Part II. INFORMATION ABOUT THE SCHEME

A. How will the Scheme Allocate its Assets?

Instruments	Indicative allocations (% of total assets)	
	Minimum	Maximum
Instruments forming part of the CRISIL-IBX Financial Services 3 - 6 Months Debt Index ^	95	100
Cash & Debt/Money Market Instruments	0	5

^Pursuant to clause 3.5.3 of Master Circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024, the scheme shall be considered to be replicating the underlying index, provided:

- i) Investment in securities of issuers accounting for at least 60% of weight in the index, represents at least 80% of net asset value (NAV) of the Scheme;
- ii) At no point of time the securities of issuers not forming part of the index exceed 20% of NAV of the Scheme;
- iii) At least 8 issuers from the underlying index form part of the portfolio of the Scheme;
- iv) The investment in various securities are aggregated at issuer level for the purpose of exposure limits;
- v) For AAA, exposure to a single issuer by the Scheme shall not have more than 15% weight in the portfolio.;
- vi) Total exposure of the scheme in a particular group (excluding investments in securities issued by PSUs, PFIs and PSBs) shall not exceed 25% of NAV of the scheme. For the purpose of this provision, ‘group’ shall have the same meaning as defined in paragraph 12.9.3.3 of the SEBI Master circular no. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024.
- vii) Total exposure of the Index Fund in a particular sector (excluding G-sec, T-bills, SDLs and AAA rated securities issued by PSUs, PFIs and PSBs) shall not exceed 25% of the NAV of the scheme. However, this provision is not applicable as the scheme is based on sectoral debt indices.
- viii) The Macaulay Duration (hereinafter referred as “duration”) of the portfolio of the Scheme replicates the duration of the underlying index within a maximum permissible deviation of +/- 10%.
- ix) The rating wise weightage of debt securities in the portfolio of Scheme replicates the underlying index. However, greater allocation of up to 10% of the portfolio may be made to higher rated debt securities.

During normal circumstances, the Scheme’s exposure to ‘Cash and debt/money market instruments’ will be in line with the asset allocation table. However, on the maturity of instruments in the Scheme portfolio, the reinvestment will be in line with the index methodology.

Money Market instruments includes commercial papers, commercial bills, treasury bills, Government securities having an unexpired maturity up to one year, call or notice money, certificate of deposit, usance bills, triparty repo and any other like instruments as specified by the Reserve Bank of India from time to time and subject to regulatory approval.

In accordance with clause 4 of Seventh Schedule of SEBI (Mutual Funds) Regulations 1996, the scheme may invest upto 5% of the net assets in liquid and overnight mutual fund schemes without charging any fees, provided that aggregate inter-scheme investment made by all schemes under the management of Kotak

Mahindra Asset Management Company Limited or in schemes under the management of any other asset management company shall not exceed 5% of the net asset value of Kotak Mahindra Mutual Fund.

Pursuant to para 12.11 of SEBI Master circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024, the Trustee may permit the scheme to engage in securities lending and borrowing. At present, since only lending is permitted, the scheme may temporarily lend securities held with the custodian to reputed counter-parties or on the exchange, for a fee, subject to prudent limits and controls for enhancing returns. The scheme, will be allowed to lend securities subject to a maximum of 20%, in aggregate, of the net assets of the Scheme and 5% of the net assets of the Scheme in the case of a single intermediary.

As per para 12.24 of SEBI Master Circular no. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024, the cumulative gross exposure through debt and money market securities, units of mutual fund schemes should not exceed 100% of the net assets of the scheme.

Pursuant to para 12.25 of SEBI Master Circular no. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024, Cash or cash equivalents with residual maturity of less than 91 days may be treated as not creating any exposure. Cash Equivalent shall consist of the following securities having residual maturity of less than 91 days:

- a) Government Securities;
- b) T-Bills; and
- c) Repo on Government securities.

The Scheme shall not invest in the following:

- ADR/GDR/Overseas securities.
- Derivatives and Commodity derivatives.
- Short Selling
- Credit Default Swaps.
- Units of Real Estate Investment Trusts (REITs), Infrastructure Investment Trusts (InvITs).
- Debt Instruments with special features (AT1 and AT2 Bonds) .
- Securitised debt
- Debt instruments having Structured obligations and credit enhancements.
- Repo/ reverse repo transactions in corporate debt securities.

For residual portion of 5% in the asset allocation, apart from the investment restrictions prescribed under SEBI (MF) Regulations, the fund follows certain internal norms vis-à-vis limiting exposure to a particular scrip, issuer or sector, etc. within the mentioned restrictions, and these are subject to review from time to time.

Portfolio Rebalancing:

Pursuant to para 3.5.3.11 of SEBI Master circular no. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024 and circulars issued thereunder, the following norms shall apply:

- a. In case of change in constituents of the index due to periodic review, the portfolio of the scheme be rebalanced within 7 calendar days.
- b. In case the rating of any security is downgraded to below the rating mandated in the index methodology (including downgrade to below investment grade), the portfolio be rebalanced within 30 calendar days.
- c. In case the rating of any security is downgraded to below investment grade, the said security may be segregated in accordance with para 4.4.4 & 4.4.5 of SEBI Master Circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024 on creation of segregated portfolio in mutual fund schemes.

Short Term Defensive Consideration:

Subject to para 1.14.1.2 of SEBI Master circular no. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024 and circulars issued thereunder, the asset allocation pattern indicated above may change for a short-term period on defensive considerations, keeping in view market conditions, market opportunities, applicable regulations and political and economic factors. These proportions may vary depending upon the perception of the Fund Manager, the intention being at all times to seek to protect the interests of the Unit holders. Such changes in the investment pattern will be rebalanced within 7 calendar days from the date of deviation and further action may be taken as specified under SEBI Circulars/ AMFI guidelines issued from time to time.

B. Where will the Scheme Invest?

The Scheme will invest in constituents of CRISIL-IBX Financial Services 3-6 Months Debt Index in line with SEBI (MF) Regulations & circulars issued thereunder from time and time and will be considered to be replicating the index accordingly.

The Scheme shall invest in the following securities as per the limits specified in the asset allocation table of Scheme, subject to SEBI (MF) Regulations.

- a. Corporate debt (of both public and private sector undertakings) including Non-convertible debentures (including bonds) and non-convertible part of convertible securities;
- b. Securities created and issued by the Central and State Governments and repo/or reverse repos in such Government Securities as may be permitted by RBI (including but not limited to coupon bearing bonds, zero coupon bonds and treasury bills);
- c. Debt obligations of domestic Government agencies and statutory bodies, which may or may not carry a Central/State Government guarantee (including but not limited to Indian Government Bond, State Development Loans issued and serviced at the Public Debt Office, Bonds issued by Central & State Government PSU's which are guaranteed by Central or State Governments)
- d. Short Term Deposits of banks (both public and private sector) and development financial institutions to the extent permissible under SEBI Regulations;
- e. Money market instruments permitted by SEBI/ RBI, having maturities of up to one year but not limited to:
 - Certificate of Deposits (CDs).
 - Commercial Paper (CPs)
 - Triparty repo on Government securities or treasury bills, Bills re-discounting
- f. Securities Lending as permitted by SEBI from time to time
- g. Units of mutual fund schemes.

