The use of a derivative requires an understanding not only of the underlying instrument but of the derivative itself. Other risks include the risk of mispricing or improper valuation and the inability of derivatives to correlate perfectly with underlying assets, rates and indices.

- b. Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the fund manager to identify such opportunities. ### **CDMDF**

#### **Backstop facility in form of investment in Corporate Debt Market Development Fund (CDMDF):**

CDMDF is set up as a scheme of the Trust registered as an Alternative Investment Fund ('AIF') in accordance with the SEBI (Alternative Investment Funds) Regulations, 2012 ("AIF Regulations"). The objective of the CDMDF is to help to develop the corporate debt market by providing backstop facility to instill confidence amongst the market participants in the corporate debt/bond market during times of market dislocation and to enhance the secondary market liquidity. In times of market dislocation, CDMDF shall purchase and hold eligible corporate debt securities from the participating investors (i.e., specified debt-oriented MF schemes to begin with) and sell as markets recover. The CDMDF will thus act as a key enabler for facilitating liquidity in the corporate debt market and to respond quickly in times of market dislocation. The trigger and period for which the backstop facility will be open shall be as decided by SEBI. Thus this backstop facility will help fund managers of the aforementioned Schemes to better generate liquidity during market dislocation to help the schemes fulfill liquidity obligations under stress situation.

In accordance with the requirement of regulation 43A of SEBI (Mutual Funds) Regulations, 1996 read with SEBI circular no. SEBI/HO/IMD/PoD2/P/CIR/2023/129 dated July 27, 2023 on Investment by Mutual Fund Schemes in units of Corporate Debt Market Development Fund, the aforementioned schemes shall invest 25 bps of its AUM as on December 31, 2022 in the units of the Corporate Debt Market Development Fund ('CDMDF'). The LRM framework defines Liquidity Risk [Liquidity Ratio – Redemption at Risk (LR-RAR) and Liquidity Ratio – Conditional Redemption at Risk (LR-CRaR)] arising from the liability side of the Scheme. LR-RAR is based on the Redemption at Risk concept to represent the likely outflows at a given confidence interval and LR-CRaR is based on the concept of Conditional Redemption at Risk to represent the behaviour of the tail at the given confidence interval. The Scheme shall maintain adequate liquidity, as required, by the above two ratios. The Scheme shall ensure to take remedial actions in line with the requirement of the SEBI and AMFI guidelines in case of dip into these ratios.

#### (44) CanServe

A facility titled “**CanServe**” has been introduced for investments (fresh as well as existing) under the IDCW Payout option, IDCW Reinvestment option and Growth options [both Existing Plan & Direct Plan] of UTI Aggressive Hybrid Fund, UTI Arbitrage Fund & UTI Large Cap Fund as under:

- A) ‘CanServe’ facility under IDCW Payout Option** to facilitate Investors who are desirous to contribute Payout of IDCW towards a medical cause. Under the IDCW Payout option, Investors by opting for ‘CanServe’ Option can donate the IDCW payout to be declared on a prospective basis. The investors will have a choice to donate either i) 50% of the IDCW declared or ii) 100% of the IDCW declared in future, subject to a minimum amount of donation of Rs.1000/-. In case such amount arrived as above is less than Rs. 1000/-, the entire amount will be paid out to investor in line with the provisions of the Scheme/s. Investors may claim **tax exemption** under sec 80 G of the Income Tax Act, 1961 to this effect.

In case the Investor opts for ‘CanServe’ facility and does not tick either of the options (i) or (ii) as mentioned above, the default option would be (i) 50% of the IDCW declared.

- B) ‘CanServe’ facility under Growth option** to facilitate Investors who are desirous to contribute a specified sum periodically towards a medical cause. Under the Growth option, Investors by opting for ‘CanServe’ facility can contribute by indicating a specified amount (Minimum Rs. 1000/- at each half-yearly payout) to be paid out under this facility by redeeming corresponding units on semi - annual basis. If no amount is mentioned by the Investor, the default ‘specified amount’ will be Rs.1,000/- per payout period. Such redemption will be done on the 1<sup>st</sup> business day of April and October at the NAV applicable on that day. In case the value of units held by the Investor on the specified date is less than the ‘specified amount’, no units would be redeemed on that date.

**The contributions mentioned above under A) and B) will go to St. Jude India Child Care Centres** as donation towards medical / social cause. St. Jude India ChildCare Centres provides cost-free housing, nutritional support, counseling, educational and recreational activities, therapy and yoga to the needy and under-privileged children who are being treated for cancer and their families, during the period of the child's treatment. St. Jude India ChildCare Centres started operations in 2006 and now has 18 centres in 5 cities with 227 family units located in Mumbai, Delhi, Kolkata, Hyderabad and Jaipur.

St. Jude India Child Care Centres will issue certificate towards donation receipt to avail tax exemption under section 80 G of the IT Act, 1961.

Existing investors may provide a fresh mandate for availing CanServe Facility by mentioning their existing folio number in the request form. The investment under the said facility will attract the same loads as applicable to normal investments under the said scheme.

The certificate to be issued to investors in respect of donation / contribution will be for an amount post deduction of applicable load charges, if any, and applicable Securities Transaction Tax (STT) [0.001% at present]. An example of calculation in respect of Growth option is illustrated, for easy understanding of the investors, as follows:

A	Investor's outstanding units in XYZ scheme as on 2 <sup>nd</sup> November 2020. Investor has opted for contribution of Rs.1100/- towards CanServe	1609.969
B	Specified Amount opted by investor for donation towards CanServe	Rs.1100.000
C	Securities Transaction Tax @0.001% on specified donation amount	Rs.0.011
D	Gross redemption amount (B+C)	Rs.1100.011
E	NAV of growth option as on 1st April 2021 (1st business day of next semi cycle) [Assumed]	Rs.88.900
F	Exit load @ 1% (Assuming redemption is within one year)	Rs.0.889
G	Repurchase price ( E- F )	Rs.88.011
H	Number of units repurchased @ Rs.88.011 (D/G)	12.4986
I	Amount payable as donation ((H*G)-C)	Rs.1100.00

The net amount of Rs. 1100.00 post deduction of load & Securities Transaction Tax would be transferred to St Jude India Childcare Centres as per his/her pre-received mandate. **St Jude India Childcare Centres will issue certificate to the Investor towards donation / contribution amount of Rs. 1100.00 to avail tax exemption under section 80 G of the IT Act, 1961.**

Investor can opt out of or cancel the 'CanServe' facility by giving 15 days' notice prior to record date for IDCW payout option and 15 days' notice before semi-annual payout date under Growth option to UTI Mutual Fund or our R & T Agent, M/S KFIN Technologies Ltd.

All other term & conditions of the above mentioned schemes will remain the same. "Canserve" is just a term used to denote the facility being offered to investor for contribution towards Medical/Social cause. It does not imply any scheme benefit/s.

## VIII. INVESTMENT VALUATION NORMS FOR SECURITIES AND OTHER ASSETS

### 1. The investment set-up

The broad procedure followed at UTI AMC for taking investment decisions is summarised as follows:

- a) The investments of the scheme are managed by a Fund Manager on a regular basis. The Fund Manager constructs the appropriate portfolio in the light of the scheme objectives, prudential exposure norms, fund size, tenure of the scheme and the liquidity required for income distribution considering the normal redemption etc. All the investment decisions are based on scheme's investment objectives, internal guidelines, regulatory restrictions etc. The portfolio is monitored based on the research inputs, present & expected market conditions, future outlook on the economy / sectors /individual scrip and fresh inflows/outflows in the scheme with a view to optimise the returns under the scheme. The Fund Manager's operational strategy and its implementation are reviewed by the Head of Equity/CIO on an ongoing basis.
- b) Department of Securities Research is an internal set-up with analysts tracking specific sectors, which provides regular inputs to the Fund Managers on stocks/industries/sectors, implication of Govt./RBI policies and trends in international markets. The Fund Managers and Research Analysts interact regularly through meetings and presentations. These inputs are discussed thoroughly in these meetings. The Fund Managers and Analysts visit companies to obtain all publicly available information on company performance/ management perspectives. The Fund Managers also attend company presentations as well as presentations by external research outfits/broking firms on company/ industry performance.
- c) **Primary market investments:** The investments in Initial Public Offerings and Private Placements in primary markets are screened and scrutinized by research team/FMs. On the basis of the information and/or research reports, the Fund Managers give their recommendation on the proposals keeping in mind the scheme's investment objectives, internal/ regulatory guidelines/ limits, liquidity needs, stock/sectors existing weightage, counterpart limits (for debt securities) approved by EIC, and overall risk profile. Such proposals are approved by Head of Fixed Income/Head of Equity/Executive Investment committee (EIC) as per delegation of power.
- d) **Secondary market investments:** Fund Managers also interact with Research Analysts and Dealers on regular basis. The Fund Managers also have access to external sources of data from analysts, publicly available information about company / sector etc. The Fund Manager prepares a strategy paper for the scheme on periodic basis, which is discussed with senior management of UTI AMC. Finally, these investment decisions made by the Fund Managers are executed by the designated dealer.
- e) **Inter Scheme Transfers:** The inter-scheme buy and sale transactions are effected as per the SEBI Regulations.
- f) **Monitoring:** A memorandum to the Board of Directors of the UTI Asset Management Company & Trustee Company is submitted containing a report on Investment Operations of UTI AMC for UTI MF schemes for each quarter.

