- d. The individual constituent of the index shall have a trading frequency greater than or equal to 80% and an average impact cost of 1% or less over the previous six months.

The updated constituents of the Indices shall be available on the website of such ETF/Index Fund issuers at all points of time.

Pending deployment of the funds in securities in terms of investment objective of the Scheme, the AMC may park the funds of the Scheme in short term deposits of the Scheduled Commercial Banks, in terms of clause 12.16, 12.16.1.6, 12.16.1.8 and 12.16.1.9 of SEBI Master Circular dated June 27, 2024.

Tracking Error: In accordance with clause 3.6.3.1 of SEBI Master Circular dated June 27, 2024, the tracking error i.e. the annualized standard deviation of the difference in daily returns between the underlying index or goods and the NAV of the Scheme based on past one year rolling data shall not exceed 2%. In case of unavoidable circumstances in the nature of force majeure, which are beyond the control of the AMCs, the tracking error may exceed 2% and the same shall be brought to the notice of Trustees with corrective actions taken by the AMC, if any. The same shall be disclosed on a daily basis on the websites of AMC and AMFI. The Scheme shall disclose the tracking error based on past one year rolling data, on a daily basis, on the website of respective AMCs and AMFI.

Tracking Difference: In accordance with clause 3.6.3.2 of SEBI Master Circular dated June 27, 2024, The annualized difference of daily returns between the index and the NAV of the Scheme. The same shall be disclosed on a monthly basis on the websites of AMC and AMFI. The Scheme, in general, will hold all of the securities that comprise the Underlying Index in the same proportion as the index. Expectation is that, over time, the tracking error of the Scheme relative to the performance of the Underlying Index will be relatively low. The Investment Manager would monitor the tracking error of the Scheme on an ongoing basis and would seek to minimize tracking error to the maximum extent possible. There can be no assurance or guarantee that the Scheme will achieve any particular level of tracking error relative to the performance of the Underlying Index.

Changes in Investment Pattern:

Rebalancing due to Passive Breaches

Pursuant to clause 3.6.7 of SEBI Master Circular dated June 27, 2024, and circulars issued thereunder In case of change in constituents of the index due to periodic review, the portfolio of equity ETF/ Index Funds be rebalanced within 7 calendar days.

Any transactions undertaken in the scheme portfolio of ETF/ Index Fund in order to meet the redemption and subscription obligations shall be done while ensuring that post such transactions replication of the portfolio with the index is maintained at all points of time.

Rebalancing due to Short term defensive consideration

Subject to clause 1.14.1.2 of SEBI Master Circular dated June 27, 2024, and circulars issued thereunder, the asset allocation pattern indicated above may change for a short-term period on defensive considerations, keeping in view market conditions, market opportunities, applicable regulations and political and economic factors. These proportions may vary depending upon the perception of the Fund Manager, the intention being at all times to seek to protect the interests of the Unit holders. Such changes in the investment pattern will be rebalanced within 7 calendar days from the date of deviation and further action may be taken as specified under SEBI Circulars/ AMFI guidelines issued from time to time.

Rebalancing in case of involuntary corporate action.

In the event of involuntary corporate action, the scheme shall dispose the security not forming part of the underlying index within 7 days from the date of allotment/ Listing.

In case of any breaches in asset allocation, the norms as specified in paragraph 2.9 and 3.5.3.11 of SEBI Master circular on Mutual Funds dated June 27, 2024 shall be applicable.

B. WHERE WILL THE SCHEME INVEST?

The corpus of the Scheme will be invested in Equity and equity related instruments, debt, money market instruments and other permitted instruments, which will include but not limited to:

Equity and Equity Related Instruments:

1. Equity Shares.
2. Equity related instruments like;
 - Convertible bonds and debentures, convertible preference shares and warrants carrying the right to obtain equity shares.
 - Derivative instruments like options and futures on equity securities / indices.
3. TREPS, Listed debt or money market securities, in accordance with Seventh Schedule to the SEBI (Mutual Funds) Regulations, and other guidelines/circulars as may be amended from time to time.

The Fund Manager reserves the right to invest in such securities as maybe permitted from time to time and which are in line with the investment objectives of the Scheme.

Please refer **Section II** of the document for further details for each instrument.

C. WHAT ARE THE INVESTMENT STRATEGIES?

EQUITY INVESTMENT STRATEGY

The investment objective of the scheme is to achieve return equivalent to Nifty 500 Multicap 50:25:25 Index by investing in stocks of companies comprising the Index. The Scheme endeavors to invest in stocks in proportion to the weightages of these stocks in the Nifty 500 Multicap 50:25:25 Index. The fund will, in general invest a significant part of its corpus in equities; the surplus amount of the fund, not exceeding 5% shall be invested in Cash/Tri-Party Repo, Repo in corporate debt securities & Money Market instruments.

The performance of the Scheme may not be commensurate with the performance of the respective benchmark of the Schemes on any given day or over any given period. Such variations are commonly referred to as the tracking error. The Scheme intends to maintain a low tracking error by actively managing the portfolio in line with the index.

However, there is no assurance that all such buying and selling activities would necessarily result in benefit for the Fund.

The risk control process involves reducing risks through portfolio diversification. This diversification would help achieve the desired level of consistency in returns. The AMC aims to identify securities, which offer

superior levels of yield at lower levels of risks. There would be regular rebalancing of the portfolio, taking into account the change in weights of stocks in the Index.

Navi Nifty 500 Multicap 50:25:25 Index Fund being a passive investment carries lesser risk as compared to active fund management. The portfolio follows the index and therefore the level of stock concentration in the portfolio and its volatility would be the same as that of the index, subject to tracking error. Thus, there is no additional element of volatility or stock concentration on account of fund manager decisions.

While these measures are expected to mitigate the above risks to a large extent, there can be no assurance that these risks would be completely eliminated.

EQUITY DERIVATIVE INSTRUMENTS:

Equity derivative instrument include but are not limited to futures (both stock and index) and options (stock and index).

Derivatives are financial contracts of pre-determined fixed duration, like stock Futures/options and index futures and options, whose values are derived from the value of an underlying primary financial instrument such as: interest rates, exchange rates, commodities, and equities.

Derivatives can be either exchange traded or can be over the counter (OTC). Exchange traded derivatives are listed and traded on stock exchanges whereas OTC derivative transactions are generally structured between two counterparties. The risks associated with derivatives are similar to those associated with equity investments. The additional risks could be on account of:

1. Illiquidity
2. Potential mis - pricing of the Futures / Options
3. Inability of derivatives to correlate perfectly with the underlying (Indices, Assets, Exchange Rates)
4. Cost of hedge can be higher than adverse impact of market movements.
5. An exposure to derivatives in excess of the hedging requirements can lead to losses.
6. An exposure to derivatives can also limit the profits from a genuine investment transaction.

Exchange traded derivative contracts in stocks and indices in India are currently cash settled at the time of maturity/ expiry.

For detailed derivative strategies, please refer to **SAI**.

Portfolio Turnover:

Portfolio Turnover is defined as the aggregate of purchases and sales as a percentage of the corpus during the specified period of time. Portfolio Turnover is a term used to measure the volume of trading that occurs in a Scheme's portfolio during a given time period. Navi Nifty 500 Multicap 50-25-25 Index Fund is a passively managed open-ended index scheme. It is therefore expected that there would be a number of subscriptions and redemptions on a daily basis. Generally, turnover will depend upon the extent of purchase and redemption of units and the need to rebalance the portfolio on account of change in the composition, if any, and corporate actions of securities included in Nifty 500 Multicap 50-25-25 Index.

