c) Units of Gold ETFs* and/or Silver ETFs	10	30

Scheme Information Document
ICICI Prudential Multi-Asset Active FOF

Money Market Instruments (with maturity not exceeding 91 days), including Tri-Party Repo**	0	5
--	---	---

*The AMC shall evaluate the market situation while taking exposure towards Gold/Silver ETF. Considering the current market conditions, the exposure towards Gold ETF will be restricted at 5% of the AUM and the same shall be reviewed from time to time.

**or similar instruments as may be permitted by RBI/SEBI, subject to approval from SEBI/RBI as required.

The Margin may be placed in the form of such securities / instruments / deposits as may be permitted/eligible to be placed as margin from the assets of the Scheme. The securities / instruments / deposits so placed as margin shall be classified under the applicable category of assets for the purposes of asset allocation.

The Cumulative Gross Exposure across units of equity oriented schemes, debt oriented schemes, Gold/ Silver exchange traded funds, Money Market Instruments (with maturity not exceeding 91 days), including Tri-Party Repo*#, units of liquid schemes/Overnight mutual fund Schemes and such other securities/assets as may be permitted by SEBI from time to time, should not exceed 100% of the net assets of the scheme.

At all points of time, the scheme will remain invested at least 95% (minimum allocation) in the underlying schemes. However, on account of rebalancing or certain liquidity requirements, the exposure to the underlying mutual fund schemes may fall below 95%. In such cases the same shall be rebalanced as per the provisions stated below. The portfolio would be rebalanced periodically to address any deviations from the aforementioned allocations due to market changes.

Exposure to various instruments will be as per the indicative table given below:

Sr. No.	Type of Instrument	% of direct exposure	Circular References
1	Stock lending	Nil	Not Applicable
2	Derivatives	Nil	Not Applicable
3	Securitized Debt	Nil	Not Applicable
4	Overseas Securities	Nil	Not Applicable
5	Units of INVITS	Nil	Not Applicable
6	Additional Tier I bonds and Tier II bonds	Nil	Not Applicable
7	Structured Obligations / Credit Enhancement rated securities	Nil	Not Applicable
8	Money Market instruments including Tri-party repos	Up to 5% of Net Assets	Clause 13.1(4) of the Master Circular

- In accordance with the restrictions mentioned in the seventh schedule of SEBI (Mutual Funds) Regulations, 2026, the Scheme may invest in other Schemes under the same AMC or any other Mutual Fund without charging any fees, provided the aggregate inter-Scheme investment made by all the Schemes under the same management or in

Schemes under management of any other asset management company shall not exceed 5% of the Net Asset Value of the Fund. No investment management fees shall be charged for investing in other Schemes of the Fund or in the Schemes of any other mutual fund.

Rebalancing due to Short Term Defensive Consideration:

- Due to market conditions, the AMC may invest beyond the range set out in the asset allocation. Such deviations shall normally be for a short term and defensive considerations as per Paragraph 1.9.1(b) of the Master Circular, and the fund manager will rebalance the portfolio within 30 calendar days from the date of deviation.

Rebalancing due to Passive Breaches:

- Further, as per Para 3.11 of the Master Circular, as may be amended from time to time, in the event of deviation from mandated asset allocation due to passive breaches (occurrence of instances not arising out of omission and commission of the AMC), the fund manager shall rebalance the portfolio of the Scheme within 30 Business Days. In case the portfolio of the Scheme is not rebalanced within the period of 30 Business Days, justification in writing, including details of efforts taken to rebalance the portfolio shall be placed before the Investment Committee of the AMC. The Investment Committee, if it so desires, can extend the timeline for rebalancing up to sixty (60) Business Days from the date of completion of mandated rebalancing period. Further, in case the portfolio is not rebalanced within the aforementioned mandated plus extended timelines the AMC shall comply with the prescribed restrictions, the reporting and disclosure requirements as specified in Paragraph 3.11.3 of the Master Circular.

Further, the AMC shall comply with the applicable regulatory guidelines related to reporting and disclosure requirements as specified in the aforesaid circular.

Deployment of Funds collected in New Fund Offer (NFO) period

In accordance with paragraph 7.24 of the Master Circular, the AMC shall deploy the funds garnered during the NFO within 30 business days from the date of allotment of units. If the AMC is unable to deploy the funds within the 30 business day period, a written explanation, including details of the efforts taken to deploy the funds, must be presented to the AMC's Investment Committee. The Investment Committee may extend the deployment timeline by up to 30 business days and will provide recommendations to ensure timely deployment in the future.

In case the funds are not deployed as per the asset allocation mentioned in the SID as per the aforesaid mandated plus extended timelines, AMC shall:

- not be permitted to receive fresh flows in the Scheme till the time the funds are deployed as per the asset allocation mentioned in the SID;

- not be permitted to levy exit load, if any, on the investors exiting the Scheme after 60 business days of not complying with the asset allocation of the scheme;
- inform all investors of the NFO, about the exit option without exit load, via email, SMS or other similar mode of communication;
- report deviation, if any, to Trustees at each of the above stages.

The securities mentioned in the asset allocation pattern could be privately placed or unsecured. The securities may be acquired through secondary market purchases, Public Offering, other public offers, Private Placement, right offers (including renunciation) and negotiated deals.

Cash or cash equivalents with residual maturity of less than 91 days may be treated as not creating any exposure. AMFI vide letter dated November 3, 2021 has clarified that Cash Equivalent shall consist of Government Securities, T-Bills and Repo on Government Securities

Apart from the above investment restrictions, the Scheme may follow certain internal norms vis-à-vis limiting exposure to scrips, sectors etc., within the above mentioned restrictions, and these are subject to review from time to time.

Negative list: The Scheme will not directly invest/ have exposure in the following:

Sr. No	Particulars
1.	Securitized debt
2.	Overseas Securities
3.	Derivatives
4.	Short selling
5.	Stock lending
6.	Units of INVITS
7.	Additional Tier I bonds and Tier II bonds
8.	Structured Obligations / Credit Enhancement rated securities
9.	Repos in corporate debt securities
10.	Credit Default Swaps transactions

B. WHERE WILL THE SCHEME INVEST?

Subject to the Regulations and the disclosures as made under the section “How the Scheme will allocate its Assets”, the corpus of the Scheme can be invested in the following:

1. Units of various active equity oriented schemes.
2. Units of various active debt oriented schemes.
3. Units of various Gold ETFs/Silver ETFs.
4. Money Market Instruments, including Tri-Party Repo

*or similar instruments as may be permitted by SEBI/RBI, subject to approval from SEBI/RBI as required.

The units of the schemes of the Mutual Funds in which the Scheme proposes to make investments could be listed or unlisted, open/closed ended. The units may be acquired through subscription to the units during the New Fund Offer of the schemes or by subscriptions on on-going basis in case of open-ended schemes.

The inter Scheme transfer of investments shall be in accordance with the provisions contained in paragraph 13.19 of the Master Circular pertaining to Inter-Scheme transfer of investments.

C. WHAT ARE THE INVESTMENT STRATEGIES?

Subject to the Regulations and other prevailing laws as applicable, the Scheme shall invest in the following category of the schemes, subject to minimum investment of 10% per category:

- Units of active Equity Oriented Schemes
- Units of active Debt Oriented Schemes
- Units of Gold ETFs/Silver ETFs

Further, the Scheme shall follow an active investment strategy and shall consider factors like prevailing market conditions, the macroeconomic environment (including interest rates and inflation), the performance of the corporate sector, liquidity and other considerations in the economy and markets.

Post analysing the above mentioned parameters or any other parameters/indicators evolved in future, the allocation shall be determined towards each asset class.

The Scheme shall invest in units of active equity oriented schemes, units of active debt oriented schemes and units of Gold ETFs and/or Silver ETFs of ICICI Prudential Mutual Fund and/or any other Mutual Fund.

D. HOW WILL THE SCHEME BENCHMARK ITS PERFORMANCE?

The Benchmark of the Scheme is 55% Nifty 200 TRI + 35% NIFTY Composite Debt Index + 7% Domestic Price of Gold + 3% Domestic Price of Silver.

The Scheme intends to invest in actively managed equity and debt oriented mutual fund schemes and units of Gold ETF/ Silver ETF whose underlying investments are broadly captured by the benchmark Index. The composition of the benchmark is such that it is most suited for comparing performance of the Scheme.

The Trustees reserves the right to change the benchmark in future if a benchmark better suited to the investment objective of the Scheme is available.

E. WHO MANAGES THE SCHEME?

PART III. OTHER DETAILS

A. COMPUTATION OF NAV

The NAV of the Units of the Scheme will be computed by dividing the net assets of the Scheme by the number of Units outstanding on the valuation date. The Fund shall value its investments according to the valuation norms, as specified in Schedule VII of the Regulations, or such norms as may be prescribed by SEBI from time to time and as stipulated in the valuation policy and procedures of the Fund, provided in Statement of Additional Information (SAI).

