HIGHLIGHTS/SUMMARY OF THE SCHEME

| Sr. No. | Title | Description |
|---------|--|---|
| I. | Benchmark (TRI) | <p>Nifty Next 50 Index (TRI)</p> <p>Benchmark Selection Rationale: The index mentioned as benchmark above, is ideal benchmark for this scheme, since the investment objective of the scheme is to replicate /track the performance of the index. The performance of the scheme shall be benchmarked to the Total Return (TRI) variant of the benchmark.</p> |
| II. | Plans and Options Plans/Options and sub options under the Scheme | <p>The Scheme has the following Plans across a common portfolio:</p> <p>Regular Plan: This Plan is for investors who wish to route their investment through any distributor.</p> <p>Direct Plan: This Plan is only for investors who purchase /subscribe units in a scheme directly with the Fund and is not available for investors who route their investments through a Distributor.</p> <p>Both the Plans under the Scheme offer Growth & Income Distribution cum capital withdrawal Option. Income Distribution cum capital withdrawal option under each Plan further offers of choice of Payout of Income Distribution cum capital withdrawal Option, Reinvestment of Income Distribution cum capital withdrawal Option.</p> <p>Compulsory Reinvestment of Income distribution cum Capital Withdrawal:</p> <p>To reduce the expenses of the scheme and for the convenience of the investors the income distribution cum capital withdrawal shall be compulsorily reinvested (for investors of non-electronic mode) within the scheme at the applicable ex-dividend NAV if the payout amount is lower than or equal to Rs. 100/- in the same option of the respective plans of the scheme at the ex- dividend rate.</p> <p>Investor shall note that when units are sold, and sale price (NAV) is higher than face value of the unit, a portion of sale price that represents realized gains shall be credited to an Equalization Reserve Account and which can be used to pay income distribution cum capital withdrawal. Hence payout amounts can be distributed out of investors capital (Equalization Reserve), which is part of sale price that represents realized gains.</p> <p>Please note that the income distribution cum capital withdrawal shall be distributed at the discretion of the Trustees subject to availability of distributable surplus.</p> |

| | <p>Investors subscribing under Direct Plan of the Scheme will have to indicate “Direct Plan” against the scheme name in the application form.</p> <p>Default Plan: Investors are requested to note the following scenarios for the applicability of “Direct Plan (application not routed through distributor) or Regular Plan (application routed through distributor)” for valid applications received under the scheme.</p> <table><tr><th>Scenario</th><th>Broker Code mentioned by the investor</th><th>Plan mentioned by the investor</th><th>Default Plan to be captured</th></tr><tr><td>1</td><td>Not mentioned</td><td>Not mentioned</td><td>Direct Plan</td></tr><tr><td>2</td><td>Not mentioned</td><td>Direct Plan</td><td>Direct Plan</td></tr><tr><td>3</td><td>Not mentioned</td><td>Regular Plan</td><td>Direct Plan</td></tr><tr><td>4</td><td>Mentioned</td><td>Direct Plan</td><td>Direct Plan</td></tr><tr><td>5</td><td>Direct Plan</td><td>Not Mentioned</td><td>Direct Plan</td></tr><tr><td>6</td><td>Direct Plan</td><td>Regular Plan</td><td>Direct Plan</td></tr><tr><td>7</td><td>Mentioned</td><td>Regular Plan</td><td>Regular Plan</td></tr><tr><td>8</td><td>Mentioned</td><td>Not Mentioned</td><td>Regular Plan</td></tr></table> <p>Default Option: Investor should appropriately tick the ‘option’ (Growth or Income distribution cum capital withdrawal) in the application form while investing in the Scheme. | XVII. | Specific attribute of the scheme (such as lock in/ duration in case of target maturity scheme/close ended schemes etc.) (as applicable) | The fund, being open ended in nature, has perpetual duration. |
| XVII I. | Special product/facility available during the NFO and on ongoing basis | <p>Systematic Investment Plan:- The SIP allows the unitholders to invest a fixed amount of Rupees at regular intervals for purchasing additional units of the fund at NAV based prices. Investment can be done with the minimum / maximum amount and number of cheques specified by AMC from time to time. The cheques will be presented on the dates mentioned on the cheque and subject to realization. Units will be allotted at the applicable NAV along with applicable load (if any). “SIP facility is available subject to terms and conditions. Please refer to the SIP Enrolment form for terms and conditions before enrolment.”</p> <p>SIPrise facility:- SIPrise is an optional facility offered by Tata Mutual Fund (TMF) for its eligible schemes (Growth option). This facility is aimed to encourage investors to invest regularly through Systematic Investment Plans (SIP) in TMF schemes for pre-defined tenure. Post SIP period (Investors have an option to select pause period) the accumulated units will be switched from the source scheme to the target scheme. Investors also have an option to select the source scheme as the target scheme. In this case, there would not be any unit transfer through systematic transfer plan (STP). The investor would receive periodic amount through systematic withdrawal plan (SWP) till the units are available. The AMC reserves the right to modify list of eligible schemes from time to time.</p> <p>Systematic Transfer Plan:- A unitholder may establish a Systematic Transfer Plan (STP) and choose to transfer an amount from one TMF Scheme (Source Scheme) to another TMF Scheme (Target Scheme) on a date/ frequency prescribed by the Investment Manager. The amount thus withdrawn by redemption shall be converted into units at the applicable NAV on the scheduled day and such units will be subtracted from the unit balance of that unitholder. The net amount will be considered for allotment in the target scheme and units will be allotted as per the applicable NAV of the target scheme.</p> |

| | | |
|------|--|---|
| | | <p>Systematic Withdrawal Plan:- This facility available to the unitholders of the fund enables them to redeem fixed sums or fixed number of units from their unit accounts at periodic intervals. The amount withdrawn under SWP by redemption shall be converted into the Fund units at the Repurchase price and such units will be redeemed/ subtracted from the unit balance of that unitholder. In case the date falls during a non-business day/ book closure period the immediate next Business Day will be considered for this purpose.</p> <p>SWAP facility (Switch and Withdrawal Automation Plan):- The investor, under a designated open-ended scheme, can opt to switch their investment from the (open-ended) source scheme to the growth plan of the (open-ended) target scheme and set up a Systematic Withdrawal Plan from the target scheme at the same time. This facility allows investors to transfer investment corpus to the desired fund and withdraw the required amounts from your investments in a single process through a single form.</p> <p>For details, kindly refer SAI</p> |
| XIX. | Segregated portfolio/side pocketing disclosure | <p>AMC may create segregated portfolio in accordance with SEBI Mutual Fund Regulation & Circulars issued from time to time.</p> <p>For details, kindly refer SAI</p> |
| XX. | Stock lending | <p>Subject to SEBI (MF) Regulations, 1996 and in accordance with Clause 12.11 in SEBI Master Circular SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024 on Securities Lending Scheme, and framework for short selling and borrowing and lending of securities, the Scheme intends to engage in Stock Lending.</p> <p>For details, kindly refer SAI</p> |

