|---------|---|--|
| I. | Name of the scheme | Groww Arbitrage Fund |
| II. | Category of the Scheme | Arbitrage Fund |
| III. | Scheme type | An open ended equity scheme investing in arbitrage opportunities |
| IV. | Scheme code | GROW/O/E /ARB/26/02/0059 |
| V. | Investment objective | The primary investment objective of the scheme is to generate long term growth of capital by predominantly investing in arbitrage opportunities present between the cash and derivative markets, as well as within the derivative segment, complemented by investments in debt securities and money market instruments. However, there can be no assurance that the investment objective of the scheme will be realized. |
| VI. | Liquidity details: Listing details | <p>The Scheme will offer units for purchases/switch-ins and redemptions/switch-outs at NAV based prices on all business days on an ongoing basis. Repurchase of Units will be at the NAV prevailing on the date the units are tendered for repurchase.</p> <p>As per SEBI (MF) Regulations, the Mutual Fund shall dispatch redemption proceeds within 3 working Days of receiving a valid redemption request. A penal interest of 15% per annum or such other rate as may be prescribed by SEBI from time to time, will be paid in case the redemption proceeds are not made within 3 working Days from the date of receipt of a valid redemption request.</p> <p>The Scheme being open ended, the units are not proposed to be listed on any stock exchange and no transfer facility on the exchange is provided. However, the Trustee reserves the right to list the units as and when open-end Schemes are permitted to be listed under the SEBI (MF) Regulations, and if the Trustee considers it necessary in the interest of unit holders of the Scheme.</p> |
| VII. | Benchmark (Total Return Index) | <ul style="list-style-type: none"> As per AMFI benchmark Nifty 50 Arbitrage TRI <p>Justification The Trustees have adopted Nifty 50 Arbitrage TRI as the benchmark index.</p> <p>The Scheme performance would be benchmarked against Nifty 50 Arbitrage Total Return Index which measure the performance of arbitrage strategies. The index measures performance of portfolio involving investment in equity and equivalent short position equity futures, etc. and hence it is most suited for comparing performance of the Scheme</p> <p>SEBI Master Circular dated June 27, 2024(hereinafter referred to as Master Circular of Mutual Fund), as per clause 1.9 of Master Circular of Mutual Fund requires mutual funds to adopt first tier benchmarks for</p> |

Part II. INFORMATION ABOUT THE SCHEME

A. HOW WILL THE SCHEME ALLOCATE ITS ASSETS?

Under normal circumstances, the asset allocation will be as follows:

| Instruments | Indicative allocations (% of total assets) | |
|---|--|---------|
| | Minimum | Maximum |
| Equity & Equity related instruments including derivatives | 65% | 100% |
| Debt & Money Market instruments# including the margin money deployed in derivative transactions | 0% | 35% |
| Units issued by InvITs | 0% | 10% |

The Asset Allocation portion shall also include subscription and redemption cash flow which may be undeployed due to various reasons (dividend from underlying securities, rebalancing or balances for running cost of the scheme, residual amount due to execution on rounding off etc).

Subject to SEBI (MF) Regulations and in accordance with Clause 12.11 in Master Circular of Mutual Fund on Securities Lending Scheme, and framework for short selling and borrowing and lending of securities, the Scheme intends to engage in Stock Lending.

#Money Market instruments includes commercial papers, commercial bills, treasury bills, Government securities having an unexpired maturity up to one year, call or notice money, certificate of deposit, usance bills, and any other like instruments as specified by the Reserve Bank of India from time to time.

In line with Para 4.5 of SEBI Master Circular of Mutual Fund, Securities in which investment is made for the purpose of ensuring liquidity (debt and money market instruments) are those that fall within the definition of liquid assets which includes Cash, Government Securities, T-bills and Repo on Government Securities.

The Scheme shall adhere to the following limits should it engage in Stock Lending:

- (a) Not more than 20% of the net assets can generally be deployed in Stock Lending
- (b) Not more than 5% of the net assets can generally be deployed in Stock Lending to any single approved intermediary i.e. broker.

The Scheme does not intend to undertake/ invest/ engage in

- Debt Instruments with special features (AT 1 and AT 2 Bonds)
- Debt Instruments with SO/CE
- Structured obligation/Credit enhancements
- Credit default swap
- Unrated Debt instruments

The Scheme may use derivatives for such purposes as may be permitted by the SEBI (MF) Regulations, including for the purpose of hedging and portfolio balancing, based on the opportunities available and subject to guidelines issued by SEBI from time to time. The margin money deployed on derivative positions would be included in Debt & Money Market Instruments. Exposure to derivatives for non-hedging purpose will be restricted to 50% of net assets of the scheme.

The cumulative gross exposure to equity, derivatives, debt instruments and money market instruments will not exceed 100% of the net assets of the scheme in accordance with Clause 12.24 of SEBI Master Circular of Mutual Fund.

Cash or cash equivalents with residual maturity of less than 91 days may be treated as not creating any exposure. SEBI vide letter dated November 3, 2021 has clarified that Cash Equivalent shall consist of Government Securities, T-Bills and Repo on Government Securities having residual maturity of less than 91 days.

Debt securities include, but are not limited to, Debt securities of the Government of India, State and Local Governments, Government Agencies, Statutory Bodies, Public Sector Undertakings, Public Sector Banks or Private Sector Banks or any other Banks, Financial Institutions, Development Financial Institutions, and Corporate Entities, collateralized debt securities or any other instruments as may be prevailing and permissible under the SEBI (MF) Regulations as amended from time to time).

The Debt Securities (including money market instruments) referred to above could be fixed rate or floating rate, listed, unlisted, privately placed, unrated among others, as permitted by SEBI (MF) Regulations. Pending deployment of funds of a Scheme in securities in terms of investment objectives of the Scheme a mutual fund can invest the funds of the Scheme in short term deposits of scheduled commercial banks in terms of Clause 12.16 of SEBI Master Circular of Mutual Fund.

Further, the Scheme may, for meeting liquidity requirements invest in units of money market/liquid schemes of Groww Mutual Fund and/or any other mutual fund provided that aggregate inter-scheme investment made by all schemes under the same management or in schemes under the management of any other asset management company shall not exceed 5% of the net asset value of the mutual fund in accordance with Clause 4 of Seventh Schedule of SEBI (MF) Regulations. The AMC shall not charge any investment management fees with respect to such investment.

The Scheme may invest in Foreign Securities (including units/securities issued by overseas mutual funds) up to 10% of the net assets of the Scheme in compliance with SEBI Circular(s) / guideline(s) pertaining to overseas investments by mutual funds, as amended from time to time.

The Scheme shall invest in Foreign Securities as per the limits available to 'Ongoing Schemes' in terms of Clause 12.19 of SEBI Master Circular. Further, it is clarified that the above specified limit would be considered as soft limit(s) for the purpose of reporting only by mutual funds on monthly basis in the format prescribed by SEBI

Investments in Scheme by AMC, Sponsor & Associates

Subject to the SEBI (MF) Regulations, the AMC and investment companies managed by the Sponsor(s), their associate companies and subsidiaries may invest either directly or indirectly, in the Scheme during the NFO and/or on ongoing basis. However, the AMC shall not charge any investment management fee on such investment in the Scheme, in accordance with sub-regulation 3 of Regulation 24 of the SEBI (MF) Regulations and shall charge fees on such amounts in future only if the SEBI (MF) Regulations so permit. The associates, the Sponsor, subsidiaries of the Sponsor and/or the AMC may acquire a substantial portion of the Scheme's units and collectively constitute a major investment in the Schemes. The AMC reserves the right to invest its own funds in the Scheme as may be decided by the AMC from time to time and required by applicable regulations and also in accordance with Clause 6.11 of SEBI Master Circular of Mutual Fund regarding minimum number of investors in the Scheme. In terms of SEBI notification dated August 5, 2021 and as per Regulation 25, sub-regulation 16A of SEBI (MF) Regulations, the asset management company shall invest such amounts in such schemes of the mutual fund, based on the risks associated with the schemes, as may be specified by the Board from time to time. In case of NFO, AMC's investment shall be made during the allotment of units and shall be calculated as a percentage of the final allotment value excluding AMC's investment pursuant to this circular.

Indicative Table (Actual instrument/percentages may vary subject to applicable SEBI circulars)

| Sl. no | Type of Instrument | Percentage of exposure | Circular references* |
|--------|---|------------------------|--|
| 1. | Securities Lending | 20% | Para 12.11 of SEBI Master Circular of Mutual Funds |
| 2. | Equity Derivatives for non-hedging purposes | 0% | Paragraph 12.25 of SEBI Master Circular |
| 3. | Securitized Debt | 20% | Para 12.15 of SEBI Master Circular |
| 4. | Overseas Securities | 20% | Paragraph 12.19 of SEBI Master Circular |
| 5. | InvITS | 10% | Clause 13 of the Seventh Schedule of SEBI (Mutual Funds) Regulations, 1996 and Paragraph 12.21 of SEBI Master Circular |

Rebalancing due to passive breach

As per para 2.9 of SEBI Master Circular of Mutual Fund, as may be amended from time to time, in the event of deviation from mandated asset allocation or any other deviation resulting due to passive breaches (occurrence of instances not arising out of omission and commission of the AMC), the fund manager shall rebalance the portfolio of the Scheme within 30 Business Days. In case the portfolio of the Scheme is not rebalanced within the period of 30 Business Days, justification in writing, including details of efforts taken to rebalance the portfolio shall be placed before the Investment Committee of the AMC. The Investment Committee, if it so desires, can extend the timeline for rebalancing up to sixty (60) Business Days from the date of completion of mandated rebalancing period. Further, in case the portfolio is not rebalanced within the aforementioned mandated plus extended timelines the AMC shall comply with the prescribed restrictions, the reporting and disclosure requirements as specified in para 2.9. of SEBI Master Circular of Mutual Fund. Further, pursuant to SEBI no. SEBI/HO/IMD/PoD2/P/CIR/2025/92 dated June 26, 2025, the above referred rebalancing provisions shall be applicable for all types of passive breaches.

Rebalancing of deviation due to short term defensive consideration

Any alteration in the investment pattern will be for a short term on defensive considerations as per Para 1.14.1.2 of SEBI Master Circular of Mutual Fund; the intention being at all times to protect the interests of the Unit Holders and the Scheme shall endeavor to rebalance the portfolio within 30 calendar days. It may be noted that no prior intimation/indication will be given to investors when the composition/asset allocation pattern under the Scheme undergoes changes within the permitted band as indicated above.

The securities may be acquired from primary market/ Initial Public Offer (IPO), secondary market operations, private placement or negotiated deals.

(Detailed definition and applicable regulations/guidelines for each instrument is included in Section II)

C. WHAT ARE THE INVESTMENT STRATEGIES?

- The scheme follows an active investment strategy.
- The scheme aims to generate returns by strategically investing in arbitrage opportunities between spot and future prices of exchange traded equities and the arbitrage opportunities available within the equity or the derivative segment. If, in the opinion of the Fund Manager, suitable arbitrage opportunities are unavailable, the scheme may predominantly invest in short-term debt and money market securities.
- Some of the arbitrage strategies that may be adopted by the fund manager from time to time include:

Cash Future Arbitrage : Arbitrage captures the spread, between the price of a stock in the spot market and in the futures market on a market neutral basis. If the price of a stock in the futures market is higher than in the spot market, after adjusting for taxes and other costs the Scheme may buy the stock in the spot market and sell the same stock in equal quantity in the futures market simultaneously. This enables the fund to earn the cost of carry between the stock and the futures of the stock. If the futures are quoting at a discount to the price in the cash market before the expiry the trade may be reversed by buying the futures and selling the shares in the cash market which will enhance the profit potential to the extent of discount between future as compared to cash market. Normally the price between cash and future segments tend to converge on the expiry day. The cash and future trade would be reversed on the expiry day to book the locked arbitrage profit.

