V.	Investment objective	The investment objective of the scheme is to provide capital appreciation and consistent income to the investors which will be in line with their retirement goals by investing in a mix of securities comprising of equity, equity related instruments and fixed income securities. There is no assurance that the investment objective of the Scheme will be achieved.
VI.	Liquidity/listing details	Liquidity The scheme provides repurchase /switch-out facility on all Business Days at NAV based prices after an initial lock-in-period of five years in the scheme from the date of allotment of units. Lock - in Period : 5 years in the scheme from the date of allotment of units or till Retirement age* whichever is earlier. (Note: lock in period is in respect to the scheme and not in respect to Wealth Creation Scheme or Income Generation Scheme. Switches within the scheme or Auto transfer or switches from Wealth Creation Scheme to Income Generation Scheme and vice versa is available during lock – in period). *w.e.f. June 06, 2018, maximum entry age for subscription shall be less than 60 years and the deemed Retirement age for the Scheme will be considered as 65 years. Investors can continue to remain invested beyond the retirement age as well, unless redeemed or switched out as mentioned in above paragraph. For investments prior to June 06, 2018 in this scheme, the lock-in-period of five years shall be applicable. In terms of SEBI Regulations, the Mutual Fund shall initiate payment of redemption proceeds within 3 Business Days of receiving a valid Redemption request. In case of exceptional situations listed in AMFI Circular No.AMFI/35P/MEM-COR/74/2022-23 dated January 16, 2023, redemption payment would be made within the permitted additional timelines. Interest at the rate of 15% per annum or such other rate as may be prescribed by SEBI from time to time, will be paid for delay in excess of 3 Business Days (11th day onwards) in case the redemption proceeds paid after 3 Business Days of the date of receipt of a valid redemption request. Part II. INFORMATION ABOUT THE SCHEME

A. HOW WILL THE SCHEME ALLOCATE ITS ASSETS?

Under normal circumstances, the anticipated asset allocation would be:

Wealth Creation Scheme

Instruments	Indicative allocations (% of total assets)		Risk Profile
	Minimum	Maximum	
Diversified Equities and equity related securities	65%	100%	Medium to High
Debt and Money market securities	0%	35%	Low to Medium

Income Generation Scheme

Instruments	Indicative allocations (% of total assets)		Risk Profile
	Minimum	Maximum	
Diversified Equities and equity related securities	5%	30%	Medium to High
Debt and Money market securities	70%	95%	Low to Medium

The scheme may engage in securities lending and repo in corporate debt. The scheme will neither invest in securitized debt nor engage in short selling.

Gross exposure of the scheme to repo transactions in corporate debt securities shall not be more than 10% of the net asset scheme or such other limits as may be permitted by SEBI from time to time. The scheme may engage in Securities Lending not exceeding 15% of the net assets of the scheme and shall not lend more than 5% of its Net Assets to a single counterparty or such other limits as may be permitted by SEBI from time to time.

If the Fund Manager decides to invest in ADRs / GDRs issued by Indian / foreign companies and in foreign Securities in accordance with SEBI Regulations in the Scheme, investments in such instruments will not exceed 20% of the net assets of the Scheme.

Gross investments in securities under the Scheme which includes equities, equity related instruments/securities, debt securities, money market instruments and derivatives (including Fixed income derivatives) will not exceed 100% of the net assets of the Scheme as per Clauses 12.24 and 12.25 of SEBI Master Circular dated June 27, 2024. However, the gross exposure to derivatives in the equity segment shall be restricted to 50% of the net assets of the Scheme.

The Scheme may take derivatives position based on the opportunities available subject to the guidelines issued by SEBI from time to time and in line with the overall investment objective of the Scheme. These may be taken to hedge the portfolio, rebalance the same or to undertake any other strategy as permitted under the SEBI Regulations.

The fund will also invest in Pre IPO Placement, lock-in non transferable securities and upto 5% or max permissible limit in Unlisted Securities.

Rebalancing of deviation due to short term defensive consideration:

Subject to SEBI (MF) Regulations, the asset allocation pattern indicated above may change from time to time, keeping in view market conditions, market opportunities, applicable regulations, and political and economic factors. It must be clearly understood that the percentages can vary substantially depending upon the perception of the Investment Manager; the intention being always to seek to protect the interests of the Unit holders. As per Clause 1.14.1.2.b and Clause 2.9 of SEBI Master Circular dated June 27, 2024, such changes in the investment pattern will be for short term and for defensive consideration only. In the event of deviations, portfolio rebalancing will be carried out within 30 calendar days in such cases.

Portfolio rebalancing in case of passive breach:

In case of any deviation (due to passive breaches) from the asset allocation of the scheme, the fund manager will carry out rebalancing within 30 business days. Where the portfolio is not re-balanced within 30 business days, justification in writing including details of efforts taken to rebalance the portfolio shall be placed before the Investment Committee. The Investment Committee, if so desires, can extend the timelines up to sixty (60) business days from the date of completion of mandated rebalancing period. However, always the portfolio will adhere to the overall investment objectives of the Scheme.

NAM India will ensure that total exposure of the scheme in a particular sector (excluding investments in Bank CDs, short term deposits of scheduled commercial banks, Tri-party, G-Secs, T-Bills and AAA rated securities issued by Public Financial Institutions and Public Sector Banks and such other instruments if any, as may be specified by SEBI from time to time) shall not exceed 20% or such other percentage of the net assets of the scheme, as prescribed by SEBI from time to time.

An additional exposure to financial services sector (over and above the limit of 20%) not exceeding 10% of the net assets of the scheme shall be allowed by way of increase in exposure to Housing Finance Companies (HFCs) rated AA and above and registered with National Housing Bank (NHB). However, such total investment/ exposure in HFCs shall not exceed 20% of the net assets of the scheme or such other percentage of the net assets of the scheme, as prescribed by SEBI from time to time.

B. WHERE WILL THE SCHEME INVEST? (Applicable to both the Schemes)

The scheme endeavors to provide capital appreciation and consistent income to the investors which will be in line with their retirement goals by investing in a mix of securities comprising of equity, equity related instruments and fixed income securities.

The equity asset allocation will be invested in diversified equity and equity related securities of the companies that have a potential to appreciate in the long run. Therefore the fund would have the flexibility to invest in stocks from sectors and industries of all market capitalization. The allocation to the different market caps would vary from time to time depending on the overall market conditions, market opportunities and the fund manager's view.

However, depending on the views of the fund manager and market conditions in the interest of the investors, the fund manager will have the flexibility to select stocks which he feels are best suited to achieve the stated objective. However there can be no assurance that the investment objective of the scheme will be realized, as actual market movements may be at variance with anticipated trends.

Income may be generated through the receipt of coupon payments, the amortization of the discount on debt instruments, receipt of IDCWs or the purchase and sale of securities in the underlying portfolio.

Fixed income securities includes, but is not confined to debt obligations of the Government of India, state and local governments, government agencies, statutory bodies, public sector undertakings, Financial Institutions, public and private sector banks and corporate entities.

Investments in fixed income securities will be in securities rated by at least one recognized rating agency. Investments in unrated securities will be made as per the parameters specified by the Board of Directors of the AMC &/or the Trustee. Money market securities includes but are not limited to treasury bills, commercial paper of public sector undertakings and private sector corporate entities, interbank call and notice money, certificates of deposit of scheduled commercial banks and Financial Institutions, bills of exchange/promissory notes of public and private sector entities (co-accepted by banks) and any other money market securities as may be permitted by SEBI/RBI. From time to time, it is possible that the portfolio may hold cash.

The schemes may also enter into repurchase and reverse repurchase obligations in all securities held by them as per the guidelines and regulations applicable to such transactions. Further, the scheme intends to participate in securities lending as permitted within the Regulations. It is the intention of the scheme to trade in the derivatives market as per the Regulations. The scheme also intends to invest in foreign equity and debt securities as well as ADRs/GDRs of Indian companies in accordance with the Regulations.

The above mentioned securities could be listed, unlisted, secured, unsecured, rated or unrated and may be acquired through initial public offerings, secondary market offerings, private placements, rights offers or negotiated deals.

Subject to the Regulations, the corpus of the Schemes/Plans can be invested in any (but not exclusively) of the following securities:

- 1) Indian Equity and equity related securities including convertible bonds and debentures and warrants carrying the right to obtain equity shares.

Debt Market in India

The Indian Debt market is facing major shift in the recent times. The substantial growth in Mutual Fund collections in the past few years have provided an easy route for the investors to channelise their savings into the debt market, which otherwise is largely dominated by Banks and other Institutional investors.

At present, the Indian debt market is dominated by issues of Central Government bonds, Corporate Debentures and PSU Bonds. The new Securitised instruments are also very attractive in the primary market. Risk associated with securitized Debt or PTCs are credit risk, liquidity risk and price risk/interest rate risk. The other instruments available for investment are Commercial Papers, Certificate of Deposits, Government guaranteed bonds, etc.

Brief details about the instruments are given below as on Sep 30, 2025

Instruments	Listed/ Unlisted	Current Yield Range As on Apr 30, 2025	Liquidity	Risk profile

THE PRICE AND YIELD ON VARIOUS DEBT INSTRUMENTS FLUCTUATE FROM TIME TO TIME DEPENDING UPON THE MACRO ECONOMIC SITUATION, INFLATION RATE, OVERALL LIQUIDITY POSITION, FOREIGN EXCHANGE SCENARIO, ETC. ALSO, THE PRICE AND YIELD VARIES ACCORDING TO MATURITY PROFILE, CREDIT RISK ETC.