There may be an increase in transaction costs such as brokerage paid, if trading is done frequently. However, it is difficult to estimate with reasonable measure of accuracy, the likely turnover in the portfolio of the Scheme. The Scheme has no specific target relating to portfolio turnover.

D. HOW WILL THE SCHEME BENCHMARK ITS PERFORMANCE?

The performance of the Scheme will be benchmarked with Nifty 500 Multicap 50:25:25 Index.

Justification for use of benchmark:

The Scheme is being benchmarked against the Index mentioned above, since the composition of Index is in line with the investment objective of the Scheme / Plan(s) and is most suited for comparing performance of the Scheme / Plan(s). It will also enable the investors to arrive at a more informed judgement on the scheme's performance.

The NIFTY500 Multicap 50:25:25 index aims to measure the performance of a portfolio of large, mid and small market capitalization companies with target weights assigned to each size segment. The NIFTY500 Multicap 50:25:25 index includes all companies that are part of the NIFTY 500 index. While in NIFTY 500 index, the total weight of each size segment (Large, Mid and Small cap) is based on the total free float market capitalisation of all stocks falling within that size segment, in NIFTY500 Multicap 50:25:25 index, the total weight of each of these three segments (Large, Mid and Small cap) is fixed at 50%, 25% and 25% respectively at every quarterly rebalance date. The weight of 50%, 25% and 25% for the three segments are further divided amongst stocks within the respective segment based on underlying stock's free float market capitalization. Weight of each size segment may be different from its respective capped level between two rebalance dates due to price drift of underlying stocks.

G. HOW HAS THE SCHEME PERFORMED?

This Scheme is a new scheme and does not have any performance track record.

H. ADDITIONAL SCHEME RELATED DISCLOSURES

This Scheme is a new scheme and therefore the following additional disclosures are not applicable:

- i. Scheme's portfolio holdings (top 10 holdings by issuer and fund allocation towards various sectors).
- ii. Disclosure of name and exposure to TOP 7 issuers, stocks, groups and sectors as a %age of NAV of the scheme).
- iii. Portfolio disclosure.
- iv. Portfolio Turnover Rate is.
- v. Aggregate investment in the Scheme by:

Sl. No.	Category of Persons	Net Value		Market Value (in Rs.)
1	Fund Manager	Units	NAV per unit	
Not Applicable				

For disclosure w.r.t investments by key personnel and AMC directors including regulatory provisions in this regard kindly refer to **SAI**.

- vi. Investments of AMC in the Scheme – Please visit website <https://navi.com/mutual-fund>.

The AMC may invest in the Scheme(s) anytime during the continuous offer period subject to the SEBI (MF) Regulations. The AMC may also invest in existing schemes of the Mutual Fund. As per the existing SEBI (MF) Regulations, the AMC will not charge Investment Management and Advisory fee on the investment made by it in the Scheme(s) or existing Schemes of the Mutual Fund.

Subject to Regulation 25(16A) of the SEBI (Mutual Funds) Regulations, 1996 read with paragraph 6.9 of SEBI Master Circular dated June 27, 2024, the AMC shall invest such amounts in such schemes of the mutual fund, based on the risks associated with the schemes, as may be specified by SEBI from time to time. Such investment shall be maintained at all times and shall not be redeemed unless the scheme is wound up.

Part III- OTHER DETAILS

A. COMPUTATION OF NAV

The Net Asset Value (NAV) per Unit of the Scheme will be computed by dividing the net assets of the Scheme by the number of Units outstanding on the valuation day. The Mutual Fund will value its investments according to the valuation norms, as specified in Schedule VIII of the SEBI (MF) Regulations, or such norms as may be specified by SEBI from time to time. In case of any conflict between the Principles of Fair Valuation and valuation guidelines specified by SEBI, the Principles of Fair Valuation shall prevail.

The Net Assets Value (NAV) of the Units under the Scheme shall be calculated as shown below:

$$\text{NAV (Rs.)} = \frac{\text{Market or Fair Value of Scheme's Investments} + \text{Current Assets including Accrued Income} - \text{Current Liabilities and Provisions}}{\text{No. of Units outstanding under Scheme on the Valuation Day}}$$

The NAV shall be calculated up to four decimal places. However the AMC reserves the right to declare the NAVs up to additional decimal places as it deems appropriate. Separate NAV will be calculated and disclosed for each Option. The NAVs of the Growth Option and the Dividend Option will be different after the declaration of the first Dividend.

The NAVs will be calculated for all the Business days.

Pursuant to Regulation 49 (3) the repurchase Price of the units of an open ended scheme will not be lower than 95% of the NAV. Any imposition or enhancement of Load in future shall be applicable on prospective investments only.

Illustration on Computation of NAV: If the net assets of the Scheme are Rs. 10,55,55,000.00 and units outstanding are 1,00,00,000 then the NAV per unit will be computed as follows: $10,55,55,000.00 / 1,00,00,000 = \text{Rs. } 10.5555$ per unit.

Ongoing price for Redemption (sale) /Switch outs (to other schemes/plans of the Mutual Fund) by Investors.

Ongoing price for redemption /Switch out (to other Schemes/Plans of the Mutual Fund) is the price which a Unit holder will receive for redemption/Switch-outs. During the continuous offer of the Scheme, the Unit holder can redeem the Unit at Applicable NAV., subject to payment of Exit Load, if any.

It will be calculated using the following formula:

$$\text{Redemption Price} = \text{Applicable NAV} \times (1 - \text{Exit Load, if any})$$

Example: If the Applicable NAV is Rs. 10, Exit Load is 2% then redemption price per unit will be calculated as follows:

= Rs. 10* (1-0.02)

= Rs. 9.80

For other details such as policies w.r.t computation of NAV, rounding off, investment in foreign securities, procedure in case of delay in disclosure of NAV etc. refer to **SAI**.

B. NEW FUND OFFER (NFO) EXPENSES

These expenses are incurred for the purpose of various activities related to the NFO like sales and distribution fees paid marketing and advertising, registrar expenses, printing and stationery, bank charges etc. The NFO expenses shall be borne by the AMC.

C. ANNUAL SCHEME RECURRING EXPENSES

The AMC has estimated that upto 1.00% of the daily net assets of the Scheme. For the actual current expenses being charged, the investor may refer to the website of the Mutual Fund (<https://navi.com/mutual-fund>). Further, the disclosure of Total Expense Ratio (TER) on a daily basis shall also be made on the website of AMFI (www.amfiindia.com).

The Mutual Fund would update the current expense ratios on the website at least 3 (three) Business days prior to the effective date of the change.

For the actual current expenses being charged, the Investor should refer to the website of the AMC (<https://navi.com/mutual-fund/downloads/statutory-disclosure>).

Maximum total expense ratio (TER) permissible under Regulation 52 (6)	Up to 1.00
Additional expenses for gross new inflows from specified cities *	Upto 0.30%

Direct Plan shall have a lower expense ratio excluding distribution expenses, commission, etc. as compared to Regular Plan and no commission for distribution of Units will be paid/ charged under Navi Nifty 500 Multicap 50-25-25 Index Fund - Direct Plan.

These estimates have been made in good faith as per information available to the AMC and the total expenses may be more than as specified in the table above. However, as per the Regulations, the total recurring expenses that can be charged to the Scheme in this SID shall be subject to the applicable guidelines.

The purpose of the above table is to assist the investor in understanding the various costs and expenses that an investor in the Scheme will bear.

