Part I. HIGHLIGHTS/SUMMARY OF THE SCHEME

Sr. No.	Title	Description
I.	Name of the scheme	Nippon India Active Momentum Fund
II.	Category of the Scheme	Sectoral/Thematic Funds
III.	Scheme type	An open-ended equity scheme following momentum theme.
IV.	Scheme code	NIMF/O/E/THE/24/09/0154
V.	Investment objective	The investment objective of the scheme is to achieve long-term capital appreciation for its investors. This objective will be pursued by strategically investing in a diversified portfolio of equity and equity-related instruments. The selection of these instruments will be based on a quantitative model meticulously designed to identify potential investment opportunities that exhibit the potential for significant capital appreciation over the specified investment horizon. There is no assurance that the investment objective of the Scheme will be achieved.
VI.	Liquidity/listing details	<p>Liquidity</p> <p>The Scheme will offer for Sale / Switch-in and Redemption / Switch-out of Units on every Working Day on an ongoing basis. As per SEBI Regulations, the Mutual Fund shall initiate payment of Redemption proceeds within 3 Working Days of receiving a valid Redemption request. In case of exceptional situations listed in AMFI Circular No. AMFI/35P/MEM-COR/74/2022-23 dated January 16, 2023, redemption payment would be made within the permitted additional timelines. A penal interest of 15% per annum or such other rate as may be prescribed by SEBI from time to time, will be paid in case the Redemption proceeds are not initiated / dispatched within 3 Working Days of the date of receipt of a valid Redemption request. The payment of redemption proceeds under the Scheme will be subject to receipt of redemption proceeds from the underlying Scheme(s).</p> <p>Listing</p> <p>Being an open-ended scheme, the Units of the Scheme will not be listed on any stock exchange, at present. The Trustee may, at its sole discretion, cause the Units under the Scheme to be listed on one or more Stock Exchanges</p>
VII.	Benchmark (Total Return Index)	<p>AMFI Tier I Benchmark: NIFTY 500 TRI</p> <p>As per clause 6.14.2.2 of SEBI Master Circular for Mutual Funds, the performance of MF schemes shall be benchmarked to the Total Return (TRI) variant of the Index chosen as a benchmark as stated in paragraph 6.14.2.1 of the said circular.</p> <p>The Nifty 500 TRI is the prescribed AMFI Tier 1 benchmark for schemes following Momentum Fund under the thematic category. The prescribed AMFI Tier 1 Nifty 500 index represents the top 500 companies based on full market capitalization and average daily turnover from the eligible universe. It represents over 95% of the free float market capitalization of the stocks listed on NSE and is a fair representation of the indicative universe of the portfolio of the Scheme.</p> <p>Nippon India Active Momentum Fund endeavors to predominantly invest in equity and equity related instruments of companies following Momentum theme. i.e. The fund is designed for investors with a long-term horizon, high-risk appetite, and who are willing to participate in the fund house's 'momentum' thesis which is mathematically/quantitatively built to identify potential investment opportunities. This product would provide investors with an exposure to Momentum Investing as a strategy.</p> <p>As per Clause 5.16 of SEBI Master Circular dated June 27, 2024, Given the broader theme of the fund and the flexibility to invest across sectors & market capitalization, the proposed benchmark seems to be appropriate.</p> <p>The Trustee/AMC reserves the right to change the benchmark for the evaluation of the performance of the Scheme from time to time, keeping in mind the investment objective of the Scheme and the appropriateness of the benchmark, subject to SEBI guidelines and other prevalent guidelines.</p> <p>For every change in the benchmark, NAM INDIA will intimate the investors by issuing an addendum.</p>
VIII.	NAV disclosure	<p>The AMC will calculate and disclose the first NAV within 5 working days from the date of allotment. Subsequently, the NAV will be calculated and disclosed at the close of every Business Day and uploaded on the AMFI website www.amfiindia.com and Nippon India Mutual Fund website i.e. https://mf.nipponindiain.com by 11.00 p.m. on the day of the declaration of the NAV. Further, AMC shall extend facility of sending latest available NAVs to unitholders through SMS, upon receiving a specific request in this regard.</p> <p>If the NAVs are not available before commencement of business hours on the following day due to any reason, the Fund shall issue a press release providing reasons and explaining when the Fund would be able to publish the NAVs. In case of any delay, the reasons for such delay would be explained to AMFI and SEBI</p> <p>For further details, kindly refer Section II.</p>
IX.	Applicable timelines	<p>Timeline for Dispatch of redemption proceeds</p> <p>As per SEBI Regulations, the Mutual Fund shall transfer the redemption proceeds within the maximum period allowed, which is currently 3 working days from the date of receipt of the redemption request at the Designated Investor Service Centres. In case of exceptional situations listed in AMFI Circular No.AMFI/35P/MEM-COR/74/2022-23 dated January 16, 2023, redemption payment would be made within the permitted additional timelines.</p>

A Transaction Confirmation Slip / Fresh Account Statement will also be sent to the Unitholders reflecting the new unit balance in his Account. For payments made other than through direct transfers, the redemption proceeds shall be Dispatched through ordinary mail (with or without UCP) or Registered Post or by Courier, unless otherwise required under the Regulations, at the risk of the unitholder

Timeline for Dispatch of IDCW (if applicable) etc

The IDCW payments shall be initiated to the unitholders within 7 working days from the record date in compliance to the Clause 11.4 of the SEBI Master circular dated June 27, 2024.

Part II. INFORMATION ABOUT THE SCHEME

A. HOW WILL THE SCHEME ALLOCATE ITS ASSETS?

under normal circumstances, the anticipated asset allocation would be:

Instruments	Indicative asset allocation (% of total assets)		Risk Profile
Particulars	Minimum	Maximum	Low/ Medium/ High
Equity and Equity related Instruments of momentum theme	80%	100%	Medium to High
Debt & Money Market Instruments*	0%	20%	Low to Medium
Units issued by REITs and InvITs	0%	10%	Medium to High

The Scheme may seek investment opportunities in foreign securities including ADRs, GDRs and Foreign equity subject to the Clause 12.19 of SEBI Master Circular for Mutual Funds dated June 27, 2024 and any other circulars issued from time to time. Such investment shall not exceed 20% of the net assets of the Scheme. Investment in ADR/GDR/Foreign Securities would be as per clause 12.19 of SEBI Master Circular dated June 27, 2024 as may be amended from time to time.

The Scheme may invest up to 20% of its total assets in Overseas Financial Assets/Foreign Securities. The intended amount for investment in overseas ETFs is US\$ 50 mn and the intended amount for investments in other overseas securities is US\$100 mn. in the six months post closure of NFO. Post completion of the six months, the relevant provisions of Clause 12.19 of SEBI Master Circular dated June 27, 2024 shall be applicable

According to clause 12.19 of the SEBI Master Circular dated June 27, 2024 can invest in ADRs/GDRs/other specified foreign securities and such investments are subject to maximum of US \$ 1 billion per Mutual Fund and overall limit of US\$ 7 bn. for all mutual funds put together. The Mutual Fund has been allowed an individual limit of US\$ 1 bn. The overall ceiling for investment in overseas ETFs that invest in securities is US\$ 1 billion subject to a maximum of US\$ 300 million per mutual fund.

Pursuant to AMFI communication dated January 30, 2022 and as advised by SEBI, in order to avoid breach of industry-wide overseas limits as allowed by RBI, overseas subscriptions were suspended effective February 2, 2022. Subsequently, SEBI vide its letter no. SEBI/HO/OW/IMD-II/DOF3/P /25095/2022 dated June 17, 2022, had advised AMFI that Mutual Fund schemes may resume subscriptions and make investments in overseas funds/securities upto the headroom available, without breaching the overseas investment limits as of end of day of February 01, 2022 at Mutual Fund level. With reference to AMFI email reference No. 35P/ MEM-COR/126 / 2023-24 dated March 20, 2024, Mutual Fund investments in Overseas ETFs have been stopped till further communication from AMFI/SEBI.

With reference to AMFI email reference No. 35P/ MEM-COR/126 / 2023-24 dated March 20, 2024, Mutual Funds investments in Overseas ETFs have stopped subscriptions in overseas ETFs till further communication from AMFI/SEBI. The cumulative gross exposure through equity, debt, Money Market Instruments, equity derivative positions and such other securities/assets as may be permitted by SEBI from time to time should not exceed 100% of the net assets of the scheme as per clauses 12.24 and 12.25 of SEBI Master Circular dated June 27, 2024.

As per Clause 12.25 of SEBI Master Circular dated June 27, 2024, the scheme may use 100% of net assets of Equity & Equity related instruments derivative exposure only for hedging purposes. Further, in case of other than hedging purpose, the scheme shall not exceed 50% of the net assets of the equity component. For example, if the scheme uses 50% of net assets for hedging purpose, then the scheme shall use other 50% for other than hedging purpose and if the scheme uses 100% of net assets for hedging purpose, then the scheme shall not use any exposure for other than hedging purpose.

The Scheme shall not deploy more than 15% of its net assets in securities lending. In addition to the above limit, the Scheme shall not deploy more than 5% of the net assets in securities lending to any single intermediary.

*Cash or cash equivalents with residual maturity of less than 91 days may be treated as not creating any exposure in line with clause 12.25 of SEBI Master Circular dated June 27, 2024. Further, SEBI vide letter dated November 3, 2021, has clarified that Cash Equivalent shall consist of Government Securities, T-Bills and Repo on Government Securities.

Further,

- a) The Scheme shall not invest in securitized debt, commodity derivatives and debt derivatives.
- b) The scheme shall not participate in credit default swap transactions.
- c) The scheme shall not invest in structured obligations and credit enhancements.
- d) The scheme shall not invest in debt securities with special features i.e. AT1 & AT2 Bonds and debt instruments having credit enhancements or structured obligations. However, debt securities with government guarantee shall be excluded from such restriction

Pending deployment of the funds in securities in terms of investment objective of the Scheme, the AMC may park the funds of the Scheme in short term deposits of the Scheduled Commercial Banks, subject to the guidelines issued by SEBI from time to time.

Rebalancing of deviation due to short term defensive consideration:

Subject to SEBI (MF) Regulations, the asset allocation pattern indicated above may change from time to time, keeping in view market conditions, market opportunities, applicable regulations, and political and economic factors. It must be clearly understood that the percentages can vary substantially depending upon the perception of the Investment Manager; the intention being always to seek to protect the interests of the Unit holders. As per Clause 1.14.1.2.b and Clause 2.9 of SEBI Master Circular dated June 27, 2024, such changes in the investment pattern will be for short term and for defensive consideration only. In the event of deviations, portfolio rebalancing will be carried out within 30 calendar days in such cases.

Portfolio rebalancing in case of passive breach:

In case of any deviation (due to passive breaches) from the asset allocation of the scheme, the fund manager will carry out rebalancing within 30 business days. Where the portfolio is not re-balanced within 30 business days, justification in writing including details of efforts taken to rebalance the portfolio shall be placed before the Investment Committee. The Investment Committee, if so desires, can extend the timelines up to sixty (60) business days from the date of completion of mandated rebalancing period. However, always the portfolio will adhere to the overall investment objectives of the Scheme.

