Options & Plans for investment:

The Scheme will have two Plans i.e. Direct Plan & Regular Plan.

Both the Plans offer Growth option.

Currently, the scheme is not offering Income Distribution cum Capital Withdrawal Option (IDCW).

The Trustee reserve the right to introduce/modify investment Plans/Options under the Scheme at a future date in accordance with SEBI (MF) Regulations.

All plans/options will have a common portfolio.

Direct Plan is only for investors who purchase /subscribe Units in the Scheme directly with the Fund and is not available for investors who route their investments through a Distributor.

Investment objective:

The primary objective of the scheme is to generate long term capital appreciation with inflation beating returns by investing in Equity and Equity related securities, Debt and Money Market instruments, Gold/Silver ETFs, and REITs / InvITs. *There is no assurance that the investment objective of the Scheme will be achieved.*

Liquidity:

The Scheme offers Units for Subscription and Redemption at NAV based prices on all Business Days on an ongoing basis, commencing not later than 5 (Five) working days from the date of closure of NFO period.

In line with the SEBI (Mutual Funds) (Third Amendment) Regulations, 2022 dated November 15, 2022 and Para 14.1 of SEBI Mutual Funds Master Circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023 on Timelines for transfer of dividend and redemption proceeds for unitholders, under normal circumstances the AMC shall dispatch/transfer the redemption proceeds to the unitholders within 3 working days of receipt of the valid redemption request (however, in case of exceptional situations specified by AMFI in its letter no. AMFI/ 35P/ MEM-COR/ 74 / 2022-23 dated January 16, 2023 additional timelines allowed in the said AMFI letter shall be considered for transfer of redemption or repurchase proceeds to the unitholders).

Interest for the period of delay in transfer of redemption or repurchase proceeds shall be payable to unitholders at the rate of 15% per annum or such other rate as may be prescribed by SEBI from time to time along with the proceeds of redemption or repurchase if the redemption or repurchase proceeds are not transferred within three working days from the date of redemption or repurchase and within specified additional timeline (in exceptional situations) mentioned above. Such Interest shall be borne by AMC.

Benchmark: Nifty 50 TRI (70%) + NIFTY Short Duration Debt Index (20%) + Domestic prices of Gold (8%) + Domestic prices of Silver (2%)

Transparency/ NAV/ Portfolio Disclosure:

The AMC will calculate and disclose the first NAV of the respective plans not later than 5 business days from the date of allotment of the respective plans. The Mutual Fund shall prominently disclose the Net Asset Value of the scheme on every business day under a separate head on the website of the AMC "www.shriramamc.in" as well as on AMFI's website "www.amfiindia.com" by 11:00 p.m of the same day. This time limit may be revised based on any amendment as introduced by SEBI for uploading NAV from time to time. If the NAVs are not available before commencement of business hours on the following day due to any reason, the Fund shall issue a press release providing reasons and explaining when the Fund would be able to publish the NAVs. NAV shall be calculated on all business days. In addition, the NAV for all business days will be available at our Branch Offices. Further, Mutual Fund/ AMC shall extend facility of sending latest available NAVs to unit holders through SMS, upon receiving a specific request in this regard.

Pursuant to Para 5.1.1. of SEBI Mutual Funds Master Circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023 the AMC shall disclose portfolio (along with ISIN) as on the last day of the month / half-year for the scheme on AMC website (www.shriramamc.in) and on the website of AMFI (www.amfiindia.com) within 10 (Ten) days from the close of each month/ half-year respectively in a user-friendly and downloadable spreadsheet format. In case of unit holders whose e-mail addresses are registered, the Mutual Fund/ AMC shall send via email both the monthly and half-yearly statement of scheme portfolio within 10 (Ten) days from the close of each month/ half-year respectively.

Mutual Fund/ AMC shall publish an advertisement every half-year disclosing the hosting of the half-yearly statement of its scheme portfolio on the AMC website and on the website of AMFI and the modes such as SMS, telephone, email or written request (letter) through which a unit holder can submit a request for a physical or electronic copy of the statement of scheme portfolio. Such advertisement shall be published in the all India edition of at least two daily newspapers, one each in English and Hindi.

Mutual Fund/ AMC shall provide a physical copy of the statement of its scheme portfolio, without charging any cost, on specific request received from a unit holder.

Life of scheme: The scheme, being an open ended scheme, has perpetual duration.

Applicability of Stamp Duty on Mutual Fund Transactions: Unitholders are requested to note that, pursuant to Notification No. S.O. 1226(E) and G.S.R. 226(E) dated March 30, 2020, issued by Department of Revenue, Ministry of Finance, Government of India, read with Part I of Chapter IV of Notification dated February 21, 2019, issued by Legislative Department, Ministry of Law and Justice, Government of India on the Finance Act, 2019, a stamp duty @0.005% of the transaction value would be levied on applicable mutual fund transactions, with effect from July 1, 2020. Accordingly, pursuant to levy of stamp duty, the number of units allotted on purchase / switch-in transactions (including Reinvestment of Income Distribution cum capital withdrawal option) to the unitholders would be reduced to that extent.

Disclosure of Risk-o-Meter: The AMC will evaluate the Risk-o-Meter on a monthly basis and shall disclose the same along with the portfolio disclosure. Any change in the risk-o-meter will be communicated by way of Notice-cum- Addendum and by way of an email / SMS to the Unit holders of the Scheme.

I. INTRODUCTION

A. RISK FACTORS

Standard Risk Factors:

1. Investment in Mutual Fund Units involves investment risks such as trading volumes, settlement risk, liquidity risk, default risk including the possible loss of principal.
2. As the price/ value/ interest rates of the securities in which the scheme investment fluctuates, the value of your investment in the scheme may go up or down depending on the various factors and forces affecting the capital markets and money markets.
3. Past performance of the Sponsor/ AMC/ Mutual Fund does not indicate or guarantee the future performance of the scheme of the Mutual Fund.
4. Shriram Multi Asset Allocation Fund is only the name of the Scheme and does not in any manner indicate either the quality of the Scheme, its future prospects or the returns. Investors therefore are urged to study the terms of the Offer documents carefully and consult their tax and Investment Advisor before they invest in the Scheme.
5. The Sponsor is not responsible or liable for any loss resulting from the operation of the scheme beyond the initial contribution of Rs.1 Lakh made by it towards setting up the Fund.
6. The present scheme is not a guaranteed or assured return scheme.
7. There is no assurance or guarantee that the objective of the mutual fund will be achieved.
8. Mutual Fund Investments are subject to market risks, read all scheme related document carefully.

II. Scheme Specific General Risk Factors :

Some of the specific risk factors related to the scheme include but are not limited to the following:

1. The performance of the scheme may be affected by the corporate performance, macro-economic factors, changes in Government policies, general levels of interest rates and risk associated with trading volumes, liquidity and settlement systems in the securities markets.
2. Low trading volumes, settlement periods and transfer procedures may restrict the liquidity of the scheme's investments. Transacting may become difficult due to extreme volatility in the market resulting in constriction in volumes. Additionally, changes in the SEBI/ RBI regulations/Guidelines may have an adverse impact on the liquidity of the scheme. Different segments of the Indian financial markets have different settlement periods, and such period may be extended significantly by unforeseen circumstances. The length of time for settlement may affect the Scheme in the event the Scheme has to meet an inordinately large number of redemption requests.

III. Risk associated with investments in equities and equity related instruments:

Investments in equity and equity related instruments involve a degree of risk, both company specific and market risks and thus investors should not invest in the Scheme unless they can afford to take the risk of losing their investment. Although it is intended to generate capital appreciation and maximize the returns by actively investing in equity securities and utilizing debt and money market instruments as a defensive investment strategy.

Equity and Equity Related Instruments by nature are volatile and prone to price fluctuations on a daily basis due to macro and micro economic factors. The value of Equity and Equity Related Instruments may fluctuate due to factors affecting the securities markets such as volume and volatility in the capital markets, interest rates, currency exchange rates, changes in law/policies of the Government, taxation laws, political, economic or other developments, which may have an adverse impact on individual securities, a specific sector or all sectors. Consequently, the NAV of the Units issued under the Scheme may be adversely affected.

Equity and Equity Related Instruments listed on the stock exchange carry lower liquidity risk; however the Scheme's ability to sell these investments is limited by the overall trading volume on the stock exchanges. In certain cases, settlement periods may be extended significantly by unforeseen circumstances. The inability of the Scheme to make intended securities purchases due to settlement problems could cause the Scheme to miss certain investment opportunities. Similarly, the inability to sell securities held in the Scheme's portfolio may result, at times, in potential losses to the Scheme, should there be a subsequent decline in the value of securities held in the Scheme's portfolio.

The Scheme may invest in securities which are not listed on the stock exchanges. These securities may be illiquid in nature and carry a higher amount of liquidity risk, in comparison to securities that are listed on the stock exchanges or offer other exit options to the investor. The liquidity and valuation of the Scheme's investments due to its holdings of unlisted securities may be affected if they have to be sold prior to the target date of divestment.