Transfer of investments from one scheme to another scheme in the same Mutual Fund, shall be allowed, in lines with para 12.30 of SEBI Master circular no. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024.

C. What Are the Investment Strategies?

The Scheme follows a passive investment strategy. The Scheme will replicate income over the constant maturity period of its underlying index i.e., CRISIL-IBX Financial Services 3-6 Months Debt Index, subject to tracking errors. Accordingly, the Scheme will invest in securities in line with the benchmark index of the Scheme. In line with constant maturity profile of the underlying Index, the scheme follows perpetual structure, wherein the scheme would be rebalanced as per set frequency and remain in line with maturity profile. The scheme shall endeavour to replicate the index. In case the Scheme is not able to replicate the index the Fund Manager may invest subject to deviations as permitted by SEBI Master Circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024, as amended from time to time.

During normal circumstances, the scheme's exposure to debt and money market instruments will be in line with the asset allocation table. However, in case of maturity of instruments in the Scheme portfolio, the reinvestment will be in line with the index methodology.

A small portion of the net assets will be held as cash or will be invested in debt and money market instruments (as mentioned under asset allocation section) permitted by SEBI/RBI including TREPS or in alternative investment for the TREPS as may be provided by the RBI, to meet the liquidity requirements under the Scheme.

Portfolio Turnover

Portfolio Turnover is a term used to measure the volume of trading that occurs in a Scheme's portfolio during a given time period. The scheme being a passively managed open-ended constant maturity index scheme, it is expected that there would be a number of subscriptions and redemptions on a daily basis. Hence, it is difficult to estimate with any reasonable measure of accuracy, the likely turnover in the portfolio.

Generally, turnover will depend upon the extent of purchase and redemption of units and the need to rebalance the portfolio on account of change in the composition, if any, and corporate actions of securities included in the Index. The Scheme has no specific target relating to portfolio turnover.

D. How will the Scheme Benchmark its Performance?

The performance of Kotak CRISIL-IBX Financial Services 3-6 Months Debt Index Fund is benchmarked against the CRISIL-IBX Financial Services 3-6 Months Debt Index.

Justification of adoption of benchmark: The Scheme is an Index Fund and would replicate/track the securities constituting CRISIL-IBX Financial Services 3-6 Months Debt Index, the said Index is most suited for comparing the performance of the Scheme.

E. Who Manages the Scheme?

Mr. Manu sharma will be the Fund Manager of the Scheme.

NAME	AGE	QUALIFICATION	BUSINESS EXPERIENCE	SCHEMES MANAGED
Mr. Manu Sharma	44years	Chartered Accountant from the Institute of Chartered Accountants of India & M.Com	Mr. Manu Sharma has over 17 years of experience in the fields of Fixed Income Fund Management, Operations, Finance Audit and Taxation. vi. Investments of AMC in the Scheme:

The AMC may invest in the Scheme subject to the SEBI (MF) Regulations. Under the Regulations, the AMC is not permitted to charge any investment management and advisory services fee on its own investment in the Scheme.

Pursuant to Regulation 25(16A) of the SEBI (MF) Regulations, 1996 and para 6.9.3.5 of SEBI Master circular no. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024, AMC shall not be required to invest minimum amount as a percentage of AUM in the Scheme.

Details of Investments of AMC in the Scheme will be available in the given link. - Not Applicable

Part III- OTHER DETAILS

A. Computation of NAV

The AMC shall compute NAV of the Units of the Scheme will be computed by dividing the net assets of the Scheme by the number of Units outstanding on the valuation date.

The AMC shall value its investments according to the valuation norms (Valuation Policy includes computation of NAV in case of investment in foreign securities), as specified in the Eighth Schedule of the Regulations, or such guidelines / recommendations as may be specified by SEBI from time to time. The broad valuation norms are detailed in the Statement of Additional Information.

NAV of Units under the Scheme will be calculated as shown below:

NAV =	Market or Fair Value of Scheme's investments	+	Current assets including Accrued Income	-	Current Liabilities and provisions including accrued expenses
	No. of Units outstanding under the Scheme/Option.				

NAV for the Schemes and the repurchase prices of the Units will be calculated and announced at the close of each Business Day. The NAV shall be computed upto four decimals. The NAV of Direct Plan will be different than the NAV of Regular Plan.

Computation of NAV will be done after taking into account IDCWs paid, if any, and the distribution tax thereon, if applicable. Therefore, once IDCWs are distributed under the IDCW Option, the NAV of the Units under the IDCW Option would always remain lower than the NAV of the Units issued under the Growth Option. The income earned and the profits realized in respect of the Units issued under the Growth Option remain invested and are reflected in the NAV of the Units.

Illustration for Computation of NAV:

NAV=	Market or Fair Value of Scheme's investments	+	Current assets including Accrued Income	-	Current Liabilities and provisions including accrued expenses	
	No. of Units outstanding under the Scheme/Option.					
10.109=	10,01,00,000.00	+	10,00,000.00	-	10,000.00	10,10,90,000.00
			1,00,00,000.00			1,00,00,000.00

As required under the Regulations, the asset management company shall ensure that the repurchase price of an open-ended scheme shall not be lower than 95% of the Net Asset Value.

For other details such as policies w.r.t computation of NAV, rounding off, investment in foreign securities, procedure in case of delay in disclosure of NAV etc. refer to SAI.

B. New Fund Offer (NFO) Expenses

These expenses are incurred for the purpose of various activities related to the NFO like sales and distribution fees paid marketing and advertising, registrar expenses, printing and stationary, bank charges etc.

The AMC shall ensure that no NFO expenses will be charged to the Scheme.

C. Annual Scheme Recurring Expenses

These are the fees and expenses for operating the scheme. These expenses include Investment Management and Advisory Fee charged by the AMC, Registrar and Transfer Agents' fee, marketing and selling costs etc. as given in the table below:

The AMC has estimated that upto 1% daily net assets of the scheme will be charged to the scheme as expenses. For the actual current expenses being charged, the investor should refer to the website of the mutual fund viz. www.kotakmf.com.

Total Expense Ratio for the scheme

Expense Head	% p.a. of daily Net Assets* (Estimated p.a.)
Investment Management & Advisory Fee	Upto 1.00%
Audit fees/fees and expenses of trustees	
Custodial Fees	
Registrar & Transfer Agent Fees including cost of providing account statements / IDCW / redemption cheques/ warrants	
Marketing & Selling Expenses including Agents Commission and statutory advertisement	
Costs related to investor communications	
Costs of fund transfer from location to location	
Cost towards investor education & awareness (1bps)	
Brokerage & transaction cost pertaining to distribution of units	
Goods & Services Tax on expenses other than investment and advisory fees	
Goods & Services Tax on brokerage and transaction cost	
Other Expenses (to be specified as per Reg 52 of SEBI MF Regulations)	
Maximum Total expenses ratio (TER) permissible under Regulation 52 (6) (b)	
Additional expenses under Regulations 52(6A)(c)	Upto 0.05%
Additional expenses for gross new inflows from specified cities	Upto 0.30%

#The AMC shall not charge additional expenses under Regulation 52(6A)(c) in case exit load is not levied/ not applicable

Expense Structure for Direct Plan – The annual recurring expenses will be within the limits specified under the SEBI (Mutual Funds) Regulations, 1996.

Commission/ Distribution expenses will not be charged in case of Direct Plan. The TER of Direct Plan will be lower than Regular Plan.

