Part II. INFORMATION ABOUT THE SCHEME

A. HOW WILL THE SCHEME ALLOCATE ITS ASSETS?

Under normal circumstances, the anticipated asset allocation would be:

Instruments	Indicative asset allocation (% of total assets)		Risk Profile
	Minimum	Maximum	
Securities constituting Nifty Dividend Opportunities 50 Index	95%	100%	Medium to High
Money Market instruments including Tri-party Repo on government securities and T-bills (with maturity not exceeding 91 days and liquid schemes of Mutual Fund	0%	5%	Low to Medium

The Scheme, in general, will hold all the securities that comprise the underlying Index in the same proportion as the index. Expectation is that, over a period of time, the tracking error of the Scheme relative to the performance of the Underlying Index will be relatively low.

The Investment Manager would monitor the tracking error of the Scheme on an ongoing basis and would seek to minimize tracking error to the maximum extent possible. There can be no assurance or guarantee that the Scheme will achieve any particular level of tracking error relative to performance of the Underlying Index.

The scheme will neither make any investment in ADR / GDR / Foreign Securities / Securitized Debt nor will it engage in short selling and securities lending. Further, it shall not take any exposure in derivative instruments.

The cumulative gross exposure through repo transactions in Corporate debt securities along with equity and money market instruments should not exceed 100% of the net assets of the scheme or guidelines as may be specified by SEBI from time to time as per clauses 12.24 and 12.25 of SEBI Master Circular dated June 27, 2024.

Indicative Table (Actual instrument/percentages may vary subject to applicable SEBI circulars)

Sl. No	Type of Instrument	Percentage of exposure	Circular references

Rebalancing of deviation due to short term defensive consideration:

Any alteration in the investment pattern will be for a short term on defensive considerations as per clause 1.14.1.2 of SEBI Master Circular dated June 27, 2024, the intention being always to protect the interests of the Unit Holders and the Scheme shall rebalance the portfolio within 7 calendar days.

It may be noted that no prior intimation/indication will be given to investors when the composition/asset allocation pattern under the Scheme undergoes changes within the permitted band as indicated above.

Portfolio rebalancing in case of passive breach:

In line with clause 3.6.7 of SEBI Master Circular dated June 27, 2024, in case of change in constituents of the index due to periodic review, the portfolio of Scheme shall be rebalanced within 7 calendar days. Further, any transactions undertaken in the portfolio of Index Schemes to meet the redemption and subscription obligations shall be done ensuring that post such transactions replication of the portfolio with the index is maintained at all points of time.

However, always the portfolio will adhere to the overall investment objectives of the Scheme. However, the same will be rectified at the earliest opportunity as may be available, but not later than 7 days, to minimize the tracking error.

In the event of involuntary corporate action, the scheme shall dispose the security not forming part of the underlying index within 7 calendar days from the date of allotment/listing.

B. WHERE WILL THE SCHEME INVEST?

Investment in Equities and equity related instruments: The Scheme would invest in stocks comprising the Nifty Dividend Opportunities 50 Index in the same proportion (weightage) as in the Index and endeavor to track the total return variant of the benchmark index.

Investment in money market instrument: The Scheme may also invest in money market instruments, in compliance with Regulations to meet liquidity requirements. The scheme may also invest in liquid schemes of Nippon India Mutual Fund or other schemes which has objective to invest in money market instruments. Money Market Instruments include commercial papers, treasury bills, and Government securities having an unexpired maturity upto one year, call or notice money, certificate of deposit, Tri-Party Repo on government securities or T-bills and any other like instruments as specified by the Reserve Bank of India from time to time

The Fund may also enter into "Repo", hedging or such other transactions as may be allowed to Mutual Funds from time to time.

Investments in Tri-Party Repo on government securities or T-bills would be as per the RBI circular dated July 24, 2018.

Investments in Repo in corporate debt securities would be in line with Clause 12.18 of SEBI Master Circular dated June 27, 2024 and RBI circular dated July 24, 2018 and shall be made basis the policy approved by the Board of NAM India and NLITL. The significant features are as follows:

- i. As specified in the Clause 12.18.1.3 of SEBI Master Circular dated June 27, 2024, the base of eligible securities for mutual funds to participate in repo in corporate debt securities is from AAA rated to AA and above rated corporate debt securities.
- ii. Category of counterparty & Credit rating of counterparty NIMF schemes shall enter in lending via Repo only with Investment Grade counterparties.
- iii. The Gross exposure of the scheme to repo transactions in corporate debt securities shall not be more than 10% of the net asset of the scheme.

All investment restrictions stated above shall be applicable at the time of making investment. Further, any new circular issued by RBI or SEBI on Repo would be applicable from time to time.

Applicable Haircut

RBI vide its circular dated July 24, 2018 had indicated the haircut to be applied for such transactions as follows:

Haircut/ margins will be decided either by the clearing house or may be bilaterally agreed upon, in terms of the documentation governing repo transactions, subject to the following stipulations:

- i. Listed corporate bonds and debentures shall carry a minimum haircut of 2% of market value. Additional haircut may be charged based on tenor and illiquidity of the security.
- ii. CPs and CDs shall carry a minimum haircut of 1.5% of market value.
- iii. Securities issued by a local authority shall carry a minimum haircut of 2% of market value.

Additional haircut may be charged based on tenor and illiquidity of the security

Debt Market In India

The Indian Debt market is facing major shift in the recent times. The substantial growth in Mutual Fund collections in the past few years have provided an easy route for the investors to channelise their savings into the debt market, which otherwise is largely dominated by Banks and other Institutional investors.

At present, the Indian debt market is dominated by issues of Central Government bonds, Corporate Debentures and PSU Bonds. The other instruments available for investment are Commercial Papers, Certificate of Deposits, Government guaranteed bonds, etc.

Brief details about the instruments are given below as on Sep 30, 2025

Instruments	Listed/ Unlisted	Current Yield Range As on Apr 30, 2025	Liquidity	Risk profile

THE PRICE AND YIELD ON VARIOUS DEBT INSTRUMENTS FLUCTUATE FROM TIME TO TIME DEPENDING UPON THE MACRO ECONOMIC SITUATION, INFLATION RATE, OVERALL LIQUIDITY POSITION, FOREIGN EXCHANGE SCENARIO, ETC. ALSO, THE PRICE AND YIELD VARIES ACCORDING TO MATURITY PROFILE, CREDIT RISK ETC.

C. WHAT ARE THE INVESTMENT STRATEGIES?

Investment Approach and Risk Control

Nippon India ETF Nifty Dividend Opportunities 50 is a passively managed exchange traded fund which will employ an investment approach designed to track the performance of Nifty Dividend Opportunities 50 Index. The Scheme seeks to achieve this goal by investing in securities constituting the Nifty Dividend Opportunities 50 Index in same proportion as in the Index. The Scheme will invest at least 95% of its total assets in the securities comprising the Underlying Index. The Scheme may also invest in money market instruments to meet the liquidity and expense requirements.

The fund is ideal for those investors who would like to passively invest in a well-diversified portfolio of well known high yielding companies as approximately represented by Nifty Dividend Opportunities 50 Index.

Tracking Error

Tracking error is defined as the annualized standard deviation of the difference in the daily returns between the NAV of the Scheme and the underlying index.. Theoretically, the corpus of the Scheme has to be fully invested in the securities comprising the Underlying Index in the same proportion of weights as the securities have in the Underlying Index. However, deviations from the stated index replication may occur due to reason that the Scheme has to incur expenses, corporate actions pertaining to the Index including changes to the constituents, regulatory policies, ability of the Fund Manager to closely replicate the Underlying Index, etc. The Scheme's returns may therefore deviate from those of its Underlying Index. Tracking Error may arise due to the following reasons:

1. Fees and expenses of the Scheme.
2. Cash balance held by the Scheme due to Dividend received subscriptions, redemption, etc.
3. Halt in trading on the stock exchange due to circuit filter rules.
4. Corporate actions
5. The Scheme has to invest in the securities in whole numbers and has to round off the quantity of securities shares.
6. Dividend Payout.
7. Changes in the constituents of the underlying Index. Whenever there are any changes, the Scheme has to reallocate its investment as per the revised Index but market conditions may not offer an opportunity to rebalance its portfolio to match the Index and such delay may affect the NAV of the Scheme.

The AMC would monitor the tracking error of the Scheme on an ongoing basis and would seek to minimize tracking error to the maximum extent possible. Under normal market circumstances, tracking error based on past one year rolling data shall not exceed 2%. However, in case of unavoidable circumstances in the nature of force majeure, which are beyond the control of the AMCs, the tracking error may exceed 2% and the same shall be brought to the notice of Trustees with corrective actions taken by the AMC, if any.

Tracking difference

Tracking difference is defined as the annualized difference of returns between the NAV of the Scheme and the underlying index.

Risk Control

For the Scheme, risks would be the impact cost on securities, illiquidity in the underlying index stocks, the delayed communication of weightage changes by the index service providers and the delayed calculation of net change in assets of the Scheme, amongst others.

It is proposed to manage the risks by placing limit orders for basket trades and other trades, proactive follow-up with the service providers for daily change in weights in index as well as monitor daily inflows and outflows to and from the Fund closely.

While these measures are expected to mitigate the above risks to a large extent, there can be no assurance that these risks would be completely eliminated. Since investing requires disciplined risk management, the AMC would incorporate adequate safeguards for controlling risks in the portfolio construction process.

PORTFOLIO TURNOVER

Generally, turnover will be confined to rebalancing of portfolio on account of change in the composition and corporate actions of Nifty Dividend Opportunities 50 Index.

