Unit holder can enroll for the SIP facility by submitting duly completed Enrolment Form at the Official Point(s) of Acceptance.

If the SIP period is not specified by the unit holder then the SIP enrolment will be deemed to be for perpetuity and processed accordingly.

## Default option:

Default date – 07<sup>th</sup> of every month/quarter/half yearly Default frequency – Monthly

## SIP through Electronic Clearing System (ECS)/Direct Debit

Investors / Unit holders may also enroll for SIP facility through Electronic Clearing Service (Debit Clearing) of the RBI or for SIP Direct Debit Facility available with specified Banks / Branches. In order to enroll for SIP ECS Debit facility or Direct Debit Facility, an Investor must fill-up the Application Form for SIP ECS/ Direct Debit facility.

In case of SIP with payment mode as ECS/Direct Debit, Investors shall be required to submit a cancelled cheque or a photocopy of a cheque of the bank account for which the ECS/debit mandate is provided.

All SIP cheques/payment instructions from 2<sup>nd</sup> to the last should be of the same amount and same date (excluding first cheque).

However, there should be a gap of 30 days between first SIP Installment and the second installment in case of SIP started during ongoing offer.

Investors will have the right to discontinue/cancel the SIP facility at any time by sending a written request to any of the Official Point(s) of Acceptance. SIPs shall be cancelled within 10 calendar days of such request placed by the investor. On receipt of such request, the SIP facility will be terminated. It is clarified that if the Fund fails to get the proceeds from three Installments out of a continuous series of Installments submitted at the time of initiating a SIP (Subject to a minimum under SIP i.e. 12 months), the SIP is deemed as discontinued.

In case of auto cancellations, uniform timeline for treating a SIP as closed / cancelled shall be as specified by SEBI.

Number of failed debit attempts prior to cancellations of SIP for Daily, weekly, fortnightly and monthly shall be 3 attempts and in case of bimonthly or higher interval/frequency shall be 2 attempts.

Units will be allotted at the Applicable NAV of the respective dates on which the investments are sought to be made. In case the date falls on a Holiday or falls during a Book Closure period, the immediate next Business Day will be considered for this purpose.

An extension of an existing SIP will be treated as a new SIP on the date of such application, and all the above conditions need to be met with.

The AMC reserves the right to change / modify Load structure and other terms and conditions under the SIP prospectively at a future date. Please refer to the SIP Enrolment Form for terms & conditions before enrolment.

## Systematic Transfer Plan (STP)

STP is a facility given to the Unit holders to transfer sums on periodic basis from one scheme to another schemes launched by the Mutual Fund from time to time by giving a single instruction.

<sup>\*</sup>The Scheme may take an exposure to equity derivatives of constituents of the underlying Index when securities of the Index are unavailable, insufficient or for rebalancing at the time of change in Basket or in case of corporate actions, for a short period of time, subject to derivative limits. Such exposure to derivatives will be rebalanced within seven calendar days.

The Cumulative Gross Exposure across Equity, Debt, derivative positions and Money Market Instruments and such other securities/assets as may be permitted by the Board from time to time should not exceed 100% of the net assets of the scheme in line with clause 12.24 of SEBI Master Circular dated May 19, 2023

The Margin may be placed in the form of such securities / instruments / deposits as may be permitted/eligible to be placed as margin from the assets of the Scheme. The securities / instruments / deposits so placed as margin shall be classified under the applicable category of assets for the purposes of asset allocation.

Being a passively managed open ended index scheme, change in investment pattern is normally not foreseen. However, for short durations part of the corpus may be pending for deployment in Equities considering the market conditions, special events, corporate events (like declaration of dividend), etc.

Any transactions undertaken in the portfolio of the Scheme in order to meet the redemption and subscription obligations shall be done while ensuring that post such transactions replication of the portfolio with the index is maintained at all points of time.

#### Portfolio Concentration Norms:

The Scheme shall ensure compliance with the portfolio concentration norms in accordance with provisions of SEBI Master circular dated May 19, 2023, details whereof are given below:

- 1. The index shall have a minimum of 10 stocks as its constituents.
- 2. a sectoral/ thematic Index, no single stock shall have more than 35% weight in the index. For other than sectoral/ thematic indices, no single stock shall have more than 25% weight in the index.
- 3. The weightage of the top three constituents of the index, cumulatively shall not be more than 65% of the Index.
- 4. The individual constituent of the index shall have a trading frequency greater than or equal to 80% and an average impact cost of 1% or less over previous six months.

**Tracking Error:** In accordance with clause 3.6.3.1of SEBI Master circular dated May 19, 2023 on "Development of Passive Funds", the tracking error i.e. the annualized standard deviation of the difference in daily returns between the underlying index or goods and the NAV of the Scheme based on past one year rolling data shall not exceed 2%. In case of unavoidable circumstances in the nature of force majeure, which are beyond the control of the AMCs, the tracking error may exceed 2% and the same shall be brought to the notice of Trustees with corrective actions taken by the AMC, if any. The same shall be disclosed on a daily basis on the websites of AMC and AMFI.

The Scheme shall disclose the tracking error based on past one year rolling data, on a daily basis, on the website of respective AMCs and AMFI.

**Tracking Difference**: The annualized difference of daily returns between the index and the NAV of the Scheme. The same shall be disclosed on a monthly basis on the websites of AMC and AMFI.

#### **Change in Investment Pattern**

## **Rebalancing due to Passive Breaches**

In case of change in constituents of the index due to periodic review, the portfolio of the Scheme shall be rebalanced within 7 calendar days (or such other timeline mentioned by SEBI from time to time) Subject to the Regulations, the asset allocation pattern indicated above for the Scheme may change from time to time, keeping in view market conditions, applicable regulations and political and economic factors or for short durations, part of the corpus may be pending for deployment in equities considering the market conditions, special events, corporate events (like declaration of IDCW), etc.

## Rebalancing due to Short term defensive consideration

In the event that the asset allocation of the Scheme should deviate from the ranges as noted in the asset allocation table, then the portfolio of the Scheme will be rebalanced by the Fund Manager to the position indicated in the asset allocation table above. Such changes in the asset allocation will be for short term and defensive considerations. In case of deviation, if any, from the asset allocation pattern, the AMC shall rebalance the portfolio within a period of 7 calendar days. Such rebalancing shall be in line with SEBI circular dated March 4, 2021.

As per SEBI Master Circular dated May 19, 2023, any transactions undertaken in the scheme portfolio in order to meet the redemption and subscription obligations shall be done while ensuring that post such transactions replication of the portfolio with the index is maintained at all points of time.

#### Rebalancing in case of involuntary corporate action

In the event of involuntary corporate action, the scheme shall dispose the security not forming part of the underlying index within 7 days from the date of allotment/listing.

In case of any breaches in asset allocation, the norms as specified in para 2.9 and 3.5.3.11 of SEBI Master circular dated May 19, 2023 shall be applicable.

#### **B. WHERE WILL THE SCHEME INVEST?**

Subject to the Regulations and the disclosures as made under the Section "How the Scheme will allocate its Assets", the corpus of the Scheme can be invested in any (but not exclusive) of the following securities/instruments:

- 1. Equity and equity related securities forming part of underlying index
- 2. Derivative instruments like Stock / Index Futures, Stock / Index Options and such other derivative instruments permitted by SEBI.
- 3. TREPS#, Units of debt schemes, subject to applicable regulations.
- 4. Money market instruments which includes commercial papers, commercial bills, treasury bills, Government securities having an unexpired maturity up to one year, call or notice money, certificate of deposit, usance bills, and any other like instruments as specified by the Reserve Bank of India from time to time; to meet the liquidity requirements.

#Or similar instruments as may be permitted by SEBI/RBI from time to time.