The Scheme can charge expenses within overall maximum limits prescribed under SEBI (MF) Regulations, without any internal cap allocated to any of the expense heads specified in the above table.

Pursuant to Paragraph 10.1, 10.1.8, 10.1.3 and 10.1.12 of SEBI Master Circular on Mutual Funds dated June 27, 2024, and SEBI (Mutual Funds) Second Amendment Regulations, 2012, and SEBI (Mutual Funds) (Fourth Amendment) Regulations 2018 following additional costs or expenses may be charged to the scheme, namely:

1. The AMC may charge Goods and Services tax on investment and advisory fees to the scheme of the Fund in addition to the maximum limit of total expenses ratio as prescribed in Regulation 52 of the Regulations, whereas Goods and Services tax on other than investment and advisory fees, if any, shall be borne by the scheme within the maximum limit as per regulation 52 of the Regulations and Paragraph 10.1.8 of SEBI Master Circular on Mutual Funds dated June 27, 2024
2. expenses not exceeding of 0.30 per cent of daily net assets, if the new inflows from retail investors from B30 cities as specified by the Securities and Exchange Board of India, from time to time are at least –
 - 30 per cent of the gross new inflows from retail investors from B30 cities into the scheme, or;
 - 15 per cent of the average assets under management (year to date) of the scheme.
 whichever is higher;

Provided that if inflows from retail investors from B30 cities are less than the higher of the above, such expenses on daily net assets of the scheme shall be charged on proportionate basis;

Provided further that expenses charged under this clause shall be utilised for distribution expenses incurred for bringing inflows from retail investors from B30 cities;

Provided further that amount incurred as expense on account of inflows from retail investors from B30 cities shall be credited back to the scheme in case the said inflows are redeemed within a period of one year from the date of investment.

For above purposes, 'B30 cities' shall be beyond Top 30 cities as at the end of the previous financial year as communicated by AMFI. Retail investors would mean individual investors from whom inflows into the Scheme would amount upto Rs. 2,00,000/- per transaction.

With reference to SEBI's letter no. SEBI/HO/ IMD/ IMD-SEC-3/ P/ OW/ 2023/ 5823/ 1 dated February 24, 2023, and AMFI Circular No. CIR/ ARN-23/ 2022-23 March 07, 2023, the B-30 incentive structure for new inflows has been kept in abeyance with effect from March 01, 2023 till the incentive structure is appropriately re-instated by SEBI with necessary safeguards.

1 basis points on daily net assets within the maximum limit of overall expense Ratio shall be annually set apart for investor education and awareness initiatives.

All Scheme related expenses including commission paid to distributors, by whatever name it may be called and in whatever manner it may be paid, shall necessarily be paid from the Scheme only within the regulatory limits and not from the books of the AMC, its Associate, Sponsor, Trustee or any other entity through any route subject to the clarifications as per clause 3.3.5 of SEBI Master Circular dated June 27, 2024 on Total Expense Ratio (TER) as amended from time to time.

Further, the brokerage and transaction cost incurred for the purpose of execution shall be charged to the schemes as provided under Regulation 52 (6A) up to 12 bps and 5 bps for cash market transactions and derivatives transactions respectively.

Any payment towards brokerage & transaction costs, over and above the said 12 bps and 5 bps for cash market transactions and derivatives transactions respectively may be charged to the Scheme within the maximum limit of Total Expense Ratio (TER) as prescribed under Regulation 52 of the SEBI (Mutual Funds) Regulations, 1996.

As per Paragraph 10.1.3 of SEBI Master Circular on Mutual Funds dated June 27, 2024, additional TER can be charged up to 30 basis points on daily net assets of the scheme as per Regulation 52 of the SEBI (Mutual Funds) Regulations, 1996, if the new inflows from retail investors from beyond top 30 cities are at least (a) 30% of gross new inflows in the scheme or (b) 15% of the average assets under management (year to date) of the scheme, whichever is higher.

Goods and Services tax on brokerage and transaction cost paid for execution of trade, if any, shall be within the limit prescribed under regulation 52 of the Regulations.

Expenses shall be charged / borne in accordance with the Regulations prevailing from time to time.

Illustration of impact of expense ratio on scheme's returns:

Particulars	Regular Plan	Direct Plan
Amount Invested at the beginning of the year	10,000	10,000
Returns before Expenses	1500	1500
Expenses other than Distribution Expenses	150	150
Distribution Expenses	50	-
Returns after Expenses at the end of the Year	1300	1350
Returns in Percentage (%)	13.00	13.50

D. LOAD STRUCTURE

Exit Load is an amount which is paid by the investor to redeem the units from the scheme. Load amounts are variable and are subject to change from time to time. For the current applicable structure, please refer to the website of the AMC <https://navi.com/mutual-fund> or may call at (toll free no.) or your distributor.

As per Clause 10.4 of SEBI Master Circular on Mutual Funds dated June 27, 2024, there shall be no entry Load for all Mutual Fund Schemes.

Type of Load	Load Chargeable (as a % to NAV)
Exit Load	Nil Redemption of units would be done on First in First out Basis (FIFO).

Units issued on reinvestment of Dividends shall not be subject to any Load, if any. The above mentioned load structure shall be equally applicable to the special products such as STP, switches, etc. offered by the AMC.

The switch of investments from Regular Plan to Direct Plan shall be subject to applicable exit load if any. Further, no exit load shall be levied in case of switches from Direct Plan to Regular Plan.

The entire Exit Load (net of Goods & Service Tax (GST)), charged, shall be credited to the Scheme.

The Investor is requested to check the prevailing Load structure of the Scheme before investing. For any change in Load structure, AMC will issue an addendum and display it on the website/Investor Service Centres.

In accordance with Paragraph 10.8 of SEBI Master Circular on Mutual Funds dated June 27, 2024 to bring about parity among all class of unit holders, no distinction among unit holders would be made based on the amount of subscription while charging exit loads.

Under the Scheme, the AMC/Trustee reserves the right to change / modify the Load structure if it so deems fit in the interest of smooth and efficient functioning of the Mutual Fund. The AMC/Trustee reserves the right to introduce / modify the Load depending upon the circumstances prevailing at that time subject to maximum limits as prescribed under the Regulations.

Any imposition or enhancement of Load in future shall be applicable on prospective investments only. However, AMC shall not charge any load on issue of bonus units and units allotted on reinvestment of dividend for existing as well as prospective investors.

At the time of changing the Load Structure, the AMC/Mutual Fund may adopt the following procedure:

1. An Addendum detailing the changes will be attached to Scheme Information Document (s) and Key Information Memorandum. The addendum may be circulated to all the distributors / brokers so that the same can be attached to all Scheme Information Documents and Key Information Memoranda already in stock.

2. The addendum will be displayed on the website of the AMC and arrangements will be made to display the addendum in the form of a notice in all the Investor Service Centers and distributors / brokers' office.
3. The introduction of the Exit Load along with the details may be stamped in the acknowledgement slip issued to the Investors on submission of the application form and may also be disclosed in the statement of accounts issued after the introduction of such Load.
4. A public notice shall be given in respect of such changes in one English daily newspaper having nationwide circulation as well as in a newspaper published in the language of region where the Head Office of the Mutual Fund is situated.
5. Any other measure which the Mutual Fund may consider necessary.

The Trustee/AMC reserves the right to change the load structure subject to the limits prescribed under the Regulations. Any change in Load structure shall be only on a prospective basis i.e. any such changes would be chargeable only for Redemptions from prospective purchases (applying first in first out basis).

