Part I. HIGHLIGHTS/SUMMARY OF THE SCHEME

Sr. No.	Title	Description
I	Name of the scheme	Navi Nifty MidSmallcap 400 Index Fund
II	Category of the Scheme	Other Schemes - Index Fund
III	Scheme type	An open ended scheme replicating/ tracking Nifty MidSmallcap 400 Index
IV	Scheme code	NAVI/O/O/EIN/25/10/0027
V	Investment objective	The investment objective of the scheme is to achieve a return equivalent to Nifty MidSmallcap 400 Index by investing in the stocks of companies which comprise the Nifty MidSmallcap 400 Index, subject to tracking error. There is no assurance that the investment objective of the Scheme will be achieved.
VI	Liquidity/listing details	The Scheme offered being an open-ended scheme will offer Units for Sale / Switch-in and Redemption / Switch-out on every Business Day at NAV based prices.
VII	Benchmark (Total Return Index)	Name of Benchmark: Nifty MidSmallcap 400 Index Fund (Total Return Index) Justification for use of benchmark: The Scheme is being benchmarked against the Index mentioned above, since the composition of Index is in line with the investment objective of the Scheme / Plan(s) and is most suited for comparing performance of the Scheme / Plan(s). It will also enable the investors to arrive at a more informed judgement on the scheme's performance. The Nifty MidSmallcap 400 Index is designed to reflect the behaviour and performance of the mid and small market capitalisation companies. The index includes all companies forming part of Nifty Midcap 150 and Nifty Smallcap 250 index. Nifty MidSmallcap 400 Index is computed using free float market capitalization method, wherein the level of the index reflects the total free float market value of all the stocks in the index relative to particular base period. Nifty MidSmallcap 400 can be used for a variety of purposes such as benchmarking fund portfolios, launching of index funds, ETFs and structured products The benchmark and additional benchmark returns shall be calculated at the Total return Index (TRI) variant of the Index chosen. The Fund reserves the right to change the benchmark for evaluation of the performance of the Scheme from time to time, subject to SEBI Regulations and other prevailing guidelines, if any.

VIII	NAV disclosure	The AMC will calculate and disclose the first NAVs of the Scheme not later than 5 Business Days from the date of allotment of units under the NFO. Subsequently, the AMC will calculate and disclose the NAVs under the Scheme at the close of every Business Day and shall update the same by 11.00 p.m. on every Business day on the website(s) of AMC (https://navi.com/mutual-fund and AMFI (www.amfiindia.com)) For further details refer Section II.

Tracking Error: In accordance with clause 3.6.3.1 of SEBI Master Circular dated June 27, 2024, the tracking error i.e. the annualized standard deviation of the difference in daily returns between the underlying index or goods and the NAV of the Scheme based on past one year rolling data shall not exceed 2%. In case of unavoidable circumstances in the nature of force majeure, which are beyond the control of the AMCs, the tracking error may exceed 2% and the same shall be brought to the notice of Trustees with corrective actions taken by the AMC, if any. The same shall be disclosed on a daily basis on the websites of AMC and AMFI. The Scheme shall disclose the tracking error based on past one year rolling data, on a daily basis, on the website of respective AMCs and AMFI.

Tracking Difference: In accordance with clause 3.6.3.2 of SEBI Master Circular dated June 27, 2024, The annualized difference of daily returns between the index and the NAV of the Scheme shall be disclosed on a monthly basis on the websites of AMC and AMFI. The Scheme, in general, will hold all of the securities that comprise the Underlying Index in the same proportion as the index. Expectation is that, over time, the tracking error of the Scheme relative to the performance of the Underlying Index will be relatively low. The Investment Manager would monitor the tracking error of the Scheme on an ongoing basis and would seek to minimize tracking error to the maximum extent possible. There can be no assurance or guarantee that the Scheme will achieve any particular level of tracking error relative to the performance of the Underlying Index.

Change in Asset Allocation Pattern/ Portfolio Rebalancing:

Rebalancing due to Passive Breaches

Pursuant to clause 3.6.7 of SEBI Master Circular dated June 27, 2024, and circulars issued thereunder In case of change in constituents of the index due to periodic review, the portfolio of equity ETF/ Index Funds be rebalanced within 7 calendar days.

Any transactions undertaken in the scheme portfolio of ETF/ Index Fund in order to meet the redemption and subscription obligations shall be done while ensuring that post such transactions replication of the portfolio with the index is maintained at all points of time.

Rebalancing due to Short term defensive consideration:

Subject to clause 1.14.1.2 of SEBI Master Circular dated June 27, 2024, and circulars issued thereunder, the asset allocation pattern indicated above may change for a short-term period on defensive considerations, keeping in view market conditions, market opportunities, applicable regulations and political and economic factors. These proportions may vary depending upon the perception of the Fund Manager, the intention being at all times to seek to protect the interests of the Unit holders. Such changes in the investment pattern will be rebalanced within 7 calendar days from the date of deviation and further action may be taken as specified under SEBI Circulars/ AMFI guidelines issued from time to time

Rebalancing in case of involuntary corporate action

In the event of involuntary corporate action, the scheme shall dispose the security not forming part of the underlying index within 7 days from the date of allotment/ Listing.

In case of any breaches in asset allocation, the norms as specified in para 2.9 and 3.5.3.11 of SEBI Master circular dated June 27, 2024 shall be applicable.

B. WHERE WILL THE SCHEME INVEST?

- The corpus of the Scheme will be invested in Equity and equity related instruments, debt, money market instruments and other permitted instruments, which will include but not limited to:

Equity and Equity Related Instruments:

1. Equity Shares.
2. Equity related instruments like;
 - Convertible bonds and debentures, convertible preference shares and warrants carrying the right to obtain equity shares.
 - Derivative instruments like options and futures on equity securities / indices.
3. TREPS, Listed debt or money market securities, in accordance with Seventh Schedule to the SEBI (Mutual Funds) Regulations, and other guidelines/circulars as may be amended from time to time.

The Fund Manager reserves the right to invest in such securities as maybe permitted from time to time and which are in line with the investment objectives of the Scheme.

Please refer **Section II** of the document for further details for each instrument.

C. WHAT ARE THE INVESTMENT STRATEGIES?

EQUITY INVESTMENT STRATEGY

The investment objective of the scheme is to achieve return equivalent to Nifty MidSmallcap 400 Index Fund by investing in stocks of companies comprising the Index, subject to tracking error. There is no assurance that the investment objective of the Scheme will be achieved.

The Scheme endeavours to invest in stocks in proportion to the weightages of these stocks in the Nifty MidSmallcap 400 Index Fund. The fund will, in general, invest a significant part of its corpus in equities; the surplus amount of the fund, not exceeding 5% shall be invested in Cash/Tri-Party Repo, Repo in corporate debt securities & Money Market instruments.

The performance of the Scheme may not be commensurate with the performance of the respective benchmark of the Schemes on any given day or over any given period. Such variations are commonly referred to as the tracking error. The Scheme intends to maintain a low tracking error by effectively replicating the portfolio in line with the index.

Subject to the SEBI regulations as applicable from time to time, the scheme may participate in securities lending.

