## A. HOW WILL THE SCHEME ALLOCATE ITS ASSETS?

The asset allocation under the Scheme, under normal circumstances, will be as follows:

| Instruments                                                  | Indicative allocations<br>(% of total assets) |         |
|--------------------------------------------------------------|-----------------------------------------------|---------|
|                                                              | Minimum                                       | Maximum |
| Open-ended diversified Equity Schemes across All Market Caps | 95                                            | 100     |
| Money Market Instruments                                     | 0                                             | 5       |

The scheme will only invest in third party mutual funds. The Scheme shall invest in diversified equity schemes across All Market Caps of Mutual Funds.

The cumulative gross exposure across Equity Schemes and Money Market Instruments shall not exceed 100% of the net assets of the Scheme pursuant to para 13.18.1 of SEBI Master Circular no. HO/24/13/11(1)2026-IMD-POD-1/I/7602/2026 dated March 20, 2026.

Pursuant to Para No. 13.18.6. of the SEBI Master Circular for Mutual Funds dated March 20, 2026 read with SEBI letter no. SEBI/HO/IMD-II/DOF3/ OW/P/2021/31487 /1 dated November 03, 2021, Cash and cash equivalents which includes T-bills, Government Securities and Repo on Government Securities having residual maturity of less than 91 Calendar Days, shall not be considered for the purpose of calculating gross exposure limit.

The Scheme may enter into repos/reverse repos as may be permitted by RBI/SEBI. From time to time, the Scheme may hold cash. A part of the net assets may be invested in the Tri-party Repos on Government Securities or Treasury Bills (TREPS) or repo as may be provided by RBI to meet the liquidity requirements, subject to regulatory approval, if any.

### **Portfolio Rebalancing in case of deviation from Asset Allocation Under Defensive Consideration**

The asset allocation pattern indicated above may change from time to time, depending on liquidity considerations or on account of high levels of subscriptions or Repurchase / Redemptions relative to Scheme size, or upon various defensive considerations including market conditions, market opportunities, applicable regulations and political and economic factors. These proportions may vary depending upon the perception of the AMC the intention being at all times to seek to protect the interests of the Unitholders. Such changes in the investment pattern will be for short term and only for defensive considerations in accordance with Para No. 1.9.1. (b) of SEBI Master Circular for Mutual Funds dated March 20, 2026. In the event of deviations from the above asset allocation table, the Fund Manager will carry out rebalancing within 30 Calendar Days. However, at all the times the portfolio will adhere to the overall investment objectives of the Scheme.

### **Portfolio Rebalancing in case of Passive Breach**

Pursuant to Para No. 3.11. of SEBI Master Circular for Mutual Funds dated March 20, 2026, in the event of deviation from the above asset allocation due to passive breaches (occurrence of instances not arising out of omission and commission of the AMC), the rebalancing shall be done within 30 Business Days. In case the rebalancing is not done within 30 Business Days, then justification in writing including details of efforts taken to rebalance the portfolio shall be placed before the Investment Committee. The Investment Committee, if so desires, can extend the timelines up to 60 Business Days from the date of completion of mandated rebalancing period (i.e. 30 Business Days).

In case the portfolio of scheme is not rebalanced within the aforementioned mandated plus extended timelines, the AMCs shall:

- i. not be permitted to launch any new scheme till the time the portfolio is rebalanced.
- ii. not levy exit load, if any, on the investors exiting the scheme.

The AMC shall report the deviation to Trustees at each stage. The reporting to Trustees shall be initiated immediately after the expiry of the mandated rebalancing period (i.e. 30 Business Days). Further, in case the AUM of deviated portfolio is more than 10% of the AUM of main portfolio of scheme, the AMC shall immediately after the expiry of the mandated rebalancing period (i.e. 30 Business Days):

1. disclose the same to the investors through SMS and email / letter including details of portfolio not rebalanced.
2. communicate to investors through SMS and email / letter when the portfolio is rebalanced.

Deviation of the portfolio, beyond the specified limits, from the mandated asset allocation beyond 30 Business Days shall also be disclosed on the website of the AMC.

The AMC shall also disclose any deviation from the mandated asset allocation to investors along with periodic portfolio disclosures as specified by SEBI from the date of lapse of mandated plus extended rebalancing timelines.

