		INSTA REDEMPTION FACILITY In accordance with SEBI/HO/IMD/DF2/CIR/P/2017/39 dated May 8, 2017, a facility called ‘Insta-redemption Facility’ is being introduced in Bandhan Liquid Fund effective August 24, 2017. Under this facility, Bandhan Mutual Fund shall endeavour to send the redemption proceeds to the registered bank account of the investor instantly upon receipt of Insta-redemption request using Immediate Payment Service (IMPS) provided by various banks. The facility shall be available on all days at all points of time. Salient features of the Insta-redemption Facility are as follows:	
		Eligible Plans and Options	The Insta-redemption facility is available only under Growth Option of Regular Plan and Direct Plan of Bandhan Liquid Fund.

Sr. No.	Title	Description	
		Eligible Investors	This facility is available only to resident individual investors.
		Pre-requisites	i) The registered bank account selected by the investor for redemption payout should be complete Core Banking System (CBS) account number along with the IFSC Code of the Bank branch. ii) Investor's bank is enabled for Immediate Payment Service (IMPS) on the NPCI platform.
		Mode of transaction	i) The transaction under this Facility needs to be submitted only through online transaction facility available on the Mutual Fund's website (www.bandhanmutual.com). ii) The redemption payout under the Insta-redemption facility will be made to any of the registered bank accounts in the Folio as selected by the investor for redemption payout.
		Scenarios under which this Facility may be suspended	If the conditions specified above are not fulfilled or if the IMPS facility provided by bank is not functional or if there is any technical issue with the transactional portal of the website, the Insta redemption facility may not be available/ availed. In certain cases, investors may be provided option to convert the insta-redemption to a normal redemption with T+1 business day payout at the discretion of the AMC.
		Minimum Redemption Amount	Rs.500/- and any amount thereafter The redemption request under this Facility can be submitted only in terms of amount. Redemption request in terms of no. of units will not be accepted.
		Maximum Redemption Amount	Rs.50,000/- or 90% of latest available clear balance in the scheme, whichever is lower. This limit shall be applicable per day per investor (calculated basis First / Sole holder's PAN/PEKRN across folios). Latest available clear balance is calculated as no. of clear redeemable units in the scheme multiplied by the latest available NAV in the Growth option of the respective Plan in the Scheme. For this purpose, available clear units are such units in the folio for which the investor can place a redemption request at any point of time after considering units which are un-cleared for funds realisation or reconciliation, or are under lien, or are in dematerialized mode and after considering any un-posted / un-processed transaction(s) pending for unit adjustments. The decision of the AMC in

Sr. No.	Title	Description													
			determining the redeemable / clear balance shall be final.												
		NAV applicability	The NAV applicable for processing redemptions under the Insta-redemption Facility shall be as follows: i) where the application received up to 3.00 p.m. – the lower of (a) NAV of previous calendar day and (b) NAV of calendar day on which application is received. ii) where the application received after 3.00 p.m. – the lower of (a) NAV of calendar day on which such application is received, and (b) NAV of the next calendar day.												
		The AMC reserves the right to reject any redemption /switch-out / systematic withdrawal or transfer request received through any other mode for any business day, i.e. physical, electronic, etc. if an Insta-redemption request has been received subsequently and such Insta-redemption is pending to be processed/posted. For operational purpose, a temporary internal lien (Hold) will be marked on units of value equivalent to 105% of the insta-redemption amount till the time of posting of the insta-redemption transaction. During the period the Hold persists, the blocked units will not be available for transaction in the Folio. The Hold will be released upon final processing of the transaction at applicable NAV. As an illustrative example, if an investor has placed an insta-redemption request of Rs.50,000/-, Hold will be marked on units of value equivalent to Rs.52,500/- (being 105% of Rs.50,000) based on last available NAV. At the time of posting the insta-redemption transaction (based on last available NAV), Hold to the extent of Rs.50,000/- will be removed and units of equivalent value will be redeemed. Hold will however continue on the balance units (of value equivalent to Rs.2,500/-) till receipt of the NAV applicable for the Insta-redemption transaction (refer the section “NAV applicability” in the table above) and re-processing of the transaction in case the applicable NAV is less than the NAV at which insta-redemption has been initially posted. The Hold on the balance units will be removed thereafter and the blocked units will be available in the folio for future transactions. 		The Trustee/ AMC reserve the right to modify/revise the features, terms & conditions of this Facility or withdraw/discontinue the same at any time in future, subject to the Regulations. Repurchase: The units of the Scheme can be repurchased (sold back to the Fund) on any business day. The repurchase request can be made on Application Form/Common Transaction form or by using the relevant tear off section of the Transaction Slip that may be enclosed with the Account Statement, which should be submitted at any of the Official Point of Acceptance of Transaction. Where the date of redemption is a non business day, the deemed date for such redemption will be the next business day. The Fund shall dispatch redemption proceeds within 3 working days from the date of receipt of valid redemption request at the Official Points of Acceptance of Transactions. In the event of failure to dispatch the repurchase or repurchase proceeds within the statutory period specified above as per the SEBI Regulations, the AMC shall be liable to pay interest to the unit holders at such rate (currently 15% per annum) as may be specified by SEBI for the period of such delay. Redemption in Unclaimed Amount Plan Investors may claim the unclaimed amounts by submitting a redemption request at any of the CAMS or AMC Investor Service Centres. Normal redemption request form may be used for this purpose and the redemption shall be processed at the applicable NAV based on the date and time of receipt of the application. If the investor has unclaimed amount in more than one Option of the Unclaimed Amount Plan, then a redemption request received in any one of the Options will be treated as redemption request received in all the concerned Options of the Plan and accordingly, redemption will be processed in all the Options of the Plan for all units outstanding under each of the Options irrespective of the number of units or amount stated by the investor in the redemption request.

PART II. INFORMATION ABOUT THE SCHEME

A. HOW WILL THE SCHEME ALLOCATE ITS ASSETS?

The asset allocation under the scheme will be as follows:

Asset Class	Indicative allocation (as % of total assets)	
	Minimum	Maximum
Debt Securities (including G-Sec and securitised debt) and Money Market Instruments with maturity* up to 91 days	0%	100%

*In case of securities where the principal is to be repaid in a single payout the maturity of the securities shall mean residual maturity. In case the principal is to be repaid in more than one payout then the maturity of the securities shall be calculated on the basis of weighted average maturity of security. In case of securities with put and call options (daily or otherwise) the residual maturity of the securities shall not be greater than 91 days. In case the maturity of the security falls on a non-business day then settlement of securities will take place on the next business day.

Investment in Securitised Debt - up to 50% of the total assets

Exposure in Derivatives – up to 100% of total assets

The scheme will follow the applicable provisions as specified in SEBI Circular and SEBI (Mutual Funds) Regulations, 1996 as amended from time to time.

Change in Investment Pattern

Rebalancing due to Short Term Defensive Consideration

Due to market conditions, the AMC may invest beyond the range set out in the asset allocation. Such deviations shall normally be for a short term and defensive considerations as per Clause 1.14.1.2 of SEBI Master circular dated June 27, 2024, and the fund manager will rebalance the portfolio within 30 calendar days from the date of deviation.

Rebalancing due to Passive Breaches

Pursuant to clause 2.9 of SEBI Master circular dated June 27, 2024, as may be amended from time to time, in the event of deviation from mandated asset allocation due to passive breaches, the fund manager shall rebalance the portfolio of the Scheme within 30 Business Days. In case the portfolio of the Scheme is not rebalanced within the period of 30 Business Days, justification in writing, including details of efforts taken to rebalance the portfolio shall be placed before the Investment Committee of the AMC. The Investment Committee, if it so desires, can extend the timeline for rebalancing up to sixty (60) Business Days from the date of completion of mandated rebalancing period. Further, in case the portfolio is not rebalanced within the aforementioned mandated plus extended timelines the AMC shall comply with the prescribed restrictions, the reporting and disclosure requirements as specified in Clause 2.9 of SEBI Master circular dated June 27, 2024.

Provided further and subject to the above, any change in the asset allocation affecting the investment profile of the Scheme shall be effected only in accordance with the provisions of sub regulation (15A) of Regulation 18 of the Regulations, as detailed later in this document.

B. WHERE WILL THE SCHEME INVEST?

The corpus of the Scheme will be invested in high quality debt and money market instruments. Subject to the Regulations, the corpus of the Scheme can be invested in any (but not exclusively) of the following securities:

1. Securities issued, created, guaranteed or supported by the Central Government or a State Government (including but not limited to coupon bearing bonds, zero coupon bonds and treasury bills / cash management bills)

2. Debt instruments (including non convertible portion of convertible instruments) issued by Companies / institutions promoted / owned / controlled by the Central or State Governments, domestic government agencies, quasi-government or local / statutory bodies, which may or may not carry a Central/State Government guarantee.
3. Debt securities (including non convertible portion of convertible instruments) issued by companies, banks, financial institutions and other bodies corporate (both public and private sector undertakings) including Bonds (coupon bearing / zero coupon), Debentures, Notes, Strips, etc.
4. Obligations of banks (both public and private sector) and financial institutions.
5. Certificate of Deposits (CDs), Commercial Paper (CPs), Bills Rediscounting, TREPS, Repo/Reverse repo, money at call or notice and other Money Market Instruments as may be permitted by SEBI / RBI from time to time.
6. Securitised Debt, Pass through, Pay through or other Participation Certificates representing interest in a pool of assets including receivables.
7. Derivatives.
8. Units of mutual fund schemes / ETF's
9. The non-convertible part of convertible securities.
10. Permitted foreign securities (except foreign securitised debt)
11. Any other debt and money market instruments as may be permitted by SEBI/ RBI from time to time, subject to regulatory approvals if any.

Investment in overseas securities shall be in accordance with the requirements stipulated by SEBI and RBI from time to time.

The Detailed definition and applicable regulations/guidelines for each instrument is included in Section II.

C. WHAT ARE THE INVESTMENT STRATEGIES?

The Scheme proposes to invest in fixed income securities and money market instruments with the aim of generating returns commensurate with a low risk strategy. The Scheme will invest in Debt securities and money market instruments with maturity up to 91 days.

The aim of the Investment Manager will be to allocate the assets of the Scheme amongst various fixed income instruments (debt / money market) with the objective of optimizing returns with a highly liquid portfolio. The actual percentage of investment in various fixed income instruments from time to time will be decided basis the prevailing macro-economic environment (including interest rates and inflation), market conditions, general liquidity, and fund manager views.

Investment in CDMDF -

In accordance with the requirement of regulation 43A of SEBI (Mutual Funds) Regulations, 1996 read with SEBI circular no. SEBI/HO/IMD/PoD2/P/CIR/2023/129 dated July 27, 2023 on Investment by Mutual Fund Schemes and AMCs in units of Corporate Debt Market Development Fund, scheme shall invest 25 bps of its AUM as on December 31, 2022 in the units of the Corporate Debt Market Development Fund ('CDMDF') within 10 working days from the request of CDMDF. Further, an incremental contribution to CDMDF shall be made every six months within 10 working days from the end of half year starting from December 2023 to ensure 25 bps of scheme AUM is invested in units of CDMDF. However, if AUM decreases there shall be no return or redemption from CDMDF. Contribution made to CDMDF, including the appreciations on the same, if any, shall be locked-in till winding up of the CDMDF.