### 2. Computation and disclosure of NAV

- a) The Net Asset Value (NAV) of the scheme shall be calculated by determining the value of the scheme's assets and subtracting therefrom the liabilities of the scheme taking into consideration the accruals and provisions. NAV shall be declared separately for different options of the scheme.
- b) The NAV per unit shall be calculated by dividing the NAV of the scheme by the total number of units issued and outstanding on the valuation day. The NAV will be rounded off upto four decimal places.
- c) When the securities are traded on more than one recognised stock exchange, the securities shall be valued at the last quoted price on the stock exchange, available at the time of valuation of scheme portfolio for the purpose of computing the NAV, where the securities are principally traded. UTI AMC will select the appropriate stock exchange for each such security, but the reasons for the selection would be recorded in writing. All scrips may be valued at the price quoted on the stock exchange where a majority in value of the investments is principally traded. Once a stock exchange has been selected for valuation of a particular security, reasons for change of the exchange shall be recorded in writing by UTI AMC.
- d) A valuation day is a day other than (i) Saturday and Sunday (ii) a day on which both the stock exchanges (BSE and NSE) and the banks in Mumbai are closed (iii) A day on which the purchase and redemption of units is suspended. - e) The NAVs will be calculated and disclosed on every business day. The AMC will prominently disclose the NAVs under a separate head on the website of UTI Mutual Fund ([www.utimf.com](http://www.utimf.com)) and of the Association of Mutual Funds in India (AMFI) ([www.amfiindia.com](http://www.amfiindia.com)) on every Business Day.

## VALUATION POLICY FOR SCHEMES OF UTI MUTUAL FUND

### Introduction:

SEBI vide Gazette Notification no. LAD-NRO/GN/2011-12/38/4290, dated February 21, 2012 amended Regulation 25, 47 and the Eighth Schedule titled 'Investment Valuation Norms' under SEBI (Mutual Funds) Regulations, 1996 to introduce the overarching principles namely 'Principles of Fair Valuation'.

These principles require mutual funds to ensure fair treatment to all investors (existing as well as new investors) seeking to purchase or redeem the units of the scheme(s) at all points of time. It further prescribes that the valuation shall be reflective of the realizable value of securities and shall be done in good faith and in a true and fair manner through appropriate valuation policies and procedures approved by the Board of the Asset Management Company (AMC). Further as per the amendment in case of any conflict between the principles of fair valuation and valuation guidelines as per Eighth Schedule and circulars issued by SEBI, the Principles of Fair Valuation shall prevail.

In order to ensure transparency of valuation norms to be adopted it is mandated by SEBI for AMC to disclose their valuation policy and procedures as approved by the Board of AMC on the website of the AMC/Mutual Fund.

In this context the Investment Valuation Policy & Procedures is hereby disclosed for the benefit of investors.

This Investment Valuation Policy & Procedures is subject to review and change from time to time.

### Valuation Policy and Procedures

#### I. Equity and Equity related Securities:

##### (a) Traded Securities

(Equity shares and equity related securities like rights, warrants, preference shares etc.)

A security is treated as 'traded' in the following circumstances:

- The security is traded on any stock exchange within a period of 30 days (including the date of valuation) and if:
- the aggregate volume of trade during such period is more than 50,000; or
- the trade value is greater than Rs.5,00,000

these are valued at the closing prices on NSE, (and if NSE price is not available BSE price is considered). The principle stock exchange for valuation of equity shares is NSE. The equity shares held in the index/ETF schemes where a BSE index is used as benchmark, will be valued at their closing prices as per the BSE.

##### (b) Non traded / Thinly traded / Unlisted equity shares:

Investments in securities, which have not been traded on any stock exchange in the aforesaid manner, are stated at fair value as determined by UTI AMC in accordance with the provisions of the SEBI (Mutual Fund) Regulations, 1996 as detailed below.

Based on the latest available Balance Sheet, net worth shall be calculated as follows:

Share Capital

Plus: Reserves (excluding revaluation Reserve)

Less: Miscellaneous Expenditure

Less: Intangible Assets (in case of unlisted securities)

Less: P & L Accounts (Debit Balance)

The resultant figure is the Net Worth of the Company, which when divided by the numbers of shares outstanding gives the net worth per share.

Capitalized earning price will be arrived at by multiplying the earnings per share with the discounted industry P/E ratio. Average capitalization rate (P/E ratio) for the industry based upon either BSE or NSE data shall be taken and discounted by 75%. Earnings per share of the latest audited annual accounts will be considered for this purpose. The value as per the net worth value per share and capital earning value calculated as above shall be averaged and further discounted by 10% for illiquidity so as to arrive at the fair value. In case of unlisted equity shares the discount factor will be 15% instead of 10%.

In case, the Earning per share (EPS) is –ve, EPS value for that year shall be taken as zero for arriving at capitalized earning. In case latest balance sheet is not available within 6 months from the close of the year, the shares of such companies shall be valued at zero. If the net worth of the company is –ve the share would be marked down to zero. In case an individual security accounts for more than 5% of the total assets of the scheme, an independent valuer shall be appointed for the valuation of the said security.

In case the fair value price so arrived is higher than the latest available quoted price, then quoted price is considered, provided the quoted price is not older than 30 days.

**(c) Non traded / Thinly traded / Unlisted rights share/Debt in the form of Rights and warrants:**

The rights will be valued at the difference between the daily Ex-rights price of underlying equity share and rights offer price for the entire period. In case the exercise price is greater than the ex-rights price, the value of the rights share is to be taken as zero. In case exercise price is payable in more than one installment, then the rights shares are valued at underlying equity share price minus uncalled liability. Where the rights/warrants are not treated pari passu with the existing shares, suitable adjustment should be made to the value of rights/warrants. In case of unlisted company, the rights share value is taken into consideration after their allotment by way of recomputing the fair value of the equity shares, after considering the allotment of rights. If Debt securities in the form of rights are issued, the same is valued as per the debt valuation norms, from the date of allotment of the securities. Till such time they are valued at face value - exercise price or as suggested by the valuation committee. Where it is decided not to subscribe for the rights but to renounce them and renunciations are being traded, the rights can be valued at the renunciation value.

**(d) Non traded / Thinly traded / Unlisted Preference shares:**

Non-convertible preference shares are valued at the present value of future expected dividend payments and maturity value, discounted at the expected rate of return on preference shares. The valuation committee will decide upon variables like expected future dividend, expected rate of return etc. on a case to case basis depending on the terms of issue of the preference shares.

Convertible preference shares will be valued based on the underlying equity, further discounted for illiquidity at an appropriate percentage. The illiquidity percentage will be decided by the Valuation Committee on a case to case basis.

The valuation committee may in specific cases decide to use a different method for valuation of preference shares by assigning reasons therefore.

**(e) Corporate Action:**

In case of demerger, if shares of only one company continue to be traded post de-merger, the other security is valued at the traded value on the day before the demerger less value of the traded security special pre-open session closing price. if there is no special pre-open session then the post demerger closing price of the listed security is considered to derive the price of the unlisted security.

In case of demerger the valuation committee may decide to apply appropriate illiquidity discount on a case-to-case basis. If the post de-merger value of the share of the de-merged and traded company is equal or in excess of the value of the pre de-merger share, then the non-traded share is to be valued at zero.

If both the shares are not immediately traded on de-merger: the traded price prior to demerger, will be allocated between the post-demerger companies on an appropriate basis like Price Earnings ratio, net worth or any other measure, as per the decision of the Valuation Committee.

The untraded/unlisted shares resulting from demerger will be valued on fair valuation basis after the audited annual financial results of the demerged company are available.

In case of corporate actions like bonus shares having differential voting rights, bonus debentures (where terms of security like coupon, maturity date etc., are not known) etc., these are referred to the valuation committee to discover the prices of such securities.

In case of merger, if the shares of the merged entity are not immediately listed/traded, then valuation of merged entity shall be arrived at based on the terms of merger and previous day's closing price of the respective companies prior to merger.

The price of the unlisted shares arising out of corporate actions as arrived at above, will be reviewed by the valuation committee at half yearly intervals till such time that the audited annual financial results of the company are available.

**(f) Initial Public Offering ('IPO') application.**

IPO application awaiting allotment would be valued at allotment price / bid price.

**II. Debentures, Bonds, Asset Backed Securities, Commercial Papers (CPs), Certificates of Deposit (CDs), Government Securities (Gsecs), State Government Securities (SDLs), GSec STRIPS, Treasury Bills (TBills), Bill Rediscounting Papers (BRDS):**

**(a) Securities Rated Above Investment Grade:**

Securities shall be valued at the average of prices provided by CRISIL and ICRA for the respective paper.

If on any day, the price for any security is not provided by CRISIL and ICRA then the security will be valued as follows:

1) If the security is newly purchased, till such time that the prices are not provided by CRISIL and ICRA then:

- Coupon bearing securities will be valued at weighted average trade price of the deals in that security done by schemes of UTI Mutual Fund for latest trade day.
- Discounted securities will be valued at the price computed on T+1 basis w.r.t the valuation day considering the weighted average traded yield of the deals for that security done by schemes of UTI Mutual Fund for the latest trade day.