Annexure 1

| | | | | | |
|--|---|---------------------------|---|---|--|
| Equity derivatives of underlying securities forming part of the index may also be available as an investment option in case the underlying security is not available for purchase. | Calculation of cumulative gross exposure | | | | |
| | The scheme(s) will comply with the provision no. 12.24.1 of SEBI Master Circular on Mutual Fund dated June 27, 2024 which specifies that the cumulative gross exposure through equity, debt, money market instruments, mutual fund units, derivative positions, other permitted securities / assets and such other securities / assets as may be permitted by SEBI from time to time shall not exceed 100% of the net assets of the scheme. As per provision no. 12.25.3 of SEBI Master Circular on Mutual Fund dated June 27, 2024, cash, or cash equivalents with residual maturity of less than 91 days shall not be treated as creating any exposure. | | | | |
| | Numerical example of risk involved | | | | |
| | Using Index Futures to increase percentage investment in equities | | | | |
| | This strategy will be used for the purpose of generating returns on idle cash, pending its investment in equities. The Scheme is subject to daily flows. There may be a time lag between the inflow of funds and their deployment in stocks. If so desired, the scheme would be able to take immediate exposure to equities via index futures. The position in index futures may be reversed in a phased manner, as the funds are deployed in the equity markets. | | | | |
| | Example: The scheme has a corpus of Rs. 100 crore and there is an inflow of Rs. 10 crore in a day. The AMC may buy index futures contracts of a value of Rs. 10 crore. Later as the money is deployed in the underlying equities, the value of the index futures contracts can be suitably reduced. | | | | |
| | Portfolio | Event | Equity Portfolio Gain/(Loss) (Rs. In crores) | Derivative Gain/(Loss) (Rs. In crores) | Total Portfolio Gain/(Loss) (Rs. In crores) |
| | Rs. 100 crore equity exposure | 10% rise in equity prices | 10 | NIL | 10 |
| | Rs. 100 crore equity exposure + Rs. 10 crore long position in Index Futures | 10% rise in equity prices | 10 | 1 | 11 |
| | | | | | |
| | | | | | |

| | Portfolio | Event | Equity Portfolio Gain/(Loss) (Rs. In crores) | Derivative Gain/(Loss) (Rs. In crores) | Total Portfolio Gain/(Loss) (Rs. In crores) |
|--|---|---------------------------|--|--|---|
| | Rs. 100 crore equity exposure | 10% fall in equity prices | (10) | NIL | (10) |
| | Rs. 100 crore equity exposure + Rs. 10 crore long position in Index Futures | 10% fall in equity prices | (10) | (1) | (11) |
| | <p>Risks associated with Derivatives:</p> <p>Derivative products are leverage instruments and can provide disproportionate gains as well as disproportionate losses to the investors. Execution of such strategies depends upon the ability of the Fund Manager to identify such opportunities. Identification and execution of the strategies to be pursued by the Fund Manager involved uncertainty and decision of Fund Manager may not always be profitable. No assurance can be given that the Fund Manager will be able to identify or execute such strategies.</p> <p>Derivative products are specialized instruments that require investment techniques and risk analysis different from those associated with stocks and bonds. Derivatives require the maintenance of adequate controls to monitor the transactions entered, the ability to assess the risk that a derivative add to the portfolio and the ability to forecast price of securities being hedged and interest rate movements correctly. There is a possibility that a loss may be sustained by the portfolio because of the failure of another party (usually referred to as the “counterparty”) to comply with the terms of the derivatives contract. Other risks in using derivatives include the risk of mispricing or improper valuation of derivatives and the inability of derivatives to correlate perfectly with underlying assets, rates, and indices.</p> <p>The risks associated with the use of derivatives are different from or greater than, the risks associated with investing directly in securities and other traditional investments.”</p> <p>Disclosure relating to extent and manner of participation in derivatives to be provided</p> <p>In accordance with Clause 12.25 of SEBI Master Circular SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024, the following investment restrictions shall apply with respect to investment in Derivatives:</p> <ol style="list-style-type: none"> 1. | Risk factors | <p>Scheme Specific Risk Factors:</p> <p>Risk associated with investing in companies forming part of Nifty Next 50 Index (TRI). The specific risk factors related to the Scheme include, but are not limited to the following:</p> <p>The Scheme, being a passively managed will invest atleast 95% of its net assets in Equity and</p> | | | | | | | | | | | | | | | | | | | | | | | | | | | |

| | |
|--|---|
| | <p>Equity related instruments comprising of the Underlying Index. The Index is designed to reflect the behavior and performance of the companies that forms part of Nifty Next 50 Index (TRI).</p> <p>The liquidity of the scheme's investments is inherently restricted by trading volumes and settlement periods. In the event of an inordinately large number of redemption requests, or of a restructuring of the scheme's investment portfolio, these periods may become significant. In view of the same, the right to limit redemptions (including suspending redemptions) under certain circumstances will be in accordance with Paragraph 1.12 of SEBI Master Circular.</p> <p>The value of the investments in the scheme, may be affected generally by factors affecting securities markets, such as price and volume volatility in the capital markets, interest rates, currency exchange rates, changes in policies of the Government, taxation laws or policies of any appropriate authority and other political and economic developments and closure of stock exchanges which may have an adverse bearing on individual securities, a specific sector or all sectors including equity and debt markets. Consequently, the NAV of the Units of the Scheme may fluctuate and can go up or down.</p> <p>Trading volumes, settlement periods and transfer procedures may restrict the liquidity of the equity and equity related investments made by the Scheme which could cause the scheme to miss certain investment opportunities. Different segments of the financial markets have different settlement periods and such periods may be extended significantly by unforeseen circumstances leading to delays in receipt of proceeds from sale of securities.</p> <p>The inability of the Scheme to make intended securities purchases due to settlement problems could also cause the Scheme to miss certain investment opportunities. Additionally, the inability to sell securities held in a Scheme's portfolio due to the absence of a well-developed and liquid secondary market for debt securities would result, at times, in potential losses to the Scheme, in case of a subsequent decline in the value of securities held in a Scheme's portfolio.</p> <p>There is an element of unpredictable market cycles that could run for extended periods. Loss of value due to obsolescence, or regulatory changes coupled with structural rigidity of the scheme can lead to permanent loss of capital.</p> <p>Further, the volatility and / or adverse performance of the said index and/or of the scrips belonging to this index would have a material adverse bearing on the performance of the Scheme.</p> <p>Standard Risk Factors:</p> <ul style="list-style-type: none"> • Mutual Fund investments are subject to market risks, read all scheme-related documents carefully. • Investment in Mutual Fund Scheme Units involves investment risks such as trading volumes, settlement risk, liquidity risk, default risk including the possible loss of principal • As the price / value / interest rates of the securities in which the scheme invests fluctuates, the value of units of the scheme may go up or down. • Mutual Funds and securities investments are subject to market risks and there can be no assurance and no guarantee that the Scheme will achieve its objective. • As with any investment in stocks, shares and securities, the NAV of the Units under this Scheme can go up or down, depending on the factors and forces affecting the capital markets. |

| | <ul style="list-style-type: none"> • Past performance of the previous Schemes, the Sponsors or its Group / Affiliates / AMC / Mutual Fund is not indicative of and does not guarantee the future performance of the Scheme. • Investment in equity and equity related securities, including option contracts involve a high degree of risks and investors should not invest in the schemes unless they can afford to take the risk of losing their investment. • The sponsors are not responsible or liable for any loss resulting from the operations of the scheme beyond the initial contribution of Rs. 1 lakh made by them towards setting up of the mutual fund. • Tata Nifty Next 50 Index Fund is only the name of the Scheme and does not in any manner indicate either the quality of the Scheme, or its future prospects or the returns. Investors therefore are urged to study the terms of the scheme carefully and consult their Tax and Investment Advisor before investing in the Scheme. • The scheme is not guaranteed or assured return scheme. <p>Tracking Error & Tracking Difference Risk:</p> <p>The Fund Manager would not be able to invest the entire corpus exactly in the same proportion as in the underlying index due to certain factors such as the fees and expenses of the scheme, corporate actions, cash balance, changes to the underlying index, non-availability of issuances, regulatory policies and any such reasons that may affect AMC's ability to achieve close correlation with the underlying index of the scheme. The scheme's returns may therefore deviate from those of its underlying index. "Tracking Difference" is the difference of return between the fund and its respective benchmark. "Tracking Error" is defined as the standard deviation of the difference between daily returns of the underlying index and the NAV of the respective scheme. Tracking Error / Tracking difference may arise including but not limited to the following reasons: -</p> <ol style="list-style-type: none"> i. Expenditure incurred by the fund. ii. The holding of a cash position and accrued income prior to distribution of income and payment of accrued expenses. The fund may not be always invested as it may keep a portion of the funds in cash to meet redemptions or for corporate actions. iii. Securities trading may halt temporarily due to circuit filters. iv. Corporate actions such as debenture or warrant conversion, merger, change in constituents, etc. v. Disinvestments to meet redemptions, recurring expenses, etc. vi. Deviation in portfolio replication vii. Execution of large buy / sell orders. viii. Transaction cost (including taxes and insurance premium) and recurring expenses. ix. Realization of Unit holders' funds <p>The tracking error i.e., the annualized standard deviation of the difference in daily returns between the underlying index or goods and the NAV of the Scheme based on past one year rolling data shall not exceed 2%. In case of unavoidable circumstances in the nature of force majeure, which are beyond the control of the AMCs, the tracking error may exceed 2% and the same shall be brought to the notice of Trustees. However, the Fund will endeavor to limit the tracking error within 2% limits. The Fund existence for a period of less than one year, the annualized standard deviation shall be calculated based on available data.</p> |