IV. Risks associated with investments in Fixed Income Securities

- **Interest-Rate Risk:** Fixed income securities such as government bonds, corporate bonds, and money market instruments and derivatives run price-risk or interest-rate risk. Generally, when interest rates rise, prices of existing fixed income securities fall and when interest rates drop, such prices increase. The extent of fall or rise in prices depends upon the coupon and maturity of the security, yield at which the security is being traded, put and call options on the security etc.
- **Re-investment Risk:** Investments in fixed income securities carry re-investment risk as interest rates prevailing on the coupon payment or maturity dates may differ from the original coupon of the bond.
- **Basis Risk:** Basis risk arises due to a difference in the price movement of the derivative vis-à-vis that of the security being hedged.
- **Spread Risk:** In a floating rate security the coupon is expressed in terms of a spread or mark up over the benchmark rate. In the life of the security, the yield of the underlying benchmark may or may not change, but the spread of the security over the underlying benchmark might increase leading to loss in value of the security.
- **Liquidity Risk:** The liquidity of a bond may change, depending on market conditions leading to changes in the liquidity premium attached to the price of the bond. At the time of selling the security, the security can become illiquid, leading to loss in value of the portfolio.
- **Credit Risk:** This is the risk associated with the issuer of a debenture/bond or a money market instrument defaulting on coupon payments or in paying back the principal amount on maturity. Even when there is no default, the price of a security may change with expected changes in the credit rating of the issuer. It is to be noted here that a Government Security is a sovereign security and is the safest. Corporate bonds carry a higher amount of credit risk than Government securities. Within corporate bonds also there are different levels of safety and a bond rated higher by a particular rating agency is considered safer than a bond rated lower by the same rating agency.
- **Liquidity Risk on account of unlisted securities:** The liquidity and valuation of the Scheme investments due to their holdings of unlisted securities may be affected if they have to be sold prior to their target date of divestment. The unlisted security can go down in value before the divestment date and selling of these securities before the divestment date can lead to losses in the portfolio.
- **Counterparty Risk:** This is the risk of failure of counterparty to a transaction to deliver securities against consideration received or to pay consideration

against securities delivered, in full or in part or as per the agreed specification. There could be losses to the Scheme in case of a counterparty default.

- **Settlement Risk:** Fixed income securities run the risk of settlement which can adversely affect the ability of the fund house to swiftly execute trading strategies which can lead to adverse movements in NAV.
- **Risks associated with unrated instruments:** Investments in unrated instruments are subject to the risk associated with investments in any other fixed income securities, as referred above. However, investments in unrated instruments are considered to be subject to greater risk of loss of principal and interest than rated instruments.
- **Duration Risk:** Duration risk refers to the movement in price of the underlying invested money market / debt instruments due to movement/change in interest rates over different durations of maturity of instruments. In a portfolio of debt assets, the duration risk is measured by the average duration of the portfolio. Duration is used as a measure of the sensitivity of the fixed income instrument to a change in interest rates. Usually, Individual duration of the fixed income instruments in the portfolio is calculated and the portfolio duration is the weighted average of such individual instrument duration. A longer portfolio duration is associated with greater price fluctuations. A rise in interest rates could normally lead to decrease in prices and generally negatively affects portfolios having longer duration vis-a-vis portfolios having shorter duration. A fall in interest rate generally benefits portfolio having longer duration.

V. Risk Factors Associated with Investments in Exchange Traded Funds (ETFs)

Some of the Scheme specific risk factors associated with ETFs are included as below but are not limited to the following:

- **Liquidity Risk:** Trading in units of the ETFs on the Exchange may be halted because of market conditions or for reasons that in view of the Exchange authorities or SEBI, trading in units of the ETFs is not advisable. In addition, trading in units is subject to trading halts caused by extraordinary market volatility and pursuant to Stock Exchange(s) and SEBI "circuit filter" rules as applicable from time to time. There can be no assurance that the requirements of the exchange/s necessary to maintain the listing of units of the ETFs will continue to be met or will remain unchanged.
- **Regulatory Risk:** Any changes in trading regulations by the stock exchange (s) or SEBI may affect the ability of Authorised Participant / Large Investor to arbitrage resulting into wider premium/ discount to NAV.
- **Passive Management of Investments:** ETFs being a passive management tool does not carry risk of active fund management. An actively managed mutual fund manager, on the other hand, can tailor portfolio holdings which are beyond the mandate of an ETFs. ETFs are passively managed and hence the risk associated with the particular ETFs corresponds closely to the risk of the underlying asset subclass the scheme is tracking.
- **Tracking Error:** The Fund Manager may not be able to invest the entire corpus in the same proportion as in the underlying index due to various factors such as fees, expenses of the scheme, corporate action, cash balance, changes in underlying index and regulatory policies which may affect the AMCs / schemes ability to achieve close correlation with the underlying index. Tracking error may be accounted by the various reasons which includes expenses, cash balance to meet redemptions, payout of IDCW, time to reallocate the portfolio subsequent to changes in the underlying index etc.
- **Concentration Risk:** ETFs may be susceptible to an increased risk of loss, including losses due to adverse occurrences affecting ETFs more than the market as a whole, to the extent that ETFs investments are concentrated in the securities of a particular issuer or issuers, country, group of countries, region, market, industry, group of industries, sector or asset class.
- **Currency Risk:** Because the NAV of ETFs are determined in U.S. dollars/ other foreign currency, the NAV of ETFs could decline if the currency of Global market in which the ETFs invests depreciates against the U.S. dollar/ other foreign currency.
- **Geographic Risk:** A natural or other disaster could occur in a geographic region in which the ETFs invests, which could affect the economy or particular business operations of companies in the specific geographic region, causing an adverse impact on the ETFs investments in the affected region.
- **Trading Risk:** ETFs face numerous market trading risks, including the potential lack of an active market for ETFs, losses from trading in secondary markets, periods of high volatility and disruption in the creation/redemption process of ETFs.
- **Security Risk:** Some countries and regions in which the ETFs invests have experienced security concerns. Incidents involving a country's or region's security may cause uncertainty in these markets and may adversely affect their economies and the ETFs investments.
- **Structural Risk:** The countries in which the ETFs invest may be subject to considerable degrees of economic, political and social instability.

The market price of the ETF unit like any other listed security is largely dependent on two factors viz. the intrinsic value of the unit (or NAV) and demand and supply of the units in the market. Sizeable demand or supply of the units in exchange may lead to market price of the units to quote at premium or discount to NAV. And hence the units of the Schemes may trade above or below the NAV.

Risk associated with investments in Gold ETF:

The Scheme shall invest in Gold ETFs. Accordingly, the NAV of the scheme will react to Gold price movements. There is no assurance that gold will maintain its long term value in terms of purchasing power. In the event of price of gold declines, the value of investment in Units of the Scheme is expected to decline proportionately.

Market Risk

The NAV of the Scheme will react to the prices of gold, Gold Related Instruments (Including Sovereign gold bond) and stock market movements. The Unit holder could lose money over short periods due to fluctuation in the NAV of the Scheme in response to factors such as economic and political developments, changes in interest rates and perceived trends in stock prices market movements, and over longer periods during market downturns.

Additionally, the prices of gold may be affected by several factors such as global gold supply and demand, investors' expectations with respect to the rate of inflation, currency exchange rates, interest rates, etc. Crises may motivate large-scale sales of gold, which could decrease the domestic price of gold.

Risk associated with investments in Silver ETF's

• Liquidity Risk:

Trading in units of the ETFs on the Exchange may be halted because of market conditions or for reasons that in view of the Exchange authorities or SEBI, trading in units of the scheme is not advisable. In addition, trading in units is subject to trading halts caused by extraordinary market volatility and pursuant to Stock Exchange(s) and SEBI "circuit filter" rules as applicable from time to time. There can be no assurance that the requirements of the exchange/s necessary to maintain the listing of units of the ETFs will continue to be met or will remain unchanged.

The ETFs have to sell silver only to bullion bankers / traders who are authorized to buy silver. Though there are an adequate number of such authorized players, the Mutual Fund may have to resort to distress sale of silver if there is no or low demand for silver to meet its cash needs of redemption or expenses.

• The Lack of an Active Trading Market:

Although the units are listed and traded on the exchange, there can be no guarantee that an active trading market for the units will be maintained. If there is a need to sell the units at a time when no active market for them exists, the price that would be received, assuming that sale happens, likely will be lower than the price that would have been received if an active market did exist.

• Withdrawal from Participation by Authorized Participants May Affect the Liquidity of Units:

If one or more Authorized Participants withdraws from participation, it may become more difficult to create or redeem Creation Units, which may reduce the liquidity of the Units. Such circumstances may be more pronounced in market conditions of increased volatility. If it becomes more difficult to create or redeem Creation Units, the correlation between the price of the Units and the NAV may be affected, which may affect the trading market for the Units.

• Regulatory Risk:

Any changes in trading regulations by the stock exchange (s) or SEBI may affect the ability of Authorised Participant/ Large Investor to arbitrage resulting into wider premium/ discount to NAV. Any changes in any other regulation relating to import and export of silver or silver jewellery (including customs duty, sales tax and any such other statutory levies) may affect the ability of the scheme to buy/sell silver against the purchase and redemption

requests received.

- **Passive Management of Investments:**

Scheme follows a passive investment strategy. The scheme's performance may be affected by the general price decline in the silver prices. The ETFs shall invest in Silver regardless of their investment merit. The ETFs do not aim to take any defensive position in case of falling markets.

- **Active Market:** Although the ETFs will be listed on exchange, there can be no assurance that an active secondary market will be developed or maintained.
- **Redemption Risk:** The ETFs would repurchase units in creation unit size only. Thus, if the unit holding is less than the creation unit size then it can be sold only through the secondary market on the exchange where the units are listed, subject to rules and regulations of the Stock Exchange. The AMCs will appoint Authorised Participant(s) (APs)/ Market Makers (MMs) to provide liquidity for the units of Silver ETFs in secondary market on an ongoing basis. The Authorised Participant(s) would offer daily two-way quote (buy and sell quotes) in the market.
- The market price of the ETF unit like any other listed security is largely dependent on two factors viz. the intrinsic value of the unit (or NAV) and demand and supply of the units in the market. Sizeable demand or supply of the units in exchange may lead to market price of the units to quote at premium or discount to NAV. Hence, the units of the scheme may trade above or below the NAV. However, given that the investors can transact with AMC directly beyond the creation unit size of the scheme there should not be a significant variation (large premium or discount) and it may not sustain due to the arbitrage opportunity available.
- The silver price reflects the prices of silver at a point in time, which is the price at close of business day. The ETFs, however, may trade these securities at different points in time during the trading session and therefore the prices at which the scheme trades may not be identical to the closing price of silver.
- **Market Risk:** The value of the Units relates directly to the value of the silver held by the ETFs and fluctuations in the price of silver could adversely affect investment value of the Units. The factors that may affect the price of silver, inter alia, include demand & supply, economic and political developments, changes in interest rates and perceived trends in bullion prices, exchange rates, inflation trends, market movements, movement/trade of silver that may be imposed by RBI, trade and restrictions on import/export of silver or silver jewellery etc. Hence the investor may also lose money due to fluctuation in the prices of the silver.
- **Performance/Asset Class Risk:** The performance of the silver will have a direct bearing on the performance of the ETFs. The returns from physical silver may underperform returns from any other asset class.
- **Currency Risk:** The formula for deriving the NAV of the units of the ETFs is based on the imported (landed) value of the silver, which is computed by multiplying international market price by US Dollar value. Hence the value of NAV or silver will depend upon the conversion value and attracts all the risk associated with such conversion.