The NAV of the Scheme shall be rounded off upto four decimals

NAV of units under the Scheme shall be calculated as shown below:

Scheme Information Document
ICICI Prudential Multi-Asset Active FOF

NAV (Rs.) =

Market or Fair Value of Scheme's investments + Current Assets
- Current Liabilities and Provision

No. of Units outstanding under Schemes

The NAV will be calculated as of the close of every Business Day of the respective Scheme. The valuation of the Scheme's assets and calculation of the Scheme's NAV shall be subject to audit on an annual basis and such regulations as may be prescribed by SEBI from time to time.

Illustration of computation of NAV:

If the net assets of the Scheme are Rs.10,45,34,345.34 and units outstanding are 10,000,000, then the NAV per unit will be computed as follows:

$10,45,34,345.34 / 10,000,000 = \text{Rs. } 10.4534 \text{ p.u. (rounded off to four decimals)}$

The Fund shall ensure that the repurchase price of an open ended scheme is not lower than 97 per cent of the Net Asset Value.

For further details, such as policies with respect to computation of NAV, rounding off, valuation of investment in foreign securities, procedure in case of delay in disclosure of NAV etc, please refer to SAI.

B. NEW FUND OFFER (NFO) EXPENSES –

These expenses are incurred for the purpose of various activities related to the NFO like marketing and advertising, registrar expenses, printing and stationary, bank charges etc.

In accordance with the provisions of SEBI Circular, no New Fund Offer Expenses will be charged to the Scheme. The NFO expenses for launch of scheme will be borne by the AMC.

C. ANNUAL SCHEME RECURRING EXPENSE

These are the fees and expenses for operating the Scheme. These expenses include Investment Management and Advisory Fee charged by the AMC, Registrar and Transfer Agents' fee, marketing and selling costs etc. as given in the table below:

The AMC has estimated that upto 1.85 % of the daily net assets of the Scheme will be charged to the Scheme as expenses. For the actual current expenses being charged, the investor should refer to the website of the mutual fund. The AMC would update the current expense ratios on the website at least three working days prior to the effective date of the change. The requirement for disclosing such change would be subject to paragraph 11.4 of the Master Circular. Investors can refer [Total Expense Ratio of Mutual Fund Schemes \(icicipruamc.com\)](http://icicipruamc.com) for Total Expense Ratio (TER) for Total Expense Ratio (TER) details.

Details of Annual Scheme Recurring Expenses under the Scheme are as follows:

The aforesaid does not include Statutory levies charged to the investor.	
Statutory levies (including GST) on all expenses excluding brokerage and transaction cost	GST of 18% or any other rate as may be levied from time to time on the Taxable/ Invoice/ Contract amount. Additionally, levies such as Stamp Duty, STT etc.
Statutory levies (including GST) on brokerage and transaction cost	Will be charged on Turnover of securities which will be at prescribed rates.

The returns of the Direct Plan for the Scheme shall be exclusive of distribution commission and statutory levies charged on the same.

Investors may please note that they will be bearing the recurring expenses of the Scheme in addition to the expenses of the underlying schemes in which the fund of funds makes investment.

Provided that the base expense ratio to be charged over and above the weighted average of the base expense ratio of the underlying schemes shall not exceed two times the weighted average of the base expense ratio levied by the underlying scheme(s), subject to the overall ceilings as stated above.

*As permitted under the Regulation 66 of SEBI (MF) Regulations, 2026.

Direct Plan shall have a lower expense ratio excluding distribution expenses and its statutory levies, commission, etc as compared to other Plan and no commission for distribution of Units will be paid/ charged under Direct Plan.

All fees and expenses charged in a Direct Plan (in percentage terms) under various heads including the investment and advisory fee shall not exceed the fees and expenses charged under such heads in other than Direct Plan.

The Scheme can charge expenses within overall maximum limits prescribed under SEBI (MF) Regulations, without any internal cap allocated to any of the expense heads specified in the above table. Types of expenses charged shall be as per the SEBI (Mutual Funds) Regulations, 2026.

The above expense percentage excludes additional expenses charged towards statutory levy, transaction charges incurred for the purpose of execution of a trade which includes regulatory levies and any other expense charged by the stock exchanges, clearing corporations and clearing houses, as applicable.

Fund of Funds (FoFs) investing more than 80% of its NAV in the underlying domestic funds shall not be required to set aside any amount of the daily net assets towards investor education and awareness initiatives as per paragraph 11.9.1 of the Master Circular.

The purpose of the above table is to assist the investors in understanding the various costs and expenses that an investor in the Scheme will bear. The above expenses may increase/decrease as per actual and/or any change in the Regulations.

Brokerage cost incurred for the purpose of execution of trade over and above the base expense ratio subject to a maximum of 6 bps of trade value in case of cash market transactions and 2 bps of trade value in case of derivatives transactions. Any payment towards brokerage and transaction costs, over and above the said 6 bps and 2bps for cash market transactions and derivatives transactions respectively may be charged to the scheme within the maximum limit of Base Expense Ratio as prescribed under regulation 66.

No charges other than the base expense ratio, brokerage cost, transaction cost, statutory levy and exit load including levies as may be specified by the Board, shall be charged to the investors.

Expenses shall be charged / borne in accordance with the Regulations prevailing from time to time.

The following is an illustration of the impact of expense ratio on the scheme's returns:

Particulars	Regular Plan	Direct Plan
Amount Invested at the beginning of the year	10,000	10,000
Returns before Expenses	1,500	1,500

Expenses other than Distribution Expenses	150	150
Distribution Expenses	50	-
Returns after Expenses at the end of the Year	1300	1350

D. LOAD STRUCTURE

Exit Load is an amount which is paid by the investor to redeem the units from the scheme. Load amounts are variable and are subject to change from time to time. For the current applicable structure, please refer to the website of the AMC (www.icicipruamc.com) or your distributor.

Type of Load	Load chargeable (as % of NAV)
Exit Load (No Entry Load shall be charged)	<ul style="list-style-type: none"> • NIL - If units purchased or switched in from another scheme of the Fund are redeemed or switched out upto 30% of the units (the limit) purchased or switched within 1 year from the date of allotment • 1% of the applicable NAV - If units purchased or switched in from another scheme of the Fund are redeemed or switched out in excess of the limit within 1 Year from the date of allotment • NIL - If units purchased or switched in from another scheme of the Fund are redeemed or switched out after 1 Year from the date of allotment. <p>However, the Trustee shall have a right to prescribe or modify the load structure with prospective effect subject to a maximum prescribed under the Regulations.</p>

Any redemption/switch arising out of excess holding by an investor beyond 25% of the net assets of the Scheme in the manner envisaged under paragraph 7.19.1(ii) of the Master Circular, such redemption / switch will not be subject to exit load.

The exit load charged, if any, shall be credited back to the respective scheme. Goods and Services tax on exit load shall be paid out of the exit load proceeds and exit load net of Goods and Services tax shall be credited to the schemes.

Exit Load, if any, prevailing on the date of enrolment of SIP/ STP shall be levied in the Scheme. Units issued on reinvestment of IDCW shall not be subject to exit load.

Any imposition or enhancement in the load shall be applicable on prospective investments only. The investor is requested to check the prevailing load structure of the Scheme before investing. For any change in load structure AMC will issue an addendum and display it on the website/Investor Service Centres. Any imposition or enhancement in the load shall be applicable on prospective investments only.

Subject to the Regulations, the Trustee reserves the right to modify/alter the load structure on the Units subscribed/redeemed on any Business Day. At the time of changing the load structure, the AMC / Mutual Fund may adopt the following procedure:

- i. The addendum detailing the changes will be attached to Scheme Information Documents and key information memorandum. The addendum will be circulated to all the distributors/brokers so that the same can be attached to all Scheme Information Documents and key information memoranda already in stock.
- ii. Arrangements will be made to display the addendum in the Scheme Information Document in the form of a notice in all the investor service centres and distributors/brokers office.
- iii. The introduction of the exit load along with the details will be stamped in the acknowledgement slip issued to the investors on submission of the application form and will also be disclosed in the statement of accounts issued after the introduction of such load.
- iv. A public notice shall be provided on the website of the AMC in respect of such changes.

Any imposition or enhancement in the load shall be applicable on prospective investments only.

SECTION II

I. Introduction

A. Definitions

Definition for the words and expressions used in the SID are available at the following link : [SID related information \(iciipruamc.com\)](http://www.iciipruamc.com)

The words and expressions shall have the meaning as specified at the above link, unless the context otherwise requires.

B. Risk Factors

I. **Standard Risk factors:** Please refer to SAI.

II. **Scheme specific risk factors**

- Investors may please note that they will be bearing the recurring expenses of the relevant fund of fund scheme in addition to the expenses of the underlying schemes in which the fund of fund scheme makes investment.
- As the investors are incurring expenditure at both the Fund of Funds level and the schemes into which the Fund of Funds invests, the returns that they may obtain may be materially impacted or may at times be lower than the returns that investors directly investing in such schemes obtain.
- Again as the Fund of Funds scheme may shift the weightage of investments between schemes into which it invests, the expenses charged being dependent on the structure of the underlying schemes (being different) may lead to a non- uniform charging of expenses over a period of time.
- As the Fund of Funds (FOF) factsheets and disclosures of portfolio will be limited to providing the particulars of the schemes invested at FOF level, investors may not be able to obtain specific details of the investments of the underlying schemes.
- While it would be the endeavour of the Fund Manager of the Fund of Funds scheme(s) to invest in the target schemes in a manner, which will seek to maximize returns, the performance of the underlying funds may vary which may lead to the returns of the Fund of Funds being adversely impacted.
- The scheme specific risk factors of each of the underlying schemes become applicable where a fund of funds invests in any underlying scheme. Investors who intend to invest in Fund of Funds are required to and are deemed to have read and understood the risk factors of the underlying schemes relevant to the Fund of Funds scheme that they invest in. Copies of the Scheme Information Documents pertaining to the various schemes of ICICI Prudential Mutual Fund, which disclose the relevant risk factors, are available at the Customer Service Centers or may be accessed at www.iciipruamc.com.