| | <p>Risks associated with investments in Equity Instruments:</p> <p>Investment Risks Investments in equity and equity related securities involve a degree of risk and investors should not invest in the equity Schemes unless they can afford to take the risk of losing their investment.</p> <p>The price of securities may go up or down depending on a variety of factors and hence investors may note that AMC/Fund Manager's investment decisions may not be always profitable. Although it is intended to generate capital appreciation and maximize the returns by actively investing in equity securities and utilizing debt and money market instruments as a defensive investment strategy. The price of securities may be affected by factors affecting capital market such as price and volume, volatility in the stock markets, interest rates, currency exchange rates, foreign investment, changes in Government and Reserve Bank of India policy, taxation, political, economic, or other developments, closure of the Stock Exchanges etc. Investors should understand that the investment pattern indicated, in line with prevailing market conditions, is only a hypothetical example as all investments involve risk and there is no assurance that the Fund's investment objective will be attained or that the Fund may not be able to maintain the indicated percentage of investment pattern under exceptional circumstances. There is no guarantee the investment / dis-investment decision will result in profit.</p> <p>Market Risk The Scheme's NAV will react to the stock market movements. The Investor could lose money over short periods due to fluctuation in the Scheme's NAV in response to factors such as economic and political developments, changes in interest rates and perceived trends in stock prices and market movements, and over longer periods during market downturns.</p> <p>Settlement Risk In certain cases, settlement periods may be extended significantly by unforeseen circumstances. The inability of the Scheme to make intended securities purchases due to settlement problems could cause the Scheme to miss certain investment opportunities as in certain cases, settlement periods may be extended significantly by unforeseen circumstances. Similarly, the inability to sell securities held in the Schemes portfolio may result, at times, in potential losses to the Schemes, and there can be a subsequent decline in the value of the securities held in the respective Scheme's portfolio.</p> <p>Risks associated with Debt / Money Markets Instruments:</p> <p>Interest Rate Risk As with money instruments, changes in interest rate may affect the price of the money market instrument(s) and the Scheme's net asset value. The prices of instruments increase as interest rates decline and decrease as interest rates rise. Prices of long-term securities fluctuate more in response to such interest rate changes than short-term securities. Indian debt and government securities markets can be volatile leading to the possibility of price movements up or down in fixed income securities and thereby to movements in the NAV.</p> <p>Credit Risk Credit risk or Default risk refers to the risk that an issuer of a fixed income security may default (i.e., the issuer will be unable to make timely principal and interest payments on the security). Because of this risk corporate debentures are sold at a higher yield above those offered on</p> |
|--|--|

| | |
|--|--|
| | <p>Government Securities, which are sovereign obligations and free of credit risk. Normally, the value of fixed income securities will fluctuate depending upon the changes in the perceived level of credit risk as well as any actual event of default. The greater the credit risk, the greater the yield required for someone to be compensated for the increased risk.</p> <p>Reinvestment Risk This risk refers to the difference in the interest rate levels at which cash flows received from the securities in the scheme is reinvested. The additional income from reinvestment is the “interest on interest” component. The risk is that the rate at which interim cash flows are reinvested may be lower than that originally assumed.</p> <p>Liquidity risk: This represents the possibility that the dispatch price from selling the security might be lesser than the valuation price because of illiquid market. If a large outflow from the Scheme is funded by selling some of the illiquid securities, the NAV could fall even if there is no change in interest rates.</p> <p>Risks associated with Segregated Portfolio: Investors holding units of segregated portfolio may not be able to liquidate their holding till the time recovery of money from the issuer. Security comprising of segregated portfolio may not realize any value. Listing of units of segregated portfolio in recognized stock exchange does not necessarily guarantee their liquidity. There may not be active trading of units in the stock market. Further the trading price of units on the stock market may be significantly lower than the prevailing NAV.</p> <p>Risks associated with investing in Securities Segment and Tri-party Repo trade settlement: The mutual fund is a member of securities segment and Tri-party Repo trade settlement of the Clearing Corporation of India (CCIL). All transactions of the mutual fund in government securities and in Tri-party Repo trades are settled centrally through the infrastructure and settlement systems provided by CCIL thus reducing the settlement and counterparty risks for transactions in the said segments. The members are required to contribute an amount as communicated by CCIL from time to time to the default fund maintained by CCIL as a part of the default waterfall (a loss mitigating measure of CCIL in case of default by any member in settling transactions routed through CCIL). CCIL shall maintain two separate Default Funds in respect of its Securities Segment, one with a view to meet losses arising out of any default by its members from outright and repo trades and the other for meeting losses arising out of any default by its members from Triparty Repo trades. The mutual fund is exposed to the extent of its contribution to the default fund of CCIL, if the contribution of the mutual fund is called upon to absorb settlement/default losses of another member by CCIL, as a result the scheme may lose an amount equivalent to its contribution to the default fund.</p> <p>Securities Lending by the Mutual Fund The Scheme may participate in securities lending and borrowing scheme in accordance with Securities Lending Scheme, 1997, Regulation 44 (4) of SEBI (Mutual Funds) Regulations ,1996, provision no. 12.11 of SEBI Master circular on Mutual Fund dated June 27, 2024, framework for short selling and borrowing and lending of securities, provision no. 12.11.2.1.a of SEBI Master circular on Mutual Fund dated June 27, 2024. The Scheme shall also follow other relevant regulations /guidelines issued by stock exchange(s) from time to time. The Scheme shall participate in Securities Borrowing and Lending only with the SEBI approved intermediaries.</p> |
|--|--|

| | |
|--|---|
| | <p>Securities Lending means the lending of securities to SEBI approved intermediaries for a tenure of 1 to 12 months at a negotiated compensation to enhance returns of the scheme portfolio. The securities lent will be returned by the borrower on the expiry of the stipulated period. The AMC will adhere to the following strict internal limits should it engage in Securities Lending.</p> <p>Not more than 20% of the net assets of the Scheme can be deployed in stock lending. Collateral would always be obtained by the approved intermediary. Collateral value would always be more than the value of security lent. Collateral can be in the form of cash, bank guarantee, and government securities, as may be agreed upon with the approved intermediary, and would also be subject to a mark to market valuation daily.</p> <p>Example: A scheme has a security of a company which it would wish to hold for a prolonged period as a core holding in the portfolio as per the fund manager's plan. In that case the investors would be benefited only to the extent of the rise in the value of the security, from time to time if any, on the exchange. If the scheme is enabled to lend the said security to a borrower who would be wanting to take advantage of the market fluctuations in its price, the borrower would return the security to the lender (fund) at a stipulated time or on demand for a negotiated compensation. The scheme's unitholders can enhance their returns to the extent of the compensation it will earn for lending the same. An adequate security or collateral will have to be maintained by the intermediary. This should always be higher than the cost of the security. Thus it is in the interest of the investors that returns can be enhanced by way of stock lending rather than hold the security only for capital appreciation potential.</p> <p>Thus the scenario under which the scheme would participate in stock lending would be:</p> <ol style="list-style-type: none"> 1. There is a holding of security, e.g., of XYZ Ltd in the scheme which the fund manager wants to be the core holding of the fund for approximately 6 to 12 months. 2. There is a borrower (not mutual fund) for the security, (who has taken a short position in the market and needs the said security of XYZ Ltd to settle it) who is willing to put up a proper collateral for the same. (In all cases higher than the price of the script). 3. The borrower is represented by a proper recognized intermediary. 4. The agreement is to return the security or the amount so negotiated at a particular period or on demand. <p>Then the security will be lent by the scheme and the unitholders would benefit from the additional compensation earned for lending, apart from the capital appreciation which also happens in that stock. Thus, to summarize, stock lending would be done by the scheme only in the following circumstances:</p> <ol style="list-style-type: none"> a) If permitted by trustees and the extent SEBI regulations in that regard, from time to time. b) If such activity generates additional returns for the scheme and helps to enhance the scheme returns. c) If considering the above and other factors all considered in totality, such activity is in the interest of unitholders in the scheme. <p>Securities Lending Risks It may be noted that this activity would have the inherent probability of collateral value</p> |
|--|---|