However, in case of winding up of contributing Scheme, inter-scheme transfers within the same Mutual Fund or across Mutual Funds may be undertaken.

Further, investments in CDMDF units shall not be considered as violation while considering maturity restriction as applicable for various purposes (including applicable Investment limits) and the calculations of Potential Risk Class (PRC) Matrix, Risk-o-meter, Stress testing and Duration for various purposes shall be done after excluding investments in units of CDMDF.

INVESTMENT IN DERIVATIVES

The following information provides a basic idea as to the nature of the derivative instruments proposed to be used by the Scheme and the risks attached there with.

Advantages of Derivatives:

The volatility in Indian markets both in debt and equity has increased over last few months. Derivatives provide unique flexibility to the Scheme to hedge part of its portfolio. Some of the advantages of specific derivatives are as under:

Derivatives Strategy:

The Scheme may use derivatives instruments like Interest Rate Swaps, Forward Rate Agreements, Interest Rate Futures or such other derivative instruments as may be introduced from time to time and in the manner permitted by SEBI/RBI from time to time.

Interest Rate Swaps (IRS)

An IRS is an agreement between two parties to exchange stated interest obligations for an agreed period in respect of a notional principal amount. The most common form is a fixed to floating rate swap where one party receives a fixed (pre-determined) rate of interest while the other receives a floating (variable) rate of interest.

In terms of Clause 12.25 of SEBI Master Circular dated June 27, 2024, Mutual Funds may enter into plain vanilla Interest Rate Swaps (IRS) for hedging purposes. The value of the notional principal in such cases must not exceed the value of respective existing assets being hedged by the scheme.

In case of participation in IRS is through over the counter transactions, the counter party has to be an entity recognized as a market maker by RBI and exposure to a single counterparty in such transactions should not exceed 10% of the net assets of the scheme. However, if mutual funds are transacting in IRS through an electronic trading platform offered by the Clearing Corporation of India Ltd. (CCIL) and CCIL is the central counterparty for such transactions guaranteeing settlement, the single counterparty limit of 10% shall not be applicable.

Basic Structure Of A Swap

Let us assume the Scheme holds a fixed rate bond with an interest rate (coupon) of 6% p.a. The Scheme can enter into an IRS with another market participant (Counter party) to hedge this risk and convert it into a floating rate instrument.

The following is an illustration of how an Interest rate swap works:

- The Scheme contracts to pay a fixed rate, say 6% p.a., and receive a floating rate (say overnight MIBOR).
- This transaction is done for a notional principal amount equal to the value of the investment, say INR 10 crore.
- The counter party pays floating rate (overnight MIBOR) and receives fixed rate, 6% p.a.
- Deal tenor is say 3 months.

At the end of the tenor, the following exchange will take place:

- The scheme pays at the rate of 6% p.a. i.e. $\text{INR } 10 \text{ crore} \times 6\% \times \frac{91}{365} = \text{INR } 14,95,890$
- The counter party pays a compounded MIBOR rate for 3 months, say 6.25%, which effectively works out to INR 15,58,219

- In practice, however, the difference of the two amounts is settled. In this case counter party will pay the scheme INR 62,329.

Please note that the above example is hypothetical in nature and the interest rates are assumed. The actual return may vary based on actual and depends on the interest rate prevailing at the time the swap agreement is entered into.

The AMC retains the right to enter into such derivative transactions as may be permitted by the applicable regulations from time to time.

Forward Rate Agreement (FRA)

A FRA is an agreement between two parties to pay or receive the difference between an agreed fixed rate (the FRA rate) and the interest rate (reference rate) prevailing on a stipulated future date, based on a notional principal amount for an agreed period. The only cash flow is the difference between the FRA rate and the reference rate. As is the case with IRS, the notional amounts are not exchanged in FRAs.

Interest Rate Future (IRF)

Interest Rate Futures means a standardized interest rate derivative contract traded on a recognized stock exchange to buy or sell a notional security or any other interest bearing instrument or an index of such instruments or interest rates at a specified future date, at a price determined at the time of the contract.

Exchange traded IRFs are standardised contracts based on a notional coupon bearing Government of India (GOI) security currently.

As there is an inverse relationship between interest rate movement and underlying bond prices and the futures price also moves in tandem with the underlying bond prices. If the Fund Manager has a view that interest rates will rise in the near future and intends to hedge the risk from rise in interest rates; the Fund Manager can do so by taking short position in IRF contracts.

If the Fund Manager is of the view that the interest rates will go down the Fund Manager will buy IRF to participate in appreciation.

Example:

The scheme holds cash & cash equivalent and expects that the interest rate will go down and intends to take directional position. Accordingly, the fund manager shall buy IRF –

- Trade Date – January 1, 2022
Futures Delivery date – April 1, 2022
- Current Futures Price - Rs. 102.00
- Futures Bond Yield- 8.85%
- Trader buys 200 contracts of the April 2022 10 Year futures contract of face value of Rs.1000 on NSE on January 1, 2022 at Rs. 102.00

Closing out the Position

- Date: January 7, 2022
- Futures market Price – Rs. 105.00
- Trader sells 200 contracts of April 2022 10 year futures contract of face value of Rs.1000 at Rs. 105 and squares off his position
- Therefore total profit for trader $200 \times 1000 \times (105 - 102)$ is Rs.6,00,000

Exposure to Interest Rate Derivatives shall be within the position limits as prescribed by SEBI vide circulars no. CIR/MRD/DRMNP/11/2015 dated June 12, 2015 and Circular No. SEBI/HO/MRD/CIR/P/2019/103 dated September 26, 2019.

Hedging

Debt securities are exposed to the risk of rising interest rates, which in turn results in the reduction in the value and such impact can be seen in the value of the portfolio of the scheme. Under such circumstances, in order to hedge the fall in the value of the portfolio of the scheme due to falling bond prices, the fund manager may sell IRF contracts.

Example:

Date: January 01, 2022

Spot price of Security: Rs 101.80

Futures price of IRF Contract: Rs 102.00

On January 01, 2022, the Fund Manager bought 2000 GOI securities from spot market at Rs 101.80. The Fund Manager anticipates that the interest rate will rise in near future, therefore to hedge the exposure in underlying security the Fund Manager sells March 2022, Interest Rate Futures contracts at Rs 102.00.

On February 01, 2022 due to increase in interest rate:

Spot price of Security: Rs 100.80

Futures Price of IRF Contract: Rs 101.10

Loss in underlying market will be $(101.80 - 100.80) \times 2000 = \text{Rs } 2000$

Profit in the Futures market will be $(101.10 - 102.00) \times 2000 = \text{Rs } 1800$

Imperfect hedging:

Use of IRF may result in imperfect hedging when the IRF used for hedging the interest rate risk has different underlying security(s) than the existing position being hedged.

Example of imperfect hedge due to use of IRF:

Assume the portfolio of market value worth INR 100 crore has a modified duration of 5. This is being hedged with an IRF that has a modified duration of 10.

Imperfect Hedging cannot exceed 20% of Portfolio. The maximum extent of short position that may be taken in IRFs is as below:

$$\frac{(\text{Portfolio Modified Duration} * \text{Market Value of Portfolio})}{(\text{Futures Modified Duration} * \text{Futures Price/PAR})}$$

Consider that we choose to hedge 20% of portfolio, as below:

$$\frac{(5 * (0.2 * 100))}{(10 * 101 / 100)} = \frac{\text{INR } 9.90}{\text{Crores}}$$

Hence the scheme can sell IRFs worth INR 9.90 Crores and with duration of 10 to hedge INR 20 crore of portfolio with a duration of 5.

For detailed derivative strategies, please refer to SAI.

Portfolio Turnover

It is expected that there would be a number of subscriptions and redemptions on a daily basis. Consequently, it is difficult to estimate with any reasonable measure of accuracy, the likely turnover in the portfolio. However, being fixed income oriented Scheme/s a high portfolio turnover would not significantly affect the brokerage and transaction costs.

Portfolio turnover in the scheme will be a function of market opportunities. It is difficult to estimate with any reasonable measure of accuracy, the likely turnover in the portfolio. The AMC will endeavor to optimize portfolio turnover to optimize risk adjusted return keeping in mind the cost associated with it. A high portfolio turnover rate is not necessarily a drag on portfolio performance and may be representative of investment opportunities that exist in the market.

Being a debt scheme, disclosure of Portfolio Turnover ratio is not applicable to this scheme.

D. HOW WILL THE SCHEME BENCHMARK ITS PERFORMANCE?

The Scheme is benchmarked to NIFTY Liquid Index A-I.

In line with the investment strategy and portfolio construct of the Scheme the Benchmark is most suited for comparison of the performance of the Scheme. However the Benchmark being widely used benchmark in the market, the same has been selected as a standard benchmark for the purpose of this Scheme.

The fund reserves the right to change the said benchmark and/or adopt one or more other benchmarks to compare the performance of the scheme.

PART III- OTHER DETAILS

A. COMPUTATION OF NAV

The NAV of the Units of the Scheme will be computed by dividing the net assets of the Scheme by the number of Units outstanding on the valuation date. The Fund shall value its investments according to the valuation norms, as specified in Schedule VIII of the Regulations, or such norms as may be prescribed by SEBI from time to time.

All expenses and incomes accrued up to the valuation date shall be considered for computation of NAV. For this purpose, major expenses like management fees and other periodic expenses would be accrued on a day to day basis. The minor expenses and income will be accrued on a periodic basis, provided the non-daily accrual does not affect the NAV calculations by more than 1%.

Any changes in securities and in the number of units be recorded in the books not later than the first valuation date following the date of transaction. If this is not possible given the frequency of the Net Asset Value disclosure, the recording may be delayed upto a period of seven days following the date of the transaction, provided that as a result of the non-recording, the Net Asset Value calculations shall not be affected by more than 1%.

In case the Net Asset Value of a scheme differs by more than 1%, due to non - recording of the transactions, the investors or scheme/s as the case may be, shall be paid the difference in amount as follows:-

- (i) If the investors are allotted units at a price higher than Net Asset Value or are given a price lower than Net Asset Value at the time of sale of their units, they shall be paid the difference in amount by the scheme.
- (ii) If the investors are charged lower Net Asset Value at the time of purchase of their units or are given higher Net Asset Value at the time of sale of their units, asset management company shall pay the difference in amount to the scheme.

The asset management company may recover the difference from the investors.

NAV of units under the Scheme shall be calculated as shown below:

NAV (Rs.) =

Market or Fair Value of Scheme's investments	+	Current Assets including Accrued Income	-	Current Liabilities and Provisions including accrued expenses
--	---	---	---	---

No. of Units outstanding under Scheme

During the continuous offer of the scheme, the units will be available at the applicable NAV based prices. This is the price that an investor will pay for purchase / switch in.

