formula, or such other formula as may be prescribed by SEBI from time to time.

NAV =	Market/Fair Value of Scheme's Investments + Receivables + Accrued Income + Other Assets - Accrued Expenses- Payables- Other Liabilities
	Number of Units Outstanding

**Rounding off policy for NAV**

Net Asset Value of the Units in the Scheme is calculated in the manner provided in this Scheme Information Document or as may be prescribed by Regulations from time to time. The NAV will be computed upto four decimal places.

Example: If the applicable NAV is Rs. 10.00, sales/entry load is 2 per cent and the exit/repurchase load is 2 percent then the sales price will be Rs. 10.20 and the repurchase price will be Rs. 9.80.

**Illustration for computation of NAV:**

Particulars	Amount (In INR)
Assets	
Market/Fair Value of Scheme's Investments	1,00,000
Current Assets	
Receivables	1,500
Accrued Income	500
Other Assets	1,000
Total Assets (A)	1,03,000
Current Liabilities	
Accrued Expenses	1,100
Payables	300
Other Liabilities	100
Total Liabilities (B)	1,500
Net Assets (C) (A – B)	1,01,500
Units Outstanding (D)	10,000
NAV per unit (C/D)	10.1500

The mutual fund shall ensure that the repurchase price of the scheme is not lower than 97% of the Net Asset Value.

**Methodology for calculation of sale and re-purchase price of the units of mutual fund scheme:**

Let's assume that the NAV of a Mutual Fund Scheme on April 01, 2018 is Rs. 10/-.

**Purchase of mutual fund units:**

The Purchase Price of the Units on an ongoing basis will be same as Applicable NAV.

Purchase Price = Applicable NAV

In the above example, purchase is done on April 01, 2018, when the Applicable NAV = Rs. 10/-. Therefore, Purchase Price = Rs. 10/-

As per existing Regulations, no entry load is charged with respect to applications for purchase / additional purchase of mutual funds units.

**Redemption/Re-purchase of mutual fund units:**

The Redemption Price of the Units will be calculated on the basis of the applicable NAV subject to prevailing Exit Load, if any. In case of redemption, the amount payable to the investor shall be calculated as follows:

Redemption Price = Applicable NAV \* (1 - Exit Load)

Say, in the above example the exit load applicable is

For exit on or before 12 months from the date of allotment – 1.00%

For exit after 12 months from the date of allotment – Nil.

Scenario 1: Redemption is done during applicability of exit load

In case the investor requests for redemption on or before 12 months i.e. on or before March 31, 2019; say December 1, 2018, when the NAV of the scheme is Rs. 12/- and the exit load applicable is 1%, so the Redemption amount payable to investor shall be calculated as follows:

$$\begin{aligned}\text{Redemption Price} &= \text{Applicable NAV} * (1 - \text{Exit Load}) \\ &= \text{Rs. } 12 * (1 - 1\%) = \text{Rs. } 11.88/-\end{aligned}$$

Scenario 2: Redemption is done when the exit load is NIL

In case the investor requests for redemption after 12 months i.e. after March 31, 2019; say April 1, 2019, when the NAV of the scheme is Rs. 12/- and the exit load applicable is NIL, so the Redemption amount payable to investor shall be calculated as follows:

$$\begin{aligned}\text{Redemption Price} &= \text{Applicable NAV} * (1 - \text{Exit Load}) \\ &= \text{Rs. } 12 * (1 - 0) = \text{Rs. } 12/-\end{aligned}$$

The aforesaid example does not take into consideration any applicable statutory levies or taxes. Accordingly, the redemption amount payable to investor shall further reduce to the extent of applicable statutory levies or taxes.

For other details such as policies w.r.t computation of NAV, rounding off, investment in foreign securities, procedure in case of delay in disclosure of NAV etc. refer to SAI

## B. NEW FUND OFFER (NFO) EXPENSES

These expenses are incurred for the purpose of various activities related to the NFO like sales and distribution fees paid marketing and advertising, registrar expenses, printing and stationary, bank charges etc. The NFO expenses shall be borne by the AMC.

Being an ongoing Scheme details as regard NFO expenses have not been provided herein.

## C. ANNUAL SCHEME RECURRING EXPENSES

These are the fees and expenses for operating the scheme. These expenses include Investment Management and Advisory Fee charged by the AMC and other expenses as given in the table below:

The AMC has estimated that the following % of the daily net assets of the scheme will be charged to the scheme as expenses. The AMC would update the current expense ratios on the website of the mutual fund at least three working days prior to the effective date of the change.

Further Actual Expense ratio will be disclosed at the following link

<https://mf.nipponindiaim.com/investor-services/downloads/total-expense-ratio-of-mutual-fund-schemes>

Other Expenses #	
<b>Maximum total expense ratio (TER) permissible under Regulation 52 (6) (b)</b>	<b>Upto 1.00%</b>

(# Expenses charged under the said parameters shall be in line with the Regulation 52 of SEBI (MF) Regulations or such other basis as specified by SEBI from time to time.)

<b>Illustration – Impact of Expense Ratio on the Returns</b>		
Particulars	Regular Plan/Other than Direct Plan	Direct Plan
Amount Invested at the beginning of the year	10,000	10,000
Returns before Expenses	1,500	1,500
Expenses other than Distribution Expenses	150	150
Distribution Expenses	50	-
Returns after Expenses at the end of the Year	1,300	1350
Returns	13.00%	13.50%

**Note:** Please note that the above is an approximate illustration of the impact of expenses on the returns, where the Returns before Expenses have been simply reduced to the extent of the expenses. The actual impact would vary depending on the path of returns over the period of consideration. Expenses will be charged on daily net assets.

These estimates have been made in good faith as per the information available to the Investment Manager based on past experience and are subject to change inter-se as per actual but the total expenses shall not exceed the limits permitted by SEBI. Types of expenses charged shall be as per the SEBI (MF) Regulations. The purpose of the above table is to assist the investor in understanding the various costs and expenses that an investor in the scheme will bear directly or indirectly.

Mutual funds /AMCs may charge goods & service tax on investment and advisory fees to the scheme in addition to the maximum limit as prescribed in regulation 52 of the SEBI Regulations.

Goods & Service tax on other than investment and advisory fees, if any, shall be borne by the scheme within the maximum limit as per regulation 52 of the SEBI Regulations.