Operational Risks: Silver Exchange Traded Funds are relatively new products and their value could decrease if unanticipated operational or trading problems arise. Silver Exchange Traded Fund, an open ended Exchange Traded Fund, is therefore subject to operational risks. In addition, investors should be aware that there is no assurance that silver will maintain its long-term value in terms of purchasing power. In the event that the price of silver declines, the value of investment in Units is expected to decline proportionately.

- The ETFs may not be able to acquire or sell the desired number of units of silver due to conditions prevailing in the market, such as, but not restricted to circuit filters on the silver ETF (if any), liquidity and volatility in silver prices.
Further, Investors may note that buying and selling units on stock exchange requires the investor to engage the services of a broker and are subject to payment of margins as required by the stock exchange/ broker, payment of brokerage, securities transactions tax and such other costs.
- The NAV of the units of Silver ETF are determined based on the formula as prescribed by the SEBI, whereas the actual price in the market may be different from the value of silver at based on the prescribed formula. This may lead to a condition where the NAV is too different from the domestic market price of silver. In such cases the trustees reserves the right to delay or suspend the buy/sell transactions.
- A day on which valuation on London Bullion Market Association (LBMA) is not available shall not be a Business day and hence NAV for the said day shall not be available to the Investors.
- Governments, central banks and related institutions, own a significant portion of the aggregate world silver holdings. If one or more of these institutions decides to sell in amounts large enough to cause a decline in world silver prices, the price of Units of the Scheme will be adversely affected.
- Conversion of underlying physical silver into the Units of the ETFs may attract capital gain tax depending on acquisition cost and holding period.

VI. Risks associated with Investing in Derivatives :

Systematic Risk: Systematic Risk is the risk associated with the entire market. Unlike unsystematic risk, it is not linked to a specific security or sector. Systematic risk is a market risk which can be due to macro-economic factors, news events, etc.

Mark to Market Risk: This risk is on account of day to day fluctuations in the underlying Security and its derivative instrument, which can adversely impact the portfolio.

Credit Risk: The credit risk is the risk that the counter party will default in its obligations and is generally small as in a Derivative transaction there is generally no exchange of the principal amount.

Interest rate risk: Derivatives carry the risk of adverse changes in the price due to change in interest rates.

Basis Risk: When a security is hedged using a Derivative, the change in price of the security and the change in price of the Derivative may not be fully correlated leading to basis risk in the portfolio.

Liquidity risk: During the life of the Derivative, the benchmark might become illiquid and might not be fully capturing the interest rate changes in the market, or the selling, unwinding prices might not reflect the underlying assets, rates and indices, leading to loss of value of the portfolio.

Model Risk: The risk of mis-pricing or improper valuation of Derivatives.

Trade Execution: Risk where the final execution price is different from the screen price, leading to dilution in the spreads and hence impacting the profitability of the reverse arbitrage strategy.

Systemic Risk: For Derivatives, especially OTC ones the failure of one Counter Party can put the whole system at risk and the whole system can come to a halt.

The scheme may invest in various derivative products in accordance with and to the extent permitted under the regulations from time to time. Derivatives are financial contracts of pre-determined fixed duration, like stock Futures /options and index futures and options, whose values are derived from the value of an underlying primary financial instrument such as: Equities, Interest rates, Exchange rates and Commodities. Derivative products are specialized instruments that require investment techniques and risk analysis which are different from those associated with stocks and other traditional securities.

Derivatives are highly leveraged instruments and a small price fluctuation in the underlying can have a larger impact on its value. Thus, its use can lead to disproportionate gains or losses to the portfolio. Execution of derivatives instruments depends on the ability of the fund manager to identify good opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and decision of fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies.

"The risks associated with the use of Derivatives are different from or possibly greater than, the risks associated with investing directly in securities and other traditional investments."

VII. Risks Associated with investing in Money Market Instruments

- Investments in money market instruments would involve a moderate credit risk i.e., risk of an issuer's inability to meet interest and principal payments.
- Money market instruments may also be subject to price volatility due to factors such as changes in interest rates, the general level of market liquidity

and market perception of creditworthiness of the issuer of such instruments.

- The NAV of the Units, to the extent that the corpus of the Scheme is invested in money market instruments, will be affected by changes in the level of interest rates. When interest rates in the market rise, the value of a portfolio of money market instruments can be expected to decline.

VIII. Risk Factors Associated with Investments in REITs and InvITs

- **Market Risk:** REITs and InvITs Investments are volatile and subject to price fluctuations on a daily basis owing to factors impacting the underlying assets. AMC/Fund Manager's will do the necessary due diligence but actual market movements may be at variance with the anticipated trends.
- **Liquidity Risk:** As the liquidity of the investments made by the Scheme could, at times, be restricted by trading volumes, settlement periods, dissolution of the trust, potential delisting of units on the exchange etc, the time taken by the Mutual Fund for liquidating the investments in the scheme may be high in the event of immediate redemption requirement. Investment in such securities may lead to increase in the scheme portfolio risk.
- **Reinvestment Risk:** Investments in REITs & InvITs may carry reinvestment risk as there could be repatriation of funds by the Trusts in form of buyback of units or Payout of Income Distribution cum Capital Withdrawal, etc. Consequently, the proceeds may get invested in assets providing lower returns.
- **Regulatory/Legal Risk:** REITs and InvITs being new asset classes, rights of unit holders such as right to information etc. may differ from existing capital market asset classes under Indian Law.

IX. Risks associated with investing in Tri Party Repo through CCIL (TREPS):

All the market repo and Tri-party repo are settled through Clearing Corporation of India Limited (CCIL). CCIL acts as a Central Counterparty (CCP) to all trades received for settlement.

Risk of exposure in the TREPS, Repos & Reverse Repos in Government Securities/Treasury Bills emanates mainly on two counts –

- a. Risk of failure by a lender to make funds available or by a borrower to provide adequate collateral security to accept the fund at the first leg of borrowing and lending under Tri-party Repo transaction or Repo transactions in Government Securities / treasury Bills.
- b. Risk of default by a borrower in repayment.

X. Risk factors associated with Creation of Segregated Portfolio

Investor holding units of segregated portfolio may not be able to liquidate their holding till the time recovery of money from the issuer. Security comprising of segregated portfolio may not realize any value. Listing of units of segregated portfolio in recognized stock exchange does not necessarily guarantee their liquidity. There may not be active trading of units in the stock market. Further, trading price of units on the stock market may be significantly lower than the prevailing NAV.

XI. Risks associated with Covered Call Strategy

The risk associated with covered calls is the loss of upside, i.e. if the shares are assigned (called away), the option seller forgoes any share price appreciation above the option strike price.

The Scheme may write covered call option only in case it has adequate number of underlying equity shares as per regulatory requirement. This would lead to setting aside a portion of investment in underlying equity shares. If covered call options are sold to the maximum extent allowed by regulatory authority, the scheme may not be able to sell the underlying equity shares immediately if the view changes to sell and exit the stock. The covered call options need to be unwound before the stock positions can be liquidated. This may lead to a loss of opportunity or can cause exit issues if the strike price at which the call option contracts have been written become illiquid. Hence, the scheme may not be able to sell the underlying equity shares, which can lead to temporary illiquidity of the underlying equity shares and result in loss of opportunity.

The writing of covered call option would lead to loss of opportunity due to appreciation in value of the underlying equity shares. Hence, when the appreciation in equity share price is more than the option premium received the scheme would be at a loss.

XII. Risks associated with Short Selling & Securities Lending:

Securities Lending is a lending of securities through an approved intermediary to a borrower under an agreement for a specified period with the condition that the borrower will return equivalent securities of the same type or class at the end of the specified period along with the corporate benefits accruing on the securities borrowed. There are risks inherent in securities lending, including the risk of failure of the other party, in this case the approved intermediary to comply with the terms of the agreement. Such failure can result in a possible loss of rights to the collateral, the inability of the approved intermediary to return the securities deposited by the lender and the possible loss of corporate benefits accruing thereon.

Short-selling is the sale of shares or securities that the seller does not own at the time of trading. Instead, he borrows it from someone who already owns it. Later, the short seller buys back the stock/security he shorted and returns the stock/security to the lender to close out the loan. The inherent risks are Counterparty risk and liquidity risk of the stock/security being borrowed. The security being short sold might be illiquid or become illiquid and covering of the security might occur at a much higher price level than anticipated, leading to losses.

B. RISK MITIGATION MEASURES FOLLOWED:

Risk management is an integral part of the investment process. In line with Para 4.3.1 of SEBI Mutual Funds Master Circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023, the AMC incorporates adequate safeguards for controlling risks in the portfolio construction process, which would be periodically evaluated. Online monitoring of various exposure limits are done by the Front Office System. The system incorporates all the investment restrictions as per SEBI guidelines and 'soft' warning alerts at appropriate levels for preemptive monitoring. The system also enables identifying & measuring the risk through various risk measurement tools and analyzes the same so as to act in a preventive manner. In addition to minimize the major risks for equity & debt schemes, the following steps are taken

Credit Risk: Risk of investing in unsustainable / weak companies

- In depth credit evaluation of the money market and debt instruments (other than GSecs) proposed to be invested in.
- Issuer wise and Industry wise exposure limits.

Liquidity Risk: High impact cost at the time of buying/selling

- Focus on good quality paper having good liquidity in the market at the time of portfolio construction.
- Asset-Liability management

Volatility risks: There is the risk of volatility in markets due to external factors like liquidity flows, changes in the business environment, economic policy etc. The scheme will manage volatility risk through diversification.