Section II

I. Introduction

A. Definitions/interpretation

For detailed description please refer

https://navi.com/mutual-fund/downloads/statutory-disclosure_

B. Risk factors

Scheme Specific Risk Factors

Risk associated with investing in companies forming part of Nifty 500 Multicap 50-25-25 Index:

Risks associated with Equity and Equity Related Instruments:

Equity and Equity Related Instruments by nature are volatile and prone to price fluctuations on a daily basis due to macro and micro economic factors. The value of Equity and Equity Related Instruments may fluctuate due to factors affecting the securities markets such as price volatility, volumes traded, interest rates, currency exchange rates, changes in law/policies of the Government, taxation laws, political, economic or other developments, which may have an adverse impact on individual securities, a specific sector or all sectors. Consequently, the NAV of the Units issued under the Scheme may be adversely affected.

Equity and Equity Related Instruments listed on the stock exchange carry lower liquidity risk; however the Scheme's ability to sell these investments is limited by the overall trading volume on the stock exchanges. In certain cases, settlement periods may be extended significantly by unforeseen circumstances. The inability of the Scheme to make intended securities purchases due to settlement problems could cause the Scheme to miss certain investment opportunities. Similarly, the inability to sell securities held in the Scheme's portfolio may result, at times, in potential losses to the Scheme, if there is a subsequent decline in the value of securities held in the Scheme's portfolio.

Investments in equity and equity related instruments involve a degree of risk and investors should not invest in the Scheme unless they can afford to take the risk of losing their investment.

Risks of Total Return

Dividends are assumed to be reinvested into the Nifty 500 Multicap 50-25-25 Index after the ex-dividend date of the constituents. However, in practice, the dividend is received with a lag. This can lead to some tracking error.

Index Fund Risk

The Scheme being an index scheme follows a passive investment technique and shall only invest in Securities comprising one selected index as per investment objective of the Scheme. The Fund Manager would invest in the Securities comprising the underlying index irrespective of the market conditions. If the Securities market declines, the value of the investment held by the Scheme shall decrease.

Passive Investments

The Scheme is not actively managed. Since the Scheme is linked to index, it may be affected by a general decline in the Indian markets relating to its underlying index. The Scheme as per its investment objective invests in Securities which are constituents of its underlying index regardless of their investment merit. The AMC does not attempt to individually select stocks or to take defensive positions in declining markets.

Trading through mutual fund trading platforms of BSE and/ or NSE

In respect of transaction in Units of the Scheme through BSE and/ or NSE, allotment and redemption of Units on any Business Day will depend upon the order processing/settlement by BSE and/ or NSE and their respective clearing corporations on which the Mutual Fund has no control.

Risks associated with Fixed Income Securities:

Interest-Rate Risk: Fixed income securities such as government bonds, corporate bonds, Money Market Instruments and Derivatives run price-risk or interest-rate risk. Generally, when interest rates rise, prices of existing fixed income securities fall and when interest rates drop, such prices increase. The extent of fall or rise in the prices depends upon the coupon and maturity of the security. It also depends upon the yield level at which the security is being traded.

Re-investment Risk: Investments in fixed income securities carry re-investment risk as interest rates prevailing on the coupon payment or maturity dates may differ from the original coupon of the bond.

Basis Risk: The underlying benchmark of a floating rate security or a swap might become less active or may cease to exist and thus may not be able to capture the exact interest rate movements, leading to loss of value of the portfolio.

Spread Risk: In a floating rate security the coupon is expressed in terms of a spread or mark up over the benchmark rate. In the life of the security this spread may move adversely leading to loss in value of the portfolio. The yield of the underlying benchmark might not change, but the spread of the security over the underlying benchmark might increase leading to loss in value of the security.

Liquidity Risk: The liquidity of a bond may change, depending on market conditions leading to changes in the liquidity premium attached to the price of the bond. At the time of selling the security, the security can become illiquid, leading to loss in value of the portfolio.

Credit Risk: This is the risk associated with the issuer of a debenture/bond or a Money Market Instrument defaulting on coupon payments or in paying back the principal amount on maturity. Even when there is no default, the price of a security may change with expected changes in the credit rating of the issuer. It is to be

noted here that a Government Security is a sovereign security and is the safest. Corporate bonds carry a higher amount of credit risk than Government Securities. Within corporate bonds also there are different levels of safety and a bond rated higher by a particular rating agency is safer than a bond rated lower by the same rating agency.

Liquidity Risk on account of unlisted securities: The liquidity and valuation of the Scheme investments due to their holdings of unlisted securities may be affected if they have to be sold prior to their target date of divestment. The unlisted security can go down in value before the divestment date and selling of these securities before the divestment date can lead to losses in the portfolio.

Settlement Risk: Fixed income securities run the risk of settlement which can adversely affect the ability of the fund house to swiftly execute trading strategies which can lead to adverse movements in NAV.

Risks associated with investing in Tri-Party Repos Segments

The mutual fund is a member of securities and Tri-Party Repos segments of the Clearing Corporation of India (CCIL). All transactions of the mutual fund in government securities and in Tri-Party Repos segments are settled centrally through the infrastructure and settlement systems provided by CCIL; thus reducing the settlement and counterparty risks considerably for transactions in the said segments. The members are required to contribute an amount as communicated by CCIL from time to time to the default fund maintained by CCIL as a part of the default waterfall (a loss mitigating measure of CCIL in case of default by any member in settling transactions routed through CCIL). The mutual fund is exposed to the extent of its contribution to the default fund of CCIL at any given point in time. In the event that the default waterfall is triggered and the contribution of the mutual fund is called upon to absorb settlement/default losses of another member by CCIL, the scheme may lose an amount equivalent to its contribution to the default fund allocated to the scheme on a pro-rata basis.

Tracking Error/Tracking difference Risk

The Fund Manager would not be able to invest the entire corpus exactly in the same proportion as in the underlying index due to certain factors such as the fees and expenses of the Scheme, corporate actions, cash balance and changes to the underlying index and regulatory restrictions, lack of liquidity which may result in Tracking Error. Hence it may affect AMC's ability to achieve close correlation with the underlying index of the Scheme. The Scheme's returns may therefore deviate from its underlying index. "Tracking Error" is defined as the standard deviation of the difference between daily returns of the underlying index and the NAV of the Scheme. The Fund Manager would monitor the Tracking Error of the Scheme on an ongoing basis and would seek to minimize the Tracking Error. There can be no assurance or guarantee that the Scheme will achieve any particular level of Tracking Error relative to performance of the underlying Index.

Risk Factors relating to Portfolio Rebalancing

In the event that the asset allocation of the Scheme deviates from the ranges as provided in the asset allocation table in this SID, then the Fund Manager will rebalance the portfolio of the Scheme to the position indicated in the asset allocation table.

Risks associated with Derivatives Transactions

Systematic Risk: Systematic Risk is the risk associated with the entire market. Unlike unsystematic risk, it is not linked to a specific security or sector. Systematic risk is a market risk which can be due to macro-economic factors, news events, etc.

Mark to Market Risk: This risk is on account of day to day fluctuations in the underlying Security and its derivative instrument, which can adversely impact the portfolio.

Credit Risk: The credit risk is the risk that the counter party will default in its obligations and is generally small as in a Derivative transaction there is generally no exchange of the principal amount.

Interest rate risk: Derivatives carry the risk of adverse changes in the price due to change in interest rates.

Basis Risk: When a security is hedged using a Derivative, the change in price of the security and the change in price of the Derivative may not be fully correlated leading to basis risk in the portfolio.

