XXIII.	Special product/facility available during the NFO and on ongoing basis	A. SPECIAL PRODUCTS 1. Systematic Investment Plan (SIP) The scheme have additional feature as mentioned below: Nippon India SIP+ Under this feature SIP instalments will be dynamic and will be based on the prevailing market conditions. Instalment amount will be determined based on NIMF's Quant based Proprietary Model. The model will take into consideration Valuations and other market indicators to derive a multiplier for the SIP instalments. The feature will be available for all the investors of all the plans and options of above mentioned schemes. It will be offered for SIPs with monthly frequency falling on 10th or 28th of every month. Amount of instalment can vary between 0.3X to 3X of the base SIP amount opted by the investor. For availing this feature investor needs to submit physical request at branches of NIMF and in Folio's One Time Bank Mandate ("OTBM") limit has to be 3x of the SIP base amount. Investor needs to submit fresh OTBM request In case the existing registered OTBM limit is less than 3x of the SIP base amount. For example: If base monthly SIP amount is Rs 10,000 then monthly investment can range between Rs 3000 to Rs 30,000 as determined by the NIMF's Quant based Proprietary Model. Instalment calculation day: The instalment value of Nippon India SIP+ will be determined 7 days before the instalment date (T-7). If T-7th falls on a Non-Business day or falls during a book closure period, then instalment value will be determined on the previous working day prior to the T-7th day. Similarly, if the instalment date happens to be on a Non-Business day then instalment will be invested on the next working day falling after the instalment date. Note: Nippon India SIP+ is a smart SIP offered by NIMF which will increase the SIP instalment during favorable market conditions and vice versa. However, the facility does not guarantee higher returns. NIMF / NAM India reserves the right to introduce, change, modify or withdraw any features/ provisions with respect to the said facilities from time to time. 2. Systematic Transfer Plan (STP) The scheme have additional feature as mentioned below:

		Nippon India STP+ Under this feature, STP amount to be transferred from Transferor scheme to the specified transferee scheme will be dynamic and will be based on the prevailing market conditions. Calculation of STP+ instalment/amount: It will be determined based on NIMF's Quant based Proprietary Model. The model will take into consideration Valuations and other market indicators to derive a multiplier for amount to be transferred. Accordingly, the STP instalment can vary between 0.3X to 3X of the base STP amount opted by the investor. For example: If base monthly STP amount is Rs 10,000 then monthly STP can range between Rs 3,000 to Rs 30,000. The feature will be available for all the investors of all the plans and options of above mentioned schemes. It will be offered for STPs with monthly frequency falling on 10th or 28th of every month. If the investor does not select the date, 10th will be considered as the default date. Instalment calculation day: The instalment value of Nippon India STP+ will be determined 7 days before the instalment date (T-7). If T-7th falls on a Non-Business day or falls during a book closure period, then instalment value will be determined on the previous working day prior to the T-7th day. Similarly, if the instalment date happens to be on a Non-Business day then instalment will be invested on the next working day falling after the instalment date Minimum number of STP instalments and STP amount shall be as follows: Note: Nippon India STP+ is a smart STP offered by NIMF which will increase the STP instalment during favorable market conditions and vice versa. Part II. INFORMATION ABOUT THE SCHEME

A. HOW WILL THE SCHEME ALLOCATE ITS ASSETS?

Under normal circumstances, the anticipated asset allocation would be:

Instruments	Indicative asset allocation (% of total assets)		Risk Profile
	Minimum	Maximum	
Equities and equity related securities covered by Nifty 50	95%	100%	Medium to High
Cash/Tri-Party Repo on government securities or T-bills & Reverse Repo & Money Market instruments (CPs,CDs, Tbills, Mibor linked instruments with daily Put/Call options & overnight Interest rate Reset Linked Instruments)but excluding Subscription and Redemption Cash Flow #	0%	5%	Low to Medium

#Subscription Cash Flow is the subscription money in transit before deployment and Redemption Cash Flow is the money kept aside for meeting redemptions.

The securities mentioned above including money market instruments, could be listed, privately placed, secured, unsecured, rated or unrated and of any maturity. The securities may be acquired through Initial Public Offerings (IPOs), secondary market operations, private placement, rights offers or negotiated deals.

For the purposes of this SID, equity and equity related securities include debt securities convertible into shares and rights or warrants to purchase shares. It is the intention of this Scheme to trade in derivatives on the indices or the stocks comprising the indices, as permitted by the Regulations.

The portion of the scheme's portfolio invested in each type of security listed above may vary in accordance with economic conditions, interest rates, liquidity and other relevant considerations, including the risks associated with each investment.

The scheme will, in order to reduce the risks associated with any one security, utilize a variety of investments.

The Scheme may also enter into repurchase and reverse repurchase obligations in securities held by it as per the guidelines and regulations applicable to such transactions. Further, the scheme intends to participate in securities lending as permitted under the Regulations.

The Scheme will not invest in securitised papers and in foreign securities.

Gross investments in securities under the Scheme/ Plan (as the case may be) which includes equities, equity related instruments/securities, debt securities Money Market Instruments and derivatives (including fixed income derivatives) will not exceed 100% of the net assets of the Scheme / Plan (as the case may be) as per Clauses 12.24 and 12.25 of SEBI Master Circular dated June 27, 2024. The net assets of the Scheme will be invested predominantly in stocks constituting the Nifty 50 and / or its exchange traded derivatives. This would be done by investing in almost all the stocks comprising the Nifty 50 in approximately the same weightage that they represent in the Nifty 50 Index and / or investing in derivatives including futures contracts and options contracts on the Nifty 50 Index. A small portion of the net assets will be invested in money market instruments permitted by SEBI / RBI including (CPs,CDs, Tbills, Mibor linked instruments with daily Put/Call options & overnight Interest rate Reset Linked Instruments) as may be provided by the RBI, to meet the liquidity requirements of the Scheme.

Rebalancing of deviation due to short term defensive consideration:

Any alteration in the investment pattern will be for a short term on defensive considerations as per clause 1.14.1.2 of SEBI Master Circular dated June 27, 2024, the intention being always to protect the interests of the Unit Holders and the Scheme shall rebalance the portfolio within 7 calendar days.

It may be noted that no prior intimation/indication will be given to investors when the composition/asset allocation pattern under the Scheme undergoes changes within the permitted band as indicated above.

Portfolio rebalancing in case of passive breach:

In line with clause 3.6.7 of SEBI Master Circular dated June 27, 2024, in case of change in constituents of the index due to periodic review, the portfolio of Scheme shall be rebalanced within 7 calendar days. Further, any transactions undertaken in the portfolio of Index Schemes to meet the redemption and subscription obligations shall be done ensuring that post such transactions replication of the portfolio with the index is maintained at all points of time.

However, always the portfolio will adhere to the overall investment objectives of the Scheme. However, the same will be rectified at the earliest opportunity as may be available, but not later than 7 days, to minimize the tracking error.

In the event of involuntary corporate action, the scheme shall dispose the security not forming part of the underlying index within 7 calendar days from the date of allotment/listing.

TRACKING ERROR - Tracking error is the extent to which the NAV of the Scheme moves in a manner inconsistent with the movements of the total returns of the NIFTY on any given day or over any given period of time arising from any cause or reason whatsoever including but not limited to differences in the weightage of the investments in the securities and the weightage to such securities in NIFTY and the time lags to deployment or realization of funds under the Scheme as compared to the movement of or within NIFTY as well as the market liquidity cost of trading, management and other expenses. Tracking Error is defined as the annualized standard deviation of the difference in daily returns between the NAV of the Scheme and the underlying index. The Fund Manager would monitor the Tracking Error of the Scheme on an ongoing basis and would seek to minimize the Tracking Error to the maximum extent possible. Under normal circumstances, the AMC shall endeavor that the Tracking Error of the Scheme based on past 1 year rolling data shall not exceed 2% per annum. However, in case of unavoidable circumstances in the nature of force majeure, which are beyond the control of the AMCs, the tracking error may exceed 2% and the same shall be brought to the notice of Trustees with corrective actions taken by the AMC, if any.

Tracking difference

Tracking difference is defined as the annualized difference of returns between the NAV of the Scheme and the underlying index

B. WHERE WILL THE SCHEME INVEST?

The net assets of the Scheme will be invested predominantly in stocks constituting the Nifty 50 and / or its exchange traded derivatives. This would be done by investing in almost all the stocks comprising the Nifty 50 in approximately the same weightage that they represent in the Nifty 50 Index and / or investing in derivatives including futures contracts and options contracts on the Nifty 50 Index. A small portion of the net assets will be invested in money market instruments permitted by SEBI / RBI including (CPs, CDs, T-bills, Mibor linked instruments

with daily Put/Call options & overnight Interest rate Reset Linked Instruments) as may be provided by the RBI, to meet the liquidity requirements of the Scheme.

The Scheme may take derivatives position based on the opportunities available subject to the guidelines issued by SEBI from time to time and in line with the overall investment objective of the Scheme. These may be taken to hedge the portfolio, rebalance the same or to undertake any other strategy as permitted under the Regulations.

The Fund may also enter into "Repo", hedging or such other transactions as may be allowed to Mutual Funds from time to time.

Investments in Tri-Party Repo on Government Securities or T-bills would be as per the RBI circular dated July 24, 2018.

