SECTION I. INTRODUCTION

A. RISK FACTORS

Standard Risk Factors:

- Investment in mutual fund Units involves investment risks such as trading volumes, settlement risk, liquidity risk, default risk, including the possible loss of principal.
- As the price / value / interest rates of the securities in which the Scheme invest fluctuates, the value of your investment in the Scheme may go up or down. In addition to the factors that affect the value of individual investments in the Scheme, the NAV of the Scheme can be expected to fluctuate with movements in the broader equity and bond markets and may be influenced by factors affecting capital and money markets in general, such as, but not limited to, changes in interest rates, currency exchange rates, changes in Governmental policies, taxation, political, economic or other developments and increased volatility in the stock and bond markets.
- Past performance of the Sponsor/AMC/Mutual Fund does not guarantee future performance of the Scheme.
- The name of the Scheme does not in any manner indicate either the quality of the Scheme or its future prospects and returns.
- The Sponsors are not responsible or liable for any loss resulting from the operation of the Scheme beyond the initial contribution of Rs. 1 lakh made by it towards setting up the Mutual Fund.
- The present Scheme is not a guaranteed or assured return Scheme.

Additional Risk Factors for Foreign Investors:

i. Political Risk

Investments in mutual fund Units in India may be materially adversely impacted by Indian politics and changes in the political scenario in India either at the central, state or local level. Actions of the central government or respective state governments in the future could have a significant effect on the Indian economy, which could affect companies, general business and market conditions, prices and yields of securities in which the Scheme invest. Delays or changes in the development of conducive policy frameworks could also have an impact on the securities in which the Scheme invests.

ii. Economic Risk

A slowdown in economic growth or macro-economic imbalances such as the increase in central and state level fiscal deficits may adversely affect investments in the country. The underlying growth in the economy is expected to have a direct impact on the volume of new investments in the country.

iii. Foreign Currency Risk

The Scheme is denominated in Indian Rupees (INR) which is different from the home currency for Foreign Investors in the mutual fund Units. The INR value of investments when translated into home currency by Foreign Investors could be lower because of the currency movements. The AMC does not manage currency risk for foreign investors and it is the sole responsibility of the Foreign Investors to manage or reduce currency risk on their own. The Sponsor/Fund/Trustees/AMC are not liable for any loss to Foreign Investors arising from such changes in exchange rates.

iv. Convertibility and Transferability Risk

In the event capital and exchange controls are imposed by the government authorities, it would prevent Foreign Investors' ability to convert INR into home currency and/or transfer funds outside India. The convertibility and transferability of INR proceeds into home currency is the responsibility of the Foreign Investors.

Scheme Specific Risk Factors:

DSPGEFOP intends to invest in units of Gold ETF. The Scheme may also invest a certain portion of its corpus in cash and cash equivalent. Hence scheme specific risk factors of DSP Gold ETF will be applicable. Investors who intend to invest in the Scheme are required to and deemed to have understood the risk factors of the underlying schemes.

The fund will subscribe according to the value equivalent to unit creation size as applicable for DSP Gold ETF. When subscriptions received are not adequate enough to invest in creation unit size, the subscriptions may be deployed as defined in the SID which will have a different return profile compared to gold returns profile. Alternatively, the ETF units may be acquired from the stock exchanges where the price quoted may be at variance with the underlying NAV, and which may result in higher acquisition cost.

The fund assets will predominantly be invested in DSP Gold ETF and valued at the market price of the said units on the principal exchange. The same may be at a variance to the underlying NAV of the fund, due to market expectations, demand supply of the units, etc. To that extent the performance of scheme shall be at variance with that of the underlying scheme.

Risk associated with Fund of Fund:

- The Scheme's performance will predominantly depend upon the performance of the Underlying ETF
- Any change in the investment policy or the fundamental attributes of the Underlying ETF in which the Scheme invests may affect the performance of the Scheme.
- Dependence on the Investment Manager of the underlying ETF: The success of the underlying ETF depends on the ability of the respective Investment Manager to implement investment strategies that achieve their investment objective
- **In addition to the recurring expenses of the Scheme, the Unit Holders shall also bear the applicable expenses of the underlying ETF.** Therefore, the returns that the Unit Holder of the Scheme may receive may be impacted or may, at times, be lower than the returns that a Unit Holder, who is directly investing in the same underlying ETF, could obtain.

Risks associated with investment in Sectoral / thematic fund:

Any sectoral or thematic fund will seek to invest in underlying investments belonging to a defined sector or the theme. Investor needs to understand that a specific sector/theme may not achieve desired result / growth and may also experience unexpected changes adversely affecting the performance, thus investing in a sectoral /thematic fund could involve potentially higher volatility and risk. Further the fund would be restricted to invest in underlying investments from the defined sectors/themes and thus the concentration risk is also expected to be high.

Risk associated with underlying scheme (Gold ETFs):

As the Scheme will predominantly invest in DSP Gold ETF (the underlying scheme), the Scheme will be subject to following risk factors associated with investment in the underlying scheme:

- **Market Risk:** The value of the Units relates directly to the value of the gold held by the underlying ETF and fluctuations in the price of gold could adversely affect investment value of the Units. The factors that may affect the price of gold, inter alia, include demand & supply, economic and political developments, changes in interest rates and perceived trends in bullion prices, exchange rates, inflation trends, market movements, movement/trade of gold that may be imposed by RBI, trade and restrictions on import/export of gold or gold jewellery etc. Hence the investor may also lose money due to fluctuation in the prices of the gold. The returns from physical gold may underperform returns from any other asset class.
- **Asset Class Risk:** The returns from the types of Securities in which the underlying ETF invests may underperform returns of general Securities markets or different asset classes. Different types of Securities tend to go through cycles of out-performance and under-performance in comparison of Securities markets.
- **Liquidity Risk:** Trading in units of the scheme on the Exchange may be halted because of market conditions or for reasons that in view of the Exchange authorities or SEBI, trading in units of the scheme is not advisable. In addition, trading in units is subject to trading halts caused by extraordinary market volatility and pursuant to Stock Exchange(s) and SEBI "circuit filter" rules as applicable from time to time. There can be no assurance that the requirements of the exchange/s necessary to maintain the listing of units of the scheme will continue to be met or will remain unchanged.