## **B. WHERE WILL THE SCHEME INVEST?**

Subject to the SEBI (MF) Regulations and the disclosures as made under the Section “HOW WILL THE SCHEME ALLOCATE ITS ASSETS?”, the corpus of the Scheme can be invested in any (but not exclusive) of the following securities / instruments:

- a) Open-ended diversified Equity Schemes across all Market Caps of Mutual Funds
- b) Money Market Instruments
- c) Any other Securities / asset class / instruments as permitted under SEBI (MF) Regulations in line with the Investment Objective of the Scheme subject to regulatory approval, if any required.

Pending deployment of funds in securities in terms of investment objective of the Scheme, the AMC may park the funds of the Scheme in short term deposits of Scheduled Commercial Banks, subject to the guidelines issued by SEBI vide Para 13.7. of SEBI Master Circular for Mutual Funds dated March 20, 2026, as may be amended from time to time.

## **C. WHAT ARE THE INVESTMENT STRATEGIES?**

### **Investment Philosophy/Strategy**

The investment strategy of the Scheme will be to invest in diversified Equity Schemes of mutual funds across all Market Caps, after using intensive fundamental analysis both quantitative and qualitative, monitor the portfolio regularly but not so as to engage in excessive churning, and control risk by keeping portfolio adequately diversified.

The scheme will only invest in diversified Equity Schemes of other Mutual Funds and not in Equity Schemes of Quantum Mutual Fund.

The Scheme will invest its corpus in diversified Equity Schemes across All Market Cap that have been in existence for at least 3 years at the time of making investments. The schemes that get short-listed will be tested across the quantitative and qualitative parameters, set as a part of the scheme selection process. The AMC may appoint an agency to provide overall research on diversified equity schemes. The Investment Decision shall be made by the Investment team. The Investment Committee of the AMC will from time-to-time review and approve the overall investment policy and strategy of the portfolio held by the Scheme.

### **Investment Portfolio**

The Scheme's investment portfolio will consist of investments in diversified Equity Schemes across all Market Caps / based on varied categories covering Multi Cap Fund, Large Cap Fund, Large & Mid Cap Fund, Mid Cap Fund, Small Cap Fund, Focused Fund and Flexi Cap Fund and any other Equity Scheme categories based on market cap as prescribed under SEBI Regulation from time to time. The scheme will not invest in schemes wherein such underlying scheme invests based on factors like momentum, volatility etc.

While the majority of the assets will be invested in the diversified Equity Schemes across All Market Caps, the Scheme may also invest in Money Market Instruments for the purpose of managing liquidity.

The portfolio will comprise of 5 to 10 different diversified Equity Schemes across all Market Caps and the investment in any one mutual fund scheme will be in the range of 10% to 25% of the scheme's net assets.

## **INVESTMENT PROCESS AND RECORDING OF INVESTMENT DECISIONS**

### **INVESTMENT PROCESS**

The investment process consists of:

1. Fund selection
2. Portfolio construction

#### **1. FUND SELECTION**

Thereafter, the short-listed schemes are evaluated based on qualitative criteria. The qualitative parameters will largely judge the scheme on the parameters like fund house's investment systems and processes, consistency in characteristics of its portfolio among others. Schemes that emerge as the top performers shall form part of the final portfolio.

## **2. PORTFOLIO CONSTRUCTION**

1. The scheme will only invest in third party mutual funds and will not make any investments in schemes of Quantum Mutual Fund.
2. The portfolio will have 5 to 10 open-ended diversified equity mutual fund schemes across all Market Caps.
3. The Scheme shall not invest more than 20% of its assets in a single scheme with a 3-year track record. The overall exposure in the schemes with a 3-year track record shall not exceed 40% of the Portfolio.
4. The Scheme shall not invest more than 25% of its assets in a single scheme with a 5-year track record.
5. A minimum of 10% of the portfolio will be invested in any single scheme.
6. The portfolio will comprise of a maximum of 10 schemes.
7. The portfolio will have a minimum of 5 schemes.

## **RECORDING OF INVESTMENT DECISIONS**

The investment decisions are made by the AMC's Portfolio / Investment Team. The Portfolio / Investment Team comprises of the Fund Manager(s). The final responsibility for the investment decisions rests with the Portfolio / Investment Team. The Portfolio / Investment Team reviews the research reports / presentations / recommendations from the designated agency on the various schemes and keeping in mind the investment objective of the Scheme makes the investment decisions, recording the reasons and justification for each investment decision.