C. WHAT ARE THE INVESTMENT STRATEGIES?

1. Wealth Creation Scheme

Nippon India Retirement Fund - Wealth Creation Scheme is an actively managed Fund, under normal market conditions, will invest its net assets primarily in Equity and equity related instruments and balance in fixed income securities, money market instruments and cash equivalents.

For investments in equity and equity related securities, the Wealth Creation Scheme would identify companies for investment, based on the following criteria amongst others:

- Sound Management
- Good track record of the company
- Potential for future growth
- Industry economic scenario

Besides, it is expected that a portion of the funds will also be invested in initial offerings and other primary market offerings. Risk will be managed through adequate diversification by spreading investments over a wide range of companies across sectors and market capitalization.

For investments in Debt Securities, income may be generated through the receipt of coupon payments, the amortization of the discounts on debt instruments or the purchase and sale of securities in the underlying portfolio.

The Fund Manager may adopt a different strategy considering the market scenario, opportunities available in different sectors and market capitalization.

2. Income Generation Scheme

Nippon India Retirement Fund - **Income Generation Scheme** is an actively managed Fund. The fund management team will endeavor to maintain a consistent performance in Income Generation Scheme by maintaining a balance between safety, liquidity and profitability aspects of various investments. The fund manager will try to achieve an optimal risk return balance for management of the fixed income portfolios.

The investments in debt instruments carry various risks like interest rate risk, liquidity risk, default risk, purchasing power risk etc. While they cannot be done away with, they can be minimized by diversification and effective use of hedging techniques. The fund management team will take an active view of the interest rate movement by keeping a close watch on various parameters of the Indian economy, as well as developments in global markets. Investment views / decisions will be taken on the basis of the following parameters:

- Prevailing interest rate scenario
- Quality of the security / instrument
- Maturity profile of the instrument

4. Liquidity of the security

5. Any other factors in the opinion of the fund management team

The Fund Manager may adopt a different strategy considering the market scenario, opportunities available in different sectors and market capitalization.

Though every endeavor will be made to achieve the objectives of the Scheme, the AMC/Sponsors/Trustees do not guarantee that the investment objectives of the Scheme will be achieved. No guaranteed returns are being offered under the Scheme. However there is no assurance that all such buying and selling activities would necessarily result in benefit for the Fund. The allocation between debt and equity will be decided based upon the prevailing market conditions, macroeconomic environment, and the growth potential and other economic factors of the countries, the equity market and other considerations. At time such churning could lead to higher brokerage and transaction costs.

RISK CONTROL

Since investing requires disciplined risk management, the AMC would incorporate adequate safeguards for controlling risks in the portfolio construction process. The risk control process involves reducing risks through portfolio diversification, taking care however not to dilute returns in the process. The AMC believes that this diversification would help achieve the desired level of consistency in returns.

The AMC aims to identify securities, which offer superior levels of yield at lower levels of risks. With the aim of controlling risks, rigorous in depth credit evaluation of the securities proposed to be invested in will be carried out by the investment team of the AMC.

The Scheme may also use various derivatives and hedging products from time to time, as would be available and permitted by RBI, in an attempt to protect the value of the portfolio and enhance Unitholders' interest.

Exposure to foreign equity securities: The scheme, subject to SEBI guidelines issued from time to time, may have an exposure upto 20% of its Net Assets in foreign equity securities. However, the exposure in such foreign equity securities would not exceed the maximum amount permitted from time to time.

Such investments shall be disclosed while disclosing half-yearly portfolios in the prescribed format by making a separate heading "Foreign Securities/Overseas ETFs." Scheme-wise percentage of investments made in such securities shall be disclosed while publishing half-yearly results in the prescribed format, as footnote.

Boards of asset management companies (AMCs) and trustees shall exercise due diligence in making investment decisions as required under Regulation 25 (2). They shall make a detailed analysis of risks and returns of investment in foreign equity securities, comparing them with likely yields of the securities available in domestic markets and how these investments would be in the interest of investors. Investment must be made in liquid actively traded securities. Boards of AMCs and trustees may prescribe detailed parameters for making such investments, which may include identification of countries, country rating, country limits, etc. They shall satisfy themselves that the AMC has experienced key personnel, research facilities and infrastructure for making such investments. Other specialized agencies and service providers associated with such investments e.g. custodian, bank, advisors, etc should also have adequate expertise and infrastructure facilities. Their past track record of performance and regulatory compliance record, if they are registered with foreign regulators, may also be considered. Necessary agreements may be entered into with them as considered necessary.

Investment in overseas financial assets: SEBI vide. its Clause 12.19 of SEBI Master Circular dated June 27, 2024 has issued guidelines pertaining to investments in overseas financial assets. Accordingly all the investments in ADR/GDR and foreign securities shall be made in compliance with the above referred circular. It is the investment manager's belief that overseas securities offer new investment and portfolio diversification opportunities into multi-market and multi-currency products. However, such investments also entail additional risks. Offshore investment will be made subject to any/ all approvals / conditions thereof as may be stipulated by SEBI/ RBI/ other regulatory authorities. The Fund shall appoint a dedicated fund manager for the purpose of investment in overseas financial assets as prescribed in the aforesaid SEBI circular. The fund may, where necessary, appoint other intermediaries of repute as advisors, sub-custodians, etc. for managing and administering such investments. The fees related to these services would be borne by the AMC and would not be charged to the Scheme. The appointment of such intermediaries shall be in accordance with the applicable requirements of SEBI and within the permissible ceilings of expenses. The fees and expenses would include, besides the investments management fees, custody fees and costs, fees of appointed advisors and sub managers, transaction costs and overseas regulatory costs. Investment in foreign securities offers more opportunities and diversification for investments. Investors may note that the scheme shall not invest in foreign debt securities.

Advantages and Risks attached with investments in Overseas Financial Assets:

It is AMC's belief that the investment in ADRs/GDRs/overseas securities offer new investment and portfolio diversification opportunities into multimarket and multi-currency products. However, such investments also entail additional risks. Such investment opportunities may be pursued by the AMC provided they are considered appropriate in terms of the overall investment objectives of the schemes. Since the Scheme would invest only partially in ADRs/ GDRs/overseas securities, there may not be readily available and widely accepted benchmarks to measure performance of the Scheme. We have seen that different economies perform differently at various points in time. Therefore in order to maximize the gains to the investors by allocating resources to economies which are doing better than ours and also to diversify the risk arising out of concentrated investments in just one country, we may propose to invest in foreign securities in compliance to the regulations from time to time.

1. To manage risks associated with foreign currency and interest rate exposure, the Fund may use derivatives for efficient portfolio management including hedging and in accordance with conditions as may be stipulated by SEBI/RBI from time to time.
2. To the extent that the assets of the Schemes will be invested in securities denominated in foreign currencies, the Indian Rupee equivalent of the net assets, distributions and income may be adversely affected by the changes in the value of certain foreign currencies relative to the Indian Rupee. The repatriation of capital also may be hampered by changes in regulations concerning exchange controls or political circumstances as well as the application to it of the other restrictions on investment.
3. Offshore investments will be made subject to any/all approvals, conditions thereof as may be stipulated by SEBI/RBI and provided such investments do not result in expenses to the Fund in excess of the ceiling on expenses prescribed by and consistent with costs and expenses attendant to international investing. The Fund may, wherever necessary, appoint other intermediaries of repute as advisors, custodian/subcustodians etc. for managing and administering such investments.
4. The appointment of such intermediaries shall be in accordance with the applicable requirements of SEBI. The fees and expenses would illustratively include, besides the investment management fees, custody fees and costs, fees of appointed advisors and sub-managers, transaction costs, and overseas regulatory costs. The fees related to these services would be borne by the AMC and would not be charged to the Scheme

i. Disclosure of Trading in Derivatives

For details of Derivatives Strategies, please refer to SAI

Portfolio Turnover Policy (For both the Schemes)

Given the nature of the scheme, the portfolio turnover ratio may be very high and AMC may change the portfolio according to Asset Allocation, commensurate with the investment objectives of the scheme. The effect of higher portfolio turnover could be higher brokerage and transaction costs.

D. HOW WILL THE SCHEME BENCHMARK ITS PERFORMANCE?

a. Wealth Creation Scheme : AMFI Tier I Benchmark - BSE 500 Index

Considering the predominant investment in equity /equity related securities with the objective of achieving long term growth of capital and the wider mandate in terms of market capitalization of the Fund, we propose to have aforesaid Index as the benchmark for the Fund.

b. Income Generation Scheme : AMFI Tier I Benchmark -CRISIL Hybrid 85+15 - Conservative Index

An index of this kind, generally serves as an indicator for all the market participants in the category, to benchmark their performance against the index. The portfolios are similar not only in term of the construct but also in terms of risk return parameters in question. Using this benchmark shall provide the investor with an independent and representative comparison with the fund Portfolio.

vi. Importance OF SAVING FOR RETIREMENT:

- Retirement is one of the most important life-stage goals.
- Post retirement, the source of income stops, yet the requirement to lead the same lifestyle (or better) remains critical.
- India does not have a formal Social Security System.
- Break-up of joint family system means that the individual has no option but to be self-dependent.
- Despite being a critical requirement, most Indians don't save enough for retirement. 78 per cent Indians don't save enough for comfortable retirement, according to a Report by Towers Watson.
- Risk of inflation underestimated.

Table 1: How much do you need to spend in the future to maintain the same lifestyle?

Value of Rs. 1 Lakh over a period of time due to inflation

Inflation Rate	5 years	10 years	15 years	20 years	25 years	30 years
6.0%	133,823	179,085	239,656	320,714	429,187	574,349
7.0%	140,255	196,715	275,903	386,968	542,743	761,226
8.0%	146,933	215,892	317,217	466,096	684,848	1,006,266
9.0%	153,862	236,736	364,248	560,441	862,308	1,326,768

The above calculation is for illustration purpose only. It has no direct or indirect reference to the performance of the schemes. Investors are advised to refer to financial advisor / tax advisor independently before investment.