Ongoing price for redemption (sale) /switch outs (to other schemes/plans of the Mutual Fund) by investors:

At the applicable NAV subjects to prevailing exit load. This is the price you will receive for redemptions/switch outs.

Illustration:

Computation of NAV - Assume that the Market or Fair Value of Scheme's investments is Rs.

1,00,00,000; Current asset of the scheme is Rs. 25,00,000; Current Liabilities and Provisions is Rs. 15,00,000 and the No. of Units outstanding under the scheme are 5,00,000. Thus, the NAV will be calculated as:

$$\text{NAV} = \frac{10000000 + 2500000 - 1500000}{500000} = 22.000$$

Therefore, the NAV of the scheme is Rs. 22.000

Computation of Repurchase Price - If the applicable NAV is Rs. 10, exit load is 2% then redemption price will be: Rs. 10* (1-0.02) = Rs. 9.80

The Redemption Price will not be lower than 97% of the NAV.

For details on policies related to computation of NAV, rounding off, investment in foreign securities, procedure in case of delay in disclosure of NAV, please refer SAI.

The NAV of the Scheme will be calculated upto four decimal places and will be declared on each business day

B. NEW FUND OFFER (NFO) EXPENSES

This section was applicable during NFO.

C. ANNUAL SCHEME RECURRING EXPENSES

(These are the fees and expenses for operating the scheme. These expenses include Investment Management and Advisory Fee charged by the AMC, Registrar and Transfer Agents' fee, marketing and selling costs etc. as given in the table below):

The AMC has estimated that upto 2.00% (plus additional expenses as permitted under SEBI Regulations) of the daily net assets of the scheme will be charged to the scheme as expenses.

As per SEBI (MF) Regulations, 1996, recurring expenses will not exceed the following limits :

1. on the first Rs. 500 crore of the Scheme's daily net assets, will not exceed 2.00%
2. on the next Rs. 250 crore of the Scheme's daily net assets, will not exceed 1.75%
3. on the next Rs. 1,250 crore of the Scheme's daily net assets, will not exceed 1.50%
4. on the next Rs. 3,000 crore of the Scheme's daily net assets, will not exceed 1.35%
5. on the next Rs. 5,000 crore of the Scheme's daily net assets, will not exceed 1.25%
6. on the next Rs. 40,000 crore of the Scheme's daily net assets, total expense ratio reduction of 0.05% for every increase of Rs. 5,000 crores of daily net assets or part thereof.
7. on the balance of the Scheme's daily net assets, will not exceed 0.80%.

For the actual current expenses being charged, the investor should refer to the website of the mutual fund.

Goods & Services Tax on brokerage and transaction cost	
Other Expenses (to be specified as per Reg 52 of SEBI MF Regulations)	
Maximum Total expenses ratio (TER) permissible under Regulation 52 (6) (c) [^]	Upto 2.00%
Additional expenses under Regulations 52(6A)(c)	0.05%

[^] In terms of Clause 10.1.16.a of SEBI Master Circular, the AMC / Mutual Fund shall annually set apart at least 2 basis points (i.e. 0.02%) on daily net assets of the scheme within the maximum limit of Total Expense Ratio as per Regulation 52 of the SEBI (MF) Regulations for investor education and awareness initiatives.

@ Brokerage and transaction costs (inclusive of GST) which are incurred for the purpose of execution of trades, shall be charged to the scheme as per Regulation 52(6A)(a) of SEBI (Mutual Funds) Regulations, 1996 not exceeding 0.12 per cent in case of cash market transactions and 0.05 per cent in case of derivatives transactions. With effect from April 1, 2023, to align with Indian Accounting Standards requirement, transactions cost incurred for the purpose of execution of trades are expensed out (viz. charged to Revenue Account instead of Capitalization (i.e. forming part of cost of investment)).

Any payment towards brokerage and transaction cost, over and above the said 0.12 percent and 0.05 percent for cash market transactions and derivatives transactions respectively may be charged to the scheme within the maximum limit of Total Expense Ratio (TER) as prescribed under regulation 52 of the SEBI (Mutual Funds) Regulations, 1996.

Direct Plan shall have a lower expense ratio excluding distribution expenses, commission, etc and no commission for distribution of Units will be paid / charged under Direct Plan. All fees and expenses charged in a direct plan (in percentage terms) under various heads including the investment and advisory fee shall not exceed the fees and expenses charged under such heads in a regular plan.

The AMC shall adhere provisions of Chapter 10 of SEBI Master Circular dated June 27, 2024 and various guidelines specified by SEBI as amended from time to time, with reference to charging of fees and expenses. Accordingly:

- All scheme related expenses including commission paid to distributors, shall be paid from the Scheme only within the regulatory limits and not from the books of the AMC, its associates, sponsor, trustee or any other entity through any route.
Provided that, such expenses that are not specifically covered in terms of Regulation 52 (4) can be paid out of AMC books at actual or not exceeding 2 bps of the Scheme AUM, whichever is lower.
- The Fund / the AMC shall adopt full trail model of commission in the Scheme, without payment of any upfront commission or upfronting of any trail commission, directly or indirectly, in cash or kind, through sponsorships, or any other route.
- All fees and expenses charged in a Direct Plan (in percentage terms) under various heads including the investment and advisory fee shall not exceed the fees and expenses charged under such heads in Regular Plan.
- No pass back, either directly or indirectly, shall be given by the Fund / the AMC / Distributors to

the investors.

Disclosure on Goods and Service Tax:

Goods and Service Tax on investment management and advisory fees shall be in addition to the above expense.

Further, with respect to Goods and Service Tax on other than management and advisory fees:

- Goods and Service Tax on other than investment and advisory fees, if any, shall be borne by the scheme within the maximum limit of TER as per regulation 52 of the Regulations.
- Goods and Service Tax on exit load, if any, shall be paid out of the exit load proceeds and exit load net of Goods and Service Tax, if any, shall be credited to the scheme.
- Goods and Service Tax on brokerage and transaction cost paid for asset purchases, if any, shall be within the limit prescribed under regulation 52 of the Regulations.

For the actual current expenses being charged to the Scheme, the investor should refer to the website of the mutual fund at <https://bandhanmutual.com/statutory-disclosures/total-expense-ratio> (Home>Total Expense Ratio of Mutual Fund Schemes). Any change proposed to the current expense ratio will be updated on the website at least three working days prior to the change.

As per the Regulations, the total recurring expenses that can be charged to the Scheme in this Scheme information document shall be subject to the applicable guidelines. The total recurring expenses of the Scheme, will however be limited to the ceilings as prescribed under Regulation 52(6) of the Regulations.

D. LOAD STRUCTURE

Exit Load is an amount which is paid by the investor to redeem the units from the scheme. Load amounts are variable and are subject to change from time to time. For the current applicable structure, please refer to the website of the AMC (www.Bandhanmutual.com) or may call at (toll free no.1-800-266688/ 1-800-2666688.) or your distributor.

Type of Load	Load chargeable (as %age of NAV)	
Exit	Investor exit upon subscription	Exit load as a % of redemption proceeds
	Day 1	0.0070%
	Day 2	0.0065%
	Day 3	0.0060%
	Day 4	0.0055%
	Day 5	0.0050%
	Day 6	0.0045%
	Day 7 onwards	0.0000%

All switches will be treated as redemption in the source scheme and subscription in the destination

scheme, with the entry and exit load as may be applicable.

No Exit load will be charged in case of switches made between different Plans and Options within the scheme.

I. INTRODUCTION

A. Definitions/interpretation

Refer the following link for Definitions/interpretations

B. Risk factors

Scheme specific risk factors

Risk Associated with Investing in Debt / Money Market Instruments –

1. **Price-Risk or Interest-Rate Risk:** Fixed income securities such as bonds, debentures and money market instruments run price-risk or interest-rate risk. Generally, when interest rates rise, prices of existing fixed income securities fall and when interest rates drop, such prices increase. The extent of fall or rise in the prices is a function of the existing coupon, days to maturity and the increase or decrease in the level of interest rates.
2. **Re-investment Risk:** Investments in fixed income securities may carry re-investment risk as interest rates prevailing on the interest or maturity due dates may differ from the original coupon of the bond. Consequently, the proceeds may get invested at a lower rate.
3. **Basis Risk (Interest - rate movement):** During the life of a floating rate security or a swap, the underlying benchmark index may become less active and may not capture the actual movement in interest rates or at times the benchmark may cease to exist. These types of events may result in loss of value in the portfolio.
4. **Spread Risk:** In a floating rate security the coupon is expressed in terms of a spread or mark up over the benchmark rate. However, depending upon the market conditions, the spreads may move adversely or favorably leading to fluctuation in the NAV.
5. **Liquidity Risk:** Due to the evolving nature of the floating rate market, there may be an increased risk of liquidity risk in the portfolio from time to time.
6. **Other Risk:** In case of downward movement of interest rates, floating rate debt instruments will give a lower return than fixed rate debt instruments.
7. **Credit Risk:** In simple terms this risk means that the issuer of a debenture/bond or a money market instrument may default on interest payment or even in paying back the principal amount on maturity. Even where no default occurs, the price of a security may go down because the credit rating of an issuer goes down. It must, however, be noted that where the Scheme has invested in Government Securities, there is no credit risk to that extent. Different types of securities in which the scheme would invest as given in the scheme information document carry different levels and types of risk. Accordingly, the scheme's risk may increase or decrease depending upon its investment pattern. E.g. corporate bonds carry a higher amount of risk than Government securities. Further even among corporate bonds, bonds which are AAA rated are comparatively less risky than bonds which are AA rated.
8. **Short-selling of Securities:** Purchasing a security entails the risk of the security price going down. Short selling of securities (i.e. sale of securities without owning them) entails the risk of the security price going up thereby decreasing the profitability of the short position. Short selling is subject to risks related to fluctuations in market price, and settlement/liquidity risks. If required by the Regulations, short selling may entail margin money to be deposited with the clearing house and daily mark to market of the prices and margins. This may impact fund pricing and may induce liquidity risks if the fund is not able to provide adequate margins to the clearing house. Failure to meet margin requirements may result in penalties being imposed by the exchanges and clearing house.
9. **Securities Lending:** Engaging in securities lending is subject to risks related to fluctuations in collateral value and settlement/liquidity and counter party risks. The risks in lending portfolio securities, as with other extensions of credit, consist of the failure of another party, in this case the approved intermediary, to comply with the terms of agreement entered into between the lender of securities i.e. the Scheme and the approved intermediary. Such failure to comply can result in the possible loss of rights in the

collateral put up by the borrower of the securities, the inability of the approved intermediary to return the securities deposited by the lender and the possible loss of any corporate benefits accruing to the lender from the securities deposited with the approved intermediary. The Mutual Fund may not be able to sell such lent securities and this can lead to temporary illiquidity.