- A Fund Manager managing any one of the Fund of Funds schemes may also be the Fund Manager for any underlying schemes.
- There exists a possibility that the investment policy and/or fundamental attributes of the underlying scheme change over time. In such circumstances, the fund manager will seek to continue remain invested in such underlying scheme as long as it does not challenge the investment strategy of the Scheme.
- **Regulatory Risk:** Any changes in trading regulations by the Stock Exchange/s or SEBI may affect the ability of market maker to arbitrage resulting into wider premium/discount to NAV. Although, the units are listed on NSE and BSE, the AMC and the Trustees will not be liable for delay in listing of Units of the underlying scheme on the stock exchanges / or due to connectivity problems with the depositories due to the occurrence of any event beyond their control.
- **Settlement Risk:** In certain cases, settlement periods may be extended significantly by unforeseen circumstances. The inability of the underlying scheme to make intended securities purchases due to settlement problems could cause the underlying scheme to miss certain investment opportunities as in certain cases, settlement periods may be extended significantly by unforeseen circumstances. Similarly, the inability to sell securities held in the underlying scheme portfolio may result, at times, in potential losses to the underlying scheme, and there can be a subsequent decline in the value of the securities held in the underlying scheme's portfolio.
- **Portfolio Concentration Risk:** To the extent that the underlying scheme may concentrate its investments in the Securities of companies of certain sectors/theme, the underlying scheme will therefore be subject to the risks associated with such concentration. Such risks may impact the underlying scheme to the extent that it invests in particular sectors/theme even in cases where the investment objective is more generic.
- **Volatility Risk:** The equity markets are volatile and the value of securities may fluctuate dramatically from day to day. This volatility may cause the value of investment in the underlying scheme to decrease.
- **Redemption Risk:** Investors should note that even though the underlying scheme is an open ended scheme, subscription/redemptions directly with the Fund would be limited to such investors who have the ability to subscribe/redeem the units of the underlying scheme in the creation unit size. Generally, this lot size is larger as compared to normal fund. However, investors wishing to subscribe/redeem units in other than specific lot size can do so by buying/selling the same on the Stock Exchange. Investors can also approach the Fund directly for redemption in other than Creation Unit Size on occurrence of various events as listed in this document.

Market Trading Risks

- **Absence of Prior Active Market:** Although units of the underlying scheme are to be listed on the Exchanges, there can be no assurance that an active secondary market will develop or be maintained.

- **Lack of Market Liquidity:** Trading in units of the respective underlying scheme on the Exchange may be halted because of market conditions or for reasons that in the view of the Market Authorities or SEBI, trading in units of the underlying scheme are not advisable. In addition, trading in units of the underlying scheme are subject to trading halts caused by extraordinary market volatility and pursuant to NSE/BSE and SEBI “circuit filter” rules. There can be no assurance that the requirements of the Market necessary to maintain the listing of units of the underlying scheme will continue to be met or will remain unchanged.
- **Units of the underlying scheme may trade at Prices Other than NAV:** Units of the underlying scheme may trade above or below its NAV. The NAV of the underlying scheme will fluctuate with changes in the market value of underlying scheme’s holdings. The trading prices of units of the underlying scheme will fluctuate in accordance with changes in their NAVs as well as market supply and demand of units of the underlying scheme. However, given that units can be created and redeemed only in Creation Units directly with the Fund, it is expected that large discounts or premiums to the NAVs of the Scheme will not sustain due to arbitrage possibility available.

Risk associated with investment in money market securities

- Market Risk/Interest Rate Risk:** The Net Asset Value (NAV) of the Scheme(s), to the extent invested in fixed income and money market securities, will be affected by changes in the general level of interest rates. The NAV of the Scheme(s) is expected to increase from a fall in interest rates while it would be adversely affected by an increase in the level of interest rates.
- Liquidity Risk:** The liquidity of a security may change depending on market conditions leading to changes in the liquidity premium linked to the price of the security. At the time of selling the security, the security can become illiquid leading to loss in the value of the portfolio.
- Credit Risk:** Investments in fixed income securities and money market instruments are subject to the risk of an issuer's inability to meet interest and principal payments on its obligations and market perception of the creditworthiness of the issuer.
- Price Risk:** Government securities where a fixed return is offered run price-risk like any other fixed income security. Generally, when interest rates rise, prices of fixed income securities fall and when interest rates drop, the prices increase. The extent of fall or rise in the prices is a function of the existing coupon, days to maturity and the increase or decrease in the level of interest rates. The new level of interest rate is determined by the rates at which government raises new money and/or the price levels at which the market is already dealing in existing securities. The price-risk is not unique to Government Securities. It exists for all fixed income securities. However, Government Securities are unique in the sense that their credit risk generally remains zero. Therefore, their prices are influenced only by movement in interest rates in the financial system.
- Reinvestment Risk:** This risk refers to the interest rate levels at which cash flows received from the securities in the Scheme are reinvested. The additional income from

reinvestment is the “interest on interest” component. The risk is that the rate at which interim cash flows can be reinvested may be lower than that originally assumed.

- f. **Regulatory Risk:** Changes in government policy in general and changes in tax benefits applicable to Mutual Funds may impact the returns to investors in the Scheme.
- g. **Risks associated with investment in unlisted securities:** Except for any security of an associate or group company, the underlying scheme(s) have the power to invest in securities which are not listed on a stock exchange or receive unlisted securities which in general are subject to greater price fluctuations, less liquidity and greater risk than those which are traded in the open market. These securities may lack a liquid secondary market and there can be no assurance that the underlying scheme(s) will realise their investments in unlisted securities at a fair value.
- h. **Settlement risk:** The inability of the Scheme to make intended securities purchases due to settlement problems could cause the Scheme to miss certain investment opportunities. By the same rationale, the inability to sell securities held in the Scheme’s portfolio due to the extraneous factors that may impact liquidity would result, at times, in potential losses to the Scheme.
- i. Different types of fixed income securities in which the Scheme(s) would invest as given in the Scheme Information Document carry different levels and types of risk. Accordingly, the Scheme(s) risk may increase or decrease depending upon its investment pattern. e.g. corporate bonds carry a higher level of risk than Government securities.
- j. The AMC may, considering the overall level of risk of the portfolio, invest in lower rated / unrated securities offering higher yields as well as zero coupon securities that offer attractive yields. This may increase the absolute level of risk of the portfolio.
- k. As zero coupon securities does not provide periodic interest payments to the holder of the security, these securities are more sensitive to changes in interest rates. Therefore, the interest rate risk of zero coupon securities is higher. The AMC may choose to invest in zero coupon securities that offer attractive yields. This may increase the risk of the portfolio.
- l. The Scheme(s) at times may receive large number of redemption requests, leading to an asset-liability mismatch and therefore, requiring the investment manager to make a distress sale of the securities leading to realignment of the portfolio and consequently resulting in investment in lower yield instruments.
- m. Securities, which are not quoted on the stock exchanges, are inherently illiquid in nature and carry a larger amount of liquidity risk, in comparison to securities that are listed on the exchanges or offer other exit options to the investor, including a put option. The AMC may choose to invest in unlisted securities that offer attractive yields. This may increase the risk of the portfolio.
- n. Scheme’s performance may differ from the benchmark index to the extent of the investments held in the debt segment, as per the investment pattern indicated under normal circumstances.

Risk associated with investment in units of mutual funds

The scheme may make investments in units of mutual funds. Investments in schemes of mutual funds are subject to market risks and there is no assurance or guarantee that the objectives of the scheme will be achieved. Further, any investment in mutual funds is also subject to risk factors outlined in the offer document of the mutual fund and an adverse performance of a mutual fund scheme in which the scheme has made investments could adversely impact the scheme's performance and NAV of the scheme.

Risk associated with investment in Tri Party Repo through CCIL (TREPS)

The mutual fund is a member of securities segment and Tri-party Repo trade settlement of the Clearing Corporation of India (CCIL). All transactions of the mutual fund in government securities and in Tri-party Repo trades are settled centrally through the infrastructure and settlement systems provided by CCIL; thus reducing the settlement and counterparty risks considerably for transactions in the said segments.

CCIL maintains prefunded resources in all the clearing segments to cover potential losses arising from the default member. In the event of a clearing member failing to honour his settlement obligations, the default Fund is utilized to complete the settlement. The sequence in which the above resources are used is known as the "Default Waterfall".

As per the waterfall mechanism, after the defaulter's margins and the defaulter's contribution to the default fund have been appropriated, CCIL's contribution is used to meet the losses. Post utilization of CCIL's contribution if there is a residual loss, it is appropriated from the default fund contributions of the non-defaulting members.