Mutual Funds/AMCs will annually set apart at least 1 basis point on daily net assets within the maximum limit as per regulation 52 of the SEBI Regulations for investor education and awareness initiatives.

With effect from 16th March 2025, for Passive schemes and Overseas Fund of Funds (FoFs) - based on underlying indices as per clause 3 and clause 4 of the SEBI circular SEBI/HO/IMD/PoD2/P/CIR/2024/183 dated 31st December 2024, AMCs shall allocate funds towards investor education and awareness initiatives as 5% of total TER charged to direct plans, subject to maximum of 0.5 bps of AUM

Direct Plan shall have a lower expense ratio excluding distribution expenses, commission, and no commission shall be paid from such plan. Further, the NAV of Direct Plan shall be different from the NAV of Regular Plan given the two plans carry different Total Expense Ratio (TER).

However, no Investment Management fees would be charged on NAM India's investment in the Scheme. The Trustee Company, shall be entitled to receive a sum computed @ 0.05% of the Unit Capital of all the Schemes of NIMF on 1st April each year or a sum of Rs.5,00,000/- whichever is lower or such other sum as may be agreed from time to time in accordance with the SEBI Regulations or any other authority, from time to time.

The investors in the Nippon India Nifty G-Sec Sep 2027 Maturity Index Fund will be charged a maximum of 1.00% of the daily net assets excluding additional expenses as allowed by sub regulation 6A of regulation 52.

AMC is free to allocate the above list of expenses within the overall maximum limit prescribed under SEBI (Mutual Funds) Regulations, 1996, which means there will be no internal sub-limits on charging of any particular expense in the scheme.

In terms of Regulation 52(1) of SEBI (Mutual Funds) Regulations, 1996, all scheme related expenses including commission paid to distributors, by whatever name it may be called and in whatever manner it may be paid, will necessarily be paid from the scheme only within the regulatory limits and not from the books of AMC, its associate, sponsor, trustee or any other entity through any route. Provided that the expenses that are very small in value but high in volume may be paid out of AMC's books. Such expenses shall be paid out of AMC books at actuals or not exceeding 2 bps of respective scheme AUM, whichever is lower. List of such miscellaneous expenses may be provided by AMFI in consultation with SEBI or as specified/amended by AMFI/SEBI from time to time.

In addition to the limits specified in regulation 52(6), the following costs or expenses may be charged to the scheme as per sub regulation 6A, namely-

- (a) Brokerage and Transaction costs (including GST) incurred for the execution of trades may be expensed out in the scheme to the extent of 0.12 per cent of the value of trades in case of cash market transactions. Any payment towards brokerage and transaction costs incurred for the execution of trades, over and above the said 0.12 per cent for cash market transactions may be charged to the scheme within the maximum limit of Total Expense Ratio (TER) as prescribed under Regulation 52 of the SEBI (Mutual Funds) Regulations, 1996.

The Fund will strive to reduce the level of these expenses so as to keep them well within the maximum limits allowed by SEBI. Expenses on an ongoing basis will not exceed the percentage of the daily net assets or such maximum limits as may be specified by SEBI Regulations from time to time.

## **D. LOAD STRUCTURE**

**Exit Load: Not Applicable**

**Switchover Facility**

Available, subject to minimum application amount in switch-in scheme (for opening a new folio/account) and minimum additional investment amount in switch-in scheme for switch-ins thereafter

**Inter scheme Switch: At the applicable exit loads in the respective schemes.**

**Inter Plan/Inter Option Switch/Systematic Transfer Plans (STP):**

Switch / Systematic transfer of Investments made from 'Regular Plan' to 'Direct Plan' under the scheme and vice versa, will not be subject to exit load.

No load shall be applicable for Inter Option Switch/systematic transfer of investments within the same plan under the scheme (for e.g. Growth option to Income Distribution cum Capital Withdrawal option and vice versa).

Further, the Trustees shall have a right to prescribe or modify the load structure with prospective effect subject to a maximum prescribed under the Regulations. For any change in load structure NAM India will publish an addendum in the newspaper(s) and display it on the website/Investor Service Centres

The investor is requested to check the prevailing load structure of the scheme before investing. Load amounts are variable and are subject to change from time to time.

For any change in load structure NAM India will issue an addendum and display it on the website/Investor Service Centres.

Unitholders will have the flexibility to change the allocation of their investments among the various scheme(s) offered by the Mutual Fund, in order to suit their changing investment needs, by easily switching between the scheme(s) / plans/options of the Mutual Fund.

## B. Risk Factors

## SCHEME SPECIFIC RISK FACTORS

## (a) Risks associated with investing in Fixed Income Securities

Investment in Fixed Income Securities is subject to price, credit, and interest rate risk. The NAV of the Scheme may be affected, inter alia, by changes in the market conditions, interest rates, trading volumes, settlement periods and transfer procedures.

Fixed Income Securities are subject to the risk of an issuer's inability to meet interest and principal payments on its debt obligations (credit risk). Fixed Income Securities may also be subject to price volatility due to factors such as changes in interest rates, general level of market liquidity and market perception of the creditworthiness of the issuer, among others (market risk). The Investment Manager will endeavor to manage credit risk through in-house credit analysis. The Scheme may also use various hedging products from time to time, as are available and permitted by SEBI, to attempt to reduce the impact of undue market volatility on the Scheme's portfolio.

The NAV of the Scheme's Units, to the extent that the Scheme is invested in fixed income securities, will be affected by changes in the general level of interest rates. When interest rates decline, the value of a portfolio of fixed income securities can be expected to rise. Conversely, when interest rates rise, the value of a portfolio of fixed income securities can be expected to decline. Investing in Fixed Income securities are subject to the risk of an Issuer's inability to meet principal and interest payments obligation (credit risk) and may also be subject to price volatility due to such factors as interest rate sensitivity, market perception of the creditworthiness of the issuer and general market liquidity (market risk).

The timing of transactions in debt obligations, which will often depend on the timing of the Purchases and Redemptions in the Scheme, may result in capital appreciation or depreciation because the value of debt obligations generally varies inversely with the prevailing interest rates.

**Interest Rate Risk:** As with all debt securities, changes in interest rates will affect the Scheme's Net Asset Value as the prices of securities generally increase as interest rates decline and generally decrease as interest rates rise. Prices of longer-term securities generally fluctuate more in response to interest rate changes than do shorter-term securities. Interest rate movements in the Indian debt markets can be volatile leading to the possibility of large price movements up or down in debt and money market securities and thereby to possibly large movements in the NAV.