The Mutual Fund scheme has to sell gold only to bullion bankers/ traders who are authorized to buy gold. Though, there are adequate number of players (commercial or bullion bankers) to whom the Fund can sell gold. However, the Fund may have to resort to distress sale of gold if there is no or low demand for gold to meet its cash needs of redemption or expenses. The Scheme may retain certain investments in cash or cash equivalents for its day-to-day liquidity requirements. The Trustee, in general interest of the Unit holders of the Scheme offered under this Scheme Information Document and keeping in view of the unforeseen circumstances / unusual market conditions, may limit the total number of Units, which can be redeemed on any Business Day

- **The Lack of an Active Trading Market**

Although the units of underlying scheme are listed and traded on the exchange, there can be no guarantee that an active trading market for the units will be maintained. If you need to sell your units at a time when no active market for them exists, the price you receive, assuming that you are able to sell them, likely will be lower than the price you would receive if an active market did exist.

Withdrawal from Participation by Market Makers may affect the Liquidity of Units

If one or more Authorized Participants withdraws from participation, it may become more difficult to create or redeem Creation Units, which may reduce the liquidity of the Units. Such circumstances may be more pronounced in market conditions of increased volatility. If it becomes more difficult to create or redeem Creation Units, the correlation between the price of the Units and the NAV may be affected, which may affect the trading market for the Units.

- **Regulatory Risk:** Any changes in trading regulations by the stock exchange (s) or SEBI may affect the ability of Market Makers/ Large Investor to arbitrage resulting into wider premium/ discount to NAV. Any changes in any other regulation relating to import and export of gold or gold jewellery (including customs duty, sales tax and any such other statutory levies) may affect the ability of the scheme to buy/sell gold against the purchase and redemption requests received.
- **Passive Management of Investments:** Scheme shall follow a passive investment strategy. The scheme's performance may be affected by the general price decline in the gold prices. The scheme shall invest in Gold regardless of their investment merit. The scheme does not aim to take any defensive position in case of falling markets.
- **Active Market:** Although the underlying ETF is proposed to be listed on exchange, there can be no assurance that an active secondary market will be developed or maintained. The AMC and the Trustees will not be liable for delay in trading of Units on Stock Exchange due to the occurrence of any event beyond their control. For an investor in less than creation unit size, exchange quotes may not be always available.
- **Risks associated with handling, storing and safekeeping of physical gold:** There is a risk that part or all of the Scheme's gold could be lost, damaged or stolen. Access to the Scheme's gold could also be restricted by natural events or human actions. Any of these actions may have adverse impact on the operations of the scheme and consequently on investment in units.
- **Tracking Error and tracking difference:** The Fund Manager may not be able to invest the entire corpus in the same proportion as in the underlying benchmark due to various factors such as fees, expenses of the scheme, corporate action, cash balance, changes in underlying benchmark and regulatory policies which may affect the AMCs/schemes ability to achieve close correlation with the underlying benchmark. Tracking error may be accounted by the various reasons which includes expenses, cash balance to meet redemptions, time to reallocate the portfolio subsequent to changes in the underlying benchmark etc. The Fund Manager will endeavour to keep the tracking error as low as possible.

“Tracking Error” i.e. the annualised standard deviation of the difference in daily returns between physical gold and the NAV of Gold ETF based on past one year rolling over data (For ETFs in existence for a period of less than one year, annualized standard deviation shall be

calculated based on available data) shall not exceed 2%. The disclosure regarding the same shall be made on monthly basis on the website of the AMC.

“Tracking Difference” is the annualized difference of daily returns between the Index and the NAV of the scheme (difference between fund return and the index return).

Tracking Error and Tracking Difference may arise including but not limited to the following reasons: -

- a) Expenditure incurred by the fund.
- b) Available funds may not be invested at all times as the Scheme may keep a portion of the funds in cash to meet Redemptions, for corporate actions or otherwise.
- c) Securities trading may halt temporarily due to circuit filters.
- d) Disinvestments to meet redemptions, recurring expenses, etc.
- e) Execution of large buy / sell orders
- f) Transaction cost (including taxes and insurance premium) and recurring expenses
- g) Realisation of Unit holders’ funds
- h) Accounting for indirect taxes including tax reclaims
- i) SEBI Regulations (if any) may impose restrictions on the investment and/or divestment activities of the Scheme. Such restrictions are typically outside the control of the AMC and may cause or exacerbate the Tracking Error

It will be the endeavor of the fund manager to keep the tracking error as low as possible.

There can be no assurance or guarantee that the Scheme will achieve any particular level of tracking error relative to performance of the benchmark.

In case of unavoidable circumstances in the nature of force majeure which are beyond the control of the AMCs, the tracking error may exceed 2%, and the same shall be brought to the notice of the Board of DSP Trustee Private Limited (‘Trustees’) with the corrective actions taken by the AMC, if any.

- **Redemption Risk:** Investors may note that even though this is an open ended scheme, the Scheme would repurchase units in creation unit size only. Thus, if the unit holding is less than the creation unit size then it can be sold only through the secondary market on the exchange where the units are listed, subject to rules and regulations of the Stock Exchange. The AMC will appoint Market Makers (MMs) to provide liquidity for the units of Gold ETFs in secondary market on an ongoing basis. The Market Maker(s) would offer daily two-way quote (buy and sell quotes) in the market. Further, the price received upon redemption of units may be less than the value of the gold represented by them.