EQUITY DERIVATIVE INSTRUMENTS:

- Futures are exchange-traded contracts to sell or buy financial instruments for future delivery at an agreed price. There is an agreement to buy or sell a specified quantity of financial instrument on a designated future date at a price agreed upon by the buyer and seller at the time of entering into a contract. To make trading possible, the exchange specifies certain standardized features of the contract. A futures contract involves an obligation on both the parties to fulfil the terms of the contract.

SEBI has permitted futures contracts on indices and individual stocks with maturity of 1 month, 2 months and 3 months on a rolling basis. The futures contracts are settled on last Thursday (or immediately preceding trading day if Thursday is a trading holiday) of each month. Currently, the futures are settled in cash. The final settlement price is the closing price of the underlying stock(s)/ index.

- Option is a contract which provides the buyer of the option (also called holder) the right, without the obligation, to buy or sell a specified asset at the agreed price on or up to a particular date. For acquiring this privilege, the buyer pays premium (fee) to the seller. The seller on the other hand has the obligation to buy or sell specified asset at the agreed price and for this obligation he receives premium. The premium is determined considering number of factors such as the market price of the underlying asset/security, number of days to expiry, risk free rate of return, strike price of the option and the volatility of the underlying asset. Option contracts are of two types, viz:

- Call Option - The option that gives the buyer the right to buy specified quantity of the underlying asset at the strike price is a call option. The buyer of the call option (known as the holder of call option) can call upon the seller of the option (writer of the option) and buy from him the underlying asset at the agreed price at any time on or before the expiry of the option.

The seller (writer of the option) on the other hand has the obligation to sell the underlying asset if the buyer of the call option decides to exercise his option to buy.

- Put Option - The right to sell is called put option. A Put option gives the holder (buyer) the right to sell specified quantity of the underlying asset at the strike price. The seller of the put option (one who is short put) however, has the obligation to buy the underlying asset at the strike price if the buyer decides to exercise his option to sell.

There are two kind of options based on the date of exercise of right. The first is the European Option which can be exercised only on the maturity date. The second is the American Option which can be exercised on or before the maturity date.

For detailed derivative strategies, please refer to **SAI**.

Portfolio Turnover:

Portfolio Turnover is defined as the lower of purchases or sales as a percentage of the average corpus during the specified period of time. Portfolio Turnover is a term used to measure the volume of trading that occurs in a Scheme's portfolio during a given time period. Navi Nifty MidSmallcap 400 Index Fund is a passively managed open-ended index scheme. It is therefore expected that there would be a number of subscriptions and redemptions on a daily basis. Generally, turnover will depend upon the extent of purchase and

redemption of units and the need to rebalance the portfolio on account of change in the composition, if any, and corporate actions of securities included in Nifty MidSmallcap 400 Index Fund.

There may be an increase in transaction costs such as brokerage paid, if trading is done frequently. However, it is difficult to estimate with reasonable measure of accuracy, the likely turnover in the portfolio of the Scheme. The Scheme has no specific target relating to portfolio turnover.

D. HOW WILL THE SCHEME BENCHMARK ITS PERFORMANCE?

The performance of the Scheme will be benchmarked against Nifty MidSmallcap 400 Index.

Justification for use of benchmark:

The Scheme is being benchmarked against the Index mentioned above, since the composition of Index is in line with the investment objective of the Scheme / Plan(s) and is most suited for comparing performance of the Scheme / Plan(s). It will also enable the investors to arrive at a more informed judgement on the scheme's performance.

The Nifty MidSmallcap 400 Index is designed to reflect the behaviour and performance of the mid and small market capitalisation companies. The index includes all companies forming part of Nifty Midcap 150 and Nifty Smallcap 250 index. Nifty MidSmallcap 400 Index is computed using free float market capitalization method, wherein the level of the index reflects the total free float market value of all the stocks in the index relative to particular base period. Nifty MidSmallcap 400 can be used for a variety of purposes such as benchmarking fund portfolios, launching of index funds, ETFs and structured products

For disclosure w.r.t investments by key personnel and AMC directors including regulatory provisions in this regard kindly refer to **SAI**.

vi. Investments of AMC in the Scheme –

The AMC may invest in the Scheme anytime during the continuous offer period subject to the SEBI (MF) Regulations. The AMC may also invest in existing schemes of the Mutual Fund. As per the existing SEBI (MF) Regulations, the AMC will not charge Investment Management and Advisory fee on the investment made by it in the Scheme(s) or existing Schemes of the Mutual Fund.

Subject to Regulation 25(16A) of the SEBI (Mutual Funds) Regulations, 1996 read with paragraph 6.9 of SEBI Master Circular dated June 27, 2024, the AMC shall invest such amounts in such schemes of the mutual fund, based on the risks associated with the schemes, as may be specified by SEBI from time to time. Such investment shall be maintained at all times and shall not be redeemed unless the scheme is wound up.

For details of existing mandatory investments by AMC in various schemes, please visit <https://navi.com/mutual-fund>.

Part III- OTHER DETAILS

A. COMPUTATION OF NAV

The Net Asset Value (NAV) per Unit of the Scheme will be computed by dividing the net assets of the Scheme by the number of Units outstanding on the valuation day. The Mutual Fund will value its investments according to the valuation norms, as specified in Schedule VIII of the SEBI (MF) Regulations, or such norms as may be specified by SEBI from time to time. In case of any conflict between the Principles of Fair Valuation and valuation guidelines specified by SEBI, the Principles of Fair Valuation shall prevail.

The Net Assets Value (NAV) of the Units under the Scheme shall be calculated as shown below:

$$\text{NAV (Rs.)} = \frac{\text{Market or fair Value of Scheme's Investments} + \text{Current Assets including Accrued Income} - \text{Current Liabilities and Provisions}}{\text{No. of Units outstanding under Scheme on the Valuation Day}}$$

The NAV shall be calculated up to four decimal places. However the AMC reserves the right to declare the NAVs up to additional decimal places as it deems appropriate.

The NAVs will be calculated and disclosed for all the Business days.

Pursuant to Regulation 49 (3) the repurchase Price of the units of an open ended scheme will not be lower than 97% of the NAV. Any imposition or enhancement of Load in future shall be applicable on prospective investments only.

Illustration on Computation of NAV: If the net assets of the Scheme are Rs. 10,55,55,000.00 and units outstanding are 1,00,00,000 then the NAV per unit will be computed as follows: $10,55,55,000.00 / 1,00,00,000 = \text{Rs. } 10.5555 \text{ per unit.}$

Ongoing price for Redemption (sale) /Switch outs (to other schemes/plans of the Mutual Fund) by Investors.

Ongoing price for redemption /Switch out (to other Schemes/Plans of the Mutual Fund) is the price which a Unit holder will receive for redemption/Switch-outs. During the continuous offer of the Scheme, the Unit holder can redeem the Unit at Applicable NAV, subject to payment of Exit Load, if any.

Methodology for calculation of sale and re-purchase price of the units of mutual fund scheme:

Let's assume that the NAV of a Mutual Fund Scheme on April 01, 2024 is Rs. 10/-.

Purchase of mutual fund units:

The Purchase Price of the Units on an ongoing basis will be same as Applicable NAV.

Purchase Price = Applicable NAV

In the above example, purchase is done on April 01, 2024, when the Applicable NAV = Rs. 10/-

Therefore, Purchase Price = Rs. 10/-

As per existing Regulations, no entry load is charged with respect to applications for purchase / additional purchase of mutual funds units.

