V. RISK FACTORS

A. STANDARD RISK FACTORS

1. Standard Risk Factors for investments in Mutual Fund

- Investment in Mutual Fund Units involves investment risks such as trading volumes, settlement risk, liquidity risk, default risk including the possible loss of principal.
- As the price/value/interest rates of the securities in which the Scheme invests fluctuates, the value of your investment in the Scheme may go up or down depending on the various factors and forces affecting the capital markets and money markets.
- Past performance of the Sponsor and its associates/AMC/Mutual Fund does not guarantee future performance of the Scheme of the Mutual Fund.
- The name of the Scheme does not in any manner indicate either the quality of the Scheme or their future prospects and returns.
- The Sponsor is not responsible or liable for any loss resulting from the operation of the Scheme beyond the initial contribution of Rs. 1 lakh made by it towards setting up the Fund.
- The present Scheme(s) are not guaranteed or assured return scheme.

2. Requirement of minimum investors in the scheme (applicable for an open-ended schemes)

The Scheme shall have a minimum of 20 investors and no single investor shall account for more than 25% of the corpus of the Scheme. However, if such limit is breached during the NFO of the Scheme, the Fund will endeavour to ensure that within a period of three months or the end of the succeeding calendar quarter from the close of the NFO of the Scheme, whichever is earlier, the Scheme complies with these two conditions. In case the Scheme does not have a minimum of 20 investors in the stipulated period, the provisions of Regulation 39(2)(c) of the SEBI (MF) Regulations would become applicable automatically without any reference from SEBI and accordingly the Scheme shall be wound up and the units would be redeemed at applicable NAV. The two conditions mentioned above shall be complied within each calendar quarter, on an average basis, as specified by SEBI. If there is a breach of the 25% limit by any investor over the quarter, a rebalancing period of one month would be allowed and thereafter the investor who is in breach of the rule shall be given 15 days' notice to redeem his exposure over the 25% limit. Failure on the part of the said investor to redeem his exposure over the 25% limit within the aforesaid 15 days would lead to automatic redemption by the Mutual Fund on the applicable Net Asset Value on the 15th day of the notice period. The Fund shall adhere to the requirements prescribed by SEBI from time to time in this regard.

(applicable for a Close ended schemes/Interval schemes)

The Scheme(s) and individual Plan(s) under the Scheme(s) shall have a minimum of 20 investors and no single investor shall account for more than 25% of the corpus of the Scheme(s)/Plan(s). These conditions will be complied with immediately after the close of the NFO itself i.e. at the time of allotment. In case of non-fulfillment with the condition of minimum 20 investors, the Scheme(s)/Plan(s) shall be wound up in accordance with Regulation 39(2)(c) of SEBI (MF) Regulations automatically without any reference from SEBI. In case of non-fulfillment with the condition of 25% holding by a single investor on the date of allotment, the application to the extent of exposure in excess of the

stipulated 25% limit would be liable to be rejected and the allotment would be effective only to the extent of 25% of the corpus collected. Consequently, such exposure over 25% limits will lead to refund within 6 weeks of the date of closure of the New Fund Offer.

For interval schemes the aforesaid provision will be applicable at the end of NFO and specified transaction period.

3. Risk factors of not maintaining average AUM of Rs.20 crore on half yearly rolling basis (Applicable only for open ended debt oriented schemes)

The Scheme shall maintain an average AUM of Rs.20 crore on half yearly rolling basis. In case, the average AUM falls below Rs.20 crore, the AMC shall scale up the AUM of such Scheme within a period of six months so as to maintain the average AUM of Rs.20 crore on half yearly rolling basis, failing which the Scheme shall be wound up in accordance with the provisions of Regulation 39 (2) (c) of SEBI (Mutual Funds) Regulations, 1996 as amended from time to time.

4. Risks associated with different derivative strategies, as applicable

The AMC, on behalf of the Scheme may use various derivative products, from time to time, in an attempt to protect the value of the portfolio and enhance Unit holders' interest. Derivative products are specialized instruments that require investment techniques and risk analysis different from those associated with stocks and bonds. The use of a derivative requires an understanding not only of the underlying instrument but of the derivative itself. Other risks include, the risk of mispricing or improper valuation and the inability of derivatives to correlate perfectly with underlying assets, rates and indices.

Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the fund manager to identify such opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and decision of fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies.

The risks associated with the use of derivatives are different from or possibly greater than, the risks associated with investing directly in securities and other traditional investments.

5. Risks specific to certain derivative strategies are highlighted below:

(i) Risk Factors of SWAP/Forward Rate Agreement (FRAs)/Interest Rate Futures (IRFs)

Credit Risk: The credit risk in derivative transaction is the risk that the counter party will default on its obligations and is generally low, as there is no exchange of principal amounts in a derivative transaction.

Market Risk: Market movements may adversely affect the pricing and settlement of derivatives.

Illiquidity Risk: This is the risk that a derivative cannot be sold or purchased quickly enough at a fair price, due to lack of liquidity in the market.

(ii) Basis Risk associated with imperfect hedging using Interest Rate Futures (IRF): The imperfect correlation between the prices of securities in the portfolio and the IRF contract used to hedge part of the portfolio leads to basis risk. Thus, the loss on the portfolio may not exactly match the gain from the hedge position entered using the IRF.

(iii) **Risk pertaining to covered call strategy:** Incorrectly pricing the option premium before writing the covered call by ignoring factors which determine pricing like number of days to expiry, adjustment with respect to announced corporate actions like dividend etc.

(iv) **Risk pertaining to Basic Structure of an Index Future:**

RISKS associated with index future strategy:

- The strategy of taking a long position in index futures increases the exposure to the market. The long position is positively correlated with the market. However, there is no assurance that the stocks in the portfolio and the index behave in the same manner and thus this strategy may not provide gains perfectly aligned to the movement in the index.
- The long position will have as much loss/gain as in the Underlying Index. e.g. if the index appreciates by 10%, the index future value rises by 10%. However, this is true only for futures contracts held till maturity. In the event that a futures contract is closed out before its expiry, the quoted price of the futures contract may be different from the gain/loss due to the movement of the Underlying Index. This is called the basis risk.
- While futures markets are typically more liquid than the underlying cash market, there can be no assurance that ready liquidity would exist at all points in time, for the Scheme to purchase or close out a specific futures contract.

(v) **Risk pertaining to strategy of Downside Protection Using Stock Put:**

- There can be no assurance that ready liquidity would exist at all points in time, for the scheme to purchase or close out a specific options contract.
- A hedging strategy using Put Options is a perfect hedge on the expiration date of the put option. On other days, there may be (temporary) imperfect correlation between the share price and the put option.

(vi) **Risk pertaining to using Call option on Index to increase percentage investment in equities:**

- The strategy of taking a long position in index call option increases the exposure to the market. The long position is positively correlated with the market. However, there is no assurance that the stocks in the portfolio and the index behave in the same manner and thus this strategy may not provide gains perfectly aligned to the movement in the index.
- The risk/downside, if the market falls/remains flat is only limited to the option premium paid.
- The long position will have as much loss/gain as in the Underlying Index. For e.g. if the index appreciates by 10%, the index options value rises by 10%. However, this is true only for options held till maturity.
- While option markets are typically less liquid than the underlying cash market, hence there can be no assurance that ready liquidity would exist at all points in time, for the Scheme to purchase or close out a specific contract.
- **Risk pertaining to using Put option on Index to minimize downside in equities.**
- The strategy of taking a long position in index put

option hedges a portfolio of long only stocks/funds against potential markets falls. The long position in the put option is negatively correlated with the market. However, there is no assurance that the stocks in the portfolio and the index behave in the same manner and thus this strategy may not provide gains perfectly aligned to the movement in the index.

- The risk/downside, if the index remains above the strike price is **only limited to the option premium paid**. The premium paid is the maximum downside to the portfolio. There is positive return in the put strategy only if the index falls below the strike price.
- The long position will have as much loss/gain as the reverse of the Underlying Index. For e.g. if the index depreciates by 10%, the index options value rises by 10%. However, this is true only for options held till maturity.
- While option markets are typically less liquid than the underlying cash market, there can be no assurance that ready liquidity would exist at all points in time, for the Scheme to purchase or close out a specific contract.

6. Risk Factors on Swing Pricing (applicable to all open ended debt schemes except HDFC Gilt Fund, HDFC Overnight Fund and G-Sec Index Funds):

- Swing pricing refers to a process for adjusting a fund's Net Asset Value (NAV) to effectively pass on transaction costs stemming from net capital activity (i.e. flows into or out of a scheme) to the investors associated with that activity. This would help to ensure fairness of treatment to all the investors i.e. whether entering, exiting or remaining invested in mutual fund schemes, particularly during market dislocation.
- Impact on investors: When the Swing Framework is triggered and swing factor is made applicable, both the incoming (unit holders who submit purchase/switch-in requests) and outgoing investors (unit holders who submit redemption/switch out requests) shall get NAV adjusted downwards for swing factor. Swing pricing shall be made applicable to all unitholders at PAN level with an exemption for redemptions upto Rs. 2 lacs for each scheme.

7. Risk Factors on Backstop facility in the form of investment in Corporate Debt Market Development Fund ('CDMDF') (Applicable to all open ended debt schemes except HDFC Gilt Fund, HDFC Overnight Fund and HDFC NIFTY 1D Rate Liquid ETF - Growth):

CDMDF is set up as a scheme of the Trust registered as an Alternative Investment Fund ('AIF') in accordance with the SEBI (Alternative Investment Funds) Regulations, 2012 ("AIF Regulations"). The objective of the CDMDF is to help to develop the corporate debt market by providing backstop facility to instill confidence amongst the market participants in the corporate debt/bond market during times of market dislocation and to enhance the secondary market liquidity. In times of market dislocation, CDMDF shall purchase and hold eligible corporate debt securities from the participating investors i.e. Specified Debt-oriented schemes (i.e. Open ended Debt oriented Mutual Fund schemes excluding Overnight funds, Gilt fund, Gilt Fund with 10 year constant maturity, Index funds, ETFs and including Conservative Hybrid funds of HDFC MF (hereinafter referred to as 'Specified Schemes')) and sell as markets recover. The CDMDF will thus act as a key enabler for facilitating liquidity in the corporate debt market and to respond quickly in times of market dislocation. The trigger and period for

which the backstop facility will be open shall be as decided by SEBI. Thus, this backstop facility will help fund managers of the Scheme to generate better liquidity during market dislocation to help the schemes fulfill liquidity obligations under stress situation.

In accordance with the requirement of Regulation 43A of SEBI (Mutual Funds) Regulations, 1996 read with clause 16A.2.4.2 of Master Circular, as may be amended from time to time, on Investment by Mutual Fund Schemes in units of CDMDF, the applicable scheme shall invest (as initial contribution) 25 bps of its AUM as on December 31, 2022, in the units of the Corporate Debt Market Development Fund ('CDMDF'). An incremental contribution to CDMDF shall be made every six months (i.e. at the end of half year ended June and December) at the prevalent NAV of the respective Class Units to ensure 25 bps of scheme's AUM is invested in units of CDMDF. However, if AUM decreases there shall be no return or redemption of units from CDMDF. Contribution made to CDMDF, including the appreciations on the same, if any, shall be locked-in till winding up of the CDMDF.

The investments in CDMDF units shall not be considered as violation while considering maturity restriction as applicable for various purposes (including applicable Investment limits) and the calculations of Potential Risk Class (PRC) Matrix, Risk-o-meter, Stress testing and Duration for various purposes shall be done after excluding investments in units of CDMDF.

8. Risk factors associated with processing of transaction through Stock Exchange Mechanism

The trading mechanism introduced by the Stock Exchange(s) is configured to accept and process transactions for mutual fund Units in both Physical and Demat Form. The allotment and/or redemption of Units through NSE and/or BSE or any other recognised Stock Exchange(s), on any Business Day will depend upon the modalities of processing viz. collection of application form, order processing/settlement, etc. upon which the Fund has no control. Moreover, transactions conducted through the Stock Exchange mechanism shall be governed by the operating guidelines and directives issued by respective recognized Stock Exchange(s).

9. Liquidity Risk Management:

Liquidity Risk: Liquidity risk is the risk of not being able to sell/liquidate a security at short notice at prevailing market prices or without incurring impact cost. While government bonds, money market instruments and shorter maturity instruments are generally easier to sell, corporate bonds and other instruments typically face higher liquidity risk. Further, higher rated securities normally are more liquid compared to lower rated securities. As a result, different portfolios will face different levels of liquidity risk based on the underlying portfolio composition. Some of the strategies to reduce liquidity risk are creating portfolios that are diversified across maturities, ratings, types of securities, etc. in line with the fund objectives, regulations and investment strategy.

The liquidity Risk Management tools shall be as under:

Liquidity Management Tool	Brief Description
Potential Risk Matrix Circular & Risk-o-meter Circular	The maximum risk that a scheme will run as per design and a measurement of that risk on a regular basis. Remedial measures also in place in case any of the design boundaries are breached.

LRM Circular	Defines Liquidity Risk arising from the liability side and covers all potential liquidity risk scenarios upto 99% confidence interval. Has remedial measures both for managing this risk on an ongoing basis (LRaR&LCRaR) as well as action plan in case there is a difference between actual outcome and projected outcome.
Stress Testing Circular	Addresses the asset side risk from an Interest Rate, Credit and Liquidity Risk perspective at an aggregate portfolio level in terms of its impact on NAV.
RMC Circular	The RMC circular brings in ALM requirement which addresses potential Liquidity requirement over a 90-day period and required relevant asset side liquidity to be maintained.
Swing Pricing Circular	In case of severe liquidity stress at an AMC level or a severe dysfunction at market level, the Swing Pricing guidelines get triggered which offers the contingency plan in case all else fails.

26. Additional mode of payment through Applications Supported by Blocked Amount (ASBA) facility:

Pursuant to clause 14.8 of Master Circular an investor can subscribe to the New Fund Offers (NFOs) launched through ASBA facility by applying for the Units offered under the Option(s)/Plan(s) of the Scheme(s) in the ASBA Application Form and following the procedure as prescribed in the form. Hence, all the NFOs to be launched by the Mutual Fund shall have ASBA facility, which will co-exist with the existing mode of subscription.

ASBA is an application containing an authorization given by the Investor to block the application money in his/her specified bank account towards the subscription of Units offered during the NFO of the Scheme of HDFC Mutual Fund.

Thus, for an investor who applies through ASBA facility, the application money towards the subscription of Units shall be debited from his/her specified bank account only if his/her application is selected for allotment of Units.

Benefits of Applying through ASBA facility

- Writing cheques and demand drafts is not required, as investor needs to submit ASBA application Form accompanying an authorization to block the account to the extent of application money towards subscription of Units. The balance money, if any, in the account can be used for other purposes by the investors.
- Release/Unblocking of blocked funds after allotment is done instantaneously.
- Unlike other modes of payment, ASBA facility prevents the loss of interest income on the application money towards subscription of Units as it remains in the bank account of the investor till the allotment is made.
- Refunds of money to the investors do not arise as the application money towards subscription of Units gets blocked only on the allotment of Units.
- The investor deals with the known intermediary i.e. his/her own bank.

- (vi) The application form is simpler as the application form for ASBA will be different from the NFO application form.

ASBA Procedure

- (a) An Investor intending to subscribe to the Units of the NFO through ASBA, shall submit a duly completed ASBA Application Form to a Self Certified Syndicate Bank (SCSB), with whom his/her bank account is maintained.
- (b) An ASBA investor shall submit a duly filled up ASBA Application form, physically or electronically to the SCSB with whom the investors holds the bank account which is to be blocked:
 - i. In case of ASBA application in physical mode, the investor shall submit the ASBA Application form at the bank branch of SCSB, which is designated for the purpose and the investor must be holding a bank account with such SCSB.
 - ii. In case of ASBA application in electronic form, the investor shall submit the ASBA Application form either through the internet banking facility available with the SCSB, or such other electronically enabled mechanism for subscribing to units of Mutual Fund schemes authorizing to block the subscription money in a bank account.
- (c) An acknowledgement will be given by the SCSB in the form of the counter foil or specifying the application number for reference. Such acknowledgement does not guarantee, in any manner that the investors will be allotted the Units applied for.

Note: if the bank account specified in the ASBA Application Form does not have sufficient credit balance to meet the application money towards the subscription of Units, the Bank shall reject the ASBA Application form.

- (d) On acceptance of Physical or Electronic ASBA, the SCSB shall block funds available in the bank account specified to the extent of the application money specified in the ASBA Application Form.
- (e) ASBA application form will not be accepted by any of the offices of HDFC Mutual Fund or its Registrar & Transfer Agent, i. e. Computer Age Management Services (P) Ltd. (CAMS).
- (f) The application money towards the Subscription of Units shall be blocked in the account until (i) Allotment of Units is made or (ii) Rejection of the application or (iii) Devolvement of the Scheme, as the case may be.
- (g) SCSBs shall unblock the bank accounts for (i) Transfer of requisite money to the Mutual Fund/Scheme bank account against each valid application on allotment or (ii) in case the application is rejected.
- (h) During processing of the ASBA application Forms by R&TA, if the application is found to be incomplete or incorrect, the SCSB will be informed on the same who will then unblock the investor account with appropriate remarks in the investor account.
- (i) The list of SCSBs and their DBs where ASBA application form can be submitted is available on the websites of BSE (www.bseindia.com), NSE (www.nseindia.com) and SEBI (www.sebi.gov.in) and shall also be given in the ASBA application form.

Note: No request for withdrawal of ASBA application form will be allowed after the closure of New Fund Offer Period.

SUSPENSION OF SALE (INCLUDING SWITCH-IN) OF THE UNITS

The Mutual Fund at its sole discretion reserves the right to withdraw Sale (including switch-in) of the Units in the Scheme(s) (including Plan/Option of the Scheme) temporarily or indefinitely, if in the opinion of the AMC the general market conditions are not favourable and/or suitable investment opportunities are not available for deployment of funds.

1. When one or more stock exchanges or markets, which provide basis for valuation for a substantial portion of the assets of the Scheme are closed otherwise than for ordinary holidays.
2. When, as a result of political, economic or monetary events or any circumstances outside the control of the Trustee and the AMC, the disposal of the assets of the Scheme are not reasonable, or would not reasonably be practicable without being detrimental to the interests of the Unit holders.

11. In case of fund of fund schemes, if the underlying schemes suspend sale (including switch-in) of units.
12. If so directed by SEBI.

Additionally, the AMC reserves the right in its sole discretion to withdraw the facility of Sale (including switch-in) of Units into and out of the Scheme(s) (including any one Plan/Option of the Scheme), temporarily or indefinitely, if AMC views that changing the size of the corpus may prove detrimental to the existing Unit holders of the Scheme(s).

The Fund at its sole discretion reserves the right to restrict Redemption (including switch-out) of the Units (including Plan/Option) of the Scheme(s) of the Fund upon occurrence of the below mentioned events for a period not exceeding ten (10) working days in any ninety (90) days period subject to approval of the Board of Directors of the AMC and the Trustee. A list of such circumstances under which the restriction on Redemption or suspension of Redemption of the Units in the Scheme(s) of the Fund may be imposed are as follows:

1. Liquidity issues- when market at large becomes illiquid affecting almost all securities rather than any issuer specific security; or
2. Market failures/Exchange closures; or

3. Operational issues; or
4. If so directed by SEBI.

It is clarified that since the occurrence of the abovementioned eventualities have the ability to impact the overall market and liquidity situation, the same may result in exceptionally large number of Redemption requests being made and in such a situation the indicative timelines (i.e. within 3-4 Business Days for schemes other than liquid funds and within 1 Business Day for liquid funds) mentioned by the Fund in the scheme offering documents, for processing of requests for Redemption may not be applicable.