In terms of the Para 10.1.12 of SEBI Master Circular no. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024, all fees and expenses charged in a direct plan (in percentage terms) under various heads including the investment and advisory fee shall not exceed the fees and expenses charged under such heads in a regular plan.

However, Direct Plan shall have a lower expense ratio than the Regular Plan. The expenses would exclude distribution expenses, commission, etc. and no commission for distribution of Units will be paid / charged under Direct Plan.

Additional expenses which may be charged to the Scheme

The following additional expenses may be charged to the Schemes under Regulation 52 (6A), namely-

- Brokerage and transaction cost incurred for the purpose of execution shall be charged to the schemes (a) upto 12 bps and 5 bps for cash market transactions and derivatives transactions respectively. Any payment towards brokerage & transaction costs, over and above the said 12 bps and 5 bps for cash market transactions and derivatives transactions respectively may be charged to the Scheme within the maximum limit of Total Expense Ratio (TER) as prescribed under Regulation 52 of the SEBI (Mutual Funds) Regulations, 1996.
- Expenses not exceeding of 0.30 % of daily net assets, if the new inflows from beyond top 30 cities are at least:
 - (i) 30 % of gross new inflows in the scheme; or
 - (ii) 15 % of the average assets under management (year to date) of the scheme; whichever is higher.

Provided that if inflows from such cities is less than the higher of sub-clause (i) or sub-clause (ii), such expenses on daily net assets of the scheme shall be charged on proportionate basis.

Provided further that expenses charged under this clause shall be utilized for distribution expenses incurred for bringing inflows from such cities.

Provided further that amount incurred as expense on account of inflows from such cities shall be credited back to the scheme in case the said inflows are redeemed within a period of one year from the date of investment.

Provided further that the additional TER can be charged based on inflows only from 'retail investors' (Para 10.1.3 of SEBI Master Circular no. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024, has defined that inflows of amount upto Rs 2,00,000/- per transaction, by individual investors shall be considered as inflows from "retail investor") from beyond top 30 cities.

Provided that the additional commission for beyond top 30 cities shall be paid as trail only.

In case inflows from beyond top 30 cities is less than the higher of (i) or (ii) above, additional TER on daily net assets of the scheme shall be charged as follows:

Daily net assets X 30 basis points X New inflows from individual investors from beyond top 30 cities

365* X Higher of (i) or (ii) above

* 366, wherever applicable.

Additional expenses upto 0.05% of daily net assets of the schemes, incurred towards different heads mentioned under Regulation 52 (2) and 52 (4).

With reference to SEBI's letter no. SEBI/HO/IMD/IMD-SEC-3/P/OW/2023/5823/1 dated February 24, 2023, and AMFI Circular No. CIR/ARN-23/2022-23 March 07, 2023, the B-30 incentive structure for new inflows has been kept in abeyance with effect from March 01, 2023 till the incentive structure is appropriately re-instated by SEBI with necessary safeguards.

Clause 4 of Seventh Schedule to SEBI (Mutual Funds) Regulations, 1996 which restricts investments in mutual fund units upto 5% of net assets and prohibits charging of fees, shall not be applicable to investments in mutual funds in foreign countries made in accordance with guidelines as per Para 12.19.3.8 of SEBI Master Circular

no. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024. However, the management fees and other expenses charged by the mutual fund(s) in foreign countries along with the management fee and recurring expenses charged to the domestic mutual fund scheme shall not exceed the total limits on expenses as prescribed under Regulation 52(6). Where the scheme is investing only a part of the net assets in the overseas mutual fund(s), the same principle shall be applicable for that part of investment.

TER for the Segregated Portfolio

1. AMC shall not charge investment and advisory fees on the segregated portfolio. However, TER (excluding the investment and advisory fees) can be charged, on a pro-rata basis only upon recovery of the investments in segregated portfolio.
2. The TER so levied shall not exceed the simple average of such expenses (excluding the investment and advisory fees) charged on daily basis on the main portfolio (in % terms) during the period for which the segregated portfolio was in existence.
3. The legal charges related to recovery of the investments of the segregated portfolio may be charged to the segregated portfolio in proportion to the amount of recovery. However, the same shall be within the maximum TER limit as applicable to the main portfolio. The legal charges in excess of the TER limits, if any, shall be borne by the AMC.
4. The costs related to segregated portfolio shall in no case be charged to the main portfolio.

Goods and Services tax:

Goods and Services tax on investment and advisory fees may be charged to the scheme in addition to the maximum limit of TER as prescribed in Regulation 52(6)(c). Goods and Services tax on other than investment and advisory fees, if any, shall be borne by the scheme within the maximum limit of TER as per Regulation 52.

The aforesaid estimates are made in good faith by the Investment Manager and are subject to change inter se among the various heads of expenses and between the Plans. It may also be noted that the total expenses of the Plans will also be subject to change within the overall limits of expenses under Regulation 52. Actual expenses under any head and / or the total expenses may be more or less than the estimates. The Investment Manager retains the right to charge the actual expenses to the Scheme, however the expenses charged will not exceed the statutory limit prescribed by the Regulations. There will be no sub limit on management fee, and it shall be within the overall TER specified above.

Illustration of impact of expense ratio on scheme's returns:

Particulars	Regular Plan	Direct Plan
Amount Invested at the beginning of the year	10,000	10,000
Annual Returns before Expenses	800	800
Expenses other than Distribution Expenses	75	75
Distribution Expenses / Commission	25	-
Returns after Expenses at the end of the Year	700	725

Illustration is given to understand the impact of expense ratio on a scheme return and this should not be construed as an indicative return of the scheme. The expenses of the Direct Plan under the Scheme will be lower to the extent of distribution expenses/ commission.

D. Load Structure

Exit Load is an amount which is paid by the investor to redeem the units from the scheme. Load amounts are variable and are subject to change from time to time. For the current applicable structure, please refer to the website of www.kotakmf.com or may call at 18003091490 or your distributor.

Type of Load	Load chargeable (as % age of NAV)
Exit	NIL

* In terms of Para 10.4 of SEBI Master Circular no. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024, no entry load will be charged on purchase / additional purchase / switch-in. The commission as specified in aforesaid circular, if any, on investment made by the investor shall be paid by the investor directly to the Distributor, based on his assessment of various factors including the service rendered by the Distributor.

Any imposition or enhancement of Load in future shall be applicable on prospective investments only. For any change in load structure AMC will issue an addendum and display it on the website/Investor Service Centres. In case of changes in load structure the addendum carrying the latest applicable load structure shall be attached to all KIM and SID already in stock till it is updated.

Investors may obtain information on loads on any Business Day by calling the office of the AMC or any of the Investor Service Centers. Information on applicability of loads will also be provided in the Account Statement.

As required under the Regulations, the asset management company shall ensure that the repurchase price of an open-ended scheme is not lower than 95% of the Net Asset Value.

The investor is requested to check the prevailing load structure of the scheme before investing.

The AMC reserves the right to change / modify the Load structure the Scheme, subject to maximum limits as prescribed under the SEBI (MF) Regulations and circulars issued thereunder from time to time.