2) In other cases, it will be valued as per the price approved by the valuation committee.

In case a put / call option has been exercised by any scheme of UTI Mutual Fund, then the security will be valued as per the residual maturity upto the put / call date from the date of exercise of such option for all schemes of UTI Mutual Fund and as per the average prices provided by CRISIL and ICRA for this purpose.

For the purpose of determining the above mentioned prices of securities, the Valuation agencies will adopt a waterfall approach as per the guidelines laid down by AMFI in terms of the mandate given by SEBI in this regard.

The Waterfall approach specified by AMFI vide Circular no 135/ BP/ 83/ 2019-20 dated 18th November 2019 is enclosed in Annexure 1.

The valuation committee may, in exceptional circumstances decide to value a security at a price other than the average of CRISIL and ICRA prices by recording justification for the same, and subject to the following:

AMCs may value the above investment grade debt/money market securities at prices other than those determined as explained above provided:

- The detailed rationale for deviation shall be recorded by the AMC
- The Board of the AMC and Trustees shall be reported about the rationale for deviation and other details as required by SEBI
- The rationale for deviation and other details as required by SEBI shall be disclosed to the investors. In this regard disclosure shall immediately be made on the website of the AMC under a separate head.

The total number of instances of deviations shall be disclosed in the monthly and half-yearly portfolio statements for the relevant period along-with an exact link to the website wherein the details of all such instances of deviation are available.

**(b) Securities Rated Above Below Investment Grade:**

Money market and debt securities rated below investment grade shall be valued at the aggregate prices provided by CRISIL and ICRA for such securities

Till such time that CRISIL and ICRA do not provide the price of such security, it shall be valued on the basis of indicative haircuts provided by these agencies.

Below investment grade papers shall be valued at traded price if:

1. Traded price is available for the respective securities for the minimum size as determined by CRISIL and ICRA
2. Traded price as determined above is lower than the aggregated price or hair cut price as the case may be.

The valuation committee may, in exceptional circumstances decide to value a security at a price other than the average of CRISIL and ICRA prices by recording justification for the same, and subject to the following:

AMCs may value any such securities at prices other than those determined as explained above provided:

- The detailed rationale for deviation shall be recorded by the AMC
- The Board of the AMC and Trustees shall be reported about the rationale for deviation and other details as required by SEBI
- The rationale for deviation and other details as required by SEBI shall be disclosed to the investors. In this regard disclosure shall immediately be made on the website of the AMC under a separate head.
- The total number of instances of deviations shall be disclosed in the monthly and half-yearly portfolio statements for the relevant period along-with an exact link to the website wherein the details of all such instances of deviation are available.

### **III. Money market Instruments like Repos, TREPS etc.:**

1. All money market instruments like Repos, TREPS (except for overnight repos/TREPS) shall be valued at average of security level prices obtained from valuation agencies.
2. In case security level prices given by valuation agencies are not available for a new security (which is currently not held by any Mutual Fund), then such security may be valued at purchase yield/price on the date of allotment / purchase.

### **IV. Short Term Deposits / Fixed Deposits :**

Short Term Deposits / Fixed Deposits are valued at cost.

### **V. Future and Options:**

(a) Index/ Stock / Interest Rate Futures are valued at settlement price declared by the Stock Exchange as on the valuation date.

(b) Index/ Stock Options are valued at the closing premium quote / exercise price declared by the Stock Exchange as on the valuation date.

### **VI. Interest Rate Swaps (IRS):**

IRS will be valued as the difference between the value of the fixed and floating leg.

For this purpose:

The value of the Fixed leg will be the average of prices provided by CRISIL and ICRA.

The value of the floating leg will be considered at par.

## VII. Gold and Silver:

### Definitions

Gold means physical gold bars that confirm to gold acceptance criteria having a purity of 99.5% (995 fineness per 1000) or higher.

Silver means physical bars that confirm to silver acceptance criteria having a purity of 99.9% (999 fineness per 1000)

Such bars are imported by RBI Authorized Banks & Agencies and stored in Vaults of Vaulting Agents in Various Locations in the country. Each gold bar would be assigned a unique number to maintain and keeps records on a bar to bar level.

The valuation of Gold & Silver held by the exchange traded fund schemes shall be done as below:

- a. **LBMA Gold & Silver Fixing** - Designed to fix a price for settling contracts between the fixing members of the LBMA (London Bullion Market Association), the Gold & Silver Fixing provides a recognized benchmark for pricing the majority of spot gold products throughout the world's markets. As per SEBI Guidelines Gold & Silver would be valued at AM fixing price.
- b. **Add Fixing Charges** - Fixing charges is the commission charged by the bullion bank to fix gold & silver prices. The fixing charges for valuation purpose would be as per the LBMA guidelines.
- c. **Add Premium/Discount** – Gold may be traded in the domestic market at a premium or discount vis a vis LBMA. This premium/discount would be fixed on a daily basis. The MCX price would be considered for determining the premium/discount.
- d. **Conversion into Kilogram** - LBMA Fixing prices are quoted for USD/Oz ( 995 fineness for gold and 999 fineness for silver). For conversion of Troy Ounces to Kilogram we use the conversion factor of 31.99 Troy ounces per kilogram for gold and 32.1507 Troy ounces per kilogram for silver.
- e. **Conversion to Rupee Value** - To convert it into Rs./Kg, it has to be multiplied by INR reference rate from RBI
- f. If on any day the LBMA AM fixing or RBI reference rate is not available due to holiday, etc. then the immediately previous day's rate/prices are applied for the purpose of calculating the value of gold.
- g. **Add Custom Duty** - Custom duty is calculated as per Tariff value and the Exchange Rate prescribed by the appropriate authorities irrespective of the price of Gold & Silver as per LBMA and the RBI Reference Rate for USD. The method and rates used for calculation as stated in the example may be changed as per amendments prescribed by the appropriate authorities.
- h. Any other taxes that are non-refundable in nature would be accounted in valuation as & when it is applicable.

Provided further that where the gold & silver held by exchange traded fund schemes has a greater fineness, the relevant LBMA prices of AM fixing shall be taken as the reference price under this sub-paragraph.

If the gold & silver acquired by the exchange traded fund schemes is not in the form of standard bars, it shall be assayed and converted into standard bars which comply with the good delivery norms of the LBMA and/or acceptance criteria set up in SID.

Valuation of investments in Gold Deposit Scheme (GDS) of banks, having gold held by the Fund as underlying, the valuation of such gold would follow the same principles as provided for valuation of physical gold in this policy. Interest received on such Gold Deposit Scheme shall be accrued in proportionate manner till the maturity of the deposit.

## **VIII. Valuation of Sovereign Gold Bonds.**

Sovereign Gold Bonds are listed on National Stock Exchange and are part of listed universe of stock exchange. Since these bonds are listed and traded on exchange, these bonds will be valued at closing price given by exchange. In case if these bonds are not traded on a particular day then previous day price will be considered.

## **Xi. Mutual Fund Units**

MF Units listed and Traded would be valued at the closing traded price as on the valuation date. If the units are not traded on the valuation day, the closing price of earliest previous day on which they have been traded may be used provided such price is not prior than 30 days. Unlisted MF Units and listed-but-not-traded MF Units would be valued at the NAV published on AMFI website as on the valuation date.

## **X. Infrastructure Investment Trust (InvITs) & Real Estate Investment Trust (REITs)**

- (a) Listed Units of InvITs / REITs will be valued at the closing price at the principal stock exchange.
- (b) If units are not traded on principal stock exchange on a particular valuation day, the closing price on any other stock exchange where units are traded will be used.
- (c) If units are not traded on any stock exchange on a particular valuation day, then closing price at which it traded on the principal stock exchange or any other stock exchange, as the case may be, on the earliest previous day will be used provided such date is not more than 30 days prior to valuation date.
- (d) The units of InvITs / REITs which have been purchased in the primary market will be valued at cost till such time that they are listed on the stock exchange.
- (e) Unlisted / Non-Traded Units of InvITs / REITs (i.e not traded on any stock exchange for a continuous period of 30 days) shall be valued as per the procedure/price determined by the Valuation Committee.

## **XI. ADR & GDR and all Overseas Securities –**

### **For the purpose of computation of NAV on the same day –**

The Overseas Securities (Foreign Securities including ADR/GDR) shall be valued based on the last quoted closing prices of the Stock Exchange on which the security is listed. However, the AMC shall select the appropriate stock exchange in case a security is listed on more than one stock exchange and the reasons for the selection will be recorded in writing and approved by Valuation Committee.

If the security/ETF is listed in a time zone ahead of ours then the same days price would be used for valuation.

If the security/ETF is listed in a time zone behind ours then the previous days price would be used for valuation.

The price in the local currency would be obtained and the latest available RBI reference rate would be used to calculate the closing price in INR. Further, all the assets and liabilities in foreign currency shall be valued in Indian Rupees at the latest available RBI reference rate.

In case the direct exchange rates are not available then cross currency rate with USD as available on Bloomberg would be considered and converted as per the INR/USD RBI reference rate

## **XII. Corporate Debt Market Development Fund (CDMDF)**

Units of Corporate Debt Market Development fund will be valued at the NAV per unit released by SBI Funds Management Ltd on daily basis.