The eligible schemes

for Flex SIP investments are subject to change from time to time. Investors are requested to contact nearest Investor Service Centre (ISC) of the Fund or email us at hello@hdfcfund.com or visit our website www.hdfcfund.com for the updated list of eligible schemes.

Flex SIP Enrolment Details:

Scheme Name	:	HDFC XYZ Fund - Growth Option ("the Scheme")
Installment Date & Frequency of Flex SIP	:	15th of every month (T)
Fixed Installment Amount	:	Rs. 5000/-
Number of Installments	:	36
Total Enrolment Amount	:	Rs 5000 X 36 = Rs 1,80,000
Period	:	January 2022 to December 2024

i. How would the Flex SIP installment be calculated?

Calculation of Flex SIP installment amount for instance on the date of the fourth installment i.e. April 15, 2022 (T):

- Total units allotted upto the date of previous installment i.e. March 15, 2022 is assumed as 685.50;
- The Net Asset Value ("NAV") of the Scheme on April 13, 2022 (T-2) is assumed as Rs. 18/- per unit;
- Hence the market value of the investment in the Scheme on April 13, 2022 is Rs. 12,339 [685.50 X 18].

The installment amount will be calculated as follows:

Fixed amount specified at the time of enrolment: Rs. 5,000/-

or

As determined by the formula: $[(5,000 \times 4) - 12,339.00] = \text{Rs. } 7,661.00$

whichever is higher

Hence, the installment amount on April 15, 2020 will be Rs. 7,661/-

ii. How would maximum Flex SIP installment be calculated?

Calculation of Flex SIP installment amount for instance on the date of the seventh installment i.e. July 15, 2022 (T):

- Total units allotted upto the date of previous installment i.e. June 15, 2022 is assumed as 1,558.675;
- NAV of the Scheme on July 13, 2022 (T-2) is assumed as Rs. 14/- per unit;
- Hence the market value of the investment as on July 13, 2022 is Rs. 21,821 [1558.675 X 14].

The installment amount will be calculated as follows:

Fixed amount specified at the time of enrolment: Rs. 5,000/-

or

As determined by the formula: $[(5,000 \times 7) - 21,821.00] = \text{Rs. } 13,179.00$

whichever is higher; subject to 2 times the initial installment amount

Hence, the installment amount on July 15, 2022 will be Rs. 10,000/-

iii. How would the Flex SIP installment be calculated vis-à-vis total enrolment amount?

In the above illustration, the total enrolment amount for Flex SIP is Rs 1,80,000 (5000 X 36 months).

If the total amount invested in Flex SIP till the 34th month is Rs 1,77,000, then the 35th installment will be Rs. 3000 (Rs. 1,80,000 - Rs. 1,77,000) and the Flex SIP will cease.

An investor has an option to choose from 5 Flex SIP tenures viz. 3 years, 5 years, 10 years, 15 years and 20 years. If a tenure is not chosen, 5 years shall be the default Flex SIP tenure. The facility offers Monthly Flex Systematic Investment Plan (MFLEX) and Quarterly Flex Systematic Investment Plan (QFLEX) frequencies. In case the frequency is not indicated, Monthly frequency shall be treated as the Default Frequency.

The minimum amount per installment for shall be:

MFLEX: Rs. 500/- and in multiples of Rs. 100/- thereafter (For Equity Linked Savings Schemes (ELSS), it shall be Rs. 500/- and in multiples of Rs. 500/- thereafter)

QFLEX: Rs. 1500/- and in multiples of Rs. 100/- thereafter (For ELSS, it shall be Rs. 1500/- and in multiples of Rs. 500/- thereafter)

For ELSS Schemes, the amount invested in each installment shall be in multiples of Rs. 500/-. Investors can choose any preferred date of the month as SIP debit date (10th is the default date). In case the chosen date falls on a non-Business Day or on a date which is not available in a particular month, the SIP will be processed on the immediate next Business Day. If an investor chooses more than one date for SIP, separate SIPs shall be registered for each such date as per the frequency selected by the investor. Flex SIP shall be processed only through NACH mode.

Exit Load, if any, prevailing on the date of Flex SIP enrolment shall govern the investments during the tenure.

In the following circumstances, the Flex SIP facility may cease and SIP may be processed for the fixed installment amount specified by the unitholder at the time of enrolment:

- If there is a reversal of any SIP installment due to insufficient balance or technical reasons; or

- (b) If there is redemption/switch-out of any units allotted under Flex SIP. (Units under a Scheme are redeemed on First In First Out (FIFO) basis, irrespective of the mode of allotment).

Unitholders can discontinue the facility by giving thirty days written notice to any of the Fund's Investor Service Centres (ISCs). An investor can place a request for cancellation for any one SIP debit date, in case multiple debit dates are chosen.

Top up feature is not available under Flex SIP facility. All other terms and conditions of the SIP facility shall apply mutatis mutandis to the Flex SIP facility. The AMC/Trustee reserves the right to change/modify the terms and conditions of Flex SIP facility or withdraw the facility.

Please refer to the SIP/Flex SIP Enrolment Forms for further details and the terms & conditions before enrolment.

Any additional investment through SIP (including SIP Top - up if any)/lumpsum/switch-in in the folio will not be considered for computation of SWAP installment amount as per SWAP matrix for such investors.

SIP Tenure	Monthly SIP Amount	Default monthly SWAP amount if SWAP amount is not mentioned by investor
7 Years	Rs. 10,000	Rs. 10, 000
10 Years	Rs. 10,000	Rs. 15,000

The default amount for SWAP do not in any manner indicate return or assurance on the amount the investor will make or obtain by investing under the Facility. It only indicates the likely amount that can be withdrawn through SWAP. Investor can mention the SWAP amount of his/her choice. If no SWAP amount is mentioned, then default monthly SWAP amount will be withdrawn as shown in the table above. SWAP is a facility to withdraw fixed amount periodically from the investments by redeeming units. Thus, withdrawals happen from capital and appreciation portion of the investments.

SIP Top-Up and SIP Pause would be allowed under this facility. SIP Modification will not be allowed under this facility. However, the SWAP installment would get registered only based on the initial SIP amount (for investors who have not stated any SWAP amount).

Investors would be able to choose between the following two Options:

How will the facility work:

- Option A:** On completion of the SIP tenure, the entire accumulated units via the DREAM SIP facility of the respective scheme will be available for SWAP.

- **Option B:** On completion of 15 days from the date of last SIP installment in Source Scheme, the entire amount representing accumulated clear units will be transferred into the investor's chosen Target scheme.

- Investor cannot modify the previous mandate given under the facility during the tenure of the facility, except for change of Option or change of Target Scheme explained above.

SWAP will commence only subject to completion of statutory lock-in period, if any, applicable to units of relevant schemes and from units/folios which are free from any other encumbrances/restrictions.

Exit Load: Exit load shall be applicable as follows:

- Exit load as on the date of registration of dream SIP will be applicable on any redemptions/Switch-out from source during the tenure of SIP.
- In case of Option A, exit load as on the date of registration of dream SIP will be applicable on SWAP.
- In case of Option B, exit load in the source scheme, as on the date of registration of dream SIP will be applicable on the switch from Source scheme to target scheme. Redemptions/Switch Out:

Under Option A

Redemptions/Switch Out will be processed in the Scheme during DREAM SIP tenure. However, if any of the units acquired under this facility are impacted i.e. redeemed, then SWAP registration under this facility will stand cancelled. SIPs would continue just like a normal SIP till completion of SIP Tenure. Redemption/Switch-out from scheme under this facility will be allowed during the SWAP period and SWAP triggers will continue unaffected.

Systematic Transfer Plan (STP):

A Unit holder holding units in non-demat form may enroll for the Systematic Transfer Plan and choose to Switch on a daily, weekly, monthly or quarterly basis from one HDFC Mutual Fund scheme to another scheme, which is available for investment at that time. The provision of "Minimum Redemption Amount" of the designated Transferor Scheme(s) and "Minimum Application Amount" of the designated Transferee Scheme(s) shall not be applicable to STP.

The amount thus switched shall be converted into Units on the scheduled date and such number of Units will be subtracted from the Unit balance of the Transferor Scheme. In case these dates fall on a Holiday, the next Business Day will be considered for this purpose. The amount so switched shall be reinvested in the Transferee Scheme/Plan.

Presently STP offers investor two plans viz. Fixed Systematic Transfer Plan (FSTP) with daily, weekly, monthly and quarterly frequency and Capital Appreciation Systematic Transfer Plan (CASTP) with monthly and quarterly frequency.

The minimum number of installments under each Plan are as follows.

Under Daily FSTP:

- where installment amount is less than Rs. 1,000/-: 12
- where installment amount is equal to or greater than Rs. 1,000/-: 6

Under Weekly STP:

- Where installment amount is less than Rs. 1,000: 12 installments
- Where installment amount is equal to or greater than Rs. 1,000: 6 installments

However, for weekly STP in equity linked savings schemes, there should be a minimum of 6 installments for enrollment.

Under Monthly FSTP & Monthly CASTP:

- Minimum 6 installments

Under Quarterly FSTP & Quarterly CASTP:

- Minimum 2 installments

Further, the minimum balance in the Unit holders account or the minimum amount of application at the time of enrolment for STP in the Transferor Scheme should be Rs. 12,000.

There will be no maximum duration for STP enrolment.

The amount transferred under the STP from the Transferor Scheme to the Transferee Scheme shall be effected by redeeming units of Transferor Scheme at Applicable NAV, after payment of Exit Load, if any, and subscribing to the units of the Transferee Scheme at Applicable NAV in respect of each STP investment. In case the STP date falls on a Non-Business Day, the immediate next Business Day will be considered for the purpose of determining the applicability of NAV.

Unit holders may change the amount (but not below the specified minimum) by giving written notice to any of the Official Point(s) of Acceptance. Unit holders will have the right to discontinue the STP facility at any time by sending a written request to the Official Point(s) of Acceptance. Notice of such discontinuance should be received at least 10 days prior to the due date of the next transfer date. On receipt of such request, the STP facility will be terminated. STP will be terminated automatically if all the Units are liquidated or withdrawn from the Transferor Scheme or pledged or upon the Fund's receipt of notification of death or incapacity of the Unit holder.

Exit Load, if any, prevailing on the date of enrolment shall be levied in the Transferee Scheme.

The AMC/Trustee reserves the right to change/modify load structure and other terms and conditions under the STP prospectively at a future date.

HDFC FLEX SYSTEMATIC TRANSFER PLAN

HDFC Flex Systematic Transfer Plan (Flex STP) is a facility wherein unit holder(s) holding units in non-demat form of designated open-ended Scheme(s) of HDFC Mutual Fund can opt to transfer variable amount(s) linked to value of investments under Flex STP on the date of transfer at pre-determined intervals from designated open-ended Scheme(s) of HDFC Mutual Fund (hereinafter referred to as "**Transferor Scheme**") to the **Growth Option** of designated open-ended Scheme(s) of HDFC Mutual Fund (hereinafter referred to as "**Transferee Scheme**"). Flex STP offers transfer facility at daily, weekly, monthly and quarterly intervals. Unitholder is free to choose the frequency of such transfers. The amount to be transferred under Flex STP from Transferor Scheme to Transferee Scheme shall be calculated as follows:

{fixed amount to be transferred per installment or the amount as determined by the following **formula** [(fixed amount to be transferred per installment X number of installments including the current installment) - market value of the investments through Flex STP in the Transferee Scheme on the date of transfer] **whichever is higher**}.

There should be a minimum of 12 installments where installment amount is less than Rs. 1,000/- and a minimum of 6 installments where installment amount is equal to or greater than Rs. 1,000/- under Flex STP - Daily & Weekly Intervals. However, for weekly STP in equity linked savings schemes, there should be a minimum of 6 installments for enrollment. There should be a minimum of 6 installments for enrolment

under Flex STP - Monthly Interval and 2 installments under Flex STP - Quarterly Interval. Also, the minimum unit holder's account balance or a minimum amount of application at the time of Flex STP enrolment in the Transferor Scheme should be Rs. 12,000.

In case the amount to be transferred is not available in the Transferor Scheme in the unit holder's account, the residual amount will be transferred to the Transferee Scheme and Flex STP will be closed.

The total Flex STP amount invested in the Transferee Scheme shall not exceed the total enrollment amount i.e. amount per installment X number of installments.

The amount transferred under the Flex STP from the Transferor Scheme to the Transferee Scheme shall be effected by redeeming units of Transferor Scheme at Applicable NAV, **after payment of Exit Load, if any**, and subscribing to the units of the Transferee Scheme at Applicable NAV in respect of each Flex STP investment.

Exit Load, if any, prevailing on the date of enrolment shall be levied in the Transferee Scheme.

Unitholders who wish to enroll for this facility are required to fill HDFC Flex STP Enrolment Form available with the ISCs, distributors/agents and also displayed on the website www.hdfcfund.com.

Unit holders may opt for either Swing STP or Flex STP registration in a particular target scheme in a folio. Further, multiple Swing STPs or multiple Flex STP registrations in the same target scheme in a folio will also not be allowed.

The AMC/Trustee reserve the right to change/modify load structure and other terms and conditions under the HDFC Flex STP prospectively at a future date.

Please refer to the HDFC Flex STP Enrolment Form for further details and terms & conditions before enrolment.

HDFC SWING SYSTEMATIC TRANSFER PLAN

HDFC Swing Systematic Transfer Plan (Swing STP) is a facility wherein unit holder(s) holding units in non-demat form can opt to transfer an amount at regular intervals from designated open-ended Scheme(s) of HDFC Mutual Fund ("**Transferor Scheme**") to the **Growth Option** of designated open-ended Scheme(s) of HDFC Mutual Fund ("**Transferee Scheme**") including a feature of Reverse Transfer from Transferee Scheme into the Transferor Scheme, in order to achieve the Target Market Value on each transfer date in the Transferee Scheme. Swing STP offers transfer facility at weekly, monthly and quarterly intervals.

The minimum amount per Swing STP installment shall be as follows:

- Swing STP - Weekly Interval: Rs. 500 and any amount thereafter.
- Swing STP - Monthly Interval: Rs. 1,000 and any amount thereafter.
- Swing STP - Quarterly Interval: Rs. 3,000 and any amount thereafter.

There should be a minimum of 12 installments where installment amount is less than Rs. 1,000/- and a minimum of 6 installments where installment amount is equal to or greater than Rs. 1,000/- under Swing STP- Weekly. However, for weekly STP in equity linked savings schemes, there should be a minimum of 6 installments for enrollment. There should be a minimum of 6 installments for enrollment under Swing STP - Monthly Interval and 2 installments under Swing STP -

Quarterly Interval. Beginning of quarter could be any month. There is no maximum duration for Swing STP enrollment.

Also, the minimum unit holder's account balance or a minimum amount of application at the time of Swing STP enrolment in the Transferor Scheme should be Rs. 12,000.

The provision of 'Minimum Redemption Amount' as specified in the Scheme Information Document(s) of the respective designated Transferor Scheme(s) (Transferee Scheme(s) in case of Reverse Transfer) and 'Minimum Application Amount' specified in the Scheme Information Document(s) of the respective designated Transferee Scheme(s) (Transferor Scheme(s) in case of Reverse Transfer) will not be applicable for Swing STP.

The objective of Swing STP is to achieve the Total Target Market Value in the Transferee Scheme by transferring an amount from the Transferor Scheme at regular intervals in such a way so as to increase the Target Market Value of units in the Transferee Scheme systematically by a fixed amount (i.e. the first installment amount specified by the Unitholder) on the date of each transfer till the tenure of the Swing STP.

The amount to be transferred under Swing STP from Transferor Scheme to Transferee Scheme shall be calculated as follows:

- The first Swing STP installment will be processed for the first installment amount specified by the Unitholder at the time of enrollment.
- From the second Swing STP installment onwards, the transfer amount may be higher/lower than the first installment amount, as derived by the formula stated below:

(First installment amount X Number of installments including the current installment) - Market Value of the investments through Swing STP in the Transferee Scheme on the date of transfer.

In case the amounts (as specified above) to be transferred are not available in the Transferor Scheme in the unit holder's account, the residual amount will be transferred to the Transferee Scheme and Swing STP will be closed.

Reverse Transfer: On the date of transfer, if the Market Value of the investments in the Transferee Scheme through Swing STP is higher than the first installment amount X number of installments (including the current installment), then a Reverse Transfer will be effected from the Transferee Scheme to the Transferor Scheme to the extent of the difference in the amount, in order to arrive at the Target Market Value.

The total amount invested through Swing STP over its tenure in the Transferee Scheme, may be higher or lower than the Total Target Market Value of the investment (i.e. the first installment amount X total number of installments specified by the Unitholder). This may be on account of fluctuations in the Market Value of the Transferee Scheme. If you decide to take up this facility, you should be aware of the possibility, that the total amount invested through Swing STP could be higher or lower than the Total Target Market Value of the investment.

The redemption/switch-out of units allotted in the Transferee Scheme shall be processed on First In First Out (FIFO) basis. In case there is a redemption/switch-out of any units allotted under Swing STP in the Transferee Scheme by the Unit holder, the balance installments under Swing STP will be processed as a normal STP for the remaining installments by investing the amount indicated as first installment amount, on the date of each transfer over the balance tenure of the Swing STP, subject to availability of unit balance in the Transferor Scheme.

Swing STP will be automatically terminated if all units are liquidated or withdrawn from the Transferor Scheme or pledged

or upon receipt of intimation of death of the unit holder.

Unit holders will have the right to discontinue the Swing STP facility at any time by sending a written request to the OPA. On receipt of such request, the Swing STP facility will be terminated within 15 days.

The amount transferred under the Swing STP from the Transferor Scheme to the Transferee Scheme shall be effected by redeeming units of Transferor Scheme at the Applicable NAV, after payment of Exit Load, if any, and subscribing to the units of the Transferee Scheme at Applicable NAV.

Exit Load, if any, prevailing on the date of enrollment shall be levied in the Transferee Scheme and Transferor Scheme (for units purchased through Reverse Transfer).

Unit holders who wish to enroll for this facility are required to fill HDFC Swing STP Enrolment Form available with the ISCs, distributors/agents and also displayed on the website www.hdfcfund.com.

Unit holders may opt for either Swing STP or Flex STP registration in a particular target scheme in a folio. Further, multiple Swing STPs or multiple Flex STP registrations in the same target scheme in a folio will also not be allowed.

The AMC/Trustee reserve the right to change/modify load structure and other terms and conditions under the HDFC Swing STP prospectively at a future date.

Please refer to the HDFC Swing STP Enrolment Form for further details and terms & conditions before enrolment.

Such enrollments will automatically stand terminated upon the Unit Holder attaining 18 years of age.

For folios where the units are held on behalf of the minor, the account shall be frozen for operation by the guardian on the day the minor attains majority and no transactions shall be permitted till the requisite documents for changing the status of the account from 'minor' to 'major' are submitted.

HDFC FLEXINDEX PLAN

This facility is available to Unit holders holding units in non-demat form of select debt/liquid Schemes to automatically transfer the specified percentage of the amount registered in the Source schemes to select equity schemes on the trigger dates occurring during the period of 1 year from the date of registration. Any Unit holder can avail of this facility subject to terms and conditions contained in the HDFC FLEXINDEX PLAN form.