C. WHAT ARE THE INVESTMENT STRATEGIES?

Nippon India Active Momentum Fund is an actively managed fund. To achieve the investment objective, the scheme will predominantly invest in equity and equity related securities of companies following Momentum theme. i.e. The fund is designed for investors with a long-term horizon, high-risk appetite, and who are willing to participate in the fund house's 'momentum' thesis which is mathematically/quantitatively built to identify potential investment opportunities. This product would provide investors with an exposure to Momentum Investing as a strategy.

The fund will adopt an active investment strategy and attempt to invest in a focused portfolio of around 30-40 stocks selected from the benchmark universe of NIFTY 500 stocks. The stocks will be selected based on a proprietary momentum strategy. Quantitative methods will be used for

- (i) screening mechanism to choose best picks and make the stock selection universe smaller,
- (ii) deciding on the portfolio weightage for better return as the investment will focus on company's size and liquidity.

Factor-based investing is an investment strategy that intends to target specific factors, or characteristics. These factors can include things like value, size, momentum, quality and low volatility through empirical research.

Momentum investing is a dynamic quant-based strategy attempting to capitalize on current market trends. In essence, it relies on the principle that trends can persist for an extended period, allowing investors to profit by staying with the trend, regardless of its duration.

Additionally, strategy/factor indices have gained popularity, and have helped gain broad exposure to momentum-based investment style.

Fund Strategy:

Focused Portfolio: The proposed fund would seek to invest in a focused portfolio around 30-40 stocks selected from the benchmark universe of Nifty 500 stocks.

Model based stock selection: The stocks will be selected based on a proprietary momentum-led multi factor Model.

Momentum strategy: The quantitative model which will be used for stock selection will be primarily based on momentum factor which will consider both absolute and relative momentum. The momentum factor attempts to capture the market trends through price momentum adjusted for volatility. Momentum strategy can work in both up and down trending market phases as it is quick to adapt to changing environment..

Additional Factors for better risk management and capturing market shifts: As mentioned above while momentum strategies can work across market phases, there may be instances where the momentum factor can work with a lag effect or at times lead to higher volatilities. Hence the strategy/model in addition to the momentum factor, the model will also consider other complimentary non-fundamental factors to smoothen the returns and to capture market shifts. While price momentum acts as the fulcrum of the strategy, other factors like market and stock specific sentiment, stock and sector volatility and beta are important complimentary variables which go into decision making. To elaborate these supporting variables:

- **Sentiment:** This micro factor captures Earnings upgrades and downgrades in an effective manner. Further the factor works across market conditions and is agile to adapt to changing environment. The belief here remains that earnings related sentiment shifts helps to identify fundamentally backed momentum stocks.
- **Beta:** Beta factor can help in better capture of sustained market uptrends and in turn aid potential alpha. However, this factor needs to be timed in a systematic manner.
- **Minimum Volatility:** Helps to lower downside risk especially during market downtrends or bear cycles. Factors like volatility of underlying stocks can help identify good versus bad quality of momentum stocks. Again, like the beta factor this has to be timed systematically.

While the momentum factor is well placed to identify potential winners across market phases a combination of the other factors can potentially aid in capturing market shifts and optimize the underlying risks and smoothen the returns. The idea here is to keep looking for complimentary variables to help improve risk adjusted return of active momentum strategy.

The portfolio will be reviewed on a regular basis and changes will be made as based on the definite signals indicated by the model and on the discretion of the fund manager. The change in the portfolio involves both sale and purchase, both partial and complete, of the existing stocks and purchase of new stocks, if any.

The fund will have the flexibility to invest in a broad range of companies with an objective to maximize the returns, at the same time trying to minimize the risk by reasonable diversification. For investments in Debt Securities, income may be generated through the receipt of coupon payments, the amortization of the discounts on debt instruments or the purchase and sale of securities in the underlying portfolio.

Though every endeavor will be made to achieve the objective of the Scheme, the AMC / Sponsors / trustee do not guarantee that the investment objective of the Scheme will be achieved. No guaranteed returns are being offered under the Scheme.

The securities mentioned above could be listed, unlisted, publicly offered, privately placed, secured, unsecured, rated or unrated and of varying maturity. The securities may be acquired through public offerings (IPOs), secondary market operations, private placement, rights offers or negotiated deals.

Derivatives Strategy: The Scheme may invest in various derivative instruments which are permissible under the applicable regulations. Such investments shall be subject to the investment objective, asset allocation and strategy of the Scheme and the internal limits if any, as laid down from time to time. The Fund may use derivatives instruments like Stock/Index Futures, Interest Rate Swaps, Forward Rate Agreements or other derivative instruments for the purpose of hedging and portfolio balancing, as permitted under the Regulations and guidelines. Usage of derivatives will expose the Schemes to certain risks inherent to such derivatives. Exposure with respect to derivatives shall be in line with regulatory limits and the limits specified in the SID. Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the fund

manager to identify such opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and decision of fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies. The risks associated with the use of derivatives are different from or possibly greater than, the risks associated with investing directly in securities and other traditional investments. For detailed derivative strategies, please refer to SAI.

Portfolio Turnover

Portfolio turnover is the term used by the Fund for measuring the amount of trading that occurs in a Scheme's portfolio during a specified period of time. The Scheme is an open ended Scheme. It is therefore expected that there would be a number of Subscriptions and Redemptions on a daily basis. There may be frequent transaction to buy and sell the Securities resulting in increase in transaction cost. At the same time frequent transactions may increase the profits and which can offset the increase in cost. Consequently, it is difficult to estimate with any reasonable measure of accuracy, the likely turnover in the portfolio. However, the Fund Manager will endeavour to optimize the portfolio turnover to minimize risk and maximize gains while keeping in mind the cost associate with such transaction.

Portfolio turnover is defined as the lower of sales or purchases divided by the average corpus during a specified period of time. Generally, turnover will be confined to rebalancing of portfolio on account of change in the composition and corporate actions of the underlying index.

D. HOW WILL THE SCHEME BENCHMARK ITS PERFORMANCE?

AMFI Tier I Benchmark: NIFTY 500 TRI

As per clause 6.14.2.2 of SEBI Master Circular for Mutual Funds, the performance of MF schemes shall be benchmarked to the Total Return (TRI) variant of the Index chosen as a benchmark as stated in paragraph 6.14.2.1 of the said circular.

The Nifty 500 TRI is the prescribed AMFI Tier 1 benchmark for schemes following Momentum Fund under the thematic cate-gory. The Nifty prescribed Tier 1 500 index represents the top 500 companies based on full market capitalization and average daily turnover from the eligible universe. It represents over 95% of the free float market capitalization of the stocks listed on NSE and is a fair representation of the indicative universe of the portfolio of the Scheme.

Nippon India Active Momentum Fund endeavors to predominantly invest in equity and equity related instruments of companies following Momentum theme. i.e. The fund is designed for investors with a long-term horizon, high-risk appetite, and who are willing to participate in the fund house's 'momentum' thesis which is mathematically/quantitatively built to identify potential investment opportunities. This product would provide investors with an exposure to Momentum Investing as a strategy.

As per Clause 5.16 of SEBI Master Circular dated June 27, 2024 and given the broader theme of the fund and the flexibility to invest across sectors & market capitalization, the proposed benchmark seems to be appropriate.

The Trustee/AMC reserves the right to change the benchmark for the evaluation of the performance of the Scheme from time to time, keeping in mind the investment objective of the Scheme and the appropriateness of the benchmark, subject to SEBI guidelines and other prevalent guidelines. For every change in the benchmark, NAM INDIA will intimate the investors by issuing an addendum.

Part III - OTHER DETAILS

A. COMPUTATION OF NAV

The Net Asset Value (NAV) of the Units will be determined daily or as prescribed by the Regulations. The NAV shall be calculated in accordance with the following formula, or such other formula as may be prescribed by SEBI from time to time.

NAV =	Market/Fair Value of Scheme's Investments + Receivables + Accrued Income + Other Assets - Accrued Expenses- Payables- Other Liabilities
	Number of Units Outstanding

Rounding off policy for NAV

Net Asset Value of the Units in the Scheme is calculated in the manner provided in this Scheme Information Document or as may be prescribed by Regulations from time to time. The NAV will be computed upto four decimal places.

Illustration for computation of NAV:

Particulars	Amount (In INR)
Assets	
Market/Fair Value of Scheme's Investments	1,00,000
Current Assets	
Receivables	1,500
Accrued Income	500
Other Assets	1,000
Total Assets (A)	1,03,000
Current Liabilities	
Accrued Expenses	1,100
Payables	300
Other Liabilities	100
Total Liabilities (B)	1,500
Net Assets (C) (A – B)	1,01,500
Units Outstanding (D)	10,000
NAV per unit (C/D)	10.1500

The mutual fund shall ensure that the repurchase price of the scheme is not lower than 95% of the Net Asset Value.

For other details such as policies w.r.t computation of NAV, rounding off, investment in foreign securities, procedure in case of delay in disclosure of NAV etc. refer to SAI

B. NEW FUND OFFER (NFO) EXPENSES

These expenses are incurred for the purpose of various activities related to the NFO like sales and distribution fees paid marketing and advertising, registrar expenses, printing and stationary, bank charges etc. The NFO expenses shall be borne by the AMC. AMC to ensure that no NFO expenses will be charged to the scheme.

C. ANNUAL SCHEME RECURRING EXPENSES

These are the fees and expenses for operating the scheme. As specified under the section "How will the scheme allocate its assets?" of this document, the scheme will invest a minimum of sixty-five per cent of its net assets in equity and equity related instruments, thus the scheme will be considered as equity oriented scheme for the purpose of limits of total expense ratio as defined under regulation 5A of regulation 52 of the SEBI (MF) Regulations for the purpose of limits of total expenses ratio. These expenses include Investment Management and Advisory Fee charged by the AMC and other expenses as given in the table below:

The AMC has estimated that following % of the daily net assets of the scheme will be charged to the scheme as expenses. The AMC would update the current expense ratios on the website of the mutual fund at least three working days prior to the effective date of the change

Further Actual Expense ratio will be disclosed at the following link:

<https://mf.nipponindiaim.com/investor-services/downloads/total-expense-ratio-of-mutual-fund-schemes>

Estimated Expense Structure

Particulars	% of Net Assets
Investment Management and Advisory Fee	Upto 2.25%

Brokerage and transaction cost (Including GST) over and above 12 bps and 5 bps for cash and derivative market trades respectively	
Other Expenses	
Maximum total expense ratio (TER) permissible under Regulation 52 (6) (c)	Upto 2.25%
Additional expenses under regulation 52 (6A) (c)#	Upto 0.05%
Additional expenses under Section 52 (6A) (b) for gross new inflows from specified investors and cities	Upto 0.30%

(# Expenses charged under the said parameters shall be in line with the Regulation 52 of SEBI (MF) Regulations or such other basis as specified by SEBI from time to time.)

Illustration – Impact of Expense Ratio on the Returns		
Particulars	Regular Plan	Direct Plan
Amount Invested at the beginning of the year	10,000	10,000
Returns before Expenses	1,500	1,500
Expenses other than Distribution Expenses	150	150
Distribution Expenses	50	-
Returns after Expenses at the end of the Year	1,300	1350
Returns	13.00%	13.50%

Note: Please note that the above is an approximate illustration of the impact of expense ratio on the returns, where the Gross NAV has been simply reduced to the extent of the expenses. The actual impact would vary depending on the path of returns over the period of consideration.

Expenses will be charged on daily net assets.