## **XIII. Inter Scheme Transfers**

### **Equity Securities:**

In respect of inter scheme transfer of equity securities, the spot/current market price available from Bloomberg terminal on a continuous basis is considered.

### **Debt and Money Market Securities:**

1. Inter scheme transfers of debt and money market securities will be at the average of prices provided for this purpose by the valuation agencies viz. CRISIL and ICRA

2. If price from only one valuation agency is received within the agreed TAT, that price may be used for IST pricing.
3. If prices are not received from any of the valuation agencies within the agreed TAT then the IST may be done at a price determined based on the principle laid down in clause 3 (a) of the Seventh Schedule to SEBI (Mutual Fund) Regulations, 1996. Such price shall be approved by the Valuation Committee

**General Principle:**

While the fund will follow the above guidelines on an ongoing basis, there may be extraneous situations under which, in the interest of fair reflection and fair valuations, there may be deviations to the above guidelines. The decision on any such deviation will rest with the Valuation Committee based on the justification and adequate documentations.

**Abnormal conditions:**

The valuation committee may determine the valuation methodology to be adopted in case of abnormal market conditions.

**Periodic Review**

The Valuation policy shall be reviewed at least annually and any modification shall be approved by the AMC and Trustee Boards. The Valuation Policy shall also be reviewed by Independent Auditors at least once in a Financial Year to ensure the appropriateness of the valuation methodologies.

**Conflict of Interest**

If any situation arises that leads to conflict of interest, the same shall be raised to the Valuation Committee and the Committee shall endeavour to resolve the same such that the valuation provides for fair treatment to all investors including existing and prospective investors.

**ANNEXURE 1**

**Waterfall Approach for the Valuation of Money Market and Debt Securities**

**Part A: Valuation of Money Market and Debt Securities other than G-Secs**

**I. Waterfall Mechanism for valuation of money market and debt securities:**

The following shall be the broad sequence of the waterfall for valuation of money market and debt securities:

1. Volume Weighted Average Yield (VWAY) of primary reissuances of the same ISIN (whether through book building or fixed price) and secondary trades in the same ISIN
2. VWAY of primary issuances through book building of same issuer, similar maturity (Refer Note 1 below)
3. VWAY of secondary trades of same issuer, similar maturity
4. VWAY of primary issuances through fixed price auction of same issuer, similar maturity
5. VWAY of primary issuances through book building of similar issuer, similar maturity (Refer Note 1 below)
6. VWAY of secondary trades of similar issuer, similar maturity.
7. VWAY of primary issuance through fixed price auction of similar issuer, similar maturity
8. Construction of matrix (polling may also be used for matrix construction)
9. In case of exceptional circumstances, polling for security level valuation (Refer Note 2 below)

**Note 1**

Except for primary issuance through book building, polling shall be conducted to identify outlier trades. However, in case of any issuance through book building which is less than INR 100 Cr, polling shall be conducted to identify outlier trades.

**Note 2**

Some examples of exceptional circumstance would be stale spreads, any event/news in particular sector/issuer, rating changes, high volatility, corporate action or such other event as may be considered by valuation agencies. Here stale spreads are defined as spreads of issuer which were not reviewed/updated through trades/primary/polls in same or similar security/issuers of same/similar maturities in waterfall approach in last 6 months.

Further, the exact details and reasons for the exceptional circumstances which led to polling shall be documented and reported to AMCs. Further, a record of all such instances shall be maintained by AMCs and shall be subject to verification during SEBI inspections.

### Note 3

All trades on stock exchanges and trades reported on trade reporting platforms till end of trade reporting time (excluding Inter-scheme transfers) should be considered for valuation on that day.

### Note 4

It is understood that there are certain exceptional events, occurrence of which during market hours may lead to significant change in the yield of the debt securities. Hence, such exceptional events need to be factored in while calculating the price of the securities. Thus, for the purpose of calculation of VWAY of trades and identification of outliers, on the day of such exceptional events, rather than considering whole day trades, only those trades shall be considered which have occurred post the event (on the same day).

The following events would be considered exceptional events:

- a) Monetary I Credit Policy
- b) Union Budget
- c) Government Borrowing / Auction Days
- d) Material Statements on Sovereign Rating
- e) Issuer or Sector Specific events which have a material impact on yields
- f) Central Government Election Days
- g) Quarter end days

In addition to the above, valuation agencies may determine any other event as an exceptional event. All exceptional events along-with valuation carried out on such dates shall be documented with adequate justification.

## II. Definition of tenure buckets for Similar Maturity

When a trade in the same ISIN has not taken place, reference should be taken to trades of either the same issuer or a similar issuer, where the residual tenure matches the tenure of the bond to be priced. However, as it may not be possible to match the exact tenure, it is proposed that tenure buckets are created and trades falling within such similar maturity be used as per table below.

<b>Residual Tenure of Bond to be priced</b>	<b>Criteria for similar maturity</b>
Upto 1month	Calendar Weekly Bucket
Greater than 1month to 3 months	Calendar Fortnightly Bucket
Greater than 3 months to 1year	Calendar Monthly Bucket
Greater than 1year to 3 years	Calendar Quarterly Bucket
Greater than 3 years	Calendar Half Yearly or Greater

In addition to the above:

- a. In case of market events, or to account for specific market nuances, valuation agencies may be permitted to vary the bucket in which the trade is matched or to split buckets to finer time periods as necessary. Such changes shall be auditable. Some examples of market events / nuances include cases where traded yields for securities with residual tenure of less than 90 days and more than 90 days are markedly different even though both may fall within the same maturity bucket, similarly for less than 30 days and more than 30 days or cases where yields for the last week v/s second last week of certain months such as calendar quarter ends can differ.
- b. In the case of illiquid/ semi liquid bonds, it is proposed that traded spreads be permitted to be used for longer maturity buckets (1year and above). However, the yield should be adjusted to account for steepness of the yield curve across maturities.
- c. The changes/deviations mentioned in clauses a and b, above, should be documented, along with the detailed rationale for the same. Process for making any such deviations shall also be recorded. Such records shall be preserved for verification.

## II. Process for determination of similar issuer

Valuation agencies shall determine similar issuers using one or a combination of the following criteria. Similar issuer do not always refer to issuers which trade at same yields, but may carry spreads amongst themselves & move in tandem or they are sensitive to specific market factor/s hence warrant review of spreads when such factors are triggered.

- Issuers within same sector/industry and/or
- Issuers within same rating band and/or
- Issuers with same parent/ within same group and/or
- Issuers with debt securities having same guarantors and/or
- Issuers with securities having similar terms like Loan Against Shares (LAS)/ Loan Against Property (LAP)

The above criteria are stated as principles and the final determination on criteria, and whether in combination or isolation shall be determined by the valuation agencies. The criteria used for such determination should be documented along with the detailed rationale for the same in each instance. Such records shall be preserved for verification. Similar issuers which trade at same level or replicate each other's movements are used in waterfall approach for valuations. However, similar issuer may also be used just to trigger the review of spreads for other securities in the similar issuer category basis the trade/news/action in any security/ies within the similar issuer group.

## IV. Recognition of trades and outlier criteria

### 1. Volume criteria for recognition of trades (marketable lot)

Paragraph 1.1.1.1(a) of SEBI vide circular no. SEBI/HO/IMD/DF4/CIR/P/2019/102 dated September 24, 2019 on Valuation of money market and debt securities, prescribes that the marketable lots shall be defined by AMFI, in consultation with SEBI. In this regard, marketable lot is defined as under.

Parameter	Minimum Volume Criteria for marketable lot
Primary	INR 25 cr for both Bonds/NCD/CP/ CD and other money market instruments
Secondary	INR 25 cr for CP/ CD, T-Bills and other money market instruments
Secondary	INR 5 Cr for Bonds/NCO/ G-secs

Trades not meeting the minimum volume criteria i.e. the marketable lot criteria as stated above shall be ignored.

### 2. Outlier criteria

It is critical to identify and disregard trades which are aberrations, do not reflect market levels and may potentially lead to mispricing of a security or group of securities. Hence, the following broad principles would be followed by valuation agencies for determining outlier criteria.

- Outlier trades shall be classified on the basis of liquidity buckets (Liquid, Semi-liquid, Illiquid). Price discovery for liquid issuers is generally easier than that of illiquid issuers and hence a tighter pricing band as compared to illiquid issuers would be appropriate.
- The outlier trades shall be determined basis the yield movement of the trade, over and above the yield movement of the matrix. Relative movement ensures that general market movements are accounted for in determining trades that are outliers. Hence, relative movement over and above benchmark movement shall be used to identify outlier trades.
- Potential outlier trades which are identified through objective criteria defined above will be validated through polling from market participants. Potential outlier trades that are not validated through polling shall be ignored for the purpose of valuation.
- The following criteria shall be used by valuation agencies in determining Outlier Trades

Liquidity Bps Criteria (Yield movement over previous day yield after accounting for yield movement of matrix)

Liquidity Classification	Bps Criteria		
	Upto 15 days	15-30 days	Greater than 30 days
Liquid	30 bps	20 bps	10 bps
Semi-liquid	45 bps	35 bps	20 bps
Illiquid	70 bps	50 bps	35 bps

The above criteria shall be followed consistently and would be subject to review on a periodic basis by valuation agencies and any change would be carried in consultation with AMFI.