The market price of the ETF unit like any other listed security is largely dependent on two factors viz. the intrinsic value of the unit (or NAV) and demand and supply of the units in the market. Sizeable demand or supply of the units in exchange may lead to market price of the units to quote at premium or discount to NAV. Hence, the units of the scheme may trade above or below the NAV. However, given that the investors can transact with AMC directly beyond the creation unit size of the scheme there should not be a significant variation (large premium or discount) and it may not sustain due to the arbitrage opportunity available.

The gold price reflects the prices of gold at a point in time, which is the price at close of business day. The scheme, however, may trade these securities at different points in time during the trading session and therefore the prices at which the scheme trades may not be identical to the closing price of gold.

Investments by the underlying Scheme are subject to availability of gold. If favorable investment opportunities do not exist or opportunities have notably diminished, the scheme may suspend accepting fresh subscriptions.

Conversion of underlying physical gold into the Units of the Scheme may attract capital gain tax depending on acquisition cost and holding period.

- **Currency Risk:** The formula for deriving the NAV of the units of the scheme is based on the imported (landed) value of the gold, which is computed by multiplying international market

price by US Dollar value. Hence the value of NAV or gold will depend upon the conversion value and attracts all the risk associated with such conversion.

- **Physical gold:** There is a risk that part or all of the Scheme's gold could be lost, damaged or stolen. Access to the Scheme's gold could also be restricted by natural events or human actions. Any of these actions may have adverse impact on the operations of the scheme and consequently on investment in units.
- **Indirect taxation:** For the valuation of gold by the Scheme, indirect taxes like customs duty, VAT, etc. would also be considered. Hence, any change in the rates of indirect taxation / applicable taxes would affect the valuation of the Scheme.

During the process of creation or redemption of the Scheme in creation unit size, the AMC will source or sell the physical gold from a counterparty. The price at which the gold is bought or sold at will include a spread also, apart from cost price of the gold, taxes and other transaction cost. Thus cost may vary depending on the source from which gold is bought or sold, due to different cost being charged by the counterparty. This varying buying or selling cost will impact the cost at which units are created for the investor or redeemed for the investor. AMC will most likely be passing on all the cost associated with buying and selling of the physical gold, including spread, transaction cost, taxes etc. on to the investor/investors. This will impact the per unit cost realized by the investor in case of creation or redemption directly with the AMC.

- **Counter party Risk:** There is no Exchange for physical gold in India. The Mutual Fund may have to buy or sell gold from the open market, which may lead to counter party risks for the Mutual Fund for trading and settlement.
- **Risks Related to the Custody of Gold**

The Custodian is responsible for the safekeeping of the gold bullion and also facilitates the transfer of gold bullion into and out of the vault. Although the Custodian is a market maker, clearer and approved weigher under the rules of the LBMA (which sets out good practices for participants in the bullion market), the LBMA is not an official or governmental regulatory body. Accordingly, the ETF is dependent on the Custodian to comply with the best practices of the LBMA and to implement satisfactory internal controls for its gold bullion custody operations in order to keep the gold bullion secure. The Custodian is responsible for loss or damage to the gold only under limited circumstances. The AMC does not insure its gold (Underlying gold of the scheme). The Custodian maintains insurance on such terms and conditions as it considers appropriate in connection with its custodial obligations under the Custodian Agreement and is responsible for all costs, fees and expenses arising from the insurance policy or policies. The AMC is not a beneficiary of any such insurance and does not have the ability to dictate the existence, nature or amount of coverage. Therefore, Shareholders cannot be assured that the Custodian maintains adequate insurance or any insurance with respect to the gold held by the Custodian on behalf of the Trust.

- **Operational Risks:** Gold Exchange Traded Funds are relatively new products and their value could decrease if unanticipated operational or trading problems arise. Gold Exchange Traded Fund, an open ended Exchange Traded Fund, is therefore subject to operational risks. The scheme may not be able to acquire or sell the desired number of units of gold due to conditions prevailing in the market, such as, but not restricted to circuit filters on the gold ETF (if any), liquidity and volatility in gold prices. The units of the scheme will be compulsorily issued in dematerialised form through depositories. The records of the depository are final with respect to the number of Units available to the credit of Unit holder. Settlement of trades, repurchase of Units by the Mutual Fund will depend upon the confirmations to be received from depository (ies) on which the Mutual Fund has no control. Further, Investors may note that buying and selling units on stock exchange requires the investor to engage the services of a broker and are subject to payment of margins as required by the stock exchange/ broker, payment of brokerage, securities transactions tax and such other costs.

The NAV of the units of Gold ETF are determined based on the formula as prescribed by the SEBI, whereas the actual price in the market may be different from the value of gold at based on the prescribed formula. This may lead to a condition where the NAV is too different from the

domestic market price of gold. In such cases the trustees reserve the right to delay or suspend the buy/sell transactions.

A day on which valuation on London Bullion Market Association (LBMA) is not available shall not be a Business day and hence NAV for the said day shall not be available to the Investors.

Actual or perceived disruptions in the processes used to determine the LBMA Gold Price, or lack of confidence in that benchmark, may adversely affect the return on your investment in the scheme (if any).

The Trustee, in general interest of the Unit holders of the Scheme offered under this Scheme Information Document and keeping in view of the unforeseen circumstances/ unusual market conditions, may limit the total number of Units, which can be redeemed on any Business Day.

Governments, central banks and related institutions, own a significant portion of the aggregate world gold holdings. If one or more of these institutions decides to sell in amounts large enough to cause a decline in world gold prices, the price of Units of the Scheme will be adversely affected.