The Chief Executive Officer is not involved in the investment decision making process.

It is the responsibility of the AMC to ensure that the investments are made as per the Internal / Regulatory guidelines, Scheme's investment objective and in the best interest of the Unit holders of the Scheme.

All investment decisions shall be recorded in accordance with provisions of Para No. 7.16. of SEBI Master Circular for Mutual Funds dated March 20, 2026.

## **PERFORMANCE MEASUREMENT AND REPORTING**

The Investment Committee of the AMC, at its regular meeting(s), shall review performance of the Scheme, compliance of the various investment restrictions and compliance with the investment objective stipulated in the Scheme Information Document in accordance with SEBI (MF) Regulations.

The Fund Manager(s) will present the performance of the Scheme to the Board of the AMC and Trustees at their respective periodical Board Meetings.

The Board of AMC and Trustee will review the performance of the Scheme in comparison to the performance of Benchmark and industry peers.

#### D. HOW WILL THE SCHEME BENCHMARK ITS PERFORMANCE?

Tier I Benchmark - BSE 500 TRI

The benchmark is representative of Fund's Investment Objective and Asset Allocation and most suited for comparison for performance of the scheme.

The Trustee/AMC reserves the right to change the benchmark for the evaluation of the performance of the Scheme from time to time, keeping in mind the Investment Objective & Asset Allocation of the Scheme and the appropriateness of the benchmark.

\*Average NAV (i.e. Market Value/units)

The Investment includes investments made under Alignment of Interest by Designated Employees in terms of SEBI Master Circular for Mutual Funds dated March 20, 2026.

For investments by key personnel and AMC directors including regulatory provisions in this regard, kindly refer the SAI.

## vii. INVESTMENTS OF AMC IN THE SCHEME

The AMC may invest in the Scheme at any time during the continuous offer period subject to the SEBI Regulations & Circulars issued by SEBI and to the extent permitted by its Board of Directors from time to time. As per the existing SEBI Regulations, the AMC will not charge investment management and advisory fees on the investment made by it in the Scheme.

Further, the AMC shall, based on the risk value assigned to the scheme, invest minimum amount as a percentage of assets under management of the scheme, pursuant to Para No. 7.13.1. of SEBI Master Circular for Mutual Funds dated March 20, 2026. For details of such investments, please refer the link: <https://www.quantumamc.com/fileCDN/pdf/MUTUAL-FUND-INVESTMENT-SCHEMEWISE-DATA.pdf>

## **A. COMPUTATION OF NAV**

The Net Asset Value (NAV) per unit will be computed by dividing the net assets of the Scheme/Plan/Option by the number of units outstanding under the Scheme/Plan/Option on the valuation date.

**The Net Assets Value (NAV) per unit under the Scheme/Plan/Option shall be calculated as follows:**

$$\text{NAV (₹)} = \frac{\text{Market or Fair Value of Scheme's Investments} + \text{Current Assets including accrued income} - \text{Current Liabilities and Provisions including accrued expenses}}{\text{No. of Units outstanding under Scheme/Plan/Option}}$$

**The numerical illustration of the above method is provided below:**

Market or Fair Value of Scheme's investments (Rs.) = 12,00,000

Current Assets (Rs.) = 7,00,000

Current Liabilities and Provisions (Rs.) = 5,00,000

No. of Units outstanding under the Scheme = 1,20,000

$$\text{NAV per unit (Rs.)} = \frac{12,00,000 + 7,00,000 - 5,00,000}{1,20,000} = \frac{14,00,000}{1,20,000} = 11.667$$

The NAV will be calculated and disclosed by next Business Day up to 10.00 A.M. The repurchase price shall not be lower than 97% of the NAV subject to SEBI (MF) Regulations as amended from time to time. For other details such as policies w.r.t computation of NAV, rounding off, procedure in case of delay in disclosure of NAV etc. refer to SAI.

### **Sale (Subscription) and Repurchase (Redemption) Price Illustration:**

Assumed NAV Rs.11.00 Per Unit, Entry Load – Nil, Exit Load – 1%

Sale Price = NAV + (Entry Load (%) (if any) \* NAV)

Sale Price = 11 + (0% \* 11)

Sale Price = 11 + 0

Sale Price = Rs.11/-

Repurchase Price = NAV – (Exit Load (%) \* NAV)

Repurchase Price = 11 – (1% \* 11)

Repurchase Price = 11 – 0.11

Repurchase Price = Rs.10.89

## **B. NEW FUND OFFER (NFO) EXPENSES**

This section does not apply to the Scheme covered in this SID, as the ongoing offer of the Scheme has commenced after the NFO and the Units are available for continuous subscription and redemption.