Presently, Unit holders under the Plan are offered twin enrolment options viz. Flexible Installment option and Fixed Installment option. The minimum Unit holder's account balance or a minimum amount of investment in the Source scheme at the time of enrolment under the Plan should be Rs. 20,000/- and in multiples of Rs. 1,000/- thereafter. However, the Unit holder has to comply with the provision of Minimum Application Amount in the Source Schemes. The Unit holders of the Source schemes have to set triggers based on the predetermined event. For the purpose of this Plan, Predetermined event means the reaching or crossing of closing Index (i.e. BSE SENSEX) levels as specified by the Unit holder.

Under Flexible Installment option the minimum percentage to be indicated against each Index level trigger is 10% and in multiples of 1% thereafter and under Fixed Installment option the percentage indicated against each Index level trigger is fixed at 25%. The cumulative percentage under each option will be equal to 100.

On the trigger date, the specified percentage of the amount registered will be transferred in the Target Scheme after payment of Exit Load if any, by creation of units in the Target Scheme at the closing NAV of the same day i.e. the trigger date.

The following schemes has the above facility:

HDFC Arbitrage Fund, HDFC Balanced Advantage Fund, HDFC Value Fund, HDFC Income Plus Arbitrage Active FOF, HDFC ELSS Tax saver, HDFC Equity Savings Fund, HDFC Flexi Cap Fund, HDFC Focused Fund, HDFC Hybrid Equity Fund, HDFC Infrastructure Fund, HDFC BSE Sensex Index Fund, HDFC Nifty 50 Index Fund, HDFC Large and Mid Cap Fund, HDFC Mid Cap Fund, HDFC Small Cap Fund, HDFC Large Cap Fund.

Exit Load, if any, prevailing on the date of enrolment shall be levied in the Target Scheme.

Once a transaction is processed, the same will not be reversed and it will be final and binding upon the Unit holder. The AMC will require atleast 7 calendar days from the date of submission of valid enrolment forms to register the Unit holder under the Plan.

For all predetermined events the amount registered under the Plan shall be computed based on the value of the unit balance in the Source scheme, prevailing on the respective trigger dates. The transactions will be processed by the Fund only after verifying that the registered amount on each trigger date is equal to or more than the percentage value of the flexible/fixed trigger options (as indicated by the Unit holders). In case the value of the unit balance in the Source scheme on the trigger date is less than the percentage value of the flexible/fixed trigger options or the balance is nil, then the said trigger will not be processed.

In case the date of redemption request and the trigger date coincide i.e. the date of receipt of redemption request from the Unit holder in the Source scheme and the date of event trigger date happens to be the same date, then, the redemption transaction will always be processed first. In case in there is an all unit redemption and Unit balance in the Source scheme is reduced to Nil even then the Plan will continue for a period of 1 year from the date of registration.

On completion of 1 year from the date of registration, in case Nil Triggers or few Triggers are activated, then the balance of the amount registered under the Plan will be automatically transferred into the Target scheme in 6 equal monthly installments on 1st of every month (or immediately following business day, if that day is not a business day), provided the balance amount is not less than the minimum amount of transfer

per installment under Systematic Transfer Plan (STP) of the respective Target schemes. Load Structure as prevailing under STP will be applicable and the transfers will be subject to STP terms and conditions. In case, the balance amount registered under the Plan falls below the minimum amount of transfer per installment under STP, the same shall continue to remain invested in the Source scheme.

The provision of 'Minimum Redemption Amount' as specified in the Scheme Information Document(s) of the Source schemes will not be applicable for HDFC FLEXINDEX PLAN. Whereas, the provision of 'Minimum Application Amount' specified in the Scheme Information Document(s) of the Target schemes will be applicable for HDFC FLEXINDEX PLAN.

Investors who wish to enroll for the Plan are required to fill the HDFC FLEXINDEX PLAN enrolment form available with the ISCs, distributors/agents and also displayed on the website www.hdfcfund.com. The Enrolment Form complete in all respects should be submitted at any of the Official Point(s) of Acceptance (OPA) of HDFC Mutual Fund.

Unit holders will have the right to discontinue the Plan at any time by sending a written request to the OPA. Notice of such discontinuance shall be made effective within 7 calendar days from the date of receipt of the said request. Triggers, which may get activated until the effective date of discontinuation shall be processed in accordance with the terms, laid hereinabove.

The Trustee reserves the right to change the terms and conditions of the Plan at a later date on a prospective basis.

Please refer to the HDFC Flexindex Plan Enrolment Form for terms and conditions before enrolment.

Automatic Trigger Facility

Under this facility, a Unit holder holding units in non-demat form may opt for withdrawal and/or switch based on the Unit balance attaining a minimum capital appreciation/gains, events, dates etc (subject to deduction of tax at source, if any). This Option will be useful to Unit holders who wish to alter the allocation of their investment among the Scheme(s)/Plan(s)/Option(s) of the Mutual Fund in order to meet their changed investment needs.

The Switch will be effected by way of a Redemption of Units [On a First In First Out (FIFO) basis] from the Scheme/Plan and a reinvestment of the Redemption proceeds in the other Scheme/Plan and accordingly, to be effective, the Switch must comply with the Redemption rules of the Scheme and the issue rules of the other scheme (e.g. as to the minimum number of

Change in Bank Account:

Change in Bank Account For investors holding units in Demat mode, the procedure for change in bank details would be as determined by the depository participant.

For investors holding units in non-Demat mode, the Unit holders may change their bank details registered with the

Mutual Fund by submitting a standalone separate Change of Bank Details Form.

1. Unit holders will be required to submit the duly filled in Change of Bank Details Form along with a cancelled original cheque leaf of the new bank account as well as the bank account currently registered with the Mutual Fund (where the account number and first unit holder name is printed on the face of the cheque). Unit holders should without fail cancel the cheque and write 'Cancelled' on the face of it to prevent any possible misuse.
2. Where such name is not printed on the original cheque, the Unit holder may submit a letter from the bank on its letterhead certifying that the Unit holder maintains/maintained an account with the bank, the bank account information like bank account number, bank branch, account type, the MICR code of the branch & IFSC Code (where available).

The original documents will be returned across the counter to the Unit holder after due verification. In case the original of any document is not produced for verification, then the copies should be attested by the bank manager with his/her full signature, name, employee code, bank seal and contact number. In the event of a request for change in bank account information being invalid/incomplete/not satisfactory in respect of signature mismatch/document insufficiency/not meeting any requirements more specifically as indicated in clauses 1-3 above, the request for such change will not be processed. Redemptions/IDCW payments, if any, will be processed and the last registered bank account information will be used for such payments to Unit holders.

Unit holders may note that it is desirable to submit their requests for change in bank details atleast 7 days prior to date of redemption/IDCW payment, if any and ensure that the request for change in bank details has been processed before submitting the redemption request. If change in bank details has not been processed, payment will be made in the existing bank account registered in the folio. Further, in the event of a request for redemption of units being received within seven days of change in bank account details, the normal processing time as specified in the Scheme Information Document, may not necessarily apply, however it shall be within the regulatory limits. Any unregistered bank account or a new bank account mentioned by the Unit holder along with the redemption request may not be considered for payment of redemption/IDCW proceeds.

I. Equity & Equity Related Instruments

Security Type	Valuation Policy

The National Stock Exchange of India Limited ('NSE') is designated as the principal stock exchange for the purpose of valuation of securities. If security is not traded on principal stock exchange on a particular valuation day, the closing market price at which it is traded on any other stock exchange will be used. If security is not traded on any stock exchange on a particular valuation day, then price at which it traded on the principal stock exchange or any other stock exchange, as the case may be, on the earliest previous day will be used provided such date is not more than 30 days prior to valuation date. The securities held under the portfolio of Index Scheme(s) and Exchange Traded Funds will be valued using the closing value of the underlying index of the scheme(s).
Thinly Traded/Non Traded Equity Shares/Partly Paid Shares	Thinly traded/Non Traded/Partly Paid shares will be valued at fair value as per procedures* determined by the Valuation Committee. Non Traded equity shares are equity shares which are not traded on any recognized stock exchange for a period of thirty days prior to the valuation date. Thinly traded equity shares are equity shares for which the value of the trades of that security in a month is less than Rs. 5 lacs by value and the total volume of the trades in that security is less than 50,000 shares. In order to determine whether a security is thinly traded, the volumes traded in NSE and BSE shall be considered.
Initial Public Offering including Anchor Investments in Equity Shares (awaiting listing)	Initial Public Offering including Anchor investments prior to allotment shall be valued at bid price. Qualified Institutional Placement (QIP)/Follow on Public Offer (FPO) shall be valued at bid price or market price, whichever is lesser. The National Stock Exchange of India Limited ('NSE') is designated as the principal stock exchange for the purpose of valuation of securities. If security is not traded on principal stock exchange on a particular valuation day, the closing market price at which it is traded on any other stock exchange will be used. If security is not traded on any stock exchange on a particular valuation day and the prices from AMFI approved valuation agencies are available, then the average prices provided by AMFI approved agencies will be used. In case the securities do not get traded for a period of 30 days or prices of AMFI approved agencies are not available, CCDs will be valued at fair value as per procedures* determined by the Valuation Committee.

***Procedure & Methodology for valuation of unlisted or pre-IPO to be listed or thinly traded/non-traded equity/partly-paid up equity/equity related securities**

- i) **Equity Shares** - Valuation will be computed on the basis of average of the book value and price computed by capitalisation of earning method. For the purpose of capitalisation of earning method, Industry Price/Earnings ratio will be considered which will be adjusted for liquidity.

Where the unlisted equity shares are acquired as result of corporate actions like demerger/amalgamation, the unlisted equity shares will be valued at the intrinsic value on the ex-date as follows:

- A. The intrinsic value for new entity resulting out of corporate actions where financial statements are available will be valued on the basis of average of the book value and price computed by capitalisation of earning method.

- B. The intrinsic value for new entity resulting out of corporate action where financial statements are not available will be valued as per differential pricing method after applying appropriate illiquidity discount as determined by valuation committee.

Example: If AB company gets demerged in to A Company & B Company and the new company B is not a listed company. The value of B Company is proposed to be arrived as follows:

Market Value of AB Company (Pre Merger closing market price)	(X)	Rs.250/-
Market Value of A Company (Post Merger closing market Price)	(Y)	Rs.150/-
Valuation of B Company as per differential pricing method	(X – Y)	Rs.100/-
Illiquidity Discount (20%)		Rs.20/-
Valuation of B Company (After illiquidity discount)		Rs.80/-

The intrinsic value so arrived will be periodically reviewed by Valuation Committee till listing of such shares.

- ii) **Pre-IPO to be listed Equity Shares** Where investment is made in equity shares as part of pre-IPO transaction such shares which are to be listed will be valued at the price at which they are purchased less suitable illiquidity discount for pending listing and/or lock in period, if any.

- iii) **Partly Paid Shares** – Non-traded/Thinly traded/suspended for trading partly-paid equity shares shall be valued at the latest price of partly equity shares. The price may continue for a period of thirty days.

In the event the last quoted closing price is more than 30 days prior to the valuation date, the partly paid-up equity shares shall be valued at value of the underlying fully paid-up equity shares as reduced by the amount of balance call money payable on partly paid-up equity shares.

Unlisted (Acquired by corporate action) partly paid-up equity shares, shall be valued at value of the underlying fully paid-up equity shares as reduced by the amount of balance call money payable on partly paid-up equity shares.

Suitable illiquidity discount, if deemed necessary, shall be applied with approval from the Valuation Committee.

- iv) **Preference Shares** – Preference share can be convertible or non- convertible. The non-convertible preference share will be valued at the present value of all the future expected dividend payments and the maturity value, discounted at the expected return on preference share.

The value of convertible preference share can be expressed as follows:

$$\text{Price of convertible Preference Share} = \frac{\text{Preference shares dividend}}{\text{Expected return on Preference Share}} \times \text{Face Value}$$

- v) **Warrants** - Warrants will be valued at the value of the share which would be obtained on exercise of the warrant as reduced by the amount which would be payable on exercise of the warrant. The value arrived will be reduced by appropriate discount as decided by Valuation Committee.

- vi) **Right entitlements** - Right entitlements if traded will be valued at the closing market price on Principal stock exchange (NSE). If the entitlements are not traded on NSE but are traded on any other stock exchange the closing market price of the exchange where it traded will be considered for valuation.

Non traded rights entitlement will be valued as difference between the ex-rights price of the underlying equity share (determined as per valuation policy) and the rights offer price.

In case the rights offer price is greater than the ex-rights price, the value of the rights share is to be taken as zero.

***Procedure & Methodology for valuation of CCDs**

- Each CCD shall be converted into such number of Equity Shares based on the conversion price arrived in accordance with the offer documents.
- In case the CCD has two components viz. one component having bond carrying a coupon rate and second component having an embedded forward contract for compulsory conversion into equity, at a pre-determine formula, linked to the underlying price of the stock on the exchange, the valuation derived would be a summation of the bond valuation and the Net present value (NPV) of the gain/loss on the embedded forward contract for conversion into equity shares.
- Valuation of bonds: The same will be valued as per the prices provided by AMFI approved agencies.
- Valuation of embedded forward contract for equity conversion: The embedded forward contract has three elements – time value, price movement of the underlying stock and illiquidity risk. The time value (NPV) is the discounting factor, as derived from the bond valuations (from AMFI valuation agencies).
- In case the conversion is scheduled after completion of specified period/years as mentioned in the offer documents, the value arrived will be reduced by appropriate illiquidity discount on the gain, if any, as may be specified by SEBI under the applicable guidelines or as may be decided by Valuation Committee.
- The Valuation Committee may exercise its discretion to value the security at a conservative value i.e. at cost or as per the above methodology whichever is lower.

- 3) All money market and debt securities/instruments which are rated below investment grade, shall be valued as under:
 - a) To be valued on the basis of valuation price for such securities provided by CRISIL and ICRA/or any other AMFI appointed agency(ies);
 - b) Till such time the valuation agencies compute the valuation of money market and debt securities classified as below investment grade or default, such securities shall be valued on the basis of indicative haircuts provided by these agencies. These indicative haircuts shall be applied on the date of credit event i.e. migration of the security to sub-investment grade or default and shall continue till the valuation agencies compute the valuation price of such securities. Further, these haircuts shall be updated and refined, as and when there is availability of material information which impacts the haircuts. (Refer Annexure I for indicative haircut provided by AMFI)
 - c) **Consideration of traded price for valuation:**
 - In case of trades during the interim period between date of credit event and receipt of valuation price from valuation agencies, AMC shall consider such traded price for valuation if it is lower than the price post standard haircut. The said traded price shall be considered for valuation till the valuation price is determined by the valuation agencies.
 - In case of trades after the valuation price is computed by the valuation agencies as referred above and where the traded price is lower than such computed price, such traded price shall be considered for the purpose of valuation and the valuation price may be revised accordingly.
 - The trades referred above shall be of a minimum size as defined in note 6(A)(i).
 - d) The AMC may deviate from the indicative haircuts and/or the valuation price for money market and debt securities/instruments rated below investment grade provided by the AMFI approved agencies by recording detailed rationale for such deviation with the approval of Valuation Committee. The AMC shall follow the procedure as mentioned in Master Circular for Mutual Funds dated June 27, 2024 and other applicable guidelines as may be issued by SEBI from time to time.

e) **Treatment of outstanding accrued interest on the date of downgrade and subsequent accrual of interest is as follows:**

- The indicative haircut applied on the principal outstanding should be applied to outstanding accrued interest on the date of downgrade.
- In case of securities classified as below investment grade but not as default, interest accrual may continue with the same haircut applied to the principal.
- In case of securities classified as default, no further interest will be accrued.

f) **Treatment of any future recovery in terms of principal or interest:**

- Any recovery shall first be adjusted against the outstanding accrued interest recognized in the NAV and any balance shall be adjusted against the value of principal recognized in the NAV.
- Any recovery in excess of above value (i.e. the value recognized in NAV) should then be applied first towards any amount of interest written off and then towards amount of principal written off.

4) **Deviation from Prices provided by valuation agencies**

- In case for any security wherein only one of the AMFI approved agency has provided the price, the same will be considered for valuation of the security.
- In case the valuation committee is of the opinion that the price feeds provided by AMFI appointed agencies are not provided or prices are not reflective of fair value/realizable value of the security, the same shall be valued on the basis of guidelines provided by the valuation committee. In approving such valuations, the valuation committee shall follow the principles of fair valuation and provide suitable justification for the same.
- The rationale for deviation along-with details such as information about the security (ISIN, issuer name, rating etc.), price at which the security was valued vis-a-vis the price as per the valuation agencies and the impact of such deviation on scheme NAV (in amount and percentage terms) shall be reported to the Board of AMC and Trustees. The rationale shall also be disclosed immediately and prominently, under a separate head on the website of AMC.

5) **Segregated Portfolio valuation:**

Notwithstanding the decision to segregate the debt and money market instrument in accordance with the Master Circular for Mutual Funds dated June 27, 2024 on "Segregated portfolio in mutual fund schemes", the valuation should consider the credit event and value the portfolio based on the principles of fair valuation. (i.e. realizable value of the assets) in terms of relevant provisions of SEBI (Mutual Funds) Regulation, 1996 and Master Circular for Mutual Funds dated June 27, 2024 issued thereunder. In case of AT-1 Bonds and Tier 2 Bonds, the financial stress of the issuer and the capabilities of issuer to repay the dues/borrowings are

considered in the valuation of the securities from the trigger date onwards i.e. date on which the instrument is to be written off or converted to equity pursuant to any proposal or otherwise.

Irrespective of the above policy, the valuation committee might adopt valuation principles to align with fair valuation norms.

6) **Guidelines for valuation of Debt & Debt Related Instruments:**

All Debt & Debt related Instruments are valued based on AMFI and SEBI Master Circulars/circulars/guidelines, by the independent valuation agencies nominated by AMFI for determining valuation for such securities.

Parameter	Minimum Volume of Criteria for marketable lot
Primary	INR 25 cr for both/NCD/CP/CD and any other money market instruments
Secondary	INR 25 cr for CP/CD, T-Bills and any other money market instruments
Secondary	INR 5 cr for Bonds/NCD/G-Secs

- A money market or debt security shall be considered as non-traded when, on the date of valuation, there are no trades (in marketable lots) in such security on any recognized Stock Exchange or no trades (in marketable lots) have been reported on any of the aforementioned trade reporting platforms.

B. **Valuation of securities with Put/Call Options**

The option embedded securities would be valued as follows:

i) **Securities with Call Option:**

The securities with call option shall be valued at the lower of the value as obtained by valuing the security to final maturity and valuing the security to call option.

In case there are multiple call options, the lowest value obtained by valuing to the various call dates and valuing to the maturity date is to be taken as the value of the instrument

ii) **Securities with Put Option:**

The securities with put option shall be valued

at the higher of the value as obtained by valuing the security to final maturity and valuing the security to put option.