Rolling over of the futures transaction:

Rolling over of the futures transaction means:

- 1) Unwinding the short position in the futures and simultaneously selling futures of a subsequent month
- 2) Holding onto the spot position.

There could also be instances of unwinding both the spot and the future position before the expiry of the current month future if it proves advantageous or to meet redemption

Dividend Arbitrage: Usually during the period prior to dividend declaration, the stock futures/options market can provide a profitable opportunity. Generally, the stock price declines by the dividend amount when the stock goes ex dividend.

Buy-back arbitrage: When the company announces the buy back of its own shares, there could be opportunities due to the price differential in buy back price and traded price.

Nifty Spot-Nifty Futures: The pricing of Nifty Futures is derived from the Nifty. When the two go out of sync, there arises opportunities. The cost of carry binds the futures price to the price of the underlying asset.

For instance, the price of the Nifty futures at any given point in time should typically be more than the level of Nifty at that point of time. Cash and carry trades at times provide higher return than the prevailing interest rates. There is an opportunity to exploit by buying the index futures and selling the portfolio comprising index stocks. The cash received upon the sale is reinvested at the risk free rate of return till the expiration of the futures contract. The arbitrage profits come in at the expiration of the futures contract when the position is unwound by buying back the index stocks, or until expiry if the rates converge. The same strategy can be replicated with stock futures also.

Derivatives Option: The Scheme may use equity and index options **primarily as part of hedged or arbitrage strategies**, such as conversions/reversals, box spreads, covered calls, protective puts or other risk-controlled structures that keep directional market exposure limited.

The Fund Manager may also use options to manage volatility and to fine-tune hedges around cash–futures arbitrage positions.

The risk in using options is that the Fund Manager’s views on volatility or relative pricing may not materialise. In such cases, the option premium paid (in case of long options) may be lost, and option positions may be closed

at a loss, subject always to the overall risk controls of the Scheme.

The Scheme will not take uncovered / naked option positions and will ensure that all derivative positions are covered by adequate underlying exposure or cash / cash equivalents as per SEBI (Mutual Funds) Regulations and applicable circulars.

There are various possible combinations of strategies which may be adopted in a specific situation. The Fund Manager may apply such other arbitrage strategies as may be available/permissible under regulations from time to time.

Event / calendar / inter-market arbitrage – only partly covered index/stock spot vs index/stock futures.

- Index futures vs stock futures
- **Calendar spread:** futures of same stock with different expiries
- **ADR/GDR vs underlying** (where available)
- **Merger, open offer, demerger, OFS/rights, other corporate actions**
- **Inter-exchange arbitrage** (NSE/BSE)

Intra-Derivative Arbitrage and Basis Trades

- Arbitrage between **index futures and stock futures**, where mispricing exists between an index and a basket of underlying stocks.
- **Calendar spread arbitrage**, i.e., exploiting price differentials between futures of the same stock or index with different expiries.
- **Inter-exchange arbitrage** where the same security is traded on more than one recognised stock exchange, subject to liquidity and costs.
- **Index spot–futures arbitrage** (e.g., between an equity index level and its futures), where cost-of-carry relationships permit a market-neutral trade through buying/selling the index futures and taking offsetting positions in the underlying index constituents or suitable substitutes.

Rolling Over of Futures Positions

- Rolling over involves **unwinding the near-month futures position** and simultaneously **entering into a futures position of a subsequent month**, while generally retaining the corresponding spot position. Depending on relative valuations across expiries (calendar spreads), the Scheme may also unwind both spot and futures positions before expiry if such action is considered advantageous or to meet redemption requirements.
- **Debt and Money Market Investments**
- When, in the opinion of the Fund Manager, suitable arbitrage opportunities are not sufficiently available, the Scheme may **predominantly invest the incremental net inflows in short-term debt and money market instruments** until such time as attractive arbitrage opportunities re-emerge.
- The Scheme may invest in a range of debt and money market instruments such as **Treasury Bills, Government securities, State Development Loans, corporate bonds, Non-Convertible Debentures (NCDs), Certificates of Deposit (CDs), Commercial Papers (CPs), units of overnight / liquid schemes, Triparty Repo (TREPS), repo / reverse repo in Government securities and such other instruments as**

may be permitted by SEBI / RBI from time to time.

- The debt portfolio will be managed with an emphasis on **high credit quality and relatively short duration**, consistent with the objective of providing liquidity for arbitrage positions and redemptions.

Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the fund manager to identify such opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and decision of fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies.

Portfolio Turnover Policy

Portfolio turnover is defined as lesser of purchases and sales as a percentage of the average corpus of the Scheme during a specified period of time. Portfolio turnover in the scheme will be a function of market opportunities. The scheme is open-end scheme. It is expected that there would be a number of subscriptions and repurchases on a daily basis. Consequently, it is difficult to estimate with any reasonable measure of accuracy, the likely turnover in the portfolio. The AMC will endeavour to optimise portfolio turnover to optimise risk adjusted return keeping in mind the cost associated with it. A high portfolio turnover rate is not necessarily a drag on portfolio performance and may be representative of arbitrage opportunities that exist for securities held in the portfolio rather than an indication of change in AMC's view on a security etc. However, the AMC will take advantage of the opportunities that present themselves from time to time because of the inefficiencies in the securities markets

Risk Management and Regulatory Compliance

The Scheme will at all times comply with the investment restrictions specified in the SEBI (Mutual Funds) Regulations, 1996 and the guidelines / circulars issued thereunder, including those relating to investment in derivatives, single-issuer and sector exposure limits, and borrowing restrictions.

The arbitrage positions will be constructed so as to avoid uncovered short positions in equities or derivatives. The Scheme will not seek to create leveraged positions except to the extent permitted under the SEBI (Mutual Funds) Regulations and only as arising from standard arbitrage trades where both legs (cash and derivatives) are in place. The examples of strategies set out above are illustrative and not exhaustive. The Fund Manager may deploy any other arbitrage or hedged strategy that is in line with the investment objective of the Scheme and permitted under the applicable regulations from time to time.

D. HOW WILL THE SCHEME BENCHMARK ITS PERFORMANCE?

Benchmark (Total Returns Index): Tier 1: Nifty 50 Arbitrage TRI

The Scheme performance would be benchmarked against Nifty 50 Arbitrage Total Return Index which measure the performance of arbitrage strategies. The index measures performance of portfolio involving investment in equity and equivalent short position equity futures, etc. and hence it is most suited for comparing performance of the Scheme.

As per clause 1.9 of Master Circular of Mutual Fund requires mutual funds to adopt first tier benchmarks for schemes as notified by AMFI. Accordingly, the benchmark is selected from the benchmarks notified by AMFI for the category of scheme. The performance will be benchmarked to the Total Returns Variant of the Index.

The AMC/ Trustee reserves the right to change the benchmark for evaluation of performance of the Scheme from time to time in conformity with the investment objectives and appropriateness of the benchmark subject to SEBI (MF) Regulations, and other prevailing guidelines, if any.

Part III- OTHER DETAILS

A. COMPUTATION OF NAV

The NAV of the Units of the Scheme will be computed by dividing the net assets of the Scheme by the number of Units outstanding on the valuation date. The Fund shall value its investments according to the valuation norms, as specified in Schedule VIII of the Regulations, or such norms as may be prescribed by SEBI from time to time.

All expenses and incomes accrued up to the valuation date shall be considered for computation of NAV. For this purpose, major expenses like management fees and other periodic expenses would be accrued on a day to day basis. The minor expenses and income will be accrued on a periodic basis, provided the nondaily accrual does not affect the NAV calculations by more than 1%.

Any changes in securities and in the number of units be recorded in the books not later than the first valuation date following the date of transaction. If this is not possible given the frequency of the Net Asset Value disclosure, the recording may be delayed upto a period of seven days following the date of the transaction, provided that as a result of the non-recording, the Net Asset Value calculations shall not be affected by more than 1%.

In case the Net Asset Value of a scheme differs by more than 1%, due to non - recording of the transactions, the investors or scheme/s as the case may be, shall be paid the difference in amount as follows:-

- (i) If the investors are allotted units at a price higher than Net Asset Value or are given a price lower than Net Asset Value at the time of sale of their units, they shall be paid the difference in amount by the scheme.
- (ii) If the investors are charged lower Net Asset Value at the time of purchase of their units or are given higher Net Asset Value at the time of sale of their units, asset management company shall pay the difference in amount to the scheme. The asset management company may recover the difference from the investors.

NAV of units under the Scheme shall be calculated as shown below:

$$\text{NAV (Rs.)} = \frac{\begin{array}{|c|c|c|c|} \hline \text{Market or Fair} & + & \text{Current} & - & \text{Current Liabilities and} \\ \text{Value of} & & \text{Assets} & & \text{Provisions including accrued} \\ \text{Scheme's} & & \text{including} & & \text{expenses} \\ \text{investments} & & \text{Accrued} & & \\ & & \text{Income} & & \\ \hline \end{array}}{\text{No. of Units outstanding under Scheme}}$$

No. of Units outstanding under Scheme

The NAV of the Scheme will be calculated upto four decimal places and will be declared on each business day. The valuation of the Scheme's assets and calculation of the Scheme's NAV shall be subject to audit on an annual basis and shall be subject to such regulations as may be prescribed by SEBI from time to time.

Illustration:

Assume that the Market or Fair Value of Scheme's investments is Rs. 1,00,00,000; Current asset of the scheme is Rs. 25,00,000; Current Liabilities and Provisions is Rs. 15,00,000 and the No. of Units outstanding under the scheme are 5,00,000. Thus, the NAV will be calculated as:

$$\text{NAV} = \frac{10000000 + 2500000 - 1500000}{500000} = 22.0000$$

Consolidated
Std Obs.42

Therefore, the NAV of the scheme is Rs. 22.0000

While determining the price of the units, the mutual fund shall ensure that the repurchase price of an open ended scheme is not lower than 97 per cent of the Net Asset Value.

Valuation of the scheme's assets, calculation of the scheme's NAV and the accounting policies & standards will be subject to such norms and guidelines that SEBI may prescribe from time to time. For the detailed

Valuation Policy and the accounting policy of the AMC, please refer the Statement of Additional Information.

For other details such as policies w.r.t computation of NAV, rounding off, investment in foreign securities, procedure in case of delay in disclosure of NAV etc. refer to SAI

B. NEW FUND OFFER (NFO) EXPENSES

These expenses are incurred for the purpose of various activities related to the NFO like sales and distribution fees paid marketing and advertising, registrar expenses, printing and stationary, bank charges etc. The New Fund Offer expenses of the scheme will be borne by the AMC.

C. ANNUAL SCHEME RECURRING EXPENSES

The AMC has estimated that upto 2.25% of the daily net assets of the scheme will be charged to the scheme as expenses. For the actual current expenses being charged, the investor should refer to the website of the Mutual Fund at <https://www.growwmf.in/downloads/expense-ratio>.

| Expense Head | % of daily Net Assets |
|--|------------------------------|
| Investment Management and Advisory Fees | Upto 2.25% |
| Trustee fee | |
| Audit fees | |
| Custodian fees | |
| RTA Fees | |
| Marketing & Selling expense incl. agent commission | |
| Cost related to investor communications | |
| Cost of fund transfer from location to location | |
| Cost of providing account statements and Income Distribution cum Capital Withdrawal redemption cheques and warrants | |
| Costs of statutory Advertisements | |
| Cost towards investor education & awareness (at least 2 bps) (as per paragraph 10.1.16 of SEBI Master Circular of Mutual Fund) | |
| Brokerage & transaction cost over and above 12 bps and 5 bps for cash and derivative market trades resp. | |
| Goods & Services Tax/ goods and services tax on expenses other than investment and advisory fees | |
| Goods & Services Tax/ goods and services tax on brokerage and transaction cost | |

| | |
|--|-------------------|
| Other Expenses | |
| Maximum total expense ratio (TER) permissible under Regulation 52 (6) (c) | Upto 2.25% |
| Additional expenses under regulation 52 (6A) (c)** | 0.05% |

In terms of paragraph 10.1.16 of SEBI Master Circular of Mutual Fund, the AMC / Mutual Fund shall annually set apart at least 2 basis points (i.e., 0.02%) on daily net assets of the scheme within the maximum limit of Total Expense Ratio as per Regulation 52 of the SEBI (MF) Regulations for investor education and awareness initiatives.