The schemes may also enter into repurchase and reverse repurchase obligations in all securities (including Repos in corporate bonds) held by them as per the guidelines and regulations applicable to such transactions.

Investments in Repo in corporate debt securities would be in line with Clause 12.18 of SEBI Master Circular dated June 27, 2024 and RBI circular dated July 24, 2018 and shall be made basis the policy approved by the Board of NAM India and NLITL. The significant features are as follows:

- i. As specified in the Clause 12.18.1.3 of SEBI Master Circular dated June 27, 2024, the base of eligible securities for mutual funds to participate in repo in corporate debt securities is from AAA rated to AA and above rated corporate debt securities.
- ii. Category of counterparty & Credit rating of counterparty NIMF schemes shall enter in lending via Repo only with Investment Grade counterparties.
- iii. The Gross exposure of the scheme to repo transactions in corporate debt securities shall not be more than 10% of the net asset of the scheme.

All investment restrictions stated above shall be applicable at the time of making investment. Further, any new circular issued by RBI or SEBI on Repo would be applicable from time to time.

Applicable Haircut

RBI vide its circular dated July 24, 2018 had indicated the haircut to be applied for such transactions as follows:

Haircut/ margins will be decided either by the clearing house or may be bilaterally agreed upon, in terms of the documentation governing repo transactions, subject to the following stipulations:

- i. Listed corporate bonds and debentures shall carry a minimum haircut of 2% of market value. Additional haircut may be charged based on tenor and illiquidity of the security.
- ii. CPs and CDs shall carry a minimum haircut of 1.5% of market value.
- iii. Securities issued by a local authority shall carry a minimum haircut of 2% of market value.

Additional haircut may be charged based on tenor and illiquidity of the security.

The liquid schemes launched by SEBI registered Mutual Fund or schemes that invest predominantly in money market instruments / securities

Securities Lending by the Fund:

The scheme shall engage in securities lending for equity investments, in line with the SEBI (Mutual Funds) Regulations, 1996, Securities Lending Scheme, 1997 and Clause 12.11 of SEBI Master Circular dated June 27, 2024 notifying framework for lending of securities and such other applicable guidelines as may be amended from time to time.

The scheme may engage in Securities Lending not exceeding 15% of the net assets of the scheme and shall not lend more than 5% of its Net Assets to a single counterparty or such other limits as may be permitted by SEBI from time to time.

In accordance with the Regulations and applicable guidelines, the Fund may engage in stock lending activities. The Securities will be lent by the Approved Intermediary against collateral received from borrower, for a fixed period of time, on expiry of which the securities lent will be returned by the borrower.

It may be noted that this activity would have the inherent probability of collateral value drastically falling in times of strong downward market trends, resulting in inadequate value of collateral until such time as that diminution in value is replenished by additional security. It is also possible that the borrowing party and/or the approved intermediary may suddenly suffer severe business setback and become unable to honor its commitments. This along with a simultaneous fall in value of collateral would render potential loss to the Scheme. Besides, there can also be temporary illiquidity of the securities that are lent out and the scheme may not be able to sell such lent out securities.

Debt market in India

The Indian Debt market is facing major shift in the recent times. The substantial growth in Mutual Fund collections in the past few years have provided an easy route for the investors to channelise their savings into the debt market, which otherwise is largely dominated by Banks and other Institutional investors.

At present, the Indian debt market is dominated by issues of Central Government bonds, Corporate Debentures and PSU Bonds. The new Securitised instruments are also very attractive in the primary market. Risk associated with securitized Debt or PTCs are credit risk, liquidity risk and price risk/interest rate risk. The other instruments available for investment are Commercial Papers, Certificate of Deposits, Government guaranteed bonds, etc.

Brief details about the instruments are given below as on Sep 30, 2025.

Instruments	Listed/ Unlisted	Current Yield Range As on Oct 31, 2025	Liquidity	Risk profile
Central Government Securities	Listed	5.40% - 7.29%	High	Low
Corporate Debentures / PSU Bonds	Listed	6.67%-7.22%	Moderate	Low
CDs (short term)	Unlisted	5.95% - 6.44%	High	Low
Call Money	Unlisted	4.75%- 5.85%	High	Low
Mibor linked Papers*	Listed	125-145 bps	Low	Low

*** Range of spread of 5 year AAA Corporate bond and OIS papers of similar maturity**

A brief description about yields presently available on Central Govt. Securities /Bonds & Debentures of various maturities is as follows:

Annualised yields (as on Sep30, 2025) are:

Yrs	≤ 1yr	1yr - 5yr	5yr - 10yrs	10yr - 30 yrs
Central Government securities	5.47%-5.74%	5.74%-6.38%	6.37%-6.80%	6.68%-7.34%
Debentures/ Bonds (AAA rated)	6.67%-6.70%	6.74%-7.00%	7.02%-7.22%	-

THE PRICE AND YIELD ON VARIOUS DEBT INSTRUMENTS FLUCTUATE FROM TIME TO TIME DEPENDING UPON THE MACRO ECONOMIC SITUATION, INFLATION RATE, OVERALL LIQUIDITY POSITION, FOREIGN EXCHANGE SCENARIO, ETC. ALSO, THE PRICE AND YIELD VARIES ACCORDING TO MATURITY PROFILE, CREDIT RISK ETC.

C. WHAT ARE THE INVESTMENT STRATEGIES?

Investment Approach

The Scheme will be managed passively with investments in stocks in a proportion that it is as close as possible to the weightages of these stocks in the Nifty 50 Index. The investment strategy would revolve around reducing the tracking error to the least possible through rebalancing of the portfolio, taking into account the change in weights of stocks in the index as well as the incremental collections/redemptions from the Scheme.

It is proposed to manage the risks by placing limit orders for basket trades and other trades, proactive follow-up with the service providers for daily change in weights in the Nifty 50 as well as monitor daily inflows and outflows to and from the Fund closely.

While these measures are expected to mitigate the above risks to a large extent, there can be no assurance that these risks would be completely eliminated.

The fund will, in general invest a significant part of its corpus in equities however pending investments in equities; the surplus amount of the fund should be invested in Cash/Tri-Party Repo on Government Securities or T-bills & Reverse Repo & Money Market instruments. Also whenever good investment opportunity are not available, or the equity market is not likely to perform in the view of the Fund manager the Fund will reduce its exposure to equity and during that period the surplus asset of the Fund shall be invested in Cash/Tri-Party Repo on Government Securities or T-bills & Reverse Repo & Money Market instruments. However there is no assurance that all such buying and selling activities would necessarily result in benefit for the Fund. The allocation between money market instruments and equity will be decided based upon the prevailing market conditions, macro economic environment, and the performance of the corporate sector, the equity market and other considerations. At time such churning could lead to higher brokerage and transaction costs

Tracking Error

While the objective of the Scheme is to closely track Nifty 50, the performance may not be commensurate with the performance of the Nifty 50 on any given day or cover any given period. Such variations are commonly referred to as the tracking error. Tracking errors, as defined elsewhere in this Scheme Information Document, may result from a variety of factors including but not limited to:

- Any delay experienced in the purchase or sale of shares due to liquidity of the market, settlement and realization of sale proceeds and/or the registration of any securities transferred and/or any delays in receiving cash IDCWs and resulting delays in reinvesting them.
- The Nifty 50 reflect the prices of securities at close of business hours. However, the Fund may buy or sell the securities at different points of time during the trading
- NSE Indices Limited in case of Nifty 50 undertakes the periodical review of the scrips that comprise the Nifty 50 respectively and may either exclude or include new securities. In such an event, the Fund will endeavor to recalculate its portfolio but the available investment / disinvestment opportunities may not permit precise mirroring of the Nifty 50 in a short period of time.
- The charging of expenses to the Fund including investment management fees and custodian fees.
- The potential for trades to fail which may result in the Scheme not having acquired shares at a price necessary to track the index.
- The holding of a cash position and accrued income prior to distribution and accrued expenses.

(vii) Disinvestments to meet redemptions, recurring expense, IDCW payouts etc.

(viii) The Investment Manager would monitor the tracking error of the Scheme on an ongoing basis and would seek to minimize tracking error to the maximum extent possible. Under normal circumstances, the AMC shall endeavor that the Tracking Error of the Scheme based on past 1 year rolling data shall not exceed 2% per annum. However, in case of unavoidable circumstances in the nature of force majeure, which are beyond the control of the AMCs, the tracking error may exceed 2% and the same shall be brought to the notice of Trustees with corrective actions taken by the AMC, if any.

Risk Control

For the Scheme, risks would be the impact cost on securities, the delayed communication of weightage changes by the index service providers and the delayed calculation of net change in assets of the Scheme, amongst others.

It is proposed to manage the risks by placing limit orders for basket trades and other trades, proactive follow-up with the service providers for daily change in weights in index as well as monitor daily inflows and outflows to and from the Fund closely.

While these measures are expected to mitigate the above risks to a large extent, there can be no assurance that these risks would be completely eliminated.

Since investing requires disciplined risk management, the AMC would incorporate adequate safeguards for controlling risks in the portfolio construction process. The risk control process involves reducing risks through portfolio diversification, taking care however not to dilute returns in the process. The AMC believes that this diversification would help achieve the desired level of consistency in returns.

The AMC aims to identify securities, which offer superior levels of yield at lower levels of risks. With the aim of controlling risks, rigorous in depth credit evaluation of the securities proposed to be invested in will be carried out by the investment team of the AMC.