These estimates have been made in good faith as per the information available to the Investment Manager based on past experience and are subject to change inter-se as per actual but the total expenses shall not exceed the limits permitted by SEBI. Types of expenses charged shall be as per the SEBI (MF) Regulations. The purpose of the above table is to assist the investor in understanding the various costs and expenses that an investor in the scheme will bear directly or indirectly.

Mutual funds /AMCs may charge Goods & Service Tax on investment and advisory fees to the scheme in addition to the maximum limit as prescribed in regulation 52 of the SEBI Regulations.

Goods & Service Tax on other than investment and advisory fees, if any, shall be borne by the scheme within the maximum limit as per regulation 52 of the SEBI Regulations.

Mutual Funds/AMCs will annually set apart at least 2 basis points on daily net assets within the maximum limit as per regulation 52 of the SEBI Regulations for investor education and awareness initiatives.

Direct Plan shall have a lower expense ratio excluding distribution expenses, commission, and no commission shall be paid from such plan. Further, the NAV of Direct Plan shall be different from the NAV of Regular Plan given the two plans carry different Total Expense Ratio (TER)".

However, no Investment Management fees would be charged on NAM INDIA's investment in the Scheme. The Trustee Company shall be entitled to receive a sum computed @ 0.05% of the Unit Capital of all the Schemes of NIMF on 1st April each year or a sum of Rs.5,00,000/- whichever is lower or such other sum as may be agreed from time to time in accordance with the SEBI Regulations or any other authority, from time to time.

The total expenses of the scheme including the investment management and advisory fee shall not exceed the limits stated in Regulation 52(6) which are as follows:

- (i) On the first Rs. 500 crores of the daily net assets - 2.25%;
- (ii) On the next Rs. 250 crores of the daily net assets – 2.00%;
- (iii) On the next Rs. 1,250 crores of the daily net assets - 1.75%;
- (iv) On the next Rs. 3,000 crores of the daily net assets - 1.60%;
- (v) On the next Rs. 5,000 crores of the daily net assets - 1.50%;
- (vi) On the next Rs. 40,000 crores of the daily net assets – Total expense ratio reduction of 0.05% for every increase of Rs. 5,000 crores of daily net assets or part thereof;
- (vii) On the balance of the assets – 1.05%;

AMC is free to allocate the above list of expenses within the overall maximum limit prescribed under SEBI (Mutual Funds) Regulations, 1996, which means there will be no internal sub-limits on charging of any particular expense in the scheme.

In terms of Regulation 52(1) of SEBI (Mutual Funds) Regulations, 1996, all scheme related expenses including commission paid to distributors, by whatever name it may be called and in whatever manner it may be paid, will necessarily be paid from the scheme only within the regulatory limits and not from the books of AMC, its associate, sponsor, trustee or any other entity through any route. Provided that the expenses that are very small in value but high in volume may be paid out of AMC's books. Such expenses shall be paid out of AMC books at actuals or not exceeding 2 bps of respective scheme AUM, whichever is lower. List of such miscellaneous expenses may be provided by AMFI in consultation with SEBI or as specified/amended by AMFI/SEBI from time to time.

In addition to the limits specified in regulation 52(6), the following costs or expenses may be charged to the scheme as per new sub regulation 6A, namely-

- (a) Brokerage and Transaction costs (including GST) incurred for the execution of trades may be expensed out in the scheme to the extent of 0.12 per cent of the value of trades in case of cash market transactions and 0.05 per cent of the value of trades in case of derivatives transactions. Any payment towards brokerage and transaction costs incurred for the execution of trades, over and above the said 0.12 per cent and 0.05 per cent for cash market transactions and derivatives transactions respectively may be charged to the scheme within the maximum limit of Total Expense Ratio (TER) as prescribed under Regulation 52 of the SEBI (Mutual Funds) Regulations, 1996.
- (b) expenses not exceeding of 0.30 per cent of daily net assets, if the new inflows from such investors and cities, as specified by the SEBI from time to time are at least –
 - (i) 30 per cent of gross new inflows in the scheme, or;
 - (ii) 15 per cent of the average assets under management (year to date) of the scheme, whichever is higher:

Note: In line with AMFI communication no.35P/MEM-COR/85-a/2022-23 dated March 2, 2023 and SEBI letter no. SEBI/H0/IMD/IMDSEC-3/P/OW/2023/5823/1 dated February 24, 2023, the B-30 incentive structure is kept in abeyance from March 1, 2023, till any further guidelines regarding necessary safeguards are issued by SEBI.

Provided that if inflows from such cities is less than the higher of sub-clause (i) or sub-clause (ii), such expenses on daily net assets of the scheme shall be charged on proportionate basis:

Provided further that expenses charged under this clause shall be utilised for distribution expenses incurred for bringing inflows from such cities.

Provided further that amount incurred as expense on account of inflows from such specified investors and cities shall be credited back to the scheme in case the said inflows are redeemed within a period of one year from the date of investment;

Provided further that, additional TER of 0.30 per cent can be charged based on inflows from retail investors only. For the purpose of additional TER, inflows of amount upto Rs 2,00,000/- per transaction, by individual investors shall be considered as inflows from "retail investors" as stipulated by Clause 10.1.3 of SEBI Master Circular dated June 27, 2024, as amended from time to time.

- (c) additional expenses, incurred towards different heads mentioned under sub-regulations (2) and (4), not exceeding 0.05 per cent of daily net assets of the scheme.

The Fund will strive to reduce the level of these expenses in order to keep them well within the maximum limits allowed by SEBI. Expenses on an ongoing basis will not exceed the percentage of the daily net assets or such maximum limits as may be specified by SEBI Regulations from time to time.

D. LOAD STRUCTURE

Exit Load is an amount which is paid by the investor to redeem the units from the scheme. This amount is used by the AMC to pay commissions to the distributor and to take care of other marketing and selling expenses. Load amounts are variable and are subject to

change from time to time. For the current applicable structure, please refer to the website of the AMC <https://mf.nipponindiaim.com> or may call at Customer Service Centre 1860-266-0111 (charges applicable), and Investors outside India can call at 91-22-69259696 (charges applicable) or your distributor.

Type of Load	Load chargeable (as a % of NAV)
Exit	<p>1% if redeemed or switched out on or before completion of 1 year from the date of allotment of units. Nil, thereafter</p> <p>Exit load if charged, by NIMF to the unit holders shall be credited to the scheme immediately net of Goods & Service Tax, if any</p> <p>For any change in load structure NAM India will issue an addendum and display it on the website/Investor Service Centres.</p>

NAM India, in consultation with the Trustees, reserves the right to change the load structure if it so deems fit in the interest of smooth and efficient functioning of the scheme. Any imposition or enhancement in the load shall be applicable on prospective investments only. However, NAM India shall not charge any load on issue of units allotted on reinvestment of IDCW for existing as well as prospective investors. At the time of changing the load structure:

(i) The addendum detailing the changes may be attached to Scheme Information Documents and key information memorandum. The addendum may be circulated to all the distributors/brokers so that the same can be attached to all Scheme Information Documents and Key Information Memoranda already in stock.

(ii) Arrangements may be made to display the addendum in the Scheme Information Document in the form of a notice in all the investor service centres and distributors/brokers office.

(iii) The introduction of the exit load alongwith the details may be stamped in the acknowledgement slip issued to the investors on submission of the application form and may also be disclosed in the statement of accounts issued after the introduction of such load. 19

(v) Any other measures which the mutual funds may feel necessary.

The investor is requested to check the prevailing load structure of the scheme before investing.

For any change in load structure NAM India will issue an addendum and display it on the website/Investor Service Centres.

B. Risk Factors

SCHEME SPECIFIC RISK FACTORS

(a) Risks associated with investing in Equities

- Equity and Equity related instruments are volatile in nature and are subject to price fluctuations on daily basis. The volatility in the value of the equity and equity related instruments is due to various micro and macro-economic factors affecting the securities markets. This may have adverse impact on individual securities /sector and consequently on the NAV of Scheme.
- The inability of the Scheme to make intended securities purchases due to settlement problems could cause the Scheme to miss certain investment opportunities as in certain cases, settlement periods may be extended significantly by unforeseen circumstances. Similarly, the inability to sell securities held in the schemes portfolio may result, at times, in potential losses to the scheme, should there be a subsequent decline in the value of the securities held in the schemes portfolio.
- Trading volumes, settlement periods and transfer procedures may restrict the liquidity of the investments made by the scheme. Different segments of the Indian financial markets have different settlement periods and such periods may be extended significantly by unforeseen circumstances leading to delays in receipt of proceeds from sale of securities.
- Investors may note that dividend is due only when declared and there is no assurance that a company may continue paying dividend in future. As such, the schemes are vulnerable to instances where investments in securities may not earn dividend or where lesser dividend is declared by a company in subsequent years in which investments are made by schemes. As the profitability of companies are likely to vary and have a material bearing on their ability to declare and pay dividend, the performance of the schemes may be adversely affected due to such factors.
- Securities, which are not quoted on the stock exchanges, are inherently illiquid in nature and carry a larger amount of liquidity risk.
- While securities that are listed on the stock exchange carry lower liquidity risk, the ability to sell these investments is limited by the overall trading volume on the stock exchanges. The liquidity of the Schemes' investments is inherently restricted by trading volumes in the securities in which it invests.
- Fund manager endeavors to generate returns based on certain past statistical trend. The performance of the schemes may get affected if there is a change in the said trend. There can be no assurance that such historical trends will continue.
- In case of abnormal circumstances, it will be difficult to complete the square off transaction due to liquidity being poor in stock futures/spot market. However, fund will aim at taking exposure only into liquid stocks where there will be minimal risk to square off the transaction. The Schemes investing in foreign securities will be exposed to settlement risk, as different countries have different settlement periods.
- Changes in Government policy in general and changes in tax benefits applicable to mutual funds may impact the returns to investors in the Schemes or business prospects of the Company in any sector.

The Scheme may find itself invested in unlisted securities due to external events or corporate actions. This may increase the risk of the portfolio as these unlisted securities are inherently illiquid in nature and carry larger liquidity risk as compared to the listed securities or those that offer other exit options to the investors.

Investments in equity and equity related securities involve high degree of risks and investors should not invest in the Scheme unless they can afford to take the risk of losing their investment.

(b) Risks associated with investing in Fixed Income Securities

Investment in Debt and money market instruments is subject to price, credit, and interest rate risk. The NAV of the Scheme may be affected, inter alia, by changes in the market conditions, interest rates, trading volumes, settlement periods and transfer procedures.

Corporate debt securities are subject to the risk of an issuer's inability to meet interest and principal payments on its debt obligations (credit risk). Debt securities may also be subject to price volatility due to factors such as changes in interest rates, general level of market liquidity and market perception of the creditworthiness of the issuer, among others (market risk). The Investment Manager will endeavor to manage credit risk through in-house credit analysis. The Scheme may also use various hedging products from time to time, as are available and permitted by SEBI, to attempt to reduce the impact of undue market volatility on the Scheme's portfolio.

The NAV of the Scheme's Units, to the extent that the Scheme is invested in fixed income securities, will be affected by changes in the general level of interest rates. When interest rates decline, the value of a portfolio of fixed income securities can be expected to rise. Conversely, when interest rates rise, the value of a portfolio of fixed income securities can be expected to decline. Investing in Bonds and Fixed Income securities are subject to the risk of an Issuer's inability to meet principal and interest payments obligation (credit risk) and may also be subject to price volatility due to such factors as interest rate sensitivity, market perception of the creditworthiness of the issuer and general market liquidity (market risk).

