Part II. INFORMATION ABOUT THE SCHEME

A. HOW WILL THE SCHEME ALLOCATE ITS ASSETS?

Under normal circumstances the asset allocation pattern will be:

Instruments	Indicative allocations (% of total assets)	
	Minimum	Maximum
Equity and equity related securities Constituting the Nifty Alpha Low Volatility 30 Index	95	100
Debt and Money Market Instruments*	0	5

The Scheme being an Index Scheme, the net assets of the scheme will be invested in the same weightage as the stocks constituting the Nifty Alpha Low Volatility 30 Index

*Money Market instruments includes commercial papers, commercial bills, treasury bills, Government securities having an unexpired maturity up to one year, call or notice money, certificate of deposit, usance bills, and any other like instruments as specified by the Reserve Bank of India from time to time.

The cumulative gross exposure through Equity and equity related instruments including derivative position, debt, Money Market Instruments will not exceed 100% of the net assets of the scheme.

However, cash or cash equivalents with residual maturity of less than 91 days may be treated as not creating any exposure in line with Clause 12.24 of the SEBI Master Circular dated June 27, 2024 for Mutual Funds. Further, SEBI vide letter dated November 3, 2021 has clarified that Cash Equivalent shall consist of Government Securities, T-Bills and Repo on Government Securities

There can be no assurance that the investment objective of the scheme will be realized. The Fund Manager may churn the portfolio to the extent as considered necessary to replicate the index.

Indicative Table (Actual instrument/percentages may vary subject to applicable SEBI circulars)

Sl.no	Type of Instrument	Percentage of Exposure	Circular References
1	Stock lending	The scheme will adhere to following limits for stock lending: (a) not more than 20% of the net assets of the scheme can generally deployed in stock lending and (b) not more than 5% of the net assets of the scheme can generally be deployed in stock lending through a single intermediary.	Paragraph 12.11 of the Master Circular for Mutual Funds dated June 27, 2024
2	Equity Derivatives	Exposure to equity derivatives of the index itself or its constituent stocks may be required in certain situations	Clause 7.5 of the SEBI Master Circular dated June 27, 2024 for Mutual Funds

		wherein equity shares are unavailable, insufficient or for rebalancing in case of corporate actions for a temporary period etc. These investments would be for short period of time i.e. 7 days. Exposure towards Equity Derivatives instruments shall not exceed 20% of the net assets of the Scheme. If the exposure falls outside the above mentioned asset allocation pattern, the portfolio to be rebalanced by AMC within 7 days from the date of said deviation.	
3	Short term deposits of scheduled commercial banks	Pending deployment of funds of the Scheme in securities in terms of the investment objective of the Scheme, the AMC may park the funds of the Scheme in short term deposits of scheduled commercial banks, subject to paragraph 12.16 of the Master Circular for Mutual Funds dated June 27, 2024, as amended from time to time.	Paragraph 12.16 of the Master Circular for Mutual Funds dated June 27, 2024
4	Schemes managed by the AMC	The Scheme may also invest in other schemes managed by the AMC or in the schemes of any other Mutual Fund within the regulatory limits, provided it is in conformity with the investment objectives of the Scheme.	-

Portfolio concentration norms

Pursuant to paragraph 3.4 of the Master Circular for Mutual Funds dated June 27, 2024, the index shall comply with the following:

- a) The index shall have a minimum of 10 stocks as its constituents.
- b) No single stock shall have more than 35% weight in the index, as the index is thematic index and the Scheme is Thematic Index Scheme.
- c) The weightage of the top three constituents of the index, cumulatively shall not be more than 65% of the Index.
- d) The individual constituent of the index shall have a trading frequency greater than or equal to 80% and an average impact cost of 1% or less over previous six months.

Portfolio allocation may deviate from the asset allocation for a short-term period due to defensive considerations as per paragraph 1.14.1.2 of the Master Circular for Mutual Funds dated June 27, 2024 and as amended from time to time. Defensive considerations may be determined by the fund manager and/or AMC from time to time. In case of the said deviations, the fund manager will endeavor to rebalance the scheme within 7 calendar days from the date of such deviation.

In case of change in constituents of the index the portfolio will be rebalanced within 7 calendar days in accordance with paragraph 2.9 of the Master Circular for Mutual Funds dated June 27, 2024 and as amended from time to time. Any transactions undertaken in the scheme portfolio in order to meet the redemption and subscription obligations shall be done while ensuring that post such transactions replication of the portfolio with the index is maintained at all points of time.

Subject to the above, any change in the asset allocation affecting the investment profile of the Scheme shall be affected only in accordance with the provisions of sub regulation (15A) of Regulation 18 of the Regulations, as detailed later in this document.

Portfolio Rebalancing:

In accordance with Clause 3.6.7 of the Master Circular for Mutual Funds dated June 27, 2024, in case of change in constituents of the index due to periodic review, the portfolio will be rebalanced within 7 calendar days. Any transactions undertaken in the scheme portfolio in order to meet the redemption and subscription obligations shall be done while ensuring that post such transactions replication of the portfolio with the index is maintained at all points of time.

B. WHERE WILL THE SCHEME INVEST?

- i. Investment in Equity and Equity related instruments.
- ii. Investment in Debt and Money Market securities
- iii. Investments in Derivative Instruments
- iv. Investments in the Schemes of Mutual Fund

Please refer Section II of the document for further details for each instrument.

C. WHAT ARE THE INVESTMENT STRATEGIES?

To achieve the investment objective, the scheme will follow a passive investment strategy with investments in stocks in the same proportion as in Nifty Alpha Low Volatility 30 Index. The investment strategy would revolve around reducing the tracking error to the least possible through rebalancing of the portfolio, considering the change in weights of stocks in the index as well as the incremental collections/redemptions from the Scheme.

A small portion of the net assets will be held as cash or will be invested in debt and money market instruments permitted by SEBI/RBI including TREPS or in alternative investment for the TREPS as may be provided by the RBI, to meet the liquidity requirements under the Scheme.

However, there is no assurance that the investment objective of the Scheme will be realized and the Scheme does not assure or guarantee any returns.

- **Risk Control:**

The Scheme will invest in stocks the same weightage as the constituents of the underlying Index viz. Nifty The Scheme will invest in stocks the same weightage as the constituents of the underlying Index viz. Nifty Alpha Low Volatility 30 Index. The Scheme shall also invest in debt and money market instruments to meet the liquidity requirements.

ETF being a passive investment carries lesser risk as compared to active fund management. The portfolio follows the index and therefore the level of stock and sector concentration in the portfolio and its volatility would be similar as that of the index, subject to tracking error. This allocation will be steadily monitored and it shall be ensured that investments are made in accordance with the Scheme objective and within the regulatory and internal investment restrictions prescribed from time to time.