If the process of creation and redemption of Baskets encounters any unanticipated difficulties or is materially restricted due to any illiquidity in the market for physical gold, the possibility for arbitrage transactions by Market Makers, intended to keep the price of the ETF units closely linked to the price of gold may not exist and, as a result, the price of the ETF units may fall or otherwise diverge from NAV

Conversion of underlying physical gold into the Units of the Scheme may attract capital gain tax depending on acquisition cost and holding period.

- **Risk associated with Lending of physical Gold:** The physical gold lending activity by the underlying Scheme will have the inherent probability of collateral value drastically falling in time of strong downward market trends resulting in inadequate value of collateral. It is also possible that the borrowing party and / or the approved intermediary may suddenly suffer severe business setback and become unable to honor its commitments. This along with a simultaneous fall in value of collateral would render potential loss to the Scheme. Also the risk could be in the form of non-availability of ready physical gold for sale, during the period physical gold is lent. Physical gold would be lent if permitted by the concerned regulatory authorities in India.

Risk Factors associated with investments in Fixed Income Securities:

- **Price-Risk or Interest-Rate Risk:** Fixed income securities run price-risk or interest-rate risk. Generally, when interest rates rise, prices of existing fixed income securities fall and when interest rates drop, such prices increase. The extent of fall or rise in the prices is a function of the existing coupon, days to maturity and the increase or decrease in the level of interest rates. However, debt securities in this scheme are intended to be held till maturity. For such securities held till maturity, there will not be any interest rate risk at the end of the tenure.
- **Liquidity or Marketability Risk:** This refers to the ease with which a security can be sold at or near to its valuation Yield-to-Maturity (YTM). The primary measure of liquidity risk is the spread between the bid price and the offer price quoted by a dealer. Liquidity risk is today's characteristic of the Indian fixed income market.
- **Reinvestment Risk:** Investments in fixed income securities may carry reinvestment risk as interest rates prevailing on the interest or maturity due dates may differ from the original coupon of the security. Consequently, the proceeds may get invested at a lower rate.
- **Pre-payment Risk:** Certain fixed income securities give an issuer the right to call back its securities before their maturity date, in periods of declining interest rates. The possibility of such prepayment may force the fund to reinvest the proceeds of such investments in securities offering lower yields, resulting in lower interest income for the fund.

- **Risk factors associated with investment in Tri-Party Repo:** The mutual fund is a member of securities segment and Triparty Repo trade settlement of the Clearing Corporation of India (CCIL). All transactions of the mutual fund in government securities and in Tri-party Repo trades are settled centrally through the infrastructure and settlement systems provided by CCIL; thus reducing the settlement and counterparty risks considerably for transactions in the said segments. The members are required to contribute an amount as communicated by CCIL from time to time to the default fund maintained by CCIL as a part of the default waterfall (a loss mitigating measure of CCIL in case of default by any member in settling transactions routed through CCIL). As per the waterfall mechanism, after the defaulter's margins and the defaulter's contribution to the default fund have been appropriated, CCIL's contribution is used to meet the losses. Post utilization of CCIL's contribution if there is a residual loss, it is appropriated from the default fund contributions of the non-defaulting members. Thus the scheme is subject to risk of the initial margin and default fund contribution being invoked in the event of failure of any settlement obligations. In addition, the fund contribution is allowed to be used to meet the residual loss in case of default by the other clearing member (the defaulting member). CCIL shall maintain two separate Default Funds in respect of its Securities Segment, one with a view to meet losses arising out of any default by its members from outright and repo trades and the other for meeting losses arising out of any default by its members from Triparty Repo trades. The mutual fund is exposed to the extent of its contribution to the default fund of CCIL, in the event that the contribution of the mutual fund is called upon to absorb settlement/ default losses of another member by CCIL, as a result the scheme may lose an amount equivalent to its contribution to the default fund

B. RISK MANAGEMENT STRATEGIES

1. Tracking Error and Tracking Difference:

The Investment Manager would monitor the tracking error and tracking difference of the Scheme on an ongoing basis and would seek to minimize tracking error to the maximum extent possible. The investment manager will endeavor to maintain low cash levels to minimize tracking error and tracking difference.

2. Price Risk:

The Scheme follow the underlying price of gold and therefore the level of portfolio volatility would be same as that of the underlying gold price.

3. Liquidity Risk:

Gold is a globally traded commodity and thereby liquid. There are also designated Market Makers who facilitate liquidity on the exchange

4. Event Risk:

There is a risk that part or all of the physical gold belonging to the underlying Scheme could be lost, damaged or stolen. In order to ensure safety, the said gold will be stored with custodian in its vaults. Gold held by custodian is also insured. The custodian will insure/cover all such risks.

5. Market Risk:

The scheme is expected to invest in securities having shorter maturity (less than 91 days) which are expected to face lesser impacted on account of changes in interest rates as compared to longer maturity debt securities thereby mitigating this risk to some extent.

6. Liquidity Risk:

The scheme will invest in cash and cash equivalents including following securities having residual maturity of less than 91 Days:

1. TREPS,
2. Treasury Bills,

Options offered under the Scheme

- Growth
 - Income Distribution cum Capital Withdrawal option (IDCW)
 1. Payout of Income Distribution cum Capital Withdrawal (IDCW)
 2. Reinvestment of Income Distribution cum Capital Withdrawal (IDCW)

Default Option

- Growth Option in case Growth Option or Income Distribution cum Capital Withdrawal (IDCW) Option is not indicated.
- Payout sub-option in case Payout of IDCW Option or Reinvestment of IDCW Option is not indicated.

