TATA NIFTY500 MULTICAP INDIA MANUFACTURING 50:30:20 INDEX FUND – SID

HIGHLIGHTS

Name of the Scheme	TATA Nifty500 Multicap India Manufacturing 50:30:20 Index Fund
Type of Scheme	An open-ended scheme replicating/tracking Nifty500 Multicap India Manufacturing 50:30:20 Index
Category	Other Schemes - Index Fund
Scheme Code (CSO 07)	TATA/O/O/OIN/24/03/0066
Investment Objective	The investment objective of the scheme is to provide returns, before expenses, that are in line with the performance of Nifty500 Multicap India Manufacturing 50:30:20 Index (TRI), subject to tracking error. However, there is no assurance or guarantee that the investment objective of the scheme will be achieved. The scheme does not assure or guarantee any returns. (CSO 05)
Liquidity	The scheme being offered is an open ended scheme. The Scheme will offer Units for Purchase and Redemption (subject to prevailing Exit load) at NAV based prices on every Business Day commencing not later than 5 Business Days from the date of allotment of units under the scheme post the NFO Period. The AMC shall dispatch redemption proceeds within three (03) working days from the date of redemption or repurchase, subject to the list of exceptional circumstances as mentioned in this document.
Benchmark	Nifty500 Multicap India Manufacturing 50:30:20 Index (TRI)
Transparency/NAV Disclosure/Portfolio Disclosure	The AMC will calculate and disclose the first NAVs within a period of 5 Business Days from the date of allotment of Units of the Scheme. The NAVs will be calculated and disclosed on every Business Day. The AMC shall prominently disclose the NAVs under a separate head on the website of the Fund (www.tatamutualfund.com) and of the Association of Mutual Funds in India-AMFI (www.amfiindia.com) by 11 p.m. on every Business Day. However, due to the inability to capture the same day valuation of underlying investments, the NAV shall be disclosed by 11 P.M. of the next business day. ^ If the NAVs are not available before the commencement of Business Hours on the following day (i.e., next day after the respective business day) due to any reason, the Mutual Fund shall issue a press release giving reasons for the delay and explain by when the Mutual Fund would be able to publish the NAV. Investor may write to AMC to avail the facility of receiving the latest NAVs through SMS. Due to difference in the expense ratio, the NAV of each option of Direct Plan will be different from the NAV of each option of Regular Plan. Similarly, due to payout option, the NAV of Income Distribution Option will be different from the NAV of Growth option. Monthly /Half Yearly Portfolio Disclosure: The monthly/Half Yearly portfolio of the Scheme shall be available in a user-friendly and downloadable format on the www.tatamutualfund.com on or before the tenth day of succeeding month. In case of unitholders whose email addresses are registered, Tata Mutual Fund shall send via email both the monthly and half yearly statement of scheme portfolio within 10 days from the close of each month /half year, respectively.
Investment Options / Plans:	The Scheme has the following Plans across a common portfolio: Regular Plan: This Plan is for investors who wish to route their investment through any distributor. Direct Plan: This Plan is only for investors who purchase /subscribe units in a scheme directly with the Fund and is not available for investors who route their investments through a Distributor. Both the Plans under the Scheme offer Growth & Income Distribution cum capital withdrawal Option. Income Distribution cum capital withdrawal option under each Plan further offers of choice of Payout of Income Distribution cum capital withdrawal Option, Reinvestment of Income Distribution cum capital withdrawal Option. Compulsory Reinvestment of Income distribution cum Capital Withdrawal: To reduce the expenses of the scheme and for the convenience of the investors/- the income distribution cum capital withdrawal shall be compulsorily reinvested (for investors of non-electronic mode) within the scheme at the applicable ex-dividend NAV if the payout amount is lower than or equal to Rs. 100/- in the same option of the respective plans of the scheme at the ex- dividend rate. Investor shall note that when units are sold, and sale price (NAV) is higher than face value of the unit, a portion of sale price that represents realized gains shall be credited to an Equalization Reserve Account and which can be used to pay income distribution cum capital withdrawal. Hence payout amounts can be distributed out of investors capital (Equalization Reserve), which is part of sale price that represents realized gains.

I. INTRODUCTION
A. RISK FACTORS (CSO 08) (SO 02)

Standard Risk Factors:

- Mutual Fund investments are subject to market risks, read all scheme related documents carefully.
- Investment in Mutual Fund Scheme Units involves investment risks such as trading volumes, settlement risk, liquidity risk, default risk including the possible loss of principal.
- As the price / value / interest rates of the securities in which the scheme invests fluctuates, the value of units of the scheme may go up or down.
- Mutual Funds and securities investments are subject to market risks and there can be no assurance and no guarantee that the Scheme will achieve its objective.
- As with any investment in stocks, shares and securities, the NAV of the Units under this Scheme can go up or down, depending on the factors and forces affecting the capital markets.
- Past performance of the previous Schemes, the Sponsors or its Group / Affiliates / AMC / Mutual Fund is not indicative of and does not guarantee the future performance of the Scheme.
- Investment in equity and equity related securities including option contracts involve high degree of risks and investors should not invest in the schemes unless they can afford to take the risk of losing their investment.
- The sponsors are not responsible or liable for any loss resulting from the operations of the scheme beyond the initial contribution of Rs. 1 lakh made by them towards setting up of the mutual fund.
- TATA Nifty500 Multicap India Manufacturing 50:30:20 Index Fund is only the name of the Scheme and does not in any manner indicate either the quality of the Scheme, its future prospects or the returns. Investors therefore are urged to study the terms of the scheme carefully and consult their Tax and Investment Advisor before investing in the Scheme.
- The scheme is not guaranteed or assured return scheme.

Scheme Specific Risk Factors:

The scheme tracks benchmark index which comprises of stocks forming part of manufacturing sector. The scheme being passively managed invests in stocks of the underlying index and will therefore be subject to the risks associated with concentration of investments in a particular company/ sector. The weightage of each stock in the index is capped at the time of rebalancing of the index, which may aid in limiting concentration risk.

Market Risk:

The Scheme's NAV will react to the stock market movements. The Investor could lose money over short periods due to fluctuation in the Scheme's NAV in response to factors such as economic and political developments, changes in interest rates and perceived trends in stock prices market movements, and over longer periods during market downturns.

Settlement Risk:

In certain cases, settlement periods may be extended significantly by unforeseen circumstances. The inability of the Scheme to make intended securities purchases due to settlement problems could cause the Scheme to miss certain investment opportunities as in certain cases, settlement periods may be extended significantly by unforeseen circumstances. Similarly, the inability to sell securities held in the Scheme portfolio may result, at times, in potential losses to the Scheme, and there can be a subsequent decline in the value of the securities held in the Scheme portfolio.

Right to Limit Redemptions: The Trustee, in the general interest of the Unit holders of the Scheme offered in this Document and keeping in view the unforeseen circumstances / unusual market conditions, may limit the total number of Units which can be redeemed on any Business Day. The same shall be in accordance with provision no. 1.12 of SEBI Master Circular on Mutual Fund dated May 19, 2023 (Restriction on redemption in Mutual Funds).

Risks associated with investments in equity instruments

Investment Risks

Investments in equity and equity related securities involve a degree of risk and investors should not invest in the equity Schemes unless they can afford to take the risk of losing their investment.

The price of securities may go up or down depending on a variety of factors and hence investors may note that AMC/Fund Manager's investment decisions may not be always profitable. Although it is intended to generate capital appreciation and maximize the returns by actively investing in equity securities and utilizing debt and money market instruments as a defensive investment strategy. The price of securities may be affected generally by factors affecting capital markets such as price and volume, volatility in the stock markets, interest rates, currency exchange rates, foreign investment, changes in Government and Reserve Bank of India policy, taxation, political, economic, or other developments, closure of the Stock Exchanges etc. Investors should understand that the investment pattern indicated, in line with prevailing market conditions, is only a hypothetical example as all investments involve risk and there is no assurance that the Fund's

investment objective will be attained or that the Fund may not be able to maintain the indicated percentage of investment pattern under exceptional circumstances. There is no guarantee the investment / dis-investment decision will result into profit.

Market Risk

The Scheme's NAV will react to the stock market movements. The Investor could lose money over short periods due to fluctuation in the Scheme's NAV in response to factors such as economic and political developments, changes in interest rates and perceived trends in stock prices and market movements, and over longer periods during market downturns.

Settlement Risk

In certain cases, settlement periods may be extended significantly by unforeseen circumstances. The inability of the Scheme to make intended securities purchases due to settlement problems could cause the Scheme to miss certain investment opportunities as in certain cases, settlement periods may be extended significantly by unforeseen circumstances. Similarly, the inability to sell securities held in the Schemes portfolio may result, at times, in potential losses to the Schemes, and there can be a subsequent decline in the value of the securities held in the respective Scheme's portfolio.

Right to Limit Redemptions: The Trustee, in the general interest of the Unit holders of the Scheme offered in this Document and keeping in view the unforeseen circumstances / unusual market conditions, may limit the total number of Units which can be redeemed on any Business Day. The same shall be in accordance with provision no. 1.12 of SEBI Master Circular on Mutual Fund dated May 19, 2023 (Restriction on redemption in Mutual Funds).

Risks associated with Passive Investments:

The Scheme is not actively managed. The underlying index may be affected by a general decline in the Indian markets. The scheme performance may be affected by a general decline in the Indian markets relating to its underlying Index. The scheme invests in the underlying Index regardless of its investment merit. The scheme does not attempt to individually select stocks or to take defensive positions in declining markets.

Risks associated with Debt/Money Markets Instruments

Interest Rate Risk

As with money instruments, changes in interest rate may affect the price of the money market instrument(s) and ultimately Scheme's net asset value. Generally, the prices of instruments increase as interest rates decline and decrease as interest rates rise. Prices of long-term securities fluctuate more in response to such interest rate changes than short-term securities. Indian debt and government securities markets can be volatile leading to the possibility of price movements up or down in fixed income securities and thereby to possible movements in the NAV.

Credit Risk

Credit risk or Default risk refers to the risk that an issuer of a fixed income security may default (i.e., the issuer will be unable to make timely principal and interest payments on the security). Because of this risk corporate debentures are sold at a higher yield above those offered on Government Securities which are sovereign obligations and free of credit risk. Normally, the value of fixed income securities will fluctuate depending upon the changes in the perceived level of credit risk as well as any actual event of default. The greater the credit risk, the greater the yield required for someone to be compensated for the increased risk.

Reinvestment Risk

This risk refers to the difference in the interest rate levels at which cash flows received from the securities in the scheme is reinvested. The additional income from reinvestment is the "interest on interest" component. The risk is that the rate at which interim cash flows are reinvested may be lower than that originally assumed.

Liquidity risk:

This represents the possibility that the realised price from selling the security might be lesser than the valuation price because of illiquid market. If a large outflow from the Scheme is funded by selling some of the illiquid securities, the NAV could fall even if there is no change in interest rates.