**Credit Risk:** Credit risk or default risk refers to the risk which may arise due to default on the part of the issuer of the fixed income security (i.e. will be unable to make timely principal and interest payments on the security). Because of this risk debentures are sold at a yield spread above those offered on Treasury securities, which are sovereign obligations and generally considered to be free of credit risk. Normally, the value of a fixed income security will fluctuate depending upon the actual changes in the perceived level of credit risk as well as the actual event of default.

**Liquidity or Marketability Risk:** This refers to the ease at which a security can be sold at or near its true value. The primary measure of liquidity risk is the spread between the bid price and the offer price quoted by a dealer. Liquidity risk is characteristic of the Indian fixed income market.

**Reinvestment Risk:** This risk refers to the interest rate levels at which cash flows received from the securities in the Scheme or from maturities in the Scheme are reinvested. The additional income from reinvestment is the "interest on interest" component. The risk refers to the fall in the rate for reinvestment of interim cash flows.

## Risks associated with various types of securities

	CREDIT RISK	LIQUIDITY RISK	PRICE RISK
Listed	Depends on credit quality	Relatively Low	Depends on duration of instrument
Unlisted	Depends on credit quality	Relatively High	Depends on duration of instrument
Secured	Relatively low	Relatively Low	Depends on duration of instrument
Unsecured	Relatively high	Relatively High	Depends on duration of instrument
Rated	Relatively low and depends on the rating	Relatively Low	Depends on duration of instrument
Unrated	Relatively high	Relatively High	Depends on duration of instrument

Different types of securities in which the scheme would invest as given in the Scheme Information Document carry different levels and types of risk. Accordingly, the scheme's risk may increase or decrease depending upon its investment pattern e.g. corporate bonds, carry a higher level of risk than Government securities. Further even among corporate bonds, bonds which are AAA rated are comparatively less risky than bonds which are AA rated.

## (b) Risk associated with G-Sec

Investment in Government securities like all other debt instruments is subject to price and interest rate risk. Generally, when interest rates rise, prices of fixed income securities fall and when interest rates drop, the prices increase. The extent of fall or rise in prices is a

function of the existing coupon, days to maturity and the increase or decrease in interest rates. Price-risk is not unique to Government securities but is true for all fixed income securities. Despite a high degree of liquidity in comparison with other debt instruments on occasions, there could be difficulties in transacting in the market due to extreme volatility or unusual constriction in market volumes or on occasions when an unusually large transaction has to be put through.

**(c) Market Trading Risks**

1. **Political Risks:** Whereas the Indian market was formerly restrictive, a process of deregulation has been taking place over recent years. This process has involved removal of trade barriers and protectionist measures, which could adversely affect the value of investments. It is possible that the future changes in the Indian political situation, including political, social or economic instability, diplomatic developments and changes in laws and regulations could have an effect on the value of investments. Expropriation, confiscatory taxation or other relevant developments could affect the value of investments.
2. **Right to Limit Redemptions:** The Trustee, in the general interest of the unit holders of the Scheme offered under this Scheme Information Document and keeping in view of the unforeseen circumstances/unusual market conditions, may limit the total number of Units which can be redeemed on any Business Day depending on the total "Saleable Underlying Stock" available with the fund.
3. **Asset Class Risk:** The returns from the types of securities in which a Scheme invests may underperform returns from the various general securities markets or different asset classes. Different types of securities tend to go through cycles of out-performance and under performance in comparison of the general securities markets.
4. **Passive Investments:** As Nippon India Nifty G-Sec Sep 2027 Maturity Index Fund is not actively managed, the underlying investments may be affected by a general decline in the Indian markets relating to its Underlying Index. The scheme invests in the securities included in its underlying index regardless of their investment merit. The AMC does not attempt to take defensive positions in declining markets. Further, the fund manager does not make any judgment about the investment merit nor shall attempt to apply any economic, financial or market analysis.

**(d) Risks associated with segregated portfolio**

**Liquidity risk**

1. Investor holding units of segregated portfolio may not able to liquidate their holding till the time recovery of money from the issuer.
2. Listing of units of segregated portfolio in recognised stock exchange does not necessarily guarantee their liquidity. There may not be active trading of units in the stock market. Further trading price of units on the stock market may be significantly lower than the prevailing NAV.

**Credit risk**

3. Security comprises of segregated portfolio may not realise any value.

**(e) Tracking Error and Tracking Difference Risk**

Tracking error is defined as the annualized standard deviation of the difference in the daily returns between the NAV of the Scheme and the Underlying Index. Tracking Difference is defined as the annualized difference of returns between the NAV of the Scheme and the underlying index. Theoretically, the corpus of the Scheme has to be fully invested in the securities comprising the Underlying Index in the same proportion of weights as the securities have in the Underlying Index. However, deviations from the stated index replication may occur due to reason that the Scheme has to incur expenses, corporate actions pertaining to the Index including changes to the constituents, regulatory policies, ability of the Fund Manager to closely replicate the Underlying Index, delay in purchase or non-availability of underlying securities forming part of the index etc. Tracking Error/ Tracking Difference may arise including but not limited to the following reasons:

1. Delay in purchase or non-availability of underlying securities forming part of the index.
2. Delay in liquidation of securities which have been removed by the Index.
3. Fees and expenses of the Scheme.
4. Cash balance held by the Scheme due to interest received during subscriptions, redemption, etc.
5. Halt in trading on the stock exchange due to circuit filter rules.
6. Corporate actions.
7. The Scheme has to invest in the securities in whole numbers and has to round off the quantity of securities.
8. Dividend payout.
9. Changes in the constituents of the underlying Index. Whenever there are any changes, the Scheme has to reallocate its investment as per the revised Index but market conditions may not offer an opportunity to rebalance its portfolio to match the Index and such delay may affect the NAV of the Scheme.

The AMC would monitor the tracking error of the Scheme on an ongoing basis and would seek to minimize tracking error. Under normal market circumstances, tracking error based on past one year rolling data shall not exceed 2%. However, in case of unavoidable circumstances in the nature of force majeure, which are beyond the control of the AMCs, the tracking error may exceed 2% and the same shall be brought to the notice of Trustees with corrective actions taken by the AMC, if any..