The timing of transactions in debt obligations, which will often depend on the timing of the Purchases and Redemptions in the Scheme, may result in capital appreciation or depreciation because the value of debt obligations generally varies inversely with the prevailing interest rates.

Interest Rate Risk: As with all debt securities, changes in interest rates will affect the Scheme's Net Asset Value as the prices of securities generally increase as interest rates decline and generally decrease as interest rates rise. Prices of longer-term securities generally fluctuate more in response to interest rate changes than do shorter-term securities. Interest rate movements in the Indian debt markets can be volatile leading to the possibility of large price movements up or down in debt and money market securities and thereby to possibly large movements in the NAV.

Credit Risk: Credit risk or default risk refers to the risk which may arise due to default on the part of the issuer of the fixed income security (i.e. will be unable to make timely principal and interest payments on the security). Because of this risk debentures are sold at a yield spread above those offered on Treasury securities, which are sovereign obligations and generally considered to be free of credit risk. Normally, the value of a fixed income security will fluctuate depending upon the actual changes in the perceived level of credit risk as well as the actual event of default.

Reinvestment Risk: This risk refers to the interest rate levels at which cash flows received from the securities in the Scheme or from maturities in the Scheme are reinvested. The additional income from reinvestment is the "interest on interest" component. The risk refers to the fall in the rate for reinvestment of interim cash flows.

Risks associated with various types of securities

	CREDIT RISK	LIQUIDITY RISK	PRICE RISK
Listed	Depends on credit quality	Relatively Low	Depends on duration of instrument
Unlisted	Depends on credit quality	Relatively High	Depends on duration of instrument
Secured	Relatively low	Relatively Low	Depends on duration of instrument
Unsecured	Relatively high	Relatively High	Depends on duration of instrument
Rated	Relatively low and depends on the rating	Relatively Low	Depends on duration of instrument
Unrated	Relatively high	Relatively High	Depends on duration of instrument

Different types of securities in which the scheme would invest as given in the Scheme Information Document carry different levels and types of risk. Accordingly, the scheme's risk may increase or decrease depending upon its investment pattern e.g. corporate bonds, carry a higher level of risk than Government securities. Further even among corporate bonds, bonds which are AAA rated are comparatively less risky than bonds which are AA rated.

(c) Market Trading Risks

Liquidity or Marketability Risk: This refers to the ease at which a security can be sold at or near its true value. The primary measure of liquidity risk is the spread between the bid price and the offer price quoted by a dealer. Liquidity risk is characteristic of the Indian fixed income market.

(d) Risks associated with Investing in Derivatives:

The Schemes may use various derivative products as permitted by the Regulations. Use of derivatives requires an understanding of not only the underlying instrument but also of the derivative itself. Other risks include the risk of mis-pricing or improper valuation and the inability of derivatives to correlate perfectly with underlying assets, rates and indices.

The Fund may use derivatives instruments like Stock/Index Futures, Interest Rate Swaps, Forward Rate Agreements or other derivative instruments for the purpose of hedging and portfolio balancing, as permitted under the Regulations and guidelines. Usage of derivatives will expose the Schemes to certain risks inherent to such derivatives.

Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the fund manager to identify such opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and decision of fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies.

Thus, derivatives are highly leveraged instruments. Even a small price movement in the underlying security could have a large impact on their value. Also, the market for derivative instruments is nascent in India.

The risks associated with the use of derivatives are different from or possibly greater than the risks associated with investing directly in securities and other traditional investments.

The specific risk factors arising out of a derivative strategy used by the Fund Manager may be as below:

Lack of opportunity available in the market.

The risk of mispricing or improper valuation, and the inability of derivatives to correlate perfectly with underlying assets, rates and indices.

Execution Risk: The prices which are seen on the screen need not be the same at which execution will take place

Basis Risk: This risk arises when the derivative instrument used to hedge the underlying asset does not match the movement of the underlying asset being hedged

Exchanges could raise the initial margin, variation margin or other forms of margin on derivative contracts, impose one sided margin's or insist that margins be placed in cash. All of these might force positions to be unwound at a loss and might materially impact returns.

(e) Risks for writing Covered Call Options for Equity Shares

A call option gives the holder (buyer) the right but not the obligation to buy an asset by a certain date for a certain price. Covered calls are an options strategy where a person holds a long position in an asset and writes (sells) call options on that same asset to generate an income stream. The Scheme may write call options under covered call strategy, as permitted by the regulations. Risks associated thereto are mentioned below:

- a) Writing call options are highly specialized activities and entail higher than ordinary investment risks. In such investment strategy, the profits from call option writing is capped at the option premium, however the downside depends upon the increase in value of the underlying equity shares. This downside risk is reduced by writing covered call options.
- b) In accordance with para 12.25.8 of SEBI Master Circular dated June 27, 2024, the Scheme may write covered call option only in case it has adequate number of underlying equity shares. This would lead to setting aside a portion of investment in underlying equity shares. If covered call options are sold to the maximum extent allowed by regulatory authority, the scheme may not be able to sell the underlying equity shares immediately if the view changes to sell and exit the stock. The covered call options need to be unwound before the stock positions can be liquidated. This may lead to a loss of opportunity or can cause exit issues if the strike price at which the call option contracts have been written become illiquid. Hence, the scheme may not be able to sell the underlying equity shares, which can lead to temporary illiquidity of the underlying equity shares and result in loss of opportunity.
- c) The writing of covered call option would lead to loss of opportunity due to appreciation in value of the underlying equity shares. Hence, when the appreciation in equity share price is more than the option premium received the scheme would be at a loss.
- d) The total gross exposure related to option premium paid and received must not exceed the regulatory limits of the net assets of the scheme. This may restrict the ability of Scheme to buy any options.

Potential benefits of Covered call

- a) The premium received from selling a covered call can be kept as income.
- b) Selling covered calls can help investors target a selling price for the stock that is above the current price.

For example: If an investor buys a stock at Rs 50 per share and sell a call option that pays a premium of Rs 2 per share. If the stock price declines, then investor with covered call will earn this Rs. 2 per share on short call option and he will lose Rs 2 per share on stock. Thus, not losing any money because of this hedge position. The investor will be better off than the other investor who chooses not to write the covered call. The other perspective is the cost basis is reduced by Rs 2 per share or the break even price moves from Rs 50 to Rs 48.

(f) Risk factors associated with repo transactions in corporate bonds –

In repo transactions, also known as a repo or sale repurchase agreement, securities are sold with the seller agreeing to buy them back at later date. The repurchase price should be greater than the original sale price, the difference effectively representing interest. A repo is economically similar to a secured loan, with the buyer receiving corporate debt securities as collateral to protect against default. The Scheme may invest in repo of corporate debt securities which are subject to the following risks:

- a) **Counterparty Risk:** This refers to the inability of the seller to meet the obligation to buy back securities at the contracted price. The Investment Manager will endeavor to manage counterparty risk by dealing only with counterparties having strong credit profiles assessed through in-house credit analysis or with entities regulated by SEBI/RBI/IRDA.
- b) **Collateral Risk:** In the event of default by the repo counterparty, the schemes have recourse to the corporate debt securities. Collateral risk arises when the market value of the securities is inadequate to meet the repo obligations. This risk is mitigated by restricting participation in repo transactions only in AA and above rated money market and corporate debt securities. In addition, appropriate haircuts are applied on the market value of the underlying securities to adjust for the illiquidity and interest rate risk on the underlying instrument.

(g) Risk associated with Short Selling & Securities Lending

Securities Lending is a lending of securities through an approved intermediary to a borrower under an agreement for a specified period with the condition that the borrower will return equivalent securities of the same type or class at the end of the specified period along with the corporate benefits accruing on the securities borrowed. In case the Scheme undertakes stock lending under the Regulations, it may, at times be exposed to counter party risk and other risks associated with the securities lending. Unitholders of the Scheme should note that there are risks inherent to securities lending, including the risk of failure of the other party, in this case the approved intermediary, to comply with the terms of the agreement entered into between the lender of securities i.e. the Scheme and the approved intermediary. Such failure can result in the possible loss of rights to the collateral put up by the borrower of the securities, the inability of the approved intermediary to return the securities deposited by the lender and the possible loss of any corporate benefits accruing to the lender from the securities deposited with the approved intermediary.

Short-selling is the sale of shares that the seller does not own at the time of trading. Instead, he borrows it from someone who already owns it. Later, the short seller buys back the stock he shorted and returns the stock to close out the loan. If the price of the stock has fallen, he can buy the stock back for less than he received for selling it and profits from it (the difference between higher short sale price and the lower purchase price). However, Short positions carry the risk of losing money and these losses may grow theoretically unlimited if the price increases without limit and shall result into major losses in the portfolio.

The risks in lending portfolio securities, as with other extensions of credit, consist of the failure of another party, in this case the approved intermediary, to comply with the terms of agreement entered into between the lender of securities i.e. the Scheme and the approved intermediary. Such failure to comply can result in the possible loss of rights in the collateral put up by the borrower of the securities, the inability of the approved intermediary to return the securities deposited by the lender and the possible loss

of any corporate benefits accruing to the lender from the securities deposited with the approved intermediary. The Mutual Fund may not be able to sell such lent securities and this can lead to temporary illiquidity.

(h) Risks associated with investing in Overseas / foreign Securities / Overseas ETF

The Fund may invest in overseas equities / Overseas ETF / ADR's / GDR's with the approval of RBI/SEBI, subject to such guidelines as may be issued by RBI/SEBI. The net assets, distributions and income of the scheme may be affected adversely by fluctuations in the value of certain foreign currencies relative to the Indian Rupee to the extent of investments in these securities. Repatriation of such investment may also be affected by changes in the regulatory and political environments. The scheme's NAV may also be affected by a fluctuation in the general and specific level of interest rates internationally, or the change in the credit profiles of the issuers.

(i) Risk associated with Imperfect Hedging using Interest Rate Futures

1) Basis Risk

Each security would be hedged with an Interest rate future. Hypothetically creating an imperfect hedge, IGB 7.17% 2028 on which we are long, and short on an (interest rate future) IRF 6.79% 2027 for which the underlying is 10 year bond, if the spot yield are 7% and future yield is 7.3% the basis would be of 0.3%. There is an inherent risk of this basis (spread) narrowing, widening or remaining stable/flat.

Spread widening means that the spot becomes 6.9% and future becomes 7.25% - the basis increases in total by 0.5% and new basis is 0.35%. Due to this there would be a profit of 5bps on the IGB 8.15% 2026 long bond and there would be a loss of 5bps on IRF short future position. This would result in an overall profit as the price of a bond would increase more compared to the increase in the price of IRF due to the duration and convexity effect.

Spread narrowing means that the spot becomes 7.2% and future becomes 7.35% - the basis decreases in total by 0.15% and the new basis is 0.15%. This would result in a loss as the price of IGB 8.15% 2026 bond would decrease more compared to the decrease in the price of IRF due to the duration and convexity effect.

Spread remaining flat or stable means that the spread does not move or is a negligible change in the basis i.e. in our example is of 0.3%.

2) Mispricing Risk, or improper valuation:

Market circumstances may necessitate unwinding the derivative positions at sub-optimal prices during periods of market dislocation triggered by contagion or turmoil e.g. if the expected upward trajectory of yields reverses course and begins to spiral downward, most participants with short Interest Rate Futures positions are likely to seek an unwinding, leading to a potential amplification in the adverse price movement, and impact there from.