Risk associated with investing in foreign securities

It is AMC's belief that the investment in ADRs/GDRs/overseas securities offer new investment and portfolio diversification opportunities into multi-market and multi-currency products. However, such investments also entail additional risks. Such investment opportunities may be pursued by the AMC provided they are considered appropriate in terms of the overall investment objectives of the schemes. Since the Schemes would invest only partially in ADRs/GDRs/overseas securities, there may not be readily available and widely accepted benchmarks to measure performance of the Schemes.

To the extent the assets of the scheme(s) are invested in overseas financial assets, there may be risks associated with currency movements, restrictions on repatriation and transaction procedures in overseas market. Further, the repatriation of capital to India may also be hampered by changes in regulations or political circumstances as well as the application to it of other restrictions on investment. In addition, country risks would include events such as introduction of extraordinary exchange controls, economic deterioration, bi-lateral conflict leading to immobilization of the overseas financial assets and the prevalent tax laws of the respective jurisdiction for execution of trades or otherwise.

The Scheme(s) may also invest in ADRs / GDRs / Other Foreign Securities as permitted by Reserve Bank of India and Securities and Exchange Board of India from time to time. To the extent that some part of the assets of the Scheme(s) may be invested in securities denominated in foreign currencies, Indian Rupee equivalent of the net assets, distributions and income may be adversely affected by the changes in the value of certain foreign currencies relative to the Indian Rupee. The repatriation of capital also may be hampered by changes in regulations concerning exchange controls or political circumstances as well as the application to it of other restrictions on investment as applicable.

As the investment may be made in stocks of different countries, the portfolio shall be exposed to the political, economic and social risks with respect to each country. However, the Fund manager shall ensure that his exposure to each country is limited so that the portfolio is not exposed to one country. Investments in various economies will also diversify and reduce this risk.

Currency Risk: The scheme(s) may invest in securities denominated in a broad range of currencies and may maintain cash in such currencies. As a consequence, fluctuations in the value of such currencies against the currency denomination of the relevant scheme will have a corresponding impact on the value of the portfolio. Furthermore, investors should be aware that movements in the rate of exchange between the currency of denomination of a fund and their home currency will affect the value of their shareholding when measured in their home currency.

In respect of the corpus of the Scheme(s) that is invested in overseas mutual fund schemes, investors shall bear the proportionate recurring expenses of such underlying scheme(s), in addition to the recurring expenses of the Scheme(s). Therefore, the returns attributable to such investments by the Scheme(s) may be impacted or may, at times, be lower than the returns that the investors could obtain by directly investing in the said underlying scheme(s).

To manage risks associated with foreign currency and interest rate exposure, the Fund may use derivatives for efficient portfolio management including hedging and in accordance with conditions as may be stipulated by SEBI/RBI from time to time. Offshore investments will be made subject to any/all approvals, conditions thereof as may be stipulated by SEBI/RBI and provided such investments do not result in expenses to the Fund in excess of the ceiling on expenses prescribed by and consistent with

costs and expenses attendant to international investing. The Fund may, where necessary, appoint other intermediaries of repute as advisors, custodian/sub-custodians etc. for managing and administering such investments. The appointment of such intermediaries shall be in accordance with the applicable requirements of SEBI and within the permissible ceilings of expenses. The fees and expenses would illustratively include, besides the investment management fees, custody fees and costs, fees of appointed advisors and sub-managers, transaction costs, and overseas regulatory costs.

Risks associated with Investing in Derivatives:

Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the fund manager to identify such opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and decision of fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies. The risks associated with the use of derivatives are different from or possibly greater than, the risks associated with investing directly in securities and other traditional investments. As and when the Scheme trade in the derivatives market there are risk factors and issues concerning the use of derivatives that investors should understand. Derivative products are specialized instruments that require investment techniques and risk analyses different from those associated with bonds. The use of a derivative requires an understanding not only of the underlying instrument but of the derivative itself. Derivatives require the maintenance of adequate controls to monitor the transactions entered into, the ability to assess the risk that a derivative adds to the portfolio and the ability to forecast price or interest rate movements correctly. There is the possibility that a loss may be sustained by the portfolio as a result of the failure of another party (usually referred to as the “counter party”) to comply with the terms of the derivatives contract. Other risks in using derivatives include the risk of mispricing or improper valuation of derivatives and the inability of derivatives to correlate perfectly with underlying assets, rates and indices.

Derivatives are highly leveraged instruments. Even a small price movement in the underlying security could have a large impact on their value. Also, the market for derivative instruments is nascent in India. The risks associated with the use of derivatives are different from or possibly greater than the risks associated with investing directly in securities and other traditional investments.

The specific risk factors arising out of a derivative strategy used by the Fund Manager may be as below:

- Lack of opportunity available in the market.
- The risk of mispricing or improper valuation and the inability of derivatives to correlate perfectly with underlying assets, rates and indices.

Risk associated with Interest Rate Future (IRFs):

An Interest Rate Futures is an agreement to buy or sell a debt instruments at a specified future date at a price that is fixed today. Interest Rate Futures are Exchange Traded and are cash settled. Hedging using Interest Rate Futures can be perfect or imperfect. Perfect hedging means hedging the underlying using IRF contract of same underlying.

- (i) **Market risk:** Derivatives carry the risk of adverse changes in the market price.
- (ii) **Liquidity risk** – This occurs where the derivatives cannot be sold (unwound) at prices that reflect the underlying assets, rates and indices.
- (iii) **Model Risk** - The risk of mispricing or improper valuation of derivatives.
- (iv) **Basis Risk** – This risk arises when the instrument used as a hedge does not match the movement in the instrument/ underlying asset being hedged. The risks may be inter-related also; for e.g. interest rate movements can affect equity prices, which could influence specific issuer/industry assets.

Risk associated with imperfect hedge using IRF:

In case the IRF used for hedging the interest rate risk has different underlying security than the existing

position being hedged, it would result in imperfect hedging.

- (i) **Basis Risk:** Basis risk is the risk that arises when the instrument used as a hedge does not match the movement in the instrument/ underlying asset being hedged. This could result into potential gains or losses from the strategy, thus adding risk to the position.
- (ii) **Price Risk:** The risk of mispricing or improper valuation and the inability of derivatives to correlate perfectly with underlying assets, rates and indices.
- (iii) **Risk of mismatch between the instruments:** The risk arises if there is a mismatch between the prices movements in derivative instrument used to hedge, compared to the price movement of the underlying assets being hedged. For example, when IRF which has government security as underlying is used to hedge a portfolio that contains corporate debt securities.
- (iv) **Correlation weakening and consequent risk of regulatory breach:** SEBI Regulation mandates minimum correlation criterion of 0.9 (calculated on a 90-day basis) between the portfolio being hedged and the derivative instrument used for hedging. In cases where the correlation falls below 0.9, a rebalancing period of 5 working days has been permitted. Inability to satisfy this requirement to restore the correlation level to the stipulated level, within the stipulated period, due to difficulties in rebalancing would lead to a lapse of the exemption in gross exposure computation. The entire derivative exposure would then need to be included in gross exposure, which may result in gross exposure in excess of 100% of net asset value.

Risk Associated with investing in Securitized Debt/ Structured Obligations

The Scheme may invest in domestic securitized debt such as asset backed securities (ABS) or mortgage backed securities (MBS). Asset Backed Securities (ABS) are securitized debts where the underlying assets are receivables arising from various loans including automobile loans, personal loans, loans against consumer durables, etc. Mortgage backed securities (MBS) are securitized debts where the underlying assets are receivables arising from loans backed by mortgage of residential / commercial properties. ABS/MBS instruments reflect the undivided interest in the underlying pool of assets and do not represent the obligation of the issuer of ABS/MBS or the originator of the underlying receivables. The ABS/MBS holders have a limited recourse to the extent of credit enhancement provided. If the delinquencies and credit losses in the underlying pool exceed the credit enhancement provided, ABS/MBS holders will suffer credit losses. ABS/MBS are also normally exposed to a higher level of reinvestment risk as compared to the normal corporate or sovereign debt.

At present in Indian market, following types of loans are securitised:

- Auto Loans (cars / commercial vehicles /two wheelers)
- Residential Mortgages or Housing Loans
- Consumer Durable Loans
- Personal Loans
- Corporates Loans

The main risks pertaining to each of the asset classes above are described below:

Auto Loans (cars / commercial vehicles /two wheelers)

The underlying assets (cars etc) are susceptible to depreciation in value whereas the loans are given at high loan to value ratios. Thus, after a few months, the value of asset becomes lower than the loan outstanding. The borrowers, therefore, may sometimes tend to default on loans and allow the vehicle to be repossessed. These loans are also subject to model risk. ie if a particular automobile model does not become popular, loans given for financing that model have a much higher likelihood of turning bad. In such cases, loss on sale of repossession vehicles is higher than usual.

Commercial vehicle loans are susceptible to the cyclicity in the economy. In a downturn in economy, freight rates drop leading to higher defaults in commercial vehicle loans. Further, the second hand prices of these vehicles also decline in such economic environment.

Housing Loans

Housing loans in India have shown very low default rates historically. However, in recent years, loans have been given at high loan to value ratios and to a much younger borrower classes. The loans have not yet gone through the full economic cycle and have not yet seen a period of declining property prices. Thus the performance of these housing loans is yet to be tested and it need not conform to the historical experience of low default rates.

Consumer Durable Loans

The underlying security for such loans is easily transferable without the bank's knowledge and hence repossession is difficult. The underlying security for such loans is also susceptible to quick depreciation in value. This gives the borrowers a high incentive to default.

Personal Loans

These are unsecured loans. In case of a default, the bank has no security to fall back on. The lender has no control over how the borrower has used the borrowed money. Further, all the above categories of loans have the following common risks:

All the above loans are retail, relatively small value loans. There is a possibility that the borrower takes different loans using the same income proof and thus the income is not sufficient to meet the debt service obligations of all these loans.

In India, there is insufficiency of ready comprehensive and complete database regarding past credit record of borrowers. Thus, loans may be given to borrowers with poor credit record. In retail loans, the risks due to frauds are high.

Corporate Loans

These are loans given to single or multiple corporates. The receivables from a pool of loans to corporate are assigned to a trust that issues Pass through certificates in turn. The credit risk in such PTCs is on the underlying pool of loans to corporates. The credit risk of the underlying loans to the corporates would in turn depend of economic cycles.

Risk associated with investing in Repo of Corporate Bond Securities

To the extent the scheme invests in Repo of Corporate Bond Securities, the scheme will be subject to following risks –

- **Settlement Risk:** Corporate Bond Repo will be settled between two counterparties in the OTC segment unlike in the case of CBLO transactions where CCIL stands as central counterparty on all transactions (no settlement risk).
- **Quality of collateral:** The Mutual Fund will be exposed to credit risk on the underlying collateral – downward migration of rating. The Mutual Fund will impose adequate haircut on the collateral to cushion against any diminution in the value of the collateral. Collateral will require to be rated AAA or equivalent.
- **Liquidity of collateral:** In the event of default by the counterparty, the Mutual Fund would have recourse to recover its investments by selling the collateral in the market. If the underlying collateral is illiquid, then the Mutual Fund may incur an impact cost at the time of sale (lower price realization).