I. INTRODUCTION

A. Definitions/interpretation

The details detailed definitions/ interpretations refer to the link on website of the mutual fund viz. <https://www.kotakmf.com/Information/statutory-disclosure/disclosuresrelatedtosidandkim>

B. Risk factors

Scheme Specific Risk Factors:

- The Scheme is a passively managed scheme. The Scheme shall endeavor to invest in the securities included in its Underlying Index regardless of their investment merit, subject to deviations permitted as per extant SEBI circulars as amended from time to time. The AMC does not attempt to individually select securities or to take defensive positions in declining markets. The performance of the Underlying Index will have a direct bearing on the performance of the Scheme. The Scheme may be affected by a general decline in the Indian markets relating to its Underlying Index.
- **Portfolio Concentration Risk**
To the extent that the Scheme may concentrate its investments in the securities of certain issuers sectors, the Scheme will therefore be subject to the risks associated with such concentration. In addition, the Scheme may be exposed to higher levels of volatility and risk than would generally be the case in a more diverse fund portfolio of debt securities. Such risks may impact the Scheme to the extent that it invests in particular issuers sectors even in cases where the investment objective is more generic.
- **Tracking errors / difference** are inherent in any index fund and such errors may cause the scheme to generate returns which are not in line with the performance of the CRISIL-IBX Financial Services 3-6 Months Debt Index or one or more securities covered by / included in the underlying index.
- To the extent that some assets/ funds may be deployed in debt/money market operations, the scheme will be subject to risks relating to such deployment / operations and may also contribute to tracking errors/ difference.

Risk specific to investing in companies forming part of CRISIL-IBX Financial Services 3-6 Months Debt Index:

The underlying companies forming part of CRISIL-IBX Financial Services 3-6 Months Debt Index has AAA rated bonds which are well researched. They also enjoy liquidity. The risk to investing in these securities would emanate from debt market risk in general. Additionally, there is a potential risk if the company's sector does not perform in line with the broader market. Regulatory restrictions may prevent the fund manager from fully replicating the index, such as limitations on group company / related party exposure etc,. In such cases, the fund manager will follow the relevant regulatory provisions.

Risks associated with Debt / Money Markets

a) Credit Risk:

Securities carry a Credit risk of repayment of principal or interest by the borrower. This risk depends on micro-economic factors such as financial soundness and ability of the borrower as also macro-economic factors such as Industry performance, Competition from Imports, Competitiveness of Exports, Input costs, Trade barriers, Foreign Currency market, etc.

Credit risks of most issuers of Debt securities are rated by Independent and professionally run rating agencies. Ratings of Credit issued by these agencies typically range from "AAA" (read as "Triple A" denoting "Highest Safety") to "D" (denoting "Default"), with about 6 distinct ratings between the two extremes.

The highest credit rating (i.e. lowest credit risk) commands a low yield for the borrower. Conversely, the lowest credit rated borrower can raise funds at a relatively higher cost. On account of a higher credit risk for lower rated borrower's lenders prefer higher rated instruments further justifying the lower yields.

b) Price-Risk or Interest-Rate Risk:

From the perspective of coupon rates, Debt securities can be classified in two categories, i.e., Fixed Income bearing Securities and Floating Rate Securities. In Fixed Income Bearing Securities, the Coupon rate is determined at the time of investment and paid/received at the predetermined frequency. In the Floating Rate Securities, on the other hand, the coupon rate changes - 'floats' - with the underlying benchmark rate, e.g., MIBOR, 1 yr. Treasury Bill.

Fixed Income Securities (such as Government Securities, bonds, debentures and money market instruments) where a fixed return is offered, run price-risk. Generally, when interest rates rise, prices of fixed income securities fall and when interest rates drop, the prices increase. The extent of fall or rise in the prices is a function of the existing coupon, the payment-frequency of such coupon, days to maturity and the increase or decrease in the level of interest rates. The prices of Government Securities (existing and new) will be influenced only by movement in interest rates in the financial system. Whereas, in the case of corporate or institutional fixed income securities, such as bonds or debentures, prices are influenced not only by the change in interest rates but also by credit rating of the security and liquidity thereof. However, debt securities in the scheme are intended to be held till maturity. For such securities held till maturity, there will not be any interest rate risk at the end of the tenure.

Floating rate securities issued by a government (coupon linked to treasury bill benchmark or a real return inflation linked bond) have the least sensitivity to interest rate movements, as compared to other securities. The Government of India has already issued a few such securities and the Investment Manager believes that such securities may become available in future as well. These securities can play an important role in minimizing interest rate risk on a portfolio.

c) Risk of Rating Migration:

The following table illustrates the impact of change of rating (credit worthiness) on the price of a hypothetical AA rated security with a maturity period of 3 years, a coupon of 10.00% p.a. and a market value of Rs. 100. If it is downgraded to A category, which commands a market yield of, say, 11.00% p.a., its market value would drop to Rs. 97.53 (i.e. 2.47%) If the security is up-graded to AAA category which commands a market yield of, say, 9.00% p.a. its market value would increase to Rs 102.51 (i.e. by 2.51%). The figures shown in the table are only indicative and are intended to demonstrate how the price of a security can be affected by change in credit rating.

Rating	Yield (% p.a.)	Market Value (Rs.)
AA	10.00	100.00
If upgraded to AAA	9.00	102.51
If downgraded to A	11.00	97.53

d) Basis Risk:

During the life of floating rate security or a swap the underlying benchmark index may become less active and may not capture the actual movement in the interest rates or at times the benchmark may cease to exist. These types of events may result in loss of value in the portfolio. Where swaps are used to hedge an underlying fixed income security, basis risk could arise when the fixed income yield curve moves differently from that of the swap benchmark curve.

e) Spread Risk:

In a floating rate security the coupon is expressed in terms of a spread or mark up over the benchmark rate. However, depending upon the market conditions the spreads may move adversely or favourably leading to fluctuation in NAV.

f) Reinvestment Risk:

Investments in fixed income securities may carry reinvestment risk as interest rates prevailing on the interest or maturity due dates may differ from the original coupon of the bond. Consequently, the proceeds may get invested at a lower rate.

g) Liquidity Risk:

This refers to the ease with which a security can be sold at or near to its valuation yield-to-maturity (YTM). The primary measure of liquidity risk is the spread between the bid price and the offer price quoted by a dealer. The corporate debt market is relatively illiquid vis-a- vis the government securities market. There could therefore be difficulties in exiting from corporate bonds in times of uncertainties. Liquidity in a scheme therefore may suffer. On occasions, there could be difficulties in transacting in the market due to extreme volatility or unusual constriction in market volumes or on occasions when an unusually large transaction has to be put through. In view of this, redemption may be limited or suspended after approval from the Boards of Directors of the AMC and the Trustee, under certain circumstances as described in the Statement of Additional Information (SAI).