3) Liquidity Risk:

This refers to the ease at which a security can be sold at or near its true value. The primary measure of liquidity risk is the spread between the bid price and the offer price quoted by a dealer. Liquidity risk is characteristic of the Indian fixed income market.

4) Correlation weakening, and consequent risk of regulatory breach –

SEBI regulation mandates minimum correlation criteria of 0.9 (calculated on a 90 day basis) between the portfolio being hedged and the derivative serving as the hedge; in cases where this limit is breached (i.e. when the 90-day correlation falls below 0.9), a rebalancing period of 5 working days has been permitted. Inability to satisfy this requirement within the stipulated period due to difficulties in re-balancing would lead to a lapse of the exemption in gross exposure computation. The entire derivative exposure would then need to be included in gross exposure, which may result in gross exposure in excess of 100% of net asset value; leverage is not permitted as per SEBI guidelines.

Numerical Example Explaining Imperfect Hedging with Investments In IRF's

Perfect hedging:

Spot price of Govt. security (6.79% 2027) = 94.42, Yield – 7.68%

Price of IRF - November Contract (expiry on 23-November-2017) = Rs 94.45

On 5th November, 2017, the fund bought Rs 100 crores worth of government security from the spot market at Rs 94.42. Subsequently, it is anticipated that yields may rise in the near future. Thus, to hedge the underlying position taken, the fund sells November 2017 IRF 6.79% 2027. The price of the Futures contract is Rs 94.45.

On 11th November, 2017, assuming due to increase in yields:

Spot price of the security (6.79% 2027) = 94.00

Price of IRF - November Contract (expiry on 23-November-2017) = 94.03

Thus, due to hedging the portfolio:

Loss in the underlying security: $(94.00 - 94.42) * 100$ crores = (0.42 crores)

Profit in the futures market: $(94.45 - 94.03) * 100$ crores = 0.42 crores.

Thus due to the effective use of Interest Rate Futures, the notional loss in the underlying security is getting offset by the IRF future position.

Imperfect hedging:

DP = Duration of the portfolio (measure of the interest rate sensitivity of the portfolio) = 7

DF = Duration of the underlying security of the futures contract = 6

P = Portfolio's market value = 100 crores

Y = underlying interest rate or portfolio yield = 8.00%

The portfolio can be a mix of:

- 1) Corporate Bonds and Government securities
- 2) Only Corporate Bonds (i.e. no Government securities)

Subsequently, if it is anticipated that yields may rise in the future, the fund manager can hedge the underlying duration risk in the IRF by selling the futures contract.

Imperfect hedge allowed as per the SEBI limit = 20% of the Net asset of the portfolio

Assuming the interest rates rise by 50 bps point, post the imperfect hedging

Change in the market value of the portfolio = $(P \times DP \times \text{Change in interest rate}) = 100 \text{ crores} \times 7 \times (0.50\%) = (3.50 \text{ crores})$

Duration risk managed due to hedge in IRF = % of portfolio hedged * P * DF * Change in the interest rates = $20\% \times 100 \times 6 \times (0.50\%) = 0.60 \text{ crores}$

Thus, net change in the market value of the portfolio = Rs 100 – Rs 3.50 + Rs 0.60 = Rs 97.10

As can be seen from the above, in case yields move higher by 50 bps, there is a loss in the portfolio for Rs 3.5 crores, but due to the active hedging, IRFs position helps in reducing the loss in the portfolio by 0.60 crores.

(j) Risks associated with segregated portfolio

Liquidity risk

1. Investor holding units of segregated portfolio may not able to liquidate their holding till the time recovery of money from the issuer.
2. Listing of units of segregated portfolio in recognised stock exchange does not necessarily guarantee their liquidity. There may not be active trading of units in the stock market. Further trading price of units on the stock market may be significantly lower than the prevailing NAV.

Credit risk

3. Security comprises of segregated portfolio may not realise any value.

(k) Risks associated with investing in Tri Party Repo through CCIL (TREPS):

The mutual fund is a member of securities segment and Tri-party Repo trade settlement of the Clearing Corporation of India (CCIL). All transactions of the mutual fund in government securities and in Tri-party Repo trades are settled centrally through the infrastructure and settlement systems provided by CCIL; thus, reducing the settlement and counterparty risks considerably for transactions in the said segments.

CCIL maintains prefunded resources in all the clearing segments to cover potential losses arising from the default member. In the event of a clearing member failing to honour his settlement obligations, the default Fund is utilized to complete the settlement. The sequence in which the above resources are used is known as the "Default Waterfall".

As per the waterfall mechanism, after the defaulter's margins and the defaulter's contribution to the default fund have been appropriated, CCIL's contribution is used to meet the losses. Post utilization of CCIL's contribution if there is a residual loss, it is appropriated from the default fund contributions of the non-defaulting members.

Thus, the scheme is subject to risk of the initial margin and default fund contribution being invoked in the event of failure of any settlement obligations. In addition, the fund contribution is allowed to be used to meet the residual loss in case of default by the other clearing member (the defaulting member).

However, it may be noted that a member shall have the right to submit resignation from the membership of the Security segment if it has taken a loss through replenishment of its contribution to the default fund for the segments and a loss threshold as notified have been reached. The maximum contribution of a member towards replenishment of its contribution to the default fund in the 7 days (30 days in case of securities segment) period immediately after the afore-mentioned loss threshold having been reached shall not exceed 5 times of its contribution to the Default Fund based on the last re-computation of the Default Fund or specified amount, whichever is lower.

Further, it may be noted that, CCIL periodically prescribes a list of securities eligible for contributions as collateral by members. Presently, all Central Government securities and Treasury bills are accepted as collateral by CCIL. The risk factors may undergo change in case the CCIL notifies securities other than Government of India securities as eligible for contribution as collateral.

(l) Risk Factors Associated with Investments in REITs and InvITS:

- a) Price-Risk or Interest-Rate Risk: REITs & InvITS run price-risk or interest-rate risk. Generally, when interest rates rise, prices of existing securities fall and when interest rates drop, such prices increase. The extent of fall or rise in the prices is a function of the existing coupon, days to maturity and the increase or decrease in the level of interest rates.
- b) Credit Risk: In simple terms this risk means that the issuer of a debenture/ bond or a money market instrument may default on interest payment or even in paying back the principal amount on maturity. REITs & InvITS are likely to have volatile cash flows as the repayment dates would not necessarily be pre scheduled.
- c) Liquidity or Marketability Risk: This refers to the ease with which a security can be sold at or near to its valuation yield-to maturity (YTM). The primary measure of liquidity risk is the spread between the bid price and the offer price quoted by a dealer. As these products are new to the market they are likely to be exposed to liquidity risk.
- d) Reinvestment Risk: Investments in REITs & InvITS may carry reinvestment risk as interest rates prevailing on the interest or maturity due dates may differ from the original coupon of the bond. Consequently, the proceeds may get invested at a lower rate.

- e) Risk of lower than expected distributions: The distributions by the REIT or InvIT will be based on the net cash flows available for distribution. The amount of cash available for distribution principally depends upon the amount of cash that the REIT/ InvITs receives as dividends or the interest and principal payments from portfolio assets. The above are some of the common risks associated with investments in REITs & InvITs. There can be no assurance that investment objectives will be achieved, or that there will be no loss of capital. Investment results may vary substantially on a monthly, quarterly or annual basis.

(m) Other Scheme Specific Risk factors

- a) The liquidity of the Scheme's investments may be inherently restricted by trading volumes, settlement periods and transfer procedures. In the event of an inordinately large number of redemption requests, or of a re-structuring of the Scheme's investment portfolio, these periods may become significant. Please read the Sections of this Scheme Information Document entitled "Special Considerations" and "Right to Limit Redemptions" there under.
- b) Although, the objective of the Fund is to generate optimal returns, the objective may or may not be achieved. The investors may note that if the AMC/Investment Manager is not able to make right decision regarding the timing of increasing exposure in debt securities in times of falling equity market, it may result in negative returns. Given the nature of scheme, the portfolio turnover ratio may be on the higher side commensurate with the investment decisions and Asset Allocation of the Scheme. At times, such churning of portfolio may lead to losses due to subsequent negative or unfavorable market movements.
- c) The tax benefits available under the scheme are as available under the present taxation laws and are available only to certain specified categories of investors and that is subject to fulfillment of the relevant conditions. The information given is included for general purposes only and is based on advise that the AMC has received regarding the law and the practice that is currently in force in India and the investors and the Unitholders should be aware that the relevant fiscal rules and their interpretation may change. As is the case with any investment, there can be no guarantee that the tax position or the proposed tax position prevailing at the time of investment in the Scheme will endure indefinitely. In view of the individual nature of tax consequences, each Investor/Unitholder is advised to consult his/her own professional tax advisor.
- d) Subject to the Regulations, the investments may be in securities which are listed or unlisted, secured or unsecured, rated or unrated, and acquired through secondary market purchases, RBI auctions, open market sales conducted by RBI etc., Initial Public Offers (IPOs), other public offers, placements, rights, offers, negotiated deals, etc
- e) The NAV of the scheme to the extent invested in Debt and Money market securities are likely to be affected by changes in the prevailing rates of interest and are likely to affect the value of the Scheme's holdings and thus the value of the Scheme's Units.
- f) The AMC may, considering the overall level of risk of the portfolio, invest in lower rated/ unrated securities offering higher yields. This may increase the risk of the portfolio.
- g) While securities that are listed on the stock exchange carry lower liquidity risk, the ability to sell these investments is limited by the overall trading volume on the stock exchanges. Money market securities, while fairly liquid, lack a well-developed secondary market, which may restrict the selling ability of the Scheme and may lead to the Scheme incurring losses till the security is finally sold.

C. Risk mitigation strategies

Since investing requires disciplined risk management, the AMC would incorporate adequate safeguards for controlling risks in the portfolio construction process. The risk control process involves reducing risks through portfolio diversification, taking care however not to dilute returns in the process. The AMC believes that this diversification would help achieve the desired level of consistency in returns.

The AMC aims to identify securities, which offer superior levels of yield at lower levels of risks. With the aim of controlling risks, rigorous in depth credit evaluation of the securities proposed to be invested in will be carried out by the investment team of the AMC.

While these measures are expected to mitigate the above risks to a large extent, there can be no assurance that these risks would be completely eliminated.

Type of Risks	Measures/ Strategies to control risks
Equity Markets/ Equity Oriented Instruments	<ul style="list-style-type: none"> • Investment strategy: The fund will comply with the prescribed SEBI limits on exposure. Risk is monitored and necessary action would be taken on the portfolio, if required. Attribution analysis is done to monitor the under or over performance vis a vis the benchmark and the reasons for the same. • Portfolio volatility & concentration: The overall volatility of the portfolio would be maintained in line with the objective of the scheme Volatility would be monitored with respect to the benchmark and peer set. • Liquidity: The scheme predominantly invests across market capitalisations which are actively traded and thereby liquid. The fund manager may also keep some portion of the portfolio in debt and money market instruments and/or cash within the specified asset allocation framework for the purpose of meeting redemptions. The liquidity would be monitored and necessary action would be taken on the portfolio if required. Stock turnover is monitored at regular intervals. The debt/money market instruments that are invested by the fund will have a short term duration.
Debt and Money Market instruments	<ul style="list-style-type: none"> • Credit Risk: Management analysis will be used for identifying company specific risks. Management's past track record will also be studied. In order to assess financial risk a detailed assessment of the issuer's financial statements will be undertaken. • Price-Risk or Interest-Rate Risk: The Scheme may primarily invest the debt portion of the portfolio in short term debt & money market instruments, units of Liquid and Overnight schemes thereby mitigating the price volatility due to interest rate changes generally associated with long-term securities. • Risk of Rating Migration: The Scheme may primarily invest the debt portion of the portfolio in short-term debt & money market instruments, units of Liquid and Overnight schemes thereby mitigating the risk of rating migration generally associated with long-term securities.