- e. In order to ensure uniform process in determination of outlier trades the criteria for liquidity classification shall be as detailed below.

Liquidity classification criteria - liquid, se mi-liquid and Illiquid definition

Valuation agencies shall use standard criteria for classifying trades as Liquid, Semi-Liquid and illiquid basis the following two criteria:

- Trading Volume
- Spread over reference yield

Such criteria shall be reviewed on periodic basis in consultation with AMFI.

Trading Volume (Traded days based criteria):

Number of unique days an issuer trades in the secondary market or issues a new security in the primary market in a calendar quarter

- Liquid >=50% of trade days
- Semi Liquid >=10% to 50% trade days
- Illiquid <10 % of trade days

#### **Spread based criteria:**

Spread over the matrix shall be computed and based on thresholds defined; issuers shall be classified as liquid, semi liquid and illiquid. For bonds thresholds are defined as up to 15 bps for liquid; >15-75 bps for semi-liquid; > 75 bps for illiquid. (Here, spread is computed as average spread of issuer over AAA Public Sector Undertakings/Financial Institutions/Banks matrix), For CP/ CD- up to 25 bps for liquid; >25- 50 bps for semiliquid; > 50 bps for illiquid. (Here, spread is computed as average spread of issuer over A1+/AAA CD Bank matrix).

The thresholds shall be periodically reviewed and updated having regard to the market.

The best classification (liquid being the best) from the above two criteria (trading volume and spread based) shall be considered as the final liquidity classification of the issuer. The above classification shall be carried out separately for money market instruments {CP/ CDs) and bonds.

## 5. Process for construction of spread matrix

Valuation agencies shall follow the below process in terms of calculating spreads and constructing the matrix:

Steps	Detailed Process
Step 1	<p>Segmentation of corporates-</p> <p>The entire corporate sector is first categorised across following four sectors i.e. all the corporates will be catalogued under one of the below mentioned bucket:</p> <ol style="list-style-type: none"> <li>1.Public Sector Undertakings/Financial Institutions/Banks;</li> <li>2.Non-Banking Finance Companies -except Housing Finance Companies;</li> <li>3. Housing Finance Companies;</li> <li>4. Other Corporates</li> </ol>
Step 2	<p>Representative issuers -</p> <p>For the aforesaid 4 sectors, representative issuers (Benchmark Issuers) shall be chosen by the valuation agencies for only higher rating {I.e. "AAA" or AA+}. Benchmark/Representative Issuers will be identified basis high liquidity, availability across tenure in AAA/AA+ category and having lower credit/liquidity premium. Benchmark Issuers can be single or multiple for each sector.</p> <p>It may not be possible to find representative issuers in the lower rated segments, however in case of any change in spread in a particular rating segment; the spreads in lower rated segments should be suitably adjusted to reflect the market conditions. In this respect, in case spreads over benchmark are widening at a better rated segment, then adjustments should be made across lower rated segments, such that compression of spreads is not seen at any step. For instance, if there is widening of spread of AA segment over the AAA benchmark, then there should not be any compression in spreads between AA and A rated segment and so on.</p>
Step 3	<p>Calculation of benchmark curve and calculation of spread -</p> <ol style="list-style-type: none"> <li>1. Yield curve to be calculated for representative issuers for each sector for maturities ranging from 1month till 20 years and above.</li> <li>2. Waterfall approach as defined in Part A (1) above will be used for construction of yield curve of each sector.</li> <li>3. In the event of no data related to trades/primary issuances in the securities of the representative issuer is available, polling shall be conducted from market participants</li> <li>4. Yield curve for Representative Issuers will be created on daily basis for all 4 sectors. All other issuers will be pegged to the respective benchmark issuers depending on the sector, parentage and characteristics. Spread over the benchmark curve for each security is computed using latest available trades/primaries/polls for respective maturity bucket over the Benchmark Issuer.</li> <li>5. Spreads will be carried forward in case no data points in terms of trades/primaries/polls are available for any issuer and respective benchmark movement will be given</li> </ol>
Step 4	<ol style="list-style-type: none"> <li>1. The principles of VWAY, outlier trades and exceptional events shall be applicable while constructing the benchmark curve on the basis of trades/primary issuances.</li> <li>2. In case of rating downgrade/credit event/change in liquidity or any other material event in Representative Issuers, new Representative Issuers will be identified. Also, in case there are two credit ratings, the lower rating to be considered.</li> <li>3. Residual tenure of the securities of representative issuers shall be used for construction of yield curve.</li> </ol>

## Part B: Valuation of G-Secs {T- Bill, Cash management bills, G-Sec and SOL}

The following is the waterfall mechanism for valuation of Government securities:

- VWAY of last one hour, subject to outlier validation
- VWAY for the day (including a two quote, not wider than 5 bps on NDSOM), subject to outlier validation
- Two quote, not wider than 5 bps on NDSOM, subject to outlier validation
- Carry forward of spreads over the benchmark
- Polling etc.

**Note:**

1. VWAY shall be computed from trades which meet the marketable lot criteria stated in Part A of these Guidelines.
2. Outlier criteria: Any trade deviating by more than +/- 5 bps post factoring the movement of benchmark security shall be identified as outlier. Such outlier shall be validated through polling for inclusion in valuations. If the trades are not validated, such trades shall be ignored.

**ANNEXURE II**

**Guidelines on Polling Process for Money Market and Debt Securities**

The Guidelines on polling issued by AMFI in consultation with SEBI are as under:

1. Valuation agencies shall identify the Mutual Funds who shall participate in the polling process on a particular day, taking into account factors such as diversification of poll submitters and portfolio holding of the Mutual Funds. Mutual Funds who are identified by the valuation agencies shall necessarily participate in the polling process. However, in case any Mutual Fund does not participate in the polling process, detailed reason for the same shall be recorded at the time and subsequently made available during SEBI inspections. In this respect, since a Mutual Fund may have investments in similar securities, a security not forming part of investment universe may not be considered as an adequate reason for not participating in the polling process.
2. Polling will be carried out on a daily basis by the valuation agencies, in terms of points 9-11 below.
3. Each valuation agency needs to take polls from at least 5 unique Mutual Funds on a daily basis. Hence, between the two valuation agencies 10 unique Mutual Funds to be polled. They may cover more Mutual Funds, over and above this. For benchmark securities a poll constituting at least 5 responses will be considered as valid. In case of non-benchmark securities a poll constituting at least 3 responses will be considered as valid. The responses received by each valuation agency will be shared with the other agency also.
4. Median of polls shall be taken for usage in valuation process.
5. The valuation agencies will also need to cover as many non- Mutual Fund participants as possible, over and above the Mutual Funds, to improve on the polling output quality.
6. Endeavour would be made to have adequate representation of both holders and non-holders of the same bond/same issuer for non-benchmark securities in the poll process. Where this is not possible, valuation agencies may seek polls from holders of bonds with a similar structure.
7. In the case of issuers with multiple notch rating upgrades/downgrades over short periods of time, valuation agencies shall:
  - a. Conduct polls with a larger universe of pollers.
  - b. Increase the frequency of polling
8. Suo moto feedback on valuations should be entertained only through formal mails from persons designated by AMC for said purpose, and the same shall be validated through repolling. Any such feedback shall be duly recorded by the valuation agencies, including the reason for the challenge, results of repolling and subsequent changes in valuation on repolling, if any. Such records shall be preserved by the valuation agencies, for verification.
9. Polling will be done for two sets of securities, Benchmark & Others.
10. Benchmark will be defined for the following categories across tenors.
  - a) Treasury Bills
  - b) Central Government Securities
  - c) State Government Securities
  - d) AAA PSU / PFI / PSU Banks
  - e) AAA Private
  - f) NBFC
  - g) HFC
  - h) Any other as required for improving fair valuations.
11. Polling shall be conducted in the following two scenarios:
  - a) Validation of traded levels if they are outlier trades.

- b) Non traded Securities (in exceptional circumstances as defined in the waterfall mechanism for valuation of money market and debt securities).
- 12. Best efforts should be made by poll submitters to provide fair valuation of a security.
- 13. The polling process will be revalidated by external audit of the valuation agencies with at least an annual frequency
- 14. AMCs shall have a written policy, approved by the Board of AMC and Trustees, on governance of the polling process. The aforesaid policy shall include measures for mitigation of potential conflicts of interest in the polling process and shall identify senior officials, with requisite knowledge and expertise, who shall be responsible for polling. Further, the policy should outline the following aspects:
  - a) the process of participating in a polling exercise.
  - b) identify the roles and responsibilities of persons participating in the polling.
  - c) include policies and procedures for arriving at the poll submission
  - d) cover the role of the Board of AMC and Trustees, and the periodic reporting that needs to be submitted to them.
  - e) All polling should be preferably over email. In case for any reason, the polling is done by way of a telephonic call then such a call should be over recorded lines, followed subsequently by an email.
  - f) AMCs should have adequate business continuity arrangements for polling, with the necessary infrastructure / skill to ensure that consistent delivery of poll submissions is made without material interruption due to any failure, human or technical.
- 15. All polling done will have to be documented and preserved in format approved by the Board of AMC, for a period of eight years, along-with details of the basis of polling (such as market transactions, market quotes, expert judgement etc.).
- 16. AMCs shall ensure that participation in the polling process is not mis-used to inappropriately influence the valuation of securities. The officials of the AMC who are responsible for polling in terms of point no. 14 above, shall also be personally liable for any misuse of the polling process.
- 17. AMCs shall maintain an audit trail for all polls submitted to valuation agencies.