Risk associated with investment in Government securities and Triparty repo on Government securities or treasury bills:

- The mutual fund is a member of securities segment and Triparty repo on Government securities or treasury bills trade settlement of the Clearing Corporation of India (CCIL). All transactions of the mutual fund in government securities and in Triparty repo on Government securities or treasury bills trades are settled centrally through the infrastructure and settlement systems provided by CCIL; thus reducing the settlement and counter party risks considerably for transactions in the said segments.
- The members are required to contribute towards margin obligation (Initial / Mark to Market etc.) as per bye-laws of CCIL as also an amount as communicated by CCIL from time to time to the default fund maintained by CCIL as a part of the default waterfall (a loss mitigating measure of CCIL in case of default by any member in discharging their obligation. As per the waterfall mechanism, after the defaulter's margins and the defaulter's contribution to the default fund have been appropriated, CCIL's contribution is used to meet the losses. Post utilization of CCIL's contribution if there is a residual loss, it is appropriated from the default fund contributions of the non-defaulting members as determined by CCIL.
- Thus the scheme is subject to risk of the initial margin and default fund contribution being invoked in the event of failure of any settlement obligations. In addition, the fund contribution is allowed to be used to meet the residual loss in case of default by the other clearing member (the defaulting member).
- CCIL maintains two separate Default Funds in respect of its Securities Segment, one with a view to meet losses arising out of any default by its members from outright and repo trades and the other for meeting losses arising out of any default by its members from Triparty repo on Government securities or treasury bills trades. The mutual fund is exposed to the extent of its contribution to the default fund of CCIL, in the event that the contribution of the mutual fund is called upon to absorb settlement/

default losses of another member by CCIL, as a result the scheme may lose an amount equivalent to its contribution to the default fund.

Risk associated with Securities Lending

In the case of securities lending, there is a possibility of recall of securities lent at a higher premium than at which the security is lent or unable to recall due to low volume. Additional risk on securities lending is that there can be temporary illiquidity of the securities that are lent out and the Fund may not be able to sell such lent-out securities, resulting in an opportunity loss. In case of a default by counterparty, the loss to the Fund can be equivalent to the securities lent.

Risks associated with segregated portfolio

Investor holding units of segregated portfolio may not be able to liquidate their holding till the time realisable value is recovered;

Security comprising of segregated portfolio may realise lower value or may realise zero value;

Listing of units of segregated portfolio in recognised stock exchange does not necessarily guarantee their liquidity. There may not be active trading of units in the stock market. Further trading price of units on the stock market may be significantly lower than the prevailing NAV.

Risks associated with Tracking Error / Tracking Difference:

Tracking error i.e. the annualized standard deviation of the difference in daily returns between the underlying index or goods and the NAV of the ETF/ Index Fund (other than Debt ETFs/ Index Funds) based on past one year rolling data shall not exceed 2%. In case of unavoidable circumstances in the nature of force majeure, which are beyond the control of the AMCs, the tracking error may exceed 2% and the same shall be brought to the notice of Trustees with corrective actions taken by the AMC, if any.

Tracking difference is the annualized difference of daily returns between the index or goods and the NAV of the Index Fund. However, the scheme will endeavor to limit the tracking difference averaged over one-year period within 1.25% limits.

Tracking error / difference could be the result of a variety of factors including but not limited to:

- Delay in the purchase or sale of securities / Issuances within the benchmark due to
 - Illiquidity in the securities
 - Delay in realisation of sale proceeds
- The scheme may buy or sell the securities comprising the index at different points of time during the trading session at the then prevailing prices which may not correspond to its valuation prices.
- The potential for trades to fail, which may result in the Scheme not having acquired the securities at a price necessary to track the benchmark price.
- Index providers may either exclude or include new securities in their periodic review of the securities that constitute the underlying index. In such situations the scheme will endeavour to rebalance the portfolio in line with the index. But may not be able to mirror the index immediately due to the available investment/reinvestment opportunity.
- The holding of a cash position and accrued income prior to distribution of income and payment of accrued expenses.
- Disinvestments to meet redemptions, recurring expenses, payouts of IDCW etc.
- Execution of large buy / sell orders
- Delay in credit of securities
- Transaction cost and recurring expenses
- Delay in realisation of Unit holders' funds
- Maintenance of margins

Risk associated with investing in Mutual fund units

Investment in units of Mutual Fund scheme involves investment risks such as trading volumes, settlement risk, liquidity risk, default risk including the possible loss of principal. As the price / value / interest rates of the underlying securities in which the mutual fund scheme invests fluctuates, the value of units of mutual fund scheme may go up or down. The value of underlying securities may be affected, inter-alia, by changes in the market, interest rates, changes in credit rating, trading volumes, settlement periods and transfer procedures; the NAV is also exposed to Price/Interest-Rate Risk and Credit Risk and may be affected inter-alia, by government policy, volatility and liquidity in the money markets and pressure on the exchange rate of the rupee. Investment in units of mutual fund scheme is also exposed to risk of suspension of subscriptions / redemptions of the units, change in fundamental attributes etc. Since the Scheme may invest in schemes of Mutual Funds, scheme specific risk factors of each such mutual fund schemes will be applicable to the Scheme portfolio.

All the above factors may not only affect the prices of securities but also the time taken by the Fund for redemption of Units, which could be significant in the event of receipt of a very large number of redemption requests or very large value ps. The liquidity of the assets may be affected by other factors such as general market conditions, political events, bank holidays and civil strife. In view of this, redemption may be limited or suspended after approval from the Boards of Directors of the AMC and the Trustee, under certain circumstances as described elsewhere in the SAI.

C. Risk mitigation strategies

Type of Risks	Measures/ Strategies to control risks
Government securities and Triparty repo on Government securities or treasury bills:	As a member of securities segment and Triparty repo segment, maintenance of sufficient margin is a mandatory requirement. CCIL monitors these on a real time basis and requests the participants to provide sufficient margin to enable the trades etc. Also, there are stringent conditions / requirements before registering any participants by CCIL in these segments. Since settlement is guaranteed the loss on this account could be minimal though there could be an opportunity loss.
Market/Volatility Risk	The Scheme, as a constant maturity index fund structure, passively replicates the index. Positioned at the very short end of the yield curve, it inherently limits volatility. Additionally, this scheme is typically chosen by investors with a clear investment horizon as per benchmark. If these investors remain invested, their profile aligns with the asset, thus automatically mitigating risk.
Credit risk	The Scheme will majorly invest in AAA / A1+ rated securities as per the index constituent. These instruments generally bear low credit risk. Thus, this risk is mitigated to some extent.
Liquidity risk	The index designed in such a manner that the securities that are liquid in the secondary markets form a part of the portfolio. i.e. Securities with high Liquidity score* and/or high ISIN outstanding form a part of the portfolio of the index (and ultimately the fund). Thus, the risk is mitigated through index design itself.
Interest rate risk	The fund aligns closely with the duration of the index, reducing sensitivity to interest rate fluctuations. By maintaining a consistent maturity structure and investing in high-quality securities, the scheme aims to minimize the impact of rate changes
Tracking errors / difference	Over a short period, the Scheme may carry the risk of variance between portfolio composition and Benchmark. The objective of the Scheme is to track the performance of the Underlying Index over the same period, subject to tracking error/difference. The Scheme would endeavor to maintain a low tracking error/difference by actively aligning the portfolio in line with the Index.
Securities Lending	The SLB shall be operated through Clearing Corporation/Clearing House of stock exchanges having nation-wide terminals who are registered as Approved

	Intermediaries (AIs).” The risk is adequately covered as Securities Lending & Borrowing (SLB) is an Exchange traded product. Exchange offers an anonymous trading platform and gives the players the advantage of settlement guarantee without the worries of counter party default. The fund manager will endeavor to recall the securities in case lent securities are to be sold.
Segregated Portfolio	In such an eventuality it will be AMC’s endeavor to realise the segregated holding in the best interest of the investor at the earliest.
Units of liquid and overnight mutual fund schemes	Mutual Fund portfolios are generally well diversified and typically endeavor to provide liquidity on a T+1/T+2 basis.