Further, the Scheme intends to participate in securities lending as permitted under the Regulations.

Please refer **Section II** of the document for further details for each instrument.

## **C. WHAT ARE THE INVESTMENT STRATEGIES?**

The corpus of the Scheme will be invested in stocks constituting the respective benchmark of the Scheme i.e. BSE Sensex and a very small portion (0-5% of the Net Assets) of the scheme may be kept liquid to meet the

liquidity and expense requirements. The performance of the Scheme may not commensurate with the performance of the respective benchmark of the Schemes on any given day or over any given period. Such variations are commonly referred to as the tracking error. The Scheme intends to maintain a low tracking error by actively managing the portfolio in line with the index. The stocks comprising the BSE Sensex is periodically reviewed by the Fund Manager. A particular stock may be dropped or new securities may be included as a constituent of the index. In such an event, the Scheme will endeavor to reallocate its portfolio but the available investment/ disinvestment opportunities may not permit precise mirroring of the index immediately. The portfolio shall be rebalanced within 7 days to ensure adherence to the asset allocation norms of the Scheme. Similarly, in the event of a constituent stock being demerged / merged / delisted from the exchange, the Scheme will reallocate the portfolio and seek to minimize the variation from the index.

Further, the Scheme intends to participate in securities lending as permitted under the regulations. Fixed Income Securities: The scheme may invest 0-5% of the Net Assets in Money Market instruments including TREPs and Units of Debt mutual funds to meet the liquidity and redemption requirements, subject to regulatory approvals.

Investment Process The Scheme will track the Underlying Index and is a passively managed scheme. The investment Decisions will be determined as per the Underlying Index. In case of any change in the index due to corporate actions or change in the constituents of the Underlying Index (as communicated by the Index Service Provider), relevant investment decisions will be determined considering the composition of the Underlying Index.

The Investment decision of the Scheme will be carried out by the designated Fund Manager.

Nav BSE Sensex Index Fund will follow a passive investment strategy, the endeavour will be to minimise portfolio turnover subject to the exigencies and needs of the Schemes. Generally, turnover will be confined to rebalancing of portfolio on account of new subscriptions, redemptions and change in the composition of BSE Sensex.

Tracking Error is defined as the standard deviation of the difference between the daily returns of the Underlying Index and the NAV of the Scheme. Theoretically, the corpus of the Scheme has to be fully invested in the securities comprising the Underlying Index in the same proportion of weightage as the securities have in the Underlying Index.

However, it is not possible to invest as per the objective due to reason that the Scheme has to incur expenses, corporate actions pertaining to the Index including changes to the constituents, regulatory policies, ability of the Fund Manager to replicate the Underlying Index, lack of liquidity, etc.

The Scheme's returns may therefore deviate from those of its Underlying Index.

Tracking Error may arise due to the following reasons:-

- 1. Fees and expenses of the Scheme.
- 2. Cash balance held by the Scheme due to dividend received, subscriptions, redemption, etc.
- 3. Halt in trading on the stock exchange due to circuit filter rules.
- 4. Corporate actions
- 5. The Scheme has to invest in the securities in whole numbers and has to round off the quantity of securities shares.

6. Changes in the constituents of the underlying Index. Whenever there are any changes, the Scheme has to reallocate its investment as per the revised Index but market conditions may not offer an opportunity to rebalance its portfolio to match the Index and such delay may affect the NAV of the Scheme.

7. Lack of Liquidity.

The AMC would monitor the tracking error of the Scheme on an ongoing basis and would seek to minimize tracking error to the maximum extent possible. Under normal market circumstances, such tracking error is not expected to exceed by 2% p.a.

However, in case of events like, dividend issuance by constituent members, rights issuance by constituent members, and market volatility during rebalancing of the portfolio following the rebalancing of the Underlying Index, etc. or in abnormal market circumstances, the tracking error may exceed the above limits.

There can be no assurance or guarantee that the Scheme will achieve any particular level of tracking error relative to performance of the Underlying Index.

#### **PORTFOLIO TURNOVER:**

The Scheme being an open-ended Scheme, it is expected that there would be a number of Subscriptions and Redemptions on a daily basis. The fund manager depending upon the view and subject to trading opportunities, may trade in securities, which will lead to increase in Portfolio Turnover. There may be an increase in transaction cost such as brokerage paid, if trading is done frequently. However, the cost would be negligible as compared to the total expenses of the Scheme. Frequent trading may increase the profits which will offset the increase in costs. The fund manager will endeavor to optimize portfolio turnover to maximize gains and minimize risks keeping in mind the cost associated with it. However, it is difficult to estimate with reasonable measure of accuracy, the likely turnover in the portfolio of the Scheme. The Scheme has no specific target relating to portfolio turnover.

Portfolio Turnover is defined as the aggregate of purchases and sales as a percentage of the corpus during the specified period of time. Portfolio Turnover is a term used to measure the volume of trading that occurs in a Scheme's portfolio during a given time period. Navi BSE SENSEX INDEX FUND (Earlier known as NAVI S&P BSE SENSEX INDEX FUND) is a passively managed open-ended index scheme. It is therefore expected that there would be a number of subscriptions and redemptions on a daily basis. Generally, turnover will depend upon the extent of purchase and redemption of units and the need to rebalance the portfolio on account of change in the composition, if any, and corporate actions of securities included in Navi BSE SENSEX Index Fund.

#### **D.HOW WILL THE SCHEME BENCHMARK ITS PERFORMANCE?**

The benchmark of the Scheme is BSE Sensex TRI w.e.f. May 31, 2024. (Earlier it was S&P BSE Sensex Index)

The BSE SENSEX is India's most tracked bellwether index. It is designed to measure the performance of the 30 largest, most liquid and financially sound companies across key sectors of the Indian economy that are listed at BSE Ltd.

The Trustee reserves the right to change the benchmark for the evaluation of the performance of the Scheme from time to time, keeping in mind the investment objective of the Scheme and the appropriateness of the benchmark, subject to the Regulations and other prevalent guidelines.

## Justification for use of Benchmark

The BSE SENSEX is India's most tracked bellwether index. It is designed to measure the performance of the 30 largest, most liquid and financially sound companies across key sectors of the Indian economy that are listed at BSE Ltd.

The Trustee reserves the right to change the benchmark for the evaluation of the performance of the Scheme from time to time, keeping in mind the investment objective of the Scheme and the appropriateness of the benchmark, subject to the Regulations and other prevalent guidelines.

v. Investments of AMC in the Scheme - Please visit website https://navi.com/mutual-fund.

The AMC may invest in the Scheme(s) anytime during the continuous offer period subject to the SEBI (MF) Regulations. The AMC may also invest in existing schemes of the Mutual Fund. As per the existing SEBI (MF) Regulations, the AMC will not charge Investment Management and Advisory fee on the investment made by it in the Scheme(s) or existing Schemes of the Mutual Fund.

Subject to Regulation 25(16A) of the SEBI (Mutual Funds) Regulations, 1996 read with paragraph 6.9 of SEBI Master Circular dated May 19, 2023, the AMC shall invest such amounts in such schemes of the mutual fund, based on the risks associated with the schemes, as may be specified by SEBI from time to time. Such investment shall be maintained at all times and shall not be redeemed unless the scheme is wound up.

#### Procedure followed for Investment decisions

All investment decisions, relating to the Schemes, will be undertaken by the AMC in accordance with the Regulations, the investment objectives specified in the SID and the Investment Manual of the AMC. All investment making decisions taken by the AMC in relation to the corpus of the Schemes will be recorded.