The Scheme may also use various derivatives and hedging products from time to time, as would be available and permitted by RBI/SEBI, in an attempt to protect the value of the portfolio and enhance Unitholders' interest.

Disclosure of Trading in Derivatives

The Scheme may invest in various derivative instruments which are permissible under the applicable regulations. Such investments shall be subject to the investment objective, asset allocation and strategy of the Scheme and the internal limits if any, as laid down from time to time. These include but are not limited to Index Options, Index Futures, Stock Options and Stock Futures and other instruments as may be permitted by SEBI. Exposure with respect to derivatives shall be in line with regulatory limits and the limits specified in the SID. Execution of derivative strategies depends upon the ability of the fund manager to identify such opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and decision of fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies. The risks associated with the use of derivatives are different from or possibly greater than, the risks associated with investing directly in securities and other traditional investments.

For detailed derivative strategies, please refer to SAI.

Portfolio Turnover Policy:

As the Scheme will follow a passive investment strategy for the Nifty Plan the endeavor will be to minimize portfolio turnover subject to the exigencies and needs of the Nifty Plan. Generally, as the Scheme is open-ended, turnover will be confined to rebalancing of portfolio on account of new subscriptions, redemptions and change in the composition of the Nifty 50 INDEX. Consequently, it is difficult to estimate with any reasonable measure of accuracy, the likely turnover in the portfolio.

Pursuant to Schedule IX read with Regulation 50 of the SEBI (Mutual Funds) Regulations, 1996 the cost of investments acquired or purchased shall include brokerage, stamp charges and any charge customarily included in the broker's bought note.

D. HOW WILL THE SCHEME BENCHMARK ITS PERFORMANCE?

Nifty 50 TRI

Since the objective of the scheme to replicate the composition of Nifty 50 TRI, we propose to have Nifty 50 TRI as the benchmark for this fund.

Part III - OTHER DETAILS

A. COMPUTATION OF NAV

The Net Asset Value (NAV) of the Units will be determined daily or as prescribed by the Regulations. The NAV shall be calculated in accordance with the following formula, or such other formula as may be prescribed by SEBI from time to time.

NAV =	Market/Fair Value of Scheme's Investments + Receivables + Accrued Income + Other Assets - Accrued Expenses- Payables- Other Liabilities
	Number of Units Outstanding

Rounding off policy for NAV

Net Asset Value of the Units in the Scheme is calculated in the manner provided in this Scheme Information Document or as may be prescribed by Regulations from time to time. The NAV will be computed upto four decimal places.

Example: If the applicable NAV is Rs. 10.00, sales/entry load is 2 per cent and the exit/repurchase load is 2 percent then the sales price will be Rs. 10.20 and the repurchase price will be Rs. 9.80.

Illustration for computation of NAV:

Particulars	Amount (In INR)
Assets	
Market/Fair Value of Scheme's Investments	1,00,000
Current Assets	
Receivables	1,500
Accrued Income	500
Other Assets	1,000
Total Assets (A)	1,03,000
Current Liabilities	
Accrued Expenses	1,100
Payables	300
Other Liabilities	100
Total Liabilities (B)	1,500
Net Assets (C) (A – B)	1,01,500
Units Outstanding (D)	10,000
NAV per unit (C/D)	10.1500

The mutual fund shall ensure that the repurchase price of the scheme is not lower than 97% of the Net Asset Value.

Methodology for calculation of sale and re-purchase price of the units of mutual fund scheme:

Let's assume that the NAV of a Mutual Fund Scheme on April 01, 2018 is Rs. 10/-.

Purchase of mutual fund units:

The Purchase Price of the Units on an ongoing basis will be same as Applicable NAV.

Purchase Price = Applicable NAV

In the above example, purchase is done on April 01, 2018, when the Applicable NAV = Rs. 10/-. Therefore, Purchase Price = Rs. 10/-

As per existing Regulations, no entry load is charged with respect to applications for purchase / additional purchase of mutual funds units.

Redemption/Re-purchase of mutual fund units:

The Redemption Price of the Units will be calculated on the basis of the applicable NAV subject to prevailing Exit Load, if any. In case of redemption, the amount payable to the investor shall be calculated as follows:

Redemption Price = Applicable NAV * (1 - Exit Load)

Say, in the above example the exit load applicable is

For exit on or before 12 months from the date of allotment – 1.00%

For exit after 12 months from the date of allotment – Nil.

Scenario 1: Redemption is done during applicability of exit load

In case the investor requests for redemption on or before 12 months i.e. on or before March 31, 2019; say December 1, 2018, when the NAV of the scheme is Rs. 12/- and the exit load applicable is 1%, so the Redemption amount payable to investor shall be calculated as follows:

Redemption Price = Applicable NAV * (1 - Exit Load)

= Rs. 12 * (1-1%) = Rs. 11.88/-

Scenario 2: Redemption is done when the exit load is NIL

In case the investor requests for redemption after 12 months i.e. after March 31, 2019; say April 1, 2019, when the NAV of the scheme is Rs. 12/- and the exit load applicable is NIL, so the Redemption amount payable to investor shall be calculated as follows:

Redemption Price = Applicable NAV * (1 - Exit Load)

= Rs. 12 * (1-0) = Rs. 12/-

The aforesaid example does not take into consideration any applicable statutory levies or taxes. Accordingly, the redemption amount payable to investor shall further reduce to the extent of applicable statutory levies or taxes.

For other details such as policies w.r.t computation of NAV, rounding off, investment in foreign securities, procedure in case of delay in disclosure of NAV etc. refer to SAI

B. NEW FUND OFFER (NFO) EXPENSES

These expenses are incurred for the purpose of various activities related to the NFO like sales and distribution fees paid marketing and advertising, registrar expenses, printing and stationary, bank charges etc. The NFO expenses shall be borne by the AMC.

Being an ongoing Scheme details as regard NFO expenses have not been provided herein.

C. ANNUAL SCHEME RECURRING EXPENSES

These are the fees and expenses for operating the scheme. These expenses include Investment Management and Advisory Fee charged by the AMC and other expenses as given in the table below:

The AMC has estimated that the following % of the daily net assets of the scheme will be charged to the scheme as expenses. The AMC would update the current expense ratios on the website of the mutual fund at least three working days prior to the effective date of the change. Further Actual Expense ratio will be disclosed at the following link

<https://mf.nipponindiaim.com/investor-services/downloads/total-expense-ratio-of-mutual-fund-schemes>

Estimated Expense Structure

Particulars	% of Net Assets
Investment Management & Advisory Fee	Upto 1.00%
Audit fees/fees and expenses of trustees	
Custodial Fees	
Registrar & Transfer Agent Fees including cost of providing account statements / IDCW / redemption cheques/ warrants	
Marketing & Selling Expenses including Agents Commission and statutory Advertisement	
Costs related to investor communications	
Costs of fund transfer from location to location	
Cost towards investor education & awareness	
Brokerage & transaction cost pertaining to distribution of units	
Brokerage and transaction cost (including GST) over and above 12 bps and 5 bps for cash and Derivative market trades respectively	
Goods & Service tax on expenses other than investment and advisory fees	
Other Expenses #	
Maximum total expense ratio (TER) permissible under Regulation 52(6)(b)	Upto 1.00%
Additional expenses under regulation 52 (6A) (c)#	Upto 0.05%

(# Expenses charged under the said parameters shall be in line with the Regulation 52 of SEBI (MF) Regulations or such other basis as specified by SEBI from time to time.)

Illustration – Impact of Expense Ratio on the Returns		
Particulars	Regular Plan/Other than Direct Plan	Direct Plan
Amount Invested at the beginning of the year	10,000	10,000
Returns before Expenses	1,500	1,500
Expenses other than Distribution Expenses	150	150
Distribution Expenses	50	-
Returns after Expenses at the end of the Year	1,300	1350
Returns	13.00%	13.50%

Note: Please note that the above is an approximate illustration of the impact of expense ratio on the returns, where the Gross NAV has been simply reduced to the extent of the expenses. In reality, the actual impact would vary depending on the path of returns over the period of consideration. Expenses will be charged on daily net assets.

These estimates have been made in good faith as per the information available to the Investment Manager based on past experience and are subject to change inter-se as per actual but the total expenses shall not exceed the limits permitted by SEBI. Types of expenses charged shall be as per the SEBI (MF) Regulations. The purpose of the above table is to assist the investor in understanding the various costs and expenses that an investor in the scheme will bear directly or indirectly.

Mutual funds /AMCs may charge Goods & Service Tax on investment and advisory fees to the scheme in addition to the maximum limit as prescribed in regulation 52 of the SEBI Regulations.

Goods & Service Tax on other than investment and advisory fees, if any, shall be borne by the scheme within the maximum limit as per regulation 52 of the SEBI Regulations.

Mutual Funds/AMCs will annually set apart at least 1 basis points on daily net assets within the maximum limit as per regulation 52 of the SEBI Regulations for investor education and awareness initiatives.

With effect from 16th March 2025, for Passive schemes and Overseas Fund of Funds (FoFs) - based on underlying indices as per clause 3 and clause 4 of the SEBI circular SEBI/HO/IMD/PoD2/P/CIR/2024/183 dated 31st December 2024, AMCs shall allocate funds towards investor education and awareness initiatives as 5% of total TER charged to direct plans, subject to maximum of 0.5 bps of AUM

Direct Plan shall have a lower expense ratio excluding distribution expenses, commission, and no commission shall be paid from such plan.