While these measures are expected to mitigate the above risks to a large extent, there can be no assurance that these risks would be completely eliminated.

The measures mention above is based on current market conditions and may change from time to time based on changes in such conditions, regulatory changes and other relevant factors. Accordingly, our investment strategy, risk mitigation measures and other information contained herein may change.in response to the same.

II. INFORMATION ABOUT THE SCHEME:

A. Where will the scheme invest

Securities/ Instruments	Definitions
Securities created and issued by the Central and State Governments and/or repos/reverse repos in such Government Securities as may be permitted by RBI (including but not limited to coupon bearing bonds, zero coupon bonds and treasury bills)	Government Security (G-Sec) is a tradeable instrument issued by the Central Government or the State Governments. It acknowledges the Government's debt obligation. They are generally long term with maturity of one year or more. In India, the Central Government issues both, treasury bills and bonds or dated securities while the State Governments issue only bonds or dated securities, which are called the State Development Loans (SDLs). G-Secs carry practically no risk of default and, hence, are called risk-free gilt-edged instruments. Repos / Reverse Repos enables collateralized short term borrowing and lending through sale/purchase operations in the such government securities.
Debt obligations of domestic Government agencies and statutory bodies, which may or may not carry a Central/State Government guarantee (including but not limited to Indian Government Bond, State Development Loans issued and serviced at the Public Debt Office, Bonds issued by Central & State Government PSU's which are guaranteed by Central or State Governments);	These are instruments are issued by various government agencies and bodies (including but not limited to Indian Government Bond, State Development Loans issued and serviced at the Public Debt Office, Bonds issued by Central & State Government PSU's which are guaranteed by Central or State Governments. They can be issued at discount, par or premium.
Corporate debt (of both public and private sector undertakings) including Nonconvertible debentures (including bonds) and non-convertible part of convertible securities;	These are financial instruments issued by companies (both public and private) to raise long-term funds through public issues. They are generally rated by credit rating agencies.
Short Term Deposits of banks (both public and private sector) and development financial institutions to the extent permissible under SEBI Regulations;	Short Term Deposits are offered by Scheduled Commercial Banks (both public and private sector banks) with a fixed/floating interest rate and maturity date.

Overview of Debt Market and Money Markets

The Indian Debt Market has grown in size substantially over the years. The Reserve Bank of India has been taking steps to make the Indian Debt Market efficient and vibrant. The interest rates were regulated till a few years back, there has been rapid deregulation and currently both the lending and deposit rates are market determined. The Central banker has in its recent credit policy meetings suggested the importance of a fully developed corporate bond market and efforts are being made to have an online trading platform for corporate bonds.

Broadly, the debt market is divided in two parts viz. the Money Market and the Debt market. Money market instruments have a tenor of less than one year while debt market instruments have a tenor of more than one year. Money market instruments are typically commercial paper, certificates of deposit, treasury bills, trade bills, repos, interbank call deposit receipts etc. Debt market comprises typically of securities issued by Governments (Central and State), Banks, Financial Institutions, and Companies in the private and public sector, Corporations, Statutory Bodies etc.

The debt securities are mainly traded over the telephone directly or through brokers. The National Stock Exchange of India has a separate trading platform called the Wholesale Debt Market segment where trades

put through member brokers are reported. The daily volumes in the debt market are in the region of Rs.2500-5000 crores. –

RBI has introduced the Negotiated Dealing System (NDS) platform for screen-based trading in Government Securities and Money Market instruments. Most of the market participants are now operating through NDS. Promoted by major banks and financial institutions, The Clearing Corporation of India Ltd. (CCIL), was incorporated on April 30, 2001. The CCIL guarantees the settlement of all trades executed through NDS. The clearing and settlement risks viz., Counter party Credit Risk and Operational Risk are mitigated by CCIL thereby facilitating a smooth settlement process.

The following table gives approximate yields prevailing as on February 04, 2025 on some of the money and debt market instruments. These yields are indicative and do not indicate yields that may be obtained in future as interest rates keep changing.

Instrument	Yield Range (% per annum)
Inter-bank Call Money	6.30-6.40
91 Day Treasury Bill	6.50-6.55
364 Day Treasury Bill	6.58-6.60
P1+ Commercial Paper 90 Days	7.45-7.50
3-Year Government of India Security	6.60-6.62
5-Year Government of India Security	6.62-6.65
10-Year Government of India Security	6.67-6.70

Generally, for instruments issued by a non-Government entity, the yield is higher than the yield on a Government Security with corresponding maturity. The difference, known as credit spread, depends on the credit rating of the entity. Investors must note that the yields shown above are the yields prevailing on February 04, 2025 and they are likely to change consequent to changes in economic conditions and RBI policy.

B. What are the investment restrictions?

As per the Trust Deed read with the SEBI (MF) Regulations, the following investment restrictions apply in respect of the Scheme at the time of making investments.

1. As per Clause 1 of the Seventh Schedule of MF Regulation, the Scheme shall not invest more than 10% of its NAV in debt instruments comprising money market instruments and non-money market instruments issued by a single issuer which are rated not below investment grade by a credit rating agency authorised to carry out such activity under the Act. Such investment limit may be extended to 12% of the NAV of the scheme with the prior approval of the Trustees and the Board of directors of the asset management company.

Within the limits specified in clause 1 of the Seventh Schedule of MF Regulation, a mutual fund scheme shall not invest more than:

- a) 10% of its NAV in debt and money market securities rated AAA issued by a single issuer; or
- b) 8% of its NAV in debt and money market securities rated AA issued by a single issuer; or
- c) 6% of its NAV in debt and money market securities rated A and below issued by a single issuer.

The above investment limits may be extended by up to 2% of the NAV of the scheme with prior approval of the Trustees and Board of Directors of the AMC, subject to compliance with the overall 12% limit specified in clause 1 of the Seventh Schedule of MF Regulation.

The long term rating of issuers shall be considered for the money market instruments. However, if there is no long term rating available for the same issuer, then based on credit rating mapping

of Credit Rating Agency (CRAs) between short term and long term ratings, the most conservative long term rating shall be taken for a given short term rating

Provided that such limit shall not be applicable for investments in Government Securities, treasury bills and triparty repo on Government securities or treasury bills.

Provided further that such limit shall not be applicable for investments in case of debt exchange traded funds or such other funds as may be specified by the Board from time to time.

Note: The above limits are subject to indicative allocation of Debt and Money Market instruments as stated under the asset allocation of the Scheme.