A detailed report will be made before taking any decision to invest in a company/issuer for the first time. Individual scrip wise reasons will be recorded by the fund manager at the time of placing individual orders. Performance of the Schemes will be periodically tabled before the boards of the AMC and the Trustee respectively. Performance of the Schemes vis-à-vis their respective benchmark indices will be periodically monitored by the boards of the Trustee and the AMC. Further, the boards of the Trustee and the AMC will also review the performance of the Schemes in the light of performance of the mutual fund industry.

The AMC has appointed an Investment Committee, which lays down the broad investment policy for the Schemes, reviews the policy and reviews the portfolio and performance of the Schemes periodically. However, the day to day investment management decision will solely be of the fund manager of the respective Scheme.

All investment decisions shall be recorded in terms of Paragraph 12.23 of SEBI Master Circular on Mutual Funds dated May 19, 2023 as amended from time to time.

The Chief Executive Officer of the AMC shall inter-alia ensure that the investments made by the fund managers are in the interest of the Unit holders. The Fund Manager shall ensure that the funds of the Scheme(s) are invested in line with the investment objective of the Scheme(s) and in the interest of the Unit holders.

## **PART III- OTHER DETAILS**

#### A. COMPUTATION OF NAV

The Net Asset Value (NAV) per Unit of the Scheme will be computed by dividing the net assets of the Scheme by the number of Units outstanding on the valuation day. The Mutual Fund will value its investments according to the valuation norms, as specified in Schedule VIII of the SEBI (MF) Regulations, or such norms as

may be specified by SEBI from time to time. In case of any conflict between the Principles of Fair Valuation and valuation guidelines specified by SEBI, the Principles of Fair Valuation shall prevail.

The Net Assets Value (NAV) of the Units under the Scheme shall be calculated as shown below:

The NAV shall be calculated up to four decimal places. However the AMC reserves the right to declare the NAVs up to additional decimal places as it deems appropriate. Separate NAV will be calculated and disclosed for each Option. The NAVs of the Growth Option and the Dividend Option will be different after the declaration of the first Dividend.

The NAVs will be calculated for all the Business days.

Pursuant to Regulation 49 (3) the repurchase Price of the units of an open ended scheme will not be lower than 95% of the NAV. Any imposition or enhancement of Load in future shall be applicable on prospective investments only.

Illustration on Computation of NAV: If the net assets of the Scheme are Rs. 10,55,55,000.00 and units outstanding are 1,00,00,000 then the NAV per unit will be computed as follows: 10,55,55,000.00 / 1,00,000,000 = Rs. 10.55555 per unit

Ongoing price for Redemption (sale) /Switch outs (to other schemes/plans of the Mutual Fund) by Investors.

Ongoing price for redemption /Switch out (to other Schemes/Plans of the Mutual Fund) is the price which a Unit holder will receive for redemption/Switch-outs. During the continuous offer of the Scheme, the Unit holder can redeem the Unit at Applicable NAV,

For other details such as policies w.r.t computation of NAV, rounding off, procedure in case of delay in disclosure of NAV etc. refer to **SAI.** 

#### **B. NEW FUND OFFER (NFO) EXPENSES**

This is an ongoing scheme as on the date of updating this document. Hence, Not Applicable.

## **C. ANNUAL SCHEME RECURRING EXPENSES**

These are the fees and expenses for operating the scheme. These expenses include Investment Management and Advisory Fee charged by the AMC, Registrar and Transfer Agents' fee, marketing and selling costs etc. as given in the table below:

The AMC has estimated that up to following percentage of daily net assets of the scheme will be charged to the scheme as expenses

For the actual current expenses being charged, the investor should refer to the website of the mutual fund. The mutual fund would update the current expense ratios on the website at least three working days prior to the effective date of the change. Investor can refer https://navi.com/mutual-fund/downloads/statutory-disclosure for TER.

The AMC has estimated that upto 1.00 % of the daily net assets of the scheme will be charged to the scheme as expenses.

The aforesaid does not include Goods and Services tax on investment management and advisory fees. The same is more specifically elaborated below.

NAVI BSE SENSEX INDEX FUND (Earlier known as NAVI S&P BSE SENSEX INDEX FUND)- Direct Plan shall have a lower expense ratio excluding distribution expenses, commission, etc. as compared to Regular Plan and no commission for distribution of Units will be paid/ charged under NAVI BSE SENSEX INDEX FUND (Earlier known as NAVI S&P BSE SENSEX INDEX FUND)- Direct Plan.

These estimates have been made in good faith as per information available to the AMC and the total expenses may be more than as specified in the table above. However, as per the Regulations, the total recurring expenses that can be charged to the Scheme in this SID shall be subject to the applicable guidelines.

The purpose of the above table is to assist the investor in understanding the various costs and expenses that an investor in the Scheme will bear.

The Scheme can charge expenses within overall maximum limits prescribed under SEBI (MF) Regulations, without any internal cap allocated to any of the expense heads specified in the above table.

All scheme related expenses including commission paid to distributors, by whatever name it may be called and in whatever manner it may be paid, shall necessarily paid from the scheme only within the regulatory limits and not from the books of AMC, its associate, sponsor, trustees or any other entity through any route in terms of SEBI circulars, subject to the clarifications provided by SEBI to AMR vide letter dated February 21, 2019 on implementation of SEBI Master Circular dated May 19, 2023 on Total Expense Ratio (TER) and performance disclosure for Mutual Fund

Pursuant to SEBI Master Circular dated May 19, 2023 following additional costs or expenses may be charged to the scheme, namely:

- 1. The AMC may charge Goods and Services tax on investment and advisory fees to the scheme of the Fund in addition to the maximum limit of total expenses ratio as prescribed in Regulation 52 of the Regulations, whereas Goods and Services tax on other than investment and advisory fees, if any, shall be borne by the scheme within the maximum limit as per regulation 52 of the Regulations.
- 2. expenses not exceeding of 0.30 per cent of daily net assets, if the new inflows from retail investors from B30 cities as specified by the Securities and Exchange Board of India, from time to time are at least

30 per cent of the gross new inflows from retail investors from B30 cities into the scheme, or;

15 per cent of the average assets under management (year to date) of the scheme,

## whichever is higher;

Provided that if inflows from retail investors from B30 cities are less than the higher of the above, such expenses on daily net assets of the scheme shall be charged on proportionate basis;

Provided further that expenses charged under this clause shall be utilised for distribution expenses incurred for bringing inflows from retail investors from B30 cities;

Provided further that amount incurred as expense on account of inflows from retail investors from B30 cities shall be credited back to the scheme in case the said inflows are redeemed within a period of one year from the date of investment.

27

For above purposes, 'B30 cities' shall be beyond Top 30 cities as at the end of the previous financial year as communicated by AMFI. Retail investors would mean individual investors from whom inflows into the Scheme would amount upto Rs. 2,00,000/- per transaction.

\*SEBI vide letter no. SEBI/HO/IMD/IMD-SEC3/P/OW/2023/5823/1 dated February 24, 2023 and AMFI vide letter no. 35P/MEM-COR/85/2022-23 dated March 02, 2023 has advised AMCs to keep B-30 incentive in abeyance till AMCs put in place effective controls. Accordingly, applicability of this expense ratio will be subject to any further communication issued by SEBI / AMFI in this regard.

At least 1 basis points on daily net assets within the maximum limit of overall expense Ratio shall be annually set apart for investor education and awareness initiatives.

Further, the brokerage and transaction cost incurred for the purpose of execution of trade may be capitalized to the extent of 12 bps for cash market transactions. Any payment towards brokerage and transaction cost, over and above the said 12 bps for cash market transactions may be charged to the Scheme within the maximum limit of Total Expense Ratio as prescribed under regulation 52 of the SEBI (Mutual Funds) Regulations, 1996. Goods and Services tax on brokerage and transaction cost paid for execution of trade, if any, shall be within the limit prescribed under regulation 52 of the Regulations. Expenses shall be charged / borne in accordance with the Regulations prevailing from time to time.