(i) Growth Option - Option A

The Mutual Fund will not declare any IDCWs under this option. The income earned under this Option will remain invested in the option and will be reflected in the NAV. This option is suitable for investors who are not looking for current income but who have invested with the intention of capital appreciation. Moreover, if Units under this option are held as capital asset for a period of greater than twelve months from the date of acquisition, Unit Holders will get the benefit of long term capital gains tax.

(ii) Income Distribution cum Capital Withdrawal option (Option B)

The above Option is suited for investors seeking income through IDCWs declared by the Scheme. Only Unit Holders opting for the IDCW Option (Option B) will receive IDCWs. The Trustee, in its sole discretion, may also declare interim IDCWs.

This Option in turn offers two sub-options i.e. "Payout IDCW" and "Reinvest IDCW", as under:

- **Payout IDCW**

As per the SEBI (MF) Regulations, the Mutual Fund shall dispatch IDCW proceeds to the Unit Holders within 7 Working Days of the record date of the IDCW. IDCWs will be paid by cheque, net of taxes, as may be applicable. Unit Holders will also have the option of direct payment of IDCW to the bank account. The cheques will be drawn in the name of the sole/first holder and will be posted to the registered address of the sole/first holder as indicated in the original application form.

To safeguard the interest of Unit Holders from loss or theft of IDCW cheques, investor should provide the name of their bank, branch and account number in the Application Form. IDCW cheques will be sent to the Unit Holder after incorporating such information.

Investors may however note that in case the IDCW distributed (net of tax deducted at source, wherever applicable) is for an amount equal to or less than Rs. 100/-, the IDCW, instead of being paid out to the Unit holder will be reinvested by issuing additional Units of the Scheme at the Applicable NAV on the next Business day after the Record Date. The additional Units issued and held as long term capital asset will get the benefit of long-term capital gains tax if sold after being held for greater than twelve months. For this purpose, twelve months will be computed from the date when such additional units are allotted.

▪ **Reinvest IDCW**

Under this sub-option, IDCWs are reinvested by way of allotment of additional Units of the Scheme, instead of receiving IDCW payout. Such additional Units by way of reinvestment of IDCWs will be at the Applicable NAV on the next Business day after the Record Date. The additional Units issued under this sub-option and held as long term capital asset will get the benefit of long-term capital gains tax if sold after being held for greater than twelve months. For this purpose, twelve months will be computed from the date when such additional units are allotted.

Effect of IDCW: On declaration of IDCW, the NAV of the IDCW option will further stand reduced by the applicable statutory levy/surcharge/cess/ any other levy payable by the scheme in respect of separate category of investors if any. Notwithstanding varying rates of statutory levies, the ex- IDCW NAV will remain the same for all categories of investors in a particular option, though the amount of IDCW received by Unit Holders may vary depending on the category of each Unit Holder. **For details on taxation of IDCW please refer the SAI.**

Notes:

- a. The Trustee intends to declare IDCWs comprising substantially of net income and net capital gains. It should be noted that the actual distribution of IDCWs and frequency of distribution will be entirely at the discretion of the Trustee. To the extent the entire net income and realised gains are not distributed, it will remain invested in the Option and reflected in the NAV.
- b. An investor on record for the purpose of IDCW distributions is an investor who is a Unit Holder as of the Record Date. In order to be a Unit Holder, an investor has to be allocated Units representing receipt of clear funds by the Scheme.
- c. Investors should indicate the name of the Scheme and/or Option, clearly in the application form. In case of valid applications received, without indicating the Scheme and/or Option etc. or where the details regarding Option are not clear or ambiguous, the following defaults will be applied:

If no indication is given under the following	Default
Option - Growth/IDCW	Growth
Sub-option - Payout IDCW/Reinvest IDCW	Payout IDCW

Investors shall note that once Units are allotted, AMC shall not entertain requests regarding change of Option, with a retrospective effect. Investors shall also note that any change in IDCW sub-option, due to additional investment or on the basis of a request received from the investor, will be applicable to all

	existing Units in the IDCW option of the Scheme.
IDCW Policy	<p>The Trustee intends to declare IDCWs comprising substantially of net income and net capital gains. It should be noted that the actual distribution of IDCWs and frequency of distribution will be entirely at the discretion of the Trustee. 13. Transactions Through Channel Distributors

Investors may enter into an agreement with certain distributors (with whom AMC also has a tie up) referred to as “Channel Distributors” who provide the facility to investors to transact in units of mutual funds through various modes such as their website / other electronic means or through Power of Attorney in favour of the Channel Distributor, as the case may be.

Under such arrangement, the Channel Distributors will aggregate the details of transactions (viz. subscriptions/ redemptions/switches) of their various investors and forward the same electronically to the AMC / RTA for processing on daily basis as per the cut-off timings applicable to the relevant schemes. The Channel Distributor is required to send copy of investors’ KYC and agreement entered into between the investor & distributor to the RTA (one time for central record keeping) as also the transaction documents / proof of transaction authorization as the case may be, to the AMC / RTA as per agreed timelines.

Normally, the subscription proceeds, when invested through this mode, are by way of direct credits to the specified bank account of DSP Mutual Fund. The redemption proceeds (subject to deduction of tax at source, if any) and IDCW payouts, if any, are paid by the AMC to the investor directly through direct credit in the bank account of the investor specified by the distributor or through issuance of payment instrument, as applicable.

In case KYC and other necessary documents are not furnished within the stipulated timeline, the transaction request shall be liable to be rejected or the folio will be locked for future subscriptions/ switches. The Mutual Fund, the AMC, the Trustee, along with their directors, employees and representatives shall not be liable for any errors, damages or losses arising out of or in connection with the transactions undertaken by investors or as provided by the distributors through the above mode.