| | |
|--|---|
| | <p>drastically falling in times of strong downward market trends, rendering the value of collateral inadequate until such time as that diminution in value is replenished by additional security. It is also possible that the borrowing party and/or the approved intermediary may suddenly suffer severe business setback and become unable to honour its commitments. This, along with a simultaneous fall in value of collateral would render potential loss to the Scheme. Besides, there will also be temporary illiquidity of the securities that are lent out and the Scheme(s) will not be able to sell such lent out securities until they are returned.</p> <p>Risks associated with Investment in units of mutual fund: Investment in Mutual Fund Units involves investment risks, including but not limited to risks such as liquidity risk, volatility risk, default risk including the possible loss of principal.</p> <p>Liquidity risk – The liquidity of the scheme’s investments is inherently restricted by trading volumes and settlement periods. In the event of an inordinately substantial number of redemption requests, or of a restructuring of the scheme’s investment portfolio, these periods may become significant. In view of the same, the right to limit redemptions will be in accordance with provision no. 1.12 of SEBI Master Circular on Mutual Fund dated June 27, 2024.</p> <p>Volatility risks: There is the risk of volatility in markets due to external factors like liquidity flows, changes in the business environment, economic policy etc. The scheme will try to manage volatility risk through diversification across companies and sectors.</p> <p>Default risk – Credit risk is risk resulting from uncertainty in counterparty’s ability or willingness to meet its contractual obligations. This risk pertains to the risk of default on payment of principal and interest. Government Securities have zero credit risk while other debt instruments are rated according to the issuer’s ability to meet the obligations.</p> <p>Risk associated with potential change in Tax structure: This summary of tax implications given in the taxation section is based on the current provisions of the applicable tax laws. This information is provided for general purposes only. The current taxation laws may change due to changes in the ‘Income Tax Act 1961’ or any subsequent changes/amendments in Finance Act/Rules/Regulations. Any change may entail a higher outgo to the scheme or to the investors by way of securities transaction taxes, fees, taxes etc., thus adversely impacting the scheme and its returns.</p> <p>Investors are advised to consult their own tax advisors with respect to the specific tax and other implications arising out of their participation in the scheme prior to making any transaction.</p> <p>Risks Factors associated with transaction in Units through stock exchange(s) In respect of transactions in Units of the Scheme through BSE and / or NSE, allotment and redemption of Units on any Business Day will depend upon the order processing / settlement by BSE and / or NSE and their respective clearing corporations on which the Fund has no control.</p> <p>Right to Limit Redemptions: The Trustee, in the general interest of the Unit holders of the Scheme offered in this Document and keeping in view the unforeseen circumstances / unusual market conditions, may limit the total number of Units which can be redeemed on any Business Day. The same shall be in accordance with provision no. 1.12 of SEBI Master Circular on Mutual Fund dated June 27, 2024 (Restriction on redemption in Mutual Funds).</p> |

Risk Mitigation Strategies

Risk mitigation measures for portfolio volatility and portfolio concentration:

Tata Nifty Next 50 Index Fund is an index fund where there will be concentration of securities which are part of Nifty Next 50 Index (TRI). The scheme is subject to the risks associated with such securities forming part of this index. Index Fund being a passive investment and portfolio follows the index and therefore the level of stock concentration in the portfolio and its volatility would be the same as that of the index, subject to tracking error. Thus, there is no additional element of volatility or stock concentration on account of fund manager decisions. The Risk Mitigation strategy revolves around minimizing the Tracking error to the least possible through regular rebalancing of the portfolio, considering the change in weights of stocks in the Underlying Index as well as the incremental collections into / redemptions from the Scheme.

Risk Control / Mitigation measures for investment in Derivative Instruments:

The Scheme may take an exposure to equity derivatives of constituents or index derivatives of the underlying index for short duration when securities of the index are unavailable, insufficient or for rebalancing at the time of change in index or in case of corporate actions, as permitted. All derivatives trade will be done only on the exchange with guaranteed settlement. Exposure with respect to derivatives shall be in line with regulatory limits and the limits specified in the SID.

Risk Control / Mitigation measures for Equity & Equity related instruments:

| Nature of Risk | Mitigation Measures |
|---|---|
| Market Risk & Volatility | Market risk is a risk inherent to an equity scheme. Being a passively managed scheme, it will invest in the securities included in its Underlying Index. |
| Concentration / Sectorial / Thematic Risk | Index Fund being a passive and portfolio follows the index and therefore the level of stock concentration in the portfolio and its volatility would be the same as that of the index, subject to tracking error. Thus there is no additional element of volatility or stock concentration on account of fund manager decisions. The Risk Mitigation strategy revolves around minimizing the Tracking error to the least possible through regular rebalancing of the portfolio, considering the change in weights of stocks in the Underlying Index as well as the incremental collections into / redemptions from the Scheme. |
| Liquidity Risks | The Scheme being passively managed fund will invest substantially in the constituents of underlying index in the same proportion. As such the liquidity of stocks that the scheme invests in could be relatively low. The scheme will endeavor to maintain a proper asset-liability match to ensure redemption payments are made on time and not affected by illiquidity of the underlying stocks. |

Risk Control / Mitigation measures for Debt and related Investments portion / allocation:

| Nature of Risk | Mitigation Measures |
|-----------------------|---|
| Credit Risk | In house dedicated team for credit appraisal. Focus on good quality paper at the time of portfolio construction. Management analysis will be used to identify company specific risks. Management's past track record will also be studied. To assess financial risk a detailed assessment of the issuer's |

| | | |
|--|--|---|
| | | financial statements will be undertaken. |
| | Price-Risk or Interest-Rate Risk | Close watch on the market events. Active duration management focus will be on investing in lower duration debt instruments. The Scheme may invest the debt portion of the portfolio in money market instruments, units of money market / liquid schemes thereby mitigating the price volatility due to interest rate changes associated with long-term securities. |
| | Risk of Rating Migration | The Scheme may invest the debt portion of the portfolio in short-term money market instruments, units of money market / liquid schemes thereby mitigating the risk of rating migration associated with long-term securities |
| | Spread Risk | The Scheme may invest the debt portion of the portfolio in short-term money market instruments, units of money market / liquid schemes thereby mitigating the risk of spread expansion which is associated with long-term securities |
| | Reinvestment Risk | The debt allocation of the scheme is primarily a cash management strategy, and such strategy returns are expected to reflect the very short-term interest rate hence investment is done in short term debt and money market instruments. Reinvestment risks will be limited to the extent of debt instruments, which will be a small portion of the overall portfolio value. |
| | Liquidity Risk | The Scheme may invest in government securities, corporate bonds, and money market instruments. While the liquidity risk for government securities, money market instruments and short maturity corporate bonds may be low, it may be high in the case of medium to long maturity corporate bonds. The Scheme may, however, endeavor to minimize liquidity risk by investing the debt portion of the portfolio in relatively liquid short-term money market instruments, units of money market / liquid schemes. |
| | <p>While these measures are expected to largely mitigate the above risks, there can be no assurance that these risks will be eliminated.</p> <p>The measures mentioned above are based on current market conditions and may change from time to time based on changes in such conditions, regulatory changes, and other relevant factors. Accordingly, our investment strategy, risk mitigation measures and other information contained herein may change in response to the same.</p> | |

6. Impact Cost

Impact cost represents the cost of executing a transaction in each stock, for a specific predefined order size, at any given point of time. It is a practical and realistic measure of market liquidity; it is closer to the true cost of execution faced by a trader in comparison to the bid-ask spread. A company with lower impact costs suggests high liquidity as against the company with higher impact costs.