D. HOW WILL THE SCHEME BENCHMARK ITS PERFORMANCE?

Nifty Dividend Opportunities 50 Index

As per the investment objective of the scheme, the investment would primarily be in securities which are constituents of the Nifty Dividend Opportunities 50 Index. Thus, the composition of the aforesaid benchmark index is such that it is most suited for comparing performance of the Scheme.

About the Index

The Nifty Dividend Opportunities 50 Index is designed to provide exposure to high yielding companies listed on NSE while meeting stability and tradability requirements. The Nifty Dividend Opportunities 50 Index comprises of 50 companies. The methodology employs a yield driven selection criteria that aims to maximize yield while providing stability and tradability.

Selection Criteria:

The criteria for the Nifty Dividend Opportunities 50 Index include the following:

- i. Companies must rank within the top 300 companies by average free float market capitalisation and average daily turnover for the last six months.
- ii. The company's trading frequency should be at least 90% in the last six months.
- iii. Companies must have reported net profit as per latest annual audited results.
- iv. A Dividend yield of each company is calculated using total Dividend amount in the last 12 months (calculated based on ex-Dividend date) prior to the rebalancing reference date using average market capitalization for one year period ending January.
- v. Top 25 companies ranked by annual Dividend yield will be compulsorily included in the index and companies ranked below 75 by annual Dividend yield will be compulsorily excluded from the index.
- vi. Final selection of 50 companies shall be done based on higher Dividend yield.

Index Re-Balancing:

The effective date for index reconstitution of index is the last trading day of respective month. For review of indices, average data for 6 months period ending last trading day of January of each year.

At the time of rebalancing of shares/ change in index constituents/ change in investable weight factors (IWFs), the weightage of the index constituent (where applicable) is capped at 10%.

Index Service Provider

NSE Indices Limited (formerly known as India Index Services & Products Ltd. - IISL), a subsidiary of NSE, provides a variety of indices and index related services for the capital markets. The company focuses on the index as a core product. The company owns and manages a portfolio of indices under the NIFTY brand of NSE, including the flagship index, the NIFTY 50. NIFTY equity indices comprises of broad-based benchmark indices, sectoral indices, strategy indices, thematic indices and customised indices. Part III - OTHER DETAILS

A. COMPUTATION OF NAV

The Net Asset Value (NAV) of the Units will be determined daily or as prescribed by the Regulations. The NAV shall be calculated in accordance with the following formula, or such other formula as may be prescribed by SEBI from time to time.

NAV =	Market/Fair Value of Scheme's Investments + Receivables + Accrued Income + Other Assets - Accrued Expenses- Payables- Other Liabilities
	Number of Units Outstanding

Example: If the applicable NAV is Rs. 10.00, sales/entry load is 2 per cent and the exit/repurchase load is 2 percent then the sales price will be Rs. 10.20 and the repurchase price will be Rs. 9.80.

NAV Information: The NAV of the Scheme will be calculated and declared by the Fund on every Working Day by 11.00 p.m. The information on NAV may be obtained by the Unitholders, on any day from the office of the AMC / the office of the Registrar in Hyderabad or any of the other Designated Investor Service Centres.

Investors may also obtain information on the purchase /sale price for a given day on any Working Day from the office of the AMC / the office of the Registrar in Hyderabad/ any of the other Designated Investor Service Centres.

For any NAV information, investor may also call our customer service centre at 022-3030 1111, callers outside India, please dial 91-22-30301111.

Please refer to the SAI for information on the valuation of the assets of the Scheme.

Illustration for computation of NAV:

Particulars	Amount (In INR)
Assets	
Market/Fair Value of Scheme's Investments	1,00,000
Current Assets	
Receivables	1,500
Accrued Income	500
Other Assets	1,000
Total Assets (A)	1,03,000
Current Liabilities	
Accrued Expenses	1,100
Payables	300
Other Liabilities	100
Total Liabilities (B)	1,500
Net Assets (C) (A – B)	1,01,500
Units Outstanding (D)	10,000
NAV per unit (C/D)	10.1500

The mutual fund shall ensure that the repurchase price of the scheme is not lower than 97% of the Net Asset Value.

Methodology for calculation of sale and re-purchase price of the units of mutual fund scheme:

Let's assume that the NAV of a Mutual Fund Scheme on April 01, 2018 is Rs. 10/-.

Purchase of mutual fund units:

The Purchase Price of the Units on an ongoing basis will be same as Applicable NAV.

Purchase Price = Applicable NAV

In the above example, purchase is done on April 01, 2018, when the Applicable NAV = Rs. 10/-. Therefore, Purchase Price = Rs. 10/-

As per existing Regulations, no entry load is charged with respect to applications for purchase / additional purchase of mutual funds units.

Redemption/Re-purchase of mutual fund units:

The Redemption Price of the Units will be calculated on the basis of the applicable NAV subject to prevailing Exit Load, if any. In case of redemption, the amount payable to the investor shall be calculated as follows:

Redemption Price = Applicable NAV * (1 - Exit Load)

Say, in the above example the exit load applicable is

For exit on or before 12 months from the date of allotment – 1.00%

For exit after 12 months from the date of allotment – Nil.

Scenario 1: Redemption is done during applicability of exit load

In case the investor requests for redemption on or before 12 months i.e. on or before March 31, 2019; say December 1, 2018, when the NAV of the scheme is Rs. 12/- and the exit load applicable is 1%, so the Redemption amount payable to investor shall be calculated as follows:

$$\begin{aligned}\text{Redemption Price} &= \text{Applicable NAV} * (1 - \text{Exit Load}) \\ &= \text{Rs. } 12 * (1 - 1\%) = \text{Rs. } 11.88/-\end{aligned}$$

Scenario 2: Redemption is done when the exit load is NIL

In case the investor requests for redemption after 12 months i.e. after March 31, 2019; say April 1, 2019, when the NAV of the scheme is Rs. 12/- and the exit load applicable is NIL, so the Redemption amount payable to investor shall be calculated as follows:

$$\begin{aligned}\text{Redemption Price} &= \text{Applicable NAV} * (1 - \text{Exit Load}) \\ &= \text{Rs. } 12 * (1 - 0) = \text{Rs. } 12/-\end{aligned}$$

The aforesaid example does not take into consideration any applicable statutory levies or taxes. Accordingly, the redemption amount payable to investor shall further reduce to the extent of applicable statutory levies or taxes.

For other details such as policies w.r.t computation of NAV, rounding off, investment in foreign securities, procedure in case of delay in disclosure of NAV etc. refer to SAI

B. NEW FUND OFFER (NFO) EXPENSES

The New Fund Offer expenses of the scheme shall be borne by the AMC from retained earnings.

C. ANNUAL SCHEME RECURRING EXPENSES

These are the fees and expenses for operating the scheme. These expenses include Investment Management and Advisory Fee charged by the AMC, Registrar and Transfer Agents' fee, marketing and selling costs etc. as given in the table below:

The AMC would update the current expense ratios on the website of the mutual fund at least three working days prior to the effective date of the change. Further Actual Expense ratio will be disclosed at the following link

<https://mf.nipponindiaim.com/investor-services/downloads/total-expense-ratio-of-mutual-fund-schemes>

Other Expenses #	
Maximum total expense ratio (TER) permissible under Regulation 52(6)(b)	Upto 1.00%

The Scheme shall not incur any distribution expenses and no commission shall be paid by this scheme.

(# Expenses including listing fees charged under the said parameters shall be in line with the Regulation 52 of SEBI (MF) Regulations or such other basis as specified by SEBI from time to time.)

Illustration – Impact of Expense Ratio on the Returns	
Value of Rs 1 lac on 12% annual returns in 1 year, considering 1% Expense Ratio	
Amount Invested	100,000.00
NAV at the time of Investment	10.00
No of Units	10,000.00
Gross NAV at end of 1 year (assuming 12% annual return)	11.20
Expenses (assuming 1% Expense Ratio on average of opening and closing NAV)	0.11
Actual NAV at end of 1 year post expenses (assuming Expense Ratio as above)	11.09
Value of Investment at end of 1 year (Before Expenses)	112,000.00
Value of Investment at end of 1 year (After Expenses)	110,940.00

Note: Please note that the above is an approximate illustration of the impact of expense ratio on the returns, where the Gross NAV has been simply reduced to the extent of the expenses. In reality, the actual impact would vary depending on the path of returns over the period of consideration. Expenses will be charged on daily net assets.

These estimates have been made in good faith as per the information available to the Investment Manager based on past experience but the total expenses shall not exceed the limits permitted by SEBI. Types of expenses charged shall be as per the SEBI (MF) Regulations. The purpose of the above table is to assist the investor in understanding the various costs and expenses that an investor in the scheme will bear directly or indirectly.

Goods & Service tax on investment management and advisory fees, to the Scheme will be, in addition to the maximum annual recurring expenses that may be charged to the Scheme.

Goods & Service Tax on other than investment and advisory fees, if any, shall be borne by the scheme within the maximum limit as per regulation 52 of the SEBI Regulations.

Mutual Funds/AMCs will annually set apart at least 1 basis points on daily net assets within the maximum limit as per regulation 52 of the SEBI Regulations for investor education and awareness initiatives.

With effect from 16th March 2025, for Passive schemes and Overseas Fund of Funds (FoFs) - based on underlying indices as per clause 3 and clause 4 of the SEBI circular SEBI/HO/IMD/PoD2/P/CIR/2024/183 dated 31st December 2024, AMCs shall allocate funds towards investor education and awareness initiatives as 5% of total TER charged to direct plans, subject to maximum of 0.5 bps of AUM.