It may be noted that investors investing through this mode may also approach the AMC / ISC directly with their transaction requests (financial / non-financial) or avail of the online transaction facilities offered by the AMC.

14. Subscription of Units Through Electronic Mode

Subject to the investor fulfilling certain terms and conditions as stipulated by AMC from time to time, the AMC, Mutual Fund, Registrar or any other agent or representative of the AMC, Mutual Fund, the Registrar (“Recipient”) may accept transactions through any electronic mode (fax/web/electronic transactions) (“Electronic Transactions”). The acceptance of Electronic Transactions will be solely at the risk of the investor and the Recipient shall not in any way be liable or responsible for any loss, damage caused to the investor directly or indirectly, as a result of the investor sending or purporting to send such transactions including where such transaction sent / purported to be sent is not processed on account of the fact that it was not received by the Recipient.

The investor acknowledges that Electronic Transaction is not a secure means of giving instructions / transactions requests and that the investor is aware of the risks involved including those arising out of such transmission being inaccurate, imperfect, ineffective, illegible, having a lack of quality or clarity, garbled, altered, distorted, not timely etc. The investor’s request to the Recipient to act on Electronic Transaction is for the investor’s convenience and the Recipient is not obliged or bound to act on the same. The investor authorizes the recipient to accept and act on any Electronic Transaction which the

recipient believes in good faith to be given by the investor and the recipient may at its discretion treat any such transaction as if the same was given to the recipient under the investor's original signature.

In case there is any difference between the particulars mentioned in the fax/ web/ electronic transmission received as against the original document which may be received thereafter, the Recipient shall not be liable for any consequences arising therefrom.

The investor agrees that the recipient may adopt additional security measures including signature verification, telephone call backs or a combination of the same, which may be recorded and the investor consents to such recording and agrees to co-operate with the recipient to enable confirmation of such transaction requests. In consideration of the Recipient from time to time accepting and at its sole discretion (including but not limited to the AMC extending / discontinuing such facilities from time to time) acting on any Electronic Transaction request received / purporting to be received from the investor, the investor agrees to indemnify and keep indemnified the AMC, Directors, employees, agents, representatives of the AMC, Mutual Fund and Trustees from and against all actions, claims, demands, liabilities, obligations, losses, damages, costs and expenses of whatever nature (whether actual or contingent) directly or indirectly suffered or incurred, sustained by or threatened against the indemnified parties whatsoever arising from or in connection with or any way relating to the indemnified parties in good faith accepting and acting on Electronic Transaction requests including relying upon such transaction requests purporting to come from the investor even though it may not come from the Investor. The AMC reserves the right to modify the terms and conditions or to discontinue the facility at any point of time.

Unit holders should note that Two Factor Authentication [2FA] is mandatory for all subscriptions including SIP registration submitted through electronic mode. OTP will be sent to either email id or mobile number registered in the folio and the Unit holder have to confirm on the OTP received. On successful validation only, the subscriptions / systematic registration will be accepted and processed.

15. Redemption

Units can be redeemed (sold back to the Mutual Fund) at the relevant Redemption Price. The redemption requests can be made on the pre-printed forms (transaction slip/common transaction form) or by using the form at the bottom of the account statement. The redemption request can be submitted at any of the Official Points of Acceptance of transaction, the details of Official Points of Acceptance are mentioned at the end of this SID. As all allotments are provisional, subject to realisation of payment instrument and subject to the AMC having been reasonably satisfied that the Mutual Fund has received clear funds, any redemption or switch out transaction in the interim is liable to be rejected at the sole discretion of the AMC.

A Unit Holder may request redemption of a specified amount or a specified number of Units only. If the redemption request is made for a specified amount and the number of Units is also specified by the Unit Holder, the number of Units specified will be considered for deciding the redemption amount. Unit Holders may also request for redemption of their entire holding and close the account by indicating the same at an appropriate place in the transaction slip/common transaction form.

It may, however, be noted that in the event of death of the Unit Holder, the nominee or legal heir, (subject to production of requisite documentary evidence to the satisfaction of the AMC) as the case may be, shall be able to redeem the investment at any point of time.

In case an investor has purchased Units on more than one day (either under the NFO Period or through subsequent purchases) the Units purchased first (i.e. those Units which have been held for the longest period of time), will be deemed to have been redeemed first, i.e. on a First-In-First-Out basis.

In case the Units are standing in the names of more than one Unit Holder, where mode of holding is specified as Joint redemption requests will have to be signed by all joint holders. However, in cases of holding specified as 'Anyone or Survivor', any one of the Unit Holders will have the power to make redemption requests, without it being necessary for all the Unit Holders to sign. However, in all cases, the proceeds of the redemption will be paid to the first-named holder only.

Redemption or repurchase proceeds shall be dispatched to Unit Holders within 3 Working Days from the date of acceptance of redemption or repurchase.

Investor may note that in case of exceptional scenarios as prescribed by AMFI vide its communication no. AMFI/ 35P/ MEM-COR/ 74 / 2022-23 dated January 16, 2023 read with Clause 14.1.3 of the SEBI Master Circular, the AMC may not be able to adhere with the timelines prescribed above.

Unit Holders are encouraged and advised to submit their requests for bank mandate/ Multiple Bank Accounts Registration request atleast 10 business days prior to date of redemption / IDCW payment, if any.

The redemption payment will be issued in favour of the sole/ first Unit Holder's registered name and bank account number, if provided. Payment via cheque, where issued, will be sent to the address of the sole/first Holder registered with the fund at the time of dispatch entirely at the risk of the unit holder. The redemption cheque/demand draft will be payable at par at all the places where the official points of acceptance of transaction are located. Bank charges for collection of redemption proceeds will be borne by the Unit Holder. With a view to safeguarding their interest, it is mandatory that Unit Holders indicate their Bank Account No., name of the bank and branch in the application for purchasing Units of the Scheme. A fresh account statement will also be sent/mailed to redeeming investors, indicating the new balance to the credit in the account, along with the redemption cheque.