The current expense will go up by approximately 7 times over the next 30 years!

- It is important to save prudently in order to accumulate a retirement corpus that would take care of the retirement requirements. It is pertinent to earn competitive returns on the investment, than merely earn 'guaranteed' lower returns to optimally meet the retirement goals.

Table 2: How much do you need to invest per year to have a retirement corpus of Rs. 1 Cr

Assumed Rate of Return	No. of Years for Retirement					
	5	10	15	20	25	30
7.0%	1,738,907	723,775	397,946	243,929	158,105	105,864
9.0%	1,670,925	658,201	340,589	195,465	118,063	73,364
12.0%	1,574,097	569,842	268,242	138,788	75,000	41,437
15.0%	1,483,156	492,521	210,171	97,615	46,994	23,002

The above calculation is for illustration purpose only. It has no direct or indirect reference to the performance of the schemes. Investors are advised to refer to financial advisor / tax advisor independently before investment.

Notice what a small difference makes to your investment requirements. Instead of investments growing at 7%, if it could grow at 15%, the investment amount may be lesser by almost Rs. 75,000 per year, and yet achieve the retirement corpus.

Note – Though the above table illustrates the Annual Amount required to accumulate retirement corpus at various rates of assumed returns.

Three Steps for a Happy Retirement – Save, Accumulate and Enjoy

Step 1: Save Prudently

- Save to beat inflation. Table 1 illustrated the effect of inflation on your requirements over a period of time.
- It is important to save prudently.
- Nippon India Retirement Fund offers the flexibility to choose asset class, depending on your actual requirement.

Step 2: Accumulate Retirement Corpus

- It is pertinent to accumulate a healthy retirement corpus that will help meet retirement goals effectively.
- Table 2 illustrated the power of compounding and what a big difference that rate of return could make to your portfolio.

Step 3: Enjoy your Retirement

- Investors could opt for SWP in Nippon India Retirement Fund to withdraw a pension based amount basis their requirement. To explain in detail SWP amount for various scenarios is mentioned in Table 3.

Importance of earning potentially higher Returns

Table 3: Annuity Table (Post Retirement)

The Table shows the annuity receivable per year for an investment of Rs. 1 Cr

Assumed Rate of Return	No. of Years				
	10	15	20	25	30
7%	1,423,775	1,097,946	943,929	858,105	805,864
8%	1,490,295	1,168,295	1,018,522	936,788	888,274
9%	1,558,201	1,240,589	1,095,465	1,018,063	973,364
10%	1,627,454	1,314,738	1,174,596	1,101,681	1,060,792
12%	1,769,842	1,468,242	1,338,788	1,275,000	1,241,437

The above calculation is for illustration purpose only. It has no direct or indirect reference to the performance of the schemes. Investors are advised to refer to financial advisor / tax advisor independently before investment.

Note: You could earn Rs. 2.5 Lakhs more per annum (30% higher returns) as annuity per annum if the rate of return of the underlying fund is 12%, instead of 7%

Part III - OTHER DETAILS

A. COMPUTATION OF NAV

The Net Asset Value (NAV) of the Units will be determined daily or as prescribed by the Regulations. The NAV shall be calculated in accordance with the following formula, or such other formula as may be prescribed by SEBI from time to time.

NAV =	Market/Fair Value of Scheme's Investments + Receivables + Accrued Income + Other Assets - Accrued Expenses- Payables- Other Liabilities
	Number of Units Outstanding

Rounding off policy for NAV

Net Asset Value of the Units in the Scheme is calculated in the manner provided in this Scheme Information Document or as may be prescribed by Regulations from time to time. The NAV will be computed upto four decimal places.

Policy on computation of NAV in case of investment in foreign securities

The exchange gain / loss resulting from the foreign securities exchange rates conversion shall be recognized as unrealized exchange gain / loss in the books of the Scheme on the day of valuation. Further, the exchange gain / loss resulting from the settlement of assets / liabilities denominated in foreign currency shall be recognized as realized exchange gain /loss in the books of the scheme on the settlement of such assets / liabilities for NAV computation.

Example: If the applicable NAV is Rs. 10.00, sales/entry load is 2 per cent and the exit/repurchase load is 2 percent then the sales price will be Rs. 10.20 and the repurchase price will be Rs. 9.80.

Illustration for computation of NAV:

Particulars	Amount (In INR)
Assets	
Market/Fair Value of Scheme's Investments	1,00,000
Current Assets	
Receivables	1,500
Accrued Income	500
Other Assets	1,000
Total Assets (A)	1,03,000
Current Liabilities	
Accrued Expenses	1,100
Payables	300
Other Liabilities	100
Total Liabilities (B)	1,500
Net Assets (C) (A – B)	1,01,500
Units Outstanding (D)	10,000
NAV per unit (C/D)	10.1500

The mutual fund shall ensure that the repurchase price of the scheme is not lower than 97% of the Net Asset Value.

Methodology for calculation of sale and re-purchase price of the units of mutual fund scheme:

Let's assume that the NAV of a Mutual Fund Scheme on April 01, 2018 is Rs. 10/-.

Purchase of mutual fund units:

The Purchase Price of the Units on an ongoing basis will be same as Applicable NAV.

Purchase Price = Applicable NAV

In the above example, purchase is done on April 01, 2018, when the Applicable NAV = Rs. 10/-. Therefore, Purchase Price = Rs. 10/-

As per existing Regulations, no entry load is charged with respect to applications for purchase / additional purchase of mutual funds units.

Redemption/Re-purchase of mutual fund units:

The Redemption Price of the Units will be calculated on the basis of the applicable NAV subject to prevailing Exit Load, if any. In case of redemption, the amount payable to the investor shall be calculated as follows:

Redemption Price = Applicable NAV * (1 - Exit Load)

Say, in the above example the exit load applicable is

For exit on or before 12 months from the date of allotment – 1.00%

For exit after 12 months from the date of allotment – Nil.

Scenario 1: Redemption is done during applicability of exit load

In case the investor requests for redemption on or before 12 months i.e. on or before March 31, 2019; say December 1, 2018, when the NAV of the scheme is Rs. 12/- and the exit load applicable is 1%, so the Redemption amount payable to investor shall be calculated as follows:

$$\begin{aligned}\text{Redemption Price} &= \text{Applicable NAV} * (1 - \text{Exit Load}) \\ &= \text{Rs. } 12 * (1 - 1\%) = \text{Rs. } 11.88/\end{aligned}$$

Scenario 2: Redemption is done when the exit load is NIL

In case the investor requests for redemption after 12 months i.e. after March 31, 2019; say April 1, 2019, when the NAV of the scheme is Rs. 12/- and the exit load applicable is NIL, so the Redemption amount payable to investor shall be calculated as follows:

$$\begin{aligned}\text{Redemption Price} &= \text{Applicable NAV} * (1 - \text{Exit Load}) \\ &= \text{Rs. } 12 * (1 - 0) = \text{Rs. } 12/-\end{aligned}$$

The aforesaid example does not take into consideration any applicable statutory levies or taxes. Accordingly, the redemption amount payable to investor shall further reduce to the extent of applicable statutory levies or taxes.

For other details such as policies w.r.t computation of NAV, rounding off, investment in foreign securities, procedure in case of delay in disclosure of NAV etc. refer to SAI

B. NEW FUND OFFER (NFO) EXPENSES

These expenses are incurred for the purpose of various activities related to the NFO like sales and distribution fees paid marketing and advertising, registrar expenses, printing and stationary, bank charges etc.

The NFO expenses shall be borne by the AMC.

C. ANNUAL SCHEME RECURRING EXPENSES

These are the fees and expenses for operating the scheme. As specified under Section II - C of this document, Nippon India Retirement Fund - Wealth Creation scheme will invest a minimum of sixty-five per cent of its net assets in equity and equity related instruments, thus the scheme will be considered as equity oriented scheme for the purpose of limits of total expense ratio as defined under regulation 52 of the SEBI Regulations.

These expenses include Investment Management and Advisory Fee charged by the AMC and other expenses as given in the table below:

The AMC has estimated that following % of the daily net assets of the scheme will be charged to the scheme as expenses. The AMC would update the current expense ratios on the website of the mutual fund at least three working days prior to the effective date of the change.

Further Actual Expense ratio will be disclosed at the following link

<https://mf.nipponindiaim.com/investor-services/downloads/total-expense-ratio-of-mutual-fund-schemes>

Estimated Expense Structure

Particulars	Wealth Creation Scheme	Income Generation scheme
	% of Net Assets	% of Net Assets
Investment Management & Advisory Fee	Upto 2.25%	Upto 2.00%
Audit fees/fees and expenses of trustees		
Custodial Fees		
Registrar & Transfer Agent Fees including cost of providing account statements / IDCW / redemption cheques/ warrants		
Marketing & Selling Expenses including Agents Commission and statutory Advertisement		
Costs related to investor communications		
Costs of fund transfer from location to location		
Cost towards investor education & awareness		
Brokerage & transaction cost pertaining to distribution of units		
Goods & Service Tax on expenses other than investment and advisory fees		
Brokerage and transaction cost (Including GST) over and above 12 bps and 5 bps for cash and derivative market trades respectively		
Other Expenses #		
Maximum total expense ratio (TER) permissible under Regulation 52 (6) (c)	Upto 2.25%	Upto 2.00%

(# Expenses charged under the said parameters shall be in line with the Regulation 52 of SEBI (MF) Regulations or such other basis as specified by SEBI from time to time.)