However, no Investment Management fees would be charged on NAM India's investment in the Scheme. The Trustee Company, shall be entitled to receive a sum computed @ 0.05% of the Unit Capital of all the Schemes of NIMF on 1st April each year or a sum of Rs.5,00,000/- whichever is lower or such other sum as may be agreed from time to time in accordance with the SEBI Regulations or any other authority, from time to time.

The total expenses of the ETF scheme including the investment management and advisory fee shall not exceed One percent (1%) of the daily net assets and such other limits as stated in Regulation 52(6).

The above expenses are fungible within the overall maximum limit prescribed under SEBI (Mutual Funds) Regulations, 1996, which means there will be no internal sub-limits on expenses and AMC is free to allocate them within the overall TER.

The Incentives, if any, to Market Makers shall be charged to the scheme within the maximum permissible limit of TER as per Clause no. 3.6.1.4 of SEBI Master Circular dated June 27, 2024.

In terms of Regulation 52(1) of SEBI (Mutual Funds) Regulations, 1996, all scheme related expenses including commission paid to distributors, by whatever name it may be called and in whatever manner it may be paid, will necessarily be paid from the scheme only within the regulatory limits and not from the books of AMC, its associate, sponsor, trustee or any other entity through any route. Provided that the expenses that are very small in value but high in volume may be paid out of AMC's books. Such expenses shall be paid out of AMC books at actuals or not exceeding 2 bps of respective scheme AUM, whichever is lower. List of such miscellaneous expenses may be provided by AMFI in consultation with SEBI or as specified/amended by AMFI/SEBI from time to time.

In addition to the limits specified in regulation 52(6), the following costs or expenses may be charged to the scheme as per new sub regulation 6A, namely-

- (a) Brokerage and Transaction costs (including GST) incurred for the execution of trades may be expensed out in the scheme to the extent of 0.12 per cent of the value of trades in case of cash market transactions. Payment towards brokerage and transaction costs incurred for the execution of trades, over and above the said 0.12 per cent for cash market transactions may be charged to the scheme within the maximum limit of Total Expense Ratio (TER) as prescribed under Regulation 52 of the SEBI (Mutual Funds) Regulations, 1996. Any expenditure in excess of the said prescribed limit (including brokerage and transaction costs, if any) shall be borne by the AMC or by the Trustee or Sponsors.

The Fund will strive to reduce the level of these expenses so as to keep them well within the maximum limits allowed by SEBI. Expenses on an ongoing basis will not exceed the percentage of the daily net assets or such maximum limits as may be specified by SEBI Regulations from time to time.

D. LOAD STRUCTURE

Exit Load is an amount which is paid by the investor to subscribe to the units or to redeem the units from the scheme. For the current applicable structure, please refer to the website of the AMC (<https://mf.nipponindiaim.com> / <https://etf.nipponindiaim.com>) or may call at Customer Service Centre at 1860-266-0111 (charges applicable), and Investors outside India can call at 91-22-69259696 (charges applicable) or your distributor.

Load amounts are variable and are subject to change from time to time. NAM India, in consultation with the Trustees, reserves the right to change the load structure if it so deems fit in the interest of smooth and efficient functioning of the scheme. Any imposition or enhancement in the load shall be applicable on prospective investments only. However, NAM India shall not charge any load on issue of bonus units and units allotted on reinvestment of IDCW for existing as well as prospective investors. At the time of changing the load structure:

- (i) The addendum detailing the changes may be attached to Scheme Information Documents and key information memorandum. The addendum may be circulated to all the distributors/brokers so that the same can be attached to all Scheme Information Documents and key information memoranda already in stock.
- (ii) Arrangements may be made to display the addendum in the Scheme Information Document in the form of a notice in all the investor service centres and distributors/brokers office.
- (iii) The introduction of the exit load alongwith the details may be stamped in the acknowledgement slip issued to the investors on submission of the application form and may also be disclosed in the statement of accounts issued after the introduction of such load.
- (iv) A public notice shall be given in respect of such changes in one English daily newspaper having nationwide circulation as well as in a newspaper published in the language of region where the Head Office of the Mutual Fund is situated.
- (v) Any other measures which the mutual funds may feel necessary.

Applicable Load Structure

Entry & Exit Load: Not Applicable

There will be no entry/exit load on Nippon India ETF Nifty Dividend Opportunities 50 bought or sold through the secondary market on the NSE. However, an investor would be paying cost in the form of a bid and ask spread and brokerage, as charged by his broker for buying / selling Nippon India ETF Nifty Dividend Opportunities 50

No entry or exit load will be levied on transactions with Authorized Participants/Market Makers and Large Investors during NFO or continuous offer.

Investor other than APs/Large investors can directly approach AMC for transaction of up to INR 25 Cr and no exit load shall be charged for redemption of units if

- i. Traded price (closing price) of the ETF units is at discount of more than 1% to the day end NAV for 7 continuous trading days, or
- ii. No quotes for such ETFs are available on stock exchange(s) for 3 consecutive trading days, or
- iii. Total bid size on the exchange is less than half of creation units size daily, averaged over a period of 7 consecutive trading days.

In such a scenario valid applications received upto 3 p.m. the Mutual Fund shall process the redemption request basis the closing NAV of the day of receipt of application.

Such instances shall be tracked by NAM India on an ongoing basis and incase if any of the above mentioned scenario arises the same shall be disclosed on the website of Nippon India Mutual Fund i.e. <https://mf.nipponindiaim.com> / <https://etf.nipponindiaim.com>

For any change in load structure NAM India will issue an addendum and display it on the website and on i.e. <https://mf.nipponindiaim.com> / <https://etf.nipponindiaim.com> and Investor Service Centres.

Switchover Facility

Switch in during ongoing basis will be allowed only from eligible Liquid and Debt /Income funds into Nippon India ETF Nifty Dividend Opportunities 50 Fund. Switch-out during ongoing basis will be allowed only from eligible equity, liquid and debt / income schemes.

SECTION II

I. INTRODUCTION

A. Definitions/interpretation

For definition details please visit: <https://mf.nipponindiaim.com/investor-service/downloads/scheme-information-document>

B. Risk Factors

SCHEME SPECIFIC RISK FACTORS:

a) Risks associated with investing in Equities

Equity and Equity related instruments on account of its volatile nature are subject to price fluctuations on daily basis. The volatility in the value of the equity and equity related instruments is due to various micro and macro economic factors affecting the securities markets. This may have adverse impact on individual securities /sector and consequently on the NAV of Scheme.

The inability of the Scheme to make intended securities purchases due to settlement problems, could cause the Scheme to miss certain investment opportunities as in certain cases, settlement periods may be extended significantly by unforeseen circumstances. Similarly, the inability to sell securities held in the schemes portfolio may result, at times, in potential losses to the scheme, should there be a subsequently decline in the value of the securities held in the schemes portfolio.

Trading volumes, settlement periods and transfer procedures may restrict the liquidity of the investments. This may impact the ability of the unit holders to redeem their units. In view of this, the Trustee has the right, in its sole discretion to limit redemptions (including suspending redemptions) under certain circumstances.

The Scheme may find itself invested in unlisted securities due to external events or corporate actions. This may increase the risk of the portfolio as these unlisted securities are inherently illiquid in nature and carry larger liquidity risk as compared to the listed securities or those that offer other exit options to the investors.

Investments in equity and equity related securities involve high degree of risks and investors should not invest in the Scheme unless they can afford to take the risk of losing their investment.

b) Risks associated with investing in Money Market Instruments

Investment in Money Market is subject to price, credit, and interest rate risk.

The NAV of the Scheme may be affected, inter alia, by changes in the market conditions, interest rates, trading volumes, settlement periods and transfer procedures.

Investing in Money market securities are subject to the risk of an Issuer's inability to meet principal and interest payments obligation (credit risk) and may also be subject to price volatility due to such factors as interest rate sensitivity, market perception of the creditworthiness of the issuer and general market liquidity (market risk).

The timing of transactions in money market instruments, which will often depend on the timing of the Purchases and Redemptions in the Scheme, may result in capital appreciation or depreciation because the value of money market obligations generally varies inversely with the prevailing interest rates.

Interest Rate Risk

As with all fixed income securities, changes in interest rates will affect the Scheme's Net Asset Value as the prices of securities generally increase as interest rates decline and generally decrease as interest rates rise. Prices of longer-term securities generally fluctuate more in response to interest rate changes than do shorter-term securities. Interest rate movements in the Indian markets can be volatile leading to the possibility of large price movements up or down in money market securities and thereby to possibly large movements in the NAV.

Liquidity or Marketability Risk

This refers to the ease at which a security can be sold at or near its true value. The primary measure of liquidity risk is the spread between the bid price and the offer price quoted by a dealer. Liquidity risk is characteristic of the Indian fixed income market

Credit Risk

Credit risk or default risk refers to the risk which may arise due to default on the part of the issuer of the money market security (i.e. will be unable to make timely principal and interest payments on the security). While this risk is limited in money market instruments, because of stringent restrictions on issuers, it is not eliminated completely. Hence, they are sold at a yield spread above those offered on Treasury securities, which are sovereign obligations and generally considered to be free of credit risk. Normally, the value of a fixed income security will fluctuate depending upon the actual changes in the perceived level of credit risk as well as the actual event of default.

Reinvestment Risk

This risk refers to the interest rate levels at which cash flows received from the securities in the Scheme or from maturities in the Scheme are reinvested. The additional income from reinvestment is the "interest on interest" component. The risk refers to the fall in the rate for reinvestment of interim cashflows.