However, no Investment Management fees would be charged on NAM India's investment in the Scheme. The Trustee Company, shall be entitled to receive a sum computed @ 0.05% of the Unit Capital of all the Schemes of NIMF on 1st April each year or a sum of Rs.5,00,000/- which ever is lower or such other sum as may be agreed from time to time in accordance with the SEBI Regulations or any other authority, from time to time.

Investors are requested to note that the total expense ratio of the index fund scheme including the investment management and advisory fee shall not exceed 1.00% of the daily net assets, as stated under Regulation 52 (6) (b).

The above expenses are fungible within the overall maximum limit prescribed under SEBI (Mutual Funds) Regulations, 1996, which means there will be no internal sub-limits on expenses and AMC is free to allocate them within the overall TER.

In terms of Regulation 52(1) of SEBI (Mutual Funds) Regulations, 1996, all scheme related expenses including commission paid to distributors, by whatever name it may be called and in whatever manner it may be paid, will necessarily be paid from the scheme only within the regulatory limits and not from the books of AMC, its associate, sponsor, trustee or any other entity through any route. Provided that the expenses that are very small in value but high in volume may be paid out of AMC's books. Such expenses shall be paid out of AMC books at actuals or not exceeding 2 bps of respective scheme AUM, whichever is lower. List of such miscellaneous expenses may be provided by AMFI in consultation with SEBI or as specified/amended by AMFI/SEBI from time to time.

In addition to the limits specified in regulation 52(6), the following costs or expenses may be charged to the scheme as per new sub regulation 6A, namely-

- Brokerage and Transaction costs (including GST) incurred for the execution of trades may be expensed out in the scheme to the extent of 0.12 per cent of the value of trades in case of cash market transactions and 0.05 per cent of the value of trades in case of derivatives transactions. Any payment towards brokerage and transaction costs incurred for the execution of trades, over and above the said 0.12 per cent and 0.05 per cent for cash market transactions and derivatives transactions respectively may be charged to the scheme within the maximum limit of Total Expense Ratio (TER) as prescribed under Regulation 52 of the SEBI (Mutual Funds) Regulations, 1996. Any expenditure in excess of the said prescribed limit (including brokerage and transaction costs, if any) shall be borne by the AMC or by the Trustee or Sponsors.
- additional expenses, incurred towards different heads mentioned under sub-regulations (2) and (4), not exceeding 0.05 per cent of daily net assets of the scheme.

The Fund will strive to reduce the level of these expenses so as to keep them well within the maximum limits allowed by SEBI. Expenses on an ongoing basis will not exceed the percentage of the daily net assets or such maximum limits as may be specified by SEBI Regulations from time to time.

D. LOAD STRUCTURE

Load is an amount which is paid by the investor to subscribe to the units or to redeem the units from the scheme. For the current applicable structure, please refer to the website of the AMC <https://mf.nipponindiaim.com>, or may call at Customer Service Centre at 1860-266-0111 (charges applicable), and Investors outside India can call at 91-22-69259696 (charges applicable) or your distributor.

Load amounts are variable and are subject to change from time to time. NAM India, in consultation with the Trustees, reserves the right to change the load structure if it so deems fit in the interest of smooth and efficient functioning of the scheme. Any imposition or enhancement in the load shall be applicable on prospective investments only. However, NAM India shall not charge any load on issue of units allotted on reinvestment of IDCW for existing as well as prospective investors. At the time of changing the load structure:

- (i) The addendum detailing the changes may be attached to Scheme Information Documents and Key Information Memorandum. The addendum may be circulated to all the distributors/brokers so that the same can be attached to all Scheme Information Documents and key information memoranda already in stock.
- (ii) Arrangements may be made to display the addendum in the Scheme Information Document in the form of a notice in all the investor service centres and distributors/brokers office.
- (iii) The introduction of the exit load alongwith the details may be stamped in the acknowledgement slip issued to the investors on submission of the application form and may also be disclosed in the statement of accounts issued after the introduction of such load.
- (iv) A public notice shall be given in respect of such changes in one English daily newspaper having nationwide circulation as well as in a newspaper published in the language of region where the Head Office of the Mutual Fund is situated.
- (v) Any other measures which the mutual funds may feel necessary.

Exit Load: Nil, W.E.F. October 01, 2012, Exit Load If charged to the scheme shall be credited to the scheme immediately net of Goods and Service tax, if any.

Switchover Facility

Available, subject to minimum application amount in switch-in scheme (for opening a new folio/account) and minimum additional investment amount in switch-in scheme for switch-ins thereafter.

Inter scheme Switch: At the applicable exit loads in the respective schemes.

Inter Plan/Inter Option Switch/Systematic Transfer Plans (STP):

Switch / Systematic transfer of Investments made from 'Regular Plan' to 'Direct Plan' under the scheme and vice versa, will not be subject to exit load.

The investor is requested to check the prevailing load structure of the scheme before investing. Load amounts are variable and are subject to change from time to time.

For any change in load structure NAM India will issue an addendum and display it on the website/Investor Service Centres.

Unitholders will have the flexibility to change the allocation of their investments among the various scheme(s) offered by the Mutual Fund, in order to suit their changing investment needs, by easily switching between the scheme(s) / plans/options of the Mutual Fund.

B. Risk Factors

SCHEME SPECIFIC RISK FACTORS

(i) Risks associated with investing in Equities

Equity and Equity related instruments on account of its volatile nature are subject to price fluctuations on daily basis. The volatility in the value of the equity and equity related instruments is due to various micro and macro economic factors affecting the securities markets. This may have adverse impact on individual securities /sector and consequently on the NAV of Scheme.

The inability of the Scheme to make intended securities purchases due to settlement problems, could cause the Scheme to miss certain investment opportunities as in certain cases, settlement periods may be extended significantly by unforeseen circumstances. Similarly, the inability to sell securities held in the schemes portfolio may result, at times, in potential losses to the scheme, should there be a subsequently decline in the value of the securities held in the schemes portfolio.

Trading volumes, settlement periods and transfer procedures may restrict the liquidity of the investments. This may impact the ability of the unit holders to redeem their units. In view of this, the Trustee has the right, in its sole discretion to limit redemptions (including suspending redemptions) under certain circumstances.

The Scheme may find itself invested in unlisted securities due to external events or corporate actions. This may increase the risk of the portfolio as these unlisted securities are inherently illiquid in nature and carry larger liquidity risk as compared to the listed securities or those that offer other exit options to the investors.

Investments in equity and equity related securities involve high degree of risks and investors should not invest in the Scheme unless they can afford to take the risk of losing their investment.

(ii) Risks associated with investing in Bonds

Investment in Debt is subject to price, credit, and interest rate risk.

The NAV of the Scheme may be affected, inter alia, by changes in the market conditions, interest rates, trading volumes, settlement periods and transfer procedures.

Investing in Bonds and Fixed Income securities are subject to the risk of an Issuer's inability to meet principal and interest payments obligation (credit risk) and may also be subject to price volatility due to such factors as interest rate sensitivity, market perception of the creditworthiness of the issuer and general market liquidity (market risk).

The timing of transactions in debt obligations, which will often depend on the timing of the Purchases and Redemptions in the Scheme, may result in capital appreciation or depreciation because the value of debt obligations generally varies inversely with the prevailing interest rates.

- (1) Interest Rate Risk: As with all debt securities, changes in interest rates will affect the Scheme's Net Asset Value as the prices of securities generally increase as interest rates decline and generally decrease as interest rates rise. Prices of longer-term securities generally fluctuate more in response to interest rate changes than do shorter-term securities. Interest rate movements in the Indian debt markets can be volatile leading to the possibility of large price movements up or down in debt and money market securities and thereby to possibly large movements in the NAV.
- (2) Liquidity or Marketability Risk: This refers to the ease at which a security can be sold at or near its true value. The primary measure of liquidity risk is the spread between the bid price and the offer price quoted by a dealer. Liquidity risk is characteristic of the Indian fixed income market.
- (3) Credit Risk: Credit risk or default risk refers to the risk which may arise due to default on the part of the issuer of the fixed income security (i.e. will be unable to make timely principal and interest payments on the security). Because of this risk debentures are sold at a yield spread above those offered on Treasury securities, which are sovereign obligations and generally considered to be free of credit risk. Normally, the value of a fixed income security will fluctuate depending upon the actual changes in the perceived level of credit risk as well as the actual event of default.
- (4) Reinvestment Risk: This risk refers to the interest rate levels at which cash flows received from the securities in the Scheme or from maturities in the Scheme are reinvested. The additional income from reinvestment is the "interest on interest" component. The risk refers to the fall in the rate for reinvestment of interim cashflows.
- (5) Risks associated with various types of securities

	CREDIT RISK	LIQUIDITY RISK	PRICE RISK
Listed	Depends on credit quality	Relatively Low	Depends on duration of instrument
Unlisted	Depends on credit quality	Relatively High	Depends on duration of instrument
Secured	Relatively low	Relatively Low	Depends on duration of instrument
Unsecured	Relatively high	Relatively High	Depends on duration of instrument
Rated	Relatively low and depends on the rating	Relatively Low	Depends on duration of instrument
Unrated	Relatively high	Relatively High	Depends on duration of instrument

Different types of securities in which the scheme would invest as given in the Scheme Information Document carry different levels and types of risk. Accordingly, the scheme's risk may increase or decrease depending upon its investment pattern e.g.

corporate bonds, carry a higher level of risk than Government securities. Further even among corporate bonds, bonds which are AAA rated are comparatively less risky than bonds which are AA rated.