- **Portfolio Turnover:**

The Scheme will endeavour to keep the portfolio turnover at a minimum. However, the portfolio turnover ratio may vary as the Scheme may change the portfolio according to Asset Allocation to align itself with the objectives of the Scheme and in accordance with the composition of Nifty Alpha Low Volatility 30 Index. The effect of higher portfolio turnover could be higher brokerage and transaction costs.

- **Tracking Error:**

Tracking Error is a measure of the difference in returns from the Scheme and the returns from the underlying Index. It is computed as the standard deviation of the difference between the daily returns of the underlying benchmark Index and the NAV of the Scheme. The Fund will endeavor to keep the tracking error as low as possible. Under normal circumstances, such tracking error is not expected to exceed 2% per annum. Scheme shall disclose the tracking error based on past one year rolling data, on a daily basis, on the website of respective AMCs and AMFI.

Tracking errors are inherent in any index fund and such errors may cause the schemes to generate returns which are not in line with the performance of the Nifty Alpha Low Volatility 30 Index or one or more securities covered by / included in the Nifty Alpha Low Volatility 30 Index and may arise from a variety of factors including but not limited to:

1. Any delay in the purchase or sale of shares due to illiquidity in the market, settlement and realisation of sales proceeds, delay in credit of securities or in receipt and consequent reinvestment of dividends, etc.
2. The index reflects the prices of securities at a point in time, which is the price at close of business day on National Stock Exchange of India Limited (NSE). The scheme, however, may trade the securities at different points in time during the trading session and therefore the prices at which the scheme trades may not be identical to the closing price of each scrip on that day on the NSE.
In addition, the scheme may opt to trade the same securities on different exchanges due to price or liquidity factors, which may also result in traded prices being at variance from NSE closing prices.
3. The potential of trades to fail may result in the scheme not having acquired the security at the price necessary to mirror the index.
4. Transaction and other expenses, such as but not limited to brokerage, custody, trustee and investment management fees.
5. Being an open-ended scheme, the scheme may hold appropriate levels of cash or cash equivalents to meet on going redemptions.
6. The scheme may not be able to acquire or sell the desired number of securities due to conditions prevailing in the securities market, such as, but not restricted to circuit filters in the securities, liquidity and volatility in security prices.
7. Due to the reasons mentioned above and other reasons that may arise, it is expected that the scheme may have a tracking error not to exceed by of 2% per annum from its Benchmarks.
8. However, it needs to be clearly understood that this is just an indicative range and that the actual tracking error can be higher or lower than the range given.
9. In case of unavoidable circumstances in the nature of force majeure, which are beyond the control of the AMC, the tracking error may exceed 2% and the same will be intimated to the Trustees with corrective actions taken by the AMC, if any.

• **Tracking Difference:**

Tracking difference i.e. the annualized difference of daily returns between the index and the NAV of the Index will be disclosed on the website of the AMC and AMFI, on a monthly basis, for tenures 1 year, 3 year, 5 year, 10 year and since the date of allotment of units.

D. HOW WILL THE SCHEME BENCHMARK ITS PERFORMANCE?

The Scheme performance would be benchmarked against Nifty Alpha Low Volatility 30 Index (TRI).

Justification for use of benchmark:

As the investment in the scheme is made with the objective of achieving return commensurate with the performance of Nifty Alpha Low Volatility 30, Nifty Alpha Low Volatility 30 TRI is an appropriate benchmark for the Scheme.

The AMC may invest either directly or indirectly in the Scheme during the NFO Period and on ongoing basis in line with SEBI regulations. However, the AMC shall not charge any investment management and advisory services fee on such investments in a Scheme.

Part III- OTHER DETAILS

A. COMPUTATION OF NAV

The Net Asset Value (NAV) of the Units will be calculated on every Business Day and for such other days as may be required for the purpose for transaction of Units. The NAV shall be calculated in accordance with the following formula, or such other formula as may be prescribed by SEBI from time to time:

$$\text{NAV} = \frac{\text{Market or Fair Value of the Scheme's Investments} + \text{Receivables} + \text{Accrued Income} + \text{Other Assets} - \text{Accrued Expenses} - \text{Payables} - \text{Other Liabilities}}{\text{Number of Units Outstandings}}$$

The NAV of the Scheme will be calculated and declared upto 4 decimal places & the fourth decimal will be rounded off higher to the next digit if the fifth decimal is or more than 5 i.e., if the NAV is Rs. 10.45347 it will be rounded off to Rs. 10.4534.

Illustration of NAV: If the net assets of the Scheme, after considering applicable expenses, are Rs.10,45,34,345.34 and units outstanding are 10,00,0000, then the NAV per unit will be computed as follows: $10,45,34,345.34 / 10,00,000 = \text{Rs. } 10.4534$ per unit (rounded off to four decimals).

The Mutual Fund will ensure that the repurchase price will not be lower than 95% of the Applicable NAV.

For other details such as policies w.r.t computation of NAV, rounding off, investment in foreign securities, procedure in case of delay in disclosure of NAV etc. refer to SAI.

B. NEW FUND OFFER (NFO) EXPENSES

These expenses are incurred for the purpose of various activities related to the NFO like sales and distribution fees, marketing and advertising, registrar expenses, printing and stationery, bank charges etc. This section is not applicable as the Scheme is available for continuous Subscription and Redemption at NAV based prices.

C. ANNUAL SCHEME RECURRING EXPENSES

These are the fees and expenses for operating the Scheme. These expenses include Investment Management and Advisory Fee charged by the AMC, Registrar and Transfer Agents' fee, marketing and selling costs etc. as given in the table below:

The AMC has estimated that Upto 1.00% of the daily average net assets of the scheme will be charged to the scheme as expenses.

The total expenses may be more or less than as specified in the table below. For the actual current expenses being charged, the investor should refer to the website of the Mutual Fund. Any change in the current expense ratios will be updated on the <https://www.edelweissmf.com> and the same will be communicated to the investor via SMS / e-mail 3 Working Days prior to the effective date of change.

Expense Head	% of daily Net Assets (Estimated p.a.)
Investment Management and Advisory Fees	Upto 1.00%

Custodian fees	
Registrar & Transfer Agent Fees including cost of providing account statements / IDCW / redemption cheques/ warrants	
Marketing & Selling Expenses including Agents Commission and statutory advertisement	
Cost related to investor communications	
Cost of fund transfer from location to location	
Cost towards investor education & awareness	

Brokerage & transaction cost pertaining to distribution of units	
Goods & Services tax on expenses other than investment and advisory fees	
Goods & Services tax on brokerage and transaction cost	
Other Expenses (to be specified as per Reg 52 of SEBI MF Regulations) *	
Maximum total expense ratio (TER) permissible under Regulation 52 (6) (c)	Upto 1.00%
Additional Expenses under Regulation 52 (6A) (c)	-
Additional expenses for gross new inflows from specified cities under Regulation 52 (6A) (b)	Upto 0.30%
*Subject to the Regulations and as permitted under Regulation 52 of SEBI (MF) Regulations, 1996, any other expenses which are directly attributable to the Scheme may be charged with the approval of the Trustee within the overall limits as specified in the Regulations.	