#### **D. LOAD STRUCTURE**

Exit Load is an amount which is paid by the investor to redeem the units from the scheme. Load amounts are variable and are subject to change from time to time. For the current applicable structure, please refer to the website of the AMC https://navi.com/mutual-fund or may call at **1800 103 8999** or your distributor.

As per Paragraph 10.4 of SEBI Master Circular on Mutual Fund dated May 19, 2023, there shall be no entry Load for all Mutual Fund Schemes.

Type of Load	Load Chargeable (as a % to NAV)
--------------	---------------------------------

Exit Load	Nil
	Redemption of units would be done on First in First out Basis (FIFO).

However, the Trustee shall have a right to prescribe or modify the load structure with prospective effect subject to a maximum prescribed under the Regulations. The Redemption Price however, will not be lower than 95% of the NAV. The difference between the Redemption price and Sale price at any point in time shall not exceed the permitted limit as prescribed by SEBI from time to time which is presently 5% calculated on the Sale Price.

Any redemption/switch arising out of excess holding by an investors beyond 25% of the net assets of the scheme in the manner envisaged under specified SEBI Master Circular dated May 19, 2023, such redemption / switch will not be subject to exit load.

The exit load charged, if any, shall be credited to the scheme. Goods and Services tax on exit load shall be paid out of the exit load proceeds and exit load net of Goods and Services tax shall be credited to the schemes.

Units issued on reinvestment of dividends for existing as well as prospective investors shall not be subject to load structure.

The investor is requested to check the prevailing load structure of the scheme before investing. Subject to the Regulations, the Trustee reserves the right to modify/alter the load structure on the Units subscribed/redeemed on any Business Day. At the time of changing the load structure, the AMC / Mutual Fund may adopt the following procedure:

- i. The addendum detailing the changes will be attached to Scheme Information Documents and key information memorandum. The addendum will be circulated to all the distributors/brokers so that the same can be attached to all Scheme Information Documents and key information memoranda already in stock.
- ii. Arrangements will be made to display the addendum in the Scheme Information Document in the form of a notice in all the investor service centres and distributors/brokers office.
- iii. The introduction of the exit load along with the details will be stamped in the acknowledgement slip issued to the investors on submission of the application form and will also be disclosed in the statement of accounts issued after the introduction of such load.

A public notice shall be provided on the website of the AMC in respect of such changes Any imposition or enhancement in the load shall be applicable on prospective investments only.

## E. REQUIREMENT OF MINIMUM INVESTORS IN THE SCHEME

The Scheme shall have a minimum of 20 investors and no single investor shall account for more than 25% of the corpus of the Scheme. However, if such limit is breached during the NFO of the Scheme, the Fund will endeavour to ensure that within a period of three months or the end of the succeeding calendar quarter from the close of the NFO of the Scheme, whichever is earlier, the Scheme complies with these two conditions. In case the Scheme does not have a minimum of 20 investors in the stipulated period, the provisions of Regulation 39(2)(c) of the SEBI (MF) Regulations would become applicable automatically without any reference from SEBI and accordingly the Scheme shall be wound up and the units would be redeemed at applicable NAV. The two conditions mentioned above shall also be complied within each subsequent calendar quarter thereafter, on an average basis, as specified by SEBI. If there is a breach of the 25% limit by any investor over the quarter, a rebalancing period of one month would be allowed and thereafter the investor who is in breach of the rule shall be given 15 days' notice to redeem his exposure over the 25% limit. Failure on the part of the said investor to redeem his exposure over the 25% limit within the aforesaid 15 days would lead to automatic redemption by the Mutual Fund on the applicable Net Asset Value on the 15th day of the notice period. The Fund shall adhere to the requirements prescribed by SEBI from time to time in this regard.

#### Risk Factors relating to Portfolio Rebalancing

In the event that the asset allocation of the Scheme deviates from the ranges as provided in the asset allocation table in this SID, then and for rebalancing, the following norms shall apply in line with clause 2.9 of SEBI Master Circular dated May 19, 2023:

- a. In case of change in constituents of the index due to periodic review, the portfolio will be rebalanced within 7 calendar days.
- b. In case the rating of any security is downgraded to below the rating mandated in the index methodology (including downgrade to below investment grade), the portfolio be rebalanced within 30 calendar days.
- c. In case the rating of any security is downgraded to below investment grade, the said security may be segregated in accordance with SEBI Regulations

Further, in case of any deviation due to passive breaches, the asset allocation would be restored in line with the asset allocation pattern within 7 calendar days from the date of deviation.

The Scheme is subject to the risks described below. Some or all these risks may adversely affect Scheme's NAV, trading price, yield, return and/or its ability to meet its objectives.

## **Market Risk**

The Scheme's NAV will react to the stock market movements. The Investor could lose money over short periods due to fluctuation in the Scheme's NAV in response to factors such as economic and political developments, changes in interest rates and perceived trends in stock prices market movements, and over longer periods during market downturns.

**Settlement Risk:** In certain cases, settlement periods may be extended significantly by unforeseen circumstances. The inability of the Scheme to make intended securities purchases due to settlement problems could cause the Scheme to miss certain investment opportunities as in certain cases, settlement periods may be extended significantly by unforeseen circumstances. Similarly, the inability to sell securities held in the Scheme portfolio may result, at times, in potential losses to the Scheme, and there can be a subsequent decline in the value of the securities held in the Scheme portfolio.

**Right to Limit Redemptions:** The Trustee, in the general interest of the Unit holders of the Scheme offered in this Document and keeping in view the unforeseen circumstances / unusual market conditions, may limit the total number of Units which can be redeemed on any Business Day. The same shall be in accordance with clause 1.12 of SEBI Master Circular dated May 19, 2023. (Restriction on redemption in Mutual Funds).

#### **Portfolio Concentration Risk**

To the extent that the Scheme may concentrate its investments in the Securities of certain companies/sectors, the Scheme will therefore be subject to the risks associated with such concentration. In addition, the Scheme may be exposed to higher levels of volatility and risk than would generally be the case in a more diverse fund portfolio of equity Securities. Such risks may impact the Scheme to the extent that it invests in particular companies/sectors even in cases where the investment objective is more generic.

## **Volatility Risk**

The equity markets and derivative markets are volatile and the value of securities, derivative contracts and other instruments correlated with the equity markets may fluctuate dramatically from day to day. This volatility may cause the value of investment in the Scheme to decrease.

#### **Passive Investments**

The Scheme is not actively managed. The Scheme may be affected by a general decline in the Indian markets relating to its Underlying Index. The Scheme invests in the securities included in its Underlying Index regardless of their investment merit. The AMC does not attempt to individually select stocks or to take defensive positions in declining markets.

#### **Tracking Error Risk**

Factors such as the fees and expenses of the Scheme, Corporate Actions, Cash balance, changes to the Underlying Indices and regulatory policies may affect AMC's ability to achieve close correlation with the Underlying Index of the Scheme. The Scheme's returns may therefore deviate from those of its Underlying Index. "Tracking Error" is defined as the standard deviation of the difference between daily returns of the index and the NAV of the Scheme. Tracking errors may result from a variety of factors including but not limited to:

Any delay experienced in the purchase or sale of shares due to illiquidity of the market, settlement and realization of sale proceeds and the registration of any securities transferred and any delays in receiving cash and scrip dividends and resulting delays in reinvesting them.

Securities trading may halt temporarily due to circuit filters.

The underlying index reflects the prices of securities at close of business hours. However, the Fund may buy or sell the securities at different points of time during the trading session at the then prevailing prices which may not correspond to the closing prices on the exchange.