Risks associated with segregated portfolio:

1. **Liquidity risk** – A segregated portfolio is created when a credit event / default occurs at an issuer level in the scheme. This may reduce the liquidity of the security issued by the said issuer, as demand for this security may reduce. This is also further accentuated by the lack of secondary market liquidity for corporate papers in India. As per SEBI norms, the scheme is to be closed for redemption and subscriptions until the segregated portfolio is created, running the risk of investors being unable to redeem their investments. However, it may be noted that, the proposed segregated portfolio is required to be formed within one day from the occurrence of the credit event.

Investors may note that no redemption and subscription shall be allowed in the segregated portfolio. However, in order to facilitate exit to unit holders in segregated portfolio, AMC shall list the units of the segregated portfolio on a recognized stock exchange within 10 working days of creation of segregated portfolio and also enable transfer of such units on receipt of transfer requests. For the units listed on the exchange, it is possible that the market price at which the units are traded may be at a discount to the NAV of such Units. There is no assurance that an active secondary market will develop for units of segregated portfolio listed on the stock exchange. This could limit the ability of the investors to resell them.

2. Valuation risk - The valuation of the securities in the segregated portfolio is required to be carried out in line with the applicable SEBI guidelines. However, it may be difficult to ascertain the fair value of the securities due to absence of an active secondary market and difficulty to price in qualitative factors.

Backstop facility in form of investment in Corporate Debt Market Development Fund (CDMDF):

CDMDF is set up as a scheme of the Trust registered as an Alternative Investment Fund ('AIF') in accordance with the SEBI (Alternative Investment Funds) Regulations, 2012 ("AIF Regulations"). The objective of the CDMDF is to help to develop the corporate debt market by providing backstop facility to instill confidence amongst the market participants in the corporate debt/bond market during times of market dislocation and to enhance the secondary market liquidity. In times of market dislocation, CDMDF shall purchase and hold eligible corporate debt securities from the participating investors (i.e., specified debt-oriented MF schemes to begin with) and sell as markets recover. The CDMDF will thus act as a key enabler for facilitating liquidity in the corporate debt market and to respond quickly in times of market dislocation. The trigger and period for which the backstop facility will be open shall be as decided by SEBI. Thus this backstop facility will help fund managers of the aforementioned Schemes to better generate liquidity during market dislocation to help the schemes fulfill liquidity obligations under stress situation.

In accordance with the requirement of regulation 43A of SEBI (Mutual Funds) Regulations, 1996 read with SEBI circular no. SEBI/HO/IMD/PoD2/P/CIR/2023/129 dated July 27, 2023 on Investment by Mutual Fund Schemes in units of Corporate Debt Market Development Fund, the aforementioned schemes shall invest 25 bps of its AUM as on December 31, 2022 in the units of the Corporate Debt Market Development Fund ('CDMDF'). An incremental contribution to CDMDF shall be made every six months to ensure 25 bps of scheme AUM is invested in units of CDMDF. However, if AUM decreases there shall be no return or redemption from CDMDF. Contribution made to CDMDF, including the appreciations on the same, if any, shall be locked-in till winding up of the CDMDF.

We would further like to bring to the notice of the investors that investments in CDMDF units shall not be considered as violation while considering maturity restriction as applicable for various purposes (including applicable Investment limits) and the calculations of Potential Risk Class (PRC) Matrix, Risk-o-meter, Stress testing and Duration for various purposes shall be done after excluding investments in units of CDMDF.

Investors are requested to read details disclosure on investment of the schemes in the CDMDF as listed in sub-section "C. How will the Scheme allocate its assets? And sub-section D. Where will the Scheme Invest" in Section "Section II- Information about the scheme

C. Risk mitigation strategies

Risk	Risk mitigants / management strategy
Quality risk: Risk of investing in unsustainable / weak companies	Stringent credit evaluation process to ensure high quality portfolio
Reinvestment risk: Risk of changes in interest rates impacting the fund as existing securities mature or on fresh inflows/outflows into the fund	Close tracking of different maturity buckets. Investors have to bear a certain amount of interest rate risk as it is the inherent nature of the fund.
Concentration risk: Risk of concentration in the portfolio	Create a well-distributed portfolio with defined issuer limits
Liquidity risk: High impact costs at the time of buying or selling.	Create a high quality portfolio with liquid securities which have low impact cost on buying / selling.
Derivatives risk: As and when the Scheme trades in the derivatives market there are risk factors and issues concerning the use of derivatives that Investors should understand. Derivative products are specialized instruments that require investment techniques and risk analyses different from those associated with stocks and bonds. The use of a derivative requires an understanding not only of the underlying instrument but also of the derivative itself. Derivatives require the maintenance of adequate controls to monitor the transactions entered into, the ability to assess the risk that a derivative adds to the portfolio and the ability to forecast price or interest rate movements correctly. There is the possibility that a loss may be sustained by the portfolio as a result of the failure of another party (usually referred to as the “counter party”) to comply with the terms of the derivatives contract. Other risks in using derivatives include the risk of mispricing or improper valuation of derivatives and the inability of derivatives to correlate perfectly with underlying assets, rates and indices.	The fund has provision for using derivative instruments in the manner permitted by SEBI from time to time. Interest Rate Swaps will be done with approved counter parties under pre-approved ISDA agreements. Mark to Market of swaps, netting off of cash flow and default provision clauses will be provided as per international best practice on a reciprocal basis. Interest rate swaps and other derivative instruments will be used as per local (RBI and SEBI) regulatory guidelines.

A broad description of various securities:

Debt Instruments:

1. Non-convertible debentures as well as bonds are securities issued by companies / institutions promoted / owned by the Central or State governments and statutory bodies, which may or may not carry a Central/State government guarantee, public and private sector banks, All India Financial Institutions, private sector companies. These instruments may be secured against the assets of the company or unsecured and generally issued to meet the short term and long term fund requirements. Rate of interest on such instruments would depend upon spread over corresponding government security, perceived risk, rating, tenor etc. These instruments include fixed interest security with/without put/call option, floating rate bonds, zero coupon bonds. Frequency of the interest payment could be either monthly/quarterly/half-yearly or annually.
2. Floating rate debt instruments are debt instruments issued by central government, state government, corporates, PSUs etc. with coupon reset periodically. The periodicity of reset could be daily, monthly, quarterly, half yearly and annually or any other periodicity as may be mutually agreed between the issuer and the Fund. The fund manager will have the flexibility to invest the debt component into floating rate debt securities in order to reduce the impact of rising interest rate in the economy.
3. Securities created and issued by the Central and State Governments as may be permitted by RBI, securities guaranteed by the Central and State Governments (including but not limited to coupon bearing bonds, zero coupon bonds and treasury bills). Special securities issued by the Government

of India to entities like Oil Marketing Companies, Fertilizer Companies, the Food Corporation of India, etc. (popularly called oil bonds, fertilizer bonds and food bonds respectively) and special securities issued by the State Government under “Ujjwal Discom Assurance Yojna (UDAY) Scheme for Operational and Financial Turnaround of Power Distribution Companies (DISCOMs)” notified by Ministry of Power vide Office Memorandum (No 06/02/2015-NEF/FRP) dated November 20, 2015, (popularly called as UDAY Bonds). Central Government Securities are sovereign debt obligations of the Government of India with zero-risk of default and issued on its behalf by RBI. They form part of Government’s annual borrowing programme and are used to fund the fiscal deficit along with other short term and long term requirements. Such securities could be fixed rate, fixed interest rate with put/call option, zero coupon bond, floating rate bonds, capital indexed bonds, fixed interest security with staggered maturity payment etc.

4. Debt Instruments with special features viz. subordination to equity (absorbs losses before equity capital) and /or convertible to equity upon trigger of a pre-specified event for loss absorption. Additional Tier I bonds and Tier 2 bonds issued under Basel III framework are some instrument which may have above referred special features.
5. Securitised Debt such as Mortgage Backed Securities (“MBS”) or Asset Backed Securities (“ABS”) is a financial instrument (bond) whose interest and principal payments are backed by an underlying cash flow from another asset. Asset Securitization is a process whereby commercial or consumer credits are packaged and sold in the form of financial instruments. A typical process of asset securitization involves sale of specific receivables to a Special Purpose Vehicle (SPV) set up in the form of a trust or a company. The SPV in turn issues financial instruments (promissory notes, participation certificates or other debt instruments) also referred to as “Securitised Debt” to the investors evidencing the beneficial ownership of the investors in the receivables. The financial instruments are rated by an independent credit rating agency.
6. Credit rating agencies assign CE rating to an instrument based on any identifiable credit enhancement for the debt instrument issued by an issuer. The credit enhancement could be in various forms and could include guarantee, shortfall undertaking, letter of comfort, etc. from another entity. This entity could be either related or non-related to the issuer like a bank, financial institution, etc. Credit enhancement could include additional security in form of pledge of shares listed on stock exchanges, etc. SO transactions are asset backed/mortgage backed securities, securitised paper backed by hypothecation of car loan receivables, securities backed by trade receivables, credit card receivables etc.
7. Pass Through Certificate (PTC) represents beneficial interest in an underlying pool of cash flows. These cash flows represent dues against single or multiple loans originated by the sellers of these loans. PTCs may be backed, but not exclusively, by receivables of personal loans, car loans, two wheeler loans and other assets subject to applicable regulations.
8. Depository Receipts (DRs) are negotiable certificates that represent shares in a foreign company and are traded in local exchanges of most advanced economies. ADR (American Depository Receipt) and GDR (Global Depository Receipt) are two depository receipts that are traded in local markets but represent the equity of a company listed in another country.

Money Market Instruments:

1. Certificate of Deposits (CDs) is a negotiable money market instrument issued by scheduled commercial banks and select all-India Financial Institutions that have been permitted by the RBI to raise short term resources. The maturity period of CDs issued by the Banks is between 7 days to one year whereas in case of FIs, maturity is between one year to 3 years from the date of issue. CDs may be issued at a discount to face value. Banks/ FIs cannot buyback their own CDs before maturity.