Reinvestment Risk: This risk refers to the interest rate levels at which cash flows received from the securities in the Schemes are reinvested. The risk is that the rate at which interim cash flows can be reinvested may be lower than that originally assumed. Reinvestment risks will be limited to the extent of coupons received on debt instruments, which will be a very small portion of the portfolio value.

C. REQUIREMENT OF MINIMUM INVESTORS IN THE SCHEME

The Scheme(s)/Plan(s) shall have a minimum of 20 investors and no single investor shall account for more than 25% of the corpus of the Scheme(s)/Plan(s) (at portfolio level). However, if such limit is breached during the NFO of the Scheme, the Fund will endeavour to ensure that within a period of three months or the end of the succeeding calendar quarter from the close of the NFO of the Scheme, whichever is earlier, the Scheme complies with these two conditions. In case the Scheme / Plan(s) does not have a minimum of 20 investors in the stipulated period, the provisions of Regulation 39(2)(c) of the SEBI (MF) Regulations would become applicable automatically without any reference from SEBI and accordingly the Scheme / Plan(s) shall be wound up and the units would be redeemed at applicable NAV. The two conditions mentioned above shall be complied within each subsequent calendar quarter, on an average basis, as specified by SEBI. If there is a breach of the 25% limit by any investor over the quarter, a rebalancing period of one month would be allowed and thereafter the investor who is in breach of the rule shall be given 15 days notice to redeem his exposure over the 25% limit. Failure on the part of the said investor to redeem his exposure over the 25% limit within the aforesaid 15 days would lead to automatic redemption by the Mutual

Fund on the applicable Net Asset Value on the 15th day of the notice period. The Fund shall adhere to the requirements prescribed by SEBI from time to time in this regard.

D. SPECIAL CONSIDERATIONS

- Prospective investors should study this Scheme Information Document and Statement of Additional Information carefully in its entirety and should not construe the contents hereof as advice relating to legal, taxation, financial, investment or any other matters and are advised to consult their legal, tax, financial and other professional advisors to determine possible legal, tax, financial or other considerations of subscribing to or redeeming Units, before making a decision to invest/redeem/hold Units.
- Neither this Scheme Information Document ("SID"), SAI nor the Units have been registered in any jurisdiction. The distribution of this Scheme Information Document or Statement of Additional Information in certain jurisdictions may be restricted or totally prohibited to registration requirements and accordingly, persons who come into possession of this Scheme Information Document or Statement of Additional Information are required to inform themselves about and to observe any such restrictions and/ or legal compliance requirements.
- The AMC, Trustee or the Mutual Fund have not authorized any person to issue any advertisement or to give any information or to make any representations, either oral or written, other than that contained in this Scheme Information Document or the Statement of Additional Information or as provided by the AMC in connection with this offering. Prospective Investors are advised not to rely upon any information or representation not incorporated in the Scheme Information Document or Statement of Additional Information or as provided by the AMC as having been authorized by the Mutual Fund, the AMC or the Trustee.
- Redemption due to change in the fundamental attributes of the Scheme or due to any other reasons may entail tax consequences. The Trustee, AMC, Mutual Fund, their directors or their employees shall not be liable for any such tax consequences that may arise due to such Redemptions.
- The Trustee, AMC, Mutual Fund, their directors or their employees shall not be liable for any of the tax consequences that may arise, in the event that the Scheme is wound up for the reasons and in the manner provided in Statement of Additional Information.
- The tax benefits described in this Scheme Information Document and Statement of Additional Information are as available under the present taxation laws and are available subject to relevant conditions. The information given is included only for general purpose and is based on advice received by the AMC regarding the law and practice currently in force in India as on the date of this Scheme Information Document and the Unit holders should be aware that the relevant fiscal rules or their interpretation may change. As is the case with any investment, there can be no guarantee that the tax position or the proposed tax position prevailing at the time of an investment in the Scheme will endure indefinitely. In view of the individual nature of tax consequences, each Unit holder is advised to consult his / her own professional tax advisor.
- The Mutual Fund may disclose details of the investor's account and transactions there under to those intermediaries whose stamp appears on the application form or who have been designated as such by the investor. In addition, the Mutual Fund may disclose such details to the bankers, as may be necessary for the purpose of effecting payments to the investor. The Fund may also disclose such details to regulatory and statutory authorities/bodies as may be required or necessary.
- In case the AMC or its Sponsor or its Shareholders or their affiliates/associates or group companies make substantial investment, either directly or indirectly in the Scheme. Redemption of Units by these entities may have an adverse impact on the performance of the Scheme. This may also affect the ability of the other Unit holders to redeem their units.
- Pursuant to the provisions of Prevention of Money Laundering Act, 2002, if after due diligence, the AMC believes that any transaction is suspicious in nature as regards money laundering, on failure to provide required documentation, information, etc. by the Unitholder/ investor, the AMC shall have absolute discretion to report such suspicious transactions to FIU-IND and / or to freeze the folios of the Unitholder/ investor(s), reject any application(s) / redemptions / allotment of units and effect mandatory redemption of unit holdings of the investor(s) at the applicable NAV subject to payment of exit load, if any
- The need to Know Your Customer (KYC) is vital for the prevention of money laundering. The Trustee / AMC may seek information or obtain and retain documentation used to establish identity. It may re-verify identity and obtain any missing or additional information for this purpose. The Trustee / AMC shall have absolute discretion to reject any application or prevent further transactions by a Unit holder, if after due diligence, the Investor / Unit holder / a person making the payment on behalf of the Investor does not fulfill the requirements of the Know Your Customer (KYC).
- As the liquidity of the Scheme investments may sometimes be restricted by trading volumes and settlement periods, the time taken by the Fund for Redemption of Unit may be significant in the event of an inordinately large number of Redemption Requests or of a restructuring of the Scheme portfolio. In view of this, the Trustee has the right, in its sole discretion, to limit redemptions under certain circumstances - please refer to the paragraph "Right to Limit Redemptions".

D. Units issued by REITs and InvITs	0%	10%	Very High

* Including Derivatives

Investment in Derivatives - up to 50% of the net assets of the Scheme. Investment in derivatives shall be for hedging, portfolio balancing or any other purposes as may be permitted by SEBI from time to time.

Investment & Disclosure in the derivatives will be in line with Para 12.25 of SEBI Mutual Funds Master Circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023.

The scheme shall not invest in physical goods except in 'gold' through Gold ETFs.

For the purpose of ensuring liquidity, the scheme will invest in those securities that fall within the definition of liquid assets like Treps, Call money, T-bills, etc. as permitted by SEBI/RBI.

In terms of SEBI Circular no. SEBI/IMD/CIR18/198647/2010 dated March 15, 2010; the mutual fund /AMC shall make investment out of the NFO proceeds only on or after the closure of the NFO period.

As per Para 12.24.1 of SEBI Mutual Funds Master Circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023, the cumulative gross exposure through equity, debt, derivative positions (including commodity and fixed income derivatives), repo transactions and credit default swaps in corporate debt securities, Real Estate Investment Trusts (REITs), Infrastructure Investment Trusts (InvITs), other permitted securities/assets and such other securities/assets as may be permitted by the Board from time to time should not exceed 100% of the net assets of the scheme.

As per Para 12.25.3 of SEBI Mutual Funds Master Circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023, Cash or cash equivalents with residual maturity of less than 91 days may be treated as not creating any exposure.

The scheme may invest in securitized debt instruments.

The Scheme shall not invest in instruments with special features as defined in Para 9.4 of SEBI Mutual Funds Master Circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023, regarding Tier I and Tier II Bonds issued under Basil III Framework.

The scheme may invest in debt instruments having structured obligations/credit enhancements. However, in accordance with provisions of Para 12.3 of SEBI Mutual Funds Master Circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023, as may be amended by SEBI from time to time, investment in the following instruments shall not exceed 10% of the debt portfolio of the Scheme and the group exposure in such instruments shall not exceed 5% of the debt portfolio of the Scheme:

- a. Unsupported rating of debt instruments (i.e. without factoring-in credit enhancements) is below investment grade; and
- b. Supported rating of debt instruments (i.e. after factoring-in credit enhancement) is above investment grade.

The Scheme may engage into the short selling of securities in accordance with the framework relating to short selling and securities lending and borrowing specified by the Board.

Subject to the SEBI (MF) Regulations and in accordance with Securities Lending Scheme, 1997, Para 12.11 of SEBI Mutual Funds Master Circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023, as may be amended from time to time, the Scheme seeks to engage in Securities Lending.

The AMC shall adhere to the following limits should it engage in Stock Lending.

1. Not more than 20% of the net assets of the Scheme can generally be deployed in Securities lending.
2. Not more than 5% of the net assets of the Scheme can generally be deployed in Securities Lending to any single approved intermediary level.
3. The Mutual Fund may not be able to sell such lent-out securities, and this can lead to temporary illiquidity.

The scheme shall not invest in foreign/overseas securities.

A part of the net assets may be invested in the Triparty repo (TREPS) or repo or in an alternative investment as may be provided by RBI to meet the liquidity requirements. However, such investment shall not exceed 55% of the net assets of the scheme.

The Scheme may enter into repos/reverse repos as may be permitted by RBI. The Scheme may participate in repo in corporate debt securities. and in accordance with extant SEBI/RBI guidelines and any subsequent amendments thereto specified by SEBI and/or RBI from time to time. Gross exposure of the scheme to repo transactions in corporate debt securities shall not be more than 10% of the net assets of the scheme.

The Scheme shall not invest in Credit Default Swaps

The Scheme may also invest in units of debt and liquid mutual fund schemes. As per investment restrictions specified in the Seventh schedule of SEBI (Mutual Fund) Regulations, 1996, the Scheme may invest in other schemes of the Mutual Fund or any other mutual fund without charging any fees, provided the aggregate inter-scheme investment made by all the schemes under the same management or in schemes under the management of any other asset management company shall not exceed 5% of the Net Asset Value of the Mutual Fund.