In case there are multiple put options, the highest value obtained by valuing to the various put dates and valuing to the maturity date is to be taken as the value of the instrument.

iii) Securities with both Put and Call Option:

Only securities with put/call options on the same day and having the same put and call option price, shall be deemed to mature on such put/call date and shall be valued accordingly. In all other cases, the cash flow of each put/call option shall be evaluated and the security shall be valued on the following basis:

- a) Identify a 'Put Trigger Date', a date on which 'price to put option' is the highest when compared with price to other put options and maturity price.
- b) Identify a 'Call Trigger Date', a date on which 'price to call option' is the lowest when compared with price to other call options and maturity price.
- c) In case no Put Trigger Date or Call Trigger Date ('Trigger Date') is available, then the valuation would be done to maturity price. In case one Trigger Date is available, then valuation would be done as to the said Trigger Date.

In case both Trigger Dates are available, then valuation would be done to the earliest date.

- iv) If a put option is not exercised by a Mutual Fund when exercising such put option would have been in favour of the scheme, in such cases the justification for not exercising the put option shall be provided to the Board of AMC and Trustees.
- v) Any put option inserted subsequent to the issuance of the security shall not be considered for the purpose of valuation and original terms of the issue will be considered for valuation.

C. Treatment of Upfront Fees on Trades:

- i) Upfront fees on all trades (including primary market trades), by whatever name and manner called, would be considered by the valuation agencies for the purpose of valuation of security.
- ii) Details of such upfront fees should be shared by the AMC on the trade date to the valuation agencies as part of the trade reporting to enable them to arrive at the fair valuation for that date.
- iii) For the purpose of accounting, such upfront fees should be reduced from the cost of the investment in the scheme that made the investment.
- iv) In case upfront fees are received across multiple schemes, then such upfront fees should be shared on a pro-rata basis across such schemes.

D. Impact of any Changes to terms of an investment:

- (i) While making any change to terms of an investment, AMC shall adhere to the following conditions:
 - (a) Any changes to the terms of investment, which may have an impact on valuation, shall be reported to the valuation agencies immediately.
 - (b) Any extension in the maturity of a money market or debt security shall result in the security being treated as "Default", for the purpose of valuation.
 - (c) If the maturity date of a money market or debt security is shortened and then subsequently extended, the security shall be treated as "Default" for the purpose of valuation.
 - (d) Any put option inserted subsequent to the issuance of the security shall not be considered for the purpose of valuation and original terms of the issue will be considered for valuation.

E. Waterfall mechanism for valuation of money market and debt securities to be used by the valuation agencies (Effective from February 16, 2020):

- (i) For arriving at security level pricing, a waterfall mechanism to be used by valuation agencies as provided by AMFI in consultation with SEBI (refer **Annexure II**).
- (ii) Guidelines issued by AMFI on polling by valuation agencies and on the responsibilities of Mutual Funds in the polling process, as part of the aforesaid waterfall approach is attached at (refer **Annexure III**).

F. Valuation of Bonds issued under Basel III framework as per Master Circular for Mutual Funds dated June 27, 2025 and AMFI Best Practices circular 135/BP/91/2020-21 dated March 24, 2021. Relevant extract of AMFI Best Practices is being reproduced in (Annexure IA**).**

Guidelines for Valuation of Bonds (AT 1 Bonds and Tier 2 Bonds)

1. Currently a bond is considered traded, if there is at least one trade in market lot in that particular ISIN. If the bond does not get traded there is a defined waterfall mechanism for valuation of that bond as per AMFI Best Practice Guideline circular no. NO.83/2019-20 dated November 18, 2019.
2. The said waterfall requires grouping of same issuer with similar maturity and similar issuers with similar maturity. However, in case any ISIN of issuer has not traded, the valuation of AT-1 Bonds is currently done based on adjusting spread directly to the benchmark security.
3. In order to improve existing valuation of these bonds and implement the defined waterfall, following is being done:
 - i. Form two types of ISINs:
 - a) Benchmark ISINs (a non-benchmark ISIN can be linked to only one benchmark ISIN. Currently, SBI ISINs happens to be the benchmark ISINs across all maturities for AT-1 Bonds.)
 - b) Non-benchmark ISINs (Will be divided into multiple groups based on similar issuer and similar maturity).
 - c) The groups will be decided in consultation with valuation agencies. The two main criteria envisaged to be used here would be Tier 1/Tier 2 ratings of the ISINs/Issuers, and the spread range in which the group of ISINs/Issuer's trade over the benchmark.
 - ii. Take a look back period for trade recognition as under:
 - a) 15 working days for benchmark ISINs
 - b) 30 working days for non-benchmark ISINs
 - c) This will be revised to 7 working days for benchmark ISIN and 15 working days for non-benchmark ISINs from October 01, 2021.
4. If the ISIN gets traded, the traded YTM will be taken for the purpose of valuation. Further, if 1 ISIN of the issuer trades all other ISINs of issuers will be considered as traded but with necessary adjustment of spread to YTM. If none of the ISIN of the issuer gets traded, the trade of similar issuer in the group will be taken to valuation however with necessary adjustment of spread to YTM of similar issuer similar maturity. If none of the ISIN in a group gets traded on any particular day, an actual trade in a look back period will be seen. If there is an actual trade in look back period the security will be considered as traded and valued with necessary adjustment of spread to YTM. According to this valuation will be done based on the trade of issuer, trade of similar issuer and as an additional layer a look back period of is requested. It is confirmed that spread over YTM will be taken without any adjustment of modified duration to call.

5. Further, as the valuation is based on trade during the look back period, it is confirmed that a spread is adjusted to reflect adverse news, change in credit rating, interest rate etc., which has bearing on the yield of ISIN being valued.
6. However, if there is no actual trade of any ISIN of the issuer as well as similar issuer during look back period, the valuation will be done by taking spread over matrix and/or polling in line with the waterfall mechanism prescribed by AMFI.

Points 4, 5 & 6 have been further elaborated in the detailed Annexure I B attached hereto.

7. Maturity of 100 years will be adopted for perpetual bond issued by banks. There will be a glide path for these bonds as indicated below. The Deemed Residual Maturity for the Purpose of Calculation of valuation as well as Macaulay Duration for existing as well as new perpetual bonds issued:

Time Period	Deemed Residual Maturity (Years)
Till March 31, 2022	10
April 01, 2022 – September 31, 2022	20
October 01, 2022 – March 31, 2023	30
March 31, 2023 onwards	100

the residual maturity will always remain above the deemed residual maturity proposed above.

8. Valuation methodology, as mentioned above, for AT-1 Bonds is to be followed for the valuation of tier II bonds also. Further, the Macaulay Duration is proposed to be calculated as under for Tier II bonds:

Time Period	Deemed Residual Maturity for all securities (Years)
April 01, 2021 – March 31, 2022	10 years or contractual maturity whichever is earlier
April 01, 2022 onwards	Actual Maturity

9. Besides, AT-1 bonds and Tier 2 bonds being different categories of bonds, the valuation of these bonds will be done separately (i.e.) ISIN of AT-1 bond traded will not mean that ISIN of Tier-2 bonds of the same issuer have also traded. However, if any issuer does not exercise call option for any ISIN, then the valuation and calculation of Macaulay Duration should be done considering maturity of 100 years from the date of issuance for AT-1 Bonds and Contractual Maturity for Tier 2 bonds, for all ISINs of the issuer.
10. It is confirmed that the Macaulay Duration of ISINs will be calculated based on the deemed residual maturity proposed in para 7 and 8 above to reflect the duration risk.
11. Further, henceforth mutual funds will disclose both Yield to Call and Yield to Maturity.

Annexure IB

Illustration for point 4 to 6

ABC and XYZ are similar issuer and similar maturity:

Maturity of ISIN 1 of ABC is near to maturity of ISIN 1 of XYZ & Maturity of ISIN 2 of ABC is near to maturity to ISIN 2 of XYZ

Issuers	ABC		XYZ		Valuation of ABC ISIN 1
Trade	ISIN 1	ISIN 2	ISIN 1	ISIN 2	
Traded Today	Y	-	-	-	Take price and arrive at YTM
Traded Today	N	Y	-	-	Take price of ISIN 2 of ABC and compute YTM of ISIN 2. Then adjust the YTM spread of ISIN 1 and ISIN 2 and compute value of ISIN 1 of ABC.
Traded Today	N	N	Y	N	From the price of ISIN 1 of XYZ compute YTM. The spread between YTM of ABC ISIN 1 and XYZ ISIN 1 is to be adjusted to derive YTM of ABC ISIN 1. The spread should further be adjusted to reflect adverse news, change in credit rating, interest rate etc., which has bearing on the yield of ISIN being valued and final YTM and price of the security should be computed.
Traded Today	N	N	N	Y	From the price of ISIN 2 of XYZ compute YTM of ISIN 2 of XYZ. Then derive YTM of ISIN 1 of XYZ by adjusting spread of YTM. Then by adjusting difference in spread between ISIN 1 of XYZ and ISIN 1 of ABC trade (which happens to be nearest maturity) arrive at YTM of ISIN 1 of ABC. The spread should be adjusted to reflect adverse news, change in credit rating, interest rate etc., which has bearing on the yield of ISIN being valued.
No trade today. Check for actual trade during look back	Y	-	-	-	Take YTM of traded day and adjust spread to the movement of benchmark ISIN over the period. Also adjust to reflect adverse news, change in credit rating, interest rate etc., which has bearing on the yield of ISIN being valued.
No trade today. Check for actual trade during look back	N	Y	-	-	Arrive at YTM of ISIN 2 by adjusting spread to the movement of benchmark ISIN over the period. Derive YTM of ISIN 1 of ABC from ISIN 2 of ABC by adjusting spread over YTM. Also adjustment should be done to reflect adverse news, change in credit rating, interest rate etc., which has bearing on the yield of ISIN being valued.
No trade today. Check for actual trade during look back	N	N	Y	N	Arrive at YTM of ISIN 1 of XYZ by adjusting spread to the movement of benchmark ISIN over the period. Then the spread of YTM of XYZ ISIN 1 and ABC ISIN 1 is to be adjusted to arrive at YTM of ISIN 1 of ABC. Also, adjustment will be done to reflect adverse news, change in credit rating, interest rate etc., which has bearing on the yield of ISIN being valued.
No trade today. Check for actual trade during look back	N	N	N	Y	Take YTM of ISIN 2 of XYZ by adjusting spread to the movement of benchmark ISIN over the period. Adjust the spread of YTM of ISIN 1 of XYZ and ISIN 2 of XYZ to arrive at YTM of ISIN 1 of XYZ. YTM of ISIN 1 of ABC will be derived by adjusting spread of YTM of ISIN 1 of XYZ to ISIN 1 of ABC (which appears to be a nearest maturity to ABC ISIN 1). Further, YTM will be adjusted to reflect adverse news, change in credit rating, interest rate etc., which has bearing on the yield of ISIN being valued.
Not Traded During look back	N	N	N	N	Valuation will be done considering spread over matrix and/or polling in line with the waterfall mechanism prescribed by AMFI.

Note: The duration to call shall not be considered/adjusted to spread over YTM. Yield to Call and Yield to Maturity shall be disclosed to investors.

Annexure II

Waterfall Mechanism for valuation of money market, debt and government securities:

Master Circular for Mutual Funds dated June 27, 2024 provides for broad principles for considering the traded yields for valuation of Debt, money market and government securities. The said circular prescribes AMFI shall ensure valuation agencies have a documented waterfall approach for valuation of Debt & money market securities.

The extract from AMFI best practices circular (135/BP/83/2019-20) dated November 18, 2019 pertaining to the waterfall mechanism is as under:

Part A: Valuation of Money Market and Debt Securities other than Government Securities ("G-Secs"):

1. Waterfall Mechanism for valuation of money market and debt securities:

The following shall be the broad sequence of the waterfall for valuation of money market and debt securities:

- i. Volume Weighted Average Yield (VWAY) of primary reissuances of the same ISIN (whether through book building or fixed price) and secondary trades in the same ISIN;
- ii. VWAY of primary issuances through book building of same issuer, similar maturity (**Refer Note 1 below**);
- iii. VWAY of secondary trades of same issuer, similar maturity;
- iv. VWAY of primary issuances through fixed price auction of same issuer, similar maturity;
- v. VWAY of primary issuances through book building of similar issuer, similar maturity (**Refer Note 1 below**);
- vi. VWAY of secondary trades of similar issuer, similar maturity;
- vii. VWAY of primary issuance through fixed price auction of similar issuer, similar maturity;
- viii. Construction of matrix (polling may also be used for matrix construction);
- ix. In case of exceptional circumstances, polling for security level valuation (**Refer Note 2 below**)

Note 1

Except for primary issuance through book building, polling shall be conducted to identify outlier trades. However, in case of an issuance through book building which is less than INR 100 Cr, polling shall be conducted to identify outlier trades.

Note 2

Some examples of exceptional circumstance would be stale spreads, any event/news in particular sector/issuer, rating changes, high volatility, corporate action or such other event as may be considered by valuation agencies. Here stale spreads are defined as spreads of issuer which were not reviewed/updated through trades/primary/polls in same or similar security/issuers of same/similar maturities in waterfall approach in last 6 months.

Further, the exact details and reasons for the exceptional circumstances which led to polling shall be documented and reported to AMCs. Further, a record of all such instances shall be maintained by AMCs and shall be subject to verification during SEBI inspections.

Note 3

All trades on stock exchanges and trades reported on trade reporting platforms till end of trade reporting time (excluding Inter-scheme transfers) should be considered for valuation on that day.

Note 4

It is understood that there are certain exceptional events, occurrence of which during market hours may lead to significant change in the yield of the debt securities. Hence, such exceptional events need to be factored in while calculating the price of the securities. Thus, for the purpose of calculation of VWAY of trades and identification of outliers, on the day of such exceptional events, rather than considering whole day trades, only those trades shall be considered which have occurred post the event (on the same day).

The following events would be considered exceptional events:

- i. Monetary/Credit Policy
- ii. Union Budget
- iii. Government Borrowing/Auction Days
- iv. Material Statements on Sovereign Rating
- v. Issuer or Sector Specific events which have a material impact on yields
- vi. Central Government Election Days
- vii. Quarter end days

In addition to the above, valuation agencies may determine any other event as an exceptional event. All exceptional events along-with valuation carried out on such dates shall be documented with adequate justification.

2. Definition of tenure buckets for Similar Maturity

When a trade in the same ISIN has not taken place, reference should be taken to trades of either the same issuer or a similar issuer, where the residual tenure matches the tenure of the bond to be priced. However, as it may not be possible to match the exact tenure, it is proposed that tenure buckets are created and trades falling within such similar maturity be used as per table below.

Residual Tenure of Bond to be priced	Criteria for similar maturity
Upto 1 month	Calendar Weekly Bucket
Greater than 1 month to 3 months	Calendar Fortnightly Bucket
Greater than 3 months to 1 year	Calendar Monthly Bucket
Greater than 1 year to 3 years	Calendar Quarterly Bucket
Greater than 3 years	Calendar Half Yearly or Greater Bucket

In addition to the above:

- a. In case of market events, or to account for specific market nuances, valuation agencies may be permitted to vary the bucket in which the trade is matched or to split buckets to finer time periods as necessary. Such changes shall be auditable. Some examples of market events/nuances include cases where traded yields for securities with residual tenure of less than 90 days and more than 90 days are markedly different even though both may fall within the same maturity bucket, similarly for less than 30 days and more than 30 days or cases where yields for the last week v/s second last

week of certain months such as calendar quarter ends can differ.

- b. In the case of illiquid/semi liquid bonds, it is proposed that traded spreads be permitted to be used for longer maturity buckets (1 year and above). However, the yield should be adjusted to account for steepness of the yield curve across maturities.
- c. The changes/deviations mentioned in clauses (a) and (b) above, should be documented, along with the detailed rationale for the same. Process for making any such deviations shall also be recorded. Such records shall be preserved for verification.

3. Process for determination of similar issuer

Valuation agencies shall determine similar issuers using one or a combination of the following criteria. Similar issuer do not always refer to issuers which trade at same yields, but may carry spreads amongst themselves & move in tandem or they are sensitive to specific market factor/s hence warrant review of spreads when such factors are triggered.

- i. Issuers within same sector/industry and/or
- ii. Issuers within same rating band and/or
- iii. Issuers with same parent/within same group and/or
- iv. Issuers with debt securities having same guarantors and/or
- v. Issuers with securities having similar terms like Loan Against Shares (LAS)/Loan Against Property (LAP)

The above criteria are stated as principles and the final determination on criteria, and whether in combination or isolation shall be determined by the valuation agencies. The criteria used for such determination should be documented along with the detailed rationale for the same in each instance. Such records shall be preserved for verification. Similar issuers which trade at same level or replicate each other's movements are used in waterfall approach for valuations. However, similar issuer may also be used just to trigger the review of spreads for other securities in the similar issuer category basis the trade/news/action in any security/ies within the similar issuer group.

4. Recognition of trades and outlier criteria

i. Volume criteria for recognition of trades (marketable lot)

Master Circular for Mutual Funds dated June 27, 2024 on Valuation of money market and debt securities, prescribes that the marketable lots shall be defined by AMFI, in consultation with SEBI. In this regard, marketable lot is defined as under. The following volume criteria shall be used for recognition of trades by valuation agencies:

Parameter	Minimum Volume Criteria for marketable lot
Primary	INR 25 cr for both Bonds/NCD/CP/CD and other money market instruments
Secondary	INR 25 cr for CP/CD, T-Bills and other money market instruments
Secondary	INR 5 Cr for Bonds/NCD/G-secs

Trades not meeting the minimum volume criteria i.e. the marketable lot criteria as stated above shall be ignored.

ii. Outlier criteria

It is critical to identify and disregard trades which are aberrations, do not reflect market levels and may potentially lead to mispricing of a security or group of securities. Hence, the following broad principles would be followed by valuation agencies for determining outlier criteria.

- a. Outlier trades shall be classified on the basis of liquidity buckets (Liquid, Semi-liquid, Illiquid). Price discovery for liquid issuers is generally easier than that of illiquid issuers and hence a tighter pricing band as compared to illiquid issuers would be appropriate.
- b. The outlier trades shall be determined basis the yield movement of the trade, over and above the yield movement of the matrix. Relative movement ensures that general market movements are accounted for in determining trades that are outliers. Hence, relative movement over and above benchmark movement shall be used to identify outlier trades.
- c. Potential outlier trades which are identified through objective criteria defined below will be validated through polling from market participants. Potential outlier trades that are not validated through polling shall be ignored for the purpose of valuation.
- d. The following criteria shall be used by valuation agencies in determining Outlier Trades

Liquidity	Bps Criteria (Yield movement over Previous Day yield after accounting for yield movement of matrix)		
	Upto 15 days	15-30 days	Greater than 30 days
Liquid	30 bps	20 bps	10 bps
Semi-liquid	45 bps	35 bps	20 bps
Illiquid	70 bps	50 bps	35 bps

The above criteria shall be followed consistently and would be subject to review on a periodic basis by valuation agencies and any change would be carried in consultation with AMFI.

- e. In order to ensure uniform process in determination of outlier trades the criteria for liquidity classification shall be as detailed below.

Liquidity classification criteria — Liquid, semi-liquid and Illiquid definition

Valuation agencies shall use standard criteria for classifying trades as Liquid, Semi-Liquid and illiquid basis the following two criteria:

- a. Trading Volume
- b. Spread over reference yield

Such criteria shall be reviewed on periodic basis in consultation with AMFI.

Trading Volume (Traded days) based criteria:

Number of unique days an issuer trades in the secondary market or issues a new security in the primary market in a calendar quarter

- Liquid = 50% of trade days
- Semi liquid = 10% to 50% trade days
- Illiquid = <10 % of trade days

Spread based criteria:

Spread over the matrix shall be computed and based on thresholds defined, issuers shall be classified as liquid, semi liquid and illiquid.