Liquidity risk: During the life of the Derivative, the benchmark might become Illiquid and might not be fully capturing the interest rate changes in the market, or the selling, unwinding prices might not reflect the underlying assets, rates and indices, leading to loss of value of the portfolio.

Model Risk: The risk of mis-pricing or improper valuation of Derivatives.

Trade Execution: Risk where the final execution price is different from the screen price, leading to dilution in the spreads and hence impacting the profitability of the reverse arbitrage strategy.

Systemic Risk: For Derivatives, especially OTC ones the failure of one Counter Party can put the whole system at risk and the whole system can come to a halt.

The scheme may invest in various derivative products in accordance with and to the extent permitted under the regulations from time to time.

Derivatives are financial contracts of pre-determined fixed duration, like stock Futures /options and index futures and options, whose values are derived from the value of an underlying primary financial instrument such as: Equities, Interest rates, Exchange rates and Commodities.

Derivative products are specialized instruments that require investment techniques and risk analysis which are different from those associated with stocks and other traditional securities.

Derivatives are highly leveraged instruments and a small price fluctuation in the underlying can have a larger impact on its value. Thus, its use can lead to disproportionate gains or losses to the portfolio. Execution of derivatives instruments depends on the ability of the fund manager to identify good opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and decision of fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies.

“The risks associated with the use of Derivatives are different from or possibly greater than, the risks associated with investing directly in securities and other traditional investments.”

Risks associated with Short Selling & Securities Lending:

Securities Lending is a lending of securities through an approved intermediary to a borrower under an agreement for a specified period with the condition that the borrower will return equivalent securities of the same type or class at the end of the specified period along with the corporate benefits accruing on the securities borrowed. There are risks inherent in securities lending, including the risk of failure of the other party, in this case the approved intermediary to comply with the terms of the agreement. Such failure can result in a possible loss of rights to the collateral, the inability of the approved intermediary to return the securities deposited by the lender and the possible loss of corporate benefits accruing thereon.

Short-selling is the sale of shares or securities that the seller does not own at the time of trading. Instead, he borrows it from someone who already owns it. Later, the short seller buys back the stock/security he shorted and returns the stock/security to the lender to close out the loan. The inherent risks are Counterparty risk and liquidity risk of the stock/security being borrowed. The security being short sold might be illiquid or become illiquid and covering of the security might occur at a much higher price level than anticipated, leading to losses.

Risk factor associated with segregated portfolio

Investor holding units of segregated portfolio may not be able to liquidate their holding till the time realisable value is recovered.

Security comprising of segregated portfolio may realise lower value or may realise zero value.

Listing of units of segregated portfolio in recognized stock exchange does not necessarily guarantee their liquidity. There may not be active trading of units in the stock market. Further trading price of units on the stock market may be significantly lower than the prevailing NAV.

Risks factors associated with investments in Repo Transactions in Corporate Bond:

In repo transactions, securities are sold with the seller agreeing to buy them back at later date. The repurchase price should be greater than the original sale price, the difference effectively representing interest. A repo is economically similar to a secured loan, with the buyer receiving corporate debt securities as collateral to protect against default. The Scheme may invest in repo of corporate debt securities which are subject to the following risks:

Counter party Risk: This refers to the inability of the seller to meet the obligation to buy back securities at the contracted price on the contracted date. The Investment Manager will endeavour to manage counterparty risk by dealing only with counterparties, having strong credit profiles, approved by our credit risk analysis team. The exposure to each counterparty will be within the overall approved credit limits. Also, the counterparty risk is to an extent mitigated by taking collateral equivalent in value to the transaction after knocking off a minimum haircut on the intrinsic value of the collateral. In the event of default by the repo counterparty, the scheme shall have recourse to the corporate debt securities.

Collateral Risk: Collateral risk arises when the market value of the securities is inadequate to meet the repo obligations. This risk is mitigated by restricting participation in repo transactions on following corporate debt securities: a) Listed AA and rated corporate debt securities b) Commercial Papers (CPs) and Certificate of Deposits (CDs). Any rating downgrade will tantamount to either an early termination of the repo agreement or a call for fresh margin to meet the minimum haircut requirement. In addition, the Investment manager may apply a higher haircut on the underlying security than mentioned above to adjust for the illiquidity and interest rate risk on the underlying instrument. The adequacy of the collateral will be monitored on a daily basis by considering the daily market value & applying the prescribed haircut. The fund manager shall then arrange for additional collateral from the counterparty, within a period of 1 business day. If the counterparty is not able to top-up either in the form of cash / collateral, it shall tantamount to early termination of the repo agreement.

Risk Control

The risk control process involves reducing risks through portfolio diversification. This diversification would help achieve the desired level of consistency in returns. The AMC aims to identify securities, which offer superior levels of yield at lower levels of risks. There would be regular rebalancing of the portfolio, taking into account the change in weights of stocks in the Index.

Navi Nifty 500 Multicap 50-25-25 Index Fund being a passive investment carries lesser risk as compared to active fund management. The portfolio follows the index and therefore the level of stock concentration in the portfolio and its volatility would be the same as that of the index, subject to tracking error. Thus, there is no additional element of volatility or stock concentration on account of fund manager decisions.

While these measures are expected to mitigate the above risks to a large extent, there can be no assurance that these risks would be completely eliminated.

C. Risk mitigation strategies

Risk and Description	Risk Mitigants/management strategy
Risks associated with Equity investments	
Derivatives Risk As and when the Scheme trades in the derivatives market there are risk factors and issues concerning the use of derivatives since derivative products are specialized instruments that require investment techniques and risk analyses different from those associated with stocks and bonds.	Derivatives will be used in the form of Index Options, Index Futures and other instruments as may be permitted by SEBI. All derivatives trade will be done only on the exchange with guaranteed settlement. The AMC monitors the portfolio and regulatory limits for derivatives through its front office monitoring system. Exposure to derivatives of stocks or underlying index will be done based on requisite research. Fund managers will endeavor to use derivatives which are liquid and traded frequently on the exchanges. Exposure with respect to derivatives shall be in line with regulatory limits and the limits specified in the

	SID. Such exposure shall also be regularly reviewed by the Fund manager. No OTC contracts will be entered into.
Liquidity risk The liquidity of the Scheme's investments is inherently restricted by trading volumes in the securities in which they invests	The Scheme will try to maintain a proper asset-liability match to ensure redemption payments are made on time and not affected by illiquidity of the underlying stocks
Tracking Error risk (Volatility/ Concentration risk): The performance of the Scheme may not be commensurate with the performance of the underlying Index on any given day or over any given period	Tracking Error risk (Volatility/ Concentration risk): Over a short to medium period, the Scheme may carry the risk of variance between portfolio composition and Benchmark. The objectives of the Scheme are to track the performance of the Underlying Index over the same period, subject to tracking error. The Scheme would endeavor to maintain a low tracking error by actively aligning the portfolio in line with the Index.
Risks associated with Debt/Money market investments	
Market Risk/ Interest Rate Risk As with all debt securities, changes in interest rates may affect the Scheme's Net Asset Value as the prices of securities generally increase as interest rates decline and generally decrease as interest rates rise. Prices of long-term securities generally fluctuate more in response to interest rate changes than do short-term securities. Indian debt markets can be volatile leading to the possibility of price movements up or down in fixed income securities and thereby to possible movements in the NAV	In a rising interest rate scenario the scheme may increase its investment in money market securities whereas if the interest rates are expected to fall the allocation to debt securities with longer maturity may be increased thereby mitigating risk to that extent.
Liquidity or Marketability Risk This refers to the ease with which a security can be sold at or near to its valuation yield-to-maturity (YTM).	The Scheme may invest in government securities and money market instruments. While the liquidity risk for government securities and money market instruments may be low
Credit Risk Credit risk or default risk refers to the risk that an issuer of a fixed income security may default (i.e., will be unable to make timely principal and interest payments on the security).	Management analysis will be used for identifying company specific risks. Management's past track record will also be studied. In order to assess financial risk a detailed assessment of the issuer's financial statements will be undertaken
Reinvestment Risk This risk refers to the interest rate levels at which cash flows received from the securities in the Schemes are reinvested The risk	Reinvestment risks will be limited to the extent of coupons received on debt instruments, which will be a very small portion of the portfolio value

is that the rate at which interim cash flows can be reinvested may be lower than that originally assumed.