2. Commercial Paper (CPs) is an unsecured negotiable money market instrument issued in the form of a promissory note, generally issued by the corporates, primary dealers and all India Financial Institutions as an alternative source of short-term borrowings. They are issued at a discount to the face value as may be determined by the issuer. CP is traded in the secondary market and can be freely bought and sold before maturity.
3. Treasury Bills (T-Bills) are issued by the Government of India to meet their short-term borrowing requirements. T-Bills are issued for maturities of 91 days, 182 days and 364 days. T-bills are issued at a discount to their face value and redeemed at par.
4. Non-Convertible Debentures of original or initial maturity upto one year issued by corporate (including NBFCs) by way of private placement in accordance with the provisions of master circular of RBI vide reference no. RBI/MRD/2016-17/32 dated July 7, 2016.
5. Tri-party Repo means a repo contract where a third entity (apart from the borrower and lender), called a Tri-Party Agent, acts as an intermediary between the two parties to the repo to facilitate services like collateral selection, payment and settlement, custody and management during the life of the transaction.
6. Repo (Repurchase Agreement) or Reverse Repo is a transaction in which two parties agree to sell and purchase the same security with an agreement to purchase or sell the same security at a mutually decided future date and price. The transaction results in collateralized borrowing or lending of funds. When the seller sells the security with an agreement to repurchase it, it is a Repo transaction whereas from the perspective of buyer who buys the security with an agreement to sell it at a later date, it is reverse repo transaction. Presently in India, G-Secs, State Government Securities, T-Bills and Corporate Debt Securities are eligible for Repo/Reverse Repo.
7. Bills Rediscounting - Bill rediscounting is a process where a financial institution (generally banks) discounts the bills of exchange that it has discounted previously with another financial institution. In other words, the original discounting bank sells its discounted bills to another bank or financial institution at a discount. The new institution pays the original institution the present value of the bills minus a discount, and in return, it becomes the holder of the bills until maturity, when it receives the full payment from the debtor. Bill rediscounting is a way for financial institutions to manage their liquidity and meet short-term funding requirements.
8. Cash Management Bills (CMB) are issued by Government of India to meet the temporary cash flow mismatches of the Government. CMBs are non-standard, discounted instruments issued for maturities less than 91 days. CMBs are issued at discount to the face value through auctions. The settlement of the auction will be on T+1 basis.

Derivatives:

Futures are exchange-traded contracts to sell or buy financial instruments for future delivery at an agreed price. There is an agreement to buy or sell a specified quantity of financial instruments on a designated future date at a price agreed upon by the buyer and seller at the time of entering into a contract. To make trading possible, the exchange specifies certain standardized features of the contract. A futures contract involves an obligation on both the parties to fulfill the terms of the contract.

- a. Option is a contract which provides the buyer of the option (also called holder) the right, without the obligation, to buy or sell a specified asset at the agreed price on or upto a particular date. For acquiring this privilege, the buyer pays premium (fee) to the seller. The seller on the other hand has the obligation to buy or sell specified assets at the agreed price and for this obligation he receives premium. The premium is determined considering a number of factors such as the market price of

the underlying asset/security, number of days to expiry, risk free rate of return, strike price of the option and the volatility of the underlying asset. Option contracts are of two types viz:

- b. Call Option - The option that gives the buyer the right to buy a specified quantity of the underlying asset at the strike price is a call option. The buyer of the call option (known as the holder of call option) can call upon the seller of the option (writer of the option) and buy from him the underlying asset at the agreed price at any time on or before the expiry of the option.

The seller (writer of the option) on the other hand has the obligation to sell the underlying asset if the buyer of the call option decides to exercise his option to buy.

- c. Put Option - The right to sell is called put option. A Put option gives the holder (buyer) the right to sell a specified quantity of the underlying asset at the strike price. The seller of the put option (one who is short Put) however, has the obligation to buy the underlying asset at the strike price if the buyer decides to exercise his option to sell.

NOTE ON DEBT MARKET & MONEY MARKET IN INDIA

The Indian debt markets are one of the largest such markets in Asia. Government and Public Sector enterprises are predominant borrowers in the market. While interest rates were regulated till a few years back, there has been a rapid deregulation and currently both the lending and deposit rates are market determined.

The debt markets are developing fast, with the rapid introduction of new instruments including Foreign Institutional Investors are also allowed to invest in Indian debt markets now. There has been a considerable increase in the trading volumes in the market. The trading volumes are largely concentrated in the Government of India Securities, which contribute a significant proportion of the daily trades.

The money markets in India essentially consist of the call money market (i.e. market for overnight and term money between banks and institutions), repo transactions (temporary sale with an agreement to buy back the securities at a future date at a specified price), commercial papers (CPs, short term unsecured promissory notes, generally issued by corporates), certificate of deposits (CDs, issued by banks) and Treasury Bills & Cash Management Bills (issued by RBI). In a predominantly institutional market, the key money market players are banks, financial institutions, insurance companies, mutual funds, primary dealers and corporates.

Following table exhibits various debt instruments along with indicative yields as on October 28, 2025:

Instruments	Yield level (per annum)
G-Sec 5 year	6.18%
G-Sec 10 year	6.54%
CP 3 months	6.02%
CD 3 months	5.84%
CP 1 year	6.45%
CD 1 year	6.42%
PSU	
Corporate Debentures AAA 3 year	6.69%
Corporate Debentures AAA 5 year	6.91%
NBFC	

Corporate Debentures AAA 3 year	7.36%
Corporate Debentures AAA 5 year	7.81%

The actual yields will, however, vary in line with general levels of interest rates and debt/money market conditions prevailing from time to time.

The mutual fund or AMC and its empanelled brokers have not given and shall not give any indicative portfolio and indicative yield in any communication, in any manner whatsoever. Investors are advised not to rely on any communication regarding indicative yield/ portfolio with regard to the scheme.

B. What are the investment restrictions?

Pursuant to Regulations, specifically the Seventh schedule and amendments thereto, the following investment restrictions are currently applicable to the Scheme:

1. Investment in securities from the scheme's corpus would be only in transferable securities in accordance with Regulation 43 of Chapter VI of SEBI [Mutual Funds] Regulations, 1996.
2. The Scheme shall buy and sell securities on the basis of deliveries and shall in all cases of purchases, take delivery of relevant securities and in all cases of sale, deliver the securities;

Provided that the Scheme may engage in short selling of securities in accordance with the framework relating to short selling and securities lending and borrowing specified by SEBI;

Provided further that the Scheme may enter into derivatives transactions in a recognised stock exchange, subject to the framework specified by SEBI;

Provided further that sale of government security already contracted for purchase shall be permitted in accordance with the guidelines issued by the Reserve Bank of India in this regard.

3. The Scheme shall not invest more than 10% of its NAV in debt instruments comprising money market instruments and non-money market instruments issued by a single issuer which are rated not below investment grade by a credit rating agency authorised to carry out such activity under the SEBI Act. Such investment limit may be extended to 12% of the NAV of the Scheme with the prior approval of the Boards of the Trustee Company and the AMC;

Provided that such limit shall not be applicable for investments in Government Securities, treasury bills and tri-party repos on government securities or treasury bills;

Further, in accordance with clause 12.8 of SEBI Master Circular, within the limits specified above, following prudential limits shall be followed for the scheme:

The scheme shall not invest more than:

- 10% of its NAV in debt and money market securities rated AAA; or
- 8% of its NAV in debt and money market securities rated AA; or
- 6% of its NAV in debt and money market securities rated A and below issued by a single issuer.

The above investment limits may be extended by up to 2% of the NAV of the scheme with prior approval of the Board of Trustees and Board of Directors of the AMC, subject to compliance with the overall 12% limit specified in clause 1 of Seventh Schedule of MF Regulation.

Provided further that investment within such limit can be made in mortgaged backed securitised debt which are rated not below investment grade by a credit rating agency registered with SEBI.

4. The Scheme shall not invest in unlisted debt instruments including commercial papers (CPs), other than (a) government securities, (b) other money market instruments and (c) derivative products such as Interest Rate Swaps (IRS), Interest Rate Futures (IRF), etc. which are used by mutual funds for hedging.

However, Scheme may invest in unlisted Non-Convertible Debentures (NCDs) not exceeding 10% of the debt portfolio of the Scheme subject to the condition that such unlisted NCDs have a simple structure (i.e. with fixed and uniform coupon, fixed maturity period, without any options, fully paid up upfront, without any credit enhancements or structured obligations) and are rated and secured with coupon payment frequency on monthly basis.

For the purpose of investment in debt instruments, listed debt instruments shall include listed and to be listed debt instruments.

5. All investments by the Scheme in Commercial Papers (CPs) would be made only in CPs which are listed or to be listed.
6. Investment in unrated debt and money market instruments, other than government securities, treasury bills, derivative products such as Interest Rate Swaps, Interest Rate Futures, etc by the Scheme shall be subject to the following:
 - a. Investments shall only be made in such instruments, including bills re-discounting, usance bills, etc., that are generally not rated and for which separate investment norms or limits are not provided in SEBI (Mutual Fund) Regulations, 1996 and various circulars issued thereunder.
 - b. Exposure of the Scheme in such instruments, shall not exceed 5% of the net assets of the Scheme.
 - c. All such investments shall be made with the prior approval of the Board of AMC and the Board of Trustees.
7. The Scheme shall hold at least 20% of its net assets in liquid assets. For this purpose, 'liquid assets' shall include Cash, Government Securities, T-bills and Repo on Government Securities.
In case, the exposure in such liquid assets falls below 20% of net assets of the scheme, the compliance with the above requirement shall be ensured before making any further investments.
8. The Scheme shall not make investments in debt securities having structured obligations (SO rating) and / or credit enhancements (CE rating). However, debt securities with government guarantee shall be excluded from such restriction.
9. The Scheme shall not make any investment in
 - any unlisted security of an associate or group company of the sponsor; or
 - any security issued by way of private placement by an associate or group company of the sponsor; or
 - the listed securities of group companies of the sponsor which is in excess of 25% of the net assets.
10. Transfer of investments from one scheme to another scheme in the same Mutual Fund is permitted provided:
 - a) such transfers are done at the prevailing market price for quoted instruments on spot basis and in line provisions under clause 12.30 of SEBI Master Circular dated June 27, 2024 and as may be specified by SEBI from time to time, in this regard; and
 - b) the securities so transferred shall be in conformity with the investment objective of the Scheme to which such transfer has been made.
 - c) the same are in line with clause 12.30 of SEBI Master Circular dated June 27, 2024.
11. The Scheme may invest in other Schemes under the same AMC or any other Mutual Fund without charging any fees, provided the aggregate inter-Scheme investment made by all the Schemes under

the same management or in Schemes under management of any other asset management company shall not exceed 5% of the Net Asset Value of the Fund. Provided that this clause shall not apply to any Fund of Funds scheme.

12. The Fund shall get the securities purchased transferred in the name of the Fund on account of the concerned Scheme, wherever investments are intended to be of a long-term nature.
13. All the Scheme's investments will be in transferable securities or bank deposits or in money at call or any such facility provided by RBI in lieu of call.
14. No loans for any purpose can be advanced by the Scheme.
15. The Fund shall not borrow except to meet temporary liquidity needs of the Fund for the purpose of repurchase/ redemption of units or payment of interest and/or Income Distribution cum capital withdrawal option to the Unitholders, provided that the Fund shall not borrow more than 20% of the net assets of the individual Scheme and the duration of the borrowing shall not exceed a period of 6 months.
16. The Scheme shall not park funds in short term deposits of scheduled commercial bank.
17. The scheme shall not make any investment in a Fund of Funds scheme.
18. The exposure in a particular sector (excluding investments in Bank CDs, TREPS, G-Secs, T-Bills and AAA rated securities issued by Public Financial Institutions and Public Sector Banks) under the portfolio will not exceed 20% of the net assets on account of purchase.