2. Debentures, irrespective of any residual maturity period (above or below one year), shall attract the investment restrictions as applicable for debt instruments. It is further clarified that the investment limits are applicable to all debt securities, which are issued by public bodies/institutions such as electricity boards, municipal corporations, state transport corporations etc. guaranteed by either state or central government. Government securities issued by central/state government or on its behalf by the RBI are exempt from the above investment limits.
3. The Scheme may invest in another scheme under the same AMC or any other mutual fund without charging any fees, provided that aggregate inter-scheme investment made by all schemes under the same AMC or in schemes under the management of any other asset management shall not exceed 5% of the net asset value of the Mutual Fund.
4. The Scheme shall not make any investments in:
 - (a) any unlisted security of an associate or group company of the Sponsors; or
 - (b) any security issued by way of private placement by an associate or group company of the Sponsors; or
 - (c) the listed securities of group companies of the Sponsors which is in excess of 25% of the net assets.
5. The Scheme shall not invest in any Fund of Funds Scheme.
6. Transfer of investments from one scheme to another scheme in the same Mutual Fund, shall be allowed only if:-
 - a) such transfers are made at the prevailing market price for quoted Securities on spot basis (spot basis shall have the same meaning as specified by Stock Exchange for spot transactions.)
 - b) the securities so transferred shall be in conformity with the investment objective of the scheme to which such transfer has been made.
 - c) IST purchases would be allowed subject to the guidelines as specified para 12.30 in SEBI Master Circular SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024.
7. The Mutual Fund shall buy and sell securities on the basis of deliveries and shall in all cases of purchases, take delivery of relevant securities and in all cases of sale, deliver the securities. Provided further that sale of government security already contracted for purchase shall be permitted in accordance with the guidelines issued by the Reserve Bank of India in this regard.
8. No loans for any purpose may be advanced by the Mutual Fund and the Mutual Fund shall not borrow except to meet temporary liquidity needs of the Schemes for the purpose of payment of interest or IDCW to Unit Holders, provided that the Mutual Fund shall not borrow more than 20% of the net assets of each of the Schemes and the duration of such borrowing shall not exceed a period of six months.
9. The Mutual Fund shall enter into transactions relating to Government Securities only in dematerialised form.

10. The mutual fund shall get the securities purchased / transferred in the name of the fund on account of the concerned scheme, where investments are intended to be of long term nature.
11. Pending deployment of funds of a scheme in terms of investment objectives of the scheme, a mutual fund may invest them in short term deposits of schedule commercial banks, subject to para 12.16 of Master Circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024, as may be amended from time to time. The AMC shall not charge investment management and advisory fees for parking of funds in such short term deposits of scheduled commercial banks.
12. In accordance with the para 12.1 of SEBI Master Circular no. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024, investments in following instruments as specified in the said circular, as may be amended from time to time, shall be applicable:
 - i. The scheme shall not invest in unlisted debt instruments including commercial papers (CPs), other than (a) government securities, (b) derivative products such as Interest Rate Swaps (IRS), Interest Rate Futures (IRF), etc. which are used by mutual funds for hedging.
 - ii. All fresh investments by mutual fund schemes in CPs would be made only in CPs which are listed or to be listed.
 - iii. Further, investment in unrated debt and money market instruments, other than government securities, treasury bills derivative products such as Interest Rate Swaps (IRS), Interest Rate Futures (IRF), etc. by mutual fund schemes shall be subject to the conditions as specified in the said circular:
 - a. Investments should only be made in such instruments, including bills re-discounting, usance bills, etc., that are generally not rated and for which separate investment norms or limits are not provided in SEBI (Mutual Fund) Regulations, 1996 and various circulars issued thereunder.
 - b. Exposure of mutual fund schemes in such instruments shall not exceed 5% of the net assets of the schemes.All such investments shall be made with the prior approval of the Board of AMC and the trustees.
13. Pursuant to para of 3.5.3 of Master Circular No SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024, the scheme shall be considered to be replicating the underlying index, provided:
 - i) Investment in securities of issuers accounting for at least 60% of weight in the index, represents at least 80% of net asset value (NAV) of the Scheme.
 - ii. At no point of time the securities of issuers not forming part of the index exceed 20% of NAV of the Scheme.
 - iii. At least 8 issuers from the underlying index form part of the portfolio of the Scheme.
 - iv. The investment in various securities are aggregated at issuer level for the purpose of exposure limits.
 - v. The exposure limit to a single issuer by the scheme shall be as under:
For AAA rated securities, exposure to a single issuer by the scheme shall not have more than 15% weight in the portfolio.

vi. Total exposure of the Scheme in a particular group (excluding investments in securities issued by PSUs, PFIs and PSBs) shall not exceed 25% of NAV of the scheme. For the purpose of this provision, 'group' shall have the same meaning as defined in paragraph 12.9.3.3 of the Master Circular No SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024.

vii. Total exposure of the Index Fund in a particular sector (excluding G-sec, T-bills, SDLs and AAA rated securities issued by PSUs, PFIs and PSBs) shall not exceed 25% of the NAV of the scheme. However, this provision is not applicable as the scheme is based on sectoral debt indices.

viii. The Macaulay Duration (hereinafter referred as "duration") of the portfolio of the Scheme replicates the duration of the underlying index within a maximum permissible deviation of +/- 10%.

ix. The rating wise weightage of debt securities in the portfolio of Scheme replicates the underlying index. However, greater allocation of up to 10% of the portfolio may be made to higher rated debt securities.

The Scheme shall endeavour to follow the guidelines prescribed under para 3.5.3 of Master Circular No SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024 and circular issued thereunder from time to time.

In addition, certain investment parameters may be adopted internally by AMC, and amended from time to time, to ensure appropriate diversification / security for the scheme, subject to SEBI (MF) regulations and circular issued thereunder from time to time.

The AMC may alter these above stated restrictions from time to time to the extent the SEBI (MF) Regulations change, so as to permit the Scheme to make its investments in the full spectrum of permitted investments for mutual funds to achieve its respective investment objective. The Trustee may from time to time alter these restrictions in conformity with the SEBI (MF) Regulations.

All investment restrictions shall be applicable at the time of making investment.

Modifications, if any, in the Investment Restrictions on account of amendments to the Regulations shall supersede/ override the provisions of the Trust Deed.

C. Fundamental Attributes

As per para 1.14 of SEBI Master circular no SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024, Following are the fundamental attributes of the schemes, in terms of Regulation 18 (15A) of SEBI (MF) Regulations:

In accordance with Regulation 25(26) of the SEBI (MF) Regulations, the asset management company shall ensure that no change in the fundamental attributes of any scheme or the trust, fees and expenses payable or any other change which would modify the scheme and affect the interest of unit holders, shall be carried out unless,

- SEBI has reviewed and provided its comments on the proposal
- A written communication about the proposed change is sent to each unit holder and an advertisement is issued in one English daily newspaper having nationwide circulation as well as in a newspaper published in the language of region where the Head Office of the mutual fund is situated; and
- The Unitholders are given an option for a period of at least 30 calendar days to exit at the prevailing Net Asset Value without any exit load.

D. INDEX METHODOLOGY

a) About CRISIL-IBX Financial Services 3-6 Months Debt Index

Index objective:

CRISIL-IBX Financial Services 3-6 Months Debt Index is a constant maturity index that seeks to track the performance of Commercial Papers (CPs), Certificates of Deposit (CDs) & corporate bond securities maturing within 3 to 6 months from the date of inclusion in the index.

Asset Allocation: 100% CPs, CDs & Bonds.

Index Duration: - The index will have securities maturing in the 3 to 6 months maturity at inception and securities will be reviewed on a set frequency to maintain the steady maturity profile of the index.

Asset Allocation: CPs, CDs & Bonds- 100%

Methodology:

The methodology is in compliance with the norms under section headed “Norms for Debt Exchange Traded Funds (ETFs)/Index Funds” announced by Para 3.5 of SEBI Master circular no. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024.