	<ul style="list-style-type: none"> • Basis Risk: The debt allocation of scheme is primarily as a cash management strategy and such strategy returns are expected to reflect the very short term interest rate hence investment is done in short term debt and money market instruments. • Spread Risk: The Scheme may primarily invest the debt portion of the portfolio in short-term debt & money market instruments, units of Liquid and Overnight schemes thereby mitigating the risk of spread expansion which is generally associated with long-term securities • Reinvestment Risk: The debt allocation of scheme is primarily as a cash management strategy and such strategy returns are expected to reflect the very short term interest rate hence investment is done in short term debt and money market instruments. Reinvestment risks will be limited to the extent of debt instruments, which will be a very small portion of the overall portfolio value. • Liquidity Risk: The Scheme may, however, endeavor to minimize liquidity risk by primarily investing the debt portion of the portfolio in relatively liquid short-term debt & money market instruments, units of Liquid and Overnight schemes.
Derivatives	The Scheme may invest in derivative for the purpose of hedging, portfolio balancing and other purposes as may be permitted under the Regulations. Equity Derivatives will be used in the form of Index Options, Index Futures, Stock Options and Stock Futures and other instruments as may be permitted by SEBI. Derivatives can be either exchange traded or can be over the counter (OTC). Exchange traded derivatives are listed and traded on stock exchanges whereas OTC derivative transactions are generally structured between two counterparties. Exposure with respect to derivatives shall be in line with regulatory limits and the limits specified in the SID.
Securities Lending	The SLB shall be operated through Clearing Corporation/Clearing House of stock exchanges having nation-wide terminals who are registered as Approved Intermediaries (AIs).” The risk is adequately covered as Securities Lending & Borrowing (SLB) is an Exchange traded product. Exchange offers an anonymous trading platform and gives the players the advantage of settlement guarantee without the worries of counter party default. However, the Fund may not be able to sell such lent securities during contract period or have to recall the securities which may be at higher than the premium at which the security is lent.
Currency	The scheme subject to applicable regulations shall have the option to enter into forward contracts for the purpose of hedging against the foreign exchange fluctuations. The Schemes may employ various measures (as permitted by SEBI/RBI) including but not restricted to currency hedging (such as currency options and forward currency exchange contracts, currency futures, written call options and purchased put options on currencies and currency swaps), to manage foreign exchange movements arising out of investment in foreign securities. All currency derivatives trade, if any will be done only through the stock exchange platform.
REITs and InvITS	The fund will comply with the prescribed SEBI limits on exposure. The scheme will endeavour to invest in liquid REITs & InvITs.
Government securities and Triparty repo on Government securities or treasury bills:	As a member of securities segment and Triparty repo segment, maintenance of sufficient margin is a mandatory requirement. CCIL monitors these on a real time basis and requests the participants to provide sufficient margin to enable the trades etc. Also, there are stringent conditions / requirements before registering any participants by CCIL in these segments. Since settlement is guaranteed the loss on this account could be minimal though there could be an opportunity loss.
Units of mutual fund schemes	Mutual Fund portfolios are generally well diversified and typically endeavor to provide liquidity on a T+1/T+2 basis and aim to mitigate any risks arising out of underlying investments. Commodity ETF's are quite liquid as they can either be created / redeemed with the fund house or traded on the exchange

II. Information about the scheme:

A. Where will the scheme invest

The scheme will strategically invest in a diversified portfolio of equity and equity-related instruments following Momentum theme. The selection of these instruments will be based on a quantitative model meticulously designed to identify potential investment opportunities that exhibit the potential for significant capital appreciation over the specified investment horizon. The Scheme may also invest a certain proportion of its corpus in debt and money market securities of India.

The Fund may invest in:

1. Equity and equity related securities are such instruments like Convertible bonds and debentures and warrants carrying the right to obtain equity shares and derivative instruments.
2. ADRs/ GDRs issued by Indian companies, subject to guidelines issued by RBI/ SEBI.
3. Foreign securities in accordance with SEBI Guidelines.
4. Money market instruments permitted by SEBI/RBI
5. Open-ended Liquid Schemes registered with SEBI or schemes that invest predominantly in money market instruments / securities.
6. Commercial Paper (CP) (listed), Certificate of Deposits (CD), Treasury Bills, Bills Rediscounting, Tri-party Repo/Reverse Repo (including repo in corporate bonds).

The scheme shall not invest in unlisted debt instruments including commercial papers (CPs), other than (a) government securities, (b) other money market instruments and (c) derivative products such as Interest Rate Swaps (IRS), Interest Rate Futures (IRF), etc. which are used by mutual funds for hedging.

15. All investments in overseas securities will be governed based on SEBI guidelines issued from time to time. The Scheme may invest in various types of Foreign Securities including, but not limited to, any of the following:
 - (i) Foreign debt securities (non-convertible) in the countries with fully convertible currencies.
 - (ii) Overseas short term as well as long term debt instruments with rating not below investment grade by accredited/registered credit rating agencies.
 - (iii) Overseas Money market instruments rated not below investment grade.
16. The Fund may also enter into "Repo", hedging or such other transactions as may be allowed to Mutual Funds from time to time. Investments in Tri-Party Repo would be as per the RBI circular dated July 24, 2018. Investments in Repo in corporate debt securities would be in line with SEBI circular dated November 11, 2011 and RBI circular dated July 24, 2018 and shall be made basis the policy approved by the Board of NAM India and NLITL. The significant features are as follows:
 - i. As specified in the SEBI Circular dated November 15, 2012, the base of eligible securities for mutual funds to participate in repo in corporate debt securities is from AAA rated to AA and above rated corporate debt securities.
 - ii. Category of counterparty & Credit rating of counterparty NIMF schemes shall enter in lending via Repo only with Investment Grade counterparties.
 - iii. The Gross exposure of the scheme to repo transactions in corporate debt securities shall not be more than 10% of the net asset of the scheme.

All investment restrictions stated above shall be applicable at the time of making investment. Further, any new circular issued by RBI or SEBI on Repo would be applicable from time to time.

Applicable Haircut

RBI vide its circular dated July 24, 2018 had indicated the haircut to be applied for such transactions as follows:

Haircut/ margins will be decided either by the clearing house or may be bilaterally agreed upon, in terms of the documentation governing repo transactions, subject to the following stipulations:

- i. Listed corporate bonds and debentures shall carry a minimum haircut of 2% of market value. Additional haircut may be charged based on tenor and illiquidity of the security.
- ii. CPs and CDs shall carry a minimum haircut of 1.5% of market value.
- iii. Securities issued by a local authority shall carry a minimum haircut of 2% of market value.

Additional haircut may be charged based on tenor and illiquidity of the security.

17. The schemes may also enter into repurchase and reverse repurchase obligations in all securities (including Repos in corporate bonds) held by them as per the guidelines and regulations applicable to such transactions.
18. Any other permitted overseas securities/instruments that may be available from time to time. The scheme shall not invest in foreign securitized debts. Investment in Foreign Securities shall be in accordance with the guidelines issued by SEBI from time to time
19. Any other instruments / securities, which in the opinion of the fund manager would suit the investment objective of the scheme subject to compliance with extant Regulations and after seeking necessary approval, whenever required.
20. The investments by the scheme will be within the permissible limits as specified by SEBI.
21. The scheme may enter into plain vanilla interest rate swaps for hedging purposes. In case of participation in IRS is through over the counter transactions, The counter party in such transactions will be an entity recognized by RBI. Further, the value of the notional principal in such cases will not exceed the value of respective existing assets being hedged by the scheme. Exposure to a single counterparty in such transactions will not exceed 10% of the net assets of the scheme. However, if mutual funds are transacting in IRS through an electronic trading platform offered by the Clearing Corporation of India Ltd. (CCIL) and CCIL is the central counterparty for such transactions guaranteeing settlement, the single counterparty limit of 10% shall not be applicable.
22. The scheme may also invest in "To be Listed" equity shares of the company as per guidelines issued by SEBI from time to time.

The securities mentioned above could be listed, unlisted, publicly offered, privately placed, secured, unsecured, rated or unrated and of varying maturity. The securities may be acquired through public offerings (IPOs), secondary market operations, private placement, rights offers or negotiated deals.

Securities Lending by the Fund:

The scheme shall engage in securities lending for equity investment in line with the SEBI (Mutual Funds) Regulations, 1996, Securities Lending Scheme, 1997 and Clause 12.11 of SEBI Master Circular dated June 27, 2024 notifying framework for lending of securities and such other applicable 32 guidelines as may be amended from time to time.

The scheme may engage in Securities Lending not exceeding 15% of the net assets of the scheme and shall not lend more than 5% of its Net Assets to a single counterparty (here counterparty means an intermediary/broker through whom we deal in securities) or such other limits as may be permitted by SEBI from time to time.

In accordance with the Regulations and applicable guidelines, the Fund may engage in stock lending activities. The Securities will be lent by the Approved Intermediary against collateral received from borrower, for a fixed period of time, on expiry of which the securities lent will be returned by the borrower.

It may be noted that this activity would have the inherent probability of collateral value drastically falling times of strong downward market trends, resulting in inadequate value of collateral until such time as that diminution in value is replenished by additional security. It is also possible that the borrowing party and/or the approved intermediary may suddenly suffer severe business setback and become unable to honor its commitments. This along with a simultaneous fall in value of collateral would render potential loss to the Scheme. Besides, there can also be temporary illiquidity of the securities that are lent out and the scheme may not be able to sell such lent out securities.

B. What are the investment restrictions?

The investment policy of the scheme comply with the rules, regulations and guidelines laid out in SEBI (Mutual Funds) Regulations, 1996. As per the Regulations, specifically the Seventh Schedule, the following investment limitations are currently applicable:

1. Mutual fund scheme shall not invest more than 10% of its NAV in debt instruments comprising money market instruments and non-money market instruments issued by a single issuer which are rated not below investment grade by a credit rating agency authorized to carry out such activity under the Act. Such investment limit may be extended to 12% of the NAV of the scheme with the prior approval of the Board of Trustees and the Board of directors of the asset management company:

Within the limits specified in clause 1 of the Seventh Schedule of MF Regulation, a mutual fund scheme shall not invest more than:

- a. 10% of its NAV in debt and money market securities rated AAA issued by a single issuer; or
- b. 8% of its NAV in debt and money market securities rated AA issued by a single issuer; or
- c. 6% of its NAV in debt and money market securities rated A and below issued by a single issuer.

The above investment limits may be extended by up to 2% of the NAV of the scheme with prior approval of the Board of Trustees and Board of Directors of the AMC, subject to compliance with the overall 12% limit specified in clause 1 of the Seventh Schedule of MF Regulation.