Risks associated with Derivatives (CSO 28)(SO 05)

Derivative products are leverage instruments and can provide disproportionate gains as well as disproportionate losses to the investors. Execution of such strategies depends upon the ability of the Fund Manager to identify such opportunities. Identification and execution of the strategies to be pursued by the Fund Manager involved uncertainty and decision of Fund Manager may not always be profitable. No assurance can be given that the Fund Manager will be able to identify or execute such strategies.

Derivative products are specialized instruments that require investment techniques and risk analysis different from those associated with stocks and bonds. Derivatives require the maintenance of adequate controls to monitor the transactions entered, the ability to assess the risk that a derivative add to the portfolio and the ability to forecast price of securities being hedged and interest rate movements correctly. There is a possibility that a loss may be sustained by the portfolio because of the failure of another party (usually referred to as the "counterparty") to comply with the terms of the derivatives contract. Other risks in using derivatives include the risk of mis-pricing or improper valuation of derivatives and the inability of derivatives to correlate perfectly with underlying assets, rates, and indices.

The risks associated with the use of derivatives are different from or possibly greater than, the risks associated with investing directly in securities and other traditional investments".

Risks associated with Segregated Portfolio

Investor holding units of segregated portfolio may not be able to liquidate their holding till the time recovery of money from the issuer.

Security comprising of segregated portfolio may not realize any value.

Listing of units of segregated portfolio in recognized stock exchange does not necessarily guarantee their liquidity.

There may not be active trading of units in the stock market. Further trading price of units on the stock market may be significantly lower than the prevailing NAV.

Risks associated with investing in Securities Segment and Tri-party Repo trade settlement:

The mutual fund is a member of securities segment and Tri-party Repo trade settlement of the Clearing Corporation of India (CCIL). All transactions of the mutual fund in government securities and in Tri-party Repo trades are settled centrally through the infrastructure and settlement systems provided by CCIL thus reducing the settlement and counterparty risks considerably for transactions in the said segments. The members are required to contribute an amount as communicated by CCIL from time to time to the default fund maintained by CCIL as a part of the default waterfall (a loss mitigating measure of CCIL in case of default by any member in settling transactions routed through CCIL). CCIL shall maintain two separate Default Funds in respect of its Securities Segment, one with a view to meet losses arising out of any default by its members from outright and repo trades and the other for meeting losses arising out of any default by its members from Triparty Repo trades. The mutual fund is exposed to the extent of its contribution to the default fund of CCIL, if the contribution of the mutual fund is called upon to absorb settlement/default losses of another member by CCIL, as a result the scheme may lose an amount equivalent to its contribution to the default fund.

Securities Lending by the Mutual Fund (SO 06)

The Scheme may participate in securities lending and borrowing scheme in accordance with Securities Lending Scheme, 1997, Regulation 44 (4) of SEBI (Mutual Funds) Regulations ,1996, provision no. 12.11 of SEBI Master circular on Mutual Fund dated May 19, 2023, framework for short selling and borrowing and lending of securities, provision no. 12.11.2.1.a of SEBI Master circular on Mutual Fund dated May 19, 2023. The Scheme shall also follow other relevant regulations /guidelines issued by stock exchange(s) from time to time. The Scheme shall participate in Securities Borrowing and Lending only with the SEBI approved intermediaries.

Securities Lending means the lending of securities to SEBI approved intermediaries for a tenure of 1 to 12 months at a negotiated compensation in order to enhance returns of the scheme portfolio. The securities lent will be returned by the borrower on the expiry of the stipulated period. The AMC will adhere to the following strict internal limits should it engage in Securities Lending.

Not more than 20% of the net assets of the Scheme can be deployed in stock lending . Collateral would always be obtained by the approved intermediary. Collateral value would always be more than the value of the security lent. Collateral can be in form of cash, bank guarantee, and government securities, as may be agreed upon with the approved intermediary, and would also be subject to a mark to market valuation on a daily basis.

Example:

A scheme has a security of a company which it would wish to hold for a long period of time as a core holding in the portfolio as per the fund manager's plan. In that case the investors would be benefited only to the extent of the rise in the value of the security, from time to time if any, on the exchange. If the scheme is enabled to lend the said security to a borrower who would be wanting to take advantage of the market fluctuations in its price, the borrower would return the security to the lender (fund) at a stipulated time or on demand for a negotiated compensation. The scheme's unitholders can enhance their returns to the extent of the compensation it will earn for lending the same. An adequate security or collateral will have to be maintained by the intermediary. This should always be higher than the cost of the security. Thus it is in the interest of the investors that returns can be enhanced by way of stock lending rather than hold the security only for capital appreciation potential.

Thus the scenario under which the scheme would participate in stock lending would be:

1. There is a holding of security e.g. of XYZ Ltd in the scheme which the fund manager wants to be the core holding of the fund for approximately 6 to 12 months.
2. There is a borrower (not mutual fund) for the security, (who has taken a short position in the market and needs the said security of XYZ Ltd to settle it) who is willing to put up a proper collateral for the same.(In all cases higher than the price of the script).
3. The borrower is represented by a proper recognized intermediary.
4. The agreement is to return the security or the amount so negotiated at a particular period of time or on demand.

Then the security will be lent by the scheme and the unitholders would benefit from the additional compensation earned for lending, apart from the capital appreciation which also happens in that stock. Thus, to summarize, stock lending would be done by the scheme only in the following circumstances:

- a) If permitted by trustees and the extent SEBI regulations in that regard, from time to time.
- b) If such activity generates additional returns for the scheme and helps to enhance the scheme returns.

If considering the above and other factors all considered in totality, such activity is in the interest of unitholders in the scheme.

Securities Lending Risks

It may be noted that this activity would have the inherent probability of collateral value drastically falling in times of strong downward market trends, rendering the value of collateral inadequate until such time as that diminution in value is replenished by additional security. It is also possible that the borrowing party and/or the approved intermediary may suddenly suffer severe business setback and become unable to honour its commitments. This, along with a simultaneous fall in value of collateral would render potential loss to the Scheme. Besides, there will also be temporary illiquidity of the securities that are lent out and the Scheme(s) will not be able to sell such lent out securities until they are returned.

Tracking Error Risk:

The Fund Manager would not be able to invest the entire corpus exactly in the same proportion as in the underlying index due to certain factors such as the fees and expenses of the scheme, corporate actions, cash balance, changes to the underlying index, non-availability of issuances, regulatory policies and any such reasons that may affect AMC's ability to achieve close correlation with the underlying index of the scheme. The scheme's returns may therefore deviate from those of its underlying index. "Tracking Difference" is the difference of return between the fund and its respective benchmark. "Tracking Error" is defined as the standard deviation of the difference between daily returns of the underlying index and the NAV of the respective scheme. Tracking difference /Tracking Error may arise including but not limited to the following reasons: -

- i) Expenditure incurred by the fund.
- ii) The holding of a cash position and accrued income prior to distribution of income and payment of accrued expenses. The fund may not be always invested as it may keep a portion of the funds in cash to meet redemptions or for corporate actions.
- iii) Securities trading may halt temporarily due to circuit filters.
- iv) corporate actions such as debenture or warrant conversion, merger, change in constituents, etc.
- v) Disinvestments to meet redemptions, recurring expenses, etc.
- vi) Execution of large buy / sell orders
- vii) Transaction cost (including taxes and insurance premium) and recurring expenses
- viii) Realization of Unit holders' funds

The tracking error i.e. the annualized standard deviation of the difference in daily returns between the underlying index or goods and the NAV of the Scheme based on past one year rolling data shall not exceed 2%. In case of unavoidable circumstances in the nature of force majeure, which are beyond the control of the AMCs, the tracking error may exceed 2% and the same shall be brought to the notice of Trustees. However, the Fund will endeavor to limit the tracking error within 2% limits. The Fund existence for a period of less than one year, the annualized standard deviation shall be calculated based on available data.

Risks associated with investment in units of mutual fund:

Investment in Mutual Fund Units involves investment risks, including but not limited to risks such as liquidity risk, volatility risk, default risk including the possible loss of principal.

Liquidity risk – The liquidity of the scheme's investments is inherently restricted by trading volumes and settlement periods. In the event of an inordinately large number of redemption requests, or of a restructuring of the scheme's investment portfolio, these periods may become significant. In view of the same, the right to limit redemptions will be in accordance with provision no. 1.12 of SEBI Master Circular on Mutual Fund dated May 19, 2023.

Volatility risks: There is the risk of volatility in markets due to external factors like liquidity flows, changes in the business environment, economic policy etc. The scheme will manage volatility risk through diversification across companies and sectors.

Default risk - Credit risk is risk resulting from uncertainty in counterparty's ability or willingness to meet its contractual obligations. This risk pertains to the risk of default of payment of principal and interest. Government Securities have zero credit risk while other debt instruments are rated according to the issuer's ability to meet the obligations.

Risk associated with potential change in Tax structure

This summary of tax implications given in the taxation section (Units and Offer Section III) is based on the current provisions of the applicable tax laws. This information is provided for general purpose only. The current taxation laws may change due to change in the 'Income Tax Act 1961' or any subsequent changes/amendments in Finance Act/Rules/Regulations. Any change may entail a higher outgo to the scheme or to the investors by way of securities transaction taxes, fees, taxes etc. thus adversely impacting the scheme and its returns.

Investors are advised to consult their own tax advisors with respect to the specific tax and other implications arising out of their participation in the scheme prior to making any transaction.

Risks Factors associated with transaction in Units through stock exchange(s)

In respect of transaction in Units of the Scheme through BSE and / or NSE, allotment and redemption of Units on any Business Day will depend upon the order processing / settlement by BSE and / or NSE and their respective clearing corporations on which the Fund has no control

Risk Control / Mitigation Strategies:(CSO 09)

Nifty500 Multicap India Manufacturing 50:30:20 Index is an index where there will be concentration of securities which are part of Manufacturing sector. The scheme is subject to the risks associated with such securities forming part of this index. In addition, the Scheme may be exposed to higher levels of volatility and risk than would generally be the case in a more diverse fund portfolio of equity Securities. Such risks may impact the Scheme to the extent that it invests in securities forming part of this index. As the fund is passive in nature, there would not be any active risk control / mitigation strategies implemented by the fund manager.

Risk Control / Mitigation measures for Equity & Equity related instruments:

Nature of Risk	Mitigation Measures
Market Risk & Volatility	Market risk is a risk inherent to an equity scheme. Being a passively managed scheme, it will invest in the securities included in its Underlying Index.
Concentration / Sector Risk	Index Fund being a passive and portfolio follows the index and therefore the level of stock concentration in the portfolio and its volatility would be the same as that of the index, subject to tracking error. Thus there is no additional element of volatility or stock concentration on account of fund manager decisions.
Liquidity Risks	Scheme being passively managed fund will invest substantially in in the constituents of underlying index in the same proportion. Liquidity risk is likely to be lower. The scheme will endeavor to maintain a proper asset-liability match to ensure redemption payments are made on time and not affected by illiquidity of the underlying stocks.