Pending deployment of the funds of the Scheme in securities in terms of the investment objective of the Scheme, the AMC may park the funds of the Scheme in short term deposits of scheduled commercial banks, subject to the guidelines issued by SEBI vide Para 12.16 of SEBI Mutual Funds Master Circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023 read with Circular No: SEBI/HO/IMD/DF2/CIR/P/2019/101 dated September 20, 2019 and such other guidelines as may be issued from time to time in this regard.

There can be no assurance that the investment objective of the scheme will be realized. The scheme will also review these investments from time to time and the Fund Manager may churn the portfolio to the extent as considered beneficial to the investors.

Rebalancing of Portfolio

Changes in Investment Pattern:

Rebalancing of Portfolio Rebalancing due to Short Term Defensive Consideration:

Due to market conditions, the AMC may invest beyond the range set out in the asset allocation. Such deviations shall normally be for a short term and defensive considerations as per SEBI Circular no. SEBI/HO/IMD/DF2/CIR/P/2021/024 dated March 4, 2021, and the fund manager will rebalance the portfolio within 30 calendar days from the date of deviation.

Rebalancing due to Passive Breaches:

Further, as per Para 2.9.1 of SEBI Mutual Funds Master Circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023, as may be amended from time to time, in the event of deviation from mandated asset allocation due to passive breaches (occurrence of instances not arising out of omission and commission of the AMC), the fund manager shall rebalance the portfolio of the Scheme within 30 Business Days. In case the portfolio of the Scheme is not rebalanced within the period of 30 Business Days, justification in writing, including details of efforts taken to rebalance the portfolio shall be placed before the Investment Review Committee of the AMC. The Investment Committee, if it so desires, can extend the timeline for rebalancing up to sixty (60) Business Days from the date of completion of mandated rebalancing period. Further, in case the portfolio is not rebalanced within the aforementioned mandated plus extended timelines the AMC shall comply with the prescribed restrictions, the reporting and disclosure requirements as specified in para 2.9.3 and 2.9.4 of the SEBI Master Circular on Mutual Funds dated May 19, 2023.

Overview of Debt Market: The major players in the Indian Debt Markets today are banks, financial institutions, insurance companies and mutual funds. The instruments in the market can be broadly categorized as those issued by corporate, banks, financial institutions and those issued by state/central governments. The risk associated with any investments are – credit risk, interest rate risk and liquidity risk. While corporate papers carry credit risk due to changing business conditions, government securities are perceived to have zero credit risk. Interest rate risk is present in all debt securities and depends on a variety of macroeconomic factors. The liquidity risk in corporate securities market is higher compared to those of government securities. Liquidity in the corporate debt market has been improving due to the entry of more players and due to various measures taken by the regulators in this direction over a period of time. SEBI's directive of a compulsory rating by a rating agency for any [public issuance over 18 months is a case in point. In times to come, dematerialization, entry of private insurance companies and growth of fixed income mutual funds are expected to enhance liquidity in corporate debt market.

D. WHERE WILL THE SCHEME INVEST?

Subject to the Regulations, the corpus of the Scheme may be invested in all or any one of (but not exclusively) the following securities:

- Equity and equity related instruments - including preference shares, convertible bonds and debentures and warrants carrying the right to obtain equity shares.
- Debt Instruments - include Govt. of India securities (zero coupon or coupon bearing Bonds), Govt. Agencies and other statutory bodies (with or without Govt. Guarantee), Bonds of Public Sector Undertakings, Debentures issued by public, private sector undertakings, Financial Institutions with rating not below AAA.
- Money Market Instruments - include Commercial Papers, Commercial Bills, Treasury Bills, Government Securities having an un-expired maturity up to one year, Call or Notice Money, Certificate of Deposit, TREPS, Repos & Reverse Repos in Government Securities/Treasury Bills, Bills re-discounting, MIBOR Instruments, alternative investment for the call money market as may be provided by the RBI to meet the liquidity requirements and any other Money market instruments specified by SEBI/RBI from time to time.
- Derivative - instruments like index futures, stock futures, index options, stock option, warrants, convertible securities, Interest Rate Futures, Interest Rate Swaps, Forward Rate Agreements, or any other derivative instruments that are permissible or may be permissible in future under applicable regulations.
- REITs / InvITs: The scheme may invest in Units issued by REITs and InvITs as per SEBI guidelines.
- Units of MF schemes and Equity Exchange Traded Funds (ETFs).
- Gold/Silver ETFs and related instruments

Investments in other schemes:

The scheme may invest in another scheme under the same asset management company or any other mutual fund without charging any fees, provided that aggregate inter-scheme investments made by all schemes under the same management or in schemes under the management of any other asset management company shall not exceed 5% of the net asset value of the mutual fund.

E. WHAT ARE THE INVESTMENT STRATEGIES?

i. Investment Strategy

The Scheme may utilize in house fundamental research and quantitative framework to monitor the markets to decide the asset allocation mix in various asset classes.

- Valuation parameters like Price to Book Value and Price to Earnings of Equity market indices, Bond Equity Earnings Yield Ratio (BEER), VIX and Equity and Debt market Momentum will be taken into account while deciding the asset allocation levels of the portfolio between equities and debt.
- Fixed income allocation will be made based on the evaluation of macroeconomic factors, yield spreads, yield curve and other such factors.
- The model may also use Cost of capital and Rental yields prevailing in the market to determine its allocation to REITs and InvITs.
- Factors such as Equity Index to Gold Price Ratio, Gold Price to Crude Oil Ratio, Gold Price to G Sec yield Ratio, Dollar Index to Gold Price Ratio and similar parameters may be considered to decide the allocation to gold/silver ETFs.

The Scheme, being an open-ended multi-asset scheme, investing across multiple assets, would aim to generate long-term capital appreciation through an actively managed portfolio having significant exposure in equity, Debt and Gold/Silver ETFs. The scheme will intend to build a multi-asset portfolio across different assets with a long-term perspective.

- The scheme would invest a minimum of 65% of total assets in equity & equity related instruments
- Minimum of 10% in Debt and money market instruments and
- Minimum of 10% in Gold/Silver ETFs

The AMC would follow an active investment style supported by internal research. Essentially, the focus will be on fundamentally strong companies with growth prospects over time. The AMC will focus on the fundamentals of the business, the industry structure, the quality of management sensitivity to economic factors, the financial strength of the company and the key earning drivers. The Scheme may from time to time hold cash / cash equivalents for the purpose of derivative investments and for meeting liquidity requirements.

Hedging and Derivatives:

The scheme intends to use derivatives as may be permitted under the Regulations from time to time. The same shall be within the permissible limit prescribed by SEBI (Mutual Fund) Regulations from time to time.

As a part of the fund management process, the AMC may use appropriate derivative instruments in accordance with the investment objectives of the Scheme and in accordance with SEBI Regulations as may be applicable from time to time.

Equity / Equity Related Derivative Instruments:

Index futures are meant to be an efficient way of buying / selling an index compared to buying/selling a portfolio of physical shares representing an index for ease of execution and settlement. Index futures can be an efficient way of achieving the Scheme's investment objective. Index futures may avoid the need for tracking in individual components of the index, which may not be possible at times, keeping in mind the circuit filter system and the liquidity in some of the scrips. Index futures can also be helpful in reducing the transaction costs and the processing costs on account of ease of execution of one trade compared to several trades of shares of an index and will be easy to settle compared to physical portfolio of shares representing an index.

Stock futures could also be used as an alternative to investing in particular stocks comprising an index where either the liquidity is low or the impact cost is high

Covered Call Strategy:

Covered call is a strategy that combines owning underlying asset, along with the option contract of underlying asset. In this strategy we hold a long position in cash in a security and at the same time we writes (Sell) the call option on the same security to generate income through premiums.

This strategy works well when market is looking mildly bullish or almost neutral and holding a underlying security is not looking to make good profit in near term, so we will sell call option to generate extra return from this underlying security.

Benefits of using Covered Call strategy in Mutual Funds:

The covered call strategy can be followed by the Fund Manager in order to hedge risk thereby resulting in better risk adjusted returns of the Scheme. The strategy offers the following benefits: a) Hedge against market risk - Since the fund manager sells a call option on a stock already owned by the mutual fund scheme, the downside from fall in the stock price would be lower to the extent of the premium earned from the call option. b) Generating additional returns in the form of option premium in a range bound market. Thus, a covered call strategy involves gains for unit holders in case the strategy plays out in the right direction.

Risk associated with covered calls

The risk associated with covered calls is the loss of upside, i.e. if the shares are assigned (called away), the option seller forgoes any share price appreciation above the option strike price. Please refer risk factors section on detail derivatives risk factors.

Cash Futures Arbitrage Strategy

The fund would look for market opportunities between the spot and the futures market. The cash futures arbitrage strategy can be employed when the price of the futures exceeds the price of the underlying stock. The fund would first buy the stocks in cash market and then sell in the futures market to lock the spread.

Buying the stock in cash market and selling the futures results in a hedge where the fund portfolio has locked in a spread and is not affected by the price movements in the spot and futures markets. The arbitrage position can be continued till expiry of the futures contracts. The futures contracts are settled based on the last half an hour's weighted average trade of the cash market. There is a convergence between the cash market and the futures market on expiry and this convergence results in the portfolio being able to generate the arbitrage return locked in earlier. However, the position may even be closed earlier in the event of the price differential being realized before expiry or better opportunities being available in other stocks / indexes. The strategy is attractive if this price differential (post all costs) is higher than the investor's cost-of capital.

ii. Portfolio Turnover

Portfolio Turnover is defined as the lower of the value of purchases or sales as a percentage of the average corpus of the Scheme during a specified period of time. Due to the inherent nature of the Scheme, it is expected that there could be regular subscriptions and redemptions on an ongoing basis. Further, the AMC may have to sell the underlying from time to time to meet ongoing expenses/transaction costs or redemptions.

In view of the above, it will difficult to provide an estimate/range with a reasonable measure of accuracy for the anticipated portfolio turnover in the Scheme, but it will be the endeavour of the fund manager to maintain an optimal portfolio turnover rate commensurate with the investment objective of the scheme and purchase/ redemption transactions on an ongoing basis in the scheme.

iii. Risk Control

The Mutual Fund has built adequate internal risk management controls and safeguards to ensure that the Scheme is managed in line with the defined investment objectives and in compliance with SEBI (MF) Regulations. The AMC will monitor the tracking error on an ongoing basis and review the performance against the benchmark index and peer group regularly.