Provided that such limit shall not be applicable for investments in Government Securities, treasury bills and Tri-Party Repo on Government securities or treasury bills: Provided further that investment within such limit can be made in mortgaged backed securitised debt which are rated not below investment grade by a credit rating agency registered with the Board.

Provided further that the schemes already in existence shall within an appropriate time and in the manner, as may be specified by the Board, conform to such limits.

2. Investment in unrated debt and money market instruments, other than government securities, treasury bills, derivative products such as Interest Rate Swaps (IRS), Interest Rate Futures (IRF), etc. by mutual fund schemes shall be subject to the following:

- a. Investments should only be made in such instruments, including bills re-discounting, usance bills, etc., that are generally not rated and for which separate investment norms or limits are not provided in SEBI (Mutual Fund) Regulations, 1996 and various circulars issued thereunder.
 - b. Exposure of mutual fund schemes in such instruments, shall not exceed 5% of the net assets of the schemes.
 - c. All such investments shall be made with the prior approval of the Board of AMC and the Board of trustees.
3. Mutual Funds/AMCs shall ensure that total exposure of debt schemes of mutual funds in a group (excluding investments in securities issued by Public Sector Units, Public Financial Institutions and Public Sector Banks) shall not exceed 20% of the net assets of the scheme. Such investment limit may be extended to 25% of the net assets of the scheme with the prior approval of the Board of Trustees.
 4. The Mutual Fund under all its schemes taken together will not own more than 10% of any companies paid up capital carrying voting rights. Provided, investment in the asset management company or the trustee company of a mutual fund shall be governed by clause (a), of sub-regulation (1), of regulation 7B.
 5. Transfers of investments from one scheme to another scheme in the Mutual Fund shall be allowed only if:
 - i) Such transfers are done at the prevailing market price for quoted instruments on spot basis;
 - ii) The securities so transferred shall be in conformity with the investment objectives & policies of the Scheme to which such transfer has been made.

Such transfer would be in accordance with the Clause 12.30 of SEBI Master Circular dated June 27, 2024 or any other circular issued by SEBI from time to time.

6. The Scheme may invest in another scheme under the same asset management company or in any other mutual fund without charging any fees, provided the aggregate inter scheme investments made by all Schemes under the same management company or in schemes under the management of any other AMC shall not exceed 5% of NAV of the Mutual Fund. [Provided that this clause shall not apply to any fund of funds scheme.]
7. The Mutual Fund shall buy and sell securities on the basis of deliveries and shall in all cases of purchases, take delivery of relative securities and in all cases of sale, deliver the securities:

Provided that a mutual fund may engage in short selling of securities in accordance with the framework relating to short selling and securities lending and borrowing specified by the Board:

Provided further that a mutual fund may enter into derivatives transactions in a recognized stock exchange, subject to the framework specified by the Board.

Provided further that sale of government security already contracted for purchase shall be permitted in accordance with the guidelines issued by the Reserve Bank of India in this regard.
8. The Fund shall get the securities purchased or transferred in the name of the Fund on account of the concerned scheme, wherever investments are intended to be of a long-term nature.
9. The fund's schemes shall not make any investment in:
 - i) Any unlisted security of an associate or group company of the sponsor
 - ii) Any security issued by way of private placement by an associate or group company of the sponsor
 - iii) As per SEBI Circular No. SEBI/HO/IMD/IMD-PoD-2/P/CIR/2024/098 dated July 08, 2024, no Mutual Fund scheme shall make any investment in the listed securities of group companies of the sponsor which is in excess of 25 per cent of the net assets of the scheme, except for investments by equity oriented exchange traded funds (ETFs) and Index Funds and subject to such conditions as may be specified by SEBI. Accordingly, it has been decided as under:
 - Equity oriented ETFs and Index Funds, based on widely tracked and non-bespoke indices, can make investments in accordance with the weightage of the constituents of the underlying index. However, such investments shall be subject to an overall cap of 35% of net asset value of the scheme, in the group companies of the sponsor.
 - Widely tracked and non-bespoke indices shall be indices that are tracked by passive funds or act as primary benchmark for actively managed funds with collective Assets under Management (AUM) of INR 20,000 Cr. and above.
10. The investments by debt mutual fund schemes in debt and money market instruments of group companies of both the sponsor and the asset management company shall not exceed 10% of the net assets of the scheme. Such investment limit may be extended to 15% of the net assets of the scheme with the prior approval of the Board of Trustees
11. The Scheme shall not invest in a fund of funds scheme.

12. Pending deployment of funds of the scheme in securities in terms of the investment objectives and policies of the scheme, the Mutual Fund can invest the fund of the scheme in short term deposits of scheduled commercial banks subject to the guidelines as applicable from time to time.

Pursuant to Clause 12.16 of SEBI Master Circular dated June 27, 2024, where the cash in the scheme is parked in short term deposits of Scheduled Commercial Banks pending deployment, the respective Plan(s) shall abide by the following guidelines:

- "Short Term" for parking of funds shall be treated as a period not exceeding 91 days.
- Such short-term deposits shall be held in the name of the Scheme.

- The scheme shall not park more than 15% of the net assets in short term deposit(s) of all the scheduled commercial banks put together. However, such limit may be raised to 20% with prior approval of the Trustee.
 - Parking of funds in short term deposits of associate and sponsor scheduled commercial banks together shall not exceed 20% of total deployment by the Mutual Fund in short term deposits.
 - The scheme shall not park more than 10% of the net assets in short term deposit(s), with any one scheduled commercial bank including its subsidiaries.
 - The scheme shall not park funds in short term deposit of a bank, which has invested in the Scheme. Further, the bank in which a scheme has short term deposit will not invest in the said scheme until the scheme has short term deposit with the bank
- Asset Management Company (AMC) shall not be permitted to charge investment management and advisory fees for parking of funds in short term deposits of scheduled commercial banks.
13. No term loans for any purpose will be advanced by the Scheme.
14. The Scheme shall not invest more than 10% of its NAV in equity shares/equity related instruments of any company.
 Provided that, the limit of 10% shall not be applicable for investments in index fund or sector/industry specific scheme.
 However, the Scheme at any point of time will not invest more than 10% of the NAV of the Scheme in a single company.
15. In case any company has invested more than 5% of the net asset value of a scheme, the investment made by that scheme or by any other scheme of the same Mutual Fund in that company or its subsidiaries, if any, shall be brought to the notice of the Trustees by NAM India and be disclosed in the half-yearly and annual accounts with justification for such investment provided that the latter investment has been made within one year of the date of the former investment calculated on either side.
16. The Scheme may invest in Overseas securities in accordance with the regulations as applicable from time to time.
17. The Scheme will comply with any other regulations applicable to the investments of mutual funds from time to time.
18. The Fund shall not borrow except to meet temporary liquidity needs of the Fund for the purpose of repurchase / Redemption of Units or payment of interest and IDCW to the Unitholders.
 Provided that the Fund shall not borrow more than 20% of the net assets of any individual Scheme and the duration of the borrowing shall not exceed a period of 6 months.
 In case of borrowing through repo transactions the tenor of such transaction shall not exceed a period of six months.
19. Total exposure of the scheme in a particular sector (excluding investments in Bank CDs, Tri-Party Repo on Government securities or Treasury bills, G-Secs, T-Bills and AAA rated securities issued by Public Financial Institutions and Public Sector Banks and such other instruments if any, as may be specified by SEBI from time to time) shall not exceed 20% or such other percentage of the net assets of the scheme, as prescribed by SEBI from time to time, unless the scheme has specifically been exempted from the requirement by SEBI.
 An additional exposure to financial services sector (over and above the limit of 20%) not exceeding 10% of the net assets of the scheme shall be allowed by way of increase in exposure to Housing Finance Companies (HFCs) rated AA and above and registered with National Housing Bank (NHB). Further, an additional exposure of 5% of the net assets of the scheme has been allowed for investments in securitized debt instruments based on retail housing loan portfolio and/or affordable housing loan portfolio
 However, such total investment/ exposure in HFCs shall not exceed 20% of the net assets of the scheme or such other percentage of the net assets of the scheme, as prescribed by SEBI from time to time.
 Note : The sector classification shall be basis the data provided by Association of Mutual Fund in India
20. Mutual fund scheme shall not invest in unlisted debt instruments including commercial papers (CPs), other than (a) government securities, (b) other money market instruments and (c) derivative products such as Interest Rate Swaps (IRS), Interest Rate Futures (IRF), etc. which are used by mutual funds for hedging.
 However, mutual fund schemes may invest in unlisted Non-Convertible Debentures (NCDs) not exceeding 10% of the debt portfolio of the scheme subject to the condition that such unlisted NCDs have a simple structure (i.e. with fixed and uniform coupon, fixed maturity period, without any options, fully paid up upfront, without any credit enhancements or structured obligations) and are rated and secured with coupon payment frequency on monthly basis.
21. The scheme may engage in Securities Lending not exceeding 15% of the net assets of the scheme and shall not lend more than 5% of its Net Assets to a single counterparty (here counterparty means an intermediary/broker through whom we deal in securities) or such other limits as may be permitted by SEBI from time to time, after seeking necessary approval, whenever required.
22. The scheme shall participate Repo in corporate debt securities in accordance with clause 12.18 of SEBI Master Circular dated June 27, 2024 and such other directions issued by RBI and SEBI from time to time.
 The Gross exposure of the scheme to repo transactions in corporate debt securities shall not be more than 10% of the net asset of the scheme.
 The cumulative gross exposure through Equity, debt, Money Market instruments and derivative positions (including Fixed income derivatives) and such other securities/assets as may be permitted by SEBI from time to time should not exceed 100% of the net assets of the scheme or guidelines as may be specified by SEBI from time to time
 The scheme shall participate Repo in corporate debt securities in accordance with directions issued by RBI and SEBI from time to time

23. The scheme can make overseas investments subject to a maximum of US \$ 1 billion per Mutual Fund, within the overall industry limit of US \$ 7 billion. The scheme can also make investments in overseas Exchange Traded Fund (ETF(s)) subject to a maximum of US \$ 300 million per Mutual Fund, within the overall industry limit of US \$ 1 billion.
24. In accordance with para 12.25.8 of SEBI Master Circular dated June 27, 2024. Mutual Fund schemes (except Index Funds and ETFs) may write call options only under a covered call strategy for constituent stocks of NIFTY 50 and BSE SENSEX subject to the following:

 - b. The total number of shares underlying the call options written shall not exceed 30% of the unencumbered shares of a particular company held in the scheme.
25. **Applicable Investment Limits for Real Estate Investment Trust (REITs) and Infrastructure Investment Trust (InvITs):**
- a. At the Mutual Fund level:- Not more than 10% of units issued by a single issuer of REIT and InvIT;
 - b. At a single Mutual Fund scheme level: -
 - i. not more than 10% of its NAV in the units of REIT and InvIT;
 - and
 - ii. not more than 5% of its NAV in the units of REIT and InvIT issued by a single issuer.

The limits mentioned in sub- clauses (i) and (ii) above will not be applicable for investments in case of index fund or sector or industry specific scheme pertaining to REIT and InvIT.

The Scheme will not enter into any transaction, which exposes it to unlimited liabilities or results in the encumbering of its assets in any way so as to expose them to unlimited liability.