Risk Control / Mitigation measures for Debt and related Investments portion/allocation:

Nature of Risk	Mitigation Measures
Liquidity Risk	The Scheme may invest in government securities, corporate bonds and money market instruments. While the liquidity risk for government securities, money market instruments and short maturity corporate bonds may be low, it may be high in case of medium to long maturity corporate bonds. The Scheme may, however, endeavor to minimize liquidity risk by investing the debt portion of the portfolio in relatively liquid short-term money market instruments, units of money market / liquid schemes.
Credit Risk	In house dedicated team for credit appraisal Focus on good quality paper at the time of portfolio construction Management analysis will be used to identify company specific risks. Management's past track record will also be studied. In order to assess financial risk, a detailed assessment of the issuer's financial statements will be undertaken
Price-Risk or Interest Rate Risk	Close watch on the market events Active duration management, focus will be on investing in lower duration debt instruments The Scheme may invest the debt portion of the portfolio in money market instruments, units of money market / liquid schemes thereby mitigating the price volatility due to interest rate changes generally associated with long-term securities.
Risk of Rating Migration	The Scheme may invest the debt portion of the portfolio in short-term money market instruments, units of money market / liquid schemes thereby mitigating the risk of rating migration generally associated with long-term securities
Spread Risk	The Scheme may invest the debt portion of the portfolio in short-term money market instruments, units of money market / liquid schemes thereby mitigating the risk of spread expansion which is generally associated with long-term securities
Reinvestment Risk	The debt allocation of the scheme is cash management strategy and such strategy returns are expected to reflect the very short term interest rate hence investment is done in short term debt and money market instruments. Reinvestment risks will be limited to the extent of debt instruments, which will be a very small portion of the overall portfolio value.

While these measures are expected to mitigate the above risks to a large extent, there can be no assurance that these risks would be completely eliminated.

B. REQUIREMENT OF MINIMUM INVESTORS IN THE SCHEME

The Scheme shall have a minimum of 20 investors and no single investor shall account for more than 25% of the corpus of the scheme. In case the Scheme / Plan(s) does not have a minimum of 20 investors in the stipulated period, the provisions of Regulation 39(2) (c) of the SEBI (MF) Regulations would become applicable automatically without any reference from SEBI and accordingly the Scheme / Plan(s) shall be wound up and the units would be redeemed at applicable NAV. The two conditions shall also be complied within each calendar quarter, on an average basis, as specified by SEBI. If there is a breach of the 25% limit by any investor over the quarter, a rebalancing period of one month would be allowed and thereafter the investor who is in breach of the rule shall be given 15 days' notice to redeem his exposure over the 25% limit. Failure on the part of the said investor to redeem his exposure over the 25% limit within the aforesaid 15 days would lead to automatic redemption by the Mutual Fund on the applicable Net Asset Value on the 15th day of the notice period. The Fund shall adhere to the requirements prescribed by SEBI from time to time in this regard.

C. SPECIAL CONSIDERATIONS

Investors are urged to study the terms of the SID carefully before investing in this Scheme, and to retain this SID for future reference. The Mutual Fund may disclose details of the investor's account and transactions there under to those intermediaries whose stamp appears on the application form or who have been designated as such by the investor. In addition, the Mutual Fund may disclose such details to the bankers, as may be necessary for the purpose of effecting payments to the investor. The Fund may also disclose such details to regulatory and statutory authorities/bodies as may be required or necessary.

Pursuant to the provisions of Prevention of Money Laundering Act, 2002, if after due diligence, the AMC believes that any transaction is suspicious in nature as regards money laundering, on failure to provide required documentation, information, etc. by the unit holder the AMC shall have discretion to report such suspicious transactions to FIUIND and / or to freeze the folios of the investor(s), reject any application(s) / allotment of units.

Tax Consequences

Redemption by the unit holders due to change in the fundamental attribute (if any, in future) of the scheme or due to any other reason may entail tax consequences for which the Trustees, AMC, fund their Directors / employees shall not be liable for any such tax consequences that may arise.

Other Business Activities of AMC:

AMC has obtained registration from SEBI vide Registration No. INP000001058 dated September 14, 2004, to act as a Portfolio Manager under SEBI (Portfolio Managers) Regulations, 1993. AMC has appointed separate Fund Manager(s) for the same and back office is also segregated from Mutual Fund Back Office.

AMC managing schemes of Tata Alternative Investment Fund (Alternative Investment Fund-Category II & Category III). AMC has appointed separate Fund Manager(s) for the same and back office is also segregated from Mutual Fund Back Office.

AMC has obtained no objection from SEBI for providing investment advisory service and investment management services to Offshore Funds. These funds are registered with SEBI as Foreign Portfolio Investors (FPIs). In terms of Regulation 24 (b) (vi) of SEBI (Mutual Funds) Regulations, 1996 there is no need to appoint separate fund manager for managing these offshore funds.

Change in Investment Pattern/Portfolio Rebalancing

Rebalancing due to Short Term Defensive Consideration

Being a passively managed open-ended index fund, changes in investment pattern are normally not foreseen. However, for short durations part of the corpus may remain pending for deployment, in cases of extreme market conditions, special events or corporate events etc. The Fund Manager, with the intention to protect the interests of the unit holders may change the investment pattern for short term and defensive considerations pursuant to provision no. 1.14.1.2 of SEBI Master Circular on Mutual Fund dated May 19, 2023. The same will be rebalanced within 7 Calendar Days. (CSO 22 & 23)

Portfolio Rebalancing due to index reconstitution

In case of change in constituents of the index due to periodic review, pursuant to provision no. 3.6.7 of SEBI Master Circular on Mutual Fund dated May 19, 2023, the portfolio of the scheme will be rebalanced within 7 calendar days. Any transactions undertaken in the scheme portfolio to meet the redemption and subscription obligations shall be done while ensuring that post such transactions replication of the portfolio with the index is maintained at all points of time. (CSO 22)

Deployment of NFO Proceeds in Triparty Repo or any other instrument as may be permitted by SEBI:

In accordance with provision no. 1.10.3 of SEBI Master Circular on Mutual Fund dated May 19, 2023, the scheme may deploy NFO proceeds, before closure of NFO period, in 'The Clearing Corporation of India Ltd.'s (CCIL) TREPS'. AMCs will not charge any investment management and advisory fees on funds deployed in Triparty repo on Government Securities. The appreciation received from such investments shall be passed on to investors. Further, in case the minimum subscription amount is not garnered by the scheme's during the NFO period, the interest earned upon investment of NFO proceeds in such instruments shall be returned to investors, in proportion of their investments, along-with the refund of the subscription amount.

D. WHERE WILL THE SCHEME INVEST (CSO 29) (SO 15)

Equity & Equity Related Instruments:

The Scheme would invest in stocks comprising Nifty500 Multicap India Manufacturing 50:30:20 Index in the same proportion (weightage) as in the Index.

The Scheme may take an exposure to equity derivatives of constituents of the underlying index for short duration when securities of the index are unavailable, insufficient or for rebalancing at the time of change in index or in case of corporate actions, etc. The Scheme will comply with all the applicable circulars issued by SEBI as regard to derivatives viz. provision no. 12.25 of SEBI Master Circular on Mutual Fund dated May 19, 2023. (CSO 19)

Investment in Debt & Money Market Instruments:

The Scheme may also invest upto 5% of net assets in debt and Money market instruments, in compliance with Regulations to meet liquidity requirements.

Debt/ Money Market Instruments includes instruments like:

1. Commercial Paper,
2. Certificate of Deposit,

3. Treasury Bills
4. Short term debt instruments etc.
5. Triparty Repo or any other instrument as may be permitted by SEBI,
6. Reverse Repo in Government Securities and
7. Any other Money Market instruments as may be permitted by SEBI/ RBI from time to time, subject to regulatory approvals if any.

Units of Mutual Funds

The scheme may also invest in mutual fund schemes of Tata Mutual Fund or in the Scheme(s) of other mutual funds in conformity with the investment objective/ asset allocation of the Scheme and in terms of the prevailing SEBI (MF) Regulations.

E. THE INVESTMENT STRATEGIES(CSO 26 & 28)(SO 07)

TATA Nifty500 Multicap India Manufacturing 50:30:20 Index Fund is a passively managed Index Fund which will employ an investment approach designed to replicate/ track the performance of Nifty500 Multicap India Manufacturing 50:30:20 Index (TRI), subject to tracking error. There is no assurance or guarantee that the investment objective of the scheme will be achieved. The scheme does not assure or guarantee any returns.

The Scheme seeks to achieve the investment objective by investing in securities constituting the of Nifty500 Multicap India Manufacturing 50:30:20 Index in same proportion as in the Index. The Scheme will invest at least 95% of its total assets in the securities comprising the Underlying Index.

The Scheme may also invest in money market instruments to meet the liquidity and expense requirements. The fund is ideal for those investors who would like to invest in passively managed fund investing in a diversified portfolio of well-known companies as represented by Nifty500 Multicap India Manufacturing 50:30:20 Index.

Rationale for selection of benchmark

The index is designed to reflect the behaviour and performance of eligible basic industries that broadly represent manufacturing sector. The 75 stocks in the index are filtered from a universe of Nifty 100, Nifty Midcap 150 & Nifty Smallcap 250. Based on market cap Top 15 companies are selected from large cap universe, Top 25 companies are selected from mid-cap universe and Top 35 companies are selected from the small cap universe. The segment filters help the index take exposure to key industries in the Mid & Small Cap Exposure as well. Thus, the composition of the aforesaid benchmark index is such that it is most suited for comparing performance of the Scheme.

Tracking Error(CSO 10)

Tracking error is a measure of the difference in returns from the Scheme and the returns from the index. It is computed as the standard deviation of the difference between the daily returns of the underlying benchmark and the NAV of the Scheme on an annualized basis. Tracking error could be the result of a variety of factors including but not limited to:

- Delay in the purchase or sale of stocks within the benchmark due to:
 - i. Illiquidity in the stock,
 - ii. Delay in realization of sale proceeds,
- The scheme may buy or sell the stocks comprising the index at different points of time during the trading session at the then prevailing prices which may not correspond to its closing prices.
- The potential for trades to fail, which may result in the Scheme not having acquired the stocks at a price necessary to track the benchmark price.
- The holding of a cash position and accrued income prior to distribution of income and payment of accrued expenses.
- Investment in Debt and money market instruments to meet redemption / other liquidity requirements
- Addition or Removal of stocks from the index-by-index service provider
- Disinvestments to meet redemptions, recurring expenses, income distribution cum capital withdrawal payouts etc.
- Execution of large buy / sell orders
- Transaction cost and recurring expenses
- Delay in realization of Unit holders' funds
- Levy of margins by exchanges

The Scheme will endeavor to minimize the tracking error by:

- Rebalancing of the portfolio.
- Setting off incremental subscriptions against redemptions

- Use of derivatives for portfolio rebalancing and efficient portfolio management
- Fast tracking deployment of Cash and
- Maintaining low levels of Cash

The AMC would monitor the tracking error of the Scheme on an ongoing basis and would seek to minimize tracking error to the maximum extent possible. The tracking error based on past one year rolling data shall not exceed 2%. However, in case of events like, dividend issuance by constituent members, rights issuance by constituent members, and market volatility during rebalancing of the portfolio following the rebalancing of the Underlying Basket, etc. or in abnormal market circumstances, which are beyond the control of the AMCs, the tracking error may exceed 2% and the same shall be brought to the notice of Trustees.