Type of security	Spread for Liquid	Spread for Semi Liquid	Spread for Illiquid	Spread computation
Bonds	Upto 15 Bps	>15 - 75 Bps	> 75 Bps	Note 1
CP/CD	Upto 25 Bps	>25 - 50 Bps	> 50 Bps	Note 2

Note 1: spread is computed as average spread of issuer over AAA Public Sector Undertakings/Financial Institutions/Banks matrix

Note 2: spread is computed as average spread of issuer over A1+/AAA CD Bank matrix

The thresholds shall be periodically reviewed and updated having regard to the market.

The best classification (liquid being the best) from the above two criteria (trading volume and spread based) shall be considered as the final liquidity classification of the issuer. The above classification shall be carried out separately for money market instruments (CP/CDs) and bonds.

5. Process for construction of spread matrix:

Valuation agencies shall follow the below process in terms of calculating spreads and constructing the matrix.

Step 1	Segmentation of corporates – The entire corporate sector is first categorised across following four sectors i.e. all the corporates will be catalogued under one of the below mentioned bucket: 1. Public Sector Undertakings/Financial Institutions/Banks; 2. Non-Banking Finance Companies -except Housing Finance Companies; 3. Housing Finance Companies; 4. Other corporates
Step 2	Representative issuers:- For the aforesaid 4 sectors, representative issuers (Benchmark Issuers) shall be chosen by the valuation agencies for only higher rating {i.e. "AAA" or AA+}. Benchmark/Representative Issuers will be identified basis high liquidity, availability across tenure in AAA/AA+ category and having lower credit/liquidity premium. Benchmark Issuers can be single or multiple for each sector. It may not be possible to find representative issuers in the lower rated segments, however in case of any change in spread in a particular rating segment, the spreads in lower rated segments should be suitably adjusted to reflect the market conditions. In this respect, in case spreads over benchmark are widening at a better rated segment, then adjustments should be made across lower rated segments, such that compression of spreads is not seen at any step. For instance, if there is widening of spread of AA segment over the AAA benchmark, then there should not be any compression in spreads between AA and A rated segment and so on.

Step 3	Calculation of benchmark curve and calculation of spread:- 1. Yield curve to be calculated for representative issuers for each sector for maturities ranging from 1 month till 20 years and above. 2. Waterfall approach as defined in Part A (1) above will be used for construction of yield curve of each sector. 3. In the event of no data related to trades/primary issuances in the securities of the representative issuer is available, polling shall be conducted from market participants. 4. Yield curve for Representative Issuers will be created on daily basis for all 4 sectors. All other issuers will be pegged to the respective benchmark issuers depending on the sector, parentage and characteristics. Spread over the benchmark curve for each security is computed using latest available trades/primaries/polls for respective maturity bucket over the Benchmark Issuer. 5. Spreads will be carried forward in case no data points in terms of trades/primaries/polls are available for any issuer and respective benchmark movement will be given.
Step 4	1. The principles of VWAY, outlier trades and exceptional events shall be applicable while constructing the benchmark curve on the basis of trades/primary issuances. 2. In case of rating downgrade/credit event/change in liquidity or any other material event in Representative Issuers, new Representative Issuers will be identified. Also, in case there are two credit ratings, the lower rating to be considered. 3. Residual tenure of the securities of representative issuers shall be used for construction of yield curve.

Part B: Valuation of G-Secs (T-Bill, Cash management bills, G-Sec and SDL)

The following is the waterfall mechanism for valuation of Government securities:

- VWAY of last one hour, subject to outlier validation
- VWAY for the day (including a two quote, not wider than 5 bps on NDSOM), subject to outlier validation
- Two quote, not wider than 5 bps on NDSOM, subject to outlier validation
- Carry forward of spreads over the benchmark
- Polling etc.

Note:

1. VWAY shall be computed from trades which meet the marketable lot criteria stated in Part A of these Guidelines.
2. Outlier criteria: Any trade deviating by more than +/- 5 bps post factoring the movement of benchmark security shall be identified as outlier. Such outlier shall be validated through polling for inclusion in valuations. If the trades are not validated, such trades shall be ignored.

Annexure III

Guidelines on Polling Process for Money Market and Debt Securities:

The Guidelines on polling issued by AMFI in consultation with SEBI are as under:

Polling Guidelines:

1. Valuation agencies shall identify the Mutual Funds who shall participate in the polling process on a particular day, taking into account factors such as diversification of poll submitters and portfolio holding of the Mutual Funds. Mutual Funds who are identified by the valuation agencies shall necessarily participate in the polling process. However, in case any Mutual Fund does not participate in the polling process, detailed reason for the same shall be recorded at the time and subsequently made available during SEBI inspections. In this respect, since a Mutual Fund may have investments in similar securities, a security not forming part of investment universe may not be considered as an adequate reason for not participating in the polling process.
2. Polling will be carried out on a daily basis by the valuation agencies, in terms of points 9-11 below.
3. Each valuation agency needs to take polls from at least 5 unique Mutual Funds on a daily basis. Hence, between the two valuation agencies 10 unique Mutual Funds to be polled. They may cover more Mutual Funds, over and above this. For benchmark securities a poll constituting at least 5 responses will be considered as valid. In case of non-benchmark securities a poll constituting at least 3 responses will be considered as valid. The responses received by each valuation agency will be shared with the other agency also.
4. Median of polls shall be taken for usage in valuation process.
5. The valuation agencies will also need to cover as many non- Mutual Fund participants as possible, over and above the Mutual Funds, to improve on the polling output quality.
6. Endeavour would be made to have adequate representation of both holders and non-holders of the same bond/same issuer for non-benchmark securities in the poll process. Where this is not possible, valuation agencies may seek polls from holders of bonds with a similar structure.
7. In the case of issuers with multiple notch rating upgrades/downgrades over short periods of time, valuation agencies shall:
 - a. Conduct polls with a larger universe of pollers.
 - b. Increase the frequency of polling
8. Suo moto feedback on valuations should be entertained only through formal mails from persons designated by AMC for said purpose, and the same shall be validated through repolling. Any such feedback shall be duly recorded by the valuation agencies, including the reason for the challenge, results of repolling and subsequent changes in valuation on re-polling, if any. Such records shall be preserved by the valuation agencies, for verification.
9. Polling will be done for two sets of securities, Benchmark & Others.
10. Benchmark will be defined for the following categories across tenors.
 - a) Treasury Bills
 - b) Central Government Securities
 - c) State Government Securities
 - d) AAA PSU/PFI/PSU Banks
 - e) AAA Private
 - f) NBFC
 - g) HFC
 - h) Any other as required for improving fair valuations
11. Polling shall be conducted in the following two scenarios:
 - a) Validation of traded levels if they are outlier trades.
 - b) Non traded Securities (in exceptional circumstances as defined in the waterfall mechanism for valuation of money market and debt securities).
12. Best efforts should be made by poll submitters to provide fair valuation of a security.
13. The polling process will be revalidated by external audit of the valuation agencies with at least an annual frequency
14. AMCs shall have a written policy, approved by the Board of AMC and Trustees, on governance of the polling process. The aforesaid policy shall include measures for mitigation of potential conflicts of interest in the polling process and shall identify senior officials, with requisite knowledge and expertise, who shall be responsible for polling. Further, the policy should outline the following aspects.
 - a. the process of participating in a polling exercise.
 - b. identify the roles and responsibilities of persons participating in the polling.
 - c. include policies and procedures for arriving at the poll submission
 - d. cover the role of the Board of AMC and Trustees, and the periodic reporting that needs to be submitted to them.
 - e. All polling should be preferably over email. In case for any reason, the polling is done by way of a telephonic call then such a call should be over recorded lines, followed subsequently by an email.
 - f. AMCs should have adequate business continuity arrangements for polling, with the necessary infrastructure/skill to ensure that consistent delivery of poll submissions is made without material interruption due to any failure, human or technical.
15. All polling done will have to be documented and preserved in format approved by the Board of AMC, for a period of eight years, along-with details of the basis of polling (such as market transactions, market quotes, expert judgement etc.).
16. AMCs shall ensure that participation in the polling process is not mis-used to inappropriately influence the valuation of securities. The officials of the AMC who are responsible for polling in terms of point no. 14 above, shall also be personally liable for any misuse of the polling process.
17. AMCs shall maintain an audit trail for all polls submitted to valuation agencies.

A. Policy on computation of NAV:

A mutual fund's NAV is an indicator of its market value. Therefore, NAV can be viewed to assess the current performance of a mutual fund. It is mandatory, as per SEBI guidelines, that all mutual funds publicly display their NAV by updating it on the AMC & AMFI website on every business day.

The AMC will calculate and disclose the first NAV of the newly launched scheme not later than 5 Business Days from the allotment of Units.

Subsequently, the Net Asset Value (NAV) per Unit of the Scheme will be computed and disclosed at the close of every Business Day. The NAV of the scheme is computed by dividing the net assets of the Scheme by the number of Units outstanding under the Scheme on the valuation date. The AMC will value its investments according to the valuation norms, as specified in Schedule VIII of the SEBI (MF) Regulations, or such norms as may be specified by SEBI from time to time. In case of any conflict between the Principles of Fair Valuation and valuation guidelines specified by SEBI, the Principles of Fair Valuation shall prevail. The NAV's are declared after reducing the expense ratio as there are various expenses involved with respect to mutual fund scheme. The expense ratio includes management fees charges, operating costs, transfer agent costs, custodian and audit charges, and distribution and marketing expenses amongst others.

NAV of Units of under the Scheme shall be calculated as shown below:

NAV (Rs.) per unit = (Market or Fair Value of the Scheme's Investments + Current Assets - Current Liabilities and Provisions)/No. of Units outstanding under each Scheme.

B. Policy on rounding off:

NAVs for all equity oriented and balanced schemes are rounded off to 3 decimals. NAVs for all debt-oriented schemes and all types of Exchange Traded Fund (ETF) & Index schemes are rounded off to 4 decimals.

HDFC Multi-Asset Active FOF, HDFC Income Plus Arbitrage Active FOF and HDFC Developed World Equity Passive FOF upto 3 decimals, HDFC Gold ETF Fund of Fund and HDFC Silver ETF Fund of Fund upto 4 decimals.

In case of any deviation to this rule, respective scheme offer document will mention the decimals up to which NAV's will be rounded off.

C. Policy For Computation of NAV in Foreign Securities:

Traded foreign securities including ADR/GDR shall be valued based on the latest available closing price of the stock exchange on which the security is listed. If the security is listed on more than one stock exchange, the AMC shall select the appropriate stock exchange and the reasons for selection of the stock exchange shall be recorded in writing and approved by Valuation Committee.

When on a particular valuation day, a security has not been traded on the selected stock exchange; the value at which it is traded on another stock exchange or last available price on the selected stock exchange shall be used provided such date is not more than thirty days prior to the valuation date.

On valuation date, all assets and liabilities in foreign currency shall be valued in Indian Rupees at the RBI reference rate as at the close of banking hours on the relevant Business Day in India.

If the security is listed in currency for which RBI reference rate is not available, the exchange rates available from Reuters will be used. In case the direct exchange rates are not available on Reuters, then cross currency rate with USD would be considered and converted as per the INR/USD RBI reference rate.

(ii) Non Traded Securities

Non traded foreign security shall be valued by AMC at fair value after considering relevant factors on case to case basis. Non-traded ADR/GDR shall be valued after considering prices/issue terms of underlying security. Valuation committee shall decide the appropriate discount for illiquidity.

The Fund will receive all income without any deduction of tax at source under the provisions of Section 196(iv) of the Act.

Explanation to section 112A defines "equity oriented fund" as under—

- (a) "equity oriented fund" means a fund set up under a scheme of a mutual fund specified under clause (23D) of section 10 and,—

2. Tax Benefits/Consequences to Unit holders

Tax Implications on distributed income (hereinafter referred to as either 'dividend' or 'capital gains') by Mutual Funds.

i. Income-tax

All Unit holders

Income distributed by Mutual Fund, otherwise than on transfer, in respect of units of a mutual fund will be taxable in the hands of investors at applicable rates.

● **Capital Gains Tax**

Note: Period of holding for short term capital asset in respect of units of equity oriented mutual fund schemes is less than or equal to 12 months and in case of other than equity oriented mutual fund units (other than specified mutual funds) is less than or equal to 12 months for listed units and less than or equal to 24 months for unlisted units. A capital asset other than a short term capital asset is considered as long term capital asset.

● **Long Term Capital Gains (LTCG)**

LTCG exceeding Rs. one lakh twenty-five thousand rupees arising on transfer of units of equity oriented fund are taxable at 12.5% (plus applicable surcharge and cess) under section 112A², provided such transfer is chargeable to STT.

LTCG arising from the transfer of such units shall be calculated without indexation (inflation adjustment) and foreign currency fluctuation benefit. In computing LTCG, the cost of acquisition (COA) is an item of deduction from the sale consideration of the units. To provide relief on gains already accrued upto 31 January 2018, a mechanism has been provided to "step up" the COA of securities. Under this mechanism, COA is substituted with the "Fair Market Value (FMV)"³, where sale consideration is higher than the FMV. Where sale value is higher than the COA but not higher than the FMV, the sale value is deemed as the COA.

¹ The FA 2020 caps the surcharge on "dividend". It appears for this purpose that dividend would mean dividend from equity shares and may not cover dividend from mutual fund schemes/income distributed by mutual funds. This is because the Income-tax Act in several places refers to dividend from equity shares as "dividend" and dividend from mutual fund as "income distributed by mutual fund". Income distribution by mutual fund is technically not regarded as dividend. Based on such approach, "mutual fund dividend" is subject to super-rich surcharge.

² Please note, CBDT vide notification no. F. No. 370149/20/2018-TPL dated February 4, 2018, issued FAQs to address several queries raised on various issues relating to the new tax regime for taxation of long-term capital gains.

³ FMV is defined as:

- the highest price quoted for the unit on 31 January 2018 on a "recognized stock exchange", or
- Net Asset Value of the unit as on 31 January 2018 where unit is not listed.

For Capital gains for other than equity-oriented funds (excluding Specified Mutual Funds), same would be taxed at 12.5% without indexation. For non-residents, capital gains on listed securities (other than equity-oriented funds and other than specified mutual fund) would be taxed at 12.5% without indexation and without foreign currency fluctuation benefit.

For Capital gains for Specified Mutual Funds:

As per section 50AA of the Act, gains from transfer or redemption or maturity of unit of a Specified Mutual Fund or a Market Linked Debenture acquired on or after 1 April 2023, will be taxed as deemed short-term capital gains at applicable rates and capital gains arising from the transfer/redemption/maturity of an unlisted bond or an unlisted debenture shall also be taxed as short-term capital gains irrespective of the holding period of such asset.

Till FY 2024-25, Specified Mutual Fund means a Mutual Fund, where not more than thirty five percent of its total proceeds is invested in the equity shares of domestic companies.

From FY 2025-26, SMF means:

- a) a Mutual Fund which invests more than 65% of total proceeds in debt and money market instruments; or
- b) a fund which invests 65% or more of total proceeds in units of a fund referred in (a).

Provided that the percentage of equity shareholding held in respect of the Specified Mutual Fund shall be computed with reference to the annual average of the daily closing figures.

Market Linked Debenture means a security by whatever name called, which has an underlying principal component in the form of a debt security and where the returns are linked to market returns on other underlying securities or indices and include any security classified or regulated as a market linked debenture by the Securities and Exchange Board of India.

Provided that the term “debt and money market instruments” shall include any securities, by whatever name called, classified or regulated as debt and money market instruments by the Securities and Exchange Board of India.

● **Short Term Capital Gains (STCG)**

In case the capital gain arising on transfer of the listed units mentioned above is a short-term capital gain, Section 111A provides that income-tax will be charged on such transaction at 20% (plus applicable surcharge and Health and Education cess).

Further, short term capital gains arising on transaction undertaken on a recognized stock exchange located in any International Financial Services Centre and consideration is paid or payable in foreign currency, where STT is not

chargeable, will also be taxed at a rate of 20% (plus applicable surcharge and Health and Education cess). This benefit is available to all assesseees.

Section 111A further states that, in the case of Resident Individuals and Hindu Undivided Families, whose total income (as reduced by such short-term capital gain) is below the basic exemption limit, then such short-term capital gains shall be reduced by the amount of basic exemption limit not exhausted by any other income and only balance short term capital gain will be taxed at 20% (plus applicable surcharge and Health and Education cess).

Such gains would be calculated without considering benefit of indexation for the COA.
- LTCG (over and above Rs. 1.25 lakh) arising on sale of units of equity oriented funds and subject to conditions relating to payment of STT, are taxable at 12.5% (plus applicable surcharge and Health and Education cess).

- Short-term capital gains arising on sale of units, in any other case, which are not subject to STT, are taxable at 30% (plus applicable surcharge and Health and Education cess) under section 115AD of the Act.

iii. **Capital Gains Tax for Offshore Funds**

- LTCG arising from transfer of the units of Mutual Fund purchased by the Offshore Funds (Overseas Financial Organizations) in foreign currency would be taxed at the rate of 12.5% (plus applicable surcharge and Health and Education cess). Such gains would be calculated without considering benefit of indexation on COA.
- Short-term capital gains arising from transfer of the units by the Offshore Funds are taxable as part of total income at applicable rates.

iv. **Capital Gains Tax for Other Investors**

- LTCG on sale of listed units of equity oriented fund, subject to conditions relating to payment of STT is taxable at 12.5% (plus applicable surcharge and Health and Education cess).

⁴ SEBI had notified SEBI (Foreign Portfolio Investors) Regulations, 2014 on 7 January 2014 whereby existing Foreign Institutional Investor (FII), Sub-Accounts and Qualified Foreign Investors merged into a new investor class termed as Foreign Portfolio Investors (FPIs). For the purpose of section 115AD of the Act, FPIs are recognized as FII.

- For non-resident investors, LTCG on transfer of unlisted units will be taxable @ 12.5% (plus applicable surcharge and Health and Education cess) without indexation benefit.
- In other cases, for residents and non-residents, LTCG would be taxed at the rate of 12.5% (plus applicable surcharge and Health and Education cess) without indexation benefit.

- Deductions under Chapter VI-A of the Act cannot be claimed against the short-term capital gains and long-term capital gains, covered under section 111A or section 112 or section 112A of the Act.
- The following amounts would be deductible, from the full value of consideration, to arrive at the amount of capital gains:
 - Cost of acquisition (indexation benefit not available except for few assets) and

Exemption of capital gain from income tax

- As per the provisions of Section 54F of the Act and subject to the conditions specified therein, in the case of an individual or a HUF, capital gains arising on transfer of a long term capital asset (not being a residential house) are not chargeable to tax if the entire net consideration received on such transfer is invested within the prescribed period in a residential house. If part of such net consideration is invested within the prescribed period in a residential house, then such gains would not be chargeable to tax on a proportionate basis. For this purpose, net consideration means full value of the consideration received or accruing as a result of the transfer of the capital asset as reduced

by any expenditure incurred wholly and exclusively in connection with such transfer.

All Unit holders

Under the provisions of Section 94(7) of the Act, loss arising on sale of Units, which are bought within 3 months prior to the record date (i.e. the date fixed by the Mutual Fund for the purposes of entitlement of the Unit holders to receive income or additional units without any consideration, as the case may be) and sold within 9 months after the record date, shall be ignored for the purpose of computing income chargeable to tax to the extent of exempt income received or receivable on such Units.