All scheme related expenses including commission paid to distributors, by whatever name it may be called and in whatever manner it may be paid, shall necessarily be paid from the scheme only within the regulatory limits and not from the books of AMC, its associate, sponsor, trustees or any other entity through any route in terms of SEBI circulars, subject to the clarifications provided by SEBI to AMFI vide letter dated February 21, 2019 on implementation of SEBI Circular dated October 22, 2018 on Total Expense Ratio (TER) and performance disclosure for Mutual Fund

Additional Expenses under Regulation 52 (6A):

1. To improve the geographical reach of the Fund in smaller cities/towns as may be specified by SEBI from time to time, expenses not exceeding of 0.30 % p.a. of daily net assets, if the new inflows from retail investors[^] from such cities (i.e. beyond Top 30 cities*) are at least:
 - (i) 30 % of gross new inflows in the Scheme, or;
 - (ii) 15 % of the average assets under management (year to date) of the Scheme, whichever is higher.

In case the inflows from beyond Top 30 cities is less than the higher of (i) or (ii) above, such additional expenses on daily net assets of the Scheme shall be charged on proportionate basis. The expenses so charged under this clause shall be utilised for distribution expenses incurred for bringing inflows from such cities.

Further, the additional expense charged on account of new inflows from beyond Top 30 cities shall be credited back to the Scheme, in case the said inflows are redeemed within a period of 1 year from the date of investment.

[^] In line with paragraph 10.1.3 of the Master Circular for Mutual Funds dated June 27, 2024,, inflows of amount upto Rs 2,00,000/- per transaction, by individual investors shall be considered as inflows from "retail investor".

*The Top 30 cities shall mean top 30 cities based on Association of Mutual Funds in India (AMFI) data on 'AUM by Geography – Consolidated Data for Mutual Fund Industry' as at the end of the previous financial year.

Note: In line with AMFI communication no.35P/MEM-COR/85-a/2022-23 dated March 2, 2023 and SEBI letter no. SEBI/HO/IMD/IMD-SEC-3/P/OW/2023/5823/1 dated February 24, 2023, the B-30 incentive

structure is kept in abeyance from March 1, 2023, till appropriate re-instatement of incentive structure by SEBI with necessary safeguards.

2. Brokerage and transaction costs which are incurred for the purpose of execution of trade up to 0.12 per cent of trade value in case of cash market transactions and 0.05 per cent of trade value in case of derivatives transactions.

As per paragraph 10.1.14 of the Master Circular for Mutual Funds dated June 27, 2024, the brokerage and transaction cost incurred for the purpose of execution of trade may be capitalized to the extent of 0.12% for cash market transactions and 0.05% for derivatives transactions. Any payment towards brokerage and transaction cost, over and above the said 0.12% for cash market transactions and 0.05% for derivatives transactions may be charged to the scheme within the maximum limit of TER as prescribed under Regulation 52 (6) of the SEBI (MF) Regulations.

Goods and Services Tax (GST):

In addition to the expenses under Regulation 52 (6) and (6A), AMC shall charge GST as below:

1. GST on investment and advisory fees will be charged to the Scheme in addition to the maximum limit of TER as prescribed in Regulation 52 (6).
2. GST on other than investment and advisory fees, if any, will be borne by the Scheme within the maximum limit of TER as prescribed in Regulation 52 (6).
3. GST on brokerage and transaction cost paid for execution of trade, if any, shall be within the limit prescribed under Regulation 52.
4. GST on exit load, if any, shall be paid out of the exit load proceeds and exit load net of GST, if any, shall be credited to the Scheme

Notes:

- a. The Direct Plan and Options thereunder shall have a lower expense ratio excluding distribution expenses, commission, etc. and no commission for distribution of Units will be paid / charged under Direct Plan of the Scheme.
- b. Maximum Permissible expense: The maximum Total Expense Ratio (TER) that can be charged to the Scheme will be subject to such limits as prescribed under the SEBI (MF) Regulations. The said maximum TER shall either be apportioned under various expense heads as enumerated in the table above, without any sub limit or allocated to any of the said expense head(s) at the discretion of AMC. Also, the types of expenses charged shall be as per the SEBI (MF) Regulations.
- c. Investor Education and Awareness initiatives: As per Para a of the paragraph 10.1.16 of the Master Circular for Mutual Funds dated June 27, 2024, the AMC shall annually set apart at least 1 basis points p.a. (i.e. 0.01% p.a.) on daily net assets of the Scheme within the limits of total expenses prescribed under Regulation 52 of SEBI (MF) Regulations for investor education and awareness initiatives undertaken by the Fund.

The AMC may incur expenses on behalf of the Scheme which will be reimbursed on actual basis to the AMC to the extent such expenses are permissible & are within the prescribed SEBI limit.

Any change in the current expense ratios will be updated on the website viz. www.edelweissmf.com and the same will be communicated to the investor via SMS / e-mail 3 working days prior to the effective date of change.

The AMC may incur expenses on behalf of the Mutual Fund which can be reimbursed on actual basis to the AMC to the extent such expenses are permissible & are within the prescribed SEBI limit.

Illustration of impact of expense ratio on scheme's returns:

An illustration providing the impact of expense ratio on scheme return is provided below:

D. LOAD STRUCTURE

Exit Load is an amount which is paid by the investor to redeem the units from the scheme. Load amounts are variable and are subject to change from time to time.

For the current applicable structure, please refer to the website of the AMC www.edelweissmf.com or may call at our toll free number 1800 425 0090 (MTNL/BSNL) and non toll free number +91 40 23001181 for others and investors outside India or your distributor.

Applicable Load Structure

The load structure would comprise of an Entry Load and /or an Exit Load, as may be permissible under the Regulations. The current load structure is stated as under:

Type of Load	Load chargeable (as % of NAV)
Exit Load	<ul style="list-style-type: none"> • If the units are redeemed/switched out on or before 15 days from the date of allotment – 0.10% • If the units are redeemed/switched out after 15 days from the date of allotment - Nil

Units allotted on reinvestment of IDCWs shall not be subject to load.

The upfront commission shall be paid by the investor directly to the ARN Holder based on the investor's assessment of various factors including service rendered by the ARN Holder.

AMC reserves the right to revise the load structure from time to time. Such changes will become effective prospectively from the date such changes are incorporated.