**Additional Expenses upto 0.05% of daily net assets as permissible under Regulation 52 (6A) (c) may be charged by AMC under different heads of expenses mentioned under Regulation 52 (2) and (4) and more specifically stated in table above.

@ Brokerage and transaction costs incurred for the execution of trades and included in the cost of investment, not exceeding 0.12 per cent of the value of trades of cash market transactions and 0.05 per cent of the value of trades of derivative market transactions. Thus, in terms of paragraph 10.1.14 of SEBI Master Circular of Mutual Fund, it is hereby clarified that the brokerage and transaction costs incurred for the execution of trades may be capitalized to the extent of 0.12 per cent of the value of trades of cash market transactions and 0.05 per cent of the value of trades of derivative market transactions. Any payment towards brokerage and transaction costs (including Goods & Services Tax, if any) incurred for the execution of trades, over and above the said 0.12 per cent for cash market transactions and 0.05 per cent of the value of trades of derivative market transactions may be charged to the scheme within the maximum limit of Total Expense Ratio (TER) as prescribed under Regulation 52 of the SEBI (MF) Regulations.

Direct Plan shall have a lower expense ratio excluding distribution expenses, commission, etc and no commission for distribution of Units will be paid / charged under Direct Plan. All fees and expenses charged in a direct plan (in percentage terms) under various heads including the investment and advisory fee shall not exceed the fees and expenses charged under such heads in a regular plan.

The purpose of the above table is to assist the investor in understanding various costs and expenses that an investor in the Scheme will bear directly or indirectly. These estimates have been made in good faith as per the information available with AMC based on past experience and are subject to change inter-se.

The total recurring expenses that can be charged to the Scheme will be subject to limits prescribed from time to time under the SEBI (MF) Regulations.

Annual recurring expenses of the Scheme, (including the investment and advisory fees without any sub limit) as a % of daily net assets will be subject to following limit:

The AMC shall adhere provisions of SEBI Circular dated October 22, 2018 and various guidelines specified by SEBI as amended from time to time, with reference to charging of fees and expenses.

Annual recurring expenses of the Scheme, (including the investment and advisory fees without any sublimit) as a % of daily net assets will be subject to following limit:

| First Rs. 500 Crores | Next Rs. 250 Crores | Next Rs. 1,250 Crores | Next Rs. 3,000 Crores | Next Rs. 5,000 Crores | Next Rs. 40,000 Crores | Balance |
|----------------------|---------------------|-----------------------|-----------------------|-----------------------|---|---------|
| 2.25% | 2.00% | 1.75% | 1.60% | 1.50% | TER reduction of 0.05% for every increase of Rs. 5,000 crores or part thereof | 1.05% |

In addition to TER within the limits specified under regulation 52 (6) of the Regulations, towards investment & advisory fees as specified under regulation 52(2) of the Regulations and/or towards recurring expenses as specified under 52(4) of the Regulations. **However, such additional expenses will not be charged if exit load is not levied / not applicable to the Scheme.**

In terms of Regulation 52(4A) of SEBI (Mutual Funds) Regulations, 1996 the mutual fund distributors shall be eligible for additional commission as specified under SEBI Circular ref no. **HO/(83)-2025-IMD-POD-1/I/152/2025** dated November 27, 2025 (w.e.f. February 01,2026).

- a. All scheme related expenses including commission paid to distributors, shall be paid from the Scheme only within the regulatory limits and not from the books of the AMC, its associates, sponsor, trustee or any other entity through any route. Provided that, such expenses that are not specifically covered in terms of Regulation 52 (4) can be paid out of AMC books at actual or not exceeding 2 bps of the Scheme AUM, whichever is lower.
- b. The Fund / the AMC shall adopt full trail model of commission in the Scheme, without payment of any upfront commission or upfronting of any trail commission, directly or indirectly, in cash or kind, through sponsorships, or any other route.
- c. All fees and expenses charged in a Direct Plan (in percentage terms) under various heads including the investment and advisory fee shall not exceed the fees and expenses charged under such heads in Regular Plan.
- d. No pass back, either directly or indirectly, shall be given by the Fund / the AMC / Distributors to the investors.

TER for the Segregated Portfolio

- The AMC will not charge investment and advisory fees on Segregated Portfolio. However, TER (excluding the investment and advisory fees) may be charged, on a pro-rata basis only upon recovery of the investments in Segregated Portfolio.
- The TER levied shall not exceed the simple average of such expenses (excluding the investment and advisory fees) charged on daily basis on the Main Portfolio (in % terms) of the scheme(s) during the period for which Segregated Portfolio was in existence.
- The legal charges related to recovery of the investments of the Segregated Portfolio may be charged to the Segregated Portfolio in proportion to the amount of recovery. However, the same shall be within the maximum TER limit as applicable to the Main Portfolio. The legal charges in excess of the TER limits, if any, shall be borne by the AMC.

The costs related to Segregated Portfolio shall in no case be charged to the Main Portfolio

Disclosure on Goods & Services Tax:

Goods & Services Tax on investment management and advisory fees shall be in addition to the above expense. Further, with respect to Goods & Services Tax on other than management and advisory fees:

- Goods & Services Tax on other than investment and advisory fees, if any, shall be borne by the scheme within the maximum limit of TER as per regulation 52 of the Regulations.
- Goods & Services Tax on exit load, if any, shall be paid out of the exit load proceeds and exit load net of Goods & Services Tax, if any, shall be credited to the scheme.
- Goods & Services Tax on brokerage and transaction cost paid for asset purchases, if any, shall be within the limit prescribed under regulation 52 of the Regulations.

For the actual current expenses being charged to the Scheme, the investor should refer to the website of the mutual fund <https://www.growwmf.in/downloads/expense-ratio>. Any change proposed to the current expense ratio will be updated on the website at least three working days prior to the change.

As per the Regulations, the total recurring expenses that can be charged to the Scheme in this Scheme information document shall be subject to the applicable guidelines. The total recurring expenses of the Scheme, will, however, be limited to the ceilings as prescribed under Regulation 52(6) of the Regulations.

D. LOAD STRUCTURE

Exit Load is an amount which is paid by the investor to redeem the units from the scheme. Load amounts are variable and are subject to change from time to time. For the current applicable structure, please refer to the website of the AMC (<https://www.growwmf.in/downloads/fact-sheet>) or may call at 8050180222) or your distributor or write to us at support@growwmf.in.

| Type of Load | Load chargeable (as %age of NAV) |
|--------------|----------------------------------|
| Exit Load | Nil |

All switches will be treated as redemption in the source scheme and subscription in the destination scheme, with the entry and exit load as may be applicable.

In accordance with the requirements specified by the paragraph 10.4.1(a) of SEBI Master Circular of Mutual Fund, no entry load will be charged for purchase/additional purchase/switches accepted by the Mutual Fund. Similarly, no entry load will be charged with respect to applications for registrations under the Systematic Investment Plan (SIP)/Systematic Transfer Plan (STP) accepted by the Mutual Fund.

The upfront commission on investment made by the investor, if any, shall be paid to the ARN Holder (AMFI registered distributor) directly by the investor, based on the investor's assessment of various factors including service rendered by the ARN Holder.

Exit load (if any) charged to the unit holders by the Mutual Fund on redemption (including switch-out) of units shall be credited to the respective scheme net of Goods & Services Tax. Goods & Services Tax on exit load, if any, shall be paid out of the exit load proceeds.

Switches of following kind within the Scheme will also not attract any exit load - (i) switch from Direct Plan to Regular Plan; (ii) switch from Regular Plan to Direct Plan where the investment in Regular Plan is without a Distributor (ARN) code; (iii) within different Options (Income Distribution cum Capital Withdrawal /growth) of the same Plan

(Direct/Regular) of the Scheme.

Load on bonus/ re-investment of Income Distribution cum Capital Withdrawal units: In terms of paragraph 10.6 of SEBI Master Circular of Mutual Fund, no entry and exit load shall be charged on bonus units or units allotted on reinvestment of Income Distribution cum Capital Withdrawal.

The Trustee / AMC reserves the right to introduce a Load and change the Load structure any time in future if they so deem fit on a prospective basis. The investor is requested to check the prevailing load structure of the scheme before investing.

In case of changes/modifications of load, the AMC will endeavor to do the following:

1. An addendum will be attached to the Scheme Information Documents and Key Information Memorandum. The same may be circulated to brokers/distributors so that the same can be attached to all SIDs and abridged SID in stock. Further the addendum will be sent along with a newsletter to unitholders immediately after the changes.
2. Arrangement will be made to display the changes/modifications in the SID in the form of a notice in all the official point of acceptance of transactions and distributor's/broker's office.
3. The introduction of the exit load along with the details may be stamped in the acknowledgement slip issued to the investors on submission of the application form and may also be disclosed in the statement of accounts issued after the introduction of such load.
4. A public notice shall be given in respect of such changes in one English Daily newspaper having nationwide circulation as well as in a newspaper published in the language of region where the Head office of the Mutual Fund is situated.

SECTION II

I. Introduction

A. Definitions/interpretation

For detailed description please click the link: <https://www.growwmf.in/downloads/sid>

B. Risk factors

C. Risk associated with Equity and Equity Related Instruments:

Equity and Equity Related Instruments by nature are volatile and prone to price fluctuations on a daily basis due to macro and micro economic factors. The value of Equity and Equity Related Instruments may fluctuate due to factors affecting the securities markets such as volume and volatility in the capital markets, interest rates, currency exchange rates, changes in law/policies of the Government, taxation laws, political, economic or other developments, general decline in the Indian markets, which may have an adverse impact on individual securities, a specific sector or all sectors. Consequently, the NAVs of the Units issued under the Scheme may be adversely affected. Further, the Equity and Equity Related Instruments are risk capital and are subordinate in the right of payment to other securities, including debt securities. Equity and Equity Related Instruments listed on the stock exchange carry lower liquidity risk; however, the Scheme's ability to sell these investments is limited by the overall trading volume on the stock exchanges. In certain cases, settlement periods may be extended significantly by unforeseen circumstances. The inability of the Scheme to make intended securities purchases due to settlement problems could cause the Scheme to miss certain investment opportunities. Similarly, the inability to sell securities held in the Scheme's portfolio may result, at times, in potential losses to the Scheme, should there be a subsequent decline in the value of securities held in the Scheme's portfolio. Further, the volatility of medium / small - capitalization stocks may be higher in comparison to liquid large capitalization stocks.

2. Risk associated with Fixed Income and Money Market Instruments:

Interest - Rate Risk

Fixed Income and Money Market Instruments run interest-rate risk. Generally, when interest rates rise, prices of existing fixed income securities fall and when interest rate falls, the prices increase. The extent of rise or fall in the price is a function of existing coupon, days to maturity, increase or decrease in the level of interest, credit quality, demand and supply. However, in case of Government securities credit risk remains zero, their prices are influenced by the movement in interest rates in the financial system. In case of floating rate instruments, an additional risk could arise because of changes in spreads of floating rate instruments. With increase in spread of floating rate instruments, the price can fall and with decrease in spread of floating rate instruments, the prices can rise. Moreover, the floating rate instruments having a periodical interest rate reset carry lower interest rate risk compared to a fixed rate debt security. However, in the falling interest rate scenario, the returns on floating rate debt instruments may not be better than those on fixed rate debt instruments.