⁶ Section 115BAC. For adopting the new tax regime, most of the deductions/exemptions such as section 80C, 80D, etc. are to be foregone. The aforesaid regime is the default tax regime. Accordingly, Tax payers will be required to specifically opt for old tax regime. The option under new regime once exercised can be changed in subsequent years (not applicable for business income).

Under the provisions of Section 94(8) of the Act, where any person purchases units ('original units') within a period of 3 months prior to the record date, who is allotted additional units without any payment and sells all or any of the original units within a period of 9 months after the record date, while continuing to hold all or any of the additional units, then any loss arising on sale of the original units shall be ignored for the purpose of computing income chargeable to tax. The amount of loss so ignored shall be deemed to be the cost of purchase of the additional units as are held on the date of such sale.

General Anti Avoidance Rule ('GAAR') is an anti-tax avoidance Rule which is applicable w.e.f. April 1, 2017. The objective of GAAR is to deny tax benefits to an arrangement which has been entered into with the main purpose of obtaining tax benefits and which lacks commercial substance or creates rights and obligations which are not at arm's length principle or results in misuse of tax law provisions or is carried out by means or in a manner which are not ordinarily employed for bona fide purposes. The over-arching principle of GAAR provisions is "substance over form".

The Organisation of Economic Co-operation and Development ('OECD') released the Multilateral Convention to implement Tax Treaty related measures to prevent Base Erosion and Profit Shifting ('MLI'). The MLI, amongst others, includes a "principal purpose test", wherein Tax Treaty benefits can be denied if one of the principal purpose of an arrangement or a transaction was to, directly or indirectly, obtain tax benefit. The MLI has also expanded the scope of permanent establishment to include agent (excluding an independent agent) playing principal role, leading to routine conclusion of contracts without material modification. For this purpose, an agent is not considered independent if it acts exclusively or almost exclusively on behalf of one or more closely related enterprises. India has been an active participant in the entire discussion and its involvement in the BEPS project has been intensive. In a ceremony held in Paris on 7 June 2017, various countries including India, signed the MLIs.

It is however clarified that the Mutual Fund/AMC will not be bound to transmit the Units in favour of the nominee if it becomes aware of any dispute in relation to the nominee's entitlement to the Units. Providing information about beneficial ownership is mandatory for all categories of investors except (i) Individuals and (ii) a Company, which is listed on a stock exchange or is a majority owned subsidiary of such a Company.

firm or unincorporated association/body of individuals, the beneficial owners are the natural person/s who is/are acting alone or together, or through one or more juridical person and exercising control through ownership or who ultimately has a controlling ownership interest.

(ii) Controlling ownership interest means ownership of/entitlement to:

- a) more than 10% of shares or capital or profits of the juridical person, where juridical person is a company.
- b) more than 10% of the capital or profits of the juridical person, where the juridical person is a partnership firm; or
- c) more than 15% of the property or capital or profits of the juridical person, where the juridical person is an unincorporated association or body of individuals.

(iii) In cases, where there exists doubt as to whether the person with the controlling ownership interest is the beneficial owner or where no natural person exerts control through ownership interests, the identity details should be provided of the natural person who is exercising control over the juridical person through other means (i.e. control exercised through voting rights, agreement, arrangements or in any other manner).

(c) For Foreign Investors:

The Know Your Client requirements in case of foreign investors viz. Foreign Portfolio Investor (FPI), Sub accounts and Qualified Foreign Investors (QFIs) as specified in SEBI Master Circular No. SEBI/HO/AFD/AFD-PoD-2/P/CIR/2024/70 dated May 30, 2024 for Foreign Portfolio Investors, Designated Depository Participants and Eligible Foreign Investors shall be considered for the purpose of identification of beneficial ownership of the investor.

For collection of information/documentation from investors/Unitholders, SEBI has prescribed uniform Know Your Client (KYC) requirements vide Master Circular No. SEBI/HO/MIRSD/SEC/FATF/P/CIR/2023/169 dated October 12, 2023 on KYC norms for securities market to be used by the concerned registered intermediaries. Further, the intermediaries are also advised vide SEBI Master circular dated May 30, 2024 as mentioned in above paragraph read with the guidance on KYC requirements issued by SEBI to follow a risk based approach towards KYC requirements of Eligible Foreign Investors (EFI)/Foreign Portfolio Investors (FPIs) by classifying them into Category I, II and III.

SEBI has also notified the SEBI KYC Registration Agency (KRA) Regulations, 2011 and have issued guidelines under these regulations from time to time.

For more details on '**Ultimate Beneficial Owners (UBO(s))**' investors may log on to '**Investor Corner**' Section on our website www.hdfcfund.com

• **Know Your Customer (KYC) Compliance**

In terms of the PML Act, 2002, the Rules issued there under and the guidelines/circulars issued by SEBI regarding the Anti Money Laundering (AML Laws) from time to time, all intermediaries, including Mutual Funds, have to formulate and implement a client identification programme, verify and maintain the record of identity and address(es) of investors.

In order to bring about uniformity in the Know Your Customer (KYC) process in the securities market, Common KYC Application form and supporting documents shall be used by all SEBI registered intermediaries viz. Mutual Funds, Portfolio Managers, Depository Participants, Stock Brokers, Venture Capital Funds, Collective Investors Schemes, etc. Further, to avoid duplication of KYC process across SEBI registered intermediaries, a mechanism for centralization of the KYC records in the securities market has been developed. Accordingly, we will be performing the initial KYC of our clients and upload the details on the system of the KYC Registration Agency (KRA). The data from the KRA shall be checked and passed onto the Central Registry of Securitization Asset Reconstruction and Security Interest (CERSAI) for generation of the KYC Identification number (KIN) of the investor. The KYC details of the client can be accessed by other intermediaries by accessing the KRA system. As a result, once the client has done KYC with a SEBI registered intermediary, he need not undergo the same process again with the Fund provided the KYC has been done with Aadhaar as the Proof of Identity. In case, the KYC is done with any other Officially Valid Document as proof of Identity, the investor would need to undergo the KYC every time they invest with a new SEBI registered intermediary i.e. AMC. However, the Fund reserves the right to carry out fresh KYC of the investor in its discretion. For regulating KRAs, SEBI has formulated the KYC Registration Agency (KRA) Regulations, 2011 which covers the registration of KRAs, functions and responsibilities of the KRAs and intermediaries, code of conduct, data security, etc.

In-Person' Verification (IPV) of clients has been made mandatory for all SEBI registered intermediaries. Asset Management Companies (AMCs) and the distributors who comply with the certification process of National Institute of Securities Market (NISM) or Association of Mutual Funds (AMFI) and have undergone the process of 'Know Your Distributor (KYD)' can perform the IPV for mutual fund investors. Additionally, entities registered as Category 1 Execution Only Platform (EOP) can perform the IPV. However, where applications are received by the mutual funds directly from the clients (i.e. not through any distributor), the IPV performed by the scheduled commercial banks can be relied on. The IPV carried out by any SEBI registered intermediary can be relied upon.

In case the applicant is a minor, PAN/PEKRN details of the Guardian shall be submitted, as applicable. Eligible Investors (i.e. the First Holder) must not possess a PAN at the time of submission of application form. Eligible investors must hold only one PEKRN issued by any one of the KRAs.

If an application for investment together within investments made in a rolling 12 month period or in a financial year exceeds Rs. 50,000, such an application will be rejected.

Fresh/Additional Purchase and Systematic Investment Plans will be covered in the limit of Rs.50,000. Investors may switch their investments to other Schemes. However, if the amount per switch transaction is Rs. 50,000 or more, in accordance with the extant Income Tax rules, investors will be required to furnish a copy of PAN to the Mutual Fund. The detailed procedures/requirements for accepting applications shall be as specified by the AMC/Trustee from time to time and their decision in this behalf will be final and binding.

* HUFs and other categories are not eligible for such investments.

● Joint Holders

If an application has more than one investor, (maximum three permitted) the investors are required to specify the 'mode of holding' in the initial application form as either 'Joint' or 'Anyone or Survivor'. In the event, the investors fail to specify the mode of holding, then by default, the mode of holding will be treated as 'joint' for all future purposes by the AMC in respect of the folio. In case the mode of holding is specified as 'Joint', the financial and non-financial transaction requests and instructions should be signed by all the Unitholders of the folio. In case the mode of holding is specified as 'Anyone or Survivor', any one of the Unitholders as mentioned in the initial application form may sign the financial and non-financial transaction requests and instructions except for lien requests and appointment of nominee/cancellation of nominee, where signature of all the Unitholders are required. However, in both the above scenarios, the account statements, notices, statutory statements, correspondences with respect to the folio/s, redemptions, IDCW and any other distribution proceeds that may be declared by the Mutual Fund from time to time will be paid to the first-named Unitholder. The Mutual Fund/AMC shall have no liability in this regard to any other Unitholder other than the first named holder of Units. In addition, such first named Unitholders shall have the voting rights, as permitted, associated with such Units, as per the applicable guidelines. In case of death/insolvency of any one or more of the Unitholder/s in the folio, the AMC shall not recognise any person(s) other than the remaining Unitholder/s. It is however clarified that if any order/direction/instruction to the contrary is issued by

any Governmental/judicial/quasi-judicial authority, the AMC/Mutual Fund may act in compliance with the same. In all such cases, the redemptions, IDCW and other distributions as may be declared by the Mutual Fund from time to time shall be paid to the first-named of the remaining Unitholder/s or as the case may be. For Units held in Electronic (Demat) Mode for DP account held in joint names, the rules of the Depository for operation of such DP accounts will be applicable.

For Units held in Electronic (Demat) Mode

For DP account held in joint names, the rules of the Depository for operation of such DP accounts will be applicable.

● Investments on Behalf of Minor

In addition to the existing procedures, the following procedures shall apply to the investments made on behalf of Minors:-

- (i) The minor shall be the sole Unitholder in a folio. Joint holders will not be registered.
- (ii) Investments in the name of minors shall be permitted only from bank account of the minor, parent or legal guardian of the minor or from a joint account of the minor with the parent or legal guardian.
- (iii) Copies of birth certificate/passport evidencing the date of birth of the minor, relationship proof of the natural parent/ Court Order appointing the legal guardian (as the case may be) should be mandatorily provided while placing a request for subscription on behalf of a minor investor.
- (iv) The AMC/Mutual Fund will register standing instructions like SIP/STP/SWAP etc. for a folio held by a minor Unitholder (either for existing folio or new folio) from the parent/legal guardian only till the date when the minor Unitholder attains the age of majority, even though such instructions may be for a period beyond that date.

● Change of Status from Minor to Major:

Prior to the minor Unitholder attaining the age of majority, the AMC/Mutual Fund will send a notice to the minor Unitholder at the registered correspondence address/email id advising such minor Unitholder to submit, on attaining the age of majority, an application form along with prescribed documents to change the status of the folio/s from 'minor' to 'major'. Upon attainment of majority by the minor Unitholder, the folio/s should be regularized forthwith. The AMC may specify such procedures for regularisation of the Folio/s, as it may deem appropriate from time to time. Till the receipt of such intimation/information from the minor turned major Unitholder, existing contract as signed by the parent/legal guardian of the minor Unitholder will continue. However, from the date of attainment of majority, Folio/s of the minor Unitholder will be frozen for operation by the representing guardian and all transactions will be suspended. No transactions will be permitted in the Folio(s) till the regularization of the Folio/s in a manner prescribed by the AMC/Mutual Fund.

The AMC/Mutual Fund will register standing instructions like SIP/STP/SWAP etc. for a folio held by a minor Unitholder from the parent/legal guardian only till the date when the minor Unitholder attains the age of majority, even though the instructions may be for a period beyond that date.

● Change of Guardian:

In case of change of natural parent/legal guardian of a minor Unitholder, the new parent/legal guardian must submit the documents prescribed by the AMC/Mutual Fund, including the following:

- (a) No Objection Certificate (NOC) or Consent Letter from existing parent or Court Order appointing new legal guardian for the benefit of the minor Unitholder.
- (b) KYC Acknowledgment Letter of new parent/legal guardian.

● Pledge/Lien of Units

The Units standing to the credit of the Unit holder under the Scheme(s) (subject to completion of Lock-in Period, if any) may be offered by the Unitholder as security in favour of scheduled banks, financial institutions, Non-Banking Financial Companies (NBFC's) or any other persons ("Lender") subject to applicable SEBI Regulations and other laws, provided such Lenders are eligible to hold the Units. Upon a specific authorisation request made by the Unitholder (to be signed by all Unitholders, in case the mode of holding is joint or either or survivor) and completion of necessary documentary formalities, the Mutual Fund/AMC will instruct the Registrar to mark a pledge/lien on the Units in favour of the Lender on the Units as may be requested by the Unitholder. A standard form for this purpose is available on request from any of the ISCs. Disbursement/sanctioning of loans/facilities will be at the sole discretion of the Lender and the Mutual Fund/AMC assumes no responsibility thereof. The Unitholder will not be able to redeem/switch-out the Units that are pledged/lien marked in favour of the Lender until the Mutual Fund/AMC receives a written authorization from the Lender that the Unitholder has been absolved of the financial obligations and that the pledge/lien may be removed/vacated. As long as the Units are pledged/lien marked, the Lender will have complete authority to redeem/transact in respect of such Units. If by enforcing the pledge/lien, the Lender seeks to transfer the Units in its own name, then in such event the Mutual Fund/AMC shall be obliged to comply with the said request, provided the Lender or such other entity, as the case may be, is eligible to hold the units and all the necessary documentary evidence is made available to the satisfaction of the Mutual Fund/AMC. Upon such transfer, the Mutual Fund/AMC shall be discharged of all its liabilities in respect of the Units towards the Unitholder.

An intimation of the invocation of the pledge/lien will be sent to the Unitholder. The Mutual Fund/AMC thereafter shall not be responsible for any claims made and/or losses incurred by the Unitholder and/or any third party in this regard. In case the Units of close-ended scheme are under pledge/lien, then at the time of maturity of the scheme if the Units are still under pledge/lien, then on the failure to receive any instructions from the Lender and the Unitholder, the Mutual Fund/AMC reserves the right to pay the maturity proceeds to the Unitholder, post intimation of such payment to the Lender, and AMC/Mutual Fund shall not be liable/responsible for any loss incurred by the Lender and/or the Unitholder on account of such payment. The AMC/Mutual Fund shall also not be liable/responsible for any delay in payment of the maturity proceeds in such an event. Upon such payment, the Mutual Fund/AMC will be discharged of all its liabilities towards such Unitholder.

The distribution of income in the nature of IDCW payouts declared on Units under pledge/lien shall always be paid to the Unitholder. The Mutual Fund/AMC reserves the right to change the operational guidelines for this facility offered by the AMC from time to time.

● For Units held in Electronic (Demat) Mode

For Units of the Scheme(s) held in electronic (Demat) form, the rules/buy-laws of Depository applicable for lien/pledge will be applicable to the Units of the Scheme(s).

● Powers To Remove Difficulties

If any difficulty arises in giving effect to the provisions of the

Scheme, the Trustee may take such steps that are not inconsistent with these provisions which appear to them to be necessary and expedient, for the purpose of removing difficulties.

● Powers To Make Rules

The Mutual Fund/AMC may from time to time prescribe such forms and make such rules for the purpose of giving effect to the provisions of the Scheme, and add to, alter or amend all or any of the forms and rules that may be framed from time to time in the interest of the Investors.

3. Dematerialisation and rematerialisation procedures:

The Applicants intending to hold the Units in dematerialized mode will be required to have a beneficiary account with a Depository Participant (DP) of the NSDL/CDSL and will be required to mention in the application form DP's Name,

DP ID No. and Beneficiary Account No. with the DP at the time of purchasing Units.

The Units allotted will be credited to the DP account of the Unit holder as per the details provided in the application form within five working days from the date of close of NFO/date of receipt of application during the Continuous Offer Period. The statement of holding of the beneficiary account holder for units held in demat will be sent by the respective DPs periodically. Units held in demat form are freely transferable.

If the Unit holder desires to hold the Units in a Dematerialized/Rematerialized form at a later date, the request for conversion of units held in Account Statement (non demat) form into Demat (electronic) form or vice versa should be submitted along with a Demat/Remat Request Form to their Depository Participants. The AMC/RTA will endeavour to credit the units in the demat account of the investor within 2 working days from the date of receipt of valid request with complete details.

However, the Trustee/AMC reserves the right to change the dematerialization/rematerialization process in accordance with the procedural requirements laid down by the Depositories, viz. NSDL/CDSL and/or in accordance with the provisions laid under the Depositories Act, 1996 and Regulations thereunder.

4. ASBA related disclosures

Please refer to details regarding ASBA provided under Point No. 26 of Section titled "How to Apply" of SAI.

5. Portfolio Turnover: Portfolio Turnover measures the volume of trading that occurs in a Scheme's portfolio during a given time period. In case of an open-ended schemes, it is expected that there would be a number of subscriptions and redemptions on a daily basis. Consequently, it is difficult to estimate with any reasonable measure of accuracy, the likely turnover in the portfolio. Portfolio turnover of schemes is subject to the exigencies and needs of the Scheme. A higher portfolio turnover results in higher brokerage and transaction cost.

- For Schemes following a passive investment strategy, the endeavour will be to minimise portfolio turnover subject to the exigencies and needs of the Scheme. Generally, turnover will be confined to rebalancing of portfolio on account of new subscriptions, redemptions and change in the composition of the underlying index and corporate actions of securities included in the underlying index.
- Close-ended schemes generally follow a buy-and-hold strategy. Hence, the portfolio turnover is likely to be lower.

G. INFORMATION PERTAINING TO INVESTMENTS BY THE SCHEMES OF THE FUND

1. DERIVATIVE STRATEGIES

Basic Structure of an Index Future: (For equity-oriented schemes)

Index Futures are instruments designed to give exposure to the equity market indices. BSE Limited and the National Stock Exchange of India Limited have started trading in index futures of 1, 2 and 3-month maturities. The pricing of an index future is the function of the Underlying Index and short term interest rates.

Example:

Assumptions:

1 month BSE 30 Future

Spot Index: 4900

Future Price on day 1: 4920

Fund buys 10,000 futures contracts On Date of settlement

Future price = Closing spot price = 4950

Profits for the Fund = $(4950 - 4920) \times 10000 = \text{Rs. } 300,000 + \text{interest for the 1 month period.}$

Please note that the above example is given for illustration purposes only.

The net impact for the Fund will be in terms of the difference between the closing price of the index and cost price (ignoring margins for the sake of simplicity) plus interest costs on funds that would otherwise be invested in stocks comprising the index. The risks associated with index futures are similar to those associated with equity investments. Additional risks could be on account of illiquidity and/or mispricing of the future at any time during the life of the contract.

The strategies below are given for illustration purposes only. Some of the strategies involving derivatives that may be used by the Investment Manager, with an aim to protect capital and enhance returns include:

Strategy Number 1

Using Index Futures to increase percentage investment in equities

This strategy will be used for the purpose of generating returns on idle cash, pending its investment in equities. The Scheme is subject to daily flows. There may be a time lag between the inflow of funds and their deployment in stocks. If so desired, the scheme would be able to take immediate exposure to equities via index futures. The position in index futures may be reversed in a phased manner, as the funds are deployed in the equity markets.