Thus the scheme is subject to risk of the initial margin and default fund contribution being invoked in the event of failure of any settlement obligations. In addition, the fund contribution is allowed to be used to meet the residual loss in case of default by the other clearing member (the defaulting member).

However, it may be noted that a member shall have the right to submit resignation from the membership of the Security segment if it has taken a loss through replenishment of its contribution to the default fund for the segments and a loss threshold as notified have been reached. The maximum contribution of a member towards replenishment of its contribution to the default fund in the 7 days (30 days in case of securities segment) period immediately after the afore-mentioned loss threshold having been reached shall not exceed 5 times of its contribution to the Default Fund based on the last re-computation of the Default Fund or specified amount, whichever is lower.

Further, it may be noted that, CCIL periodically prescribes a list of securities eligible for contributions as collateral by members. Presently, all Central Government securities and Treasury bills are accepted as collateral by CCIL. The risk factors may undergo change in case the CCIL notifies securities other than Government of India securities as eligible for contribution as collateral.

The underlying schemes having exposure to the fixed income securities and/ or equity and equity related securities will be subject to the following risks and in turn the Scheme's/ Plans' performance will be affected accordingly.

Risk associated with investment in underlying schemes (as applicable):

Market Risk

The Scheme's NAV will react to the stock market movements. The Investors could lose money over short periods due to fluctuation in the Scheme's NAV in response to factors such as economic and political developments, changes in interest rates and perceived trends in stock prices and market movements, and over longer periods during market downturns.

Right to Limit Redemptions

The Trustee, in the general interest of the Unit holders of the Scheme offered in this Document and keeping in view the unforeseen circumstances / unusual market conditions, may limit the total number of Units which can be redeemed on any Business Day. The same shall be in accordance with paragraph 5.3 of the Master Circular.

Risk associated with investment in equities and equity related instruments

- The value of the Schemes' investments, may be affected generally by factors affecting securities markets, such as price and volume volatility in the capital markets, interest rates, currency exchange rates, changes in policies of the Government, taxation laws or any other appropriate authority policies and other political and economic developments which may have an adverse bearing on individual securities, a specific sector or all sectors including equity and debt markets. Consequently, the NAV of the Units of the Schemes may fluctuate and can go up or down.
- Investors may note that AMC/Fund Manager's investment decisions may not be always profitable, as actual market movements may be at variance with anticipated trends. Trading volumes, settlement periods and transfer procedures may restrict the liquidity of these investments. Different segments of the Indian financial markets have different settlement periods and such periods may be extended significantly by unforeseen circumstances. The inability of the Schemes to make intended securities purchases due to settlement problems could cause the Schemes to miss certain investment opportunities.
- The Mutual Fund may not be able to sell / lend out securities, which can lead to temporary illiquidity. There are risks inherent in securities lending, including the risk of failure of the other party, in this case the approved intermediary to comply with the terms of the agreement. Such failure can result in a possible loss of rights to the collateral, the inability of the approved intermediary to return the securities deposited by the lender and the possible loss of corporate benefits accruing thereon.
- Investors may note that the dividend is due only when declared and there is no assurance that a company (even though it may have a track record of payment of dividend in the past) may continue paying dividend in future. As such, the schemes are vulnerable to instances where investments in securities may not earn dividend or where lesser dividend is declared by a company in subsequent years in which investments are made

by the scheme. As the profitability of companies are likely to vary and have a material bearing on their ability to declare and pay dividend, the performance of the schemes may be adversely affected due to such factors.

- Securities, which are not quoted on the stock exchanges, are inherently illiquid in nature and carry a larger amount of liquidity risk. Within the Regulatory limits, the AMC may choose to invest in unlisted securities.
- While securities that are listed on the stock exchange carry lower liquidity risk, the ability to sell these investments is limited by the overall trading volume on the stock exchanges. The liquidity of the Schemes' investments is inherently restricted by trading volumes in the securities in which it invests.
- Fund manager endeavours to generate returns based on certain past statistical trend. The performance of the schemes may get affected if there is a change in the said trend. There can be no assurance that such historical trends will continue.
- In case of abnormal circumstances, it will be difficult to complete the square off transaction due to liquidity being poor in stock futures/spot market. However fund will aim at taking exposure into relatively liquid stocks where there will be minimal risk to square off the transaction. The Schemes investing in foreign securities will be exposed to settlement risk, as different countries have different settlement periods.
- The schemes are also vulnerable to movements in the prices of securities invested by the schemes which again could have a material bearing on the overall returns from the schemes.
- Changes in Government policy in general and changes in tax benefits applicable to mutual funds may impact the returns to investors in the Schemes or business prospects of the Company in any particular sector.
- In case of warrants, a relatively small movement in the price of the underlying security results in a disproportionately large movement, unfavourable or favourable, in the price of the warrant. The prices of warrants can therefore be volatile.
- It is essential for the investors to understand that the right to subscribe which a warrant confers is invariably limited in time with the consequence that if the investor fails to exercise this right within the predetermined timeline then the investment becomes worthless. Investment in a warrant can result in a total loss of the money invested plus any commission or other transaction charges.

Risk associated with investment in Derivatives

1. The Schemes may use various derivative products as permitted by the Regulations. Use of derivatives requires an understanding of not only the underlying instrument but also of the derivative itself. Other risks include the risk of mis-pricing or improper valuation and the inability of derivatives to correlate perfectly with underlying assets, rates and indices.

2. The Scheme may use derivatives instruments like Interest Rate Swaps, Forward Rate Agreements or other derivative instruments for the purpose of hedging and portfolio balancing, as permitted under the Regulations and guidelines. Usage of derivatives will expose the Schemes to certain risks inherent to such derivatives.
3. Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the fund manager to identify such opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and decision of fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies.
4. Thus, derivatives are highly leveraged instruments. Even a small price movement in the underlying security could have a large impact on their value.
5. The risks associated with the use of derivatives are different from or possibly greater than the risks associated with investing directly in securities and other traditional investments.
6. The specific risk factors arising out of a derivative strategy used by the Fund Manager may be as below:
 - The risk of mispricing or improper valuation and the inability of derivatives to correlate perfectly with underlying assets, rates and indices.
 - Execution Risk: The prices which are seen on the screen need not be the same at which execution will take place
 - Basis Risk: This risk arises when the derivative instrument used to hedge the underlying asset does not match the movement of the underlying asset being hedged
 - Exchanges could raise the initial margin, variation margin or other forms of margin on derivative contracts, impose one sided margins or insist that margins be placed in cash. All of these might force positions to be unwound at a loss, and might materially impact returns.
 - The derivative contracts at times are undertaken with various counterparties. These counterparties may not be able to meet the obligations under such derivative contracts. This would lead to credit risk in derivative transactions, Hence, derivative trades are undertaken with approved counterparties or through exchanges. This mitigates credit risk on derivative transactions.

➤ **Risk associated with imperfect hedging using interest rate futures**

An Interest Rate Futures is an agreement to buy or sell a debt instrument at a specified future date at a price that is fixed today. Interest Rate Futures are Exchange traded. These future contracts are cash settled.

1. Perfect Hedging means hedging the underlying using IRF contract of same underlying.
2. Imperfect hedging means the underlying being hedged and the IRF contract has correlation of closing prices of more than 90%.

In case of imperfect hedging, the portfolio can be a mix of:

- 1) Corporate Bonds and Government securities or
- 2) Only Corporate debt securities or
- 3) Only government securities with different maturities

➤ **Risk associated with imperfect hedging includes:**

- **Basis Risk:** The risk arises when the price movements in derivative instrument used to hedge the underlying assets does not match the price movements of the underlying assets being hedged. Such difference may potentially amplify the gains or losses, thus adding risk to the position.
- **Price Risk:** The risk of mispricing or improper valuation and the inability of derivatives to correlate perfectly with underlying assets, rates and indices.
- **Risk of mismatch between the instruments:** The risk arises if there is a mismatch between the prices movements in derivative instrument used to hedge, compared to the price movement of the underlying assets being hedged. For example, when IRF which has government security as underlying is used, to hedge a portfolio that contains corporate debt securities.
- **Correlation weakening and consequent risk of regulatory breach:** SEBI Regulation mandates minimum correlation criterion of 0.9 (calculated on a 90 day basis) between the portfolio being hedged and the derivative instrument used for hedging. In cases where the correlation falls below 0.9, a rebalancing period of 5 business days has been permitted. Inability to satisfy this requirement to restore the correlation level to the stipulated level, within the stipulated period, due to difficulties in rebalancing would lead to a lapse of the exemption in gross exposure computation. The entire derivative exposure would then need to be included in gross exposure, which may result in gross exposure in excess of 100% of net asset value.

➤ **Risk factors pertaining to investment in Fixed Income Securities**

- **Market Risk/Interest Rate Risk:** The Net Asset Value (NAV) of the Scheme(s), to the extent invested in Debt and Money Market securities, will be affected by changes in the general level of interest rates. The NAV of the Scheme(s) is expected to increase from a fall in interest rates while it would be adversely affected by an increase in the level of interest rates.
- **Liquidity Risk:** The liquidity of a security may change depending on market conditions leading to changes in the liquidity premium linked to the price of the security. At the time of selling the security, the security can become illiquid leading to loss in the value of the portfolio.
- **Credit Risk:** Investments in Debt Securities are subject to the risk of an issuer's inability to meet interest and principal payments on its obligations and market perception of the creditworthiness of the issuer.