Risks associated with various types of securities

	CREDIT RISK	LIQUIDITY RISK	PRICE RISK
Listed	Depends on credit quality	Relatively Low	Depends on duration of instrument
Unlisted	Depends on credit quality	Relatively High	Depends on duration of instrument
Secured	Relatively low	Relatively Low	Depends on duration of instrument
Unsecured	Relatively high	Relatively High	Depends on duration of instrument
Rated	Relatively low and depends on the rating	Relatively Low	Depends on duration of instrument
Unrated	Relatively high	Relatively High	Depends on duration of instrument

Different types of securities in which the scheme would invest as given in the Scheme Information Document carry different levels and types of risk. Accordingly, the scheme's risk may increase or decrease depending upon its investment pattern

d) Risk associated with Repo transactions in Corporate Bonds

In Repo transactions, also known as a repo or sale repurchase agreement, securities are sold with the seller agreeing to buy them back at later date. The repurchase price should be greater than the original sale price, the difference effectively representing interest. A repo is economically similar to a secured loan, with the buyer receiving corporate debt securities as collateral to protect against default. The Scheme may invest in repo of corporate debt securities which are subject to the following risks:

- Counterparty Risk:** This refers to the inability of the seller to meet the obligation to buy back securities at the contracted price. The Investment Manager will endeavor to manage counterparty risk by dealing only with counterparties having strong credit profiles assessed through in-house credit analysis or with entities regulated by SEBI/RBI/IRDA.
- Collateral Risk:** In the event of default by the repo counterparty, the schemes have recourse to the corporate debt securities. Collateral risk arises when the market value of the securities is inadequate to meet the repo obligations. This risk is mitigated by restricting participation in repo transactions only in AA and above rated money market and corporate debt securities. In addition, appropriate haircuts are applied on the market value of the underlying securities to adjust for the illiquidity and interest rate risk on the underlying instrument

e) Risks associated with investing in Tri Party Repo through CCIL (TREPS):

The mutual fund is a member of securities segment and Tri-party Repo trade settlement of the Clearing Corporation of India (CCIL). All transactions of the mutual fund in government securities and in Tri-party Repo trades are settled centrally through the infrastructure and settlement systems provided by CCIL; thus, reducing the settlement and counterparty risks considerably for transactions in the said segments.

CCIL maintains prefunded resources in all the clearing segments to cover potential losses arising from the default member. In the event of a clearing member failing to honour his settlement obligations, the default Fund is utilized to complete the settlement. The sequence in which the above resources are used is known as the "Default Waterfall".

As per the waterfall mechanism, after the defaulter's margins and the defaulter's contribution to the default fund have been appropriated, CCIL's contribution is used to meet the losses. Post utilization of CCIL's contribution if there is a residual loss, it is appropriated from the default fund contributions of the non-defaulting members.

Thus, the scheme is subject to risk of the initial margin and default fund contribution being invoked in the event of failure of any settlement obligations. In addition, the fund contribution is allowed to be used to meet the residual loss in case of default by the other clearing member (the defaulting member).

However, it may be noted that a member shall have the right to submit resignation from the membership of the Security segment if it has taken a loss through replenishment of its contribution to the default fund for the segments and a loss threshold as notified have been reached. The maximum contribution of a member towards replenishment of its contribution to the default fund in the 7 days (30 days in case of securities segment) period immediately after the afore-mentioned loss threshold having been reached shall not exceed 5 times of its contribution to the Default Fund based on the last re-computation of the Default Fund or specified amount, whichever is lower.

Further, it may be noted that, CCIL periodically prescribes a list of securities eligible for contributions as collateral by members. Presently, all Central Government securities and Treasury bills are accepted as collateral by CCIL. The risk factors may undergo change in case the CCIL notifies securities other than Government of India securities as eligible for contribution as collateral.

(f) Tracking Error Risk

The Fund Manager would not be able to invest the entire corpus exactly in the same proportion as in the underlying index due to certain factors such as the fees and expenses of the Scheme, corporate actions, cash balance, changes to the underlying index and regulatory restrictions, which may result in Tracking Error with the underlying index. The Scheme's returns may therefore deviate from those of the underlying index. "Tracking Error" is defined as the annualized standard deviation of the difference in daily returns between the NAV of the Scheme and the underlying index. The Fund Manager would monitor the Tracking Error of the Scheme on an ongoing basis and would seek to minimize the Tracking Error to the maximum extent possible. There can be no assurance or guarantee that the Scheme will achieve any particular level of Tracking Error relative to performance of the underlying Index.

Tracking Error may arise due to the following reasons: -

1. Expenditure incurred by the Fund.
2. Available funds may not be invested at all times as the Scheme may keep a portion of the funds in cash to meet Redemptions, for corporate actions or otherwise.
3. Securities trading may halt temporarily due to circuit filters.
4. Corporate actions such as debenture or warrant conversion, rights issuances, mergers, change in constituents etc.
5. Rounding-off of the quantity of shares in the underlying index.
6. Dividend Payout.
7. Index providers undertake a periodical review of the scrips that comprise the underlying index and may either drop or include new scrips. In such an event, the Fund will try to reallocate its portfolio but the available investment/reinvestment opportunity may not permit absolute mirroring immediately.

Under normal market circumstances, tracking error based on past one year rolling data shall not exceed 2%. However, in case of unavoidable circumstances in the nature of force majeure, which are beyond the control of the AMCs, the tracking error may exceed 2% and the same shall be brought to the notice of Trustees with corrective actions taken by the AMC, if any.

G. Other Scheme Specific Risk factors

- a) The liquidity of the Scheme's investments may be inherently restricted by trading volumes, settlement periods and transfer procedures. In the event of an inordinately large number of redemption requests, or of a re-structuring of the Scheme's investment portfolio, these periods may become significant.
- b) Although, the objective of the Fund is to generate optimal returns, the objective may or may not be achieved. The investors may note that if the AMC/Investment Manager is not able to make right decision regarding the timing of increasing exposure in money market instruments in times of falling equity market, it may result in negative returns. Given the nature of scheme, the portfolio turnover ratio may be on the higher side commensurate with the investment decisions and Asset Allocation of the Scheme. At times, such churning of portfolio may lead to losses due to subsequent negative or unfavorable market movements.
- c) Credit And Rating Downgrade Risks may affect the value of Money Market instruments.
- d) The NAV of the scheme to the extent invested in Money market securities are likely to be affected by changes in the prevailing rates of interest and are likely to affect the value of the Scheme's holdings and thus the value of the Scheme's Units.
- e) The AMC may, considering the overall level of risk of the portfolio, invest in lower rated/ unrated securities offering higher yields. This may increase the risk of the portfolio.
- f) Securities which are not quoted on the stock exchanges are inherently illiquid in nature and carry a larger amount of liquidity risk, in comparison to securities that are listed on the exchanges or offer other exit options to the investor, including a put option. The Scheme may find itself invested in unlisted securities due to external events or corporate actions. This may increase the risk of the portfolio.
- g) While securities that are listed on the stock exchange carry lower liquidity risk, the ability to sell these investments is limited by the overall trading volume on the stock exchanges. Money market securities, while fairly liquid, lack a well-developed secondary market, which may restrict the selling ability of the Scheme and may lead to the Scheme incurring losses till the security is finally sold.
- h) Investment decisions made by the AMC may not always be profitable, even though it is intended to generate capital appreciation and maximize the returns by actively investing in equity and equity related securities.
- i) The tax benefits available under the scheme are as available under the present taxation laws and are available only to certain specified categories of investors and that is subject to fulfillment of the relevant conditions. The information given is included for general purposes only and is based on advise that the AMC has received regarding the law and the practice that is currently in force in India and the investors and the Unitholders should be aware that the relevant fiscal rules and their interpretation may change. As is the case with any investment, there can be no guarantee that the tax position or the proposed tax position prevailing at the time of investment in the Scheme will endure indefinitely. In view of the individual nature of tax consequences, each Investor/Unitholder is advised to consult his/her own professional tax advisor.

The Mutual Fund is not assuring or guaranteeing that it will be able to make regular periodical distributions/distribute bonus units to its Unit holders though it has every intention to manage the portfolio so as to make periodical income/bonus distributions to Unit holders. Periodical distributions will be dependent on the returns achieved by the Asset Management Company by tracking the Nifty Dividend Opportunities 50 Index. Periodical distributions may therefore vary from period to period, based on investment results of the portfolio.

Past performance of the Sponsor/ the AMC/ the Mutual Fund is not indicative of the future performance of the Scheme. Nippon India ETF Nifty Dividend Opportunities 50 is the name of the Scheme and does not in any manner indicate either the quality of the Scheme; its future prospects or returns.

All IDCW distributions are subject to the availability of distributable surplus in the Scheme. When an investor switches from this scheme to another scheme on a future date, the scheme specific risk factors applicable to such scheme into which he switches, will apply.

H. Market Trading Risks

- a) Absence of Prior Active Market: Although the units of ETFs are listed on the Stock Exchange for trading, there can be no assurance that an active secondary market will develop or be maintained.
- b) Lack of Market Liquidity: Trading in units of ETFs on the Stock Exchange on which it is listed may be halted because of market conditions or for reasons that, in the view of the concerned Stock Exchange or Market Regulator, trading in the ETF Units is inadvisable.

In addition, trading in the units of ETFs is subject to trading halts caused by extraordinary market volatility pursuant to 'circuit breaker' rules. There can be no assurance that the requirements of the concerned Stock Exchange necessary to maintain the listing of the units of ETFs will continue to be met or will remain unchanged.