Credit Risk

Credit risk or default risk refers to the risk that the issuer of a fixed income security may default on interest payment or even in paying back the principal amount on maturity. Even where no default occurs, the price of a security may be affected because of change in the credit rating of the issuer/instrument and the price of a security goes down if the credit rating agency downgrades the rating of the issuer. In case of Government Securities, there is minimal credit risk to that extent. Lower rated or unrated securities are more likely to react to developments affecting the market and credit risk than the highly rated securities which react primarily to movements in the general level of

interest rates. Lower rated or unrated securities also tend to be more sensitive to economic conditions than higher rated securities.

Liquidity or Marketability Risk

The ability of the Scheme to execute sale/purchase order is dependent on the liquidity or marketability. The primary measure of liquidity risk is the spread between the bid price and the offer price quoted by a dealer. The securities that are listed on the stock exchange carry lower liquidity risk, but the ability to sell these securities is limited by the overall trading volumes. Further, different segments of Indian financial markets have different settlement cycles and may be extended significantly by unforeseen circumstances. Securities which are not quoted on the stock exchange(s) may be illiquid and can carry higher liquidity risk in comparison with securities which are listed on the stock exchange(s) and offer exit option to the investor including put option. The Scheme would invest in the securities which are not listed but offer attractive yields. This may however increase the risk of the portfolio.

Re-investment Risk

This refers to the interest rate risk at which the intermediate cash flows received from the securities in the Scheme including maturity proceeds are reinvested. Investments in fixed income securities may carry re-investment risk as interest rates prevailing on the interest or maturity due dates may differ from the original coupon of the debt security. Consequently, the proceeds may get invested at a lower rate.

3. Risk Factor associated with investing in Securities Segment and Tri-party Repo trade settlement Clearing Corporation of India Ltd. ('CCIL') is providing clearing and settlement services, for Triparty Repo trades in Government Securities, under its Securities Segment. CCIL would act as a Central Counterparty to all the borrow and lend Triparty Repo trades received by it for settlement. CCIL would also be performing the role responsibilities of Triparty Repo Agent, in terms of Repurchase transactions (Repo) (Reserve Bank) Directions, 2018 as amended from time to time. CCIL would settle the Triparty Repo trades, in terms of its Securities Segment Regulations. The funds settlement of members is achieved by multilateral netting of the funds position in Triparty Repo with the funds position in Outright and Market Repo and settling in the books of RBI for members who maintain an RBI Current Account. In respect of other members, funds settlement is achieved in the books of Settlement Bank. Securities settlement for Triparty Repo trades shall be achieved in the Gilt Account of the Member maintained with CCIL. Securities obligation for outright and market repo trades shall be settled in the SGL / CSGL account of the Member with RBI. Groww Mutual Fund is a member of securities segment and Tri-party Repo trade settlement of the CCIL. Since all transactions of the Fund in government securities and in Tri-party Repo trades are settled centrally through the infrastructure and settlement systems provided by CCIL, it reduces the settlement and counterparty risks considerably for transactions in the said segments. To mitigate the potential losses arising in case any member defaults in settling the transactions routed through CCIL, CCIL maintains a Default Fund. CCIL shall maintain two separate Default Funds in respect of its securities segment, one to meet the losses arising out of any default by its members from outright and repo trades and other for meeting losses arising out of any default by its members from Triparty Repo trades. In case any clearing member fails to honor his settlement obligations, the Default Fund is utilized to complete the settlement applying the Default Waterfall Sequence. As per the said waterfall mechanism, after the defaulter's margins and defaulter's contribution to default fund have been appropriated, CCIL's contribution is used to meet the losses. Post utilization of CCIL's contribution, if there is still a loss to be met, then contribution of non-defaulting members to Default Fund is utilized to meet the said loss. The Scheme is subject to the risk of losing initial margin and contribution to Default Fund in the event of failure of any settlement obligation. Further the Scheme's contribution is allowed to be used to meet the residual loss in case of default by the other clearing member (the defaulting member). Further, CCIL periodically prescribes a list of securities eligible for contribution as collaterals by members. Presently, all Central Government Securities and Treasury Bills are accepted as collaterals by CCIL. The above risk factor may undergo a change in case the CCIL notifies securities other than Government of India Securities as eligible for contributions as collateral.

4. Risks associated with investing in Securitized Debt

The Scheme may invest in securitized debt such as asset backed securities (ABS) or mortgage backed securities (MBS). ABS are backed by other assets such as credit card, automobile or consumer loan receivables, retail loan installment or participations in pools of leases. Credit support for these securities may be based on the underlying assets and/or provided through credit enhancements by a third party. The values of these securities are sensitive to changes in the credit quality of the underlying collateral, the credit strength of the credit enhancement, changes in interest rates and at times the financial condition of the issuer. MBS is an asset backed security whose cash flows are backed by the principal and interest payments of a set of mortgage loans. In the case of mortgage-backed securities, these loans are usually first mortgages on residential properties. With asset backed securities, the loans might be credit card receivables, auto loans and leases or home equity loans. As the underlying loans are paid off by the borrowers, the investors in MBS/ABS receive payments of interest and principal over time. MBS, particularly home loan transactions, are subject to interest-rate risk and prepayment risk. A change in interest rates can affect the pace of payments on the underlying loans, which in turn, affects total return on the securities. ABS also carries credit or default risks. If many borrowers on the underlying loans default, losses could exceed the credit enhancement level and result in losses to investors in an ABS transaction. ABS has structure risk due to a unique characteristic known as early amortization or early payout risk.

MBS carry interest rate risk. Maturity is a moving target with these securities. Depending on what happens to interest rates after issuing the MBS, the maturity of the bond could shorten or lengthen dramatically. This is because homeowners are allowed to refinance their mortgages, as decline in interest rates encourages many homeowners to refinance their mortgages. Whereas rise in interest rates causes homeowners to hold on to their mortgages longer. This will extend the originally estimated maturity dates of MBS. ABS and MBS are also subject to prepayment risk. When purchasing an MBS, investors usually calculate some degree of prepayment into their pricing. However, if prepayment happens unexpectedly or faster than predicted, it may result in reduced actual duration as compared to the expected duration of the paper at the time of purchase, which may adversely impact the portfolio yield.

The yield-to-maturity of such securities cannot be known for certain at the time of purchase since the cash flows are not known. When principal is returned early, future interest payments will not be paid on that part of the principal. If the bond was purchased at a premium, the bond's yield will be less than what was estimated at the time of purchase. The credit enhancement stipulated represents a limited loss cover to the investors. These certificates represent an undivided beneficial interest in the underlying receivables and do not represent an obligation of either the issuer or the seller or the originator, or the parent or any affiliate of the seller, issuer and originator. No financial recourse is available to the certificate holders against the investors' representative. Delinquencies and credit losses may cause depletion of the amount available under the credit enhancement and thereby the investor payouts to the certificate holders may get affected if the amount available in the credit enhancement facility is not enough to cover the shortfall. On persistent default of an obligor to repay his obligation, the servicer may repossess and sell the asset. However, many factors may affect, delay or prevent the repossession of such asset or the length of time required to realise the sale proceeds on such sales.

In addition, the price at which such asset may be sold may be lower than the amount due from that obligor. These securities also carry risk associated with the collection agent. With respect to the certificates, the servicer will deposit all payments received from the obligors into the collection account. However, there could be a time gap between collection by a servicer and depositing the same into the collection account especially considering that some of the collections may be in the form of cash. In this interim period, collections from the loan agreements may not be segregated from other funds of originator. If originator in its capacity as servicer fails to remit such funds due to investors, the investors may be exposed to a potential loss.

5. Risks associated with investing in Derivatives

Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the fund manager to identify such opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty

and decision of fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies. The risks associated with the use of derivatives are different from or possibly greater than the risks associated with investing directly in securities and other traditional investments. The use of a derivative requires an understanding not only of the underlying instrument but also of the derivative itself. Derivatives require the maintenance of adequate controls to monitor the transactions entered into, the ability to assess the risk that a derivative adds to the portfolio and the ability to forecast price or interest rate movements correctly. Other risks include risk of mispricing or improper valuation and the inability of the derivative to correlate perfectly with underlying assets, rates and indices, illiquidity risk whereby the Scheme may not be able to sell or purchase derivative quickly enough at a fair price.

6. Risks associated with Securities Lending

For Equity Instruments:

As with other modes of extensions of credit, there are risks inherent to securities lending. During the period the security is lent, the Scheme may not be able to sell such security and in turn cannot protect from the falling market price of the said security. Under the current securities lending and borrowing mechanism, the Scheme can call back the securities lent any time before the maturity date of securities lending contract. However, this will be again the function of liquidity in the market and if there are no lenders in the specified security, the Scheme may not be able to call back the security and in the process, the Scheme will be exposed to price volatility. Moreover, the fees paid for calling back the security may be more than the lending fees earned by Scheme at the time of lending the said security and this could result in loss to the Scheme. Also, during the period the security is lent, the Fund will not be able to exercise the voting rights attached to the security as the security will not be registered in the name of the Scheme in the records of the Depository/issuer.

For Debt Instruments:

As with other modes of extensions of credit, there are risks inherent to securities lending, including the risk of failure of the other party, in this case the approved intermediary, to comply with the terms of the agreement entered into between the lender of securities i.e. the Scheme and the approved intermediary. Such failure can result in the possible loss of rights to the collateral put up by the borrower of the securities, the inability of the approved intermediary to return the securities deposited by the lender and the possible loss of any corporate benefits accruing to the lender from the securities deposited with the approved intermediary. The Scheme may not be able to sell such lent securities and this can lead to temporary illiquidity.

7. Risks associated with Short Selling

The Scheme may enter into short selling transactions, subject to SEBI and RBI Regulations. Short positions carry the risk of losing money and these losses may grow unlimited theoretically if the price of the stock increases without any limit. This may result in major loss to the Scheme. At times, the participants may not be able to cover their short positions, if the price increases substantially. If numbers of short sellers try to cover their position simultaneously, it may lead to disorderly trading in the stock and thereby can briskly escalate the price even further making it difficult or impossible to liquidate short position quickly at reasonable prices. In additions, short selling also carries the risk of inability to borrow the security by the participants thereby requiring the participants to purchase the securities sold short to cover the position even at unreasonable prices.

8. Risks associated with investing in REITs and InvITs

REITs and InvITs are volatile and prone to price fluctuations on a daily basis owing to market movements. Investors may note that AMC/Fund Manager's investment decisions may not always be profitable, as actual market movements may be at variance with the anticipated trends. The NAV of the scheme is vulnerable to movements in the prices of securities invested by the scheme, due to various market related factors like changes in the general market conditions, factors and forces affecting capital market, level of interest rates, trading volumes, settlement periods and transfer procedures. The scheme will undertake active portfolio management as per the investment objective to reduce the market risk.