(iii) Risk associated with investing in Derivatives

- (1) Valuation Risk : The risk in valuing the Debt & Equity derivative products due to inadequate trading data with good volumes. Derivatives with longer duration would have higher risk viz a viz the shorter duration derivatives.
- (2) Mark to Market Risk : The day-to-day potential for an investor to experience losses from fluctuations in underlying stock prices and derivatives prices.
- (3) Systematic Risk : The risk inherent in the capital market due to macro economic factors like Inflation, GDP, Global events.
- (4) Liquidity Risk : The risk stemming from the lack of availability of derivatives products across different maturities and with different risk appetite.
- (5) Implied Volatility : The estimated volatility of an underlying security's price and derivatives price.
- (6) Interest Rate Risk : The risk stemming from the movement of Interest rates in adverse direction. As with all the debt securities, changes in the interest rates will affect the valuation of the portfolios.
- (7) Counterparty Risk (Default Risk) : Default risk is the risk that losses will be incurred due to the default by the counterparty for over the counter derivatives.
- (8) System Risk : The risk arising due to failure of operational processes followed by the exchanges and OTC participants for the derivatives trading.

Risk attached with the use of derivatives

- (1) As and when the Scheme trades in the derivatives market there are risk factors and issues concerning the use of derivatives that investors should understand. Derivative products are specialized instruments that require investment techniques and risk analysis different from those associated with stocks and bonds. The use of a derivative requires an understanding not only of the underlying instrument but of the derivative itself. Derivatives require the maintenance of adequate controls to monitor the transactions entered into, the ability to assess the risk that a derivative adds to the portfolio and the ability to forecast price or interest rate movements correctly. There is a possibility that a loss may be sustained by the portfolio as a result of the failure of another party (usually referred to as the "counterparty") to comply with the terms of the derivatives contract. Other risks in using derivatives include the risk of mispricing or improper valuation of derivatives and the inability of derivatives to correlate perfectly with underlying assets, rates and indices.
- (2) Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the fund manager to identify such opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and decision of fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies.
- (3) The risks associated with the use of derivatives are different from or possibly greater than, the risks associated with investing directly in securities and other traditional investments.

(iv) Risk associated with Short Selling & Securities Lending

- (1) Securities Lending is a lending of securities through an approved intermediary to a borrower under an agreement for a specified period with the condition that the borrower will return equivalent securities of the same type or class at the end of the specified period along with the corporate benefits accruing on the securities borrowed. In case the Scheme undertakes stock lending under the Regulations, it may, at times be exposed to counter party risk and other risks associated with the securities lending. Unitholders of the Scheme should note that there are risks inherent to securities lending, including the risk of failure of the other party, in this case the approved intermediary, to comply with the terms of the agreement entered into between the lender of securities i.e. the Scheme and the approved intermediary. Such failure can result in the possible loss of rights to the collateral put up by the borrower of the securities, the inability of the approved intermediary to return the securities deposited by the lender and the possible loss of any corporate benefits accruing to the lender from the securities deposited with the approved intermediary.

The risks in lending portfolio securities, as with other extensions of credit, consist of the failure of another party, in this case the approved intermediary, to comply with the terms of agreement entered into between the lender of securities i.e. the Scheme and the approved intermediary. Such failure to comply can result in the possible loss of rights in the collateral put up by the borrower of the securities, the inability of the approved intermediary to return the securities deposited by the lender and the possible loss of any corporate benefits accruing to the lender from the securities deposited with the approved intermediary. The Mutual Fund may not be able to sell such lent securities and this can lead to temporary illiquidity

- (2) Short-selling is the sale of shares that the seller does not own at the time of trading. Instead, he borrows it from someone who already owns it. Later, the short seller buys back the stock he shorted and returns the stock to close out the loan. If the price of the stock has fallen, he can buy the stock back for less than he received for selling it and profits from it (the difference between higher short sale price and the lower purchase price). However, Short positions carry the risk of losing money and these losses may grow theoretically unlimited if the price increases without limit and shall result into major losses in the portfolio.

(v) Risk factors associated with repo transactions in corporate bonds -

In Repo transactions, also known as a repo or sale repurchase agreement, securities are sold with the seller agreeing to buy them back at later date. The repurchase price should be greater than the original sale price, the difference effectively representing interest.

A repo is economically similar to a secured loan, with the buyer receiving corporate debt securities as collateral to protect against default. The Scheme may invest in repo of corporate debt securities which are subject to the following risks:

- a. Counterparty Risk: This refers to the inability of the seller to meet the obligation to buy back securities at the contracted price. The Investment Manager will endeavor to manage counterparty risk by dealing only with counterparties having strong credit profiles assessed through in-house credit analysis or with entities regulated by SEBI/RBI/IRDA.
- b. Collateral Risk: In the event of default by the repo counterparty, the schemes have recourse to the corporate debt securities. Collateral risk arises when the market value of the securities is inadequate to meet the repo obligations. This risk is mitigated by restricting participation in repo transactions only in AA and above rated money market and corporate debt securities. In addition, appropriate haircuts are applied on the market value of the underlying securities to adjust for the illiquidity and interest rate risk on the underlying instrument

(vi) Tracking Error and Tracking Difference Risk

Tracking error is defined as the annualized standard deviation of the difference in the daily returns between the NAV of the Scheme and the Underlying Index. Tracking Difference is defined as the annualized difference of returns between the NAV of the Scheme and the underlying index. Theoretically, the corpus of the Scheme has to be fully invested in the securities comprising the Underlying Index in the same proportion of weights as the securities have in the Underlying Index. However, deviations from the stated index replication may occur due to reason that the Scheme has to incur expenses, corporate actions pertaining to the Index including changes to the constituents, regulatory policies, ability of the Fund Manager to closely replicate the Underlying Index, delay in purchase or non-availability of underlying securities forming part of the index etc. Tracking Error/ Tracking Difference may arise including but not limited to the following reasons:

1. Delay in purchase or non-availability of underlying securities forming part of the index.
2. Delay in liquidation of securities which have been removed by the Index.
3. Fees and expenses of the Scheme.
4. Cash balance held by the Scheme due to interest received during subscriptions, redemption, etc.
5. Halt in trading on the stock exchange due to circuit filter rules.
6. Corporate actions.
7. The Scheme has to invest in the securities in whole numbers and has to round off the quantity of securities.
8. Dividend payout.
9. Changes in the constituents of the underlying Index. Whenever there are any changes, the Scheme has to reallocate its investment as per the revised Index but market conditions may not offer an opportunity to rebalance its portfolio to match the Index and such delay may affect the NAV of the Scheme.

The AMC would monitor the tracking error of the Scheme on an ongoing basis and would seek to minimize tracking error. Under normal market circumstances, tracking error based on past one year rolling data shall not exceed 2%. However, in case of unavoidable circumstances in the nature of force majeure, which are beyond the control of the AMCs, the tracking error may exceed 2% and the same shall be brought to the notice of Trustees with corrective actions taken by the AMC, if any.

(vii) Other Scheme Specific Risk factors

- (1) The liquidity of the Scheme's investments may be inherently restricted by trading volumes, settlement periods and transfer procedures. In the event of an inordinately large number of redemption requests, or of a re-structuring of the Scheme's investment portfolio, these periods may become significant.

Although, the objective of the Fund is to generate optimal returns, the objective may or may not be achieved. The investors may note that if the AMC/Investment Manager is not able to make right decision regarding the timing of increasing exposure in debt securities in times of falling equity market, it may result in negative returns. Given the nature of scheme, the portfolio turnover ratio may be on the higher side commensurate with the investment decisions and Asset Allocation of the Scheme. At times, such churning of portfolio may lead to losses due to subsequently negative or unfavorable market movements.

Credit And Rating Downgrade Risk, Prepayment And Foreclosures Risk for Senior PTC Series, Prepayment And Foreclosures Risk for Senior PTC Series, Servicing Agent Risk, Co-mingling Risk, Bankruptcy of the Seller.

- (2) The NAV of the scheme to the extent invested in Debt and Money market securities are likely to be affected by changes in the prevailing rates of interest and are likely to affect the value of the Scheme's holdings and thus the value of the Scheme's Units.
- (3) The AMC may, considering the overall level of risk of the portfolio, invest in lower rated/ unrated securities offering higher yields. This may increase the risk of the portfolio.
- (4) Securities which are not quoted on the stock exchanges are inherently illiquid in nature and carry a larger amount of liquidity risk, in comparison to securities that are listed on the exchanges or offer other exit options to the investor, including a put option. The AMC may choose to invest in unlisted securities that offer attractive yields. This may increase the risk of the portfolio.
- (5) While securities that are listed on the stock exchange carry lower liquidity risk, the ability to sell these investments is limited by the overall trading volume on the stock exchanges. Money market securities, while fairly liquid, lack a well-developed secondary market, which may restrict the selling ability of the Scheme and may lead to the Scheme incurring losses till the security is finally sold.
- (6) Investment decisions made by the AMC may not always be profitable, even though it is intended to generate capital appreciation and maximize the returns by actively investing in equity and equity related securities.