Eligibility criteria:

1. The weights between asset classes (CPs, CDs and Bonds) are not fixed and could be different during various review periods based on the availability of securities in the market and may also drift due to price movements in the securities.
2. Issuers in the financial services sector with long term conservative rating of AAA with a minimum amount outstanding of Rs. 1500 crores and having securities (CPs, CDs & Bonds) with residual maturity of 3 to 6 months.
 - Minimum security level amount outstanding of Rs. 100 crores.
 - Only listed issuers shall be included in the index. An issuer will be considered to be listed if atleast one security (CPs or Bonds) of such issuer is listed as evaluated at the inception date of the index. CDs are not listed on the exchanges, and hence all CDs are considered eligible if they meet the remaining criteria.

Universe exclusions:

- Perpetual bonds

- Floating rate bonds
- Tax-free bonds
- CE/SO rated bonds
- Partly paid bonds
- Partial redemption bonds
- Single put/call options
- Embedded put & call options with same exercise date
- CPs/CDs with short-term ratings other than A1+

Issuer selection at inception:

- All issuers qualifying the eligibility criteria mentioned above will form a part of universe.
- Up to 20 traded issuers from the universe will be ranked and selected based on liquidity. If less than 8 issuers are available, then select remaining issuers (to bring the count to 8) based on the highest amount outstanding from the universe of outstanding securities as evaluated at the inception date of the index. If the number of issuers is still below 8, then all such eligible issuers with securities maturing in the 3 to 6 months residual maturity period will be shortlisted. Count of 8 issuers will be ensured by relaxing amount outstanding criteria first and then the residual maturity criteria i.e., highest amount outstanding issuers or highest residual maturity of issuers will be selected respectively from the outstanding data.

Security selection at inception:

For each selected issuer, the security (CPs/CDs/Bonds) with highest residual maturity maturing in the 3 to 6 months period will be selected from the eligible universe. The selected security must have a minimum amount outstanding of Rs. 100 crores.

No. of constituents

- Maximum: 20
- Minimum: 8

Weighting Approach

Weights to the issuers will be divided equally as on the base date of the index subject to issuer cap and group cap. Since it's a sectoral index sector caps are not applicable.

- Issuers weights should not exceed 15% for AAA rated issuers. Group cap of 25% will be ensured.
- When any issuer is excluded, the weight of that issuer will be redistributed proportionally amongst the rest of the issuers of the index, subject to issuer & group cap.

Rating change treatment

In case any issuer gets downgraded below AAA, such issuers shall be excluded from the index within the next 5 working days. In that case, the weight of that issuer will be redistributed proportionally in rest of the issuers of the index, subject to issuer cap & group cap. In case of less than 8 issuers are present, then new issuers will be added (to bring the count to 8) from the last reviewed working data as per above mentioned issuer selection criteria at inception.

Cash flow treatment

Any cash flows accruing to the index on account of coupon cash flows, part/full redemption of the security or securities, will be reinvested on the same day in the index in the proportion of existing weights subject to issuer & group cap.

Reconstitution/Rebalancing

1. Issuer selection

The same process for issuer selection would be repeated as that followed **at inception**.

2. Treatment of existing issuers

The eligibility criteria and process for issuer selection will be repeated. Existing issuers will be removed if they fail to qualify on the basis of the criteria and process. The objective of such reconstitution is to maintain the liquidity and duration profile of the index

3. Security Selection-

Same as the process followed during that on the inception of index.

4. Treatment of existing securities

The eligibility criteria and process for issuer/security selection will be repeated. Existing issuers/security will be removed if they fail to qualify basis the criteria and process. The objective of such reconstitution is to maintain the liquidity and duration profile of the index

Reconstitution frequency

Quarterly (January, April, July, October)

Weight reset frequency

- Quarterly (January, April, July, October)
- The weights of securities/issuer will float based on the price movement and will be reset to equal weight during the quarterly review.

E. Other Scheme Specific Disclosures:

Listing and transfer of units	<p>Listing: The Scheme is open-ended in nature. It is not necessary to list the units of the scheme on any exchange. Liquidity is ensured to investors by the purchase and sale of Units from/to the Fund at prices related to the relevant Applicable NAV for the purpose of purchasing or redeeming Units from the Fund.</p> <p>The Trustee, however, has the right to list the Units under the Scheme on any stock exchange/s for better distribution and additional convenience to existing/prospective Unitholders. Even if the Units are listed, the Fund shall continue to offer purchase and redemption facility as specified in this scheme information document. Any listing will come only as an additional facility to investors who wish to use the services of a stock exchange for the purpose of transacting business in the Units of the Scheme.</p> <p>Transfer of Units: The Asset Management Company shall, on production of instrument of transfer together with relevant documents, register the transfer within 30 days from the date of such production. The Units of the Scheme will be fully and freely transferable in accordance with the provisions of SEBI (Depositories and Participants) Regulations, 1996 as may be amended from time to time and as stated in Para 14.4.4 of SEBI Master Circular no. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024. Also, when a person becomes a holder of the units by operation of law or upon enforcement of pledge, then the AMC shall, subject to production/submission of such satisfactory evidence, which in its opinion is sufficient, effect the transfer, if the intended transferee is otherwise eligible to hold the units.</p> <p>Transfer of units held in Non-Demat [Statement of Account ('SOA')] mode: As per the AMFI Best Practices Guidelines Circular No.116 /2024-25 dated August 14, 2024, on 'Standard Process for Transfer of Units held in Non-Demat (SoA) mode', units held by individual unitholders in Non Demat ('SoA') mode can be transferred only in following cases-</p>
--------------------------------------	--

	<p>i. Surviving joint unitholder, who wants to add new joint holder(s) in the folio upon demise of one or more joint unitholder(s).</p> <p>ii. A nominee of a deceased unitholder, who wants to transfer the units to the legal heirs of the deceased unitholder, post the transmission of units in the name of the nominee.</p> <p>iii. A minor unitholder who has turned a major and has changed his/her status from minor to major, wants to add the name of the parent / guardian, sibling, spouse etc. in the folio as joint holder(s).</p> <p>Partial transfer of units held in a folio shall be allowed. If the request for transfer of units is lodged on the record date, the IDCW payout/ reinvestment shall be made to the transferor.</p> <p>Redemption of the transferred units shall not be allowed for 10 days from the date of transfer. This will enable the investor to revert in case the transfer is initiated fraudulently.</p> <p>For details, please refer Statement of Additional Information (SAI).</p>
Dematerialization of units	<p>Unit holders will have an Option to hold the units by way of an Account Statement or in Dematerialized ('Demat') form. The unit holders who wish to trade in units would be required to have a demat account. Unit holders opting to hold the units in Demat form must provide their Demat Account details in the specified section of the application form/transaction feed. The Applicant intending to hold the units in Demat form are required to have a beneficiary account with a Depository Participant (DP) registered with NSDL / CDSL and will be required to indicate in the application the DP's name, DP ID Number and the Beneficiary Account Number of the applicant held with the DP at the time of purchasing Units. Unitholders are requested to note that request for conversion of units held in Account Statement (non-demat) form into Demat (electronic) form or vice versa should be submitted to their Depository Participants. The demat request to depository must be submitted for all units in a folio. In case Unit holders do not provide their Demat account details or the Demat details provided in the application form are incomplete / incorrect or do not match with the details with the Depository records, the Units will be allotted in account statement mode provided the application is otherwise complete in all respect and accordingly an account statement shall be sent to them</p>