- i) **Liquidity Risk:** This refers to the ease with which securities/instruments of REITs/InvITs can be sold. There is no assurance that an active secondary market will develop or be maintained. Hence, there could be times when trading in the units is infrequent. The subsequent valuation of illiquid units may reflect a discount from the market price of comparable securities/instruments for which a liquid market exists. As these products are new to the market they are likely to be exposed to liquidity risk.
- ii) **Reinvestment Risk:** Investments in securities/instruments of REITs and InvITs may carry reinvestment risk as there could be repatriation of funds by the Trusts in form of buyback of units or Payout of Income Distribution cum Capital Withdrawal, etc. Consequently, the proceeds may get invested in assets providing lower returns.
- iii) **Price Risk:** Securities/Instruments of REITs and InvITs are volatile and prone to price fluctuations on a daily basis owing to market movements. The extent of fall or rise in the prices depends upon factors such as general market conditions, factors and forces affecting capital market, real estate and infrastructure sectors, level of interest rates, trading volumes, settlement periods and transfer procedures.
- iv) **Interest Rate Risk:** Securities/Instruments of REITs and InvITs run interest rate risk. Generally, when interest rates rise, prices of units fall and when interest rates drop, such prices increase.
- v) **Credit Risk:** Credit risk means that the issuer of a REIT/InvIT security / instrument may default on interest payment or even on paying back the principal amount on maturity. Securities / Instruments of REITs and InvITs are likely to have volatile cash flows as the repayment dates would not necessarily be prescheduled.
- vi) **Regulatory/Legal Risk:** REITs and InvITs being new asset classes, rights of unit holders

9. Risk Factors with respect to Imperfect Hedging Using Interest Rate

An Interest Rate Futures is an agreement to buy or sell a debt instrument at a specified future date at a price that is fixed today. Interest Rate Futures are Exchange traded. These future contracts are cash settled.

- Perfect Hedging means hedging the underlying using IRF contract of same underlying.
- Imperfect hedging means the underlying being hedged and the IRF contract has correlation of closing prices of more than 90%.

In case of imperfect hedging, the portfolio can be a mix of:

- Corporate Bonds and Government securities or
- Only Corporate debt securities or
- Only government securities with different maturities

Risk associated with imperfect hedging includes:

Basis Risk: The risk arises when the price movements in derivative instrument used to hedge the underlying assets does not match the price movements of the underlying assets being hedged. Such difference may potentially amplify the gains or losses, thus adding risk to the position.

Price Risk: The risk of mispricing or improper valuation and the inability of derivatives to correlate perfectly with underlying assets, rates, and indices.

Risk of mismatch between the instruments: The risk arises if there is a mismatch between the prices movements in derivative instrument used to hedge, compared to the price movement of the underlying assets being hedged. For example, when IRF which has government security as underlying is used, to hedge a portfolio that contains corporate debt securities.

Correlation weakening and consequent risk of regulatory breach: SEBI (MF) Regulations mandates minimum correlation criterion of 0.9 (calculated on a 90-day basis) between the portfolio being hedged and the derivative instrument used for hedging. In cases where the correlation falls below 0.9, a rebalancing period of 5 working days has been permitted. Inability to satisfy this requirement to restore the correlation level to the stipulated level, within the stipulated period, due to difficulties in rebalancing would lead to a lapse of the exemption in gross exposure

computation. The entire derivative exposure would then need to be included in gross exposure, which may result in gross exposure in excess of 100% of net asset value.

Purchasing a security entails the risk of the security price going down. Short selling of securities (i.e. sale of securities without owning them) entails the risk of the security price going up there by decreasing the profitability of the short position. Short selling is subject to risks related to fluctuations in market price, and settlement/liquidity risks. If required by the Regulations, short selling may entail margin money to be deposited with the clearing house and daily mark to market of the prices and margins. This may impact fund pricing and may induce liquidity risks if the fund is not able to provide adequate margins to the clearing house. Failure to meet margin requirements may result in penalties being imposed by the exchanges and clearing house.

10.Risks associated with overseas investment

To the extent the assets of the scheme are invested in overseas financial assets, there may be risks associated with currency movements, restrictions on repatriation and transaction procedures in overseas market. Further, the repatriation of capital to India may also be hampered by changes in regulations or political circumstances as well as the application to it of other restrictions on investment. In addition, country risks would include events such as introduction of extraordinary exchange controls, economic deterioration, bi-lateral conflict leading to immobilisation of the overseas financial assets and the prevalent tax laws of the respective jurisdiction for execution of trades or otherwise.

Currency Risk: The fund may invest in overseas mutual fund / foreign securities as permitted by the concerned regulatory authorities in India. Since the assets will be invested in securities denominated in foreign currencies, the Indian Rupee equivalent of the net assets, distributions and income may be adversely affected by changes/fluctuations in the value of the foreign currencies relative to the Indian Rupee.

Country Risk: The Country risk arises from the inability of a country, to meet its financial obligations. It is the risk encompassing economic, social and political conditions in a foreign country, which might adversely affect foreign investors' financial interests.

11.Risk factors associated with processing of transaction through Stock Exchange Mechanism

The trading mechanism introduced by the stock exchange(s) is configured to accept and process transactions for mutual fund units in both Physical and Demat Form. The allotment and/or redemption of Units through NSE and/or BSE or any other recognised stock exchange(s), on any Business Day will depend upon the modalities of processing viz. collection of application form, order processing/settlement, etc. upon which the AMC has no control. Moreover, transactions conducted through the stock exchange mechanism shall be governed by the operating guidelines and directives issued by respective recognized stock exchange(s).

C. Risk Mitigation/Control Strategies:

Equity:

- **Liquidity Risk:** The fund will try to maintain a proper asset-liability match to ensure redemption payments are made on time and not affected by illiquidity of the underlying stocks.
- **Concentration Risk:** The scheme will endeavour to have a well-diversified equity portfolio comprising stocks across various sectors of the economy. This would aid in managing concentration risk and sector-specific risks. Generally, diversification across market cap segments also aids in managing volatility and ensuring adequate liquidity at all times.
- **Derivatives Risk:** The fund will endeavour to maintain adequate controls to monitor the derivatives transactions entered into.

Debt

- **Interest Rate Risk:** The Fund seeks to mitigate this risk by keeping the maturity of the scheme in line with the interest rate expectations.
- **Credit risk or default risk:** Management analysis will be used for identifying company specific risks. Management's past track record will also be studied. In order to assess financial risk a detailed assessment of the issuer's financial statements will be undertaken.
- **Reinvestment Risk:** Reinvestment risks will be limited to the extent of coupons received on debt instruments, which will be a very small portion of the portfolio value.
- **The Scheme may invest in derivative for the purpose of hedging, portfolio balancing and other purposes as may be permitted under the Regulations.** Interest Rate Swaps will be done with approved counter parties under pre-approved ISDA agreements. Interest rate swaps and other derivative instruments will be used as per local (RBI and SEBI) regulatory guidelines.
- **Liquidity or Marketability Risk:** Liquidity risk may be high on select securities due to duration and/or issue structure and/ or issuer-specific risk.

Liquidity Risk can be partly mitigated by diversification, staggering of maturities as well as internal risk controls that lean towards purchase of liquid securities.

II. INFORMATION ABOUT THE SCHEME:

A. Where will the scheme invest –

Subject to the Regulations and the disclosures as made under the section “How the Scheme will allocate its Assets”, the corpus of the Scheme can be invested in any (but not exclusively) of the following securities:

▪ **Equity and Equity Related Instruments:**

- **Equity share** – Equity Share is a security that represents ownership interest in a company.
- **Equity Related Instruments** – are securities which give the holder of the security right to receive Equity Shares on pre agreed terms. It includes convertible debentures, convertible preference shares, warrants carrying the right to obtain equity shares, equity derivatives, Units of Real Estate Investment Trust and such other instrument as may be specified by the SEBI from time to time.
- **Equity Derivatives** – are financial instruments, generally traded on an exchange, the price of which is directly dependent upon (i.e., “derived from”) the value of equity shares or equity indices. Derivatives involve the trading of rights or obligations based on the underlying, but do not directly transfer property. The equity derivatives may take the following forms :-

-Futures: Futures are exchange-traded contracts to sell or buy financial instruments for future delivery at a date and at an agreed price. SEBI has permitted futures contracts on indices and individual stocks with maturity of 1 month, 2 months and 3 months on a rolling basis. The futures contracts are settled on last Thursday (or immediately preceding trading day if Thursday is a trading holiday) of each month. The final settlement price is the closing price of the underlying stock(s)/index.

-Options: Option is a contract which provides the buyer of the option the right, without the obligation, to buy or sell a specified asset at the agreed price on or up to a particular date. Option contracts are of two types viz:

(a) Call Option - The option that gives the buyer the right but not the obligation to buy specified quantity of the underlying asset at the strike price is a call option. (b) Put Option – The option that gives the buyer the right but not the obligation to sell is called put option.

- ADRs / GDRs issued by Indian company's subject to necessary regulatory requirements
- Foreign Equity and Equity Related Instrument
- **Debt & Money Market Instruments:**
 - **Certificate of Deposits (CD)** - CD is a negotiable money market instrument issued by scheduled commercial banks and select all-India Financial Institutions that have been permitted by the RBI to raise short term resources. The maturity period of CDs issued by the Banks is between 7 days to one year, whereas, in case of FIs, maturity is between one year to 3 years from the date of issue. CDs may be issued at a discount to face value.
 - **Commercial Papers (CP)** - CP is an unsecured negotiable money market instrument issued in the form of a promissory note, generally issued by the corporates, primary dealers and all India Financial Institutions as an alternative source of short term borrowings. They are issued at a discount to the face value as may be determined by the issuer. CP is traded in secondary market and can be freely bought and sold before maturity.
 - **Treasury Bills (T-Bills)** are issued by the Government of India to meet their short term borrowing requirements. T-Bills are issued for maturities of 91 days, 182 days and 364 days. T-bills are issued at a discount to their face value and redeemed at par.
 - **Commercial Usance Bills** - Bill (bills of exchange/promissory notes of public sector and private sector corporate entities) Rediscounting, usance bills and commercial bills.
 - **Repos/reverse repos in Government Securities** as may be permitted by RBI (including but not limited to coupon bearing bonds, zero coupon bonds and treasury bills). Repo (Repurchase Agreement) or Reverse Repo is a transaction in which two parties agree to sell and purchase the same security with an agreement to purchase or sell the same security at a mutually decided future date and price.
 - **Triparty Repo (TREPS)** – "Triparty repo" means a repo contract where a third entity (apart from the borrower and lender), called a Tri- Party Agent, acts as an intermediary between the two parties to the repo to facilitate services like collateral selection, payment and settlement, custody and management during the life of the transaction. TREPS facilitates, borrowing and lending of funds, in Triparty Repo arrangement.
 - **Securities created and issued by the Central and State Governments** as may be permitted by RBI, securities guaranteed by the Central and State Governments (including but not limited to coupon bearing bonds, zero coupon bonds and treasury bills). State Government securities (popularly known as State Development Loans or SDLs) are issued by the respective State Government in co-ordination with the RBI.
 - **Non-Convertible Debentures and Bonds Non-convertible debentures** as well as bonds are securities issued by companies / institutions promoted / owned by the Central or State Governments and statutory bodies which may or may not carry a Central/State Government guarantee, Public and private sector banks, all India Financial Institutions and Private Sector Companies. These instruments may be secured or unsecured against the assets of the Company and generally issued to meet the short term and long term fund requirements. These

instruments may have fixed or floating rate coupon.

- **Securitized Assets** - Securitization is a structured finance process which involves pooling and repackaging of cashflow producing financial assets into securities that are then sold to investors. All assets can be securitized so long as they are associated with cash flows. A Pass Through Certificate (PTC) represents beneficial interest in an underlying pool of cash flows. These cash flows represent dues against single or multiple loans originated by the sellers of these loans. These loans are given by banks or financial institutions to corporates. PTCs may be backed, but not exclusively, by receivables of personal loans, car loans, two wheeler loans and other assets subject to applicable regulations.

A typical process of asset securitization involves sale of specific receivables to a Special Purpose Vehicle (SPV) set up in the form of a trust or a company. The SPV in turn issues financial instruments (promissory notes, participation certificates or other debt instruments) also referred to as Securitized Debt to the investors evidencing the beneficial ownership of the investors in the receivables. The financial instruments are rated by an independent credit rating agency.

The Scheme may invest in various type of securitisation issuances. The Scheme does not propose to limit its exposure to only one asset class or to have asset class based sub-limits as it will primarily look towards the credit rating of the offering.