- **Price Risk:** Government securities where a fixed return is offered run price-risk like any other fixed income security. Generally, when interest rates rise, prices of fixed income securities fall and when interest rates drop, the prices increase. The extent of fall or rise in the prices is a function of the existing coupon, days to maturity and the increase or decrease in the level of interest rates. The new level of interest rate is determined by the rates at which government raises new money and/or the price levels at which the market is already dealing in existing securities. The price-risk is not unique to Government Securities. It exists for all fixed income securities. However, Government Securities are unique in the sense that their credit risk generally remains zero. Therefore, their prices are influenced only by movement in interest rates in the financial system.
- **Reinvestment Risk:** This risk refers to the interest rate levels at which cash flows received from the securities in the Scheme are reinvested. The additional income from reinvestment is the “interest on interest” component. The risk is that the rate at which interim cash flows can be reinvested may be lower than that originally assumed.
- **Settlement risk:** The inability of the Scheme to make intended securities purchases due to settlement problems could cause the Scheme to miss certain investment opportunities. By the same rationale, the inability to sell securities held in the Scheme’s portfolio due to the extraneous factors that may impact liquidity would result, at times, in potential losses to the Plan, in case of a subsequent decline in the value of securities held in the Scheme’s portfolio.
- **Regulatory Risk:** Changes in government policy in general and changes in tax benefits applicable to Mutual Funds may impact the returns to investors in the Scheme.

➤ **Risk associated with investment in Gilt Securities**

Generally, when interest rates rise, prices of fixed income securities fall and when interest rates drop, the prices increase. The extent of fall or rise in prices is a function of the existing coupon, days to maturity and the increase or decrease in interest rates. Price-risk is not unique to government securities but is true for all fixed income securities. The default risk however, in respect of Government securities is zero. Therefore, their prices are influenced only by movement in interest rates in the financial system. On the other hand, in the case of corporate or institutional fixed income securities, such as bonds or debentures, prices are influenced by credit standing of the issuer as well as the general level of interest rates.

Even though the Government securities market is more liquid compared to other debt instruments, on occasions, there could be difficulties in transacting in the market due to extreme volatility or unusual constriction in market volumes or on occasions when an unusually large transaction has to be put through.

➤ **Risk Factors associated with schemes investing in Floating Rate papers**

Risks of investing in floating rate debt instruments or fixed rate debt instruments swapped for floating rate return:

Interest rate movement (Basis Risk):

As the Schemes will invest in floating rate instruments these instruments' coupon will be reset periodically in line with the benchmark index movement. Normally, the interest rate risk of a floating rate instrument compared to a fixed rate instrument is limited. The changes in the prevailing rates of interest will likely affect the value of the Scheme's holdings until the next reset date and thus the value of the Scheme's Units. Increased rates of interest, which frequently accompany inflation and/ or a growing economy, are likely to have a negative effect on the value of the Units. The value of securities held by the Scheme generally will vary inversely with changes in prevailing interest rates. The Scheme could be exposed to the interest rate risk (i) to the extent of time gap in resetting of the benchmark rates, and (ii) to the extent the benchmark index fails to capture the interest rate movement.

Spread Movement (Spread Risk):

Though the basis (i.e. benchmark) gets readjusted on a regular basis, the spread (i.e. mark-up) over benchmark remains constant. This can result in some volatility to the holding period return of floating rate instruments.

Settlement Risk (Counter-party Risk):

The floating rate assets may also be created by swapping a fixed return to a floating rate return. In such a swap, there may be an additional risk of counter-party who will pay floating rate return and receive fixed rate return.

Liquidity Risk:

Due to the evolving nature of the floating rate market, there may be an increased degree of liquidity risk in the portfolio from time to time.

➤ **Risk associated with repo transactions in corporate debt securities**

- **Lending transactions**

The scheme may be exposed to counter party risk in case of repo lending transactions in the event of the counterparty failing to honour the repurchase agreement. However, in repo lending transactions, the collateral may be sold and a loss is realized only if the sale price is less than the repo amount. The risk may be further mitigated through over-collateralization (the value of the collateral being more than the repo amount). Further, the liquidation of underlying securities in case of counterparty default would depend on liquidity of the securities and market conditions at that time. It is endeavoured to mitigate the risk by following an appropriate counterparty selection process, which include their credit profile evaluation and over-collateralization to cushion the impact of market risk on sale of underlying security.

- **Borrowing transactions**

In the event of the scheme being unable to pay back the money to the counterparty as contracted, the counter party may dispose of the assets (as they have sufficient margin). This risk is normally mitigated by better cash flow planning to take care of such repayments. Further, there is also a Credit Risk that the Counterparty may fail to return the security or

Interest received on due date. It is endeavoured to mitigate the risk by following an appropriate counterparty selection process, which include their credit profile evaluation.

➤ **Risk factors pertaining to investment in Gold and Silver**

- The underlying scheme(s) would invest in Gold and Gold-linked instrument(s), Silver and Silver-linked instruments. Accordingly, the NAV of the Scheme will react to Gold and Silver price movements. Units of the underlying scheme(s) are listed on a stock exchange; hence the market prices of the units would also react to general stock market fluctuations.
- The units may trade above or below their NAV. The NAV of the Scheme will fluctuate with changes in the market value of holdings. The trading prices will fluctuate in accordance with changes in their NAV as well as market supply and demand. However, given that units can be created and redeemed in Creation Units, it is expected that large discounts or premiums to the NAV will not sustain due to arbitrage opportunity available.
- Although the units of Scheme are listed on an exchange, there can be no assurance that an active secondary market will develop or be maintained. Prices of units, which are listed and traded, could be impacted by thin liquidity in the secondary market as these funds may not be actively traded.
- Any changes in trading regulations by the stock exchange(s) or SEBI may affect the ability of market maker to arbitrage resulting into wider premium/ discount to NAV.
- The returns from physical gold/silver in which the underlying scheme invests may under perform returns from the various general securities markets or different asset classes other than gold/silver. Different types of securities tend to go through cycles of out-performance and under-performance in comparison to the general securities markets.
- Gold Exchange Traded Funds and Silver Exchange Traded Funds are relatively new product and their value could decrease if unanticipated operational or trading problems arise.
- There is no Exchange for physical gold/silver in India. The underlying scheme(s) may have to buy or sell gold/silver from the open market, which may lead to counter party risks for the underlying scheme(s) for trading and settlement.
- The Scheme may also invest in gold related instruments, silver related instruments, money market instruments, bonds & other debt securities as permitted under the Regulations which are subject to price, credit and interest rate risk. Trading volumes and settlement periods and transfer procedures may restrict liquidity in debt investments.
- The returns from physical gold/silver in which the underlying scheme invests may under perform returns from the various general securities markets or different asset classes other than gold/silver. Different types of securities tend to go through cycles of out-performance and under-performance in comparison to the general securities markets.

- An investment in the Scheme may be adversely affected by competition from other methods of investing in gold and silver.
- The Trustee, in the general interest of the unit holders of the Scheme offered under this Scheme Information Document and keeping in view of the unforeseen circumstances/unusual market conditions, may limit the total number of Units which can be redeemed on any Business Day.
- For the valuation of units, indirect taxes like customs duty, VAT etc. would also be considered. Hence, any change in the rates of indirect taxation would affect the valuation of units of the Scheme.
- **Risks associated with handling, storing and safekeeping of physical Gold/Silver:** There is a risk that part or all of the underlying schemes' gold and silver could be lost, damaged or stolen. Access to the underlying schemes' gold and silver could also be restricted by natural events or human actions. Any of these actions may have adverse impact on the operations of the Scheme and consequently on investment redemption in Units.
- **Market risk due to volatility in Gold/Silver prices:** The value of the Units relates directly to the value of the Gold/Silver held by the underlying scheme(s) and therefore, fluctuations in the price of Gold/Silver could adversely affect investment value of the Units. The factors that may affect the price of Gold/Silver, inter alia, include demand & supply, economic and political developments, changes in interest rates and perceived trends in bullion prices, exchange rates, inflation trends, market movements, restrictions on movement/trade of Gold/Silver that may be imposed by the Reserve Bank of India (RBI), and restrictions on import/export of Gold, Gold jewellery, Silver, Silver jewellery, etc. Hence, the investor may also lose money due to fluctuation in the prices of the Gold/Silver. Value of Gold ETFs and Silver ETFs may decrease if unanticipated operational or trading problem arise.
- **Liquidity risks in physical or derivative markets impairing the ability of the underlying scheme(s) to buy and sell Gold/Silver:** Due to various regulatory, economic and market conditions, the ability of the underlying scheme(s) to buy and/or sell Gold/Silver in physical or trade in ETCD with Gold/Silver as an underlying, could be impacted.
- **Market risk due to volatility in Gold/Silver prices:** The value of the Units relates directly to the value of the Gold/Silver held by the underlying scheme(s) and therefore, fluctuations in the price of Gold/Silver could adversely affect investment value of the Units. The factors that may affect the price of Gold/Silver, inter alia, include demand & supply, economic and political developments, changes in interest rates and perceived trends in bullion prices, exchange rates, inflation trends, market movements, restrictions on movement/trade of Gold/Silver that may be imposed by the Reserve Bank of India (RBI), and restrictions on import/export of Gold, Gold jewellery, Silver, Silver jewellery, etc. Hence, the investor may also lose money due to fluctuation in the prices of the Gold/Silver. Value of Gold ETFs and Silver ETFs may decrease if unanticipated operational or trading problem arise.