However, the Fund will endeavor to limit the tracking error within 2% limits. The Fund in existence for a period of less than one year, the annualized standard deviation shall be calculated based on available data.

Tracking Difference

“Tracking Difference” is the difference of return between the fund and its respective benchmark. “Tracking Error” is defined as the standard deviation of the difference between daily returns of the underlying index and the NAV of the respective scheme.

The annualized difference of daily returns between the index and the NAV of the Fund shall be disclosed on the AMCs website www.tatamutualfund.com and on website of AMFI, on a monthly basis, for tenures 1 year, 3 year, 5 year, 10 year and since the date of allotment of units

Trading in Derivatives by the Scheme

A derivative is an instrument whose value is derived from the value of one or more of the underlying assets which can be commodities, precious metals, bonds, currency, etc. Common examples of Derivative instruments are Interest Rate Swaps, Forward Rate Agreements, Futures, Options, etc.

Subject to SEBI (Mutual Fund) Regulations, 1996, the Scheme may take an exposure to equity derivatives of constituents of the underlying index for short duration when securities of the index are unavailable, insufficient or for rebalancing at the time of change in index or in case of corporate actions, as permitted. Exposure to derivative instruments will be restricted to the limit as specified in the para on asset allocation pattern of the scheme

Example: Please note that below mentioned examples are purely for illustration purpose only and actual exposure may vary to a greater extent in line with the regulatory directives.

Derivative Instruments & Related Examples:

Futures:

A futures contract is an agreement between the buyer and the seller for the purchase and sale of a particular asset at a specific price on a specific future date. The price at which the underlying asset would change hands in the future is agreed upon at the time of entering the contract. The actual purchase or sale of the underlying asset involving payment of cash and delivery of the instrument does not take place until the contracted date of delivery. A futures contract involves an obligation on both the parties to fulfill the terms of the contract. Currently, futures contracts have a maximum expiration cycle of 3-months. A futures contract on the stock market index gives its owner the right and obligation to buy or sell the portfolio of stocks characterized by the index. Stock index futures are cash settled; there is no delivery of the underlying stocks.

Portfolio Rebalancing

Fund Manager may use derivatives for portfolio rebalancing of the scheme to achieve a particular desired portfolio position at a lower cost using derivatives rather than cash market transactions. Suppose market moves upward direction for a while and fund manager wants to reduce weightage of scrips which moves one sided along with the market movement. Hence, he may decide to rebalance the portfolio by buying a stock future rather than the stock itself. He may deploy a buy-and-hold strategy by selling a stock or an index portfolio today, investing the proceeds in the money market, and having a locked-in price to buy it back at a future date.

However, a fund's position in a stock -underlying and derivatives taken together - should be within the fund's maximum permissible limit in the stock. For this purpose, stock option long calls should be counted as notional value.

Risks associated with Future Contracts: Investments in index futures face the same risk as the investments in a portfolio of shares representing an index. The extent of loss is the same as in the underlying stocks. The risk of loss in trading futures contracts can be substantial, because of the low margin deposits required, the extremely high degree of leverage involved in futures pricing and the potential high volatility of the futures markets. Additional risks could be on account of illiquidity and potential mispricing of the futures.

Options:

An option gives a person the right but not an obligation to buy or sell something. An option is a contract between two parties wherein the buyer receives a privilege for which he pays a fee (premium), and the seller accepts an obligation for which he receives a fee. The premium is the price negotiated and set when the option is bought or sold. A person who buys an option is said to be long in the option. A person who sells (or writes) an option is said to be short in the option.

There are two basic types of options, call option and put option.

- a. **Call option:** A call option gives the buyer of the option the right but not the obligation to buy a given quantity of the underlying asset, at a given price (strike price), on or before a given future date.
- b. **Put option:** A put option gives the buyer of the option the right but not the obligation to sell a given quantity of the underlying asset, at a given price (strike price), on or before a given future date.

On expiry of a call option, if the market price of the underlying asset is lower than the strike price the call would expire unexercised. Likewise, if, on the expiry of put option, the market price of the underlying asset is higher than that of the strike price the put option will expire unexercised.

The buyer/holder of an option can make loss of not more than the option premium paid to the seller/writer, but the possible gain is unlimited. On the other hand, the option seller/writer's maximum gain is limited to the option premium charged by him from the buyer/holder but can make unlimited loss.

Risks associated with Option Contracts: The option contracts give a person the right but not an obligation to buy or sell. The risk is potential mispricing and exposure to options can limit the profits from a genuine investment transaction.

Definition of Exposure in case of Derivative Positions

Each position taken in derivatives shall have an associated exposure as defined under. Exposure is the maximum possible loss that may occur on a position. However, certain derivative positions may theoretically have unlimited possible loss. Exposure in derivative positions shall be computed as follows:

Position	Exposure
Long Future	Futures Price*Lot Size*Number of Contracts
Short Future	Futures Price*Lot Size* Number of Contracts
Option Bought	Option Premium Paid*Lot Size* Number of Contracts.

In Addition to the above, SEBI has also prescribed following derivative position limits:

Position Limits for Mutual Fund and its scheme:

Position limit for Index Options and Index Futures contracts	
Index Options Contract*	On a particular underlying index Rs.500 Crore or 15% of the total open interest of the market in equity Index options contracts, whichever is higher.
Index Futures Contract**	On a particular underlying index Rs.500 Crore or 15% of the total open interest of the market in equity Index futures contracts, whichever is higher.

* This limit would be applicable on open positions in all options contracts on a particular underlying index.

** This limit would be applicable on open positions in all futures contracts on a particular underlying index.

Additional position limit for hedging	
In addition to the position limits as mentioned above, Mutual Funds may take exposure in equity index derivatives subject to the following limits:	Short positions in index derivatives (short futures, short calls, and long puts) shall not exceed (in notional value) the Mutual Fund's holding of stocks.
	Long positions in index derivatives (long futures, long calls, and short puts) shall not exceed (in notional value) the Mutual Fund's holding of cash, government securities, T-Bills, and similar instruments.
Position limit for Stock Options and Stock Futures contracts	
The combined futures and options position limit shall be 20% of the applicable Market Wide Position Limit (MWPL). This limit would be applicable on aggregate open positions in all futures and all option contracts on a particular underlying stock.	

Position limit for each scheme of a Mutual Fund

The scheme-wise position limit requirements shall be:

1. For stock option and stock futures contracts, the gross open position across all derivative contracts on a particular underlying stock of a scheme of a mutual fund shall not exceed the higher of:
 - 1% of the free float market capitalization (in terms of number of shares). Or
 - 5% of the open interest in the derivative contracts on a particular underlying stock (in terms of number of contracts)
2. This position limits shall be applicable on the combined position in all derivative contracts on an underlying stock at a Stock Exchange.
3. For index-based contracts, Mutual Funds shall disclose the total open interest held by its scheme or all schemes put together in a particular underlying index, if such open interest equals to or exceeds 15% of the open interest of all derivative contracts on that underlying index.

For detailed risk associated with use of derivatives, please refer paragraph "Scheme Specific risk factors".

Overview of Debt Market: (SO 12)

The major players in the Indian Debt Markets are banks, financial institutions, insurance companies and mutual funds. The instruments in the market can be broadly categorized as those issued by corporate, banks, financial institutions and those issued by state/central governments. The risk associated with any investments are – credit risk, interest rate risks and liquidity risk. While corporate papers carry credit risk due to changing business conditions, government securities are perceived to have zero credit risk. Interest rate risk is present in all debt securities and depends on a variety of macroeconomic factors. The liquidity risk in corporate securities market is higher compared to those of government securities. The liquidity risk in corporate securities market is higher compared to those of government securities. Liquidity in the corporate debt market has been improving due to the entry of more players and due to various measures taken by the regulators to increase the liquidity and transparency such as introduction of repo in corporate bonds, Credit Default Swaps, compulsory reporting of secondary market OTC transactions on exchange platforms to name a few. Moreover, the recent successful introduction of Interest Rate Future in the benchmark 10-year Government Bond will also be likely to increase the depth in the debt market.

The market participants in the corporate debt and gilt markets are banks, financial institutions, mutual funds, corporates, insurance companies, FIs, primary dealers and provident funds. The main debt instruments in the market are those issued by Corporates and State/Central Governments. Corporate papers carry credit risk while government securities are believed to carry no credit risk. The main risks with investments in debt securities are interest rate risk, credit risk and liquidity risk. Interest rate risk associated with debt instruments depend on the macroeconomic environment. It includes both market price changes due to change in yields as well as coupon reinvestment rate risk. Corporate papers carry higher liquidity risk as compared to gilts due to the depth of the gilt market.

Money Market:

Money market encompasses a wide range of instruments with maturities ranging from one day to a year, issued by Government, Banks and corporates etc. and traded in markets of varying liquidity. The risk associated with any investments are – credit risk, interest rate risk and liquidity risk. However, such risks are lower in case of money market instruments compare to other debt instruments. Further, within the gamut of money market instruments as available in the market, such risks are very low in case of instruments issued by government. While corporate papers carry credit risk due to changing business conditions, government securities are perceived to have zero credit risk.

The following table attempts to give a broad overview of the available instruments in the financial markets and their risk return profile. The data given in the table is based on market conditions around the date of the Offer document and can at best be considered indicative:

I. Restrictions on Investments (as per seventh schedule of SEBI (Mutual Fund) Regulations 1996) (SO 11)

Subject to SEBI (MFs) Regulations, guidelines on investment from time to time:

In terms of provision No.12.22 of SEBI Master Circular on Mutual Funds dated May 19, 2023 all investment restrictions as contained in the SEBI (Mutual Fund) Regulations, 1996 shall be applicable at the time of making the investment.

Being an Index Fund, as per SEBI Regulations, Investments under the Scheme shall be in accordance with the weightage of the scripts in the Benchmark Index.

1. No mutual fund scheme shall invest more than 10 per cent of its NAV in the equity shares or equity related instruments of any company.

Provided that the limit of 10 per cent shall not be applicable for investments in case of index fund or exchange traded fund or sector or industry specific scheme.