Pursuant to Securities and Exchange Board of India (Mutual Funds) (Fourth Amendment) Regulations, 2018, the total expense ratio charged to the scheme shall be revised with effect from April 1, 2019.

Illustration – Impact of Expense Ratio on the Returns		
Particulars	Regular Plan/Other than Direct Plan	Direct Plan
Amount Invested at the beginning of the year	10,000	10,000
Returns before Expenses	1,500	1,500
Expenses other than Distribution Expenses	150	150
Distribution Expenses	50	-
Returns after Expenses at the end of the Year	1,300	1350
Returns	13.00%	13.50%

Note: Please note that the above is an approximate illustration of the impact of expense ratio on the returns, where the Gross NAV has been simply reduced to the extent of the expenses. In reality, the actual impact would vary depending on the path of returns over the period of consideration. Expenses will be charged on daily net assets.

These estimates have been made in good faith as per the information available to the Investment Manager based on past experience and are subject to change inter-se as per actual but the total expenses shall not exceed the limits permitted by SEBI. Types of expenses charged shall be as per the SEBI (MF) Regulations. The purpose of the above table is to assist the investor in understanding the various costs and expenses that an investor in the scheme will bear directly or indirectly.

Mutual funds /AMCs may charge Goods & Service Tax on investment and advisory fees to the scheme in addition to the maximum limit as prescribed in regulation 52 of the SEBI Regulations.

Goods & Service Tax on other than investment and advisory fees, if any, shall be borne by the scheme within the maximum limit as per regulation 52 of the SEBI Regulations.

Mutual Funds/AMCs will annually set apart at least 2 basis points on daily net assets within the maximum limit as per regulation 52 of the SEBI Regulations for investor education and awareness initiatives.

Direct Plan shall have a lower expense ratio excluding distribution expenses, commission, and no commission shall be paid from such plan.

However, no Investment Management fees would be charged on NAM India's investment in the Scheme. The Trustee Company, shall be entitled to receive a sum computed @ 0.05% of the Unit Capital of all the Schemes of NIMF on 1st April each year or a sum of Rs.5,00,000/- which ever is lower or such other sum as may be agreed from time to time in accordance with the SEBI Regulations or any other authority, from time to time.

Provided that in respect of a scheme investing in bonds such recurring expenses shall be lesser by at least 0.25% of the daily net assets outstanding in each financial year

Nippon India Retirement Fund – Wealth Creation Scheme

Pursuant to the SEBI (Mutual Funds) Regulations, 1996, as amended till date the total expense ratio of the open ended equity oriented scheme including the investment management and advisory fee shall not exceed the limits stated in Regulation 52(6) (c) which are as follows:

- (i) On the first Rs. 500 crores of the daily net assets - 2.25%;
- (ii) On the next Rs. 250 crores of the daily net assets - 2.00%;
- (iii) On the next Rs. 1,250 crores of the daily net assets - 1.75%;
- (iv) On the next Rs. 3,000 crores of the daily net assets - 1.60%;
- (v) On the next Rs. 5,000 crores of the daily net assets - 1.50%;
- (vi) On the next Rs. 40,000 crores of the daily net assets - Total expense ratio reduction of 0.05% for every increase of Rs. 5,000 crores of daily net assets or part thereof;
- (vii) On the balance of the assets - 1.05%;

Nippon India Retirement Fund – Income Generation Scheme

Pursuant to the SEBI (Mutual Funds) Regulations, 1996 as amended till date, the total expense ratio of the that in respect of a scheme investing in bonds such recurring expenses shall not exceed the limits stated in Regulation 52(6) (c) which are as follows:

- (i) On the first Rs. 500 crores of the daily net assets - 2.00%;
- (ii) On the next Rs. 250 crores of the daily net assets – 1.75%;
- (iii) On the next Rs. 1,250 crores of the daily net assets - 1.50%;
- (iv) On the next Rs. 3,000 crores of the daily net assets - 1.35%;
- (v) On the next Rs. 5,000 crores of the daily net assets - 1.25%;
- (vi) On the next Rs. 40,000 crores of the daily net assets - Total expense ratio reduction of 0.05% for every increase of Rs. 5,000 crores of daily net assets or part thereof;
- (vii) On the balance of the assets – 0.80%;

The above expenses are fungible within the overall maximum limit prescribed under SEBI (Mutual Funds) Regulations, 1996, which means there will be no internal sub-limits on expenses and AMC is free to allocate them within the overall TER.

In terms of Regulation 52(1) of SEBI (Mutual Funds) Regulations, 1996, all scheme related expenses including commission paid to distributors, by whatever name it may be called and in whatever manner it may be paid, will necessarily be paid from the scheme only within the regulatory limits and not from the books of AMC, its associate, sponsor, trustee or any other entity through any route. Provided that the expenses that are very small in value but high in volume may be paid out of AMC's books. Such expenses shall be paid out of AMC books

at actuals or not exceeding 2 bps of respective scheme AUM, whichever is lower. List of such miscellaneous expenses may be provided by AMFI in consultation with SEBI or as specified/amended by AMFI/SEBI from time to time.

In addition to the limits specified in regulation 52(6), the following costs or expenses may be charged to the scheme as per new sub regulation 6A, namely-

- (a) Brokerage and Transaction costs (including GST) incurred for the execution of trades may be expensed out in the scheme to the extent of 0.12 per cent of the value of trades in case of cash market transactions and 0.05 per cent of the value of trades in case of derivatives transactions. Any payment towards brokerage and transaction costs incurred for the execution of trades, over and above the said 0.12 per cent and 0.05 per cent for cash market transactions and derivatives transactions respectively may be charged to the scheme within the maximum limit of Total Expense Ratio (TER) as prescribed under Regulation 52 of the SEBI (Mutual Funds) Regulations, 1996. Any expenditure in excess of the said prescribed limit (including brokerage and transaction costs, if any) shall be borne by the AMC or by the Trustee or Sponsors.;

The Fund will strive to reduce the level of these expenses so as to keep them well within the maximum limits allowed by SEBI. Expenses on an ongoing basis will not exceed the following percentage of the daily net assets or such maximum limits as may be specified by SEBI Regulations from time to time.

D. LOAD STRUCTURE

Load is an amount which is paid by the investor to subscribe to the units or to redeem the units from the scheme. This amount is used by the AMC to pay commissions to the distributor and to take care of other marketing and selling expenses. For the current applicable structure, please refer to the website of the AMC (<https://mf.nipponindiaim.com>) or may call at Customer Service Centre at 1860-266-0111 (charges applicable), and Investors outside India can call at 91-22-69259696 (charges applicable)

Load amounts are variable and are subject to change from time to time. NAM India, in consultation with the Trustees, reserves the right to change the load structure if it so deems fit in the interest of smooth and efficient functioning of the scheme.

Any imposition or enhancement in the load shall be applicable on prospective investments only. However, NAM India shall not charge any load on issue of bonus units and for existing as well as prospective investors. At the time of changing the load structure:

1. The addendum detailing the changes may be attached to Scheme Information Documents (SID) and Key Information Memorandum (KIM). The addendum may be circulated to all the distributors/brokers so that the same can be attached to all SIDs and KIM already in stock.
2. Arrangements may be made to display the addendum in the Scheme Information Document in the form of a notice in all the investor service centres and distributors/brokers office.
3. The introduction of the exit load alongwith the details may be stamped in the acknowledgement slip issued to the investors on submission of the application form and may also be disclosed in the statement of accounts issued after the introduction of such load.
4. A public notice shall be given in respect of such changes in one English daily newspaper having nationwide circulation as well as in a newspaper published in the language of region where the Head Office of the Mutual Fund is situated.
5. Any other measures which the mutual funds may feel necessary.
6. The addendum shall also be displayed it on the website and on i.e. <https://mf.nipponindiaim.com> and Investor Service Centres.

Applicable Load Structure:

Type of Load	Load chargeable (as %age of NAV)
Exit	Nil

In accordance with the requirements specified by the Clause no. 10.4 of the SEBI Master Circular dated June 27, 2024 no entry load will be charged for purchase / additional purchase / switch-in accepted by the Fund. Similarly, no entry load will be charged with respect to applications for registrations under systematic investment plans/ systematic transfer plans (including Salary AddVantage and Transfer of Income Distribution cum capital withdrawal plan) accepted by the Fund.

With reference to Clause 10.4.2.d of SEBI Master Circular dated June 27, 2024, there shall be no entry load for investments under SIPs registered before August 01, 2009.

The investor is requested to check the prevailing load structure of the scheme before investing.

I. INTRODUCTION

A. Definitions/interpretation

For definition details please visit <https://mf.nipponindiaim.com/investor-service/downloads/scheme-information-document>

B. Risk Factors

SCHEME SPECIFIC RISK FACTORS

(i) Risks associated with investing in Equities

The Scheme being an equity scheme will be affected by the risks associated with the equity market.

Equity and Equity related instruments on account of its volatile nature are subject to price fluctuations on daily basis. The volatility in the value of the equity and equity related instruments is due to various micro and macro economic factors affecting the securities markets. This may have adverse impact on individual securities /sector and consequently on the NAV of Scheme.

The inability of the Scheme to make intended securities purchases due to settlement problems could cause the Scheme to miss certain investment opportunities as in certain cases, settlement periods may be extended significantly by unforeseen circumstances. Similarly, the inability to sell securities held in the schemes portfolio may result, at times, in potential losses to the scheme, should there be a subsequent decline in the value of the securities held in the schemes portfolio.

Trading volumes, settlement periods and transfer procedures may restrict the liquidity of the investments. This may impact the ability of the unit holders to redeem their units. In view of this, the Trustee has the right, in its sole discretion to limit redemptions (including suspending redemptions) under certain circumstances.