Redemption/Re-purchase of mutual fund units

The Redemption Price of the Units will be calculated on the basis of the Applicable NAV subject to prevailing Exit Load, if any. In case of redemption, the amount payable to the investor shall be calculated as follows:

Redemption Price = Applicable NAV * (1 - Exit Load)

Say, in the above example the exit load applicable is:

For exit on or before 30 days from the date of allotment – 1.00%

For exit after 30 days from the date of allotment – Nil.

Scenario 1: Redemption is done during applicability of exit load

In case the investor requests for redemption on or before 30 days i.e. on or before March 31, 2025; say December 1, 2024, when the NAV of the scheme is Rs. 12/- and the exit load applicable is 1%, so the Redemption amount payable to investor shall be calculated as follows:

Redemption Price = Applicable NAV * (1 - Exit Load)

= Rs. 12 * (1-1%) = Rs. 11.88/-

Scenario 2: Redemption is done when the exit load is NIL

In case the investor requests for redemption after 30 days i.e. after March 31, 2025; say April 1, 2025, when the NAV of the scheme is Rs. 12/- and the exit load applicable is NIL, so the Redemption amount payable to investor shall be calculated as follows:

Redemption Price = Applicable NAV * (1 - Exit Load)

= Rs. 12 * (1-0) = Rs. 12/-

The aforesaid example does not take into consideration any applicable statutory levies or taxes. Accordingly, the redemption amount payable to investor shall further reduce to the extent of applicable statutory levies or taxes.

For other details such as policies w.r.t computation of NAV, rounding off, investment in foreign securities, procedure in case of delay in disclosure of NAV etc. refer to **SAI**.

B. NEW FUND OFFER (NFO) EXPENSES

These expenses are incurred for the purpose of various activities related to the NFO like sales and distribution fees paid marketing and advertising, registrar expenses, printing and stationery, bank charges etc. The NFO expenses shall be borne by the AMC.

C. ANNUAL SCHEME RECURRING EXPENSES

The AMC has estimated that upto 1.00% of the daily average net assets of the scheme will be charged to the scheme as expenses as permitted under Regulation 52 of SEBI (MF) Regulations. For the actual current

expenses being charged, the investor may refer to the website of the Mutual Fund (<https://navi.com/mutual-fund>). Further, the disclosure of Total Expense Ratio (TER) on a daily basis shall also be made on the website of AMFI (www.amfiindia.com).

The Mutual Fund would update the current expense ratios on the website at least 3 (three) Business days prior to the effective date of the change.

For the actual current expenses being charged, the Investor should refer to the website of the AMC (<https://navi.com/mutual-fund/downloads/statutory-disclosure>).

Additional expenses under Regulations 52(6A)(c)	Upto 0.05%*
Additional expenses for gross new inflows from specified cities	Upto 0.30%**

*As per Para 10.1.7 of SEBI Master Circular on Mutual Funds dated June 27, 2024, schemes wherein exit load is not levied, the AMC shall not be eligible to charge the above-mentioned additional expenses for such scheme.

**As per Paragraph 10.1.3 of SEBI Master Circular on Mutual Funds dated June 27, 2024, and AMFI Circular No. CIR/ ARN-23/ 2022-23 dated March 07, 2023, the B-30 incentive structure for new inflows has been kept in abeyance with effect from March 01, 2023, till the incentive structure is appropriately re-instated by SEBI with necessary safeguards.

Direct Plan shall have a lower expense ratio excluding distribution expenses, commission, etc. as compared to Regular Plan and no commission for distribution of Units will be paid/ charged under Navi Nifty MidSmallcap 400 Index Fund - Direct Plan.

These estimates have been made in good faith as per information available to the AMC and the total expenses may be more than as specified in the table above. However, as per the Regulations, the total recurring expenses that can be charged to the Scheme in this SID shall be subject to the applicable guidelines.

The purpose of the above table is to assist the investor in understanding the various costs and expenses that an investor in the Scheme will bear.

The Scheme can charge expenses within overall maximum limits prescribed under SEBI (MF) Regulations, without any internal cap allocated to any of the expense heads specified in the above table.

Pursuant to clause 2.3, 5.6.2 and 10.1.3 of SEBI Master Circular dated June 27, 2024, and SEBI (Mutual Funds) Second Amendment Regulations, 2012, and SEBI (Mutual Funds) (Fourth Amendment) Regulations 2018 following additional costs or expenses may be charged to the scheme, namely:

1. The AMC may charge Goods and Services tax on investment and advisory fees to the scheme of the Fund in addition to the maximum limit of total expenses ratio as prescribed in Regulation 52 of the MF Regulations, whereas Goods and Services tax on other than investment and advisory fees, if any, shall be borne by the scheme within the maximum limit as per regulation 52 of the Regulations.
2. expenses not exceeding of 0.30 per cent of daily net assets, if the new inflows from retail investors from B30 cities as specified by the Securities and Exchange Board of India, from time to time are at least –
 - 30 per cent of the gross new inflows from retail investors from B30 cities into the scheme, or;
 - 15 per cent of the average assets under management (year to date) of the scheme.**whichever is higher;**

Provided that if inflows from retail investors from B30 cities are less than the higher of the above, such expenses on daily net assets of the scheme shall be charged on proportionate basis;

Provided further that expenses charged under this clause shall be utilised for distribution expenses incurred for bringing inflows from retail investors from B30 cities;

Provided further that amount incurred as expense on account of inflows from retail investors from B30 cities shall be credited back to the scheme in case the said inflows are redeemed within a period of one year from the date of investment.

For above purposes, 'B30 cities' shall be beyond Top 30 cities as at the end of the previous financial year as communicated by AMFI. Retail investors would mean individual investors from whom inflows into the Scheme would amount upto Rs. 2,00,000/- per transaction.

(One) 1 basis points on daily net assets within the maximum limit of overall expense Ratio shall be annually set apart for investor education and awareness initiatives.

All Scheme related expenses including commission paid to distributors, by whatever name it may be called and in whatever manner it may be paid, shall necessarily be paid from the Scheme only within the regulatory limits and not from the books of the AMC, its Associate, Sponsor, Trustee or any other entity through any

route subject to the clarifications as per clause 3.3.5 of SEBI Master Circular dated June 27, 2024 on Total Expense Ratio (TER) as amended from time to time.

Further, the brokerage and transaction cost incurred for the purpose of execution shall be charged to the schemes as provided under Regulation 52 (6A) up to 12 bps and 5 bps for cash market transactions and derivatives transactions respectively.

Any payment towards brokerage & transaction costs, over and above the said 12 bps and 5 bps for cash market transactions and derivatives transactions respectively may be charged to the Scheme within the maximum limit of Total Expense Ratio (TER) as prescribed under Regulation 52 of the SEBI (Mutual Funds) Regulations, 1996.

Expenses shall be charged / borne in accordance with the Regulations prevailing from time to time.