## A. COMPUTATION OF NAV

### A. Policy of computation of NAV

- The Net Asset Value (NAV) of the scheme shall be calculated by determining the value of the scheme's assets and subtracting therefrom the liabilities of the scheme taking into consideration the accruals and provisions. NAV shall be declared separately for the different Plans and Options of the scheme.
- The NAV per unit of the scheme shall be calculated by dividing the NAV of the scheme by the total number of units issued and outstanding on the date of calculation under the scheme. The NAV shall be rounded off upto four decimal places for the scheme.

NAV of the Units under the Scheme shall be calculated as shown below:-

$$\text{NAV} = \frac{\text{Market or Fair Value of Scheme's investments} + \text{Current Assets} - \text{Current Liabilities and Provision}}{\text{No of Units outstanding under Scheme on the Valuation Date}}$$

The NAV under the Scheme would be rounded off to 4 decimals and Units will be allotted upto three decimal places or such other formula as may be prescribed by SEBI from time to time.

### Methodology for Calculation of Sale and Re-purchase price of the units of mutual fund scheme

#### i) In case of Purchase of mutual fund units

As per existing regulation, no entry load is charged with respect to applications for purchase / additional purchase of mutual fund units. Therefore, Computation of Sale Price is as below:

NAV	10.00
Entry Load	Not Applicable
Sale Price	10.00

This also means, Sale Price = NAV as on date of investment

#### ii) Redemption/ Repurchase of mutual fund units

In case of redemption, repurchase price is calculated as below

Repurchase Price = NAV as on date of redemption - exit load (if applicable)

#### iii) Illustration showing how repurchase price is calculated under 2 different scenarios-

#### **Specified Mutual Funds as defined under Income Tax Act:**

Section 50AA of the Act was introduced in Finance Act 2023 w.e.f. 01<sup>st</sup> April 2023 and acts as an overriding provision with regards to the definition of STCA provided in Section 2(42A) of the Act. Section 50AA of the Act provides that gains from transfer of units of a specified mutual fund will be considered as STCG regardless of the holding period of such capital asset and gains arising out of their transfer will be taxed as STCG.

The term "specified mutual fund" as per the provisions of section 50AA of the Act, as applicable prior to the amendment by the Finance (No. 2) Act, 2024, is defined as a mutual fund by whatever name called, where not more than 35% of its total proceeds is invested in the equity shares of domestic companies.

Definition of specified mutual fund has been amended under section 50AA by the Finance (No. 2) Act, 2024, w.e.f. 01<sup>st</sup> April 2025 and as per the amendment the following schemes will be covered under specified mutual funds :

*"Specified Mutual Fund" means,—*

*(a) a Mutual Fund by whatever name called, which invests more than sixty-five per cent of its total proceeds in debt and money market instruments; or*

*(b) a fund which invests sixty-five per cent or more of its total proceeds in units of a fund referred to in sub-clause (a):*

*Provided that the percentage of investment in debt and money market instruments or in units of a fund, as the case may be, in respect of the Specified Mutual Fund, shall be computed with reference to the annual average of the daily closing figures:*

*Provided further that for the purposes of this clause, "debt and money market instruments" shall include any securities, by whatever name called, classified or regulated as debt and money market instruments by the Securities and Exchange Board of India.*

Thus, by virtue of the Finance (No. 2) Act, 2024, w.e.f. 01<sup>st</sup> April 2025, Fund of Funds which invest sixty-five per cent or more of the total proceeds in units of a fund which invests more than sixty-five per cent of its total proceeds in debt and money market instruments have been included explicitly within the ambit of Specified Mutual Fund.

Although, Fund of Funds were not specifically included in the definition of Specified Mutual Fund prior to the Finance Act (No.2) of 2024, there is a possibility that the income tax authorities may take a stand that the amendment brought in the definition of "specified mutual fund" despite being made effective from 01<sup>st</sup> April 2025, appears to be a clarificatory amendment and the same may be interpreted to have a retrospective operation so as to include FoF w.e.f. from 01<sup>st</sup> April 2023.

**Surcharge and Health & Education Cess:**

The tax is to be increased by applicable surcharge. Further, Health and Education Cess @ 4% is to be charged on amount of tax and surcharge.

**ii) For Non Resident Investors**

For non-resident investors, income tax at source will be deducted at the applicable rates.

**Surcharge and Health & Education Cess:**

The tax / TDS (except STT) is to be increased by applicable surcharge. Further Health and Education Cess @ 4% is to be charged on amount of tax and surcharge.

As per the provisions of Section 80 C of the Act, if an assessee terminates the participation in the ULIP 1971 or where the assessee ceases to participate by reason of failure to pay any contribution, by not reviving the participation, before contributions in respect of such participation have been paid for five years, in such an event no deduction shall be allowed for any sums paid/contribution made during the year and also the aggregate amount of the deductions of income so allowed in respect of the previous year/s shall be deemed to be the income of the assessee of such previous year and shall be liable to tax.

This exemption is available to assesseees who have opted for the old tax regime and assesses who have opted for the new tax regime will not be eligible to get this deduction.

In case of total TDS exceeding the actual tax liability of any investor, the investor can claim refund while filing income-tax return.

The declaration should contain the name, address, permanent account number or aadhaar number of the person to whom the credit is to be given, payment or credit in relation to which credit is to be given and reasons for giving credit to such person. In the absence of such a declaration, UTI Mutual Fund will deduct TDS on dividend credited / paid under the PAN of the minor. #### **Foreign Account Tax Compliance Act (FATCA)**

Investment in the Units is also subject to various requirements/conditions under Foreign Account Tax Compliance Act (FATCA) of the United States of America with the objective of tackling tax evasion through obtaining information in respect of offshore financial accounts maintained by USA residents and citizens. India and USA have entered into Inter-Governmental Agreement (IGA) in July 2015 which, inter alia, provides that the Indian FIs (including Mutual Funds) will provide necessary information to the Indian tax authorities, which will then be transmitted to USA periodically.

These developments will also enable the Indian tax authorities to automatically receive information of Indian residents who have stashed assets in foreign participating jurisdictions.

#### **Common Reporting Standard (CRS)**

To combat the problem of offshore tax evasion and avoidance and stashing of unaccounted money abroad requiring cooperation amongst tax authorities, the G20 and OECD countries have developed a Common Reporting Standard (CRS) on Automatic Exchange of Information (AEOI). India has joined Multilateral Competent Authority Agreement to implement to implement Automatic Exchange of Information based on

Common Reporting System (CRS) for automatic exchange of information. From the year 2017, amongst several other countries, India has started sharing tax information on automatic basis.

The CRS on AEOI requires the financial institutions of the “source” jurisdiction to collect and report information to their tax authorities about account holders “resident” in other countries, such information having to be transmitted “automatically” on yearly basis. The information to be exchanged relates not only to individuals but also to shell companies and trusts having beneficial ownership or interest in the “resident” countries. Further, the reporting needs to be done for a wide range of financial products, by a wide variety of financial institutions including banks, depository institutions, collective investment vehicles, mutual funds and insurance companies. These are very wide in scope and obliges the treaty partners to exchange a wide range of financial information, including that about the ultimate controlling persons and beneficial owners of entities.

For implementation of the FATCA and CRS, amendments have been made to section 285BA of the Income Tax Act, 1961 and necessary rules and guidelines have been framed. Under the FATCA and CRS bulk taxpayer information will periodically be sent by the source country of income to the country of residence of the taxpayer.

#### **Foreign Account Tax Compliance Act (FATCA)**

Investment in the Units is also subject to various requirements/conditions under Foreign Account Tax Compliance Act (FATCA) of the United States of America with the objective of tackling tax evasion through obtaining information in respect of offshore financial accounts maintained by USA residents and citizens. India and USA have entered into Inter-Governmental Agreement (IGA) in July 2015 which, inter alia, provides that the Indian FIs (including Mutual Funds) will provide necessary information to the Indian tax authorities, which will then be transmitted to USA periodically.

These developments will also enable the Indian tax authorities to automatically receive information of Indian residents who have stashed assets in foreign participating jurisdictions.

#### **Common Reporting Standard (CRS)**

To combat the problem of offshore tax evasion and avoidance and stashing of unaccounted money abroad requiring cooperation amongst tax authorities, the G20 and OECD countries have developed a Common Reporting Standard (CRS) on Automatic Exchange of Information (AEOI). India has joined Multilateral Competent Authority Agreement to implement to implement Automatic Exchange of Information based on Common Reporting System (CRS) for automatic exchange of information. From the year 2017, amongst several other countries, India has started sharing tax information on automatic basis.