**(f) Risks associated with investing in Tri Party Repo on Government securities or Treasury bills through CCIL (TREPS):**

The mutual fund is a member of securities segment and Tri-party Repo on Government securities or Treasury bills trade settlement of the Clearing Corporation of India (CCIL). All transactions of the mutual fund in government securities and in Tri-party Repo on Government securities or Treasury bills trades are settled centrally through the infrastructure and settlement systems provided by CCIL; thus reducing the settlement and counterparty risks considerably for transactions in the said segments.

CCIL maintains prefunded resources in all the clearing segments to cover potential losses arising from the default member. In the event of a clearing member failing to honour his settlement obligations, the default Fund is utilized to complete the settlement. The sequence in which the above resources are used is known as the "Default Waterfall".

As per the waterfall mechanism, after the defaulter's margins and the defaulter's contribution to the default fund have been appropriated, CCIL's contribution is used to meet the losses. Post utilization of CCIL's contribution if there is a residual loss, it is appropriated from the default fund contributions of the non-defaulting members.

Thus the scheme is subject to risk of the initial margin and default fund contribution being invoked in the event of failure of any settlement obligations. In addition, the fund contribution is allowed to be used to meet the residual loss in case of default by the other clearing member (the defaulting member).

However, it may be noted that a member shall have the right to submit resignation from the membership of the Security segment if it has taken a loss through replenishment of its contribution to the default fund for the segments and a loss threshold as notified have been reached. The maximum contribution of a member towards replenishment of its contribution to the default fund in the 7 days (30 days in case of securities segment) period immediately after the afore-mentioned loss threshold having been reached shall not exceed 5 times of its contribution to the Default Fund based on the last re-computation of the Default Fund or specified amount, whichever is lower.

Further, it may be noted that, CCIL periodically prescribes a list of securities eligible for contributions as collateral by members. Presently, all Central Government securities and Treasury bills are accepted as collateral by CCIL. The risk factors may undergo change in case the CCIL notifies securities other than Government of India securities as eligible for contribution as collateral.

#### **(g) Other Scheme Specific Risk factors**

1. The liquidity of the Scheme's investments may be inherently restricted by trading volumes, settlement periods and transfer procedures. In the event of an inordinately large number of redemption requests, or of a re-structuring of the Scheme's investment portfolio, these periods may become significant.

Although, the objective of the Fund is to generate optimal returns, the objective may or may not be achieved. The investors may note that if the AMC/Investment Manager is not able to make right decision regarding the timing of increasing exposure in debt securities in times of falling equity market, it may result in negative returns. Given the nature of scheme, the portfolio turnover ratio may be on the higher side commensurate with the investment decisions and Asset Allocation of the Scheme. At times, such churning of portfolio may lead to losses due to subsequently negative or unfavorable market movements.

2. Credit And Rating Downgrade Risk, Prepayment And Foreclosures Risk for Senior PTC Series, Servicing Agent Risk, Co-mingling Risk, Bankruptcy of the Seller.
3. The NAV of the scheme to the extent invested in Debt and Money market securities are likely to be affected by changes in the prevailing rates of interest and are likely to affect the value of the Scheme's holdings and thus the value of the Scheme's Units.
4. The AMC may, considering the overall level of risk of the portfolio, invest in lower rated/ unrated securities offering higher yields. This may increase the risk of the portfolio.
5. Securities which are not quoted on the stock exchanges are inherently illiquid in nature and carry a larger amount of liquidity risk, in comparison to securities that are listed on the exchanges or offer other exit options to the investor, including a put option. The AMC may choose to invest in unlisted securities that offer attractive yields. This may increase the risk of the portfolio.
6. While securities that are listed on the stock exchange carry lower liquidity risk, the ability to sell these investments is limited by the overall trading volume on the stock exchanges. Money market securities, while fairly liquid, lack a well-developed secondary market, which may restrict the selling ability of the Scheme and may lead to the Scheme incurring losses till the security is finally sold.
7. Investment decisions made by the AMC may not always be profitable, even though it is intended to generate capital appreciation and maximize the returns by actively investing in equity and equity related securities.
8. The AMC carries out valuation of investments made by the Scheme. The AMC values Securities and assets in the Scheme according to the valuation policies described in the Statement of Additional Information.
9. The tax benefits available under the scheme are as available under the present taxation laws and are available only to certain specified categories of investors and that is subject to fulfillment of the relevant conditions. The information given is included for general purposes only and is based on advise that the AMC has received regarding the law and the practice that is currently in force in India and the investors and the Unitholders should be aware that the relevant fiscal rules and their interpretation may change. As is the case with any investment, there can be no guarantee that the tax position or the proposed tax position prevailing at the time of investment in the Scheme will endure indefinitely. In view of the individual nature of tax consequences, each Investor/Unitholder is advised to consult his/her own professional tax advisor.

Past performance of the Sponsor/ the AMC/ the Mutual Fund is not indicative of the future performance of the Scheme. Nippon India Nifty G-Sec Sep 2027 Maturity Index Fund is the name of the Scheme and does not in any manner indicate either the quality of the Scheme; its future prospects or returns.

All IDCW distributions are subject to the availability of distributable surplus in the Scheme. When an investor switches from this scheme to another scheme on a future date, the scheme specific risk factors applicable to such scheme into which he switches, will apply.

#### **(h) Tax Issues**

The tax benefits described in this Scheme information document are as available under the present taxation laws and are available subject to relevant conditions. The information given is included only for general purpose and is based on advice received by the AMC regarding the law and practice currently in force in India and the Unit holders should be aware that the relevant fiscal rules or their

interpretation may change. As is the case with any investment, there can be no guarantee that the tax position or the proposed tax position prevailing at the time of an investment or redemption in the Scheme will endure indefinitely. In view of the individual nature of tax consequences, each investor is advised to consult his / her own professional tax advisor.

### C. Risk mitigation strategies

#### Risk mitigation measures for portfolio volatility and portfolio concentration:

Index Fund being a passive investment carries less risk as compared to active fund management. The portfolio follows the index and therefore the level of stock concentration in the portfolio and its volatility would be the same as that of the index, subject to tracking error. Thus, there is no additional element of volatility or stock concentration on account of fund manager decisions. The Risk Mitigation strategy revolves around minimizing the Tracking error to the least possible through regular rebalancing of the portfolio, taking into account the change in weights of stocks in the Underlying Index as well as the incremental collections into / redemptions from the Scheme.