### C. ANNUAL SCHEME RECURRING EXPENSE

These are the fees and expenses for operating the scheme. These expenses include Investment Management and Advisory Fee charged by the AMC, Registrar and Transfer Agents' fee, marketing and selling costs etc.

The AMC may charge up to 2.10 % of the daily net assets of the scheme as Base Expense Ratio (BER). For the actual current expenses being charged, the investor should refer to the website of the Mutual Fund ([www.QuantumAMC.com](http://www.QuantumAMC.com)).

- **Brokerage Cost** for the purpose of execution of trade, over and above the Base Expense Ratio subject to a maximum of 0.06 per cent of trade value in case of cash market transactions and 0.02 per cent of trade value in case of derivatives transactions. Expense charged towards brokerage, over and above the specified limit, shall be part of the BER limit specified as above.
- **Transaction cost** incurred for the purpose of execution of a trade shall mean regulatory levies and any other expenses charged by the stock exchanges, clearing corporation, and clearing house, as applicable. Such transaction costs shall be over and above the Base Expense Ratio.
- **Statutory levy** means levy imposed by State Government and Central Government.

The total of all expenses charged to the investors of the scheme shall include: Base Expense Ratio limit specified under Regulation 66(7); brokerage cost permitted under Regulation 66(9); transaction cost incurred for the purpose of execution of trade as referred under Regulation 66(10), and statutory levies charged to the investors.

- No charges other than the base expense ratio, brokerage cost, transaction cost, statutory levy and exit load including levies as may be specified by the Board, shall be charged to the investors.
- Any expenditure in excess of the base limits specified in the SEBI (MF) Regulations shall be borne by the AMC or Trustee or Sponsor. If any expense of the scheme is borne by the AMC or by the Trustees or Sponsor, the same shall be done only after the investment and advisory fees charged to the scheme, if any, is fully reversed.

As per Regulation 66 (8) of SEBI (Mutual Funds) Regulations, 2012, the Base Expense Ratio to be charged over and above the weighted average of the Base Expense Ratio of the underlying scheme shall not exceed two times the weighted average of the Base Expense Ratio levied by the underlying scheme(s) subject to the overall ceiling of the scheme of 2.10 % as prescribed under Regulation 66(7).

Direct Plan shall have a lower expense ratio excluding distribution expenses, commission, etc. and no commission for distribution of Units will be paid/ charged under Direct Plan.

The Fund will disclose the Total Expense Ratio (TER) of the Scheme on a daily basis on the website of the AMC ([www.QuantumAMC.com](http://www.QuantumAMC.com)) and of AMFI ([www.amfiindia.com](http://www.amfiindia.com)). Any change in the Base Expense Ratio charged to any scheme/plan shall be communicated to investors of the scheme/plan through notice via email or SMS at least three working days prior to effecting such change. Investors can refer the aforesaid notice on the AMC website at the link: <https://www.quantumamc.com/total-expense-ratio>.

Investors will be bearing the recurring expenses of the Scheme in addition to the expenses of the underlying schemes in which the Scheme makes investment.

### **B. Risk Factors**

**Scheme specific risk factors:**

#### **Risk Factors related to investments in Equity Schemes**

1. The Scheme proposes to invest in the diversified equity schemes across all market caps of Mutual Funds. Hence the scheme's performance will depend upon the performance of the underlying schemes. Any change in the investment policies or the fundamental attributes of the underlying schemes may affect the performance of the scheme.
2. Investments in underlying equity schemes will have all the risks associated with such schemes including performance of underlying stocks, derivative investments, off shore investments, stock lending, etc.
3. The investors of the Scheme shall bear the recurring expenses and loads if any of the Scheme in addition to the expenses & loads of the underlying schemes. Hence the investor under the Scheme may receive lower pre-tax returns than that they could have received if they had invested directly in the underlying schemes in the same proportions.
4. The Portfolio disclosure of the Scheme will be limited to providing the particulars of the underlying schemes where the Scheme has invested and will not include the investments made by the underlying schemes.
5. The changes in asset allocation may result in higher transaction costs.
6. Since the Scheme proposes to invest at least in 5 underlying schemes, the significant underperformance in even one of the underlying schemes may adversely affect the performance of the Scheme.