- c) **Units of Exchange Traded Funds May Trade at Prices Other than NAV:** Units of Exchange Traded Funds may trade above or below their NAV. The NAV of Units of Exchange Traded Funds may fluctuate with changes in the market value of a Scheme's holdings. The trading prices of units of ETF will fluctuate in accordance with changes in their NAVs as well as market supply and demand. However, given that ETFs can be created / redeemed in Creation Units, directly with the fund, large discounts or premiums to the NAVs will not sustain due to arbitrage possibility available.
- d) **Regulatory Risk:** Any changes in trading regulations by the Exchange or SEBI may affect the ability of market maker to arbitrage resulting into wider premium/ discount to NAV. Although Nippon India ETF Nifty Dividend Opportunities 50 are proposed to be listed on an Exchange, the AMC and the Trustees will not be liable for delay in listing of Units of the Scheme on Exchange / or due to connectivity problems with the depositories due to the occurrence of any event beyond their control.
- e) **Political Risks:** Whereas the Indian market was formerly restrictive, a process of deregulation has been taking place over recent years. This process has involved removal of trade barriers and protectionist measures, which could adversely affect the value of investments. It is possible that the future changes in the Indian political situation, including political, social or economic instability, diplomatic developments and changes in laws and regulations could have an effect on the value of investments. Expropriation, confiscatory taxation or other relevant developments could affect the value of investments.
- f) **Competition Risks:** An investment in Nippon India ETF Nifty Dividend Opportunities 50 may be adversely affected by competition from other methods of investing in the Index.
- g) **Right to Limit Redemptions:** The Trustee, in the general interest of the unit holders of the Scheme offered under this Offer Document and keeping in view of the unforeseen circumstances/unusual market conditions, may limit the total number of Units which can be redeemed on any Business Day depending on the total "Saleable Underlying Stock" available with the fund.
- h) **Redemption Risk –** The Unit Holders may note that even though this is an open ended scheme, the Scheme would ordinarily repurchase Units in Creation Unit size. Thus unit holdings less than the Creation Unit size can normally only be sold through the secondary market, unless no quotes are available on the Exchange for 5 trading days consecutively.
- i) **Asset Class Risk :** The returns from the types of securities in which a Scheme invests may under perform returns from the various general securities markets or different asset classes. Different types of securities tend to go through cycles of out-performance and under performance in comparison of the general securities markets.
- j) **Passive Investments:** As Nippon India ETF Nifty Dividend Opportunities 50 is not actively managed, the underlying investments may be affected by a general decline in the Indian markets relating to its Underlying Index. The scheme invests in the securities included in its underlying index regardless of their investment merit. The AMC does not attempt to take defensive positions in declining markets. Further, the fund manager does not make any judgment about the investment merit nor shall attempt to apply any economic, financial or market analysis.

k) Tracking Error and Tracking Difference Risk

Tracking error is defined as the annualized standard deviation of the difference in the daily returns between the NAV of the Scheme and the Underlying Index. Tracking Difference is defined as the annualized difference of returns between the NAV of the Scheme and the underlying index. Theoretically, the corpus of the Scheme has to be fully invested in the securities comprising the Underlying Index in the same proportion of weights as the securities have in the Underlying Index. However, deviations from the stated index replication may occur due to reason that the Scheme has to incur expenses, corporate actions pertaining to the Index including changes to the constituents, regulatory policies, ability of the Fund Manager to closely replicate the Underlying Index, delay in purchase or non-availability of underlying securities forming part of the index etc. Tracking Error/ Tracking Difference may arise including but not limited to the following reasons:

1. Delay in purchase or non-availability of underlying securities forming part of the index.
2. Delay in liquidation of securities which have been removed by the Index.
3. Fees and expenses of the Scheme.
4. Cash balance held by the Scheme due to interest received during subscriptions, redemption, etc.
5. Halt in trading on the stock exchange due to circuit filter rules.
6. Corporate actions.
7. The Scheme has to invest in the securities in whole numbers and has to round off the quantity of securities.
8. Dividend payout.
9. Changes in the constituents of the underlying Index. Whenever there are any changes, the Scheme has to reallocate its investment as per the revised Index but market conditions may not offer an opportunity to rebalance its portfolio to match the Index and such delay may affect the NAV of the Scheme.

The AMC would monitor the tracking error of the Scheme on an ongoing basis and would seek to minimize tracking error to the maximum extent possible. The annualized tracking difference averaged over one year period shall not exceed 1.25%. In case the average annualized tracking difference over one year period is higher than 1.25%, the same shall be brought to the notice of trustees with corrective actions taken by the AMC, if any.

- l) **Tracking Error of ETFs** is likely to be low as compared to a normal index fund. Due to the Creation / Redemption of units through the in-kind mechanism the fund can keep lesser funds in cash. Also, time lag between buying / selling units and the underlying shares is much lower. The Investment Manager would monitor the tracking error of the Scheme on an ongoing basis and would seek to minimize tracking error to the maximum extent possible. Under normal circumstances, the AMC shall endeavor that such tracking errors shall not exceed 2% per annum.

C. Risk mitigation strategies

As per data from Stock exchanges more than half of market liquidity remains in the index. Therefore, the scheme does not envisage liquidity issues. The scheme may take exposure to equity derivatives of the index itself or its constituent stocks, when equity shares are unavailable, insufficient or for rebalancing in case of corporate actions for a temporary period.

Type of Risks	Measures/ Strategies to control risks
Equity Markets/ Equity Oriented Instruments	• Market Risk and Volatility: Market risk is a risk which is inherent to an equity scheme. Being a passively managed scheme, it will invest in the securities included in its Underlying Index. • Concentration / Sector Risk: Being a passively managed Fund a passive investment carries lesser risk as compared to active fund management. The portfolio follows the index and therefore the level of stock concentration in the portfolio and its volatility would be the same as that of the index, subject to tracking error. Thus, there is no additional element of volatility or stock concentration on account of fund manager decisions. The Risk Mitigation strategy revolves around minimizing the Tracking error to the least possible through regular rebalancing of the portfolio, taking into account the change in weights of stocks in the Underlying Index as well as the incremental collections into / redemptions from the Scheme. • Liquidity Risks: As such the liquidity of stocks that the scheme invests into could be relatively low. The fund will endeavor to maintain a proper asset liability match to ensure redemption payments are made on time and not affected by illiquidity of the underlying stocks.
Debt and Money Market instruments	• Credit Risk: Management analysis will be used for identifying company specific risks. Management's past track record will also be studied. In order to assess financial risk a detailed assessment of the issuer's financial statements will be undertaken. • Price-Risk or Interest-Rate Risk: The Scheme may primarily invest the debt portion of the portfolio in short term debt & money market instruments, units of Liquid and Overnight schemes thereby mitigating the price volatility due to interest rate changes generally associated with long-term securities. • Risk of Rating Migration: The Scheme may primarily invest the debt portion of the portfolio in short-term debt & money market instruments, units of Liquid and Overnight schemes thereby mitigating the risk of rating migration generally associated with long-term securities. • Basis Risk: The debt allocation of scheme is primarily as a cash management strategy and such strategy returns are expected to reflect the very short term interest rate hence investment is done in short term debt and money market instruments. • Spread Risk: The Scheme may primarily invest the debt portion of the portfolio in short-term debt & money market instruments, units of Liquid and Overnight schemes thereby mitigating the risk of spread expansion which is generally associated with long-term securities • Reinvestment Risk: The debt allocation of scheme is primarily as a cash management strategy and such strategy returns are expected to reflect the very short term interest rate hence investment is done in short term debt and money market instruments. Reinvestment risks will be limited to the extent of debt instruments, which will be a very small portion of the overall portfolio value. • Liquidity Risk: The Scheme may, however, endeavor to minimize liquidity risk by primarily investing the debt portion of the portfolio in relatively liquid short-term debt & money market instruments, units of Liquid and Overnight schemes.
Derivatives	The Scheme may invest in derivative for the purpose of hedging, portfolio balancing and other purposes as may be permitted under the Regulations. Equity Derivatives will be used in the form of Index Options, Index Futures, Stock Options and Stock Futures and other instruments as may be permitted by SEBI. Derivatives can be either exchange traded or can be over the counter (OTC). Exchange traded derivatives are listed and traded on stock exchanges whereas OTC derivative transactions are generally structured between two counterparties. Exposure with respect to derivatives shall be in line with regulatory limits and the limits specified in the SID.
Repo Transactions	This risk is largely mitigated, as the choice of counterparties is largely restricted and their credit rating is taken into account before entering into such transactions. Also, operational risks are lower as such trades are settled on a DVP basis. In the event the counterparty is unable to pay back the money to the scheme as contracted on maturity, the scheme may dispose of the assets (as they have sufficient margin) and the net proceeds may be refunded to the counterparty
Currency	The scheme subject to applicable regulations shall have the option to enter into forward contracts for the purpose of hedging against the foreign exchange fluctuations. The Schemes may employ various measures (as permitted by SEBI/RBI) including but not restricted to currency hedging (such as currency options and forward currency exchange contracts, currency futures, written call options and purchased put options on currencies and currency swaps), to manage foreign exchange movements arising out of investment in foreign securities. All currency derivatives trade, if any will be done only through the stock exchange platform.
Securitized Debt	In addition to careful scrutiny of credit profile of borrower/pool additional security in the form of adequate cash collaterals and other securities may be obtained.