The Scheme may find itself invested in unlisted securities due to external events or corporate actions. This may increase the risk of the portfolio as these unlisted securities are inherently illiquid in nature and carry larger liquidity risk as compared to the listed securities or those that offer other exit options to the investors.

Investments in equity and equity related securities involve high degree of risks and investors should not invest in the Scheme unless they can afford to take the risk of losing their investment.

(ii) Risks associated with investing in Bonds

Investment in Debt is subject to price, credit, and interest rate risk. The NAV of the Scheme may be affected, inter alia, by changes in the market conditions, interest rates, trading volumes, settlement periods and transfer procedures.

Corporate debt securities are subject to the risk of an issuer's inability to meet interest and principal payments on its debt obligations (credit risk). Debt securities may also be subject to price volatility due to factors such as changes in interest rates, general level of market liquidity and market perception of the creditworthiness of the issuer, among others (market risk). The Investment Manager will endeavor to manage credit risk through in-house credit analysis. The Scheme may also use various hedging products from time to time, as are available and permitted by SEBI, to attempt to reduce the impact of undue market volatility on the Scheme's portfolio.

The NAV of the Scheme's Units, to the extent that the Scheme is invested in fixed income securities, will be affected by changes in the general level of interest rates. When interest rates decline, the value of a portfolio of fixed income securities can be expected to rise. Conversely, when interest rates rise, the value of a portfolio of fixed income securities can be expected to decline.

Investing in Bonds and Fixed Income securities are subject to the risk of an Issuer's inability to meet principal and interest payments obligation (credit risk) and may also be subject to price volatility due to such factors as interest rate sensitivity, market perception of the creditworthiness of the issuer and general market liquidity (market risk).

The timing of transactions in debt obligations, which will often depend on the timing of the Purchases and Redemptions in the Scheme, may result in capital appreciation or depreciation because the value of debt obligations generally varies inversely with the prevailing interest rates.

a) Interest Rate Risk

As with all debt securities, changes in interest rates will affect the Scheme's Net Asset Value as the prices of securities generally increase as interest rates decline and generally decrease as interest rates rise. Prices of longer-term securities generally fluctuate more in response to interest rate changes than do shorter-term securities. Interest rate movements in the Indian debt markets can be volatile leading to the possibility of large price movements up or down in debt and money market securities and thereby to possibly large movements in the NAV.

b) Liquidity or Marketability Risk

This refers to the ease at which a security can be sold at or near its true value. The primary measure of liquidity risk is the spread between the bid price and the offer price quoted by a dealer. Liquidity risk is characteristic of the Indian fixed income market.

c) Credit Risk

Credit risk or default risk refers to the risk which may arise due to default on the part of the issuer of the fixed income security (i.e. will be unable to make timely principal and interest payments on the security). Because of this risk debentures are sold at a yield spread above those offered on Treasury securities, which are sovereign obligations and generally considered to be free of credit risk. Normally, the value of a fixed income security will fluctuate depending upon the actual changes in the perceived level of credit risk as well as the actual event of default.

d) Reinvestment Risk

This risk refers to the interest rate levels at which cash flows received from the securities in the Scheme or from maturities in the Scheme are reinvested. The additional income from reinvestment is the "interest on interest" component. The risk refers to the fall in the rate for reinvestment of interim cashflows.

e) Risks associated with various types of securities

	CREDIT RISK	LIQUIDITY RISK	PRICE RISK
Listed	Depends on credit quality	Relatively Low	Depends on duration of instrument
Unlisted	Depends on credit quality	Relatively High	Depends on duration of instrument
Secured	Relatively low	Relatively Low	Depends on duration of instrument
Unsecured	Relatively high	Relatively High	Depends on duration of instrument
Rated	Relatively low and depends on the rating	Relatively Low	Depends on duration of instrument
Unrated	Relatively high	Relatively High	Depends on duration of instrument

Different types of securities in which the scheme would invest as given in the Scheme Information Document carry different levels and types of risk. Accordingly, the scheme's risk may increase or decrease depending upon its investment pattern e.g. corporate bonds, carry a higher level of risk than Government securities. Further even among corporate bonds, bonds which are AAA rated are comparatively less risky than bonds which are AA rated.

(iii) Risk associated with investing in Derivatives

a) Valuation Risk

The risk in valuing the Debt & Equity derivative products due to inadequate trading data with good volumes. Derivatives with longer duration would have higher risk viz a viz the shorter duration derivatives.

b) Mark to Market Risk

The day-to-day potential for an investor to experience losses from fluctuations in underlying stock prices and derivatives prices.

c) Systematic Risk

The risk inherent in the capital market due to macro economic factors like Inflation, GDP, Global events.

d) Liquidity Risk

The risk stemming from the lack of availability of derivatives products across different maturities and with different risk appetite.

e) Implied Volatility

The estimated volatility of an underlying security's price and derivatives price.

f) Interest Rate Risk

The risk stemming from the movement of Interest rates in adverse direction. As with all the debt securities, changes in the interest rates will affect the valuation of the portfolios.

g) Counterparty Risk (Default Risk)

Default risk is the risk that losses will be incurred due to the default by the counterparty for over the counter derivatives.

h) System Risk

The risk arising due to failure of operational processes followed by the exchanges and OTC participants for the derivatives trading.

(iv) Risks associated with investing in foreign Securities

The Fund may invest in overseas debt / equities / ADR's / GDR's with the approval of RBI/SEBI, subject to such guidelines as may be issued by RBI/SEBI. The net assets, distributions and income of the scheme may be affected adversely by fluctuations in the value of certain foreign currencies relative to the Indian Rupee to the extent of investments in these securities. Repatriation of such investment may also be affected by changes in the regulatory and political environments. The scheme's NAV may also be affected by a fluctuation in the general and specific level of interest rates internationally, or the change in the credit profiles of the issuers.

The Fund may, where necessary, appoint advisor(s) for providing advisory services for such Scheme's investments. The appointment of such advisor(s) shall be in accordance with the applicable requirements of SEBI. The fees and expenses would illustratively include, besides the investment management fees, custody fees and costs, transaction costs and overseas regulatory costs, the fees of appointed advisor(s). The fees related to these services would be borne by the AMC and would not be charged to the Scheme.

(v) Risk attached with the use of derivatives

a) As and when the Scheme trades in the derivatives market there are risk factors and issues concerning the use of derivatives that investors should understand. Derivative products are specialized instruments that require investment techniques and risk analysis different from those associated with stocks and bonds. The use of a derivative requires an understanding not only of the underlying instrument but of the derivative itself. Derivatives require the maintenance of adequate controls to monitor the transactions entered into, the ability to assess the risk that a derivative adds to the portfolio and the ability to forecast price or interest rate movements correctly. There is a possibility that a loss may be sustained by the portfolio as a result of the failure of another party (usually referred to as the "counterparty") to comply with the terms of the derivatives contract. Other risks in using derivatives include the risk of mispricing or improper valuation of derivatives and the inability of derivatives to correlate perfectly with underlying assets, rates and indices.

b) Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the fund manager to identify such opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and decision of fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies.

c) The risks associated with the use of derivatives are different from or possibly greater than, the risks associated with investing directly in securities and other traditional investments.

(vi) Risk associated with Securities Lending

The risks in lending portfolio securities, as with other extensions of credit, consist of the failure of another party, in this case the approved intermediary, to comply with the terms of agreement entered into between the lender of securities i.e. the Scheme and the approved intermediary. Such failure to comply can result in the possible loss of rights in the collateral put up by the borrower of the securities, the

inability of the Approved Intermediary to return the securities deposited by the lender and the possible loss of any corporate benefits accruing to the lender from the securities deposited with the approved intermediary.

(vii) Risk factors associated with repo transactions in corporate bonds

In repo transactions, also known as a repo or sale repurchase agreement, securities are sold with the seller agreeing to buy them back at later date. The repurchase price should be greater than the original sale price, the difference effectively representing interest. A repo is economically similar to a secured loan, with the buyer receiving corporate debt securities as collateral to protect against default. The Scheme may invest in repo of corporate debt securities which are subject to the following risks:

- a) **Counterparty Risk:** This refers to the inability of the seller to meet the obligation to buy back securities at the contracted price. The Investment Manager will endeavor to manage counterparty risk by dealing only with counterparties having strong credit profiles assessed through in-house credit analysis or with entities regulated by SEBI/RBI/IRDA.
- b) **Collateral Risk:** In the event of default by the repo counterparty, the schemes have recourse to the corporate debt securities. Collateral risk arises when the market value of the securities is inadequate to meet the repo obligations. This risk is mitigated by restricting participation in repo transactions only in AA and above rated money market and corporate debt securities. In addition, appropriate haircuts are applied on the market value of the underlying securities to adjust for the illiquidity and interest rate risk on the underlying instrument