Illustration of impact of expense ratio on scheme's returns:

Particulars	Regular Plan	Direct Plan
Amount Invested at the beginning of the year	10,000	10,000
Returns before Expenses	1500	1500
Expenses other than Distribution Expenses	150	150
Distribution Expenses	50	-
Returns after Expenses at the end of the Year	1300	1350
Returns in Percentage (%)	13.00	13.50

D. LOAD STRUCTURE

Exit Load is an amount which is paid by the investor to redeem the units from the scheme. Load amounts are variable and are subject to change from time to time. For the current applicable structure, please refer to the website of the AMC <https://navi.com/mutual-fund> or may call at 1800 203 2131 or your distributor.

As per Clause 10.4 of SEBI Master Circular on Mutual Fund dated June 27, 2024, there shall be no entry Load for all Mutual Fund Schemes.

Exit Load: NIL

Type of Load	Load Chargeable (as a % to NAV)
Exit Load	Nil

The above mentioned load structure shall be equally applicable to the special products such as STP, switches, etc. offered by the AMC.

The switch of investments from Regular Plan to Direct Plan shall be subject to applicable exit load if any. Further, no exit load shall be levied in case of switches from Direct Plan to Regular Plan.

The entire Exit Load (net of Goods & Service Tax (GST)), charged, shall be credited to the Scheme.

The Investor is requested to check the prevailing Load structure of the Scheme before investing. For any change in Load structure, AMC will issue an addendum and display it on the website/Investor Service Centers.

In accordance with Paragraph 10.8 of SEBI Master Circular on Mutual Fund dated June 27, 2024 to bring about parity among all class of unit holders, no distinction among unit holders would be made based on the amount of subscription while charging exit loads.

Under the Scheme, the AMC/Trustee reserves the right to change / modify the Load structure if it so deems fit in the interest of smooth and efficient functioning of the Mutual Fund. The AMC/Trustee reserves the right to introduce / modify the Load depending upon the circumstances prevailing at that time subject to maximum limits as prescribed under the Regulations.

Any imposition or enhancement of Load in future shall be applicable on prospective investments only. However, AMC shall not charge any load on issue of bonus units and units allotted on reinvestment of dividend for existing as well as prospective investors.

The Trustee/AMC reserves the right to change the load structure subject to the limits prescribed under the Regulations. Any change in Load structure shall be only on a prospective basis i.e. any such changes would be chargeable only for Redemptions from prospective purchases (applying first in first out basis).

Section II

I. Introduction

A. Definitions/interpretation

For detailed description please refer <https://navi.com/mutual-fund>.

B. Risk factors

Scheme Specific Risk Factors

Risk associated with investing in companies forming part of Nifty MidSmallcap 400 Index Fund:

Risks associated with Equity and Equity Related Instruments:

Equity and Equity Related Instruments by nature are volatile and prone to price fluctuations on a daily basis due to macro and micro economic factors. The value of Equity and Equity Related Instruments may fluctuate due to factors affecting the securities markets such as price volatility, volumes traded, interest rates, currency exchange rates, changes in law/policies of the Government, taxation laws, political, economic or other developments, which may have an adverse impact on individual securities, a specific sector or all sectors. Consequently, the NAV of the Units issued under the Scheme may be adversely affected.

Equity and Equity Related Instruments listed on the stock exchange carry lower liquidity risk; however the Scheme's ability to sell these investments is limited by the overall trading volume on the stock exchanges. In certain cases, settlement periods may be extended significantly by unforeseen circumstances. The inability of the Scheme to make intended securities purchases due to settlement problems could cause the Scheme to miss certain investment opportunities. Similarly, the inability to sell securities held in the Scheme's portfolio may result, at times, in potential losses to the Scheme, if there is a subsequent decline in the value of securities held in the Scheme's portfolio.

Investments in equity and equity related instruments involve a degree of risk and investors should not invest in the Scheme unless they can afford to take the risk of losing their investment.

Risks of Total Return

Dividends are assumed to be reinvested into the Nifty MidSmallcap 400 Index Fund after the ex-dividend date of the constituents. However, in practice, the dividend is received with a lag. This can lead to some tracking error.

Index Fund Risk

The Scheme being an index scheme follows a passive investment technique and shall only invest in Securities comprising one selected index as per investment objective of the Scheme. The Fund Manager would invest in the Securities comprising the underlying index irrespective of the market conditions. If the Securities market declines, the value of the investment held by the Scheme shall decrease.

Passive Investments

The Scheme is not actively managed. Since the Scheme is linked to index, it may be affected by a general decline in the Indian markets relating to its underlying index. The Scheme as per its investment objective

invests in Securities which are constituents of its underlying index regardless of their investment merit. The AMC does not attempt to individually select stocks or to take defensive positions in declining markets.

Trading through mutual fund trading platforms of BSE and/ or NSE

In respect of transaction in Units of the Scheme through BSE and/ or NSE, allotment and redemption of Units on any Business Day will depend upon the order processing/settlement by BSE and/ or NSE and their respective clearing corporations on which the Mutual Fund has no control.

Risks associated with Fixed Income Securities:

Interest-Rate Risk: Fixed income securities such as government bonds, corporate bonds, Money Market Instruments and Derivatives run price-risk or interest-rate risk. Generally, when interest rates rise, prices of existing fixed income securities fall and when interest rates drop, such prices increase. The extent of fall or rise in the prices depends upon the coupon and maturity of the security. It also depends upon the yield level at which the security is being traded.

Re-investment Risk: Investments in fixed income securities carry re-investment risk as interest rates prevailing on the coupon payment or maturity dates may differ from the original coupon of the bond.

Basis Risk: The underlying benchmark of a floating rate security or a swap might become less active or may cease to exist and thus may not be able to capture the exact interest rate movements, leading to loss of value of the portfolio.

Spread Risk: In a floating rate security the coupon is expressed in terms of a spread or mark up over the benchmark rate. In the life of the security this spread may move adversely leading to loss in value of the portfolio. The yield of the underlying benchmark might not change, but the spread of the security over the underlying benchmark might increase leading to loss in value of the security.

Liquidity Risk: The liquidity of a bond may change, depending on market conditions leading to changes in the liquidity premium attached to the price of the bond. At the time of selling the security, the security can become illiquid, leading to loss in value of the portfolio.

Credit Risk: This is the risk associated with the issuer of a debenture/bond or a Money Market Instrument defaulting on coupon payments or in paying back the principal amount on maturity. Even when there is no default, the price of a security may change with expected changes in the credit rating of the issuer. It is to be noted here that a Government Security is a sovereign security and is the safest. Corporate bonds carry a higher amount of credit risk than Government Securities. Within corporate bonds also there are different levels of safety and a bond rated higher by a particular rating agency is safer than a bond rated lower by the same rating agency.

Liquidity Risk on account of unlisted securities: The liquidity and valuation of the Scheme investments due to their holdings of unlisted securities may be affected if they have to be sold prior to their target date of divestment. The unlisted security can go down in value before the divestment date and selling of these securities before the divestment date can lead to losses in the portfolio.

Settlement Risk: Fixed income securities run the risk of settlement which can adversely affect the ability of the fund house to swiftly execute trading strategies which can lead to adverse movements in NAV.