Please Note that:

- Exit Load will be applicable for inter Scheme switches as well as special products under the Scheme such as switch-outs/systematic transfer between the schemes of Edelweiss Mutual Fund.
- No exit load shall be levied in case of switch of units from Edelweiss Nifty Alpha Low Volatility 30 Index Fund - Direct Plan to Edelweiss Nifty Alpha Low Volatility 30 Index Fund - Regular Plan. However, after the switch, exit load under the Scheme prevailing on the date of switch shall apply for subsequent redemptions/switch out from Edelweiss Nifty Alpha Low Volatility 30 Index Fund.
- Bonus Units and Units issued on reinvestment of IDCWs shall not be subject to exit load.
- The normal load structure will be applicable in case of Special Products (SIP/STP/SWP) unless otherwise specified.
- The AMC shall ensure the repurchase price will not be lower than 95% of the Applicable NAV.
- For any change in load structure, the AMC will issue an addendum and display it on the website/Investor Service Centres.

The investors are requested to check the prevailing load structure of the Scheme before investing.

Changing the Load Structure:

Under the Scheme, the AMC, in consultation with the Trustee, reserves the right to change the load structure if it so deems fit in the interest of investors & for the smooth and efficient functioning of the Scheme. Any imposition or enhancement in the load shall be applicable on prospective investments only. At the time of changing the load structure, the AMC shall issue a public notice in one English daily newspaper having nationwide circulation as well as in a newspaper published in the language of region where the Head Office of the Mutual Fund is situated. Unit Holders / Prospective investors will be informed of the changed / prevailing Load structures through various means of communication such as public notice and / or display at ISCs / Distributors' offices, on Account Statements, acknowledgements, investor newsletters etc. The addendum detailing the changes may be attached to Scheme Information Documents and Key Information Memorandum. The addendum may be circulated to all the distributors/brokers so that the same can be attached to all Scheme Information Documents and Key Information Memorandum already in stock. The introduction of the exit load along with the details may also be disclosed in the Account Statement issued after the introduction of such load.

I. Introduction

A. Definitions/interpretation

For detailed description please refer –

B. Risk factors

Scheme Specific Risk Factors

The performance of the Scheme may be affected by changes in Government policies, general levels of interest rates and risks associated with trading volumes, liquidity and settlement systems, etc. Some of the Risks are listed below:

1. Risk Factors Associated with Equity & Equity related instruments

The value of the Scheme's investments may be affected generally by factors affecting securities markets, such as price and volume volatility in the capital markets, etc. Settlement periods and transfer procedures may restrict the liquidity of the investments made by the Scheme. The Scheme may face liquidity risk or execution risk or redemption risk or the risk of NAV going below par.

Investments in equity and equity related securities involve a degree of risk and investors should not invest in the Scheme unless they can afford to take the risk of losing their investment. The liquidity and valuation of the Scheme's investments due to its holdings of unlisted securities may be affected if they have to be sold prior to the target date for disinvestment.

Securities which are not quoted on the stock exchanges are inherently illiquid in nature and carry a larger liquidity risk in comparison with securities that are listed on the exchanges or offer other exit options to the investors, including put options. The AMC may choose to invest in unlisted securities that offer attractive yields within the regulatory limit. This may however increase the risk of the portfolio.

At times, taking benefit of investing in Special Situations may involve certain risks like the promoter may choose not to accept the discovered prices or the Regulatory hurdles may delay any specific corporate action. For details, please refer SAI.

2. Risk factors associated with investing in Money Market Instruments:

Edelweiss Nifty Alpha Low Volatility 30 Index Fund will invest not less than 95% of its corpus in the securities representing the Nifty Alpha Low Volatility 30 Index as this Scheme endeavors to earn returns that closely correspond to the total returns represented by the Nifty Alpha Low Volatility 30 Index. The Scheme will have insignificant cash or debt/money market investments. Therefore, the scheme is not significantly susceptible to risks associated with debt/money markets. Risks associated with debt /money market instruments are as under:

- **Interest rate Risk:** Price of a fixed income instrument generally falls when the interest rates move up and vice-versa. The extent of fall or rise in the prices depends upon the coupon and maturity of the security. It also depends upon the yield level at which the security is being traded. The NAV of the Scheme is expected

to increase from a fall in interest rates while it would be adversely affected by an increase in the level of interest rates.

- **Spread Risk:** In a floating rate security the coupon is expressed in terms of a spread or mark up over the benchmark rate. In the life of the security this spread may move adversely leading to loss in value of the portfolio. The yield of the underlying benchmark might not change, but the spread of the security over the underlying benchmark might increase leading to loss in value of the security.
- **Credit risk or default Risk:** Credit risk is the risk that the issuer of a debenture/ bond or a money market instrument may default on interest and/or principal payment obligations. Even when there is no default, the price of a security may change with expected changes in the credit rating of the issuer. It is to be noted here that a Government Security is a sovereign security and is the safest. Corporate bonds carry a higher amount of credit risk than Government Securities. Within corporate bonds also there are different levels of safety and a bond rated higher by a particular rating agency is safer than a bond rated lower by the same rating agency.
- **Liquidity & Settlement Risk:** The liquidity of a fixed income security may change, depending on market conditions leading to changes in the liquidity premium attached to the price of such securities. At the time of selling the security, the security can become illiquid, leading to loss in value of the portfolio. Different segments of the financial markets have different settlement cycle/periods and such settlement cycle/periods may be impacted by unforeseen circumstances, leading to Settlement Risk. This can adversely affect the ability of the Fund to swiftly execute trading strategies which can lead to adverse movements in NAV.
- **Reinvestment Risk:** Interest rates may vary from time to time. The rate at which intermediate cash flows are reinvested may differ from the original interest rates on the security, which can affect the total earnings from the security.
- **Performance Risk:** Performance of the Scheme may be impacted with changes in factors, which affect the capital market and in particular the debt market.
- **Prepayment Risk:** The Scheme may receive payment of monthly cashflows earlier than scheduled, which may result in reinvestment risk.
- **Market Risk:** Lower rated or unrated securities are more likely to react to developments affecting the market as they tend to be more sensitive to changes in economic conditions than higher rated securities

3. Risk Factors associated with the Scheme:

a. Passive Investments:

As the scheme proposes to invest not less than 95% of the net assets in the securities of the benchmark Index, the Scheme will not be actively managed. The Scheme may be affected by a general decline in the Indian markets relating to its Underlying Index. The Scheme invests in the securities included in its underlying index regardless of their investment merit. The AMC does not attempt to individually select stocks or to take defensive positions in declining markets.

b. Tracking Error Risk:

Tracking Error and Tracking difference is to measure divergence of the performance (return) of the Fund's portfolio from that of the Underlying Index. Tracking error / Tracking difference are inherent in any index fund and such errors may cause the schemes to generate returns which are not in line with the performance of the Nifty Alpha Low Volatility 30 Index or one or more securities covered by / included in the Nifty Alpha Low Volatility 30 Index. That said, the risk parameters of the portfolio of the Scheme and underlying index would be similar. Tracking Error / Tracking Difference may arise from a variety of factors including but not limited to:

1. Any delay in the purchase or sale of shares due to illiquidity in the market, settlement and realisation of sales proceeds, delay in credit of securities or in receipt and consequent reinvestment of dividends, etc.
2. The index reflects the prices of securities at a point in time, which is the price at close of business day on National Stock Exchange of India Limited (NSE). The scheme, however, may trade the securities at different points in time during the trading session and therefore the prices at which the scheme trades may not be identical to the closing price of each scrip on that day on the NSE. In addition, the scheme may opt to trade the same securities on different exchanges due to price or liquidity factors, which may also result in traded prices being at variance from NSE closing prices.
3. The potential of trades to fail may result in the scheme not having acquired the security at the price necessary to mirror the index.
4. Transaction and other expenses, such as but not limited to brokerage, custody, trustee and investment management fees.
5. Being an open-ended scheme, the scheme may hold appropriate levels of cash or cash equivalents to meet on going redemptions.
6. The scheme may not be able to acquire or sell the desired number of securities due to conditions prevailing in the securities market, such as, but not restricted to circuit filters in the securities, liquidity and volatility in security prices.
7. Due to the reasons mentioned above and other reasons that may arise, it is expected that the scheme may have a tracking error not to exceed by of 2% per annum from its Benchmarks.
8. However, it needs to be clearly understood that this is just an indicative range and that the actual tracking error can be higher or lower than the range given.

4. Risk factors associated with Derivatives:

Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the Fund Manager to identify such opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and decision of fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies.

The risks associated with the use of derivatives are different from or possibly greater than, the risks associated with investing directly in securities and other traditional investments.

The Fund may use derivatives instruments like equity futures & options, or other derivative instruments as permitted under the Regulations and Guidelines. The scheme will be using non-hedging strategy.

Common risk associated with Trading in derivatives:

- a. Exposure risk: An exposure to derivatives can lead to losses. Derivatives carry the risk of adverse changes in the market price.

- b. Illiquidity Risk i.e. risk that a derivative trade may not be executed or reversed quickly enough at a fair price, due to lack of liquidity in the market.
- c. Execution Risk - The prices which are seen on the screen need not be the same at which execution will take place.
- d. Mark to Market Risk - There could be a market to market loss that would arise and additional margin may need to be provided for the same.
- e. Basis Risk - In extraordinary circumstances, the Fund Manager may have to unwind positions before the expiry at a basis which may be higher than the initiation basis to meet redemptions. Premature unwinding of the position might result in the locked-in profits not getting realized.
- f. Tracking Error Risk - Corporate actions such as demergers might result in the weights of the index stocks to change. This might lead to a tracking error affecting the returns to a certain extent.

5. Risks Associated with exposure in Tri-party Repo

Risk of exposure in the Tri-party Repo settlement Segment provided by CCIL emanates mainly on two counts –

- a. Risk of failure by a lender to meet its obligations to make funds available or by a borrower to accept funds by providing adequate security at the settlement of the original trade of lending and borrowing under Triparty Repo transaction.
- b. Risk of default by a borrower in repayment.

6. Risks Associated with segregated portfolio

- 1) Unit holder holding units of Segregated Portfolio may not able to liquidate their holdings till the recovery of money from the issuer.
- 2) Portfolio comprising of Segregated Portfolio may not realise any value or may have to be written down.
- 3) Listing of units of Segregated Portfolio in recognised stock exchange does not necessarily guarantee their liquidity. There may not be active trading of units in the stock market. Further trading price of units on the stock market may be significantly lower than the prevailing NAV.

7. Risks associated with Securities Lending:

It may be noted that this activity would have the inherent probability of collateral value drastically falling in times of strong downward market trends, rendering the value of collateral inadequate until such time as that diminution in value is replenished by additional security. It is also possible that the borrowing party and/or the approved intermediary may suddenly suffer severe business setback and become unable to honor its commitments. This, along with a simultaneous fall in value of collateral would render potential loss to the Scheme. Besides, there is also be temporary illiquidity of the securities that are lent out and the scheme will not be able to sell such lent out securities until they are returned.

As with other modes of extensions of credit, there are risks inherent to securities lending, including the risk of failure of the other party, in this case the approved intermediary, to comply with the terms of the agreement entered into between the lender of securities i.e. the scheme and the approved intermediary. Such failure can result in the possible loss of rights to the collateral put up by the borrower of the securities, the inability of the approved intermediary to return the securities deposited by the lender and the possible loss of any corporate benefits accruing to the lender from the securities deposited with the approved intermediary.

For further details please refer SAI.

C. Risk mitigation Strategies

The Fund has designed a detailed process to identify, measure, monitor and manage the portfolio risk. The aim is not to eliminate the risk completely but to have a structured mechanism towards risk management thereby maximizing potential opportunities and minimize the adverse effects of risk. Few of the key risks identified are:

Risk associated with Equity and equity related instruments:

Risk & Description specific to the Scheme	Risk mitigants / Management Strategy
Market Risk The value of the Scheme's investments, may be affected generally by factors affecting securities markets, such as price and volume, volatility in the capital markets, interest rates, currency exchange rates, changes in policies of the Government, taxation laws or any other appropriate authority policies and other political and economic developments which may have an adverse bearing on individual securities, a specific sector or all sectors including equity and debt markets.	Market risk is a risk which is inherent to an equity scheme. Understand the working of the markets and respond effectively to market movements. The scheme may use derivatives to limit this risk.
Concentration risk Risk arising due to over exposure in few securities	Equity exposure to replicate Index
Liquidity risk The liquidity of the Scheme's investments is inherently restricted by trading volumes in the securities in which it invests.	Control portfolio liquidity at portfolio construction stage. Having optimum mix of cash & cash equivalents along with the money market instruments in the portfolio. The fund will try to maintain a proper asset-liability match to ensure redemption payments are made on time and not affected by illiquidity of the underlying stocks.
Derivatives Risk Derivatives require the maintenance of adequate controls to monitor the transactions entered into, the ability to assess the risk that a derivative adds to the portfolio and the ability to forecast price or interest rate movements correctly. There is the possibility that a loss may be sustained by the portfolio as a result of the failure of another party (usually referred to as the "counter party") to comply with the terms of the derivatives contract. Other risks in using derivatives include the risk of mis-pricing or improper valuation of derivatives and the inability of derivatives to correlate perfectly with underlying assets, rates and indices.	The fund has provision for using derivative instruments for portfolio balancing and hedging purposes. Investments in derivative instruments will be used as per local (RBI and SEBI) regulatory guidelines. The fund will endeavor to maintain adequate controls to monitor the derivatives transactions entered into.