#### Risk mitigation measures for managing liquidity:

As per data from NSE more than half of market liquidity remains in the index. Therefore, the scheme does not envisage liquidity issues. The scheme may take exposure to equity derivatives of the index itself or its constituent stocks, when equity shares are unavailable, insufficient or for rebalancing in case of corporate actions for a temporary period.

Type of Risks	Measures/ Strategies to control risks
<b>Equity Markets/ Equity Oriented Instruments</b>	<ul style="list-style-type: none"> <li>• <b>Market Risk and Volatility:</b> Market risk is a risk which is inherent to an equity scheme. The fund will endeavor to maintain a proper asset liability match to ensure redemption payments are made on time and not affected by illiquidity of the underlying stocks.</li> </ul>
<b>Debt and Money Market instruments</b>	<ul style="list-style-type: none"> <li>• <b>Credit Risk:</b> Management analysis will be used for identifying company specific risks. In order to assess financial risk a detailed assessment of the issuer's financial statements will be undertaken.</li> <li>• <b>Price-Risk or Interest-Rate Risk:</b> The Scheme may primarily invest the debt portion of the portfolio in short term debt &amp; money market instruments, units of Liquid and Overnight schemes thereby mitigating the price volatility due to interest rate changes generally associated with long-term securities.</li> <li>• <b>Risk of Rating Migration:</b> The Scheme may primarily invest the debt portion of the portfolio in short-term debt &amp; money market instruments, units of Liquid and Overnight schemes thereby mitigating the risk of rating migration generally associated with long-term securities.</li> <li>• <b>Basis Risk:</b> The debt allocation of scheme is primarily as a cash management strategy and such strategy returns are expected to reflect the very short term interest rate hence investment is done in short term debt and money market instruments.</li> <li>• <b>Spread Risk:</b> The Scheme may primarily invest the debt portion of the portfolio in short-term debt &amp; money market instruments, units of Liquid and Overnight schemes thereby mitigating the risk of spread expansion which is generally associated with long-term securities</li> <li>• <b>Reinvestment Risk:</b> The debt allocation of scheme is primarily as a cash management strategy and such strategy returns are expected to reflect the very short term interest rate hence investment is done in short term debt and money market instruments. Reinvestment risks will be limited to the extent of debt instruments, which will be a very small portion of the overall portfolio value.</li> <li>• <b>Liquidity Risk:</b> The Scheme may, however, endeavor to minimize liquidity risk by primarily investing the debt portion of the portfolio in relatively liquid short-term debt &amp; money market instruments, units of Liquid and Overnight schemes.</li> </ul>

<b>Derivatives</b>	The Scheme may take an exposure to equity derivatives of constituents or index derivatives of the underlying index for short duration when securities of the index are unavailable, insufficient or for rebalancing at the time of change in index or in case of corporate actions, as permitted. All derivatives trade will be done only on the exchange with guaranteed settlement. Exposure with respect to derivatives shall be in line with regulatory limits and the limits specified in the SID.
<b>Securities Lending</b>	The SLB shall be operated through Clearing Corporation/Clearing House of stock exchanges having nation-wide terminals who are registered as Approved Intermediaries (AIs)." The risk is adequately covered as Securities Lending & Borrowing (SLB) is an Exchange traded product. Exchange offers an anonymous trading platform and gives the players the advantage of settlement guarantee without the worries of counter party default. However, the Fund may not be able to sell such lent securities during contract period or have to recall the securities which may be at higher than the premium at which the security is lent.
<b>Currency</b>	The scheme subject to applicable regulations shall have the option to enter into forward contracts for the purpose of hedging against the foreign exchange fluctuations. The Schemes may employ various measures (as permitted by SEBI/RBI) including but not restricted to currency hedging (such as currency options and forward currency exchange contracts, currency futures, written call options and purchased put options on currencies and currency swaps), to manage foreign exchange movements arising out of investment in foreign securities.  All currency derivatives trade, if any will be done only through the stock exchange platform.
<b>Segregated Portfolio</b>	In such an eventuality it will be AMC's endeavor to realise the segregated holding in the best interest of the investor at the earliest.
<b>Tracking errors</b>	Over a short period, the Scheme may carry the risk of variance between portfolio composition and Benchmark. The objective of the Scheme is to closely track the performance of the Underlying Index over the same period, subject to tracking error. The Scheme would endeavor to maintain a low tracking error by actively aligning the portfolio in line with the Index.
<b>Government securities and Triparty repo on Government securities or treasury bills:</b>	As a member of securities segment and Triparty repo segment, maintenance of sufficient margin is a mandatory requirement. CCIL monitors these on a real time basis and requests the participants to provide sufficient margin to enable the trades etc. Also, there are stringent conditions / requirements before registering any participants by CCIL in these segments. Since settlement is guaranteed the loss on this account could be minimal though there could be an opportunity loss.
<b>Units of money market / liquid schemes</b>	Liquidity is generally high in money market / liquid schemes

While these measures are expected to mitigate the above risks to a large extent, there can be no assurance that these risks would be completely eliminated

The measures mentioned above is based on current market conditions and may change from time to time based on changes in such conditions, regulatory changes and other relevant factors. Accordingly, our investment strategy, risk mitigation measures and other information contained herein may change in response to the same.

## II. Information about the scheme:

### A. Where will the scheme invest

**For Detailed description of the instruments (including overview of debt markets in India), please refer to Section I - Part II – B**

### B. What are the investment restrictions?

The investment policy of the scheme complies with the rules, regulations and guidelines laid out in SEBI (Mutual Funds) Regulations, 1996. As per the Regulations, specifically the Seventh Schedule, the following investment limitations are currently applicable:

- Transfers of investments from one scheme to another scheme in the Mutual Fund shall be allowed only if:
  - Such transfers are done at the prevailing market price for quoted instruments on spot basis;
  - The securities so transferred shall be in conformity with the investment objectives & policies of the Scheme to which such transfer has been made.

Such transfer would be in accordance with the Clause 12.30 of SEBI Master Circular dated June 27, 2024 or any other circular issued by SEBI from time to time.
- The Scheme may invest in another scheme under the same asset management company or in any other mutual fund without charging any fees, provided the aggregate inter scheme investments made by all Schemes under the same management company or in schemes under the management of any other AMC shall not exceed 5% of NAV of the Mutual Fund. [Provided that this clause shall not apply to any fund of funds scheme.]