The FATCA stipulates reporting on –</p> <p>US taxpayers about certain foreign financial accounts and offshore assets. Foreign Financial Institutions (FFIs) about financial accounts with them of US taxpayers or foreign entities in which US taxpayers hold substantial ownership interest.</p> <p>FFIs (including mutual funds in India) are required to periodically report information on accounts of US persons, who maintain balances above a threshold. In the event of a default in the reporting of information on accounts of US taxpayers, a withholding of 30% of the payment made from US sources will be imposed on the recalcitrant account holders and non-participating Financial Institutions. SEBI vide its circular no. CIR/MIRSD/2/2014 dated June 30, 2014, has advised that Government of India and US Government have reached an agreement in substance on the terms of an Inter-Governmental Agreement (IGA) to implement FATCA and India is now treated as having an IGA in effect from April 11, 2014. Tata Asset Management Company private Limited (TAMPL) is classified as a Foreign Financial Institution (FFI) under the FATCA provisions and in accordance therewith, the AMC would be required to comply with the rules & regulations of FATCA, from time to time.</p> <p>To ensure compliance with FATCA and other rules / directions / notifications as may be issued by Government of India or other regulatory authority, Mutual Funds are required to institute a process to identify US Person investors and report the same.</p> <p>Applicants are required to refer to the “FATCA information” section in the application and mandatorily fill/sign off on the same. To combat the problem of offshore tax evasion and avoidance and stashing of unaccounted money abroad, the G 20 & OECD countries have together developed a common reporting standard(CRS) on automatic exchange of information(AEOI). On June 3,2015 India has joined the Multilateral Competent Authority Agreement(MCAA) on AEOI. The CRS on AEOI requires the financial institutions of the ‘source’ jurisdiction to collect and report information to their tax authorities about account holder’s ‘resident’ in other countries. The information to be exchanged relates not only to individuals, but also to shell companies and trusts having beneficial ownership or interest in the ‘resident’ countries.</p> <p>In view of India’s commitment to implement the CRS on AEOI and also the IGA with USA and with a view to provide information to other countries necessary legislative changes has already been made in Finance Act & by inserting Rules 114F to 114H and Form 61B to provide a legal basis for the Reporting Financial Institutions (RFIs) for maintaining and reporting information about the reportable accounts.</p> <p>Applicants are required to refer to the “FATCA/CRS information” section in the application and</p> |

Asset Allocation & Risk Profile

Under normal circumstances, the investment range would be as follows:

| Type of Instruments | Asset Allocation (% of Net Assets) | | Risk profile |
|--|---------------------------------------|---------|--------------|
| | Minimum | Maximum | |
| Securities covered by Nifty Next 50 Index (TRI) | 95% | 100% | Very High |
| Debt / Money Market Instruments^ including units of Mutual Funds^^ | 0% | 5% | Low |

^ Debt / Money Market Instruments includes instruments like but not limited to Commercial Paper, Certificates of Deposit, Treasury Bills, Bills Rediscounting, Short term Corporate Bonds, Repos, Short-term Government securities and any other such short-term instruments as may be allowed under the regulations prevailing from time to time.

^^ The scheme may also invest in units of liquid / money market / debt mutual fund schemes of Tata Mutual Fund or in the Scheme(s) of other mutual funds in conformity with the investment objective/ asset allocation of the Scheme.

The scheme will invest in all the stocks in the same weightage that they represent in the underlying Index. A small portion of the net assets (up to 5%) will be invested in debt and money market instruments to meet the liquidity requirements of the Scheme.

The Scheme may take an exposure to equity derivatives instruments of constituents of the underlying index for short duration when securities of the index are unavailable, insufficient or for rebalancing at the time of change in index or in case of corporate actions, as permitted. The rebalancing in such cases will be done within the stipulated time as mentioned in ‘change in investment pattern’ para. The margin money requirement for the purposes of derivative exposure will be held in the form of Term Deposits, cash or cash equivalents or as may be allowed under the Regulations.

A part of the net assets may be invested in the triparty repo as may be permitted by RBI to meet the liquidity requirements. Securities in which investment is made for the purpose of ensuring liquidity (debt and money market instruments) are those that fall within the definition of liquid assets.

The scheme(s) will comply with the provision no. 12.24.1 of SEBI Master Circular on Mutual Fund dated June 27, 2024 which specifies that the cumulative gross exposure through equity, debt, money market instruments, mutual fund units, derivative positions, other permitted securities / assets and such other securities / assets as may be permitted by SEBI from time to time shall not exceed 100% of the net assets of the scheme. As per provision no. 12.25.3 of SEBI Master Circular on Mutual Fund dated June 27, 2024, cash, or cash equivalents with residual maturity of less than 91 days shall not be treated as creating any exposure.

Pending deployment of funds of the Scheme in securities in terms of the investment objective of the scheme as stated above, the funds of the Scheme may be invested in short term deposits of scheduled commercial banks in accordance with provision no. 12.16 of SEBI Master Circular on Mutual Fund dated June 27, 2024.

The Scheme shall ensure that the underlying Index complies to the portfolio concentration norms as per provision no. 3.4 of SEBI Master Circular on Mutual Fund dated June 27, 2024.

objective / asset allocation of the Scheme.

Overview of Debt Market:

The major players in the Indian Debt Markets are banks, financial institutions, insurance companies and mutual funds. The instruments in the market can be broadly categorized as those issued by corporate, banks, financial institutions and those issued by state/central governments. The risk associated with any investments are – credit risk, interest rate risks and liquidity risk. While corporate papers carry credit risk due to changing business conditions, government securities are perceived to have zero credit risk. Interest rate risk is present in all debt securities and depends on a variety of macroeconomic factors. The liquidity risk in the corporate securities market is higher compared to those of government securities. The liquidity risk in the corporate debt market has been improving due to the entry of more players and due to various measures taken by the regulators to increase liquidity and transparency such as introduction of repo in corporate bonds, Credit Default Swaps, compulsory reporting of secondary market OTC transactions on exchange platforms to name a few. Moreover, the recent successful introduction of Interest Rate Future on the benchmark 10-year Government Bond will also be likely to increase the depth in the debt market.

The market participants in the corporate debt and gilt markets are banks, financial institutions, mutual funds, corporates, insurance companies, FPIs, primary dealers and provident funds. The main debt instruments in the market are those issued by Corporates and State/Central Governments. Corporate papers carry credit risk while government securities are believed to carry no credit risk. The main risks with investments in debt securities are interest rate risk, credit risk and liquidity risk. Interest rate risk associated with debt instruments depends on the macroeconomic environment. It includes both market price changes due to changes in yields as well as coupon reinvestment rate risk. Corporate papers carry higher liquidity risk as compared to gilts due to the depth of the gilt market.

Money Market:

Money market encompasses a wide range of instruments with maturities ranging from one day to a year, issued by Government, Banks and corporates etc. and traded in markets of varying liquidity. The risk associated with any investments are – credit risk, interest rate risk and liquidity risk. However, such risks are lower in the case of money market instruments compare to other debt instruments. Further, within the gamut of money market instruments as available in the market, such risks are very low in the case of instruments issued by government. While corporate papers carry credit risk due to changing business conditions, government securities are perceived to have zero credit risk.