Risks associated with investing in Tri-Party Repos Segments

The mutual fund is a member of securities and Tri-Party Repos segments of the Clearing Corporation of India (CCIL). All transactions of the mutual fund in government securities and in Tri-Party Repos segments are settled centrally through the infrastructure and settlement systems provided by CCIL; thus reducing the settlement and counterparty risks considerably for transactions in the said segments. The members are required to contribute an amount as communicated by CCIL from time to time to the default fund maintained by CCIL as a part of the default waterfall (a loss mitigating measure of CCIL in case of default by any member in settling transactions routed through CCIL). The mutual fund is exposed to the extent of its contribution to the default fund of CCIL at any given point in time. In the event that the default waterfall is triggered and the contribution of the mutual fund is called upon to absorb settlement/default losses of another member by CCIL, the scheme may lose an amount equivalent to its contribution to the default fund allocated to the scheme on a pro-rata basis.

Tracking Error/Tracking difference Risk

The Fund Manager would not be able to invest the entire corpus exactly in the same proportion as in the underlying index due to certain factors such as the fees and expenses of the Scheme, corporate actions, cash balance and changes to the underlying index and regulatory restrictions, lack of liquidity which may result in Tracking Error. Hence it may affect AMC's ability to achieve close correlation with the underlying index of the Scheme. The Scheme's returns may therefore deviate from its underlying index. "Tracking Error" is defined as the standard deviation of the difference between daily returns of the underlying index and the NAV of the Scheme. The Fund Manager would monitor the Tracking Error of the Scheme on an ongoing basis and would seek to minimize the Tracking Error. There can be no assurance or guarantee that the Scheme will achieve any particular level of Tracking Error relative to performance of the underlying Index.

Risk Factors relating to Portfolio Rebalancing

In the event that the asset allocation of the Scheme deviates from the ranges as provided in the asset allocation table in this SID, then the Fund Manager will rebalance the portfolio of the Scheme to the position indicated in the asset allocation table.

Risks associated with Derivatives Transactions

Systematic Risk: Systematic Risk is the risk associated with the entire market. Unlike unsystematic risk, it is not linked to a specific security or sector. Systematic risk is a market risk which can be due to macro-economic factors, news events, etc.

Mark to Market Risk: This risk is on account of day to day fluctuations in the underlying Security and its derivative instrument, which can adversely impact the portfolio.

Credit Risk: The credit risk is the risk that the counter party will default in its obligations and is generally small as in a Derivative transaction there is generally no exchange of the principal amount.

Interest rate risk: Derivatives carry the risk of adverse changes in the price due to change in interest rates.

Basis Risk: When a security is hedged using a Derivative, the change in price of the security and the change in price of the Derivative may not be fully correlated leading to basis risk in the portfolio.

Liquidity risk: During the life of the Derivative, the benchmark might become Illiquid and might not be fully capturing the interest rate changes in the market, or the selling, unwinding prices might not reflect the underlying assets, rates and indices, leading to loss of value of the portfolio.

Model Risk: The risk of mis–pricing or improper valuation of Derivatives.

Trade Execution: Risk where the final execution price is different from the screen price, leading to dilution in the spreads and hence impacting the profitability of the reverse arbitrage strategy.

Systemic Risk: For Derivatives, especially OTC ones the failure of one Counter Party can put the whole system at risk and the whole system can come to a halt.

The scheme may invest in various derivative products in accordance with and to the extent permitted under the regulations from time to time.

Derivatives are financial contracts of pre-determined fixed duration, like stock Futures /options and index futures and options, whose values are derived from the value of an underlying primary financial instrument such as: Equities, Interest rates, Exchange rates and Commodities.

Derivative products are specialized instruments that require investment techniques and risk analysis which are different from those associated with stocks and other traditional securities.

“Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the fund manager to identify such opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and decision of fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies”.

“The risks associated with the use of derivatives are different from or possibly greater than, the risks associated with investing directly in securities and other traditional investments

Risks associated with Short Selling & Securities Lending:

Securities Lending is a lending of securities through an approved intermediary to a borrower under an agreement for a specified period with the condition that the borrower will return equivalent securities of the same type or class at the end of the specified period along with the corporate benefits accruing on the securities borrowed. There are risks inherent in securities lending, including the risk of failure of the other party, in this case the approved intermediary to comply with the terms of the agreement. Such failure can result in a possible loss of rights to the collateral, the inability of the approved intermediary to return the securities deposited by the lender and the possible loss of corporate benefits accruing thereon.

Short-selling is the sale of shares or securities that the seller does not own at the time of trading. Instead, he borrows it from someone who already owns it. Later, the short seller buys back the stock/security he shorted and returns the stock/security to the lender to close out the loan. The inherent risks are Counterparty risk and liquidity risk of the stock/security being borrowed. The security being short sold might be illiquid or

become illiquid and covering of the security might occur at a much higher price level than anticipated, leading to losses.

Risk factor associated with segregated portfolio

Investor holding units of segregated portfolio may not be able to liquidate their holding till the time realisable value is recovered.

Security comprising of segregated portfolio may realise lower value or may realise zero value.

Listing of units of segregated portfolio in recognized stock exchange does not necessarily guarantee their liquidity. There may not be active trading of units in the stock market. Further trading price of units on the stock market may be significantly lower than the prevailing NAV.

Risks factors associated with investments in Repo Transactions in Corporate Bond:

In repo transactions, securities are sold with the seller agreeing to buy them back at later date. The repurchase price should be greater than the original sale price, the difference effectively representing interest. A repo is economically similar to a secured loan, with the buyer receiving corporate debt securities as collateral to protect against default. The Scheme may invest in repo of corporate debt securities which are subject to the following risks:

Counter party Risk: This refers to the inability of the seller to meet the obligation to buy back securities at the contracted price on the contracted date. The Investment Manager will endeavour to manage counterparty risk by dealing only with counterparties, having strong credit profiles, approved by our credit risk analysis team. The exposure to each counterparty will be within the overall approved credit limits. Also, the counterparty risk is to an extent mitigated by taking collateral equivalent in value to the transaction after knocking off a minimum haircut on the intrinsic value of the collateral. In the event of default by the repo counterparty, the scheme shall have recourse to the corporate debt securities.

Collateral Risk: Collateral risk arises when the market value of the securities is inadequate to meet the repo obligations. This risk is mitigated by restricting participation in repo transactions only in AA or equivalent and above rated money market and corporate debt securities. Any rating downgrade will tantamount to either an early termination of the repo agreement or a call for fresh margin to meet the minimum haircut requirement. In addition, the Investment manager may apply a higher haircut on the underlying security than mentioned above to adjust for the illiquidity and interest rate risk on the underlying instrument. The adequacy of the collateral will be monitored on a daily basis by considering the daily market value & applying the prescribed haircut. The fund manager shall then arrange for additional collateral from the counterparty, within a period of 1 business day. If the counterparty is not able to top-up either in the form of cash / collateral, it shall tantamount to early termination of the repo agreement.

Risk Control

The risk control process involves reducing risks through portfolio diversification. This diversification would help achieve the desired level of consistency in returns. The AMC aims to identify securities, which offer superior levels of yield at lower levels of risks. There would be regular rebalancing of the portfolio, taking into account the change in weights of stocks in the Index.

Navi Nifty MidSmallcap 400 Index Fund being a passive investment carries lesser risk as compared to active fund management. The portfolio follows the index and therefore the level of stock concentration in the portfolio and its volatility would be the same as that of the index, subject to tracking error. Thus, there is no additional element of volatility or stock concentration on account of fund manager decisions.