Structured (SO) & Obligation Credit Enhancement (CE) rated securities	Scheme wise investments as prescribed by the regulations limits the exposure to such securities. Additionally, covenants of such structured papers are reviewed periodically for adequate maintenance of covers as prescribed in the Information Memorandum of such papers.
Government securities and Triparty repo on Government securities or treasury bills:	As a member of securities segment and Triparty repo segment, maintenance of sufficient margin is a mandatory requirement. CCIL monitors these on a real time basis and requests the participants to provide sufficient margin to enable the trades etc. Also, there are stringent conditions / requirements before registering any participants by CCIL in these segments. Since settlement is guaranteed the loss on this account could be minimal though there could be an opportunity loss.
Units of mutual fund schemes	Mutual Fund portfolios are generally well diversified and typically endeavor to provide liquidity on a T+1/T+2 basis and aim to mitigate any risks arising out of underlying investments. Commodity ETF's are quite liquid as they can either be created /redeemed with the fund house or traded on the exchange.
Tracking errors	Over a short period, the Scheme may carry the risk of variance between portfolio composition and Benchmark. The objective of the Scheme is to closely track the performance of the Underlying Index over the same period, subject to tracking error. The Scheme would endeavor to maintain a low tracking error by actively aligning the portfolio in line with the Index.

While these measures are expected to mitigate the above risks to a large extent, there can be no assurance that these risks would be completely eliminated.

The measures mentioned above is based on current market conditions and may change from time to time based on changes in such conditions, regulatory changes and other relevant factors. Accordingly, our investment strategy, risk mitigation measures and other information contained herein may change in response to the same.

II. Information about the scheme:

A. Where will the scheme invest - For Detailed description, please refer to Section I - Part II – B

B. What are the investment restrictions?

The investment policy of the scheme complies with the rules, regulations and guidelines laid out in SEBI (Mutual Funds) Regulations, 1996. While ordinarily, investments in Debt and Money Market instruments will not exceed 5% of Net Assets as per the above mentioned asset allocation, in the event of unforeseen external circumstances like the index itself not being available, if the portion of Debt and Money Market instruments crosses this limit, the following investment limitations (as per the Seventh Schedule of the Mutual Fund Regulations) would be applicable :

1. Mutual fund scheme shall not invest more than 10% of its NAV in debt instruments comprising money market instruments and non-money market instruments issued by a single issuer which are rated not below investment grade by a credit rating agency authorized to carry out such activity under the Act. Such investment limit may be extended to 12% of the NAV of the scheme with the prior approval of the Board of Trustees and the Board of directors of the asset management company:

Provided that such limit shall not be applicable for investments in Government Securities, treasury bills and collateralized borrowing and lending obligations: Provided further that investment within such limit can be made in mortgaged backed securitised debt which are rated not below investment grade by a credit rating agency registered with the Board:

Provided further that the schemes already in existence shall within an appropriate time and in the manner, as may be specified by the Board, conform to such limits

As per As per clause 12.8 of SEBI Master circular dated June 27, 2024, the scheme shall not invest more than:

- a. 10% of its NAV in debt and money market securities rated AAA; or
- b. 8% of its NAV in debt and money market securities rated AA; or
- c. 6% of its NAV in debt and money market securities rated A and below issued by a single issuer.

The above investment limits may be extended by up to 2% of the NAV of the scheme with prior approval of the Board of Trustees and Board of Directors of the AMC, subject to compliance with the overall 12% limit specified in clause 1 of Seventh Schedule of MF Regulation

2. Mutual Funds/AMCs shall ensure that total exposure of debt schemes of mutual funds in a group (excluding investments in securities issued by Public Sector Units, Public Financial Institutions and Public Sector Banks) shall not exceed 20% of the net assets of the scheme. Such investment limit may be extended to 25% of the net assets of the scheme with the prior approval of the Board of Trustees.
3. Investment in unrated debt and money market instruments, other than government securities, treasury bills, derivative products such as Interest Rate Swaps (IRS), Interest Rate Futures (IRF), etc. by mutual fund schemes shall be subject to the following:
 - a. Investments should only be made in such instruments, including bills re-discounting, usance bills, etc., that are generally not rated and for which separate investment norms or limits are not provided in SEBI (Mutual Fund) Regulations, 1996 and various circulars issued thereunder.
 - b. Exposure of mutual fund schemes in such instruments, shall not exceed 5% of the net assets of the schemes.
 - c. All such investments shall be made with the prior approval of the Board of AMC and the Board of trustees.
4. Transfers of investments from one scheme to another scheme in the Mutual Fund shall be allowed only if:

- i) Such transfers are done at the prevailing market price for quoted instruments on spot basis;
 - ii) The securities so transferred shall be in conformity with the investment objectives & policies of the Scheme to which such transfer has been made.
5. The Scheme may invest in another scheme under the same asset management company or in any other mutual fund without charging any fees, provided the aggregate inter scheme investments made by all Schemes under the same management company or in schemes under the management of any other AMC shall not exceed 5% of NAV of the Mutual Fund. [Provided that this clause shall not apply to any fund of funds scheme.
6. The Mutual Fund shall buy and sell securities on the basis of deliveries and shall in all cases of purchases, take delivery of relative securities and in all cases of sale, deliver the securities and shall in no case put itself in a position whereby it has to make short sale or carry forward transactions or engage in badla finance :

Provided further that sale of government security already contracted for purchase shall be permitted in accordance with the guidelines issued by the Reserve Bank of India in this regard.
7. The Fund shall get the securities purchased or transferred in the name of the Fund on account of the concerned scheme, wherever investments are intended to be of a long-term nature.
8. The fund's schemes shall not make any investment in:
 - i) Any unlisted security of an associate or group company of the sponsor
 - ii) Any security issued by way of private placement by an associate or group company of the sponsor
 - iii) As per SEBI Circular No. SEBI/HO/IMD/IMD-PoD-2/P/CIR/2024/098 dated July 08, 2024, no Mutual Fund scheme shall make any investment in the listed securities of group companies of the sponsor which is in excess of 25 per cent of the net assets of the scheme, except for investments by equity oriented exchange traded funds (ETFs) and Index Funds and subject to such conditions as may be specified by SEBI. Accordingly, it has been decided as under:
 - Equity oriented ETFs and Index Funds, based on widely tracked and non-bespoke indices, can make investments in accordance with the weightage of the constituents of the underlying index. However, such investments shall be subject to an overall cap of 35% of net asset value of the scheme, in the group companies of the sponsor.
 - Widely tracked and non-bespoke indices shall be indices that are tracked by passive funds or act as primary benchmark for actively managed funds with collective Assets under Management (AUM) of INR 20,000 Cr. and above.
9. The Scheme shall not invest in a fund of funds scheme.
10. Pending deployment of funds of the scheme in securities in terms of the investment objectives and policies of the scheme, the Mutual Fund can invest the fund of the scheme in short term deposits of scheduled commercial banks subject to the guidelines as applicable from time to time.

Pursuant to the Clause 12.16 of SEBI Master Circular dated June 27, 2024, where the cash in the scheme is parked in short term deposits of Scheduled Commercial Banks pending deployment, the respective Plan(s) shall abide by the following guidelines:

 - "Short Term" for parking of funds shall be treated as a period not exceeding 91 days.
 - Such short-term deposits shall be held in the name of the Scheme.
 - The scheme shall not park more than 15% of the net assets in short term deposit(s) of all the scheduled commercial banks put together. However, such limit may be raised to 20% with prior approval of the Trustee.
 - Parking of funds in short term deposits of associate and sponsor scheduled commercial banks together shall not exceed 20% of total deployment by the Mutual Fund in short term deposits.
 - The scheme shall not park more than 10% of the net assets in short term deposit(s), with any one scheduled commercial bank including its subsidiaries.
 - The scheme shall not park funds in short term deposit of a bank, which has invested in the Scheme

Note : The above mentioned provisions are Regulatory Provisions for investment in Short Term deposits. This Scheme shall invest in short-term deposits only for 7 days, which means that the Short Term Parking of funds shall be treated as a period not exceeding 7 days.
11. No term loans for any purpose will be advanced by the Scheme.
12. The Scheme shall not invest more than 10% of its NAV in equity shares/equity related instruments of any company.

Provided that, the limit of 10% shall not be applicable for investments in index fund or sector/industry specific scheme.

As per Clause 12.5 of SEBI Master Circular dated June 27, 2024 "the investments by index funds shall be in accordance with the weightage of the scrips in the specific index as disclosed in the Scheme Information Document. In case of sector/industry specific scheme, the upper ceiling on investments may be in accordance with the weightage of the scrips in the respective sectoral index/sub index or 10% of the NAV of the scheme whichever is higher."
13. In case any company has invested more than 5% of the net asset value of a scheme, the investment made by that scheme or by any other scheme of the same Mutual Fund in that company or its subsidiaries, if any, shall be brought to the notice of the Trustees by NAM India and be disclosed in the half-yearly and annual accounts with justification for such investment provided that the latter investment has been made within one year of the date of the former investment calculated on either side.

14. The Fund shall not borrow except to meet temporary liquidity needs of the Fund for the purpose of repurchase / Redemption of Units or payment of interest and IDCW to the Unitholders.

15. The Scheme will comply with any other Regulations applicable to the investments of Mutual Funds from time to time.

Provided that the Fund shall not borrow more than 20% of the net assets of any individual Scheme and the duration of the borrowing shall not exceed a period of 6 months.

In case of borrowing through repo transactions the tenor of such transaction shall not exceed a period of six months.