II. Information about the scheme:

A. Where will the scheme invest?

The corpus of the Scheme will be invested in Equity and equity related instruments, debt, money market instruments and other permitted instruments, which will include but not limited to:

Equity and Equity Related Instruments:

1. Equity Shares.
2. Equity related instruments like;
 - Convertible bonds and debentures, convertible preference shares and warrants carrying the right to obtain equity shares.
 - Derivative instruments like options and futures on equity securities / indices.
3. TREPS, Listed debt or money market securities, in accordance with Seventh Schedule to the SEBI (Mutual Funds) Regulations, and other guidelines/circulars as may be amended from time to time.

Equity Derivatives:

Futures are exchange-traded contracts to sell or buy financial instruments for future delivery at an agreed price. There is an agreement to buy or sell a specified quantity of financial instrument on a designated future date at a price agreed upon by the buyer and seller at the time of entering into a contract. To make trading possible, the exchange specifies certain standardized features of the contract. A futures contract involves an obligation on both the parties to fulfill the terms of the contract.

SEBI has permitted futures contracts on indices and individual stocks with maturity of 1 month, 2 months and 3 months on a rolling basis. The futures contracts are settled on last Thursday (or immediately preceding trading day if Thursday is a trading holiday) of each month. Currently, the futures are settled in cash. The final settlement price is the closing price of the underlying stock(s)/ index.

Option is a contract which provides the buyer of the option (also called holder) the right, without the obligation, to buy or sell a specified asset at the agreed price on or up to a particular date. For acquiring this privilege, the buyer pays premium (fee) to the seller. The seller on the other hand has the obligation to buy or sell specified asset at the agreed price and for this obligation he receives premium. The premium is determined considering number of factors such as the market price of the underlying asset/security, number of days to expiry, risk free rate of return, strike price of the option and the volatility of the underlying asset. Option contracts are of two types, viz:

Call Option - The option that gives the buyer the right to buy specified quantity of the underlying asset at the strike price is a call option. The buyer of the call option (known as the holder of call option) can call upon the seller of the option (writer of the option) and buy from him the underlying asset at the agreed price at any time on or before the expiry of the option.

The seller (writer of the option) on the other hand has the obligation to sell the underlying asset if the buyer of the call option decides to exercise his option to buy.

Put Option - The right to sell is called put option. A Put option gives the holder (buyer) the right to sell specified quantity of the underlying asset at the strike price. The seller of the put option (one who is short put) however, has the obligation to buy the underlying asset at the strike price if the buyer decides to exercise his option to sell.

There are two kinds of options based on the date of exercise of right. The first is the European Option which can be exercised only on the maturity date. The second is the American Option which can be exercised on or before the maturity date.

For detailed derivative Strategy kindly refer **SAI**.

Money Market Instruments:

Tri-party repo (TREPS)

Tri-party repo means a repo contract where a third entity (apart from the borrower and lender), called a Tri-Party Agent, acts as an intermediary between the two parties to the repo to facilitate services like collateral selection, payment and settlement, custody and management during the life of the transaction. TREPS facilitates, borrowing and lending of funds, in Tri Party Repo arrangement.

Certificate of Deposit (CD) of scheduled commercial banks and development financial Institutions

Certificate of Deposit (CD) is a negotiable money market instrument issued by scheduled commercial banks and select all-India Financial Institutions that have been permitted by the RBI to raise short term resources. The maturity period of CDs issued by the Banks is between 7 days to one year.

Commercial Paper (CP)

Commercial Paper (CP) is an unsecured negotiable money market instrument issued in the form of a promissory note, generally issued by the corporates, primary dealers and All India Financial Institutions as an alternative source of short-term borrowings. CP is traded in secondary market and can be freely bought and sold before maturity.

Treasury Bill (T-Bill)

Treasury Bills (T-Bills) are issued by the Government of India to meet their short-term borrowing requirements. T-Bills are issued for maturities of 14 days, 91 days, 182 days and 364 days. Bill Rediscounting (bills of exchange/promissory notes of public sector and private sector corporate entities).

Investment in Short Term Deposits

Pending deployment of funds as per the investment objective of the Scheme, the Funds may be parked in short term deposits of the Scheduled Commercial Banks, subject to guidelines and limits specified by SEBI and portfolio creation time will not be more than 7 days.

The securities / instruments mentioned above and such other securities the Scheme is permitted to invest in could be listed, unlisted, privately placed, secured, unsecured, rated or unrated and of any maturity.

The securities may be acquired through initial public offering (IPOs), secondary market, private placement, rights offer, negotiated deals. Further investments in debentures, bonds and other fixed income securities will be in instruments which have been assigned investment grade rating by the Credit Rating Agency.

Investment in unrated debt instruments shall be subject to complying with the provisions of the Regulations and within the limit as specified in Schedule VII to the Regulations. Pursuant to Clause 12.12 of SEBI Master Circular dated June 27, 2024; the AMC may constitute committee(s) to approve proposals for investments in unrated debt instruments. The AMC Board and the Trustee shall approve the detailed parameters for such investments. However, in case any unrated debt security does not fall under the parameters, the prior approval of Board of AMC and Trustee shall be sought.

For applicable regulatory investment limits please refer paragraph "**Investment Restrictions**".

B. What are the investment restrictions?

Pursuant to SEBI (MF) Regulations, the following investment restrictions are applicable to the scheme:

1. All investments by a mutual fund scheme in equity shares and equity related instruments shall only be made provided such securities are listed or to be listed.
2. The Mutual Fund under all its Scheme(s) shall not own more than ten per cent of any company's paid-up capital carrying voting rights. Provided, investment in the asset management company or the trustee company of a mutual fund shall be governed by clause (a), of sub-regulation (1), of regulation 7B.
3. All investments by the Scheme in CPs would be made only in CPs which are listed or to be listed.
4. A mutual fund scheme shall not invest in unlisted debt instruments including commercial papers, except Government Securities and other money market instruments:

Provided that Mutual Fund Schemes may invest in unlisted non-convertible debentures up to a maximum of 10% of the debt portfolio of the scheme subject to such conditions as may be specified by the Board from time to time:

Provided further that mutual fund schemes shall comply with the norms under this clause within the time and in the manner as may be specified by the Board:

Provided further that the norms for investments by mutual fund schemes in unrated debt instruments shall be specified by the Board from time to time.

Note: According to the Asset Allocation of the Scheme, the indicative allocation of the Scheme to Debt and Money market instruments shall be in the range of 0% to 5% of the net assets of the Scheme, subject to conditions specified.