Disclosures regarding investments in Securitized Debt:

1. How the risk profile of securitized debt fits into the risk appetite of the scheme?

An evaluation procedure similar to that applied in analyzing plain vanilla debt (commercial paper, non convertible debentures and bonds) will be employed for analyzing securitized debt and assessing their suitability in line with investment objective of the scheme.

Normally, the risk of investing in securitized debts is similar to investing in debt securities. However as securitized debt involves staggered cash flows from underlying loans, there is always a risk of pre-payment of loan instalments by the ultimate borrower which may reduce the returns of the Scheme if the re-investment rates are lower than initially envisaged. The efforts will be made to identify and make investments in those assets which have maximum or bullet repayment on maturity.

The securitized debts have a relatively lower liquidity compared to other plain vanilla debt securities. Since we propose to restrict the investments in securitized debt to the extent specified above under respective schemes, we don't envisage any significant liquidity risk.

Securitized debts, typically offer higher yield than debt securities of similar rating and maturity due to the aforementioned additional risks. If the fund manager is of the view that the additional risks are suitably compensated by higher returns, then investments will be made in securitized debts subject to applicable limits.

The Scheme will predominantly invest only in those securitization issuances which have at least an investment grade credit rating indicating high level of safety from the credit risk point of view at the time of making an investment.

2. Policy relating to originators based on nature of originator, track record, NPAs, losses in earlier securitized debt, etc

The Originator is the entity who has initially given the loan and transferred the receivables to a SPV, The Scheme shall invest in those securitized debts, whose Originator is a Corporate Entity, being a Bank or an NBFC. Before

entering into any securitization transaction, the risk is assessed based on the information generated from the following sources:

A.

(a) Track record – This is a key parameter that we consider at the time of analyzing the transaction. Originators with long track record of operation lend a greater degree of comfort, as they have a longer operating credit history which can be assessed. The track-record would vary depending on the obligor/ originator. Further the track-record of having undertaken such transactions are also evaluated. Most of the entities which undertake such transactions in the Indian market have both a long track-record of operations and a history of having undertaken securitization transactions.

(b) Willingness to pay, through credit enhancement facilities etc. – In this case the stand alone credit assessment of the obligor is carried out to indicate the overall financial health. In the case of retail pool securitization transactions, credit enhancement levels offered at the start and the overall utilization levels during the tenor of the transaction is analyzed to reflect the credit comfort and cushion available.

(c) Ability to pay- this is the outcome of the stand-alone credit assessment of the issuer which is arrived after analyzing the income statement and balance sheet of the obligor. This aspect is the key in the case of single loan sell down transactions, since the final repayment is to be made by the obligor and is directly dependent on its overall financial health. This aspect is also usually reflected in the stand-alone credit rating of the company which primarily captures the credit risk i.e the ability to honour financial obligations to lenders in a timely fashion.

(d) Business risk assessment, wherein following factors are considered:

- Outlook for the economy (domestic and global) – this forms part of the usual credit assessment and the macro analysis. This will have impact on the business risk of the obligor.

- Outlook for the industry – external risks are analyzed here and their impact on the business risk is analyzed. Opportunities and threats as part of the swot analysis are analyzed.

- Company specific factors – the strengths and weaknesses of the company are critically analyzed here

In addition a **detailed review and assessment of rating rationale** is done including interactions with the company as well as agency - The latest rating assessment report is studied to understand the key strengths and risks faced by the issuer/obligor. It has been our practice to discuss the rating report with the rating agency in order to understand the finer credit aspects and the impact it could have on the financial health and rating. As part of the due diligence, we also hold discussions with the obligors / originators which help in getting a better insight into their background.

Critical Evaluation Parameters (for pool loan and single loan securitization transactions) regarding the originator / underlying issuer is as follows:

Default track record/ frequent alteration of redemption conditions / covenants – all transaction conditions and covenants are analyzed to examine any flexibility available to the obligor/originator to alter the terms and conditions which can impact the investor position. If any of these conditions are un-favourable, then these are negotiated / altered at the start of the transaction.

High leverage ratios of the ultimate borrower (for single-sell downs) – both on a standalone basis as well on a consolidated level/ group level – financial analysis of balance sheet and income sheet ratios forms critical part of credit analysis, since factors such as gearing will determine both the credit rating as well as debt servicing and final repayment. High gearing also may limit the ability of the obligor to seek additional funding from the market on a timely basis to meet any maturing obligations. Hence this aspect is very crucial in the analysis.

Higher proportion of rescheduling of underlying assets of the pool or loan, as the case may be –we analyze the pool at start to ensure that there are no major rescheduled assets within the pool, since any deterioration of such assets could weaken the pool’s overall asset quality and could lead to higher credit enhancement utilization.

Higher proportion of overdue assets of the pool or the underlying loan, as the case may be – quality of the retail pool at start is important as it could have a significant impact on the pool’s performance during its tenor.

Poor reputation in market - originators /obligors with poor reputation and/or financial health are usually discarded during our credit evaluation, since asset quality could quickly deteriorate in some cases which could impair debt servicing and repayment. Further, such obligors would also find it difficult to tap the market to raise funds if needed to meet any maturing financial obligations.

Insufficient track record of servicing of the pool or the loan, as the case may be – since we critically assess track-record of operations of the obligor/originator, any shortfall in this parameter would be captured in our analysis. We usually prefer obligors / originators with reasonable operating history since it offers adequate credit history for purpose of credit analysis.

3. Risk mitigation strategies for investments with each kind of originator

(a) Size and reach of the originator – different originators have varying levels of reach and access. Besides, different originators operate in different geographies and consumer segments. Also the asset classes that they originate could be different depending on their target profitability, risk tolerance levels and support infrastructure for disbursing loans and making recoveries and collections. We usually look for originators possessing fair degree of diversification in their operation (metros/ semi urban and rural markets), asset classes (collateralized assets are preferred such as cars, commercial vehicles, construction equipment etc.) and with a fairly robust collection infrastructure. Most of the regular names that we invest comply with these requirements.

(b) Collection process, infrastructure and follow-up mechanism – we usually prefer originators who possess in-house capabilities and infrastructure as regards disbursements, collections and recoveries since it has been historically proven that such entities usually exhibit better asset quality in the long run. Most of the originators in our universe fall in this category.

(c) Quality of MIS – data quality and timely availability is critical in the asset financing business. We stress on this aspect and look for entities which have robust MIS and have networked branches so that MIS generation is faster, efficient and senior management is in a position to take timely decisions.

(d) Credit enhancement for different type of originator – this varies between originators and is usually determined and specified by the originator. The rating agency usually established the base case losses for the originator and for the specific asset category and then applies a stress factor depending on their own assessment of the originators financial health, and other strengths and weaknesses as also the prevailing macroeconomic factors which can impact overall asset quality.

4. The level of diversification with respect to the underlying assets, and risk mitigation measures for less diversified investments

Following framework will be applied while evaluating investment decision relating to a pool securitization transaction:

| Characteristics/ Type of Pool | Mortgage Loan# | CV & CE | Cars | 2 Wheelers | Micro Finance Pools @ | Personal Loans | Single Sell Downs |
|----------------------------------|-------------------|---------------|------|---------------|-----------------------------|-------------------|-------------------------|
|----------------------------------|-------------------|---------------|------|---------------|-----------------------------|-------------------|-------------------------|

| | | | | | | | |
|--|----------|-------|-------|----------|----------|----------|-------|
| Approximate Average maturity (in Months)* | 36-72 | 12-30 | 12-30 | 12-18 | 3-15 | 12-24 | 12-24 |
| Collateral margin (including cash guarantees, excess interest spread, subordinate tranche) | Min : 10 | 5-25 | 5-25 | Min : 15 | Min : 10 | Min : 15 | - |
| Average Loan to Value Ratio (%) | 70-90 | 65-85 | 65-85 | 50-75 | 60-85 | NA | - |
| Average seasoning of the Pool (months) | 6-12 | 3-6 | 3-6 | 3-6 | 1-3 | 3-6 | - |
| Maximum single exposure range% | 5-15 | 5-15 | 5-15 | 5-10 | 5-15 | 5-10 | 5-15 |
| Average single exposure range % | 10 | 10 | 10 | 7.5 | 10 | 7.5 | 10 |

1. Kindly note that these are indicative ranges and final figures could vary depending upon the overall characteristics of the transaction and market conditions.
2. Also since most of the transactions are composite in nature i.e. they have more than one asset class the actual cash level would be finalized based on the final mix.
3. Mortgage loans are usually not clubbed with other asset classes since the average tenors are different for these asset classes. Hence mortgage loan pools are usually issued separately. Hence we have indicated 15 % under this asset class.
4. Micro finance pools are also issued separately and not clubbed with other asset classes. Hence we have indicated 15% under Micro Finance pools under maximum exposure.
5. The percentages indicated in the table above is with reference to investments in securitized debt instruments, subject to investment restrictions as per the regulations.
6. The scheme shall invest in securitized debt instruments maturing on or before the maturity of the scheme.

- **Pass through Certificate (PTC)** – Pay through or other Participation Certificates represents beneficial interest in an underlying pool of cash flows. These cash flows represent dues against single or multiple loans originated by the sellers of these loans. These loans are given by banks or financial institutions to corporates. PTCs may be backed, but not exclusively, by receivables of personal loans, car loans, two wheeler loans and other assets subject to applicable regulations

Debt derivative instrument

-Interest Rate Swap - An Interest Rate Swap (IRS) is a financial contract between two parties exchanging or swapping a stream of interest payments for a “notional principal” amount on multiple occasions during a specified period. Such contracts generally involve exchange of a “fixed to floating” or “floating to fixed rate” of interest. Accordingly, on each payment date that occurs during the swap period, cash payments based on fixed/ floating and floating rates are made by the parties to one another.

-Forward Rate Agreement- A Forward Rate Agreement (FRA) is a financial contract between two parties to exchange interest payments for a ‘notional principal’ amount on settlement date, for a specified period from start date to maturity date. Accordingly, on the settlement date, cash payments based on contract (fixed) and the

settlement rate, are made by the parties to one another. The settlement rate is the agreed bench-mark/ reference rate prevailing on the settlement date.

- **Interest Rate Futures** - A futures contract is a standardized, legally binding agreement to buy or sell a commodity or a financial instrument in a designated future month at a market determined price (the futures price) by the buyer and seller. The contracts are traded on a futures exchange. An Interest Rate Future is a futures contract with an interest bearing instrument as the underlying asset.

- Government securities having an unexpired maturity upto one year

- Index derivatives

- **Foreign Securities** -The Scheme may also invest in suitable investment avenues in overseas financial markets for the purpose of diversification, yield enhancement and to benefit from potential foreign currency appreciation, commensurate with the Scheme objectives and subject to the provisions of Para 12.19.2 of SEBI Master Circular on Mutual Funds dated June 27, 2024 as may be amended from time to time and any other requirements as may be stipulated by SEBI/RBI from time to time. Towards this end, the Mutual Fund may also appoint overseas investment advisors and other service providers, as and when permissible under the regulations: The Scheme may, in terms of its investment objectives with the approval of SEBI/RBI invest in following Foreign Securities:

- i. ADRs/ GDRs issued by Indian or foreign companies;

- ii. Equity of overseas companies listed on recognized stock exchanges overseas ;

- iii. Initial and follow on public offerings for listing at recognized stock exchanges overseas ;

- iv. Foreign debt securities in the countries with fully convertible currencies, short term as well as long term debt instruments with rating not below investment grade by accredited/registered credit rating agencies;

- v. Money market instruments rated not below investment grade ;

- vi. Repos in the form of investment, where the counterparty is rated not below investment grade; repos should not however, involve any borrowing of funds by mutual funds; vii. Government securities where the countries are rated not below investment grade; viii. Derivatives traded on recognized stock exchanges overseas only for hedging and portfolio balancing with underlying as securities ;

- ix. Short term deposits with banks overseas where the issuer is rated not below investment grade and

- x. Units/securities issued by overseas mutual funds or unit trusts registered with overseas regulators and investing in

- (a) aforesaid securities,

- (b) Real Estate Investment Trusts (REITs) listed in recognized stock exchanges overseas or

- (c) permitted unlisted overseas securities (not exceeding 10% of their net assets).