- (7) The AMC carries out valuation of investments made by the Scheme. The AMC values Securities and assets in the Scheme according to the valuation policies described in the Statement of Additional Information.
- (9) The tax benefits available under the scheme are as available under the present taxation laws and are available only to certain specified categories of investors and that is subject to fulfillment of the relevant conditions. The information given is included for general purposes only and is based on advise that the AMC has received regarding the law and the practice that is currently in force in India and the investors and the Unitholders should be aware that the relevant fiscal rules and their interpretation may change. As is the case with any investment, there can be no guarantee that the tax position or the proposed tax position prevailing at the time of investment in the Scheme will endure indefinitely. In view of the individual nature of tax consequences, each Investor/Unitholder is advised to consult his/her own professional tax advisor.

Past performance of the Sponsor/ the AMC/ the Mutual Fund is not indicative of the future performance of the Scheme. Nippon India Index Fund – Nifty 50 Plan is the name of the Scheme and does not in any manner indicate either the quality of the Scheme; its future prospects or returns.

All IDCW distributions are subject to the availability of distributable surplus in the Scheme. When an investor switches from this scheme to another scheme on a future date, the scheme specific risk factors applicable to such scheme into which he switches, will apply.

C. Risk mitigation strategies

Risk mitigation measures for portfolio volatility and portfolio concentration:

Index Fund being a passive investment carries less risk as compared to active fund management. The portfolio follows the index and therefore the level of stock concentration in the portfolio and its volatility would be the same as that of the index, subject to tracking error. Thus, there is no additional element of volatility or stock concentration on account of fund manager decisions. The Risk Mitigation strategy revolves around minimizing the Tracking error to the least possible through regular rebalancing of the portfolio, taking into account the change in weights of stocks in the Underlying Index as well as the incremental collections into / redemptions from the Scheme.

Risk mitigation measures for managing liquidity:

As per data from NSE more than half of market liquidity remains in the index. Therefore, the scheme does not envisage liquidity issues. The scheme may take exposure to equity derivatives of the index itself or its constituent stocks, when equity shares are unavailable, insufficient or for rebalancing in case of corporate actions for a temporary period.

Type of Risks	Measures/ Strategies to control risks
Equity Markets/ Equity Oriented Instruments	• Market Risk and Volatility: Market risk is a risk which is inherent to an equity scheme. Being a passively managed scheme, it will invest in the securities included in its Underlying Index. • Concentration / Sector Risk: Index Fund being a passive investment carries lesser risk as compared to active fund management. The portfolio follows the index and therefore the level of stock concentration in the portfolio and its volatility would be the same as that of the index, subject to tracking error. Thus, there is no additional element of volatility or stock concentration on account of fund manager decisions. The Risk Mitigation strategy revolves around minimizing the Tracking error to the least possible through regular rebalancing of the portfolio, taking into account the change in weights of stocks in the Underlying Index as well as the incremental collections into / redemptions from the Scheme. • Liquidity Risks: As such the liquidity of stocks that the scheme invests into could be relatively low. The fund will endeavor to maintain a proper asset liability match to ensure redemption payments are made on time and not affected by illiquidity of the underlying stocks.
Debt and Money Market instruments	• Credit Risk: Management analysis will be used for identifying company specific risks. Management's past track record will also be studied. In order to assess financial risk a detailed assessment of the issuer's financial statements will be undertaken. • Price-Risk or Interest-Rate Risk: The Scheme may primarily invest the debt portion of the portfolio in short term debt & money market instruments, units of Liquid and Overnight schemes thereby mitigating the price volatility due to interest rate changes generally associated with long-term securities. • Risk of Rating Migration: The Scheme may primarily invest the debt portion of the portfolio in short-term debt & money market instruments, units of Liquid and Overnight schemes thereby mitigating the risk of rating migration generally associated with long-term securities. • Basis Risk: The debt allocation of scheme is primarily as a cash management strategy and such strategy returns are expected to reflect the very short term interest rate hence investment is done in short term debt and money market instruments.

	• Spread Risk: The Scheme may primarily invest the debt portion of the portfolio in short-term debt & money market instruments, units of Liquid and Overnight schemes thereby mitigating the risk of spread expansion which is generally associated with long-term securities • Reinvestment Risk: The debt allocation of scheme is primarily as a cash management strategy and such strategy returns are expected to reflect the very short term interest rate hence investment is done in short term debt and money market instruments. Reinvestment risks will be limited to the extent of debt instruments, which will be a very small portion of the overall portfolio value. • Liquidity Risk: The Scheme may, however, endeavor to minimize liquidity risk by primarily investing the debt portion of the portfolio in relatively liquid short-term debt & money market instruments, units of Liquid and Overnight schemes.
Derivatives	The Scheme may take an exposure to equity derivatives of constituents or index derivatives of the underlying index for short duration when securities of the index are unavailable, insufficient or for rebalancing at the time of change in index or in case of corporate actions, as permitted. All derivatives trade will be done only on the exchange with guaranteed settlement. Exposure with respect to derivatives shall be in line with regulatory limits and the limits specified in the SID.
Securities Lending	The SLB shall be operated through Clearing Corporation/Clearing House of stock exchanges having nation-wide terminals who are registered as Approved Intermediaries (AIs).” The risk is adequately covered as Securities Lending & Borrowing (SLB) is an Exchange traded product. Exchange offers an anonymous trading platform and gives the players the advantage of settlement guarantee without the worries of counter party default. However, the Fund may not be able to sell such lent securities during contract period or have to recall the securities which may be at higher than the premium at which the security is lent.
Currency	The scheme subject to applicable regulations shall have the option to enter into forward contracts for the purpose of hedging against the foreign exchange fluctuations. The Schemes may employ various measures (as permitted by SEBI/RBI) including but not restricted to currency hedging (such as currency options and forward currency exchange contracts, currency futures, written call options and purchased put options on currencies and currency swaps), to manage foreign exchange movements arising out of investment in foreign securities. All currency derivatives trade, if any will be done only through the stock exchange platform.
Segregated Portfolio	In such an eventuality it will be AMC’s endeavor to realise the segregated holding in the best interest of the investor at the earliest.
Tracking errors	Over a short period, the Scheme may carry the risk of variance between portfolio composition and Benchmark. The objective of the Scheme is to closely track the performance of the Underlying Index over the same period, subject to tracking error. The Scheme would endeavor to maintain a low tracking error by actively aligning the portfolio in line with the Index.
Government securities and Triparty repo on Government securities or treasury bills:	As a member of securities segment and Triparty repo segment, maintenance of sufficient margin is a mandatory requirement. CCIL monitors these on a real time basis and requests the participants to provide sufficient margin to enable the trades etc. Also, there are stringent conditions / requirements before registering any participants by CCIL in these segments. Since settlement is guaranteed the loss on this account could be minimal though there could be an opportunity loss.
Units of money market / liquid schemes	Liquidity is generally high in money market / liquid schemes

While these measures are expected to largely mitigate the above risks, there can be no assurance that these risks would be completely eliminated

The measures mentioned above is based on current market conditions and may change from time to time based on changes in such conditions, regulatory changes and other relevant factors. Accordingly, our investment strategy, risk mitigation measures and other information contained herein may change in response to the same

II. Information about the scheme:

A. Where will the scheme invest –

For Detailed description of the instruments (including overview of debt markets in India), please refer to Section I - Part II – B

B. What are the investment restrictions?

The investment policy of the scheme complies with the rules, regulations and guidelines laid out in SEBI (Mutual Funds) Regulations, 1996. As per the Regulations, specifically the Seventh Schedule, the following investment limitations are currently applicable:

1. Pursuant to Clause 3.5 of SEBI Master Circular dated June 27, 2024 the scheme shall be considered to be replicating the underlying index, provided

For portion of the portfolio comprising of corporate debt securities:

- i. Investment in securities of issuers accounting for at least 60% of weight in the index, represents at least 80% of net asset value (NAV) of the ETF/ Index Fund.
- ii. At no point of time the securities of issuers not forming part of the index exceed 20% of NAV of the ETF/ Index Fund.
- iii. The investment in various securities are aggregated at issuer level for the purpose of exposure limits.
- iv. Further, the exposure limit to a single issuer by the ETF/ Index Fund shall be as under:
 - a) For AAA rated securities, exposure to a single issuer by the ETF/ Index Fund shall not have more than 10% weight in the portfolio. However, for AAA rated securities of PSU and AAA rated securities of PFI issuers the said limit shall be 15%.
 - b) For AA rated securities, exposure to a single issuer by the ETF/ Index Fund shall not have more than 8% weight in the portfolio.
 - c) For A and below rated issuances, exposure to a single issuer by the ETF/ Index Fund shall not have more than 6% weight in the portfolio.
- v. Total exposure of the ETF/ Index Fund in a particular group (excluding investments in securities issued by PSUs, PFIs and PSBs) shall not exceed 25% of NAV of the scheme. For the purpose of this provision, 'group' shall have the same meaning as defined in paragraph B(3)(b) of Clause 12.9.3.3 of SEBI Master Circular dated June 27, 2024.
- vi. Total exposure of the ETF/ Index Fund in a particular sector (excluding G-sec, T-Bills, SDLs and AAA rated securities issued by PSUs, PFIs and PSBs) shall not exceed 25% of the NAV of the scheme.
- vii. The Macaulay Duration (hereinafter referred as "duration") of the portfolio of the ETF/ Index Fund replicates the duration of the underlying index within a maximum permissible deviation of +/- 10%.