(vii) Other Scheme Specific Risk factors

- a) The liquidity of the Scheme's investments may be inherently restricted by trading volumes, settlement periods and transfer procedures. In the event of an inordinately large number of redemption requests, or of a re-structuring of the Scheme's investment portfolio, these periods may become significant. Please read the Sections of this Scheme Information Document entitled "**Special Considerations**" and "**Right to Limit Redemptions**" there under.
- b) Although, the objective of the Fund is to generate optimal returns, the objective may or may not be achieved. The investors may note that if the AMC/Investment Manager is not able to make right decision regarding the timing of increasing exposure in debt securities in times of falling equity market, it may result in negative returns. Given the nature of scheme, the portfolio turnover ratio may be on the higher side commensurate with the investment decisions and Asset Allocation of the Scheme. At times, such churning of portfolio may lead to losses due to subsequent negative or unfavorable market movements.
- c) The tax benefits available under the scheme are as available under the present taxation laws and are available only to certain specified categories of investors and that is subject to fulfillment of the relevant conditions. The information given is included for general purposes only and is based on advise that the AMC has received regarding the law and the practice that is currently in force in India and the investors and the Unitholders should be aware that the relevant fiscal rules and their interpretation may change. As is the case with any investment, there can be no guarantee that the tax position or the proposed tax position prevailing at the time of investment in the Scheme will endure indefinitely. In view of the individual nature of tax consequences, each Investor/Unitholder is advised to consult his/her own professional tax advisor.
- d) **Risk factor associated with overseas investment:**
Subject to necessary approvals and within the investment objectives of the Scheme, the Scheme may invest in overseas markets which carry a risk on account of fluctuations in foreign exchange rates, nature of securities market of the country concerned, repatriation of capital due to exchange controls and political circumstances.
- e) To the extent that the assets of the schemes will be invested in securities denominated in foreign currencies, the Indian rupee equivalent of the net assets, distributions and income may be adversely affected by changes in the value of certain foreign currencies relative to the Indian rupee (if Indian rupee appreciates against these foreign currencies). The repatriation of capital to India may also be hampered by changes in regulations concerning exchange controls or political circumstances as well as the application to it of other restrictions on investment. The scheme may have to pay applicable taxes on gains from such investment.
- f) As regards foreign equity securities that are traded on exchanges that are not located in India basis of valuation will depend on the time zone of the respective country. For exchanges located in countries, with time zone earlier than India, the NAV will be calculated based on the closing price of the foreign equity security and the prevailing exchange rate on that date. For exchanges located in countries, with time zone later than India, the NAV will be calculated based on the closing price of the foreign equity security and the prevailing exchange rate of the previous date.
- g) Subject to the Regulations, the investments may be in securities which are listed or unlisted, secured or unsecured, rated or unrated, and acquired through secondary market purchases, RBI auctions, open market sales conducted by RBI etc., Initial Public Offers (IPOs), other public offers, placements, rights, offers, negotiated deals, etc
- h) To avoid duplication of portfolios and to reduce expenses, the Scheme may invest in any other schemes of the Fund to the extent permitted by the Regulations. In such an event, NAM India will not charge management fees on the amounts of the Schemes so invested, unless permitted by the Regulations.
- i) **Additional Risk Factors :** The risk associated with underlying stocks remain the same except for the additional risk of fluctuation in the exchange rate of the Indian Rupee vis-à-vis US Dollar – the currency in which GDRs / ADRs are denominated. To manage risks associated with the portfolio, foreign currency and interest rate exposure, the Fund may use / invest in derivatives for efficient portfolio management including hedging and in accordance with the conditions as may be stipulated by SEBI / RBI. The Fund also hereby avers that offshore investments shall be made subject to / all approvals, as well as the conditions thereof as may be stipulated by SEBI / RBI and provided such investments do not result in expenses to the fund in excess of the ceiling, if any, on the expenses prescribed by SEBI. The expenses to the fund shall be limited to the level which, in the opinion of the Fund, is reasonable and consistent with the costs and expenses attendant to international investing. The Fund may, where necessary, appoint other intermediaries of repute such as advisors, sub-managers, sub-custodian etc. for managing and administering such investments. The appointment of such intermediaries shall be in accordance with the applicable requirements of SEBI and within the permissible ceilings of expenses. The fees and expenses would illustratively include, besides the investment management fee, custody fees and costs, fees of appointed overseas advisors and sub-managers, transaction costs, and overseas regulatory costs.
- j) The NAV of the scheme to the extent invested in Debt and Money market securities are likely to be affected by changes in the prevailing rates of interest and are likely to affect the value of the Scheme's holdings and thus the value of the Scheme's Units.
- k) The AMC may, considering the overall level of risk of the portfolio, invest in lower rated/ unrated securities offering higher yields. This may increase the risk of the portfolio.
- l) Securities which are not quoted on the stock exchanges are inherently illiquid in nature and carry a larger amount of liquidity risk, in comparison to securities that are listed on the exchanges or offer other exit options to the investor, including a put option. The AMC may choose to invest in unlisted securities that offer attractive yields. This may increase the risk of the portfolio.

- m) While securities that are listed on the stock exchange carry lower liquidity risk, the ability to sell these investments is limited by the overall trading volume on the stock exchanges. Money market securities, while fairly liquid, lack a well-developed secondary market, which may restrict the selling ability of the Scheme and may lead to the Scheme incurring losses till the security is finally sold.
- n) Investment decisions made by the AMC may not always be profitable, even though it is intended to generate capital appreciation and maximize the returns by actively investing in equity and equity related securities.

C. Risk mitigation strategies

Type of Risks	Measures/ Strategies to control risks
Equity Markets/ Equity Oriented Instruments	- Investment strategy: The fund will comply with the prescribed SEBI limits on exposure. Risk is monitored and necessary action would be taken on the portfolio, if required. Attribution analysis is done to monitor the under or over performance vis a vis the benchmark and the reasons for the same. - Portfolio volatility & concentration: The overall volatility of the portfolio would be maintained in line with the objective of the scheme. Volatility would be monitored with respect to the benchmark and peer set. - Liquidity: The scheme predominantly invests across market capitalisations which are actively traded and thereby liquid. The fund manager may also keep some portion of the portfolio in debt and money market instruments and/or cash within the specified asset allocation framework for the purpose of meeting redemptions. The liquidity would be monitored and necessary action would be taken on the portfolio if required. Stock turnover is monitored at regular intervals. The debt/money market instruments that are invested by the fund will have a short term duration.
Debt and Money Market instruments	- Credit Risk: Management analysis will be used for identifying company specific risks. Management's past track record will also be studied. In order to assess financial risk a detailed assessment of the issuer's financial statements will be undertaken. - Price-Risk or Interest-Rate Risk: The Scheme may primarily invest the debt portion of the portfolio in short term debt & money market instruments, units of Liquid and Overnight schemes thereby mitigating the price volatility due to interest rate changes generally associated with long-term securities. - Risk of Rating Migration: The Scheme may primarily invest the debt portion of the portfolio in short-term debt & money market instruments, units of Liquid and Overnight schemes thereby mitigating the risk of rating migration generally associated with long-term securities. - Basis Risk: The debt allocation of scheme is primarily as a cash management strategy and such strategy returns are expected to reflect the very short term interest rate hence investment is done in short term debt and money market instruments. - Spread Risk: The Scheme may primarily invest the debt portion of the portfolio in short-term debt & money market instruments, units of Liquid and Overnight schemes thereby mitigating the risk of spread expansion which is generally associated with long-term securities - Reinvestment Risk: The debt allocation of scheme is primarily as a cash management strategy and such strategy returns are expected to reflect the very short term interest rate hence investment is done in short term debt and money market instruments. Reinvestment risks will be limited to the extent of debt instruments, which will be a very small portion of the overall portfolio value. - Liquidity Risk: The Scheme may, however, endeavor to minimize liquidity risk by primarily investing the debt portion of the portfolio in relatively liquid short-term debt & money market instruments, units of Liquid and Overnight schemes.
Derivatives	The Scheme may invest in derivative for the purpose of hedging, portfolio balancing and other purposes as may be permitted under the Regulations. Equity Derivatives will be used in the form of Index Options, Index Futures, Stock Options and Stock Futures and other instruments as may be permitted by SEBI. Derivatives can be either exchange traded or can be over the counter (OTC). Exchange traded derivatives are listed and traded on stock exchanges whereas OTC derivative transactions are generally structured between two counterparties. Exposure with respect to derivatives shall be in line with regulatory limits and the limits specified in the SID.
Securities Lending	The SLB shall be operated through Clearing Corporation/Clearing House of stock exchanges having nation-wide terminals who are registered as Approved Intermediaries (AIs)." The risk is adequately covered as Securities Lending & Borrowing (SLB) is an Exchange traded product. Exchange offers an anonymous trading platform and gives the players the advantage of settlement guarantee without the worries of counter party default. However, the Fund may not be able to sell such lent securities during contract period or have to recall the securities which may be at higher than the premium at which the security is lent.

Currency	The scheme subject to applicable regulations shall have the option to enter into forward contracts for the purpose of hedging against the foreign exchange fluctuations. The Schemes may employ various measures (as permitted by SEBI/RBI) including but not restricted to currency hedging (such as currency options and forward currency exchange contracts, currency futures, written call options and purchased put options on currencies and currency swaps), to manage foreign exchange movements arising out of investment in foreign securities. All currency derivatives trade, if any will be done only through the stock exchange platform.
Repo Transactions	This risk is largely mitigated, as the choice of counterparties is largely restricted and their credit rating is taken into account before entering into such transactions. Also, operational risks are lower as such trades are settled on a DVP basis. In the event the counterparty is unable to pay back the money to the scheme as contracted on maturity, the scheme may dispose of the assets (as they have sufficient margin) and the net proceeds may be refunded to the counterparty.
Securitized Debt	In addition to careful scrutiny of credit profile of borrower/pool additional security in the form of adequate cash collaterals and other securities may be obtained.
REITs and InvITS	The fund will comply with the prescribed SEBI limits on exposure. The scheme will endeavour to invest in liquid REITs & InvITS.
Structured Obligation (SO) & Credit Enhancement (CE) rated securities	Scheme wise investments as prescribed by the regulations limits the exposure to such securities. Additionally, covenants of such structured papers are reviewed periodically for adequate maintenance of covers as prescribed in the Information Memorandum of such papers.
Government securities and Triparty repo on Government securities or treasury bills:	As a member of securities segment and Triparty repo segment, maintenance of sufficient margin is a mandatory requirement. CCIL monitors these on a real time basis and requests the participants to provide sufficient margin to enable the trades etc. Also, there are stringent conditions / requirements before registering any participants by CCIL in these segments. Since settlement is guaranteed the loss on this account could be minimal though there could be an opportunity loss.
Units of mutual fund schemes	Mutual Fund portfolios are generally well diversified and typically endeavor to provide liquidity on a T+1/T+2 basis and aim to mitigate any risks arising out of underlying investments. Commodity ETF's are quite liquid as they can either be created / redeemed with the fund house or traded on the exchange

While these measures are expected to mitigate the above risks to a large extent, there can be no assurance that these risks will be completely eliminated.