Index Service Provider undertakes the periodical review of the scrips that comprise the underlying index and may either drop or include new securities. In such an event, the Fund will endeavor to reallocate its portfolio but the available investment/ disinvestment opportunities may not permit precise mirroring of the Index immediately.

The potential for trades to fail which may result in the Scheme not having acquired shares at a price necessary to track the index.

The holding of cash position to meet the redemptions and other liquidity requirements and accrued income prior to distribution and accrued expenses.

Disinvestments to meet redemptions, recurring expenses, dividend payouts etc.

Corporate actions such as rights, merger, change in constituents etc.

Rounding off quantity of shares underlying the index Expenditure incurred by the Scheme.

The funds may not be invested at all times as it may keep a portion of the funds in cash to meet redemptions or expenses or for corporate actions of securities in the index.

The AMC would monitor the tracking error of the Scheme on an ongoing basis and would seek to minimize tracking error to the maximum extent possible. However, this may vary due to the reasons mentioned above or any other reasons that may arise and particularly when the markets are very volatile.

#### Risk associated with Investing in Equities:

The value of the Schemes' investments may be affected generally by factors affecting securities markets, such as price and volume volatility in the capital markets, interest rates, currency exchange rates, changes in policies of the Government, taxation laws or any other appropriate authority policies and other political and economic developments which may have an adverse bearing on individual securities, a specific sector or all sectors including equity and debt markets. Consequently, the NAV of the Units of the Schemes may fluctuate and can go up or down.

Trading volumes, settlement periods and transfer procedures may restrict the liquidity of these investments. Different segments of the Indian financial markets have different settlement periods and such periods may be extended significantly by unforeseen circumstances. The inability of the Schemes to make intended securities purchases due to settlement problems could cause the Schemes to miss certain investment opportunities.

The Mutual Fund may not be able to sell / lend out securities, which can lead to temporary illiquidity. There are risks inherent in securities lending, including the risk of failure of the other party, in this case the approved intermediary to comply with the terms of the agreement. Such failure can result in a possible loss of rights to the collateral, the inability of the approved intermediary to return the securities deposited by the lender and the possible loss of corporate benefits accruing thereon.

Investors may note that dividend is due only when declared and there is no assurance that a company (even though it may have a track record of payment of dividend in the past) may continue paying dividend in future. As such, the schemes are vulnerable to instances where investments in securities may not earn dividend or where lesser dividend is declared by a company in subsequent years in which investments are made by schemes. As the profitability of companies are likely to vary and have a material bearing on their ability to declare and pay dividend, the performance of the schemes may be adversely affected due to such factors.

The schemes will also be vulnerable to movements in the prices of securities invested by the schemes which again could have a material bearing on the overall returns from the schemes.

Securities, which are not quoted on the stock exchanges, are inherently illiquid in nature and carry a larger amount of liquidity risk. Within the Regulatory limits, the AMC may choose to invest in unlisted securities. This may however increase the risk of the portfolio.

While securities that are listed on the stock exchange carry lower liquidity risk, the ability to sell these investments is limited by the overall trading volume on the stock exchanges. The liquidity of the Schemes' investments is inherently restricted by trading volumes in the securities in which it invests.

In case of abnormal circumstances, it will be difficult to complete the square off transaction due to liquidity being poor in stock futures/spot market. The Schemes investing in foreign securities will be exposed to settlement risk, as different countries have different settlement periods.

Changes in Government policy in general and changes in tax benefits applicable to mutual funds may impact the returns to investors in the Schemes or business prospects of the Company in any particular sector.

#### Risk factors pertaining to investment in Fixed Income Securities

Market Risk/ Interest Rate risk: The Net Asset Value (NAV) of the Scheme(s), to the extent invested in Debt and Money Market securities, will be affected by changes in the general level of interest rates. The NAV of the Scheme(s) is expected to increase from a fall in interest rates while it would be adversely affected by an increase in the level of interest rates. The movements in interest rate depend on various factors such as government borrowing, inflation, economic performance etc.

**Liquidity Risk:** The liquidity of a security may change depending on market conditions leading to changes in the liquidity premium linked to the price of the security. At the time of selling the security, the security can become illiquid leading to loss in the value of the portfolio.

**Credit Risk:** Investments in Fixed income Securities are subject to the risk of an issuer's inability to meet interest and principal payments on its obligations and market perception of the creditworthiness of the issuer.

**Price Risk:** Government securities where a fixed return is offered run price-risk like any other fixed income security. Generally, when interest rates rise, prices of fixed income securities fall and when interest rates drop, the prices increase. The extent of fall or rise in the prices is a function of the existing coupon, days to maturity and the increase or decrease in the level of interest rates. The new level of interest rate is determined by the rates at which government raises new money and/or the price levels at which the market is already dealing in existing securities. The price-risk is not unique to Government Securities. It exists for all fixed income securities. However, Government Securities are unique in the sense that their credit risk generally remains zero. Therefore, their prices are influenced only by movement in interest rates in the financial system.

**Reinvestment Risk:** This risk refers to the interest rate levels at which cash flows received from the securities in the Scheme are reinvested. The additional income from reinvestment is the "interest on interest" component. The risk is that the rate at which interim cash flows can be reinvested may be lower than that originally assumed.

**Settlement Risk:** The inability of the Scheme to make intended securities purchases due to settlement problems could cause the Scheme to miss certain investment opportunities. By the same rationale, the inability to sell securities held in the Schemes' portfolio due to the extraneous factors that may impact liquidity would result, at times, in potential losses to the Plan, in case of a subsequent decline in the value of securities held in the Schemes' portfolio.

**Regulatory Risk:** Changes in government policy in general and changes in tax benefits applicable to Mutual Funds may impact the returns to investors in the Scheme.

Different types of fixed income securities in which the Scheme(s) would invest as given in the Scheme Information Document carry different levels and types of risk. Accordingly, the Scheme(s) risk may increase or decrease depending upon its investment pattern. e.g. corporate bonds carry a higher level of risk than Government securities.

The AMC may, considering the overall level of risk of the portfolio, invest in lower rated / unrated securities offering higher yields as well as zero coupon securities that offer attractive yields. This may increase the absolute level of risk of the portfolio.

As zero-coupon securities does not provide periodic interest payments to the holder of the security, these securities are more sensitive to changes in interest rates. Therefore, the interest rate risk of zero-coupon securities is higher. The AMC may choose to invest in zero coupon securities that offer attractive yields. This may increase the risk of the portfolio.

Securities, which are not quoted on the stock exchanges, are inherently illiquid in nature and carry a larger amount of liquidity risk, in comparison to securities that are listed on the exchanges or offer other exit options to the investor, including a put option. The AMC may choose to invest in unlisted securities that offer attractive yields. This may increase the risk of the portfolio.

The Scheme(s) at times may receive large number of redemption requests, leading to an asset-liability mismatch and therefore, requiring the investment manager to make a distress sale of the securities leading to realignment of the portfolio and consequently resulting in investment in lower yield instruments.

Scheme's performance may differ from the benchmark index to the extent of the investments held in the debt segment, as per the investment pattern indicated under normal circumstances.

## Risks associated with Investing in Foreign Securities - ADRs/GDRs/other overseas investments:

The Scheme shall not invest in Foreign Securities - ADRs/GDRs/other overseas investments.

## Risks associated with Investing in Derivatives:

The Schemes may use various derivative products as permitted by the Regulations. Use of derivatives requires an understanding of not only the underlying instrument but also of the derivative itself. Other risks include the risk of mis-pricing or improper valuation and the inability of derivatives to correlate perfectly with underlying assets, rates and indices.

The Fund may use derivatives instruments like Stock Index Futures, Interest Rate Swaps, Forward Rate Agreements or other derivative instruments for the purpose of portfolio balancing, as permitted under the Regulations and guidelines. Usage of derivatives will expose the Schemes to certain risks inherent to such derivatives.

Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the fund manager to identify such opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and decision of fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies.

Thus, derivatives are highly leveraged instruments. Even a small price movement in the underlying security could have a large impact on their value. Also, the market for derivative instruments is nascent in India.

The risks associated with the use of derivatives are different from or possibly greater than the risks associated with investing directly in securities and other traditional investments.

The specific risk factors arising out of a derivative strategy used by the Fund Manager may be as below:

- Ø Lack of opportunity available in the market.
- Ø The risk of mispricing or improper valuation and the inability of derivatives to correlate perfectly with underlying assets, rates and indices.
- Ø Execution Risk: The prices which are seen on the screen need not be the same at which execution will take place
- Ø Basis Risk: This risk arises when the derivative instrument used to hedge the underlying asset does not match the movement of the underlying asset being hedged
- Ø Exchanges could raise the initial margin, variation margin or other forms of margin on derivative contracts, impose one sided margins or insist that margins be placed in cash. All of these might force positions to be unwound at a loss and might materially impact returns.

## Risks associated with investing in Securitised Debt:

The Scheme shall not invest in Securitised debt.

## Risks associated with Securities Lending & Borrowing (SLB)

Securities lending is lending of securities through an approved intermediary to a borrower under an agreement for a specified period with the condition that the borrower will return equivalent securities of the same type or class at the end of the specified period along with the corporate benefits accruing on the securities borrowed.

The risks in security lending consist of the failure of intermediary / counterparty, to comply with the terms of agreement entered into between the lender of securities i.e. the Scheme and the intermediary / counterparty. Such failure to comply can result in the possible loss of rights in the collateral put up by the borrower of the securities, the inability of the approved intermediary to return the securities deposited by the lender and the possible loss of any corporate benefits accruing to the lender from the securities deposited with the approved intermediary. The scheme may not be able to sell lent out securities, which can lead to temporary illiquidity & loss of opportunity.

Investors are requested to refer to section "How will the Scheme allocate its assets?" for maximum permissible exposure to Securities Lending & Borrowing.

### Risks associated with Short Selling

The Scheme will not engage in Short Selling.

### Risks associated with investing in Tri Party Repo through CCIL (TREPS):

The mutual fund is a member of securities segment and Tri-party Repo trade settlement of the Clearing Corporation of India (CCIL). All transactions of the mutual fund in government securities and in Tri-party Repo trades are settled centrally through the infrastructure and settlement systems provided by CCIL; thus reducing the settlement and counterparty risks considerably for transactions in the said segments.

CCIL maintains prefunded resources in all the clearing segments to cover potential losses arising from the default member. In the event of a clearing member failing to honour his settlement obligations, the default Fund is utilized to complete the settlement. The sequence in which the above resources are used is known as the "Default Waterfall".

As per the Waterfall mechanism, after the defaulter's margins and the defaulter's contribution to the default fund have been appropriated, CCIL's contribution is used to meet the losses. Post utilization of CCIL's contribution if there is a residual loss, it is appropriated from the default fund contributions of the non-defaulting members.

Thus the scheme is subject to risk of the initial margin and default fund contribution being invoked in the event of failure of any settlement obligations. In addition, the fund contribution is allowed to be used to meet the residual loss in case of default by the other clearing member (the defaulting member).

However, it may be noted that a member shall have the right to submit resignation from the membership of the Security segment if it has taken a loss through replenishment of its contribution to the default fund for the segments and a loss threshold as notified have been reached. The maximum contribution of a member towards replenishment of its contribution to the default fund in the 7 days (30 days in case of securities segment) period immediately after the afore-mentioned loss threshold having been reached shall not exceed 5 times of its contribution to the Default Fund based on the last re- computation of the Default Fund or specified amount, whichever is lower.

Further, it may be noted that, CCIL periodically prescribes a list of securities eligible for contributions as collateral by members. Presently, all Central Government securities and Treasury bills are accepted as collateral by CCIL. The risk factors may undergo change in case the CCIL notifies securities other than Government of India securities as eligible for contribution as collateral.

## Apart from the risk factors mentioned above, the scheme is exposed to certain specific risks, which are as mentioned below –

- 1. Performance of the BSE Sensex Index will have a direct bearing on the performance of the Scheme. In the event when the index is dissolved or is withdrawn, the Trustee reserves a right to modify the Scheme so as to track a different and suitable index and appropriate intimation will be sent to the unitholders of the Scheme. Provided that any change in the Underlying Index shall be effected only in accordance with the provisions of sub regulation (15A) of Regulation 18 of the Regulations, as detailed later in this document.
- 2. In case of investments in derivative instruments like index, the risk/ reward would be the same as investments in portfolio of shares representing an index. However, there may be a cost attached to buying an index future. Further, there could be an element of settlement risk, which could be different from the risk in settling physical shares and there is a risk attached to the liquidity and the depth of the index futures market as it is relatively new market for Index and also it is relatively less popular as compared to the Index.
- 3. In the event of any of BSE Sensex Index being dissolved or is withdrawn by Asia Index Private Limited (AIPL) or is not published due to any reason whatsoever, the Trustee reserves the right to modify the Scheme so as track a different and suitable index or to suspend tracking BSE Sensex Index till such time it is dissolved/withdrawn or not published and appropriate intimation will be sent to the Unitholders of the Scheme. In such a case, the investment pattern will be modified suitably to match the composition of the securities that are included in the new index to be tracked and the Scheme will be subject to tracking errors during the intervening period.

### C. Risk Mitigation Process:

The Scheme by utilizing a holistic risk management strategy will endeavor to manage risks associated with investing in equity and debt markets. The risk control process involves identifying & measuring the risk through various risk measurement tools.

The Scheme has identified following risks of investing in equity and debt securities and designed risk management strategies, which are embedded in the investment process to manage such risks.

Risks associated with Equity investments	

#### Market Risk

The Scheme is vulnerable to movements in the prices of securities invested by the Scheme, which could have a material bearing on the overall returns from the Scheme. The value of the underlying Scheme investments, may be affected generally by factors affecting securities markets, such as price and volume, volatility in the capital markets, interest rates, currency exchange rates, changes in policies of the Government, taxation laws or any other appropriate authority policies and other political and economic developments which may have an adverse bearing on individual securities, a specific sector or all sectors including equity and debt markets.

Market risk is inherent to an equity scheme. Being a passively managed scheme, it will invest in the securities included in its Underlying Index.

#### **Derivatives Risk**

As and when the Scheme trades in the derivatives market there are risk factors and issues concerning the use of derivatives since derivative products are specialized instruments that require investment techniques and risk analyses different from those associated with stocks and bonds.

The Scheme may invest in derivative for the purpose of hedging, portfolio balancing and other purposes as may be permitted under the Regulations. Derivatives will be used in the form of Index Futures, Stock Futures and other instruments as may be permitted by SEBI. All derivatives trade will be done only on the exchange with guaranteed settlement. No OTC contracts will be entered into.

### Liquidity risk

The liquidity of the Scheme's investments is inherently restricted by trading volumes in the securities in which they invests.

As such the liquidity of stocks that the scheme invests into could be relatively low. The fund will try to maintain a proper asset-liability match to ensure redemption payments are made on time and not affected by illiquidity of the underlying stocks.

### Tracking Error risk (Volatility Concentration risk):

The performance of the Scheme may not be commensurate with the performance of the underlying Index on any given day or over any given period

Over a short to medium period, the Scheme may carry the risk of variance between portfolio composition and Benchmark. The objectives of the Scheme are to track the performance of the Underlying Index over the same period, subject to tracking error.

The Scheme would endeavor to maintain a low tracking error by actively aligning the portfolio in line with the Index.