In case of Target Maturity (or Target Date) ETFs/ Index Funds, the following norms for permissible deviation in duration shall apply:

- a) For portfolio with residual maturity of greater than 5 years: Either +/- 6 months or +/- 10% of duration, whichever is higher.
 - b) For a portfolio with residual maturity of up to 5 years: Either +/- 3 months or +/- 10% of duration, whichever is higher.
 - c) However, at no point of time, the residual maturity of any security forming part of the portfolio shall be beyond the target maturity date of the ETF/ Index Fund.
- viii. The rating wise weightage of debt securities in the portfolio of ETF/ Index Fund replicates the underlying index. However, greater allocation of up to 10% of the portfolio may be made to higher rated debt securities.
 - ix. Rebalancing Period:

For rebalancing the portfolio of the ETF/ Index Fund, the following norms shall apply:

 - a) In case of change in constituents of the index due to periodic review, the portfolio of ETF/ Index Funds be rebalanced within 7 calendar days.
 - b) In case the rating of any security is downgraded to below the rating mandated in the index methodology (including downgrade to below investment grade), the portfolio be rebalanced within 30 calendar days.
 - c) In case the rating of any security is downgraded to below investment grade, the said security may be segregated in accordance with Clause 4.4 of SEBI Master Circular dated June 27, 2024 on "Creation of segregated portfolio in mutual fund schemes.

2. Mutual Funds/AMCs shall ensure that total exposure of debt schemes of mutual funds in a group (excluding investments in securities issued by Public Sector Units, Public Financial Institutions and Public Sector Banks) shall not exceed 20% of the net assets of the scheme. Such investment limit may be extended to 25% of the net assets of the scheme with the prior approval of the Board of Trustees.
3. Investment in unrated debt and money market instruments, other than government securities, treasury bills, derivative products such as Interest Rate Swaps (IRS), Interest Rate Futures (IRF), etc. by mutual fund schemes shall be subject to the following:
 - a. Investments should only be made in such instruments, including bills re-discounting, usance bills, etc., that are generally not rated and for which separate investment norms or limits are not provided in SEBI (Mutual Fund) Regulations, 1996 and various circulars issued thereunder.
 - b. Exposure of mutual fund schemes in such instruments, shall not exceed 5% of the net assets of the schemes.
 - c. All such investments shall be made with the prior approval of the Board of AMC and the Board of trustees.
4. Mutual fund schemes may invest in unlisted Non -Convertible Debentures (NCDs) not exceeding 10% of the debt portfolio of the scheme subject to the condition that such unlisted NCDs have a simple structure (i.e. with fixed and uniform coupon, fixed maturity period, without any options, fully paid up upfront, without any credit enhancements or structured obligations) and are rated and secured with coupon payment frequency on monthly basis.
5. The Mutual Fund under all its schemes taken together will not own more than 10% of any companies paid up capital carrying voting rights.

Provided, investment in the asset management company or the trustee company of a mutual fund shall be governed by clause (a), of sub-regulation (1), of regulation 7B.

6. Transfers of investments from one scheme to another scheme in the Mutual Fund shall be allowed only if:
 - i) Such transfers are done at the prevailing market price for quoted instruments on spot basis;
 - ii) The securities so transferred shall be in conformity with the investment objectives & policies of the Scheme to which such transfer has been made.

Such transfer would be in accordance with the Clause 12.30 of SEBI Master Circular dated June 27, 2024 or any other circular issued by SEBI from time to time.
7. The Scheme may invest in another scheme under the same asset management company or in any other mutual fund without charging any fees, provided the aggregate inter scheme investments made by all Schemes under the same management company or in schemes under the management of any other AMC shall not exceed 5% of NAV of the Mutual Fund. [Provided that this clause shall not apply to any fund of funds scheme.]
8. The Mutual Fund shall buy and sell securities on the basis of deliveries and shall in all cases of purchases, take delivery of relative securities and in all cases of sale, deliver the securities:

Provided that a mutual fund may engage in short selling of securities in accordance with the framework relating to short selling and securities lending and borrowing specified by the Board:

Provided further that a mutual fund may enter into derivatives transactions in a recognized stock exchange, subject to the framework specified by the Board.

Provided further that sale of government security already contracted for purchase shall be permitted in accordance with the guidelines issued by the Reserve Bank of India in this regard.
9. The Fund shall get the securities purchased or transferred in the name of the Fund on account of the concerned scheme, wherever investments are intended to be of a long-term nature.
10. The fund's schemes shall not make any investment in:
 - i) Any unlisted security of an associate or group company of the sponsor
 - ii) Any security issued by way of private placement by an associate or group company of the sponsor
 - iii) As per SEBI Circular No. SEBI/HO/IMD/IMD-PoD-2/P/CIR/2024/098 dated July 08, 2024, no Mutual Fund scheme shall make any investment in the listed securities of group companies of the sponsor which is in excess of 25 per cent of the net assets of the scheme, except for investments by equity oriented exchange traded funds (ETFs) and Index Funds and subject to such conditions as may be specified by SEBI. Accordingly, it has been decided as under:
 - Equity oriented ETFs and Index Funds, based on widely tracked and non-bespoke indices, can make investments in accordance with the weightage of the constituents of the underlying index. However, such investments shall be subject to an overall cap of 35% of net asset value of the scheme, in the group companies of the sponsor.
 - Widely tracked and non-bespoke indices shall be indices that are tracked by passive funds or act as primary benchmark for actively managed funds with collective Assets under Management (AUM) of INR 20,000 Cr. and above.
11. The Scheme shall not invest in a fund of funds scheme.
12. Pending deployment of funds of the scheme in securities in terms of the investment objectives and policies of the scheme, the Mutual Fund can invest the fund of the scheme in short term deposits of scheduled commercial banks subject to the guidelines as applicable from time to time.

Pursuant to the Clause 12.16 of SEBI Master Circular dated June 27, 2024, where the cash in the scheme is parked in short term deposits of Scheduled Commercial Banks pending deployment, the respective Plan(s) shall abide by the following guidelines

 - "Short Term" for parking of funds shall be treated as a period not exceeding 91 days.
 - Such short-term deposits shall be held in the name of the Scheme.
 - The scheme shall not park more than 15% of the net assets in short term deposit(s) of all the scheduled commercial banks put together. However, such limit may be raised to 20% with prior approval of the Trustee.
 - Parking of funds in short term deposits of associate and sponsor scheduled commercial banks together shall not exceed 20% of total deployment by the Mutual Fund in short term deposits.
 - The scheme shall not park more than 10% of the net assets in short term deposit(s), with any one scheduled commercial bank including its subsidiaries.
 - The scheme shall not park funds in short term deposit of a bank, which has invested in the Scheme. Further, the bank in which a scheme has short term deposit will not invest in the said scheme until the scheme has short term deposit with the bank
 - Asset Management Company (AMC) shall not be permitted to charge investment management and advisory fees for parking of funds in short term deposits of scheduled commercial banks."
13. No term loans for any purpose will be advanced by the Scheme.
14. The scheme may engage in Securities Lending not exceeding 15% of the net assets of the scheme and shall not lend more than 5% of its Net Assets to a single counterparty or such other limits as may be permitted by SEBI from time to time.

15. The AMC may invest in the Scheme in the new fund offer. However, it shall not charge any investment management fee on such amounts invested by it.

16. The Scheme shall not invest more than 10% of its NAV in equity shares/equity related instruments of any company.

Provided that, the limit of 10% shall not be applicable for investments in index fund or sector/industry specific scheme.

As per Clause 12.5 of SEBI Master Circular dated June 27, 2024 "the investments by index funds shall be in accordance with the weightage of the scrips in the specific index as disclosed in the Scheme Information Document. In case of sector/industry specific scheme, the upper ceiling on investments may be in accordance with the weightage of the scrips in the respective sectoral index/sub index or 10% of the NAV of the scheme whichever is higher."

17. In case any company has invested more than 5% of the net asset value of a scheme, the investment made by that scheme or by any other scheme of the same Mutual Fund in that company or its subsidiaries, if any, shall be brought to the notice of the Trustees by NAM India and be disclosed in the half-yearly and annual accounts with justification for such investment provided that the latter investment has been made within one year of the date of the former investment calculated on either side.

18. The Scheme will comply with any other regulations applicable to the investments of mutual funds from time to time.

19. The Fund shall not borrow except to meet temporary liquidity needs of the Fund for the purpose of repurchase / Redemption of Units or payment of interest and IDCW to the Unitholders.

Provided that the Fund shall not borrow more than 20% of the net assets of any individual Scheme and the duration of the borrowing shall not exceed a period of 6 months.

In case of borrowing through repo transactions the tenor of such transaction shall not exceed a period of six months.

20. Total exposure of the scheme in a particular sector (excluding investments in Bank CDs, Tri-Party Repo on Government Securities or T-bills, G-Secs, T-Bills and AAA rated securities issued by Public Financial Institutions and Public Sector Banks and such other instruments if any, as may be specified by SEBI from time to time) shall not exceed 20% or such other percentage of the net assets of the scheme, as prescribed by SEBI from time to time, unless the scheme has specifically been exempted from the requirement by SEBI.