1. As per Para 12.19 of SEBI Master Circular on Mutual Funds

1.1. Mutual Funds can make overseas investments subject to a maximum of US \$ 1 billion per Mutual Fund, within the overall industry limit of US \$ 7 billion.

1.2. Mutual Funds can make investments in overseas Exchange Traded Fund (ETF(s)) subject to a maximum of US \$ 300 million per Mutual Fund, within the overall industry limit of US \$ 1 billion.

The allocation methodology of the aforementioned limits shall be as follows:

2.1. In case of overseas investments specified at Para 1.1 above, US \$ 50 million would be reserved for each Mutual Fund individually, within the overall industry limit of US \$ 7 billion. Subject to the limit specified in 1.1 and 1.2, the Scheme may invest an amount of US \$ 50 million in foreign securities and US \$ 20 million in overseas ETFs each as permitted by RBI/SEBI from time to time within a period of 6 months from the NFO closure date. Further investments shall follow the norms for ongoing schemes as specified

from time to time, which currently are, 20% of the average AUM in Overseas securities / Overseas ETFs of the previous three calendar months would be available to the Mutual Fund for that month to invest in Overseas securities / Overseas ETFs subject to maximum limits specified at Para 1 above.

Provided that the limit for investment in overseas securities including ETFs shall be as permitted by RBI/SEBI from time to time. The overseas limits mentioned in Para 12.19 of SEBI Master Circular on Mutual Funds are soft limits. Subject to the approval of RBI / SEBI and conditions as may be prescribed by them, the Mutual Fund may open one or more foreign currency accounts abroad either directly, or through the custodian/sub custodian, to facilitate investments and to enter into/deal in forward currency contracts, currency futures, interest rate futures / swaps, currency options for the purpose of hedging the risks of assets of a portfolio or for its efficient management. Any other like instruments as may be permitted by RBI/SEBI/ such other Regulatory Authority from time to time.

- **Investments in units of mutual fund schemes** – The Scheme may invest in other schemes managed by the AMC or in the schemes of any other mutual funds in conformity with the investment objective of the Scheme and in terms of the prevailing SEBI (MF) Regulations.
- **Investment in Units issued by InvITs**
- Short selling and securities lending as permitted by SEBI from time to time REITs and InvITs.

Any other instruments, as may be permitted by RBI / SEBI / such other Regulatory Authority, from time to time, subject to Regulatory approvals. The securities mentioned above could be listed or permitted unlisted, privately placed, secured or unsecured, rated or un-rated and of any maturity, as enabled under SEBI (MF) Regulations / circulars/ RBI. The securities may be acquired from primary market/ Initial Public Offer (IPO), secondary market operations, private placement or negotiated deals.

For applicable regulatory investment limits please refer paragraph "Investment Restrictions". The Fund Manager reserves the right to invest in such securities as maybe permitted from time to time and which are in line with the investment objectives of the Scheme.

B. What are the investment restrictions?

Subject to the Regulations, the corpus of the Scheme can be invested in any (but not exclusively) of the following securities

1. Investment in unrated debt and money market instruments, other than government securities, treasury bills, derivative products such as Interest Rate Swaps (IRS), Interest Rate Futures (IRF), etc. shall be subject to the following:
 - a. Investments shall only be made in such instruments, including bills rediscounting, usance bills, etc., that are generally not rated and for which separate investment norms or limits are not provided in SEBI (MF) Regulations and various circulars issued thereunder.
 - b. Exposure in such instruments, shall not exceed 5% of the net assets of the scheme.
 - c. All such investments shall be made with the prior approval of the Board of AMC and the Board of trustees.
2. The Mutual Fund under all its Scheme(s) shall not own more than 10% of any company's paid up capital carrying voting rights or 10% of units of REITs issued by a single issuer, as the case may be. Provided, investment in the asset management company or the trustee company of a mutual fund shall be governed by clause (a), of sub-regulation (1), of regulation 7B of the SEBI (MF) Regulations
3. No mutual fund scheme shall invest more than 10 per cent of its NAV in the equity shares or equity related instruments of any entity. Provided that, the limit of 10 per cent shall not be applicable for investments in case of index fund or exchange traded fund or sector or industry specific scheme.

4. The Scheme shall adhere to following limits for investments in Debt and Money Market Instruments issued by a single issuer:

| Credit Rating | Maximum Limit (% of net assets) |
|----------------------------|---------------------------------|
| AAA | 10 |
| AA (including AA+ and AA-) | 8 |
| A (including A+) & below | 6 |

The above limits may be extended by up to 2% of the NAV of the Scheme with prior approval of the Board of Trustees and AMC, subject to compliance with the overall 12% limit.

Provided that such limits shall not be applicable for investments in Government Securities, treasury bills, and Triparty Repo on G-Secs & T-Bills.

5. The Scheme may invest in another scheme under the same asset management company or any other mutual fund without charging any fees, provided that aggregate inter-scheme investment made by all schemes under the management or in schemes under the management of any other asset management company shall not exceed 5% of the NAV of the mutual fund.
6. Pending deployment of funds of a scheme in securities in terms of investment objectives of the scheme a mutual fund can invest the funds of the scheme in short term deposits of scheduled commercial banks. The investment in these deposits shall be in accordance with Clause 12.16.1.8 of SEBI Master Circular of Mutual Fund.
7. The mutual fund shall not borrow except to meet temporary liquidity needs of the mutual funds for the purpose of repurchase, redemption of units or payment of interest or dividend to the unitholders. Provided that the mutual fund shall not borrow more than 20 per cent of the net asset of the scheme and the duration of such a borrowing shall not exceed a period of six months.
8. The Scheme shall not invest in unlisted debt instruments including commercial papers (CPs), other than (a) government securities, (b) other money market instruments and (c) derivative products such as Interest Rate Swaps (IRS), Interest Rate Futures (IRF), etc. However, the scheme may invest in unlisted Non-Convertible debentures (NCDs) not exceeding 10% of the debt portfolio of the scheme subject to the condition that such unlisted NCDs have a simple structure (i.e. with fixed and uniform coupon, fixed maturity period, without any options, fully paid up upfront, without any credit enhancements or structured obligations) and are rated and secured with coupon payment frequency on monthly basis.
9. Inter scheme transfers of investments from one scheme to another scheme in the same Mutual Fund shall be allowed only if such transfers are done at the prevailing market price for quoted instruments on spot basis. Explanation - "Spot basis" shall have same meaning as specified by stock exchange for spot transactions. The securities so transferred shall be in conformity with the investment objective of the scheme to which such transfer has been made.

Pursuant to Clause 12.30 of SEBI Master Circular of Mutual Fund, ISTs may be allowed in the following scenarios:

- i. for meeting liquidity requirement in a scheme in case of unanticipated redemption pressure
- ii. for Duration/ Issuer/ Sector/ Group rebalancing

No IST of a security shall be done, if there is negative news or rumours in the mainstream media or an alert is generated about the security, based on internal credit risk assessment. The Scheme shall comply with the guidelines for inter-scheme transfers as specified under clause 12.30 of SEBI Master Circular of Mutual Fund.

10. The Mutual Fund shall buy and sell securities on the basis of deliveries and shall in all cases of purchases, take delivery of relevant securities and in all cases of sale, deliver the securities. The Scheme may engage in Securities lending and the borrowing which shall be within the framework specified by the SEBI.

11. The Scheme shall get the securities purchased or transferred in the name of the mutual fund on account of the concerned scheme, wherever investments are intended to be of long-term nature.

12. The Scheme shall not make any investment in:

- a) Any unlisted security of an associate or group company of the Sponsor; or
- b) Any security issued by way of private placement by an associate or group company of the sponsor; or
- c) The listed securities of group companies of the Sponsor which is in excess of 25% of the net assets.

13. The Scheme based on widely tracked and non bespoke indices, can make investments in accordance with the weightage of the constituents of the underlying index. However, such investments shall be subject to an overall cap of 35% of net asset value of the scheme, in the group companies of the sponsor.

- The scheme shall not make any investment in any fund of funds scheme.
- All investments by a mutual fund scheme in equity shares and equity related instruments shall only be made provided such securities are listed or to be listed.
- The Mutual Fund having an aggregate of securities which are worth Rs.10 crores or more, as on the latest balance sheet date, shall subject to such instructions as may be issued from time to time by SEBI, settle their transactions entered on or after January 15, 1998 only through dematerialized securities. Further, all transactions in government securities shall be in dematerialized form.

14. Pursuant to Clause 12.16 of SEBI Master Circular of Mutual Fund:-

- Total investment of the Scheme in Short term deposit(s) of all the Scheduled Commercial Banks put together shall not exceed 15% of the net assets. However, this limit can be raised upto 20% of the net assets with prior approval of the trustees. Further, investments in Short Term Deposits of associate and sponsor scheduled commercial banks together shall not exceed 20% of total deployment by the Mutual Fund in short term deposits.
- “Short Term” for parking of funds by Mutual Funds shall be treated as a period not exceeding 91 days
- The Scheme shall not invest more than 10% of the net assets in short term deposit(s), of any one scheduled commercial bank including its subsidiaries.
- The Scheme shall not invest in short term deposit of a bank which has invested in that Scheme. AMC shall also ensure that the bank in which a scheme has Short term deposit do not invest in the said scheme until the scheme has Short term deposit with such bank.
- Asset Management Company (AMC) shall not be permitted to charge any investment management and advisory fees for parking of funds in short term deposits of scheduled commercial banks. The Half Yearly portfolio statements shall disclose all funds parked in short term deposit(s) under a separate heading. Details shall also include name of the bank, amount of funds parked, percentage of NAV. Trustees shall, in the Half Yearly Trustee Reports certify that provisions of the SEBI (MF) Regulations pertaining to parking of funds in short term deposits pending deployment are complied with at all points of time. The AMC(s) shall also certify the same in its CTR(s).
- The investments in short term deposits of scheduled commercial banks will be reported to the Trustees along with the reasons for the investment which, inter-alia, would include comparison with the interest rates offered by other scheduled commercial banks. Further, AMC shall ensure that the reasons for such investments are recorded in the manner prescribed.

The Scheme will comply with SEBI (MF) Regulations and any other regulations applicable to the investments of Funds from time to time. The Trustee may alter the above restrictions from time to time to the extent that changes in the SEBI (MF) Regulations may allow. All investment restrictions shall be applicable at the time of making investment.

- In accordance with clause 12.16.1.9 SEBI Master Circular of Mutual Fund, the aforesaid limits shall not be applicable to term deposits placed as margins for trading in cash and derivatives market.

15. Investments Limitations and Restrictions in Derivatives

In accordance with Clause 12.25 of SEBI Master Circular of Mutual Fund, the following investment restrictions shall apply with respect to investment in Derivatives:

- 1 The cumulative gross exposure through equity, debt and derivative positions will not exceed 100% of the net assets of the scheme. However, cash or cash equivalents with residual maturity of less than 91 days shall be treated as not creating any exposure.
- 2 The Scheme shall not write options or purchase instruments with embedded written options.
- 3 The total exposure related to option premium paid shall not exceed 20% of the net assets of the scheme.
- 4 Exposure due to hedging positions may not be included in the above mentioned limits subject to the following:
 - a. Hedging positions are the derivative positions that reduce possible losses on an existing position in securities and till the existing position remains.
 - b. Hedging positions shall not be taken for existing derivative positions. Exposure due to such positions shall be added and treated under gross cumulative exposure limits mentioned under Point 1.
 - c. Any derivative instrument used to hedge shall have the same underlying security as the existing position being hedged.
 - d. The quantity of underlying associated with the derivative position taken for hedging purposes shall not exceed the quantity of the existing position against which hedge has been taken.
- 5 The scheme may enter into plain vanilla Interest Rate Swaps (IRS) for hedging purposes. The value of the notional principal in such cases shall not exceed the value of respective existing assets being hedged by the scheme.