3. The Mutual Fund shall buy and sell securities on the basis of deliveries and shall in all cases of purchases, take delivery of relative securities and in all cases of sale, deliver the securities and shall in no case put itself in a position whereby it has to make short sale or carry forward transactions or engage in badla finance.
4. The Fund shall get the securities purchased or transferred in the name of the Fund on account of the concerned scheme, wherever investments are intended to be of a long-term nature.
5. The fund's schemes shall not make any investment in:
  - a) Any unlisted security of an associate or group company of the sponsor
  - b) Any security issued by way of private placement by an associate or group company of the sponsor
  - c) As per SEBI Circular No. SEBI/HO/IMD/IMD-PoD-2/P/CIR/2024/098 dated July 08, 2024, no Mutual Fund scheme shall make any investment in the listed securities of group companies of the sponsor which is in excess of 25 per cent of the net assets of the scheme, except for investments by equity oriented exchange traded funds (ETFs) and Index Funds and subject to such conditions as may be specified by SEBI. Accordingly, it has been decided as under:
    - Equity oriented ETFs and Index Funds, based on widely tracked and non-bespoke indices, can make investments in accordance with the weightage of the constituents of the underlying index. However, such investments shall be subject to an overall cap of 35% of net asset value of the scheme, in the group companies of the sponsor.
    - Widely tracked and non-bespoke indices shall be indices that are tracked by passive funds or act as primary benchmark for actively managed funds with collective Assets under Management (AUM) of INR 20,000 Cr. and above.
6. The Scheme shall not invest in a fund of funds scheme.
7. Pursuant to Clause 3.5 of SEBI Master Circular dated June 27, 2024 the scheme shall be considered to be replicating the underlying index, provided

For portion of the portfolio comprising of corporate debt securities:

- i. Investment in securities of issuers accounting for at least 60% of weight in the index, represents at least 80% of net asset value (NAV) of the ETF/ Index Fund.
- ii. At no point of time the securities of issuers not forming part of the index exceed 20% of NAV of the ETF/ Index Fund.
- iii. The investment in various securities are aggregated at issuer level for the purpose of exposure limits.
- iv. Further, the exposure limit to a single issuer by the ETF/ Index Fund shall be as under:
  - a) For AAA rated securities, exposure to a single issuer by the ETF/ Index Fund shall not have more than 10% weight in the portfolio. However, for AAA rated securities of PSU and AAA rated securities of PFI issuers the said limit shall be 15%.
  - b) For AA rated securities, exposure to a single issuer by the ETF/ Index Fund shall not have more than 8% weight in the portfolio.
  - c) For A and below rated issuances, exposure to a single issuer by the ETF/ Index Fund shall not have more than 6% weight in the portfolio.
- v. Total exposure of the ETF/ Index Fund in a particular group (excluding investments in securities issued by PSUs, PFIs and PSBs) shall not exceed 25% of NAV of the scheme. For the purpose of this provision, 'group' shall have the same meaning as defined in Clause 12.9.3.3 of SEBI Master Circular dated June 27, 2024.
- vi. Total exposure of the ETF/ Index Fund in a particular sector (excluding G-sec, T-Bills, SDLs and AAA rated securities issued by PSUs, PFIs and PSBs) shall not exceed 25% of the NAV of the scheme.
- vii. The Macaulay Duration (hereinafter referred as "duration") of the portfolio of the ETF/ Index Fund replicates the duration of the underlying index within a maximum permissible deviation of +/- 10%.

In case of Target Maturity (or Target Date) ETFs/ Index Funds, the following norms for permissible deviation in duration shall apply:

- a) For portfolio with residual maturity of greater than 5 years: Either +/- 6 months or +/- 10% of duration, whichever is higher.
- b) For a portfolio with residual maturity of up to 5 years: Either +/- 3 months or +/- 10% of duration, whichever is higher.
- c) However, at no point of time, the residual maturity of any security forming part of the portfolio shall be beyond the target maturity date of the ETF/ Index Fund.
- viii. The rating wise weightage of debt securities in the portfolio of ETF/ Index Fund replicates the underlying index. However, greater allocation of up to 10% of the portfolio may be made to higher rated debt securities.
- ix. Rebalancing Period:

For rebalancing the portfolio of the ETF/ Index Fund, the following norms shall apply:

- a) In case of change in constituents of the index due to periodic review, the portfolio of ETF/ Index Funds be rebalanced within 7 calendar days.
- b) In case the rating of any security is downgraded to below the rating mandated in the index methodology (including downgrade to below investment grade), the portfolio be rebalanced within 30 calendar days.
- c) In case the rating of any security is downgraded to below investment grade, the said security may be segregated in accordance with Clause 4.4 of SEBI Master Circular dated June 27, 2024 on "Creation of segregated portfolio in mutual fund schemes

8. Pending deployment of funds of the scheme in securities in terms of the investment objectives and policies of the scheme, the Mutual Fund can invest the fund of the scheme in short term deposits of scheduled commercial banks subject to the guidelines as applicable from time to time.

Pursuant to the Clause 12.16 of SEBI Master Circular dated June 27, 2024, where the cash in the scheme is parked in short term deposits of Scheduled Commercial Banks pending deployment, the scheme shall abide by the following guidelines:

- "Short Term" for parking of funds shall be treated as a period not exceeding 91 days.
  - Such short-term deposits shall be held in the name of the Scheme.
  - The Scheme shall not park more than 15% of the net assets in short term deposit(s) of all the scheduled commercial banks put together. However, such limit may be raised to 20% with prior approval of the Trustee.
  - Parking of funds in short term deposits of associate and sponsor scheduled commercial banks together shall not exceed 20% of total deployment by the Mutual Fund in short term deposits.
  - The scheme shall not park more than 10% of the net assets in short term deposit(s), with any one scheduled commercial bank including its subsidiaries.
  - The scheme shall not park funds in short term deposit of a bank, which has invested in the Scheme. Further, the bank in which a scheme has short term deposit will not invest in the said scheme until the scheme has short term deposit with the bank.
  - NAM India will not charge any investment management and advisory fees for parking of funds in short term deposits of scheduled commercial banks.
9. In case any company has invested more than 5% of the net asset value of a scheme, the investment made by that scheme or by any other scheme of the same Mutual Fund in that company or its subsidiaries, if any, shall be brought to the notice of the Trustees by NAM India and be disclosed in the half-yearly and annual accounts with justification for such investment provided that the latter investment has been made within one year of the date of the former investment calculated on either side.
10. The Scheme will comply with any other regulations applicable to the investments of mutual funds from time to time.
11. The cumulative gross exposure through Debt & Money Market instruments and such other securities/assets as may be permitted by SEBI from time to time should not exceed 100% of the net assets of the scheme as per Clauses 12.24 and 12.25 of SEBI Master Circular dated June 27, 2024.
12. The Fund shall not borrow except to meet temporary liquidity needs of the Fund for the purpose of repurchase / Redemption of Units or payment of interest and IDCW to the Unitholders.