Example:

The scheme has a corpus of Rs. 50 crore and there is an inflow of Rs. 5 crore in a day. The AMC may buy index futures contracts of a value of Rs. 5 crore. Later as the money is deployed in the underlying equities, the value of the index futures contracts can be suitably reduced.

Portfolio	Event	Equity Portfolio gain/(Loss) (₹ in crore)	Derivative gain/(Loss) (₹ in crore)	Total Portfolio gain/(Loss) (₹ in crore)
Rs. 50 Crore equity exposure	10% rise in equity prices	5	Nil	5

Portfolio	Event	Equity Portfolio gain/(Loss) (₹ in crore)	Derivative gain/(Loss) (₹ in crore)	Total Portfolio gain/(Loss) (₹ in crore)
Rs. 50 Crore equity exposure + Rs. 5 Crore long position index futures	10% rise in equity prices	5	0.5	5.5
Rs. 50 Crore equity exposure	10% fall in equity prices	(5)	Nil	(5)
Rs. 50 Crore equity exposure + Rs. 5 Crore long position index futures	10% fall in equity prices	(5)	(0.5)	(5.5)

Strategy Number 2

(Applicable to all Schemes except Exchange Traded Funds and Index Funds)

Downside Protection Using Stock Put

As a stock hedging strategy, the purchase of a put option on an underlying stock held would lead to a capping of the loss in value of the stock in the event of a material decline in the stock's price.

The purchase of a put option against a stock holding in the scheme gives the scheme the option of selling the stock to the writer of the put at the predetermined level of the Put Option, called the strike price. If the stock falls below this level, the downside for the scheme is protected as it has already locked into the selling price. In case of a fall in the stock's price below the strike price, the value of the Put Option appreciates, approximately corresponding to the extent of the stock's price fall below the strike price.

Example:

Let us assume 20000 shares of XYZ Limited held in the portfolio with a market value of Rs. 1000 per share (overall Rs. 2 crores). The scheme purchases put options on the stock of XYZ Limited (not exceeding its holding of 20000 shares) with a strike price of Rs. 990 for an assumed cost (called Option Premium) of Rs.15 per share (Rs. 3 lakhs for 20000 shares).

By purchasing the above Put Option, the scheme has effectively set a floor to the realisation from the stock at Rs. 975 per share (Rs. 990 strike price less Rs. 15 Option Premium paid).

In case the stock price of the company falls below Rs. 975 per share, the gain in the price of the Put Option when added to the actual market price of the stock would bring the sale realisation per share close to Rs. 975 per share.

After purchasing the above Put Option, in case the price of the stock appreciates, remains around Rs. 1000 or declines slightly to remain above the strike price, the scheme may not avail of the option and the cost for having bought the option remains fixed at Rs. 15 per share.

In effect, a floor (in this case effectively Rs. 975) is set to the stock by buying an Option at a cost that is known (in this case Rs. 15 per share).

Strategy Number 3 (Applicable to all Schemes except HDFC NIFTY Realty Index Fund)

Using Call option on Index to increase percentage investment in equities

This strategy will be used for the purpose of participating in the upside of the market.

Example:

Suppose, the Scheme has a corpus of Rs. 100 crore and the Scheme on January 31, 2021 buys upto maximum 20% of the total assets into Index call option wherein strike price of underlying benchmark index is 10,000 and the premium on each call option for expiry after 3 years i.e. February 01, 2024 was at Rs. 2,000.

Based on the above strategy the total assets of the Scheme will be as under:

Existing Scheme Net Assets		Revised Scheme Total Assets	
Asset Type	₹ in crores	Asset Type	₹ in crores
Equity	70	Equity	70
Net Current Assets	30	Option Premium*	20
		(20% of 100 crores)	
		Net Current Assets	10
Total Assets	100	Total Assets	100

* Option premium paid is to take an additional exposure of around Rs. 100 crores of equities. Therefore, the total exposure to equity assets due to the said strategy will be around Rs. 170 crores (i.e. Rs. 70 crores + Rs. 100 crores).

Assuming the market index goes up the value of call option will increase. Thus, one can participate in the upside of the market as shown in the table below.

Date	Closing value of underlying benchmark index	Call Premium/ value at expiry (Rs.)
31/01/2021	10,000	2,000
February 01, 2024	12,400	2,400

Thus, the gain on the above strategy for the Scheme will be Rs. 400 (Rs. 2,400 - Rs. 2,000) on each call option.

Strategy Number 4 (Applicable to all Schemes except Exchange Traded Funds and Index Funds)

Using Put option on Index to minimize downside in equities

This strategy will be used for the purpose of hedging against downside in the market and capping the maximum loss in such a scenario.

Example:

Suppose, the Scheme has a corpus of Rs. 100 crore and the Scheme on January 31, 2021 buys 6% of the total assets into At-the-money Index put option wherein strike price of underlying benchmark index having expiry February 01, 2023 index put option is Rs 10,000, bought at a premium of Rs. 600.

Based on the above strategy the total assets of the Scheme will be as under:

Existing Scheme Net Assets		Revised Scheme Total Assets	
Asset Type	₹ in crores	Asset Type	₹ in crores
Equity	100	Equity	94
		Option Premium*	6
Total Assets	100	Total Assets	100

*Option premium paid is to take downside exposure to Rs. 94

crore in underlying benchmark index. Therefore, the total exposure to long equities is Rs 94 crore and participation in downside of underlying benchmark index is Rs 94 crore through the option.

Date	Closing value of underlying benchmark index	Put Premium/value at expiry (Rs.)
January 31, 2021	10,000	600
February 01, 2023	9,000	1,000

Thus, the overall gain on the above put option for the Scheme will be Rs 400 (Rs. 1,000 - Rs. 600) on each put option.

Covered Call Strategy (Applicable to HDFC Banking & Financial Services Fund, HDFC Business Cycle Fund, HDFC Defence Fund, HDFC Dividend Yield Fund, HDFC Equity Savings Fund, HDFC Flexi Cap Fund, HDFC Housing Opportunities Fund, HDFC MNC Fund, HDFC Multi-Asset Fund, HDFC Multi Cap Fund, HDFC Non-Cyclical Consumer Fund, HDFC Transportation and Logistics Fund, HDFC Technology Fund, HDFC Pharma and Healthcare Fund, HDFC Manufacturing Fund):

When the Fund may sells a covered call (also known as writing a covered call), it would mean that the Fund would already be owning shares of the underlying stock and is selling a call which grants the buyer right, but not the obligation, to buy that stock at a set price until the option expires. The Fund would earn income known as option price or value (commonly known as the option premium) premium. An option's premium is based on several factors, like time value, intrinsic value, and implied volatility etc.

Illustration:

The Scheme owns 100 shares of Company A. Current Market Price (CMP) is Rs.50/- per share. The Scheme writes a covered call with a strike price of Rs.55/- and receives a premium of Rs.2.50 per share. Thus, the total premium received for selling the call option is Rs.250 (Rs 2.5*100 lot size). The call has an expiration date of 3 months.

On the day of expiration of options contract:

Scenario 1: The market price of Company A is below Rs.55/-, the Scheme keeps the premium (Rs.250/-) and also the stock as the buyer would let the call expire as CMP is lower than the strike price.

Scenario 2: The market price of Company A moves above Rs.55/-, the buyer would exercise the option and the Scheme will have to deliver the underlying stock to settle this obligation. The Scheme will get the strike price (Rs.5500/-) plus the premium (Rs.250/-).

Benefits:

The key benefit of writing a covered call option is to generate additional income (i.e. the proceeds of the options sale or option premium) on a stock already owned by the Fund. This enhances returns on a security that, in the fund manager's view, is not expected to move in the short-term. It can also be used as used as an exit strategy for a long position.

The downside from fall in the stock price would be lower to the extent of the premium earned from the call option.

Strategies for Investment in Debt Derivatives as per derivative strategy

RBI and SEBI over the years vide various circulars have permitted Mutual Funds to participate in Interest Rate Swaps, Forward

Rate Agreements and Interest Rate Futures. These products were introduced for deepening the country's debt and money markets. The Scheme may trade in these instruments or any new instrument permitted by SEBI for the purpose of hedging and portfolio balancing or to undertake any other strategy as permitted under SEBI (MF) Regulations from time to time. SEBI has also permitted trading of interest rate derivatives through Stock Exchange.

Interest Rate Swaps (IRS)

All swaps are financial contracts, which involve exchange (swap) of a set of payments owned by one party for another set of payments owned by another party, usually through an intermediary (market maker). An IRS can be defined as a contract between two parties (Counter Parties) to exchange, on particular dates in the future, one series of cash flows, (fixed interest) for another series of cashflows (variable or floating interest) in the same currency and on the same principal for an agreed period of time. The exchange of cashflows need not occur on the same date.

It may be noted that in such hedged positions (fixed v/s floating or vice versa), both legs of the transactions have interest rate volatility as underlying.

Basic Structure of a Swap

Assume that the Scheme has a Rs. 20 crore floating rate investment linked to FBIL (Financial Benchmarks India Private Ltd) – Overnight MIBOR (Mumbai Inter Bank Offered Rate). Hence, the Scheme is currently running an interest rate risk and stands to lose if the interest rate moves down. To hedge this interest rate risk, the Scheme can enter into a 6 month MIBOR swap. Through this swap, the Scheme will receive a fixed predetermined rate (assume 7%) and pays the “benchmark rate” (MIBOR), which is fixed by the FBIL or any other agency such as Reuters, etc. This swap would effectively lock-in the rate of 7% for the next 6 months, eliminating the daily interest rate risk.

The steps will be as follows:-

- Assuming the swap is for Rs. 20 crore June 1, 2023 to December 1, 2023. The Scheme is a fixed rate receiver at 7% and the counterparty is a floating rate receiver at the overnight rate on a compounded basis (say MIBOR).
- On June 1, 2023 the Scheme and the counterparty will exchange only a contract of having entered this swap. This documentation would be as per International Swap Dealers Association (ISDA).
- On a daily basis, the benchmark rate fixed by FBIL will be tracked by them.
- On December 1, 2023 they will calculate the following:
 - The Scheme is entitled to receive interest on Rs. 20 crore at 7% for 183 days i.e. Rs. 0.7019 crore, (this amount is known at the time the swap was concluded) and will pay the compounded benchmark rate.
 - The counterparty is entitled to receive daily compounded MIBOR rate for 183 days & pay 7% fixed.
- On December 1, 2023, if the total interest on the daily overnight compounded benchmark rate is higher than Rs. 0.7019 crore, the Scheme will pay the difference to the counterparty. If the daily compounded benchmark rate is lower, then the counterparty will pay the Scheme the difference.
- Effectively the Scheme earns interest at the rate of 7% p.a. for six months without lending money for 6 months

fixed, while the counterparty pays interest @ 7% p.a. for 6 months on Rs. 20 crore, without borrowing for 6 months fixed.

The above example illustrates the benefits and risks of using derivatives for hedging and optimizing the investment portfolio. Swaps have their own drawbacks like credit risk, settlement risk. However, these risks are substantially reduced as the amount involved is interest streams and not principal.

Forward Rate Agreement (FRA)

A FRA is an agreement between two counter parties to pay or to receive the difference between an agreed fixed rate (the FRA rate) and the interest rate prevailing on a stipulated future date, based on a notional amount, for an agreed period. In short, in a FRA, interest rate is fixed now for a future period. The special feature of FRAs is that the only payment is the difference between the FRA rate and the Reference rate and hence are single settlement contracts. As in the case of IRS, notional amounts are not exchanged.

Assume that on December 1, 2023, the 30 day commercial paper (CP) rate is 7.75% and the Scheme has an investment in a CP of face value Rs. 25 crores, which is going to mature on December 30, 2023. If the fund manager's view is that the interest rates are likely to remain stable or decline after December 30, 2023, and if the fund manager, wants to re-deploy the maturity proceeds for 1 more month and does not want to take the risk of interest rates going down, he can then enter into a following forward rate agreement (FRA) say as on December 1, 2023:

He can receive 1 X 2 FRA at 7.75% (FRA rate in 1 month time for 1 months lending) on the notional amount of Rs. 25 crores, with a reference rate of 30 day CP benchmark. If the CP benchmark on the settlement date i.e. December 30, 2023 falls to 7.50%, then the Scheme receives the present value of 25 bps (7.75% - 7.50%) on the notional amount Rs. 25 crores for 1 month. The maturity proceeds are then reinvested at say 7.50% (close to the benchmark). The scheme, however, would have locked in the rate prevailing on December 1, 2021 (7.75%) as it would have received 25 basis points on Rs. 25 cr as settlement amount from FRA. Thus the fund manager can use FRA to mitigate the reinvestment risk.

In this example, if the rates move up by 25 basis points to 8% on the settlement date (December 30, 2023), the Scheme loses 25 basis points on Rs. 25 cr for 1 month, but since the reinvestment will then happen at 8%, effective returns for the Scheme is unchanged at 7.75%, which is the prevailing rate on December 1, 2022.

Interest Rate Futures (IRFs):

An Interest Rate Futures contract is “an agreement to buy or sell a debt instrument at a specified future date at a price that is fixed today.” The underlying security for Interest Rate Futures is either Government Bond, T-Bill or any other permitted benchmark security. IRFs contracts are cash settled.

Holders of the fixed income securities are exposed to the risk of rising interest rates, which in turn results in the reduction in the value of their portfolio. So in order to protect against a fall in the value of their portfolio due to falling bond prices, they can take short position in IRF contracts.

Example:

Date: 15/12/2021

Spot price of GOI Security: Rs 105.05

May Futures price of IRF Contract: Rs 105.12

On 15/12/2021 ABC bought 2000 GOI securities from spot market at Rs 105.05. He anticipates that the interest rate will rise in near future. Therefore to hedge the exposure in underlying market he may sell December 2021 Interest Rate Futures contracts at Rs 105.12

On 30/12/2021 due to increase in interest rate: Spot price of GOI Security: Rs 104.24 Futures Price of IRF Contract: Rs 104.28

Loss in underlying market will be $(104.24 - 105.05) \times 2000 = \text{Rs } 1,620$

Profit in the Futures market will be $(104.28 - 105.12) \times 2000 = \text{Rs } 1,680$.

Imperfect Hedging using IRF

IRF can be taken at portfolio level to reduce the interest rate risk of the portfolio or part of the portfolio (including one or more securities). However, in case the IRF used for hedging the interest rate risk has different underlying security(s) than the existing position being hedged, it would result in imperfect hedging ie basis risk. In order to reduce the basis risk for the portfolio hedging strategy, the correlation between the portfolio or part of the portfolio (excluding the hedged portions, if any) and the IRF would be atleast 0.9 at the time of initiation of hedge. The correlation should be calculated for a period of last 90 days. Additionally, Imperfect hedging using IRFs would be restricted upto maximum of 20% of the total assets of the scheme.

Example:

Date: 15/06/2021

Total Assets of the Scheme: Rs. 100 cr

Modified Duration of the Scheme: 4.75

August 2020 Future Price of IRF contract of 6.79 GOI 2030: 103.24

Modified Duration of 6.79 GOI 2030: 7.13

Correlation between IRF and Portfolio during last 90 days: 0.95

On 15/06/2021, the fund manager anticipates that the interest rates will rise in near future. Therefore, to hedge the exposures of the portfolio he sells 19,00,000 IRF contracts of August 2020 6.79 GOI 2030 at 103.24. Thus, the value of Futures contract is Rs. 19.62 cr, which is less than 20% of Scheme value.

On 15/07/2021, due to interest rate increase by 5 basis points, the values of securities in the portfolio reduced to Rs. 99.76 cr and the price of IRF contract for August 2020 6.79 GOI 2030 reduced to Rs. 102.88. This resulted in loss in the value of the securities of Rs. 0.24 cr (Rs. 100 cr – Rs. 99.76 cr) and profit in the futures position of Rs. 0.07 cr $\{(103.24 - 102.88) \times 19,00,000\}$.

Given that there was imperfect correlation between portfolio and the IRF (ie basis risk) as well as cap on the maximum portfolio hedging allowed as per extant regulation, the loss in the value of portfolio was not completely matched by the gain from the IRF contract. Nevertheless, the fund manager was able to protect the value of the portfolio, to an extent, using the IRF contract. The loss on proportionate basis (ie ~20% of portfolio) would have been only Rs. 0.05 cr as against gain of Rs. 0.07 cr of gain from IRF.

2. SWING PRICING

Swing pricing refers to a process for adjusting a fund's Net Asset Value (NAV) to effectively pass on transaction costs stemming from net capital activity (i.e. flows into or out of a scheme) to the investors associated with that activity. This would help to

ensure fairness of treatment to all the investors i.e. whether entering, exiting and existing investors in mutual fund schemes, particularly during market dislocation.

In terms of Clause 4.10 of SEBI Master Circular, Swing Pricing shall be applicable to all open-ended debt schemes of HDFC Mutual Fund (except HDFC Overnight Fund, HDFC Gilt Fund, HDFC NIFTY 1D Rate Liquid ETF - Growth and G-Sec ETF/ Index Funds) [hereinafter referred to as '**Applicable Schemes**'].

Mandatory Swing Pricing Framework for market dislocation

Mandatory full swing during market dislocation times shall apply as under:

1. The Swing Framework shall apply in case of scenarios related to net outflows from the schemes.
2. SEBI will determine 'market dislocation' either based on AMFI's recommendation or suo moto.
3. Once market dislocation is declared, SEBI will notify that swing pricing will be applicable for a specified period.
4. Thereafter, mandatory swing pricing will apply for Applicable Schemes which:
 - a. have 'High' or 'Very High' risk on the risk-o-meter (as of the most recent period at the time of declaration of market dislocation); **AND**
 - b. classify themselves in the cells A-III, B-II, B-III, C-I, C-II and C-III of Potential Risk Class (PRC) Matrix
5. **Swing factor** as determined by SEBI as per below matrix or as determined by the Board of the AMC, whichever is higher shall be made applicable to the above-mentioned schemes and the NAV will be adjusted for the swing factor.

SWING FACTOR			
Max Credit Risk of scheme →	Class A (CRV* ≥ 12)	Class B (CRV* ≥ 10)	Class C (CRV* < 10)
Max Interest Rate Risk (CRV* < 10) of the scheme ↓			
Class I: (Macaulay duration ≤ 1 year)	-	-	C-I : 1.5%
Class II: (Macaulay duration ≤ 3 years)	-	B-II : 1.25%	C-II : 1.75%
Class III: Any Macaulay duration	A-III : 1%	B-III : 1.5%	C-III : 2%
*CRV: Credit Risk Value Note: Scheme can levy higher swing factor, based on pre-defined parameters, redemption pressure and current portfolio of the concerned scheme subject to a cap on swing factor to be decided by AMC.			