The following table attempts to give a broad overview of the available instruments in the financial markets and their risk return profile. The data given in the table is based on market conditions around the date of the Offer document and can at best be considered indicative:

| Requirement of minimum investors in the scheme | <p>The scheme shall have a minimum of 20 investors and no single investor shall account for more than 25% of the corpus of the Scheme. The two conditions mentioned above shall be complied with on a calendar quarter basis, on an average basis, as specified by SEBI. If there is a breach of the 25% limit by any investor over the quarter, a rebalancing period of one month would be allowed and thereafter the investor who is in breach of the rule shall be given 15 days’ notice to redeem his exposure over the 25 % limit. Failure on the part of the said investor to redeem his exposure over the 25 % limit within the aforesaid 15 days would lead to automatic redemption by the Mutual Fund on the applicable Net Asset Value on the 15th day of the notice period.</p> <p>However, in case the Scheme does not have a minimum of 20 investors, on an average basis, in the stipulated period (i.e. during the concerned calendar quarter), the provisions of Regulation 39(2) (c) of the SEBI (MF) Regulations would become applicable automatically without any reference from SEBI and accordingly the Scheme shall be wound up and the units would be redeemed at applicable NAV. The Scheme shall adhere to the requirements prescribed by SEBI from time to time in this regard.</p> |

| Tracking Error | <p>Tracking error is a measure of the difference in returns from the Scheme and the returns from the index. It is computed as the standard deviation of the difference between the daily returns of the underlying benchmark and the NAV of the Scheme on an annualized basis. Tracking error could be the result of a variety of factors including but not limited to:</p> <ul style="list-style-type: none"> • Delay in the purchase or sale of stocks within the benchmark due to: <ul style="list-style-type: none"> i. Illiquidity in the stock, ii. Delay in realization of sale proceeds, • The scheme may buy or sell the stocks comprising the index at different points of time during the trading session at the then. prevailing prices which may not correspond to its closing prices. • The potential for trades to fail, which may result in the Scheme not having acquired the stocks at a price necessary to track the benchmark price. • The holding of a cash position and accrued income prior to distribution of income and payment of accrued expenses. • Investment in Debt and money market instruments to meet redemption / other liquidity requirements. • Addition or Removal of stocks from the index-by-index service provider • Disinvestments to meet redemptions, recurring expenses, income distribution cum capital withdrawal payouts etc. • Execution of large buy / sell orders. • Transaction cost and recurring expenses • Delay in realization of Unit holders' funds • Levy of margins by exchanges <p>The Scheme will endeavor to minimize the tracking error by:</p> <ul style="list-style-type: none"> • Rebalancing of the portfolio. • Setting off incremental subscriptions against redemptions. • Use of derivatives for portfolio rebalancing and efficient portfolio management • Fast track in expediting in deployment of Cash • Maintaining low levels of Cash <p>The AMC would monitor the tracking error of the Scheme on an ongoing basis and would seek to minimize tracking error to the maximum extent possible. The tracking error based on past one year rolling data shall not exceed 2%. However, in case of events like, dividend issuance by constituent members, rights issuance by constituent members, and market volatility during rebalancing of the portfolio following the rebalancing of the Underlying Basket, etc. or in abnormal market circumstances, which are beyond the control of the AMCs, the tracking error may exceed 2% and the same shall be brought to the notice of Trustees. However, the Fund will endeavor to limit the tracking error within 2% limits. The Fund in existence for a period of less than one year, the annualized standard deviation will be calculated based on available data.</p> |
| Tracking Difference | <p>“Tracking Difference” is the difference of return between the fund and its respective benchmark. “Tracking Error” is defined as the standard deviation of the difference between daily returns of the underlying index and the NAV of the respective scheme.</p> |
| Trading in Derivatives by the Scheme | <p>A derivative is an instrument whose value is derived from the value of one or more of the underlying assets which can be commodities, precious metals, bonds, currency, etc. Common examples of Derivative instruments are Futures, Options, etc.</p> <p>Subject to SEBI (Mutual Fund) Regulations, 1996, the Scheme may take an exposure to equity</p> |

derivatives of constituents of the underlying index for short duration when securities of the index are unavailable, insufficient or for rebalancing at the time of change in index or in case of corporate actions, as permitted. Exposure to derivative instruments will be restricted to the limit as specified in the para on asset allocation pattern of the scheme.

Example: Please note that below mentioned examples are purely for illustration purposes only and actual exposure may vary to a greater extent in line with the regulatory directives.

Derivative Instruments & Related Examples:

Futures:

A futures contract is an agreement between the buyer and the seller for the purchase and sale of a particular asset at a specific price on a specific future date. The price at which the underlying asset would change hands in the future is agreed upon at the time of entering into the contract. The actual purchase or sale of the underlying asset involving payment of cash and delivery of the instrument does not take place until the contracted date of delivery. A futures contract involves an obligation on both the parties to fulfill the terms of the contract. Currently, futures contracts have a maximum expiration cycle of 3 months. A futures contract on the stock market index gives its owner the right and obligation to buy or sell the portfolio of stocks characterized by the index. Stock index futures are cash settled; there is no delivery of the underlying stocks.

Portfolio Rebalancing

Fund Manager may use derivatives for portfolio rebalancing of the scheme to achieve a particular desired portfolio position at a lower cost using derivatives rather than cash market transactions. Suppose the market moves upward direction for a while and fund manager wants to reduce weightage of scrips which moves one sided along with the market movement. Hence, he may decide to rebalance the portfolio by buying a stock future rather than the stock itself. He may deploy a buy-and-hold strategy by selling a stock or an index portfolio today, investing the proceeds in the money market, and having a locked-in price to buy it back at a future date. However, a fund's position in a stock -underlying and derivatives taken together - should be within the fund's maximum permissible limit in the stock. For this purpose, stock option long calls should be counted as notional value.

Risks associated with Future Contracts:

Investments in index futures face the same risk as the investments in a portfolio of shares representing an index. The extent of loss is the same as in the underlying stocks. The risk of loss in trading futures contracts can be substantial, because of the low margin deposits required, the extremely high degree of leverage involved in futures pricing and the potential high volatility of the futures markets. Additional risks could be on account of illiquidity and potential mispricing of the futures.

Options:

An option gives a person the right but not an obligation to buy or sell something. An option is a contract between two parties wherein the buyer receives a privilege for which he pays a fee (premium), and the seller accepts an obligation for which he receives a fee. The premium is the price negotiated and set when the option is bought or sold. A person who buys an option is said to be long in the option. A person who sells (or writes) an option is said to be short in the option. There are two basic types of options, call option and put option.

Call option: A call option gives the buyer of the option the right but not the obligation to buy a given quantity of the underlying asset, at a given price (strike price), on or before a given future

date.

Put option: A put option gives the buyer of the option the right but not the obligation to sell a given quantity of the underlying asset, at a given price (strike price), on or before a given future date.

On expiry of a call option, if the market price of the underlying asset is lower than the strike price the call would expire unexercised. Likewise, if, on the expiry of the put option, the market price of the underlying asset is higher than that of the strike price the put option will expire unexercised. The buyer/holder of an option can make a loss of not more than the option premium paid to the seller/writer, but the possible gain is unlimited. On the other hand, the option seller/writer's maximum gain is limited to the option premium charged by him from the buyer/holder but can make unlimited loss.

Risks associated with Option Contracts:

The option contracts give a person the right but not an obligation to buy or sell. The risk is potential mispricing and exposure to options can limit the profits from a genuine investment transaction.

Definition of Exposure in case of Derivative Positions

Each position taken in derivatives shall have an associated exposure as defined under. Exposure is the maximum possible loss that may occur on a position. However, certain derivative positions may theoretically have unlimited loss. Exposure in derivative positions shall be computed as follows:

| Position | Exposure |
|---------------|--|
| Long Future | Futures Price*Lot Size*Number of Contracts |
| Short Future | Futures Price*Lot Size* Number of Contracts |
| Option Bought | Option Premium Paid*Lot Size* Number of Contracts. |

**In Addition to the above, SEBI has also prescribed following derivative position limits:
Position Limits for Mutual Fund and its scheme:**

| Position limit for Index Options and Index Futures contracts | |
|--|---|
| Index Options Contract* | On a particular underlying index Rs.500 Crore or 15% of the total open interest of the market in equity Index options contracts, whichever is higher. |
| Index Futures Contract** | On a particular underlying index Rs.500 Crore or 15% of the total open interest of the market in equity Index futures contracts, whichever is higher. |

* This limit would be applicable on open positions in all options contracts on a particular underlying index.