16. Total exposure of the scheme in a particular sector (excluding investments in Bank CDs, Tri-Party Repo on government securities or T-bills, G-Secs, T-Bills and AAA rated securities issued by Public Financial Institutions and Public Sector Banks and such other instruments if any, as may be specified by SEBI from time to time) shall not exceed 20% or such other percentage of the net assets of the scheme, as prescribed by SEBI from time to time, unless the scheme has specifically been exempted from the requirement by SEBI.

If the total exposure in a particular sector is above 20%, it will be ensured that the total exposure in those sectors shall comply with the aforesaid requirement within a period of one year from the date of issuance of the Clause 12.9 of SEBI Master Circular dated June 27, 2024. During this one year, total exposure of existing schemes in a particular sector shall not increase from the levels existing (if above 20%) as on the date of issuance of the aforesaid circular.

An additional exposure to financial services sector (over and above the limit of 20%) not exceeding 10% of the net assets of the scheme shall be allowed by way of increase in exposure to Housing Finance Companies (HFCs) rated AA and above and registered with National Housing Bank (NHB). Further, an additional exposure of 5% of the net assets of the scheme has been allowed for investments in securitized debt instruments based on retail housing loan portfolio and/or affordable housing loan portfolio.

However, such total investment/ exposure in HFCs shall not exceed 20% of the net assets of the scheme or such other percentage of the net assets of the scheme, as prescribed by SEBI from time to time.

Note : The sector classification shall be basis the data provided by Association of Mutual Fund in India

17. In order to address the risk related to portfolio concentration in ETFs and Index Funds in accordance with Clause 3.4 of SEBI Master Circular dated June 27, 2024, it has been decided to adopt the following norms:

- a) The index shall have a minimum of 10 stocks as its constituents.
- b) For a sectoral/ thematic Index, no single stock shall have more than 35% weight in the index. For other than sectoral/ thematic indices, no single stock shall have more than 25% weight in the index.
- c) The weightage of the top three constituents of the index, cumulatively shall not be more than 65% of the Index.
- d) The individual constituent of the index shall have a trading frequency greater than or equal to 80% and an average impact cost of 1% or less over previous six months.

Accordingly, the scheme seeks to replicate a particular Index hence shall ensure that the index complies with the aforesaid norms

18. The scheme shall participate Repo in corporate debt securities in accordance with Clause 12.18 of SEBI Master Circular dated June 27, 2024 and such other directions issued by RBI and SEBI from time to time.

The Gross exposure of the scheme to repo transactions in corporate debt securities shall not be more than 10% of the net asset of the scheme.

The cumulative gross exposure through repo transactions in Corporate debt securities along with equity and money market instruments should not exceed 100% of the net assets of the scheme or guidelines as may be specified by SEBI from time to time as per clauses 12.24 and 12.25 of SEBI Master Circular dated June 27, 2024.

The scheme shall participate Repo in corporate debt securities in accordance with directions issued by RBI and SEBI from time to time

19. Mutual fund scheme shall not invest in unlisted debt instruments including commercial papers (CPs), other than (a) government securities, (b) other money market instruments and (c) derivative products such as Interest Rate Swaps (IRS), Interest Rate Futures (IRF), etc. which are used by mutual funds for hedging.

However, mutual fund schemes may invest in unlisted Non-Convertible Debentures (NCDs) not exceeding 10% of the debt portfolio of the scheme subject to the condition that such unlisted NCDs have a simple structure (i.e. with fixed and uniform coupon, fixed maturity period, without any options, fully paid up upfront, without any credit enhancements or structured obligations) and are rated and secured with coupon payment frequency on monthly basis.

20. The Mutual Fund under all its schemes taken together will not own more than 10% of any companies paid up capital carrying voting rights.

Provided, investment in the asset management company or the trustee company of a mutual fund shall be governed by clause (a), of sub-regulation (1), of regulation 7B

All investment restrictions shall be applicable at the time of making investments. The AMC may alter these limitations/objectives from time to time to the extent the SEBI Regulations change so as to permit scheme to make its investments in the full spectrum of permitted investments to achieve its investment objective. The Trustees may from time to time alter these restrictions in conformity with the SEBI Regulations.

All investments of the Scheme will be made in accordance with the SEBI Regulations, including Schedule VII thereof.

The Trustee Company in consultation with AMC may alter these above stated limitations from time to time, and also to the extent the Regulations change, so as to permit the Scheme to make its investments in the full spectrum of permitted investments in order to achieve its

investment objectives & policies. As such, all investments of the Scheme will be made in accordance with the Regulations including Schedule VII thereof and the Fundamental Attributes of this Scheme.

Investment Decisions: The investment decisions are taken by a team comprising of the Chief Investment Officer and Fund Managers based on research reports, market intelligence, analysis of macro and micro economic indicators, market trends etc. Detailed discussions take place among the team members before investments are finally made. Such discussions/ meetings occur more than once during a day if situations warrant viz. major economic or political events for a review of earlier decisions. The Fund Managers along with their rationale record all such investment decisions.

The Chief Executive Officer shall be responsible for compliances of all statutory requirements including SEBI Regulations and will supervise investments decisions of Fund Managers taking into consideration the overall interest of the Unitholders and assume responsibility for the day to day and overall Risk Management function of Mutual Fund.

Under him Fund Manager(s) will look after investment of the funds of the Scheme(s) in a manner to achieve the investment objective of the Scheme and in the interest of Unitholders.

The performance of the Schemes is reviewed by the Board of AMC and Trustees in their periodical meetings. The trustee will review the performance of the scheme on a periodical basis and submit a half yearly report to SEBI on various matters related to compliance and performance of the scheme. They may also compare the performance of the scheme against a benchmark index. The benchmark may be changed in future, if a benchmark better suited to the investment objective of the scheme is available, as may be decided by the AMC and the Trustee in line with SEBI (Mutual Fund) Regulations, 1996 any change at a later date shall be recorded and reasonably justified.

Investment by the AMC in the Scheme

Subject to the Regulations, the AMC may invest in the Scheme during the NFO and/or on ongoing basis.

In terms of sub-regulation 16(A) in Regulation 25 of SEBI (Mutual Funds) Regulations, 1996 read along with Clause 6.9 of the SEBI Master Circular dated June 27, 2024 and AMFI Best Practice Guidelines Circular No.100 /2022-23 dated April 26, 2022 on 'Alignment of interest of AMCs with the Unitholders of the Mutual Fund schemes', the AMC shall invest its own funds in the scheme(s) based on the risks associated with the schemes, as may be specified by the SEBI from time to time.

E. Principles of incentive structure for market makers (for ETFs)

Guiding principles of incentive structure for Market Maker

Incentives to market maker will be linked to performance of the market maker in terms of generating liquidity in units of ETFs. Incentives, if any, to MM shall be charged to the scheme within the maximum permissible limit of Total Expense Ratio (TER).

Determination of incentive for Market maker

It will be determined basis any or all of the below mentioned criteria:

- I. It will be based on volume carried out by market maker on the exchange as compared to total volume of respective ETFs on exchange.
- II. It can be fixed monthly compensation which should not exceed TER of the scheme.
- III. Any other performance-based incentive.

Incentives to market maker shall be at the discretion of the AMC & to be decided between the AMC and the MM which may be variable in nature or fixed amount adhering to maximum permissible limit of TER.

Incentives, if any, will be payable to MM subject to MM fulfilling its obligations and responsibilities.

F. Floors and ceiling within a range of 5% of the intended allocation against each sub class of asset, as per clause 13.6.2 of SEBI master circular for mutual funds dated June 27, 2024 (only for close ended debt schemes)- Not Applicable.