The measures mentioned above are based on current market conditions and may change from time to time based on changes in such conditions, regulatory changes, and other relevant factors. Accordingly, our investment strategy, risk mitigation measures and other information contained herein may change in response to the same.

II. Information about the scheme:

A. Where will the scheme invest – For Detailed description, please refer to Section I - Part II – B

B. What are the investment restrictions?

The investment policy of the scheme complies with the rules, regulations and guidelines laid out in SEBI (Mutual Funds) Regulations, 1996. As per the Regulations, specifically the Seventh Schedule, the following investment limitations are currently applicable:

- 1) Mutual fund scheme shall not invest more than 10% of its NAV in debt instruments comprising money market instruments and non-money market instruments issued by a single issuer which are rated not below investment grade by a credit rating agency authorized to carry out such activity under the Act. Such investment limit may be extended to 12% of the NAV of the scheme with the prior approval of the Board of Trustees and the Board of directors of the asset management company:

Provided that such limit shall not be applicable for investments in Government Securities, treasury bills and Tri-party Repo on government securities or T-bills : Provided further that investment within such limit can be made in mortgaged backed securitised debt which are rated not below investment grade by a credit rating agency registered with the Board:

Provided further that the schemes already in existence shall within an appropriate time and in the manner, as may be specified by the Board, conform to such limits.

As per clause 12.8.3 of SEBI Master Circular dated June 27, 2024, the scheme shall not invest more than:

- a. 10% of its NAV in debt and money market securities rated AAA; or
- b. 8% of its NAV in debt and money market securities rated AA; or
- c. 6% of its NAV in debt and money market securities rated A and below issued by a single issuer.

The above investment limits may be extended by up to 2% of the NAV of the scheme with prior approval of the Board of Trustees and Board of Directors of the AMC, subject to compliance with the overall 12% limit specified in clause 1 of Seventh Schedule of MF Regulation.

- 2) Investment in unrated debt and money market instruments, other than government securities, treasury bills, derivative products such as Interest Rate Swaps (IRS), Interest Rate Futures (IRF), etc. by mutual fund schemes shall be subject to the following:

- a. Investments should only be made in such instruments, including bills re-discounting, usance bills, etc., that are generally not rated and for which separate investment norms or limits are not provided in SEBI (Mutual Fund) Regulations, 1996 and various circulars issued thereunder.
- b. Exposure of mutual fund schemes in such instruments, shall not exceed 5% of the net assets of the schemes.
- c. All such investments shall be made with the prior approval of the Board of AMC and the Board of trustees.
- 3) Mutual Funds/AMCs shall ensure that total exposure of debt schemes of mutual funds in a group (excluding investments in securities issued by Public Sector Units, Public Financial Institutions and Public Sector Banks) shall not exceed 20% of the net assets of the scheme. Such investment limit may be extended to 25% of the net assets of the scheme with the prior approval of the Board of Trustees.
- 4) The Mutual Fund under all its schemes taken together will not own more than 10% of any companies paid up capital carrying voting rights.
- 5) Transfers of investments from one scheme to another scheme in the Mutual Fund shall be allowed only if:
- Such transfers are done at the prevailing market price for quoted instruments on spot basis;
 - The securities so transferred shall be in conformity with the investment objectives & policies of the Scheme to which such transfer has been made.
- Such transfer would be in accordance with the Clause 12.30 of SEBI Master Circular dated June 27, 2024 or any other circular issued by SEBI from time to time.
- 6) The Scheme may invest in another scheme under the same asset management company or in any other mutual fund without charging any fees, provided the aggregate inter scheme investments made by all Schemes under the same management company or in schemes under the management of any other AMC shall not exceed 5% of NAV of the Mutual Fund
- 7) The Mutual Fund shall buy and sell securities on the basis of deliveries and shall in all cases of purchases, take delivery of relative securities and in all cases of sale, deliver the securities and shall in no case put itself in a position whereby it has to make short sale or carry forward transactions or engage in badla finance :
- Provided that a mutual fund may engage in short selling of securities in accordance with the framework relating to short selling and securities lending and borrowing specified by the Board. The scheme shall not engage in Short Selling therefore to this extent the said clause shall not be applicable.
 - Further, the scheme shall engage in securities lending subject to following guidelines approve by the Board of AMC and Trustee.
The scheme shall engage in securities lending for equity investments, in line with the SEBI (Mutual Funds) Regulations, 1996, Securities Lending Scheme, 1997 and Clause 12.11 of SEBI Master Circular dated June 27, 2024 notifying framework 13 for lending of securities and such other applicable guidelines as may be amended from time to time.
The scheme may engage in Securities Lending not exceeding 15% of the net assets of the scheme and shall not lend more than 5% of its Net Assets to a single counterparty or such other limits as may be permitted by SEBI from time to time.
In accordance with the Regulations and applicable guidelines, the Fund may engage in stock lending activities. The Securities will be lent by the Approved Intermediary against collateral received from borrower, for a fixed period of time, on expiry of which the securities lent will be returned by the borrower.
It may be noted that this activity would have the inherent probability of collateral value drastically falling in times of strong downward market trends, resulting in inadequate value of collateral until such time as that diminution in value is replenished by additional security. It is also possible that the borrowing party and/or the approved intermediary may suddenly suffer severe business setback and become unable to honor its commitments. This along with a simultaneous fall in value of collateral would render potential loss to the Scheme. Besides, there can also be temporary illiquidity of the securities that are lent out and the scheme may not be able to sell such lent out sec
 - Provided further that a mutual fund may enter into derivatives transactions in a recognized stock exchange, subject to the framework specified by the Board.
 - Provided further that sale of government security already contracted for purchase shall be permitted in accordance with the guidelines issued by the Reserve Bank of India in this regard.
- 8) The Fund shall get the securities purchased or transferred in the name of the Fund on account of the concerned scheme, wherever investments are intended to be of a long-term nature.
- 9) The fund's schemes shall not make any investment in:
- Any unlisted security of an associate or group company of the sponsor
 - Any security issued by way of private placement by an associate or group company of the sponsor
 - As per SEBI Circular No. SEBI/HO/IMD/IMD-PoD-2/P/CIR/2024/098 dated July 08, 2024, no Mutual Fund scheme shall make any investment in the listed securities of group companies of the sponsor which is in excess of 25 per cent of the net assets of the scheme, except for investments by equity oriented exchange traded funds (ETFs) and Index Funds and subject to such conditions as may be specified by SEBI. Accordingly, it has been decided as under:
 - Equity oriented ETFs and Index Funds, based on widely tracked and non-bespoke indices, can make investments in accordance with the weightage of the constituents of the underlying index. However, such investments shall be subject to an overall cap of 35% of net asset value of the scheme, in the group companies of the sponsor.
 - Widely tracked and non-bespoke indices shall be indices that are tracked by passive funds or act as primary benchmark for actively managed funds with collective Assets under Management (AUM) of INR 20,000 Cr. and above. 10)
The Scheme shall not invest in a fund of funds scheme.
- 11) Pending deployment of funds of the scheme in securities in terms of the investment objectives and policies of the scheme, the Mutual Fund can invest the fund of the scheme in short term deposits of scheduled commercial banks subject to the guidelines as applicable from time to time.
- Pursuant to Clause 12.16 of SEBI Master Circular dated June 27, 2024, where the cash in the scheme is parked in short term deposits of Scheduled Commercial Banks pending deployment, the respective Plan(s) shall abide by the following guidelines:
- "Short Term" for parking of funds shall be treated as a period not exceeding 91 days.
 - Such short-term deposits shall be held in the name of the respective Plan(s) of the Scheme.
 - The respective Plan(s) shall not park more than 15% of the net assets in short term deposit(s) of all the scheduled commercial banks put together. However, such limit may be raised to 20% with prior approval of the Trustee.