Risk associated with Debt and money market instruments:

Risk & Description specific to the Scheme	Risk mitigants / Management Strategy
Market Risk Changes in interest rates may affect the Scheme's Net Asset Value as the prices of securities generally increase as interest rates decline and generally decrease as interest rates rise. Prices of long-term securities generally fluctuate more in response to interest rate changes than do short-term securities. Indian debt markets can be volatile leading to the possibility of price movements up or down in fixed income securities and thereby to possible movements in the NAV.	Fund Managers will periodically monitor the portfolio structure with respect to the existing interest rate scenario. Exposure to Debt and Money market instruments will be in the form of TREPs and other liquid assets.
Concentration risk Risk arising due to over exposure in few securities	Equity exposure to replicate Index. Exposure to Debt and Money market instruments will be in the form of TREPs and other liquid assets.
Liquidity risk The primary measure of liquidity risk is the spread between the bid price and the offer price quoted by a dealer. Liquidity risk is today characteristic of the Indian fixed income market.	The fund will endeavor to minimise liquidity risk by investing in securities having a liquid market. Exposure to Debt and Money market instruments will be in the form of TREPs and other liquid assets.
Credit Risk The value of a fixed income security will fluctuate depending upon the changes in the perceived level of credit risk as well as any actual event of default.	Detailed evaluation of issuers will be done. Investments will be done on high credit quality securities. Exposure to Debt and Money market instruments will be in the form of TREPs and other liquid assets.
Reinvestment Risk The rate at which interim cash flows can be reinvested may be lower than that originally assumed.	Reinvestment risks will be limited to the extent of coupons received on debt instruments, which will be a very small portion of the portfolio value. Exposure to Debt and Money market instruments will be in the form of TREPs and other liquid assets.

II. Information about the Scheme:

A. Where will the scheme invest?

i) Equity and Equity related instruments:

The Scheme shall invest in stocks which are constituents of the underlying Index viz. Nifty Alpha Low Volatility 30 Index (TRI) in the same proportion as the Index.

ii) Debt and Money Market securities:

The Scheme shall invest in a range of Debt & Money Market Instruments to meet liquidity and expense requirements. Some of these instruments are:

- a. Securities created and issued by Governments of India and/or repos/ reverse repos in such Government Securities as may be permitted by RBI (including but not limited to coupon bearing bonds, zero coupon bonds and treasury bills).
- b. Securities guaranteed by the Central and State Governments (including but not limited to coupon bearing bonds, zero coupon bonds and treasury bills).
- c. Corporate debt securities and repo in corporate debt Securities (of both public and private sector undertakings) including Bonds, Debentures, Notes, etc.
- d. Money market instruments permitted by SEBI/RBI, having maturities upto one year and call money market or in alternative investment for the call money market as may be provided by the RBI to meet the liquidity requirements.
- e. Any other domestic fixed income securities.
- f. Any other like instruments as may be permitted by RBI/SEBI/ such other Regulatory Authority from time to time.

The above-mentioned securities could be listed, unlisted, secured, unsecured, and may be acquired through primary, secondary market offerings, private placements, rights offer etc. Further, investments in debentures, bonds and other fixed income securities will usually be in instruments, which have been assigned investment grade ratings by an approved rating agency.

iii) Derivative Instruments:

The Scheme may invest in Derivative Instruments to the extent permitted under paragraph 7.5 and 12.25 of the Master Circular for Mutual Funds dated June 27, 2024, on 'Trading by Mutual Funds on Exchange Traded Derivatives' as amended from time to time. Derivative products are specialized instruments that require investment techniques and risk analysis different from those associated with stocks and bonds. The use of derivatives requires an understanding not only of the underlying instrument but also of the derivative instruments itself. The Scheme may use derivative instruments such as index futures and options, stock futures and options contracts, warrants, convertible securities, swap or forward rate agreements or any other derivative instruments that are permissible or may be permissible in future under applicable regulations and such investments shall be in accordance with the investment objective of the Scheme.

Index futures/options are meant to be an efficient way of buying/selling an index compared to buying/selling a portfolio of physical shares representing an index for ease of execution and settlement. Index futures/options can be an efficient way of achieving the Scheme's investment objective. Notwithstanding the pricing, they can help in reducing the Tracking Error in the Scheme. Index futures/options may avoid the need for trading in individual components of the index, which may not be possible at times, keeping in mind the circuit filter system

and the liquidity in some of the individual stocks. Index futures/options can also be helpful in reducing the transaction costs and the processing costs on account of ease of execution of one trade compared to several trades of shares comprising the Underlying Index and will be easy to settle compared to physical portfolio of shares representing the Underlying Index. In case of investments in index futures/options, the risk/reward would be the same as investments in portfolio of shares representing an index. However, there may be a cost attached to buying an index future/option. Further, there could be an element of settlement risk, which could be different from the risk in settling physical shares. This settlement risk is likely to be minimized if the exchange acts as the clearing corporation and the counter party, as is the practice in the developed markets. The Scheme will not maintain any leveraged or trading positions.

iv) Schemes of Mutual Fund:

The Scheme may invest in units of money market/liquid Schemes managed by the AMC, provided it is in conformity with the investment objectives of the Scheme and in terms of the prevailing SEBI Regulations. As per SEBI Regulations, no Investment Management fees will be charged for such investments and the aggregate inter Scheme investment made by all Schemes in the schemes of the Mutual Fund shall not exceed 5% of the Net Asset Value of the Mutual Fund.

B. What are the investment restrictions?

The investment policy of the Scheme complies with the rules, regulations and guidelines laid out in SEBI (Mutual Funds) Regulations, 1996. As per the Regulations, specifically the Seventh Schedule, the following investment limitations are currently applicable:

1. All the investments by Scheme shall be made only in listed equity shares and equity related securities.
2. Investments by the Scheme shall be in accordance with the weightage of the scrips in the specific index as disclosed in the SID.
3. The Scheme shall adhere to following limits for investments in Debt and Money Market Instruments issued by a single issuer:

Credit Rating	Maximum Limit (% of net assets)
AAA	10
AA (including AA+ and AA-)	8
A (including A+) & below	6

The above limits may be extended by up to 2% of the NAV of the Scheme with prior approval of the Board of Trustees and AMC, subject to compliance with the overall 12% limit.

Provided that such limits shall not be applicable for investments in Government Securities, treasury bills, and Triparty Repo on G-Secs & T-Bills.

Considering the nature of the Scheme, investments in such instruments will be permitted upto 5% of its NAV.

4. No Mutual Fund under all its schemes should own more than 10% of any company's paid-up capital carrying voting rights.
5. The Mutual Fund under all its Scheme will not own more than 10% of any Company's paid-up capital carrying voting rights.
6. Transfer of investments from one scheme to another scheme in the Mutual Fund is permitted provided:
 - Such transfers are done at the prevailing market price for quoted instruments on spot basis (spot basis shall have the same meaning as specified by a Stock Exchange for spot transactions); and
 - The securities so transferred shall be in conformity with the investment objective of the Scheme to which such transfer has been made.

Transfer of investments from one scheme to another scheme in the Mutual Fund is permitted provided the same are in line with paragraph 12.30 of the Master Circular for Mutual Funds dated June 27, 2024.