All investment decisions, relating to the Scheme, will be undertaken by the AMC in accordance with the Regulations and the investment objectives specified in this SID. All investment decisions taken by the AMC in relation to the Scheme shall be recorded.

The Investment Management Committee (IMC) consisting of senior employees including the MD of the AMC to oversee the Investment function, will be responsible for laying down the broad Investment Policy and the Specific scheme mandates, in addition to monitoring scheme performance and reviewing portfolio strategy. The risk control parameters would be laid down for each scheme based on the objectives of the scheme and prudent fund management practices will ensure that investor monies are invested in the appropriate risk/reward environment. The AMC would ensure that investments are made in accordance with the regulatory / internal guidelines, if any. Internal guidelines may be set by the AMC from time to time and reviewed in line with the market dynamics.

The designated Fund manager of the scheme will be responsible for taking the day-to-day investment decisions and will inter-alia be responsible for asset allocation, security selection and timing of investment decisions.

In case of investments in debt instruments, the AMC aims to identify securities, which offer superior levels of yield at lower levels of risks. With the aim of controlling risks, the investment team of the AMC will carry out requisite credit evaluation of the securities. Rated Debt instruments (not below AAA category) in which the Scheme invests will be of investment grade as rated by a credit rating agency. The AMC will be guided by the ratings of Rating Agencies such as CRISIL, CARE, ICRA and Fitch or any other rating agencies that may be registered with SEBI from time to time.

The AMC may approach rating agencies such as CRISIL, ICRA, etc for ratings of the scheme. The Scheme may use various derivatives and hedging products from time to time, as would be available and permitted by SEBI, in an attempt to protect the value of the portfolio and enhance Unit holders' interests.

F. FUNDAMENTAL ATTRIBUTES

The following are the Fundamental Attributes of the scheme, in terms of Regulation 18 (15A) of the SEBI (MF) Regulations:

(i) Type of the scheme

An open ended scheme investing in Equity, Debt & Money Market Securities and Gold/Silver ETFs and related instruments

(ii) Investment Objective

Please refer to section "INVESTMENT OBJECTIVE OF THE SCHEME" on page no. 9

(iii) Investment pattern

Please refer to section "ASSET ALLOCATION PATTERN" on page no. 9

(iv) Terms of Issue

- Liquidity Repurchase/Resale is at Net Asset Value (NAV) related prices with repurchase/resale loads as applicable (within limits) as specified under SEBI Regulations 1996, the repurchase price shall not be lower than 95% of the NAV.
- Listing is not envisaged as the Scheme is an open-ended Scheme, with the Fund providing for sales and repurchase on a continuous basis.
- Aggregate fees and expenses charged to the scheme - Please refer section "IV FEES AND EXPENSES" for details.
- The Scheme does not provide any safety net or guarantee nor does it provide any assurance regarding the realization of the investment objective of the scheme.

Changes in Fundamental Attributes

In accordance with Regulation 18(15A) of the SEBI (MF) Regulations, the Trustees shall ensure that no change in the fundamental attributes of the Scheme(s) and the Plan(s) / Option(s) there under or the trust or fee and expenses payable or any other change which would modify the Scheme(s) and the Plan(s) / Option(s) there under and affect the interests of Unitholders is carried out unless:

- SEBI has reviewed and provided its comments on the proposal
- A written communication about the proposed change is sent to each unitholder and an advertisement is given in one English daily newspaper having nationwide circulation as well as in a newspaper published in the language of the region where the Head Office of the mutual fund is situated; and
- The unitholders are given an option to exit at the prevailing Net Asset Value without any exit load for a period of at least 30 days.

G. HOW WILL THE SCHEME BENCHMARK ITS PERFORMANCE?

Benchmark Index

Nifty 50 TRI (70%) + NIFTY Short Duration Debt Index (20%) + Domestic prices of Gold (8%) + Domestic prices of Silver (2%)

The weightages as provided in benchmark are as per intended investments to be made in those asset classes.

Justification for use of benchmark

The composition of this index is in the line with the investment objective of the Scheme and hence it is the most suited benchmark for comparing the performance of the Scheme.

The Trustee/AMC reserves the right to change the benchmark for the evaluation of the performance of the Scheme from time to time, keeping in mind the investment objective of the Scheme and the appropriateness of the benchmark, after obtaining relevant approval from SEBI.

I. WHAT ARE THE INVESTMENT RESTRICTIONS?

i. Investment restrictions

Investment restrictions as contained in the Seventh Schedule to SEBI (Mutual Funds) Regulations, 1996 and the restrictions applicable to the Scheme are provided below-

1. As per Para 12.8.3.1 of SEBI Mutual Funds Master Circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023. A mutual fund scheme shall not invest more than:
 - a) 10% of its NAV in debt and money market securities rated AAA; or
 - b) 8% of its NAV in debt and money market securities rated AA; or
 - c) 6% of its NAV in debt and money market securities rated A and below issued by a single issuer.

The above investment limits may be extended by up to 2% of the NAV of the scheme with prior approval of the Board of Trustee and Board of Directors of the AMC, subject to compliance with the overall 12% limit specified in clause 1 of Seventh Schedule of MF Regulation.

Provided that such limit shall not be applicable for investments in Government Securities, treasury bills and triparty repo on Government securities or treasury bills.

Provided further that investments within such limit can be made in mortgaged backed securitised debt which are rated not below investment grade by a credit rating agency registered with the Board.

Provided further that such limit shall not be applicable for investments in case of debt exchange traded funds or such other funds as may be specified by the Board from time to time.

2. The scheme shall not invest in unlisted debt instruments including commercial papers, except Government Securities and other money market instruments. Provided that the scheme may invest in unlisted non-convertible debentures up to a maximum of 10% of the debt portfolio of the scheme subject to such conditions as may be specified by the Board from time to time.

Provided further that the scheme shall comply with the norms under this clause within the time and in the manner as may be specified by the Board from time to time.

Provided further that the norms for investments by mutual fund schemes in unrated debt instruments shall be specified by the Board from time to time.

3. No Mutual Fund under all its schemes should own more than 10% of any company's paid up capital carrying voting rights.
4. Transfers of investments from one scheme to another scheme in the same mutual fund shall be allowed only if,-
 - (a) Such transfers are done at the prevailing market price for quoted instruments on spot basis. In the absence of a traded price, price derived from the last valuation yield shall be used. [Explanation: - Spot basis shall have same meaning as specified by stock exchange for spot transactions;]
 - (b) The securities so transferred shall be in conformity with the investment objective of the scheme to which such transfer has been made. Further, inter scheme transfers shall be in accordance with the guidelines issued by Para 12.30 of SEBI Mutual Funds Master Circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023 as amended from time to time.

5. Debentures, irrespective of any residual maturity period (above or below one year), shall attract the investment restrictions as applicable for debt instruments as specified under Clause 1 and 1A of Seventh Schedule to the Regulations.

6. The Mutual Fund shall buy and sell securities on the basis of deliveries and shall in all cases of purchases, take delivery of relevant securities and in all cases of sale, deliver the securities.

Provided that a mutual fund may engage in short selling of securities in accordance with the framework relating to short selling and securities lending and borrowing specified by the Board.

Provided further that the mutual fund may enter into derivatives transactions in a recognized stock exchange, subject to the framework specified by the Board.

Provided further that sale of government security already contracted for purchase shall be permitted in accordance with the guidelines issued by the Reserve Bank of India in this regard.

7. No mutual fund scheme shall invest more than 10% of its NAV in the equity shares or equity related instruments of any company.
8. The Mutual Fund shall get the securities purchased or transferred in the name of the Mutual Fund on account of the concerned scheme, wherever investments are intended to be of long-term nature.
9. The scheme shall not park funds pending deployment in short term deposits of scheduled commercial banks.
10. The Scheme shall not make any investment in,-
 - (a) Any unlisted security of an associate or group company of the sponsor; or
 - (b) Any security issued by way of private placement by an associate or group company of the sponsor; or
 - (c) The listed securities of group companies of the sponsor which is in excess of 25% of the net assets.

11. The Scheme shall not make any investment in any fund of funds scheme.

12. The Fund shall not borrow except to meet temporary liquidity needs of the Fund for the purpose of Repurchase/Redemption of Unit or payment of interest to the Unit holder.

13. All investments by a mutual fund scheme in equity shares and equity related instruments shall only be made provided such securities are listed or to be listed.

14. A mutual fund may invest in the units of REITs and InvITs subject to the following:

(a) No mutual fund under all its schemes shall own more than 10% of units issued by a single issuer of REIT and InvIT; and

(b) A mutual fund scheme shall not invest –

i. more than 10% of its NAV in the units of REIT and InvIT; and

ii. more than 5% of its NAV in the units of REIT and InvIT issued by a single issuer.

15. Further, pursuant to para 12.25 of SEBI Mutual Funds Master Circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023 has prescribed the following investment restrictions w.r.t. investment in derivatives:

a) The cumulative gross exposure through debt and derivative positions shall not exceed 100% of the net assets of the scheme. Cash or cash equivalents with residual maturity of less than 91 days shall be treated as not creating any exposure.

b) The Scheme shall not write options or purchase instruments with embedded written options. However, pursuant to the para 12.25.8 of SEBI Mutual Funds Master Circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023, the scheme shall write call options only under a 'covered call strategy' subject to the conditions as mentioned in the said circular.

c) The total exposure related to option premium paid shall not exceed 20% of the net assets of the scheme.

d) Exposure due to hedging positions may not be included in the above mentioned limits subject to the following:

i. Hedging positions are the derivative positions that reduce possible losses on an existing position in securities and till the existing position remains.

ii. Hedging positions cannot be taken for existing derivative positions. Exposure due to such positions shall have to be added and treated under limits

mentioned in Point a.