- Parking of funds in short term deposits of associate and sponsor scheduled commercial banks together shall not exceed 20% of total deployment by the Mutual Fund in short term deposits.
 - The respective Plan(s) shall not park more than 10% of the net assets in short term deposit(s), with any one scheduled commercial bank including its subsidiaries.
 - The respective Plan(s) shall not park funds in short term deposit of a bank, which has invested in the Scheme. Further, the bank in which a scheme has short term deposit will not invest in the said scheme until the scheme has short term deposit with the bank
- Asset Management Company (AMC) shall not be permitted to charge investment management and advisory fees for parking of funds in short term deposits of scheduled commercial banks."
- 12) No term loans for any purpose will be advanced by the Scheme.
 - 13) The scheme shall engage in securities lending for equity investments, in line with the SEBI (Mutual Funds) Regulations, 1996, Securities Lending Scheme, 1997 and Clause 12.11 of SEBI Master Circular dated June 27, 2024 notifying framework for lending of securities and such other applicable guidelines as may be amended from time to time. Investment in overseas securities shall be made in accordance with the requirements stipulated by SEBI and RBI from time to time.
 - 14) The AMC may invest in the Scheme in the new fund offer. However, it shall not charge any investment management fee on such amounts invested by it.
 - 15) The Scheme shall not invest more than 10% of its NAV in equity shares/equity related instruments of any company. Provided that, the limit of 10% shall not be applicable for investments in index fund or sector/industry specific scheme.
However, the Scheme at any point of time will not invest more than 10% of the NAV of the Scheme in a single company.
 - 16) In case any company has invested more than 5% of the net asset value of a scheme, the investment made by that scheme or by any other scheme of the same Mutual Fund in that company or its subsidiaries, if any, shall be brought to the notice of the Trustees by NAM India and be disclosed in the half-yearly and annual accounts with justification for such investment provided that the latter investment has been made within one year of the date of the former investment calculated on either side.
 - 17) NAM India shall not undertake any other business except that permitted under the MF Regulations. NAM India shall meet with the capital adequacy requirements, if any, separately for each of the separate activity, if any undertaken by the AMC and obtain separate approval, if necessary under the MF Regulations.
 - 18) The Scheme may invest in Overseas securities in accordance with the regulations as applicable from time to time.
 - 19) The Scheme will comply with any other regulations applicable to the investments of mutual funds from time to time.
 - 20) NAM India will ensure that total exposure of the scheme in a particular sector (excluding investments in Bank CDs, short term deposits of scheduled commercial banks, Tri-party Repo on government securities or T-bills, G-Secs, T-Bills and AAA rated securities issued by Public Financial Institutions and Public Sector Banks and such other instruments if any, as may be specified by SEBI from time to time) shall not exceed 20% or such other percentage of the net assets of the scheme, as prescribed by SEBI from time to time, unless the scheme has specifically been exempted from the requirement by SEBI.
An additional exposure to financial services sector (over and above the limit of 20%) not exceeding 10% of the net assets of the scheme shall be allowed by way of increase in exposure to Housing Finance Companies (HFCs) rated AA and above and registered with National Housing Bank (NHB). However, such total investment/ exposure in HFCs shall not exceed 20% of the net assets of the scheme or such other percentage of the net assets of the scheme, as prescribed by SEBI from time to time.
 - 21) The Fund shall not borrow except to meet temporary liquidity needs of the Fund for the purpose of repurchase / Redemption of Units or payment of interest and IDCW to the Unitholders.
Provided that the Fund shall not borrow more than 20% of the net assets of any individual Scheme and the duration of the borrowing shall not exceed a period of 6 months.
In case of borrowing through repo transactions the tenor of such transaction shall not exceed a period of six months
 - 22) The investment of mutual fund schemes in debt instruments having Structured Obligations / Credit Enhancements shall not exceed 10% of the debt portfolio of the schemes and the group exposure in such instruments shall not exceed 5% of the debt portfolio of the schemes:
 - a. Unsupported rating of debt instruments (i.e. without factoring-in credit enhancements) is below investment grade and
 - b. Supported rating of debt instruments (i.e. after factoring-in credit enhancement) is above investment grade
 - 23) Mutual fund scheme shall not invest in unlisted debt instruments including commercial papers (CPs), other than (a) government securities, (b) other money market instruments and (c) derivative products such as Interest Rate Swaps (IRS), Interest Rate Futures (IRF), etc. which are used by mutual funds for hedging.
However, mutual fund schemes may invest in unlisted Non-Convertible Debentures (NCDs) not exceeding 10% of the debt portfolio of the scheme subject to the condition that such unlisted NCDs have a simple structure (i.e. with fixed and uniform coupon, fixed maturity period, without any options, fully paid up upfront, without any credit enhancements or structured obligations) and are rated and secured with coupon payment frequency on monthly basis.
 - 24) The scheme shall participate Repo in corporate debt securities in accordance with Clause 12.18 of SEBI Master Circular dated June 27, 2024 and such other directions issued by RBI and SEBI from time to time.
The Gross exposure of the scheme to repo transactions in corporate debt securities shall not be more than 10% of the net asset of the scheme in accordance with clause 12.18.1.1 of the SEBI Master Circular dated June 27, 2024
The cumulative gross exposure through repo transactions in Corporate debt securities along with Equity, debt, Money Market instruments and derivative positions (including fixed income derivatives) shall not exceed 100% of the net assets of the scheme as per Clauses 12.24 and 12.25 of SEBI Master Circular dated June 27, 2024
All investment restrictions stated above shall be applicable at the time of making investment.
The Scheme will not enter into any transaction which exposes it to unlimited liabilities or results in the encumbering of its assets in any way so as to expose them to unlimited liability.
These investment limitations / parameters as expressed / linked to the net asset / net asset value / capital, shall in the ordinary course, apply as at the date of the most recent transaction or commitment to invest. Changes do not have to be effected merely because of appreciation or depreciation in value or by reason of the receipt of any rights, bonuses or benefits in the nature of capital or of any scheme of arrangement or for amalgamation, reconstruction or exchange, or at any repayment or redemption or other reason outside the control of the Fund, any such limits would thereby be breached. If these limits are exceeded for reasons beyond its control, AMC shall adopt as a priority objective the remedying of that situation, taking due account of the interests of the Unit holders.

Internal Norms for Investment Restrictions :

At NIMF, to ensure robust risk management and adequate portfolio diversification internal Investment policy for various debt schemes has been framed. The investment policy at NIMF specifies limits both on overall basis (across all schemes) as well as on individual scheme level. Guidelines for following parameters for liquid as well as non-liquid schemes has been specified in the policy:

- 1) **Eligible Instruments:** Defines the eligible instruments where the scheme can invest
- 2) **Minimum Liquidity:** Defines the instruments considered as liquid instruments and the minimum investments in these instruments as a percentage of total net assets
- 3) **Maximum Illiquid component:** Defines the instruments considered as illiquid and the maximum investment that can be made in these instruments as a percentage of net assets.
- 4) **Rating:** Defines minimum and/ or maximum investment in a particular rating as a percentage of total portfolios.
- 5) **Maturity:** Defined the weighted average maturity of a portfolio. Also defines the weighted average maturity, maximum and maturity for certain asset types like corporate bond, PTCs, Gilts etc

All the Schemes securities investment will be in transferable securities. All investment restrictions stated above shall be applicable at the time of making investment.

The Scheme will not enter into any transaction, which exposes it to unlimited liabilities or results in the encumbering of its assets in any way so as to expose them to unlimited liability.

These investment limitations / parameters as expressed / linked to the net asset / net asset value / capital, shall in the ordinary course, apply as at the date of the most recent transaction or commitment to invest. Changes do not have to be effected merely because of appreciation or depreciation in value or by reason of the receipt of any rights, bonuses or benefits in the nature of capital or of any scheme of arrangement or for amalgamation, reconstruction or exchange, or at any repayment or redemption or other reason outside the control of the Fund, any such limits would thereby be breached. If these limits are exceeded for reasons beyond its control, AMC shall adopt as a priority objective the remedying of that situation, taking due account of the interests of the Unitholders.

The Trustee Company in consultation with AMC may alter these above stated limitations from time to time, and also to the extent the Regulations change, so as to permit the Scheme to make its investments in the full spectrum of permitted investments in order to achieve its investment objectives & policies. As such, all investments of the Scheme will be made in accordance with the Regulations including Schedule VII thereof and the Fundamental Attributes of this Scheme.

The investment in foreign equity Securities shall be in accordance with SEBI Regulations.

Investment by the AMC in the Scheme

In line with SEBI Regulations and circulars issued by SEBI from time to time, the AMC may invest its own funds in the scheme(s), subject to disclosure being made in the Scheme Information Documents (s). Further, the AMC shall not charge any fees on its investment in the Scheme (s), unless allowed to do so under SEBI Regulations in the future.

Listing and transfer of units	Listing:- Being an open-ended scheme, the units are not proposed to be listed on any stock exchange. However, the Trustee reserves the right to list the units as and when open-end Schemes are permitted to be listed under the Regulations, and if the Trustee considers it necessary in the interest of unitholders of the Scheme. Transfer of units:- If a person becomes a holder of the Units consequent to operation of law, or upon enforcement of a pledge, the Fund will, subject to production of satisfactory evidence, effect the transfer, if the transferee is otherwise eligible to hold the Units. Similarly, in cases of transfers taking place consequent to death, insolvency etc., the transferee's name will be recorded by the Fund subject to production of satisfactory evidence. Demat Mode: Units held in Demat form are transferable in accordance with the provisions of SEBI (Depositories and Participants) Regulations, as may be amended from time to time. Transfer can be made only in favor of transferees who are eligible of holding units and having a Demat Account. The delivery instructions for transfer of units will have to be lodged with the DP in requisite form as may be required from time to time and transfer will be effected in accordance with such rules / regulations as may be in force governing transfer of securities in dematerialized mode. Non-Demat (Statement of Account) mode: In compliance to the AMFI Best Practices Guidelines Circular No.116/ 2024-25 dated August 14, 2024 it has been decided to introduce the facility for transfer of units held in SOA (Statement of Account) mode shall be made available for all schemes of NIMF, except ETFs w.e.f. November 14, 2024. It is proposed to provide the facility to individual unitholders falling under the following three categories: (i) Surviving joint unitholder, who wants to add new joint holder(s) in the folio upon demise of one or more joint unitholder(s). (ii) A nominee of a deceased unitholder, who wants to transfer the units to the legal heirs of the deceased unitholder, post the transmission of units in the name of the nominee. (iii) A minor unitholder who has turned a major and has changed his/her status from minor to major, wants to add the name of the parent / guardian, sibling, spouse etc. in the folio as joint holder(s). Based on AMFI best practices guidelines circular no.119/2025-26 dated May 8, 2025, the process of transfer of units has been extended to the following categories, for resident / non-resident investor: (i) Transfer to Siblings
--------------------------------------	---