** This limit would be applicable on open positions in all futures contracts on a particular underlying index.

| Additional position limit for hedging | |
|---------------------------------------|--|
| In addition to the position | Short positions in index derivatives (short futures, short |

| NEW FUND OFFER (NFO) EXPENSES | <p>These expenses are incurred for the purpose of various activities related to the NFO like sales and distribution fees paid marketing and advertising, registrar expenses, printing and stationery, bank charges etc.</p> <p>In accordance with the provision of SEBI, the NFO expenses shall be borne by the AMC.</p> | |
| LOAD STRUCTURE | <p>A load is an amount which is paid by the investor to subscribe to the units or to redeem the units from the scheme.</p> <p>Load amounts are variable and are subject to change from time to time.</p> <p>Units issued on reinvestment of income Distribution shall not be subject to exit load. Pursuant to AMFI's communication dated 09th April 2025, Exit Load will not be charged on any Switch/Systematic transfer transaction from Regular plan to Direct plan of the same scheme. For applicability of load structure and NAV, switch-in will be considered as subscription and switch-out will be considered as redemption.</p> <p>The AMC reserves the right to change/modify exit load, depending upon the circumstances prevailing at any given time. However, any change in the load structure will be applicable to prospective investment only. At the time of changing the load structure, the AMC will adopt the following measures:</p> <ul style="list-style-type: none"> • The addendum detailing the changes may be attached to Scheme Information Documents and Key Information Memorandum. The addendum may be circulated to all the distributors/brokers so that same can be attached to all Scheme Information Documents and Key information memoranda already in stock. • The investor is requested to check the prevailing load structure of the scheme before investing. For any change in load structure arrangement may be made to display the addendum in the Scheme Information Document in the form of a notice in all the investor service centers and distributor/ brokers' office. • The introduction of the exit load along with the details may be stamped in the acknowledgement slip issued to the investors on submission of the application form and may also be disclosed in the statement of accounts issued after the introduction of such load. • A public notice shall be given in respect of such change in one English daily newspaper having nationwide circulation as well as in a newspaper published in the language of region where the Head office of Mutual Fund is situated. | |

| Special Products / facilities available | <p>1. Systematic Investment Plan (SIP)</p> <p>The investors can benefit by investing specified Rupees amounts at regular intervals. The SIP allows the unitholders to invest a fixed amount of Rupees at regular intervals for purchasing additional units of the fund at NAV based prices. Investment can be done with the minimum / maximum amount and number of cheques specified by AMC from time to time. The cheques will be presented on the dates mentioned on the cheque and subject to realization. Investors may also register for SIP through One Time Mandate (OTM) form. The payment towards any future SIP instalments transactions received through any mode i.e. physical or electronic can be linked to the OTM form. Units will be allotted at the applicable NAV along with applicable load (if any).</p> <p>“SIP facility is available subject to terms and conditions. Please refer to the SIP Enrolment form for terms and conditions before enrolment.”</p> <p>SIP with Top-up SIP facility:</p> <p>SIP with Top-up SIP is a facility whereby an investor has an option to increase the amount of the SIP Instalment by a fixed amount at pre-defined intervals. This will enhance the flexibility of the investor to invest higher amounts during the tenure of the SIP.</p> <p>Terms and conditions of top-up SIP are as follows:</p> <p>The Top-up option must be specified by the investors while enrolling for the SIP facility. Please refer application form for the minimum SIP Top-up amount.</p> <p>The Top-up details cannot be modified once enrolled. To make any changes, the investor must cancel the existing SIP and enrol for a fresh SIP with Top-up option.</p> <p>Under monthly SIP investors can opt for top up amount at half-yearly and yearly intervals. If the investor does not specify the frequency, the default interval for Top-up will be considered as Yearly.</p> <p>In case of Quarterly SIP, investors can opt for only Yearly interval top-up frequency.</p> <p>For complete details regarding the SIP with top-up facility please refer to SIP Auto Debt Form with Top up facility enrolment form.</p> <p>2. SIPrise facility:</p> <p>SIPrise is an optional facility offered by Tata Mutual Fund (TMF) for its eligible schemes (Growth option). This facility is aimed to encourage investors to invest regularly through Systematic Investment Plans (SIP) in TMF schemes for pre-defined tenure. Post SIP period (Investors have an option to select pause period) the accumulated units will be switched from the source scheme to the target scheme. Investors also have an option to select the source scheme as the target scheme. In this case, there would not be any unit transfer through systematic transfer plan (STP). The investor would receive periodic amount through systematic withdrawal plan (SWP) till the units are available.</p> <p>Tata Nifty Next 50 Index Fund is considered as eligible Source Scheme for “SIPrise” facility.</p> <p>The terms and conditions of this facility are as follows:</p> |
|---|---|

a) Systematic Investment Plan (SIP)

The SIPs registered under this facility would be subject to investment of minimum amount as specified in the KIM cum application form from time to time for the eligible source schemes.

Default SIP trigger date under this facility will be the 10th calendar day of the month. In case, the trigger date falls on a non- business day, the SIP would be triggered on the next business day.

The SIP will be registered for monthly frequency only.

In case the SIP is terminated prior to the pre-defined tenure, STP and SWP will continue as defined in the initial request. In any case, the STP and SWP amount will be limited till the units are available.

Existing units already available in the source scheme before opting for the SIPrise facility and any additional units added to the source scheme in any manner in addition to this facility will also be automatically moved to the Target scheme through the scheduled STPs till the units are available. The amount so moved to the target scheme would be on a first in first out (FIFO) basis. Any earlier option chosen by the investor earlier would automatically get revised to this extent.

Top-Up SIP is allowed under this feature. The investor may choose to increase their SIP amount by Rs. 500 or multiples of Rs. 500.

b) Systematic Transfer Plan (STP)

A Systematic Transfer Plan (STP) will start one year prior to that of the SWP.

Yearly STP amount will be equal to 15 times the monthly SWP amount from the target scheme or till the units are available.

c) Systematic Withdrawal Plan (SWP)

Investors need to choose the scheme (target scheme) from where the monthly SWP is required to be made to their registered bank account & the required periodic amount by means of withdrawal via systematic withdrawal plan (SWP) from target scheme. In case, the investors do not choose the desired SWP amount, they will receive the default SWP amount (likely amount to be withdrawn) which would be initial monthly SIP amount under this facility till the units last.

The SWP will start after the SIP tenure or after the pause period, if any, as chosen by the investor.

The SWP amount selected shall not be less than the initial SIP amount opted by the investor.

Investors have an option to opt for pause after the SIP tenure as mentioned at the time of initial registration under this facility. The minimum pause period is 0 years. If the pause is not opted, the starting month (i.e. 1st trigger month) for SWP will be the subsequent month of the last SIP instalment month.

Existing units already available before STP in the target scheme and additional units added to the target scheme will also form a part of the redemption proceeds through the scheduled SWP

| | |
|--|---|
| | <p>till the units are available. The SWP amount would be triggered on first in first out (FIFO) basis.</p> <p>The SWP date will be same as that of the SIP date. In case, the trigger date is a non- business day, the SWP will be made on the next business day.</p> <p>The SWP will be done from the Growth Options of eligible open-ended schemes of Tata Mutual Fund as stated in annexure to this addendum.</p> <p>The SWP will continue till the units are available in the scheme.</p> <p>Common Features</p> <p>Once opted for this facility investors / unitholders cannot change the Source scheme, target scheme, initial SIP Amount, SIP Tenure, Pause Period and required periodic SWP Amount.</p> <p>STP will be done when the target scheme is different from the source scheme at prevailing NAV in the respective scheme (s).</p> <p>Partial redemption or switch out of the units in the source or target scheme will not affect the SIP, STP & SWP already registered under this facility. Investors are required to note that the STP & SWP will be continued for the period chosen by the investor or till the units are available in the source and target scheme respectively.</p> <p>Investor has option to withdraw from this SIP facility at any stage by providing a separate request to discontinue/cease the SIP, STP & SWP registration.</p> <p>Minor/s are not eligible to register for this facility. Applications in the name of minors, filled in by guardians, will also not be accepted.</p> <p>This Facility is not available where units are in held in DEMAT mode.</p> <p>Pledged or Frozen Units will not be transferred (i.e. through STP). The same is also not available for withdrawal by the investor (i.e. through SWP) unless the investor / unitholder provides the necessary valid documents to prove that the pledge/freeze status has been withdrawn/changed.</p> <p>Investors can opt to withdraw through lumpsum either partially or in entirety till the units are available in the source and / or target scheme at any time during the tenure of this facility. Accordingly, the balance units will be considered for SIP, STP & SWP under this facility.</p> <p>Each STP & SWP will continue for the chosen amount or till units last.</p> <p>Default trigger date i.e. 10th calendar day of the month is only applicable for this facility.</p> <p>Tata Mutual Fund reserves the right to reject any application in case the investor does not fulfil any criteria of this facility</p> <p>All other terms & conditions of SIP, STP & SWP are also applicable to SIPrise. The AMC reserves the right to modify list of eligible schemes from time to time.</p> <p>Kindly note that apart from the above facility mentioned i.e. “SIPrise”, investor can opt for normal / existing SIP, STP & SWP facility as mentioned in respective Scheme Information Document. Disclaimers:</p> |
|--|---|