### Risks associated with Debt investment

### Market Risk/ Interest Rate Risk

As with all debt securities, changes in interest rates may affect the Scheme's Net Asset Value as the prices of securities generally increase as interest rates decline and generally decrease as interest rates rise. Prices of long-term securities generally fluctuate more in response to interest rate changes than do short-term securities. Indian debt markets can be volatile leading to the possibility of price movements up or down in fixed income securities and thereby to possible movements in the NAV.

The Scheme may primarily invest in short to medium duration debt and money market instruments thereby mitigating the price volatility due to interest rate changes generally associated with long-term securities.

### Liquidity or Marketability Risk

This refers to the ease with which a security can be sold at or near to its valuation yield-to-maturity (YTM).

The Scheme may invest in government securities, corporate bonds and money market instruments. While the liquidity risk for government securities, money market instruments and short maturity corporate bonds may be low, it may be high in case of medium to long maturity corporate bonds.

The Scheme endeavors to minimize liquidity risk by investing in securities having a relatively liquid market.

### Credit Risk

Credit risk or default risk refers to the risk that an issuer of a fixed income security may default (i.e., will 3be unable to make timely principal and interest payments on the security).

Management analysis will be used for identifying company specific risks. Management's past track record will also be studied. In order to assess financial risk a detailed assessment of the issuer's financial statements will be undertaken.

### Reinvestment Risk

This risk refers to the interest rate levels at which cash flows received from the securities in the Schemes are reinvested The risk is that the rate at which interim cash flows can be reinvested may be lower than that originally assumed.

Reinvestment risks will be limited to the extent of coupons received on debt instruments, which will be a very small portion of the portfolio value.

### II. Information about the scheme:

### A. Where will the scheme invest?

Subject to the Regulations and the disclosures as made under the Section "How the Scheme will allocate its Assets", the corpus of the Scheme can be invested in any (but not exclusive) of the following securities/instruments:

- 1. Equity and equity related securities forming part of underlying index
- 2. Derivative instruments like Stock / Index Futures, Stock / Index Options and such other derivative instruments permitted by SEBI.
- 3. TREPS#, Units of debt schemes, subject to applicable regulations. 4) Money market instruments which includes commercial papers, commercial bills, treasury bills, Government securities having an unexpired maturity up to one year, call or notice money, certificate of deposit, usance bills, and any other like instruments as specified by the Reserve Bank of India from time to time; to meet the liquidity requirements.

#Or similar instruments as may be permitted by SEBI/RBI from time to time.

Further, the Scheme intends to participate in securities lending as permitted under the Regulations.

### B. What are the investment restrictions?

Pursuant to SEBI (MF) Regulations and amendments thereto and subject to the Asset allocation pattern, the following investment restrictions are presently applicable to the Scheme:

1. The scheme shall not invest more than 10% of its NAV in debt instruments comprising money market instruments and non-money market instruments issued by a single issuer which are rated not below investment grade by a credit rating agency authorized to carry out such activity under the Act. Such investment limit may be extended to 12% of the NAV of the scheme with the prior approval of the Board of Trustees and the Board of directors of the asset management company:

Further, the scheme shall not invest more than:

- a. 10% of it's NAV in debt and money market securities rated AAA; or
- b. 8% of it's NAV in debt and money market securities rated AA; or
- c. 6% of it's NAV in debt and money market securities rated A and below issued by a single issuer.

The above investment limits may be extended by up to 2% of the NAV of the scheme with prior approval of the Board of Trustees and Board of Directors of the AMC, subject to compliance with the overall 12% limit.

Provided that such limit shall not be applicable for investments in Government Securities, treasury bills and Tri-party repos (TREPS):

Provided further that investment within such limit can be made in mortgaged backed securitised debt which are rated not below investment grade by a credit rating agency registered with the Board However considering the nature of the Scheme, investments in such instruments will be permitted up to 5% of its NAV.

2. Mutual fund schemes shall not invest in unlisted debt instruments including commercial papers (CPs), other than (a) government securities, (b) other money market instruments and (c) derivative products such as Interest Rate Swaps (IRS), Interest Rate Futures (IRF), etc.

However, mutual fund schemes may invest in unlisted Non-Convertible Debentures (NCDs) not exceeding 10% of the debt portfolio, as per respective investment limits and timelines mentioned in SEBI Master Circular dated May 19, 2023, of the debt portfolio of the scheme subject to the condition that such unlisted NCDs have a simple structure (i.e. with fixed and uniform coupon, fixed maturity period, without any options, fully paid up upfront, without any credit enhancements or structured obligations) and are rated and secured with coupon payment frequency on monthly basis.

For the above purposes, listed debt instruments shall include listed and to be listed debt instruments

- 3. The Scheme shall not invest more than 5% of its net assets in unrated debt and money market instruments, other than government securities, treasury bills, derivative products such as Interest Rate Swaps (IRS), Interest Rate Futures (IRF), etc. All such investments shall be made with the prior approval of the Board of Trustees and the Board of AMC. Investments should only be made in such instruments, including bills rediscounting, usance bills, etc., that are generally not rated and for which separate investment norms or limits are not provided in SEBI (Mutual Fund) Regulations, 1996 and various circulars issued thereunder.
- 4. The Fund under all its Schemes shall not own more than 10% of any company's paid up capital carrying voting rights.

Provided, investment in the asset management company or the trustee company of a mutual fund shall be governed by clause (a), of sub-regulation (1), of regulation 7B

- 5. Transfer of investments from one Scheme to another Scheme in the same Mutual Fund is permitted provided:
- · Such transfers are done at the prevailing market price for quoted instruments on spot basis (spot basis shall have the same meaning as specified by a Stock Exchange for spot transactions); and
- The securities so transferred shall be in conformity with the investment objective of the Scheme to which such transfer has been made.

Further the inter Scheme transfer of investments shall be in accordance with the provisions contained in clause Inter-Scheme transfer of investments, contained in Statement of Additional Information. The AMC shall comply with the guidelines issued by SEBI vide its Master Circular dated May 19, 2023 and such other guidelines as may be notified from time to time.

- 6. The Scheme may invest in other Schemes under the same AMC or any other Mutual Fund without charging any fees, provided the aggregate inter-Scheme investment made by all the Schemes under the same management or in Schemes under management of any other asset management company shall not exceed 5% of the Net Asset Value of the Fund. No investment management fees shall be charged for investing in other Schemes of the Fund or in the Schemes of any other mutual fund.
- 7. The Mutual Fund shall buy and sell securities on the basis of deliveries and shall in all cases of purchases, take delivery of relevant securities and in all cases of sale, deliver the securities:

Provided further that the Mutual Fund may enter into derivatives transactions in a recognized stock exchange, subject to the framework specified by SEBI.

Provided further that sale of government security already contracted for purchase shall be permitted in accordance with the guidelines issued by the RBI in this regard.

- 8. The Fund shall get the securities purchased transferred in the name of the Fund on account of the concerned Scheme, wherever investments are intended to be of a long-term nature.
- 9. Pending deployment of funds of the Schemes in terms of the investment objective of the Schemes, the Mutual Fund may invest them in short term deposits of scheduled commercial banks in accordance with clause 12.16 of SEBI Master circular dated May 19, 2023, following guidelines shall be followed for parking of funds in short term deposits of Scheduled commercial Banks pending deployment:
- a) "Short Term" for such parking of funds by mutual funds shall be treated as a period not exceeding 91 days. b) Such short term deposits shall be held in the name of the concerned Scheme.
- c) No mutual fund Scheme shall park more than 15% of the net assets in Short term deposit(s) of all the scheduled commercial banks put together. However, it may be raised to 20% with prior approval of the trustees. Also, parking of funds in short term deposits of associate and sponsor scheduled commercial banks together shall not exceed 20% of total deployment by the mutual fund in short term deposits.
- d) No mutual fund Scheme shall park more than 10% of the net assets in short term deposit(s), with any one scheduled commercial bank including its subsidiaries.
- e) Trustees/Asset Management Companies (AMCs) shall ensure that no funds of a scheme are parked in short term deposit (STD) of a bank which has invested in that scheme. Trustees/AMCs shall also ensure that the bank in which a scheme has STD does not invest in the said scheme until the scheme has STD with such bank.