While these measures are expected to mitigate the above risks to a large extent, there can be no assurance that these risks would be completely eliminated.

C. Risk mitigation strategies

Risk and Description	Risk Mitigants/management strategy
Risks associated with Equity investments	
Derivatives Risk As and when the Scheme trades in the derivatives market there are risk factors and issues concerning the use of derivatives since derivative products are specialized instruments that require investment techniques and risk analyses different from those associated with stocks and bonds.	Derivatives will be used in the form of Index Options, Index Futures and other instruments as may be permitted by SEBI. All derivatives trade will be done only on the exchange with guaranteed settlement. The AMC monitors the portfolio and regulatory limits for derivatives through its front office monitoring system. Exposure to derivatives of stocks or underlying index will be done based on requisite research. Fund managers will endeavour to use derivatives which are liquid and traded frequently on the exchanges. Exposure with respect to derivatives shall be in line with regulatory limits and the limits specified in the SID. Such exposure shall also be regularly reviewed by the Fund manager. No OTC contracts will be entered into.
Liquidity risk The liquidity of the Scheme's investments is inherently restricted by trading volumes in the securities in which they invests	The Scheme will try to maintain a proper asset-liability match to ensure redemption payments are made on time and not affected by illiquidity of the underlying stocks
Tracking Error risk (Volatility/ Concentration risk): The performance of the Scheme may not be commensurate with the performance of the underlying Index on any given day or over any given period	Tracking Error risk (Volatility/ Concentration risk): Over a short to medium period, the Scheme may carry the risk of variance between portfolio composition and Benchmark. The objectives of the Scheme are to track the performance of the Underlying Index over the same period, subject to tracking error. The Scheme would endeavour to maintain a low tracking error by actively aligning the portfolio in line with the Index.
Risks associated with Debt/Money market investments	
Market Risk/ Interest Rate Risk As with all debt securities, changes in interest rates may affect the Scheme's Net Asset Value as the prices of securities generally increase as interest rates decline and generally decrease as interest rates rise. Prices of long-term securities generally fluctuate more in response to interest rate changes than do short-term securities. Indian debt markets can be volatile leading to the	In a rising interest rate scenario the scheme may increase its investment in money market securities whereas if the interest rates are expected to fall the allocation to debt securities with longer maturity may be increased thereby mitigating risk to that extent.

possibility of price movements up or down in fixed income securities and thereby to possible movements in the NAV	
Liquidity or Marketability Risk This refers to the ease with which a security can be sold at or near to its valuation yield-to-maturity (YTM).	The Scheme may invest in government securities and money market instruments. While the liquidity risk for government securities and money market instruments may be low
Credit Risk Credit risk or default risk refers to the risk that an issuer of a fixed income security may default (i.e., will be unable to make timely principal and interest payments on the security).	Management analysis will be used for identifying company specific risks. Management's past track record will also be studied. In order to assess financial risk a detailed assessment of the issuer's financial statements will be undertaken
Reinvestment Risk This risk refers to the interest rate levels at which cash flows received from the securities in the Schemes are reinvested The risk is that the rate at which interim cash flows can be reinvested may be lower than that originally assumed.	Reinvestment risks will be limited to the extent of coupons received on debt instruments, which will be a very small portion of the portfolio value

II. Information about the scheme:

A. Where will the scheme invest?

The corpus of the Scheme will be invested in Equity and equity related instruments, debt, money market instruments and other permitted instruments, which will include but not limited to:

Equity and Equity Related Instruments:

1. Equity Shares.
2. Equity related instruments like;
 - Convertible bonds and debentures, convertible preference shares and warrants carrying the right to obtain equity shares.
 - Derivative instruments like options and futures on equity securities / indices.
3. TREPS, Listed debt or money market securities, in accordance with Seventh Schedule to the SEBI (Mutual Funds) Regulations, and other guidelines/circulars as may be amended from time to time.

Equity Derivatives:

Futures are exchange-traded contracts to sell or buy financial instruments for future delivery at an agreed price. There is an agreement to buy or sell a specified quantity of financial instrument on a designated future date at a price agreed upon by the buyer and seller at the time of entering into a contract. To make trading possible, the exchange specifies certain standardized features of the contract. A futures contract involves an obligation on both the parties to fulfill the terms of the contract.

SEBI has permitted futures contracts on indices and individual stocks with maturity of 1 month, 2 months and 3 months on a rolling basis. The futures contracts are settled on last Thursday (or immediately preceding trading day if Thursday is a trading holiday) of each month. Currently, the futures are settled in cash. The final settlement price is the closing price of the underlying stock(s)/ index.

Option is a contract which provides the buyer of the option (also called holder) the right, without the obligation, to buy or sell a specified asset at the agreed price on or up to a particular date. For acquiring this privilege, the buyer pays premium (fee) to the seller. The seller on the other hand has the obligation to buy or sell specified asset at the agreed price and for this obligation he receives premium. The premium is determined considering number of factors such as the market price of the underlying asset/security, number of days to expiry, risk free rate of return, strike price of the option and the volatility of the underlying asset. Option contracts are of two types, viz:

Call Option - The option that gives the buyer the right to buy specified quantity of the underlying asset at the strike price is a call option. The buyer of the call option (known as the holder of call option) can call upon the seller of the option (writer of the option) and buy from him the underlying asset at the agreed price at any time on or before the expiry of the option.

The seller (writer of the option) on the other hand has the obligation to sell the underlying asset if the buyer of the call option decides to exercise his option to buy.

Put Option - The right to sell is called put option. A Put option gives the holder (buyer) the right to sell specified quantity of the underlying asset at the strike price. The seller of the put option (one who is short put) however, has the obligation to buy the underlying asset at the strike price if the buyer decides to exercise his option to sell.

There are two kinds of options based on the date of exercise of right. The first is the European Option which can be exercised only on the maturity date. The second is the American Option which can be exercised on or before the maturity date.

Money Market Instruments:

Tri-party repo (TREPS)

Tri-party repo means a repo contract where a third entity (apart from the borrower and lender), called a Tri-Party Agent, acts as an intermediary between the two parties to the repo to facilitate services like collateral selection, payment and settlement, custody and management during the life of the transaction. TREPS facilitates, borrowing and lending of funds, in Tri Party Repo arrangement.

Certificate of Deposit (CD) of scheduled commercial banks and development financial Institutions

Certificate of Deposit (CD) is a negotiable money market instrument issued by scheduled commercial banks and select all-India Financial Institutions that have been permitted by the RBI to raise short term resources. The maturity period of CDs issued by the Banks is between 7 days to one year.

Commercial Paper (CP)

Commercial Paper (CP) is an unsecured negotiable money market instrument issued in the form of a promissory note, generally issued by the corporates, primary dealers and All India Financial Institutions as an alternative source of short-term borrowings. CP is traded in secondary market and can be freely bought and sold before maturity.

Treasury Bill (T-Bill)

Treasury Bills (T-Bills) are issued by the Government of India to meet their short-term borrowing requirements. T-Bills are issued for maturities of 14 days, 91 days, 182 days and 364 days. Bill Rediscounting (bills of exchange/promissory notes of public sector and private sector corporate entities).