These investment limitations / parameters as expressed / linked to the net asset / net asset value / capital, shall in the ordinary course, apply as at the date of the most recent transaction or commitment to invest. Changes do not have to be effected merely because of appreciation or depreciation in value or by reason of the receipt of any rights, bonuses or benefits in the nature of capital or of any scheme of arrangement or for amalgamation, reconstruction or exchange, or at any repayment or redemption or other reason outside the control of the Fund, any such limits would thereby be breached. If these limits are exceeded for reasons beyond its control, AMC shall adopt as a priority objective the remedying of that situation, taking due account of the interests of the Unitholders subject to SEBI regulations...

The Trustee Company in consultation with AMC may alter these above stated limitations from time to time, and also to the extent the Regulations change, so as to permit the Scheme to make its investments in the full spectrum of permitted investments in order to achieve its investment objectives & policies. As such, all investments of the Scheme will be made in accordance with the Regulations including Schedule VII thereof and the Fundamental Attributes of this Scheme.

The investment in Foreign equity Securities shall be in accordance with SEBI Regulations.

At NIMF, to ensure robust risk management and adequate portfolio diversification internal Investment policy for various debt schemes has been framed. The investment policy at NIMF specifies limits both on overall basis (across all schemes) as well as on individual scheme level. Guidelines for following parameters for liquid as well as non liquid schemes has been specified in the policy:

1. Eligible Instruments: Defines the eligible instruments where the scheme can invest
2. Minimum Liquidity: Defines the instruments considered as liquid instruments and the minimum investments in these instruments as a percentage of total net assets
3. Maximum Illiquid component: Defines the instruments considered as illiquid and the maximum investment that can be made in these instruments as a percentage of net assets.
4. Rating: Defines minimum and/ or maximum investment in a particular rating as a percentage of total portfolio.
5. Maturity: Defined the weighted average maturity of a portfolio. Also defines the weighted average maturity, maximum and maturity for certain asset types like corporate bond, PTCs, Gilts etc

Investment by the AMC in the Scheme: In terms of sub-regulation 16(A) in Regulation 25 of SEBI (Mutual Funds) Regulations, 1996 read along with Clause 6.9 of the SEBI Master Circular dated June 27, 2024 and AMFI Best Practice Guidelines Circular No.100 /2022-23 dated April 26, 2022 on 'Alignment of interest of AMCs with the Unitholders of the Mutual Fund schemes', the AMC shall invest its own funds in the scheme(s) based on the risks associated with the schemes, as may be specified by the SEBI from time to time. Further, the AMC shall not charge any fees on its investment in the Scheme (s), unless allowed to do so under SEBI Regulations in the future.

Further, the AMC shall not charge any fees on its investment in the Scheme (s), unless allowed to do so under SEBI Regulations in the future.

Foreign Account Tax Compliance

In accordance with the relevant provisions of the Foreign Account Tax Compliance Act ("FATCA") as contained in the United States Hiring Incentives to Restore Employment ("HIRE") Act, 2010, there is a likelihood of withholding tax being levied on certain income/receipt sourced from the subjects of United States of America ("US") with respect to the schemes, unless such schemes are FATCA compliant.

In this regard, the respective governments of India and US have signed an Inter Governmental Agreement-1 (IGA) on July 9, 2015. In the terms of this proposed IGA, Nippon India Mutual Fund ("NIMF") and/ or Nippon Life India Asset Management Limited ("NAM India"/ "AMC") classified as a "Foreign Financial Institution" and in which case NIMF and/ or NAM India would be required, from time to time, to (a) undertake the necessary due-diligence process; (b) identify US reportable accounts; (c) collect certain required information/ documentary evidence ("information") with respect to the residential status of the unit holders; and (d) directly or indirectly disclose/ report/ submit such or other relevant information to the appropriate Indian authorities. Such information may include (without limitation) the unit holder's folio detail, identity of the unit holder, details of the beneficial owners and controlling persons etc.

In this regard and in order to comply with the relevant provisions under FATCA, the unit holders would be required to fully cooperate & furnish the required information to the AMC, as and when deemed necessary by the latter in accordance with IGA and/ or relevant circulars or guidelines etc, which may be issued from time to time by SEBI/AMFI or any other relevant & appropriate authorities.

The applications which do not provide the necessary information are liable to be rejected. The applicants/ unit holders/ prospective investors are advised to seek independent advice from their own financial & tax consultants with respect to the possible implications of FATCA on their investments in the scheme(s).

The underlying FATCA requirements are applicable from July 1, 2014 or such other date, as may be notified.

In case required, NIMF/ NAM India reserves the right to change/ modify the provisions (mentioned above) at a later date.

The Fund reserves the right to include / exclude new / existing categories of investors to invest in the Schemes, subject to SEBI Regulations and other prevailing statutory regulations, if any.

Rejection of the application

Subject to the SEBI Regulations and applicable Laws, any application for NFO Units may be accepted or rejected at the sole and absolute discretion of the Trustees / AMC. For example and without limitations, the Trustees/AMC may reject any application for the Purchase of NFO Units if the application is received from an Investor to whom the NFO Units cannot be lawfully or validly offered or by whom the NFO Units cannot be lawfully or validly subscribed or if the Investor does not provide information / details required by the Mutual Fund / AMC/ Trustees in relation to KYC, beneficial ownership, FATCA or any other requirements mandated by the Mutual Fund / Trustees / AMC pursuant to any directives of AMFI or any other additional administrative processes required with respect to such Investors or if the application is invalid or incomplete, or if, in its opinion, increasing the size of the Scheme's Unit Capital is not in the general

	<p>interest of the Unit holders, or if the Trustees/ AMC for any other reason does not believe that it would be in the best interest of the Scheme or its Unit holders to accept such an application.</p> <p>Further information request by the AMC/Trustees The AMC / Trustees may request Investors / Unit holders to provide verification of their identity or other further details as may be required in the opinion of the AMC / Trustees under applicable Laws and/or pursuant to any directives of AMFI. This may result in a delay in dealing with the applicants, Unit holders, benefits, distribution, etc. and/or even rejection of the application / mandatory Redemption of Units.</p>

However, where an investor does not wish to receive CAS through email, option shall be given to the investor to receive the CAS in physical form at the address registered with the Depositories and the AMCs/MF-RTAs. The depositories shall also intimate the investor on quarterly basis through the SMS mode specifying the email id on which the CAS is being sent.</p> <p>In case of a specific request received from the Unit holders, NAM India / NIMF will provide the account statement to the investors within 5 Business Days from the receipt of such request.</p> <p>Investors are requested/encouraged to register/update their email id and mobile number of the primary holder with the AMC/RTA through our Designated Investor Service Centres (DISCs) in order to facilitate effective communication.</p>
Dividend/ IDCW	<p>The IDCW payments shall be initiated to the unitholders within 7 working days from the Record date, in compliance to the Clause 11.4 of SEBI Master Circular dated June 27, 2024</p>
Redemption	<p>The redemption or repurchase proceeds shall be transferred to the unitholders within 3 working Days from the date of redemption or repurchase. However, in case of exceptional circumstances mentioned in para 14.1.3 of SEBI Master Circular dated June 27, 2024, redemption or repurchase proceeds will be transferred / dispatched to Unitholders within the time frame prescribed for such exceptional circumstances.</p> <p>Further, investors are requested to note that processing of Redemption or Repurchase transactions without PAN in respect of Non-PAN-Exempt folios has been restricted with effect from September 30, 2019.</p> <p>For all such Non-PAN-Exempt folios, investors are requested to update PAN by submitting suitable request along with PAN card copy at any of the Designated Investor Service Centre ("DISC") of Nippon India Mutual Fund (NIMF) and then submit Redemption or new Systematic Withdrawal Plans (SWPs) requests.</p> <p>With respect to existing SWPs registered without PAN in Non-PAN-Exempt folios, the same shall be restricted with effect from October 16, 2019 till PAN is updated in the folio.</p> <p>Investors are also requested to note further that it is mandatory to complete the KYC requirements for all unit holders, including for all joint holders and the guardian in case of folio of a minor investor.</p> <p>Accordingly, completion of KYC requirements shall be mandatory and with effect from February 28, 2020, all financial transactions (including redemptions, switches etc.) will be processed only if the KYC requirements are completed.</p> <p>Unit holders are advised to use the applicable KYC Form for completing the KYC requirements and submit the form at the Designated Investor Service Centre ("DISC") of Nippon India Mutual Fund or KFin Technologies Limited</p>

Bank Mandate	As per the directives issued by SEBI, it is mandatory for an investor to declare his/her bank account number in the application form. This is to safeguard the interest of unitholders from loss or theft of their redemption cheques / DDs. Additionally, if the bank details provided by investors are different from the details available on instrument, AMC may seek additional details from investors to validate the bank details provided by investors.
Delay in payment of redemption / Any repurchase proceeds/dividend	<p>The Asset Management Company shall be liable to pay interest to the unitholders at such rate as may be specified by SEBI for the period of such delay (presently @ 15% per annum).</p> <p>No interest will be payable on any subscription money refunded within 5 working days. If the Fund refunds the amount after 5 working days, interest @ 15% p.a. will be paid to the applicant and borne by the AMC for the period from the day following the date of expiry of 5 working days until the actual date of the refund.</p> <p>The period of five working days for computation of interest payable for delay in refund of subscription amounts during on-going offer period shall be reckoned from the date of purchase transaction as per timestamp / applicable NAV, provided the application form / online transaction is received along with the payment and the funds have been realized.</p> <p>Where the subscription amount and the application / online transaction are received separately, the period of five working days for computation of interest payable for delay in refund of subscription amounts shall be reckoned from the later of the date of identifying the remitter details, based on the credit provided by the bank or receipt and time stamping of application / online transaction.</p> <p>It is clarified that the interest will be payable only in those cases where the credit pertains to a subscription in the scheme backed by a transaction request by the customer and such subscription is rejected by the AMC.</p> <p>Refund will be initiated in the name of the applicant in the case of a sole applicant and in the name of the first applicant in all other cases. In both cases, the bank account number and bank name, as specified in the application, will be considered for refund. The bank and/ or collection charges, if any, will be borne by the applicant. All the refund payments will be initiated in the manner as may be specified by SEBI from time to time.</p>
Unclaimed Redemption and Income Distribution cum Capital Withdrawal Amount	In terms of Clause 14.3 of SEBI Master circular dated June 27, 2024, the unclaimed redemption amount and IDCW amounts (the funds) may be deployed by the Mutual Fund in money market instruments and separate plan of liquid scheme / Money Market Mutual Fund scheme floated by Mutual Funds specifically for deployment of the unclaimed amounts only. Investors who claim the unclaimed amounts during a period of three years from the due date shall be paid initial unclaimed amount along-with the income earned on its deployment. Investors, who claim these amounts after 3 years, shall be paid initial unclaimed amount along-with the income earned on its deployment till the end of the third year. After the third year, the income earned on such unclaimed amounts shall be used for the purpose of investor education. The AMC will make a continuous effort to remind the investors through letters to take their unclaimed amounts. The details of such unclaimed redemption/IDCW amounts are made available to investors upon them providing proper credentials, on website of Mutual Funds and AMFI along with the information on the process of claiming the unclaimed amount and the necessary forms / documents required for the same. Further, the information on unclaimed amount along-with its prevailing value (based on income earned on deployment of such unclaimed amount), will be separately disclosed to investors through the periodic statement of accounts / Consolidated Account Statement sent to the investors. Further, the investment management fee charged by the AMC for managing the said unclaimed amounts shall not exceed 50 basis points.