An additional exposure to financial services sector (over and above the limit of 20%) not exceeding 10% of the net assets of the scheme shall be allowed by way of increase in exposure to Housing Finance Companies (HFCs) only. Further, an additional exposure of 5% of the net assets of the Scheme has been allowed for investments in securitized debt instruments based on retail housing loan portfolio and / or affordable housing loan portfolio.

Provided that the additional exposure to such securities issued by HFCs are rated AA and above and these HFCs are registered with National Housing Bank (NHB) and the total investment/ exposure in HFCs shall not exceed 20% of the net assets of the scheme on account of purchase.

19. The total exposure of debt and liquid schemes in a group (excluding investments in securities issued by Public Sector Units, Public Financial Institutions and Public Sector Banks) shall not exceed 20% of the net assets of the scheme. Such investment limit may be extended to 25% of the net assets of the scheme with the prior approval of the Board of the Trustee Company.

However, investment by debt mutual fund schemes in debt and money market instruments of group companies of both the sponsor and asset management company shall not exceed 10% of the net assets of the Scheme. Such investment limit may be extended to 15% of the net assets of the Scheme with the prior approval of the Board of Trustees.

For this purpose, a group means a group as defined under regulation 2 (mm) of SEBI (Mutual Funds) Regulations, 1996 and shall include an entity, its subsidiaries, fellow subsidiaries, its holding company and its associates

20. The Scheme will comply with provisions specified in Clause 12.25 of SEBI Master Circular dated June 27, 2024 related to overall exposure limits applicable for derivative transactions as stated below:
 - (a) The cumulative gross exposure through equity, debt, derivative positions, REITs & InvITs and across various other asset classes in which the Scheme is permitted to invest should not exceed 100% of net assets of the Scheme.
 - (b) Mutual Funds shall not write options or purchase instruments with embedded written options.

- (c) The total exposure related to option premium paid must not exceed 20% of the net assets of the Scheme.
- (d) Cash or cash equivalents with residual maturity of less than 91 days may be treated as not creating any exposure.
- (e) Exposure due to hedging positions may not be included in the above mentioned limits subject to the following:
- Hedging positions are the derivative positions that reduce possible losses on an existing position in securities till the existing position remains.
 - Hedging position cannot be taken for existing derivative positions. Exposure due to such positions shall have to be added and treated under limits mentioned in point a).
 - Any derivative instrument used to hedge the underlying security as the existing position being hedged.
 - The quantity of underlying associated with the derivative position taken for hedging purpose does not exceed the quantity of the existing position against which hedge has been taken.
- (f) Mutual Funds may enter into plain vanilla Interest Rate Swaps (IRS) for hedging purposes. The value of the notional principal in such cases must not exceed the value of respective existing assets being hedged by the scheme.
- In case of participation in IRS is through over the counter transactions, the counter party has to be an entity recognized as a market maker by RBI and exposure to a single counterparty in such transactions should not exceed 10% of the net assets of the scheme. However, if mutual funds are transacting in IRS through an electronic trading platform offered by the Clearing Corporation of India Ltd. (CCIL) and CCIL is the central counterparty for such transactions guaranteeing settlement, the single counterparty limit of 10% shall not be applicable.
- (g) Exposure due to derivative positions taken for hedging purposes in excess of the underlying position against which the hedging position has been taken, shall be treated under the limits mentioned in point a) above.
- (h) Definition of Exposure in case of Derivatives Positions – Each position taken in derivatives shall have an associated exposure as defined under. Exposure is the maximum possible loss that may occur on a position. However, certain derivative positions may theoretically have unlimited possible loss.

Exposure in derivative positions shall be computed as follows:

Position	Exposure
Long Future	Futures Price * Lot Size * Number of Contracts
Short Future	Futures Price * Lot Size * Number of Contracts
Option Bought	Option Premium Paid * Lot Size * Number of Contracts

Exposure limit for participating in Interest Rate Futures

The following has been prescribed vide of Clause 12.25 of SEBI Master Circular dated June 27, 2024:

- To reduce interest rate risk in a debt portfolio, mutual funds may hedge the portfolio or part of the portfolio (including one or more securities) on weighted average modified duration basis by using Interest Rate Futures (IRFs). The maximum extent of short position that may be taken in IRFs to hedge interest rate risk of the portfolio or part of the portfolio, is as per the formula given below:

$$\frac{(\text{Portfolio Modified Duration} * \text{Market Value of the Portfolio})}{(\text{Futures Modified Duration} * \text{Future Price} / \text{PAR})}$$
- In case the IRF used for hedging the interest rate risk has different underlying security(s) than the existing position being hedged, it would result in imperfect hedging.

iii. Imperfect hedging using IRFs may be considered to be exempted from the gross exposure, upto maximum of 20% of the net assets of the Scheme, subject to the following:

01. Exposure to IRFs is created only for hedging the interest rate risk based on the weighted average modified duration of the bond portfolio or part of the portfolio.

02. Mutual Funds are permitted to resort to imperfect hedging, without it being considered under the gross exposure limits, if and only if, the correlation between the portfolio or part of the portfolio (excluding the hedged positions, if any) and the IRF is at least 0.9 at the time of initiation of hedge. In case of any subsequent deviation from the correlation criteria, the same may be rebalanced within 5 working days and if not rebalanced within the timeline, the derivative positions created for hedging shall be considered under the gross exposure computed in terms of Para 21 a) above. The correlation should be calculated for a period of last 90 days.

Explanation: If the fund manager intends to do imperfect hedging upto 15% of the portfolio using IRFs on weighted average modified duration basis, either of the following conditions need to be complied with:

- The correlation for past 90 days between the portfolio and the IRF is at least 0.9 or
- The correlation for past 90 days between the part of the portfolio (excluding the hedged portions, if any) i.e. at least 15% of the net asset of the Scheme (including one or more securities) and the IRF is at least 0.9.

03. At no point of time, the net modified duration of part of the portfolio being hedged should be negative.

04. The portion of imperfect hedging in excess of 20% of the net assets of the Scheme should be considered as creating exposure and shall be included in the computation of gross exposure in terms of 20.a) above.

iv. The basic characteristics of the Scheme should not be affected by hedging the portfolio or part of the portfolio (including one or more securities) based on the weighted average modified duration.

Explanation: In case of long term bond fund, after hedging the portfolio based on the modified duration of the portfolio, the net modified duration should not be less than the minimum modified duration of the portfolio as required to consider the fund as a long term bond fund.

v. The interest rate hedging of the portfolio should be in the interest of investors.

21. The scheme shall make investment in /purchase debt and money market securities with maturity of upto 91 days only.

22. For investment in debt instruments with special features, the limits are:

- a) Across all schemes of mutual fund, not more than 10% of such instruments issued by single issuer.
- b) A mutual fund scheme shall not invest-
 - More than 10% of NAV of debt portfolio of the scheme in such instruments;
 - More than 5% of NAV of debt portfolio of the scheme in such instruments issued by single issuer.

Explanation:

a. In case of securities where the principal is to be repaid in a single payout the maturity of the securities shall mean residual maturity.

In case the principal is to be repaid in more than one payout then the maturity of the securities shall be calculated on the basis of weighted average maturity of security.

- b. In case of securities with put and call options (daily or otherwise) the residual maturity of the securities shall not be greater than 91 days.
- c. In case the maturity of the security falls on a non-business day then settlement of securities will take place on the next business day.

The Scheme will comply with SEBI regulations and any other Regulations applicable to the investments of Mutual Funds from time to time. The Trustees may alter the above restrictions from time to time to the extent that changes in the Regulations may allow and/or as deemed fit in the general interest of the Unitholders.

All investment restrictions shall be applicable at the time of making the investment.

C. Fundamental Attributes

G. Other Scheme Specific Disclosures:

Listing and transfer of units	The Scheme is an open ended scheme, sale and repurchase is available on a continuous basis and therefore the Units of the Scheme are presently not proposed to be listed on any stock exchange . However, the Fund may at its sole discretion list the Units under the Scheme on one or more Stock Exchanges at a later date, and thereupon the Fund will make a suitable public announcement to that effect. In accordance with clause 14.4.4 of SEBI Master Circular units of the Scheme that are held in electronic (demat) form, will be transferable and will be subject to the transmission facility in accordance with the provisions of SEBI (Depositories and Participants) Regulations, 1996 as may be amended from time to time. Units of the Scheme are freely transferable in demat and non demat mode. If a person becomes a holder of the Units consequent to operation of law, or upon enforcement of a pledge, the Fund will, subject to production of satisfactory evidence, effect the transfer, if the transferee is otherwise eligible to hold the Units. Similarly, in cases of transfers taking place consequent to death, insolvency etc., the transferee's name will be recorded by the Fund subject to production of satisfactory evidence.
Dematerialization of units	Unit holder has an option to subscribe in dematerialized (demat) form the units of the Scheme in accordance with the provisions laid under the Scheme and in terms of the guidelines/ procedural requirements as laid by the Depositories (NSDL/CDSL) from time to time. In case, the Unit holder desires to hold the Units in a Dematerialized /Rematerialized form at a later date, the request for conversion of units held in non-demat form into Demat (electronic) form or vice-versa should be submitted along with a Demat/Remat Request Form to their Depository Participants. Units held in demat form will be transferable subject to the provisions laid under the scheme and in accordance with provisions of Depositories Act, 1996 and the Securities and Exchange Board of India (Depositories and Participants) Regulations, 2018 as may be amended from time to time
Maximum Amount to be raised (if any)	Nil
Dividend Policy (IDCW)	For Daily dividend option the record date shall be Daily (on all dates on which NAV is declared). For weekly dividend option, the record date shall be Friday (in the relevant week) and if Friday is a non-business day, the preceding business day shall be the record

		date. For Monthly Dividend /IDCW option the record date will be second last business day of the relevant calendar month and in case the record date falls on a non-business day, then preceding business day will be the record date.
Allotment procedure)	(Detailed)	For NFO allotment and fresh purchase during ongoing sales with creation of a new Folio: • The AMC shall allot the units to the applicant whose application has been accepted and also send confirmation specifying the number of units allotted to the applicant by way of email and/or SMS's to the applicant's registered email address and/or mobile number within five working days from the date of closure of the NFO / transaction. • The AMC shall issue to the investor whose application has been accepted, an account statement specifying the number of units allotted within five business days of closure of NFO/transaction. For allotment in demat form the account statement shall be sent by the depository / depository participant, and not by the AMC. • For NFO allotment in demat form, the AMC shall issue units in dematerialized form to a unit holder within two working days of the receipt of request from the unit holder. For those unitholders who have provided an e-mail address, the AMC will send the account statement by e-mail instead of physical statement. • The unitholder may request for an account statement by writing / calling us at any of the ISC and the AMC shall provide the account statement to the investor within 5 business days from the receipt of such request. Pursuant to clause 14.4 of SEBI Master Circular, investors are requested to note the following regarding dispatch of account statements: A) Consolidated Account Statement (CAS) - for Unitholders who have registered their PAN / PEKRN with the Mutual Fund: <u>Investors who hold demat account and have registered their PAN with the mutual fund:</u> For transactions in the schemes of Bandhan Mutual Fund, a Consolidated Account Statement, based on PAN of the holders, shall be sent by Depositories to investors holding demat account, for each calendar month on or before fifteenth day of the succeeding month to the investors in whose folios transactions have taken place during that month. Due to this regulatory change, AMC has now ceased sending account statement (physical / e-mail) to the investors after every financial transaction including systematic transactions. The CAS shall be generated on a monthly basis. AMCs/ RTAs shall share the requisite information with the Depositories on monthly basis to enable generation of CAS. Consolidation of account

statement shall be done on the basis of PAN. In case of multiple holding, it shall be the PAN of the first holder and pattern of holding. Based on the PANs provided by the AMCs/MF-RTAs, the Depositories shall match their PAN database to determine the common PANs and allocate the PANs among themselves for the purpose of sending CAS. For PANs which are common between depositories and AMCs, the Depositories shall send the CAS.