#### **Risk Related to Debt & Money Market Instruments**

- **Interest Rate Risk/Market Risk:**

Changes in interest rate may affect the Scheme's net asset value. Generally, the prices of instruments increase as interest rates decline and decrease as interest rates rise. Prices of long-term securities fluctuate more in response to such interest rate changes than short-term securities. Indian debt and government securities markets can be volatile leading to the possibility of price movements up or down in the fixed income securities and thereby to possible movements in the NAV.

- **Credit Risk or Default Risk:**

Credit risk or Default risk refers to the risk that an issuer of a debt instrument may default (i.e. the issuer will be unable to make timely principal and interest payments on the security). Because of this risk, bonds issued by non-government agencies are sold at a higher yield above those offered on Government Securities which are sovereign obligations and free of credit risk. Normally, the value of a debt instrument

will fluctuate depending upon the changes in the perceived level of credit risk as well as any actual event of default. The greater the credit risk, the greater the yield required for someone to be compensated for the increased risk.

- **Liquidity Risk:**

This refers to the ease at which a security can be sold at or near its true value. The primary measure of liquidity risk is the spread between the bid price and the offer price quoted by a dealer. Reduced liquidity in the secondary market may have an adverse impact on market price and the Scheme's ability to dispose of particular securities, when necessary, to meet the Scheme's liquidity needs or in response to a specific economic event or even during rebalancing of the Scheme's investment portfolio.

- **Concentration Risk:**

The Scheme will invest in certain securities of certain companies, industries, sectors, asset type etc. based on its investment objectives and policies as outlined in this Scheme Information Document. The funds invested by the Scheme in certain securities of industries, sectors, etc. may acquire a substantial portion of the Scheme's investment portfolio and collectively may constitute a risk associated with non-diversification and thus could affect the value of investments.

- **Settlement Risk:**

Different segments of the financial markets have different settlement cycle/ periods and such settlement cycle/periods may be impacted by unforeseen circumstances, leading to Settlement Risk. The liquidity of the Scheme's investments may be inherently restricted by trading volumes, transfer procedures and settlement periods.

- **Re-investment Risk:**

This risk refers to the interest rate levels at which cash flows received from the securities in the Scheme or from maturities in the Scheme are reinvested. The additional income from reinvestment is the "interest on interest" component. The risk refers to the fall in the rate for reinvestment of interim cash flows than earlier assumed.

Certain fixed income securities give an issuer the right to call back its securities before their maturity date, in periods of declining interest rates. The possibility of such prepayment may force the fund to reinvest the proceeds of such investments in securities offering lower yields, resulting in lower interest income for the Scheme.

- **NAV Performance Risk:**

The value of, and income from, an investment in the Scheme can decrease as well as increase, depending on a variety of factors which may affect the values and income generated by the Scheme's portfolio of securities. The returns of the Scheme's investments are based on the current yields of the securities, which may be affected generally by factors affecting capital markets such as price and volume, volatility in the stock markets, interest rates, currency exchange rates, foreign investment, changes in Government and Reserve Bank of India policy, taxation, political, economic or other developments, closure of the Stock Exchanges etc.

Investors should understand that the investment pattern indicated, in line with prevailing market conditions, is only a hypothetical example as all investments involve risk and there is no assurance that the

Scheme's investment objective will be attained or that the Scheme shall be in a position to maintain the model percentage of investment pattern particularly under exceptional circumstances. Different types of securities in which the Scheme would invest as stated in the offer document carry different levels and types of risk. Accordingly, the Scheme's risk may increase or decrease depending upon its investment pattern e.g. corporate bonds carry a higher amount of risk than Government securities. Further even amongst corporate bonds, bonds which are AAA rated are comparatively less risky than bonds which are AA rated.

Lower rated or unrated securities are more likely to react to developments affecting the market and carry a higher credit risk than the highly rated securities which react primarily to movements in the general level of interest rates. Lower rated securities also tend to be more sensitive to economic conditions than higher rated securities. The Investment Manager will consider both credit risk and market risk in making investment decisions.