In case of participation in IRS is through over the counter transactions, the counter party shall be an entity recognized as a market maker by RBI and exposure to a single counterparty in such transactions shall not exceed 10% of the net assets of the scheme. However, if mutual funds are transacting in IRS through an electronic trading platform offered by the Clearing Corporation of India Ltd. (CCIL) and CCIL is the central counterparty for such transactions guaranteeing settlement, the single counterparty limit of 10% shall not be applicable.

Exposure due to derivative positions taken for hedging purposes in excess of the underlying position against which the hedging position has been taken, shall be treated under gross cumulative exposure limits mentioned under Point 1. Apart from the investment restrictions prescribed under SEBI (MF) Regulations, the Fund does not follow any internal norms vis-a-vis limiting exposure to a particular scrip or sector etc.

An Application Form accompanied by a payment instrument issued from a bank account other than that of the Applicant / Investor will not be accepted except in certain circumstances. For further details, please refer paragraph —Non – acceptance of Third Party Payment Instruments for subscriptions / investments under the section —How to Apply in SAI.</p> <p>Bank Details: In order to protect the interest of Unit holders from fraudulent encashment of redemption / IDCW cheques, SEBI has made it mandatory for investors to provide their bank details viz. name of bank, branch, address, account type and number, etc. to the Mutual Fund. Applications without complete bank details shall be rejected. The AMC will not be responsible for any loss arising out of fraudulent encashment of cheques / warrants and / or any delay / loss in transit. Also, please refer to point on Registration of Multiple Bank Accounts in respect of an Investor Folio given elsewhere in this document.</p> |
| The policy regarding reissue of repurchased units, including the maximum extent, the manner of reissue, the entity (the scheme or the AMC) involved in the same. | <p>Not Applicable</p> <p>Units once redeemed will not be reissued.</p> |

Restrictions, if any, on the right to freely retain or dispose of units being offered.

The Mutual Fund will be repurchasing (subject to completion of lock-in period, if any) and issuing units of the Scheme on an ongoing basis and hence the transfer facility is found redundant. Any addition / deletion of name from the folio of the Unit holder is deemed as transfer of Units. In view of the same, additions / deletions of names will not be allowed under any folio of the Scheme. The said provisions in respect of deletion of names will not be applicable in case of death of a Unit holder (in respect of joint holdings) as this is treated as transmission (transfer of units by operation of law) of Units and not transfer. Units of the Scheme held in demat form shall be freely transferable (subject to lock-in period, if any) and will be subject to transmission facility in accordance with the provisions of the SEBI (Depositories and Participants) Regulations, 1996 as amended from time to time. Also, when a person becomes a holder of the units by operation of law or upon enforcement of pledge, then the AMC shall, subject to production/submission of such satisfactory evidence, which in its opinion is sufficient, effect the transfer, if the intended transferee is otherwise eligible to hold the units.

RIGHT TO RESTRICT REDEMPTION AND / OR SUSPEND REDEMPTION OF THE UNITS:

The Fund at its sole discretion reserves the right to restrict Redemption (including switchout) of the Units (including Plan /Option) of the Scheme of the Fund upon occurrence of the below mentioned events for a period not exceeding ten (10) working days in any ninety (90) days period subject to approval of the Board of Directors of the AMC and the Trustee. The restriction on Redemption (including switch-out) shall be applicable where the Redemption (including switch-out) request is for a value above Rs. 2,00,000/- (Rupees Two Lakhs). Further, no restriction shall be applicable to the Redemption / switch-out request upto Rs. 2,00,000/- (Rupees Two Lakhs). It is further clarified that, in case of redemption request beyond Rs. 2,00,000/- (Rupees Two Lakhs), no restriction shall be applicable on first Rs. 2,00,000/- (Rupees Two Lakhs). The Trustee / AMC reserves the right to restrict Redemption or suspend Redemption of the Units in the Scheme of the Fund on account of circumstances leading to a systemic crisis or event(s) that severely constrict market liquidity or the efficient functioning of the markets. A list of such circumstances under which the restriction on Redemption or suspension of Redemption of the Units in the Scheme of the Fund may be imposed are as follows:

1. Liquidity issues- when market at large becomes illiquid affecting almost all securities rather than any issuer specific security; or
2. Market failures / Exchange closures; or
3. Operational issues; or
4. If so directed by SEBI.

It is clarified that since the occurrence of the abovementioned eventualities have the ability to impact the overall market and liquidity situation, the same may result in exceptionally large number of Redemption requests being made and in such a situation the indicative timelines (i.e. within 3-4 Business Days) mentioned by the Fund in the scheme offering documents, for processing of requests for Redemption may not be applicable. Please refer to paragraphs on 'Transfer and Transmission of units, Right to limit Redemption, Suspension of Purchase and/ or Redemption of Units and Pledge of Units' in the SAI for further details.

C. Transparency/NAV Disclosure (Details with reference to information given in Section I)

The AMC will calculate and disclose the first NAV under the Scheme not later than 5 Business Days from the date of allotment of units under the NFO Period. Subsequently, the NAV will be calculated and disclosed at the close of every Business Day. As required by SEBI, the NAVs shall be disclosed in the following manner:

ii) Displayed on the website of the Mutual Fund <https://www.growwmf.in/nav>

iii) Displayed on the website of Association of Mutual Funds in India (AMFI) (www.amfiindia.com).

Any other manner as may be specified by SEBI from time to time. The same shall also be communicated to the Stock exchange(s), where the units will be listed. Mutual Fund / AMC will provide facility of sending latest available NAVs to unitholders through SMS, upon receiving a specific request in this regard. The AMC shall update the NAVs on the website of the Mutual Fund <https://www.growwmf.in/nav> and on the website of Association of Mutual Funds in India - AMFI (www.amfiindia.com) by 11.00 p.m. on every Business Day. In case of any delay, the reasons for such delay would be explained to AMFI in writing. If the NAVs are not available before commencement of business hours on the following day due to any reason, the Mutual Fund shall issue a press release giving reasons and explaining when the Mutual Fund would be able to publish the NAVs.

D. Transaction charges and stamp duty

Applicability of Stamp Duty : Pursuant to Notification No. S. O. 1226 (E) and G.S.R 226(E) dated March 30, 2020 issued by Department of Revenue, Ministry of Finance, Government of India, read with Part I of Chapter IV of Notification dated February 21, 2019 issued by Legislative Department, Ministry of Law and Justice, Government of India on the Finance Act, 2019, a stamp duty @ 0.005% of the transaction value shall be levied on applicable mutual fund transactions. Accordingly, pursuant to levy of stamp duty, the number of units allotted on purchase transactions to the unitholders would be reduced to that extent. The stamp duty will be deducted from the net investment amount i.e. gross investment amount less any other deduction like transaction charge. Units will be created only for the balance amount i.e. Net Investment Amount as reduced by the stamp duty. The stamp duty will be computed at the rate of 0.005% on an inclusive method basis.

For instance: If the transaction amount is Rs. 100100 /- and the transaction charge is Rs. 100, the stamp duty will be calculated as follows: $((\text{Transaction Amount} - \text{Transaction Charge}) * 0.005\%) = \text{Rs.5}$. If the applicable Net Asset Value (NAV) is Rs. 10 per unit, then units allotted will be calculated as follows: $(\text{Transaction Amount} - \text{Transaction Charge} - \text{Stamp Duty}) / \text{Applicable NAV} = 9,999.50$ units.

For details please refer SAI.

E. Associate Transactions- Please refer to Statement of Additional Information (SAI)

F. Taxation- For details on taxation please refer to the clause on Taxation in the SAI apart from the following:

This information is provided for general information only and is based on the prevailing tax laws, as applicable in case of this Scheme. However, in view of the individual nature of the implications, each investor is advised to consult his or her own tax advisors/ authorised dealers with respect to the specific amount of tax and other implications arising out of his or her participation in the schemes.

Groww Mutual Fund is registered as a Mutual Fund with Securities and Exchange Board of India ('SEBI') under SEBI (MF) Regulations. Any income earned by such mutual fund registered with SEBI is exempt from taxation as per section 10(23D) of the Income Tax Act, 1961 ('Act')

Under section 112A of the Act, where long term capital gain exceeds Rs. 1,25,000/- tax is payable @ 12.50% plus applicable surcharge and cess (without indexation benefit).

Taxability in the hands of Investor

If the units are held as stock-in-trade of a business, the said income will be taxed at the rates at which the normal income of that investor is taxed.

If the units are held as investments, the said income will be taxed as capital gains. In such case, the tax rates applicable will depend on whether the gain on sale of units is classified as a short-term capital gain or a long-term capital gain.

Tax on Income Distributed by a Mutual Fund

Finance Act, 2020 has amended the provision of section 115R of the Act (Dividend Distribution Tax) to provide

that the income distributed on or before 31st March 2020 shall only be covered under the provision of this section.

With effect from 1st April, 2020, dividend or income distribution by mutual fund on units is taxable in the hands of unit holders at the applicable rates

* As per provision of section 194K of the Act, where the amount of income credited or paid in a financial year, in aggregate, does not exceed Rs. 10,000, no withholding is required to be carried out. However, the scheme shall be withholding tax when the aggregate amount in financial year at Permanent Account Number (PAN) level exceeds Rs. 9,000.

Tax rates mentioned above are further increased by surcharge and health and education cess as may be applicable for respective investor.

Surcharge and cess shall not be applied on basic tax while deducting TDS, if any, on income of resident investors.

| Surcharge Rates Total income | Individual /HUF ~ | Partnership Firms & Co-operative Societies | Domestic Companies* | Foreign Companies |
|---------------------------------------|--------------------------|---|----------------------------|--------------------------|
| Less than or equal to 50 lakhs | NIL | NIL | NIL | NIL |

| >5 crores <= 10 crores | 37% | 12% | 7% | 2% |
| >10 crores | 37% | 12% | 12% | 5% |

~Surcharge rate shall not exceed 25% in case of individual and HUF opting for new tax regime under section 115BAC of the Act. In case total income includes income by way of dividend on shares, short-term capital gains on units of equity oriented mutual fund schemes and long-term capital gains on mutual fund schemes, the rate of surcharge on the said type of income not to exceed 15% [refer clause on Taxation in the SAI for further details] .

* 10% basic surcharge (irrespective of taxable income) for domestic companies availing benefit under section 115BAA and section 115BAB of the Act.

Tax plus surcharge shall be further increased by a health and education cess of 4 percent.

DTAA Benefits

Taxability in the hands of non-resident investor shall be subject to Double Taxation Avoidance Agreement (“DTAA” or “tax treaty”) benefits which can be claimed in the return of income to be filed by such investors, as applicable. Further, such DTAA benefit may also be claimed at the time of withholding of taxes (subject to requisite documents for claiming DTAA benefit made available by investor to the Mutual Fund). The investors should obtain specific advice from their tax advisors regarding the availability of the tax treaty benefits.

AADHAR Linking

As per section 139AA of the Act read with rule 114AAA of the Income-tax Rules, 1962, in the case of a resident person, whose PAN has become inoperative due to non-linking of PAN with Aadhaar, it shall be

deemed that he has not furnished the PAN and tax could be withheld at a higher rate of 20% as per section 206AA of the Act.

Securities Transaction Tax (STT)

STT is payable on sale (redemption) of units of an Equity Oriented funds mutual fund.