Provided that the Fund shall not borrow more than 20% of the net assets of any individual Scheme and the duration of the borrowing shall not exceed a period of 6 months.

In case of borrowing through repo transactions the tenure of such transaction shall not exceed a period of six months.

At NIMF, to ensure robust risk management and adequate portfolio diversification internal Investment policy for various schemes have been framed. The investment policy at NIMF specifies limits both on overall basis (across all schemes) as well as on individual scheme level.

All investment restrictions stated above shall be applicable at the time of making investment. The Scheme will not enter into any transaction, which exposes it to unlimited liabilities or results in the encumbering of its assets in any way so as to expose them to unlimited liability.

These investment limitations / parameters as expressed / linked to the net asset / net asset value / capital, shall in the ordinary course, apply as at the date of the most recent transaction or commitment to invest. Changes do not have to be effected merely because of appreciation or depreciation in value or by reason of the receipt of any rights, bonuses or benefits in the nature of capital or of any scheme of arrangement or for amalgamation, reconstruction or exchange, or at any repayment or redemption or other reason outside the control of the Fund, any such limits would thereby be breached. If these limits are exceeded for reasons beyond its control, AMC shall adopt as a priority objective the remedying of that situation, taking due account of the interests of the Unitholders. The Trustee Company in consultation with AMC may alter these above stated limitations from time to time, and also to the extent the Regulations change, so as to permit the Scheme to make its investments in the full spectrum of permitted investments in order to achieve its investment objectives & policies. As such, all investments of the Scheme will be made in accordance with the Regulations including Schedule VII thereof and the Fundamental Attributes of this Scheme.

#### **Investment by the AMC in the Scheme**

Subject to the Regulations, the AMC may invest in the Scheme during the NFO and/or on ongoing basis.

**D. Index methodology-**

**About the Index**

**Introduction**

Nifty G-Sec Sep 2027 Index seeks to measure the performance of portfolio of Government securities (G-Secs) maturing during the six month period ending September 30, 2027.

The index is computed using the total return methodology including price return and coupon return.

The index has a base date of November 14, 2022 and a base value of 1000.

**Methodology**

The methodology is in compliance with the Norms for Debt Exchange Traded Funds (ETFs)/Index Funds announced by SEBI vide its Clause 3.5 of SEBI Master Circular dated June 27, 2024.

**Eligibility norms**

G-Sec should not be a special security, floating rate security, inflation linked security

**Security Selection**

From the eligible universe, three most liquid G-Secs (subject to availability) maturing during the six month period ending September 30, 2027, based on the aggregate trading value during the three month period prior to October 25, 2022 and with a minimum outstanding amount of Rs. 25000 crores are selected to be part of the index

**Weight Assignment**

- As on the base date of the index, each G-Sec is given weight based on a composite score calculated on the basis of liquidity (aggregate trading value during the three months period prior to October 25, 2022) and outstanding amount as on October 25, 2022. The composite score is calculated by allocating 80% weight to aggregate trading value and 20% weight to outstanding amount
- Subsequently, the weights may drift due to price movement
- Any coupon amount received is assumed to be reinvested in the portfolio on the same date, in the proportion of the existing weights

**Index Rebalancing/Reconstitution**

- On a semi-annual basis, index will be screened for compliance with the Norms for Debt Exchange Traded Funds (ETFs)/Index Funds announced by SEBI vide its Clause 3.5 of SEBI Master Circular dated June 27, 2024.. In case of non-compliance, suitable corrective measures will be taken to ensure compliance with the norms
- Index will be reviewed at the end of each calendar half-year with data cut-off date being 9 working days (T-9) before last working day of calendar half-year (T). Changes shall be effective from last working day of calendar half-year
- During the semi-annual index review, three G-Secs (subject to availability) will be selected based on the eligibility and selection criteria

- During the semi-annual index review, the weights of all the securities will reset based on original weight method
- As the index includes securities that shall mature during the six month period ending on the final maturity date of the index, any proceeds from the security redemption prior to the final maturity date of the index shall be re-invested using the following waterfall approach:
  - o The proceeds from security redemption will be reinvested in the longest maturity outstanding security issued by the same issuer (G-Sec/T-Bill in case of government securities) and maturing on or just before the index maturity date with the same weightage. This will be subject to single issuer limit in compliance with the Norms for Debt Exchange Traded Funds (ETFs)/Index Funds announced by SEBI vide its Clause 3.5 of SEBI Master Circular dated June 27, 2024.
  - o In case a replacement in the form of outstanding security of the same issuer cannot be found for reinvestment then the proceeds from such redemption shall be reinvested in the remaining portfolio on the same date in the proportion of the existing weights. This will be subject to single issuer limit in compliance with the Norms for Debt Exchange Traded Funds (ETFs)/Index Funds announced by SEBI vide its Clause 3.5 of SEBI Master Circular dated June 27, 2024.
  - o In case due to any reason, it is not possible to meet any norms as prescribed by SEBI vide its Clause 3.5 of SEBI Master Circular dated June 27, 2024., then the proceeds from such redemption shall be reinvested in a T-Bill maturing on or just before the index maturity date
  - o If the last outstanding security (including T-Bill) in the index matures before the final index maturity date, all redemption proceeds shall be re-invested in The Clearing Corporation of India Ltd.'s (CCIL) TREPS overnight rate tracked by Nifty 1D Rate Index for any subsequent days till the maturity of the index

#### Index Termination

The index shall mature on September 30, 2027. If the index matures on a holiday, the index value will be computed till the prior working day.