5. Transfer of investments from one scheme to another scheme in the same Mutual Fund is permitted provided:
 - i. such transfers are done at the prevailing market price for quoted instruments on spot basis (spot basis shall have the same meaning as specified by a Stock Exchange for spot transactions); and
 - ii. the securities so transferred shall be in conformity with the investment objective of the Scheme to which such transfer has been made.
 - iii. IST purchases would be allowed subject to the guidelines as specified in clause 12.30 of SEBI Master Circular dated June 27, 2024.
6. The Scheme may invest in other schemes of the Mutual Fund or any other mutual fund without charging any fees, provided the aggregate inter-scheme investment made by all the schemes under the same

management or in schemes under the management of any other asset management company shall not exceed 5% of the Net Asset Value of the Mutual Fund. Provided that this clause shall not apply to any fund of funds scheme.

7. The Mutual Fund shall buy and sell securities on the basis of deliveries and shall in all cases of purchases, take delivery of relevant securities and in all cases of sale, deliver the securities:

Provided, the Mutual Fund may engage in Short selling and securities lending in accordance with the framework relating to Short Selling and securities lending and borrowing specified by SEBI.

Provided further that the Mutual Fund may enter into Derivatives transactions in a recognized stock exchange, subject to the framework specified by SEBI.

The sale of government security already contracted for purchase shall be permitted in accordance with the guidelines issued by the RBI in this regard.

8. The Mutual Fund shall get the securities purchased or transferred in the name of the Fund on account of the concerned Scheme, wherever investments are intended to be of a long-term nature.

9. Pending deployment of the funds of the Scheme in securities in terms of the investment objective of the Scheme, the AMC may park the funds of the Scheme in short term deposits of scheduled commercial banks in accordance with clause 12.16, 12.16.1.5 and 4.5 of SEBI Master Circular dated June 27, 2024.

The Scheme will comply with the following guidelines/restrictions for parking of funds in short term deposits:

- i. "Short Term" for such parking of funds by the Scheme shall be treated as a period not exceeding 91 days. Such short-term deposits shall be held in the name of the Scheme.
- ii. The Scheme shall not park more than 15% of the net assets in short term deposit(s) of all the scheduled commercial banks put together. However, such limit may be raised to 20% with prior approval of the Trustee.
- iii. Parking of funds in short term deposits of associate and sponsor scheduled commercial banks together shall not exceed 20% of total deployment by the Mutual Fund in short term deposits.
- iv. The Scheme shall not park more than 10% of the net assets in short term deposit(s), with any one scheduled commercial bank including its subsidiaries.
- v. The Scheme shall not park funds in short term deposit of a bank which has invested in that Scheme.

Trustees/AMCs shall also ensure that the bank in which a scheme has STD do not invest in the said scheme until the scheme has STD with such bank. However, the above provisions will not apply to term deposits placed as margins for trading in cash and Derivatives market. The AMC shall not be permitted to charge any investment management and advisory fees for parking of funds in short term deposits of scheduled commercial banks.

The above norms do not apply to term deposits placed as margins for trading in cash and derivatives market. However, all term deposits placed as margins shall be disclosed in the half yearly portfolio statements under a separate heading. Details such as name of bank, amount of term deposits, duration of term deposits, percentage of NAV should be disclosed.

10. The mutual fund will follow clause 12.25 of SEBI Master Circular dated June 27, 2024, on review of norms for investment and disclosure by mutual funds in derivatives.

11. The Scheme shall not invest more than 10% of its NAV in debt instruments comprising money market instruments and non-money market instruments issued by a single issuer, which are rated not below investment grade by a credit rating agency authorized to carry out such activities under the SEBI Act, 1992.

Such investment limit may be extended to 12% of the NAV of the Scheme with the prior approval of the Board of Trustee and the Board of Directors of AMC.

Provided that such limit shall not be applicable for investments in Government Securities, treasury bills and Tri-party Repos on Government securities or treasury bills (TREPS).

Provided further that investment within such limit can be made in mortgaged backed securitised debt which are rated not below investment grade by a credit rating agency registered with SEBI.

Provided further that such limit shall not be applicable for investments in case of debt exchange traded funds or such other funds as may be specified by SEBI from time to time.

Note: According to the Asset Allocation of the Scheme, the indicative allocation of the Scheme to Debt and Money market instruments shall be in the range of 0% to 5% of the net assets of the Scheme, subject to conditions specified.

12. The scheme shall not make any investment in
 - a. Any unlisted security of an associate or group company of the sponsor: or
 - b. Any security issued by way of private placement by an associate or group company of the sponsor; or
 - c. The listed securities of group companies of the sponsor which in excess of 25% of net assets.
13. The Scheme shall not make any investment in any fund of funds scheme.
14. The cumulative gross exposure through equity, debt, derivative positions (including fixed income derivatives), repo transactions in corporate debt securities and other permitted securities/assets and such other securities/assets as may be permitted by the Board from time to time should not exceed 100% of the net assets of the scheme.
15. The Fund shall not borrow except to meet temporary liquidity needs of the Fund for the purpose of Repurchase/Redemption of Unit or payment of interest to the Unit holder.
16. The Fund shall not borrow more than 20% of the net assets of the individual Scheme and the duration of the borrowing shall not exceed a period of 6 months.
17. The Scheme will not advance any loan for any purpose.
18. In accordance with the guidelines as stated under clause 12.1.4 & 12.1.5 of SEBI Master Circular dated June 27, 2024, investments in following instruments as specified in the said circular, as may be amended from time to time, shall be applicable:
 - i. All fresh investments by mutual fund schemes in CPs would be made only in CPs which are listed or to be listed.
 - ii. Further, investment in unrated debt and money market instruments, other than government securities, treasury bills, derivative products such as Interest Rate Swaps (IRS), Interest Rate Futures (IRF), etc. by mutual fund schemes shall be subject to the conditions as specified in the said circular:
 - a. Investments should only be made in such instruments, including bills re-discounting, usance bills, etc., that are generally not rated and for which separate investment norms or limits are not provided in SEBI (Mutual Fund) Regulations, 1996 and various circulars issued thereunder.
 - b. Exposure of mutual fund schemes in such instruments shall not exceed 5% of the net assets of the schemes.
 - c. All such investments shall be made with the prior approval of the Board of AMC and the Board of trustees.

20. The Scheme will comply with provisions specified in clause 12.25 of SEBI Master Circular dated June 27, 2024, related to overall exposure limits applicable for derivative transactions as stated below:

- a) The cumulative gross exposure across all asset classes should not exceed 100% of the net assets of the Scheme.
- b) Mutual Funds shall not write options or purchase instruments with embedded written options.
- c) The total exposure related to option premium paid must not exceed 20% of the net assets of the Scheme.
- d) Cash or cash equivalents with residual maturity of less than 91 days may be treated as not creating any exposure.
- e) Exposure due to hedging positions may not be included in the above-mentioned limits subject to the following:
 - i. Hedging positions are the derivative positions that reduce possible losses on an existing position in securities and till the existing position remains.
 - ii. Hedging positions cannot be taken for existing derivative positions. Exposure due to such positions shall have to be added and treated under limits mentioned in Point 1.
 - iii. Any derivative instrument used to hedge has the same underlying security as the existing position being hedged.
 - iv. The quantity of underlying associated with the derivative position taken for hedging purpose does not exceed the quantity of the existing position against which hedge has been taken.
 - v. (a) Mutual Funds may enter into plain vanilla Interest Rate Swaps (IRS) for hedging purposes. The value of the notional principal in such cases must not exceed the value of respective existing assets being hedged by the scheme.