The CRS on AEOI requires the financial institutions of the “source” jurisdiction to collect and report information to their tax authorities about account holders “resident” in other countries, such information having to be transmitted “automatically” on yearly basis. The information to be exchanged relates not only to individuals but also to shell companies and trusts having beneficial ownership or interest in the “resident” countries. Further, the reporting needs to be done for a wide range of financial products, by a wide variety of financial institutions including banks, depository institutions, collective investment vehicles, mutual funds and insurance companies.

These are very wide in scope and obliges the treaty partners to exchange a wide range of financial information, including that about the ultimate controlling persons and beneficial owners of entities.

For implementation of the FATCA and CRS, amendments have been made to section 285BA of the Income Tax Act, 1961 and necessary rules and guidelines have been framed. Under the FATCA and CRS bulk taxpayer information will periodically be sent by the source country of income to the country of residence of the taxpayer.

## **(9) ASBA disclosures**

**Additional mode of payment through Applications Supported by Blocked Amount (ASBA) facility:**  
 Pursuant to SEBI Circular dated SEBI/IMD/CIR No 18 /198647 /2010 March 15, 2010, and Cir / IMD / DF / 6 / 2010 dated July 28, 2010, in respect of New Fund Offer (NFO) of Schemes / Plan(s) launched on or after October 1, 2010, investor can subscribe to the NFO through Applications Supported by Blocked Amount (ASBA) facility by applying for the Units offered under the Option(s) / Plan(s) of the Scheme(s) in the ASBA Application Form and by following the procedure as prescribed in the form.

ASBA is an application containing an authorization given by the Investor to block the application money in his specified bank account towards the subscription of Units offered during the NFO of the Scheme of UTI Mutual Fund.

An Investor intending to subscribe to the Units of the NFO through ASBA, shall submit a duly completed ASBA Application Form to a Self Certified Syndicate Bank (SCSB), with whom his/her bank account is maintained, either physically with the Designated Branches (DBs) of the SCSB ("Physical ASBA"); or electronically through the internet banking facility offered by the SCSB ("Electronic ASBA"). SCSB is a bank which is recognized as a bank capable of providing ASBA services to its customers, the list of which is available on the websites of BSE ([www.bseindia.com](http://www.bseindia.com)), NSE ([www.nseindia.com](http://www.nseindia.com)) and SEBI ([www.sebi.gov.in](http://www.sebi.gov.in)).

On acceptance of Physical or Electronic ASBA, the SCSB shall block funds available in the bank account specified to the extent of the application money specified in the ASBA.

The application money towards the Subscription of Units shall be blocked in the account until (a) Allotment of Units is made or (b) Rejection of the application or (c) Winding up of the Scheme, as the case may be.

SCSBs shall unblock the bank accounts for (a) Transfer of requisite money to the Mutual Fund / Scheme bank account against each valid application on allotment or (b) in case the application is rejected.

Thus, for an investor who applies through ASBA facility, the application money towards the subscription of Units shall be debited from his specified bank account only if his/her application is considered for allotment of Units.

#### **(10) Portfolio Turnover Details**

The Portfolio Turnover Ratio reflects the percentage of portfolio holdings that were changed/bought/sold/turned over in a year. If a fund has a portfolio turnover ratio of 25%, that would mean that 25% of its securities were sold/bought in the previous year. Thus, a higher portfolio turnover ratio implies that the fund manager is changing the holdings at a higher rate and vice versa.

Portfolio Turnover Ratio = 
$$\frac{\text{No. of securities brought or sold (whichever is lesser)}}{\text{Average AUM of the fund}}$$

For example, if your mutual fund scheme buys securities worth Rs 1000 Cr, and sells securities worth Rs 800 Cr in a year; then, provided that its average AUM was Rs 1200 Cr

Portfolio Turnover Ratio=  $800 \text{ Cr} / 1200 \text{ Cr} \% = 66.667\%$

The above example is for illustration purposes only.

UTI Mutual Fund shall provide the details pertaining to portfolio turnover ratio of equity oriented scheme's in the offer documents (Scheme Information Document (SID) / Key Information Memorandum (KIM)) of the respective scheme of UTI Mutual Fund.

## G. INFORMATION PERTAINING TO INVESTMENTS BY THE SCHEMES OF THE FUND

### 1. Derivative strategies

#### **Derivatives:**

A derivative instrument, broadly, is a financial contract whose payoff structure is determined by the value of an underlying security, index, interest rate etc. Thus a derivative instrument derives its value from some underlying variable.

Derivatives are further classified into:-

Futures

Options

Swaps

**Futures:** A futures contract is a standardized contract between two parties where one of the parties commits to sell, and the other to buy, a stipulated quantity of a security at an agreed price on or before a given date in future.

#### **Options:**

An option is a derivative instrument, which gives its holder (buyer) the right but not the obligation to buy or sell the underlying security at the contracted price on or before the specified date. The purchase of an option requires an up-front payment (premium) to the seller of the option.

There are two basic types of options, call option and put option.

**(a) Call option:** A call option gives the buyer of the option the right but not the obligation to buy a given quantity of the underlying asset, at a given price (strike price), on or before a given future date.

**(b) Put option:** A put option gives the buyer of the option the right but not the obligation to sell a given quantity of the underlying asset, at a given price (strike price), on or before a given future date.

On expiry of a call option, if the market price of the underlying asset is lower than the strike price the call would expire unexercised. Likewise, if, on the expiry of a put option, the market price of the underlying asset is higher than that of the strike price the put option will expire unexercised.

The buyer/holder of an option can make loss of not more than the option premium paid to the seller/writer but the possible gain is unlimited. On the other hand, the option seller/writer's maximum gain is limited to the option premium charged by him from the buyer/holder but can make unlimited loss.

#### **Swaps:**

The exchange of a sequence of cash flows that derive from two different financial instruments. For example, the party receiving fixed in an ordinary Interest Rate Swap receives the excess of the fixed coupon payment over the floating rate payment. Of course, each payment depends on the rate, the relevant day count convention, the length of the accrual period, and the notional amount.

Debt derivatives are as of now customized over the counter products and there is no guarantee that these products will be available on tap. There are various possible combinations of strategies, which may be adopted, in a specific situation. The provision for trading in derivatives is an enabling provision and it is not binding on the Scheme to undertake trading on a day to day basis.

#### **Some of the derivative techniques/ strategies that may be used are:-**

- (i) The eligible schemes may use hedging techniques including dealing in derivative products – like futures and options, warrants, interest rate swaps (IRS), forward rate agreement (FRA) as may be permissible under SEBI (MF) Regulations.
- (ii) The eligible schemes may take derivatives position based on the opportunities available and in line with the overall investment objective of the scheme. This may be taken to hedge the portfolio and rebalance the same.

- (iii) The respective Fund manager may use various strategies for trading in derivatives with a view to enhancing returns and taking cover against possible fluctuations in the market.
- (iv) The respective Fund Manager may sell the index forward by taking a short position in index futures to save on the cost of outflow of funds or in the event of negative view on the market.

## 2. Swing Pricing

The swing pricing framework ensures that the impact cost of high redemption is passed on the investors exiting the scheme, while incoming investors in such time benefit due to lower NAV.

### Swing pricing in open ended debt schemes of UTI Mutual Fund

In terms of provision no.4.10.1 of para 4.10 under chapter 4 of SEBI Master Circular for Mutual Funds No.SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated June 27, 2024 swing pricing framework is introduced by SEBI for all open ended debt schemes (except overnight funds, Gilt funds and Gilt with 10-year maturity funds)

SEBI has prescribed swing pricing for scenarios related to net outflows from the schemes. Accordingly, a mandatory full swing during market dislocation times for high-risk open ended debt schemes is introduced in scheme provisions.

SEBI will determine 'market dislocation' either based on AMFI's recommendation or suo moto.

### Provisions for Swing Pricing during Market Dislocation

- a) **Swing Pricing:** Swing pricing refers to a process for adjusting a scheme's Net Asset Value (NAV) to effectively pass on transaction costs stemming from significant net capital activity (i.e., flows into or out of the fund) to the investors associated with that activity. Swing pricing is an anti-dilution adjustment that seeks to protect investors in a scheme from performance dilution as a result of significant outflows from the scheme, particularly during market dislocation. SEBI has prescribed swing pricing for scenarios related to net outflows from the schemes.
- b) **Market Dislocation Period:** Market dislocation would be declared and notified by SEBI. Swing pricing will be applicable for a specified period as notified by SEBI.
- c) **Swing Pricing Framework:** Subsequent to the announcement of market dislocation, the swing pricing framework shall be mandated only in scheme which:
  - i. have High or Very High risk on the risk-o-meter (as of the most recent period at the time of declaration of market dislocation) and
  - ii. classify themselves, on the date of declaration, in the cells A-III, B-II, B-III, C-I, C-II and C-III of Potential Risk Class (PRC) Matrix in terms of SEBI circular dated June 7, 2021.
- d) **Swing Factor:** The minimum swing factor as given below will be applicable. This shall be made applicable to the respective scheme/s and the NAV will be adjusted downward for swing factor.