The above conditions are not applicable to term deposits placed as margins for trading in cash and derivative market.

Asset Management Company (AMC) shall not be permitted to charge any investment management and advisory fees for parking of funds in short term deposits of scheduled commercial banks.

- 1. No mutual fund Scheme shall make any investments in;
- a) any unlisted security of an associate or group company of the sponsor; or
- b) any security issued by way of private placement by an associate or group company of the Sponsor; or c) the listed securities of group companies of the Sponsor which is in excess of 25% of its net assets.
- 10. The scheme shall not invest in Fund of funds scheme.
- 11. All investments by a mutual fund scheme in equity shares and equity related instruments shall only be made provided such securities are listed or to be listed
- 12. No loans for any purpose can be advanced by the Scheme.
- 13. The Fund shall not borrow except to meet temporary liquidity needs of the Fund for the purpose of repurchase/ redemption of units or payment of interest or IDCW to the unit holders. Such borrowings shall not exceed more than 20% of the net assets of the individual Scheme and the duration of the borrowing shall not exceed a period of 6 months.
- 14. If any company invests more than 5% of the NAV of any of the Scheme, investments made by that or any other schemes of the Mutual Fund in that company or its subsidiaries will be disclosed in accordance with the SEBI (MF) Regulations.
- 15. The Mutual Fund having an aggregate of securities which are worth Rs.10 crores or more, as on the latest balance sheet date, shall subject to such instructions as may be issued from time to time by the Board, settle their transactions entered on or after January 15, 1998 only through dematerialised securities. Further all transactions in government securities shall be in dematerialised form.
- 16. The Scheme will comply with provisions specified specified in SEBI Master Circular dated May 19, 2023 related to overall exposure limits applicable for derivative transactions as stated below:

### D. Index Methodology

#### i.About the Index:

BSE SENSEX Index, first compiled in 1986, was calculated on a "Market Capitalization Weighted" methodology of 30 component stocks representing large, well-established and financially sound companies across key sectors. BSE SENSEX today is widely reported in both domestic and international markets through print as well as electronic media. It is scientifically designed and is based on globally accepted construction and review methodology.

### ii.Index eligibility criteria:

The index is derived from the constituents of the BSE 100. The inclusion of DVRs in the index will result in more than 30 stocks in the index. However, the number of companies in the index remains fixed at 30. Stocks in the eligible universe must satisfy the following eligibility factors in order to be considered for index inclusion:

- Listing History. Stocks must have a listing history of at least six months at BSE.
- Trading Days. The stock must have traded on every trading day at BSE during the six-month reference period.
- Derivative Linkage. Stock must have a derivative contract.
- Multiple Share Classes. DVRs satisfying the above eligibility criteria are aggregated with the company's common stock and index construction is done based on the aggregated company data as detailed below

### iii.BSE SENSEX Calculation Methodology

1. All companies meeting the eligibility factors are ranked based on their average six-month floatadjusted market capitalization. The top 75 are identified.

2. All companies meeting the eligibility factors are ranked again based on their average six-month total capitalization. 75 market The top are identified. 3. All companies identified based on steps 1 and 2 are then combined and sorted based on their annualized traded value. Companies with a cumulative annualized traded value greater than 98% are excluded. 4. The remaining companies are then sorted by average six-month float-adjusted market capitalization. Companies with weight of less than 0.5% excluded. are 5. The remaining companies from step 4 are then ranked based on their average six-month floatadjusted market capitalization, and are selected for index inclusion according to the following rules: a. The top 21 companies (whether a current index constituent or not) are selected for index inclusion with no consideration. b. Existing constituents ranked 22 - 39 are selected in order of highest rank until the target constituent count 30 is reached. c. If after this step the target constituent count is not achieved, then non-constituents ranked 22 - 30 are selected by giving preference to those companies whose common India Industry Classification Structure macro-economic indicator is underrepresented in the index as compared to the macro-economic indicator representation **BSE** d. If after this step, the target constituent count is still not achieved, non-constituents are selected in order of highest until constituent count reached. rank the target is Annualized traded value is calculated by taking the median of the monthly medians of the daily traded values over the six-month period. The annualization is calculated using 250 trading days in a year. Rs. 10/- or 1 Unit or account balance whichever is lower.

In case the Investor specifies both the number of Units and amount, the number of Units shall be considered for Redemption. In case the Unit holder does not specify either the number or amount, the request will not be processed.

### The minimum amount of Redemption / Switch-out may be changed in future by the AMC / Trustee. **Accounts Statements** The AMC shall send an allotment confirmation specifying the units allotted by way of email and/or SMS within 5 Business days of receipt of valid application/transaction to the Unit holders registered e-mail address and/ or mobile number (whether units are held in demat mode or in account statement form). A Consolidated Account Statement (CAS) detailing all the transactions across all schemes of Navi Mutual Fund (including transaction charges paid to the distributor) and holding at the end of the month shall be sent to the Unit holders in whose folio(s) transaction(s) have taken place during the month by or email on or before 15th of the succeeding In the event the account has more than one registered holder, the first named Unit holder shall receive the CAS/ account statement. The transactions viz. purchase redemption, switch, etc., carried out by the Unit holders shall be reflected in the CAS on the basis of Permanent Account Number (PAN). The CAS shall not be received by the Unit holders for the folio(s) not updated with PAN details. The Unit holders are therefore requested to ensure that the folio(s) are updated with their PAN. In case of a specific request received from the Unit holders, the AMC will provide an account statement (reflecting transactions of the Fund) to the investors within 5 Business Days from the receipt of such request, by mail/email. The Unit holder without any charges may request for a physical account statement by writing to/calling the AMC/ISC/RTA. The Mutual AMC shall dispatch an account statement within 5 Business Days from the date of the receipt of request from the Unit holder. Half-yearly CAS shall be issued at the end of every six months (i.e. September/ March) on or before 21st day of succeeding month, to all investors providing the prescribed details across all schemes of mutual funds and securities held in dematerialized form across demat accounts, if applicable.

The statement of holding of the beneficiary account holder for units

held in demat will be sent by the respective DPs periodically.

The Account Statement shall state that the net investment as gross subscription less transaction charges, if any and specify the no. of units allotted against the net investment.

CAS for investors having Demat account:

- Investors having MF investments and holding securities in Demat account shall receive a single Consolidated Account Statement (CAS) from the Depository.
- Consolidation of account statement shall be done on the basis
  of Permanent Account Number (PAN). In case of multiple
  holding, it shall be PAN of the first holder and pattern of
  holding. The CAS shall be generated on a monthly basis.
- If there is any transaction in any of the Demat accounts of the investor or in any of his mutual fund folios, depositories shall send the CAS within ten days from the month end. In case, there is no transaction in any of the mutual fund folios and demat accounts then CAS with holding details shall be sent to the investor on half yearly basis.
- In case an investor has multiple accounts across two depositories, the depository with whom the account has been opened earlier will be the default depository.
- No Account Statements will be issued by the AMC to Unit holders who hold units in dematerialized mode. For Units in dematerialised mode, the Account Statements may be obtained by the Investor from the depository participants with whom the investor holds the DP account.

The dispatch of CAS by the depositories would constitute compliance by the AMC/ the Mutual Fund with the requirement under Regulation 36(4) of SEBI (Mutual Funds) Regulations.