(b) In case of participation in IRS is through over the counter transactions, the counter party has to be an entity recognized as a market maker by RBI and exposure to a single counterparty in such transactions should not exceed 10% of the net assets of the scheme. However, if mutual funds are transacting in IRS through an electronic trading platform offered by the Clearing Corporation of India Ltd. (CCIL) and CCIL is the central counterparty for such transactions guaranteeing settlement, the single counterparty limit of 10% shall not be applicable.

- vi. Exposure due to derivative positions taken for hedging purposes in excess of the underlying position against which the hedging position has been taken, shall be treated under the limits mentioned in point (i) above
- vii. Definition of Exposure in case of Derivative Positions - Each position taken in derivatives shall have an associated exposure as defined under. Exposure is the maximum possible loss that may occur on a position. However, certain derivative positions may theoretically have unlimited possible loss. Exposure in derivative positions shall be computed as follows:

Position	Exposure
Long Future	Futures Price * Lot Size * Number of Contracts
Short Future	Futures Price * Lot Size * Number of Contracts
Option bought	option Premium Paid * Lot Size * Number of Contracts

Exposure limit for participating in Interest Rate Futures

As per clause 12.25.9.1 of SEBI Master Circular dated June 27, 2024, the following are prescribed:

- i. To reduce interest rate risk in a debt portfolio, mutual funds may hedge the portfolio or part of the portfolio (including one or more securities) on weighted average modified duration basis by using Interest Rate Futures (IRFs). The maximum extent of short position that may be taken in IRFs to hedge interest rate risk of the portfolio or part of the portfolio, is as per the formula given below:

$(\text{Portfolio Modified Duration} * \text{Market Value of the Portfolio}) / (\text{Futures Modified Duration} * \text{Future Price} / \text{PAR})$.

The Scheme will comply with the other Regulations applicable to the investments of Mutual Funds from time to time. All the investment restrictions will be applicable at the time of making investments.

Apart from the Investment Restrictions prescribed under the Regulations, internal risk parameters for limiting exposure to a particular scrip or sector may be prescribed from time to time to respond to the dynamic market conditions and market opportunities.

The AMC/Trustee may alter these above stated restrictions from time to time to the extent the Regulations change, so as to permit the Scheme to make its investments in the full spectrum of permitted investments for mutual funds to achieve its respective investment objective.

C. Fundamental Attributes

Following are the Fundamental Attributes of the scheme, in terms of paragraph 1.14 of SEBI Master Circular for Mutual Funds dated June 27, 2024:

(i) Type of a scheme - An open ended scheme replicating/ tracking **Nifty 500 Multicap 50:25:25** index

(ii) Investment Objective -Main Objective -Growth

Please refer to Section – **Part I - 'Highlights/Summary of the Scheme - Investment objective'**

Investment Pattern – Please refer to Section '**How will the Scheme Allocate its Assets?**'

(iii) Terms of Issue

- Liquidity provisions such as listing, repurchase, redemption.

The Scheme(s) will offer Units for Redemption / Switch out on every Business Day at NAV based prices except in special circumstances described in this Scheme Information Document.

- Aggregate fees and expenses charged to the scheme.

Please refer to section '**Part III- OTHER DETAILS ANNUAL SCHEME RECURRING EXPENSES**' for details

- Any safety net or guarantee provided.

The Scheme does not assure or guarantee any returns.

Changes in Fundamental Attributes:

In accordance with Regulation 18(15A) of the SEBI (MF) Regulations and Clause 1.14.1.4 of SEBI Master Circular for Mutual Funds dated June 27, 2024 the Trustees shall ensure that no change in the fundamental attributes of the Scheme(s) and the Plans(s) / Option(s) thereunder or the trust or fee and expenses payable or any other change which would modify the Scheme(s) and the Plan(s) / Option(s) thereunder and affect the interests of Unitholders is carried out unless:

- SEBI has reviewed and provided its comments on the proposal
- A written communication about the proposed change is sent to each Unitholder and an advertisement is given in one English daily newspaper having nationwide circulation as well as in a newspaper published in the language of the region where the Head Office of the Mutual Fund is situated; and
- The Unitholders are given an option for a period of atleast 30 calendar days to exit at the prevailing Net Asset Value without any exit load.

D. Index methodology

- The index has a base date of April 01, 2005, with a base value of 1000.
- Stocks that form part of the Nifty 500 index also form part of the Nifty500 Multicap 50:25:25 index at all points in time.
- The index will have 50% weight to Large cap stocks (Nifty 100), 25% weight each to Mid cap (Nifty Midcap 150) and Small cap stocks (Nifty Smallcap 250) as on quarterly rebalance dates. These weights may be different from their respective capped levels between two rebalance dates due to price drift of underlying stock.
- The weight of each stock within each size segment in the index is based on its free float market capitalization.
- The index is reconstituted semi-annually and weights are rebalanced quarterly.

Index Re-Balancing: Index is re-balanced on semi-annual basis. The cut-off date is January 31 and July 31 of each year, i.e. For semi-annual review of indices, average data for six months ending the cut-off date is considered. Four weeks prior notice is given to market from the date of change.

Upon completion of 1 year of the Scheme, tracking difference i.e. the annualized difference of daily returns between the Scheme and the index annualized over 1 year, 3 year, 5 year, 10 year and since the scheme inception period shall be disclosed on the website of the AMC and AMFI, on a monthly basis.</p>

B. Transparency/NAV Disclosure

The AMC will calculate the NAVs for all the Business Days. The Net Asset Value of the scheme shall be calculated on daily basis and disclosed in the manner specified by SEBI. The Asset Management Company ("AMC") shall update the NAVs on its website (<https://navi.com/mutual-fund>) and of the Association of Mutual Funds in India ("AMFI") (www.amfiindia.com) before 11.00 p.m. every Business Day. In case of any delay, the reasons for such delay would be explained to AMFI in writing. If the NAVs are not available before the commencement of Business Hours on the following day due to any reason, the Mutual Fund shall issue a press release giving reasons and explaining when the Mutual Fund would be able to publish the NAV.

The AMC will disclose the portfolio in a user friendly & downloadable spreadsheet format, as on the last day of the month /half year for the scheme(s) on its website (<https://navi.com/mutual-fund>) and on the website of AMFI (www.amfiindia.com) of the Scheme within ten days from the close of each month/half year. In case of investors whose email addresses are registered with Navi MF, the AMC shall send via email both the monthly and half yearly statement of scheme portfolio within 10 days from the close of each month/half year respectively.

The AMC will make available the Annual Report of the Scheme within four months of the end of the financial year. The Annual Report shall also be displayed on the website of AMC and AMFI.

C. Transaction charges and stamp duty

Transaction Charges

No transaction charges.

Stamp Duty

A stamp duty @0.005% of the transaction value would be levied on applicable mutual fund transactions, with effect from July 01, 2020. Pursuant to levy of stamp duty, the number of units allotted on purchase transactions (including dividend reinvestment) to the unitholders would be reduced to that extent.

For further details refer **SAI**.

D. Associate Transactions

Please refer to **Statement of Additional Information**.

E. Taxation

For details on taxation please refer to the clause on Taxation in the **SAI** apart from the following:

Particulars	Resident Investors	Mutual Fund
Tax on dividend	<p>Individual / HUF: Income tax rate applicable to the Unit holders as per their income slabs</p> <p>Domestic Company⁽¹⁾:</p> <p>1) 30% + Surcharge as applicable + 4% Cess⁽²⁾</p> <p>2) 25% + Surcharge as applicable + 4% Cess⁽²⁾</p> <p>3) 22% + 10% Surcharge + 4% Cess⁽²⁾</p>	Nil