In case investors have multiple accounts across the two depositories, the depository having the demat account which has been opened earlier shall be the default depository which will consolidate details across depositories and MF investments and dispatch the CAS to the investor. However, option shall be given to the demat account holder by the default depository to choose the depository through which the investor wishes to receive the CAS.

In case of demat accounts with nil balance and no transactions in securities and in mutual fund folios, the depository shall send the account statement to the investor as specified under the regulations applicable to the depositories.

Consolidated account statement sent by Depositories is a statement containing details relating to all financial transactions made by an investor across all mutual funds viz. purchase, redemption, switch, Payout of IDCW option, Reinvestment of IDCW option, systematic investment plan, systematic withdrawal plan, systematic transfer plan, bonus etc. (including transaction charges paid to the distributor) and transaction in dematerialised securities across demat accounts of the investors and holding at the end of the month. The CAS shall also provide the total purchase value / cost of investment in each scheme.

Further, a consolidated account statement shall be sent by Depositories every half yearly (September/March), on or before twenty first day of succeeding month.

Such half-yearly CAS shall be issued to all MF investors, excluding those investors who do not have any holdings in MF schemes and where no commission against their investment has been paid to distributors, during the concerned half-year period.

Investors whose folio(s)/demat account(s) are not updated with PAN shall not receive CAS. Investors are therefore requested to ensure that their folio(s)/demat account(s) are updated with PAN. For Unit Holders who have provided an e-mail address to the Mutual Fund or in KYC records, the CAS will be sent by e-mail. However, where an investor does not wish to receive CAS through email, option shall be given to the investor to receive the CAS in physical form at the address registered in the Depository system.

Investors who do not wish to receive CAS sent by depositories have an option to indicate their negative consent. Such investors may contact the depositories to opt out.

Other investors:

	The Consolidated Account Statement (CAS) for each calendar month shall be issued on or before fifteenth day of succeeding month to the investors who have provided valid Permanent Account Number (PAN) / PAN Exempt KYC Registration Number (PEKRN). Due to this regulatory change, AMC has now ceased sending physical account statement to the investors after every financial transaction including systematic transactions. The CAS shall be generated on a monthly basis. The Consolidated Account Statement issued is a statement containing details relating to all financial transactions made by an investor across all mutual funds viz. purchase, redemption, switch, Payout of IDCW option, Reinvestment of IDCW option, systematic investment plan, systematic withdrawal plan, systematic transfer plan, bonus etc. (including transaction charges paid to the distributor) and holding at the end of the month. The CAS shall also provide the total purchase value / cost of investment in each scheme. Further, a consolidated account statement shall be issued every half yearly (September/March), on or before twenty first day of succeeding month. Such half-yearly CAS shall be issued to all MF investors, excluding those investors who do not have any holdings in MF schemes and where no commission against their investment has been paid to distributors, during the concerned half-year period. The CAS will be sent via email (instead of physical statement) where any of the folios consolidated has an email id or to the email id of the first unit holder as per KYC records. B) For Unitholders who have not registered their PAN / PEKRN with the Mutual Fund: For folios not included in the Consolidated Account Statement (CAS): • The AMC shall allot the units to the applicant whose application has been accepted and also send confirmation specifying the number of units allotted to the applicant by way of email and/or SMS's to the applicant's registered email address and/or mobile number within five working days from the date of transaction. • The AMC shall issue account statement to the investors on a monthly basis, pursuant to any financial transaction in such folios on or before tenth day of succeeding month. The account statement shall contain the details relating to all financial transactions made by an investor during the month, the holding as at the end of the month and shall also provide the total purchase value / cost of investment in each scheme. • For those unitholders who have provided an e-mail address, the AMC will send the account statement by e-mail instead of physical statement. • The unitholder may request for an account statement by writing / calling us at any of the ISC and the AMC shall provide the
--	---

	account statement to the investor within 5 business days from the receipt of such request. Further, an account statement shall be sent by the AMC every half yearly (September/March), on or before twenty first day of succeeding month. Such half-yearly account statement shall be issued to all investors, excluding those investors who do not have any holdings in BANDHAN MF schemes and where no commission against their investment has been paid to distributors, during the concerned half-year period. C) For all Unitholders In case of a specific request received from the unit holder, the AMC shall provide the account statement to the investor within 5 business days from the receipt of such request.

(b) details of the scheme portfolio including the scheme risk-o-meter, name of benchmark and risk-o-meter of benchmark while communicating the fortnightly, monthly and half-yearly statement of scheme portfolio via email.

Further, pursuant to clause 17.4.1.h of SEBI Master Circular, any change in risk-o-meter shall be communicated by way of Notice cum Addendum and by way of an e-mail or SMS to unitholders of that particular scheme.

Risk-o-meter shall be evaluated on a monthly basis and Mutual Funds/AMCs shall disclose the Risk-o-meter along with portfolio disclosure for all their schemes on the website of the Mutual Fund (www.bandhanmutual.com) and that of AMFI (www.amfiindia.com) within 10 days from the close of each month.

Mutual Funds shall also disclose the risk level of schemes as on March 31 of every year, along with number of times the risk level has changed over the year, on its website and AMFI website.

Investors may please note that the Risk-o-meter disclosed is basis internal assessment of the scheme portfolio as on the date of disclosure.

Scheme Summary Document

Pursuant to SEBI advisory dated December 28, 2021, a standalone scheme document called 'Scheme Summary Document' for all the Schemes of Bandhan Mutual Fund has been hosted on its website (www.bandhanmutual.com) which contains all the details of the Schemes including but not limited to Scheme features, Fund Manager details, investment details, investment objective, expense ratios, portfolio details, etc. The Scheme Summary Document is uploaded on the website of the Mutual Fund, AMFI and stock exchanges in 3 data formats i.e. PDF, Spreadsheet and a machine readable format (either JSON or XML).

Potential Risk Class (PRC) Matrix

Pursuant to the Clause 17.5 of SEBI Master Circular dated June 27, 2024, all debt schemes are required to be classified in terms of a Potential Risk Class matrix consisting of parameters based on maximum interest rate risk (measured by Macaulay Duration (MD) of the scheme) and maximum credit risk (measured by Credit Risk Value (CRV) of the scheme). Mutual Funds are required to disclose the PRC matrix (i.e. maximum risk that a fund manager can take in a Scheme) along with the mark for the cell in which the Scheme resides on the front page of initial offering application form, SID, KIM, common application form and scheme advertisements in the manner as prescribed in the said circular. The scheme would have the flexibility to take interest rate risk and credit risk below the maximum risk as stated in the PRC matrix. Subsequently, once a PRC cell selection is done by the Scheme, any change in the positioning of the Scheme into a cell resulting in a risk (in terms of credit risk or duration risk)

which is higher than the maximum risk specified for the chosen PRC cell, shall be considered as a fundamental attribute change of the Scheme in terms of Regulation 18(15A) of SEBI (Mutual Fund) Regulations, 1996.

C. Transparency/NAV Disclosure:

NAV will be determined for every Business Day except in special circumstances. NAV will be calculated upto three decimal places. NAV of the Scheme shall be made available on the website of AMFI (www.amfiindia.com) and the Mutual Fund (www.Bandhanmutual.com) by 11.00 p.m. on all business days. The NAV shall also be available on the Toll Free Number -1800-300-66688/1-800-2666688 and on the website of the Registrar and Transfer Agent CAMS (www.camsonline.com).

For details please refer Section I - Part I (HIGHLIGHTS/SUMMARY OF THE SCHEME)

D. Transaction charges and stamp duty:

Transaction charges : In terms of Notice-Cum-Addendum no. 54 of 2024 dated August 26, 2024, Bandhan AMC Limited has decided to discontinue the payment of transaction charges to distributors of the schemes of Bandhan Mutual Fund with effect from September 01, 2024 ('the Effective Date'). Accordingly, from the Effective Date, for transactions/applications received through distributors (i.e. in Regular Plan) no transaction charges will be deducted from the subscription/investment amount given by the investor, and full subscription/investment amount (subject to deduction of statutory charges, if any) will be invested in the scheme(s) of Bandhan Mutual Fund.

Stamp Duty : Rate of stamp duty applicable from July 1, 2020 is: 0.005%

The collection of stamp duty is subject to the *Indian Stamp (Collection of Stamp-duty through Stock Exchanges, Clearing Corporations and Depositories) Rules, 2019*.

MFCentral as Official Point of Acceptance:

For enhancing investors’ experience in Mutual Fund transactions / service requests, the Qualified RTAs (QRTA’s), Kfin Technologies Private Limited (Kfintech) and Computer Age Management Services Limited (CAMS) have jointly developed MFCentral - A digital platform for Mutual Fund investors.

MFCentral is created with an intent to be a one stop portal / mobile app for all Mutual fund investments and service-related needs that significantly reduces the need for submission of physical documents by enabling various digital / phygital services to Mutual fund investors across fund houses subject to

applicable Terms & Conditions of the Platform. MFCentral may be accessed using <https://mfcentral.com/>

Any registered user of MFCentral, requiring submission of physical document as per the requirements of MFCentral, may do so at any of the designated Investor Service centres or collection centres of Kfintech or CAMS.

Open Network for Digital Commerce (ONDC) (“ONDC Network”) as Official Point of Acceptance:

To increase the network and enhance the service levels for investors, with effect from October 6, 2025, Cybrilla platform will be appointed as one of the official points of acceptance for transactions under all schemes of Bandhan Mutual Fund (‘the Fund’), excluding Exchange Traded Fund [ETFs]. The facility shall be extended to allow financial transactions i.e. Subscription/ Redemption/ Switch/ SIP/ STP through Cybrilla platform. The provision of this facility shall be subject to the terms and conditions specified and guidelines issued by SEBI. Bandhan AMC Limited reserves the right to later introduce, modify, restrict, withdraw all or any of the features available in this facility from time to time.