- **Several factors that may affect the price of gold/silver are as follows:**
 - a) Global gold/silver supplies and demand, which is influenced by factors such as forward selling by gold/silver producers, purchases made by gold/silver producers to unwind gold/silver hedge positions, central bank purchases and sales, and productions and cost levels in major gold/silver producing countries such as the South Africa, the United States and Australia.
 - b) Investors' expectations with respect to the rate of inflation;
 - c) Currency exchange rates;
 - d) Interest rates;
 - e) Investment and trading activities of hedge funds and commodity funds; and
 - f) Global or regional political, economic or financial events and situations.
 - g) In addition, investors should be aware that there is no assurance that gold/silver will maintain its long-term value in terms of purchasing power in the future. In the event that the price of gold/silver declines, the value of investment in units is expected to decline proportionately.

- **Risk Factors Associated with Investments in Exchange Traded Commodity Derivatives (ETCD)**
 1. An exchange traded commodity derivative is a derivative instrument that mimics the price movements of an underlying commodity, allowing an investor exposure to the commodity without physical purchase.
 2. **Liquidity Risk:** While ETCDs that are listed on an exchange carry lower liquidity risk, the ability to sell these contracts is limited by the overall trading volume on the exchanges. The liquidity of the Schemes' investments is inherently restricted by trading volumes of the ETCD contracts in which it invests. Additionally, change in margin requirements or intervention by government agencies to reduce overall volatility in the underlying commodity could lead to adverse impact on the liquidity of the ETCD.
 3. **Price risk:** ETCDs are leveraged instruments hence, a small price movement in the underlying security could have a large impact on their value. Also, the market for ETCDs is nascent in India hence, arbitrages can occur between the price of the physical commodity and the ETCD, due to a variety of reasons such as technical issues and volatile movement in the price of the physical good. This can result in mispricing and improper valuation of investment decisions as it can be difficult to ascertain the amount of the arbitrage.
 4. **Settlement risk:** ETCDs can be settled either through the exchange or physically. The inability to sell ETCDs held in the Schemes' portfolio in the exchanges due to the extraneous factors may impact liquidity and would result in losses, at times, in case of adverse price movement. Wherein the underlying commodity is physically delivered in order to settle the derivative contract, such settlement could get impacted due to various issues, such as logistics, Government policy for trading in such commodities.

C. Risk management strategies

The Scheme shall invest in units of active equity oriented schemes, debt oriented schemes and Gold ETFs/Silver ETFs. The Scheme shall endeavor to follow a diversified approach by allocating to different schemes to mitigate portfolio risk as per the asset allocation.

The underlying schemes having exposure to the fixed income securities and/ or equity and equity related securities will be subject to the following risks and in turn the Scheme's/ Plans' performance will be affected accordingly.

<u>Risks associated with Equity investments</u>	
<u>Concentration Risk</u> Concentration risk represents the probability of loss arising from heavily lopsided exposure to a particular group of sectors or securities.	The underlying schemes will try and mitigate this risk by investing in large number of companies so as to maintain optimum diversification and keep stock-specific concentration risk relatively low.
<u>Market Risk</u> The scheme is vulnerable to movements in the prices of securities invested by the underlying schemes, which could have a material bearing on the overall returns from the scheme	Market risk is a risk which is inherent to an equity scheme. The underlying schemes may use derivatives to limit this risk.
<u>Liquidity risk</u> The liquidity of the underlying scheme's investments is inherently restricted by trading volumes in the securities in which it invests.	As such the liquidity of stocks that the underlying schemes invest into could be relatively low. The fund will try to maintain a proper asset-liability match to ensure redemption / Maturity payments are made on time.
<u>Currency Risk</u> The underlying schemes will invest in foreign securities as permitted by the concerned regulatory authorities in India. Since the assets will be invested in securities denominated in foreign currency, the INR equivalent of the net assets, distributions and income may be adversely affected by changes / fluctuations in the value of the foreign currencies relative to the INR.	The underlying schemes, subject to applicable regulations shall have the option to enter into forward contracts for the purposes of hedging against the foreign exchange fluctuations. The underlying schemes may employ various measures (as permitted by SEBI/RBI) including but not restricted to currency hedging (such as currency options and forward currency exchange contracts, currency futures, written call options and purchased put options on currencies and currency swaps), to manage foreign exchange movements arising out of investment in foreign securities. All currency derivatives trade, if any will be done only through the stock exchange platform.

Risks associated with Fixed Income investment**Market Risk/ Interest Rate Risk**

As with all debt securities, changes in interest rates may affect the underlying scheme's Net Asset Value as the prices of securities generally increase as interest rates decline and generally decrease as interest rates rise. Prices of long-term securities generally fluctuate more in response to interest rate changes than do short-term securities. Indian debt markets can be volatile leading to the possibility of price movements up or down in fixed income securities and thereby to possible movements in the NAV.

The underlying schemes will undertake active portfolio management as per the investment objective to reduce the market risk. In a rising interest rates scenario the underlying scheme may increase its investment in money market securities whereas if the interest rates are expected to fall the allocation to debt securities with longer maturity may be increased thereby mitigating risk to that extent.

Liquidity or Marketability Risk

This refers to the ease with which a security can be sold at or near to its valuation yield-to-maturity (YTM).

The underlying scheme may invest in government securities, corporate bonds and money market instruments. While the liquidity risk for government securities, money market instruments and short maturity corporate bonds may be low, it may be high in case of medium to long maturity corporate bonds.

Credit Risk

Credit risk or default risk refers to the risk that an issuer of a fixed income security may default (i.e., will be unable to make timely principal and interest payments on the security).

Management analysis will be used for identifying company specific risks. Management's past track record will also be studied. In order to assess financial risk a detailed assessment of the issuer's financial statements will be undertaken.

Note: The information contained herein is based on current market conditions and may change from time to time based on changes in such conditions, regulatory changes and other relevant Multifactors. Accordingly, our investment strategy, risk mitigation measures and other information contained herein may change in response to the same.

I. Information about the scheme**A. Where will the scheme invest?**

Subject to the Regulations and the disclosures as made under the section "How the Scheme will allocate its Assets", the corpus of the Scheme can be invested in any (but not exclusively) of the following:

1. Units of various active equity oriented schemes.
2. Units of various active debt oriented schemes.
3. Units of various Gold ETFs/Silver ETFs.
4. Money Market Instruments, including Tri-Party Repo

*or similar instruments as may be permitted by SEBI/RBI, subject to approval from SEBI/RBI as required.

The units of the schemes of the Mutual Funds in which the Scheme propose to make investments in could be listed or unlisted, open/closed ended. The units may be acquired through subscription to the units during the New Fund Offer of the schemes or by subscriptions on on-going basis in case of open -ended schemes.

The inter Scheme transfer of investments shall be in accordance with the provisions contained in paragraph 12.30 of the Master Circular pertaining to Inter-Scheme transfer of investments.

POSITION OF DEBT MARKET IN INDIA

There are three main segments in the debt markets in India, viz., Government Securities, Public Sector Units (PSU) bonds, and corporate securities. A bulk of the debt market consists of Government Securities. Other instruments available currently include Corporate Debentures, Bonds issued by Financial Institutions, Commercial Paper, Certificates of Deposits and Securitized Debt. Securities in the Debt market typically vary based on their tenure and rating. Government Securities have tenures from one year to thirty years whereas the maturity period of the Corporate Debt now goes upto sixty years and more (perpetual). Perpetual bonds are now issued by banks as well. Securities may be both listed and unlisted and there is increasing trend of securities of maturities of over one year being listed by issuers.

The yields and liquidity on various securities as on May 29, 2026 are as under:

Issuer	Instrument	Maturity	Yields (%)	Liquidity
GOI	Treasury Bill	91 Days	5.53%	High
GOI	Treasury Bill	364 Days	5.98%	High
GOI	Short Dated	1-3 Years	6.06% - 6.52%	High
GOI	Medium Dated	3-5 Years	6.52% - 6.82%	High
GOI	Long Dated	5-10 Years	6.82% - 7.00%	High
Corporates	Taxable Bonds (AAA)	1-3 Years	7.95% - 7.84%	Medium
Corporates	Taxable Bonds (AAA)	3-5 Years	7.84% - 7.84%	Low to Medium
Corporates	CDs (A1+)	3 months	7.21%	Medium to High
Corporates	CPs (A1+)	3 months	8.00%	Medium to High

B. What are the investment restrictions?

Pursuant to the Regulations and amendments thereto, the following investment restrictions shall apply at the time of making investments. All investments by the Scheme will be made in accordance with the investment objective, asset allocation and where will the schemes invest, described earlier, as well as the SEBI (Mutual Funds) Regulations, 2026, including schedule VII thereof, as amended from time to time:

1. Transfer of investments from one scheme to another scheme in the same Mutual Fund is permitted provided:
 - a) Such transfers are done at the prevailing market price for quoted instruments on spot basis (spot basis shall have the same meaning as specified by a Stock Exchange for spot transactions); and
 - b) The securities so transferred shall be in conformity with the investment objective of the scheme to which such transfer has been made.