Investment in Short Term Deposits

Pending deployment of funds as per the investment objective of the Scheme, the Funds may be parked in short term deposits of the Scheduled Commercial Banks, subject to guidelines and limits specified by SEBI and portfolio creation time will not be more than 7 days.

The securities / instruments mentioned above and such other securities the Scheme is permitted to invest in could be listed, unlisted, privately placed, secured, unsecured, rated or unrated and of any maturity.

The securities may be acquired through initial public offering (IPOs), secondary market, private placement, rights offer, negotiated deals. Further investments in debentures, bonds and other fixed income securities will be in instruments which have been assigned investment grade rating by the Credit Rating Agency.

Investment in unrated debt instruments shall be subject to complying with the provisions of the Regulations and within the limit as specified in Schedule VII to the Regulations. Pursuant to Clause 12.12 of SEBI Master Circular dated June 27, 2024; the AMC may constitute committee(s) to approve proposals for investments in unrated debt instruments. The AMC Board and the Trustee shall approve the detailed parameters for such investments. However, in case any unrated debt security does not fall under the parameters, the prior approval of Board of AMC and Trustee shall be sought.

For applicable regulatory investment limits please refer paragraph **"Investment Restrictions"**.

B. What are the investment restrictions?

Pursuant to SEBI (MF) Regulations, 1996, the following investment restrictions are applicable to the scheme:

1. All investments by a mutual fund scheme in equity shares and equity related instruments shall only be made provided such securities are listed or to be listed.
2. The Mutual Fund under all its Scheme(s) shall not own more than ten per cent of any company's paid up capital carrying voting rights or ten per cent of units of REITs issued by a single issuer, as the case may be. Provided, investment in the asset management company or the trustee company of a mutual fund shall be governed by clause (a), of sub-regulation (1), of regulation 7B.
3. All investments by the Scheme in CPs would be made only in CPs which are listed or to be listed.
4. The Scheme shall not invest more than 10% of its NAV in debt instruments comprising money market instruments and non-money market instruments issued by a single issuer, which are rated not below investment grade by a credit rating agency authorized to carry out such activities under the SEBI Act, 1992. Such investment limit may be extended to 12% of the NAV of the Scheme with the prior approval of the Trustee and the Board of Directors of AMC.

Provided that such limit shall not be applicable for investments in Government Securities, treasury bills and Tri-party Repos on Government securities or treasury bills (TREPS).

Provided further that investment within such limit can be made in mortgaged backed securitised debt

which are rated not below investment grade by a credit rating agency registered with SEBI.

A mutual fund scheme shall not invest more than:

- a. 10% of its NAV in debt and money market securities rated AAA; or
- b. 8% of its NAV in debt and money market securities rated AA; or
- c. 6% of its NAV in debt and money market securities rated A and below issued by a single issuer.

Provided further that such limit shall not be applicable for investments in case of debt exchange traded funds or such other funds as may be specified by SEBI from time to time.

Note: According to the Asset Allocation of the Scheme, the indicative allocation of the Scheme to Debt and Money market instruments shall be in the range of 0% to 5% of the net assets of the Scheme, subject to conditions specified.

5. A mutual fund scheme shall not invest in unlisted debt instruments including commercial papers, except Government Securities and other money market instruments:

Provided that Mutual Fund Schemes may invest in unlisted non-convertible debentures up to a maximum of 10% of the debt portfolio of the scheme subject to such conditions as may be specified by the Board from time to time:

Provided further that mutual fund schemes shall comply with the norms under this clause within the time and in the manner as may be specified by the Board:

Provided further that the norms for investments by mutual fund schemes in unrated debt instruments shall be specified by the Board from time to time.

Note: According to the Asset Allocation of the Scheme, the indicative allocation of the Scheme to Debt and Money market instruments shall be in the range of 0% to 5% of the net assets of the Scheme, subject to conditions specified.

6. Transfer of investments from one scheme to another scheme in the same Mutual Fund is permitted provided:
 - i) Such transfers are done at the prevailing market price for quoted instruments on spot basis (spot basis shall have the same meaning as specified by a Stock Exchange for spot transactions); and the securities so transferred shall be in conformity with the investment objective of the Scheme to which such transfer has been made.
 - ii) IST purchases would be allowed subject to the guidelines as specified in Paragraph 12.30 of SEBI Master circular on Mutual Funds dated June 27, 2024.
7. The Scheme may invest in other schemes of the Mutual Fund or any other mutual fund without charging any fees, provided the aggregate inter-scheme investment made by all the schemes under the same management or in schemes under the management of any other asset management company shall not exceed 5% of the Net Asset Value of the Mutual Fund. Provided that this clause shall not apply to any fund of funds scheme
8. The Mutual Fund shall buy and sell securities on the basis of deliveries and shall in all cases of purchases, take delivery of relevant securities and in all cases of sale, deliver the securities:

However, the Mutual Fund will not engage in short selling but may engage in borrowing and lending of securities as specified by SEBI.

Provided further that the Mutual Fund may enter into Derivatives transactions in a recognized stock exchange, subject to the framework specified by SEBI.

The sale of government security already contracted for purchase shall be permitted in accordance with the guidelines issued by the RBI in this regard.

9. The Mutual Fund shall get the securities purchased or transferred in the name of the Fund on account of the concerned Scheme, wherever investments are intended to be of a long-term nature.
10. Pending deployment of the funds of the Scheme in securities in terms of the investment objective of the Scheme, the AMC may park the funds of the Scheme in short term deposits of scheduled commercial banks, subject to the paragraph 12.16, 12.16.1.6, 12.16.1.8 and 12.16.1.9 of SEBI Master Circular on Mutual Funds dated June 27, 2024 as may be amended from time to time:

The Scheme will comply with the following guidelines/restrictions for parking of funds in short term deposits:

- i. "Short Term" for such parking of funds by the Scheme shall be treated as a period not exceeding 91 days. Such short-term deposits shall be held in the name of the Scheme.
- ii. The Scheme shall not park more than 15% of the net assets in short term deposit(s) of all the scheduled commercial banks put together. However, such limit may be raised to 20% with prior approval of the Trustee.
- iii. Parking of funds in short term deposits of associate and sponsor scheduled commercial banks together shall not exceed 20% of total deployment by the Mutual Fund in short term deposits.
- iv. The Scheme shall not park more than 10% of the net assets in short term deposit(s), with any one scheduled commercial bank including its subsidiaries.
- v. The Scheme shall not park funds in short term deposit of a bank which has invested in that Scheme. Trustees/AMCs shall also ensure that the bank in which a scheme has STD do not invest in the said scheme until the scheme has STD with such bank. However, the above provisions will not apply to term deposits placed as margins for trading in cash and Derivatives market. The AMC shall not be permitted to charge any investment management and advisory fees for parking of funds in short term deposits of scheduled commercial banks.

The above norms do not apply to term deposits placed as margins for trading in cash and derivatives market. However, all term deposits placed as margins shall be disclosed in the half yearly portfolio statements under a separate heading. Details such as name of bank, amount of term deposits, duration of term deposits, percentage of NAV should be disclosed.

11. The mutual fund will follow the paragraph 12.25 of SEBI Master Circular on Mutual Funds dated June 27, 2024, on review of norms for investment and disclosure by mutual funds in derivatives.