- iii. Any derivative instrument used to hedge has the same underlying security as the existing position being hedged.
- iv. The quantity of underlying associated with the derivative position taken for hedging purposes does not exceed the quantity of the existing position against which hedge has been taken.
- e) Exposure due to derivative positions taken for hedging purposes in excess of the underlying position against which the hedging position has been taken, shall be treated under the limits mentioned in point a.
- f) Each position taken in derivatives shall have an associated exposure as defined under. Exposure is the maximum possible loss that may occur on a position. However, certain derivative positions may theoretically have unlimited possible loss. Exposure in derivative positions shall be computed as follows :

Position	Exposure
Long Future	Futures Price * Lot Size * Number of Contracts
Short Future	Futures Price * Lot Size * Number of Contracts
Option bought	Option Premium Paid * Lot Size * Number of Contracts.

7. The Scheme may enter into plain vanilla interest rate swaps for hedging purposes. The counter party in such transactions has to be an entity recognized as a market maker by RBI. Further, the value of the notional principal in such cases shall not exceed the value of respective existing assets being hedged by the scheme. Exposure to a single counterparty in such transactions shall not exceed 5% of the net assets of the scheme.

The Scheme will comply with the other Regulations applicable to the investments of Mutual Funds from time to time.

All the investment restrictions will be applicable at the time of making investments. Apart from the Investment Restrictions prescribed under the Regulations, internal risk parameters for limiting exposure to a particular scrip or sector may be prescribed from time to time to respond to the dynamic market conditions and market opportunities.

- ii. The AMC/Trustee may alter these above stated restrictions from time to time to the extent the Regulations change, so as to permit the Scheme to make its investments in the full spectrum of permitted investments for mutual funds to achieve its respective investment objective.

iii. Investments in other schemes

According to the Clause 4 of Schedule 7 read with Regulation 44(1), of the SEBI (MF) Regulations, 1996: "A scheme may invest in another scheme under the same asset management company or any other mutual fund without charging any fees, provided that aggregate inter- scheme investments made by all schemes under the same management or in schemes under the management of any other asset management company shall not exceed 5% of the net asset value of the mutual fund."

iv. AMC's investments in the Scheme

As per the amended regulations i.e. sub-regulation 16(A) in Regulation 25 of SEBI (Mutual Funds) Regulations, 1996 ('MF Regulations'), asset management companies ('AMCs') are required to invest such amount in such scheme(s) of the mutual fund, based on the risk associated with the scheme, as may be specified by the Board from time to time.

As per sub-regulation 17 in Regulation 25 of SEBI (Mutual Funds) Regulations, 1996 ('MF Regulations'), The asset management company shall not invest in any of its scheme, unless full disclosure of its intention to invest has been made in the offer documents, in case of schemes launched after the notification of Securities and Exchange Board of India (Mutual Funds) (Amendment) Regulations, 2011:

Provided that an asset management company shall not be entitled to charge any fee on its investment in that scheme.

The Trustee/AMC may alter these above stated restrictions of Section I - (What Are the Investment Restrictions) from time to time to the extent the SEBI (MF) Regulations change, so as to permit the Scheme(s) to make its investments in the full spectrum of permitted investments for mutual funds to achieve its respective investment objective.

SEGREGATION OF PORTFOLIO

Definitions

- 'Segregated portfolio' shall mean a portfolio, comprising of debt or money market instruments affected by a credit event, that has been segregated in a mutual fund scheme.
- 'Main portfolio' shall mean the scheme portfolio excluding the segregated portfolio.
- 'Total portfolio' shall mean the scheme portfolio including the securities affected by the credit event. For sake of clarity, total portfolio is Main Portfolio plus Segregated Portfolio

AMC may create segregated portfolio in a mutual fund scheme subject to the following:

1. Segregated portfolio may be created, in case of a credit event at issuer level i.e. downgrade in credit rating by a SEBI registered Credit Rating Agency (CRA), as under:
 - a. Downgrade of a debt or money market instrument to 'below investment grade', or
 - b. Subsequent downgrades of the said instruments from 'below investment grade', or
 - c. Similar such downgrades of a loan rating.
2. In case of difference in rating by multiple CRAs, the most conservative rating shall be considered. Creation of segregated portfolio shall be based on issuer level credit events and implemented at the ISIN level.
3. Creation of segregated portfolio shall be subject to guidelines specified by SEBI from time to time. Moreover, creation of segregated portfolio shall be optional and at the discretion of the Shriram Asset Management Company Limited (SAMCL/AMC).

Creation of segregated portfolio of unrated debt or money market instruments by mutual fund schemes of an issuer that does not have any outstanding rated debt or money market instruments, subject to the following:

- a. Segregated portfolio of such unrated debt or money market instruments may be created only in case of actual default of either the interest or principal amount.
- b. Asset Management Companies are required to inform AMFI immediately about the actual default by the issuer. Upon being informed about the default, AMFI shall immediately inform the same to all AMCs. Pursuant to dissemination of information by AMFI about actual default by the issuer, SAMCL may segregate the portfolio.

Portfolio of the scheme shall be segregated in accordance with requirements as prescribed by SEBI from time to time.

Process for creation of segregated portfolio

- 1) AMC shall decide on creation of segregated portfolio on the day of credit event/receipt of information about actual default of unrated debt or money market instruments (credit event). Once AMC decides to segregate portfolio, following process shall be followed to implement the decision to segregate portfolio:
 - i. immediately issue a press release disclosing the intention to segregate such debt and money market instrument and its impact on the investors. The mutual fund should also disclose that the segregation shall be subject to Trustee approval. Additionally, the said press release shall be prominently disclosed on the website of SAMCL.
 - ii. seek approval of Board of AMC and Board of Trustees of Shriram Mutual Fund prior to creation of the segregated portfolio.

- iii. ensure that till the time the AMC and Trustee approval is received, which in no case shall exceed 1 business day from the day of credit event, the subscription and redemption in the scheme shall be suspended for processing with respect to creation of units and payment on redemptions.
- 2) If the Trustee approval is received by SAMCL,
 - i. Segregated portfolio shall be effective from the day of credit event
 - ii. SAMCL shall issue a press release immediately with all relevant information pertaining to the segregated portfolio. The said information shall also be submitted to SEBI.
 - iii. An e-mail or SMS should be sent to all unit holders of the concerned scheme.
 - iv. The NAV of both segregated and main portfolio shall be disclosed from the day of the credit event.
 - v. All existing investors in the scheme as on the day of the credit event shall be allotted equal number of units in the segregated portfolio as held in the main portfolio.
 - vi. No redemption and subscription shall be allowed in the segregated portfolio. However, in order to facilitate exit to unit holders in segregated portfolio, AMC shall enable listing of units of segregated portfolio on the recognized stock exchange within 10 working days of creation of segregated portfolio and also enable transfer of such units on receipt of transfer requests.
 - 3) If the Trustees do not approve the proposal to segregate portfolio, AMC shall issue a press release immediately informing investors of the same and the scheme shall re-open for subscription and redemption.

Valuation and processing of subscriptions and redemptions

- a. Notwithstanding the decision to segregate the debt and money market instrument, the valuation as per the methodologies mentioned in the Valuation Policy should take into account the credit event and the portfolio shall be valued based on the principles of fair valuation (i.e. realizable value of the assets) in terms of the relevant provisions of SEBI (Mutual Funds) Regulations, 1996 and Circular(s) issued thereunder.
- b. All subscription and redemption requests for which NAV of the day of credit event or subsequent day is applicable will be processed as per the existing circular on applicability of NAV as under:
 - i. Upon trustees' approval to create a segregated portfolio
 - Investors redeeming their units will get redemption proceeds based on the NAV of main portfolio and will continue to hold the units of segregated portfolio.
 - Investors subscribing to the scheme will be allotted units only in the main portfolio based on its NAV.
 - ii. In case trustees do not approve the proposal of segregated portfolio, subscription and redemption applications will be processed based on the NAV of total portfolio.

Disclosures

In order to enable the existing as well as the prospective investors to take informed decision, the following shall be adhered to:

1. A statement of holding indicating the units held by the investors in the segregated portfolio along with the NAV of both segregated portfolio and main portfolio as on the day of the credit event shall be communicated to the investors within 5 working days of creation of the segregated portfolio.
2. Adequate disclosure of the segregated portfolio shall appear in all scheme related documents, in monthly and half-yearly portfolio disclosures and in the annual report of the mutual fund and the scheme.
3. The Net Asset Value (NAV) of the segregated portfolio shall be declared on daily basis.
4. The information regarding number of segregated portfolios created in a scheme shall appear prominently under the name of the scheme at all relevant places such as SID, KIM-cum-Application Form, advertisement, AMC and AMFI websites, etc.
5. The scheme performance required to be disclosed at various places shall include the impact of creation of segregated portfolio. The scheme performance should clearly reflect the fall in NAV to the extent of the portfolio segregated due to the credit event and the said fall in NAV along with recovery(ies), if any, shall be disclosed as a footnote to the scheme performance.
6. The disclosures at point 4 and 5 above regarding the segregated portfolio shall be carried out for a period of at least 3 years after the investments in segregated portfolio are fully recovered/ written-off.
7. The investors of the segregated portfolio shall be duly informed of the recovery proceedings of the investments of the segregated portfolio. Status update may be provided to the investors at the time of recovery and also at the time of writing-off of the segregated securities.

TER for the Segregated Portfolio

- a. No investment and advisory fees on the segregated portfolio shall be charged. However, TER (excluding the investment and advisory fees) can be charged, on a pro-rata basis only upon recovery of the investments in segregated portfolio.
- b. The TER so levied shall not exceed the simple average of such expenses (excluding the investment and advisory fees) charged on daily basis on the main portfolio (in % terms) during the period for which the segregated portfolio was in existence.
- c. The legal charges related to recovery of the investments of the segregated portfolio may be charged to the segregated portfolio in proportion to the amount of recovery. However, the same shall be within the maximum TER limit as referred in Regulation 52(6) of SEBI (Mutual Funds) Regulations, 1996 as applicable to the main portfolio. The legal charges in excess of the TER limits, if any, shall be borne by the FTAMIL.
- d. The costs related to segregated portfolio shall in no case be charged to the main portfolio.