2. All investments by the scheme in equity shares and equity related instruments shall only be made provided such securities are listed or to be listed.
3. No mutual fund under all its schemes should own more than ten per cent of any company's paid up capital carrying voting rights.

Provided, investment in the asset management company or the trustee company of a mutual fund shall be governed by clause (a), of sub-regulation (1), of regulation 7B.

4. A mutual fund scheme shall not invest more than 10% of its NAV in debt instruments comprising money market instruments and non-money market instruments issued by a single issuer which are rated not below investment grade by a credit rating agency authorized to carry out such activity under the Act. Such investment limit may be extended to 12% of the NAV of the scheme with the prior approval of the Board of Trustees and the Board of directors of the asset management company:

Provided that such limit shall not be applicable for investments in government securities, treasury bills and Tri Party Repo on Government Securities or treasury bills.

Provided further that investment within such limit can be made in mortgaged backed securitized debts which are rated not below investment grade by a credit rating agency registered with the Board.

A mutual fund scheme shall not invest more than:

- a. 10% of its NAV in debt and money market securities rated AAA; or
- b. 8% of its NAV in debt and money market securities rated AA; or
- c. 6% of its NAV in debt and money market securities rated A and below Issued by a single issuer.

The above investment limits may be extended by up to 2% of the NAV of the scheme with prior approval of the Board of Trustees and Board of Directors of the AMC, subject to compliance with the overall 12% limit specified in clause 1 of Seventh Schedule of MF Regulation.

However, considering the asset allocation pattern of this scheme, the investment in Debt / Money Market instruments shall be limited upto 5% of NAV.

Note:

- i. The long-term rating of issuers shall be considered for the money market instruments. However, if there is no long-term rating available for the same issuer, then based on credit rating mapping of CRAs between short term and long-term ratings, the most conservative long-term rating shall be taken for a given short term rating.
- ii. Exposure to government money market instruments such as TREPS on G-Sec/ T-bills shall be treated as exposure to government securities.

- 4A. A mutual fund scheme shall not invest in unlisted debt instruments including commercial papers, except Government Securities and other money market instruments:

Provided that Mutual Fund Schemes may invest in unlisted non-convertible debentures up to a maximum of 10% of the debt portfolio of the scheme subject to such conditions as may be specified by the SEBI from time to time:

Provided further that mutual fund schemes shall comply with the norms under this clause within the time and in the manner as may be specified by the SEBI:

Note:

- a. Provision no. 12.1 of SEBI Master Circular on Mutual Fund dated May 19, 2023 w.r.t. investment in unlisted debt & money market instruments.
- b. Mutual fund scheme may invest in unlisted non-convertible debentures (NCDs) that have a simple structure (i.e with fixed and uniform coupon, fixed maturity period, without any options, fully paid up upfront, without any credit enhancements or structured obligations) and are rated and secured with coupon payment frequency on monthly basis.

TATA NIFTY500 MULTICAP INDIA MANUFACTURING 50:30:20 INDEX FUND – SID

- c. SEBI has allowed the existing unlisted NCDs to be grandfathered till maturity, such NCDs are herein referred to as "identified NCDs. Accordingly, mutual funds schemes can transact in such identified NCDs and the criteria specified in point (b) above shall not be applicable for such identified NCDs, Subject to compliance with investment due diligence and all other applicable.
- d. Maximum investment in unlisted NCDs will be 10 % of the debt portfolio of the scheme.

The existing unlisted NCDs to be grandfathered till maturity, however SEBI clarified that the grandfathering of the identified NCDs is applicable across the mutual fund industry. Accordingly, mutual funds can transact in such identified NCDs. All fresh investments by mutual fund schemes in CPs would be made only in CPs which are listed or to be listed.

5. The scheme shall not make any investment in;
 - a) any unlisted security of an associate or group company of the sponsor; or
 - b) any security issued by way of private placement by an associate or group company of the sponsor; or
 - c) the listed securities of group companies of the sponsor which is in excess of 25% of the net assets.

Provided that for the private equity fund or a pooled investment vehicle or a pooled investment fund acting as sponsor of mutual funds, the associate or group company shall also include,-

- a. associate or group company of the manager of any pooled investment vehicle; or
 - b. investee companies in which the shareholding of ten percent or more is held by the schemes or funds managed by manager of the pooled investment vehicle; or
 - c. any investee company in which the pooled investment vehicle holds more than ten percent shareholding or where the directors of the pooled investment vehicle or corporate sponsor has representation on the board or right to nominate representatives on the SEBI.
6. Transfers of investments from one scheme to another scheme in the same mutual fund shall be allowed only if:-
 - a. such transfers are done at the prevailing market price[^] for quoted instruments on spot basis.
Explanation- "spot basis" shall have same meaning as specified by stock exchange for spot transactions.
 - b. the securities so transferred shall be in conformity with the investment objective of the scheme to which such transfer has been made.

[^]Note: Provision no. 9.11 and 12.30 of SEBI Master Circular on Mutual Fund dated May 19, 2023 (CSO 30)

7. The scheme may invest in another scheme under the same asset management company or any other mutual fund without charging any fees, provided that aggregate inter scheme investment made by all schemes under the same management or in schemes under the management of any other asset management company shall not exceed 5% of the net asset value of the mutual fund.
8. Every mutual fund shall buy and sell securities on the basis of deliveries and shall in all cases of purchases, take delivery of relevant securities and in all cases of sale, deliver the securities:

Provided further that a mutual fund may enter into derivatives transactions in a recognized stock exchange, subject to the framework specified by the SEBI.

Provided further that sale of government security already contracted for purchase shall be permitted in accordance with the guidelines issued by the Reserve Bank of India in this regard.

9. Every mutual fund shall get the securities purchased or transferred in the name of the mutual fund on account of the concerned scheme, wherever investments are intended to be of long-term nature
10. Pending deployment of funds of a Scheme in terms of investment objectives of the scheme, a mutual fund may invest them in short term deposits of schedule commercial banks, subject to provision no. 12.16 of SEBI Master Circular on Mutual Fund dated May 19, 2023.

Note:

- a. "Short Term" for parking of funds shall be treated as a period not exceeding 91 days.
 - b. Short Term deposits shall be held in the name of the Scheme.
 - c. Total investment of the Scheme in short term deposit(s) of all the Scheduled Commercial Banks put together shall not exceed 15% of the net assets. However, this limit can be raised upto 20% of the net assets with prior approval of the Board of Trustees.
 - d. Investments in short term deposits of associate and sponsor scheduled commercial banks together shall not exceed 20% of total deployment by the Mutual Fund in short term deposits.
 - e. The Scheme shall not invest more than 10% of the net assets in short term deposit(s) of any one scheduled commercial bank including its subsidiaries.
 - f. The Scheme shall not invest in short term deposit of a bank which has invested in the Scheme. Trustees/ AMC shall also take steps to ensure that a bank in which the Scheme has short term deposit does not invest in the Scheme until the Scheme has short term deposit with such bank.
 - g. No investment management and advisory fees will be charged for such investments in the Scheme.
 - h. The aforesaid limits shall not be applicable to term deposits placed as margins for trading in cash market.
 - i. However, period for 'pending deployment' as stated above for the Scheme shall not exceed 7 days.
- 11 No scheme of a mutual fund shall make any investment in any fund of funds scheme.
 - 12 Save as otherwise expressly provided under SEBI (MF) Regulations, the Mutual Fund shall not advance any loans for any purpose.

13 The Scheme shall not borrow except to meet temporary liquidity needs of the mutual funds for the purpose of repurchase/ redemption of units or payment of interest or IDCW to the unitholders.

Provided that the mutual fund shall not borrow more than 20 per cent of the net asset of the scheme and the duration of such a borrowing shall not exceed a period of six months.

These investment limitations / parameters (as expressed / linked to the net asset / net asset value / capital) shall in the ordinary course apply as at the date of the most recent transaction or commitment to invest, and changes do not have to be effected merely because, owing to appreciations or depreciations in value, or by reason of the receipt of any rights, bonuses or benefits in the nature of capital or of any scheme of arrangement or for amalgamation, reconstruction or exchange, or at any repayment or redemption or other reason outside the control of the Fund, any such limits would thereby be breached. If these limits are exceeded for reasons beyond its control, TAMPL shall adopt as a priority objective the remedying of that situation, taking due account of the interests of the Unitholders.

In addition, certain investment parameters (like limits on exposure to Industries, Companies, etc.) may be adopted internally by TAMPL, and amended from time to time, to ensure appropriate diversification / security for the Fund. The Trustee Company / TAMPL may alter these above stated limitations from time to time, and to the extent the SEBI (Mutual Funds) Regulations, 1996 change, to permit the Scheme to make its investments in the full spectrum of permitted investments for mutual funds to achieve its investment objective. As such all investments of the Scheme will be made in accordance with SEBI (Mutual Funds) Regulations, 1996, including Schedule VII thereof. **(CSO 19)(SO 13)**

Investment by Asset Management Company(CSO 58)

TAMPL (the AMC) may invest in the scheme(s) on an ongoing basis, such amount, as they deem appropriate. The AMC shall not be entitled to charge any management fees on this investment in the scheme(s). Investments by the AMC will be in accordance with the SEBI (MF) Regulations, 1996.

As per the amended regulations i.e., sub-regulation 16(A) in Regulation 25 of SEBI (Mutual Funds) Regulations, 1996 ('MF Regulations'), asset management companies ('AMCs') are required to invest such amount in such scheme(s) of the mutual fund, based on the risk associated with the scheme. The AMC will comply with provision no. 6.9 of SEBI Master Circular on Mutual Fund dated May 19, 2023. As per the relevant circular, AMCs shall not be required to invest in Index Funds.

Compliance under Foreign Account Tax Compliance Act (FATCA) regulations:

United States of America (US) has introduced chapter no. 4 in the US Internal Revenue Code as a part of the Hiring Incentives to Restore Employment (HIRE) Act, which was enacted by the US legislature to create employment opportunities in US. The HIRE Act includes Foreign Account Tax Compliance Act (FATCA), which now forms a part of the US-IR Code. The regulations for FATCA have undergone revision since 2010 and the final regulations make the FATCA provisions effective from July 1, 2014.

The objective of FATCA is to detect "US Persons", who evade US taxes by using financial account maintained outside US. The US persons are defined as those who have either US citizenship or US residency. The FATCA stipulates reporting on -

- i. US taxpayers about certain foreign financial accounts and offshore assets.
- ii. Foreign Financial Institutions (FFIs) about financial accounts with them of US taxpayers or foreign entities in which US taxpayers hold substantial ownership interest.

FFIs (including mutual funds in India) are required to periodically report information on accounts of US persons, who maintain balances above a threshold. In the event of a default in the reporting of information on accounts of US taxpayers, a withholding of 30% of the payment made from US sources will be imposed on the recalcitrant account holders and non-participating Financial Institutions. SEBI vide its circular no. CIR/MIRSD/2/2014 dated June 30, 2014, has advised that Government of India and US Government have reached an agreement in substance on the terms of an Inter-Governmental Agreement (IGA) to implement FATCA and India is now treated as having an IGA in effect from April 11, 2014. Tata Asset Management Company Pvt Limited (TAMPL) is classified as a Foreign Financial Institution (FFI) under the FATCA provisions and in accordance therewith, the AMC would be required to comply with the rules & regulations of FATCA, from time to time.