An additional exposure to financial services sector (over and above the limit of 20%) not exceeding 10% of the net assets of the scheme shall be allowed by way of increase in exposure to Housing Finance Companies (HFCs) rated AA and above and registered with National Housing Bank (NHB). Further, an additional exposure of 5% of the net assets of the scheme has been allowed for investments in securitized debt instruments based on retail housing loan portfolio and/or affordable housing loan portfolio

However, such total investment/ exposure in HFCs shall not exceed 20% of the net assets of the scheme or such other percentage of the net assets of the scheme, as prescribed by SEBI from time to time.

Note : The sector classification shall be basis the data provided by Association of Mutual Fund in India

21. In order to address the risk related to portfolio concentration in Index Funds in accordance with Clause 3.4 of SEBI Master Circular dated June 27, 2024, the following norms are adopted:

- The index shall have a minimum of 10 stocks as its constituents.
- For a sectoral/ thematic Index, no single stock shall have more than 35% weight in the index. For other than sectoral/ thematic indices, no single stock shall have more than 25% weight in the index.
- The weightage of the top three constituents of the index, cumulatively shall not be more than 65% of the Index.
- The individual constituent of the index shall have a trading frequency greater than or equal to 80% and an average impact cost of 1% or less over previous six months.

The scheme seeks to replicate a particular Index hence shall ensure that the index complies with the aforesaid norms.

22. The investment of mutual fund schemes in debt instruments having Structured Obligations / Credit Enhancements shall not exceed 10% of the debt portfolio of the schemes and the group exposure in such instruments shall not exceed 5% of the debt portfolio of the schemes:

- Unsupported rating of debt instruments (i.e. without factoring-in credit enhancements) is below investment grade and
- Supported rating of debt instruments (i.e. after factoring-in credit enhancement) is above investment grade

23. Mutual fund scheme shall not invest in unlisted debt instruments including commercial papers (CPs), other than (a) government securities, (b) other money market instruments and (c) derivative products such as Interest Rate Swaps (IRS), Interest Rate Futures (IRF), etc. which are used by mutual funds for hedging.

However, mutual fund schemes may invest in unlisted Non-Convertible Debentures (NCDs) not exceeding 10% of the debt portfolio of the scheme subject to the condition that such unlisted NCDs have a simple structure (i.e. with fixed and uniform coupon, fixed maturity period, without any options, fully paid up upfront, without any credit enhancements or structured obligations) and are rated and secured with coupon payment frequency on monthly basis.

24. The scheme shall participate Repo in corporate debt securities in accordance with Clause 12.18 of SEBI Master Circular dated June 27, 2024 and such other directions issued by RBI and SEBI from time to time.

The Gross exposure of the scheme to repo transactions in corporate debt securities shall not be more than 10% of the net asset of the scheme.

The cumulative gross exposure through repo transactions in Corporate debt securities along with Equity, debt, Money Market instruments and derivative positions (including fixed income derivatives) shall not exceed 100% of the net assets of the scheme as

per Clauses 12.24 and 12.25 of SEBI Master Circular dated June 27, 2024. The scheme shall participate Repo in corporate debt securities in accordance with directions issued by RBI and SEBI from time to time

All investment restrictions stated above shall be applicable at the time of making investment. The Scheme will not enter into any transaction, which exposes it to unlimited liabilities or results in the encumbering of its assets in any way so as to expose them to unlimited liability. These investment limitations / parameters as expressed / linked to the net asset / net asset value / capital, shall in the ordinary course, apply as at the date of the most recent transaction or commitment to invest. Changes do not have to be effected merely because of appreciation or depreciation in value or by reason of the receipt of any rights, bonuses or benefits in the nature of capital or of any scheme of arrangement or for amalgamation, reconstruction or exchange, or at any repayment or redemption or other reason outside the control of the Fund, any such limits would thereby be breached. If these limits are exceeded for reasons beyond its control, AMC shall adopt as a priority objective the remedying of that situation, taking due account of the interests of the Unitholders.

The Trustee Company in consultation with AMC may alter these above stated limitations from time to time, and also to the extent the Regulations change, so as to permit the Scheme to make its investments in the full spectrum of permitted investments in order to achieve its investment objectives & policies. As such, all investments of the Scheme will be made in accordance with the Regulations including Schedule VII thereof and the Fundamental Attributes of this Scheme.

At NIMF, to ensure robust risk management and adequate portfolio diversification internal Investment policy for various debt schemes has been framed. The investment policy at NIMF specifies limits both on overall basis (across all schemes) as well as on individual scheme level. Guidelines and the following parameters for liquid as well as non liquid schemes have been specified in the policy as follows

- (i) Eligible Instruments - Defines the eligible instruments where the scheme can invest
- (ii) Minimum Liquidity - Defines the instruments considered as liquid instruments and the minimum investments in these instruments as a percentage of total net assets
- (iii) Maximum Illiquid component - Defines the instruments considered as illiquid and the maximum investment that can be made in these instruments as a percentage of net assets.
- (iv) Rating - Defines minimum and/ or maximum investment in a particular rating as a percentage of total portfolio.
- (v) Maturity - Defined the weighted average maturity of a portfolio. Also defines the weighted average maturity, maximum and maturity for certain asset types like corporate bond, PTCs, Gilts etc.
- (vi) All the Schemes securities investment will be in transferable securities.

SPECIAL CONSIDERATIONS (For complete details please refer SAI)	The Mutual Fund is not assuring or guaranteeing that it will be able to make regular periodical distributions units to its Unit holders though it has every intention to manage the portfolio so as to make periodical income distributions to Unit holders. Periodical distributions will be dependent on the returns achieved by the Asset Management Company through the active management of the portfolio. Periodical distributions may therefore vary from period to period, based on investment results of the portfolio. Performance of the Nifty 50 INDEX will have a direct bearing on the performance of the Scheme. In the event the Nifty 50 INDEX is dissolved or is withdrawn by NSE Indices Limited (formerly known as India Index Services & Products Limited ("IISL")) the Trustee reserves a right to modify the Scheme so as to track a different and suitable index and appropriate intimation will be sent to the Unit holders of the Scheme. Tracking errors are inherent in any index fund and such errors may cause the Scheme to generate returns which may not be in line with the performance of the Nifty 50 INDEX or one or more securities covered by /included in the Nifty 50 INDEX and may arise from a variety of factors including but not limited to:

	(i) Any delay in the purchase or sale of shares due to illiquidity in the market, settlement and realisation of sales proceeds, delay in credit of securities or in receipt and consequent reinvestment of IDCWs etc. (ii) The indices reflect the prices of securities at a point of time, which is the price at close of Business Day on NSE Indices Limited. The Scheme, however, may trade these securities at different points in time during the trading session and therefore the prices at which the Scheme trade may not be identical to the closing price of each scrip on that day on the NSE Indices Limited. In addition, the Scheme may opt to trade the same securities on different exchanges due to price or liquidity factors, which may also result in traded prices being at variance from NSE Indices Limited closing prices. (iii) The NSE Indices Limited may exclude existing securities or include new ones in the NIFTY. In such an event, the Scheme will endeavor to reallocate its portfolio to mirror the changes. However, the reallocation process may not occur instantaneously and permit precise mirroring of the Nifty 50 INDEX during this period. (iv) The potential of trades to fail may result in the Scheme not having acquired the security at the price necessary to mirror the change. (v) Transaction and other expenses, such as but not limited to brokerage, custody, trustee and investment management fees. (vi) Being an open ended scheme, the Scheme may hold appropriate levels of cash or cash equivalents to meet ongoing redemptions. (vii) The Scheme may not be able to acquire or sell the desired number of securities due to conditions prevailing in the securities market, such as, but not restricted to, circuit filters in the securities, liquidity and volatility in security prices. (viii) Under normal circumstances, the AMC shall endeavor that the Tracking Error of the Scheme based on past 1 year rolling data shall not exceed 2% per annum. However, in case of unavoidable circumstances in the nature of force majeure, which are beyond the control of the AMCs, the tracking error may exceed 2% and the same shall be brought to the notice of Trustees with corrective actions taken by the AMC, if any. In case of investments in derivative instruments like index futures, the risk./reward would be the same as investments in portfolio of shares representing an index. However, there may be a cost attached to buying an index future. Further, there could be an element of settlement risk, which could be different from the risk in settling physical share and there is a risk attached to the liquidity and the depth of the index futures market as it is relatively new market. In the event the NIFTY may be dissolved or is withdrawn by NSE Indices Limited respectively or is not published due to any reason whatsoever, the Trustee reserves the right to modify the respective Plans so as to track a different and suitable index or to suspend tracking the NIFTY till such time it is dissolved/withdrawn or not published and appropriate intimation will be sent to the Unit holders of the Scheme. In such a case, the investment pattern will be modified suitably to match the compositions of the securities that are included in the new index to be tracked and the Scheme will be subject to tracking errors during the intervening period. The Fund is not assuring or guaranteeing that it will be able to make regular periodical distributions units to its Unitholders though it has every intention to manage the portfolio so as to make periodical income distributions to Unitholders. Periodical distributions will be dependent on the returns achieved by NAM India through the active management of the portfolio. Periodical distributions may therefore vary from period to period, based on investment results of the portfolio. NAM India may use various derivative products, from time to time, in an attempt to protect the value of the portfolio and with an intention to enhance Unit holder's interest of the Scheme. As and when the Scheme trades in the derivatives market, there are risk factors and issues concerning the use of derivatives that investors should understand.