Neither this Scheme Information Document ("SID")/ Key Information Document ("KIM")/ Statement of Additional Information ("SAI") ["Scheme Related Documents"] nor the units of the scheme(s) have been registered under the relevant laws, as applicable in the territorial jurisdiction of United States of America nor in any provincial/ territorial jurisdiction in Canada. It is being clearly stated that the Scheme Related Documents and/or the units of the schemes of Nippon India Mutual Fund have been filed only with the regulator(s) having jurisdiction in the Republic of India. The distribution of these Scheme Related Documents in certain jurisdictions may be restricted or subject to registration requirements and, accordingly, persons who come into possession of these Scheme Related Documents are required to inform themselves about, and to observe any such restrictions. No persons receiving a copy of these Scheme Related Documents or any KIM accompanying application form jurisdiction may treat such Scheme Related Documents as an invitation to them to subscribe for units, nor should they in any event use any such application form, unless in the relevant jurisdiction such an invitation could lawfully be made to them and such application form could lawfully be used without compliance with any registration or other legal requirements. Accordingly these Scheme Related Documents do not constitute an offer or solicitation by anyone in any jurisdiction in which such offer or solicitation is not lawful or in which the person making such offer or solicitation is not qualified to do so or to anyone to whom it is unlawful to make such offer or solicitation. It is the responsibility of such persons in possession of the Scheme Related Documents and any persons wishing to apply for units pursuant to these Scheme Related Documents to inform themselves of and to observe, all applicable laws and Regulations of such relevant jurisdiction.</p> <p>NAM India shall accept such investments subject to the applicable laws and such other terms and conditions as may be notified by the NAM India. The investor shall be responsible for complying with all the applicable laws for such investments.</p> <p>NAM India reserves the right to put the transaction requests on hold/reject the transaction request/ reverse allotted units, as the case may be, as and when identified by the NAM India, which are not in compliance with the terms and conditions notified in this regard.</p> <p>NAM India reserves the right to invest its own funds in the Scheme(s) upto a maximum extent of its networth. As per SEBI Regulations, such investments are permitted, subject to disclosure being made in the respective Scheme Information Documents (s). Further, NAM India shall not charge any fees on its investment in the Scheme(s), unless allowed to do so under SEBI Regulations in the future.</p> <p>It is expressly understood that at the time of investment, the investor/unitholder has the express authority to invest in units of the Scheme and the AMC / Trustee / Mutual Fund will not be responsible if such investment is ultravires the relevant constitution.</p> <p><b>7. Foreign Account Tax Compliance</b></p> <p>In accordance with the relevant provisions of the Foreign Account Tax Compliance Act ("FATCA") as contained in the United States Hiring Incentives to Restore Employment ("HIRE") Act, 2010, there is a likelihood of withholding tax being levied on certain income/ receipt sourced from the subjects of United States of America ("US") with respect to the schemes, unless such schemes are FATCA compliant.</p> <p>In this regard, the respective governments of India and US have signed an Inter Governmental Agreement-1 (IGA) on July 9, 2015. In the terms of this proposed IGA, Nippon India Mutual Fund ("NIMF") and/ or Nippon Life India Asset Management Limited (NAM India) ("NAM India"/ "AMC") classified as a "Foreign Financial Institution" and in which case NIMF and/ or NAM India would be required, from time to time, to (a) undertake the necessary due-diligence process; (b) identify US reportable accounts; (c) collect certain required information/ documentary evidence ("information") with respect to the residential status of the unit holders; and (d) directly or indirectly disclose/ report/ submit such or other relevant information to the appropriate Indian authorities. Such information may include (without limitation) the unit holder's folio detail, identity of the unit holder, details of the beneficial owners and controlling persons etc</p> <p>In this regard and in order to comply with the relevant provisions under FATCA, the unit holders would be required to fully cooperate &amp; furnish the required information to the AMC, as and when deemed necessary by the latter in accordance with IGA and/ or relevant circulars or guidelines etc, which may be issued from time to time by SEBI/ AMFI or any other relevant &amp; appropriate authorities.</p>

<b>Special Considerations</b>	<p>I) The Mutual Fund is not assuring or guaranteeing that it will be able to make regular periodical distributions units to its Unit holders though it has every intention to manage the portfolio so as to make periodical income distributions to Unit holders. Periodical distributions will be dependent on the returns achieved by the Asset Management Company through the active management of the portfolio. Periodical distributions may therefore vary from period to period, based on investment results of the portfolio.</p> <p>Performance of the Nifty G -Sec Sep 2027 Index will have a direct bearing on the performance of the Scheme. Tracking errors are inherent in any index fund and such errors may cause the Scheme to generate returns which may not be in line with the performance of the Nifty G-Sec Sep 2027 Index or one or more securities covered by /included in the Nifty G-Sec Sep 2027 Index and may arise from a variety of factors including but not limited to:</p> <ul style="list-style-type: none"> <li>(i) Any delay in the purchase or sale of shares due to illiquidity in the market, settlement and realisation of sales proceeds, delay in credit of securities or in receipt and consequent reinvestment of IDCW etc.</li> <li>(ii) The indices reflect the prices of securities at a point of time, which is the price at close of Business Day on NSE Indices Limited. The Scheme, however, may trade these securities at different points in time during the trading session and therefore the prices at which the Scheme trade may not be identical to the closing price of each scrip on that day on the NSE Indices Limited. In addition, the Scheme may opt to trade the same securities on different exchanges due to price or liquidity factors, which may also result in traded prices being at variance from NSE Indices Limited closing prices.</li> <li>(iii) The NSE Indices Limited may exclude existing securities or include new ones in the Nifty G-Sec Sep 2027 Index. In such an event, the Scheme will endeavor to reallocate its portfolio to mirror the changes. However, the reallocation process may not occur instantaneously and permit precise mirroring of the Nifty G-Sec Sep 2027 Index during this period.</li> <li>(iv) The potential of trades to fail may result in the Scheme not having acquired the security at the price necessary to mirror the change.</li> <li>(v) Transaction and other expenses, such as but not limited to brokerage, custody, trustee and investment management fees.</li> <li>(vi) Being an open ended scheme, the Scheme may hold appropriate levels of cash or cash equivalents to meet ongoing redemptions.</li> <li>(vii) The Scheme may not be able to acquire or sell the desired number of securities due to conditions prevailing in the securities market, such as, but not restricted to, circuit filters in the securities, liquidity and volatility in security prices.</li> </ul> <p>The Fund is not assuring or guaranteeing that it will be able to make regular periodical distributions units to its Unitholders though it has every intention to manage the portfolio so as to make periodical income distributions to Unitholders. Periodical distributions will be dependent on the returns achieved by NAM India through the active management of the portfolio. Periodical distributions may therefore vary from period to period, based on investment results of the portfolio.</p>