To ensure compliance with FATCA and other rules / directions / notifications as may be issued by Government of India or other regulatory authority, Mutual Funds are required to institute a process to identify US Person investors and report the same.

Applicants are required to refer to the "FATCA information" section in the application and mandatorily fill/sign off on the same. Applications without this information / declaration being filled/signed off will be deemed as incomplete and are liable to be rejected. Investors are requested to note that the contents of the information to be provided/ declaration in the application form may undergo a change on receipt of communication / guidelines from Government of India or AMFI or SEBI or any other regulatory authority.

Common Reporting Standard (CRS):

On similar lines of FATCA, the Organization of Economic Development (OECD), along with the G 20 countries, of which India is a member, has released a 'Standard for Automatic Exchange of Financial Account Information in Tax matters. To combat the problem of offshore tax evasion and avoidance and stashing of unaccounted money abroad, the G 20 & OECD countries have together developed a common reporting standard (CRS) on automatic exchange of information (AEOI). On June 3, 2015 India has joined the Multilateral Competent Authority Agreement (MCAA) on AEOI. The CRS on AEOI requires the financial institutions of the 'source' jurisdiction to collect and report information to their tax authorities about account

holder's 'resident' in other countries. The information to be exchanged relates not only to individuals, but also to shell companies and trusts having beneficial ownership or interest in the 'resident' countries.

In view of India's commitment to implement the CRS on AEOI and the IGA with USA and with a view to provide information to other countries necessary legislative changes has already been made in Finance Act & by inserting Rules 114F to 114H and Form 61B to provide a legal basis for the Reporting Financial Institutions (RFIs) for maintaining and reporting information about the reportable accounts.

Applicants are required to refer to the "FATCA/CRS information" section in the application and mandatorily fill/sign off on the same. Applications without this information / declaration being filled/signed off will be deemed as incomplete and are liable to be rejected. Investors are requested to note that the contents of the information to be provided/ declaration in the application form may undergo a change on receipt of communication / guidelines from Government of India or AMFI or SEBI or any other regulatory authority.

With the change in guidelines, investors may be called for additional information required by the law. Investors are requested to keep Mutual Fund updated with change in information already submitted by them with Mutual Fund. FATCA provisions are relevant not only at on-boarding stage of investor(s)/unit holder(s) but also throughout the life cycle of investment with the Fund/the AMC. In view of this, Investors should immediately intimate to the Fund/the AMC, in case of any change in their status with respect to FATCA/CRS related declaration provided by them previously.

Investors(s)/Unit holder(s) should consult their own tax advisors to understand the implications of FATCA/CRS provisions /requirements.

With the change in guidelines, investors may be called for additional information required by the law. Investors are requested to keep Mutual Fund updated with change in information already submitted by them with Mutual Fund.

SIPrise facility:

SIPrise is an optional facility offered by Tata Mutual Fund (TMF) for its eligible schemes (Growth option). This facility is aimed to encourage investors to invest regularly through Systematic Investment Plans (SIP) in TMF schemes for pre-defined tenure. Post SIP period (Investors have an option to select pause period) the accumulated units will be switched from the source scheme to the target scheme. Investors also have an option to select the source scheme as the target scheme. In this case, there would not be any unit transfer through systematic transfer plan (STP). The investor would receive periodic amount through systematic withdrawal plan (SWP) till the units are available.

TATA Nifty500 Multicap India Manufacturing 50:30:20 Index Fund is considered as eligible Source Scheme for “SIPrise” facility.

The terms and conditions of this facility are as follows:

Systematic Investment Plan (SIP)

- a. The SIPs registered under this facility would be subject to investment of minimum amount as specified in the KIM cum application form from time to time for the eligible source schemes.
- b. Default SIP trigger date under this facility will be the 10th calendar day of the month. In case, the trigger date falls on a non- business day, the SIP would be triggered on the next business day.
- c. The SIP will be registered for monthly frequency only.
- d. In case the SIP is terminated prior to the pre-defined tenure, STP and SWP will continue as defined in the initial request. In any case, the STP and SWP amount will be limited till the units are available.
- e. Existing units already available in the source scheme before opting for the SIPrise facility and any additional units added to the source scheme in any manner in addition to this facility will also be automatically moved to the Target scheme through the scheduled STPs till the units are available. The amount so moved to the target scheme would be on a first in first out (FIFO) basis. Any earlier option chosen by the investor earlier would automatically get revised to this extent.
- f. Top-Up SIP is allowed under this feature. The investor may choose to increase their SIP amount by Rs. 500 or multiples of Rs. 500.

Systematic Transfer Plan (STP)

- a. A Systematic Transfer Plan (STP) will start one year prior to that of the SWP.
- b. Yearly STP amount will be equal to 15 times the monthly SWP amount from the target scheme or till the units are available.

Systematic Withdrawal Plan (SWP)

- a. Investors need to choose the scheme (target scheme) from where the monthly SWP is required to be made to their registered bank account & the required periodic amount by means of withdrawal via systematic withdrawal plan (SWP) from target scheme. In case, the investors do not choose the desired SWP amount, they will receive the default SWP amount (likely amount to be withdrawn) which would be initial monthly SIP amount under this facility till the units last.
- b. The SWP will start after the SIP tenure or after the pause period, if any, as chosen by the investor.
- c. The SWP amount selected shall not be less than the initial SIP amount opted by the investor.
- d. Investors have an option to opt for pause after the SIP tenure as mentioned at the time of initial registration under this facility. The minimum pause period is 0 years. If the pause is not opted, the starting month (i.e. 1st trigger month) for SWP will be the subsequent month of the last SIP instalment month.
- e. Existing units already available before STP in the target scheme and additional units added to the target scheme will also form a part of the redemption proceeds through the scheduled SWP till the units are available. The SWP amount would be triggered on first in first out (FIFO) basis.
- f. The SWP date will be same as that of the SIP date. In case, the trigger date is a non- business day, the SWP will be made on the next business day.
- g. The SWP will be done from the Growth Options of eligible open-ended schemes of Tata Mutual Fund as stated in annexure to this addendum.
- h. The SWP will continue till the units are available in the scheme.

Common Features

- a. Once opted for this facility investors / unitholders cannot change the Source scheme, target scheme, initial SIP Amount, SIP Tenure, Pause Period and required periodic SWP Amount.

- b. STP will be done when the target scheme is different from the source scheme at prevailing NAV in the respective scheme (s).
- c. Partial redemption or switch out of the units in the source or target scheme will not affect the SIP, STP & SWP already registered under this facility. Investors are required to note that the STP & SWP will be continued for the period chosen by the investor or till the units are available in the source and target scheme respectively.
- d. Investor has option to withdraw from this SIP facility at any stage by providing a separate request to discontinue/cease the SIP, STP & SWP registration.
- e. Minor/s are not eligible to register for this facility. Applications in the name of minors, filled in by guardians, will also not be accepted.
- f. This Facility is not available where units are in held in DEMAT mode.
- g. Pledged or Frozen Units will not be transferred (i.e. through STP). The same is also not available for withdrawal by the investor (i.e. through SWP) unless the investor / unitholder provides the necessary valid documents to prove that the pledge/freeze status has been withdrawn/changed.
- h. Investors can opt to withdraw through lumpsum either partially or in entirety till the units are available in the source and / or target scheme at any time during the tenure of this facility. Accordingly, the balance units will be considered for SIP, STP & SWP under this facility.
- i. Each STP & SWP will continue for the chosen amount or till units last.
- j. Default trigger date i.e. 10th calendar day of the month is only applicable for this facility.
- k. Tata Mutual Fund reserves the right to reject any application in case the investor does not fulfill any criteria of this facility

All other terms & conditions of SIP, STP & SWP are also applicable to SIPrise.

Kindly note that apart from the above facility mentioned i.e. "SIPrise", investor can opt for normal / existing SIP, STP & SWP facility as mentioned in respective Scheme Information Document.

Disclaimers:

1. This facility does not in any way give assurance or guarantee returns or lump sum payments at the end of the SIP period or thereafter.
2. The payouts to the investors are made only by means of redeeming the units/corpus available in the investor's folio at NAV and subject to load, if any.
3. Tata Mutual Fund does not in any way assure or guarantee payouts, beyond available units/corpus in the scheme/s folio.
4. Investors should consult their financial advisors if in doubt about whether the facility is suitable for them.
5. The investor is advised to consult their tax consultant with respect to specific tax implications arising out of their participation in the facility

Systematic Withdrawal Plan (SWP)

This facility available to the unitholders of the fund enables them to redeem fixed sums or fixed number of units from their unit accounts at periodic intervals. The amount withdrawn under SWP by redemption shall be converted into the Fund units at the Repurchase price and such units will be redeemed/ subtracted from the unit balance of that unitholder. In case the date falls during a non-business day/ book closure period the immediate next Business day will be considered for this purpose.

The Authorised Investor Service Center may terminate SWP on receipt of a notice from the unitholder. It will terminate automatically if all units are liquidated or withdrawn from the account or upon the receipt of notification of death or incapacity of the unitholder.

"SWP facility is available subject to terms and conditions. Please refer to the SWP Enrolment form for terms and conditions before enrolment."

Systematic Transfer Plan (STP)

A unitholder may establish a Systematic Transfer Plan (STP) and choose to transfer an amount from one TMF Scheme (source scheme) to another TMF Scheme (target scheme) on a date / frequency prescribed by the Investment Manager. The amount thus withdrawn by redemption shall be converted into units at the applicable NAV on the scheduled day and such units will be subtracted from the unit balance of that unitholder.

The net amount will be considered for allotment in the target scheme and units will be allotted as per the applicable NAV of the target scheme. Unitholders may change the amount of STP. However the STP amount selected cannot be below the specified minimum redemption amount of the source scheme and should meet

the minimum investment amount criteria of the target scheme. A change in STP amount can be done, by giving two weeks prior written notice to the registrars. STP may be terminated automatically if the balance falls below the minimum account balance or upon the receipt of notification of death or incapacity of the unitholders by the fund. Rules relating to the plan may be changed from time to time by the Investment Manager.

“STP facility is available subject to terms and conditions. Please refer to the STP Enrolment form for terms and conditions before enrolment.”

For further details and terms and condition on special products, please refer KIM cum application form.

Flex STP

Flexible Systematic Transfer Plan (“Flex STP”) by Tata Mutual Fund is a facility wherein a Unitholder(s) of designated open-ended Scheme(s) can opt to transfer variable amounts linked to the value of his investments on the date of transfer at pre-determined intervals from designated open-ended (source scheme) to the growth option of another open-ended scheme (target scheme).