7. The Scheme may invest in other Schemes of the AMC or any other Mutual Fund without charging any fees, provided the aggregate inter-Scheme investment made by all the Schemes under the same management or in Schemes under management of any other Asset Management Company shall not exceed 5% of the Net Asset Value of the Fund. No investment management fees shall be charged for investing in other schemes of the fund or in the schemes of any other Mutual Fund.
8. The Scheme shall buy and sell securities on the basis of deliveries and shall in all cases of purchases, take delivery of relevant securities and in all cases of sale, deliver the securities:

Provided that the Mutual Fund may engage in short selling of securities in accordance with the framework relating to short selling and securities lending and borrowing specified by the Board.

Provided further that sale of government security already contracted for purchase shall be permitted in accordance with the guidelines issued by the Reserve Bank of India in this regard. Further, the Mutual Fund may enter into derivatives transactions in a recognized stock exchange, subject to the framework specified by the Board.

9. The Fund shall get the securities purchased or transferred in the name of the Fund on account of the concerned Scheme, wherever investments are intended to be of a long-term nature.
10. The Scheme shall not make any investment in any fund of funds scheme.
11. The Scheme shall not make any investment in:
 - a) Any unlisted security of an associate or group company of the Sponsor; or
 - b) Any security issued by way of private placement by an associate or group company of the Sponsor; or
 - c) The listed securities of group companies of the Sponsor, which is in excess of 25% of the net assets of the Scheme of the Fund.
12. No loans for any purpose shall be advanced by the Scheme

13. The Fund shall not borrow except to meet temporary liquidity needs of the Fund for the purpose of repurchase / redemption of Units or payment of interest and IDCW to the Unit holders. Provided that the Fund shall not borrow more than 20% of the net assets of the Scheme and the duration of the borrowing shall not exceed a period of 6 months.
14. Pending deployment of funds of the Scheme in securities in terms of the investment objectives of the Scheme, the Fund may invest the funds of the Scheme in short term deposits of scheduled commercial banks or in like instruments subject to the Guidelines as may be specified by the Board. Further, the AMC shall not charge investment management and advisory fees for parking of funds in short term deposits of scheduled commercial banks.

Further as per paragraph 12.16 of the Master Circular for Mutual Funds dated June 27, 2024:

- a. Total investment of the Scheme in Short term deposit(s) of all the Scheduled Commercial Banks put together shall not exceed 15% of the net assets. However, this limit can be raised upto 20% of the net assets with prior approval of the Board of Trustees. Further, investments in Short Term Deposits of associate and sponsor scheduled commercial banks together shall not exceed 20% of total deployment by the Mutual Fund in short term deposits.
- b. Scheme shall not invest more than 10% of the net assets in short term deposit(s), of any one scheduled commercial bank including its subsidiaries.
- c. Scheme shall not invest in short term deposit of a bank which has invested in that Scheme
- d. The Scheduled Commercial Banks in which a scheme has Short Term Deposits shall not invest in the Scheme until the Scheme has Short Term Deposits with such bank.

Further as per paragraph 12.16.1.9 of the Master Circular for Mutual Funds dated June 27, 2024, it is clarified that the said limits shall not apply to term deposits placed as margins for trading in cash and derivatives market.

The investments in short term deposits of scheduled commercial banks will be reported to the Board of Trustees along with the reasons for the investment which, interalia, would include comparison with the interest rates offered by other scheduled commercial banks. Further, the AMC shall ensure that the reasons for such investments are recorded in the manner prescribed in paragraph 12.16.1.8 of the Master Circular for Mutual Funds dated June 27, 2024.

15. Investments in derivatives shall be in lines with the norms/restrictions specified in paragraph 12.25 of the Master Circular for Mutual Funds dated June 27, 2024.
16. The Scheme will comply with any other regulations applicable to the investments of Mutual Funds from time to time.

Investments Limitations and Restrictions in Derivatives:

In accordance with SEBI guidelines, the following conditions shall apply to the Scheme's participation in the derivatives market. Please note that the investment restrictions applicable to the Scheme's participation in the derivatives market will be as prescribed or varied by SEBI or by the Trustees (subject to SEBI requirements) from time to time.

Position limit for the Fund in index options contracts:

The position limit for the Mutual Fund in index options contracts shall be as follows:

- The Fund's position limit in all index options contracts on a particular underlying index shall be Rs. 500 Crores or 15% of the total open interest of the market in index options, whichever is higher, per Stock Exchange.
- This limit would be applicable on open positions in all options contracts on a particular underlying index.

Position limit for the Fund in index futures contracts:

The position limit for the Mutual Fund in index futures contracts shall be as follows:

- The Fund's position limit in all index futures contracts on a particular underlying index shall be Rs. 500 Crores or 15% of the total open interest of the market in index futures, whichever is higher, per Stock Exchange.
- This limit would be applicable on open positions in all futures contracts on a particular underlying index.

Additional position limit in index derivatives for hedging of the Fund:

In addition to the position limits above, the Fund may take exposure in equity index derivatives subject to the following limits:

- Short positions in index derivatives (short futures and long puts) shall not exceed (in notional value) the Fund's holding of stocks.
- Long positions in index derivatives (long futures and long calls) shall not exceed (in notional value) the Fund's holding of cash, government securities, T-Bills and similar instruments.

Position limit for the Fund for stock based derivative contracts:

The position limit for the Mutual Fund in a derivative contract on a particular underlying stock, i.e. stock option contracts and stock futures contracts shall be as follows:

- For stocks having an applicable market-wise position limit (MWPL) of Rs. 500 Crores or more, the combined futures and options position limit shall be 20% of applicable MWPL or Rs. 300 Crores, whichever is lower and within which stock futures position cannot exceed 10% of applicable MWPL or Rs. 150 Crores, whichever is lower.
- For stocks having an applicable market-wise position limit (MWPL) less than Rs. 500 Crores, the combined futures and options position limit would be 20% of applicable MWPL and futures position cannot exceed 20% of applicable MWPL or Rs. 50 Crores whichever is lower.

Position limit for the Scheme:

The position limit / disclosure requirements for the Scheme shall be as follows:

- For stock option and stock futures contracts, the gross open position across all derivative contracts on a particular underlying stock of the Scheme shall not exceed the higher of:
1% of the free float market capitalization (in terms of number of shares) OR
5% of the open interest in the derivative contracts on a particular underlying stock (in terms of number of contracts (Shares)).
- For index based contracts, the Fund shall disclose the total open interest held by its Scheme or all Schemes put together in a particular underlying index, if such open interest equals to or exceeds 15% of the open interest of all derivative contracts on that underlying index.

These position limits shall be applicable on the combined position in all derivative contracts on an underlying stock at a stock exchange.