1. This facility does not in any way give assurance or guarantee returns or lump sum payments at the end of the SIP period or thereafter.
2. The payouts to the investors are made only by means of redeeming the units/corpus available in the investor's folio at NAV and subject to load, if any.
3. Tata Mutual Fund does not in any way assure or guarantee payouts, beyond available units/corpus in the scheme/s folio.
4. Investors should consult their financial advisors if in doubt about whether the facility is suitable for them.
5. The investor is advised to consult their tax consultant with respect to specific tax implications arising out of their participation in the facility

3. Systematic Withdrawal Plan (SWP)

This facility available to the unitholders of the fund enables them to redeem fixed sums or fixed number of units from their unit accounts at periodic intervals. The amount withdrawn under SWP by redemption shall be converted into the Fund units at the Repurchase price and such units will be redeemed / subtracted from the unit balance of that unitholder. In case the date falls during a non-business day / book closure period the immediate next Business Day will be considered for this purpose.

The Authorised Investor Service Center may terminate SWP on receipt of a notice from the unitholder. It will terminate automatically if all units are liquidated or withdrawn from the account or upon the receipt of notification of death or incapacity of the unitholder.

“SWP facility is available subject to terms and conditions. Please refer to the SWP Enrolment form for terms and conditions before enrolment.”

4. Systematic Transfer Plan (STP)

A unitholder may establish a Systematic Transfer Plan (STP) and choose to transfer an amount from one TMF Scheme (Source Scheme) to another TMF Scheme (Target Scheme) on a date / frequency prescribed by the Investment Manager. The amount thus withdrawn by redemption shall be converted into units at the applicable NAV on the scheduled day and such units will be subtracted from the unit balance of that unitholder. The net amount will be considered for allotment in the target scheme and units will be allotted as per the applicable NAV of the target scheme. Unitholders may change the amount of STP. However, the STP amount selected cannot be below the specified minimum redemption amount of the source scheme and should meet the minimum investment amount criteria of the target scheme. A change in STP amount can be done by giving two weeks prior written notice to the registrars. STP may be terminated automatically if the balance falls below the minimum account balance or upon the receipt of notification of death or incapacity of the unitholders by the fund. Rules relating to the plan may be changed from time to time by the Investment Manager.

“STP facility is available subject to terms and conditions. Please refer to the STP Enrolment form for terms and conditions before enrolment.”

For further details and terms and condition on special products, please refer KIM cum application form.

Flex STP

Flexible Systematic Transfer Plan (“Flex STP”) by Tata Mutual Fund is a facility wherein a Unitholder(s) of designated open-ended Scheme(s) can opt to transfer variable amounts linked to the value of his investments on the date of transfer at pre-determined intervals from designated open-ended (source scheme) to the growth option of another open-ended scheme (target scheme).

Salient Features of Flex STP are as follows:

1. The amount to be transferred under Flex STP from source scheme to target scheme shall be calculated using the below formula:

Flex STP amount = [(fixed amount to be transferred per instalment x number of instalments already executed, including the current instalment) – market value of the investments through Flex STP in the Transferee Scheme on the date of transfer]

2. The first Flex STP instalment will be processed for the fixed instalment amount specified by the investor at the time of enrolment. From the second Flex STP instalment onwards, the transfer amount shall be computed as per formula stated above.

3. Under “Flex STP” facility, Tata Nifty Next 50 Index Fund is enabled as Source as well as Target Scheme.

4. Flex STP would be available for Quarterly, Monthly, Weekly and Daily frequencies.

5. Flex STP is not available from “Daily / Weekly” income distribution plans of the source schemes.

6. Flex STP is available only in “Growth” option of the target scheme.

7. Conversion to Normal STP: If there is any other financial transaction (purchase, redemption or switch) processed in the target scheme during the tenure of Flex STP, the Flex STP will be processed as normal STP for the rest of the instalments for a fixed amount.

8. Flex STP will stop/cease on occurrence of any of the following event whichever is earlier.

a. Flex STP will cease after the specified End Date / Specified number of instalments have been transferred.

b. In case the amount (as per the formula) to be transferred is not available in the source scheme in the investor’s folio, the residual amount will be transferred to the target scheme and Flex STP will be closed.

9. A single Flex STP enrolment Form can be filled for transfer into one Scheme/Plan/Option only.

10. In case the date of transfer falls on a Non-Business Day, then the immediately following Business Day will be considered for the purpose of determining the applicability of NAV.

11. The request for Flex STP should be submitted at least 10 calendar days before the first STP date.

12. All other terms & conditions of Systematic Transfer Plan are also applicable to Flex STP.

Flex STP is a Systematic Withdrawal Plan (SWP) from Source Scheme and Systematic Investment Plan (SIP) in the Target scheme, therefore in the source scheme the exit load for the units will be as per the load structure applicable at the time of the purchase of those units. In the Target scheme the load structure will be as per the prevailing exit Load structure applicable for the SIP for that scheme.

Systematic Transfer from one scheme to another scheme attracts capital gain tax depends on the periodicity of holding. In view of the individual nature of tax implications, each unit holder is advised to consult with his or her own tax advisors with respect to the specific tax and other implications arising out of the transactions.

The AMC reserves the right to withdraw/change/modify the terms and conditions of Flex STP.

The above terms and conditions may be modified at any time without prior notice to the unitholders and such amended terms and conditions will thereupon apply to and be binding on the unitholders.

5. SWAP facility (Switch and Withdrawal Automation Plan)

The investor, under a designated open-ended scheme, can opt to switch their investment from the (open-ended) source scheme to the growth plan of the (open-ended) target scheme and set up a Systematic Withdrawal Plan from the target scheme at the same time. This facility allows investors to transfer investment corpus to the desired fund and withdraw the required amounts from your investments in a single process through a single form.

The investor can select the amount they want to switch to the target scheme and then the specified amount on which the facility will be applied (Minimum of Rs. 100,000). The withdrawal amount annually is either 6% (default) or 12% of the specified amount. The frequency of withdrawal can be monthly or quarterly. Alternatively, the investor can select a withdrawal amount (minimum of Rs. 500). Investors can also select the month to end the SWAP facility, or continue it till further notice.

Eligible Schemes

Source scheme can be any open-ended schemes of Tata Mutual Fund. In case of schemes with lock-in, the units that have completed the lock-in period can be switched into the target schemes. The target schemes can be all open-ended schemes of Tata Mutual Fund which do not have the lock-in facility.

Currently following scheme are subject to lock in

- a. Tata Retirement Savings Fund (All Plans)
- b. Tata ELSS Fund
- c. Tata Children's Fund

The AMC reserves the right to change the Eligible Schemes from time to time.

Cessation of Facility

The facility can be withdrawn by the investor at any given time by giving 10 days' notice at any of the TATA Mutual Fund's branches or CAMS Customer Service Centres (CSCs).

The SWAP facility will terminate automatically if no balance is available in the respective scheme on the date of instalment trigger or if the enrolment period expires.

If you decide to opt for this facility, you should be aware of the possibility that the withdrawals may take place from the principal amount invested. Please consult your financial adviser prior to enrolment.

For detail terms & conditions, unitholders are requested to check SID/KIM cum application form of the respective schemes.