Salient Features of Flex STP are as follows:

1. The amount to be transferred under Flex STP from source scheme to target scheme shall be calculated using the below formula:

Flex STP amount = [(fixed amount to be transferred per instalment x number of instalments already executed, including the current instalment)– market value of the investments through Flex STP in the Transferee Scheme on the date of transfer]

2. The first Flex STP instalment will be processed for the fixed instalment amount specified by the investor at the time of enrolment. From the second Flex STP instalment onwards, the transfer amount shall be computed as per formula stated above.

3. Under “Flex STP” facility, TATA Nifty500 Multicap India Manufacturing 50:30:20 Index Fund is enabled as Source as well as Target Scheme.

4. Flex STP would be available for Quarterly, Monthly, Weekly and Daily frequencies.

5. Flex STP is not available from “Daily / Weekly” income distribution plans of the source schemes.

6. Flex STP is available only in “Growth” option of the target scheme.

7. Conversion to Normal STP: If there is any other financial transaction (purchase, redemption or switch) processed in the target scheme during the tenure of Flex STP, the Flex STP will be processed as normal STP for the rest of the instalments for a fixed amount.

8. Flex STP will stop/cease on occurrence of any of the following event whichever is earlier.

a. Flex STP will cease after the specified End Date / Specified number of instalments have been transferred.

b. In case the amount (as per the formula) to be transferred is not available in the source scheme in the investor’s folio, the residual amount will be transferred to the target scheme and Flex STP will be closed.

9. A single Flex STP enrolment Form can be filled for transfer into one Scheme/Plan/Option only.

10. In case the date of transfer falls on a Non-Business Day, then the immediately following Business Day will be considered for the purpose of determining the applicability of NAV.

11. The request for Flex STP should be submitted at least 10 calendar days before the first STP date.

12. All other terms & conditions of Systematic Transfer Plan are also applicable to Flex STP.

Flex STP is a Systematic Withdrawal Plan (SWP) from Source Scheme and Systematic Investment Plan (SIP) in the Target scheme, therefore in the source scheme the exit load for the units will be as per the load structure applicable at the time of the purchase of those units. In the Target scheme the load structure will be as per the prevailing exit Load structure applicable for the SIP for that scheme.

Systematic Transfer from one scheme to another scheme attracts capital gain tax depends on the periodicity of holding. In view of the individual nature of tax implications, each unit holder is advised to consult with his or her own tax advisors with respect to the specific tax and other implications arising out of the transactions.

The AMC reserves the right to withdraw/change/modify the terms and conditions of Flex STP. The above terms and conditions may be modified at any time without prior notice to the unitholders and such amended terms and conditions will thereupon apply to and be binding on the unitholders.

- i. Top-Up SIP is allowed under this feature. The investor may choose to increase their SIP amount by Rs. 500 or multiples of Rs. 500.

Systematic Transfer Plan (STP)

- c. A Systematic Transfer Plan (STP) will start one year prior to that of the SWP.
d. Yearly STP amount will be equal to 15 times the monthly SWP amount from the target scheme or till the units are available.

Systematic Withdrawal Plan (SWP)

- i. Investors need to choose the scheme (target scheme) from where the monthly SWP is required to be made to their registered bank account & the required periodic amount by means of withdrawal via systematic withdrawal plan (SWP) from target scheme. In case, the investors do not choose the desired SWP amount, they will receive the default SWP amount (likely amount to be withdrawn) which would be initial monthly SIP amount under this facility till the units last.
j. The SWP will start after the SIP tenure or after the pause period, if any, as chosen by the investor.
k. The SWP amount selected shall not be less than the initial SIP amount opted by the investor.
l. Investors have an option to opt for pause after the SIP tenure as mentioned at the time of initial registration under this facility. The minimum pause period is 0 years. If the pause is not opted, the starting month (i.e. 1st trigger month) for SWP will be the subsequent month of the last SIP instalment month.
m. Existing units already available before STP in the target scheme and additional units added to the target scheme will also form a part of the redemption proceeds through the scheduled SWP till the units are available. The SWP amount would be triggered on first in first out (FIFO) basis.
n. The SWP date will be same as that of the SIP date. In case, the trigger date is a non- business day, the SWP will be made on the next business day.
o. The SWP will be done from the Growth Options of eligible open-ended schemes of Tata Mutual Fund as stated in annexure to this addendum.
p. The SWP will continue till the units are available in the scheme.

Common Features

- l. Once opted for this facility investors / unitholders cannot change the Source scheme, target scheme, initial SIP Amount, SIP Tenure, Pause Period and required periodic SWP Amount.
m. STP will be done when the target scheme is different from the source scheme at prevailing NAV in the respective scheme (s).
n. Partial redemption or switch out of the units in the source or target scheme will not affect the SIP, STP & SWP already registered under this facility. Investors are required to note that the STP & SWP will be continued for the period chosen by the investor or till the units are available in the source and target scheme respectively.
o. Investor has option to withdraw from this SIP facility at any stage by providing a separate request to discontinue/cease the SIP, STP & SWP registration.
p. Minor/s are not eligible to register for this facility. Applications in the name of minors, filled in by guardians, will also not be accepted.
q. This Facility is not available where units are in held in DEMAT mode.
r. Pledged or Frozen Units will not be transferred (i.e. through STP). The same is also not available for withdrawal by the investor (i.e. through SWP) unless the investor / unitholder provides the necessary valid documents to prove that the pledge/freeze status has been withdrawn/changed.
s. Investors can opt to withdraw through lumpsum either partially or in entirety till the units are available in the source and / or target scheme at any time during the tenure of this facility. Accordingly, the balance units will be considered for SIP, STP & SWP under this facility.
t. Each STP & SWP will continue for the chosen amount or till units last.
u. Default trigger date i.e. 10th calendar day of the month is only applicable for this facility.
v. Tata Mutual Fund reserves the right to reject any application in case the investor does not fulfill any criteria of this facility

All other terms & conditions of SIP, STP & SWP are also applicable to SIPrise.

Kindly note that apart from the above facility mentioned i.e. "SIPrise", investor can opt for normal / existing SIP, STP & SWP facility as mentioned in respective Scheme Information Document.

Disclaimers:

1. This facility does not in any way give assurance or guarantee returns or lump sum payments at the end of the SIP period or thereafter.
2. The payouts to the investors are made only by means of redeeming the units/corpus available in the investor's folio at NAV and subject to load, if any.
3. Tata Mutual Fund does not in any way assure or guarantee payouts, beyond available units/corpus in the scheme/s folio.
4. Investors should consult their financial advisors if in doubt about whether the facility is suitable for them.
5. The investor is advised to consult their tax consultant with respect to specific tax implications arising out of their participation in the facility

Systematic Withdrawal Plan (SWP)

This facility available to the unitholders of the fund enables them to redeem fixed sums or fixed number of units from their unit accounts at periodic intervals. The amount withdrawn under SWP by redemption shall be converted into the Fund units at the Repurchase price and such units will be redeemed/subtracted from the unit balance of that unitholder. In case the date falls during a non-business day/ book closure period the immediate next Business day will be considered for this purpose.

The Authorised Investor Service Center may terminate SWP on receipt of a notice from the unitholder. It will terminate automatically if all units are liquidated or withdrawn from the account or upon the receipt of notification of death or incapacity of the unitholder.

"SWP facility is available subject to terms and conditions. Please refer to the SWP Enrolment form for terms and conditions before enrolment."

Systematic Transfer Plan (STP)

A unitholder may establish a Systematic Transfer Plan (STP) and choose to transfer an amount from one TMF Scheme (source scheme) to another TMF Scheme (target scheme) on a date / frequency prescribed by the Investment Manager. The amount thus withdrawn by redemption shall be converted into units at the applicable NAV on the scheduled day and such units will be subtracted from the unit balance of that unitholder.

The net amount will be considered for allotment in the target scheme and units will be allotted as per the applicable NAV of the target scheme. Unitholders may change the amount of STP. However the STP amount selected cannot be below the specified minimum redemption amount of the source scheme and should meet the minimum investment amount criteria of the target scheme. A change in STP amount can be done, by giving two weeks prior written notice to the registrars. STP may be terminated automatically if the balance falls below the minimum account balance or upon the receipt of notification of death or incapacity of the unitholders by the fund. Rules relating to the plan may be changed from time to time by the Investment Manager.

"STP facility is available subject to terms and conditions. Please refer to the STP Enrolment form for terms and conditions before enrolment."

For further details and terms and condition on special products, please refer KIM cum application form.

Flex STP

Flexible Systematic Transfer Plan ("Flex STP") by Tata Mutual Fund is a facility wherein a Unitholder(s) of designated open-ended Scheme(s) can opt to transfer variable amounts linked to the value of his investments on the date of transfer at pre-determined intervals from designated open-ended (source scheme) to the growth option of another open-ended scheme (target scheme).

Salient Features of Flex STP are as follows:

1. The amount to be transferred under Flex STP from source scheme to target scheme shall be calculated using the below formula:

Flex STP amount = [(fixed amount to be transferred per instalment x number of instalments already executed, including the current instalment) – market value of the investments through Flex STP in the Transferee Scheme on the date of transfer]

2. The first Flex STP instalment will be processed for the fixed instalment amount specified by the investor at the time of enrolment. From the second Flex STP instalment onwards, the transfer amount shall be computed as per formula stated above.

3. Under "Flex STP" facility, TATA Nifty500 Multicap India Manufacturing 50:30:20 Index Fund is enabled as Source as well as Target Scheme.

4. Flex STP would be available for Quarterly, Monthly, Weekly and Daily frequencies.
5. Flex STP is not available from "Daily / Weekly" income distribution plans of the source schemes.
6. Flex STP is available only in "Growth" option of the target scheme.
7. Conversion to Normal STP: If there is any other financial transaction (purchase, redemption or switch) processed in the target scheme during the tenure of Flex STP, the Flex STP will be processed as normal STP for the rest of the instalments for a fixed amount.
8. Flex STP will stop/cease on occurrence of any of the following event whichever is earlier.
 - a. Flex STP will cease after the specified End Date / Specified number of instalments have been transferred.
 - b. In case the amount (as per the formula) to be transferred is not available in the source scheme in the investors folio, the residual amount will be transferred to the target scheme and Flex STP will be closed.
9. A single Flex STP enrolment Form can be filled for transfer into one Scheme/Plan/Option only.
10. In case the date of transfer falls on a Non-Business Day, then the immediately following Business Day will be considered for the purpose of determining the applicability of NAV.
11. The request for Flex STP should be submitted at least 10 calendar days before the first STP date.
12. All other terms & conditions of Systematic Transfer Plan are also applicable to Flex STP.

Flex STP is a Systematic Withdrawal Plan (SWP) from Source Scheme and Systematic Investment Plan (SIP) in the Target scheme, therefore in the source scheme the exit load for the units will be as per the load structure applicable at the time of the purchase of those units. In the Target scheme the load structure will be as per the prevailing exit Load structure applicable for the SIP for that scheme.