Risks Involved in Transacting via Email The Non-individual investor acknowledges and accepts the inherent risks associated with conducting financial transactions via email. These risks include, but are not limited to, the possibility of unauthorized access to email communications, transmission delays, data loss, or alteration due to technical glitches or cyberattacks, which could impact the completeness or accuracy of the transaction. Additionally, emails may be susceptible to interception, unauthorized access, and other security vulnerabilities, which could lead to fraudulent transactions. Therefore, investors must be cautious while initiating financial transactions via email and should ensure the confidentiality and integrity of their communication. 2. Limitation of Liability of AMC / RTA The Asset Management Company (AMC) and the Registrar and Transfer Agent (RTA) shall not be held liable for any loss or damage caused by the non-receipt or delay in receiving any transaction sent by the investor via email. This includes situations where emails are not delivered, are delayed, or are intercepted due to issues beyond the control of the AMC or RTA, including but not limited to, technical failures, service provider errors, or unauthorized access to the email account. The AMC and RTA will not be responsible for any transactions that are erroneously processed or not processed due to such issues. The liability of the AMC and RTA is limited solely to the extent of ensuring that the

	transaction is processed once received in the proper format and within a reasonable timeframe, subject to system availability and security checks. 3. Security Measures to Ensure Safe Email Communication The AMC and RTA are committed to ensuring the highest level of security for email communications and shall implement appropriate safeguards. These measures include the use of encrypted email services, secure authentication protocols, and virus/malware scanning for all incoming and outgoing emails. Additionally, access to email accounts and transaction systems shall be restricted to authorized personnel only, and multi-factor authentication will be employed to verify the identity of the individuals initiating transactions. The AMC shall take all reasonable steps to prevent unauthorized access, disclosure, or alteration of the financial data transmitted via email. 4. Retention of Transaction Records The AMC and RTA will retain records of all transactions routed via email in accordance with applicable laws and regulations. These records will include, but are not limited to, transaction requests, email correspondence, and confirmation receipts, for a minimum period as mandated by regulatory authorities. The Non-Individual investor agrees that these records shall be stored in a secure digital format to ensure their integrity and availability for future reference. In addition, the AMC shall maintain an audit trail for each transaction, allowing for the traceability of emails and the status of each request submitted via email. 5. Procedure for Addition/Deletion of Authorized Signatories The facility to transact via email shall follow an appropriate procedure for the addition or deletion of authorized signatories. Such changes must be communicated to the AMC through a formal notification, in the form of a signed letter or email from the authorized representative of the entity, accompanied by the requisite board resolution or authority letter. The AMC shall process these changes only upon receipt of valid documentation confirming the updated list of authorized signatories. These changes will only be effective once the AMC has acknowledged receipt and validation of the notification.
--	---

	6. Authorization for Non-Individual Investors For non-individual investors, including registered mutual fund distributors or third parties authorized by the investor, to submit financial transactions via email on behalf of the entity, the AMC and RTA require prior written authorization from the investor. This authorization should clearly state the scope of authority granted to the third party and must be submitted with each transaction request. The AMC will accept such transactions only if the relevant authorization documents are in place and the email corresponds with the pre-registered contact information for the entity or authorized third party. 7. Security Procedures for Transaction Confirmation To confirm and authenticate email-based financial transactions, the AMC will employ a range of security procedures, including digital signatures, encrypted communication, and multi-step verification processes. These procedures are designed to verify that the transaction is genuinely authorized by the investor and ensure that the instructions have not been tampered with. Upon receipt of an email transaction, the AMC will conduct thorough checks to confirm the authenticity of the request, including comparing it against the pre-registered information (email addresses, signatories, etc.). Only upon successful verification will the transaction be processed. 8. Electronic Time Stamping and Audit Trail for Email Transactions Each transaction processed via email shall be subject to an electronic time-stamping mechanism that records the exact time and date of receipt. This time stamp will serve as a reference point for any future inquiries or disputes regarding the transaction. Furthermore, AMC shall maintain an audit trail, tracking all actions related to the email transaction, including receipt, verification, and processing. The audit trail will provide transparency, ensure accountability, and facilitate the resolution of any issues related to email-based transactions. 9. Change in Registered Email Address / Contact Details Any change in the registered email address or contact details of the entity must be communicated to the AMC via a physical letter, including a scanned copy, signed by the designated authorized officials of the entity. This change request must also be supported by a copy of the
--	---

	relevant board resolutions or authority letter from the entity, issued on the official letterhead. The AMC will not accept email requests for such changes. Further, changes in the registered email address will not be processed unless the request complies with these requirements. This ensures that only authorized personnel can modify the contact details associated with the Non-individual investor's account. 10.Changes in Bank Mandate No changes to the bank mandate (including adding or modifying bank account details) will be accepted via email. Such changes must be submitted using the prescribed service request form, duly signed by the entity's authorized signatories. The form must also be accompanied by the wet signatures of the designated officials of the entity. This ensures the authenticity and validity of any change in the bank details associated with the Non- individual Investor's account, and that no unauthorized modifications are made via email. 11.Digital Signatures and Validity of Electronically Executed Documents In case of any document executed electronically, the AMC recognizes the validity of Digital Signature Certificates (DSCs) or Aadhaar-based e-signatures provided by the authorized officials of the entity. These digitally signed documents will be treated as legally binding and valid, even if they are not sent from the registered email address of the authorized officials. However, the email domain from which the document is sent must match the official domain name of the entity. Such documents, when executed with a valid DSC or e-signature, will be processed by the AMC without requiring further verification through physical signatures.

B. Transparency/NAV Disclosure

The AMC will calculate and disclose the first NAVs of the Scheme not later than 5 Business Days from the date of allotment of units under the NFO. Subsequently, the AMC will calculate and disclose NAVs at the close of every Business Day in the manner specified by SEBI

The AMC shall update the NAVs on its website (<https://navi.com/mutual-fund>) and of the Association of Mutual Funds in India ("AMFI") (www.amfiindia.com) before 11.00 p.m. every Business Day. In case of any delay, the reasons for such delay would be explained to AMFI in writing. If the NAVs are not available before the commencement of Business Hours on the following day due to any reason, the Mutual Fund shall issue a press release giving reasons and explaining when the Mutual Fund would be able to publish the NAV.

The AMC will disclose the portfolio in a user friendly & downloadable spreadsheet format, as on the last day of the month /half year for the scheme(s) on its website (<https://navi.com/mutual-fund>) and on the website of AMFI (www.amfiindia.com) of the Scheme within ten days from the close of each month/half year. In case of investors whose email addresses are registered with Navi MF, the AMC shall send via email both the monthly and half yearly statement of scheme portfolio within 10 days from the close of each month/half year respectively.

The AMC will make available the Annual Report of the Scheme within four months of the end of the financial year. The Annual Report shall also be displayed on the website of AMC and AMFI.

C. Transaction charges and stamp duty

Transaction Charges

Transaction charges have been removed pursuant to SEBI Circular No.: SEBI/HO/IMD/PoD1/CIR/P/2025/115 dated August 08, 2025.

Stamp Duty

A stamp duty @0.005% of the transaction value would be levied on applicable mutual fund transactions, with effect from July 01, 2020. Pursuant to levy of stamp duty, the number of units allotted on purchase transactions (including dividend reinvestment) to the unitholders would be reduced to that extent.