Unit holders are requested to note that application for redemption or switch out for units for which funds are not realized via purchase or switch-in in the Scheme of the Fund shall be liable to be rejected. In other words, redemption of units will be processed only if the funds for such units are realized in the Scheme by a way of payment instructions/transfer or switch-in funding process.

The proceeds towards redemptions and IDCWs will be despatched by a reasonable mode of despatch like courier, Speed post, etc. in case of cheque/demand draft or directly credited to the bank account (as per the details mentioned by the investor), entirely and solely at the risk of the investor. The Mutual Fund will endeavour to remit redemption proceeds via electronic means, as made available by RBI. Where such electronic means are not available or feasible under any circumstances, the Mutual Fund will remit the redemption proceeds by way of cheques. The investor will not hold the Mutual Fund or the AMC or the Registrar responsible for any non-receipt or delay of receipt of redemption & IDCW proceeds due to any negligence or deficiency in service by the courier company, postal authorities or the bank executing direct credits, or due to incorrect bank account details provided by the investor.

In case of redemptions, Unit holders should note that Two Factor Authentication [2FA] is mandatory for all redemption / switches including STP/SWP submitted through electronic mode. OTP will be sent to either email id or mobile number registered in the folio and the Unit holder have to confirm on the OTP received. On successful validation only, the redemptions will be accepted and processed.

Redemption by NRIs and FPIs

Credit balances in the account of an NRI/FPI investor may be redeemed by such investors in accordance with the procedure described above and subject to the procedures laid down by RBI, if any. Such redemption proceeds will be paid by means of a Rupee cheque payable to the NRI's/FPIs.

Effect of Redemption

On redemption, the unit capital and reserves will stand reduced by an amount equivalent to the product of the number of Units redeemed and the Redemption Price as on the date of redemption. Units once redeemed will be extinguished and will not be re-issued.

Fractional Units

Since a request for purchase is generally made in Rupee amounts and not in terms of number of Units of the Scheme, a Unit Holder may be left with fractional Units. Fractional Units will be computed and accounted for up to three decimal places. However, fractional Units will, in no way, affect the Unit Holder's ability to redeem the Units, either in part or in full, standing to his/her/its credit.

Redemption by investors transacting through the Stock Exchange mechanism

Investors who wish to transact through the stock exchange shall place orders for redemptions as currently practiced for secondary market activities. Investors must submit the Delivery Instruction Slip to their Depository Participant on the same day of submission of redemption request, within such stipulated time as may be specified by NSE/BSE, failing which the transaction will be rejected. Investors shall seek redemption requests in terms of number of Units only and not in Rupee amounts. Redemption amounts shall be paid by the AMC to the bank mandate registered with the Depository Participant. Refer “Trading in Units through Stock Exchange mechanism” under ‘A. Investor may note that in case of exceptional scenarios as prescribed by AMFI vide its communication no. AMFI/ 35P/ MEM-COR/ 74 / 2022-23 dated January 16, 2023 read with Clause 14.1.3 of the SEBI Master Circular, the AMC may not be able to adhere with the timelines prescribed above.

The AMC has entered into an Agreement with MF Utilities India Private Limited(MFUI), for usage of MF Utility (“MFU”) - a shared services initiative of various Asset Management Companies, which acts as a transaction aggregation portal for transacting in multiple schemes of various Mutual Funds with a single form and a single payment instrument.

Investors can execute financial and non-financial transactions pertaining to Schemes of the Fund electronically on the MFU portal i.e. www.mfuonline.com as and when such a facility is made available by MFUI. The MFU portal i.e. www.mfuonline.com will be considered as Official Point of Acceptance for such transactions.

The Points of Service (“POS”) of MFUI with effect from the respective dates as published on MFUI website i.e. www.mfuindia.com against the POS locations will be considered as Official Point of Acceptance/ Investor Services Centre where application for financial transactions in schemes of the Fund will be accepted on an ongoing basis. Further, investors can also submit their non-financial transaction requests at the POS.

The salient features of the facility to transact in units of the Schemes through MFU are given below:

CAN is a single reference number for all investments in the Mutual Fund industry, for transacting in multiple schemes of various Mutual Funds through MFU and to map existing investments, if any.

MFU will map the existing folios of investors in various schemes of Mutual Funds to the CAN to enable transacting across schemes of Mutual Funds through MFU. The AMC and / or its Registrar and Transfer Agent (RTA) shall provide necessary details to MFUI as may be needed for providing the required services to investors / distributors through MFU.

CAN registered investors can transact in physical mode through MFUI POS by submitting relevant Common Transaction Form prescribed by MFUI.

2. CAN registered investors can transact through electronic mode through MFU portal i.e. www.mfuonline.com as and when such a facility is made available to them by MFUI. The time of transaction submission done through MFU portal i.e. www.mfuonline.com and the successful receipt of the same in the servers of MFUI would be the time-stamp for the transaction.
3. Investors not registered with MFUI can also submit their financial & non-financial transactions request at MFUI POS by giving reference of their existing folio number allotted by the Fund.

4. The transactions on the MFU portal shall be subject to the terms & conditions as may be stipulated by MFUI / Mutual Fund / the AMC from time to time.

All other terms and conditions of offering of the Scheme as specified in the SID, KIM and SAI shall be applicable to transaction through MFUI.