Systematic Transfer from one scheme to another scheme attracts capital gain tax depends on the periodicity of holding. In view of the individual nature of tax implications, each unit holder is advised to consult with his or her own tax advisors with respect to the specific tax and other implications arising out of the transactions.

The AMC reserves the right to withdraw/change/modify the terms and conditions of Flex STP. The above terms and conditions may be modified at any time without prior notice to the unitholders and such amended terms and conditions will thereupon apply to and be binding on the unitholders.

SWAP facility (Switch and Withdrawal Automation Plan)

About the Facility

The investor, under a designated open-ended scheme, can opt to switch their investment from the (open-ended) source scheme to the growth plan of the (open-ended) target scheme and set up a Systematic Withdrawal Plan from the target scheme at the same time. Compliance under Foreign Account Tax Compliance Act (FATCA) regulations:

United States of America (US) has introduced chapter no. 4 in the US Internal Revenue Code as a part of the Hiring Incentives to Restore Employment (HIRE) Act, which was enacted by the US legislature to create employment opportunities in US. The HIRE Act includes Foreign Account Tax Compliance Act (FATCA), which now forms a part of the US-IR Code. The regulations for FATCA have undergone revision since 2010 and the final regulations make the FATCA provisions effective from July 1, 2014.

The objective of FATCA is to detect "US Persons", who evade US taxes by using financial account maintained outside US. The US persons are defined as those who have either US citizenship or US residency. The FATCA stipulates reporting on –

- iii. US taxpayers about certain foreign financial accounts and offshore assets.
- iv. Foreign Financial Institutions (FFIs) about financial accounts with them of US taxpayers or foreign entities in which US taxpayers hold substantial ownership interest.

FFIs (including mutual funds in India) are required to periodically report information on accounts of US persons, who maintain balances above a threshold. In the event of a default in the reporting of information on accounts of US taxpayers, a withholding of 30% of the payment made from US sources will be imposed on the recalcitrant account holders and non-participating Financial Institutions. SEBI has advised that Government of India and US Government have reached an agreement in substance on the terms of an Inter-Governmental Agreement (IGA) to implement FATCA and India is now treated as having an IGA in effect from April 11, 2014. Tata Asset Management Pvt Limited (TAMPL) is classified as a Foreign Financial Institution (FFI) under the FATCA provisions and in accordance therewith, the AMC would be required to comply with the rules & regulations of FATCA, from time to time.

In order to ensure compliance with FATCA and other rules / directions / notifications as may be issued by Government of India or other regulatory authority, Mutual Funds are required to institute a process to identify US Person investors and report the same.

Applicants are required to refer to the "FATCA information" section in the application and mandatorily fill/sign off on the same. Applications without this information / declaration being filled/signed off will be deemed as incomplete and are liable to be rejected. Investors are requested to note that the contents of the information

to be provided/ declaration in the application form may undergo a change on receipt of communication / guidelines from Government of India or AMFI or SEBI or any other regulatory authority.

Common Reporting Standard (CRS):

On similar lines of FATCA, the Organization of Economic Development (OECD), along with the G 20 countries, of which India is a member, has released a 'Standard for Automatic Exchange of Financial Account Information in Tax matters. In order to combat the problem of offshore tax evasion and avoidance and stashing of unaccounted money abroad, the G 20 & OECD countries have together developed a common reporting standard (CRS) on automatic exchange of information (AEOI). On June 3,2015 India has joined the Multilateral Competent Authority Agreement (MCAA) on AEOI. The CRS on AEOI requires the financial institutions of the 'source' jurisdiction to collect and report information to their tax authorities about account holder's 'resident' in other countries. The information to be exchanged relates not only to individuals, but also to shell companies and trusts having beneficial ownership or interest in the 'resident' countries.

In view of India's commitment to implement the CRS on AEOI and also the IGA with USA and with a view to provide information to other countries necessary legislative changes has already been made in Finance Act & by inserting Rules 114F to 114H and Form 61B to provide a legal basis for the Reporting Financial Institutions (RFIs) for maintaining and reporting information about the reportable accounts.

Applicants are required to refer to the "FATCA/CRS information" section in the application and mandatorily fill/sign off on the same. Applications without this information / declaration being filled/signed off will be deemed as incomplete and are liable to be rejected. Investors are requested to note that the contents of the information to be provided/ declaration in the application form may undergo a change on receipt of communication / guidelines from Government of India or AMFI or SEBI or any other regulatory authority.

With the change in guidelines, investors may be called for additional information required by the law. Investors are requested to keep Mutual Fund updated with change in information already submitted by them with Mutual Fund. FATCA provisions are relevant not only at on-boarding stage of investor(s)/unit holder(s) but also throughout the life cycle of investment with the Fund/the AMC. In view of this, Investors should immediately intimate to the Fund/the AMC, in case of any change in their status with respect to FATCA/CRS related declaration provided by them previously.

Investors(s)/Unit holder(s) should consult their own tax advisors to understand the implications of FATCA/CRS provisions /requirements.

With the change in guidelines, investors may be called for additional information required by the law. Investors are requested to keep Mutual Fund updated with change in information already submitted by them with Mutual Fund.

<p>Creation of Segregated Portfolio (CSO 53)</p>	<p>In case of credit event at issuer level and to deal with liquidity risk, the scheme may create segregated portfolio of debt and money market instruments in compliance with the provision no. 4.4 of SEBI Master Circular on Mutual Fund dated May 19, 2023.</p> <p>Creation of segregated portfolio shall be subject to guidelines specified by SEBI from time to time and includes the following:</p> <ol style="list-style-type: none"> 1) Segregated portfolio may be created, in case of a credit event at issuer level i.e., downgrade in credit rating by a SEBI registered Credit Rating Agency (CRA), as under:

- a) Downgrade of a debt or money market instrument to 'below investment grade,' or
- b) Subsequent downgrades of the said instruments from 'below investment grade,' or
- c) Similar such downgrades of a loan rating
- 2) Creation of segregated portfolio is optional and is at the discretion of the AMC.
- 3) In case of unrated debt and money market instruments by the scheme of an issuer that does not have any outstanding rated debt or money market instruments, segregated portfolio may be created only in case of actual default of either the interest or principal amount. In case of default of unrated debt or money market instruments of an issuer, TAMPL(AMC) will inform AMFI immediately about the actual default by the issuer. Pursuant to dissemination of information by AMFI about actual default, AMC may segregate the portfolio of debt and money market instruments.
- Process for Creation of Segregated Portfolio
- 1) On the date of credit event, TAMPL(AMC) shall decide on creation of segregated portfolio. Once AMC decides to segregate portfolio, it should:
- a) seek approval of trustees prior to creation of the segregated portfolio.
- b) immediately issue a press release disclosing its intention to segregate such debt and money market instrument and its impact on the investors. The mutual fund should also disclose that the segregation shall be subject to trustee approval. Additionally, the said press release shall be prominently disclosed on the website of the AMC.
- c) ensure that till the time the trustee approval is received, which in no case shall exceed 1 business day from the day of credit event, the subscription and redemption in the scheme shall be suspended for processing with respect to creation of units and payment on redemptions.
- 2) Once trustee approval is received by the AMC:
- a) Segregated portfolio will be effective from the day of credit event
- b) AMC shall issue a press release immediately with all relevant information pertaining to the segregated portfolio. The said information shall also be submitted to SEBI.
- c) An e-mail or SMS should be sent to all unit holders of the concerned scheme.
- d) The NAV of both segregated and main portfolios shall be disclosed from the day of the credit event.
- e) All existing investors in the scheme as on the day of the credit event shall be allotted equal number of units in the segregated portfolio as held in the main portfolio.
- f) No redemption and subscription will be allowed in the segregated portfolio. However, upon recovery of any money from segregated portfolio, it should be immediately distributed to the investors in proportion to their holding in the segregated portfolio.
- g) AMC should enable listing of units of segregated portfolio on the recognized stock exchange within 10 working days of creation of segregated portfolio and enable transfer of such units on receipt of transfer requests
- h) Investors redeeming their units will get redemption proceeds based on the NAV of main portfolio and will continue to hold the units of segregated portfolio.
- 3) If the trustees do not approve the proposal to segregate portfolio, AMC should issue a press release immediately informing investors of the same.
- 4) In case trustees do not approve the proposal of segregated portfolio, subscription and redemption applications will be processed based on the NAV of total portfolio
- TER for the Segregated Portfolio
- 1) AMC shall not charge investment and advisory fees on the segregated portfolio. However, TER (excluding the investment and advisory fees) can be charged, on a pro-rata basis only upon recovery of the investments in segregated portfolio.
- 2) The TER so levied shall not exceed the simple average of such expenses (excluding the investment and advisory fees) charged on daily basis on the main portfolio (in % terms) during the period for which the segregated portfolio was in existence. In addition to the TER mentioned above, the legal charges related to recovery of the investments of the segregated portfolio may be charged to the segregated portfolio as mentioned below.
- 3) The legal charges related to recovery of the investments of the segregated portfolio may be charged to the segregated portfolio in proportion to the amount of recovery. However, the same shall be within the maximum TER limit as applicable to the main portfolio. The legal charges more than the TER limits, if any, shall be borne by the AMC.

4) The costs related to segregated portfolio shall in no case be charged to the main portfolio.

Explanations:

- 1) The term 'segregated portfolio' shall mean a portfolio, comprising of debt or money market instrument affected by a credit event, that has been segregated in a mutual fund scheme.
- 2) The term 'main portfolio' shall mean the scheme portfolio excluding the segregated portfolio.
- 3) The term 'total portfolio' shall mean the scheme portfolio including the securities affected by the credit event.

Monitoring by Trustees:

To ensure timely recovery of investments of the segregated portfolio, trustees shall ensure that:

The AMC puts in sincere efforts to recover the investments of the segregated portfolio.

Upon recovery of money, whether partial or full, it shall be immediately distributed to the investors in proportion to their holding in the segregated portfolio. Any recovery of amount of the security in the segregated portfolio even after the write off shall be distributed to the investors of the segregated portfolio.

An Action Taken Report (ATR) on the efforts made by the AMC to recover the investments of the segregated portfolio shall be placed in every Trustee meeting till the investments are fully recovered/written-off.

Trustees will monitor the compliance of the SEBI Circular in respect of creation of segregated portfolio and disclosure in this respect shall be made in Half-Yearly Trustee reports filed with SEBI.

To avoid misuse of segregated portfolio, Trustees shall ensure to have a mechanism in place to negatively impact the performance of Fund Managers, Chief Investment Officers (CIOs), etc. involved in the investment process of securities under the segregated portfolio. The new mechanism shall mirror the existing mechanism for performance incentives of the AMC, including the claw back of such amount to the segregated portfolio of the Scheme.