The Scheme will endeavour to invest in highly researched securities offering relative yield for the commensurate risks. However, the erosion in the value of the investments/portfolio in the case of the debt markets passing through a bearish phase is a distinct possibility.

The NAV of the Scheme is largely dependent on the performance of the various debt instruments wherein the investment has been made which may fluctuate from time to time. The Scheme may use techniques and instruments for efficient portfolio management and diversify to reduce the risk of such fluctuations. However, these techniques and instruments if imperfectly used have the risk of the Scheme incurring losses due to mismatches particularly in a volatile market. The Fund's ability to use these techniques may be limited by market conditions, regulatory limits and tax considerations (if any).

Besides, the fact that skills needed to use these instruments are different from those needed to select the Scheme's securities. The use of these techniques involves possible impediments to effective portfolio management or the ability to meet repurchase/redemption requests or other short-term obligations because of the percentage of the Scheme's assets segregated to cover its obligations.

### C. Risk mitigation strategies

Risk is an important part of the investment functions. Effective Risk Management is critical to Fund Management for achieving financial goals. Investments made by the Scheme shall be made in accordance with Investment Objective of the Scheme and provisions of SEBI (MF) Regulations.

The Fund has identified the following Risks and designed Risk Management Strategies, which is the part of the Investment Process to manage such risks.

#### Risk Associated with Equity Schemes

| Type of Risks                                                         | Risk Management Strategies                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
|-----------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Scheme Selection Risk – Risk of investing in a poor performing scheme | The Fund has laid down the criteria for quantitative and qualitative ranking for selection of the schemes which pick up schemes with consistent long-term performance with an emphasis on sound research and investment process. The criteria have been followed by meeting the fund managers of the schemes to ascertain deviation from the strategy. The rebalancing of weightage is also made if necessary. The performances of the underlying schemes are reviewed every six months. |

|                              |                                                                                                                                                                                                                                                                                                                                                                                                                                |
|------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Portfolio concentration Risk | <p>The Fund has laid down the policy in case of portfolio holdings which has criteria for investments into the schemes, limits on the per scheme investments, per mutual fund house and schemes managed by the fund managers.</p> <p>The Fund also calculates the stock and sector concentration based on the weighted stock holdings of the scheme invested and also takes corrective action by rebalancing if necessary.</p> |

### Risk Associated with Debt & Money Market Instruments

| Types of Risk                  | Risk Management Strategies                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
|--------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Interest Rate Risk</b>      | <p>Since the Scheme can invest in short term and long-term instruments; interest rate risk is inherent in the portfolio.</p> <p>The management of interest rate risk is then a function of the quality of the fixed income research inputs and the active investment management strategy.</p> <p>The management of interest rate risk would be achieved by diversification and altering the Scheme maturity profile at appropriate times.</p>                                              |
| <b>Credit and Default Risk</b> | <p>The Scheme investment strategy limits the investments in debt instruments issued by private (non-government) companies. This reduces the inherent credit / default risk of the portfolio.</p> <p>The internal guidelines of the AMC also limit the investment in lower rated instruments. The Scheme has to necessarily invest a major portion of its investments in Treasury securities, government bonds and/or PSU Bonds thus lowering the overall credit risk in the portfolio.</p> |
| <b>Liquidity Risk</b>          | <p>With the overall improvement in the reporting and transparency of traded market data of all debt and money market instruments, the Investments Team can gauge the liquidity of individual instruments in the portfolio. By this, the Scheme can also determine the time taken to liquidate the position based on historical traded data.</p>                                                                                                                                            |
| <b>Concentration Risk</b>      | <p>Quantum Mutual fund has a well laid out investment policy, applicable to all its debt schemes, which has set pre-defined limits of exposure to each security based on its maturity and credit profile.</p> <p>This ensures that the portfolio is not overly concentrated to one issuer or industry.</p> <p>Adequate portfolio liquidity can also help limit the losses due from large portfolio redemption.</p>                                                                         |

|                          |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
|--------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Counterparty Risk</b> | <p>The Fund has single party counter-party limits to limit the damages from a failed settlement or delayed settlement by counterparty.</p> <p>Counterparty risk is also a function of the nature of the instrument and mode of settlement being followed.</p> <p>For instance, in government securities, the settlement of all trades are done through a clearing corporation thus ensuring lower likelihood of failed settlements and counterparty risk.</p>                                                                                                                  |
| <b>Settlement Risk</b>   | <p>Government securities, T-bills, SDLs, TRI-Party Repo are now settled through a counter party clearing mechanism operated and managed by CCIL (clearing Corporation of India Ltd). This has vastly reduced settlement failures in these securities.</p> <p>Although, corporate bonds are still settled on a DVP basis, but the trades are now routed through a clearing corporation. This limits settlement failures arising out of a bilateral settlement.</p> <p>Our counterparty exposure norms also limit the risks of a failed settlement on the overall portfolio.</p> |