Minimum swing factor for open ended debt schemes			
Credit Risk of scheme → Interest Rate Risk of scheme ↓	Class A (CRV*≥12)	Class B (CRV≥10)	Class C(CRV<10)
Class I: (MD≤1 year)	NIL	NIL	1.50%
Class II: (MD≤3 years)	NIL	1.25%	1.75%
Class III: Any Macaulay duration	1.00%	1.50%	2.00%
*CRV: Credit Risk Value			

### e) Applicability of Swing Pricing to Investors:

- i. When swing pricing mechanism is triggered and swing factor is made applicable during market dislocation, both the entering and exiting investors shall get NAV adjusted for swing pricing.

- ii. Swing pricing shall be made applicable to all unitholders at PAN level, with an exemption for redemptions up to Rs.2 lacs for each mutual fund scheme for market dislocation.

**f) Illustration on the swing pricing effect on the NAV for incoming and outgoing investors.**

Consider a scheme having NAV of Rs 100 and swing factor of 1%, the NAV shall be adjusted as below on issue of notification of market dislocation by SEBI:

Swing NAV = unswung NAV \* (1 – swing factor)

= Rs. 100 \* (1-0.01)

= Rs. 100 \* (0.99)

= Rs. 99

If there is any exit load applicable as per scheme provisions, the same will be applied on swung NAV.

- g) Computation of NAV for purpose of scheme performance:** The scheme performance shall be computed based on unswung NAV.

Disclosures pertaining to NAV adjusted for swing factor along with the performance impact (in the prescribed format by SEBI) shall be made in the SID and in scheme wise Annual Reports and Abridged summary and the same shall be disclosed on the website prominently only if swing pricing framework has been made applicable for the said mutual fund scheme.

**Triggering Swing Pricing on Re-opening of a Scheme after announcement of winding up of open ended debt Schemes pursuant to the SEBI letter no. SEBI/HO/IMD-PoD1/OW/P/2024/24219/1 dated July 30, 2024 and AMFI best practice Guidelines no. 96B/ 2024-25 dated November 4, 2024:**

There may be instances where an AMC after making an announcement to wind up a scheme, decides to roll-back the decision to wind up the scheme. Such situations may trigger large scale redemptions and hence it would be prudent to invoke the Swing Pricing mechanism to manage such a situation. In other words, if an AMC decides to reverse its decision to wind up the scheme, it shall mandatorily invoke the Swing pricing upon re-opening a scheme for subscriptions and redemptions post such announcement.

The indicative range of swing pricing shall be as suggested by AMFI for swing pricing during normal times as outlined in the AMFI Best Practice Circular no. 96/ 2021-22 dated March 23, 2022 as given below, and shall be higher of swing period as may be decided by the Board of AMC or for a minimum of 7 working days, upon re-opening a scheme for subscriptions and redemptions.

Indicative Swing factor			
Credit Risk of scheme →	Class A (CRV*≥12)	Class B (CRV≥10)	Class C (CRV<10)
Interest Rate Risk of scheme ↓			
Class I: (MD**≤1 year)	NIL	0.05%	0.20%
Class II: (MD≤3 years)	0.05%	0.10%	0.40%
Class III: Any Macaulay duration	0.10%	0.20%	0.60%
*CRV: Credit Risk Value **MD: Macaulay duration			

Provisions on creation of Segregated portfolio/Side pocketing

**Procedure to create a segregated portfolio**

UTI AMC may create segregated portfolio in the scheme subject to the following:

- Segregated portfolio may be created, in case of a credit event at issuer level i.e. downgrade in credit rating by a SEBI registered Credit Rating Agency (CRA), as under:
  - Downgrade of a debt or money market instrument to 'below investment grade', or
  - Subsequent downgrades of the said instruments from 'below investment grade', or
  - Similar such downgrades of a loan rating.
  - For unrated debt or money market instruments, segregated portfolio may be created only in case of actual default of either the interest or principal amount.

2. In case of difference in rating by multiple CRAs, the most conservative rating shall be considered. Creation of segregated portfolio shall be based on issuer level credit events as detailed above and implemented at the ISIN level.
3. Creation of segregated portfolio shall be optional and at the discretion of UTI AMC.

#### **4. Process for creation of segregated portfolio**

- a. In case UTI AMC decides on creation of segregated portfolio on the day of credit event it shall
  - i. seek approval of trustees prior to creation of the segregated portfolio.
  - ii. immediately issue a press release disclosing its intention to segregate such debt and money market instrument and its impact on the investors and also disclose that the segregation shall be subject to trustee approval. Additionally, the said press release shall be prominently disclosed on the website of UTI MF.
  - iii. ensure that till the time the trustee approval is received, which in no case shall exceed 1 business day from the day of credit event, the subscription and redemption in the scheme shall be suspended for processing with respect to creation of units and payment on redemptions.
- b. Once trustee approval is received by UTI AMC,
  - i. Segregated portfolio shall be effective from the day of credit event
  - ii. UTI AMC shall issue a press release immediately with all relevant information pertaining to the segregated portfolio. The said information shall also be submitted to SEBI.
  - iii. An e-mail or SMS shall be sent to all unit holders of the scheme.
  - iv. The NAV of both segregated and main portfolio shall be disclosed from the day of the credit event.
  - v. All existing investors in the scheme as on the day of the credit event shall be allotted equal number of units in the segregated portfolio as held in the main portfolio.
  - vi. No redemption and subscription shall be allowed in the segregated portfolio. However, in order to facilitate exit to unit holders in segregated portfolio, UTI AMC shall enable listing of units of segregated portfolio on the recognized stock exchange within 10 working days of creation of segregated portfolio and also enable transfer of such units on receipt of transfer requests.
- c. If the trustees do not approve the proposal to segregate portfolio, UTI AMC shall issue a press release immediately informing investors of the same.

#### **5. Valuation and processing of subscriptions and redemptions of segregated portfolio**

- a. Notwithstanding the decision to segregate the debt and money market instrument, the valuation shall take into account the credit event and the portfolio shall be valued based on the principles of fair valuation (i.e. realizable value of the assets) in terms of the relevant provisions of SEBI (Mutual Funds) Regulations, 1996 and Circular(s) issued thereunder.
- b. All subscription and redemption requests for which NAV of the day of credit event or subsequent day is applicable will be processed as per the existing circular on applicability of NAV as under:
  - i. Upon trustees' approval to create a segregated portfolio -
    - Investors redeeming their units will get redemption proceeds based on the NAV of main portfolio and will continue to hold the units of segregated portfolio.
    - Investors subscribing to the scheme will be allotted units only in the main portfolio based on its NAV.
  - ii. In case trustees do not approve the proposal of segregated portfolio, subscription and redemption applications will be processed based on the NAV of total portfolio.

#### **6. Disclosure Requirements**

In order to enable the existing as well as the prospective investors to take informed decision, the following shall be adhered to:

- a. A statement of holding indicating the units held by the investors in the segregated portfolio along with the NAV of both segregated portfolio and main portfolio as on the day of the credit event shall be communicated to the investors within 5 working days of creation of the segregated portfolio.

- b. Adequate disclosure of the segregated portfolio shall appear in all scheme related documents, in monthly and half-yearly portfolio disclosures and in the annual report of the mutual fund and the scheme.
- c. The Net Asset Value (NAV) of the segregated portfolio shall be declared on daily basis.
- d. The information regarding number of segregated portfolios created in a scheme shall appear prominently under the name of the scheme at all relevant places such as SID, KIM-cum-Application Form, advertisement, UTI MF and AMFI websites, etc.
- e. The scheme performance required to be disclosed at various places shall include the impact of creation of segregated portfolio. The scheme performance should clearly reflect the fall in NAV to the extent of the portfolio segregated due to the credit event and the said fall in NAV along with recovery (ies), if any, shall be disclosed as a footnote to the scheme performance.
- f. The disclosures for above points (d) & (e) regarding the segregated portfolio shall be carried out for a period of at least 3 years after the investments in segregated portfolio are fully recovered/ written-off.
- g. The investors of the segregated portfolio shall be duly informed of the recovery proceedings of the investments of the segregated portfolio. Status update may be provided to the investors at the time of recovery and also at the time of writing-off of the segregated securities.

#### **7. TER for the Segregated Portfolio**

- a. UTI AMC will not charge investment and advisory fees on the segregated portfolio. However, TER (excluding the investment and advisory fees) can be charged, on a pro-rata basis only upon recovery of the investments in segregated portfolio.
- b. The TER so levied shall not exceed the simple average of such expenses (excluding the investment and advisory fees) charged on daily basis on the main portfolio (in % terms) during the period for which the segregated portfolio was in existence.
- c. The legal charges related to recovery of the investments of the segregated portfolio may be charged to the segregated portfolio in proportion to the amount of recovery. However, the same shall be within the maximum TER limit as applicable to the main portfolio. The legal charges in excess of the TER limits, if any, shall be borne by UTI AMC.
- d. The costs related to segregated portfolio shall in no case be charged to the main portfolio.

#### **8. Monitoring by Trustees**

In order to ensure timely recovery of investments of the segregated portfolio, trustees would continuously monitor the progress and take suitable action as may be required.

In order to avoid mis-use of segregated portfolio, trustees will ensure to have a mechanism in place to negatively impact the performance incentives of Fund Managers, Chief Investment Officers (CIOs), etc. involved in the investment process of securities under the segregated portfolio, mirroring the existing mechanism for performance incentives of the AMC, including claw back of such amount to the segregated portfolio of the scheme.