Mandatory Swing pricing in case of 'Re-opening of the scheme after announcement of winding up'

1. There may be instances where the AMC, after making an announcement to wind up a scheme, decides to roll-back the decision to wind up the scheme. Such situations may trigger large scale redemptions. Thus, in such circumstances, as required by and in terms of AMFI Best Practice Guideline No. 135/BP/96-A/2024-25 dated October 25, 2024 ("AMFI Best Practice Circular") as amended from time to time, the AMC shall mandatorily invoke swing pricing upon re-opening any of the Applicable Schemes for subscriptions and redemptions.
2. The swing period should be higher of swing period suggested by the Board of AMC or a minimum period of 7 working days (as per AMFI Best Practice Circular), upon re-opening a scheme for subscriptions and redemptions.
3. The minimum swing factor applied would be higher of the swing factor suggested by the Board of AMC or as

per Swing factor during Normal Times suggested in the AMFI Best Practice Circular as shown below:

SWING FACTOR AS PER AMFI BEST PRACTICE CIRCULAR			
Max Credit Risk of scheme→	Class A (CRV* >=12)	Class B (CRV* >=10)	Class C (CRV* <10)
Max Interest Rate Risk (CRV <10) of the scheme ↓			
Class I: (Macaulay duration <=1 year)	A-I : 0.00%	B-I : 0.05%	C-I : 0.20%
Class II: (Macaulay duration <=3 years)	A-II : 0.05%	B-II : 0.10%	C-II : 0.40%
Class III: Any Macaulay duration	A-III : 0.10%	B-III : 0.20%	C-III : 0.60%
*CRV: Credit Risk Value			

Note: The above are floor swing amounts and AMC may set higher limits, depending on the dynamics of the concerned schemes both on liability side and on asset side.

6. **Impact on investors:** When the Swing Pricing Framework is triggered and swing factor is made applicable, both the incoming (unit holders who submit purchase/switch-in requests) and outgoing investors (unit holders who submit redemption/switch out requests) shall get NAV adjusted downwards for swing factor.

Swing pricing shall be made applicable to all unitholders at PAN level with an exemption for redemptions upto Rs. 2 lacs for each scheme.

7. **Illustration:** For e.g. When swing pricing is triggered, the NAV will be adjusted downwards as follows:

Risk-O-meter	PRC	Computed NAV (Rs.)	Swing Factor Applied	Swing NAV (Rs.)
High/Very High	A-III	15.0000	1.00%	14.8500
	B-II	15.0000	1.25%	14.8125
	B-III	15.0000	1.50%	14.7750
	C-I	15.0000	1.50%	14.7750
	C-II	15.0000	1.75%	14.7375
	C-III	15.0000	2.00%	14.7000

8. **Periodic Disclosures:** Disclosures pertaining to NAV adjusted for swing factor shall be made by the AMC in the prescribed format in the Scheme Information Document and in scheme wise Annual Reports and Abridged summary thereof and on the website in case swing pricing framework has been made applicable for a mutual fund scheme."

3. PROVISIONS ON CREATION OF SEGREGATED PORTFOLIO/SIDE POCKETING

A. CREATION OF SEGREGATED PORTFOLIO

In order to ensure fair treatment to all investors in case of a Credit Event and to deal with liquidity risk, clause 4.4 of Master Circular, as amended from time to time has allowed creation of Segregated Portfolio of debt and money market instruments by mutual fund schemes. Creation of Segregated Portfolio shall be optional and at the sole discretion of the asset management company.

The salient features of creation of Segregated Portfolio are as follows:

The term 'Segregated Portfolio' shall mean a portfolio, comprising debt or money market instrument affected by a Credit Event, that has been segregated in a mutual fund scheme.

The term 'Main Portfolio' shall mean the scheme portfolio excluding the Segregated Portfolio.

The term 'Total Portfolio' shall mean the scheme portfolio including the securities affected by the Credit Event.

The AMC at its sole option and discretion may create Segregated Portfolio in the Scheme, with the approval of the Trustees, subject to the following:

Segregated portfolio may be created, in case of a Credit Event at issuer level as under:

- Downgrade in credit rating by a SEBI registered Credit Rating Agency (CRA) as under:
 - Downgrade of a debt or money market instrument to 'below investment grade', or
 - Subsequent downgrades of the said instruments from 'below investment grade', or
 - Similar such downgrades of a loan rating; or
- Trigger of a pre-specified event for loss absorption in case of debt instruments with special features such as subordination to equity (absorption of losses before equity capital) and/or conversion to equity. (Not applicable in case of HDFC Liquid Fund and HDFC Money Market Fund.
- Any other scenario as permitted by SEBI from time to time.

In case of difference in rating by multiple CRAs, the most conservative rating shall be considered. Creation of Segregated Portfolio shall be based on issuer level Credit Events as detailed above and implemented at the ISIN level.

Further, Segregated Portfolio may be created of unrated debt or money market instruments of an issuer that does not have any outstanding rated debt or money market instruments but only in case of actual default of either the interest or principal amount and subject to guidelines prescribed by SEBI in this behalf from time to time.

It may be noted that even for the same security (ISIN level) held by multiple Schemes, the AMC, in its sole discretion, may decide to segregate the portfolio only for select Schemes.

In case of debt instruments with special features mentioned above, if the instrument is to be written off or converted to equity pursuant to any proposal, the date of said proposal may be treated as the Trigger Date. However, if the said instruments are written off or converted to equity without proposal, the date of write off or conversion of debt instrument to equity may be treated as the Trigger Date.

It may be noted that notwithstanding the above, segregation of portfolio may be effected in such events and in such manner as may be permitted by SEBI whether by changes to circulars or guidelines in this behalf or by way of clarifications issued thereto from time to time or in any other manner.

Process for creation of Segregated Portfolio:

- In case the AMC decides on creation of Segregated Portfolio on the day of a Credit Event/Trigger Date in case of debt instruments with special features it shall:
 - seek approval of trustees prior to creation of the Segregated Portfolio.
 - immediately issue a press release disclosing its intention to segregate such debt and money market instrument and its impact on the investors and also disclose that the segregation shall be subject to trustee approval. Additionally, the said press release shall be prominently disclosed on the website of HDFC Mutual Fund ("the Fund").

- iii. ensure that till the time the trustee approval is received, which in no case shall exceed 1 business day from the day of Credit Event, the subscription and redemption in the scheme(s) shall be suspended for processing with respect to creation of units and payment on redemptions.
- b) Process post receipt of trustee approval by the AMC for creation of Segregated Portfolio in the Scheme(s):
 - i. Segregated Portfolio shall be effective from the day of Credit Event
 - ii. The AMC shall issue a press release immediately with all relevant information pertaining to the Segregated Portfolio. The said information shall also be submitted to SEBI.
 - iii. An e-mail or SMS shall be sent to all unit holders of the concerned scheme(s).
 - iv. The NAV of both segregated and Main Portfolio of the Scheme(s) shall be disclosed from the day of the Credit Event.
 - v. All existing investors in the scheme(s) as on the day of the Credit Event shall be allotted equal number of units in the Segregated Portfolio as held in the Main Portfolio.
 - vi. No redemption and subscription shall be allowed in the Segregated Portfolio. However, in order to facilitate exit to unit holders in Segregated Portfolio, the AMC shall enable listing of units of Segregated Portfolio on the recognized stock exchange within 10 working days of creation of Segregated Portfolio and also enable transfer of such units held in demat mode on receipt of transfer requests.
- c) If the trustees do not approve the proposal to Segregate Portfolio, the AMC shall issue a press release immediately informing investors of the same.

Valuation and processing of subscriptions and redemptions

- a) Notwithstanding the decision to segregate the debt and money market instrument, the valuation shall take into account the Credit Event and the portfolio shall be valued based on the principles of fair valuation (i.e. realizable value of the assets) in terms of the relevant provisions of SEBI (Mutual Funds) Regulations, 1996 and Circular(s) issued thereunder.
- b) All subscription and redemption requests for which NAV of the day of Credit Event or subsequent day is applicable will be processed as per the existing circular on applicability of NAV as under:
 - i. Upon trustees' approval to create a Segregated Portfolio:-
 - Investors redeeming their units will get redemption proceeds based on the NAV of Main Portfolio and will continue to hold the units of Segregated Portfolio.
 - Investors subscribing to the scheme(s) will be allotted units only in the Main Portfolio based on its NAV.
 - ii. In case trustees do not approve the proposal of Segregated Portfolio, subscription and redemption applications will be processed based on the NAV of total portfolio.

TER for the Segregated Portfolio

- a) The AMC will not charge investment and advisory fees on Segregated Portfolio. However, TER (excluding the investment and advisory fees) may be charged, on a pro-rata basis only upon recovery of the investments in Segregated Portfolio.
- b) The TER so levied shall not exceed the simple average of such expenses (excluding the investment and advisory fees) charged on daily basis on the Main Portfolio (in % terms) of the scheme(s) during the period for which Segregated Portfolio was in existence.
- c) The legal charges related to recovery of the investments of the Segregated Portfolio may be charged to the Segregated Portfolio in proportion to the amount of recovery. However, the same shall be within the maximum TER limit as applicable to the Main Portfolio. The legal charges in excess of the TER limits, if any, shall be borne by The AMC.
- d) The costs related to Segregated Portfolio shall in no case be charged to the Main Portfolio.

Periodic Disclosures:

In order to enable the existing as well as the prospective investors to take informed decision, inter alia the following disclosures shall be made:

- a) A statement of holding indicating the units held by the investors in the Segregated Portfolio along with the NAV of both Segregated Portfolio and Main Portfolio as on the day of the Credit Event shall be communicated to the investors within 5 working days of creation of the Segregated Portfolio.
- b) Adequate disclosure of the Segregated Portfolio shall appear in the scheme related documents, in monthly and half-yearly portfolio disclosures and in the annual report of the Scheme.
- c) Net Asset Value (NAV) of Segregated Portfolio, if any, shall be declared on daily basis.
- d) Investors of the Segregated Portfolio shall be duly informed of the recovery proceedings of the investments of the Segregated Portfolio. Status update may be provided to the investors at the time of recovery and also at the time of writing-off of the segregated securities.

Risk factors associated with Creation of Segregated Portfolio

- a) Investor holding units of Segregated Portfolio may not be able to liquidate their holding till the time recovery of money from the issuer.
- b) Security comprising Segregated Portfolio may not realise any value.
- c) Listing of units of Segregated Portfolio on recognised stock exchange does not necessarily guarantee their liquidity. There may not be active trading of units in the stock market. Further trading price of units on the stock market may be significantly lower than the prevailing NAV.

Given below is an **illustration explaining the segregation of portfolio:**

Scheme Portfolio before the Credit Event

Assets	Amount (Rs.)
Debt A	50,000
Debt B	50,000
Debt C	50,000
Net Assets	1,50,000

Assuming number of units outstanding is 10,000 units

NAV = Net Assets/No of units = 150,000/10,000= Rs.15/-

There is a Credit Event in one of the Security (Debt C). Due to Credit Event the Debt C is valued at Rs. 25,000/- in line with extant SEBI regulations on valuation of such securities. AMC decides to segregate portfolio by segregating exposure in Debt C. The resultant split will be as follows:

Scheme Main Portfolio

Assets	Amount (Rs.)
Debt A	50,000
Debt B	50,000
Net Assets	100,000

NAV (Main Portfolio) = 100,000/10,000= Rs.10/-.

Scheme Segregated Portfolio

Assets	Amount (Rs.)
Debt C	25,000
Net Assets	25,000

NAV (Segregated Portfolio) = Rs. 25,000/10,000= Rs.2.5/-

Investor (having 1000 units) will see his scheme holdings as follows:

Particulars	Before Credit Event	After Credit Event	
		Main Portfolio	Segregated Portfolio
Market Value of Units (Rs.)	15,000	10,000	2500
No of Units	1000	1000	1000
NAV per unit (Rs.)	15.00	10.00	2.50

Monitoring by Trustees

In order to ensure timely recovery of investments of a Segregated Portfolio, if any, the trustees would continuously monitor the progress and take suitable action as they deem appropriate. Trustees shall ensure that the AMC puts in sincere efforts to recover the investments of the segregated portfolio and that upon recovery of money, whether partial or full, it shall be immediately distributed to the investors in proportion to their holding in the segregated portfolio. Any recovery of amount of the security in the segregated portfolio even after the write off shall be distributed to the investors of the segregated portfolio.

In order to avoid mis-use of Segregated Portfolio, Trustees shall ensure that a mechanism is put in place which will negatively impact the performance incentives of Fund Managers, Chief Investment Officers (CIOs), etc. involved in the investment process of securities under the Segregated Portfolio, mirroring the existing mechanism for performance incentives of the AMC, including claw back of such amount to the Segregated Portfolio of the scheme.

4. SHORT SELLING/STOCK LENDING

a) Short Selling by the Mutual Fund

Short-selling is the sale of shares which are not owned by the seller at the time of trade. Instead, he borrows it from someone who already owns it. Later, the short seller buys back the stock he shorted and returns the stock to close out the loan. If the price of the stock corrects, Short seller can buy the stock back for less than he received for selling it and earn profit (the difference between higher short sale price and the

lower purchase price). If the price of stock appreciates, short selling results in loss. Thus, Short positions carry the risk of losing money and these losses may grow theoretically unlimited if the price increases without limit and shall result into major losses in the portfolio.

The Mutual Fund may engage in short selling of securities in accordance with the framework relating to short selling and securities lending and borrowing specified by SEBI.

b) Stock Lending By The Mutual Fund

Subject to the SEBI (MF) Regulations, Securities Lending Scheme, 1997 and in accordance with clause 12.11 of Master Circular, as may be amended from time to time, the Mutual Fund may, if the Trustee permits, engage in Stock Lending. Stock Lending means the lending of stock to another person or entity for a fixed period of time, at a negotiated compensation in order to enhance returns of the portfolio. The securities lent will be returned by the borrower on the expiry of the stipulated period.

The exposure limits with regard to stock lending for various Schemes, shall be as specified in the respective Scheme Information Documents (SID) from time to time.

The Mutual Fund may not be able to sell such lent out securities and this can lead to temporary illiquidity.

Please refer to respective SID for details.

H. TRANSACTION CHARGES:

No transaction charges shall be deducted from the subscription amount for transactions/applications received through the distributors (i.e. in Regular Plan).

STAMP DUTY ON ALLOTMENT/TRANSFER OF UNITS*

Mutual fund units issued against Purchase transactions (whether through lump-sum investments or SIP or STP or switch-ins or Dividend reinvestment under IDCW Option) would be subject to levy of stamp duty @ 0.005% of the amount invested. Stamp duty shall also be applicable on the transfer of mutual fund units, including but not limited to transfers between demat accounts, off-market transfers, and other similar transactions. The applicable rate for such transfers is 0.015%, which shall be levied and collected by the respective Depositories in accordance with the Indian Stamp Act and applicable rules. The rate and levy of stamp duty may vary as amended from time to time.

* Pursuant to Notification No. S.O. 4419(E) dated December 10, 2019 issued by Department of Revenue, Ministry of Finance, Government of India, read with Part I of Chapter IV of Notification dated February 21, 2019 issued by Legislative Department, Ministry of Law and Justice, Government of India on the Finance Act, 2019, and subsequent Notifications Nos. S.O. 115(E) dated January 08, 2020 and S.O. 1226 (E) dated March 30, 2020, issued by Department of Revenue, Ministry of Finance, Government of India.

The stamp duty shall be deducted from the net investment amount, i.e., the gross investment amount less any other applicable deductions. Units will be created only for the balance amount, i.e., the net investment amount as reduced by the stamp duty. The stamp duty shall be computed at the rate of 0.005% using the inclusive method, as applicable to mutual fund units issued in non-demat folios (Statement of Account mode), as illustrated below:

For instance: If the investment amount is Rs. 100,000, the stamp duty will be calculated as follows: (Investment Amount * 0.005) = Rs. 5. If the applicable Net Asset Value (NAV) is Rs. 10 per unit, then units allotted will be calculated as follows: (Investment Amount - Stamp Duty)/ Applicable NAV = 9,999.50 units.

X. DISCLOSURE AND REPORTS BY THE FUND:

1) Account Statements/Consolidated Account Statement

1. An allotment confirmation specifying the units allotted shall be sent by way of email and/or SMS within 5 working days of the closure of the NFO Period/date of receipt of valid request during continuous offer period to the Unit holder's registered e-mail address and/or mobile number (whether units are held in demat mode or in account statement form).
2. The holding(s) of the beneficiary account holder for units held in demat mode will be shown in the statement issued by respective Depository Participants (DPs) periodically.
3. A Consolidated Account Statement (CAS) detailing all the transactions across all mutual funds and holdings at the end of the month and securities held in dematerialized form across demat accounts, if applicable shall be sent to the Unit holders in whose folio(s) transaction(s) have taken place during the month on registered email address on or before 12th of the succeeding month and by 15th of the succeeding month for those who have opted for physical copy.
4. Half-yearly CAS shall be issued to all investors providing the prescribed details across all schemes of mutual funds and securities held in dematerialized form across demat accounts, if applicable, at the end of every six months (i.e. September/March) on or before 18th day of succeeding month on registered email address and 21st day of succeeding month through physical copy for those who do not have registered email addresses.
5. Half yearly CAS will not be sent to those Unit holders who do not have any holdings in the schemes of mutual fund and where no commission against their investment has been paid to distributors, during the concerned half-year period.

7. The periodical CAS are issued on the basis of Permanent Account Number (PAN). Thus, CAS shall not be received by the Unit holders for the folios not updated with PAN. Unit holders are therefore requested to ensure that the folios are updated with their PAN/KYC details.
8. For folios of the Fund not included in the CAS (due to non-availability of PAN), the AMC shall issue the necessary account statements within prescribed timeline by mail or email.
9. In the event the account has more than one registered holder, the first named Unit holder shall receive the CAS/account statement.
10. The Unit holder may request for a physical account statement without any charges by writing to/calling the

AMC/ISC/RTA. The Mutual Fund/AMC shall despatch an account statement within 5 working days from the date of the receipt of request from the Unit holder.

Pursuant to, clauses 14.4.3 and 11.3 of Master Circular, the following additional disclosures will be provided in the CAS issued to the investors:

- Each CAS/SCAS shall also provide the total purchase value/cost of investment in each scheme. Further, whenever distributable surplus is distributed, a clear segregation between income distribution (appreciation on NAV) and capital distribution (Equalization Reserve) shall be suitably disclosed.
- CAS/SCAS issued for the half-year (ended September/ March) shall also provide (i) the amount of actual commission paid by the AMC/Fund to distributors (in absolute terms) during the half-year period, and (ii) the scheme's average Total Expense Ratio (in percentage terms) along with the break up between Investment and Advisory fees, Commission paid to the distributor and Other expenses for the half-year period for the scheme's applicable Option (regular or direct or both) where the concerned investor has actually invested in.
- The term 'commission' refers to all direct monetary payments and other payments made in the form of gifts/rewards, trips, event sponsorships etc. by the AMC/Fund to distributors. The commission disclosed is gross commission and does not exclude costs incurred by distributors such as Goods & Service Tax (wherever applicable, as per existing rates), operating expenses, etc.

Further information pertaining to SCAS sent by Depositories:

- CAS shall be dispatched by the Depositories/MFs as per the rules specified by SEBI from time to time.

2) Half Yearly Disclosures/Portfolio Disclosures/Financial Results

The AMC will disclose portfolio (along with ISIN and other prescribed details) of the Scheme, in the prescribed format, on fortnightly basis on its website viz. www.hdfcfund.com and on the website of Association of Mutual Funds in India (AMFI) viz. www.amfiindia.com within 5 days of every fortnight.

Monthly and Half yearly Disclosures

The AMC will disclose portfolio (along with ISIN and other prescribed details) of the Scheme, in the prescribed format, as on the last day of the month/half-year i.e. March 31 and September 30, on its website viz. www.hdfcfund.com and on the website of Association of Mutual Funds in India (AMFI) viz. www.amfiindia.com within 10 days from the close of each month/half-year respectively. In case of unitholders whose e-mail addresses are registered, the Mutual Fund/AMC will send via email both the monthly and half-yearly statement of scheme portfolio within 10 days from the close of each month/half-year respectively.