!Specified Mutual Fund" means a Mutual Fund by whatever name called, where not more than thirty five per cent. of its total proceeds is invested in the equity shares of domestic companies. Finance Act 2023 has inserted Section 50AA in the Income Tax Act, 1961. As per the said section, with effect from 1 April 2023, gains/losses from units of Specified Mutual Fund would be deemed to be short term capital gain/loss irrespective of period of holding i.e. the definition of holding for more than 36 months to be considered as long term capital asset is withdrawn. This is applicable for all such units which are acquired on or after Apr 1, 2023.

*The Finance Act 2021 introduced special provisions for higher rate of TDS in case of non-filers of Income tax return (referred to as "specified person"). Specified person does not include a non-resident who does not have permanent establishment in India. Finance Act 2023, with effect from 1st April, 2023, amended the said proviso to also exclude a person who is not required to furnish the return of income for the assessment year relevant to the said previous year and is notified by the Central Government in the Official Gazette in this behalf.

Any person entitled to receive any sum or income or amount, on which tax is deductible under Chapter XVIIIB (hereafter referred to as deductee), shall furnish his Permanent Account Number to the person responsible for deducting such tax (hereafter referred to as deductor), failing which tax shall be deducted at the higher of the following rates, namely:

- (i) at the rate specified in the relevant provision of this Act; or
- (ii) at the rate or rates in force; or
- (iii) at the rate of twenty per cent.

The aforesaid provision dealing with higher taxation in the absence of furnishing Permanent Account Number shall not apply to a non-resident with effect from 1st June, 2016 on furnishing the following details and documents by such non-resident:

- (i) name, e-mail id, contact number;
- (ii) address in the country or specified territory outside India of which the non-resident is a resident;
- (iii) a certificate of his being resident in any country or specified territory outside India from the Government of that country or specified territory if the law of that country or specified territory provides for issuance of such certificate;
- (iv) Tax Identification Number of the non-resident in the country or specified territory of his residence and in case no such number is available, then a unique number on the basis of which the non-resident is identified by the Government of that country or the specified territory of which he claims to be a resident.

In case of investments by NRIs in closed ended funds during NFO, at the time of redemption of units, TDS will be deducted at the applicable rate. However, in respect of those Unit Holders who have acquired the units on the Stock Exchange post listing of units, the Unit Holders would need to provide a certificate from a Chartered Accountant certifying the details of acquisition of units to the Fund within two days of maturity of the Scheme, so as to enable the Fund to deduct TDS at the applicable rates. In the event of such details not being provided, the Fund would deduct TDS on the redemption proceeds at the highest rate of TDS applicable.

For further details on taxation please refer to the clause on Taxation in the SAI.

D. COMPUTATION OF NAV

The NAV of the Units of a Scheme will be computed by dividing the net assets of the Scheme by the number of Units outstanding on the valuation date.

NAV of Units under each Scheme may be calculated by either of the following methods shown below:

$$\text{NAV Per Unit (Rs.)} = \frac{\text{Market or Fair Value of Scheme's investments} + \text{Current Assets} - \text{Current Liabilities and Provisions}}{\text{No. of Units outstanding under the Scheme}}$$

The numerical illustration of the above method is provided below:

Market or Fair Value of Scheme's investments (Rs.) = 11,42,53,650.00

Current Assets (Rs.) = 10,00,000.00

Current Liabilities and Provisions (Rs.) = 5,00,000.00

No. of Units outstanding under the Scheme = 1,00,00,000

$$\text{NAV Per Unit (Rs.)} = \frac{11,42,53,650.00 + 10,00,000.00 - 5,00,000.00}{1,00,00,000} = 11.4754$$

N.B.: The aforesaid provisions pertaining to "Calculation of NAV" shall apply in respect of each individual Scheme and/or plan as the case may be. The NAV Per Unit above is rounded off to four decimals.

The NAV will be calculated as of the close of every Business Day.

NAVs will be rounded off to three or four decimal places based on the nature and category of the scheme. The valuation of the Schemes' assets and calculation of the Schemes' NAVs shall be subject to audit on an annual basis and such regulations as may be prescribed by SEBI from time to time.

Note: In respect of Schemes having Growth and IDCW Options, there will be more than one NAV, one for each Option, after the declaration of the first IDCW by that Scheme.

Since this Scheme invests in units of underlying funds, the NAV of the Scheme for a business day (Day T) will be based on the NAV of the underlying fund for that day (Day T). Since the NAV of the underlying fund for a business day (Day T) would normally be available either late in the evening of the business day (Day T) or on the following business day (T+1), the Scheme will declare the NAV for a Business day on the next Business Day, based on the NAV of the underlying fund for the business day for which the NAV is declared (Day T).

Illustration: Relating to computation and publication of NAV of the Scheme for a business day (Day T)

Day T	Business day for which NAV is to be declared
Day T late evening or Day T+1 early morning	Underlying fund will publish their NAV
Day T+1 by 10.00 a.m.	AMC will compute the NAV of the Scheme for Day T AMC will publish the NAV of the Scheme for Day on its website, upload the same on AMFI website

Valuation of the scheme's assets, calculation of the scheme's NAV and the accounting policies & standards will be subject to such norms and guidelines that SEBI may prescribe from time to time and shall be subject to audit on an annual basis.

Valuation of Foreign Exchange Conversion: On the valuation day, all the assets and liabilities in foreign currency will be valued in Indian Rupees on the basis of Foreign Exchange rate quoted on Bloomberg/Reuters around India markets close time (which is currently around 3:30 p.m. IST) or at the

RBI Reference rate as at the close of the Banking hours on that day in India. The Trustees/AMC reserves the right to change the source for determining the exchange rate. The reasons for the change in the source for determining the exchange rate will be recorded in writing. The Rupee value of Investments valued in the manner described above and other assets and liabilities represented in foreign currency shall be obtained by multiplying the aforesaid rate.