Further, the inter Scheme transfer of investments shall be in accordance with the provisions contained in clause Inter-Scheme transfer of investments, contained in Statement of Additional Information. The AMC shall comply with the guidelines as stated in paragraph 13.19 of the Master Circular.

2. The Fund shall get the securities purchased transferred in the name of the Fund on account of the concerned scheme, wherever investments are intended to be of a long-term nature.
3. The Fund may buy and sell securities on the basis of deliveries and shall in all cases of purchases, take delivery of relative securities and in all cases of sale, deliver the securities and will not make any short sales or engage in carry forward transaction or badla finance.

Provided further that sale of government security already contracted for purchase shall be permitted in accordance with the guidelines issued by the RBI in this regard

4. No loans for any purpose can be advanced by the Scheme.
5. The Fund shall not borrow except to meet temporary liquidity needs of the Fund for the purpose of repurchase/ redemption of units or payment of interest or IDCW to the Unitholders. Such borrowings shall not exceed more than 20% of the net assets of the individual scheme and the duration of the borrowing shall not exceed a period of 6 months.
6. Pending deployment of funds of the Schemes in terms of the investment objective of the Schemes, the Mutual Fund may invest them in short term deposits of scheduled commercial banks in accordance with paragraph 13.7 of the Master Circular The following guidelines shall be followed for parking of funds in short term deposits of Scheduled commercial Banks pending deployment:
 - a. "Short Term" for such parking of funds by mutual funds shall be treated as a period not exceeding 91 days.
 - b. Such short term deposits shall be held in the name of the concerned Scheme.

- c. No mutual fund Scheme shall park more than 15% of the net assets in Short term deposit(s) of all the scheduled commercial banks put together. However, it may be raised to 20% with prior approval of the trustees. Also, parking of funds in short term deposits of associate and sponsor scheduled commercial banks together shall not exceed 20% of total deployment by the mutual fund in short term deposits.
 - d. No mutual fund Scheme shall park more than 10% of the net assets in short term deposit(s), with any one scheduled commercial bank including its subsidiaries.
 - e. Trustees/Asset Management Companies (AMCs) shall ensure that no funds of a scheme are parked in short term deposit (STD) of a bank which has invested in that scheme. Trustees/AMCs shall also ensure that the bank in which a scheme has STD does not invest in the said scheme until the scheme has STD with such bank.
The above conditions are not applicable to term deposits placed as margins for trading in cash and derivative market.
 - f. Asset Management Company (AMC) shall not be permitted to charge any investment management and advisory fees for parking of funds in short term deposits.
7. The Scheme shall settle their transactions only through dematerialised securities, except for securities specified otherwise.
8. This Scheme shall not invest in any other Fund of Funds Scheme.
9. A fund of funds scheme shall not invest its assets other than in schemes of mutual funds, except to the extent of funds required for meeting the liquidity requirements for the purpose of repurchases or redemptions, as disclosed in the Scheme Information Document.

The Trustee may alter the above restrictions from time to time to the extent that changes in the Regulations may allow or as deemed fit in the general interest of the Unitholders.

C. Fundamental Attributes

Following is the Fundamental Attributes of the Scheme, in terms of paragraph 1.9 of the Master Circular:

(i) Type of a Scheme

For details on type of Scheme, please refer “**Type of the Scheme**”.

(ii) Investment Objective

- Main Objective - Please refer “**What are the investment objectives of the Scheme?**”

- Investment pattern – The tentative portfolio break-up of Equity and Debt and other permitted securities and such other securities as may be permitted by the SEBI from time to time with minimum and maximum asset allocation, while retaining the option to alter the asset allocation for a short term period on defensive considerations. Please refer “**How will the Scheme allocate its assets?**” for more details.

(iii) Terms of Issue

1) Liquidity

On an on-going basis, an investor can purchase and redeem Units on every Business Day at NAV based prices, subject to the applicable load structure.

- **Listing**

Being an open-ended fund, the Units of the Scheme will not be listed on any stock exchange, at present. The Trustee may, at its sole discretion, cause the Units under the Scheme to be listed on one or more Stock Exchanges. Notification of the same will be made through Customer Service Centres of the AMC and as may be required by the respective Stock Exchanges.

- **Redemption of Units**

For details on redemption of units, please refer “Redemption of Units”.

- Pursuant to paragraph 15.10 of the Master Circular, an investor can also subscribe to the New Fund Offer (NFO) through ASBA facility. ASBAs can be accepted only by SCSB's whose names appear in the list of SCSBs as displayed by SEBI on its website www.sebi.gov.in.

For the purpose of, determining the applicability of NAV, the time when the request for purchase / sale / switch of units is received in the servers of AMC/ RTA or such other service provider/ transaction platform, shall be considered.

It is mandatory for investors to mention bank account numbers in their applications/requests for redemption.

Open Network for Digital Commerce (ONDC)

The schemes of ICICI Prudential Mutual Fund (the Fund) are now available to be transacted through the Open Network for Digital Commerce (ONDC) ("Network").

To facilitate transactions through this Network, the Fund has/shall enter into agreement with service provider(s) who would provide backend platform on behalf of the Fund. The said platform would be considered as an 'OPAT'.

Accordingly, for the purpose of determining the applicability of NAV, the time at which

	<p>request for purchase / sale / switch of units is received on the server(s) of the said platform will be considered as time of receipt of transaction with the AMC.</p> <p>As per existing system architecture of ONDC network, currently regular plans of the schemes of ICICI Prudential Mutual Fund are available for transaction through this route.</p> <p>Kindly refer to below link for list of official points of acceptance, collecting banker details etc.</p> <p>SID related information (icicipruamc.com)</p>
<p>The policy regarding reissue of repurchased units, including the maximum extent, the manner of reissue, the entity (the Scheme or the AMC) involved in the same.</p>	<p>Not applicable</p>
<p>Restrictions, if any, on the right to freely retain or dispose of units being offered.</p>	<p>Subscription: In the interest of the investors and in order to protect the portfolio from market volatility, the Trustees reserve the right to limit or discontinue subscriptions under the Scheme for a specified period of time or till further notice.</p> <p>Redemption: Suspension or restriction of repurchase/ redemption facility under any Scheme of the mutual fund shall be made applicable only after obtaining the approval from the Boards of Directors of the AMC and the Trustees. After obtaining the approval from the AMC Board and the Trustees, intimation would be sent to SEBI in advance providing details of circumstances and justification for the proposed action shall also be informed.</p>
<p>Cut off timing for subscriptions/ redemptions/ switches</p> <p>This is the time before which your application (complete in all respects) should reach the official points of acceptance.</p>	<p>The below cut-off timings and applicability of NAV shall be applicable in respect of valid applications received at the Official Point(s) of Acceptance on a Business Day:</p> <p>For Purchase and Switch-in transactions: In respect of valid applications received upto 3.00 p.m. and where the funds for the entire amount are available for utilization before</p>

the cut-off time i.e. 3.00 p.m. - the closing NAV of the day shall be applicable.

In respect of valid applications received after 3.00 p.m. and where the funds for the entire amount are available for utilization on the same day or before the cut-off time of the next business day - the closing NAV of the next Business Day shall be applicable.

Irrespective of the time of receipt of application, where the funds for the entire amount are available for utilization before the cut-off time on any subsequent Business Day - the closing NAV of such subsequent Business Day shall be applicable.

In case of switches, the request should be received on a day which is a Business Day for the Switch-out scheme. Switch-in will be processed at the Applicable NAV (on a Business Day) based on realization of funds as per the redemption pay-out cycle for the switch-out scheme.

Since different payment modes have different settlement cycles including electronic transactions (as per arrangements with Payment Aggregators / Banks / Exchanges etc), it may happen that the investor's account is debited, but the money is not credited within cut-off time on the same date to the scheme bank account, leading to a gap / delay in Unit allotment. Investors are therefore urged to use the most efficient electronic payment modes to avoid delays in realization of funds and consequently in Unit allotment.

Redemptions including switch-outs:

In respect of valid applications received upto 3.00 pm on a business day by the Mutual Fund, same day's closing NAV shall be applicable.

In respect of valid applications received after the cut off time by the Mutual Fund: the closing NAV of the next business day.

Transactions through online-mode or electronic mode: For the purpose of, determining the applicability of NAV, the time when the request for purchase / sale /

	switch of units is received in the servers of AMC/ RTA or such other service provider/ transaction platform, shall be considered.