G. Other Scheme Specific Disclosures:

Listing and transfer of units	Listing:- The units of Nippon India ETF Nifty Dividend Opportunities 50 shall be listed on the Capital Market Segment of the National Stock Exchange of India (NSE). The trading will be as per the normal settlement cycle. The AMC reserves the right to list the units of the Scheme on any other recognized stock exchange. International Security Identification Numbers (ISIN) in respect of the plans / options of the Scheme will be created and will be admitted to National Securities Depository Limited (NSDL) and Central Depository Services Limited (CDSL) and can be transacted using the beneficiary accounts maintained with any of the respective Depository Participants (DPs). The units will be allotted in the depository mode. The facility of transacting in mutual fund schemes through stock exchange infrastructure is available subject to such limits, operating guidelines, terms and conditions as may be prescribed by the respective Stock Exchanges from time to time. Where units are held by investor in dematerialised form, the demat statement issued by the DP would be deemed adequate compliance with the requirements in respect of despatch of statements of account. The KYC performed by DP shall be considered compliance with Clause 16.2.4.4 of SEBI Master Circular dated June 27, 2024. Transfer of units:- The units of Nippon India ETF Nifty Dividend Opportunities 50 are transferable via the Depository Participant (DP) as the Units are held compulsorily in dematerialised form. Redemption / Settlement of purchase/sale of Nippon India ETF Nifty Dividend Opportunities 50 units on the stock exchange	Buying / Selling Nippon India ETF Nifty Dividend Opportunities 50 units on the stock exchange is similar to buying / selling any other listed securities. If an investor has bought units, an investor has to pay the purchase amount to the broker / sub-broker such that the amount paid is realized before the funds pay-in day of the settlement cycle on the exchange. If an investor has sold units, an investor has to deliver the units to the broker/ sub-broker before the securities pay-in day of the settlement cycle on the exchange. The units (in case of units bought) and the funds (in the case of units sold) are paid out to the broker on the payout day of the settlement cycle on the exchange. The exchange regulations stipulate that the trading member should pay the money or units to the investor within 24 hours of the payout. (SEBI SMD/POLICY/Cir-/03 dated February 6, 2003). If an investor has bought units, he should give standing instructions for 'Delivery-In' to his/her DP for accepting units in his/her beneficiary account. An investor should give the details of his/her beneficiary account and the DP-ID of his/her DP to his/her trading member. The trading member will transfer the units directly to his/her beneficiary account on receipt of the same from exchange's clearing corporation. An investor who has sold units should instruct his/her Depository Participant (DP) to give 'Delivery Out' instructions to transfer the units from his/her trading member through whom he/she have sold the units. The details of the pool A/c of investor's trading member to which the units are to be transferred, unit quantity etc. should be mentioned in the delivery out instructions given by him/her to the DP. The instructions should be given well before the prescribed securities pay-in day. SEBI has advised that the delivery out instructions should be given atleast 24 hours prior to the cut off time for the prescribed securities pay in to avoid any rejection of instructions due to data entry errors, network problems, etc. Rolling Settlement As per the SEBI's circular dated March 4, 2003, the rolling settlement on T+2 basis for all trades has commenced from April 1, 2003 onwards. The Pay-in and Pay-out of funds and the units will take place 2 working days after the trading date. Further, Securities and Exchange Board of India (SEBI), on September 07, 2021, permitted Stock exchanges to introduce T+1 settlement cycle from January 01, 2022 on any of the securities available in the equity segment. Effective from January 27, 2023 all securities transitioned to T+1 rolling settlement in phased manner. While calculating the days from the Trading day (Day T), weekend days (i.e. Saturday and Sundays) and bank holidays are not taken into consideration. All investors including Authorised Participants/Market Makers, Large Investors and other investors may sell their units in the National Stock Exchange (NSE) or any other stock exchange(s) on which these units are listed on all the trading days of the stock exchange. Mutual fund will repurchase units from Authorised Participants/Market Makers and Large Investors on any business day provided the units offered for repurchase is not less than 75,000 units and multiples thereafter.
Procedure for Redeeming Nippon India ETF Nifty Dividend Opportunities 50 in Creation Unit Size	For processing the transactions of Authorized Participant/Market Makers and Large Investors: The requisite number of Nippon India ETF Nifty Dividend Opportunities 50 equaling the Creation Unit has to be transferred to the Fund's DP account and the Cash Component to be paid to the AMC / Custodian. On confirmation of the same by the AMC, the AMC will transfer the Portfolio Deposit to the investor's DP account and pay the Cash Component, if applicable. The AMC may redeem Creation Unit of Nippon India ETF Nifty Dividend Opportunities 50 prior to receipt of all or portion of the relevant Nippon India ETF Nifty Dividend Opportunities 50 in certain circumstances where the purchaser, among other things, posts collateral to secure its obligation to deliver such outstanding Nippon India ETF Nifty Dividend Opportunities 50 (units). The Portfolio Deposit and Cash Component for the Nippon India ETF Nifty Dividend Opportunities 50 may change from time to time due to changes in the underlying Index on account of corporate actions and changes to the index constituents. The Fund may allow Cash Redemption of Nippon India ETF Nifty Dividend Opportunities 50 in creation unit size by large investors. Such investors shall make redemption request to the Fund/AMC whereupon the Fund/AMC will arrange to sell underlying portfolio securities on behalf of the investor. Accordingly, the sale proceeds of portfolio securities, after adjusting necessary charges/costs, will be remitted to the investor. The number of Units

	so redeemed will be subtracted from the unitholder's account balance (DP) and a statement to this effect will be issued to the unitholder by depository. If an investor has purchased Units on more than one working day, the Units purchased prior in time (i.e. those Units which have been held for the longest period of time), will be deemed to have been redeemed first, i.e. on a First In First Out Basis. Units purchased by cheque or draft will not be redeemed until the realisation of the cheque/DD. The minimum number of Units that can be bought or sold on the exchange is 1 (one) unit. All investors including Authorised Participants/Market Makers and large investors may sell their units in NSE or any other stock exchange(s) on which these units are listed on all the trading days of the stock exchange. The trading will be as per the normal settlement cycle. Alternatively, Authorised Participants/Market Makers and Large investors can directly buy / sell Units in blocks from the Fund in 'Creation Unit' size, as defined in this Scheme Information Document on all working days. Mutual fund will repurchase units from Authorised Participants/Market Makers and Large investors on any business day provided the units offered for repurchase is not less than 75,000 units and multiples thereafter. Repurchase/redemption of units as referred to in 'Redemption'. All investors including Authorised Participants/Market Makers, Large Investors and other investors may sell their units in NSE or any other stock exchange(s) on which these units are listed on all the trading days of the stock exchange. Mutual fund will repurchase units from Authorised Participants/Market Makers and Large Investors on any business day provided the units offered for repurchase is not less than 75,000 units and multiples thereafter. Investor other than APs/Large investors can directly approach AMC for transaction of up to INR 25 Cr and no exit load shall be charged for redemption of units if - Traded price (closing price) of the ETF units is at discount of more than 1% to the day end NAV for 7 continuous trading days, or - No quotes for such ETFs are available on stock exchange(s) for 3 consecutive trading days, or - Total bid size on the exchange is less than half of creation units size daily, averaged over a period of 7 consecutive trading days. Creation unit* - as defined under "Definitions & Abbreviations" of the Scheme Information Document.
Pledge/Assignment of units permitted only in favour of banks/other financial institutions	- The unitholders may pledge/assign units in favour of banks/other financial institutions as a security for raising loans. - Units can be pledged by completing the requisite forms/formalities as may be required by the Depository. The pledgor may not be allowed to redeem/ transfer the units so pledged until the bank/ financial institution to which the units are pledged provides a written authorization to the Depository that the pledge/charge/lien may be removed. - As the units of the Scheme will be issued and held in Demat form, the rules of Depository applicable for pledge will be applicable for Pledge/Assignment of the units of the Scheme. - Pledgor and Pledgee must have a beneficial account with the Depository. These accounts can be with the same DP or with different DPs. Pledgor will instruct its DP to create a pledge request by submitting a "Pledge Form" with a tick on "Create Pledge". - Pledgor will inform the pledgee about the creation of pledge request by giving a copy of the pledge report obtained from its DP. - Pledgee may instruct its DP to confirm the creation of pledge by submitting a "Pledge Form" with a tick on "Confirm creation of Pledge". The pledge gets created in favour of the pledgee only when the pledgee's DP confirms the creation of pledge in the system. - Pledge does not get created in the System until the Pledgee's DP confirms the pledge. Pledgee may obtain pledge report from its DP and verify creation of pledge. - After the loan is repaid, the pledgor will instruct its DP to close the pledge by submitting the "Pledge Form" with a tick on "Close Pledge". The pledgee will instruct

	its DP to confirm the closure of pledge by submitting the "Pledge Form" with a tick on "Confirm Closure of Pledge". ix. The pledge is closed in the system on executing the instruction in the system by both the DPs. A pledgor's DP alone cannot close the pledge. x. If the loan is not repaid, the pledgee, after giving notice to the pledgor as per the terms of the agreement, may instruct its DP to invoke the pledge by submitting the "Pledge Form" with a tick on "Invoke Pledge". On execution of this instruction, the securities are transferred into the pledgee's account. This does not require any confirmation from the pledgor. xi. The pledgor will continue to receive IDCW on the pledged securities. The pledgee will get the benefits only if a pledge is invoked and on record date the shares are in the pledgee's account.
Transmission	In case of death of the unitholder, Units shall be transmitted in favour of the second-named joint holder or nominee, as the case may be, on production of a death certificate or any other document to the satisfaction of the Fund. Since the units of the scheme will be issued in electronic form in the Demat account of the investor, the nomination as registered with the Depository Participant will be applicable to the units of the scheme. A Nominee / legal heir approaching the fund for Transmission of units must have beneficiary account with a Depository Participant of CDSL or NSDL, since the units shall be in electronic mode.
Procedure for Creating Nippon India ETF Nifty Dividend Opportunities 50 in Creation Unit Size	The requisite securities constituting the Portfolio Deposit have to be transferred to the funds DP account while the Cash Component has to be paid to the Custodian / AMC. On confirmation of the same by the Custodian / AMC, the AMC will transfer the respective number of Nippon India ETF Nifty Dividend Opportunities 50 into the investor's DP account. The AMC may create "Creation Unit" prior to receipt of all or a portion of the relevant Portfolio Deposit and Cash Component in certain circumstances where the purchaser, among other things, posts collateral to secure its obligation to deliver such outstanding Portfolio Deposit Securities and Cash Component. The Portfolio Deposit and Cash Component for Nippon India ETF Nifty Dividend Opportunities 50 may change from time to time due to changes in the underlying Index on account of corporate actions and changes to the index constituents. The Fund may allow Subscription through bank payments in Nippon India ETF Nifty Dividend Opportunities 50 in creation unit size by large investors. Such investors shall make subscription request to the Fund/AMC whereupon the Fund/AMC will arrange to buy underlying portfolio securities on behalf of the investor.
Transaction handling charges	Transaction handling charges include brokerage, depository participant charges, uploading charges and such other charges that the Mutual Fund may have to incur in the course of accepting the portfolio deposit or for giving a portfolio of securities as consideration for a redemption / subscription request. Such transaction handling charges shall be recoverable from the transacting authorized participant/Market Makers /large investor.
Third party Cheques	Third party Cheques Investment/subscription made through third party cheque(s) will not be accepted for investments in the units of Nippon India Mutual Fund barring few exception issued by AMFI from time to time for the 'third party payments'. For more details refer to SAI.