## **II. Information about the scheme**

### **A. Where will the scheme invest?**

4. The Mutual Fund shall get the securities purchased/ transferred in the name of the Mutual Fund on account of the Scheme, wherever the investments are intended to be of a long - term nature.
5. The Scheme shall not invest more than 10% of its NAV in debt instruments comprising money market instruments and non-money market instruments issued by a single issuer which are rated not below investment grade by a credit rating agency authorized to carry out such activity under the Act subject to the below limits at rating level:

The scheme shall not invest more than:

- a. 10% of its NAV in debt and money market securities rated AAA; or
- b. 8% of its NAV in debt and money market securities rated AA; or
- c. 6% of its NAV in debt and money market securities rated A and below issued by a single issuer.

The above investment limits may be extended by up to 2% of the NAV of the Scheme with prior approval of the Board of Trustees and Board of Directors of the AMC, subject to overall limit of 12% of the NAV of the Scheme for a single issuer.

Provided that such limit shall not be applicable for investments in Government Securities, treasury bills and Tri-party Repos on Government securities or treasury bills (TREPS).

6. The Scheme shall not invest in unlisted debt instruments including commercial papers, except Government Securities and other money market instruments.

Provided that the Scheme may invest in unlisted non-convertible debentures (NCDs) up to a maximum of 10% of the debt portfolio of the Scheme subject to such conditions as may be specified by SEBI from time to time.

7. Transfer of investments from one scheme to another scheme in the same Mutual Fund, shall be allowed only if:-

- (i) such transfers are made at the prevailing market price for quoted instruments on spot basis

Explanation: spot basis shall have the same meaning as specified by Stock Exchange for spot transactions

- (ii) the securities so transferred shall be in conformity with the investment objective of the scheme to which such transfer has been made.

8. The Scheme may invest in another scheme(s) under the same Mutual Fund or any other mutual fund without charging any fees, provided that aggregate inter-scheme investment made by all schemes of the Mutual Fund under the same management or in schemes under the management of any other AMC shall not exceed 5% of the net asset value of the Mutual Fund.

9. The Scheme shall abide by the following guidelines for parking of funds in short term deposits pursuant to Para No. 13.7. of SEBI Master Circular for Mutual Funds dated March 20, 2026.

- (i) "Short Term" for parking of funds shall be treated as a period not exceeding 91 calendar days.
- (ii) Such short-term deposits shall be held in the name of the Scheme.
- (iii) The Scheme shall not park more than 15% of the net assets in short term deposit(s) across all the scheduled commercial banks. However, such limit may be extended to 20% with prior approval of the Trustee.
- (iv) Parking of funds in short term deposits of associate and sponsor scheduled commercial banks together shall not exceed 20% of total deployment by the Mutual Fund in short term deposits.
- (v) The Scheme shall not park more than 10% of the net assets in short term deposit(s), with any one scheduled commercial bank including its subsidiaries.
- (vi) The Scheme shall not park funds in short-term deposit of a bank, which has invested in the Scheme. Trustees/ AMC shall also take steps to ensure that a bank in which the Scheme has short term deposit does not invest in the Scheme until the Scheme has short term deposit with such bank.
- (vii) No investment management and advisory fees will be charged for such investments in the respective Scheme.

10. The Scheme shall not make any investments in:

- a. any unlisted security of an associate or group company of the Sponsors;
- b. any security issued by way of private placement by an associate or group company of the Sponsors;
- c. the listed securities of group companies of the Sponsors which is in excess of 25% of the net assets;

11. The Scheme shall not invest in any other Fund of Funds Scheme.

The AMC/Trustee may alter these above stated restrictions from time to time to the extent the SEBI (MF) Regulations change, so as to permit the Scheme to make its investments in the full spectrum of permitted investments for mutual funds to achieve its investment objective. All investment restrictions shall be applicable at the time of making investment.
