An open-ended index based growth scheme seeking to track the returns of BSE Sensex Index through investments in a basket of stocks drawn from the constituents of the above index. The objective of the Scheme is to invest in companies whose securities are included in BSE Sensex Index and subject to tracking error, to deliver to investors the returns of the above index. This would be done by investing all of the assets comprising the BSE Sensex Index or approximately the same weightage that they represent in BSE Sensex Index. The Scheme will not seek to outperform the BSE Sensex Index or to underperform it. The objective is that the performance of the NAV of the Scheme should closely track the performance of the BSE Sensex Index over the same period. However, there can be no assurance that the investment objective of the Scheme will be achieved.