Monitoring by Trustees

In order to ensure timely recovery of investments of the segregated portfolio, trustees shall ensure that:

- i. The AMC puts in sincere efforts to recover the investments of the segregated portfolio.
- ii. Upon recovery of money, whether partial or full, it shall be immediately distributed to the investors in proportion to their holding in the segregated portfolio. Any recovery of amount of the security in the segregated portfolio even after the write off shall be distributed to the investors of the segregated portfolio.
- iii. An Action Taken Report (ATR) on the efforts made by the AMC to recover the investments of the segregated portfolio is placed in every trustee meeting till the investments are fully recovered/ written-off.
- iv. The Trustees shall monitor the compliance of SEBI requirements and disclosure in this respect shall be made in half-yearly trustee reports filed with SEBI.

In order to avoid mis-use of segregated portfolio, the Trustees have ensured to have a mechanism in place to negatively impact the performance incentives of Fund Managers, Chief Investment Officers (CIOs), etc. involved in the investment process of securities under the segregated portfolio, mirroring the existing mechanism for performance incentives of the AMC, including claw back of such amount to the segregated portfolio of the scheme.

RISKS ASSOCIATED WITH SEGREGATED PORTFOLIO

Liquidity risk

- Investor holding units of a segregated portfolio may not be able to liquidate their holding till the recovery of dues from the issuer.
- Listing of units of segregated portfolio in a recognized stock exchange does not necessarily guarantee its liquidity. There may not be active trading of units in the stock market. Further trading price of units in the stock market may be significantly lower than the prevailing NAV.

Credit risk

- Security which is part of a segregated portfolio may not realize any value.

Further an order to purchase units is not binding on and may be rejected by the Trustee, the AMC or their respective agents until it has been confirmed in writing by the AMC or its agents and payment has been received. The suspension or restriction of repurchase/redemption facility under the scheme shall be made applicable only after the approval of the Board of Directors of the Asset Management Company and the Trustee and the details of the circumstances and justification for the proposed action shall be informed to SEBI in advance.</p> <p>Right to Limit Purchase & Redemptions</p> <p>In terms of the Para 1.12 of SEBI Mutual Funds Master Circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023</p> <ol style="list-style-type: none"> a. Restriction on redemption may be imposed when there are circumstances leading to a systemic crisis or event that severely constricts market liquidity or the efficient functioning of markets such as: <ol style="list-style-type: none"> i. Liquidity issues - when market at large becomes illiquid affecting almost all securities rather than any issuer specific security. AMCs should have in place sound internal liquidity management tools for schemes. Restriction on redemption cannot be used as an ordinary tool in order to manage the liquidity of a scheme. Further, restriction on redemption due to illiquidity of a specific security in the portfolio of a scheme due to a poor investment decision, shall not be allowed. ii. Market failures, exchange closures - when markets are affected by unexpected events which impact the functioning of exchanges or the regular course of transactions. Such unexpected events could also be related to political, economic, military, monetary or other emergencies.

	<p>iii. Operational issues – when exceptional circumstances are caused by force majeure, unpredictable operational problems and technical failures (e.g. a black out). Such cases can only be considered if they are reasonably unpredictable and occur in spite of appropriate diligence of third parties, adequate and effective disaster recovery procedures and systems.</p> <p>b. Restriction on redemption may be imposed for a specified period of time not exceeding 10 working days in any 90 days period.</p> <p>c. Any imposition of restriction would require specific approval of Board of AMC's and Trustees and the same should be informed to SEBI immediately.</p> <p>d. When restriction on redemption is imposed, the following procedure shall be applied:</p> <p>i. No redemption requests upto INR 2 lakh shall be subject to such restriction.</p> <p>ii. Where redemption requests are above INR 2 lakh, AMC's shall redeem the first INR 2 lakh without such restriction and remaining part over and above INR 2 lakh shall be subject to such restriction.</p>

Returns after Expenses (Rs.)	1000	1150
Net Returns to the Investor	10.00%	11.50%

Illustration is given to understand the impact of expense ratio on a scheme return and this should not be construed as an indicative return of the scheme. The AMC would update the current expense ratios on the website of the mutual fund at least three working days prior to the effective date of change. Further, the Actual Expense ratio will also be disclosed by the AMC at Mutual Fund's website which can be accessed at link www.shriramamc.in/TER.aspx.

C. LOAD STRUCTURE

Load is an amount which is paid by the investor to subscribe to the units or to redeem the units from the scheme. This amount is used by the AMC to pay commissions to the distributor and to take care of other marketing and selling expenses. Load amounts are variable and are subject to change from time to time. For the current applicable structure, please refer to the website of the AMC (www.shriramamc.in) or may call your distributor.

Type of Load	Load chargeable (as % age of NAV)
Entry load	Not Applicable. Pursuant to Para 10.4.1 of SEBI Mutual Funds Master Circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023, no entry load will be charged by the Scheme to the investor.
Exit Load (During NFO and on an ongoing basis) Redemption/switch out / Transfer / Systematic Withdrawal Plan	If redeemed / switched-out within 90 days from the date of allotment:- • Upto 12% of units: Nil • More than 12% of units: 1% of applicable Net Asset Value (NAV). If redeemed/switched-out after 90 days from the date of allotment: Nil

Illustration on how exit load is chargeable

Suppose if an investor is allotted 100 units on 1st April, 2018 and again another 50 units on 5th April, 2018 then the exit load shall be charged as under: If such units i.e.150 units, as held by the investor, are redeemed on or before 29th June, 2018: Exit load shall be charged in the following manner:

> On 12 % of the units i.e. 150*12% i.e. 18 units: NIL

> On more than 12% of such units i.e. (100+50) -12% i.e 132 units: 1% of applicable NAV.

If such units redeemed on or after 30th June, 2018: Exit load shall be charged in the following manner:

> On 100 units (i.e. on units allotted on April 01, 2018): NIL (as redeemed after 90 days from the date of allotment)

> On balance 50 units exit load shall be chargeable as:

• on 12 % of such units i.e. 6 units: NIL

• on more than 12% of such units i.e. 50-12% i.e 44 units: 1% of applicable NAV

If such units redeemed on or after 4th July, 2018, Exit load shall be charged in the following manner:

- On 100 units: NIL(as redeemed after 90 days from the date of allotment)
- On 50 units (i.e. on units allotted on 5th April, 2018): NIL (as redeemed after 90 days from the date of allotment)

The investor is requested to check the prevailing load structure of the scheme before investing. For any change in load structure AMC will inter alia issue an addendum and display it on the website / Investor Service Centers.

Under the Scheme, the Trustee / AMC reserves the right to modify / change the Load structure if it so deems fit in the interest of smooth and efficient functioning of the Mutual Fund. The AMC reserves the right to introduce / modify the Load Structure depending upon the circumstances prevailing at that time subject to maximum limits as prescribed under the SEBI (MF) Regulations. The Load may also be changed from time to time and in the case of an Exit / Redemption Load this may be linked to the period of holding. Exit load (net of GST) charged, if any, shall be credited to the Scheme. The investor is requested to check the prevailing load structure of the Scheme before investing. The Redemption Price however, will not be lower than 95 % of the NAV.

Any imposition or enhancement of Load in future shall be applicable on prospective investments only. AMC shall not charge any load on issue of bonus units and units allotted on reinvestment of IDCW for existing as well as prospective investors. At the time of changing the Load Structure:

1. The addendum detailing the changes will be attached to SIDs and Key Information Memorandum. The addendum may be circulated to all the distributors / brokers so that the same can be attached to all Scheme Information Documents and Key Information Memoranda already in stock.
2. The addendum will be displayed on the website of the Mutual Fund and arrangements will be made to display the addendum in the form of a notice in all the Investor Service Centres and distributors /brokers' office.
3. The introduction of the exit load along with the details will be stamped in the acknowledgement slip issued to the investors on submission of the application form and will also be disclosed in the accounts statement issued after the introduction of such load.
4. A public notice shall be given in respect of such changes in one English daily newspaper having nationwide circulation as well as in a newspaper published in the language of region where the Head Office of the Mutual Fund is situated.
5. Any other measure which the Mutual Fund may consider necessary.

Transaction charges :

In accordance with Para 10.5.1 of SEBI Mutual Funds Master Circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023, Transaction Charge per subscription of Rs.10, 000/- and above

shall be charged from the investors and shall be payable to the distributors/ brokers in respect of applications routed through distributor/ broker relating to Purchases / subscription / new inflows only (lump sum and SIP), subject to the following:

- For Existing / New investors: Rs.100 / Rs.150 as applicable per subscription of Rs.10,000/- and above
- Transaction charge for SIP shall be applicable only if the total commitment through SIP amounts to Rs.10,000/- and above. In such cases the transaction charge would be recovered in maximum 4 successful installments.
- There shall be no transaction charge on subscription below Rs.10,000/-.
- There shall be no transaction charges on direct investments.
- There shall be no transaction charges for transaction other than purchases/subscriptions relating to new inflows such as Switches, etc.
- Transactions carried out through the Stock Exchange platforms for mutual funds shall not be subject to transaction charges.

However the distributors shall have an option to either "Opt-in/Opt-out" from levying transaction charge based on the type of product. Therefore, the "Opt-in/Opt-out" status shall be at distributor level, basis the product selected by the distributor at the Mutual Fund industry level.

The Transaction Charge as mentioned above shall be deducted by the AMC from the subscription amount of the Unit Holder and paid to the distributor and the balance shall be invested in the Scheme. The statement of account shall clearly state that the net investment as gross subscription less transaction charge and give the number of units allotted against the net investment.

The requirement of minimum application amount shall not be applicable if the investment amount falls below the minimum amount required due to deduction of transaction charges from the subscription amount.

The AMCs shall be responsible for any malpractice/mis-selling by the distributor while charging transaction costs.

DIRECT APPLICATIONS

Pursuant to Para 10.4.1 of SEBI Mutual Funds Master Circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023 no entry load shall be charged for all mutual fund schemes. Therefore, the procedure for waiver of load for direct applications is no longer applicable.