Redemption	<p>The redemption or repurchase proceeds shall be dispatched to the unitholders within three working days from the date of redemption or repurchase.</p> <p>Further, AMFI has published a list of exceptional circumstances for schemes unable to transfer redemption or repurchase proceeds to investors within the limit specified above for transfer of redemption or repurchase proceeds to the unitholders in such exceptional circumstances. The said list is available on AMFI website.</p>
Bank Mandate	<p>In order to protect the interest of Unit holders from fraudulent encashment of redemption / IDCW cheques, SEBI has made it mandatory for investors to provide their bank details viz. name of bank, branch, address, account type and number, etc. to the AMC. Payment will be made only in the Bank Account registered with the Mutual Fund.</p> <p>No bank account shall be registered in the investor account/folio as part of account</p>

opening or subsequent addition or change of bank request unless a validation is undertaken through any one of the following modes whereby the investors name, account number /details are verified and validated.

The AMC would validate the Bank Account details through PAN based account validation facility provided by NCPI or Penny Drop facility. Where the bank mandate cannot be validated by any of the stated methods, the bank account validation may be done on the basis of the any one of the following documents:

- a) Original cancelled cheque having the First Holder Name and bank account number printed on the cheque.
- b) Original bank statement reflecting the First Holder Name, Bank Account Number and Bank Name as specified in the application.
- c) Self-certified cheque copy/bank passbook and verified with the original by AMC/ RTA.
- d) Photocopy of the bank statement duly attested by the bank manager/ authorized personnel with designation, employee number and bank seal.
- e) Confirmation by the bank manager with seal, designation and employee number on the bank's letter head confirming the name of investor, account type, bank branch, MICR and IFSC code of the bank branch. The letter should not be older than 3 months.

If the bank account details cannot be validated, the AMC reserves the right to reject the application and in case of redemption, the payout will be issued by way of warrant/cheque.

In case the bank account details are not mentioned or found to be incomplete or invalid in a purchase application, then the AMC may consider the account details as appearing in the investment amount cheque and the same shall be updated under the

folio as the payout bank account for the payment of redemption amount etc.

The AMC reserves the right to call for any additional documents as may be required, for processing of such transactions with missing/ incomplete/ invalid bank account details. The AMC also reserves the right to reject such applications.

In case of units held in demat mode, payment will be made to the bank account linked to the demat account. The bank account registered in the folio of a minor should be that of the minor or should be a joint account of the minor with the guardian. Applications without complete bank details shall be rejected. The AMC will not be responsible for any loss arising out of fraudulent encashment of cheques/ warrants and/ or any delay/ loss in transit.

Change in Bank Account

For investors holding units in demat mode, the procedure for change in bank details would be as determined by the depository participant.

For investors holding units in non-demat mode, the Unit holders may change their bank details registered with the Mutual Fund by submitting 'Multiple Bank Account Registration Form' or a standalone separate Change of Bank Details Form.

Bank Account Details:

As per the directives issued by SEBI, it is mandatory for applicants to mention their bank account numbers in their applications for purchase or redemption of Units. If the Unit-holder fails to provide the Bank mandate, the request for redemption would be considered as not valid and the Scheme retains the right to reject the redemption until a proper bank mandate is furnished by the Unit-holder and the provision with respect of penal interest in such cases will not be applicable.

<p>Delay in payment of redemption / repurchase proceeds/ IDCW</p>	<p>The Asset Management Company shall be liable to pay interest to the unitholders at @ 15% per annum as specified vide paragraph 15.4 of the Master Circular for the period of such delay.</p> <p>IDCW – Not applicable</p> <p>The Scheme currently offers only Growth option.</p> <p>However, the AMC will not be liable to pay any interest or compensation or any amount otherwise, in case the AMC / Trustee is required to obtain from the investor / unit holders verification of identity or such other details relating to subscription for Units under any applicable law or as may be required by a regulatory body or any government authority, which results in delay in processing the application.</p>
<p>Unclaimed Redemption and Income Distribution cum Capital Withdrawal Amount</p>	<p>The treatment of unclaimed redemption & IDCW amount will be as per para 15.4 of the Master Circular.</p> <p>IDCW – Not applicable</p>
<p>Disclosure w.r.t investment by minors</p>	<p>A minor can invest through his/her parent/lawful guardian.</p> <p>Minors can complete their KYC requirements for their folio through guardian.</p> <p>Payment for investment by any mode shall be accepted from the bank account of the minor, parent or legal guardian of the minor, or from a joint account of the minor with parent or legal guardian. For existing folios, the AMCs shall insist upon a Change of Pay-out Bank mandate before redemption is processed.</p> <p>For further details, please refer to SAI.</p>

E. Associate Transactions

Please refer to Statement of Additional Information (SAI).

F. Taxation

The Hon'ble Union Finance Minister in her presentation of the Union Budget 2024-25, announced an extensive review of the Income-tax Act, 1961 ("the Act"). Pursuant to this announcement, a draft of the new Income-tax (No. 2) Bill, 2025 ("the Bill") has been proposed. It is pertinent to note that any amendments introduced by the Bill, including those with potential retrospective effect, may have a bearing on the accuracy and validity of the information set out in this section of the Scheme Information Document (SID)/ this document. The Bill has been introduced in both Houses of Parliament and received the President's assent. Thus, the new Income-tax Act 2025 will be effective from 1st April 2026.

Subject to above, as per the provisions of the Act, as amended from time to time taxation on investing in mutual funds is mentioned below:

Particulars	Tax rates[#] applicable for Resident Investors (Refer note 2)	Tax rates[#] applicable for Non-Resident Investors (Refer note 2)	Tax rates applicable for Mutual Fund
Tax on IDCW	Taxable as per applicable tax rates	Taxable as per applicable tax rates	Nil

Long Term Capital Gains on sale of listed and unlisted units transferred	12.5% without Indexation Listed - held for more than 12 months Unlisted – held for more than 24 months)	12.5% without Indexation (Listed - held for more than 12 months Unlisted – held for more than 24 months)	Nil
Short Term Capital Gains on sale of listed and unlisted units	Income tax rate applicable to the unit holders as per their income slabs (Listed - held for less than 12 months Unlisted – held for less than 24 months)	Non-resident (other than company) - Income tax rate applicable to the unit holders as per their income slabs Foreign company – 35% (plus applicable surcharge and cess) (Listed - held for less than 12 months Unlisted – held for less than 24 months)	Nil

Note:

- Under the terms of the Scheme Information Document, the scheme is classified as “other mutual fund”.
- As per section 50AA of the Act, “specified mutual fund” means (a) a Mutual Fund by whatever name called, which invests more than sixty-five per cent of its total proceeds in debt and money market instruments; or (b) a fund which invests sixty-five per cent or more of its total proceeds in units of a fund referred to in sub-clause (a).”

Provided that the percentage of investment in debt and money market instruments or in units of a fund, as the case may be, in respect of the Specified Mutual Fund, shall be computed with reference to the annual average of the daily closing figures.

Provided further that for the purposes of this clause, “debt and money market instruments” shall include any securities, by whatever name called, classified or regulated as debt and money market instruments by the Securities and Exchange Board of India.’

- Income of the Mutual Fund is exempt from income tax in accordance with the provisions of Section 10(23D) of the Income-tax Act, 1961 (Act).

4. If the total income of a resident investor (being individual or HUF) [without considering such Long Term Capital Gains / Short Term Capital Gains] is less than the basic exemption limit, then such Long-term capital gains/short-term capital gains should be first adjusted towards basic exemption limit and only excess should be chargeable to tax.

Non-resident investors may be subject to a separate of tax regime / eligible to benefits under Tax Treaties, depending upon the facts of the case. The same has not been captured above.

A rebate of up to Rs. 12,500 is available under the old regime for resident individuals whose total income does not exceed Rs. 5,00,000.

The Finance Act, 2025 amended Section 87A of the Act to provide that where an Individual apply for lower slab rates provided under section 115BAC(1A) and the total income:

- i. does not exceed 12,00,000, a rebate shall be provided on tax to the extent of an amount equal to 100% of such income-tax or an amount of INR 60,000 (whichever is less);
- ii. exceeds INR 12,00,000 and the income-tax payable on such total income exceeds the amount by which the total income is in excess of 12,00,000, a rebate shall be provided on tax of an amount equal to the amount by which the tax payable is in excess of the amount by which the total income exceeds 12,00,000

Further, such rebate of income-tax will not be available on tax on incomes chargeable to tax at special rates (for e.g.: capital gains u/s 111A, 112 and 112A etc.)

Excluding applicable surcharge and cess.

For details on Stamp Duty, please refer section 'Units and Offer' mentioned in respective scheme SID.

For further details on taxation please refer to the Section on 'Tax Benefits of investing in the Mutual Fund' provided in 'Statement of Additional Information ('SAI')'

Please consult your tax advisor for further details on taxation.

Open Network for Digital Commerce (ONDC)

The schemes of ICICI Prudential Mutual Fund (the Fund) are now available to be transacted through the Open Network for Digital Commerce (ONDC) ("Network"). To facilitate transactions through this Network, the Fund has/shall enter into agreement with service provider(s) who would provide backend platform on behalf of the Fund. The said platform would be considered as an 'OPAT'.

Accordingly, for the purpose of determining the applicability of NAV, the time at which request for purchase / sale / switch of units is received on the server(s) of the said platform will be considered as time of receipt of transaction with the AMC.

As per existing system architecture of ONDC network, currently regular plans of the schemes of ICICI Prudential Mutual Fund are available for transaction through this route.