Exposure Limit:

1. The cumulative gross exposure through equity, debt and derivative positions should not exceed 100% of the net assets of the Scheme.
2. The Scheme shall not write options or purchase instruments with embedded written options.
3. The total exposure related to option premium paid shall not exceed 20% of the net assets of the Scheme.
4. Cash or cash equivalent instruments under the Scheme, with residual maturity of less than 91 days shall be treated as not creating any exposure.
5. Exposure due to hedging positions may not be included in the above mentioned limits subject to the following:
 - a. Hedging positions are the derivative positions that reduce possible losses on an existing position in securities and till the existing position remains.
 - b. Hedging positions cannot be taken for existing derivative positions. Exposure due to such positions shall have to be added and treated as exposure while calculating cumulative gross exposure.
 - c. Any derivative instrument used to hedge shall have the same underlying security as the existing position being hedged.
 - d. The quantity of underlying associated with the derivative position taken for hedging purposes does not exceed the quantity of the existing position against which hedge has been taken.

The Scheme shall enter into plain vanilla interest rate swaps for hedging purposes. The counter party in such transactions shall be an entity recognized as a market maker by RBI. Further, the value of the notional principal in such cases will not exceed the value of respective existing assets being hedged by the Scheme. Exposure to a single counterparty in such transactions should not exceed 10% of the net assets of the Scheme.

6. Exposure due to derivative positions taken for hedging purposes in excess of the underlying position against which the hedging position has been taken, shall be included while calculating cumulative gross exposure.
7. Each position taken in derivatives shall have an associated exposure as defined under. Exposure is the maximum possible loss that may occur on a position. However, certain derivative positions may theoretically have unlimited possible loss. Exposure in derivative positions shall be computed as follows:

Position	Exposure
Long Future	Futures Price * Lot Size * Number of Contracts
Short Future	Futures Price * Lot Size * Number of Contracts
Option bought	Option Premium Paid * Lot Size * Number of Contracts.

The Trustee may alter the above restrictions from time to time to the extent that changes in the Regulations may allow and as deemed fit in the general interest of the Unit Holders.

These investment restrictions shall be applicable at the time of investment and changes do not have to be effected merely because, owing to appreciations or depreciations in value, or by reason of the receipt of any

rights, bonuses or benefits in the nature of capital or of any Schemes of arrangement or for amalgamation, reconstruction or exchange, or at any repayment or redemption or other reason outside the control of the Fund, any such limits would thereby be breached. If these limits are exceeded for reasons beyond its control, AMC shall as soon as possible take appropriate corrective action, taking into account the interests of the Unit holders.

In addition, certain investment parameters may be adopted internally by AMC, and amended from time to time, to ensure appropriate diversification / security for the Fund. The Trustee Company / AMC may alter these above stated limitations from time to time, and also to the extent the SEBI (Mutual Funds) Regulations, 1996 change, so as to permit the Schemes to make its investments in the full spectrum of permitted investments for Mutual Funds to achieve its investment objective. As such all investments of the Schemes will be made in accordance with SEBI (Mutual Funds) Regulations, 1996, including Schedule VII thereof.

D. INDEX METHODOLOGY:

About the Index:

Nifty Alpha Low - Volatility 30 Index is designed to reflect the performance of a portfolio of stocks selected based on top combination of Alpha and Low Volatility. It intends to counter the cyclicity of single factor index strategy and provides investors a choice to take exposure to multiple factors through a single index product. The Index consists of 30 stocks selected from NIFTY 100 and NIFTY Midcap 50.

- All constituents forming part of NIFTY 100 and NIFTY Midcap 50 at the time of review are eligible for inclusion in the index.
- Stocks should be available for trading in derivative segment (F&O). Constituents should have a minimum listing history of 1 year.
- Index consist of well diversified portfolio of 30 stocks selected based on combination of 2 factors – Alpha[^] and Low-Volatility^{^^}.
- Stock selection and weights are derived from factor scores resulting in portfolio capturing the essence of underlying factor dynamics.
- Stock weights are capped at the lower of 5% or 5 times the weight of the stock in the index based only on free float market capitalization.

^Alpha Factor –

Alpha Z score is calculated for all securities on the basis of Jensen's Alpha based on previous 1-year prices, where market portfolio is NIFTY 50 Calculation of Alpha: $\alpha_s = r_s - [r_f + \beta_s (r_m - r_f)]$ α_s : Alpha of the stock r_s : Average of daily return of security during previous 12 months r_f : Average of daily 3 Month MIBOR rate during

previous 12 months rm : Average of daily return of index i.e. NIFTY 50 β s : Beta of the security calculated based on previous 12 month period.

^^Low Volatility Factor –

Low Volatility Z score is calculated using the inverse of Std. deviation based on previous 1-year prices returns.

G Other Scheme Specific Disclosures:

Listing and transfer of units	<p>The Scheme is an open-ended scheme, sale and repurchase will be made on a continuous basis and therefore the Units of the Scheme are presently not proposed to be listed on any stock exchange. However, the Fund may at its sole discretion list the Units under the Scheme on one or more Stock Exchanges at a later date, and thereupon the Fund will make a suitable public announcement to that effect.</p> <p>Units of the Scheme, which are held in dematerialized (demat) form, are freely transferable under the depository system in accordance with the provisions of SEBI (Depositories and Participants) Regulations, 1996. However, for Units of the Scheme held on physical form the AMC shall, on production of instrument of transfer together with relevant unit certificates, register the transfer and return the unit certificate to the transferee within 30 days from the date of such production. The cost of stamp duty paid for issuing the unit certificate in case of a transfer or otherwise will form part of the annual on-going expenses and/or may be recovered from the unit holder(s).</p>
Dematerialization of units	<p>The Unit holders will have an Option to hold the units by way of an Account Statement or in Dematerialized ('Demat') form. Unit holders opting to hold the units in Demat form must provide their Demat Account details in the specified section of the application form. The Applicant intending to hold the units in Demat form are required to have a beneficiary account with a Depository Participant (DP) registered with NSDL / CDSL and will be required to indicate in the application the DP's name, DP ID Number and the Beneficiary Account Number of the applicant held with the DP at the time of purchasing Units. Unit holders are requested to note that request for conversion of units held in Account Statement (non-demat) form into Demat (electronic) form or vice versa should be submitted to their Depository Participants.</p> <p>In case Unit holders do not provide their demat account details or the demat details provided in the application form are incomplete / incorrect or do not match with the details with the Depository records, the Units will be allotted in account statement mode provided the application is otherwise complete in all respect and accordingly an account statement shall be sent to them.</p>

	<p>In case of Investors investing through SIP facility and opting to hold the Units in Demat form, the units will be allotted based on the Applicable Net Asset Value (NAV) and the same will be credited to investor's Demat Account on weekly basis on realization of funds.</p> <p>The AMC shall issue units in dematerialized form to a unit holder in a scheme within two Working Days of the receipt of request from the unit holder.</p>
